**Third well confirms light oil potential in Carcará area
at Santos Basin pre-salt**

Rio de Janeiro, September 28, 2015 – Petrobras informs that the drilling of the third well in Carcará area (Block BM-S-8), located at Santos Basin's ultra-deep waters, confirmed the light oil potential in pre-salt's reservoirs.

The well 3-SPS-104DA (Petrobras nomenclature), informally known as Carcará Northwest, is located in the area of Discovery Evaluation Plan of the discovery well 4-SPS-86B (Carcará). The new well is located at 5.5 km northwest of discovery well, at water depths of 2,024 and about 226 km from the coast of the state of São Paulo.

This well has proved the presence of good quality oil (31^º API), in carbonate reservoirs of excellent quality, located right below the salt layer, at 5,870 meters depth. The well found a significant oil column of 318 meters, and it has not attained the oil/water contact from this accumulation.

The pressure data show it is in the same accumulation of the two other wells previously drilled in the area, confirming the westward extension of the discovery of the 4-SPS-86B well.

Continuing the scheduled operations under the Discovery Evaluation Plan, in the coming days will begin the evaluation of the pre-salt reservoirs' productivity through formation tests in well 3-SPS-105, whose drilling was recently completed.

The Discovery Evaluation Plan of Carcará approved by Brazil's Nacional Petroleum, Natural Gas and Biofuels Agency (ANP) is expected to finish by March 2018.

Petrobras is the operator of the consortium (66%), in partnership with Petrogal Brasil (14%), Barra Energia do Brasil Petróleo e Gás (10%) and Queiroz Galvão Exploração e Produção S.A. (10%).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
