**Item 2.02 Results of Operations and Financial Condition.**

On January 31, 2006, just prior to the announcement of its fourth quarter and year-end 2005 results, the company became aware of a possible adjustment related to the recognition of certain election systems revenue in the fourth quarter of 2005. At the time of the announcement, the company indicated the need for additional time to adequately review the matter, but management had preliminarily estimated that between \$2 million to \$10 million in election systems revenue might need to be deferred until future periods.

The company has since determined that \$7.0 million in fourth quarter 2005 election systems revenue and \$4.2 million in net income would need to be recognized in future periods. This adjustment reduced previously announced fourth quarter and full-year 2005 earnings per share by \$0.06. Because of this revision, the company will recognize this deferred revenue and associated net income between 2007 and 2010. This change will have no effect on the company's 2006 full-year revenue and earnings per share expectations.
