FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note A — Basis of Financial Statements

The unaudited financial information in this report includes the accounts of Fidelity National Financial, Inc. and its subsidiaries (collectively, “we,” “us,” “our,” or “FNF”) prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and the instructions to Form 10-Q and Article 10 of Regulation S-X. All adjustments considered necessary for a fair presentation have been included. All adjustments made were of a normal, recurring nature. This report should be read in conjunction with our Annual Report on Form 10-K (our “Annual Report”) for the year ended December 31, 2015.

Certain reclassifications have been made in the 2015 Condensed Consolidated Financial Statements to conform to classifications used in 2016.

Description of the Business

We have organized our business into two groups, FNF Group and FNF Ventures (“FNFV”).

Through FNF Group, we are a leading provider of (i) title insurance, escrow and other title related services, including trust activities, trustee sales guarantees, recordings and reconveyances and home warranty insurance and (ii) technology and transaction services to the real estate and mortgage industries. FNF is the nation’s largest title insurance company operating through its title insurance underwriters - Fidelity National Title Insurance Company, Chicago Title Insurance Company, Commonwealth Land Title Insurance Company, Alamo Title Insurance and National Title Insurance of New York Inc. - that collectively issue more title insurance policies than any other title company in the United States. Through our subsidiary ServiceLink Holdings, LLC (“ServiceLink”), we provide mortgage transaction services including title-related services and facilitation of production and management of mortgage loans. FNF also provides industry-leading mortgage technology solutions, including MSP®, the leading residential mortgage servicing technology platform in the U.S., through its majority-owned subsidiary, Black Knight Financial Services, Inc. (“Black Knight”).

Through our FNFV group, we own majority and minority equity investment stakes in a number of entities, including American Blue Ribbon Holdings, LLC (“ABRH”), Ceridian HCM, Inc. and Fleetcor Technologies, Inc. (collectively “Ceridian”) and Digital Insurance, Inc. (“Digital Insurance”).

As of March 31, 2016, we had the following reporting segments:

FNF Group

Title. This segment consists of the operations of our title insurance underwriters and related businesses. This segment provides core title insurance and escrow and other title related services including trust activities, trustee sales guarantees, recordings and reconveyances, and home warranty insurance. This segment also includes our transaction services business, which includes other title-related services used in the production and management of mortgage loans, including mortgage loans that experience default.

Black Knight. This segment consists of the operations of Black Knight, which, through leading software systems and information solutions, provides mission critical technology and data and analytics services that facilitate and automate many of the business processes across the life cycle of a mortgage.

FNF Group Corporate and Other. This segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, and other real estate and insurance-related operations.

FNFV

Restaurant Group. This segment consists of the operations of ABRH, in which we have a 55% ownership interest. ABRH and its affiliates are the owners and operators of the O'Charley's, Ninety Nine Restaurants, Village Inn, Bakers Square, and Legendary Baking concepts. As of and for the three months ended March 31, 2015, this segment also included the results of J. Alexander's, Inc. (“J. Alexander's”), which was distributed to FNFV shareholders on September 28, 2015, and the Max & Erma's concept, which was sold pursuant to an Asset Purchase Agreement on January 25, 2016.

•

FNFV Corporate and Other. This segment primarily consists of our share in the operations of certain equity investments, including Ceridian, as well as consolidated investments, including Digital Insurance, in which we own 96%, and other smaller operations which are not title related.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

Recent Developments

On March 30, 2016, Ceridian HCM Holding, Inc., a wholly-owned subsidiary of Ceridian, completed its offering (the "Offering") of senior convertible preferred shares for aggregate proceeds of \$150 million. As part of the Offering, FNF purchased a number of shares equal to its pro rata ownership in Ceridian for \$47 million. FNF's ownership percentage in Ceridian did not change as a result of the transaction.

On March 16, 2016, pursuant to the terms of a certain "synthetic lease" agreement, dated as of June 29, 2004, as amended on June 27, 2011, as further described under Off-Balance Sheet Arrangements in Item 2 of Part II of this Quarterly Report, we notified SunTrust Bank of our intention to exercise our option to purchase the land and various real property improvements associated with our corporate campus and headquarters in Jacksonville, Florida for \$71 million. We completed the purchase on April 29, 2016.

On March 3, 2016 our Board of Directors adopted a resolution increasing the size of the Company's Board of Directors to eleven, and elected Janet Kerr to serve on our Board of Directors. Ms. Kerr will serve in Class II of our Board of Directors, and her initial term will expire at the annual meeting of our shareholders to be held in 2016, at which she has been nominated for reelection. At this time, Ms. Kerr has not been appointed to any committee of our Board.

On February 18, 2016 our Board of Directors approved a new FNFV Group three-year stock repurchase program, effective March 1, 2016, under which we may repurchase up to 15 million shares of FNFV Group common stock. Purchases may be made from time to time by us in the open market at prevailing market prices or in privately negotiated transactions through February 28, 2019.

Earnings Per Share

Basic earnings per share, as presented on the Condensed Consolidated Statement of Earnings, is computed by dividing net earnings available to common shareholders in a given period by the weighted average number of common shares outstanding during such period. In periods when earnings are positive, diluted earnings per share is calculated by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding plus the impact of assumed conversions of potentially dilutive securities. For periods when we recognize a net loss, diluted earnings per share is equal to basic earnings per share as the impact of assumed conversions of potentially dilutive securities is considered to be antidilutive. We have granted certain stock options, shares of restricted stock, convertible debt instruments and certain other convertible share based payments which have been treated as common share equivalents for purposes of calculating diluted earnings per share for periods in which positive earnings have been reported.

The net earnings of Black Knight in our calculation of diluted earnings per share is adjusted for dilution related to certain Black Knight restricted stock granted to employees in accordance with ASC 260-10-55-20. We calculate the ratio of the Class B shares we hold to the total weighted average diluted shares of Black Knight outstanding and multiply such ratio by Black Knight's net earnings. The result is used as a substitution for Black Knight's net earnings attributable to FNF included in our consolidated net earnings in the numerator for our diluted earnings per share calculation. As the result had no effect for the three months ended March 31, 2016, there were no adjustments made to net earnings attributable to FNF in our calculation of diluted earnings per share. There are no adjustments to earnings attributable to FNF in our calculation of basic earnings per share. There are no adjustments made to net earnings attributable to FNFV in our calculation of basic or diluted earnings per share.

Options or other instruments which provide the ability to purchase shares of our common stock that are antidilutive are excluded from the computation of diluted earnings per share. There were 2 million and 3 million antidilutive options outstanding during the three months ended March 31, 2016 and March 31, 2015, respectively.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU provides a new comprehensive revenue recognition model that requires companies to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. This update also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer

contracts. This update permits the use of either the retrospective or cumulative effect transition method. ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations was issued by FASB in March 2016 to clarify the principal versus agent considerations within ASU 2014-09. ASU 2016-10 Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing was issued by the FASB in April 2016 to clarify how to determine whether goods and services are separately identifiable and thus accounted for as separate performance obligations. We are evaluating the effect this new guidance will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method nor have we determined the effect of the standard

Table of Contents

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

on our ongoing financial reporting. Upon issuance of ASU 2015-14, the effective date of ASU 2014-09 was deferred to annual and interim periods beginning on or after December 15, 2017.

In February 2015, the FASB issued ASU No. 2015-02 Consolidation (Topic 810): Amendments to the Consolidation Analysis. This ASU changes the way reporting enterprises evaluate whether (a) they should consolidate limited partnerships and similar entities, (b) fees paid to a decision maker or service provider are variable interests in a variable interest entity (VIE), and (c) variable interests in a VIE held by related parties of the reporting enterprise require the reporting enterprise to consolidate the VIE. The ASU eliminates the ASU 2010-10 deferral of the ASU 2009-17 VIE consolidation requirements for certain investment companies and similar entities. In addition, the ASU excludes money market funds that are required to comply with Rule 2a-7 of the Investment Company Act of 1940, as amended, or that operate under requirements similar to those in Rule 2a-7 from the GAAP consolidation requirements. The ASU also significantly changes how to evaluate voting rights for entities that are not similar to limited partnerships when determining whether the entity is a VIE, which may affect entities for which the decision making rights are conveyed through a contractual arrangement. The update allows for the application of the amendments using a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption or retrospective application for prior periods. This update is effective for annual and interim periods beginning on or after December 15, 2015. We have adopted the update as of and for the three months ended March 31, 2016. The update did not have a material effect on our financial position or results of operations.

In May 2015, the FASB issued ASU No. 2015-09 Financial Services - Insurance (Topic 944): Disclosures about Short-Duration Contracts. The amendments in this ASU require insurance entities to disclose for annual reporting periods additional information about the liability for unpaid claims and claim adjustment expenses related to short-duration contracts. The amendments also require insurance entities to disclose information about significant changes in methodologies and assumptions used to calculate the liability for unpaid claims and claim adjustment expenses. This update is effective for annual periods beginning after December 15, 2015, and interim periods within annual periods beginning after December 15, 2016, with early application permitted. We do not expect this update to have a significant effect on our ongoing financial reporting as our primary insurance products are not short-duration contracts. However, we are still evaluating the totality of the effects the update will have on our disclosures.

In September 2015, the FASB issued ASU No. 2015-16 Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. The amendments in this ASU require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The acquirer will be required to record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. Entities will also be required to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The ASU requires the prospective application of the amendments for adjustments to provisional amounts that occur after its effective date. We have adopted the update as of and for the three months ended March 31, 2016. The update did not have a material effect on our financial position or results of operations.

In January 2016, the FASB issued ASU No. 2016-01 Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The primary amendments required by the ASU include: requiring equity investments with readily determinable fair values to be measured at fair value through net income rather than through other comprehensive income; allowing entities with equity investments without readily determinable fair values to report the investments at cost, adjusted for changes in observable prices, less impairment; requiring entities that elect the fair value option for financial liabilities to report the change in fair value attributable to instrument-specific credit risk in other comprehensive income; and clarifying that entities should assess the need for a valuation allowance on a deferred tax asset related to available-for-sale debt securities in combination with other

deferred tax assets. The amendments in this ASU are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The ASU requires a cumulative-effect adjustment of the balance sheet as of the beginning of the year of adoption. Early adoption of the ASU is not permitted, except for the provision related to financial liabilities for which the fair value option has been elected. We are currently evaluating the effect this new guidance will have on our consolidated financial statements and related disclosures and have not yet concluded on its effects.

In February 2016, the FASB issued ASU No. 2016-02 Leases (Topic 842). The amendments in this ASU introduce broad changes to the accounting and reporting for leases by lessees. The main provisions of the new standard include: clarifications to the definitions of a lease, components of leases, and criteria for determining lease classification; requiring virtually all leased assets, including operating leases and related liabilities, to be reflected on the lessee's balance sheet; and expanding and adding to the required disclosures for lessees. This update is effective for annual and interim periods beginning after December 15, 2018,

Table of Contents

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

including interim periods within those fiscal years. Early application of the standard is permitted. The ASU requires a modified retrospective approach to transitioning which allows for the use of practical expedients to effectively account for leases commenced prior to the effective date in accordance with previous GAAP, except that lessees are required to recognize a right-of-use asset and a lease liability for all operating leases at each reporting date based on the present value of the remaining minimum rental payments that were tracked and disclosed under previous GAAP. We are currently evaluating the effect this new guidance will have on our consolidated financial statements and related disclosures and have not yet concluded on its effects.

In March 2016, the FASB issued ASU No. 2016-04 Liabilities - Extinguishment of Liabilities (Subtopic 405-20): Recognition of Breakage for Certain Prepaid Stored-Value Products. The primary amendment in this ASU will provide guidance for derecognition of prepaid stored-value product liabilities that meet certain criteria and was designed to alleviate diversity in practice under current GAAP. This update is effective for annual and interim periods beginning after December 15, 2017, including interim periods within those fiscal years. We do not expect this update to have a significant effect on our ongoing financial reporting as we do not have a significant liability for prepaid stored-value products. However, we are still evaluating the totality of the effects the update will have on our consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-07 Investments - Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting. The primary amendment in this ASU is to eliminate the requirement to retroactively adopt the equity method of accounting. This update is effective for annual and interim periods beginning after December 15, 2016, including interim periods within those fiscal years. We have adopted the update as of and for the three months ended March 31, 2016. The update did not have a material effect on our financial position or results of operations.

In March 2016, the FASB issued ASU No. 2016-09 Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This standard makes several modifications to ASC Topic 718 related to the accounting for forfeitures, employer tax withholding on share-based compensation and the financial statement presentation of excess tax benefits or deficiencies. ASU No. 2016-09 also clarifies the statement of cash flows presentation for certain components of share-based awards. The standard is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. We have early adopted this ASU as of and for the three month period ended March 31, 2016. As a result we have recorded \$3 million in income tax benefit related to the tax effects associated with the exercise of stock options within Income tax expense on the Condensed Consolidated Statement of Earnings for the three month period ended March 31, 2016. There was no impact to opening equity for the three month period ended March 31, 2016. There was no impact to net earnings for the three month period ended March 31, 2015. The Condensed Consolidated Statement of Cash Flows for the three month period ended March 31, 2015 has been restated to conform with the current period, which resulted in an increase to both cash flows provided by operations and cash flows used in financing activities of \$7 million for the period. We did not change our accounting policy for estimating expected forfeitures of stock compensation.

Preferred stock available for sale	42	247	—	289
Equity securities available for sale	334	11	—	345
Total assets	\$376	\$2,816	\$—	—\$3,192

Our Level 2 fair value measures for fixed-maturities available for sale are provided by third-party pricing services. We utilize one firm for our taxable bond and preferred stock portfolio and another for our tax-exempt bond portfolio.

These pricing services are leading global providers of financial market data, analytics and related services to financial institutions. We rely on one price for each instrument to determine the carrying amount of the assets on our balance sheet. The inputs utilized in these pricing methodologies include observable measures such as benchmark yields, reported trades, broker dealer quotes, issuer spreads, two sided markets, benchmark securities, bids, offers and reference data including market research publications. We review the pricing methodologies for all of our Level 2 securities by obtaining an understanding of the valuation models and assumptions used by the third-party as well as independently comparing the resulting prices to other publicly available measures of fair value and internally developed models. The pricing methodologies used by the relevant third-party pricing services are as follows:

• U.S. government and agencies: These securities are valued based on data obtained for similar securities in active markets and from inter-dealer brokers.

• State and political subdivisions: These securities are valued based on data obtained for similar securities in active markets and from inter-dealer brokers. Factors considered include relevant trade information, dealer quotes and other relevant market data.

• Corporate debt securities: These securities are valued based on dealer quotes and related market trading activity. Factors considered include the bond's yield, its terms and conditions, and any other feature which may influence its

risk and thus marketability, as well as relative credit information and relevant sector news.

Mortgage-backed/asset-backed securities: These securities are comprised of agency mortgage-backed securities, collateralized mortgage obligations, and asset-backed securities. They are valued based on available trade information, dealer quotes, cash flows, relevant indices and market data for similar assets in active markets.

Table of Contents

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

Foreign government bonds: These securities are valued based on a discounted cash flow model incorporating observable market inputs such as available broker quotes and yields of comparable securities.

Preferred stocks: Preferred stocks are valued by calculating the appropriate spread over a comparable U.S. Treasury security. Inputs include benchmark quotes and other relevant market data.

Equity securities available for sale: This security is valued using a blending of two models, a discounted cash flow model and a comparable company model utilizing earnings and multiples of similar publicly-traded companies.

As of March 31, 2016 and December 31, 2015 we held no assets nor liabilities measured at fair value using Level 3 inputs.

The carrying amounts of short-term investments, accounts receivable and notes receivable approximate fair value due to their short-term nature. Additional information regarding the fair value of our investment portfolio is included in Note C.

Note C — Investments

The carrying amounts and fair values of our available for sale securities at March 31, 2016 and December 31, 2015 are as follows:

	March 31, 2016				
	Carrying	Cost	Unrealized	Unrealized	Fair
	Value	Basis	Gains	Losses	Value
	(In millions)				
Fixed maturity securities available for sale:

The cost basis of fixed maturity securities available for sale includes an adjustment for amortized premium or accreted discount since the date of purchase.

Table of Contents

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

The following table presents certain information regarding contractual maturities of our fixed maturity securities at March 31, 2016:

Maturity	March 31, 2016			
	Amortized Cost	% of Total	Fair Value	% of Total
	(Dollars in millions)			
One year or less	\$432	17 %	\$432	16 %
After one year through five years	1,849	71	1,862	71
After five years through ten years	245	9	254	10
After ten years	26	1	26	1
Mortgage-backed/asset-backed securities	64	2	67	2
Total	\$2,616	100 %	\$2,641	100 %

Expected maturities may differ from contractual maturities because certain borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Because of the potential for prepayment on mortgage-backed and asset-backed securities, they are not categorized by contractual maturity.

Net unrealized losses on investment securities and the fair value of the related securities, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at March 31, 2016 and December 31, 2015, were as follows (in millions):

March 31, 2016

	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Corporate debt securities	\$292	\$ (7)	\$38	\$ (12)	\$330	\$ (19)
Foreign government bonds	80	(4)	23	(4)	103	(8)
Preferred stock available for sale	141	(6)	24	(2)	165	(8)
Equity securities available for sale	63	(7)	5	(1)	68	(8)
Total temporarily impaired securities	\$576	\$ (24)	\$90	\$ (19)	\$666	\$ (43)

December 31, 2015

	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Corporate debt securities	747	(24)	20	(4)	767	(28)
Foreign government bonds	106	(13)	—	—	106	(13)
Preferred stock available for sale	140	(4)	24	(2)	164	(6)
Equity securities available for sale	92	(12)	—	—	92	(12)
Total temporarily impaired securities	\$1,085	\$ (53)	\$44	\$ (6)	\$1,129	\$ (59)

We recorded \$3 million in impairment charges relating to investments during the three-month period ended March 31, 2016. The impairment charges related to an investment in an unconsolidated affiliate in which we determined the ability to recover our investment was unlikely. We recorded no impairment charges relating to investments during the three-month period ended March 31, 2015. As of March 31, 2016 we held no fixed maturity securities for which an other-than-temporary impairment had been previously recognized. As of December 31, 2015, we held \$2 million in fixed maturity and equity securities for which an other-than-temporary impairment had been previously recognized. It is possible that future events may lead us to recognize impairment losses related to our investment portfolio and that unanticipated future events may lead us to dispose of certain investment holdings and recognize the effects of any market movements in our condensed consolidated financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

The following table presents realized gains and losses on investments and other assets and proceeds from the sale or maturity of investments and other assets for the three-month periods ended March 31, 2016 and 2015, respectively:

	Three months ended March 31, 2016			
	Gross Realized Gains	Gross Realized Losses	Net Realized Gains (Losses)	Gross Proceeds from Sale/Maturity
	(Dollars in millions)			
Fixed maturity securities available for sale	\$1	\$ —	\$ 1	\$ 158
Equity securities available for sale	—	(1)	(1)	—
Investments in unconsolidated affiliates			(3)	—
Other assets			(3)	—
Total			\$ (6)	\$ 158
	Three months ended March 31, 2015			
	Gross Realized Gains	Gross Realized Losses	Net Realized Gains (Losses)	Gross Proceeds from Sale/Maturity
	(Dollars in millions)			
Fixed maturity securities available for sale	\$1	\$ —	\$ 1	\$ 238
Preferred stock available for sale	—	—	—	5
Equity securities available for sale	1	(2)	(1)	5
Other long-term investments			—	14
Total			\$ —	\$ 262

Investments in unconsolidated affiliates are recorded using the equity method of accounting. As of March 31, 2016 and December 31, 2015, investments in unconsolidated affiliates consisted of the following (dollars in millions):

	Current Ownership	March 31, 2016	December 31, 2015
Ceridian	32 %	\$ 418	\$ 358
Other Various		180	163
Total		\$ 598	\$ 521

Our investment in Ceridian bonds is included in Fixed maturity securities available for sale on the Condensed Consolidated Balance Sheets and had a fair value of \$27 million and \$23 million as of March 31, 2016 and December 31, 2015, respectively. We did not purchase or dispose of any Ceridian Bonds in the three-month periods ended March 31, 2016.

During the three-month periods ended March 31, 2016 and 2015, we recorded \$3 million and \$2 million, in equity in losses of Ceridian, respectively. There was \$5 million and \$1 million in equity in earnings of other unconsolidated affiliates during the three-month periods ended March 31, 2016 and 2015, respectively.

Note D —Notes Payable

Notes payable consists of the following:

	March 31, 2016	December 31, 2015
	(In millions)	
Unsecured notes, net of discount, interest payable semi-annually at 5.50%, due September 2022	\$ 397	\$ 397
Unsecured convertible notes, net of discount, interest payable semi-annually at 4.25%, due August 2018	290	288
Unsecured notes, net of discount, interest payable semi-annually at 6.60%, due May 2017	300	300
Revolving Credit Facility, unsecured, unused portion of \$800 at March 31, 2016, due July 2018 with interest payable monthly at LIBOR + 1.45%	(5)	(5)
Unsecured Black Knight InfoServ notes, including premium, interest payable semi-annually at 5.75%, due April 2023	402	402
Black Knight Term A Facility, due May 27, 2020 with interest currently payable monthly at LIBOR + 2.00% (2.44% at March 31, 2016)	761	771
Black Knight Term B Facility, due May 27, 2022 with interest currently payable quarterly at LIBOR + 3.00% (3.75% at March 31, 2016)	342	343
Black Knight Revolving Credit Facility, unused portion of \$350, due May 27, 2020 with interest currently payable monthly at LIBOR + 2.00% (2.44% at March 31, 2016)	46	95
ABRH Term Loan, interest payable monthly at LIBOR + 2.50% (2.93% at March 31, 2016), due August 2019	96	100
Digital Insurance Revolving Credit Facility, unused portion of \$65 at March 31, 2016, due March 31, 2020 with interest payable monthly at LIBOR + 2.50% - 3.50% (3.80% at March 31, 2016)	94	99
ABRH Revolving Credit Facility, unused portion of \$85 at March 31, 2016, due August 2019 with interest payable monthly at LIBOR + 2.50%	—	—
Other	19	3
	\$2,742	\$ 2,793

At March 31, 2016, the estimated fair value of our long-term debt was approximately \$3,093 million, which was \$323 million higher than its carrying value, excluding \$28 million of unamortized debt issuance costs and premium/discount. The carrying values of our ABRH term loan, ABRH revolving credit facility and Digital Insurance revolving credit facility approximate the fair values at March 31, 2016 as they are variable rate instruments with short reset periods which reflect current market rates. The fair value of our unsecured notes payable was \$1,713 million as of March 31, 2016. The fair values of our unsecured notes payable are based on established market prices for the securities on March 31, 2016 and are considered Level 2 financial liabilities. The carrying value of the Black Knight Term A, Term B, and revolving facilities approximate fair value at March 31, 2016. The revolving credit facilities are considered Level 2 financial liabilities.

On May 27, 2015, Black Knight Infoserv, LLC ("BKIS") entered into a credit and guaranty agreement (the "BKIS Credit Agreement") with an aggregate borrowing capacity of \$1.6 billion with JPMorgan Chase Bank, N.A. as administrative agent, the guarantors party thereto, the other agents party thereto and the lenders party thereto. The material terms of the BKIS Credit Agreement are set forth in our Annual Report for the year ended December 31, 2015 and have not been amended since the filing of such Annual Report. As of March 31, 2016 BKIS had aggregate outstanding debt of \$1,149 million under the BKIS Credit Agreement, net of debt issuance costs. We hold approximately \$50 million of the outstanding Term B notes which eliminate in consolidation.

On March 31, 2015, Digital Insurance, entered into a senior secured credit facility (the "Digital Insurance Facility") with Bank of America, N.A. ("Bank of America") as administrative agent, JPMorgan Chase Bank, N.A. as syndication agent,

and the other financial institutions party thereto. The material terms of the Digital Insurance Facility are set forth in our Annual Report for the year ended December 31, 2015. On March 10, 2016, the Digital Insurance Facility was amended to increase the borrowing capacity from \$120 million to \$160 million and to add Fifth Third Bank as an additional lender. As of March 31, 2016, Digital Insurance had outstanding debt of \$94 million under the Digital Insurance Facility.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

On August 19, 2014, ABRH entered into a credit agreement (the “ABRH Credit Facility”) with Wells Fargo Bank, National Association as administrative agent, Swingline Lender and Issuing Lender (the “ABRH Administrative Agent”), Bank of America, N.A. as syndication agent and the other financial institutions party thereto. The ABRH Credit Facility provides for a maximum revolving loan of \$100 million (the “ABRH Revolver”) with a maturity date of August 19, 2019. Additionally, the ABRH Credit Facility provides for a maximum term loan (the “ABRH Term Loan”) of \$110 million with quarterly installment repayments through June 30, 2019 and a maturity date of August 19, 2019 for the outstanding unpaid principal balance and all accrued and unpaid interest. The material terms of the ABRH Credit Facility are set forth in our Annual Report on Form 10-K for the year ended December 31, 2015 and have not been amended since the filing of such Annual Report, except to clarify that a commitment fee is also due thereunder, at a rate per annum equal to between 32.5 and 40 basis points on the average daily unused portion of the commitments under the ABRH Revolver. As of March 31, 2016, ABRH had \$96 million outstanding for the ABRH Term Loan, had no outstanding borrowings under the ABRH Revolver, had \$15 million of outstanding letters of credit and had \$85 million of remaining borrowing capacity under the ABRH Credit Facility.

On January 2, 2014, as a result of the LPS acquisition, FNF acquired \$600 million aggregate principal amount of 5.75% Senior Notes due in 2023, initially issued by BKIS on October 12, 2012 (the “Black Knight Senior Notes”). The material terms of the Black Knight Senior Notes are set forth in our Annual Report for the year ended December 31, 2015. On January 16, 2014, we issued an offer to purchase the Black Knight Senior Notes pursuant to the change of control provisions at a purchase price of 101% of the principal amount plus accrued interest to the purchase date. The offer expired on February 18, 2014. As a result of the offer, bondholders tendered \$5 million in principal of the Black Knight Senior Notes, which were subsequently purchased by us on February 24, 2014. On May 29, 2015, Black Knight completed a redemption of \$205 million in aggregate principal of its Black Knight Senior Notes at a price of 105.75% under the note feature allowing redemption using proceeds from an equity offering.

On June 25, 2013, FNF entered into an agreement to amend and restate our existing \$800 million Second Amended and Restated Credit Agreement (the “Existing Credit Agreement”), dated as of April 16, 2012 with Bank of America, N.A., as administrative agent (in such capacity, the “Administrative Agent”) and the other agents party thereto (the “Revolving Credit Facility”). The material terms of the Revolving Credit Facility are set forth in our Annual Report for the year ended December 31, 2015. As of March 31, 2016, there was no outstanding balance under the Revolving Credit Facility and \$5 million in unamortized debt issuance costs.

On August 28, 2012, FNF completed an offering of \$400 million in aggregate principal amount of 5.50% notes due September 2022 (the “5.50% notes”), pursuant to an effective registration statement previously filed with the SEC. The material terms of the 5.50% notes are set forth in our Annual Report for the year ended December 31, 2015.

On August 2, 2011, FNF completed an offering of \$300 million in aggregate principal amount of 4.25% convertible senior notes due August 2018 (the “Notes”) in an offering conducted in accordance with Rule 144A under the Securities Act of 1933, as amended. The material terms of the Notes are set forth in our Annual Report for the year ended December 31, 2015. Beginning October 1, 2013, these notes are convertible under the 130% Sale Price Condition described in our Annual Report.

On May 5, 2010, FNF completed an offering of \$300 million in aggregate principal amount of our 6.60% notes due May 2017 (the “6.60% Notes”), pursuant to an effective registration statement previously filed with the SEC. The material terms of the 6.60% notes are set forth in our Annual Report for the year ended December 31, 2015.

Gross principal maturities of notes payable at March 31, 2016 are as follows (in millions):

2016 (remaining)	\$41
2017	372
2018	395
2019	179
2020	649
Thereafter	1,134

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

litigation includes but is not limited to a wide variety of cases arising out of or related to title and escrow claims, for which we make provisions through our loss reserves. Additionally, like other companies, our ordinary course litigation includes a number of class action and purported class action lawsuits, which make allegations related to aspects of our operations. We believe that no actions, other than the matters discussed below, depart from customary litigation incidental to our business.

Our Restaurant Group companies are a defendant from time to time in various legal proceedings arising in the ordinary course of business, including claims relating to injury or wrongful death under “dram shop” laws that allow a person to sue us based on any injury caused by an intoxicated person who was wrongfully served alcoholic beverages at one of the restaurants; individual and purported class or collective action claims alleging violation of federal and state employment, franchise and other laws; and claims from guests or employees alleging illness, injury or other food quality, health or operational concerns. Our Restaurant Group companies are also subject to compliance with extensive government laws and regulations related to employment practices and policies and the manufacture, preparation, and sale of food and alcohol.

We review lawsuits and other legal and regulatory matters (collectively “legal proceedings”) on an ongoing basis when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, management bases its decision on its assessment of the ultimate outcome assuming all appeals have been exhausted. For legal proceedings in which it has been determined that a loss is both probable and reasonably estimable, a liability based on known facts and which represents our best estimate has been recorded. Our accrual for legal and regulatory matters was \$69 million as of March 31, 2016 and \$75 million as of December 31, 2015. None of the amounts we have currently recorded are considered to be material to our financial condition individually or in the aggregate. Actual losses may materially differ from the amounts recorded and the ultimate outcome of our pending legal proceedings is generally not yet determinable. While some of these matters could be material to our operating results or cash flows for any particular period if an unfavorable outcome results, at present we do not believe that the ultimate resolution of currently pending legal proceedings, either individually or in the aggregate, will have a material adverse effect on our financial condition.

Following a review by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Office of the Comptroller of the Currency and the Office of Thrift Supervision (collectively, the “banking agencies”), Lender Processing Services, Inc. (“LPS”) entered into a consent order (the “Order”) dated April 13, 2011 with the banking agencies. The banking agencies’ review of LPS’s services included the services provided by LPS’s default operations to mortgage servicers regulated by the banking agencies, including document execution services. The Order does not make any findings of fact or conclusions of wrongdoing, nor did LPS admit any fault or liability. Under the Order, LPS agreed to further study the issues identified in the review and to enhance LPS’s compliance, internal audit, risk management and board oversight plans with respect to those businesses. LPS also agreed to engage an independent third party to conduct a risk assessment and review of LPS’s default management businesses and the document execution services it provided to mortgage servicers from January 1, 2008 through December 31, 2010.

The document execution review by the independent third party has been on indefinite hold since June 30, 2013 while the banking agencies consider what, if any, additional review work they would like the independent third party to undertake. Accordingly, the document execution review has taken and will continue to take longer to complete than the Company originally anticipated. In addition, the LPS default operations that were subject to the Order were contributed to ServiceLink in connection with the LPS Acquisition and Reorganization. To the extent such review, once completed, requires additional remediation of mortgage documents or identifies any financial injury from the document execution services LPS provided, ServiceLink (as a result of the contribution of the underlying LPS business) has agreed to implement an appropriate plan to address the issues. The Order contains various deadlines to accomplish the undertakings set forth therein, including the preparation of a remediation plan following the completion of the document execution review. ServiceLink will continue to make periodic reports to the banking agencies on the progress with respect to each of the undertakings in the Order. Although the Order does not include

any fine or other monetary penalty, the banking agencies reserved their right to impose civil monetary penalties at any time. Based on discussions with the banking agencies and actions taken by the banking agencies with respect to other companies, the Company believes the likelihood that the banking agencies will assess a civil monetary penalty is both probable and reasonably estimable, and ServiceLink Holdings, LLC has included an estimate of such loss in its accrual for loss contingencies. The banking agencies notified ServiceLink in December 2015 that they wish to discuss terminating the Order through a possible agreed civil monetary penalty amount in lieu of requiring any additional document execution review by the independent third party. At this time, the parties have not agreed on a possible civil monetary penalty amount. The Company does not believe an adjustment to the amount already accrued in loss contingencies is warranted based upon discussions thus far. The parties have entered into a tolling agreement to allow the parties to engage in these discussions. This matter is subject to a Cross-Indemnity Agreement dated December 22, 2014, between Black Knight Financial Services, LLC and ServiceLink Holdings, LLC.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — continued

On December 16, 2013, LPS received notice that Merion Capital, L.P. and Merion Capital II, L.P. (together "Merion Capital") were asserting their appraisal right relative to their ownership of 5,682,276 shares of LPS stock (the "Appraisal Shares") in connection with the acquisition of LPS by FNF on January 2, 2014. On February 6, 2014, Merion Capital filed an appraisal proceeding, captioned Merion Capital LP and Merion Capital II, LP v. Lender Processing Services, Inc., C.A. No. 9320-VCL, in the Delaware Court of Chancery seeking a judicial determination of the "fair" value of Merion Capital's 5,682,276 shares of LPS common stock under Delaware law, together with statutory interest. We filed an answer to this suit on March 3, 2014. On September 18, 2014, we reached an agreement with Merion Capital to pay the merger consideration to Merion Capital and stop the accrual of additional statutory interest during the pendency of the appraisal proceeding, and FNF paid Merion Capital the merger consideration (cash and stock), which was previously held in escrow for Merion Capital, in respect of the Appraisal Shares, and Black Knight Financial Services, LLC paid interest of \$9 million through the date of payment. Trial is currently scheduled for early May 2016. Merion's expert has opined that the consideration should have been \$50.46 per share, which was approximately 36 percent higher than the final consideration of \$37.14, and therefore, they are owed an additional \$75 million plus statutory interest, which is approximately \$13 million as of March 31, 2016. The Company's position is that the merger consideration paid was fair value, and no additional consideration is owed. Discovery is closed. We will continue to vigorously defend against the appraisal proceedings, and we do not believe the result will have a material adverse effect on our financial condition.

From time to time we receive inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies about various matters relating to our business. Sometimes these take the form of civil investigative demands or subpoenas. We cooperate with all such inquiries and we have responded to or are currently responding to inquiries from multiple governmental agencies. Also, regulators and courts have been dealing with issues arising from foreclosures and related processes and documentation. Various governmental entities are studying the title insurance product, market, pricing, and business practices, and potential regulatory and legislative changes, which may materially affect our business and operations. From time to time, we are assessed fines for violations of regulations or other matters or enter into settlements with such authorities which may require us to pay fines or claims or take other actions.

Operating Leases

Future minimum operating lease payments are as follows (in millions):

2016 (remaining)	\$218
2017	176
2018	144
2019	115
2020	84
Thereafter	243
Total future minimum operating lease payments	\$980

Note F — Dividends

On April 27, 2016, our Board of Directors declared cash dividends of \$0.21 per share, payable on June 30, 2016, to FNF Group common shareholders of record as of June 16, 2016.

Note G — Segment Information

Summarized financial information concerning our reportable segments is shown in the following tables. Prior period segment information has been restated to conform to the current segment presentation.

During the fourth quarter of 2015, we determined that Pacific Union International, Inc. ("Pacific Union"), a luxury real estate broker based in California in which we acquired a controlling stake in December 2014, better aligned with the businesses within our FNF Group Corporate and Other segment. Accordingly, Pacific Union's Total assets of \$49 million, Goodwill of \$24 million, Other revenues of \$22 million, Depreciation and amortization of \$1 million and

Loss from continuing operations of \$1 million as of and for the three months ended March 31, 2015 which were previously included in the Title segment are now included in the FNF Group Corporate and Other segment in the below table.

reconveyances, and home warranty insurance. This segment also includes the transaction services business acquired from LPS, now combined with our ServiceLink business. Transaction services include other title related services used in the production and management of mortgage loans, including mortgage loans that experience default.

Black Knight

This segment consists of the operations of Black Knight, which, through leading software systems and information solutions, provides mission critical technology and data and analytics services that facilitate and automate many of the business processes across the life cycle of a mortgage.

FNF Group Corporate and Other

The FNF Group Corporate and Other segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, and other real estate and insurance related operations.

FNFV

Restaurant Group

This segment consists of the operations of ABRH, in which we have a 55% ownership interest. ABRH and its affiliates are the owners and operators of the O'Charley's, Ninety Nine Restaurants, Village Inn, Bakers Square, and Legendary Baking concepts. As of and for the three months ended March 31, 2015, this segment also included the results of J. Alexander's, Inc. ("J. Alexander's"), which was distributed to FNFV shareholders on September 28, 2015, and the Max & Erma's concept, which was sold pursuant to an Asset Purchase Agreement on January 25, 2016.

FNFV Corporate and Other

This segment primarily consists of our share in the operations of certain equity investments, including Ceridian, as well as consolidated investments, including Digital Insurance, in which we own 96%, and other smaller operations which are not title related.

Note H. Supplemental Cash Flow Information

The following supplemental cash flow information is provided with respect to certain non-cash investing and financing activities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, hopes, intentions or strategies regarding the future. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could vary materially from those forward-looking statements contained herein due to many factors, including, but not limited to: changes in general economic, business and political conditions, including changes in the financial markets; continued weakness or adverse changes in the level of real estate activity, which may be caused by, among other things, high or increasing interest rates, a limited supply of mortgage funding or a weak U.S. economy; our potential inability to find suitable acquisition candidates, acquisitions in lines of business that will not necessarily be limited to our traditional areas of focus, or difficulties in integrating acquisitions; our dependence on distributions from our title insurance underwriters as our main source of cash flow; significant competition that our operating subsidiaries face; compliance with extensive government regulation of our operating subsidiaries and adverse changes in applicable laws or regulations or in their application by regulators; and other risks detailed in the "Statement Regarding Forward-Looking Information," "Risk Factors" and other sections of our Annual Report on Form 10-K (our "Annual Report") for the year ended December 31, 2015 and other filings with the SEC. The following discussion should be read in conjunction with our Annual Report for the year ended December 31, 2015.

Overview

For a description of our business, including descriptions of segments and recent business developments, see the discussion under Basis of Financial Statements in Note A to the Condensed Consolidated Financial Statements included in Item 1 of Part I of this Report, which is incorporated by reference into this Part I, Item 2.

Business Trends and Conditions

Title

Our Title segment revenue is closely related to the level of real estate activity which includes sales, mortgage financing and mortgage refinancing. The levels of real estate activity are primarily affected by the average price of real estate sales, the availability of funds to finance purchases, mortgage interest rates and the strength of the United States economy, including employment levels. Declines in the level of real estate activity or the average price of real estate sales will adversely affect our title insurance revenues.

We have found that residential real estate activity is generally dependent on the following factors:

- mortgage interest rates;
- mortgage funding supply; and
- strength of the United States economy, including employment levels.

From December 2008 through December 2015, the Federal Reserve held the federal funds rate at 0.0%-0.25%. In December 2015, the Federal Reserve raised the target federal funds rate to 0.25%-0.50%. As a result, mortgage interest rates were at historically low levels through the beginning of 2013. During the last half of 2013, however, interest rates rose to their highest level since 2011. Through 2014, mortgage interest rates declined moderately and in the fourth quarter of 2014 dropped below 4.00%. Mortgage interest rates have remained between 3.50% and 4.25% through the quarter ended March 31, 2016.

As of April 18, 2016 the Mortgage Bankers Association ("MBA") estimated the size of the U.S. mortgage originations market as shown in the following table for 2015 - 2018 in their "Mortgage Finance Forecast" (in trillions):

	2018	2017	2016	2015
Purchase transactions	\$ 1.0	\$ 1.0	\$ 1.0	\$ 0.9
Refinance transactions	0.3	0.4	0.6	0.7
Total U.S. mortgage originations forecast	\$ 1.3	\$ 1.4	\$ 1.6	\$ 1.6

The extended period of low interest rates described above resulted in a greater proportion of refinance transactions to overall mortgage originations compared to historical norms. In 2015, the ratio of refinances to total originations increased to nearly 50% in anticipation of increased mortgage rates resulting from projected increases in the target federal funds rate weighed on the market. The MBA predicts the ratio will return to historical norms and the ratio of refinances will decrease through 2018. The MBA also predicts mortgage originations in 2017 through 2018 will decrease slightly compared to the 2015 period with a slight increase in purchase transactions expected to be offset by a decrease in refinance transactions. We expect the predicted change in mix, if it materializes, to have a positive effect on our earnings because purchase transactions involve the issuance of both a lender's policy and an owner's policy, resulting in higher fees, whereas refinance transactions only require a lender's policy, resulting in lower fees.

Table of Contents

Because commercial real estate transactions tend to be driven by supply and demand for commercial space and occupancy rates in a particular area rather than by interest rate fluctuations, we believe that our commercial real estate title insurance business is less dependent on the industry cycles discussed above than our residential real estate title business. Commercial real estate transaction volume is also often linked to the availability of financing. For the past several years, including the year ended December 31, 2015, we have experienced an increase in fee per file of commercial transactions from the previous years. In 2015 and through the quarter ended March 31, 2016, we continued to see the volume and fee per file of commercial transactions trend higher, indicating strong commercial markets.

In addition to state-level regulation, segments of our FNF Group businesses are subject to regulation by federal agencies, including the Consumer Financial Protection Bureau (“CFPB”). The CFPB was established under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (“Dodd-Frank”) which also included regulation over financial services and other lending related businesses including Black Knight. The CFPB has been given broad authority to regulate, among other areas, the mortgage and real estate markets in matters pertaining to consumers. This authority includes the enforcement of the Real Estate Settlement Procedures Act formerly placed with the Department of Housing and Urban Development. On July 9, 2012, the CFPB introduced a number of proposed rules related to the enforcement of the Real Estate Settlement Procedures Act and the Truth in Lending Act, including, among others, measures designed to (i) simplify financing documentation and (ii) require lenders to deliver to consumers a statement of final financing charges (and the related annual percentage rate) at least three business days prior to the closing. These rules became effective on January 10, 2014.

On November 20, 2013, the CFPB issued additional rules regarding mortgage forms and other mortgage related disclosures with the intent to provide “easier-to-use” mortgage disclosure forms for consumers. The additional disclosure rules require participants in the mortgage market, including us, to make significant changes to the manner in which they create, process, and deliver certain disclosures to consumers in connection with mortgage loan applications. The additional disclosures are effective for mortgage loan applications made on or after October 3, 2015. The main provisions of the additional disclosures include amending Regulation Z (the Truth in Lending Act) and Regulation X (Real Estate Settlement Procedures Act) (collectively, the “TILA-RESPA Integrated Disclosure” or “TRID”) to consolidate existing loan disclosures under TILA and RESPA for closed-end credit transactions secured by real property. TRID requires (i) timely delivery of a loan estimate upon receipt of a consumer’s application and (ii) timely delivery of a closing disclosure prior to consummation. TRID also imposes certain restrictions, including the prohibition of imposing fees prior to provision of an estimate and the prohibition of providing estimates prior to a consumer’s submission of verifying documents. These changes could lead to lower mortgage volumes and/or delays in mortgage processing, particularly in the early stages of implementation. We do not believe the changes will have a significant effect on long term mortgage volumes and do not believe this had a material impact on our results from operations for the three months ending March 31, 2016.

Readiness for and compliance with TRID required extensive planning; changes to systems, forms and processes; and heightened coordination among market participants. We believe that FNF, its agents or other market participants have generally been successful in their implementation efforts. It is our experience that mortgage lenders have become increasingly focused on the risk of non-compliance with these evolving regulations and the technologies and solutions that help them to comply with the increased regulatory oversight and burdens. Black Knight has developed solutions that target this need, which has resulted in additional revenue for Black Knight.

Historically, real estate transactions have produced seasonal revenue fluctuations in the real estate industry including title insurers. The first calendar quarter is typically the weakest quarter in terms of revenue due to the generally low volume of home sales during January and February. The third calendar quarter is typically the strongest quarter in terms of revenue, primarily due to a higher volume of home sales in the summer months. The fourth quarter is typically also strong due to the desire of commercial entities to complete transactions by year-end. We have noted short-term fluctuations through recent years in resale and refinance transactions as a result of changes in interest rates and the implementation and subsequent expiration of government programs designed to stimulate the real estate market. In 2015 and 2014, we saw seasonality trends return to historical patterns. During 2015, we experienced a

moderate increase in existing home sales and a decline in total housing inventory. The trend has continued through the three months ended March 31, 2016.

Black Knight

Underlying the mortgage loan life cycle is the technology and data and analytics support behind each process, which has become increasingly critical to industry participants due to the complexity of regulatory requirements. As the industry has grown in complexity, participants have responded by outsourcing to large scale specialty providers, automating manual processes and seeking end-to-end solutions that support the processes required to manage the entire mortgage loan life cycle.

Black Knight's various businesses are impacted differently by the level of mortgage originations, including refinancing transactions. Black Knight's mortgage servicing platform is generally less affected by varying levels of mortgage originations because it earns revenues based on the total number of mortgage loans it processes, which tend to stay more constant than the market for originations. Black Knight's origination technology and some of its data businesses are directly affected by the volume

Table of Contents

of real estate transactions and mortgage originations, but many of its client contracts for origination technology contain minimum charges.

Black Knight's various businesses are also impacted by general economic conditions. For example, in the event that a difficult economy or other factors lead to a decline in levels of home ownership and a reduction in the number of mortgage loans outstanding and Black Knight is not able to counter the impact of those events with increased market share or higher fees, it could have a material adverse effect on our mortgage processing revenues. In contrast, we believe that a weaker economy tends to increase the volume of consumer mortgage defaults, which may increase the revenues in Black Knight's specialty servicing technology business that is used to service residential mortgage loans in default. Moreover, interest rates tend to decline in a weaker economy driving higher than normal refinance transactions that provide potential volume increases to Black Knight's origination technology offerings, most specifically the RealEC Exchange platform.

FNFV

Restaurant Group

The restaurant industry is highly competitive and is often affected by changes in consumer tastes and discretionary spending patterns; changes in general economic conditions; public safety conditions or concerns; demographic trends; weather conditions; the cost of food products, labor, energy and other operating costs; and governmental regulations. The restaurant industry is also characterized by high capital investments for new restaurants and relatively high fixed or semi-variable restaurant operating expenses. Because of the high fixed and semi-variable expenses, changes in sales in existing restaurants are generally expected to significantly affect restaurant profitability because many restaurant costs and expenses are not expected to change at the same rate as sales. Restaurant profitability can also be negatively affected by inflationary and regulatory increases in operating costs and other factors. The most significant commodities that may affect our cost of food and beverage are beef, seafood, poultry, and dairy, which accounted for approximately half of our overall cost of food and beverage in the past. Generally, temporary increases in these costs are not passed on to guests; however, in the past, we have adjusted menu prices to compensate for increased costs of a more permanent nature.

Average weekly sales per restaurant are typically higher in the first and fourth quarters than in other quarters, and we typically generate a disproportionate share of our earnings from operations in the first and fourth quarters. Holidays, severe weather and other disruptive conditions may impact sales volumes seasonally in some operating regions.

Our revenues in future periods will continue to be subject to these and other factors that are beyond our control and, as a result, are likely to fluctuate.

Table of Contents

Net earnings from continuing operations	\$84	\$100

Revenues.

Total revenues decreased by \$13 million in the three months ended March 31, 2016, compared to the corresponding period in 2015. The decrease consisted of a \$136 million increase at FNF Group and a \$149 million decrease at FNFV.

Net earnings from continuing operations decreased by \$16 million in the three months ended March 31, 2016, compared to the corresponding period in 2015. The decrease consisted of a \$2 million decrease at FNF Group and \$14 million decrease at FNFV.

The change in revenue from the FNF Group segments and FNFV segments is discussed in further detail at the segment level below.

Expenses.

Our operating expenses consist primarily of Personnel costs; Other operating expenses, which in our title business are incurred as orders are received and processed and at Black Knight for data processing and program design and development costs; Agent commissions, which are incurred as revenue is recognized; and Cost of restaurant revenue. Title insurance premiums, escrow and title-related fees are generally recognized as income at the time the underlying transaction closes or other service is provided. Direct title operations revenue often lags approximately 45-60 days behind expenses and therefore gross margins may fluctuate. The changes in the market environment, mix of business between direct and agency operations and the contributions from our various business units have historically impacted

margins and net earnings. We have implemented programs and have taken necessary actions to maintain expense levels consistent with revenue streams. However, a short-term lag exists in reducing controllable fixed costs and certain fixed costs are incurred regardless of revenue levels.

Personnel costs include base salaries, commissions, benefits, stock-based compensation and bonuses paid to employees, and are one of our most significant operating expenses. Personnel costs that are directly attributable to the operations of the Restaurant Group are included in Cost of restaurant revenue.

Agent commissions represent the portion of premiums retained by our third-party agents pursuant to the terms of their respective agency contracts.

Other operating expenses consist primarily of facilities expenses, title plant maintenance, premium taxes (which insurance underwriters are required to pay on title premiums in lieu of franchise and other state taxes), appraisal fees and other cost of sales on ServiceLink product offerings and other title related products, postage and courier services, computer services, professional services, travel expenses, general insurance, and bad debt expense on our trade and notes receivable.

Cost of restaurant revenue includes cost of food and beverage, primarily the costs of beef, groceries, produce, seafood, poultry and alcoholic and non-alcoholic beverages, net of vendor discounts and rebates, payroll and related costs and expenses directly relating to restaurant level activities, and restaurant operating costs including occupancy and other operating expenses at the restaurant level.

The Provision for title claim losses includes an estimate of anticipated title and title-related claims, and escrow losses. The change in expenses from the FNF Group segments and FNFV segments is discussed in further detail at the segment level below.

Income tax expense was \$49 million and \$50 million in the three-month periods ended March 31, 2016 and 2015, respectively. Income tax expense as a percentage of earnings before income taxes was 37% and 33% for the three-month periods ended March 31, 2016 and 2015, respectively. Income taxes as a percentage of earnings before income taxes fluctuates depending on our estimate of ultimate income tax liability and changes in the characteristics of net earnings, such as the weighting of operating income versus investment income.

Equity in earnings (losses) of unconsolidated affiliates was \$2 million and \$(1) million for the three-month periods ended March 31, 2016 and 2015, respectively. The equity in earnings (losses) in 2016 and 2015 consisted primarily of net losses related to our investment in Ceridian, offset by earnings at various other unconsolidated affiliates, which is described further at the segment level below.

Table of Contents

FNF Group

Title

The following table presents the results from operations of our Title segment:

	Three months ended March 31,	
	2016	2015
	(In millions)	
Revenues:		
Direct title insurance premiums	\$422	\$417
Agency title insurance premiums	530	441
Escrow, title related and other fees	466	450
Interest and investment income	29	30
Total revenues	1,447	1,338
Expenses:		
Personnel costs	506	480
Agent commissions	402	333
Other operating expenses	331	317
Depreciation and amortization	35	37
Provision for title claim losses	52	51
Total expenses	1,326	1,218
Earnings from continuing operations before income taxes and equity in earnings of unconsolidated affiliates	\$121	\$120
Orders opened by direct title operations (in thousands)	517	578
Orders closed by direct title operations (in thousands)	322	345
Fee per file	\$2,032	\$1,833

Total revenues for the Title segment increased by \$109 million, or 8%, in the three months ended March 31, 2016 from the corresponding period in 2015.

The following table presents the percentages of title insurance premiums generated by our direct and agency operations:

	Three months ended March 31,			
	% of		% of	
	2016	Total	2015	Total
	(Dollars in millions)			
Title premiums from direct operations	\$422	44 %	\$417	49 %
Title premiums from agency operations	530	56	441	51
Total title premiums	\$952	100%	\$858	100%

Title premiums increased by 11% in the three months ended March 31, 2016 as compared to the corresponding period in 2015. The increase comprised of an increase in Title premiums from direct operations of \$5 million, or 1%, and an increase in Title premiums from agency operations of \$89 million, or 20% in the three months ended March 31, 2016.

Table of Contents

The following table presents the percentages of open and closed title insurance orders generated by purchase and refinance transactions by our direct operations:

	Three months ended March 31,	
	2016	2015
Opened title insurance orders from purchase transactions (1)	55.3 %	46.7 %
Opened title insurance orders from refinance transactions (1)	44.7	53.3
	100.0%	100.0%
Closed title insurance orders from purchase transactions (1)	54.6 %	46.5 %
Closed title insurance orders from refinance transactions (1)	45.4	53.5
	100.0%	100.0%

(1) Percentages exclude consideration of an immaterial number of non-purchase and non-refinance orders. Title premiums from direct operations increased in the three months ended March 31, 2016 as compared to the corresponding period in 2015 primarily due to a favorable change in the mix of closed orders from purchase and refinance transactions. A favorable increase in Closed title insurance orders from purchase transactions was largely offset by a decrease in Closed title insurance orders from refinance transactions in the three months ended March 31, 2016 as compared to the corresponding period in 2015. Closed order volumes were 322,000 in the three months ended March 31, 2016 compared with 345,000 in the three months ended March 31, 2015. This represented an overall decrease of 7%. Open title orders decreased consistently with closed orders over the three months ended March 31, 2016 as compared to 2015. The average fee per file in our direct operations was \$2,032 in the three months ended March 31, 2016 compared to \$1,833 in the three months ended March 31, 2015. The increase in average fee per file reflects the aforementioned change in mix of closed orders from purchase and refinance transactions. The fee per file tends to change as the mix of refinance and purchase transactions changes, because purchase transactions involve the issuance of both a lender's policy and an owner's policy, resulting in higher fees, whereas refinance transactions only require a lender's policy, resulting in lower fees.

The increase in title premiums from agency operations is primarily the result of an increase in remitted agency premiums due to strength in agency driven real estate markets, including the Mid-Atlantic and Southern states. Escrow, title related and other fees increased by \$16 million, or 4%, in the three months ended March 31, 2016 from the corresponding period in 2015. Escrow fees, which are more closely related to our direct operations, increased by \$9 million, or 6%, in the three months ended March 31, 2016 compared to the corresponding period in 2015. The increase is representative of the change in the mix of purchase to refinance orders previously discussed. Other fees in the Title segment, excluding escrow fees, increased by \$7 million, or 2%, in the three months ended March 31, 2016 from the corresponding period in 2015. The increase in other fees is consistent with the increase in our direct premiums and is also driven primarily by increased revenue in our home warranty business partially offset by decreases at ServiceLink.

Interest and investment income levels are primarily a function of securities markets, interest rates and the amount of cash available for investment. Interest and investment income decreased by \$1 million in the three months ended March 31, 2016 compared to the corresponding period in 2015. The decrease is attributable to a decrease in bond holdings and yield, offset by increased dividends on equity holdings and interest on short term investments. Personnel costs include base salaries, commissions, benefits, stock-based compensation and bonuses paid to employees, and are one of our most significant operating expenses. There was a \$26 million, or 5% increase in the three-month period ended March 31, 2016 compared to the corresponding period in 2015. The increase is primarily due to higher commissions and bonuses associated with the higher direct title premium revenue and higher headcount associated with the increased direct title revenue in the three months ended March 31, 2016 from the 2015 period as well as due to increased costs associated with the implementation of TRID. Personnel costs as a percentage of total

revenues from direct title premiums and escrow, title-related and other fees were 57% for the three-month period ended March 31, 2016 and 55% for the three-month period ended March 31, 2015. The increase in personnel costs as a percentage of revenue is consistent with the increase in headcount. Average employee count in the Title segment was 20,806 and 19,627 in the three-month periods ended March 31, 2016 and 2015, respectively. Other operating expenses consist primarily of facilities expenses, title plant maintenance, premium taxes (which insurance underwriters are required to pay on title premiums in lieu of franchise and other state taxes), postage and courier services, computer services, professional services, travel expenses, general insurance, and bad debt expense on our trade and notes receivable. Other operating expenses increased by \$14 million, or 4% in the three months ended March 31, 2016 from the corresponding period in

Table of Contents

2015. The increase in other operating expenses is consistent with the increase in revenue and remained consistent as a percentage of total revenue excluding agency premiums, interest and investment income, and realized gains and losses.

Agent commissions represent the portion of premiums retained by agents pursuant to the terms of their respective agency contracts. Agent commissions and the resulting percentage of agent premiums that we retain vary according to regional differences in real estate closing practices and state regulations.

The following table illustrates the relationship of agent premiums and agent commissions, which have remained relatively consistent since 2015:

	Three months ended March 31,			
	2016	%	2015	%
	(Dollars in millions)			
Agent premiums	530	100%	441	100%
Agent commissions	402	76 %	333	76 %
Net retained agent premiums	\$128	24 %	\$108	24 %

Depreciation and amortization decreased by \$2 million in the three months ended March 31, 2016 compared to the corresponding period in 2015.

The provision for title claim losses includes an estimate of anticipated title and title-related claims and escrow losses. The estimate of anticipated title and title-related claims is accrued as a percentage of title premium revenue based on our historical loss experience and other relevant factors. Any significant adjustments to strengthen or release loss reserves resulting from the comparison with our actuarial analysis are made in addition to this loss provision rate. After considering historical claim losses, reporting patterns and current market information, and analyzing quantitative and qualitative data provided by our legal, claims and underwriting departments, we determine a loss provision rate, which is recorded as a percentage of current title premiums. This loss provision rate is set to provide for losses on current year policies, but due to development of prior years and our long claim duration, it periodically includes amounts of estimated adverse or positive development on prior years' policies. Effective July 1, 2015, we revised our loss provision rate to 5.5% from 6% primarily due to favorable development on more recent policy year claims.

The claim loss provision for title insurance was \$52 million and \$51 million for the three-month periods ended March 31, 2016 and 2015, respectively, and reflects an average provision rate of 5.5% and 6% of title premiums, respectively. We continually monitor and evaluate our loss provision level, actual claims paid, and the loss reserve position each quarter.

Black Knight

The results of the FNF Group segment reflected in the three months ended March 31, 2016 and 2015 include the results of Black Knight and subsidiaries. The following table presents the results from operations of Black Knight:

	Three months ended March 31, 2016 2015 (In millions)	
Revenues:		
Escrow, title related and other fees	\$242	\$227
Total revenues	242	227
Expenses:		
Personnel costs	96	97
Other operating expenses	41	37

Edgar Filing: Fidelity National Financial, Inc. - Form 10-Q

Depreciation and amortization	48	45
Interest expense	16	8
Total expenses	201	187
Earnings from continuing operations before income taxes	\$41	\$40

The results of the Black Knight segment were positively affected by a \$15 million increase in total revenues in the three-month period ended March 31, 2016 compared to the corresponding period in 2015. The increase in revenue was primarily driven by loan growth on Black Knight's Mortgage Servicing Platform, standard price increases, the implementation of new clients and the successful negotiation of a client contract buyout, offset by a decrease related to lower upfront revenues associated with data licensing deals.

Table of Contents

Interest expense increased by \$8 million, or 100%, in the three month period ended March 31, 2016 compared to the corresponding period in 2015. The increase is attributable to new third party debt issued subsequent to Black Knight's initial public offering in May 2015, offset slightly by decreased interest on its outstanding public debt resulting from paydowns of principal subsequent to the first quarter of 2015.

Earnings from continuing operations before income taxes increased by \$1 million in the three months ended March 31, 2016 compared to the corresponding period in 2015. The increase is primarily attributable to the increased revenue, offset by increased interest expense, discussed above, as well as increased other operating expenses related to bonus accruals, public company costs and increased amortization related to deferred contract costs.

FNF Group Corporate and Other

The FNF Group Corporate and Other segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, and other smaller real estate and insurance related operations.

The FNF Group Corporate and Other segment generated revenues of \$30 million and \$18 million for the three months ended March 31, 2016 and 2015, respectively. The revenue in all periods represents revenue generated by our other small real estate brokerage subsidiaries offset by the elimination of revenues between our Black Knight segment and our Title segment. The increase of \$12 million, or 67%, was primarily attributable to revenue growth and acquisitions by Pacific Union.

Other operating expenses in the FNF Group Corporate and Other segment were \$33 million and \$18 million for the three months ended March 31, 2016 and 2015, respectively. Both periods reflect expenses at our other small real estate brokerage subsidiaries offset by the elimination of management fees and other intercompany fees between our Black Knight segment and our Title segment. The increase of \$15 million, or 83%, is primarily attributable to the growth of Pacific Union.

Interest expense was \$15 million and \$21 million for the three months ended March 31, 2016 and 2015, respectively. The decrease is attributable to the repayment of the \$1.1 billion FNF term loan in the second quarter of 2015.

This segment generated pretax losses of \$32 million and \$30 million for the three months ended March 31, 2016 and 2015, respectively. The increased loss was primarily attributable to realized losses in the 2016 period related to investment impairments and increased personnel costs offset by the aforementioned decrease in interest expense.

Restaurant Group

The following table presents the results from operations of our Restaurant Group segment:

	Three months ended March 31, 2016 2015 (In millions)	
Revenues:		
Total restaurant revenue	\$293	\$364
Realized gains and losses, net	(3)	—
Total revenues	290	364
Expenses:		
Personnel costs	13	17
Cost of restaurant revenue	245	306
Other operating expenses	21	16
Depreciation and amortization	10	13
Interest expense	1	2
Total expenses	290	354
Earnings from continuing operations before income taxes	\$—	\$10

Total revenues for the Restaurant group segment decreased \$74 million, or 20%, in the three months ended March 31, 2016, from the corresponding period in 2015. The decrease was primarily attributable to the spin-off of J. Alexander's

in September 2015. Cost of restaurant revenue decreased by \$61 million, or 20%, which was consistent with the change in revenue.

Earnings from continuing operations before income taxes decreased by \$10 million in the three months ended March 31, 2016, from the corresponding period in 2015. The decrease is attributable to increased Other operating expenses and earnings from J. Alexander's which are not included in the current quarter.

Table of Contents

FNFV Corporate and Other

The FNFV Corporate and Other segment includes our share in the operations of certain equity investments, including Ceridian, Digital Insurance, and other smaller operations which are not title related. This segment also includes our Investment Success Incentive Program ("ISIP") which is tied to monetization or liquidity events producing realized or realizable economic gains relating to our investments.

The FNFV Corporate and Other segment generated revenues of \$39 million and \$114 million for the three months ended March 31, 2016 and 2015, respectively. The decrease of \$75 million, or 66%, is primarily attributable to the sale of Cascade Timberlands in the 2015 period, offset by increased revenue resulting from acquisitions at Digital Insurance.

Other operating expenses were \$6 million and \$78 million for the three months ended March 31, 2016 and 2015, respectively. The decrease of \$72 million is primarily attributable to the sale of Cascade Timberlands in the 2015 period.

Personnel costs were \$25 million and \$21 million for the three months ended March 31, 2016 and 2015, respectively. The change is primarily attributable to acquisitions at Digital Insurance.

This segment generated pretax income of \$1 million and \$11 million for the three months ended March 31, 2016 and 2015, respectively. The decrease is primarily attributable to the aforementioned changes in revenues and expenses.

Liquidity and Capital Resources

Cash Requirements. Our current cash requirements include personnel costs, operating expenses, claim payments, taxes, payments of interest and principal on our debt, capital expenditures, business acquisitions, stock repurchases and dividends on our common stock. We paid dividends of \$0.21 per share for the first quarter of 2016, or approximately \$58 million to our FNF Group common shareholders. On April 27, 2016, our Board of Directors declared cash dividends of \$0.21 per share, payable on June 30, 2016, to FNF Group common shareholders of record as of June 16, 2016. There are no restrictions on our retained earnings regarding our ability to pay dividends to our shareholders, although there are limits on the ability of certain subsidiaries to pay dividends to us, as described below. The declaration of any future dividends is at the discretion of our Board of Directors. Additional uses of cash flow are expected to include acquisitions, stock repurchases and debt repayments.

We continually assess our capital allocation strategy, including decisions relating to the amount of our dividend, reducing debt, repurchasing our stock, making acquisitions and/or conserving cash. We believe that all anticipated cash requirements for current operations will be met from internally generated funds, through cash dividends from subsidiaries, cash generated by investment securities, potential sales of non-strategic assets and borrowings on existing credit facilities. Our short-term and long-term liquidity requirements are monitored regularly to ensure that we can meet our cash requirements. We forecast the needs of all of our subsidiaries and periodically review their short-term and long-term projected sources and uses of funds, as well as the asset, liability, investment and cash flow assumptions underlying such forecasts.

Our insurance subsidiaries generate cash from premiums earned and their respective investment portfolios, and these funds are adequate to satisfy the payments of claims and other liabilities. Due to the magnitude of our investment portfolio in relation to our title claim loss reserves, we do not specifically match durations of our investments to the cash outflows required to pay claims, but do manage outflows on a shorter time frame.

Our two significant sources of internally generated funds are dividends and other payments from our subsidiaries. As a holding company, we receive cash from our subsidiaries in the form of dividends and as reimbursement for operating and other administrative expenses we incur. The reimbursements are paid within the guidelines of management agreements among us and our subsidiaries. Our insurance subsidiaries are restricted by state regulation in their ability to pay dividends and make distributions. Each applicable state of domicile regulates the extent to which our title underwriters can pay dividends or make other distributions. As of December 31, 2015, \$2,049 million of our net assets were restricted from dividend payments without prior approval from the relevant departments of insurance. As of March 31, 2016, our title subsidiaries can pay or make ordinary distributions to us of approximately \$329 million, in the aggregate. Our underwritten title companies and non-insurance subsidiaries collect revenue and pay

operating expenses. However, they are not regulated to the same extent as our insurance subsidiaries. The maximum dividend permitted by law is not necessarily indicative of an insurer's actual ability to pay dividends, which may be constrained by business and regulatory considerations, such as the impact of dividends on surplus, which could affect an insurer's ratings or competitive position, the amount of premiums that can be written and the ability to pay future dividends. Further, depending on business and regulatory conditions, we may in the future need to retain cash in our underwriters or even contribute cash to one or more of them in order to maintain their ratings or their statutory capital position. Such a requirement could be the result of investment losses, reserve charges, adverse operating conditions in the current economic environment or changes in statutory accounting requirements by regulators.

Table of Contents

Cash flow from FNF Group's operations will be used for general corporate purposes including to reinvest in core operations, repay debt, pay dividends, repurchase stock, pursue other strategic initiatives and/or conserve cash. Our cash flows provided by operations for the three months ended March 31, 2016 and 2015 totaled \$92 million and \$41 million, respectively. The increase of \$51 million is primarily due to a reduction in title claims paid and timing of cash receipts and payments.

Capital Expenditures. Total capital expenditures for property and equipment and capitalized software were \$50 million and \$43 million for the three-month periods ended March 31, 2016 and 2015, respectively, with the increase primarily related to property, plant and equipment additions in our title and restaurant segments.

Financing. For a description of our financing arrangements see Note D included in Item 1 of Part 1 of this Quarterly Report, which is incorporated by reference into this Item 2 of Part I.

Seasonality. Historically, real estate transactions have produced seasonal revenue fluctuations in the real estate industry including title insurers. The first calendar quarter is typically the weakest quarter in terms of revenue due to the generally low volume of home sales during January and February. The third calendar quarter is typically the strongest quarter in terms of revenue primarily due to a higher volume of home sales in the summer months. The fourth quarter is typically also strong due to the desire of commercial entities to complete transactions by year-end. We have noted short-term fluctuations through recent years in resale and refinance transactions as a result of changes in interest rates and the implementation and subsequent expiration of government programs designed to stimulate the real estate market. In 2015 and 2014, we saw seasonality trends return to historical patterns. During 2015, we experienced a moderate increase in existing home sales and a decline in total housing inventory.

In our Restaurant Group segment, average weekly sales per restaurant are typically higher in the first and fourth quarters. Accordingly, we typically generate a disproportionate share of our earnings from operations in those quarters. Holidays, severe weather and other disruptive conditions may impact sales volumes seasonally in some operating regions.

Contractual Obligations. There have been no significant changes to our long term contractual obligations since our Annual Report for the year ended December 31, 2015, filed on February 23, 2016, other than as described below. On March 16, 2016, pursuant to the terms of a certain "synthetic lease" agreement, dated as of June 29, 2004, as amended on June 27, 2011, as further described under Off-Balance Sheet Arrangements in Item 2 of Part II of this Quarterly Report, we notified SunTrust Bank of our intention to exercise our option to purchase the land and various real property improvements associated with our corporate campus and headquarters in Jacksonville, Florida for \$71 million. We completed the purchase on April 29, 2016. With the purchase, the lease previously associated with the property was terminated.

On January 20, 2016, Black Knight entered into two interest rate swap agreements to hedge forecasted monthly interest rate payments on a total of \$400 million of floating rate debt (\$200 million notional value each) (the "Swap Agreements"). The Swap Agreements have been designated as cash flow hedging instruments. Under the terms of the Swap Agreements, Black Knight receives payments based on the 1-month LIBOR rate and pays a weighted average fixed rate of 1.01%. The effective term for the Swap Agreements is February 1, 2016 through January 31, 2019. See Note D to the Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report for further discussion on our notes payable.

Capital Stock Transactions. On October 28, 2014, our Board of Directors approved a three-year stock purchase program, effective November 6, 2014, under which we could repurchase up to 10 million shares of our FNFV Group common stock through November 30, 2017. We exhausted all available repurchases under this program during February 2016. On February 18, 2016, our Board of Directors approved a new FNFV Group three-year stock repurchase program, effective March 1, 2016, under which we may repurchase up to 15 million shares of FNFV Group common stock. Purchases may be made from time to time by us in the open market at prevailing market prices or in privately negotiated transactions through February 28, 2019. We repurchased 3,201,518 shares under these programs during the three months ended March 31, 2016 for approximately \$33 million, or an average of \$10.31 per share. Subsequent to March 31, 2016 through market close on April 27, 2016, we purchased 250,000 additional shares for approximately \$3 million, or an average of \$10.56 per share. Since the original commencement of the program

effective March 1, 2016 through market close on April 27, 2016, we have repurchased a total of 1,755,000 shares for \$19 million, or an average of \$10.76 per share, and there are 13,245,000 shares available to be repurchased under this program.

On July 20, 2015, our Board of Directors approved a new three-year stock repurchase program under which we can purchase up to 25 million of our FNF Group common stock through July 30, 2018. We may make repurchases from time to time in the open market, in block purchases or in privately negotiated transactions, depending on market conditions and other factors. We repurchased 1,900,000 shares of FNF Group common stock during the three months ended March 31, 2016 for approximately \$62 million, or an average of \$32.71 per share. Subsequent to March 31, 2016 through market close on April 27, 2016, we purchased 250,000 additional shares for \$8 million, or an average of \$33.58 per share. Since the original commencement of this program through

Table of Contents

market close on April 27, 2016, we have repurchased a total of 6,725,000 shares of FNF Group common stock for \$236 million, or an average of \$35.13 per share, and there are 18,275,000 shares available to be repurchased under the program.

Equity Security and Preferred Stock Investments. Our equity security and preferred stock investments may be subject to significant volatility. Should the fair value of these investments fall below our cost basis and/or the financial condition or prospects of these companies deteriorate, we may determine in a future period that this decline in fair value is other-than-temporary, requiring that an impairment loss be recognized in the period such a determination is made.

Off-Balance Sheet Arrangements. We do not engage in off-balance sheet activities other than facility and equipment leasing arrangements. On June 29, 2004 we entered into an off-balance sheet financing arrangement (commonly referred to as a “synthetic lease”). The owner/lessor in this arrangement acquired land and various real property improvements associated with new construction of an office building in Jacksonville, Florida, at our corporate campus and headquarters. The lessor financed the acquisition of the facilities through funding provided by third-party financial institutions. On June 27, 2011, we renewed and amended the synthetic lease for the facilities. The amended synthetic lease provides for a five year term ending June 27, 2016 and had an outstanding balance as of March 31, 2016 of \$71 million. The amended lease includes guarantees by us of up to 83% of the outstanding lease balance, and options to purchase the facilities at the outstanding lease balance. The guarantee becomes effective if we decline to purchase the facilities or renew the lease at the end of its term. On March 15, 2016, we notified the lessor of our intention to exercise our option to purchase the property on April 29, 2016. The lessor is a third-party company and we have no affiliation or relationship with the lessor or any of its employees, directors or affiliates, and transactions with the lessor are limited to the operating lease agreements and the associated rent expense that have been included in other operating expenses in the Condensed Consolidated Statements of Earnings. We do not believe the lessor is a variable interest entity, as defined in the FASB standard on consolidation of variable interest entities. We completed the purchase on April 29, 2016. With the purchase, the lease previously associated with the property was terminated.

Critical Accounting Policies

There have been no material changes to our critical accounting policies described in our Annual Report for our fiscal year ended December 31, 2015.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

There have been no material changes in the market risks described in our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 4. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is: (a) recorded, processed, summarized and reported, within the time periods specified in the Commission’s rules and forms; and (b) accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Sales of
Equity
Securities
and Use of
Proceeds

The following table summarizes repurchases of equity securities by FNF during the three months ended March 31, 2016:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)
1/1/2016 - 1/31/2016	250,000	\$ 33.56	250,000	20,175,000
2/1/2016 - 2/29/2016	550,000	32.86	550,000	19,625,000
3/1/2016 - 3/31/2016	1,100,000	32.43	1,100,000	18,525,000
Total	1,900,000	\$ 32.71	1,900,000	

(1) On July 20, 2015, our Board of Directors approved a three-year stock repurchase program. Under the stock repurchase program, we may repurchase up to 25 million shares of our common stock through July 30, 2018.

(2) As of the last day of the applicable month.

The following table summarizes repurchases of equity securities by FNFV during the three months ended March 31, 2016:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)
1/1/2016 - 1/31/2016	375,000	\$ 10.52	375,000	1,321,518

Edgar Filing: Fidelity National Financial, Inc. - Form 10-Q

2/1/2016 - 2/29/2016	1,321,518	9.70	1,321,518	15,000,000
3/1/2016 - 3/31/2016	1,505,000	10.79	1,505,000	13,495,000
Total	3,201,518	\$ 10.31	3,201,518	

On October 28, 2014, our Board of Directors approved a three-year stock purchase program, effective November 6, 2014, under which we could repurchase up to 10 million shares of our FNFV Group common stock through (1) November 30, 2017. We exhausted all available repurchases under this program during February 2016. On February 18, 2016, our Board of Directors approved a new FNFV Group three-year stock repurchase program, effective March 1, 2016, under which we may repurchase up to 15 million shares of FNFV Group common stock. (2) As of the last day of the applicable month.
