Item 1.01. Entry into a Material Definitive Agreement.

On April 5, 2005, the Compensation and Stock Option Committee of the Board of Directors of Noven Pharmaceuticals, Inc. ("Noven") approved the acceleration of vesting of unvested out-of-the-money stock options under the Noven 1999 Long-Term Incentive Plan. The affected options are those with exercise prices greater than \$17.28 per share, which was the closing price of Noven's common stock on April 7, 2005 (the effective date of the modification to accelerate vesting of the out-of-the-money stock options). As a result of this action, options to purchase approximately 932,000 shares of Noven's common stock became immediately exercisable, including options held by Noven's executive officers to purchase approximately 401,000 shares. The accelerated options represent approximately 26% of Noven's total outstanding options. The exercise prices of the accelerated options range from \$17.88 to \$41.81 per share.

The purpose of the accelerated vesting is to eliminate the future compensation expense that Noven would otherwise recognize in its Statement of Operations with respect to these accelerated options upon the adoption of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment ("SFAS 123R"). SFAS 123R is effective from the first interim period that begins after June 15, 2005, and will require that compensation expense associated with stock options be recognized in Noven's Statement of Operations, rather than as historically presented as a footnote disclosure in Noven's financial statements.
