(I.R.S. Employer Identification No.)

660 White Plains Road
Tarrytown, New York 10591
(Address of principal executive offices) (Zip
Code)

Securities registered pursuant to
Section 12(b) of the Act: (914) 524-6800
(Registrant's telephone number, including
area code)

Title of each class:

Name of each exchange on which
registered:

Common Stock, par value \$.01 per
share

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities
Act. Yes No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the
Act. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of
the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant
was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if
any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T

Edgar Filing: Prestige Brands Holdings, Inc. - Form 10-K

(§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold as of the last business day of the Registrant's most recently completed second fiscal quarter ended September 30, 2014 was \$1,684.6 million.

As of May 1, 2015, the Registrant had 52,296,021 shares of common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's Definitive Proxy Statement for the 2015 Annual Meeting of Stockholders (the "2015 Proxy Statement") are incorporated by reference into Part III of this Annual Report on Form 10-K to the extent described herein.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (the “PSLRA”), including, without limitation, information within Management’s Discussion and Analysis of Financial Condition and Results of Operations. The following cautionary statements are being made pursuant to the provisions of the PSLRA and with the intention of obtaining the benefits of the “safe harbor” provisions of the PSLRA. Although we believe that our expectations are based on reasonable assumptions, actual results may differ materially from those in the forward-looking statements.

Forward-looking statements speak only as of the date of this Annual Report on Form 10-K. Except as required under federal securities laws and the rules and regulations of the SEC, we do not intend to update any forward-looking statements to reflect events or circumstances arising after the date of this Annual Report on Form 10-K, whether as a result of new information, future events or otherwise. As a result of these risks and uncertainties, readers are cautioned not to place undue reliance on forward-looking statements included in this Annual Report on Form 10-K or that may be made elsewhere from time to time by, or on behalf of, us. All forward-looking statements attributable to us are expressly qualified by these cautionary statements.

These forward-looking statements generally can be identified by the use of words or phrases such as "believe," "anticipate," "expect," "estimate," "plan," "project," "intend," "strategy," "goal," "objective," "future," "seek," "may," "might," "should," "would," "will," "will be," or other similar words and phrases. Forward-looking statements are based on current expectations and assumptions that are subject to a number of risks and uncertainties that could cause actual results to differ materially from those anticipated, including, without limitation:

- The high level of competition in our industry and markets;
- Our ability to increase organic growth via new product introductions or line extensions;
- Our ability to invest successfully in research and development;
- Our dependence on a limited number of customers for a large portion of our sales;
- Changes in inventory management practices by retailers;
 - Our ability to grow our international sales;
- General economic conditions affecting sales of our products and their respective markets;
- Business, regulatory and other conditions affecting retailers;
- Changing consumer trends, additional store brand competition or other pricing pressures which may cause us to lower our prices;
- Our dependence on third-party manufacturers to produce the products we sell;
- Price increases for raw materials, labor, energy and transportation costs and for other input costs;
- Disruptions in our distribution center;
- Acquisitions, dispositions or other strategic transactions diverting managerial resources, the incurrence of additional liabilities or integration problems associated with such transactions;
- Actions of government agencies in connection with our products or regulatory matters governing our industry;
- Product liability claims, product recalls and related negative publicity;
- Our ability to protect our intellectual property rights;
- Our dependence on third parties for intellectual property relating to some of the products we sell;
- Our assets being comprised virtually entirely of goodwill and intangibles and possible changes in their value based on adverse operating results;
- Our dependence on key personnel and the transition to a new CEO and CFO;
- Shortages of supply of sourced goods or interruptions in the manufacturing of our products;

Edgar Filing: Prestige Brands Holdings, Inc. - Form 10-K

• The costs associated with any claims in litigation or arbitration and any adverse judgments rendered in such litigation or arbitration;

• Our level of indebtedness, and possible inability to service our debt;

• Our ability to obtain additional financing; and

• The restrictions imposed by our financing agreements on our operations.

For more information, see “Risk Factors” contained in Part I Item 1A of this Annual Report on Form 10-K.

ITEM 1. BUSINESS

Overview

Unless otherwise indicated by the context, all references in this Annual Report on Form 10-K to “we,” “us,” “our,” the “Company” or “Prestige” refer to Prestige Brands Holdings, Inc. and our subsidiaries. Similarly, reference to a year (e.g., “2015”) refers to our fiscal year ended March 31 of that year.

We are engaged in the marketing, sales and distribution of well-recognized, brand name, over-the-counter (“OTC”) healthcare and household cleaning products to mass merchandisers, drug stores, supermarkets, and club, convenience, and dollar stores in North America (the United States and Canada) and in Australia and certain other international markets. We use the strength of our brands, our established retail distribution network, a low-cost operating model and our experienced management team to our competitive advantage. Our ultimate success is dependent on several factors, including our ability to:

- Develop and execute effective sales, advertising and marketing programs;
- Integrate acquired brands;
- Grow our existing product lines;
- Develop innovative new products;
- Respond to the technological advances and product introductions of our competitors; and
- Continue to grow our presence in the United States and international markets.

We engaged in strategic mergers and acquisitions over the last three years as follows:

2015 Acquisitions

Acquisition of Insight Pharmaceuticals

On September 3, 2014, the Company completed the acquisition of Insight Pharmaceuticals Corporation (“Insight”), a marketer and distributor of feminine care and other OTC healthcare products, for \$753.2 million in cash. The closing followed the Federal Trade Commission’s (“FTC”) approval of the acquisition and was finalized pursuant to the terms of the purchase agreement announced on April 25, 2014. Pursuant to the Insight purchase agreement, the Company acquired 27 OTC brands sold in North America (including related trademarks, contracts and inventory), which extended the Company's portfolio of OTC brands to include a leading feminine care platform in the United States and Canada anchored by Monistat, the leading North American brand in OTC yeast infection treatment. The acquisition also added brands to the Company's cough & cold, pain relief, ear care and dermatological platforms. In connection with the FTC's approval of the Insight acquisition, we sold one of the competing brands that we acquired from Insight on the same day as the Insight closing. Insight is primarily included in our North America OTC Healthcare segment. This acquisition was accounted for in accordance with the Business Combinations topic of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

Acquisition of Hydralyte

On April 30, 2014, we completed the acquisition of Hydralyte in Australia and New Zealand from The Hydration Pharmaceuticals Trust of Victoria, Australia. Hydralyte is the leading OTC brand in oral rehydration in Australia, and is marketed and sold through our Care Pharmaceuticals Pty Ltd. subsidiary. Hydralyte is available in pharmacies in multiple forms and is indicated for oral rehydration following diarrhea, vomiting, fever, heat and other ailments. We funded this acquisition with a combination of cash on the balance sheet and our existing credit facility. This acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

2014 Acquisition

Acquisition of Care Pharmaceuticals Pty Ltd.

On July 1, 2013, we completed the acquisition of Care Pharmaceuticals Pty Ltd. ("Care Pharma"), which included brands that complemented our OTC Healthcare portfolio and was funded through a combination of our existing senior secured credit facility and cash on hand. The Care Pharma brands include the Fess line of cold/allergy and saline nasal health products, which is the leading saline spray for both adults and children in Australia. Other key brands include Painstop analgesic, Rectogesic for rectal discomfort, and the Fab line of nutritional supplements. Care Pharma also carries a line of brands for children including Little Allergies, Little Eyes, and Little Coughs. This acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

2013 Divestiture

In 2013, we divested the Phazyme gas treatment brand, which was a non-core OTC brand that we acquired from GlaxoSmithKline plc ("GSK") in January 2012. We received \$21.7 million from the divestiture on October 31, 2012 and the remaining \$0.6 million on January 4, 2013. The proceeds were used to repay debt. No significant gain or loss was recorded as a result of the sale.

Major Brands

Our major brands, set forth in the table below, have strong levels of consumer awareness and retail distribution across all major channels. These brands accounted for approximately 86.8%, 86.3%, and 83.6% of our net revenues for 2015, 2014, and 2013, respectively, during the period the respective brands were owned by us.

Major Brands	Market Position(1)	Market Segment(2)	Market Share(3) (%)	ACV(4) (%)
North American and International Over-the-Counter Healthcare:				
Chloraseptic®	#1	Sore Throat Liquids/Lozenges	47.4	94.8

Nix®	#2	Lice/Parasite Treatments	13.3	79.8
Household Cleaning:				
Chore Boy®	#2	Soap Free Metal Scrubbers	8.6	27.1
Comet®	#1	Abrasive Tub and Tile Cleaner	37.9	90.2
Spic and Span®	#8	Dilutable All Purpose Cleaner	1.4	46.3

We have prepared the information included in this Annual Report on Form 10-K with regard to the market share and ranking for our brands based in part on data generated by Information Resources, Inc., an independent market research firm (“IRI”). IRI reports total U.S. Multi-Outlet retail sales data in the food, drug, mass merchandise (1) markets (including Walmart), dollar stores (Dollar General, Family Dollar, Fred's), selected warehouse clubs (BJ's and Sam's) and DeCA military commissaries, representing approximately 90% of Prestige Brands' categories for retail sales.

(2) “Market segment” is defined by us and is either a standard IRI category or a segment within a standard IRI category and is based on our product offerings and the categories in which we compete.

(3) “Market share” is based on sales dollars in the United States, as calculated by IRI for the 52 weeks ended March 22, 2015.

4

“ACV” refers to the All Commodity Volume Food Drug Mass Index, as calculated by IRI for the 52 weeks ended March 22, 2015. ACV measures the ratio of the weighted sales volume of stores that sell a particular product to all the stores that sell products in that market segment generally. For example, if a product is sold by 50% of the stores that sell products in that market segment, but those stores account for 85% of the sales volume in that market segment, that product would have an ACV of 85%. We believe that a high ACV evidences a product’s attractiveness to consumers, as major national and regional retailers will carry products that are attractive to their customers. Lower ACV measures would indicate that a product is not as available to consumers because the major retailers generally would not carry products for which consumer demand is not as high. For these reasons, we believe that ACV is an important measure for investors to gauge consumer awareness of the Company’s product offerings and of the importance of those products to major retailers.

Gaviscon is distributed by us in Canada only and the market information was generated by Nielsen, an independent third party market research firm for the period ending February 7, 2015. Figures represent national, all channel retail sales data in the food, drug, mass merchandise (e.g. Walmart), general merchandise (e.g. Dollarama), and warehouse club stores (e.g. Costco). Data reported for warehouse club and general merchandise is calculated based on home scan panel data, and not direct point of sale data.

The Care Pharma brands include the Fess line of cold/allergy and saline nasal health products, which is the leading saline spray for both adults and children in Australia, and Hydralyte, which is the leading OTC brand in oral rehydration in Australia. Market information was generated by IMS Australian Proprietary Index, an independent market research firm, for the period ending March 31, 2015.

Our products are sold through multiple channels, including mass merchandisers and drug, grocery, dollar, convenience, and club stores, which reduces our exposure to any single distribution channel.

We have developed our brand portfolio through the acquisition of strong and well-recognized brands from larger consumer products and pharmaceutical companies, as well as growth brands from smaller private companies. While the brands we have purchased from larger consumer products and pharmaceutical companies have long histories of support and brand development, we believe that at the time we acquired them they were considered “non-core” by their previous owners. Consequently, these brands did not benefit from the focus of senior level personnel or strong marketing support. We also believe that the brands we have purchased from smaller private companies were constrained by the limited financial resources of their prior owners. After adding a core brand to our portfolio, we seek to increase its sales, market share and distribution in both new and existing channels through our established retail distribution network. We pursue this growth through increased advertising and promotion, new sales and marketing strategies, improved packaging and formulations, and innovative new products. Our business, business model, competitive strengths and growth strategy face various risks that are described in “Risk Factors” in Part I, Item 1A of this Annual Report on Form 10-K.

Competitive Strengths

Diversified Portfolio of Well-Recognized and Established Consumer Brands

We own and market well-recognized consumer brands, some of which were established over 60 years ago. Our diverse portfolio of products provides us with multiple sources of growth and minimizes our reliance on any one product or category. We provide significant marketing support to our core brands that is designed to enhance our sales growth and our long-term profitability. The markets in which we sell our products, however, are highly competitive and include numerous national and global manufacturers, distributors, marketers and retailers. Many of these competitors have greater research and development and financial resources than us and may be able to spend more aggressively on sales, advertising and marketing programs and research and development, which may have an adverse effect on our competitive position.

Strong Competitor in Attractive Categories

We compete in product categories that address recurring consumer needs. We believe we are well positioned in these categories due to the long history and consumer awareness of our brands, our strong market positions, and our low-cost operating model. However, a significant increase in the number of product introductions or increased advertising, marketing and trade support by our competitors in these markets could have a material adverse effect on our results from operations.

Proven Ability to Develop and Introduce New Products

We focus our marketing and product development efforts on the identification of under-served consumer needs, the design of products that directly address those needs, and the ability to extend our highly recognizable brand names to other products. As an example of this philosophy, in 2015 we launched Dramamine Naturals, Compound W Freeze Off Advanced, Fiber Choice Immunity Support and Fiber Choice Metabolism and Energy. In 2014, we launched Goody's Headache Relief Shot, Efferdent Fresh Guard and Beano Plus Dairy Defense. In 2013, we launched PediaCare Nighttime Multi-Symptom Cold reliever, Little

Remedies Soothing Syrup, Luden's Moisture Drops, Chloraseptic Warming Spray for sore throat, BC Powder in a new cherry flavor and Fiber Choice Fruity Bites fiber gummies. Although line extensions and new product introductions are important to the overall growth of a brand, our efforts may reduce sales of existing products within that brand. In addition, certain of our product introductions may not be successful.

Efficient Operating Model

To gain operating efficiencies, we oversee the production planning and quality control aspects of the manufacturing, warehousing and distribution of our products, while we outsource the operating elements of these functions to well-established third-party providers. This approach allows us to benefit from their core competencies and maintain a highly variable cost structure, with low overhead, limited working capital requirements, and minimal investment in capital expenditures, as evidenced by the following:

	Gross Margin %	G&A % To Total Revenues	CapEx % To Total Revenues
2015	56.8	11.4	0.9
2014	56.2	8.1	0.5
2013	55.4	8.3	1.7

In 2015, our gross margin percentage was comparable to the prior year with a slight increase of 60 basis points from the prior year. In 2014, our gross margin percentage was comparable over the prior year with a slight increase of 80 basis points over 2013. General and administrative costs, as a percentage of total revenues, increased 330 basis points in 2015 versus 2014, primarily as a result of costs associated with the acquisition of the Hydralyte brand and Insight. General and administrative costs, as a percentage of total revenues, decreased 20 basis points in 2014 versus 2013. In 2015, our capital expenditures remained consistent as a percentage of revenues with an increase of 40 basis points versus 2014.

Management Team with Proven Ability to Acquire, Integrate and Grow Brands

Our business has grown through acquisition, integration and expansion of the many brands we have purchased. Our management team has significant experience in consumer product marketing, sales, legal and regulatory compliance, product development and customer service. Unlike many larger consumer products companies, which we believe often entrust their smaller brands to successive junior employees, we dedicate experienced managers to specific brands. We seek more experienced personnel to bear the substantial responsibility of brand management and to effectuate our growth strategy. These managers nurture the brands to allow the brands to grow and evolve.

Growth Strategy

In order to continue to enhance our brands and drive growth, we focus our growth strategy on our core competencies:

Effective Marketing and Advertising;

Sales Excellence;

Extraordinary Customer Service; and

Innovation and Product Development.

We execute this strategy through the following efforts:

Investments in Advertising and Promotion

We invest in advertising and promotion to drive the growth of our core brands. Our marketing strategy is focused primarily on consumer-oriented programs that include targeted coupon programs, media, in-store and digital advertising. While the absolute level of marketing expenditures differs by brand and category, we have often increased the amount of investment in our brands after acquiring them. Advertising and promotion spend on our top five selling brands was approximately 13.4% of the revenues associated with these brands in 2015. In 2015 and 2014, advertising and promotional spend on the core brands acquired from GSK, which are BC, Goody's, Beano, Gaviscon and Debrox, was approximately 16.9% and 21.2%, respectively, of the revenues associated with these brands. In 2015, advertising and promotional spend for the newly acquired Hydralyte brand and Insight brands was approximately 20.6% of revenues associated with those brands. Given the competition in our industry, there is a risk that our marketing efforts may not result in increased sales and profitability. Additionally, we can offer no assurance that we can maintain any increased sales and profitability levels once attained.

Growing our Categories and Market Share with Innovative New Products

One of our strategies is to broaden the categories in which we participate and increase our share within those categories through ongoing product innovation. In 2015, we launched Dramamine Naturals, Compound W Freeze Off Advanced, Fiber Choice Immunity Support and Fiber Choice Metabolism and Energy. In 2014, we launched Goody's Headache Relief Shot, PediaCare Single Dose Fever Packet, Efferdent Fresh Guard and Beano Plus Dairy Defense. In 2013, we launched PediaCare Nighttime Multi-Symptom Cold reliever, Little Remedies Soothing Syrup, Luden's Moisture Drops, Chloraseptic Warming Spray for sore throat, BC Powder in a new cherry flavor and Fiber Choice Fruity Bites fiber gummies. While there is always a risk that sales of existing products may be reduced by new product introductions, our goal is to grow the overall sales of our brands.

Increasing Distribution Across Multiple Channels

Our broad distribution base attempts to ensure that our products are well positioned across all available channels and that we are able to participate in changing consumer retail trends. In an effort to ensure continued sales growth, we have altered our focus by expanding our reliance on direct sales while reducing our reliance on brokers. We believe this philosophy allows us to better:

- Know our customer;
- Service our customer; and
- Support our customer.

While we make great efforts to both maintain our customer base and grow in new markets, there is a risk that we may not be able to maintain or enhance our relationships across distribution channels, which could adversely impact our business, and results from operations.

Growing Our International Business

International sales beyond the borders of North America represented 8.9%, 5.4% and 2.7% of revenues in 2015, 2014, and 2013, respectively, and international sales have increased as a result of the acquisition of Care Pharma in 2014 and the acquisition of Hydralyte in 2015. International sales beyond the borders of North America also grew 93.0%

and 93.2% in 2015 and 2014, respectively. We have designed and developed both products and packaging for specific international markets and expect that our international revenues will continue to grow. In addition to Clear Eyes, Murine and Chloraseptic, which are currently sold internationally, we have licensed to an international consumer packaged goods company (the "licensee") the right to use the Comet, Spic and Span and Chlorinol® trademarks in the commercial/institutional/industrial business throughout the world (excluding Russia and specified Eastern European countries). We have also licensed to the licensee the Comet and Chlorinol brands in Russia and specified Eastern European countries. These agreements were amended in December 2014 to allow the licensee to obtain the trademarks in certain specified Eastern European countries for \$10.0 million. The amended agreement expires December 31, 2025, and includes an option for the licensee to buy out the remaining commercial/institutional/industrial business at any time after July 1, 2016 for an exercise price of \$10.0 million.

7

A number of our other brands have previously been sold internationally and we seek to expand the number of brands sold through our existing international distribution network and continue to identify additional distribution partners for further expansion into other international markets.

Pursuing Strategic Acquisitions

Acquisitions are an important part of our overall strategy for growing revenue. We have a history of growth through acquisition (see "Our History and Accomplishments" below). In 2015, we acquired Insight, including a leading feminine care platform in the United States and Canada anchored by Monistat, the leading North American brand in OTC yeast infection treatment. The acquisition also added brands to the Company's cough & cold, pain relief, ear care and dermatological platforms. Additionally, in 2015, we acquired the Hydralyte brand in Australia and New Zealand. Hydralyte is the leading OTC brand in oral rehydration in Australia. In 2014, we acquired Care Pharma, including the Fess line of cold/allergy and saline nasal health products. Other key brands acquired from Care Pharma include Painstop analgesic, Rectogesic for rectal discomfort, and the Fab line of nutritional supplements. Care Pharma also includes a line of brands for children including Little Allergies, Little Eyes, and Little Coughs. While we believe that there will continue to be a pipeline of acquisition candidates for us to investigate, strategic fit and relative cost are of the utmost importance in our decision to pursue such opportunities. We believe our business model allows us to integrate acquisitions in an efficient manner, while also providing opportunities to realize significant cost savings. However, there is a risk that our financial condition and operating results could be adversely affected in the event we (i) do not realize all of the anticipated operating synergies and cost savings from acquisitions, (ii) do not successfully integrate acquisitions or (iii) pay too much for these acquisitions. In the past, we utilized various debt offerings to help us acquire certain brands or businesses. For example, in 2010, we refinanced our long-term debt and significantly improved our liquidity position, debt maturities and covenants, all of which better positioned us to pursue the Blacksmith Brands, Inc. ("Blacksmith") and Dramamine acquisitions we consummated that year and potential future acquisition targets. In 2012, we completed an offering of senior notes, entered into new senior secured term loan and revolving credit facilities and ratably secured our existing senior notes with the new term loan facility. We used the net proceeds from the senior notes offering, together with borrowings under the new senior secured term loan facility, to finance the acquisition of the 17 OTC brands acquired from GSK that year, to repay our existing senior secured credit facilities, to pay fees and expenses incurred in connection with these transactions and for general corporate purposes. In 2013, we sold one of the acquired GSK Brands, Phazyme, and used the proceeds to repay debt. In 2014, we amended our credit facilities and used the net proceeds to repay existing senior secured credit facilities, to pay fees and expenses incurred in connection with Care Pharma transactions and for general corporate purposes. In 2015, we further amended our credit facilities and used the net proceeds to finance the acquisition of Insight and to pay fees and expenses incurred in connection with the Insight and Hydralyte transactions.

Market Position

During 2015, approximately 73.0% of our net revenues were from brands with a number one or number two market position, compared with approximately 71.5% and 68.8% during 2014 and 2013, respectively. These brands included Chloraseptic, Clear Eyes, Chore Boy, Comet, Compound W, The Doctor's, New-Skin, Dramamine, Efferdent, BC/Goody's, Beano, Debrox, Gaviscon, Ecotrin, Fess, Hydralyte, Monistat, and Nix.

See "Major Brands" above for information regarding market share and ACV calculations.

Our History and Accomplishments

We were originally formed in 1996 as a joint venture of Medtech Labs and The Shansby Group (a private equity firm), to acquire certain OTC drug brands from American Home Products. Since 2001, our portfolio of brand name products has expanded from OTC brands to include household cleaning products. We have added brands to our

portfolio principally by acquiring strong and well-recognized brands from larger consumer products and pharmaceutical companies. In February 2004, GTCR Golder Rauner II, LLC (“GTCR”), a private equity firm, acquired our business from the owners of Medtech Labs and The Shansby Group. In addition, we acquired the Spic and Span business in March 2004.

In April 2004, we acquired Bonita Bay Holdings, Inc. (“Bonita Bay”), the parent holding company of Prestige Brands International, Inc., which conducted its business under the “Prestige” name. After we completed the Bonita Bay acquisition, we began to conduct our business under the “Prestige” name as well. The Bonita Bay brand portfolio included Chloraseptic, Comet, Clear Eyes and Murine.

Prestige Brands Holdings, Inc. was incorporated in the State of Delaware in June 2004.

In October 2004, we acquired the Little Remedies brand of pediatric OTC products through our purchase of Vetco, Inc. Products offered under the Little Remedies brand included Little Noses® nasal products, Little Tummys® digestive health products, Little Colds® cough & cold remedies, and Little Remedies New Parents Survival Kit.

In February 2005, we raised \$448.0 million through an initial public offering of 28.0 million shares of common stock. We used the net proceeds of the offering (\$416.8 million), plus \$3.0 million from our revolving credit facility and \$8.8 million of cash on hand, to (i) repay \$100.0 million of our existing senior indebtedness, (ii) redeem \$84.0 million in aggregate principal amount of our existing 9.25% senior subordinated notes, (iii) repurchase an aggregate of 4.7 million shares of our common stock held by the investment funds affiliated with GTCR and TCW/Crescent Mezzanine, LLC for \$30.2 million, and (iv) redeem all outstanding senior preferred units and class B preferred units of one of our subsidiaries for \$199.8 million.

In October 2005, we acquired the Chore Boy brand of metal cleaning pads, scrubbing sponges, and non-metal soap pads, which had over 84 years of history in the scouring pad and cleaning accessories categories.

In November 2005, we acquired Dental Concepts LLC, a marketer of therapeutic oral care products sold under The Doctor's brand. The brand is driven primarily by two niche segments, bruxism (nighttime teeth grinding) and interdental cleaning. Products marketed under The Doctor's brand include The Doctor's NightGuard Dental Protector, the first Food and Drug Administration ("FDA") cleared OTC treatment for bruxism, and The Doctor's BrushPicks, disposable interdental toothpicks.

In September 2006, we acquired Wartner USA B.V., the owner of the Wartner brand of OTC wart treatment products in the United States and Canada. The Wartner brand, which is the number three brand in the U.S. OTC wart treatment category, has enhanced our market position in the category, complementing Compound W.

On October 28, 2009, we sold our three shampoo brands - Prell Shampoo, Denorex Dandruff Shampoo and Zincon Dandruff Shampoo. The terms of the sale included an upfront receipt of \$8.0 million in cash, with a subsequent receipt of \$1.0 million in cash on October 28, 2010. We used the proceeds from the sale to reduce outstanding bank indebtedness.

In March 2010, we refinanced our outstanding long-term indebtedness through entry into a \$150.0 million senior term loan facility due April 1, 2016 (the "2010 Senior Term Loan"), and the issuance of \$150.0 million in senior notes with an 8.25% interest rate due 2018 (the "2010 Senior Notes"). Proceeds from the new indebtedness were used to retire our senior term loan facility originally due April 1, 2011 and 9.25% senior subordinated notes originally due April 15, 2012. Additionally, our new credit agreement included a \$30.0 million revolving credit facility due April 1, 2015. The refinancing and new credit facility improved our liquidity, extended maturities, and improved covenant ratios, all of which better positioned us to pursue strategic acquisitions.

On September 1, 2010, we sold certain assets related to the Cutex nail polish remover brand for \$4.1 million.

On November 1, 2010, we acquired 100% of the capital stock of Blacksmith for \$190.0 million in cash, plus a working capital adjustment of \$13.4 million. Additionally, we paid \$1.1 million on behalf of Blacksmith for the sellers' transaction costs. As a result of this acquisition, we acquired five OTC brands: Efferdent, Effergrip, PediaCare, Luden's and NasalCrom. In connection with the acquisition of Blacksmith, in November 2010, we (i) executed an Increase Joinder to our existing credit agreement pursuant to which we entered into an incremental term loan in the amount of \$115.0 million and increased our revolving credit facility by \$10.0 million to \$40.0 million; and (ii) issued an additional \$100.0 million aggregate principal amount of 2010 Senior Notes. The purchase price for Blacksmith was funded from the incremental term loan and the issuance of the 2010 Senior Notes and cash on hand.

On January 6, 2011, we completed the acquisition of certain assets comprising the Dramamine brand in the United States for \$77.1 million in cash, including transaction costs incurred in the acquisition of \$1.2 million. The purchase price was funded by cash on hand.

On January 31, 2012, we completed the acquisition of the 15 GSK brands (the "GSK Brands I"), including the related contracts, trademarks and inventory, for \$615.0 million in cash, subject to a post-closing inventory and apportionment adjustment. The GSK Brands I include BC, Goody's and Ecotrin brands of pain relievers; Beano, Gaviscon, Phazyme, Tagamet and Fiber Choice gastrointestinal brands; and the Sominex sleep aid brand. On March 30, 2012, we completed the acquisition from GSK of Debrox and Gly-Oxide (the "GSK Brands II") in the United States, including the related contracts, trademarks and inventory, for \$45.0 million in cash, subject to a post-closing inventory and apportionment adjustment.

On January 31, 2012, in connection with the acquisition of the GSK Brands I, we (i) issued 8.125% senior notes due in 2020 in an aggregate principal amount of \$250.0 million (the "2012 Senior Notes"), and (ii) entered into a new senior secured credit facility, which consists of a \$660.0 million term loan facility with a seven-year maturity (the "2012 Term Loan") and a \$50.0

million asset-based revolving credit facility with a five-year maturity (the "2012 ABL Revolver"). In September 2012, we utilized a portion of our accordion feature to increase the amount of our borrowing capacity under the 2012 ABL Revolver by \$25.0 million to \$75.0 million. Additionally, in connection with the entry into the new senior secured credit facilities, we repaid the outstanding balance of and terminated our 2010 Senior Term Loan.

On October 31, 2012, we divested the Phazyme gas treatment brand, which was a non-core OTC brand that we acquired from GSK in January 2012. We received \$21.7 million from the divestiture on October 31, 2012 and the remaining \$0.6 million on January 4, 2013. The proceeds were used to repay debt. No significant gain or loss was recorded as a result of the sale.

On February 21, 2013, we entered into Amendment No. 1 ("Term Loan Amendment No. 1") to the 2012 Term Loan. Term Loan Amendment No. 1 provided for the refinancing of all of our existing Term B Loans with new Term B-1 Loans. The interest rate on the Term B-1 Loans was based, at our option, on a LIBOR rate plus a margin of 2.75% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin. The new Term B-1 Loans will mature on the same date as the Term B Loans' original maturity date. In addition, Term Loan Amendment No. 1 provides us with certain additional capacity to prepay subordinated debt, the 2012 Senior Notes and certain other unsecured indebtedness permitted to be incurred under the credit agreement governing the 2012 Term Loan and the 2012 ABL Revolver.

On July 1, 2013, we completed the acquisition of Care Pharma, which was funded through a combination of our existing senior secured credit facilities and cash on hand. The Care Pharma brands include the Fess line of cold/allergy and saline nasal health products, which is the leading saline spray for both adults and children in Australia. Other key brands include Painstop analgesic, Rectogesic for rectal discomfort, and the Fab line of nutritional supplements. Care Pharma also carries a line of brands for children including Little Allergies, Little Eyes, and Little Coughs. The brands acquired are complementary to our OTC Healthcare portfolio.

On December 17, 2013, we issued \$400.0 million aggregate principal amount of senior unsecured notes, with an interest rate of 5.375% and a maturity date of December 15, 2021 (the "2013 Senior Notes"). We may redeem some or all of the 2013 Senior Notes at redemption prices set forth in the indenture governing the 2013 Senior Notes. As a result of this issuance, we redeemed \$201.7 million of the 2010 Senior Notes in December 2013 and the balance of \$48.3 million in January 2014 and repaid approximately \$120.0 million toward our 2012 Term Loan.

On September 3, 2014, the Company completed its previously announced acquisition of Insight, a marketer and distributor of feminine care and other OTC healthcare products, for \$753.2 million in cash. The closing followed the FTC approval of the acquisition and was finalized pursuant to the terms of the purchase agreement announced on April 25, 2014. Pursuant to the Insight purchase agreement, the Company acquired 27 OTC brands sold in North America (including related trademarks, contracts and inventory), which extended the Company's portfolio of OTC brands to include a leading feminine care platform in the United States and Canada anchored by Monistat, the leading North American brand in OTC yeast infection treatment. The acquisition also added brands to the Company's cough & cold, pain relief, ear care and dermatological platforms. In connection with the FTC's approval of the Insight acquisition, we sold one of the competing brands that we acquired from Insight on the same day as the Insight closing. Insight is primarily included in our North American OTC Healthcare segment.

On September 3, 2014, the Borrower entered into Amendment No. 2 ("Term Loan Amendment No. 2") to the 2012 Term Loan. Term Loan Amendment No. 2 provides for (i) the creation of a new class of Term B-2 Loans under the 2012 Term Loan (the "Term B-2 Loans") in an aggregate principal amount of \$720.0 million, (ii) increased flexibility under the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver, including additional investment, restricted payment and debt incurrence flexibility and financial maintenance covenant relief, and (iii) an interest rate on (x) the Term B-1 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 3.125% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin, and (y) the Term

B-2 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 3.50% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin (with a margin step-down to 3.25% per annum, based upon achievement of a specified secured net leverage ratio).

The 2012 Term Loan, as amended, bears interest at a rate per annum equal to an applicable margin plus, at the Borrower's option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month, adjusted for certain additional costs, plus 1.00% and (d) a floor of 2.00% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing, adjusted for certain additional costs, with a floor of 1.00%.

On September 3, 2014, the Borrower entered into Amendment No. 3 ("ABL Amendment No. 3") to the 2012 ABL Revolver. ABL Amendment No. 3 provided for (i) a \$40.0 million increase in revolving commitments under the 2012 ABL Revolver and (ii) increased flexibility under the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver, including additional

investment, restricted payment and debt incurrence flexibility. Borrowings under the 2012 ABL Revolver, as amended, bear interest at a rate per annum equal to an applicable margin, plus, at the Borrower's option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month, adjusted for certain additional costs, plus 1.00% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing, adjusted for certain additional costs. The initial applicable margin for borrowings under the 2012 ABL Revolver is 1.75% with respect to LIBOR borrowings and 0.75% with respect to base-rate borrowings. The applicable margin for borrowings under the 2012 ABL Revolver may be increased to 2.00% or 2.25% for LIBOR borrowings and 1.00% or 1.25% for base-rate borrowings, depending on average excess availability under the 2012 ABL Revolver during the prior fiscal quarter. In addition to paying interest on outstanding principal under the 2012 ABL Revolver, we are required to pay a commitment fee to the lenders under the 2012 ABL Revolver in respect of the unutilized commitments thereunder. The initial commitment fee rate is 0.50% per annum. The commitment fee rate will be reduced to 0.375% per annum at any time when the average daily unused commitments for the prior quarter is less than a percentage of total commitments by an amount set forth in the credit agreement covering the 2012 ABL Revolver. We may voluntarily repay outstanding loans under the 2012 ABL Revolver at any time without a premium or penalty.

Products

We conduct our operations through three reportable segments:

- North American Over-the-Counter ("OTC") Healthcare;
- International Over-the-Counter ("OTC") Healthcare; and
- Household Cleaning.

North American and International OTC Healthcare Segments

Our portfolio of OTC Healthcare products includes 15 core brands. Our core OTC brands are: Chloraseptic sore throat remedies, Clear Eyes eye drops, Compound W wart removers, Little Remedies pediatric products, The Doctor's brand of oral care products, Efferdent and Effergrip denture products, Luden's cough drops, Dramamine motion sickness products, BC and Goody's analgesic powders, Beano gas prevention, Gaviscon antacids, Debrox ear drops, and two new core OTC brands from our recent Insight acquisition, including Monistat vaginal treatments and feminine care products, and Nix lice treatments. Our other significant brands include Dermoplast first-aid products, New-Skin liquid bandage, Fiber Choice fiber laxative supplements, Ecotrin aspirin, and the recently acquired e.p.t family planning products and Uristat urinary tract infection treatments. Our significant international brands include Fess nasal saline spray and Hydralyte for dehydration and electrolyte replacement. In 2015, the North American OTC Healthcare segments accounted for 78.9% of our net revenues, compared to 80.3% and 83.8% in 2014 and 2013, respectively. In 2015, the International OTC Healthcare segment accounted for 8.6% of our net revenues, compared to 5.0% and 2.3% in 2014 and 2013, respectively.

Chloraseptic

Chloraseptic was originally developed by a dentist in 1957 to relieve sore throats and mouth pain. Chloraseptic's 6 oz. cherry liquid sore throat spray is the number one selling product in the U.S. sore throat liquids/sprays market and the number one U.S. pharmacist recommended spray according to Pharmacy Times. The Chloraseptic brand has an ACV of 94.8% and is number one in the U.S. Sore Throat Liquids/Lozenges category with a 47.4% U.S. market share.

Clear Eyes

Clear Eyes, with an ACV of 97.4%, has been marketed as an effective eye care product that helps eliminate redness and helps moisturize the eye. Clear Eyes is among the leading brands in the U.S. OTC personal eye care category. Clear Eyes is the number one U.S. brand in the Redness Relief category with 20.5% U.S. market share.

Compound W

Compound W has a long heritage, with its wart removal products having been introduced more than 50 years ago. Compound W products are specially designed to provide relief from common and plantar warts and are sold in multiple forms of treatment depending on the consumer's need, including Fast-Acting Liquid, Fast-Acting Gel, One Step Pads and Freeze Off®, a cryogenic-based wart removal system that works in as little as one application. Compound W is the number one U.S. pharmacist recommended wart remover according to Pharmacy Times. Additionally, Compound W is the number one wart removal brand in the United States with a 34.8% U.S. market share and an ACV of 89%.

Dramamine

Dramamine is the number one brand and the number one pharmacist recommended brand, according to Pharmacy Times, in the \$82.3 million U.S. Motion Sickness category with a 41.1% U.S. market share and distribution of over 93.8% ACV. The product line includes the new Dramamine for Kids, and a Less Drowsy formula and Chewable form in addition to the top selling Dramamine original product.

Efferdent and Effergrip

Efferdent Denture Cleanser holds a 27.2% U.S. market share and the number two position in the \$152.4 million U.S. Denture Cleanser Tablets category. The January 2011 introduction of Efferdent PM extended the brand into the growing overnight cleanser market. In 2012, we introduced Efferdent Power Clean Crystals denture cleanser. In its introductory year, Power Clean Crystals garnered a 1.9% share of the U.S. market and successfully brought new consumers into the Efferdent franchise. In 2014, we extended the Efferdent franchise into the oral appliance cleanser segment with the introduction of Fresh Guard™ by Efferdent. This product is designed specifically for the cleaning of mouth guards, retainers, removable braces and mouth guard appliances. Efferdent enjoys distribution of over 98.4% ACV. Effergrip denture adhesive competes in the \$306.6 million U.S. Adhesives category and has a 0.3% share of the U.S. market.

Little Remedies

Little Remedies is a line of gentle and soothing pediatric OTC products made specifically for little ones and their symptoms like gas, colic or a stuffy nose. The products contain safe ingredients needed to help children feel better, at just the right strength for their growing bodies, and never any alcohol, dyes, or artificial flavors. The portfolio includes: (i) an assortment of nasal saline products; (ii) products for coughs & cold; (iii) products for tummy relief, which include gas relief drops and gripe water, an herbal supplement used to ease discomfort often associated with colic and hiccups; and (iv) fever and pain relievers. Little Remedies holds a 3.4% market share of the competitive U.S. Pediatric Healthcare market, and ACV of 91.3%.

Luden's

Luden's throat drops heritage spans more than 130 years. Among the fastest growing brands in the \$547.8 million U.S. Cough Drops category, Luden's has a 6.7% share of the market and distribution of more than 94.5% ACV. Luden's Wild Cherry is the number one selling item in the U.S. Cough Drop category, and a Sugar Free line extension was launched in 2011. In 2014, Luden's continued to expand its product portfolio with the introduction of deliciously soothing Sugar Free Black Cherry, Watermelon and Blue Raspberry throat drops.

The Doctor's

The Doctor's is a line of products designed to help consumers maintain good oral hygiene in between dental office visits. The market is driven primarily by two niche segments: bruxism (nighttime teeth grinding) and interdental cleaning. The Doctor's NightGuard dental protector was designed to "Protect your smile while you sleep™" and was the first FDA cleared OTC treatment for bruxism. The Doctor's NightGuard currently holds a 24% share of the U.S. market and the number two position in the U.S. Teeth Grinding market. The Doctor's NightGuard also has a distribution of 65.4% ACV. The Doctor's Brushpicks is number two in the Disposable Dental Picks market, with a 15.3% share of the market.

BC/Goody's

BC and Goody's compete in the \$3.1 billion U.S. Adult Analgesic category. They are the top two U.S. OTC pain reliever brands in a powder form. Developed in the Southeast region over 80 years ago, their unique form delivers fast pain relief. The combined brands have a 2.7% share of the Adult Analgesic category nationally according to IRI, but are the number one Adult Analgesic product in convenience stores according to IRI. BC is available in Original, Cherry and Arthritis formulas. Goody's includes Extra Strength, Back & Body, PM, Cool Orange, and the single dose liquid pain reliever, Headache Relief Shot.

Beano

Beano commands an 82.2% share and the number one position in the U.S. Gas Prevention category and the number two overall position in the larger \$219.0 million U.S. Anti-gas category. The product is formulated with a unique digestive enzyme that works naturally with the body to prevent gas symptoms before they start. In 2010, the brand developed a proprietary delivery system and launched Beano Meltaways, a dissolvable tablet that fills the consumer need for a more discreet way to manage the condition. In 2014, the brand developed and launched Beano Plus Dairy Defense, a chewable tablet that adds a second digestive enzyme to help break down lactose.

Debrox

Debrox is the number one brand of U.S. OTC ear wax removal aids, with a 55.4% share of the U.S. Ear Wax Removal market, and an 85.9% ACV. The product line consists of two items: an ear wax removal kit containing liquid drops and an ear washer bulb, and a second item containing just the liquid drops as a refill. With Debrox, consumers have a safe, gentle method for removing

ear wax build up while in the privacy of their homes. Debrox is the number one recommended brand with doctors and pharmacists in the United States according to Encuity Research LLC and Pharmacy Times.

Gaviscon

Gaviscon is currently the number one brand in the \$147.9 million Canadian Upset Stomach Remedy category with a 16.3% market share. The brand grew 3.3% in 2015, outperforming the category, which grew 2.6%. Gaviscon's success is partly attributed to a differentiated method of action versus traditional antacid products, as it creates a foam barrier to keep stomach acid from backing up into the esophagus.

Dermoplast

Dermoplast is currently the number three brand and the number one pharmacist recommended brand, according to Pharmacy Times, in the \$33.9 million U.S. Pain Relief Sprays market. Dermoplast brings hospital-strength pain and itch relief to consumers' homes. It's available in Original Burn & Itch and Antibacterial First Aid Sprays. Widely used in hospitals, it is sold in institutions, in addition to retail stores. The brand holds a 17.3% U.S. market share and a distribution of 74.7% ACV.

New-Skin

New-Skin is the number one brand in the \$18.7 million U.S. Liquid Bandages market with a 68.2% market share. It provides a flexible, antiseptic seal to prevent infections and friction injuries in hard-to-cover areas. New-Skin has a distribution of 91.6% ACV.

Fiber Choice

Fiber Choice currently holds the number five position in the \$456.0 million U.S. Fiber Laxative Supplements category with a 4.3% market share. The brand has a distribution of 86.0% ACV. In 2013, the brand developed and launched Fiber Choice Fruity Bites gummy fiber to compete in the rapidly expanding gummies segment of the category.

Ecotrin

Ecotrin is the number one cardiologist recommended aspirin in the United States, according to Encuity Research LLC, and currently holds the number two position in the \$481.5 million U.S. Aspirin category with a 3.3% market share. The brand has a distribution of 88.4% ACV.

Fess

In the Australasia market, Fess is currently the number one brand in the Nasal Saline Spray market with a 64.0% market share.

Hydralyte

Hydralyte is the leading OTC brand in oral rehydration in Australia with an 85.5% market share.

Monistat®

Monistat®, the #1 OB/GYN recommended U.S. OTC brand for yeast infection treatment, came to Prestige Brands as part of the Insight acquisition and is currently the largest brand in the Company. The active ingredient, miconazole, is just as effective at curing yeast infections as the leading prescription pill. Monistat® comes in 3 different doses: 1-day, 3-day and 7-day; in 3 different forms: cream, ovule® and suppository; and with or without symptom relief accessories: external cream and wipes. As the #1 brand in the U.S. OTC Yeast Infection category, Monistat® holds a 53.4% share of the market and has a distribution of 90.3% ACV. The Monistat® Complete Care™ line of products was introduced in 2014 and includes 4 products in feminine care including an Instant Itch Relief cream, Vaginal Health Test, Chafing Relief Powder Gel®, and Stay Fresh Feminine Freshness Gel. The Complete Care™ line holds a 13.0% share of the U.S. feminine care market and has a distribution of 77.7% ACV.

e.p.tTM

The first U.S. brand to market an over the counter pregnancy test kit, e.p.tTM has been on the market for over 35 years. e.p.tTM provides over 99% accuracy and can be used up to five days before the expected period. e.p.tTM features advanced technology available in both analog and digital tests. Both provide easy to read and clear results. e.p.tTM is the number three brand in the U.S. Pregnancy Test Kits category and holds a 10.0% share of the market and has a distribution of 75.4% ACV.

Nix

Nix is the number two brand in the \$150.0 million U.S. pediculicides (Head Lice Treatment) category with a 13.3% market share. Nix kills lice and their eggs while also protecting against lice re-infestation for up to 14 days. It is safe for use on children as young as 2 months old and is the number one pediatrician recommended brand in the United States.

13

Household Cleaning Segment

Our portfolio of Household Cleaning brands includes the Chore Boy, Comet and Spic and Span brands. During 2015, the Household Cleaning segment accounted for 12.6% of our revenues, compared with 14.7% and 13.9% in 2014 and 2013, respectively.

Chore Boy

Chore Boy scrubbing pads and sponges were initially launched in the 1920s. Over the years, the line has grown to include metal and non-metal scrubbers that are used for a variety of household cleaning tasks. Chore Boy has an 8.6% share of the U.S. market and a number two position in the U.S. Soap Free Metal Scrubbers market.

Comet

Comet was originally introduced in 1956 and is one of the most widely recognized Household Cleaning brands with an ACV of 90.2%. Comet is the number one brand with a 37.9% market share in the U.S. Abrasive Tub and Tile Cleaner sub-category of the Household Cleaning category that includes non-scratch, abrasive powders, creams, and liquids. Comet products include several varieties of cleaning powders, spray and cream, both abrasive and non-abrasive.

Spic and Span

Spic and Span was introduced in 1925 and is marketed as the complete home cleaner, with three product lines consisting of (i) dilutables, (ii) an anti-bacterial hard surface spray for counter tops and (iii) glass cleaners. Each of these products can be used for multi-room and multi-surface cleaning.

For additional information concerning our business segments, please refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Note 19 to the Consolidated Financial Statements included elsewhere in this Annual Report on Form 10-K.

Marketing and Sales

Our marketing strategy is based on the acquisition and the rejuvenation of established consumer brands that possess what we believe to be significant brand value and unrealized potential. Our marketing objective is to increase sales and market share by developing innovative new products and line extensions and executing creative and cost-effective advertising and promotional programs. After we acquire a brand, we implement a brand building strategy that uses the brand's existing consumer awareness to maximize sales of current products and provides a vehicle to drive growth through product innovation. This brand building process involves the evaluation of the existing brand name, the development and introduction of innovative new products, and the execution of support programs. Recognizing that financial resources are limited, we allocate our resources to focus on our core brands with the most impactful, consumer-relevant initiatives, which we believe have the greatest opportunities for growth and financial success. Brand priorities vary from year-to-year and generally revolve around new product introductions.

Customers

Our senior management team and dedicated sales force strive to maintain long-standing relationships with our top 50 domestic customers. We also contract with third-party sales management enterprises that interface directly with our remaining customers and report directly to members of our sales management team.

We enjoy broad distribution across each of the major retail channels, including mass merchandisers, food, drug, dollar, convenience and club stores. The following table sets forth the percentage of gross sales across our six major distribution channels during each of the past three years ended March 31:

Channel of Distribution	Percentage of Gross Sales(1)		
	2015	2014	2013
Mass	30.1	29.6	32.2
Drug	26.5	23.5	22.7
Food	18.4	19.6	19.4
Dollar	9.3	9.0	9.3
Convenience	5.7	7.3	5.9
Club	2.0	3.0	3.1
Other	8.0	8.0	7.4

14

(1) Includes estimates for some of our wholesale customers that service more than one distribution channel.

Due to the diversity of our product lines, we believe that each of these channels is important to our business, and we continue to seek opportunities for growth in each channel.

Our principal customer relationships include Walmart, Walgreens, CVS, Target, and Dollar Tree. During 2015, 2014, and 2013, Walmart accounted for approximately 18.1%, 19.5%, and 15.9%, respectively, of our gross revenues. We expect that for future periods, our top ten customers, including Walmart, will, in the aggregate, continue to account for a large portion of our sales.

Our strong customer relationships and product recognition allow us to attempt to capitalize on a number of important strategic opportunities, including (i) minimization of slotting fees, (ii) maximization of new product introductions, (iii) maximization of shelf space prominence, and (iv) minimization of cash collection days. We believe that our emphasis on strong customer relationships, speed and flexibility and leading sales technology capabilities, combined with consistent marketing support programs and ongoing product innovation, will continue to maximize our competitiveness in the increasingly complex retail environment.

The following table sets forth a list of our primary distribution channels and our principal customers for each channel:

Distribution Channel	Customers	Distribution Channel	Customers
Mass	Kmart Meijer Target Walmart	Drug	CVS Rite Aid Walgreens
Food	Ahold Kroger Publix Safeway Supervalu	Dollar	Dollar General Dollar Tree Family Dollar
Convenience	McLane HT Hackney Core Mark	Club	BJ's Wholesale Club Costco Sam's Club

Outsourcing and Manufacturing

In order to maximize our competitiveness and efficiently allocate our resources, third-party manufacturers fulfill all of our manufacturing needs. We have found that contract manufacturing maximizes our flexibility and responsiveness to industry and consumer trends while minimizing the need for capital expenditures. We select contract manufacturers based on their core competencies and our perception of the best overall value, including factors such as (i) depth of services, (ii) professionalism and integrity of the management team, (iii) manufacturing agility and capacity, (iv) regulatory compliance, and (v) competitive pricing. We also conduct thorough reviews of each potential manufacturer's facilities, quality standards, capacity and financial stability. We generally purchase only finished products from our manufacturers.

Our primary contract manufacturers provide comprehensive services from product development through the manufacturing of finished goods. They are responsible for such matters as (i) production planning, (ii) product

research and development, (iii) procurement, (iv) production, (v) quality testing, and (vi) almost all capital expenditures. In most instances, we provide our contract manufacturers with guidance in the areas of (i) product development, (ii) performance criteria, (iii) regulatory guidance, (iv) sourcing of packaging materials, and (v) monthly master production schedules. This management approach results in minimal capital expenditures and maximizes our cash flow, which allows us to reinvest to support our marketing initiatives, fund brand acquisitions or repay outstanding indebtedness.

At March 31, 2015, we had relationships with 95 third-party manufacturers. Of those, we had long-term contracts with 44 manufacturers that produced items that accounted for approximately 82.9% of our gross sales for 2015, compared to 24 manufacturers with long-term contracts that accounted for approximately 82.4% of our gross sales in 2014. The fact that we do

not have long-term contracts with certain manufacturers means that they could cease manufacturing our products at any time and for any reason or initiate arbitrary and costly price increases, which could have a material adverse effect on our business and results from operations.

At March 31, 2015, suppliers for our key brands included GlaxoSmithKline, Denison Pharmaceuticals, Inc., Aspen Pharmacare, Olds Products Company, Tower Laboratories Ltd., and Contract Pharmaceuticals Corp. We enter into manufacturing agreements for a majority of our products by sales volume, each of which vary based on the capabilities of the third-party manufacturer and the products being supplied. These agreements explicitly outline the manufacturer's obligations and product specifications with respect to the brand or brands being produced. The purchase price of products is subject to change pursuant to the terms of these agreements due to fluctuations in raw material, packaging and labor costs. Other products are manufactured on a purchase order basis, which is generally based on batch sizes and results in no long-term obligations or commitments.

Warehousing and Distribution

We receive orders from retailers and/or brokers primarily by electronic data interchange, which automatically enters each order into our computer systems and then routes the order to our distribution center. The distribution center will, in turn, send a confirmation that the order was received, fill the order and ship the order to the customer, while sending a shipment confirmation to us. Upon receipt of the shipment confirmation, we send an invoice to the customer.

We manage product distribution in the continental United States primarily through one facility located in St. Louis, which is owned and operated by a third-party provider. Our U.S. warehouse provider provides warehouse services including storage, handling and shipping, as well as transportation services, with respect to our full line of products, including (i) complete management services, (ii) claims administration, (iii) proof of delivery, (iv) procurement, (v) report generation, and (vi) automation and freight payment services.

If our warehouse provider abruptly stopped providing warehousing or transportation services to us, our business operations could suffer a temporary disruption while we engage new service providers. We believe this process could be completed quickly and any resulting temporary disruption would not be likely to have a significant adverse effect on our business, operating results or financial condition. However, a serious disruption, such as a flood or fire, to our distribution center could damage our inventory and could materially impair our ability to distribute our products to customers in a timely manner or at a reasonable cost. We could incur significantly higher costs and experience longer lead times associated with the distribution of our products to our customers during the time required to reopen or replace our distribution center. As a result, any such serious or prolonged disruption could have a material adverse effect on our business, financial condition and results from operations.

Competition

The business of selling brand name consumer products in the OTC Healthcare and Household Cleaning categories is highly competitive. These markets include numerous national and global manufacturers, distributors, marketers and retailers that actively compete for consumers' business both in the United States and abroad. In addition, like most companies that market products in these categories, we are experiencing increased competition from "private label" products introduced by major retail chains. While we believe that our branded products provide superior quality and benefits, we are unable to predict the extent to which consumers will purchase "private label" products as an alternative to branded products.

Our principal competitors vary by industry category. Competitors in the OTC Healthcare category include: Johnson & Johnson, maker of Visine®, which competes with our Clear Eyes and Murine brands; McNeil-PPC (owned by

Johnson & Johnson), maker of Children's Tylenol®, and Novartis Consumer Healthcare, maker of Triaminic®, each of which competes with our PediaCare and Little Remedies brands; The Procter & Gamble Company, maker of Vicks®, Reckitt Benckiser, maker of Cepacol®, and Kraft Foods, maker of Halls®, each of which competes with our Chloraseptic and Luden's brands; and The Procter & Gamble Company, maker of Fixodent®, and GlaxoSmithKline, maker of Polident®, each of which competes with our Efferdent brand. Sunstar America, Inc., maker of the GUM® line of oral care products, as well as DenTek® Oral Care, Inc., which markets a dental protector for nighttime teeth grinding and interdental toothpicks, compete with our The Doctor's oral care brand. Top competitors of our acquired GSK Brands categories include: McNeil-PPC (owned by Johnson & Johnson), maker of Tylenol®, Pfizer, maker of Advil®, and Novartis Consumer Healthcare, maker of Excedrin®, each of which competes with our BC, Goody's and Ecotrin brands. The Procter & Gamble Company, maker of Metamucil®, competes with our Fiber Choice brand; Novartis Consumer Healthcare, maker of Gas X®, competes with our Beano brand; and GSK, maker of Tums®, competes with our Gaviscon and Tagamet brands.

Competitors in the Household Cleaning category include: Henkel AG & Co., maker of Soft Scrub®, Colgate-Palmolive Company, maker of Ajax® Cleanser, and The Clorox Company, maker of Tilex®, each of which competes with our Comet brand. Additionally,

Clorox's Pine Sol® and The Procter & Gamble Company's Mr. Clean® compete with our Spic and Span brand, while 3M Company, maker of Scotch-Brite®, O-Cel-O® and Dobie® brands, and Clorox's SOS® compete with our Chore Boy brand.

We compete on the basis of numerous factors, including brand recognition, product quality, performance, value to customers, price, and product availability at the retail level. Advertising, promotion, merchandising and packaging, the timing of new product introductions, and line extensions also have a significant impact on customers' buying decisions and, as a result, on our sales. The structure and quality of our sales force, as well as sell-through of our products, affect in-store position, wall display space and inventory levels in retail outlets. If we are unable to maintain the inventory levels and in-store positioning of our products in retail stores, our sales and operating results would be adversely affected. Our markets are also highly sensitive to the introduction of new products, which may rapidly capture a significant share of the market. An increase in the amount of new product introductions and the levels of advertising spending by our competitors could have a material adverse effect on our business results from operations.

Many of the competitors noted above are larger and have substantially greater research and development and financial resources than we do, and may therefore have the ability to spend more aggressively and consistently on research and development, advertising and marketing, and to respond more effectively to changing business and economic conditions. See "Competitive Strengths" above for additional information regarding our competitive strengths and Part I, Item 1A "Risk Factors" below for additional information regarding competition in our industry.

Regulation

Product Regulation

The formulation, manufacturing, packaging, labeling, distribution, importation, sale and storage of our products are subject to extensive regulation by various U.S. federal agencies, including the FDA, FTC, the Consumer Product Safety Commission ("CPSC"), and the Environmental Protection Agency ("EPA"), and various agencies of the states, localities and foreign countries in which our products are manufactured, distributed and sold. Our Regulatory Team is guided by a senior member of management and staffed by individuals with appropriate legal and regulatory experience. Our Regulatory and Operations teams work closely with our third-party manufacturers on quality-related matters, while we monitor their compliance with FDA and foreign regulations and perform periodic audits to ensure compliance. This continual evaluation process is designed to ensure that our manufacturing processes and products are of the highest quality and in compliance with known regulatory requirements. If the FDA or a foreign governmental authority chooses to audit a particular manufacturing facility, we require the third-party manufacturer to notify us immediately and update us on the progress of the audit as it proceeds. If we or our manufacturers fail to comply with applicable regulations, we could become subject to significant claims or penalties or be required to discontinue the sale of the non-compliant product, which could have a material adverse effect our business, financial condition and results from operations. These circumstances occur from time to time. For example, we are currently evaluating our failure to appropriately register a single product, which may result in us temporarily discontinuing sales of the product and other claims. In addition, the adoption of new regulations or changes in the interpretations of existing regulations may result in significant additional compliance costs or discontinuation of product sales and may also have a material adverse effect on our financial condition and results from operations.

Most of our U.S. OTC drug products are regulated pursuant to the FDA's monograph system. The monographs set out the active ingredients and labeling indications that are permitted for certain broad categories of U.S. OTC drug products. When the FDA has finalized a particular monograph, it has concluded that a properly labeled product formulation is generally recognized as safe and effective and not misbranded. A tentative final monograph indicates that the FDA has not made a final determination about products in a category to establish safety and efficacy for a product and its uses. However, unless there is a serious safety or efficacy issue, the FDA typically will exercise enforcement discretion and permit companies to sell products conforming to a tentative final monograph until the final

monograph is published. Products that comply with either final or tentative final monograph standards do not require pre-market approval from the FDA.

Certain of our U.S. OTC drug products are New Drug Applications (“NDA”) or Abbreviated New Drug Applications (“ANDA”) products and are manufactured and labeled in accordance with an FDA-approved submission. These products are subject to reporting requirements as set forth in FDA regulations.

Certain of our U.S. OTC Healthcare products are medical devices regulated by the FDA through a system which usually involves pre-market clearance. During the review process, the FDA makes an affirmative determination as to the sufficiency of the label directions, cautions and warnings for the medical devices in question.

In accordance with the Federal Food, Drug and Cosmetic Act (“FDC Act”) and FDA regulations, we and our third-party manufacturers of U.S. products must also comply with the FDA’s current Good Manufacturing Practices (“GMPs”). The FDA

inspects our facilities and those of our third-party manufacturers periodically to determine that both we and our third-party manufacturers are complying with GMPs.

A number of our products are regulated by the CPSC under the Federal Hazardous Substances Act (the “FHSA”), the Poison Prevention Packaging Act of 1970 (the “PPPA”) and the Consumer Products Safety Improvement Act of 2008 (the “CPSIA”). Certain of our household products are considered to be hazardous substances under the FHSA and therefore require specific cautionary warnings to be included in their labeling for such products to be legally marketed. In addition, a small number of our products are subject to regulation under the PPPA and can only be legally marketed if they are dispensed in child-resistant packaging or labeled for use in households where there are no children. The CPSIA requires us to make available to our customers certificates stating that we are in compliance with any applicable regulation administered by the CPSC.

Nix spray and certain Household Cleaning products are considered pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (“FIFRA”). Generally speaking, any substance intended for preventing, destroying, repelling, or mitigating any pest is considered to be a pesticide under FIFRA. We market and distribute certain household products under our Comet and Spic and Span brands that make antibacterial and/or disinfectant claims governed by FIFRA. Due to the antibacterial and/or disinfectant claims on certain of the Comet and Spic and Span products and the lice killing claims on Nix spray, such products are considered to be pesticides under FIFRA and are required to be registered with the EPA and contain certain disclosures on the product labels. In addition, the contract manufacturers from which we source these products must be registered with the EPA. Our EPA registered products are also subject to state regulations and the rules and regulations of the various jurisdictions where these products are sold.

Our international business is also subject to product regulations by local regulatory authorities in the various regions these businesses operate, including regulations regarding manufacturing, labeling, distribution, sale and storage.

Other Regulations

We are also subject to a variety of other regulations in various foreign markets, including regulations pertaining to import/export regulations and antitrust issues. To the extent we decide to commence or expand operations in additional countries, we may be required to obtain an approval, license or certification from the country’s ministry of health or comparable agency. We must also comply with product labeling and packaging regulations that may vary from country to country. Government regulations in both our domestic and international markets can delay or prevent the introduction, or require the reformulation or withdrawal, of some of our products. Our failure to comply with these regulations can also result in a product being removed from sale in a particular market, either temporarily or permanently. In addition, we are subject to FTC and state regulations, as well as foreign regulations, relating to our product claims and advertising. If we fail to comply with these regulations, we could be subject to enforcement actions and the imposition of penalties, which could have a material adverse effect on our business, financial condition and results from operations.

Intellectual Property

We own a number of trademark registrations and applications in the United States, Canada and other foreign countries. The following are some of the most important registered trademarks we own in the United States and/or Canada: Chloraseptic, Chore Boy, Cinch®, Clear Eyes, Comet, Compound W, Dermoplast, Dramamine, Efferdent, Effergrip, Freeze Off, Little Remedies, Luden's, Momentum®, Murine, NasalCrom, New-Skin, PediaCare, Percogesic®, Spic and Span, The Doctor’s Brushpicks, The Doctor’s NightGuard, Wartner, BC, Goody's, Ecotrin, Beano, Gaviscon, Tagamet, Fiber Choice, Sominex, Debrox Gly-Oxide, Monistat, e.p.t and Nix.

Our trademarks and trade names are how we convey that the products we sell are “brand name” products. Our ownership of these trademarks and trade names is very important to our business, as it allows us to compete based on

the value and goodwill associated with these marks. We may also license others to use these marks. Additionally, we own or license patents on innovative and proprietary technology. The patents evidence the unique nature of our products, provide us with exclusivity, and afford us protection from the encroachment of others. None of the patents that we own or license, however, is material to us on a consolidated basis. Enforcing our rights, or the rights of any of our licensors, represented by these trademarks, trade names and patents is critical to our business but is expensive. If we are not able to effectively enforce our rights, others may be able to dilute our trademarks, trade names and patents and diminish the value associated with our brands and technologies, which could have a material adverse effect on our business, financial condition and results from operations.

We do not own all of the intellectual property rights applicable to our products. In those cases where our third-party manufacturers own patents that protect our products, we are dependent on them as a source of supply for our products. Unless other non-infringing technologies are available, we must continue to purchase patented products from our suppliers who sell patented products to us. In addition, we rely on our suppliers for their enforcement of their intellectual property rights against infringing products.

We have licensed to an international consumer packaged goods company the right to use the Comet, Spic and Span and Chlorinol® trademarks in the commercial/institutional/industrial business throughout the world (excluding Russia and specified Eastern European countries). We have also licensed to the licensee the Comet and Chlorinol brands in Russia and specified Eastern European countries. These agreements were amended in December 2014 to allow the licensee to obtain the rights to sell in certain specified Eastern European countries for \$10.0 million. The amended agreement expires December 31, 2025, and includes an option for the licensee to buy out the remaining commercial/institutional/industrial business at any time after July 1, 2016 for an exercise price of \$10.0 million.

Seasonality

The first quarter of our fiscal year typically has the lowest level of revenue due to the seasonal nature of certain of our brands relative to the summer and winter months. In addition, the first quarter generally is the least profitable quarter due to the increased advertising and promotional spending to support those brands with a summer selling season, such as Clear Eyes products, Compound W, Wartner and New-Skin. The level of advertising and promotional campaigns in the third quarter influences sales of our cough/cold products such as Chloraseptic, Little Remedies, Luden's and PediaCare, during the fourth quarter cough & cold winter months. Additionally, the fourth quarter typically has the lowest level of advertising and promotional spending as a percent of revenue.

Employees

We employed approximately 187 full time individuals at March 31, 2015. None of our employees is a party to a collective bargaining agreement. Management believes that our relations with our employees are good.

Backlog Orders

We define backlog as orders with requested delivery dates prior to March 31, 2015 that were not shipped as of March 31, 2015. We had no significant backlog orders at March 31, 2015 or 2014.

Available Information

Our Internet address is www.prestigebrands.com. We make available free of charge on or through our Internet website our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports, as well as the Proxy Statement for our annual stockholders' meetings, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission (the "SEC"). Information on our Internet website does not constitute a part of this Annual Report on Form 10-K and is not incorporated herein by reference, including any general statement incorporating by reference this Annual Report on Form 10-K into any filing under the Securities Act of 1933, as amended (the "Securities Act"), or under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

You may read and copy any materials that we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

We have adopted a Code of Conduct Policy, Code of Ethics for Senior Financial Employees, Policy and Procedures for Complaints Regarding Accounting, Internal Controls and Auditing Matters, Corporate Governance Guidelines, Audit Committee Pre-Approval Policy, and Charters for our Audit, Compensation and Nominating and Corporate Governance Committees, as well as a Related Persons Transaction Policy and Stock Ownership Guidelines. We will provide to any person without charge, upon request, a copy of the foregoing materials. Any requests for the foregoing documents from us should be made in writing to:

Prestige Brands Holdings, Inc.
660 White Plains Road

Tarrytown, New York 10591
Attention: Secretary

We intend to disclose future amendments to the provisions of the foregoing documents, policies and guidelines and waivers therefrom, if any, on our Internet website and/or through the filing of a Current Report on Form 8-K with the SEC, to the extent required under the Exchange Act.

19

ITEM 1A. RISK FACTORS

The high level of competition in our industry, much of which comes from competitors with greater resources, could adversely affect our business, financial condition and results from operations.

The business of selling brand name consumer products in the OTC Healthcare and Household Cleaning categories is highly competitive. These markets include numerous manufacturers, distributors, marketers and retailers that actively compete for consumers' business both in the United States and abroad. Many of these competitors are larger and have substantially greater resources than we do, and may therefore have the ability to spend more aggressively on research and development, advertising and marketing, and to respond more effectively to changing business and economic conditions. If this were to occur, it could have a material adverse effect on our financial condition and results from operations.

Certain of our product lines that account for a large percentage of our sales have a smaller market share relative to our competitors. For example, while Clear Eyes has a number two market share position of 20.5% within the U.S. Eye Allergy/Redness Relief category, its top competitor, Visine®, has a market share of 21.6% in the same segment. In contrast, certain of our brands with number one market positions have a similar market share relative to our competitors. For example, Compound W has a number one market position of 34.8% of the U.S. Wart Removal segment and its top competitor, Dr. Scholl's®, has a market position of 34.8% in the same category. See "Part I, Item 1. Business - Major Brands" of this Annual Report on Form 10-K for information regarding market share calculations.

We compete for customers' attention based on a number of factors, including brand recognition, product quality, performance, value to customers, price and product availability at the retail level. Advertising, promotion, merchandising and packaging and the timing of new product introductions and line extensions also have a significant impact on consumer buying decisions and, as a result, on our sales. If our advertising, marketing and promotional programs are not effective, our sales may decline. New product innovations by our competitors or the failure to develop new products or the failure of a new product launch by the Company could have a material adverse effect on our business, financial condition and results from operations. In addition, the introduction or expansion of store brand products that compete with our products has impacted and could in the future impact our sales and results from operations. Additionally, the return to the market of previously recalled competitive products has impacted and could continue to impact our sales. The structure and quality of our sales force, as well as sell-through of our products, affect in-store position, wall display space and inventory levels in retail stores. If we are unable to maintain our current distribution network, product offerings in retail stores, inventory levels and in-store positioning of our products, our sales and operating results will be adversely affected. Our markets are highly sensitive to the introduction of new products, which may rapidly capture a significant share of the market.

In addition, competitors may attempt to gain market share by offering products at prices at or below those typically offered by us. Competitive pricing may require us to reduce prices, which may result in lost sales revenue or a reduction of our profit margins. Future price adjustments by our competitors or our inability to react with price adjustments of our own could result in a loss of market share, which could have a material adverse effect on our financial condition and results from operations.

We depend on a limited number of customers with whom we have no long-term agreements for a large portion of our gross sales, and the loss of one or more of these customers could reduce our gross sales and have a material adverse effect on our financial condition and results of operations.

For the three and twelve months ended March 31, 2015, Walmart, which accounted for approximately 19.8% and 18.1%, respectively, of our gross sales, was our only customer that accounted for 10% or more of our gross sales. We expect that for future periods, our top five and top ten customers, including Walmart, will, in the aggregate, continue

to account for a large and potentially increasing portion of our sales. The loss of one or more of our top customers, any significant decrease in sales to these customers based on changes in their strategies including a reduction in the number of brands they carry, the amount of shelf space they dedicate to store brand products, inventory management, or a significant decrease in our retail display space in any of these customers' stores, could reduce our sales and have a material adverse effect on our financial condition and results from operations.

In addition, our business is based primarily upon individual sales orders. We typically do not enter into long-term contracts with our customers. Accordingly, our customers could cease buying products or reduce the number of items they buy from us at any time and for any reason. The fact that we do not have long-term contracts with our customers means that we have no recourse in the event a customer no longer wants to purchase products from us or reduces the number of items purchased. If a significant number of our smaller customers, or any of our significant customers, elect not to purchase products from us, our financial condition and results from operations could be adversely affected.

We depend on third-party manufacturers to produce the products we sell. If we are unable to maintain these manufacturing relationships or fail to enter into additional relationships, as necessary, we may be unable to meet customer demand and our business, sales and profitability could suffer as a result.

All of our products are produced by a limited number of third-party manufacturers. Our ability to retain our current manufacturing relationships and engage in and successfully transition to new relationships is critical to our ability to deliver quality products to our customers in a timely manner. Without adequate supplies of quality merchandise, our sales would decrease materially and our business would suffer. In the event that our primary third-party manufacturers are unable or unwilling to ship products to us in a timely manner, we would have to rely on secondary manufacturing relationships or, to the extent unavailable, identify and qualify new manufacturing relationships. Because of the unique manufacturing requirements of certain products, the Company may be unable to qualify new suppliers in a timely way or at the quantities, quality and price levels needed. Certain of the Company's manufacturers are having difficulty meeting demand, which is causing shortages of certain of our most popular products. We might not be able to identify or qualify secondary manufacturers for such products in a timely manner, and such manufacturers may not allocate sufficient capacity to allow us to meet our commitments to customers. In addition, identifying alternative manufacturers without adequate lead times may involve additional manufacturing expense, delay in production or product disadvantage in the marketplace. In general, the consequences of not securing adequate, high quality and timely supplies of merchandise would negatively impact inventory levels, which could damage our reputation and result in lost customers and sales, and could have a material adverse effect on our business, financial condition and results from operations.

The manufacturers we use have increased the cost of the products we purchase, which could adversely affect our margins in the event we are unable to pass along these increased costs to our customers or identify and qualify new manufacturers. Increased costs could also have a material adverse effect on our financial condition and results from operations.

At March 31, 2015, we had relationships with 95 third-party manufacturers. Of those, we had long-term contracts with 44 manufacturers that produced items that accounted for approximately 82.9% of our gross sales for 2015, compared to 24 manufacturers with long-term contracts that produced approximately 82.4% of gross sales in 2014. The fact that we do not have long-term contracts with certain manufacturers means that they could cease manufacturing these products at any time and for any reason or initiate arbitrary and costly price increases, either of which could have a material adverse effect on our business and results from operations. Although we are in the process of negotiating long-term contracts with certain key manufacturers, we may not be able to reach agreement which could have a material adverse effect on our business.

Price increases for raw materials, labor, energy, transportation costs and other manufacturer demands could have an adverse impact on our margins.

The costs to manufacture and distribute our products are subject to fluctuation based on a variety of factors. Increases in commodity raw material (including resins), packaging component prices, and labor, energy and fuel costs and other input costs could have a significant impact on our financial condition and results from operations. If we are unable to increase the price for our products or continue to achieve cost savings in a rising cost environment, such cost increases would reduce our gross margins and could have a material adverse effect on our financial condition and results from operations. If we increase the price for our products in order to maintain our current gross margins for our products, such increase may adversely affect demand for, and sales of, our products, which could have a material adverse effect on our business, financial condition and results of operations.

Disruption in our St. Louis distribution center may prevent us from meeting customer demand, and our sales and profitability may suffer as a result.

We manage our product distribution in the continental United States through one primary distribution center near St. Louis, Missouri. A serious disruption, such as a flood or fire, to our primary distribution center could damage our inventory and could materially impair our ability to distribute our products to customers in a timely manner or at a reasonable cost. We could incur significantly higher costs and experience longer lead times during the time required to reopen or replace our primary distribution center. As a result, any serious disruption could have a material adverse effect on our business, financial condition and results from operations.

Achievement of our strategic objectives requires the acquisition, or potentially the disposition, of certain brands or product lines, and these acquisitions and dispositions may not be successful.

The majority of our growth has been driven by acquiring other brands and companies. At any given time, we may be engaged in discussions with respect to possible acquisitions that are intended to enhance our product portfolio, enable us to realize cost savings and further diversify our category, customer and channel focus. Our ability to successfully grow through acquisitions depends on our ability to identify, negotiate, complete and integrate suitable acquisition candidates and to obtain any necessary

financing. However, we may not be able to identify and successfully negotiate suitable strategic acquisitions at attractive valuations, obtain financing for future acquisitions on satisfactory terms or otherwise complete future acquisitions. These efforts could divert the attention of our management and key personnel from our business operations. All acquisitions entail various risks such that after completing an acquisition, we may also experience:

- Difficulties achieving our expected returns;
- Difficulties in integrating any acquired companies, suppliers, personnel and products into our existing business;
- Difficulties in realizing the benefits of the acquired company or products;
- Higher costs of integration than we anticipated;
- Exposure to unexpected liabilities of the acquired business;
- Difficulties in retaining key employees of the acquired business who are necessary to operate the business;
- Difficulties in maintaining uniform standards, controls, procedures and policies throughout our acquired companies; or
- Adverse customer or stockholder reaction to the acquisition.

As a result, any acquisitions we pursue or complete could adversely impact our financial condition and results from operations.

In addition, any acquisition could adversely affect our operating results as a result of higher interest costs from any acquisition-related debt and higher amortization expenses related to the acquired intangible assets.

In the event that we decide to divest of a brand or product line, we may encounter difficulty finding, or be unable to find, a buyer on acceptable terms in a timely manner. The pursuit of divestitures could also divert management's attention from our business operations and result in a delay in our efforts to achieve our strategic objectives.

Our risks associated with doing business internationally increase as we expand our international footprint.

During 2015, 2014, and 2013, approximately 8.9%, 5.4% and 2.7%, respectively, of our total revenues were attributable to our international business. As of July 1, 2013, we acquired Care Pharmaceuticals, which markets and sells healthcare products in Australia. In addition, on April 30, 2014, we acquired the Hydralyte brand in Australia and New Zealand. We generally rely on brokers and distributors for the sale of our products in the foreign countries. Risks of doing business internationally include:

- Political instability or declining economic conditions in the countries or regions where we operate that adversely affect sales of our products;
- Currency controls that restrict or prohibit the payment of funds or the repatriation of earnings to the United States;
- Fluctuating foreign exchange rates that result in unfavorable increases in the price of our products or cause increases in the cost of certain products purchased from our foreign third-party manufacturers;
- Compliance with laws and regulations concerning ethical business practices;

Trade restrictions and exchange controls;

Difficulties in staffing and managing international operations;

Difficulty in protecting our intellectual property rights in these markets; and

Increased costs of compliance with general business and tax regulations in these countries or regions.

If new products and product line extensions do not gain widespread customer acceptance or are otherwise discontinued, the Company's financial performance could be impacted.

The Company's future performance and growth depends on its ability to successfully develop and introduce new products and product line extensions. We cannot be certain that we will achieve our innovation goals. The successful development and

introduction of new products involves substantial research, development, marketing and promotional expenditures, which the Company may be unable to recover if the new products do not gain widespread market acceptance. New product development and marketing efforts, including efforts to enter markets or product categories in which the Company has limited or no prior experience, have inherent risks. These risks include product development or launch delays, competitor actions, regulatory approval hurdles and the failure of new products and line extensions to achieve anticipated levels of market acceptance.

Regulatory matters governing our industry could have a significant negative effect on our sales and operating costs.

In both the United States and in our foreign markets, our operations are affected by extensive laws, governmental regulations, administrative determinations, court decisions and similar constraints. Such laws, regulations and other constraints exist at the federal, state and local levels in the United States and at analogous levels of government in foreign jurisdictions.

The formulation, manufacturing, packaging, labeling, distribution, importation, marketing, sale and storage of our products are subject to extensive regulation by various U.S. federal agencies, including the FDA, the FTC, the CPSC, the EPA, and by various agencies of the states, localities and foreign countries in which our products are manufactured, distributed, stored and sold. The FDC Act and FDA regulations require that the manufacturing processes of our third-party manufacturers of U.S. products must also comply with the FDA's GMPs. The FDA inspects our facilities and those of our third-party manufacturers periodically to determine if we and our third-party manufacturers are complying with GMPs. A history of general compliance in the past is not a guarantee that future GMPs will not mandate other compliance steps and associated expense.

If we or our third-party manufacturers or distributors fail to comply with applicable regulations, we could become subject to enforcement actions, significant penalties or claims, which could materially adversely affect our business, financial condition and results from operations. In addition, we could be required to:

• Suspend manufacturing operations;

• Modify product formulations or processes;

• Suspend the sale of products with non-complying specifications; or

• Change product labeling, packaging, marketing, or advertising, recall non-compliant products, or take other corrective action.

The adoption of new regulations or changes in the interpretations of existing regulations may result in significant compliance costs or the cessation of product sales and may adversely affect the marketing of our products, which could have a material adverse effect on our financial condition and results from operations.

In addition, we could be required for a variety of reasons to initiate product recalls, which we are currently conducting for a minor product and have done on several other occasions. Any product recalls could have a material adverse effect on our business, financial condition and results from operations.

In addition, our failure to comply with FTC or any other federal and state regulations, or with similar regulations in foreign markets, that cover our product claims and advertising, including direct claims and advertising by us, may result in enforcement actions and imposition of penalties, litigation by private parties, or otherwise materially adversely affect the distribution and sale of our products, which could have a material adverse effect on our business, financial condition and results from operations.

Product liability claims and product recalls and related negative publicity could adversely affect our sales and operating results.

From time to time we are subjected to various product liability claims. Claims could be based on allegations that, among other things, our products contain contaminants, include inadequate instructions or warnings regarding their use or include inadequate warnings concerning side effects and interactions with other substances. Whether or not successful, product liability claims could result in negative publicity that could adversely affect the reputation of our brands and our business, sales and operating results. Additionally, we may be required to pay for losses or injuries purportedly caused by our products. Also, if one of our products is found to be defective, we may be required to recall it, which we have done on several occasions. Recalls may result in substantial costs and negative publicity, as well as negatively impact inventory levels, which may adversely affect our business, sales and operating results.

We are dependent on consumers' perception of the safety and quality of our products. Negative consumer perception may arise from product liability claims and product recalls, regardless of whether such claims or recalls involve us or our products. The

mere publication of information asserting concerns about the safety of our products or the ingredients used in our products could have a material adverse effect on our business and results from operations. For example, several of our products contain the active ingredient acetaminophen, which is a pain reliever and fever reducer. Products containing acetaminophen have been the subject of recent negative publicity. We believe our products are safe and effective when used in accordance with label directions. However, adverse publicity about acetaminophen or other ingredients used in our products may discourage consumers from buying our products containing those ingredients, which would have an adverse impact on our sales.

In addition, although we maintain, and require our suppliers and third-party manufacturers to maintain, product liability insurance coverage, potential product liability claims may exceed the amount of insurance coverage or may be excluded under the terms of the policy, which could have a material adverse effect on our financial condition. In addition, in the future we may not be able to obtain adequate insurance coverage or we may be required to pay higher premiums and accept higher deductibles in order to secure adequate insurance coverage.

If we are unable to protect our intellectual property rights, our ability to compete effectively in the market for our products could be negatively impacted.

The market for our products depends to a significant extent upon the goodwill associated with our trademarks, trade names and patents. Our trademarks and trade names convey that the products we sell are “brand name” products. We believe consumers ascribe value to our brands, some of which are over 100 years old. We own or license the material trademarks, trade names and patents used in connection with the packaging, marketing and sale of our products. These rights prevent our competitors or new entrants to the market from using our valuable brand names and technologies. Therefore, trademark, trade name and patent protection is critical to our business. Although most of our material intellectual property is registered in the United States and in applicable foreign countries, we may not be successful in asserting protection. If we were to lose the exclusive right to use one or more of our intellectual property rights, the loss of such exclusive right could have a material adverse effect on our financial condition and results from operations.

In addition, other parties may infringe on our intellectual property rights and may thereby dilute the value of our brands in the marketplace. Brand dilution could cause confusion in the marketplace and adversely affect the value that consumers associate with our brands, which could negatively impact our business and sales. In addition, third parties may assert claims against our intellectual property rights, and we may not be able to successfully resolve those claims, which would cause us to lose the right to use the intellectual property subject to those claims. Such loss could have a material adverse effect on our financial condition and results from operations. Furthermore, from time to time, we may be involved in litigation in which we are enforcing or defending our intellectual property rights, which could require us to incur substantial fees and expenses and have a material adverse effect on our financial condition and results from operations.

We license certain of our trademarks to third party licensees, who are bound by their respective license agreements to protect our trademarks from infringement and adhere to defined quality requirements. If a licensee of our trademarks fails to adhere to the contractually defined quality requirements, our business and financial results could be negatively impacted if one of our brands suffers a substantial impairment to its reputation due to real or perceived quality issues. Further, if a licensee fails to protect one of our licensed trademarks from infringement, we might be required to take action, which could require us to incur substantial fees and expenses.

Virtually all of our assets consist of goodwill and intangibles and are subject to impairment risk.

As our financial statements indicate, virtually all of our assets consist of goodwill and intangibles, principally the trademarks, trade names and patents that we have acquired. On an annual basis, and otherwise when there is evidence

that events or changes in circumstances indicate that the carrying value of intangible assets might not be recoverable, we assess the potential impairment of our goodwill and other intangible assets. Upon any such evaluation, we may be required to record a significant charge in our financial statements, which would negatively impact our financial condition and results of operations. We recorded impairment charges in 2010 and 2009 for certain assets. If any of our brands sustain significant or prolonged declines in performance, we may be required to perform an interim impairment analysis. For example, if the Company's brand performance is weaker than projections used in valuation calculations, the value of such brands may become impaired. In the event that such analysis would result in the fair value being lower than the carrying value, we would be required to record an impairment charge. Should the value of those assets or other assets become further impaired or our financial condition is materially adversely affected in any way, we would not have tangible assets that could be sold to repay our liabilities. As a result, our creditors and investors may not be able to recoup the amount of the indebtedness that they have extended to us or the amount they have invested in us.

We have experienced declines in revenues and profitability of certain brands in the North American OTC Healthcare segment during the year ended March 31, 2015, compared to the same periods during the prior year. Sustained or significant future declines in revenue, profitability, other adverse changes in expected operating results, and/or unfavorable changes in other economic factors used to estimate fair values of certain brands, could indicate that fair value no longer exceeds the carrying value, in which case a non-cash impairment charge may be recorded in future periods. In particular, we continue to experience increasing competitive pressures for certain brands within our pediatric cough & cold and gastrointestinal product groups. Specifically, in the cough & cold product group, although we expected revenues to decline with the return to the market of competing products, such declines have been steeper than expected. Revenues from our Pediacare brand have declined significantly as compared to the corresponding periods in the prior year, due primarily to competition in the category, including new product introductions and lost distribution. As a result, we performed an interim impairment analysis during our third quarter ended December 31, 2014 and concluded that no impairment existed. Additionally, in conjunction with a strategic review of our brands during the fourth quarter ended March 31, 2015 and our annual impairment review, we have reassessed the useful life of the Pediacare brand as of February 28, 2015 and determined it to be 20 years.

The aggregate fair value of the indefinite-lived intangible assets exceeded the carrying value by 42.4%. Three of the individual indefinite-lived trade names exceeded their carrying values by less than 10%. The associated carrying values of the three tradenames amount to \$146.5 million and the aggregate fair value exceeded the carrying value by 8.4%. None of the fair values of these individual trade names was less than 5% higher than their respective carrying values. Additionally, certain of our North American OTC healthcare brands have experienced recent declines in revenues and profitability. While the fair value of these reporting units exceeds the carrying value by more than 10%, should such declines continue, the fair value of the corresponding reporting units may no longer exceed their carrying value and we would be required to record an impairment charge.

The aggregate fair value of our reporting units exceeded the carrying value by 45.2%, with no reporting unit's fair value exceeding the carrying value by less than 10%. Significant judgment, and the use of estimates and assumptions, is required to estimate the fair value of reporting units, including estimating future cash flows, future market conditions, and determining the appropriate discount rates, growth rates, and operating margins, among others. Our discounted cash flow analyses take into account our assumptions on various items such as revenue and expense growth rates, which are based upon our historical experience and projections of future activity, factoring in customer demand, and a cost structure necessary to achieve the related revenues. Additionally, these discounted cash flow analyses take into account our expected amounts of working capital and weighted average cost of capital. To the extent that a reporting unit or intangible asset exceeds its fair value, we will recognize an impairment loss in an amount necessary to reduce the carrying value of the asset to its fair value. We will continue to assess intangible assets of our entire portfolio of brands at the product group level to identify conditions that indicate the carrying value may not be recoverable and perform impairment analysis as deemed prudent. We believe our assumptions are reasonable; however, there can be no assurance that our estimates and assumptions made for purposes of our impairment testing, at the annual date and the interim testing date, will prove to be accurate predictions of the future. Continued declines in revenues, higher advertising and promotional costs or a strategic change in direction could result in an impairment. Additionally, changes in the estimates and assumptions noted above, could result in a significant impairment charge in the future. It is not possible at this time to determine if any such future impairment charge would result.

We depend on third parties for intellectual property relating to some of the products we sell, and our inability to maintain or enter into future license agreements may result in our failure to meet customer demand, which would adversely affect our operating results.

We have licenses or manufacturing agreements with third parties that own intellectual property (e.g., formulae, copyrights, trademarks, trade dress, patents and other technology) used in the manufacture and sale of certain of our products. In the event that any such license or manufacturing agreement expires or is otherwise terminated, we will

lose the right to use the intellectual property covered by such license or agreement and will have to develop or obtain rights to use other intellectual property. Similarly, our rights could be reduced if the applicable licensor or third-party manufacturer fails to maintain or protect the licensed intellectual property because, in such event, our competitors could obtain the right to use the intellectual property without restriction. If this were to occur, we might not be able to develop or obtain replacement intellectual property in a timely or cost effective manner. Additionally, any modified products may not be well-received by customers. The consequences of losing the right to use or having reduced rights to such intellectual property could negatively impact our sales due to our failure to meet consumer demand for the affected products or require us to incur costs for development of new or different intellectual property, either of which could have a material adverse effect on our business, financial condition and results from operations. In addition, development of replacement products may be time-consuming and ultimately may not be feasible.

We depend on our key personnel, and the loss of the services provided by any of our executive officers or other key employees could harm our business and results of operations.

On April 22, 2015, the Company announced that Matthew M. Mannelly will retire from the Company as President and Chief Executive Officer and a member of the Board of Directors, effective June 1, 2015. Our success depends to a significant degree upon the transition to our new Chief Executive Officer and the continued contributions of our senior management, many of whom would be difficult to replace. These employees may voluntarily terminate their employment with us at any time. We may not be able to successfully retain existing personnel or identify, hire and integrate new personnel. While we believe we have developed depth and experience among our key personnel, our business may be adversely affected if one or more of these key individuals were to leave. We do not maintain any key-man or similar insurance policies covering any of our senior management or key personnel.

Our indebtedness could adversely affect our financial condition, and the significant amount of cash we need to service our debt will not be available to reinvest in our business.

At March 31, 2015, our total indebtedness, including current maturities, is approximately \$1,593.6 million.

Our indebtedness could:

• Increase our vulnerability to general adverse economic and industry conditions;

• Limit our ability to engage in strategic acquisitions;

• Require us to dedicate a substantial portion of our cash flow from operations toward repayment of our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions and investments and other general corporate purposes;

• Limit our flexibility in planning for, or reacting to, changes in our business and the markets in which we operate;

• Place us at a competitive disadvantage compared to our competitors that have less debt; and

• Limit, among other things, our ability to borrow additional funds on favorable terms or at all.

The terms of the indentures governing the 2012 Senior Notes and the 2013 Senior Notes, and the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver, allow us to issue and incur additional debt only upon satisfaction of the conditions set forth in those respective agreements. If new debt is added to current debt levels, the related risks described above could increase.

At March 31, 2015, we had \$44.9 million of borrowing capacity available under the 2012 ABL Revolver to support our operating activities.

Our operating flexibility is limited in significant respects by the restrictive covenants in our senior credit facility and the indentures governing our senior notes.

Our senior credit facility and the indentures governing our senior notes impose restrictions that could impede our ability to enter into certain corporate transactions, as well as increase our vulnerability to adverse economic and industry conditions, by limiting our flexibility in planning for, and reacting to, changes in our business and industry. These restrictions limit our ability to, among other things:

Borrow money or issue guarantees;

Pay dividends, repurchase stock from, or make other restricted payments to, stockholders;

Make investments or acquisitions;

Use assets as security in other transactions;

Sell assets or merge with or into other companies;

Enter into transactions with affiliates;

26

Sell stock in our subsidiaries; and

Direct our subsidiaries to pay dividends or make other payments to us.

Our ability to engage in these types of transactions is generally limited by the terms of the senior credit facility and the indentures governing the senior notes, even if we believe that a specific transaction would positively contribute to our future growth, operating results or profitability.

In addition, our senior credit facility requires us to maintain certain leverage, interest coverage and fixed charge ratios. Although we believe we can continue to meet and/or maintain the financial covenants contained in our credit agreement, our ability to do so may be affected by events outside our control. Covenants in our senior credit facility also require us to use 100% of the proceeds we receive from debt issuances to repay outstanding borrowings under our senior credit facility. Any failure by us to comply with the terms and conditions of the credit agreement and the indentures governing the senior notes could result in an event of default, which may allow our creditors to accelerate our debt and therefore have a material adverse effect on our financial condition.

The senior credit facility and the indentures governing the senior notes contain cross-default provisions that could result in the acceleration of all of our indebtedness.

The senior credit facility and the indentures governing the senior notes contain provisions that allow the respective creditors to declare all outstanding borrowings under one agreement to be immediately due and payable as a result of a default under another agreement. Consequently, failure to make a payment required by the indentures governing the senior notes, among other things, may lead to an event of default under the senior credit facility. Similarly, an event of default or failure to make a required payment at maturity under the senior credit facility, among other things, may lead to an event of default under the indentures governing the senior notes. If the debt under the senior credit facility and indentures governing the senior notes were to both be accelerated, the aggregate amount immediately due and payable as of March 31, 2015 would have been approximately \$1,593.6 million. We presently do not have sufficient liquidity to repay these borrowings in the event they were to be accelerated, and we may not have sufficient liquidity in the future to do so. Additionally, we may not be able to borrow money from other lenders to enable us to refinance our indebtedness. At March 31, 2015, the book value of our current assets was \$201.7 million. Although the book value of our total assets was \$2,669.4 million, approximately \$2,425.4 million was in the form of intangible assets, including goodwill of \$290.7 million, a significant portion of which may not be available to satisfy our creditors in the event our debt is accelerated.

Any failure to comply with the restrictions of the senior credit facility, the indentures governing the senior notes or any other subsequent financing agreements may result in an event of default. Such default may allow the creditors to accelerate the related debt, as well as any other debt to which the cross-acceleration or cross-default provisions apply. In addition, the lenders may be able to terminate any commitments they had made to supply us with additional funding. As a result, any default by us under our credit agreement, indentures governing the senior notes or any other financing agreement could have a material adverse effect on our financial condition.

Litigation may adversely affect our business, financial condition and results of operations.

Our business is subject to the risk of, and from time to time in the ordinary course of business we are involved in, litigation by employees, customers, consumers, suppliers, stockholders or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation, particularly class action lawsuits and regulatory actions, is difficult to assess or quantify. Plaintiffs in these types of lawsuits may seek recovery of very large or indeterminate amounts, and the magnitude of the potential loss relating to such lawsuits may

remain unknown for substantial periods of time. The cost to defend current and future litigation may be significant. There may also be adverse publicity associated with litigation that could decrease customer acceptance of our products, regardless of whether the allegations are valid or whether we are ultimately found liable. Conversely, we may be required to initiate litigation against others to protect the value of our intellectual property and the related goodwill or enforce an agreement or contract that has been breached. These matters are extremely time consuming and expensive, but may be necessary to protect our assets and realize the benefits of the agreements and contracts that we have negotiated. As a result, litigation may adversely affect our business, financial condition and results of operations.

The trading price of our common stock may be volatile.

The trading price of our common stock could be subject to significant fluctuations in response to several factors, some of which are beyond our control, including (i) general stock market volatility, (ii) variations in our quarterly operating results, (iii) our leveraged financial position, (iv) potential sales of additional shares of our common stock, (v) perceptions associated with the identification of material weaknesses in internal control over financial reporting, (vi) general trends in the consumer products

industry, (vii) changes by securities analysts in their estimates or investment ratings, (viii) the relative illiquidity of our common stock, (ix) voluntary withdrawal or recall of products, (x) news regarding litigation in which we are or become involved, and (xi) general marketplace conditions brought on by economic recession.

We have no current intention of paying dividends to holders of our common stock.

We presently intend to retain our earnings, if any, for use in our operations, to facilitate strategic acquisitions, or to repay our outstanding indebtedness and have no current intention of paying dividends to holders of our common stock. In addition, our debt instruments limit our ability to declare and pay cash dividends on our common stock. As a result, your only opportunity to achieve a return on your investment in our common stock will be if the market price of our common stock appreciates and you sell your shares at a profit.

Our annual and quarterly results from operations may fluctuate significantly and could fall below the expectations of securities analysts and investors due to a number of factors, many of which are beyond our control, resulting in a decline in the price of our securities.

Our annual and quarterly results from operations may fluctuate significantly because of numerous factors, including:

- The timing of when we make acquisitions or introduce new products;
- Our inability to increase the sales of our existing products and expand their distribution;
- The timing of the introduction or return to the market of competitive products and the introduction of store brand products;
- Adverse regulatory or market events in the United States or in our international markets;
- Changes in consumer preferences, spending habits and competitive conditions, including the effects of competitors' operational, promotional or expansion activities;
- Seasonality of our products;
- Fluctuations in commodity prices, product costs, utilities and energy costs, prevailing wage rates, insurance costs and other costs;
- The discontinuation and return of our products from retailers;
- Our ability to recruit, train and retain qualified employees, and the costs associated with those activities;
- Changes in advertising and promotional activities and expansion to new markets;
- Negative publicity relating to us and the products we sell;
- Litigation matters;
- Unanticipated increases in infrastructure costs;
- Impairment of goodwill or long-lived assets;

• Changes in interest rates; and

• Changes in accounting, tax, regulatory or other rules applicable to our business.

Our quarterly operating results and revenues may fluctuate as a result of any of these or other factors. Accordingly, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year, and revenues for any particular future period may decrease. In the future, operating results may fall below the expectations of securities analysts and investors. In that event, the market price of our outstanding securities could be adversely impacted.

Provisions in our amended and restated certificate of incorporation and Delaware law may discourage potential acquirers of our company, which could adversely affect the value of our securities.

Our amended and restated certificate of incorporation provides that our Board of Directors is authorized to issue from time to time, without further stockholder approval, up to five million shares of preferred stock in one or more series of preferred stock issuances. Our Board of Directors may establish the number of shares to be included in each series of preferred stock and determine, as applicable, the voting and other powers, designations, preferences, rights, qualifications, limitations and restrictions for such series of preferred stock. The shares of preferred stock could have preferences over our common stock with respect to dividends and liquidation rights. We may issue additional preferred stock in ways which may delay, defer or prevent a change in control of the Company without further action by our stockholders. The shares of preferred stock may be issued with voting rights that may adversely affect the voting power of the holders of our common stock by increasing the number of outstanding shares having voting rights, and by the creation of class or series voting rights.

Our amended and restated certificate of incorporation, as amended, contains additional provisions that may have the effect of making it more difficult for a third party to acquire or attempt to acquire control of our company. In addition, we are subject to certain provisions of Delaware law that limit, in some cases, our ability to engage in certain business combinations with significant stockholders.

These provisions, either alone, or in combination with each other, give our current directors and executive officers the ability to significantly influence the outcome of a proposed acquisition of the Company. These provisions would apply even if an acquisition or other significant corporate transaction was considered beneficial by some of our stockholders. If a change in control or change in management is delayed or prevented by these provisions, the market price of our outstanding securities could be adversely impacted.

We rely significantly on information technology. Any inadequacy, interruption, theft or loss of data, malicious attack, integration failure, failure to maintain the security, confidentiality or privacy of sensitive data residing on our systems or other security failure of that technology could harm our ability to effectively operate our business and damage the reputation of our brands.

The Company relies extensively on information technology systems, some of which are managed by third-party service providers, to conduct its business. These systems include, but are not limited to, programs and processes relating to internal communications and communications with other parties, ordering and managing materials from suppliers, converting materials to finished products, shipping product to customers, billing customers and receiving and applying payment, processing transactions, summarizing and reporting results of operations, complying with regulatory, legal or tax requirements, collecting and storing customer, consumer, employee, investor, and other stakeholder information and personal data, and other processes necessary to manage the Company's business.

Increased information technology security threats and more sophisticated computer crime, including advanced persistent threats, pose a potential risk to the security of the information technology systems, networks, and services of the Company, its customers and other business partners, as well as the confidentiality, availability, and integrity of the data of the Company, its customers and other business partners. As a result, the Company's information technology systems, networks or service providers could be damaged or cease to function properly or the Company could suffer a loss or disclosure of business, personal or stakeholder information, due to any number of causes, including catastrophic events, power outages and security breaches. The Company has conducted regular security audits by an outside firm to address any potential service interruptions or vulnerabilities. However, if these plans do not provide effective protection, the Company may suffer interruptions in its ability to manage or conduct its operations, which may adversely affect its business. The Company may need to expend additional resources in the future to continue to protect against, or to address problems caused by, any business interruptions or data security breaches.

Any business interruptions or data security breaches, including cyber security breaches resulting in private data disclosure, could result in lawsuits or regulatory proceedings, damage the Company's reputation or adversely impact the Company's results of operations and financial condition.

Our information technology systems may be susceptible to disruptions.

We utilize information technology systems to improve the effectiveness of our operations and support our business, including systems to support financial reporting and an enterprise resource planning system. During post-production and future enterprise resource planning phases, we could be subject to transaction errors, processing inefficiencies and other business disruptions that could lead to the loss of revenue or inaccuracies in our financial information. The occurrence of these or other challenges could disrupt our information technology systems and adversely affect our operations.

Changes in our provision for income taxes or adverse outcomes resulting from examination of our income tax returns could adversely affect our results.

Our provision for income taxes is subject to volatility and could be adversely affected by several factors, some of which are outside of our control, including:

- changes in the income allocation methods for state taxes, and the determination of which states or countries have jurisdiction to tax our Company;

- an increase in non-deductible expenses for tax purposes, including certain stock-based compensation, executive compensation and impairment of goodwill;

- transfer pricing adjustments;

- tax assessments resulting from income tax audits or any related tax interest or penalties that could significantly affect our income tax provision for the period in which the settlement takes place;

- a change in our decision to indefinitely reinvest foreign earnings;

- changes in accounting principles; and

- changes in tax laws or related interpretations, accounting standards, regulations, and interpretations in multiple tax jurisdictions in which we operate.

Significant judgment is required to determine the recognition and measurement attribute prescribed in FASB ASC 740. As a multinational corporation, we conduct our business in many countries and are subject to taxation in many jurisdictions. The taxation of our business is subject to the application of multiple and sometimes conflicting tax laws and regulations as well as multinational tax conventions. Our effective tax rate is dependent upon the availability of tax credits and carryforwards. The application of tax laws and regulations is subject to legal and factual interpretation, judgment and uncertainty. Tax laws themselves are subject to change as a result of changes in fiscal policy, changes in legislation, and the evolution of regulations and court rulings. Consequently, taxing authorities may impose tax assessments or judgments against us that could materially impact our tax liability and/or our effective income tax rate.

In addition, we may be subject to examination of our income tax returns by the Internal Revenue Service and other tax authorities. If tax authorities challenge the relative mix of our U.S. and international income, or successfully assert the jurisdiction to tax our earnings, our future effective income tax rates could be adversely affected.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our corporate headquarters is located in Tarrytown, New York, a suburb of New York City. Primary functions performed at the Tarrytown facility include senior management, marketing, sales, operations, quality control and regulatory affairs, finance and legal. We believe our Tarrytown facility is adequate for these functions, and the lease expires on September 30, 2020. We also have an administrative center in Jackson, Wyoming, which we also believe is adequate for our needs there. Primary functions performed at the Jackson facility include back office functions, such as invoicing, credit and collection, general ledger and customer service. The lease on the Jackson facility expires on December 31, 2015; however, we have the option to renew the lease on an annual basis. All of our facilities serve the North American OTC Healthcare, International OTC Healthcare, and Household Cleaning segments.

ITEM 3. LEGAL PROCEEDINGS

We are involved from time to time in routine legal matters and other claims incidental to our business. We review outstanding claims and proceedings internally and with external counsel as necessary to assess probability and amount of potential loss. These assessments are re-evaluated at each reporting period and as new information becomes available to determine whether a reserve should be established or if any existing reserve should be adjusted. The actual cost of resolving a claim or proceeding ultimately may be substantially different than the amount of the recorded reserve. In addition, because it is not permissible under GAAP to establish a litigation reserve until the loss is both probable and estimable, in some cases there may be insufficient time to establish a reserve prior to the actual incurrence of the loss (upon verdict and judgment at trial, for example, or in the case of a quickly negotiated settlement). We believe the resolution of routine matters and other incidental claims, taking our reserves into account, will not have a material adverse effect on our business, financial condition or results from operations.

ITEM 4. MINE SAFETY DISCLOSURES

None.

Part II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock is listed on The New York Stock Exchange ("NYSE") under the symbol "PBH." The high and low sales prices of our common stock as reported by the NYSE for the two most recently completed fiscal years on a quarterly basis and the current year through April 30, 2015 are as follows:

	High	Low
Year Ending March 31, 2016		
April 1, 2015 - April 30, 2015	\$45.00	\$39.10
Year Ended March 31, 2015		
Quarter Ended:		
June 30, 2014	\$35.95	\$25.94
September 30, 2014	35.84	30.55
December 31, 2014	38.15	30.02
March 31, 2015	43.36	33.25
Year Ended March 31, 2014		
Quarter Ended:		
June 30, 2013	\$35.21	\$25.51
September 30, 2013	35.98	29.02
December 31, 2013	36.69	29.34
March 31, 2014	36.02	24.94

Unregistered Sales of Equity Securities and Use of Proceeds

There were no equity securities sold by us during the years ended March 31, 2015, 2014, or 2013 that were not registered under the Securities Act.

There were no purchases of shares of our common stock made during the quarter ended March 31, 2015, by or on behalf of us or any "affiliated purchaser," as defined by Rule 10b-18(a)(3) of the Exchange Act.

Holders

As of May 1, 2015, there were 39 holders of record of our common stock. The number of record holders does not include beneficial owners whose shares are held in the names of banks, brokers, nominees or other fiduciaries.

Dividend Policy

Common Stock

We have not in the past paid, and do not expect for the foreseeable future to pay, cash dividends on our common stock. Instead, we anticipate that all of our earnings in the foreseeable future will be used in our operations, to facilitate strategic acquisitions, or to pay down our outstanding indebtedness. Any future determination to pay

dividends will be at the discretion of our Board of Directors and will depend, among other factors, on our results from operations, financial condition, capital requirements and contractual restrictions limiting our ability to declare and pay cash dividends, including restrictions under our 2012 Term Loan and the indentures governing our senior notes, and any other considerations our Board of Directors deems relevant.

Adjustments to Executive Compensation

In May 2015, the Compensation Committee (the "Compensation Committee") of the Board of Directors of the Company approved the following additional equity grants under the Company's 2005 Long-Term Equity Incentive Plan (the "Plan") for outstanding performance in connection with the integration of the Hydralyte and Insight acquisitions, respectively: (i) Mr. Parkinson, 7,500 restricted stock units and (ii) Mr. Migaki, 7,500 restricted stock units, all of which will vest in three approximately equal annual installments beginning on the first anniversary of the date of the grant.

The Compensation Committee also approved the following additional equity grants under the Plan in connection with retention of key executives: (i) Mr. Connors, 50,000 restricted stock units, (ii) Mr. Migaki, 40,000 restricted stock units, (iii) Mr. Parkinson, 17,500 restricted stock units, (iv) Mr. Cowley, 10,000 restricted stock units and (v) Ms. Boyko, 5,000 restricted stock units, all of which vest entirely on the third anniversary of the date of grant.

Part III, Item 12 of this Annual Report on Form 10-K is incorporated herein by reference.

PERFORMANCE GRAPH

The following graph (“Performance Graph”) compares our cumulative total stockholder return since March 31, 2010, with the cumulative total stockholder return for the Standard & Poor's SmallCap 600 Index, the Russell 2000 Index and our peer group index. The Company is included in each of the Standard & Poor's SmallCap 600 Index and the Russell 2000 Index. The Performance Graph assumes that the value of the investment in the Company's common stock and each index was \$100.00 on March 31, 2010. The Performance Graph was also prepared based on the assumption that all dividends paid, if any, were reinvested. The peer group index was established in 2015 by the Company in connection with research regarding improvements to our executive compensation program in light of the significant recent growth of the Company. Based on the Company's use of the peer group for executive compensation benchmarking purposes, we believe the peer group should be included in the Performance Graph.

Company/Market/Peer Group	March 31, 2010	2011	2012	2013	2014	2015
Prestige Brands Holdings, Inc.	\$100.00	\$127.78	\$194.22	\$285.44	\$302.78	\$476.56
Russell 2000 Index	100.00	125.79	125.56	146.03	182.39	197.37
S&P SmallCap 600 Index	100.00	125.27	131.56	152.80	195.29	212.32
New Peer Group Index ⁽¹⁾	100.00	130.68	190.40	200.61	263.89	405.49
Old Peer Group Index ⁽²⁾	100.00	129.52	149.82	197.24	290.64	340.83

The New Peer Group Index is a self-constructed peer group consisting of companies in the consumer products industry with comparable revenues and market capitalization, from which the Company has been excluded. The new peer group index was constructed in 2015 in connection with the Company's analysis of its compensation (1) program in light of the Company's significant recent growth. The new peer group index is comprised of: (i) B&G Food Holdings Corp., (ii) Hain Celestial Group, Inc., (iii) Church & Dwight Co., Inc., (iv) Helen of Troy, Ltd., (v) Monster Beverage Corp., (vi) Impax Laboratories, Inc., (vii) Snyders-Lance Inc., (viii) Revlon, Inc., (ix) Lancaster Colony Corp, and (x) Akorn, Inc.

The Old Peer Group Index is a self-constructed peer group consisting of companies in the consumer products (2) industry with comparable revenues and market capitalization, from which the Company has been excluded. The old peer group index was constructed in 2013 in connection with the Company's analysis of its executive compensation program. The

old peer group index is comprised of: (i) B&G Food Holdings Corp., (ii) Hain Celestial Group, Inc., (iii) Hi Tech Pharmacal Co. Inc., (iv) Helen of Troy, Ltd., (v) Inter Parfums, Inc., (vi) Lifetime Brands, Inc., (vii) Maidenform Brands, Inc., (viii) Blyth Inc., (ix) Elizabeth Arden Inc., (x) WD-40 Company, (xi) Zep, Inc., (xii) Libbey Inc., (xiii) Seneca Foods Corp., (xiv) Par Pharmaceutical Companies Inc., (xv) Snyders-Lance Inc., and (xvi) Lancaster Colony Corp.

The Performance Graph shall not be deemed incorporated by reference by any general statement incorporating by reference this Annual Report on Form 10-K into any filing under the Securities Act or the Exchange Act, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under such Acts.

Cash and cash equivalents	\$21,318	\$28,331	\$15,670	\$19,015	\$13,334
Total assets	2,669,405	1,795,663	1,739,799	1,758,276	1,056,918
Total long-term debt, including current maturities	1,593,600	937,500	978,000	1,135,000	492,000
Stockholders' equity	627,624	563,360	477,943	402,728	361,832

(1) For 2015, 2014, 2013, 2012, and 2011, cost of sales included \$2.2 million, \$0.6 million, \$6.1 million, \$1.8 million and \$7.3 million, respectively, of charges related to inventory step-up and other costs associated with acquisitions.

For 2015, 2014, 2012, and 2011, general and administrative expense included \$13.9 million, \$1.1 million, \$13.8 million, and \$7.7 million, respectively, of costs related to acquisitions. For 2012, an additional \$1.7 million of unsolicited offer defense costs was included in general and administrative expense.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations should be read together with the “Selected Financial Data” and the Consolidated Financial Statements and related notes included elsewhere in this Annual Report on Form 10-K. This discussion and analysis may contain forward-looking statements that involve certain risks, assumptions and uncertainties that could cause actual results to differ materially from those implied or described by the forward-looking statements. Future results could differ materially from the discussion that follows for many reasons, including the factors described in Part I, Item 1A “Risk Factors” in this Annual Report on Form 10-K, as well as those described in future reports filed with the SEC.

General

We are engaged in the marketing, sales and distribution of well-recognized, brand name OTC healthcare and household cleaning products to mass merchandisers, drug stores, supermarkets, and club, convenience, and dollar stores in North America (the United States and Canada) and in Australia and certain other international markets. We use the strength of our brands, our established retail distribution network, a low-cost operating model and our experienced management team to our competitive advantage.

We have grown our brand portfolio both organically and through acquisitions. We develop our existing brands by investing in new product lines, brand extensions and strong advertising support. Acquisitions of OTC brands have also been an important part of our growth strategy. We have acquired strong and well-recognized brands from consumer products and pharmaceutical companies. While many of these brands have long histories of brand development and investment, we believe that, at the time we acquired them, most were considered “non-core” by their previous owners. As a result, these acquired brands did not benefit from adequate management focus and marketing support during the period prior to their acquisition, which created significant opportunities for us to reinvigorate these brands and improve their performance post-acquisition. After adding a core brand to our portfolio, we seek to increase its sales, market share and distribution in both existing and new channels through our established retail distribution network. We pursue this growth through increased spending on advertising and promotional support, new sales and marketing strategies, improved packaging and formulations, and innovative development of brand extensions.

Acquisitions

Acquisition of Insight Pharmaceuticals

On September 3, 2014, the Company completed the acquisition of Insight, a marketer and distributor of feminine care and other OTC healthcare products, for \$753.2 million in cash. The closing followed the FTC's approval of the acquisition and was finalized pursuant to the terms of the purchase agreement announced on April 25, 2014. Pursuant to the Insight purchase agreement, the Company acquired 27 OTC brands sold in North America (including related trademarks, contracts and inventory), which extended the Company's portfolio of OTC brands to include a leading feminine care platform in the United States and Canada anchored by Monistat, the leading North American brand in OTC yeast infection treatment. The acquisition also added brands to the Company's cough/cold, pain relief, ear care and dermatological platforms. In connection with the FTC's approval of the Insight acquisition, we sold one of the competing brands that we acquired from Insight on the same day as the Insight closing. Insight is primarily included in our North American OTC Healthcare segment.

The Insight acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

We prepared an analysis of the fair values of the assets acquired and liabilities assumed as of the date of acquisition. The following table summarizes our preliminary allocation of the assets acquired and liabilities assumed as of the September 3, 2014 acquisition date.

(In thousands) September 3, 2014

Cash acquired	\$ 3,507
Accounts receivable	25,784
Inventories	23,559
Deferred income tax assets - current	860
Prepays and other current assets	1,407
Property, plant and equipment	2,308
Goodwill	103,255
Intangible assets	724,374
Total assets acquired	885,054
Accounts payable	16,079
Accrued expenses	8,003
Deferred income tax liabilities - long term	107,799
Total liabilities assumed	131,881
Total purchase price	\$ 753,173

Based on this analysis, we allocated \$599.6 million to indefinite-lived intangible assets and \$124.8 million to finite-lived intangible assets. We are amortizing the purchased finite-lived intangible assets on a straight-line basis over an estimated weighted average useful life of 16.2 years. The weighted average remaining life for finite-lived intangible assets at March 31, 2015 was 15.6 years.

We also recorded goodwill of \$103.3 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. The full amount of goodwill is not deductible for income tax purposes.

The operating results of Insight have been included in our Consolidated Financial Statements beginning September 3, 2014. Revenues of the acquired Insight operations for the year ended March 31, 2015 were \$97.1 million. On September 3, 2014, we sold one of the brands we acquired from the Insight acquisition for \$18.5 million, for which we had allocated \$17.7 million, \$0.6 million and \$0.2 million to intangible assets, inventory and property, plant and equipment, respectively.

The following table provides our unaudited pro forma revenues, net income and net income per basic and diluted common share had the results of Insight's operations been included in our operations commencing on April 1, 2013, based upon available information related to Insight's operations. This pro forma information is not necessarily indicative either of the combined results of operations that actually would have been realized by us had the Insight acquisition been consummated at the beginning of the period for which the pro forma information is presented, or of future results.

(In thousands, except per share data)	Year Ended March 31,	
	2015	2014
	(Unaudited)	
Revenues	\$ 783,217	\$ 767,897
Net income	\$ 86,844	\$ 82,762
Earnings per share:		
Basic	\$ 1.66	\$ 1.60

Diluted	\$ 1.65	\$ 1.58
---------	---------	---------

Acquisition of the Hydralyte brand

On April 30, 2014, we completed the acquisition of the Hydralyte brand in Australia and New Zealand from The Hydration Pharmaceuticals Trust of Victoria, Australia, which was funded through a combination of cash on hand and our existing senior secured credit facility.

39

Hydralyte is the leading OTC brand in oral rehydration in Australia and is marketed and sold through our Care Pharma subsidiary. Hydralyte is available in pharmacies in multiple forms and is indicated for oral rehydration following diarrhea, vomiting, fever, heat and other ailments. Hydralyte is included in our International OTC Healthcare segment.

The Hydralyte acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

We prepared an analysis of the fair values of the assets acquired and liabilities assumed as of the date of acquisition. The following table summarizes our allocation of the assets acquired and liabilities assumed as of the April 30, 2014 acquisition date.

(In thousands)	April 30, 2014
Inventories	\$ 1,970
Property, plant and equipment, net	1,267
Goodwill	1,224
Intangible assets, net	73,580
Total assets acquired	78,041
Accrued expenses	38
Other long term liabilities	12
Total liabilities assumed	50
Net assets acquired	\$ 77,991

Based on this analysis, we allocated \$73.6 million to indefinite-lived intangible assets and no allocation was made to finite-lived intangible assets.

We also recorded goodwill of \$1.2 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. The full amount of goodwill is not deductible for income tax purposes.

The pro forma effect of this acquisition on revenues and earnings was not material.

Acquisition of Care Pharmaceuticals Pty Ltd.

On July 1, 2013, we completed the acquisition of Care Pharma, which was funded through a combination of our existing senior secured credit facility and cash on hand.

The Care Pharma brands include the Fess line of cold/allergy and saline nasal health products, which is the leading saline spray for both adults and children in Australia. Other key brands include Painstop analgesic, Rectogesic for rectal discomfort, and the Fab line of nutritional supplements. Care Pharma also carries a line of brands for children including Little Allergies, Little Eyes, and Little Coughs. The brands acquired are complementary to our OTC Healthcare portfolio.

This acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

We prepared an analysis of the fair values of the assets acquired and liabilities assumed as of the date of acquisition. The following table summarizes our allocation of the assets acquired and liabilities assumed as of the July 1, 2013 acquisition date.

40

(In thousands)	July 1, 2013
Cash acquired	\$ 1,546
Accounts receivable	1,658
Inventories	2,465
Deferred income tax assets	283
Prepays and other current assets	647
Property, plant and equipment	163
Goodwill	23,122
Intangible assets	31,502
Total assets acquired	61,386
Accounts payable	1,537
Accrued expenses	2,788
Other long term liabilities	300
Total liabilities assumed	4,625
Net assets acquired	\$ 56,761

Based on this analysis, we allocated \$29.8 million to indefinite-lived intangible assets and \$1.7 million to finite-lived intangible assets. We are amortizing the purchased finite-lived intangible assets on a straight-line basis over an estimated weighted average useful life of 15.1 years. The weighted average remaining life for finite-lived intangible assets at March 31, 2015 was 11.8 years.

We also recorded goodwill of \$23.1 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. The full amount of goodwill is deductible for income tax purposes.

The pro-forma effect of this acquisition on revenues and earnings was not material.

Sale of the Phazyme Brand

On October 31, 2012, we divested the Phazyme gas treatment brand, which was a non-core OTC brand that we acquired from GSK in January 2012. We received \$21.7 million from the divestiture on October 31, 2012 and the remaining \$0.6 million on January 4, 2013. The proceeds were used to repay debt. No significant gain or loss was recorded as a result of the sale.

Critical Accounting Policies and Estimates

Our significant accounting policies are described in the notes to the Consolidated Financial Statements included elsewhere in this Annual Report on Form 10-K. While all significant accounting policies are important to our Consolidated Financial Statements, certain of these policies may be viewed as being critical. Such policies are those that are both most important to the portrayal of our financial condition and results from operations and require our most difficult, subjective and complex estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses or the related disclosure of contingent assets and liabilities. These estimates are based on our historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates. The most critical accounting policies are as follows:

Revenue Recognition

We recognize revenue when the following revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists; (ii) the selling price is fixed or determinable; (iii) the product has been shipped and the customer takes ownership and assumes the risk of loss; and (iv) collection of the resulting receivable is reasonably assured. We have determined that these criteria are met and the transfer of risk of loss generally occurs when product is received by the customer, and, accordingly we recognize revenue at that time. Provision is made for estimated discounts related to customer payment terms and estimated product returns at the time of sale based on our historical experience.

As is customary in the consumer products industry, we participate in the promotional programs of our customers to enhance the sale of our products. The cost of these promotional programs varies based on the actual number of units sold during a finite period of time. These promotional programs consist of direct-to-consumer incentives, such as coupons and temporary price reductions, as well as incentives to our customers, such as allowances for new distribution, including slotting fees, and cooperative advertising. Estimates of the costs of these promotional programs are based on (i) historical sales experience, (ii) the current promotional offering, (iii) forecasted data, (iv) current market conditions, and (v) communication with customer purchasing/marketing personnel. We recognize the cost of such sales incentives by recording an estimate of such cost as a reduction of revenue, at the later of (a) the date the related revenue is recognized, or (b) the date when a particular sales incentive is offered. At the completion of the promotional program, these estimated amounts are adjusted to actual amounts. Our related promotional expense for 2015, 2014, and 2013 was \$53.2 million, \$33.4 million, and \$35.6 million, respectively. In 2015, 2014, and 2013, we participated in over 14,000, 10,000, and 9,000 promotional campaigns, respectively. Of those campaigns, approximately 1,900, 1,700, and 1,400 payments were in excess of \$5,000 in 2015, 2014, and 2013, respectively. For all three years, the average cost per campaign was less than \$5,000. We believe that the estimation methodologies employed, combined with the nature of the promotional campaigns, make the likelihood remote that our obligation would be misstated by a material amount. However, for illustrative purposes, had we underestimated the promotional program rate by 10% for each of 2015, 2014, and 2013, our operating income would have been reduced by approximately \$5.3 million, \$3.3 million, and \$3.6 million, respectively. Net income would have been adversely affected by approximately \$3.4 million, \$2.1 million, and \$2.2 million, respectively.

We also periodically run coupon programs in Sunday newspaper inserts, on our product websites, or as on-package instant redeemable coupons. We utilize a national clearing house to process coupons redeemed by customers. At the time a coupon is distributed, a provision is made based upon historical redemption rates for that particular product, information provided as a result of the clearing house's experience with coupons of similar dollar value, the length of time the coupon is valid, and the seasonality of the coupon drop, among other factors. During 2015, we had 341 coupon events. The amount recorded against revenues and accrued for these events during the year was \$5.2 million. Cash settlement of coupon redemptions during the year was \$3.6 million.

Allowances for Product Returns

Due to the nature of the consumer products industry, we are required to estimate future product returns. Accordingly, we record an estimate of product returns concurrent with recording sales. Such estimates are made after analyzing (i) historical return rates, (ii) current economic trends, (iii) changes in customer demand, (iv) product acceptance, (v) seasonality of our product offerings, and (vi) the impact of changes in product formulation, packaging and advertising.

We construct our returns analysis by looking at the previous year's return history for each brand. Subsequently, each month, we estimate our current return rate based upon an average of the previous twelve months' return rate and review that calculated rate for reasonableness, giving consideration to the other factors described above. Our historical return rate has been relatively stable; for example, for the years ended March 31, 2015, 2014 and 2013, returns represented 4.2%, 2.2% and 2.9%, respectively, of gross sales. At March 31, 2015 and 2014, the allowance for sales returns was \$8.6 million and \$7.0 million, respectively.

While we utilize the methodology described above to estimate product returns, actual results may differ materially from our estimates, causing our future financial results to be adversely affected. Among the factors that could cause a material change in the estimated return rate would be significant unexpected returns with respect to a product or products that comprise a significant portion of our revenues. Based on the methodology described above and our actual returns experience, management believes the likelihood of such an event remains remote. As noted, over the last three years our actual product return rate has stayed within a range of 4.2% to 2.2% of gross sales. A hypothetical increase of 0.1% in our estimated return rate as a percentage of gross sales would have decreased our reported sales and operating income for 2015 by approximately \$0.8 million. Net income would have been reduced by

approximately \$0.5 million.

Lower of Cost or Market for Obsolete and Damaged Inventory

We value our inventory at the lower of cost or market value. Accordingly, we reduce our inventories for the diminution of value resulting from product obsolescence, damage or other issues affecting marketability, equal to the difference between the cost of the inventory and its estimated market value. Factors utilized in the determination of estimated market value include (i) current sales data and historical return rates, (ii) estimates of future demand, (iii) competitive pricing pressures, (iv) new product introductions, (v) product expiration dates, and (vi) component and packaging obsolescence.

Many of our products are subject to expiration dating. As a general rule, our customers will not accept goods with expiration dating of less than 12 months from the date of delivery. To monitor this risk, management utilizes a detailed compilation of inventory with expiration dating between zero and 15 months and reserves for 100% of the cost of any item with expiration dating of 12 months or less. Inventory obsolescence costs charged to operations for 2015, 2014, and 2013 were \$2.9 million, \$2.5 million and \$3.2 million, respectively, or 0.4%, 0.1% and 0.5%, respectively, of net sales.

Allowance for Doubtful Accounts

In the ordinary course of business, we grant non-interest bearing trade credit to our customers on normal credit terms. We maintain an allowance for doubtful accounts receivable, which is based upon our historical collection experience and expected collectability of the accounts receivable. In an effort to reduce our credit risk, we (i) establish credit limits for all of our customer relationships, (ii) perform ongoing credit evaluations of our customers' financial condition, (iii) monitor the payment history and aging of our customers' receivables, and (iv) monitor open orders against an individual customer's outstanding receivable balance.

We establish specific reserves for those accounts which file for bankruptcy, have no payment activity for 180 days, or have reported major negative changes to their financial condition. The allowance for bad debts amounted to 1.3% and 1.6% of accounts receivable at March 31, 2015 and 2014, respectively. Bad debt expense in each of the years 2015, 2014, and 2013 was approximately \$0.1 million, \$0.1 million, \$0.3 million, respectively, representing less than 0.1% of net sales for each of 2015, 2014, and 2013.

While management believes that it is diligent in its evaluation of the adequacy of the allowance for doubtful accounts, an unexpected event, such as the bankruptcy filing of a major customer, could have an adverse effect on our financial results. A hypothetical increase of 0.1% in our bad debt expense as a percentage of net sales in 2015 would have resulted in a decrease of less than \$0.1 million in reported operating income and reported net income.

Valuation of Intangible Assets and Goodwill

Goodwill and intangible assets amounted to \$2,425.4 million and \$1,585.7 million at March 31, 2015 and 2014, respectively. At March 31, 2015 and 2014, goodwill and intangible assets were apportioned among similar product groups within our three operating segments as follows:

(In thousands)	March 31, 2015			Consolidated
	North American OTC Healthcare	International OTC Healthcare	Household Cleaning	
Goodwill	\$263,411	\$20,440	\$6,800	\$290,651
Intangible assets, net				
Indefinite-lived:				
Analgesics	341,122	2,077	—	343,199

The increase in goodwill of \$99.7 million for 2015 was primarily due to the acquisition of Insight and Hydralyte, which increased goodwill by \$103.3 million and \$1.2 million, respectively, offset partially by the effects of foreign currency of \$4.1 million and a decrease of \$0.7 million resulting from the sale of rights to use of the Comet brand in certain Eastern European countries. The increase in the indefinite-lived intangible assets of \$599.5 million for 2015 was due to the acquisition of Insight and Hydralyte, which increased indefinite-lived intangible assets by \$599.6 million and \$73.6 million, respectively, offset by a reclassification of the PediaCare brand to finite-lived of \$46.5 million, a reduction of \$9.5 million due to the sale of certain Eastern European rights of the Comet brand, and the effects of foreign currency of \$17.7 million. The increase in the finite-lived intangible assets of \$140.4 million for 2015 was primarily due to the acquisition of Insight, which increased finite-lived brands by \$107.1 million, the reclassification of the PediaCare brand of \$46.5 million from indefinite-lived, offset by amortization of \$13.0 million and the effects of foreign currency of \$0.2 million.

Our Chloraseptic, Clear Eyes, Compound W, Dramamine, Efferdent, Luden's, PediaCare, BC, Goody's, Ecotrin, Beano, Gaviscon, Tagamet, Fiber Choice, Dermoplast, New-Skin, Sominex, and Debrox brands comprise the majority of the value of the intangible assets within the OTC Healthcare segments. The Chore Boy, Comet and Spic and Span

brands comprise substantially all of the intangible asset value within the Household Cleaning segment.

Goodwill and intangible assets comprise substantially all of our assets. Goodwill represents the excess of the purchase price over the fair value of assets acquired and liabilities assumed in a purchase business combination. Intangible assets generally represent

45

our trademarks, brand names and patents. When we acquire a brand, we are required to make judgments regarding the value assigned to the associated intangible assets, as well as their respective useful lives. Management considers many factors both prior to and after the acquisition of an intangible asset in determining the value, as well as the useful life, assigned to each intangible asset that we acquire or continue to own and promote. The most significant factors are:

Brand History

A brand that has been in existence for a long period of time (e.g., 25, 50 or 100 years) generally warrants a higher valuation and longer life (sometimes indefinite) than a brand that has been in existence for a very short period of time. A brand that has been in existence for an extended period of time generally has been the subject of considerable investment by its previous owner(s) to support product innovation and advertising and promotion.

Market Position

Consumer products that rank number one or two in their respective market generally have greater name recognition and are known as quality product offerings, which warrant a higher valuation and longer life than products that lag in the marketplace.

Recent and Projected Sales Growth

Recent sales results present a snapshot as to how the brand has performed in the most recent time periods and represent another factor in the determination of brand value. In addition, projected sales growth provides information about the strength and potential longevity of the brand. A brand that has both strong current and projected sales generally warrants a higher valuation and a longer life than a brand that has weak or declining sales. Similarly, consideration is given to the potential investment, in the form of advertising and promotion, required to reinvigorate a brand that has fallen from favor.

History of and Potential for Product Extensions

Consideration is given to the product innovation that has occurred during the brand's history and the potential for continued product innovation that will determine the brand's future. Brands that can be continually enhanced by new product offerings generally warrant a higher valuation and longer life than a brand that has always "followed the leader".

After consideration of the factors described above, as well as current economic conditions and changing consumer behavior, management prepares a determination of an intangible asset's value and useful life based on its analysis. Under accounting guidelines, goodwill is not amortized, but must be tested for impairment annually, or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below the carrying amount. In a similar manner, indefinite-lived assets are not amortized. They are also subject to an annual impairment test, or more frequently if events or changes in circumstances indicate that the asset may be impaired. Additionally, at each reporting period an evaluation must be made to determine whether events and circumstances continue to support an indefinite useful life. Intangible assets with finite lives are amortized over their respective estimated useful lives and must also be tested for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable and exceeds its fair value.

On an annual basis, during the fourth fiscal quarter, or more frequently if conditions indicate that the carrying value of the asset may not be recovered, management performs a review of both the values and, if applicable, useful lives assigned to goodwill and intangible assets and tests for impairment.

We report goodwill and indefinite-lived intangible assets in three operating segments: North American OTC Healthcare, International OTC Healthcare and Household Cleaning. We identify our reporting units in accordance with the FASB ASC Subtopic 280. The carrying value and fair value for intangible assets and goodwill for a reporting unit are calculated based on key assumptions and valuation methodologies previously discussed. As a result, any

material changes to these assumptions could require us to record additional impairment in the future. In the past, we have experienced declines in revenues and profitability of certain brands in the North American OTC Healthcare and Household Cleaning segments. Sustained or significant future declines in revenue, profitability, other adverse changes in expected operating results, and/or unfavorable changes in other economic factors used to estimate fair values of certain brands could indicate that fair value no longer exceeds carrying value, in which case a non-cash impairment charge may be recorded in future periods.

Goodwill

As of February 28 and March 31, 2015, we had 15 reporting units with goodwill. As part of our annual test for impairment of goodwill, management estimates the discounted cash flows of each reporting unit to estimate their respective fair values. In performing this analysis, management considers current information and future events, such as competition, technological advances and reductions in advertising support for our trademarks and trade names, that could cause subsequent evaluations to utilize different assumptions. In the event that the carrying amount of the reporting unit exceeds the fair value, management would then be required to allocate the estimated fair value of the assets and liabilities of the reporting unit as if the unit was acquired in a business combination, thereby revaluing the carrying amount of goodwill.

Indefinite-Lived Intangible Assets

At each reporting period, management analyzes current events and circumstances to determine whether the indefinite life classification for a trademark or trade name continues to be valid. If circumstances warrant a change to a finite life, the carrying value of the intangible asset would then be amortized prospectively over the estimated remaining useful life.

Management tests the indefinite-lived intangible assets for impairment by comparing the carrying value of the intangible asset to its estimated fair value. Since quoted market prices are seldom available for trademarks and trade names such as ours, we utilize present value techniques to estimate fair value. Accordingly, management's projections are utilized to assimilate all of the facts, circumstances and expectations related to the trademark or trade name and estimate the cash flows over its useful life. In a manner similar to goodwill, future events, such as competition, technological advances and reductions in advertising support for our trademarks and trade names, could cause subsequent evaluations to utilize different assumptions. Once that analysis is completed, a discount rate is applied to the cash flows to estimate fair value. In connection with this analysis, management:

- Reviews period-to-period sales and profitability by brand;
- Analyzes industry trends and projects brand growth rates;
- Prepares annual sales forecasts;
- Evaluates advertising effectiveness;
- Analyzes gross margins;
- Reviews contractual benefits or limitations;
- Monitors competitors' advertising spend and product innovation;
- Prepares projections to measure brand viability over the estimated useful life of the intangible asset; and
- Considers the regulatory environment, as well as industry litigation.

Finite-Lived Intangible Assets

When events or changes in circumstances indicate the carrying value of the assets may not be recoverable, management performs a review similar to indefinite-lived intangible assets to ascertain the impact of events and circumstances on the estimated useful lives and carrying values of our trademarks and trade names.

If the analysis warrants a change in the estimated useful life of the intangible asset, management will reduce the estimated useful life and amortize the carrying value prospectively over the shorter remaining useful life. Management's projections are utilized to assimilate all of the facts, circumstances and expectations related to the trademark or trade name and estimate the cash flows over its useful life. Future events, such as competition, technological advances and reductions in advertising support for our trademarks and trade names, could cause subsequent evaluations to utilize different assumptions. In the event that the long-term projections indicate that the carrying value is in excess of the undiscounted cash flows expected to result from the use of the intangible assets, management is required to record an impairment charge. Once that analysis is completed, a discount rate is applied to the cash flows to estimate fair value. The impairment charge is measured as the excess of the carrying amount of the intangible asset over fair value as calculated using the discounted cash flow analysis.

Impairment Analysis

During the fourth quarter of each fiscal year, we perform our annual impairment analysis. In prior years, we performed the analysis as of March 31. However, beginning with fiscal year 2015, we changed the date of our analysis to February 28 to better align with our annual operating plan preparation and to help facilitate our financial reporting process. We do not believe that a one-month change in the date of our analysis will significantly impact the results of our analysis or our financial statements.

We utilized the discounted cash flow method to estimate the fair value of our reporting units as part of the goodwill impairment test and the excess earnings method to estimate the fair value of our individual indefinite-lived intangible assets. The discount rate utilized in the analyses, as well as future cash flows, may be influenced by such factors as changes in interest rates and rates of inflation. Additionally, should the related fair values of goodwill and intangible assets be adversely affected as a result of declining sales or margins caused by competition, changing consumer preferences, technological advances or reductions in advertising and promotional expenses, we may be required to record impairment charges in the future. In addition, we considered our market capitalization at February 28, 2015, as compared to the aggregate fair values of our reporting units, to assess the reasonableness of our estimates pursuant to the discounted cash flow methodology. As a result of our analysis, we did not record an impairment charge in 2015.

Based on our analysis, the aggregate fair value of our reporting units exceeded the carrying value by 45.2%, with no reporting unit's fair value exceeding the carrying value by less than 10%. The aggregate fair value of the indefinite-lived intangible assets exceeded the carrying value by 42.4%. Three of the individual indefinite-lived trade names exceeded their carrying values by less than 10%. The fair value of Debrox, New Skin and Ecotrin, exceed their carrying values of \$76.3 million, \$37.2 million and \$32.9 million, by 8.3%, 9.2% and 7.9%, respectively.

The significant assumptions underpinning the fair value of Debrox include a discount rate of 10%, coupled with modest revenue growth, and advertising and promotion investments that are in line with historical performance. A decrease in the annual cash flow of approximately 7.7% compared to the projected cash flow utilized in our analysis, or an increase in the discount rate of approximately 62 basis points could result in the carrying value of our trade name exceeding its fair value, resulting in an impairment charge.

The significant assumptions supporting the fair value of New Skin and Ecotrin, include a discount rate of 10% and cash flow projections that assume stabilizing revenue declines followed by modest revenue growth. Gross margin and advertising and promotion investments behind the brands are expected to be consistent with historic trends. Continued revenue declines in each of the brands, or changes in assumptions utilized in our quantitative indefinite lived asset impairment analysis may result in the fair value no longer exceed their carrying values. For example, a decrease in the annual cash flow of approximately 8.4% and 7.3% for New Skin and Ecotrin, respectively, compared to the projected cash flow utilized in our analysis, or an increase in the discount rate of approximately 77 and 72 basis points, respectively, could result in the carrying value of our trade name exceeding its fair value, resulting in an impairment charge. We will continue to review our results against forecasts and assess our assumptions to ensure they continue to be appropriate.

Additionally, certain of our North American OTC Healthcare and Household Cleaning brands, have experienced recent declines in revenues and profitability. While the fair value of these reporting units exceeds the carrying value by more than 10%, should such revenue declines continue, the fair value of the corresponding reporting units may no longer exceed their carrying value and we would be required to record an impairment charge.

Revenues from our Pediacare brand have declined significantly as compared to the corresponding periods in the prior year, due primarily to competition in the category, including new product introductions and lost distribution. Although we had expected revenues to decline with the return to the market of competing products, such declines have been steeper than expected. As a result, we performed an interim impairment analysis during our third quarter ended

December 31, 2014 and concluded that no impairment existed. Additionally, in conjunction with a strategic review of our brands during the fourth quarter ended March 31, 2015 and our annual impairment review, we have reassessed the useful life of the Pediacare brand as of February 28, 2015 and determined it to be 20 years.

Stock-Based Compensation

The Compensation and Equity topic of the FASB ASC 718 requires us to measure the cost of services to be rendered based on the grant-date fair value of the equity award. Compensation expense is to be recognized over the period during which an employee is required to provide service in exchange for the award, generally referred to as the requisite service period. Information utilized in the determination of fair value includes the following:

- Type of instrument (i.e., restricted shares, stock options, warrants or performance shares);
- Strike price of the instrument;

- Market price of our common stock on the date of grant;
- Discount rates;
- Duration of the instrument; and
- Volatility of our common stock in the public market.

Additionally, management must estimate the expected attrition rate of the recipients to enable it to estimate the amount of non-cash compensation expense to be recorded in our financial statements. While management prepares various analyses to estimate the respective variables, a change in assumptions or market conditions, as well as changes in the anticipated attrition rates, could have a significant impact on the future amounts recorded as non-cash compensation expense. We recorded net non-cash compensation expense of \$6.9 million, \$5.1 million and \$3.8 million during 2015, 2014, and 2013, respectively. Assuming no changes in assumptions and no new awards authorized by the Compensation Committee of the Board of Directors, we expect to record non-cash compensation expense of approximately \$4.2 million during 2016.

Loss Contingencies

Loss contingencies are recorded as liabilities when it is probable that a liability has been incurred and the amount of such loss is reasonably estimable. Contingent losses are often resolved over longer periods of time and involve many factors including:

- Rules and regulations promulgated by regulatory agencies;
- Sufficiency of the evidence in support of our position;
- Anticipated costs to support our position; and
- Likelihood of a positive outcome.

Recent Accounting Pronouncements

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. The amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from that carrying amount of that debt liability, consistent with debt discounts. The amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The adoption of ASU 2015-03 is not expected to have a material impact on our Consolidated Financial Statements.

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidation Analysis. Update 2015-02 amended the process that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. The amendments in this update are effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. The adoption of ASU 2015-02 is not expected to have a material impact on our Consolidated Financial Statements.

In January 2015, the FASB issued ASU 2015-01, Income Statement - Extraordinary and Unusual Items. The amendments in this update eliminate the concept of extraordinary items in Subtopic 225-20, which required entities to consider whether an underlying event or transaction is extraordinary. However, the amendments retain the presentation and disclosure guidance for items that are unusual in nature or occur infrequently. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2015. The adoption of ASU 2015-01 is not expected to have a material impact on our Consolidated Financial Statements.

In November 2014, the FASB issued ASU 2014-17, Pushdown Accounting, which clarifies whether and at what threshold an acquired entity that is a business or nonprofit activity can apply pushdown accounting in its separate financial statements. This ASU provides companies with the option to apply pushdown accounting in its separate financial statements upon occurrence of an event in which an acquirer obtains control of the acquired entity. The

election to apply pushdown accounting can be made either in the period in which the change of control occurred, or in a subsequent period. The amendments in this update were effective November 18, 2014. The adoption of ASU 2014-17 did not have a material impact on our Consolidated Financial Statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. This amendment states that in connection with preparing financial statements for each annual and interim reporting period, an entity's management should evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). The amendments in this update are effective for the annual reporting period beginning after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The adoption of ASU 2014-15 is not expected to have a material impact on our Consolidated Financial Statements.

In June 2014, the FASB issued ASU 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide that a Performance Target Could Be Achieved after the Requisite Service Period, which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. As such, the new guidance does not allow for a performance target that affects vesting to be reflected in estimating the fair value of the award at the grant date. The amendments to this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. Entities may apply the amendments in this update either prospectively to all awards granted or modified after the effective date or retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. We currently do not have any outstanding share-based payments with a performance target. The adoption of ASU 2014-12 is not expected to have a material impact on our Consolidated Financial Statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers - Topic 606, which supersedes the revenue recognition requirements in FASB ASC 605. The new guidance primarily states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The amendments in this update are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. We are evaluating the impact of adopting this prospective guidance on our Consolidated Financial Statements.

In April 2014, the FASB issued ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The amendments in this update must be applied prospectively to all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. The adoption of ASU 2014-08 is not expected to have a material impact on our Consolidated Financial Statements.

Management has reviewed and continues to monitor the actions of the various financial and regulatory reporting agencies and is currently not aware of any other pronouncement that could have a material impact on our consolidated financial position, results of operations or cash flows.

Results of Operations

2015 compared to 2014

Total Segment Revenues

The following table represents total revenue by segment, including product groups, for each of the fiscal years ended March 31, 2015 and 2014.

Total Consolidated	\$ 714,623	100.0	\$ 597,381	100.0	\$ 117,242	19.6

* size of % not meaningful

Revenues for 2015 were \$714.6 million, an increase of \$117.2 million, or 19.6%, versus 2014. This increase was primarily related to an increase in the North American OTC Healthcare segment due to the acquisition of Insight and an increase in the International OTC Healthcare segment due to the acquisition of the Hydralite brand. The increase was partially offset by a decline in some of the product groups within the North American OTC Healthcare segment.

North American OTC Healthcare Segment

Revenues for the North American OTC Healthcare segment increased \$83.8 million, or 17.5%, during 2015 versus 2014.

This increase was primarily due to the acquisition of Insight, which contributed \$96.9 million to the segment overall, and included increases of \$69.9 million, \$15.4 million, and \$5.0 million to the women's health care, dermatologicals, and cough & cold product groups, respectively. These increases were partially offset by declines of \$7.1 million and

\$5.1 million in the dermatologicals and gastrointestinal product groups (exclusive of Insight), respectively, due to lower revenues for certain of our products in the dermatologicals and gastrointestinal product groups.

Additionally, in our women's health product group, a third-party manufacturer has failed to keep up with demand, leading to product being temporarily out of stock. We have begun utilizing an alternative manufacturer to supplement production, which

51

we expect will eliminate out of stock issues in the future. We are also in the process of replacing the current supplier of the active ingredient (which will cease production late in the third quarter of calendar 2015) for certain products in the women's health product group. At this point, we have identified a number of alternative suppliers and expect to have a new supplier in place when necessary. If these supply issues are not resolved timely, however, we will not have enough product to meet demand, which could result in a significant reduction of net sales and have an adverse impact on our business and results of operations.

International OTC Healthcare Segment

Revenues for the International OTC Healthcare segment increased \$31.3 million, or 104.5%, during 2015 versus 2014. The increase was primarily due to the acquisition of the Hydralyte brand, which attributed \$17.9 million to the gastrointestinal product group. The increase was also attributable to increases of \$6.1 million and \$4.7 million in the eye & ear care and cough & cold product groups (exclusive of Hydralyte), respectively.

Household Cleaning Segment

Revenues for the Household Cleaning segment increased by \$2.2 million, or 2.5%, during 2015 versus 2014. The increase was primarily due to increased sales in certain distribution channels.

Cost of Sales

The following table represents our cost of sales and cost of sales as a percentage of total segment revenues, by segment for each of the fiscal years ended March 31, 2015 and 2014.

(In thousands)	2015		2014		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Cost of Sales						
North American OTC Healthcare	\$216,781	38.5	\$184,796	38.5	\$31,985	17.3
International OTC Healthcare	22,820	37.3	12,646	42.3	10,174	80.5
Household Cleaning	68,799	76.5	64,388	73.4	4,411	6.9
	\$308,400	43.2	\$261,830	43.8	\$46,570	17.8

Cost of sales increased \$46.6 million, or 17.8%, during 2015 versus 2014. This increase was largely due to increased sales volume associated with the acquisitions of Insight, Hydralyte and Care Pharma within the North American and International OTC Healthcare segments. As a percentage of total revenues, cost of sales decreased to 43.2% in 2015 from 43.8% in 2014 primarily due to the favorable impact from lower cost of sales as a percentage of revenue in the International OTC Healthcare segment.

North American OTC Healthcare Segment

Cost of sales for the North American OTC Healthcare segment increased \$32.0 million, or 17.3%, during 2015 versus 2014. This increase was due to higher overall sales volume from the acquisition of Insight, partially offset by lower manufacturing product costs for certain of our products. As a percentage of North American OTC Healthcare revenues, cost of sales in the North American OTC Healthcare segment remained consistent in 2015 versus 2014. We anticipate increasing costs for certain of our products during the next fiscal year based on a manufacturer's notification to us. If we are unable to offset such cost increases by corresponding price increases, the increased costs could negatively impact our gross margins and results of operations.

International OTC Healthcare Segment

Cost of sales for the International OTC Healthcare segment increased \$10.2 million, or 80.5%, during the 2015 versus 2014. This increase was due to higher sales volumes in the products acquired from the acquisition of Hydralyte and Care Pharma. As a percentage of International OTC Healthcare revenues, cost of sales in the International OTC Healthcare segment decreased to 37.3% in 2015 from 42.3% in 2014. This decrease in cost of sales as a percentage of revenues was primarily due to lower costs associated with the Hydralyte and Care Pharma acquisitions.

Household Cleaning Segment

Cost of sales for the Household Cleaning segment increased \$4.4 million, or 6.9%, during 2015 versus 2014. As a percentage of Household Cleaning revenues, cost of sales increased to 76.5% during 2015 from 73.4% during 2014. This increase in cost of sales as a percentage of revenues was primarily related to an unfavorable product mix resulting from higher sales volumes at lower prices in certain distribution channels.

Gross Profit

The following table represents our gross profit and gross profit as a percentage of total segment revenues, by segment for each of the fiscal years ended March 31, 2015 and 2014.

(In thousands)	2015		2014		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Gross Profit						
North American OTC Healthcare	\$346,725	61.5	\$294,906	61.5	\$51,819	17.6
International OTC Healthcare	38,360	62.7	17,268	57.7	21,092	122.1
Household Cleaning	21,138	23.5	23,377	26.6	(2,239)	(9.6)
	\$406,223	56.8	\$335,551	56.2	\$70,672	21.1

Gross profit for 2015 increased \$70.7 million, or 21.1%, versus 2014. As a percentage of total revenues, gross profit increased to 56.8% in 2015 from 56.2% in 2014. The increase in gross profit as a percentage of revenues was primarily the result of higher gross margins recognized in the International OTC Healthcare segment due to the acquisition of Hydralyte.

North American OTC Healthcare Segment

Gross profit for the North American OTC Healthcare segment increased \$51.8 million, or 17.6%, during 2015 versus 2014. This increase was due to higher overall sales volume primarily from the acquisition of Insight, partially offset by higher manufacturing costs for certain of our products. As a percentage of North American OTC Healthcare revenues, gross profit remained consistent in 2015 versus 2014.

International OTC Healthcare Segment

Gross profit for the International OTC Healthcare segment increased \$21.1 million, or 122.1%, during the 2015 versus 2014. This increase was due primarily to the acquisition of Hydralyte and Care Pharma. As a percentage of International OTC Healthcare revenues, gross profit increased to 62.7% during 2015 from 57.7% during 2014. The increase was due to the higher gross profit percentage from the acquisition of Hydralyte and Care Pharma.

Household Cleaning Segment

Gross profit for the Household Cleaning segment decreased \$2.2 million, or 9.6%, during 2015 versus 2014. As a percentage of Household Cleaning revenue, gross profit decreased to 23.5% during 2015 from 26.6% during 2014. The decrease in gross profit as a percentage of revenues was primarily related to higher sales through certain distribution channels that have lower gross margins.

Contribution Margin

The following table represents our contribution margin and contribution margin as a percentage of total segment revenues, by segment for each of the fiscal years ended March 31, 2015 and 2014.

(In thousands)	2015		2014		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Contribution Margin						
North American OTC Healthcare	\$259,828	46.1	\$217,823	45.4	\$42,005	19.3
International OTC Healthcare	27,438	44.8	12,004	40.1	15,434	128.6
Household Cleaning	19,306	21.5	20,756	23.6	(1,450)	(7.0)
	\$306,572	42.9	\$250,583	41.9	\$55,989	22.3

Contribution margin is the financial measure that we use as a primary measure for evaluating segment performance. It is defined as gross profit less advertising and promotional expenses. Contribution margin increased \$56.0 million, or 22.3%, during 2015 versus 2014. The contribution margin increase was primarily the result of the increased gross profit in the North American and International OTC Healthcare segments discussed above.

North American OTC Healthcare Segment

Contribution margin for the North American OTC Healthcare segment increased \$42.0 million, or 19.3%, during 2015 versus 2014. The contribution margin increase was primarily the result of increased gross profit discussed above, partially offset by higher advertising and promotional expenses. As a percentage of North American OTC Healthcare revenues, contribution margin for the North American OTC Healthcare segment increased to 46.1% during 2015 versus 45.4% during 2014. Advertising and promotional spending increased during 2015 versus 2014 due primarily to the Insight acquisition, partially offset by reduced spending on Pediacare, Beano, and Gaviscon.

International OTC Healthcare Segment

Contribution margin for the International OTC Healthcare segment increased \$15.4 million, or 128.6%, during 2015 versus 2014. The contribution margin increase was primarily the result of increased gross profit discussed above, partially offset by higher advertising and promotional expenses. As a percentage of International OTC Healthcare revenues, contribution margin from the International OTC Healthcare segment increased to 44.8% during 2015 from 40.1% during 2014. This increase was primarily related to the increased gross profit from the Hydralyte and Care Pharma acquisitions discussed above.

Household Cleaning Segment

Contribution margin for the Household Cleaning segment decreased \$1.5 million, or 7.0%, during 2015 versus 2014.

As a percentage of Household Cleaning revenues, contribution margin from the Household Cleaning segment decreased to 21.5% during 2015 from 23.6% during 2014. The contribution margin decrease was the result of gross profit changes discussed above, partially offset by lower advertising and promotional spending.

General and Administrative

General and administrative expenses were \$81.3 million for 2015 versus \$48.5 million for 2014. The increase in general and administrative expenses was primarily related to an increase in compensation costs of \$13.8 million due to increased headcount associated with the Insight and Hydralyte acquisitions, an increase of \$12.8 million in acquisition costs related to the purchases of Insight and Hydralyte, and an increase in legal and other professional costs of \$1.7 million.

Depreciation and Amortization

Depreciation and amortization expense was \$17.7 million for 2015 versus \$13.5 million for 2014. The increase in depreciation and amortization expense was due to slightly higher intangible asset amortization in the current period, primarily related to intangible assets associated with the Insight acquisition.

Interest Expense

Net interest expense was \$81.2 million during 2015 versus \$68.6 million during 2014. The increase in interest expense was primarily the result of a higher level of indebtedness, primarily related to the acquisition of Insight. The average indebtedness outstanding increased from \$976.7 million during 2014 to \$1.4 billion during 2015. The increase in average indebtedness outstanding was the result of additional borrowings under our 2012 Term B-2 Loans and 2012 ABL Revolver to fund our acquisitions of the Hydralyte brand and Insight. The average cost of borrowing decreased to 5.9% for 2015, from 7.0% for 2014, which is attributed to the refinancing of debt in September 2014.

Income Taxes

The provision for income taxes during 2015 was \$49.2 million versus \$29.1 million in 2014. The effective tax rate on income before income taxes was 38.6% during 2015 versus 28.6% during 2014. The increase in the effective tax rate for 2015 was primarily due to the impact of certain non-deductible items related to acquisitions of \$2.9 million, and a higher gain for tax purposes associated with the sale of the right of use of the Comet brand in certain Eastern European countries in the third quarter of fiscal 2015 and a one-time benefit of \$9.1 million due primarily to lower state income taxes enacted in the prior year period. This benefit was primarily related to a law change in the state

where we have our major distribution center to tax earnings attributed to in-state revenues only.

Results of Operations

2014 compared to 2013

Total Segment Revenues

The following table represents total revenue by segment, including product groups, for each of the fiscal years ended March 31, 2014 and 2013.

(In thousands)	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
North American OTC Healthcare						
Analgesics	\$ 108,101	18.1	\$ 107,272	17.3	\$ 829	0.8

Total Consolidated	\$ 597,381	100.0	\$ 620,118	100.0	\$(22,737)	(3.7)

(*) size of % not meaningful

Revenues for 2014 were \$597.4 million, a decrease of \$22.7 million, or 3.7%, versus 2013. The decrease in revenue reflects the effects of increased competition from the introduction of new brands or brands that had previously been recalled, a weak cough & cold season, and the impact of the divestiture of Phazyme, which was offset partly by the acquisition of the Care Pharma products and the launch of new analgesics products. Revenues for the Household Cleaning segment increased 2.2% during 2014 versus 2013. Revenues from customers outside of North America, which represented 5.2% of total revenues in 2014, increased by \$15.4 million, or 105.8%, during 2014 versus 2013.

North American OTC Healthcare Segment

Revenues for the North American OTC Healthcare segment decreased \$40.0 million, or 7.7%, during 2014 versus 2013. This decrease was primarily caused by declines in the gastrointestinal and cough & cold groups, offset partly by increased revenues in the analgesics product group. Revenues for the gastrointestinal group declined primarily due to

decreased revenues for both the Beano and Gaviscon brands as well as the effects of the divestiture of Phazyme. Beano revenues declined due to consumer shifts to probiotics and the expansion of private label products in the mass channel. Gaviscon was impacted by supply chain issues incurred during 2014, which caused a shift in the timing of sales due to limited supply availability. The decrease in the cough & cold product group was due primarily to the decrease in revenues for the PediaCare, Little Remedies, and Chloraseptic brands, resulting from increased competition from products that had previously been recalled and a weak cough & cold season. The

increased revenue in the analgesic product group reflected new product launches for the BC and Goody's brands. These increases were partially offset by a decline in the Ecotrin brand, resulting from increased competition.

International OTC Healthcare segment

Revenues for the International OTC Healthcare segment increased \$15.4 million, or 105.8%, during 2014 versus 2013. The increased revenues in the International OTC Healthcare segment was the result of the inclusion of acquired Care Pharma brands, including the Fess line of cold/allergy and saline nasal health products.

Household Cleaning Segment

Revenues for the Household Cleaning segment increased \$1.9 million, or 2.2%, during 2014 versus 2013, primarily due to increases in the Comet brand attributable to increased sales volumes.

Cost of Sales

The following table represents our cost of sales and cost of sales as a percentage of total segment revenues, by segment for each of the fiscal years ended March 31, 2014 and 2013.

(In thousands)	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Cost of Sales						
North American OTC Healthcare	\$184,796	38.5	\$205,389	39.5	\$(20,593)	(10.0)
International OTC Healthcare	12,646	42.3	6,265	43.1	6,381	101.9
Household Cleaning	64,388	73.4	64,727	75.4	(339)	(0.5)
	\$261,830	43.8	\$276,381	44.6	\$(14,551)	(5.3)

Cost of sales decreased \$14.6 million, or 5.3%, during 2014 versus 2013. As a percent of total revenue, cost of sales decreased from 44.6% in 2013 to 43.8% in 2014. The decrease in cost of sales as a percent of revenues was primarily due to reductions in product costs, attributed to sourcing activities and a favorable product mix relative to the acquired Care Pharma brands, offset by the one-time adjustment for acquisition costs for the Care Pharma inventory.

North American OTC Healthcare Segment

Cost of sales for the North American OTC Healthcare segment decreased \$20.6 million, or 10.0%, during 2014 versus 2013. As a percentage of North American OTC Healthcare revenues, cost of sales in the North American OTC Healthcare segment decreased from 39.5% during 2013 to 38.5% during 2014. The decrease in cost of sales as a percent of revenues was primarily due to reductions in product costs, attributed to sourcing activities.

International OTC Healthcare Segment

Cost of sales for the International OTC Healthcare segment increased \$6.4 million, or 101.9%, during 2014 versus 2013. As a percentage of International OTC Healthcare revenues, cost of sales in the International OTC Healthcare segment decreased from 43.1% during 2013 to 42.3% during 2014. The decrease in cost of sales as a percent of revenues was primarily due to reductions in product costs, attributed to sourcing activities and a favorable product mix relative to the acquired Care Pharma brands, offset by the one-time adjustment for acquisition costs for the Care Pharma inventory.

Household Cleaning Segment

Cost of sales for the Household Cleaning segment decreased \$0.3 million, or 0.5%, during 2014 versus 2013. As a percentage of Household Cleaning revenues, cost of sales decreased from 75.4% during 2013 to 73.4% during 2014. The decrease in the cost of sales percentage was the result of lower promotional spending, which resulted in a greater net revenue relative to product cost.

Gross Profit

The following table represents our gross profit and gross profit as a percentage of total segment revenues, by segment for each of the fiscal years ended March 31, 2014 and 2013.

(In thousands)	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Gross Profit						
North American OTC Healthcare	\$294,906	61.5	\$314,296	60.5	\$(19,390)	(6.2)
International OTC Healthcare	17,268	57.7	8,273	56.9	8,995	108.7
Household Cleaning	23,377	26.6	21,168	24.6	2,209	10.4
	\$335,551	56.2	\$343,737	55.4	\$(8,186)	(2.4)

Gross profit during 2014 decreased \$8.2 million, or 2.4%, versus 2013. As a percentage of total revenues, gross profit increased from 55.4% in 2013 to 56.2% in 2014. Gross profit as a percentage of revenue increased due to lower promotional spending, resulting in a higher net revenue relative to product cost. The increase was also attributable to reductions in product costs due to sourcing activities and a favorable product mix relative to the acquired Care Pharma brands, offset by the one-time adjustment for acquisition costs for the Care Pharma inventory.

North American OTC Healthcare Segment

Gross profit for the North American OTC Healthcare segment decreased \$19.4 million, or 6.2%, during 2014 versus 2013. As a percentage of revenues, gross profit in the North American OTC Healthcare segment increased from 60.5% during 2013 to 61.5% during 2014. The increase in gross profit percentage is attributable to lower product costs, attributable to sourcing activities.

International OTC Healthcare Segment

Gross profit for the International OTC Healthcare segment increased \$9.0 million, or 108.7%, during 2014 versus 2013. As a percentage of revenues, gross profit in the International OTC Healthcare segment increased from 56.9% during 2013 to 57.7% during 2014. The increase in gross profit percentage reflects the lower product costs and mix impact for Care Pharma detailed in the cost of sales discussion above.

Household Cleaning Segment

Gross profit for the Household Cleaning segment increased \$2.2 million, or 10.4%, during 2014 versus 2013. As a percentage of Household Cleaning revenues, gross profit increased from 24.6% during 2013 to 26.6% during 2014. The increase in gross profit percentage was the result of lower promotional spending, which resulted in higher net revenue relative to product cost.

Contribution Margin

The following table represents our contribution margin and contribution margin as a percentage of total segment revenues, by segment for each of the fiscal years ended March 31, 2014 and 2013.

(In thousands)	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Contribution Margin						
North American OTC Healthcare	\$217,823	45.4	\$234,245	45.1	\$(16,422)	(7.0)
International OTC Healthcare	12,004	40.1	6,630	45.6	5,374	81.1
Household Cleaning	20,756	23.6	15,711	18.3	5,045	32.1
	\$250,583	41.9	\$256,586	41.4	\$(6,003)	(2.3)

Contribution margin is the financial measure that we use as a primary measure for evaluating segment performance. It is defined as gross profit less advertising and promotional expenses. Contribution margin for 2014 decreased \$6.0 million, or 2.3%, versus 2013. The contribution margin decrease was primarily the result of lower sales volumes,

partially offset by lower advertising and promotional spending and the lower costs of sales discussed above.

North American OTC Healthcare Segment

Contribution margin for the North American OTC Healthcare segment decreased \$16.4 million, or 7.0%, during 2014 versus 2013. The contribution margin decrease was the result of lower sales volumes, the divestiture of Phazyme, higher advertising and promotional spending, partially offset by the lower cost of sales discussed above. Advertising and promotional spending for the North American OTC Healthcare segment decreased by \$3.0 million, or 3.7%, during 2014 versus 2013, due primarily to reductions

in the cough & cold and oral care brands. As a percentage of North American OTC Healthcare revenues, contribution margin increased to 45.4% during 2014 from 45.1% during 2013. This increase is primarily attributable to the lower costs of sales discussed above.

International OTC Healthcare Segment

Contribution margin for the International OTC Healthcare segment increased \$5.4 million, or 81.1%, during 2014 versus 2013. The contribution margin increase was the result of lower cost of sales discussed above. Advertising and promotional spending for the International OTC Healthcare segment increased by \$3.6 million, or 220.4%, during 2014 versus 2013, due primarily to the Care Pharma acquisition. As a percentage of International OTC Healthcare revenues, contribution margin decreased to 40.1% during 2014 from 45.6% during 2013. This decrease was primarily attributable to an increase in advertising and promotional spending in the International OTC Healthcare segment.

Household Cleaning Segment

Contribution margin for the Household Cleaning segment increased \$5.0 million, or 32.1%, during 2014 versus 2013. As a percentage of Household Cleaning revenues, contribution margin increased to 23.6% during 2014 from 18.3% during 2013. The contribution margin increase was the result of the increased gross profit as a percentage of revenues and lower advertising and promotional spending.

General and Administrative

General and administrative expenses were \$48.5 million for 2014 versus \$51.5 million for 2013. The decrease in general and administrative expenses was due primarily to Transitional Services Agreement fees of \$4.1 million associated with the GSK Brands acquisition, warehouse relocation fees of \$0.7 million, and lease termination costs of \$1.1 million incurred in 2013. These costs were offset by increased Enterprise Resource Planning ("ERP") implementation costs of \$1.0 million, acquisition-related costs of \$1.0 million incurred in 2014 for Care Pharma, and increased share-based compensation costs of \$1.4 million for 2014.

Depreciation and Amortization

Depreciation and amortization expense was \$13.5 million for 2014 versus \$13.2 million for 2013. The increase in depreciation and amortization expense was due to the implementation of the new ERP system.

Interest Expense

Net interest expense was \$68.6 million during 2014 versus \$84.4 million during 2013. The decrease in interest expense was primarily the result of a lower level of indebtedness attributed to payments made to the 2012 Term Loan and a lower amount of borrowings against the 2012 ABL Revolver in 2014, as well as the acceleration of the amortization of the debt in 2013 associated with our 2012 Term Loan due to significant payments made during that fiscal year. The average interest rate decreased to 7.0% for 2014 versus 7.9% for 2013. This decrease is attributed to the issuance of the 2013 Senior Notes and the redemption of the 2010 Senior Notes in 2014, as the interest rate for the 2013 Senior Notes is 5.375% versus the interest rate of 8.25% attributed to the 2010 Senior Notes, as well as the accelerated portion of the deferred financing costs and debt discount incurred in 2013. The average indebtedness outstanding decreased to \$976.7 million during 2014 from \$1,065.0 million during 2013. The decrease in the average indebtedness outstanding is due to payments made to the 2012 Term Loan, lower borrowings against the 2012 ABL Revolver, as well as the redemption of the 2010 Senior Notes in December 2013, which was offset by entering into the 2013 Senior Notes.

Loss on Extinguishment of Debt

On December 17, 2013, we offered to redeem the 2010 Senior Notes at a premium of 6.33%, of which \$201.7 million were redeemed on such date. The remaining \$48.3 million were redeemed on January 16, 2014. As a result, during the quarter ended December 31, 2013, we recorded a \$15.0 million loss on the early extinguishment of debt relating to the \$201.7 million 2010 Senior Notes redeemed and recorded an additional loss of \$3.3 million on the remaining \$48.3

million tendered on January 16, 2014. The \$18.3 million loss consists of premium payments of \$15.5 million, write-off of deferred financing costs of \$2.2 million, and write-off of debt discount of \$0.6 million.

Income Taxes

The provision for income taxes during 2014 was \$29.1 million versus \$40.5 million in 2013. The effective tax rate on pretax income was 28.6% during 2014 versus 38.2% during 2013. The 2014 tax rate reflects the impact of non-deductible compensation of \$1.0 million and a non-cash benefit of \$9.1 million to adjust our current and deferred tax balances for lower state income taxes. This benefit was primarily related to a recent change in state law where we have our major distribution center that taxes earnings attributed to in-state revenues only. The 2013 tax rate reflects the impact of non-deductible compensation of \$1.7 million and a non-cash benefit of \$1.7 million for expected lower future state taxes.

Liquidity and Capital Resources

Liquidity

Our primary source of cash comes from our cash flow from operations. In the past, we have supplemented this source of cash with various debt facilities, primarily in connection with acquisitions. We have financed and expect to continue to finance our operations over the next twelve months, with a combination of borrowings and funds generated from operations. Our principal uses of cash are for operating expenses, debt service, acquisitions, working capital and capital expenditures.

(In thousands)	Year Ended March 31,			
	2015	2014	2013	
Net cash provided by (used in):				
Operating activities	\$ 156,255	\$ 111,582	\$ 137,605	
Investing activities	(805,258) (57,976) 11,221	
Financing activities	643,265	(41,153) (152,117)

2015 compared to 2014

Operating Activities

Net cash provided by operating activities was \$156.3 million for 2015 compared to \$111.6 million for 2014. The \$44.7 million increase in net cash provided by operating activities was primarily due to a decrease in working capital of \$25.3 million, an increase in non-cash charges of \$13.8 million, and an increase in net income of \$5.6 million.

Working capital is defined as current assets (excluding cash and cash equivalents) minus current liabilities. The working capital decrease in 2015 compared to 2014 is due to decreases in inventories and prepaid expenses and other current assets of \$18.2 million and \$6.8 million, respectively, and an increase in accrued liabilities of \$21.4 million. This decrease was partially offset by a decrease in accounts payable of \$13.0 million and an increase in accounts receivable of \$8.1 million.

Non-cash charges increased \$13.8 million primarily due to a premium payment on the 2010 Senior Notes tendered in fiscal 2014 of \$15.5 million, and increases in deferred income taxes, depreciation and amortization, and long term income taxes payable of \$9.9 million, \$4.2 million and \$2.3 million, respectively. The increase in non-cash charges was partially offset by a \$18.3 million loss on the extinguishment of debt incurred in fiscal 2014.

Investing Activities

Net cash used in investing activities was \$805.3 million for 2015 compared to \$58.0 million for 2014. This was primarily due to the use of cash for the acquisition of Insight in September 2014 of \$749.7 million and for the acquisition of the Hydralyte brand in April 2014 of \$78.0 million, compared to \$55.2 million for the acquisition of Care in July 2014. This was slightly offset by proceeds from the sale of one of the brands we acquired from the Insight acquisition of \$18.5 million and \$10.0 million received as proceeds from the sale of certain rights to use our Comet brand in certain Eastern European countries to a third-party licensee.

Financing Activities

Net cash provided by financing activities was \$643.3 million for 2015 compared to net cash used in financing activities of \$41.2 million for 2014. The increase in cash provided by financing activities was primarily due to the additional borrowings of \$590 million under our term loan facility and \$66.1 million under our revolving credit facility in 2015, while 2014 resulted in net repayment under the 2012 ABL Revolver of \$33 million. We utilized \$65.0 million of borrowings under the ABL Revolver for the acquisition of the Hydralyte brand and repaid \$58.5 million during 2015. Due to the net borrowing under the 2012 ABL Revolver and 2012 Term Loan, our outstanding

indebtedness increased to \$1,593.6 million at March 31, 2015 from \$937.5 million at March 31, 2014.

2014 compared to 2013

Operating Activities

Net cash provided by operating activities was \$111.6 million for 2014 compared to \$137.6 million for 2013. The \$26.0 million decrease in net cash provided by operating activities was primarily due to a decrease in working capital of \$24.5 million and a decrease in non-cash charges of \$8.6 million, offset partly by an increase in net income of \$7.1 million.

Working capital is defined as current assets (excluding cash and cash equivalents) minus current liabilities. Working capital decreased in 2014 compared to 2013 due to decreases in accrued liabilities of \$19.1 million. The decrease in accrued liabilities

59

was primarily due to a decrease in accrued interest attributed to the redemption of the 2010 Senior Notes and the issuance of the 2013 Senior Notes, as discussed in Note 10 of the Consolidated Financial Statements. Additionally, the decrease in working capital was due to a decrease in accounts payable of \$29.3 million and decreases to prepaid expenses of \$5.2 million, partially offset by increases in accounts receivable of \$22.6 million and inventories of \$6.5 million in 2014.

Non-cash charges decreased \$8.6 million primarily due to a premium payment on the 2010 Senior Notes tendered in 2014 of \$15.5 million, a decrease in deferred income tax charges of \$6.5 million, and decreases in amortization of deferred financing charges and debt discount of \$4.0 million in 2014. The decrease in non-cash charges were partially offset by a \$18.3 million loss on extinguishment of debt incurred in 2014 versus the \$1.4 million incurred in the prior year.

Investing Activities

Net cash used in investing activities was \$58.0 million for 2014 compared to net cash provided by investing activities of \$11.2 million for 2013. The increase in net cash used in investing activities for the year ended March 31, 2014 was due primarily to the acquisition of Care Pharma in 2014 for \$55.2 million, and \$21.7 million of cash received from the divestiture of the Phazyme brand in 2013.

Financing Activities

Net cash used in financing activities was \$41.2 million for 2014 compared to net cash used in financing activities of \$152.1 million for 2013. During the year ended March 31, 2014, we repaid \$157.5 million of our outstanding long term debt. This decreased our outstanding indebtedness to \$937.5 million at March 31, 2014 from \$978.0 million at March 31, 2013. During 2014, we issued \$400.0 million of 2013 Senior Notes, and redeemed the 2010 Senior Notes for \$250.0 million.

Capital Resources

On January 31, 2012, Prestige Brands, Inc. (the "Borrower") (i) issued the 2012 Senior Notes in an aggregate principal amount of \$250.0 million, (ii) entered into the 2012 Term Loan with a seven-year maturity and the \$50.0 2012 ABL Revolver with a five-year maturity, and (iii) repaid in full and canceled its then-existing credit facility. The 2012 Term Loan was issued with an original issue discount of 1.5% of the principal amount thereof, resulting in net proceeds to the Borrower of \$650.1 million. In addition to the discount, we incurred \$33.3 million in issuance costs, which were capitalized as deferred financing costs and are being amortized over the terms of the related loans and notes. The Borrower may redeem some or all of the 2012 Senior Notes at redemption prices set forth in the indenture governing the 2012 Senior Notes. The 2012 Senior Notes are guaranteed by Prestige Brands Holdings, Inc. and certain of its 100% domestic owned subsidiaries. Each of these guarantees is joint and several. There are no significant restrictions on the ability of any of the guarantors to obtain funds from their subsidiaries or to make payments to Prestige Brands, Inc. or Prestige Brands Holdings, Inc.

On February 21, 2013, the Borrower entered into Term Loan Amendment No. 1. The Term Loan Amendment No. 1 provided for the refinancing of all of the Borrower's existing Term B Loans with new Term B-1 Loans (the "Term B-1 Loans"). The interest rate on the Term B-1 Loans under Term Loan Amendment No. 1 was based, at the Borrower's option, on a LIBOR rate plus a margin of 2.75% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin. The new Term B-1 Loans mature on the same date as the Term B Loans' original maturity date. In addition, Term Loan Amendment No. 1 provided the Borrower with certain additional capacity to prepay subordinated debt, the 2012 Senior Notes and certain other unsecured indebtedness permitted to be incurred under the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver. In connection with Term Loan Amendment No. 1, during the fourth quarter ended March 31, 2013, we recognized a \$1.4 million loss on the extinguishment of debt.

On September 3, 2014, the Borrower entered into Amendment No. 2 ("Term Loan Amendment No. 2") to the 2012 Term Loan. Term Loan Amendment No. 2 provides for (i) the creation of a new class of Term B-2 Loans in an aggregate principal amount of \$720.0 million (the "Term B-2 Loans"), (ii) increased flexibility under the credit agreement governing the 2012 Term Loan and the 2012 ABL Revolver, including additional investment, restricted payment and debt incurrence flexibility and financial maintenance covenant relief, and (iii) an interest rate on (x) the Term B-1 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 3.125% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin, and (y) the Term B-2 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 3.50% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin (with a margin step-down to 3.25% per annum, based upon achievement of a specified secured net leverage ratio).

On September 3, 2014, the Borrower entered into Amendment No. 3 ("ABL Amendment No. 3") to the 2012 ABL Revolver. ABL Amendment No. 3 provides for (i) a \$40.0 million increase in revolving commitments under the 2012 ABL Revolver and (ii) increased flexibility under the credit agreement governing the 2012 Term Loan and the 2012 ABL Revolver, including additional investment, restricted payment and debt incurrence flexibility. Borrowings under the 2012 ABL Revolver, as amended, bear interest at a rate per annum equal to an applicable margin, plus, at the Borrower's option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., and (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month, adjusted for certain additional costs, plus 1.00% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing, adjusted for certain additional costs. The initial applicable margin for borrowings under the 2012 ABL Revolver is 1.75% with respect to LIBOR borrowings and 0.75% with respect to base-rate borrowings. The applicable margin for borrowings under the 2012 ABL Revolver may be increased to 2.00% or 2.25% for LIBOR borrowings and 1.00% or 1.25% for base-rate borrowings, depending on average excess availability under the 2012 ABL Revolver during the prior fiscal quarter. In addition to paying interest on outstanding principal under the 2012 ABL Revolver, we are required to pay a commitment fee to the lenders under the 2012 ABL Revolver in respect of

the unutilized commitments thereunder. The initial commitment fee rate is 0.50% per annum. The commitment fee rate will be reduced to 0.375% per annum at any time when the average daily unused commitments for the prior quarter is less than a percentage of total commitments by an amount set forth in the credit agreement covering the 2012 ABL Revolver. We may voluntarily repay outstanding loans under the 2012 ABL Revolver at any time without a premium or penalty. For the year ended March 31, 2015, the average interest rate on the amounts borrowed under the 2012 ABL Revolver was 2.8%.

On December 17, 2013, the Borrower issued \$400.0 million of the 2013 Senior Notes. The Borrower may redeem some or all of the 2013 Senior Notes at redemption prices set forth in the indenture governing the 2013 Senior Notes. The 2013 Senior Notes are guaranteed by Prestige Brands Holdings, Inc. and certain of its 100% domestic owned subsidiaries. Each of these guarantees is joint and several. There are no significant restrictions on the ability of any of the guarantors to obtain funds from their subsidiaries or to make payments to the Borrower or Prestige Brands Holdings, Inc. As a result of this issuance, in December 2013, we

redeemed \$201.7 million of the 2010 Senior Notes and the balance of \$48.3 million in January 2014 and repaid approximately \$120.0 million toward our 2012 Term Loan.

As of March 31, 2015, we had an aggregate of \$1,593.6 million of outstanding indebtedness, which consisted of the following:

- \$250.0 million of 8.125% 2012 Senior Notes due 2020;
- \$400.0 million of 5.375% 2013 Senior Notes due 2021;
- \$217.5 million of borrowings under the 2012 Term B-1 Loans;
- \$660.0 million of borrowings under the 2012 Term B-2 Loans; and
- \$66.1 million of borrowings under the 2012 ABL Revolver.

As of March 31, 2015, we had \$44.9 million of borrowing capacity under the 2012 ABL Revolver.

The 2012 Term Loan, as amended, bears interest at a rate per annum equal to an applicable margin plus, at our option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month, adjusted for certain additional costs, plus 1.00% and (d) a floor of 2.00% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing, adjusted for certain additional costs, with a floor of 1.00%.

As we deem appropriate, we may from time to time utilize derivative financial instruments to mitigate the impact of changing interest rates associated with our long-term debt obligations or other derivative financial instruments. While we have utilized derivative financial instruments in the past, we did not have any significant derivative financial instruments outstanding at either March 31, 2015 or March 31, 2014 or during any of the periods presented. We have not entered into derivative financial instruments for trading purposes; all of our derivatives were over-the-counter instruments with liquid markets.

Our debt facilities contain various financial covenants, including provisions that require us to maintain certain leverage, interest coverage and fixed charge ratios. The credit agreement governing the 2012 Term Loan and the 2012 ABL Revolver and the indentures governing the 2012 and 2013 Senior Notes contain provisions that accelerate our indebtedness on certain changes in control and restrict us from undertaking specified corporate actions, including asset dispositions, acquisitions, payment of dividends and other specified payments, repurchasing our equity securities in the public markets, incurrence of indebtedness, creation of liens, making loans and investments and transaction with affiliates. Specifically, we must:

- Have a leverage ratio of less than 8.00 to 1.0 for the quarter ended March 31, 2015 (defined as, with certain adjustments, the ratio of our consolidated total net debt as of the last day of the fiscal quarter to our trailing twelve month consolidated net income before interest, taxes, depreciation, amortization, non-cash charges and certain other items ("EBITDA")). Our leverage ratio requirement decreases over time to 3.75 to 1.0 for the quarter ending March 31, 2019 and remains level thereafter;

- Have an interest coverage ratio of greater than 2.25 to 1.0 for the quarter ended March 31, 2015 (defined as, with certain adjustments, the ratio of our consolidated EBITDA to our trailing twelve month consolidated cash interest expense). Our interest coverage requirement increases over time to 3.50 to 1.0 for the quarter ending March 31, 2018 and remains level thereafter; and

- Have a fixed charge ratio of greater than 1.0 to 1.0 for the quarter ended March 31, 2015 (defined as, with certain adjustments, the ratio of our consolidated EBITDA minus capital expenditures to our trailing twelve month consolidated interest paid, taxes paid and other specified payments). Our fixed charge requirement remains level

throughout the term of the agreement.

At March 31, 2015, we were in compliance with the applicable financial and restrictive covenants under the 2012 Term Loan and the 2012 ABL Revolver and the indentures governing the 2012 Senior Notes and the 2013 Senior Notes. Additionally, management anticipates that in the normal course of operations, we will be in compliance with the financial and restrictive covenants during 2016. During the years ended March 31, 2015, 2014 and 2013, we made voluntary principal payments against outstanding indebtedness of \$130.0 million, \$157.5 million and \$190.0 million, respectively, under the 2012 Term Loan. Under the Term Loan Amendment No. 2, we are required to make quarterly payments each equal to 0.25% of the original principal amount of the Term B-2 Loan, with the balance expected to be due on the seventh anniversary of the closing date. However, we will not be required to make another payment until the maturity date of January 31, 2019.

Commitments

As of March 31, 2015, we had ongoing commitments under various contractual and commercial obligations as follows:

(In millions)	Payments Due by Period				
	Total	Less than 1 Year	1 to 3 Years	4 to 5 Years	After 5 Years
Contractual Obligations					
Long-term debt	\$1,593.6	\$—	\$66.1	\$467.5	\$1,060.0
Interest on long-term debt ⁽¹⁾	536.7	81.3	241.2	141.8	72.4
Purchase obligations:					
Inventory costs ⁽²⁾	86.1	82.5	3.0	0.6	—
Other costs ⁽³⁾	17.1	17.1	—	—	—
Operating leases ⁽⁴⁾	10.0	1.9	5.6	2.5	—
Total contractual cash obligations ⁽⁵⁾	\$2,243.5	\$182.8	\$315.9	\$612.4	\$1,132.4

Represents the estimated interest obligations on the outstanding balances at March 31, 2015 of the 2012 Senior Notes, 2013 Senior Notes, 2012 Term B-1 Loan, 2012 Term B-2 Loan, and 2012 ABL Revolver, assuming (1) scheduled principal payments (based on the terms of the loan agreements) are made and assuming a weighted average interest rate of 5.9%. Estimated interest obligations would be different under different assumptions regarding interest rates or timing of principal payments.

(2) Purchase obligations for inventory costs are legally binding commitments for projected inventory requirements to be utilized during the normal course of our operations.

(3) Purchase obligations for other costs are legally binding commitments for marketing, advertising and capital expenditures. Activity costs for molds and equipment to be paid, based solely on a per unit basis without any deadlines for final payment, have been excluded from the table because we are unable to determine the time period over which such activity costs will be paid.

(4) We have excluded minimum sublease rentals of \$1.4 million due in the future under noncancelable subleases. Refer to Note 17 for further details.

(5) We have excluded obligations related to uncertain tax positions because we cannot reasonably estimate when they will occur.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements or financing activities with special-purpose entities.

Inflation

Inflationary factors such as increases in the costs of raw materials, packaging materials, purchased product and overhead may adversely affect our operating results and financial condition. Although we do not believe that inflation has had a material impact on our financial condition or results from operations for the three most recent fiscal years, a high rate of inflation in the future could have a material adverse effect on our financial condition or results from operations. More volatility in crude oil prices may have an adverse impact on transportation costs, as well as certain petroleum based raw materials and packaging material. Although we make efforts to minimize the impact of

inflationary factors, including raising prices to our customers, a high rate of pricing volatility associated with crude oil supplies or other raw materials used in our products may have an adverse effect on our operating results.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

We are exposed to changes in interest rates because our 2012 Term Loan and 2012 ABL Revolver are variable rate debt. Interest rate changes generally do not significantly affect the market value of the 2012 Term Loan and the 2012 ABL Revolver but do affect the amount of our interest payments and, therefore, our future earnings and cash flows, assuming other factors are held constant. At March 31, 2015, we had variable rate debt of approximately \$943.6 million.

Holding other variables constant, including levels of indebtedness, a one percentage point increase in interest rates on our variable rate debt would have an adverse impact on pre-tax earnings and cash flows for the year ended March 31, 2015 of approximately \$7.2 million.

Foreign Currency Exchange Rate Risk

During the year ended March 31, 2015, approximately 13.1% of our revenues were denominated in currencies other than the U.S. Dollar. As such, we are exposed to transactions that are sensitive to foreign currency exchange rates, including insignificant foreign currency forward exchange agreements. These transactions are primarily with respect to the Canadian and Australian Dollar.

We performed a sensitivity analysis with respect to exchange rates for the year ended March 31, 2015. Holding all other variables constant, and assuming a hypothetical 10.0% adverse change in foreign currency exchange rates, this analysis resulted in a less than 5.0% impact on pre-tax income of approximately \$3.3 million for the year ended March 31, 2015.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The supplementary data required by this Item are described in Part IV, Item 15 of this Annual Report on Form 10-K and are presented beginning on page 116.

Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act). Internal control over financial reporting is a process designed by, or under the supervision of the Chief Executive Officer and Chief Financial Officer and effected by the Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable, not absolute, assurance that the control objectives will be met. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate over time.

Management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's internal control over financial reporting as of March 31, 2015. In making its evaluation, management has used the criteria established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework (2013 Framework).

Based on management's assessment utilizing the 2013 Framework, management concluded that the Company's internal control over financial reporting was effective as of March 31, 2015.

Edgar Filing: Prestige Brands Holdings, Inc. - Form 10-K

PricewaterhouseCoopers LLP, an independent registered public accounting firm, has issued a report on the effectiveness of our internal control over financial reporting as of March 31, 2015, which appears below.

Prestige Brands Holdings, Inc.

May 14, 2015

65

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders
Prestige Brands Holdings, Inc.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income and comprehensive income, of changes in stockholders' equity and comprehensive income and of cash flows present fairly, in all material respects, the financial position of Prestige Brands Holdings, Inc. and its subsidiaries at March 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2015 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed under Item 15(a)(2) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of March 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013 Framework), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Prestige Brands Holdings, Inc.
Notes to Consolidated Financial Statements

1. Business and Basis of Presentation

Nature of Business

Prestige Brands Holdings, Inc. (referred to herein as the “Company” or “we”, which reference shall, unless the context requires otherwise, be deemed to refer to Prestige Brands Holdings, Inc. and all of its direct and indirect 100% owned subsidiaries on a consolidated basis) is engaged in the marketing, sales and distribution of over-the-counter (“OTC”) healthcare and household cleaning products to mass merchandisers, drug stores, supermarkets, and club, convenience, and dollar stores in North America (the United States and Canada) and in Australia and certain other international markets. Prestige Brands Holdings, Inc. is a holding company with no operations and is also the parent guarantor of the senior credit facility and the senior notes described in Note 10 to these Consolidated Financial Statements.

Basis of Presentation

Our Consolidated Financial Statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). All significant intercompany transactions and balances have been eliminated in consolidation. Our fiscal year ends on March 31st of each year. References in these Consolidated Financial Statements or notes to a year (e.g., “2015”) mean our fiscal year ended on March 31st of that year.

Reclassification

We revised the classification of certain promotional expenses that were incurred in the prior year to correctly present the amounts as a reduction to net sales. The amounts were not material to any of the periods presented.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on our knowledge of current events and actions that we may undertake in the future, actual results could differ from those estimates. As discussed below, our most significant estimates include those made in connection with the valuation of intangible assets, stock-based compensation, fair value of debt, sales returns and allowances, trade promotional allowances and inventory obsolescence, and the recognition of income taxes using an estimated annual effective tax rate.

Cash and Cash Equivalents

We consider all short-term deposits and investments with original maturities of three months or less to be cash equivalents. Substantially all of our cash is held by a large regional bank with headquarters in California. We do not believe that, as a result of this concentration, we are subject to any unusual financial risk beyond the normal risk associated with commercial banking relationships. The Federal Deposit Insurance Corporation (“FDIC”) and Securities Investor Protection Corporation (“SIPC”) insure these balances, up to \$250,000 and \$500,000, with a \$250,000 limit for cash, respectively. Substantially all of the Company's cash balances at March 31, 2015 are uninsured.

Accounts Receivable

We extend non-interest-bearing trade credit to our customers in the ordinary course of business. We maintain an allowance for doubtful accounts receivable based upon historical collection experience and expected collectability of the accounts receivable. In an effort to reduce credit risk, we (i) have established credit limits for all of our customer relationships, (ii) perform ongoing credit evaluations of customers' financial condition, (iii) monitor the payment history and aging of customers' receivables, and (iv) monitor open orders against an individual customer's outstanding

receivable balance.

Inventories

Inventories are stated at the lower of cost or market value, where cost is determined by using the first-in, first-out method. We reduce inventories for the diminution of value resulting from product obsolescence, damage or other issues affecting marketability, equal to the difference between the cost of the inventory and its estimated market value. Factors utilized in the determination of estimated market value include (i) current sales data and historical return rates, (ii) estimates of future demand, (iii) competitive pricing pressures, (iv) new product introductions, (v) product expiration dates, and (vi) component and packaging obsolescence.

Property and Equipment

Property and equipment are stated at cost and are depreciated using the straight-line method based on the following estimated useful lives:

72

	Years
Machinery	5
Computer equipment and software	3
Furniture and fixtures	7
Leasehold improvements	*

*Leasehold improvements are amortized over the lesser of the lease term or the estimated useful life of the related asset.

Expenditures for maintenance and repairs are charged to expense as incurred. When an asset is sold or otherwise disposed of, we remove the cost and associated accumulated depreciation from the accounts and recognize the resulting gain or loss in the Consolidated Statements of Income and Comprehensive Income.

Property and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. An impairment loss is recognized if the carrying amount of the asset exceeds its fair value.

Goodwill

The excess of the purchase price over the fair market value of assets acquired and liabilities assumed in purchase business combinations is classified as goodwill. Goodwill is not amortized, although the carrying value is tested for impairment at least annually in the fourth fiscal quarter of each year, or more frequently if events or changes in circumstances indicate that the asset may be impaired. Goodwill is tested for impairment at the product group level, which is one level below the operating segment level.

Intangible Assets

Intangible assets, which are comprised primarily of trademarks, are stated at cost less accumulated amortization. For intangible assets with finite lives, amortization is computed using the straight-line method over estimated useful lives, typically ranging from 10 to 30 years.

Indefinite-lived intangible assets are tested for impairment at least annually in the fourth fiscal quarter of each year, or more frequently if events or changes in circumstances indicate that the asset may be impaired. Intangible assets with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts exceed their fair values and may not be recoverable. An impairment loss is recognized if the carrying amount of the asset exceeds its fair value.

Deferred Financing Costs

We have incurred debt origination costs in connection with the issuance of long-term debt. These costs are capitalized as deferred financing costs and amortized over the term of the related debt using the effective interest method.

Revenue Recognition

We recognize revenue when the following criteria are met: (i) persuasive evidence of an arrangement exists; (ii) the selling price is fixed or determinable; (iii) the product has been shipped and the customer takes ownership and assumes the risk of loss; and (iv) collection of the resulting receivable is reasonably assured. We have determined that these criteria are met and the transfer of the risk of loss generally occurs when product is received by the customer and, accordingly, we recognize revenue at that time. Provision is made for estimated discounts related to customer payment terms and estimated product returns at the time of sale based on our historical experience.

As is customary in the consumer products industry, we participate in the promotional programs of our customers to enhance the sale of our products. The cost of these promotional programs varies based on the actual number of units sold during a finite period of time. These promotional programs consist of direct-to-consumer incentives, such as

coupons and temporary price reductions, as well as incentives to our customers, such as allowances for new distribution, including slotting fees, and cooperative advertising. Estimates of the costs of these promotional programs are based on (i) historical sales experience, (ii) the current promotional offering, (iii) forecasted data, (iv) current market conditions, and (v) communication with customer purchasing/marketing personnel. We recognize the cost of such sales incentives by recording an estimate of such cost as a reduction of revenue, at the later of (a) the date the related revenue is recognized, or (b) the date when a particular sales incentive is offered. At the completion of the promotional program, the estimated amounts are adjusted to actual results.

Due to the nature of the consumer products industry, we are required to estimate future product returns. Accordingly, we record an estimate of product returns concurrent with recording sales, which is made after analyzing (i) historical return rates, (ii) current

economic trends, (iii) changes in customer demand, (iv) product acceptance, (v) seasonality of our product offerings, and (vi) the impact of changes in product formulation, packaging and advertising.

Cost of Sales

Cost of sales includes product costs, warehousing costs, inbound and outbound shipping costs, and handling and storage costs. Shipping, warehousing and handling costs were \$37.7 million for 2015, \$32.0 million for 2014 and \$30.6 million for 2013.

Advertising and Promotion Costs

Advertising and promotion costs are expensed as incurred. Allowances for new distribution costs associated with products, including slotting fees, are recognized as a reduction of sales. Under these new distribution arrangements, the retailers allow our products to be placed on the stores' shelves in exchange for such fees.

Stock-based Compensation

We recognize stock-based compensation by measuring the cost of services to be rendered based on the grant-date fair value of the equity award. Compensation expense is to be recognized over the period an employee is required to provide service in exchange for the award, generally referred to as the requisite service period.

Income Taxes

Deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amounts expected to be realized.

The Income Taxes topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The guidance only allows the recognition of those tax benefits that have a greater than 50% likelihood of being sustained upon examination by the various taxing authorities. As a result, we have applied a more-likely-than-not recognition threshold for all tax uncertainties.

We are subject to taxation in the United States and various state and foreign jurisdictions.

We classify penalties and interest related to unrecognized tax benefits as income tax expense in the Consolidated Statements of Income and Comprehensive Income.

Earnings Per Share

Basic earnings per share is calculated based on income available to common stockholders and the weighted-average number of shares outstanding during the reporting period. Diluted earnings per share is calculated based on income available to common stockholders and the weighted-average number of common and potential common shares outstanding during the reporting period. Potential common shares, composed of the incremental common shares issuable upon the exercise of stock options, stock appreciation rights and unvested restricted shares, are included in the earnings per share calculation to the extent that they are dilutive.

Recently Issued Accounting Standards

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. The amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from that carrying amount of that debt liability, consistent with debt discounts. The amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2015, and

interim periods within those fiscal years. The adoption of ASU 2015-03 is not expected to have a material impact on our Consolidated Financial Statements.

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidation Analysis. Update 2015-02 amended the process that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. The amendments in this update are effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. The adoption of ASU 2015-02 is not expected to have a material impact on our Consolidated Financial Statements.

In January 2015, the FASB issued ASU 2015-01, Income Statement - Extraordinary and Unusual Items. The amendments in this update eliminate the concept of extraordinary items in Subtopic 225-20, which required entities to consider whether an underlying event or transaction is extraordinary. However, the amendments retain the presentation and disclosure guidance for items that are unusual in nature or occur infrequently. The amendments in this update are effective for fiscal years, and interim periods within

those years, beginning after December 15, 2015. The adoption of ASU 2015-01 is not expected to have a material impact on our Consolidated Financial Statements.

In November 2014, the FASB issued ASU 2014-17, Pushdown Accounting, which clarifies whether and at what threshold an acquired entity that is a business or nonprofit activity can apply pushdown accounting in its separate financial statements. This ASU provides companies with the option to apply pushdown accounting in its separate financial statements upon the occurrence of an event in which an acquirer obtains control of the acquired entity. The election to apply pushdown accounting can be made either in the period in which the change of control occurred, or in a subsequent period. The amendments in this update were effective November 18, 2014. The adoption of ASU 2014-17 did not have a material impact on our Consolidated Financial Statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. This amendment states that in connection with preparing financial statements for each annual and interim reporting period, an entity's management should evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). The amendments in this update are effective for the annual reporting period beginning after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The adoption of ASU 2014-15 is not expected to have a material impact on our Consolidated Financial Statements.

In June 2014, the FASB issued ASU 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide that a Performance Target Could Be Achieved after the Requisite Service Period, which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. As such, the new guidance does not allow for a performance target that affects vesting to be reflected in estimating the fair value of the award at the grant date. The amendments to this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. Entities may apply the amendments in this update either prospectively to all awards granted or modified after the effective date or retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. We currently do not have any outstanding share-based payments with a performance target. The adoption of ASU 2014-12 is not expected to have a material impact on our Consolidated Financial Statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers - Topic 606, which supersedes the revenue recognition requirements in FASB ASC 605. The new guidance primarily states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The amendments in this update are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. We are evaluating the impact of adopting this prospective guidance on our Consolidated Financial Statements.

In April 2014, the FASB issued ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The amendments in this update must be applied prospectively to all disposals (or classifications as held for sale) of components of an

entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. The adoption of ASU 2014-08 is not expected to have a material impact on our Consolidated Financial Statements.

Management has reviewed and continues to monitor the actions of the various financial and regulatory reporting agencies and is currently not aware of any other pronouncement that could have a material impact on our consolidated financial position, results of operations or cash flows.

2. Acquisitions

Acquisition of Insight Pharmaceuticals

On September 3, 2014, the Company completed the acquisition of Insight Pharmaceuticals Corporation ("Insight"), a marketer and distributor of feminine care and other OTC healthcare products, for \$753.2 million in cash. The closing followed the Federal Trade Commission's ("FTC") approval of the acquisition and was finalized pursuant to the terms of the purchase agreement announced on April 25, 2014. Pursuant to the Insight purchase agreement, the Company acquired 27 OTC brands sold in North America (including related trademarks, contracts and inventory), which extended the Company's portfolio of OTC brands to include a leading feminine care platform in the United States and Canada anchored by Monistat, the leading North American brand in OTC yeast infection treatment. The acquisition also added brands to the Company's cough & cold, pain relief, ear care and dermatological platforms. In connection with the FTC's approval of the Insight acquisition, we sold one of the competing brands that we acquired from Insight on the same day as the Insight closing. Insight is primarily included in our North American OTC Healthcare segment.

The Insight acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

We prepared an analysis of the fair values of the assets acquired and liabilities assumed as of the date of acquisition. The following table summarizes our preliminary allocation of the assets acquired and liabilities assumed as of the September 3, 2014 acquisition date.

(In thousands)	September 3, 2014
Cash acquired	\$3,507
Accounts receivable	25,784
Inventories	23,559
Deferred income tax assets - current	860
Prepays and other current assets	1,407
Property, plant and equipment	2,308
Goodwill	103,255
Intangible assets	724,374
Total assets acquired	885,054
Accounts payable	16,079
Accrued expenses	8,003
Deferred income tax liabilities - long term	107,799
Total liabilities assumed	131,881
Total purchase price	\$753,173

Based on this analysis, we allocated \$599.6 million to indefinite-lived intangible assets and \$124.8 million to amortizable intangible assets. We are amortizing the purchased amortizable intangible assets on a straight-line basis over an estimated weighted average useful life of 16.2 years. The weighted average remaining life for amortizable intangible assets at March 31, 2015 was 15.6 years.

We also recorded goodwill of \$103.3 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. Goodwill is not deductible for income tax purposes.

The operating results of Insight have been included in our Consolidated Financial Statements beginning September 3, 2014. Revenues of the acquired Insight operations for the year ended March 31, 2015 were \$97.1 million. On September 3, 2014, we sold one of the brands we acquired from the Insight acquisition for \$18.5 million, for which we had allocated \$17.7 million, \$0.6 million and \$0.2 million to intangible assets, inventory and property, plant and equipment, respectively.

The following table provides our unaudited pro forma revenues, net income and net income per basic and diluted common share had the results of Insight's operations been included in our operations commencing on April 1, 2013, based upon available

76

information related to Insight's operations. This pro forma information is not necessarily indicative either of the combined results of operations that actually would have been realized by us had the Insight acquisition been consummated at the beginning of the period for which the pro forma information is presented, or of future results.

(In thousands, except per share data)	Year Ended March 31,	
	2015 (Unaudited)	2014
Revenues	\$ 783,217	\$ 767,897
Net income	\$ 86,844	\$ 82,762
Earnings per share:		
Basic	\$ 1.66	\$ 1.60
Diluted	\$ 1.65	\$ 1.58

Acquisition of the Hydralyte brand

On April 30, 2014, we completed the acquisition of the Hydralyte brand in Australia and New Zealand from The Hydration Pharmaceuticals Trust of Victoria, Australia, which was funded through a combination of cash on hand and our existing senior secured credit facility.

Hydralyte is the leading OTC brand in oral rehydration in Australia and is marketed and sold through our Care Pharmaceuticals Pty Ltd. subsidiary ("Care Pharma"). Hydralyte is available in pharmacies in multiple forms and is indicated for oral rehydration following diarrhea, vomiting, fever, heat and other ailments. Hydralyte is included in our International OTC Healthcare segment.

The Hydralyte acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

We prepared an analysis of the fair values of the assets acquired and liabilities assumed as of the date of acquisition. The following table summarizes our allocation of the assets acquired and liabilities assumed as of the April 30, 2014 acquisition date.

(In thousands)	April 30, 2014
Inventories	\$ 1,970
Property, plant and equipment, net	1,267
Goodwill	1,224
Intangible assets, net	73,580
Total assets acquired	78,041
Accrued expenses	38
Other long term liabilities	12
Total liabilities assumed	50
Net assets acquired	\$ 77,991

Based on this analysis, we allocated \$73.6 million to non-amortizable intangible assets and no allocation was made to amortizable intangible assets.

We also recorded goodwill of \$1.2 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. Goodwill is not deductible for income tax purposes.

The pro forma effect of this acquisition on revenues and earnings was not material.

77

Acquisition of Care Pharmaceuticals Pty Ltd.

On July 1, 2013, we completed the acquisition of Care Pharma, which was funded through a combination of our existing senior secured credit facility and cash on hand.

The Care Pharma brands include the Fess line of cold/allergy and saline nasal health products, which is the leading saline spray for both adults and children in Australia. Other key brands include Painstop analgesic, Rectogesic for rectal discomfort, and the Fab line of nutritional supplements. Care Pharma also carries a line of brands for children including Little Allergies, Little Eyes, and Little Coughs. The brands acquired are complementary to our OTC Healthcare portfolio.

This acquisition was accounted for in accordance with the Business Combinations topic of the FASB ASC 805, which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

We prepared a analysis of the fair values of the assets acquired and liabilities assumed as of the date of acquisition. The following table summarizes our allocation of the assets acquired and liabilities assumed as of the July 1, 2013 acquisition date.

(In thousands)	July 1, 2013
Cash acquired	\$ 1,546
Accounts receivable	1,658
Inventories	2,465
Deferred income tax assets	283
Prepays and other current assets	647
Property, plant and equipment	163
Goodwill	23,122
Intangible assets	31,502
Total assets acquired	61,386
Accounts payable	1,537
Accrued expenses	2,788
Other long term liabilities	300
Total liabilities assumed	4,625
Net assets acquired	\$ 56,761

Based on this analysis, we allocated \$29.8 million to non-amortizable intangible assets and \$1.7 million to amortizable intangible assets. We are amortizing the purchased amortizable intangible assets on a straight-line basis over an estimated weighted average useful life of 15.1 years. The weighted average remaining life for amortizable intangible assets at March 31, 2015 was 11.8 years.

We also recorded goodwill of \$23.1 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. The full amount of goodwill is deductible for income tax purposes.

The pro-forma effect of this acquisition on revenues and earnings was not material.

3. Divestitures

Sale of the Phazyme Brand

On October 31, 2012, we divested the Phazyme gas treatment brand, which was a non-core OTC brand that we acquired from GlaxoSmithKline plc ("GSK") in January 2012. We received \$21.7 million from the divestiture on October 31, 2012 and the remaining \$0.6 million on January 4, 2013. The proceeds were used to repay debt. No significant gain or loss was recorded as a result of the sale.

4. Accounts Receivable

Accounts receivable consist of the following:

(In thousands)	March 31, 2015	2014
Components of Accounts Receivable		
Trade accounts receivable	\$95,411	\$73,632
Other receivables	2,353	1,360
	97,764	74,992
Less allowances for discounts, returns and uncollectible accounts	(9,906)	(9,942)
Accounts receivable, net	\$87,858	\$65,050

5. Inventories

Inventories consist of the following:

(In thousands)	March 31, 2015	2014
Components of Inventories		
Packaging and raw materials	\$7,588	\$3,099
Finished goods	66,412	62,487
Inventories	\$74,000	\$65,586

Inventories are carried and depicted above at the lower of cost or market, which includes a reduction in inventory values of \$4.1 million and \$1.1 million at March 31, 2015 and 2014, respectively, related to obsolete and slow-moving inventory.

6. Property and Equipment

Property and equipment consist of the following:

(In thousands)	March 31, 2015	2014
Components of Property and Equipment		
Machinery	\$4,743	\$1,927
Computer equipment	11,339	8,923
Furniture and fixtures	2,484	1,858
Leasehold improvements	7,134	4,734
	25,700	17,442
Accumulated depreciation	(11,956)	(7,845)
Property and equipment, net	\$13,744	\$9,597

We recorded depreciation expense of \$3.8 million, \$3.2 million, and \$1.6 million for 2015, 2014, and 2013, respectively.

7. Goodwill

The following table summarizes the changes in the carrying value of goodwill by operating segment for each of 2013, 2014, and 2015:

(In thousands)	North American Healthcare	OTC Healthcare	International OTC Healthcare	Household Cleaning	Consolidated
Balance – March 31, 2012					
Goodwill	\$296,483		\$—	\$72,549	\$369,032
Accumulated impairment losses	(130,170) —		(65,160) (195,330
Balance – March 31, 2012	166,313	—		7,389	173,702

2015 reductions	—		—	(589) (589
Effects of foreign currency exchange rates	—		(4,149) —	(4,149
Balance – March 31, 2015					
Goodwill	393,581		20,440	71,960	485,981
Accumulated impairment losses	(130,170) —		(65,160) (195,330
Balance - March 31, 2015	\$263,411	\$20,440		\$6,800	\$290,651

During the three months ended June 30, 2012, we received a revised post-closing inventory and apportionment adjustment from GSK requiring an additional payment of \$0.2 million, which resulted in an increase to our recorded goodwill balance.

As more fully disclosed in Note 3, on October 31, 2012, we sold the Phazyme brand for \$22.3 million. As a result of the divestiture of Phazyme, we reduced goodwill by \$6.4 million.

As discussed in Note 2, on July 1, 2013, we completed the acquisition of Care Pharma. In connection with this acquisition, we recorded goodwill of \$23.1 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired.

As discussed in Note 2, we completed two acquisitions during the year ended March 31, 2015. On September 3, 2014, we completed the acquisition of Insight and recorded goodwill of \$103.3 million reflecting the amount by which the purchase price exceeded the preliminary estimate of fair value of net assets acquired. Additionally, on April 30, 2014, we completed the acquisition of the Hydralyte brand and recorded goodwill of \$1.2 million reflecting the amount by which the purchase price exceeded the preliminary estimate of fair value of the net assets acquired.

As further discussed in Note 8, in December 2014, we completed a transaction to sell rights to use of the Comet brand in certain Eastern European countries to a third-party licensee. As a result, we recorded a gain on the sale of such rights in the amount of \$1.1 million and reduced the carrying value of our intangible assets and goodwill.

Under accounting guidelines, goodwill is not amortized, but must be tested for impairment annually, or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below the carrying

amount. During the fourth quarter of each fiscal year, we perform our annual impairment analysis. In prior years, we performed the analysis as of March 31. However, beginning with fiscal year 2015, we changed the date of our analysis to February 28 to better align with our annual operating plan preparation and to help facilitate our financial reporting process. We do not believe that a one-month change in the date of our analysis will significantly impact the results of our analysis or our financial statements.

At February 28, 2015 and March 31, 2014, in conjunction with the annual test for goodwill impairment, there were no indicators of impairment under the analysis. Accordingly, no impairment charge was recorded in 2015 or 2014.

We identify our reporting units in accordance with the FASB ASC Subtopic 280. The carrying value and fair value for intangible assets and goodwill for a reporting unit are calculated based on key assumptions and valuation methodologies previously discussed. The discounted cash flow methodology is a widely-accepted valuation technique utilized by market participants in the transaction evaluation process and has been applied consistently. We also considered our market capitalization at February 28, 2015 and March 31, 2014 and 2013, as compared to the aggregate fair values of our reporting units, to assess the reasonableness of our estimates pursuant to the discounted cash flow methodology. Although the impairment charges recorded in the prior years were a result of utilizing management's best estimate of fair value, the estimates and assumptions made in assessing the fair value of our reporting units and the valuation of the underlying assets and liabilities are inherently subject to significant uncertainties. Consequently, changing rates of interest and inflation, declining sales or margins, increases in competition, changing consumer preferences, technical advances, or reductions in advertising and promotion may require additional impairments in the future. We have experienced significant declines in revenues and profitability of certain brands in the North American OTC Healthcare segment during 2015. In the past, we have experienced declines in revenues and profitability of certain brands in the North American OTC Healthcare and Household Cleaning segments. Sustained or significant future declines in revenue, profitability, other adverse changes in expected operating results, and/or unfavorable changes in other economic factors used to estimate fair value of certain brands could indicate that fair value no longer exceeds carrying value, in which case a non-cash impairment charge may be recorded in future periods.

The aggregate fair value of our reporting units exceeded the carrying value by 45.2% with no reporting unit's fair value exceeding the carrying value by less than 10%.

8. Intangible Assets

A reconciliation of the activity affecting intangible assets for each of 2013, 2014, and 2015 is as follows:

(In thousands)	Year Ended March 31, 2013			Totals
	Indefinite Lived Trademarks	Finite Lived Trademarks	Non Compete Agreement

In conjunction with our annual impairment analysis, we reassessed the useful lives of our intangible assets and determined that our Pediacare trade name should be reclassified to a finite-lived intangible asset with an estimated 20 year useful life. We made this determination based on the recent declines in the business and a strategic change in the focus of certain brands as we continue to prioritize our support on other significant and more recently acquired brands.

As discussed in Note 3, on October 31, 2012, we sold the Phazyme brand for \$22.3 million. As a result of this divestiture, we reduced the net book value of our intangible assets by \$15.6 million.

During the year ended March 31, 2013, we reclassified a portion of trademarks related to the acquired GSK brands from indefinite-lived to finite-lived intangible assets in the amount of \$1.7 million.

As discussed in Note 2, on July 1, 2013, we completed the acquisition of Care Pharma. In connection with this acquisition, we allocated \$31.5 million to intangible assets based on our analysis.

As discussed in Note 2, we completed two acquisitions during the year ended March 31, 2015. On September 3, 2014, we completed the acquisition of Insight and allocated \$724.4 million to intangible assets based on our preliminary analysis. Additionally, on April 30, 2014, we completed the acquisition of the Hydralyte brand and allocated \$73.6 million to intangible assets based on our preliminary analysis. Furthermore, on September 3, 2014 we sold one of the brands that we acquired from Insight, for which we had allocated \$17.7 million to intangible assets.

Under accounting guidelines, indefinite-lived assets are not amortized, but must be tested for impairment annually, or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of

the asset below the carrying amount. Additionally, at each reporting period, an evaluation must be made to determine whether events and circumstances continue to support an indefinite useful life. Intangible assets with finite lives are amortized over their respective estimated useful lives and are also tested for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable and exceeds its fair value.

On an annual basis during the fourth fiscal quarter, or more frequently if conditions indicate that the carrying value of the asset may not be recovered, management performs a review of both the values and, if applicable, useful lives assigned to intangible assets and tests for impairment.

During the fourth quarter of each fiscal year, we perform our annual impairment analysis. In prior years, we performed the analysis as of March 31. However, beginning with fiscal year 2015, we changed the date of our analysis to February 28 to better align with our annual operating plan preparation and to help facilitate our financial reporting process. We do not believe that a one-month change in the date of our analysis will significantly impact the results of our analysis or our financial statements.

We utilized the discounted cash flow method to estimate the fair value of our reporting units as part of the goodwill impairment test and the excess earnings method to estimate the fair value of our individual indefinite-lived intangible assets. The discount rate utilized in the analyses, as well as future cash flows, may be influenced by such factors as changes in interest rates and rates of inflation. Additionally, should the related fair values of goodwill and intangible assets be adversely affected as a result of declining sales or margins caused by competition, changing consumer preferences, technological advances or reductions in advertising and promotional expenses, we may be required to record impairment charges in the future. In addition, we considered our market capitalization at February 28, 2015, as compared to the aggregate fair values of our reporting units, to assess the reasonableness of our estimates pursuant to the discounted cash flow methodology. As a result of our analysis, we determined that the fair values exceeded the carrying values and as such, no impairment charge was recorded in 2015.

Based on our analysis, the aggregate fair value of our reporting units exceeded the carrying value by 45.2%, with no reporting unit's fair value exceeding the carrying value by less than 10%. The aggregate fair value of the indefinite-lived intangible assets exceeded the carrying value by 42.4%. Three of the individual indefinite-lived trade names exceeded their carrying values by less than 10%. The fair value of Debrox, New Skin and Ecotrin, exceed their carrying values of \$76.3 million, \$37.2 million and \$32.9 million, by 8.3%, 9.2% and 7.9%, respectively.

The significant assumptions underpinning the fair value of Debrox include a discount rate of 10%, coupled with modest revenue growth, and advertising and promotion investments that are in line with historical performance. A decrease in the annual cash flow of approximately 7.7% compared to the projected cash flow utilized in our analysis, or an increase in the discount rate of approximately 62 basis points could result in the carrying value of our trade name exceeding its fair value, resulting in an impairment charge.

The significant assumptions supporting the fair value of New Skin and Ecotrin, include a discount rate of 10% and cash flow projections that assume stabilizing revenue declines followed by modest revenue growth. Gross margin and advertising and promotion investments behind the brands are expected to be consistent with historic trends. Continued revenue declines in each of the brands, or changes in assumptions utilized in our quantitative indefinite lived asset impairment analysis may result in the fair value no longer exceed their carrying values. For example, a decrease in the annual cash flow of approximately 8.4% and 7.3%, for New Skin and Ecotrin, respectively, compared to the projected cash flow utilized in our analysis, or an increase in the discount rate of approximately 77 and 72 basis points, respectively, could result in the carrying value of our trade name exceeding its fair value, resulting in an impairment charge. We will continue to review our results against forecasts and assess our assumptions to ensure they continue to be appropriate.

Additionally, certain of our North American OTC Healthcare and Household Cleaning brands, have experienced recent declines in revenues and profitability. While the fair value of these reporting units exceeds the carrying value by more than 10%, should such revenue declines continue, the fair value of the corresponding reporting units may no longer exceed their carrying value and we would be required to record an impairment charge.

Revenues from our Pediacare brand have declined significantly as compared to the corresponding periods in the prior year, due primarily to competition in the category, including new product introductions and lost distribution. Although we had expected revenues to decline with the return to the market of competing products, such declines have been steeper than expected. As a result, we performed an interim impairment analysis during our third quarter ended December 31, 2014 and concluded that no impairment existed. Additionally, in conjunction with a strategic review of our brands during the fourth quarter ended March 31, 2015 and our annual impairment review, we have reassessed the useful life of the Pediacare brand as of February 28, 2015 and determined it to be 20 years.

See Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the heading "Critical Accounting Policies" for a further discussion on the assumptions used in our impairment analysis. Furthermore, we completed our annual test for impairment of intangible assets during the fourth quarter of each of the years presented and did not record an impairment charge, as facts and circumstances indicated that the fair values of each intangible asset exceeded its carrying

value. Adverse changes in the expected operating results and/or unfavorable changes in other economic factors used to estimate fair values of these specific brands could result in a non-cash impairment charge in the future.

The weighted average remaining life for finite-lived intangible assets at March 31, 2015 was approximately 14.6 years and the amortization expense for the year ended March 31, 2015 was \$13.0 million. At March 31, 2015, finite-lived intangible assets are expected to be amortized over their estimated useful life, which ranges from a period of 10 to 30 years, and the estimated amortization expense for each of the five succeeding years and periods thereafter is as follows (in thousands):

Year Ending March 31,	
2016	17,868
2017	17,868
2018	17,868
2019	17,868
2020	17,868
Thereafter	171,956
	\$261,296

Sale of asset

Historically, we received royalty income from the licensing of the name of certain of our brands in geographic areas or markets in which we do not directly compete. We have had a royalty agreement for our Comet brand for several years, which included an option on behalf of the licensee to purchase the rights in certain geographic areas and markets in perpetuity. In December 2014, we amended the agreement to allow the licensee to buy out a portion of the agreement early, but retaining the remaining stream of royalty payments. In December, in connection with this amendment, we sold rights to use of the Comet brand in certain Eastern European countries to a third-party licensee and received \$10.0 million as a partial early buyout. As a result, we recorded a gain on sale of \$1.1 million, and reduced the carrying value of our intangible assets and goodwill. The licensee will continue to make quarterly payments at least through June 30, 2016 of approximately \$1.0 million. The licensee has the option to purchase the remaining territories and markets, as defined in the agreement, at any time after July 1, 2016.

9. Other Accrued Liabilities

Other accrued liabilities consist of the following:

(In thousands)	March 31,	2014
	2015	
Accrued marketing costs	\$16,903	\$11,812
Accrued compensation costs	8,840	6,232
Accrued broker commissions	1,134	1,019
Income taxes payable	2,642	1,854
Accrued professional fees	2,769	2,002
Deferred rent	1,021	1,258
Accrued production costs	5,610	1,506
Accrued lease termination costs	669	—
Other accrued liabilities	1,360	763
	\$40,948	\$26,446

10. Long-Term Debt

2012 Senior Notes:

On January 31, 2012, Prestige Brands, Inc. (the "Borrower") issued \$250.0 million of senior unsecured notes at par value, with an interest rate of 8.125% and a maturity date of February 1, 2020 (the "2012 Senior Notes"). The Borrower may earlier redeem some or all of the 2012 Senior Notes at redemption prices set forth in the indenture governing the 2012 Senior Notes. The 2012 Senior Notes are guaranteed by Prestige Brands Holdings, Inc. and certain of its domestic 100% owned subsidiaries, other than the Borrower. Each of these guarantees is joint and several. There are no significant restrictions on the ability of any of the guarantors to obtain funds from their subsidiaries or to make payments to the Borrower or the Company. In connection with the

2012 Senior Notes offering, we incurred \$12.6 million of costs, which were capitalized as deferred financing costs and are being amortized over the term of the 2012 Senior Notes.

2012 Term Loan and 2012 ABL Revolver:

On January 31, 2012, the Borrower also entered into a new senior secured credit facility, which consists of (i) a \$660.0 million term loan facility (the "2012 Term Loan") with a 7-year maturity and (ii) a \$50.0 million asset-based revolving credit facility (the "2012 ABL Revolver") with a 5-year maturity. In subsequent years, we have utilized portions of our accordion feature to increase the amount of our borrowing capacity under the 2012 ABL Revolver by \$85.0 million to \$135.0 million and reduced our borrowing rate on the 2012 ABL Revolver by 0.25%. The 2012 Term Loan was issued with an original issue discount of 1.5% of the principal amount thereof, resulting in net proceeds to the Borrower of \$650.1 million. In connection with these loan facilities, we incurred \$20.6 million of costs, which were capitalized as deferred financing costs and are being amortized over the terms of the facilities. The 2012 Term Loan is unconditionally guaranteed by Prestige Brands Holdings, Inc. and certain of its domestic 100% owned subsidiaries, other than the Borrower. Each of these guarantees is joint and several. There are no significant restrictions on the ability of any of the guarantors to obtain funds from their subsidiaries or to make payments to the Borrower or the Company.

On February 21, 2013, the Borrower entered into Amendment No. 1 (the "Term Loan Amendment No. 1") to the 2012 Term Loan. Term Loan Amendment No. 1 provided for the refinancing of all of the Borrower's existing Term B Loans with new Term B-1 Loans (the "Term B-1 Loans"). The interest rate on the Term B-1 Loans under the Term Loan Amendment No. 1 was based, at the Borrower's option, on a LIBOR rate plus a margin of 2.75% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin. The new Term B-1 Loans mature on the same date as the Term B Loans' original maturity date. In addition, Term Loan Amendment No. 1 provided the Borrower with certain additional capacity to prepay subordinated debt, the 2012 Senior Notes and certain other unsecured indebtedness permitted to be incurred under the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver. In connection with Term Loan Amendment No. 1, during the fourth quarter ended March 31, 2013, we recognized a \$1.4 million loss on the extinguishment of debt.

On September 3, 2014, the Borrower entered into Amendment No. 2 ("Term Loan Amendment No. 2") to the 2012 Term Loan. Term Loan Amendment No. 2 provides for (i) the creation of a new class of Term B-2 Loans under the 2012 Term Loan (the "Term B-2 Loans") in an aggregate principal amount of \$720.0 million, (ii) increased flexibility under the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver, including additional investment, restricted payment and debt incurrence flexibility and financial maintenance covenant relief, and (iii) an interest rate on (x) the Term B-1 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 3.125% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin, and (y) the Term B-2 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 3.50% per annum, with a LIBOR floor of 1.00%, or an alternate base rate, with a floor of 2.00%, plus a margin (with a margin step-down to 3.25% per annum, based upon achievement of a specified secured net leverage ratio).

The 2012 Term Loan, as amended, bears interest at a rate per annum equal to an applicable margin plus, at the Borrower's option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month, adjusted for certain additional costs, plus 1.00% and (d) a floor of 2.00% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing, adjusted for certain additional costs, with a floor of 1.00%. For the year ended March 31, 2015, the average interest rate on the 2012 Term Loan was 5.3%.

Under the 2012 Term Loan, we were originally required to make quarterly payments each equal to 0.25% of the original principal amount of the 2012 Term Loan, with the balance expected to be due on the seventh anniversary of the closing date. However, since we have previously made significant optional payments that exceeded all of our required quarterly payments, we will not be required to make another payment until the maturity date of January 31, 2019.

On September 3, 2014, the Borrower entered into Amendment No. 3 (“ABL Amendment No. 3”) to the 2012 ABL Revolver. ABL Amendment No. 3 provided for (i) a \$40.0 million increase in revolving commitments under the 2012 ABL Revolver and (ii) increased flexibility under the credit agreement governing the 2012 Term Loan and 2012 ABL Revolver, including additional investment, restricted payment and debt incurrence flexibility. Borrowings under the 2012 ABL Revolver, as amended, bear interest at a rate per annum equal to an applicable margin, plus, at the Borrower's option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., and (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month, adjusted for certain additional costs, plus 1.00% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing, adjusted for certain additional costs. The initial applicable margin for borrowings under the 2012 ABL Revolver is 1.75% with respect to LIBOR borrowings and 0.75% with respect to base-rate borrowings. The applicable margin for borrowings under the 2012 ABL Revolver may be increased to 2.00% or 2.25% for LIBOR borrowings and 1.00% or 1.25% for base-rate borrowings, depending on average excess availability under the 2012 ABL Revolver during the prior

fiscal quarter. In addition to paying interest on outstanding principal under the 2012 ABL Revolver, we are required to pay a commitment fee to the lenders under the 2012 ABL Revolver in respect of the unutilized commitments thereunder. The initial commitment fee rate is 0.50% per annum. The commitment fee rate will be reduced to 0.375% per annum at any time when the average daily unused commitments for the prior quarter is less than a percentage of total commitments by an amount set forth in the credit agreement covering the 2012 ABL Revolver. We may voluntarily repay outstanding loans under the 2012 ABL Revolver at any time without a premium or penalty. For the year ended March 31, 2015, the average interest rate on the amounts borrowed under the 2012 ABL Revolver was 2.8%.

2013 Senior Notes:

On December 17, 2013, the Borrower issued \$400.0 million of senior unsecured notes, with an interest rate of 5.375% and a maturity date of December 15, 2021 (the "2013 Senior Notes"). The Borrower may redeem some or all of the 2013 Senior Notes at redemption prices set forth in the indenture governing the 2013 Senior Notes. The 2013 Senior Notes are guaranteed by Prestige Brands Holdings, Inc. and certain of its 100% domestic owned subsidiaries, other than the Borrower. Each of these guarantees is joint and several. There are no significant restrictions on the ability of any of the guarantors to obtain funds from their subsidiaries or to make payments to the Borrower or the Company. In connection with the 2013 Senior Notes offering, we incurred \$7.2 million of costs, which were capitalized as deferred financing costs and are being amortized over the term of the 2013 Senior Notes.

Redemptions and Restrictions:

At any time prior to February 1, 2016, we may redeem the 2012 Senior Notes in whole or in part at a redemption price equal to 100% of the principal amount of the notes redeemed, plus a "make-whole premium" calculated as set forth in the indenture governing the 2012 Senior Notes, together with accrued and unpaid interest, if any, to the date of redemption. On or after February 1, 2016, we may redeem the 2012 Senior Notes in whole or in part at redemption prices set forth in the indenture governing the 2012 Senior Notes. In addition, at any time prior to February 1, 2015, we could redeem up to 35% of the aggregate principal amount of the 2012 Senior Notes at a redemption price equal to 108.125% of the principal amount thereof, plus accrued and unpaid interest, if any, to the redemption date, with the net cash proceeds of certain equity offerings, provided that certain conditions were met. Subject to certain limitations, in the event of a change of control, as defined in the indenture governing the 2012 Senior Notes, the Borrower will be required to make an offer to purchase the 2012 Senior Notes at a price equal to 101% of the aggregate principal amount of the 2012 Senior Notes repurchased, plus accrued and unpaid interest, if any, to the date of repurchase.

At any time prior to December 15, 2016, we may redeem the 2013 Senior Notes in whole or in part at a redemption price equal to 100% of the principal amount of notes redeemed, plus an applicable "make-whole premium" calculated as set forth in the indenture governing the 2013 Senior Notes, together with accrued and unpaid interest, if any, to the date of redemption. On or after December 15, 2016, we may redeem some or all of the 2013 Senior Notes at redemption prices set forth in the indenture governing the 2013 Senior Notes. In addition, at any time prior to December 15, 2016, we may redeem up to 35% of the aggregate principal amount of the 2013 Senior Notes at a redemption price equal to 105.375% of the principal amount thereof, plus accrued and unpaid interest, if any, to the redemption date, with the net cash proceeds of certain equity offerings, provided that certain conditions are met. Subject to certain limitations, in the event of a change of control, as defined in the indenture governing the 2013 Senior Notes, the Borrower will be required to make an offer to purchase the 2013 Senior Notes at a price equal to 101% of the aggregate principal amount of the 2013 Senior Notes repurchased, plus accrued and unpaid interest, if any, to the date of repurchase.

The indentures governing the 2012 Senior Notes and the 2013 Senior Notes contain provisions that restrict us from undertaking specified corporate actions, such as asset dispositions, acquisitions, dividend payments, repurchases of common shares outstanding, changes of control, incurrences of indebtedness, issuance of equity, creation of liens, making of loans and transactions with affiliates. Additionally, the credit agreement with respect to the 2012 Term Loan and the 2012 ABL Revolver and the indentures governing the 2012 Senior Notes and the 2013 Senior Notes

contain cross-default provisions, whereby a default pursuant to the terms and conditions of certain indebtedness will cause a default on the remaining indebtedness under the credit agreement governing the 2012 Term Loan and the 2012 ABL Revolver and the indentures governing the 2012 Senior Notes and the 2013 Senior Notes. At March 31, 2015, we were in compliance with the covenants under our long-term indebtedness.

At March 31, 2015, we had an aggregate of \$28.6 million of unamortized debt issuance costs and \$4.9 million of unamortized debt discount, the total of which is comprised of \$8.7 million related to the 2012 Senior Notes, \$6.2 million related to the 2013 Senior Notes, \$17.4 million related to the 2012 Term Loan, and \$1.2 million related to the 2012 ABL Revolver.

At March 31, 2015, we had \$66.1 million outstanding on the 2012 ABL Revolver and a borrowing capacity of \$44.9 million.

Long-term debt consists of the following, as of the dates indicated:

(In thousands, except percentages)	March 31, 2015	March 31, 2014
2013 Senior Notes bearing interest at 5.375%, with interest payable on June 15 and December 15 of each year. The 2013 Senior Notes mature on December 15, 2021.	\$400,000	\$400,000
2012 Senior Notes bearing interest at 8.125%, with interest payable on February 1 and August 1 of each year. The 2012 Senior Notes mature on February 1, 2020.	250,000	250,000
2012 Term B-1 Loan bearing interest at the Borrower's option at either a base rate with a floor of 2.00% plus applicable margin or LIBOR with a floor of 1.00% plus applicable margin, due on January 31, 2019.	217,500	287,500
2012 Term B-2 Loan bearing interest at the Borrower's option at either a base rate with a floor of 2.00% plus applicable margin or LIBOR with a floor of 1.00% plus applicable margin, due on September 3, 2021.	660,000	—
2012 ABL Revolver bearing interest at the Borrower's option at either a base rate plus applicable margin or LIBOR plus applicable margin. Any unpaid balance is due on January 31, 2017.	66,100	—
	1,593,600	937,500
Current portion of long-term debt	—	—
	1,593,600	937,500
Less: unamortized discount	(4,889) (3,086
Long-term debt, net of unamortized discount	\$1,588,711	\$934,414

As of March 31, 2015, aggregate future principal payments required in accordance with the terms of the 2012 Term Loan, 2012 ABL Revolver and the indentures governing the 2013 Senior Notes and the 2012 Senior Notes are as follows:

(In thousands)	Amount
Year Ending March 31,	
2016	\$—
2017	66,100
2018	—
2019	217,500
2020	250,000
Thereafter	1,060,000
	\$1,593,600

11. Fair Value Measurements

As we deem appropriate, we may from time to time utilize derivative financial instruments to mitigate the impact of changing interest rates associated with our long-term debt obligations or other derivative financial instruments. While we have utilized derivative financial instruments in the past, we did not have any significant derivative financial instruments outstanding at March 31, 2015, 2014 or 2013. We have not entered into derivative financial instruments for trading purposes; all of our derivatives were over-the-counter instruments with liquid markets.

For certain of our financial instruments, including cash, accounts receivable, accounts payable and other current liabilities, the carrying amounts approximate their respective fair values due to the relatively short maturity of these amounts.

The Fair Value Measurements and Disclosures topic of the FASB ASC 820 requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market assuming an orderly transaction between market participants. The Fair Value Measurements and Disclosures topic established market (observable inputs) as the preferred source of fair value, to be followed by the Company's assumptions of fair value based on hypothetical transactions (unobservable inputs) in the absence of observable market inputs. Based upon the above, the following fair value hierarchy was created:

Level 1 - Quoted market prices for identical instruments in active markets;

Level 2 - Quoted prices for similar instruments in active markets, as well as quoted prices for identical or similar instruments in markets that are not considered active; and

Level 3 - Unobservable inputs developed by the Company using estimates and assumptions reflective of those that would be utilized by a market participant.

The market values have been determined based on market values for similar instruments adjusted for certain factors. As such, the Term B-1 Loans, Term B-2 Loans, the 2013 Senior Notes, the 2012 Senior Notes, and the 2012 ABL Revolver are measured in Level 2 of the above hierarchy. At March 31, 2015 and 2014, we did not have any assets or liabilities measured in Level 1 or 3. During 2015, 2014 and 2013, there were no transfers of assets or liabilities between Levels 1, 2 and 3.

At March 31, 2015 and 2014, the carrying value of our 2013 Senior Notes was \$400.0 million and \$400.0 million, respectively. At March 31, 2015 and 2014, the fair value of our 2013 Senior Notes was \$405.0 million and \$408.5 million, respectively.

At March 31, 2015 and 2014, the carrying value of our 2012 Senior Notes was \$250.0 million and \$250.0 million, respectively. The fair value of our 2012 Senior Notes was \$268.1 million and \$280.6 million at March 31, 2015 and 2014, respectively.

At March 31, 2015 and 2014, the carrying value of the Term B-1 Loans was \$217.5 million and \$287.5 million, respectively. The fair value of the Term B-1 Loans was \$218.0 million and \$288.9 million at March 31, 2015 and 2014, respectively.

At March 31, 2015, the carrying value of the Term B-2 Loans was \$660.0 million. The fair value of the Term B-2 Loan was \$662.5 million at March 31, 2015. Because the Term B-2 Loans were entered into on September 3, 2014, there were no outstanding loan balances as of March 31, 2014.

At March 31, 2015, the carrying value and fair value of the 2012 ABL Revolver was \$66.1 million and \$65.7 million, respectively. There were no outstanding borrowings under the 2012 ABL Revolver at March 31, 2014.

12. Stockholders' Equity

The Company is authorized to issue 250.0 million shares of common stock, \$0.01 par value per share, and 5.0 million shares of preferred stock, \$0.01 par value per share. The Board of Directors may direct the issuance of the undesignated preferred stock in one or more series and determine preferences, privileges and restrictions thereof.

Each share of common stock has the right to one vote on all matters submitted to a vote of stockholders. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the Board of Directors, subject to prior rights of holders of all classes of stock outstanding having priority rights as to dividends. No dividends have been declared or paid on the Company's common stock through March 31, 2015.

Pursuant to the provisions of various employee restricted stock awards, we repurchased 59,933 shares and 25,464 shares of restricted common stock from our employees during the years ended March 31, 2015 and 2014, respectively. The repurchases during the years ended March 31, 2015 and 2014 were at an average price of \$34.16 and \$29.23, respectively. All of the repurchased shares have been recorded as treasury stock.

13. Earnings Per Share

Basic earnings per share is computed based on the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per share is computed based on the weighted-average number of shares of common stock outstanding plus the effect of potentially dilutive common shares outstanding during the period using the treasury stock method, which includes stock options, restricted stock awards, and restricted stock units. The following table sets forth the computation of basic and diluted earnings per share:

(In thousands, except per share data)	Year Ended March 31,		
	2015	2014	2013
Numerator			
Net income	\$78,260	\$72,615	\$65,505
Denominator			
Denominator for basic earnings per share- weighted average shares outstanding	52,170	51,641	50,633
Dilutive effect of unvested restricted common stock (including restricted stock units) and options issued to employees and directors	500	708	807
Denominator for diluted earnings per share	52,670	52,349	51,440
Earnings per Common Share:			
Basic net earnings per share	\$1.50	\$1.41	\$1.29
Diluted net earnings per share	\$1.49	\$1.39	\$1.27

Additionally, for 2015, 2014, and 2013 there were 0.3 million, 0.2 million, and zero shares attributable to outstanding stock-based awards that were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.

14. Share-Based Compensation

In connection with our initial public offering, the Board of Directors adopted the 2005 Long-Term Equity Incentive Plan (the "Plan"), which provides for grants, up to a maximum of 5.0 million shares of restricted stock, stock options, restricted stock units and other equity-based awards. In June 2014, the Board of Directors approved, and in July 2014, the stockholders ratified, an increase of an additional 1.8 million shares of our common stock for issuance thereunder and increased the maximum number of shares subject to stock options that may be awarded to any one participant under the Plan during any 12-month period from 1 million to 2.5 million shares and extended the term of the Plan by 10 years, to February 2025. Directors, officers and other employees of the Company and its subsidiaries, as well as others performing services for the Company, are eligible for grants under the Plan.

During 2015, pre-tax share-based compensation costs charged against income and the related income tax benefit recognized were \$6.9 million and \$1.9 million, respectively.

During 2014, pre-tax share-based compensation costs charged against income and the related income tax benefit recognized were \$5.1 million and \$1.5 million, respectively.

During 2013, pre-tax share-based compensation costs charged against income and the related income tax benefit recognized were \$3.8 million and \$1.2 million, respectively.

Restricted Shares

Restricted shares granted to employees under the Plan generally vest in three to five years, primarily upon the attainment of certain time vesting thresholds, and may also be contingent on the attainment of certain performance goals of the Company, including revenue and earnings before income taxes, depreciation and amortization targets. The restricted share awards provide for accelerated vesting if there is a change of control, as defined in the Plan. The restricted stock units granted to employees generally vest in their entirety on the three-year anniversary of the date of the grant. Termination of employment prior to vesting will result

in forfeiture of the restricted stock units. The restricted stock units granted to directors will vest in their entirety one year after the date of grant so long as the membership on the Board of Directors continues through the vesting date, with the settlement in common stock to occur on the earliest of the director's death, disability or six-month anniversary of the date on which the director's Board membership ceases for reasons other than death or disability. Upon vesting, the units will be settled in shares of our common stock.

On May 9, 2012, the Compensation Committee of our Board of Directors granted 111,152 restricted stock units to certain executive officers and employees under the Plan, which will vest 33.3% per year over three years. On June 29, 2012, the Compensation Committee of our Board of Directors granted 12,652 restricted stock units to the independent members of the Board of Directors under the Plan. On August 6, 2012, the Compensation Committee of the Board of Directors granted 5,109 restricted stock units to Matthew M. Mannelly, our President and CEO, under the Plan. On May 14, 2013, the Compensation Committee of our Board of Directors granted 113,637 restricted stock units to certain executive officers and employees under the Plan. Of those grants, 55,637 restricted stock units vest in their entirety on the three-year anniversary of the date of grant, and 58,000 restricted stock units vest 33.3% per year over three years. On July 29, 2013, the Compensation Committee of the Board of Directors granted 7,004 restricted stock units to the independent members of the Board of Directors under the Plan. On November 5, 2013, the Compensation Committee of our Board of Directors granted 6,000 restricted stock units to certain employees under the Plan, which will vest 33.3% per year over three years. On May 12, 2014, the Compensation Committee of our Board of Directors granted 96,638 restricted stock units to certain executive officers and employees under the Plan. Of those grants, 75,638 restricted stock units vest in their entirety on the three-year anniversary of the date of grant and 21,000 restricted stock units vest 33.3% per year over three years. On August 5, 2014, the Compensation Committee of our Board of Directors granted 7,796 restricted stock units to the independent members of the Board of Directors under the Plan. On August 14, 2014, pursuant to his employment agreement, the Compensation Committee of the Board of Directors granted 2,489 restricted stock units to Thomas Hochuli, our Vice-President of Operations, under the Plan.

The fair value of the restricted stock units is determined using the closing price of our common stock on the day of the grant. The weighted-average grant-date fair value during 2015, 2014, and 2013 was \$33.33, \$30.19 and \$13.59, respectively.

A summary of the Company's restricted shares granted under the Plan is presented below:

	Shares (in thousands)	Weighted-Average Grant-Date Fair Value
Restricted Shares		
Vested and Nonvested at March 31, 2012	363.4	\$9.92
Granted	128.9	13.59
Vested and issued	(58.7)) 9.99
Forfeited	(12.3)) 10.69
Vested and nonvested at March 31, 2013	421.3	11.01
Vested at March 31, 2013	70.4	8.52
Granted	126.6	30.19
Vested and issued	(104.8)) 9.98
Forfeited	(5.6)) 15.11
Vested and nonvested at March 31, 2014	437.5	16.76
Vested at March 31, 2014	69.6	9.34

Edgar Filing: Prestige Brands Holdings, Inc. - Form 10-K

Granted	106.9	33.33
Vested and issued	(154.4) 13.37
Forfeited	(27.7) 21.45
Vested and nonvested at March 31, 2015	362.3	22.74
Vested at March 31, 2015	76.6	11.62

Options

The Plan provides that the exercise price of options granted shall be no less than the fair market value of the Company's common stock on the date the options are granted. Options granted have a term of no greater than ten years from the date of grant and vest in accordance with a schedule determined at the time the option is granted, generally three to five years. The option awards provide for accelerated vesting in the event of a change in control, as defined in the Plan. Termination of employment prior to vesting will result in forfeiture of the unvested stock options. Vested stock options will remain exercisable by the employee after termination, subject to the terms of the Plan.

The fair value of each option award is estimated on the date of grant using the Black-Scholes Option Pricing Model that uses the assumptions noted in the table below. Expected volatilities are based on the historical volatility of our common stock and other factors, including the historical volatilities of comparable companies. We use appropriate historical data, as well as current data, to estimate option exercise and employee termination behaviors. Employees that are expected to exhibit similar exercise or termination behaviors are grouped together for the purposes of valuation. The expected terms of the options granted are derived from our historical experience, management's estimates, and consideration of information derived from the public filings of companies similar to us, and represent the period of time that options granted are expected to be outstanding. The risk-free rate represents the yield on U.S. Treasury bonds with a maturity equal to the expected term of the granted options.

On May 9, 2012, the Compensation Committee of our Board of Directors granted stock options to acquire 422,962 shares of our common stock to certain executive officers and employees under the Plan. These stock options were granted at an exercise price of \$13.24 per share, which is equal to the closing price for our common stock on the date of the grant. On August 6, 2012, the Compensation Committee of the Board of Directors granted stock options to acquire 21,978 shares of our common stock to Matthew M. Mannelly. These stock options were granted at an exercise price of \$15.66 per share, which is equal to the closing price for our common stock on the date of grant. The stock options will vest 33.3% per year over three years and are exercisable for up to ten years from the date of grant. On May 14, 2013, the Compensation Committee of our Board of Directors granted stock options to acquire 227,672 shares of our common stock to certain executive officers and employees under the Plan. The stock options will vest 33.3% per year over three years and are exercisable for up to ten years from the date of grant. These stock options were granted at an exercise price of \$29.94 per share, which is equal to the closing price for our common stock on the date of grant. On May 12, 2014, the Compensation Committee of our Board of Directors granted stock options to acquire 307,490 shares of our common stock to certain executive officers and employees under the Plan. The stock options will vest 33.3% per year over three years and are exercisable for up to ten years from the date of grant. These stock options were granted at an exercise price of \$33.50 per share, which is equal to the closing price for our common stock on the date of grant. On August 14, 2014, pursuant to his employment agreement, the Compensation Committee of our Board of Directors granted stock options to acquire 10,485 shares of our common stock to Thomas Hochuli, our Vice-President of Operations, under the Plan. The stock options will vest 33.3% per year over three years and are exercisable for up to ten years from the date of grant. These stock options were granted at an exercise price of \$34.79 per share, which is equal to the closing price for our common stock on the date of grant. Termination of employment prior to vesting will result in forfeiture of the unvested stock options.

The weighted-average grant-date fair values of the options granted during 2015, 2014, and 2013 were \$15.95, \$13.94, and \$6.03, respectively.

	Year Ended March 31,		
	2015	2014

Expected dividends	—	—	
Expected term in years	6.0	6.0	
Risk-free rate	2.2	% 1.3	%

A summary of option activity under the Plan is as follows:

Options	Shares (in thousands)	Weighted-Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Outstanding at March 31, 2012	1,745.4	\$ 8.44		
Granted	444.9	13.36		
Exercised	(786.5) 7.67		
Forfeited or expired	(17.4) 11.21		
Outstanding at March 31, 2013	1,386.4	10.43		
Granted	227.7	29.94		
Exercised	(605.0) 9.76		
Forfeited or expired	(14.2) 14.56		
Outstanding at March 31, 2014	994.9	15.24		
Granted	317.9	33.54		
Exercised	(386.3) 10.24		
Forfeited or expired	(55.3) 26.77		
Outstanding at March 31, 2015	871.2	23.40	7.7	\$16,978
Exercisable at March 31, 2015	312.3	15.15	6.4	8,664

The aggregate intrinsic value of options exercised during 2015 was \$9.3 million.

At March 31, 2015, there were \$4.9 million of unrecognized compensation costs related to nonvested share-based compensation arrangements under the Plan, based on management's estimate of the shares that will ultimately vest. We expect to recognize such costs over a weighted-average period of 0.9 years. The total fair value of options and restricted stock units vested during 2015, 2014, and 2013 was \$4.7 million, \$3.4 million and \$2.5 million, respectively. Cash received from the exercise of stock options was \$4.0 million during 2015, and we realized \$2.2 million in tax benefits for the tax deductions resulting from option exercises in 2015. Cash received from the exercise of stock options was \$5.9 million during 2014, and we realized \$1.7 million in tax benefits for the tax deductions resulting from option exercises in 2014. Cash received from the exercise of stock options was \$6.0 million during 2013, and we realized \$11.3 million in tax benefits for the tax deductions from option exercises in 2013. On August 5, 2014 at the Annual Meeting of Stockholders, the stockholders approved the proposal to amend the Plan. The amendment authorized an additional 1.8 million shares of our common stock for issuance thereunder, increased the maximum number of shares subject to stock options that may be awarded to any one participant under the Plan during any 12-month period from 1.0 million to 2.5 million shares and extended the term of the Plan by 10 years, until February 2025. At March 31, 2015, there were 3.0 million shares available for issuance under the Plan.

15. Accumulated Other Comprehensive Income (Loss)

The table below presents accumulated other comprehensive income (loss) (“AOCI”), which affects equity and results from recognized transactions and other economic events, other than transactions with owners in their capacity as owners.

AOCI consisted of the following at March 31, 2015 and 2014:

(In thousands)	March 31, 2015	March 31, 2014
Components of Accumulated Other Comprehensive Income (Loss)		
Cumulative translation adjustment	\$(23,412) \$739
Accumulated other comprehensive income (loss), net of tax	\$(23,412) \$739

16. Income Taxes

Income from continuing operations before income taxes consists of the following:

(In thousands)	Year Ended March 31,		2013
	2015	2014	
United States	\$122,588	\$98,786	\$105,727
Foreign	4,870	2,962	307
	\$127,458	\$101,748	\$106,034

The provision for income taxes consists of the following:

(In thousands)	Year Ended March 31,		2013
	2015	2014	
Current			
Federal	\$13,066	\$7,801	\$12,520
State	760	625	1,972
Foreign	3,228	1,675	532
Deferred			
Federal	31,012	27,045	23,845
State	1,162	(7,879) 1,660
Foreign	(30) (134) —
Total provision for income taxes	\$49,198	\$29,133	\$40,529

Edgar Filing: Prestige Brands Holdings, Inc. - Form 10-K

The principal components of our deferred tax balances are as follows:

(In thousands)	March 31,	
	2015	2014
Deferred Tax Assets		
Allowance for doubtful accounts and sales returns	\$4,106	\$4,082
Inventory capitalization	1,550	1,301
Inventory reserves	1,495	362
Net operating loss carryforwards	23,800	327
State income taxes	7,557	3,728
Accrued liabilities	619	642
Stock compensation	3,517	2,358
Other	834	702
Total deferred tax assets	43,478	13,502
Deferred Tax Liabilities		
Property and equipment	(1,143) (1,467
Intangible assets	(385,807) (218,696
Total deferred tax liabilities	(386,950) (220,163
Net deferred tax liability	\$(343,472) \$(206,661

At March 31, 2015, a 100% owned subsidiary of the Company had a net operating loss carryforward of approximately \$65.0 million (\$23.8 million, tax effected), which may be used to offset future taxable income of the consolidated group and begins to expire in 2025. The Company expects to fully utilize the loss carryover before it expires. The net operating loss carryforward is subject to an annual limitation as to usage under Internal Revenue Code Section 382 of approximately \$33.0 million.

A reconciliation of the effective tax rate compared to the statutory U.S. Federal tax rate is as follows:

(In thousands)	Year Ended March 31,					
	2015		2014		2013	
		%		%		%
Income tax provision at statutory rate	\$44,610	35.0	\$35,612	35.0	\$37,112	35.0
Foreign tax (benefit) provision	(2,019) (1.6) (918) (0.9) —	—
State income taxes, net of federal income tax benefit	2,865	2.3	2,004	2.0	3,413	3.2
Decrease in net deferred tax liability resulting from a change in the effective state tax rate	—	—	(8,892) (8.7) (1,741) (1.6
Goodwill impairment	206	0.2	—	—	—	—
Transaction costs	2,936	2.3	—	—	—	—
Nondeductible compensation	566	0.4	1,011	1.0	1,684	1.6
Other	34	—	316	0.3	61	—
Total provision for income taxes	\$49,198	38.6	\$29,133	28.7	\$40,529	38.2

Uncertain tax liability activity is as follows:

	2015	2014	2013
(In thousands)			
Balance – beginning of year	\$1,236	1,016	292
Additions based on tax positions related to the current year	2,229	360	831
Reductions based on lapse of statute of limitations	(45) (140) (107
Balance – end of year	\$3,420	\$1,236	\$1,016

We recognize interest and penalties related to uncertain tax positions as a component of income tax expense. We did not incur any material interest or penalties related to income taxes in 2013, 2014 or 2015. We do not anticipate any events or circumstances that would cause a significant change to these uncertainties during 2016. We are subject to taxation in the United States and various state and foreign jurisdictions and we are generally open to examination from the year ended March 31, 2012 forward.

The Company does not provide for United States income taxes on the undistributed earnings of foreign subsidiaries, which are intended to be indefinitely reinvested in operations outside of the United States. As of March 31, 2015, the cumulative amount of earnings upon which United States income taxes have not been provided is approximately \$14.2 million. As of March 31, 2015, the amount of unrecognized deferred tax liability related to these earnings is estimated to be \$1.3 million.

17. Commitments and Contingencies

We are involved from time to time in routine legal matters and other claims incidental to our business. We review outstanding claims and proceedings internally and with external counsel as necessary to assess probability and amount of potential loss. These assessments are re-evaluated at each reporting period and as new information becomes available to determine whether a reserve should be established or if any existing reserve should be adjusted. The actual cost of resolving a claim or proceeding ultimately may be substantially different than the amount of the recorded reserve. In addition, because it is not permissible under GAAP to establish a litigation reserve until the loss is both probable and estimable, in some cases there may be insufficient time to establish a reserve prior to the actual incurrence of the loss (upon verdict and judgment at trial, for example, or in the case of a quickly negotiated settlement). We believe the resolution of routine legal matters and other claims incidental to our business, taking our reserves into account, will not have a material adverse effect on our business, financial condition, or results from operations.

Lease Commitments

We have operating leases for office facilities and equipment in New York, Wyoming, and other locations, which expire at various dates through fiscal 2021. We required additional office space as a result of the closing of the acquisition of Insight. Therefore, in the first quarter of fiscal 2015, we amended our existing New York office lease to include an additional 15,470 square feet beginning October 2014 and extended the expiration of the combined lease through September 2020. These amounts have been included in the table below.

The following summarizes future minimum lease payments for our operating leases ^(a):

(In thousands)	Facilities	Equipment	Total
Year Ending March 31,			
2016	\$1,612	\$311	\$1,923
2017	1,772	77	1,849
2018	1,856	—	1,856
2019	1,864	—	1,864
2020	2,465	—	2,465

\$9,569

\$388

\$9,957

(a) Minimum lease payments have not been reduced by minimum sublease rentals of \$1.4 million due in the future under noncancelable subleases.

The following schedule shows the composition of total minimum lease payments that have been reduced by minimum sublease rentals:

(In thousands)	Year ending March 31,	
	2015	2014
Minimum lease payments	\$9,957	\$4,621
Less: Sublease rentals	(1,401)	—
	\$8,556	\$4,621

Rent expense was \$1.6 million, \$1.5 million, and \$1.2 million for 2015, 2014, and 2013, respectively.

Purchase Commitments

Effective November 1, 2009, we entered into a ten year supply agreement for the exclusive manufacture of a portion of one of our Household Cleaning products. Although we are committed under the supply agreement to pay the minimum amounts set forth in the table below, the total commitment is less than 10% of the estimated purchases that we expect to make during the course of the agreement.

(In thousands)	
Year Ending March 31,	
2016	1,074
2017	1,044
2018	1,013
2019	982
2020	560
Thereafter	—
	\$4,673

18. Concentrations of Risk

Our revenues are concentrated in the areas of OTC Healthcare and Household Cleaning products. We sell our products to mass merchandisers, food and drug stores, and dollar and club stores. During 2015, 2014, and 2013, approximately 38.2%, 38.3%, and 40.5%, respectively, of our gross revenues were derived from our five top selling brands. One customer, Walmart, accounted for more than 10% of our gross revenues for each of the periods presented. During 2015, 2014, and 2013, Walmart accounted for approximately 18.1%, 19.5%, and 15.9%, respectively, of our gross revenues. At March 31, 2015, approximately 23.0% and 10.5% of accounts receivable were owed by Walmart and Walgreens, respectively. Our next largest customer accounted for approximately 8.4% of our gross revenues during 2015.

We manage product distribution in the continental United States through a third-party distribution center in St. Louis, Missouri. A serious disruption, such as a flood or fire, to the main distribution center could damage our inventories and could materially impair our ability to distribute our products to customers in a timely manner or at a reasonable cost. We could incur significantly higher costs and experience longer lead times associated with the distribution of our products to our customers during the time that it takes us to reopen or replace our distribution center. As a result, any such disruption could have a material adverse effect on our business, sales and profitability.

At March 31, 2015, we had relationships with 95 third-party manufacturers. Of those, we had long-term contracts with 44 manufacturers that produced items that accounted for approximately 82.9% of our gross sales for 2015, compared to 24 manufacturers with long-term contracts that accounted for approximately 82.4% of gross sales in 2014. The fact that we do not have long-term contracts with certain manufacturers means that they could cease manufacturing our products at any time and for any reason or initiate arbitrary and costly price increases, which could

have a material adverse effect on our business and results from operations. Although we are in the process of negotiating long-term contracts with certain key manufacturers, we may not be able to reach agreement which could have a material adverse effect on our business.

19. Business Segments

Beginning April 1, 2014, we began managing and reporting certain of our businesses separately and have therefore realigned our reportable segments to align with how we manage and evaluate the results of our business. These reportable segments consist of (i) North American OTC Healthcare, (ii) International OTC Healthcare and (iii) Household Cleaning. The results of our previously reported OTC Healthcare segment is now separated into two reporting segments, the North American OTC Healthcare segment and the International OTC Healthcare segment, largely to reflect our international expansion due to recent acquisitions. Prior year amounts were reclassified to conform to the current reportable segments discussed above. Segment information has been prepared in accordance with the Segment Reporting topic of the FASB ASC 280. We evaluate the performance of our operating segments and allocate resources to these segments based primarily on contribution margin, which we define as gross profit less advertising and promotional expenses.

The table below summarizes information about our operating and reportable segments.

(In thousands)	Year Ended March 31, 2015			Consolidated
	North American OTC Healthcare	International OTC Healthcare	Household Cleaning

During fiscal 2015, 2014, and 2013, approximately 85.2%, 86.9%, and 89.9%, respectively, of our total segment revenues were from customers in the United States. Other than the United States, no individual geographical area accounted for more than 10% of total segment revenues in any of the periods presented. During fiscal 2015, 2014, and 2013, our Canada sales accounted for approximately 5.9%, 7.7%, and 7.4%, respectively, of our total segment revenues, while during fiscal 2015, our Australia sales accounted for approximately 6.9% of our total segment revenues.

100

At March 31, 2015, approximately 95.6% of our consolidated goodwill and intangible assets were located in the United States and approximately 4.4% were located in Australia. These consolidated goodwill and intangible assets have been allocated to the reportable segments as follows:

(In thousands)	North American OTC Healthcare	International OTC Healthcare	Household Cleaning	Consolidated
Goodwill	\$263,411	\$20,440	\$6,800	\$290,651
Intangible assets

Total	\$2,176,044	\$107,812	\$141,495	\$2,425,351

20. Gain on Sale of Asset

As more fully discussed in Note 8, in December 2014, we sold rights to the use of the Comet brand in certain Eastern European countries to a third-party licensee, received \$10.0 million as a partial early buyout of our existing royalty agreement and recorded a gain of \$1.1 million.

21. Unaudited Quarterly Financial Information

Unaudited quarterly financial information for 2015 and 2014 is as follows:

Year Ended March 31, 2015

(In thousands, except for per share data)	Quarterly Period Ended			
	June 30, 2014	September 30, 2014	December 31, 2014	March 31, 2015

22. Condensed Consolidating Financial Statements

As described in Note 10, Prestige Brands Holdings, Inc., together with certain of our 100% owned subsidiaries, has fully and unconditionally guaranteed, on a joint and several basis, the obligations of Prestige Brands, Inc. (a 100% owned subsidiary of the Company) set forth in the indentures governing the 2013 Senior Notes and the 2012 Senior Notes, including the obligation to pay principal and interest with respect to the 2013 Senior Notes and the 2012 Senior Notes. The 100% owned subsidiaries of the Company that have guaranteed the 2013 Senior Notes and the 2012 Senior Notes are as follows: Prestige Services Corp., Prestige Brands Holdings, Inc. (a Virginia corporation), Prestige Brands International, Inc., Medtech Holdings, Inc., Medtech Products Inc., The Cutex Company, The Spic and Span Company, and Blacksmith Brands, Inc. (collectively, the "Subsidiary Guarantors"). A significant portion of our operating income and cash flow is generated by our subsidiaries. As a result, funds necessary to meet Prestige Brands, Inc.'s debt service obligations are provided in part by distributions or advances from our subsidiaries. Under certain circumstances, contractual and legal restrictions, as well as the financial condition and operating requirements of our subsidiaries, could limit Prestige Brands, Inc.'s ability to obtain cash from our subsidiaries for the purpose of meeting our debt service obligations, including the payment of principal and interest on the 2013 Senior Notes and the 2012 Senior Notes. Although holders of the 2013 Senior Notes and the 2012 Senior Notes will be direct creditors of the guarantors of the 2013 Senior Notes and the 2012 Senior Notes by virtue of the guarantees, we have indirect subsidiaries located primarily in the United Kingdom, the Netherlands and Australia (collectively, the "Non-Guarantor Subsidiaries") that have not guaranteed the 2013 Senior Notes or the 2012 Senior Notes, and such subsidiaries will not be obligated with respect to the 2013 Senior Notes or the 2012 Senior Notes. As a result, the claims of creditors of the Non-Guarantor Subsidiaries will effectively have priority with respect to the assets and earnings of such companies over the claims of the holders of the 2013 Senior Notes and the 2012 Senior Notes.

Presented below are supplemental Condensed Consolidating Balance Sheets as of March 31, 2015 and 2014 and Condensed Consolidating Income and Comprehensive Income Statements and Condensed Consolidating Statements of Cash Flows for each year in the three year period ended March 31, 2015. Such consolidating information includes separate columns for:

- a) Prestige Brands Holdings, Inc., the parent,
- b) Prestige Brands, Inc., the Issuer or the Borrower,
- c) Combined Subsidiary Guarantors,
- d) Combined Non-Guarantor Subsidiaries, and
- e) Elimination entries necessary to consolidate the Company and all of its subsidiaries.

The Condensed Consolidating Financial Statements are presented using the equity method of accounting for investments in our 100% owned subsidiaries. Under the equity method, the investments in subsidiaries are recorded at cost and adjusted for our share of the subsidiaries' cumulative results of operations, capital contributions, distributions and other equity changes. The elimination entries principally eliminate investments in subsidiaries and intercompany balances and transactions. The financial information in this footnote should be read in conjunction with the Consolidated Financial Statements presented and other notes related thereto contained in this Annual Report on Form 10-K for the fiscal year ended March 31, 2015.

23. Subsequent Events

Debt Refinancing:

On May 8, 2015, the Borrower entered into Amendment No. 3 (the "Term Loan Amendment No. 3") to the 2012 Term Loan. Term Loan Amendment No. 3 provides for (i) the creation of a new class of Term B-3 Loans under the 2012 Term Loan (the "Term B-3 Loans") in an aggregate principal amount of \$852.5 million, which combined the current outstanding balances of the Term B-1 Loans of \$207.5 million and the Term B-2 Loan of \$645.0 million, (ii) increased flexibility under the credit agreement governing the 2012 Term Loan, including additional investment, restricted payment, and debt incurrence flexibility and financial maintenance covenant relief, and (iii) an interest rate on the Term B-3 Loans that is based, at the Borrower's option, on a LIBOR rate plus a margin of 2.75% per annum, with a LIBOR floor of 0.75%, or an alternate base rate, with a floor of 1.75%, plus a margin (with a margin step-down to 3.25% per annum, based upon achievement of a specified secured net leverage ratio). The maturity date remains the same as the Term B-2 Loans original maturity date of September 3, 2021. In May 2015, the Borrower also entered into negotiations for Amendment No. 4 ("ABL Amendment No. 4") to the 2012 ABL Revolver. ABL Amendment No. 4 provides for (i) a \$35.0 million increase in the accordion feature under the 2012 ABL Revolver and (ii) increased flexibility under the credit agreement governing the 2012 ABL Revolver, including additional investment, restricted payment, and debt incurrence flexibility and financial maintenance covenant relief and (iii) extends the maturity date to 5 years from the closing date. We expect to close this transaction in the first quarter of fiscal 2016.

Share based compensation:

On May 11, 2015, the Compensation Committee of our Board of Directors granted 185,904 shares of restricted common stock units and stock options to acquire 186,302 shares of our common stock to certain executive officers and employees under the Plan. 163,404 shares of restricted common stock units vest in their entirety on the three-year anniversary of the date of grant and 22,500 shares of restricted common stock units vest 33.3% per year over three years. Upon vesting, the units will be settled in shares of our common stock. The stock options will vest 33.3% per year over three years and are exercisable for up to ten years from the date of grant. These stock options were granted at an exercise price of \$41.44 per share, which is equal to the closing price for our common stock on the day of the grant. Termination of employment prior to vesting will result in forfeiture of the unvested restricted common stock units and the unvested stock options. Vested stock options will remain exercisable by the employee after termination, subject to the terms of the Plan.

Election of Director:

On May 11, 2015, James M. Jenness, retired Chairman of the Board and CEO of the Kellogg Company, was elected to the Company's board of directors. Mr. Jenness, 68, served as Chairman of the Board of Kellogg Company, a producer of cereal and convenience foods, from February 2005 to June 2014, and as Chief Executive Officer from 2004-2006. He has served as a director of Kellogg since 2007 and as a director of Kimberly-Clark Corporation, a producer of personal care products, since 2007. His background also includes serving as Chief Executive Officer of Integrated Merchandising Systems, LLC, a retail promotion and merchandising company, and a 22 year career with Leo Burnett Company, Inc., the global advertising agency, where he last served as Vice Chairman and Chief Operating Officer.

Chief Executive Officer Retirement:

On April 22, 2015, we announced that Matthew M. Mannelly, our President and Chief Executive Officer and member of the Board of Directors, will retire effective June 1, 2015. In conjunction with his retirement, the Board of Directors has accelerated the vesting of his previously unvested restricted stock units and stock options and we expect to record additional stock based compensation of approximately \$0.8 million associated with this acceleration. Following his retirement, and effective June 1, 2015, the Board of Directors has appointed Ron Lombardi, our current Chief Financial Officer, to succeed Mr. Mannelly as President and Chief Executive Officer and as a member of the Board of Directors. The company has commenced a search for a new Chief Financial Officer, and Mr. Lombardi will also remain as Chief Financial Officer until his successor is elected.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act, as of March 31, 2015. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2015, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

The report of management on our internal control over financial reporting as of March 31, 2015 and the attestation report of our independent registered public accounting firm on our internal control over financial reporting are set forth in Part II, Item 8. "Financial Statements and Supplementary Data" beginning on page 65 of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting during the quarter ended March 31, 2015.

ITEM 9B. OTHER INFORMATION

None.

Part III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information required to be disclosed by this Item will be contained in the Company's 2015 Proxy Statement under the headings "Election of Directors," "Executive Compensation and Other Matters," "Section 16(a) Beneficial Ownership Reporting Compliance" and "Governance of the Company", which information is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

Information required to be disclosed by this Item will be contained in the Company's 2015 Proxy Statement under the headings "Executive Compensation and Other Matters" and "Governance of the Company", which information is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required to be disclosed by this Item will be contained in the Company's 2015 Proxy Statement under the headings "Security Ownership of Certain Beneficial Owners and Management" and "Securities Authorized for Issuance Under Equity Compensation Plans", which information is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required to be disclosed by this Item will be contained in the Company's 2015 Proxy Statement under the headings "Certain Relationships and Related Transactions", "Election of Directors" and "Governance of the Company", which information is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information required to be disclosed by this Item will be contained in the Company's 2015 Proxy Statement under the heading "Ratification of Appointment of the Independent Registered Public Accounting Firm", which information is incorporated herein by reference.

Part IV
