Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three months ended March 31, 2007 and 2006 (unaudited)

1.

Basis of presentation:

The accompanying interim unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by the United States generally accepted accounting principles for a complete set of annual consolidated financial statements.

In the opinion of management, all adjustments (consisting solely of normally recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007 or for any other period.

For further information, refer to the consolidated financial statements and footnotes thereto included in Unity Wireless Corporation's (the Corporation) annual report on Form 10-KSB for the year ended December 31, 2006. Except as indicated in note 2(c), the accounting policies applied in the preparation of these interim consolidated financial statements are consistent with those applied in the consolidated financial statements filed with the Corporation's annual report.

These financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been significantly financed by long-term debt and equity transactions. At March 31, 2007, the Corporation requires additional financing to continue to operate at current levels throughout the year. Accordingly, the Corporation's future operations are dependent upon the identification and successful completion of additional long-term or permanent debt and equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that the Corporation will be successful. If it is not, the Corporation will be required to reduce operations or liquidate assets. The Corporation will continue to evaluate its projected expenditures relative to its available cash and to seek additional means of financing in order to satisfy its working capital and other cash requirements. The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Corporation be unable to continue as a going concern.

2.

Significant accounting policies:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America using the same accounting policies and methods of application as those disclosed in the Corporation's financial statements for the year ended December 31, 2006.

(a) Use of estimates:

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, particularly the recoverability of inventory, equipment, intangible assets and goodwill, and liabilities (particularly product warranty) and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(b) Comparative figures:

Certain comparative figures have been reclassified to conform to the presentation adopted in the current year.

(c)

Recent accounting pronouncement:

Effective January 1, 2007, the Company adopted FASB Interpretation No. 48 (FIN 48) entitled "Accounting for Uncertainty in Income Taxes - An interpretation of FASB Statement No. 109". This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company evaluated all the tax positions in accordance with FIN 48 and determined that there is no impact to our financial statements. The Corporation's policy is to recognize interest and penalties expense as a component of interest expense in the statement of operations. As of the date of adoption of FIN 48, the Corporation did not have any penalties or tax-related interest, and there was no tax-related interest or penalties recognized during the three months ended March 31, 2007.

(c)

Recent accounting pronouncement (continued):

As a result of the implementation of FIN 48, the Corporation performed a review of its uncertain tax positions in accordance with recognition standards established by FIN 48. Based on its review, the Corporation concluded that there are no significant unrecognized tax positions requiring recognition in the Corporation's financial statements. The Corporation does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

We conduct business globally and, as a result, file one or more income tax returns in the U.S. federal jurisdiction and various state and non-U.S. jurisdictions. In the normal course of business we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as Canada, Israel and the United States. The open tax years for these jurisdictions include 2003 to 2006. While it is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position, the Corporation does not believe that the resolution of any such issue would have a material effect on the Corporation's financial position. The resolution of any matter would be recognized as an adjustment to its provision for income taxes in the period of resolution.

3. Business combination:

a) On June 8, 2006, the Corporation through its wholly owned subsidiary, Unity Wireless Microwave Systems Ltd. (UW Microwave) acquired Avantry Ltd. (Avantry). Avantry specializes in offering a comprehensive transmission product line of integrated microwave radio and optical transport systems for carrying flexible combinations of voice and data traffic.

Under the terms of the Merger Agreement, the Corporation acquired the net assets of Avantry in exchange for \$1,750,000 of convertible promissory notes that are convertible into common stock at \$0.25 per share and warrants to purchase an aggregate of 600,000 shares of common stock at an exercise price of \$0.40. The convertible promissory notes and related warrants have been valued at their fair value of \$1,755,147 (See note 9(e)).

The transaction has been accounted for as a business combination by the purchase method, with Unity Wireless Corporation identified as the acquirer. The Corporation's consolidated statements of operations and comprehensive loss include the operating results of Avantry Ltd. from June 8, 2006, the date of acquisition.

The following table summarizes the preliminary allocation of the purchase price and related acquisition costs to the fair value of the assets acquired and liabilities assumed at the date of acquisition.

3. Business combination (continued):

b) On July 3, 2006, the Corporation through its wholly owned subsidiary, Unity Wireless Acquisition Corporation (UW Acquisition) acquired Celerica Inc. (Celerica). Celerica specializes in extending RF coverage and optimizing network capacity distribution of mobile communications in urban, suburban and rural areas, using optical wireless, fiber optics and microwave technology.

Under the terms of the merger agreement, the Corporation acquired the net assets of Celerica in exchange for 20,000 shares of Series A convertible non-redeemable preferred shares. The preferred shares have been valued at a fair value of \$2,000,000 based on multiplying the Corporation's common shares market price as of the closing date of the acquisition by the number of common stock issuable upon conversion.

The transaction has been accounted for as a business combination by the purchase method, with Unity Wireless Corporation identified as the acquirer. The Corporation's consolidated statements of operations and comprehensive loss include the operating results of Celerica Inc. from July 3, 2006, the date of acquisition.

3. Business combination (continued):

c) On August 17, 2006, the Corporation acquired Celletra Ltd. (Celletra). Celletra specializes in technology that provides wireless operators with solutions to achieve optimal coverage and to improve coverage and capacity of existing cells

Under the terms of the purchase agreement, the Corporation acquired the net assets of Celletra in exchange for 70,000 shares of Series B convertible non-redeemable preferred shares and contingent consideration of 20,000 shares of Series B convertible non-redeemable preferred shares and warrants to purchase 40,000,000 shares of common stock at a prices between \$0.20 and \$0.30 expiring August 17, 2009 (or 40,000 shares of Series B Convertible Shares should there not be sufficient authorized shares of common stock). The contingency was met in 2006 and the contingent consideration was issued in 2006.

The 90,000 preferred shares have been valued at a fair value of \$9,000,000 based on multiplying the Corporation s common share market price as of the closing date of the acquisition by the number of common stock into which the preferred stock is convertible. The warrants have been valued at a fair value of \$2,026,533 calculated using the Black-Scholes option-pricing model with the following weighted-average assumptions: no dividend yield; volatility of 108%; a risk-free interest rate of 4.01% and expected term of 3 years.

The transaction has been accounted for as a business combination by the purchase method, with Unity Wireless Corporation identified as the acquirer. The Corporation s consolidated statements of operations and comprehensive loss include the operating results of Celletra Ltd. from August 17, 2006, the date of acquisition.

	\$	11,055,262

Any goodwill allocated on the acquisition will not be deductible for tax purposes. See note 3(d) for a discussion of the allocation of the purchase price to goodwill and intangibles.

At the request of the Celletra shareholders 5% of the total preferred share consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of Unity common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If the target share price is met, the shares would be distributed. If this milestone is not achieved the shares will be returned back to the selling shareholders of Celletra. These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%)

shareholders of Unity. In accordance with FAS 123(R), the Corporation has calculated the fair value of compensation relating to these shares that may be issued to current and former employees, to be \$450,000 and have amortized the amount on a straight line basis over one year. The amortization for the three months ended March 31, 2007 was \$112,500.

10. Employee s rights upon retirement:

Under Israeli law and labor agreements, the Corporation s Israel subsidiaries are required to pay severance benefits to its dismissed employees and employees leaving its employment under certain circumstances. The liability for severance benefits is covered mainly by deposits with insurance companies in the name of the employee and / or by purchase of insurance policies. The liability is calculated on the basis of the latest salary of the employee multiplied by the number of years of employment as of the balance sheet date. The provision for employee severance benefits included in the balance sheet represents the total liabilities for such severance benefits, while the amounts funded for severance benefits included as an asset in the balance sheet represents the Corporation s Israeli subsidiaries contributions to severance pay funds and to insurance policies.

Severance expense for the three-month period ended March 31, 2007 was \$11,000.

Common stock (continued):

On February 19, 2007, certain holders of a warrant with an expiry date of December 13, 2011 and an exercise price of \$0.10 agreed to set aside their right to exercise 27,961,185 warrants until the earlier of June 30, 2007 or until such time that the Corporation has obtained approval from its stockholders to increase the authorized share capital to at least 500,000,000.

In considering the accounting for these warrants, the Corporation determined that the warrants should continue to be classified as equity under EITF 00-19. As the warrants will either be exercised into common shares under the warrant agreement (if the Corporation obtains an increase in the number of authorized shares to at least 500,000,000) or they will ultimately expire unexercised. There is no remedy available to the holder of a warrant, if they are not able to exercise the warrants under the agreement because the warrant holders agreed to waive their rights to exercise such warrants during the waiver period. As the warrants can only be exercised into common shares of the Company and there are no other settlement provisions, the Company concluded that the warrants should be treated as equity. If the Corporation is unable to obtain approval from its stockholders to increase the number of authorized shares to at least 500,000,000, the warrant holders are entitled rights to cashless exercise their warrants subsequent to June 30, 2007 as long as sufficient authorized share capital is available.

14.

Contingent liabilities:

(a)

The Corporation is currently a party to two actions in the Supreme Court of British Columbia, Vancouver Registry, brought by two different suppliers of the Corporation for approximately \$550,000 in total.

The Corporation provides for costs related to contingencies when a loss is probable and the amount is reasonably determinable. It is the opinion of management, based in part on advice of legal counsel, that the ultimate resolution of these contingencies, to the extent not previously provided for, will not have a material adverse effect on the financial condition of the Corporation.

(b)

Contingent liability on sale of products:

(i)

Under a license agreement, the Corporation is committed to make royalty payments based on the sales of products using certain technologies. Royalties are calculated based on 5% to 6% of sales of licensed products sold integrating the XNN Technology into various products to a minimum of \$150,000 within twelve months subsequent to the first commercial sales of the integrated product. No such sales have occurred to March 31, 2007.

(ii)

Under an agreement with the Government's National Research Council Canada IRAP (IRAP) program, the Corporation received conditionally repayable government assistance amounting to \$368,275 (CDN\$483,491) to support the development of a multi-carrier linear power amplifier. Under the terms of the agreement, an amount up to a maximum of \$534,000 (CDN\$725,236) is to be repaid at a rate of 1.5% of quarterly gross revenue commencing on September 1, 2003, on a quarterly basis. For the three-month period ended March 31, 2007, the Corporation recorded \$7,632 (CDN\$8,942) as royalties expense and \$17,124 (CDN\$19,884) in 2006.

(iii)

Under an agreement with the Canada Israel Industrial Research & Development Foundation, the Corporation is eligible to receive conditionally repayable government assistance amounting to \$262,078 (CDN\$350,000) to support the development of a multi-carrier linear power amplifier. To date, the Corporation claimed gross proceeds of \$98,622 (CDN\$ 116,667) in 2005, which have been recorded as government grant income as a reduction of expenses incurred. Under the terms of the agreement, commencing with the first commercial transaction, the assistance is repayable to the extent of 2.5% of yearly gross sales until 100% of the grant has been repaid. As of March 31, 2007, the Corporation has not yet commenced the commercialization of such product, and thus no repayment is required.

Contingent liability on sale of products (continued):

(iv)

The Corporate Israeli s subsidiaries were granted by Canada Israel Industrial Research & Development Foundation (CIIRDF) and by the Office of the Chief Scientist of the Israeli Ministry of Industry and Trade (the OCS) approval for CIIRDF grants and OCS participation in the cost of several research programs. In return the Corporate Israeli s subsidiaries are committed to pay royalties at a rate of 3% to 5% of the sales of the approved products, up to 100% of the amount of the grants received, with the addition of interest at LIBOR. Under certain conditions, the Corporate Israeli s subsidiaries commitment to pay royalties at the rates mentioned above and the total obligation for royalties shall increase. The Corporate Israeli s subsidiaries are committed to pay increased royalties for income derived from the above mentioned sale of rights.

The grants are deducted from research and development expenses. The Corporate Israeli s subsidiaries are entitled to the grants only upon incurring research and development expenditures. The Corporate Israeli s subsidiaries are not obliged to repay any amount received from the OCS if the research effort is unsuccessful or if no products are sold. However, under certain limited circumstances, the OCS may withdraw its approval of a research program or amend the terms of its approval. Upon withdrawal of approval, the Corporate Israeli s subsidiaries may be required to refund the grants, in whole or in part, with or without interest, as the OCS determines.

The maximum amount that could be repaid under this program for royalties, based on royalty-bearing government participation, totaled approximately \$14,344,000 as of March 31, 2007. For the three-month period ended March 31, 2007, the Corporation recorded \$59,000 (2006 Nil) as royalty expense in its statement of operations.

Such amount excludes potential increase resulting from the above mentioned sale of rights.

Contingent liability on sale of products (continued):

(v) Avantry received government grants from the Fund for the Encouragement of Marketing Activities Abroad (The Fund) as participation in the funding of an approved marketing plan for 2002. Avantry is committed to pay royalties to the Israeli Government at a rate of 4% of the increase in sales per year up to 100% of the amount of the grants received, with the addition of interest at LIBOR, computed on the increase in export sales beginning with the end of the first year after the year of the approved plan. These payments will continue until the grants are fully repaid.

Under certain limited circumstances, the Fund may withdraw its approval of the marketing plan. Upon withdrawal of approval, Avantry may be required to refund the grants, in whole or in part, with or without interest, as the Fund determines.

The aggregate potential liability in respect of the said grants on March 31, 2007 amounts to \$72,000.

UNITY WIRELESS CORPORATION

Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three months ended March 31, 2007 and 2006 (unaudited)

16.

Restructuring:

In the fourth quarter of 2006, the Corporation initiated an operational restructuring which resulted in the termination of 40 employees, a re-alignment of research and development activities in the Corporation and a reduction of facilities occupied.

A summary of the activity affecting the Corporation's accrued restructuring liability, included in accounts payable and accrued liabilities, for the period ended March 31, 2007 is as follows:

	Workforce reduction	Facilities restructuring	Total
Balance at December 31, 2006	\$ 364,000	\$ 140,000	\$ 504,000
Amount paid	(267,000)	(91,000)	(358,000)
Balance at March 31, 2007	97,000	49,000	146,000

1.

Subsequent Events:

Subsequent to March 31, 2007, 20,000 Series A non-redeemable preferred shares were converted into 20,000,000 common shares.

Item 2. Management's Discussion and Analysis or Plan of Operation

The following discussion of the financial condition, changes in financial condition, and results of operations of Unity Wireless Corporation should be read in conjunction with our most recent financial statements and notes appearing: (1) in this Form 10-QSB; and (2) the Form 10-KSB for the year ended December 31, 2006 filed on April 17, 2007.

The financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been primarily financed by borrowing and equity transactions. Our future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that we will be successful. If we are not, we will be required to reduce operations or liquidate assets. We will continue to evaluate our projected expenditures relative to our available cash and to seek additional means of financing in order to satisfy our working capital and other cash requirements. The auditors' report on the audited consolidated financial statements for the fiscal year ended December 31, 2006 contained in the 10-KSB filed on April 17, 2007, includes an explanatory paragraph that states that as we have suffered recurring losses from operations, substantial doubt exists about our ability to continue as a going concern. The audited consolidated financial statements or the interim quarterly unaudited consolidated financial statements included with this quarterly report do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we are unable to continue as a going concern.

Forward-Looking Statements

This quarterly report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "CDN\$" refer to Canadian dollars and all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our", and "Unity" mean Unity Wireless Corporation, unless otherwise indicated.

Results of Operations

Three-month period ended March 31, 2007 and 2006:

Sales and Cost of Goods Sold

Sales for the three-month period ended March 31, 2007 were \$2,171,795, an increase of 90.24% or \$1,030,165, from \$1,141,630 for the three-month period ended March 31, 2006. In both our historical product lines and new product lines obtained through acquisitions we have seen a greater diversification in our customer base and geographical areas where the company is now selling its expanded product offerings.

Cost of goods sold during the three-month period ended March 31, 2007 was \$1,532,239 resulting in a gross margin of \$639,556 or 29.45% of sales, compared to \$881,296 for the three-month period ended March 31, 2006 resulting in a gross margin of \$260,334 or 22.80% of sales.

The increase in gross margin is largely attributed to:

-

Increase in sales, resulting in increased component requirements and the company and its outsourced manufacturer have been able to negotiate better pricing due to the higher purchase volumes;

-

Efficiencies and cost savings have been obtained by centralizing our manufacturing and procurement largely with one outsourced manufacturer;

-

Efficiencies and cost savings have been obtained by centralizing our final testing of products in our China facility where the company has also been able to benefit from lower payroll costs.

Cost of goods sold includes stock-based compensation expense of \$1,317 for the three-month period ended March 31, 2007 versus \$6,549 for the three-month period ended March 31, 2006.

Operating Expenses

Research and Development

Research and development expenses for the three-month period ended March 31, 2007 were \$743,725, an increase of \$347,841 or 87.86%, from \$395,884 for the three-month period ended March 31, 2006. This increase was primarily the result of supporting additional product opportunities related to the acquired companies.

Research and development expense includes stock-based compensation expense of \$11,309 for the three-month period ended March 31, 2007 versus \$41,001 for the three-month period ended March 31, 2006.

Sales and Marketing

With the additional two new major product lines, and entering into new major markets such as India, Russia, and South East Asia, through the 2006 acquisition processes, our sales and marketing expenses for the three-month period ended March 31, 2007 were \$519,756, an increase of \$361,458, or 228.34%, from \$158,298 for the three-month period ended March 31, 2006. This increase was primarily the result of the additional sales initiatives that include additional sales personnel on staff, increased travel expenses to visit new customers and additional expenses relating to the acquired businesses also caused the increase in sales and marketing expenses.

Sales and marketing expenses include stock-based compensation expense of \$7,878 for the three-month period ended March 31, 2007 versus 10,202 for the three-month period ended March 31, 2006.

Depreciation and Amortization

Depreciation and amortization expenses for the three-month period ended March 31, 2007 were \$868,686, an increase of \$805,071, from \$63,615 for the three-month period ended March 31, 2006. This increase was primarily the result of the amortization of the intangible assets recorded relating to the acquired companies in 2006. During the three-month period ended March 31, 2007, the Corporation recorded \$738,910 as the amortization of the intangibles.

Exchange Loss

Exchange loss for the three-month period ended March 31, 2007 was \$3,715, a decrease of \$11,759, from \$15,474 for the three-month period ended March 31, 2006 due to fluctuations in the currency exchange rate between the U.S. and Canada.

Interest Expense

Interest expense for the three-month period ended March 31, 2007 increased by \$151,638 to \$236,898 from \$85,260 for the three-month period ended March 31, 2006. This increase was primarily the result of the increase in interest expense from the issue of convertible debentures in February of 2006 and December of 2006.

General and Administrative

Even with the 2006 acquisition of three new companies, general and administrative expenses for the three-month period ended March 31, 2007 rose only 10.19% to \$532,792, an increase of \$49,273, from \$483,519 for the three-month period ended March 31, 2006. The increase was primarily the result of the additional expenses relating to the acquired business, and minimized through a restructuring program post acquisition in order to take advantage of synergies in the global organization.

General and administrative expenses include stock-based compensation expense of \$27,214 for the three-month period ended March 31, 2007 versus \$102,578 for the three-month period ended March 31, 2006.

Share compensation expense

Celletra's share compensation expenses were \$112,500 for the period ended of March 31, 2007. At the request of the Celletra shareholders 5% of the total consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of the Company's common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If this target share price is met, the shares are to be distributed.

If this milestone is not achieved the shares will be returned back to the selling shareholders of Celletra. These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%) shareholders of the Company. In accordance with FAS 123(R), the Company has calculated the fair value of compensation relating to these shares that may be issued to current and former employees, to be \$450,000 and have amortized the amount on a straight line basis over one year.

Other Expenses

Accretion of Interest and Loss on Debt Settlement

Accretion of interest and loss on debt settlement for the three-month period ended March 31, 2007 was \$114,093, a decrease of \$1,501,872, compared to \$1,615,965 for the three-month period ended March 31, 2006. During the three month period ended March 31, 2006, the Corporation entered to an agreement of the modification of the terms of the debentures which were issued in August 2004 and February 2005 which resulted in a total loss on debt settlement of \$1,452,722. No modification of debentures or warrants was made for the three-month period ended March 31, 2007.

Loss for the Quarter Ended March 31, 2007

Loss for the three-month period ended March 31, 2007 decreased by 0.76%, or \$19,498, to \$2,555,307, from \$2,574,805 for the three-month period ended March 31, 2006.

Liquidity and Capital Resources

Since our inception, we have been dependent on investment capital and debt financing as our primary sources of liquidity. We had an accumulated deficit at March 31, 2007 of \$44,662,694. During the three-month period ended March 31, 2007, we incurred a net loss, after stock-based compensation, of \$2,555,307.

During the three-month period ended March 31, 2007, our cash position was decreased to \$1,072,419. This decrease was primarily due to the repayment made to the trade payables and the short-term loan.

During the three-month period ended March 31, 2007, the Corporation issued 1,609,191 common shares in settlement of \$149,235 of accounts payable, and 26,172,890 shares for cash proceeds of \$2,355,560.

During the three-month period ended March 31, 2007, we purchased \$4,000 in equipment.

Other than leases for premises, leased vehicles and equipment commitments for an aggregate of \$950,007 through 2009, we have no material commitments outstanding at March 31, 2007.

Our capital requirements may increase in light of our current strategy to expand our customer base and to develop new products and technologies. Our operations to date have been primarily financed by sales of our equity securities and debt financing, and, the company's assets are pledged to secure convertible notes that we issued in August 2004, February 2005, March 2005, February 2006 and December 2006. For any additional financing that may be required in the near term, we may be required to obtain the consent of certain of our investors prior to the issuance of our common stock or common stock equivalents and prior to entering into an agreement to assume certain liabilities.

While convertible notes and warrant purchase Agreements dated August 31, 2004, February 11, 2005, March 24, 2005, February 28, 2006 and December 13, 2006 are outstanding, we cannot declare dividends on our common shares. As of March 31, 2007, we had working deficit of \$6,727,043, our operations presently have net cash outflow of \$1,555,935. Our ability to continue as a going concern may be dependent upon one or more factors, that may include: our ability obtaining further financing; an increased rate of market acceptance of our current products and any new product offerings that we may introduce; the continuing successful development of our products and related technologies; and achieving a profitable level of operations. Moving forward, although the issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders, obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitment. Our Auditors' report on our 2006 consolidated financial statements includes an additional explanatory paragraph that states that our recurring losses from operations raise substantial doubt about our ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Inflation

We do not believe that inflation has had a significant impact on our consolidated results of operations or financial condition.

Item 3. Controls and Procedures

An evaluation has been carried out under the supervision and with the participation of our management, including our Chief Executive Officer, of the effectiveness of the design and the operation of our "disclosure controls and procedures" (as such term is defined in Rules 13a-15(e) under the Securities Exchange Act of 1934) as of March 31, 2007 (Evaluation Date). Based on such evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that, as of the Evaluation Date, the disclosure controls and procedures are reasonably designed and effective to ensure that (i) information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We have identified conditions as of March 31, 2007 that we believe are material weaknesses in internal controls due to a lack of segregation of duties in accounting and financial reporting activities as a result of the limited number of Company employees engaged in the authorization, recording, processing and reporting of transactions. As a remedy to these deficiencies, the Chief Executive Officer performs frequent reviews of financial information to ensure that transactions are properly recorded. In addition, the Corporation has recently added additional accounting staff to ensure that segregation of duties can be properly administered. There was no change in the Company's internal control over financial reporting during the period ended March 31, 2007, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Items 3, 4, & 5 are not applicable and have been omitted.

Item 1. Legal Proceedings

Other than as set forth below, we know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

We have been sued in the Supreme Court of British Columbia, Canada, by Getec North America and Getec Industrial Limited (Getec). The lawsuit was commenced on March 30, 2006. Getec alleges that services provided to Unity Wireless Systems Inc. have not been paid and claim in total \$106,420. We dispute the allegations and are defending the claim and filed a counterclaim. No trial date has been set. The matter is at a very preliminary stage. We do not expect the proceeding to have any material adverse effect on us.

We have been sued in the Supreme Court of British Columbia, Canada, by TRS-Rentelco (TRS). The lawsuit was commenced on October 27 2006. TRS alleges that equipment rentals provided to Unity Wireless Systems Inc. have not been paid and claim in total approximately \$450,000. We dispute the allegations and are defending the claim and are planning to file a counterclaim. No trial date has been set. The matter is at a very preliminary stage. We do not expect the proceeding to have any material adverse effect on us.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

i) During the three-month period ended March 31, 2007, the Corporation issued 200,000 common shares to John Douglas Shields in settlement of \$20,000 services provided to the Corporation.

ii) During the three-month period ended March 31, 2007, the Corporation issued 26,172,888 common shares to the private investors, in the aggregate principal amount of \$2,355,560, and warrants to purchase 39,259,332 shares of common stock at \$0.10 per share.

In connection with the financing, the Company also issued, as investment banking fees, to Meitav Underwriting Ltd., warrants purchasing 1,413,336 shares of common stock at an exercise price of \$0.10 per share and in the form of the Warrants.

The securities were offered and sold pursuant to the provisions of Regulation S under the U.S. *Securities Act of 1933*.

iii) During the three-month period ended March 31, 2007, the Corporation issued 1,409,191 common shares to the convertible notes holders in settlement of \$129,235 interest payable.
