04.01 – NOTES TO FINANCIAL STATEMENTS

1. OPERATIONS

a. Equity Control

Telemig Celular Participações S.A. (“Company”) is a publicly-held company which, at September 30, 2008, is controlled by TCO IP S.A. (“TCO IP” or “controlling company”), a company engaged in telecommunication, Internet access, development of solutions and other services, which holds 58.80% of its total capital stock.

TCO IP is a closely-held company which, at September 30, 2008, is controlled by Vivo Participações S.A. (“Vivo Participações”), which holds 100.00% of its total capital stock.

The Company is the controlling shareholder of Telemig Celular S.A. (“controlled company”), which together with TCO IP hold 90.64% of the total capital stock at September 30, 2008.

b. Authorization and Frequencies

The controlled company provides Personal Mobile Service (“SMP”) in Area 4 of Region 1 of the SMP’s General Authorizations Plan, including activities required or useful for the performance of such services, in conformity with the authorizations granted to it covering the State of Minas Gerais.

The controlled company holds two authorizations for the exploitation of mobile telephone services in the State of Minas Gerais, namely: Sector 2 – Minas Gerais (except Triângulo Mineiro Region) and Sector 3 – Triângulo Mineiro.

The authorizations granted by the National Telecommunications Agency (“ANATEL”) may be renewed just once, for a 15-year period, against payment at every two years after the first renewal of rates equivalent to two percent (2%) of its revenues for the year prior to that of the payment, net of taxes and mandatory social contributions, and related to the application of the Basic and Alternative Service Plans.

In 2007, at auctions carried out by ANATEL, its controlled company acquired a 2.1 Mhz (3G) license for its operations (note 16).

The controlled company’s business, including the services it is authorized to provide, are regulated by the ANATEL, the telecommunication services regulatory agency, in accordance with Law no. 9472, dated July 16, 1997, and respective regulations, decrees, decisions and complementary plans.

c. Corporate Events occurring in 2008

c.1) Transfer of Share Control

On April 3, 2008, the equity control of the Company (and, indirectly, of Telemig Celular) was transferred to Vivo Participações, under the terms of the Stock Purchase and Sale Agreement entered into between Vivo Participações and Telpart Participações S.A (“Telpart”), the conditions set forth therein having been met and the purchase price having been paid.

The price paid on April 3, 2008 for the 7,258,108 common shares and 969,932 preferred shares of the Company, already added by the remuneration provided for in the Purchase and Sale Agreement entered into with Telpart, was R\$1,162,594, equivalent to the amount of approximately R\$151.17 per common share and R\$67.43 per preferred share of the Company. The prices paid for the common shares of the Company result in the amount of approximately R\$2,625.04 per common share of the controlled company. On this date, 53.90% of the voting capital and 22.73% of the total capital of the Company were transferred to Vivo Participações.

Additionally, Vivo Participações acquired Telpart’s rights to subscription of shares to be issued by the Company, which rights are provided for in CVM Instruction No. 319/99, for the value already restated under the terms of the Purchase and Sale Agreement entered into with Telpart, of R\$70,511.

On August 26, 2008, Vivo Participações increased the capital stock of its wholly-owned subsidiary, TCO IP, in the amount of R\$2,054,065, of which R\$1,149,832 is the book value of all the 7,258,108 common shares and 969,932 preferred shares held by the Company, corresponding to 22.73% of the total capital. As from that date, TCO IP became the controlling shareholder of the Company.

c.2) Voluntary Public Offering (“VPO”)

c.2.1) Voluntary Public Offering

As approved by the Board of Directors of the Company, on August 2, 2007, and upon completion of the acquisition of the equity control of the Company (and, indirectly, of its controlled company), Vivo Participações, through its subsidiary TCO IP (“Issuer”), launched a Voluntary Public Offering (“VPO”) on April 8, 2008, in Brazil, for the purchase of up to 1/3 of the outstanding preferred shares of the Company and of its controlled company. As far as it concerns the Company, the Voluntary VPO was extended to the holders of the preferred shares underlying the American Depository Shares (“ADSs”) (“Maximum Amount of Shares”). Each ADS of the Company represents two preferred shares.

The main terms and conditions of the VPO include the following: the price, which represented a premium of approximately 25% of the weighted average price of the Preferred Shares of the respective company in the last thirty (30) BOVESPA’s floor sessions prior to and including August 1, 2007, was (i) R\$654.72 per preferred share of the controlled company, and (ii) R\$63.90 per preferred share of the Company; (for reference purposes, the equivalent to approximately US\$74.68 per ADS based on the average between the purchase and the sale price of the North-American Dollar of the PTAX 800 rate, as disclosed by the Brazilian Central Bank on April 04, 2008, of R\$1.711/US\$1.00).

With the completion of the VPO on May 12, 2008, TCO IP acquired 7,257,020 preferred shares of the Company, representing 20.04% of the total capital and 89,492 preferred shares of the controlled company, representing 3.77% of the total capital, for the amounts of R\$ 463,724 and R\$ 58,592, respectively.

On July 25, 2008, TCO IP acquired 3,929 preferred shares of Telemig Celular, representing 0.16% pf the total capital, for the amount of R\$2,572.

On September 09 and 10, 2008, TCO IP acquired 4,000 preferred shares of the Telemig Celular, representing 0.17% of the total capital, for the amount of R\$2,619.

c.2.2) Mandatory Public Offering

On July 15, Vivo Participações launched the Mandatory Public Offering for Disposal of Share Control for acquisition of the outstanding common shares, through its controlled company TCO IP, in continuance with the process for acquisition of Telemig Participações and of Telemig Celular.

With the completion of the Mandatory Public Offering on August 15, 2008, TCO IP acquired 5,803,171 common shares of Telemig Participações, representing 16.03% of the total capital and 78,107 common shares of Telemig Celular, representing 3.29% of the total capital, for the amounts of R\$732,650 and R\$171,239, respectively.

As a result of the transactions described above, at September 30, 2008 TCO IP became the owner of 13,061,279 common shares and 8,226,952 preferred shares, representing 58.80% of the total capital of the Company, and 78,107 common shares and 97,421 preferred shares, representing 7.39% of the total capital of Telemig Celular.

c.3) Corporate Reorganization

At a meeting of the Board of Directors of Vivo Participações held on September 30, 2008 and for the purposes of CVM Instruction 358/02, a request for prior consent was approved to be sent to ANATEL, referring to the Corporate Reorganization transaction concerning the merger of TCO I Pinto Telemig Participações. This transaction will be further submitted to the shareholders of Telemig Participações for approval.

TCO IP will be merged into Telemig Participações, whereby TCO IP will be extinguished, its shares will be cancelled, and its sole shareholder (Vivo Participações) will receive common and preferred shares of Telemig Participações and of Telemig Celular in the same amounts and types as currently held by TCO IP. The transaction herein contemplated will not result in increase of the capital stock of Telemig Participações, since TCO IP has already recorded the amount of Telemig Participações' shares in its shareholders' equity. Further, as TCO IP is a wholly-owned subsidiary of Vivo Participações, substitution of shares owned by non-controlling shareholders of the mergee for shares of the merger will not be required.

The Corporate Reorganization will not result in change of the share control of Telemig Participações and of Telemig Celular, nor of the other shareholders. Among other advantages, this transaction will allow simplification of the current corporate structure, minimizing costs and generating savings for the companies involved. This transaction shall be carried out in such manner as not to cause any negative impact on the future flows of dividends payable to the shareholders of Telemig Participações. The completion of this transaction is estimated to occur in the fourth quarter of 2008.

2. BASIS FOR PREPARATION AND PRESENTATION OF QUARTERLY INFORMATION

a) Quarterly information

Quarterly Information ("ITR") of the controlling company and of the controlled company are presented in thousand Brazilian Reais (unless as otherwise indicated) and have been prepared in accordance with standards applicable to concessionaries of public telecommunications services, and accounting procedures provided for by the Brazilian Securities Commission (CVM), including CVM Instruction No. 469/08.

Edgar Filing: TELEMIG CELULAR PARTICIPACOES SA - Form 6-K

These Quarterly Information were prepared following principles, practices and criteria consistent with those adopted in the preparation of prior year's financial statements and should be analyzed in conjunction with such statements, except for some accounting practices which were changed for purpose of compliance with the practices adopted by its new controlling company, as follows:

- Fistel Fee (TFI): The amount of the fee for the Telecommunications Inspection Fund – FISTEL paid upon activation of new customers, which are monthly generated along the year, is deferred for amortization during the estimated period of customer loyalty, equivalent to 24 months (note 7).
- Provision for sale of assets: The costs estimated to be incurred in disassembling towers and equipment at leased properties are capitalized as a counter-entry to the provision for sale of assets and depreciated along the useful life of the equipment, which is not longer than the lease term. (note 17).
- Recognition of revenues and costs from sales of handsets and accessories to dealers: The revenues and costs from sales of handsets and accessories made by dealers are recognized as revenue upon the activation of the handset.

Prior period effects related to the above mentioned practices were deemed to be immaterial for purposes of disclosure.

Some consolidated accounts of the statement of operations for the nine-month period ended September 30, 2007 were reclassified for purposes of comparison to the new controlling company's information. Therefore, and in order to make understanding easier, the statement of operations was presented, together with the due justifications for the accounts reclassification (note 33).

In the above referred consolidation, all balances of assets and liabilities, revenues and expenses arising out of transactions between the consolidated companies were eliminated.

The conciliation between the net profit of the controlling company and that of the controlled company for the nine-month period ended September 30, 2008 and 2007 is as follows:

	9.30.08	9.30.07
Company Net Income	211,827	128,474
Dividends and interest on shareholders' equity in subsidiaries	(961)	-
Consolidated Net Income	210,866	128,474

b) Changes to the Corporation Law – Law No. 11,638/07

On December 28, 2007 Law No. 11638 was enacted, which amends, revokes and introduces new provisions into Law No. 6404, dated December 15, 1976, and into Law No. 6385, dated December 7, 1976. The main purpose of these changes and introductions is to update the Brazilian Corporation Law to bring accounting practices adopted in Brazil into convergence with international accounting standards issued by the International Accounting Standards Board - IASB.

The requirements of this Law apply to the financial statements relating to financial years beginning on and after January 1, 2008. Those requirements are not deemed to be changes in circumstances or estimates and, therefore, the adoption of new practices introduced by Law No. 11638/07 will be, as a general rule, stated retrospectively, that is, by application of such new accounting practices as if they were in use during all periods presented, until a new guideline is issued by the Accounting Pronouncements Committee ("CPC"), with due regard to the rule that deals with "Accounting Practices, Changes in Accounting Estimates and Correction of Errors" approved by the CVM in its Resolution No. 506.

Thus, changes in accounting practices are recorded in the accounting books as adjustments to previous years, but their impact is allocated to each of the periods presented. In the specific case of the Company, in which the financial statements ending December 31, 2008 will be presented in comparison with the 2007 figures, the adjustments will be stated at the initial balances (January 1, 2007) so that the two fiscal years will be stated in compliance with the same accounting practices.

This same procedure was also adopted in the preparation and presentation of the 2008 Quarterly Information (ITR), so that the effects of changes in accounting practices are being allocated to each of the periods presented.

On May 2, 2008, the CVM issued Instruction No. 469 that has partially ruled Law No. 11638/07, setting forth the minimum requirements to be complied with in presenting the ITR's in 2008. This instruction, under certain conditions, allowed the alternative of full adoption of the provisions of that Law. The management of the Company has not elected this alternative and, thus, applied Law No. 11638/07 to the minimum extent required in CVM Instruction No. 469 in the presentation of ITR's in 2008, as follows:

- Long-term assets and liabilities should be adjusted to present value (APV). The remaining balances should be adjusted to present value only where they have a significant impact on the financial statements. As a result, the amounts payable related to the authorization to operate the 3G network were adjusted to present value, as disclosed in Note 16. No other assets and liabilities were identified for which adjustments to present value were required.

Among the other changes in accounting standards introduced by said Law, mentioned below is the one which, in a preliminary analysis made by the Management, is likely to have a significant impact on the financial statements of the Company for the year ending December 31, 2008:

- The financial investments basically result from unused cash balances which are invested in high liquidity assets, generally redeemable within not more than 90 days. Thus, the financial investments are stated at the amount invested plus interest earned until the balance sheet date, being close to the market value at such date. The Company's Management concluded that marking such investments to market is not likely to produce relevant effects in the end of the fiscal year and in the quarter periods presented, due to their short term nature, as shown in note 27. The Company's Management, therefore, deems that its financial investments are in line with CVM's requirements.
- In transactions related to business combination carried out between unrelated parties and in connection with transfer of effective control, the assets and liabilities of the company to be merged, or due to incorporation or spin-off, will be accounted for at market value. As described in note 1.c.3, the completion of the Corporate Reorganization is expected to occur upon the merger of TCO IP into the Company by the end of this fiscal year. The Management of the Company is conducting a detailed analysis in order to identify and assess the market value of the assets and liabilities arising out of this transaction, in case it is necessary to record the market value in 2008.

The other changes introduced by Law No. 11638/07 which shall not cause significant effects on the financial statements as of December 31, 2008 or are not applicable, are as follows:

- The deferred assets account will include only the pre-operating costs and reorganization expenses. An intangible assets group was created, including premium arising out of business combination and other intangible assets not characterized as deferred assets as defined above. The Company and its controlled company have not recorded any account balances classified as deferred assets.
- Commercial Leasing of properties used in the maintenance of the business: the Company and its controlled company have not entered into any financial leasing agreements.

- The premium received upon the issue of debentures as well as donations and subsidies for investment are no longer recorded in the shareholders' equity. The amounts of donations and subsidies (tax incentives) are being temporarily stated in Deferred Income, as determined by CVM Instruction No. 469. For the nine-month period ended September 30, 2008, no transaction was recorded and no transactions of such nature are estimated to be carried out and, therefore, they are not applicable to the Company and its controlled company.
- Analysis of recoverability of fixed, intangible and deferred assets as provided for in CPC's Pronouncement 01, approved by CVM Resolution No. 527. The Company and its controlled company have not identified any adjustment in their assets.
- Fixed assets revaluation: the Company and its controlled company have no revalued items in their fixed assets.
- Stock-based pay to directors and employees: the Company and its controlled company had two stock-based pay plans, the options thereof expired in January 2008 and, therefore, no exercise of options will be made by the directors of the Company (note 19).
- The changes introduced in CVM Instruction No. 247, which deals with investments in affiliates, should not cause any impact since the investments made by the Company are held in a controlled company and have continued to be at the Equity Method.
- The Company already disclosed the Statements of Cash Flows as additional information to its financial statements; therefore, the change in Law which makes presentation of such statements mandatory does not cause any effect on the information already disclosed by the Company.
- The Company believes that the change in the Law, making the presentation of the Statement of Value Added mandatory, will not cause any problem to the preparation of such statement, and such Law will be applicable to the fiscal year ending December 31, 2008.

Although the referred Law has already become effective, the main changes introduced by it still require to be further regulated by the Brazilian regulatory agencies. Accordingly, the accounting information that was presented may require adjustments after Law 11638/07 is regulated. The Company will continue to follow-up and evaluate eventual impacts on its financial statements arising out of new resolutions to be issued by the CVM and by the CPC for regulating the application of said Law.

3. FINANCIAL INVESTMENTS

Financial investments refer to fixed income transactions, which are indexed to Interbank Deposit Certificates ("CDI"), with immediate liquidity, and the Fund for Investment in Shares of Investment Funds – FIC. The FIC portfolios were substantially comprised of federal bonds and securities issued by first-line private institutions, both with high liquidity, recorded at their realization value.

The investment funds perform transactions with financial instruments in order to reduce exposure to interest rate risk, which are also recorded at their realization value.

Total deferred taxes	190,932	199,981
Current	107,189	96,865
Noncurrent	83,743	103,116

The amount recorded in the current assets refers to reversal of temporary differences and use of tax losses expected for the next twelve months.

The deferred taxes were recorded assuming their future realization, as follows:

a) Tax credit incorporated: represented by the net balance of premium and provision for maintenance of the shareholders' equity integrity (Note 6.2). Realization will occur within 10 years. Studies performed by independent consultants hired during the Corporate Reorganization process support the recovery of such amounts within the above referred time.

b) Temporary differences: realization will occur upon payment of the provisions, effective loss on bad debts or realization of inventories, as well as reversal of other provisions.

c) Tax loss and negative tax base: represents the amount recorded by the Company and its controlled company, which will be offset up to the limit of 30% of the tax basis computed in the coming fiscal years and subject to no statute of limitations.

The Company prepared technical feasibility studies, approved by its Board of Directors, which indicated the full recovery of deferred tax amounts recognized at December 31, 2007, as defined in CVM Instruction No. 371. During the nine-month period ended September 30, 2008, no relevant fact occurred that indicated limitations to full recovery of the deferred tax amounts recognized by the Company and its controlled company.

6.2 Tax benefit – Corporate Reorganization

Included in the accounting records held for corporate and tax purposes by the Company are specific accounts related to incorporate premium and provision and corresponding amortization, reversal and tax credit, the balances of which are as follows:

b) Covenants

Covenants are provided for in the Unsecured Senior Notes funding program regarding the application of the proceeds to the purposes specified in the contracts, transactions to be carried out with related parties, merger and amalgamation transactions and achievement of economic and financial indicators. At September 30, 2008, all economic and financial indexes of the controlled company provided under contract were achieved.

The agreement entered with the State Department of Economic Development regarding debentures sets forth covenants on petitions for judicial and extrajudicial recovery, liquidation, dissolution, insolvency, voluntary bankruptcy or decree of bankruptcy, payment default, non-compliance with non-fiduciary obligations and compliance with a certain limit substantially based on balance sheet financial indexes and EBITDA (Earnings before interest, taxes, depreciation and amortization), among others. At September 30, 2008, all covenants were fulfilled by the controlled company.

c) Debentures

In compliance with the Contract for Provision of SMP Services, in conformity with the Public Selection No 001/07, the State of Minas Gerais, acting through the State Department for Economic Development, has undertaken to subscribe debentures issued by the controlled company, within the scope of the "Minas Comunica" Program, using

proceeds from the Fund for Universalization of Access to Telecommunications Services (*Fundo de Universalização do Acesso a Serviços de Telecomunicações*) - FUNDOMIC. Under the terms of this Program, the controlled company would make the SMP service available to 134 locations in the areas recorded as 34, 35 and 38.

Also according to the program, 5,550 simple, unsecured, nonconvertible, registered, book-entry type debentures would be issued, without stock certificates being issued, in up to five series.

In consideration for the certification by the State Department of Economic Development of the service to be provided to 15 locations, 621 debentures were issued in the 1st Series of the 1st issue of the controlled company, amounting to R\$ 6,210 in December 2007. In March 2008, for the service at 42 locations, 1,739 debentures were issued in the 2nd Series of the 1st issue of the controlled company, valued at R\$ 17,390. At September 30, 2008 the updated amounts of the 1st and 2nd series of the debentures were R\$6,556 and R\$18,031, respectively.

15. PROVISION FOR CONTINGENCIES

The Company and its controlled company are parties to lawsuits that generate administrative and judicial contingencies related to labor, tax and civil claims. Relevant accounting provisions have been booked with respect to such lawsuits in which the chance of loss was deemed as probable.

The breakdown of the balances of such provisions, posted to noncurrent liabilities, is as follows:

		Consolidated		
		9.30.08		6.30.08
	Provision	(-) Judicial deposits	Net	Net
Civil	10,525	-	10,525	9,241

Tax	7,739	(5,915)	1,824	1,824
Total	25,096	(9,392)	15,704	14,045

15.1. Civil Claims

These refer to several civil claims for which the respective provisions were booked, as shown above, such provisions being deemed sufficient to meet probable losses on these cases.

a) Consumers

The controlled company is party to several lawsuits brought by individual consumers or by civil associations representing rights of consumers claiming non-performance of services and/or products sold by the controlled company. Individually, none of these lawsuits is deemed to be material.

At September 30, 2008, based on the opinion of its lawyers, the amount of R\$8,843 (R\$7,449 at June 30, 2008) was booked, which is considered sufficient to meet potential losses on these proceedings.

At the same date, the amount of these lawsuits deemed as “possible” was R\$2,386 (R\$2,346 at June 30, 2008).

b) ANATEL

The controlled company is party to several legal and administrative proceedings brought by ANATEL referring to noncompliance with regulations concerning the Personal Mobile Service (SMP). At September 30, 2008, the amount of R\$600 (R\$600 at June 30, 2008), was booked, which is considered sufficient to meet probable losses on these

cases.

At the same date, the amount involved in these lawsuits classified as “possible loss” is R\$600 (R\$600 at June 30, 2008).

c) Other

These refer to lawsuits of other nature, all related to the regular course of business. At September 30, 2008, based on the opinion of its independent lawyers, the amount of R\$1,082 (R\$1,192 at June 30, 2008) was booked, which is considered sufficient to meet probable losses on these cases.

At the same date, the amount involved in these lawsuits classified as “possible loss” was R\$706 (R\$694 at June 30, 2008).

15.2. Labor Claims

These refer to several labor claims for which the respective provisions were recorded as shown above, which are considered sufficient to meet probable losses on these cases.

With respect to proceedings for which the chance of loss is classified as “possible”, the amount involved is R\$7,992 (R\$8,511 at June 30, 2008).

15.3. Tax Proceedings

No new significant tax proceedings classified as “probable loss” were brought in the nine-month period ended September 30, 2008.

On the same date, the amounts of such proceedings classified as “possible loss” were R\$173,546 (R\$41,578 at June 30, 2008), which relate mainly to challenges concerning the ICMS, FISTEL, FUST, FUNTTEL, and other taxes. No new significant tax proceedings brought in this quarter have the same purpose as those already in course in the previous quarter.

(a) On December 18, 2007, the controlled company announced that it was the winning bidder in 2 lots (Minas Gerais - Sector 2 and Triângulo Mineiro - Sector 3) for the extension of third generation (3G) mobile services, with 10 + 10 Mhz width. The proposal of the Company for the lots purchased was approximately R\$ 53.5 million.

The term of use of this license is for a period of 15 years, renewable for other 15 years. The amount of 10% has been already paid on the date of execution of the Instrument of Authorization. The remaining 90%, totaling R\$48,182, may be paid in 6 equal and annual installments, with a grace period of 3 years, adjusted to the Telecommunications Industry Index - IST variation, plus 1% monthly, or until December 11, 2008 without adjustment. The Company has recorded the remaining liability in its current liabilities, without adjustment.

On April 29, 2008, the Company signed with ANATEL the Instrument of Authorization for use of this radiofrequency sub-bands.

The price payable for the 2.1 Mhz (3G) license was recorded as a counter-entry to the intangible assets in the amount R\$44,691, less the discount to present value of R\$ 3,491, as provided for in Law No. 11638/07 and CVM Instruction No. 469/08. At September 30, 2008, the amount payable for such license was adjusted to present value, at the rate of 100% of the CDI, with financial expenses in the amount of R\$2,242 having been recorded.

(a) This refers to credit made available to the holders of shares remaining as a result of the reverse stock split of the capital stock of the Company and of its controlled company.

(b) The Company has adopted loyalty programs and other benefits in which calls are converted into points that enable the user to a future change of handsets. A provision was booked for accumulated points, net of redemptions, considering the history of redemptions, points generated and average cost per point.

(c) This refers to the costs to be incurred in connection with the eventual need of giving back to their owners the “sites” (locations for installation of Radio Base Stations – RBS) in the same conditions as they were found at the time of the execution of the initial lease contracts thereof

18. SHAREHOLDERS' EQUITY

a) Capital Stock

The Special Shareholders' Meeting held on March 28, 2008 approved the capitalization of profit reserves in the amount exceeding the capital stock at December 31, 2007, in the amount of R\$62,500, as a result of which the capital stock was increased to R\$577,500.

The subscribed and paid-up capital at December 30 and June 30, 2008 comprises book-entry shares, with no face value, allocated as follows:

<u>Capital stock</u>	Number of shares
Common	13,466,059
Preferred	22,741,002
Total	36,207,061

Preferred shares are not entitled to voting rights, and are ensured priority upon the reimbursement of the capital stock, without premium, and the right to the payment of minimum, non-cumulative dividends pursuant to the criteria below,

alternatively, considering the one representing the highest value:

I - 6% per year, calculated on the value resulting from the division of the subscribed capital by the total number of shares of the Company, or

II - right to share the minimum mandatory dividend in accordance with the following criteria:

- a) Priority upon the receipt of minimum and non-cumulative dividends corresponding to 3% of the equity value of the share; and
- b) Right to share the profits distributed under equal conditions with the common shares, after the minimum priority dividend stipulated in conformity with item "a" above is ensured to the common shares.

Preferred shares shall become entitled to vote if the Company, for 3 consecutive fiscal years, fails to pay the minimum dividends to which they are entitled.

b) Retained Profits

The General Shareholders' Meeting held on March 28, 2008 approved the transfer of the remaining balance of the net profit for fiscal year 2007 (adjusted to the realization of the unrealized profits reserve), in the amount of R\$115,633, to the retained profits, based on the capital budget proposed for fiscal year 2008 of its controlled company, as set forth in art. 196, and with due regard to the provisions in art. 198 of Law 6404/76 and articles 39, §2, and 43, of the Bylaws.

c) Special Premium Reserve

This reserve was booked as a result of the Corporate Reorganization processes described in note 6.2, as a counter-entry to the net assets transferred, and represents the future tax benefit to be earned by amortization of the premium transferred. The portion of special premium reserve corresponding to the benefit may be, at the end of each fiscal year, capitalized to the benefit of the controlling shareholder upon the issued of new shares. The increase of capital is subject to the preemptive rights of the non-controlling shareholders, proportionally to their respective interests, by kind and class, at the time of the issue, and the amounts paid upon the exercise of this right shall be directly delivered to the controlling shareholder, in accordance with the provisions in CVM Instruction no. 319/99.

c) Dividends

The General Shareholders' Meeting held on March 28, 2008 resolved on the payment of dividends in the amount of R\$38,548 related to the minimum mandatory dividend of 25% of the adjusted net profit which were paid as from April 14, 2008.

19. COMPENSATION BASED ON STOCK CALL OPTION PLAN

On October 5, 2000, the Board of Directors of the Company approved two long term incentive plans, as described below:

Plan A – This plan covered key executive officers who were granted preferred shares or common shares of the Company. The premiums would be vested and the shares would be issued to the extent of performance goals achieved by the Company, which goals are determined by the Board of Directors for a performance period of five years. On December 31, 2007, all the options granted were expired, with no option having been exercised by the executive

officers.

Plan B – This plan covered part of the key executive officers of the controlled company and other employees. Options granted under this plan refer to preferred shares of the controlling company with exercise at the market value on the date they were granted. The option is exercised at 20% during the second year, 60% during the third year and 100% during the fourth year. On December 31, 2007 all the options granted were expired, with no option having been exercised by the executive officers.

The Boards of Directors of the Company and of its controlled company, at meetings held on December 30 and 29, 2003, respectively, approved changes to plan B, with new options being granted.

The plan continued to cover part of the key executive officers of the controlled company and the new options granted continued to refer to preferred shares of the Company. However, the exercise price of these new options was equivalent to the market value on the date they were granted, with a discount of 20%. The right to exercise the option is of 40% as from January 2004, 70% as from January 2005 and 100% as from January 2006, such right to exercise the options remaining valid until January 2008. The options expired in January 2008, without having been exercised by the executive officers.

telecommunication services and, therefore, its assessment on monthly subscription fees and value-added services was illegal because these were not telecommunication services. The controlled company was granted a preliminary injunction and, as from November 1998, it ceased to pay such tax on monthly subscription fees and started booking a provision and depositing the corresponding amounts in court. The provision recorded at December 31, 2007 was R\$691,742, with corresponding judicial deposits in the same value.

In the first quarter of 2008, after careful evaluation by the in-house and independent legal consultants of the progress of the judicial action challenging the assessment of the ICMS on the monthly subscription fees and value-added services, an Instrument of Adhesion to the ICMS Convention no. 72/2006 (incorporated, with certain limitations, by Decree no. 44422/2006, as further amended) was executed by the controlled company with the State of Minas Gerais. Said Decree, as amended, authorizes the State to grant partial discharge of payment of the ICMS tax (rate reduction) and its legal additions due by reason of the provision of telecommunication services. As a result of said adhesion, the controlled company filed a petition with the Superior Court of Appeals for withdrawal from the judicial action, with express consent by the State of Minas Gerais which, on its turn, refunded to the Company the amount of R\$251,624, corresponding to the difference between the amounts deposited in court and the amounts due by reason of the application of the referred Decree. The controlled company, since February 2008, has restarted to pay ICMS on subscription fees and value-added services.

In consequence of the foregoing, in the first quarter of 2008 the controlled company reverted all the provision booked for ICMS on subscription fees and value-added services, in the amount of R\$700,005, being R\$448,381 as a counter-entry to the judicial deposits recorded in non-current assets and R\$251,624 as a counter-entry to the result for the period.

27. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONSOLIDATED)

a) Considerations on Risks

The main market risks to which the Company and its controlled company are exposed in the conduction of their activities are:

Credit Risk: deriving from possible difficulties in collecting the amounts related to telecommunications services rendered to their customers and to sales of handsets to their dealers, as well as the risk related to short-term investments and amounts receivable from swap transactions.

Interest Rate Risk: deriving from a portion of the debt and from long positions of derivatives contracted at floating rates, and involving the risk of an increase in financial expenses due to an unfavorable change in interest rates.

Exchange Rate Risk: the possibility that the controlled company may incur losses as a result of exchange rate variations that increase the liability balances of foreign currency loans.

The Company and its controlled company adopt an active position concerning the management of the various risks to which they are exposed, by means of a set of comprehensive initiatives, procedures and operating policies, thus mitigating the risks inherent to their activities.

Credit Risk

The credit risk related to the rendering of telecommunications services is minimized by a strict control of the customer base and active management of customers' default, by means of clear policies regarding granting of post-paid handsets. The customer base of its controlled company comprises, predominantly, prepaid customers, which requires prior recharge and, consequently, entails no credit risk.

The credit risk in the sale of handsets is managed under a conservative credit policy, by means of modern management methods, including analysis of financial statements and information and consultation to commercial data bases.

The Company and its controlled company are also subject to credit risk arising out of their financial investments and amounts receivable from swap transactions. The Company and its controlled company act in a manner so as to diversify this exposure among various world-class financial institutions.

Interest Rate Risk

The controlled company is exposed to the risk of increased interest rates, especially those associated with payables related to derivative transactions (Exchange Hedge). The balance of financial investments, indexed to the CDI, also partially neutralizes this effect.

Exchange Rate Risk

The controlled company has contracted financial derivative transactions so as to protect itself against exchange rate fluctuations arising out of foreign currency loans. The instruments generally used are swap contracts.

The table below summarizes the net exposure of the Company to the exchange rate factor at September 30, 2008:

	In thousands of US\$	
Loans	9.30.08	6.30.08
Derivative instruments	(81,533)	(83,556)
Total (insufficient coverage)	80,000	80,000
	(1,533)	(3,556)

Transactions with Derivatives

The controlled company records gains and losses on derivative contracts as net financial income or expenses.

b) Market Value of Financial Instruments

The market value of the financial investments is close to their book value due to the short tenor of these instruments. The market value of loans and debentures, as well as of swap contracts, was established on the basis of discounted cash flow, by using projections of interest rates available.

The table below shows an estimate of the book value and the market value at September 30, 2008 and at June 30, 2008:

	September 30, 2008		
	Book value	Market value	Unrealized gain

Market values are calculated at a specific time based on information available and own evaluation methodology. Consequently, the indicated estimates do not necessarily represent market realizable values. Use of different assumptions may significantly affect estimates.

c) CVM Resolution nº 550/08

CVM, by Resolution no. 550, issued on October 17, 2008, determined that publicly-held companies should disclose in the current ITR, in a specific note, both qualitative and quantitative information about all their financial derivative instruments, whether recognized or not as assets or liabilities in their balance sheets.

All financial derivative instruments are contracted by the controlled company for protection against exchange risk and foreign and local interest rate risks arising out of financial debts, pursuant to a risk management corporate policy. Thus, eventual variations in the risk factors generate an inverse effect on the financial instrument they are proposed to protect. Therefore, the controlled company has no financial derivative instruments for purposes of speculation and its financial exchange liabilities are hedged.

Said instruments were contracted with Votorantim and Unibanco banks in the local market, pursuant to the applicable credit risk policy.

At September 30, no contract requires a margin deposit.

The amounts of the derivative instruments are summarized as follows:

Description	Nocional		Fair Value		Cumulative effect (current period)	
	Current Quarter	Prior Quarter	Current Quarter	Prior Quarter	Amount receivable / (received)	Amount payable / (paid)

(1) Foreign currency swaps x CDI (R\$150,578) – swap transactions contracted with maturity date in 2009, for protection against exchange variation risk in financing transactions of this kind.

Gains and losses in the nine-month period ended September 30, 2008, grouped by contracts executed, were recorded in the income accounts (note 25), as required in CVM Resolution 550/08.

At September 30, 2008 current liabilities in the amount of R\$95,291 were recorded for recognition of the net derivatives positions as of that date.

The fair value of the net debt of the Company which gave rise to the derivative instruments described above is as follows:

	Fair Value	
	Current Quarter	Prior Quarter
Loan agreement		
Foreign currency	157,925	137,388

29. POST-EMPLOYMENT BENEFIT PLANS

The controlled company sponsors an individual defined retirement benefits plan - Plano PBS Telemig Celular. Besides the benefit of supplementation, medical assistance (PAMA) is provided to retired employees and their dependents, at shared cost. Actuarial provisions relating to the defined benefit plans are recorded in "Other liabilities" (Note 17).

The controlled company also sponsors the CelPrev, a defined contribution plan. The participant can make three types of contributions to the plan, being: (a) regular basic contribution: percentage varies from 0% to 2% of their participation salary; (b) additional regular contribution: percentage varies from 0% to 6% of that portion of their participation salary that exceeds 10 Standard Reference Units of the Plan; and, (c) voluntary contribution: percentage is freely chosen by the participant and applied on his/her participation salary. The sponsor can make four types of contributions, being: (a) regular basic contribution: contribution equal to the participant's regular basic contribution participant, less the contribution for defraying the cost of the sickness allowance and for defraying administrative expenses; (b) additional regular contribution: equal to the participant's regular additional contribution, less the administrative expenses; (c) eventual contribution: voluntary contribution made at such times as may be determined by the sponsor; and (d) special contribution: contribution solely intended for those employees of the sponsor who are not participants of the PBS and who joined the plan within 90 days from the effective date of the CelPrev.

PAMA is managed by Fundação SISTEL de Seguridade Social – SISTEL.

OPERATING REVENUE

Consistent revenue growth.

- **Total net revenue** increased by 20.1% and 10.1% compared to 3Q07 and 2Q08, respectively. This increase is a result of higher

handset revenues associated to stronger commercial activity of higher network usage revenue associated to the customer base growth and of growth of data and VAS services usage.

Data and VAS revenue increased by 32.9% compared to 3Q07.

- **Data and VAS revenue** increased by 32.9% and 4.2% compared to the 3Q07 and 2Q08, respectively, in amount of R\$ 32,3 million and represented 8,9% of the net service revenue, mainly due to the increase in peer-to-peer SMS usage as a consequence of new activations offering data advantages.

OPERATING COSTS								

Cost of service rendered increased by 24.1% over 3Q07.

- Cost of services increased by 24.1% over 3Q07 due to higher interconnection cost related to both the growth of outgoing traffic and increase of Fistel Fee associated to the customer base expansion.
- The **cost of goods sold** registered an increase of 100.9% in 3Q08 over 3Q07, due to higher number of gross activations, which represent an increase of 79.1%. When compared to the 2Q08, cost of goods sold increased by 42.8% due to the activity in the period and the beginning of the foreign exchange appreciation.
- In the 3Q08, **selling expenses** increased by 13.7% over the 3Q07 due to the higher expenses with third party services, especially advertising and publicity. When compared to 2Q08, it recorded a reduction of 26.5% due to the decrease in the expenses with third party services and provision for bad debtors.
- **Provision for Bad Debt - PDD** recorded a reduction of 21.8% over 3Q07 and of 59.0% in relation to 2Q08. The amount of R\$ 4.3 million represents 0.7% of the total gross revenue.

Reduction of 32.3% in G&A expenses in relation to 3Q07

- **General and administrative expenses** decreased by 32.3% when compared to the 3Q07 due, mainly, to the reduction in consulting and other expenses with technical administrative services. When compared to 2Q08, G&A expenses remained almost stable.
- **Other Operating Revenues/ Expenses** recorded a revenue of R\$ 2.7 million, lower than R\$ 15.7 million posted in the 3Q07 and lower than R\$ 16.6 million registered in the 2Q08. This reduction primarily results from the reduction in revenues from recovered expenses and from the increase in the expenses with taxes, duties and contributions.

DEPRECIATION AND AMORTIZATION

- **Depreciation and amortization** increased by 34.0% over the 3Q07 as a consequence of deferred assets amortization and the start of depreciation of sites activated for the *Minas Comunica Project*.

Increase of 159.2% in net financial revenues over the 3Q07. In the comparison of 3Q08 over 2Q08, the net financial revenue increased by R\$ 6.3 million. This is due, mainly, to a higher revenue from financial investments, which arises out of a higher effective CDI in the period (3.16% in 3Q08 and 2.70% in 2Q08) and a higher average balance of cash invested.

In the comparison with 3Q07, the net financial revenue increased by R\$ 12.1 million. As in the comparison with the previous quarter, the effects which contributed to this result arise out of higher availability invested and higher effective CDI in the period (3.16% in 3Q08 and 2.78% in 3Q07).

On the other hand, in 3Q08 there was an increase in the financial expense on account of the adjustment at present value of the 3G licenses, as determined by law 11.638/07 and CVM instruction 469/08, in the amount of R\$ 2.2 million.

Consistent net cash growth.

- On September 30, 2008, Telemig's total debt for loans and financing was R\$ 180.7 million, 86.4% of which denominated in foreign currency. The Company has hedged 98.1% of its debt against foreign exchange volatility. This debt was offset by cash and cash investments totaling R\$ 968.3 million and by derivative assets and liabilities totaling R\$ 95.3 million payable, resulting in net cash of R\$ 692.3 million.

Investments (CAPEX)

Investments focused on increasing network capacity and quality.

Telemig continues to expand its coverage area and its GSM network to improve network capacity and quality and increase the customer base. The CapEx in the 3Q08 represented a percentage on the net revenue of 15.8%. In the year-to-date R\$ 185.5 million were invested, corresponding to 16.5% of the net revenue, as a result of investments in licenses.

A free translation from Portuguese into English of Special Review Report of Independent Auditors on quarterly financial information prepared in Brazilian currency in accordance with the accounting practices adopted in Brazil and specific norms issued by IBRACON (Institute of Independent Auditors of Brazil), CFC (Brazilian Association of State Boards of Accountancy) and CVM (Brazilian Securities Exchange Commission)

SPECIAL REVIEW REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Shareholders
Telemig Celular Participações S.A.

1. We have performed a special review of the Quarterly Financial Information – ITR (Company and Consolidated) of Telemig Celular Participações S.A. (“Company”), for the quarter ended September 30, 2008, including the balance sheets, statement of income, report on the Company’s performance and notes to quarterly financial information, which are the responsibility of the Company’s Management.
2. Our review was conducted in accordance with the specific procedures determined by the Institute of Independent Auditors of Brazil (IBRACON) and the Brazilian Association of State Boards of Accountancy (CFC), and included principally: (a) inquiries of and discussions with the management responsible for the Company’s accounting, financial and operating areas about the main criteria adopted for the preparation of the Quarterly Information; and (b) review of information and subsequent events which have or might have significant effects on the Company’s operations and financial position.
3. Based on our special review, we are not aware of any material modification that should be made to the Quarterly Financial Information referred to in paragraph 1, for it to comply with Brazilian Securities and Exchange Commission (CVM) regulations specifically applicable to the preparation of Quarterly Financial Information, including CVM Ruling No. 469/08.
4. As mentioned in Note 2.b, Law No. 11638 was enacted on December 28, 2007, effective beginning January 1, 2008. This Law amended, repealed and introduced new provisions to Law No. 6404/76 (Corporation Law) and introduced changes in accounting practices adopted in Brazil. While such Law has already gone into effect, some amendments it introduced depend on regulations to be set by Brazilian regulators in order to be applied by companies. Accordingly, at this transition stage, CVM, through CVM Ruling No. 469/08, authorized the non-application of all dispositions of Law No. 11638/07 in preparing the Quarterly Information (ITR). Thus, accounting information included in the ITR of the quarter ended September 30, 2008, was prepared in accordance with CVM specific rulings and do not comprise all changes in accounting practices introduced by Law No. 11638/07.
5. The statement of income (Company and Consolidated) for the quarter and nine-month period ended September 30, 2007, presented for comparative purposes, were reviewed by other independent auditors who issued an unqualified special review report dated October 29, 2007.
