We urge you to carefully review and consider the various disclosures made by us in this prospectus supplement, including the documents incorporated by reference herein.

This prospectus supplement contains certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, among other things, the operating performance of our investments and financing needs. Forward-looking statements are generally identifiable by use of forward-looking terminology such as "may," "will," "should," "potential," "intend," "expect," "endeavor," "seek," "anticipate," "estimate," "overestimate," "underestimate," "believe," "could," "project," "predict," "continue" or other similar words or expressions. Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain projections of results of operations or of financial condition or state other forward-looking information. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. These forward-looking statements involve risks, uncertainties and other factors that may cause our actual results in future periods to differ materially from forecasted results. Factors that could have a material adverse effect on our operations and future prospects include, but are not limited to:

- changes in economic conditions generally and the real estate market specifically;
- adverse changes in the financing markets we access affecting our ability to finance our loan and investment portfolio;
 - changes in interest rates;
- the quality and size of the investment pipeline and the rate at which we can invest our cash;
- impairments in the value of the collateral underlying our loans and investments;
 - changes in the markets;
 - completion of pending investments;
 - the availability and cost of capital for future investments;
 - competition within the finance and real estate industries;
 - defaults on our investments;
- our ability to maintain our qualification as a REIT for federal income tax purposes and limitations imposed on our business by our status as a REIT;
- legislative and regulatory changes (including changes to laws governing REITs or applicable exemptions under the Investment Company Act of 1940); and
 - other risks detailed in our Annual Report on Form 10-K for the year ended December 31, 2011.

Readers are cautioned not to place undue reliance on any of these forward-looking statements, which reflect our management's views as of the date of the report containing such statements incorporated herein or as of the date of this prospectus supplement with respect to statements that are expressly stated herein. The factors noted above could cause our actual results to differ significantly from those contained in any forward-looking statement. We are under no duty to update any of the forward-looking statements after the date of this prospectus supplement to conform these statements to actual results.

PROSPECTUS SUMMARY

This summary description of us, our manager and our business highlights selected information about us and our manager contained elsewhere in this prospectus supplement or the accompanying prospectus or the documents incorporated by reference herein or therein. This summary does not contain all of the information about us that you should consider before buying shares of our common stock. You should carefully read this entire prospectus supplement and the accompanying prospectus, including each of the documents incorporated herein and therein by reference, before making an investment decision.

Our Company

We are a specialized real estate finance company that invests in a diversified portfolio of structured finance assets in the multi-family and commercial real estate markets. We invest primarily in real estate-related bridge and mezzanine loans, including junior participating interests in first mortgages, preferred, and direct equity and in limited cases, discounted mortgage notes and other real estate-related assets, which we refer to collectively as structured finance investments. We also hold investments in mortgage-related securities and real property. Our principal business objective is to maximize the difference between the yield on our investments and the cost of financing these investments to generate cash available for distribution, facilitate capital appreciation and maximize total return to our stockholders.

We are organized to qualify as a REIT for federal income tax purposes. A REIT is generally not subject to federal income tax on that portion of its REIT taxable income ("Taxable Income") that is distributed to its stockholders, provided that at least 90% of Taxable Income is distributed and certain other REIT qualification requirements are met. Certain of our assets that produce non-qualifying income are held in taxable REIT subsidiaries. Unlike other subsidiaries of a REIT, the income of a taxable REIT subsidiary is subject to federal and state income taxes.

We conduct substantially all of our operations and investing activities through our operating partnership, Arbor Realty Limited Partnership, and its subsidiaries, including Arbor Realty SR, Inc., a subsidiary REIT. We serve as the general partner of our operating partnership, and currently own 100% of its partnership interests.

We are externally managed and advised by Arbor Commercial Mortgage, LLC, a national commercial real estate finance company that specializes in debt and equity financing for multi-family and commercial real estate, pursuant to the terms of a management agreement.

We are a Maryland corporation formed in June 2003. Our principal executive offices are located at 333 Earle Ovington Boulevard, Suite 900, Uniondale, New York 11553. Our telephone number is (516) 506-4200. Our website is located at www.arborrealtytrust.com. The information contained on our website is not a part of this prospectus.

Risk Factors Investing in our common stock involves risks. See "Risk Factors" beginning on page 17 of our annual report on Form 10-K for the year ended December 31, 2011 and on page S-3 of this prospectus supplement.

(1) Assumes no exercise of the underwriter's option to purchase an additional shares of our common stock solely to cover over-allotments, if any. Does not include unexercised warrants to purchase 1,000,000 shares of our common stock at a weighted average exercise price of \$4.00 per share and 815,588 shares available for future issuance under our 2003 Stock Incentive Plan, as amended.

Risk Factors

Investment in our securities involves a high degree of risk. You should carefully consider the specific risks described below and under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 which is incorporated by reference herein as well as the other information contained or incorporated by reference into this prospectus, before making an investment decision. Each of the risks described could materially adversely affect our business, financial condition, results of operations and prospects, and could result in a complete loss of your investment. For more information, see "Where You Can Find More Information" and "Incorporation of Certain Documents By Reference." In connection with the forward-looking statements that appear in this prospectus supplement, you should also carefully review the cautionary statements in the section of this prospectus supplement entitled "Cautionary Statement Regarding Forward-Looking Statements."

Risks Relating to Our Common Stock and this Offering

The price of our common stock may fluctuate and you could lose all or a significant part of your investment.

Volatility in the market price of our common stock may prevent you from being able to sell your shares at or above the price you paid. The market price of our common stock may also be influenced by many factors, some of which are beyond our control, including:

- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments;
- variations in quarterly operating results;
- general economic conditions;
- war, terrorist acts and epidemic disease;
- future sales of our common stock or securities linked to our common stock;
- investor perceptions of us and the commercial real estate industry; and
- the failure of securities analysts to cover our common stock, or to the extent covered, changes in financial estimates by analysts or a downgrade of our stock or sector by analysts.

In addition, the stock market in general has experienced extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies like us. These broad market and industry factors may materially reduce the market price of our common stock, regardless of our operating performance.

Future sales of common stock by our existing stockholders may cause our stock price to fall.

The market price of our common stock could decline as a result of sales by our existing and future stockholders, or the perception that such sales could occur, which might also make it more difficult for us to sell equity securities at a time and price that we deem appropriate.

Our share price could decline as a result of this offering or if a large number of shares of our common stock or equity-related securities are sold in the future.

This offering will reduce the net book value per share of our common stock and may reduce the market price of our common stock. Sales of a substantial number of shares of our common stock could depress the market price of our common stock and impair our ability to raise capital through the sale of additional equity securities. This offering and any such future sales or issuances could dilute the ownership interests of stockholders, and we cannot predict the effect that this offering or future sales or issuances of our common stock or other equity-related securities would have on the market price of our common stock nor can we predict our future needs to fund our operations or balance sheet with future equity issuances.

Because we have broad discretion in how we use the proceeds from this offering, we may use the proceeds in ways in which you disagree.

We intend to use the net proceeds to make investments, to repurchase or pay liabilities and for general corporate purposes, including the repayment of indebtedness under our revolving credit agreement. See "Use of Proceeds." We have not allocated specific amounts of the net proceeds from this offering for any specific purpose. Accordingly, our management will have significant flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for us. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

Use of Proceeds

We estimate that the net proceeds we will receive from this offering will be approximately \$million (or \$ million in the event the underwriter exercises its option to purchase additional shares of common stock in full), in each case, after deducting the underwriting discount and estimated offering expenses payable by us. We expect to use the net proceeds to make investments relating to our business, to repurchase or pay liabilities and for general corporate purposes, including the repayment of indebtedness under our revolving credit agreement. On May 9, 2012, we entered into a \$15,000,000 revolving credit facility with a one year term. Borrowings under the facility bear interest at a rate of 8.00% per annum. We had outstanding borrowings under this facility of \$10,000,000 as of June 6, 2012.

Additional Federal Income Tax Considerations

The following discussion supplements the summary of material federal income tax considerations as contained in the accompanying prospectus. For purposes of this section under the heading “Additional Federal Income Tax Considerations,” references to “Arbor Realty,” “we,” “our” and “us” mean only Arbor Realty Trust, Inc. and not its subsidiaries or other lower-tier entities, except as otherwise required by the context. However, our indirect subsidiary, Arbor Realty SR, Inc. (“SR Inc.”), like Arbor Realty, has also elected to be taxed as a REIT. To the extent that the discussion below relates to the tax requirements for, and consequences of, qualifying as a REIT, it also applies to SR Inc.’s election to be taxed as a REIT.

In connection with this offering of our common stock, we expect to receive an opinion of the law firm of Skadden, Arps, Slate, Meagher & Flom LLP to the effect that, commencing with Arbor Realty’s initial taxable year ended December 31, 2003, Arbor Realty was organized in conformity with the requirements for qualification as a REIT under the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), and its actual method of operation through the date hereof has enabled, and its proposed method of operation will enable, it to meet the requirements for qualification and taxation as a REIT. It must be emphasized that an opinion of counsel is expressed as of the date given, is based on various assumptions relating to the organization and operation of Arbor Realty and its affiliates, and is conditioned upon representations and covenants made by the management of Arbor Realty and affiliated entities regarding their organization, assets and the past, present and future conduct of their business operations. Qualification and taxation as a REIT depends on our ability to meet, on a continuing basis, through actual operating results, distribution levels, and diversity of stock ownership, various qualification requirements imposed upon REITs by the Internal Revenue Code and the Treasury regulations issued thereunder, including requirements relating to the nature and composition of our assets and income. Our ability to comply with the REIT asset requirements also depends, in part, upon the fair market values of assets that we own directly or indirectly. Such values may not be susceptible to a precise determination.

Expiration of Reduced Tax Rates

Reduced rates of tax applicable to capital gain income, the top marginal rate for which is currently as low as 15%, are scheduled to expire for taxable years beginning after December 31, 2012 (at which point the top marginal rate on such income would generally be 20%). It is presently unclear whether the current rates will be extended, or whether the tax treatment of capital gains will otherwise be altered through the legislative process.

Withholding Rules Pursuant to the Foreign Account Tax Compliance Act

After December 31, 2013, withholding at a rate of 30% will be required on dividends in respect of, and after December 31, 2014, withholding at a rate of 30% will be required on gross proceeds from the sale of, shares of common stock held by or through certain foreign financial institutions (including investment funds), unless such institution enters into an agreement with the Secretary of the Treasury to report, on an annual basis, information with respect to shares in, and accounts maintained by, the institution to the extent such shares or accounts are held by certain U.S. persons or by certain non-U.S. entities that are wholly or partially owned by U.S. persons. Accordingly, the entity through which our shares are held will affect the determination of whether such withholding is required. Similarly, after December 31, 2013, dividends in respect of, and after December 31, 2014, gross proceeds from the sale of, our shares held by an investor that is a non-financial non-U.S. entity will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us that such entity does not have any “substantial U.S. owners” or (ii) provides certain information regarding the entity’s “substantial U.S. owners,” which we will in turn provide to the Secretary of the Treasury. U.S. stockholders intending to hold our common stock through foreign financial institutions and non-U.S. stockholders are encouraged to consult with their tax advisers regarding the possible implications of these rules on their investment in our common stock.

S-6

Treatment of Loan Modifications and Distressed Debt by REITs

The Internal Revenue Service (“IRS”) recently issued Revenue Procedure 2011-16, which contains provisions that are relevant where a REIT holds a mortgage loan which is modified in a transaction that is treated as the issuance of a new loan. In general, a modified loan will not be treated as less than fully secured by real property, and therefore will not give rise to interest income that does not qualify for purposes of the 75% gross income test or cause a portion of the loan to be a non-qualifying asset for purposes of the 75% asset test applicable to REITs, provided that the value of the real estate collateral was at least as great as the amount of the loan at the time it was originally acquired by the REIT and the modification was occasioned by default or we reasonably believed at the time of the modification that there was a significant risk of default and the modified loan presented a substantially reduced risk of default. Moreover, for purposes of the REIT asset tests, a loan, whether or not it is modified, will generally not be treated as less than fully secured by real property provided that the value of the real estate collateral is at least as great as the value of the loan at the time that it is originally acquired by the REIT.

Distributions in Stock or Cash

Prior temporary guidance by the IRS, as summarized in the accompanying prospectus, permitted publicly traded REITs to pay dividends in either stock or cash, at the election of stockholders, with the aggregate amount of cash capped at not less than 10% of the total distribution, and with the distribution eligible for the deduction for dividends paid. This temporary guidance generally does not apply to any dividends paid in 2012 and future taxable years. Accordingly, it is unclear whether and to what extent we will be able to pay taxable dividends payable in cash and stock in 2012 and later years. The accompanying prospectus also describes a contractual obligation by us to pay any dividends in stock to the maximum permitted under the tax rules governing REITs. This contractual obligation has also terminated, and our board of directors recently declared a dividend payable in cash. We have no current intention to make a taxable dividend payable in our stock.

Income Tests

As described in the accompanying prospectus, in order to maintain our qualification as a REIT, we must satisfy the 75% and 95% gross income requirements each year. In 2009 and 2010, Arbor Realty did not report any gross income because SR Inc. did not pay any dividends on its common stock. Although there are no authorities addressing this situation, we do not believe that Arbor Realty's lack of gross income will adversely affect its qualification as a REIT for federal income tax purposes. No assurance can be given, however, that the IRS will not assert a contrary position. For a discussion of the consequences of Arbor Realty failing to qualify as a REIT, see “Federal Income Tax Considerations – Taxation of Arbor Realty” in the accompanying prospectus.

SR Inc.’s Ability to Offset Deferred Cancellation of Indebtedness Income with Net Operating Loss Carryforwards

SR Inc. has elected to defer the recognition of approximately \$306 million of cancellation of indebtedness (“COD”) income under section 108(i) of the Internal Revenue Code. The deferred COD income will be recognized ratably over the 2014 through 2018 taxable years. SR Inc. has also generated approximately \$179 million of net operating loss (“NOL”) carryforwards that may be available to offset the deferred COD income. However, SR Inc.'s ability to utilize NOL carryforwards to offset deferred COD or other income will be significantly limited in the event that SR Inc. undergoes, or has undergone, an "ownership change" within the meaning of Section 382 of the Internal Revenue Code. In general, an "ownership change" occurs with respect to a corporation if 5% shareholders increase their aggregate ownership interest in the corporation by more than 50 percentage points within a prescribed testing period (generally three years). We do not believe that SR Inc. has experienced an "ownership change" to date, and we believe that the 5% ownership limit applicable to the stock of Arbor Realty reduces the likelihood

S-7

that SR Inc. will experience an "ownership change" in the future. However, no assurance can be provided that SR Inc. will not experience an ownership change. In that event, SR Inc. would be limited in its ability to offset its deferred COD income with its NOL carryforwards, which could result in SR Inc. or Arbor Realty not having sufficient cash from operations to satisfy the 90% distribution requirement, or paying corporate-level tax with respect to some or all of the COD income in lieu of paying a deductible dividend.

UNDERWRITING

Subject to the terms and conditions of the underwriting agreement, Deutsche Bank Securities Inc. will agree to purchase from us 3,500,000 shares of common stock at a public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus supplement.

The underwriting agreement provides that the obligation of the underwriter to purchase the shares offered hereby is subject to certain conditions precedent and that the underwriter will purchase all of the shares offered by this prospectus supplement, other than those covered by the option to purchase additional shares described below, if any of these shares are purchased.

We have been advised by the underwriter that the underwriter proposes to offer the shares of common stock to the public at the public offering price set forth on the cover of this prospectus supplement and to dealers at a price that represents a concession not in excess of \$ per share under the public offering price. The underwriter may allow, and these dealers may re-allow, a concession of not more than \$ per share to other dealers. After the public offering, the underwriter may change the offering price and other selling terms.

We will grant to the underwriter an option to purchase, exercisable not later than 30 days after the date of this prospectus supplement, up to 525,000 additional shares of common stock at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus. We will be obligated, pursuant to the option, to sell these additional shares of common stock to the underwriter to the extent the option is exercised. If any additional shares are purchased, the underwriter will offer the additional shares on the same terms as those on which the 3,500,000 shares are being offered.

The underwriting discounts and commissions per share are equal to the public offering price per share of common stock less the amount paid by the underwriter to us per share of common stock. The underwriting discounts and commissions are % of the public offering price. We have agreed to pay the underwriter the following discounts and commissions, assuming either no exercise or full exercise by the underwriter of the underwriter's option described above:

	Fee per share	Total Fees	
		Without Exercise of Over-Allotment Option	With Full Exercise of Over-Allotment Option
Discounts and commissions paid by us	\$	\$	\$

In addition, we estimate that the total expenses of this offering, excluding underwriting discounts and commissions, will be approximately \$.

We have agreed to indemnify the underwriter against some specified types of liabilities, including liabilities under the Securities Act, to contribute to payments the underwriter may be required to make in respect of any of these liabilities and to reimburse the underwriter for certain expenses.

We have agreed that, for a period of 60 days from the date of this prospectus supplement, we will not, without the prior written consent of Deutsche Bank Securities Inc., offer, sell, contract to sell, pledge or otherwise dispose of (or enter into any transaction which is designed to or might reasonably be expected to result in the disposition of), directly or indirectly, any shares of our capital stock or any securities convertible into or exercisable or exchangeable for our capital stock, or publicly announce an intention to effect any such transaction. Our officers and directors, our manager,

and certain officers of our manager,

S-9

have separately entered into similar agreements with the underwriter. Moreover, if during the last 17 days of the 60-day restricted period referred to above we issue an earnings release or material news or a material event relating to us is announced or if prior to the expiration of the 60-day restricted period we announce that we will release earnings results during the 17-day period beginning on the last day of the 60-day period, the restrictions described in the two preceding sentences will continue to apply until the expiration of the 17-day period beginning on the date of the issuance of the earnings release or the announcement of the material news or material event, as the case may be, unless the underwriter waives, in writing, that extension.

The restrictions above do not apply to:

- the sale of shares to the underwriter;
- our issuance of common stock or granting of options to purchase common stock under our existing stock incentive plan (provided the holders of common stock or options to purchase common stock agree in writing to the restrictions described above);
- the issuance by our operating partnership of units of limited partnership interest in consideration for acquisitions of assets; and
- our issuance of common stock (i) upon redemption of units of limited partnership interest or upon exchange or conversion of any outstanding securities that have exchange or conversion rights or (ii) in payment of the incentive fee pursuant to our management agreement with our manager.

The underwriter may, in its sole discretion and at any time or from time to time, without notice, release all or any portion of the shares or other securities subject to the lock-up agreements.

The underwriter has advised us that it does not intend to confirm sales to any account over which it exercises discretionary authority.

In connection with the offering, the underwriter may purchase and sell our shares in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions.

Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriter's option to purchase additional shares from us in the offering. The underwriter may close out any covered short position by either exercising its option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriter will consider, among other things, the price of our shares available for purchase in the open market as compared to the price at which it may purchase shares through the underwriter's option.

Naked short sales are any sales in excess of the option to purchase additional shares. The underwriter must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of the offering.

Stabilizing transactions consist of various bids for or purchases of our shares made by the underwriter in the open market prior to the completion of the offering.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our shares. Additionally, these purchases, along with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our shares. As a result, the price of our shares may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

This prospectus supplement and the accompanying prospectus may be made available in electronic format on Internet websites maintained by the underwriter of this offering. Other than this prospectus supplement and the accompanying prospectus, in electronic format, the information on the underwriter's website and any information contained in any other website maintained by the underwriter is not part of this prospectus supplement or the accompanying prospectus, or the registration statement of which the accompanying prospectus and this prospectus supplement form a part.

Potential Conflicts of Interest

In the ordinary course of business, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriter and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. In addition, in the ordinary course of business, the underwriter or its affiliates have engaged and may in the future engage in various financing, commercial banking and investment banking services with, and provide financial advisory services to, us and our affiliates, for which they have received or may receive customary fees and expenses, including acting as underwriter for our equity offerings.

Selling Restrictions

No action has been taken in any jurisdiction (except in the United States) that would permit a public offering of the shares, or the possession, circulation or distribution of this prospectus supplement, the accompanying prospectus or any other material relating to us or the shares where action for that purpose is required. Accordingly, the shares may not be offered or sold, directly or indirectly, and neither this prospectus supplement, the accompanying prospectus nor any other offering material or advertisements in connection with the shares may be distributed or published, in or from any country or jurisdiction except in compliance with any applicable rules and regulations of any such country or jurisdiction.

The underwriter may arrange to sell the shares offered hereby in certain jurisdictions outside the United States, either directly or through affiliates, where it is permitted to do so.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date"), no offer of shares may be made to the public in that Relevant Member State other than:

- to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as

S-11

defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the underwriter; or

- in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of shares shall require the Company, the selling stockholder or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State (other than a Relevant Member State where there is a Permitted Public Offer) who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a “qualified investor” within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than “qualified investors” as defined in the Prospectus Directive, or in circumstances in which the prior consent of the Subscribers has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the underwriter has been obtained to each such proposed offer or resale.

We, the underwriter and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for us or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither we nor the underwriter has authorized, nor do we authorize, the making of any offer of shares in circumstances in which an obligation arises for us or the underwriter to publish a prospectus for such offer.

For the purpose of the above provisions, the expression “an offer to the public” in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the "SEC") using a "shelf" registration process. Under this shelf process, we may, from time to time, sell any combination of the securities described in this prospectus, in one or more offerings up to a total dollar amount of \$500,000,000. This prospectus provides you with a general description of the securities we may offer. Each time we offer to sell securities under this prospectus, we will provide a prospectus supplement containing specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with additional information described under the heading "Where You Can Find More Information."

You should rely on the information contained or incorporated by reference in this prospectus. We have not authorized anyone to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information in this prospectus is accurate as of the date of the prospectus. Our business, financial condition, results of operations and prospects may have changed since that date.

This prospectus contains summary descriptions of the debt securities, common stock, preferred stock, depositary shares and warrants that we may sell from time to time. These summary descriptions are not meant to be complete descriptions of each security. The particular terms of any security will be described in the related prospectus supplement.

SUMMARY

The following summary highlights information contained elsewhere in this prospectus. You should read the entire prospectus, including "Risk Factors," before making a decision to invest in our securities. In this prospectus, unless the context indicates otherwise, (a) the words "we," "us," "our," "Arbor," and similar references refer to Arbor Realty Trust, Inc. and its subsidiaries, including Arbor Realty Limited Partnership, our operating partnership, and Arbor Realty SR Inc., (b) "our board of directors" refers to the board of directors of Arbor Realty Trust, Inc. and (c) the words "Arbor Commercial Mortgage," "ACM" or "our manager" refer to Arbor Commercial Mortgage, LLC.

Arbor Realty Trust, Inc.

We are a specialized real estate finance company that invests in a diversified portfolio of structured finance assets in the multi-family and commercial real estate market. We invest primarily in real estate-related bridge and mezzanine loans, including junior participating interests in first mortgages, and preferred equity and, in limited cases, discounted mortgage notes and other real estate-related assets, which we refer to collectively as structured finance investments. We also invest in mortgage-related securities and equity interests in real property. Our principal business objective is to maximize the difference between the yield on our investments and the cost of financing these investments to generate cash available for distribution, facilitate capital appreciation and maximize total return to our stockholders.

We are organized to qualify as a real estate investment trust ("REIT") for federal income tax purposes. A REIT is generally not subject to federal income tax on that portion of its REIT taxable income that is distributed to its stockholders, provided that various qualification requirements are met. Certain of our assets that produce non-qualifying income are held in taxable REIT subsidiaries. Unlike other subsidiaries of a REIT, the income of a taxable REIT subsidiary is generally subject to federal income tax.

We conduct substantially all of our operations and investing activities through Arbor Realty SR, Inc., our majority-owned indirect subsidiary ("SR Inc."), and its subsidiaries. SR Inc. has also elected to be taxed as a REIT.

We are externally managed and advised by Arbor Commercial Mortgage, LLC, a national commercial real estate finance company that specializes in debt and equity financing for multi-family and commercial real estate, pursuant to the terms of a management agreement.

We are a Maryland corporation formed in June 2003. Our principal executive offices are located at 333 Earle Ovington Boulevard, Suite 900, Uniondale, New York 11553. Our telephone number is (516) 506-4200. Our website is located at www.arborrealtytrust.com. The information contained on our website is not a part of this prospectus.

RISK FACTORS

You should consider the specific risks described in our Annual Report on Form 10-K for the year ended December 31, 2009, the risk factors described under the caption "Risk Factors" in any applicable prospectus supplement and any risk factors set forth in our other filings with the SEC, pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, before making an investment decision. Each of the risks described in these documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment. See "Where You Can Find More Information" in this prospectus. You should also carefully review the cautionary statement referred to under "Cautionary Statement Regarding Forward-Looking Statements."

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

The information contained in this prospectus is not a complete description of our business or the risks associated with an investment in Arbor Realty Trust, Inc. We urge you to carefully review and consider the various disclosures made by us in this prospectus, including the documents incorporated by reference herein.

This prospectus contains certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, among other things, the operating performance of our investments and financing needs. Forward-looking statements are generally identifiable by use of forward-looking terminology such as "may," "will," "should," "potential," "intend," "expect," "endeavor," "seek," "anticipate," "estimate," "overestimate," "underestimate," "believe," "could," "project," "predict," "continue" or other similar words or expressions. Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain projections of results of operations or of financial condition or state other forward-looking information. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. These forward-looking statements involve risks, uncertainties and other factors that may cause our actual results in future periods to differ materially from forecasted results. Factors that could have a material adverse effect on our operations and future prospects include, but are not limited to, changes in economic conditions generally and the real estate market specifically; adverse changes in the financing markets we access affecting our ability to finance our loan and investment portfolio; changes in interest rates; the quality and size of the investment pipeline and the rate at which we can invest our cash; impairments in the value of the collateral underlying our loans and investments; changes in the markets; legislative/regulatory changes; completion of pending investments; the availability and cost of capital for future investments; competition within the finance and real estate industries; and other risks detailed from time to time in our SEC reports. Readers are cautioned not to place undue reliance on any of these forward-looking statements, which reflect our management's views as of the date of this prospectus. The factors noted above could cause our actual results to differ significantly from those contained in any forward-looking statement. For a discussion of our critical accounting policies, see "Management's Discussion and Analysis of Financial Condition and Results of Operations of Arbor Realty Trust, Inc. and Subsidiaries — Significant Accounting Estimates and Critical Accounting Policies" under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2009 and "Management's Discussion and Analysis of Financial Condition and Results of Operations of Arbor Realty Trust, Inc. and Subsidiaries — Critical Accounting Policies" under Item 2 of our Quarterly Report on Form 10-Q for the three months ended March 31, 2010.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We are under no duty to update any of the forward-looking statements after the date of this prospectus to conform these statements to actual results.

USE OF PROCEEDS

Unless otherwise set forth in a prospectus supplement, we intend to use the net proceeds of any offering of securities to invest in real estate debt securities and loans and for general corporate purposes. We will have significant discretion in the use of any net proceeds. The net proceeds may be invested temporarily in interest-bearing accounts and short-term interest-bearing securities that are consistent with our qualification as a REIT until they are used for their stated purpose. We may provide additional information on the use of the net proceeds from the sale of the offered securities in an applicable prospectus supplement relating to the offered securities.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to combined fixed charges and preferred share dividends and our ratio of earnings to fixed charges for each of the periods indicated:

	Three Months Ended March 31, 2010	2009(1)	2008(2)	Year Ended December 31,		
				2007	2006	2005
Ratio of Earnings to Fixed Charges	2.5x	—x	—x	2.0x	1.6x	2.4x

For purposes of calculating the above ratios, (i) earnings represent "Net income (loss) from continuing operations" from our consolidated statements of operations, as adjusted for fixed charges and loss (income) and distributions from equity affiliates, and (ii) fixed charges represent "Interest expense" from our consolidated statements of operations as adjusted for capitalized interest. We had not issued any preferred stock in any period presented, and therefore, there were no preferred dividends included in our calculation of the ratio of earnings to combined fixed charges and preferred stock dividends for those periods. The ratios are based solely on historical financial information.

(1) Due to a loss in 2009, earnings were insufficient to cover fixed charges by \$193.8 million.

(2) Due to a loss in 2008, earnings were insufficient to cover fixed charges by \$72.9 million.

DESCRIPTION OF DEBT SECURITIES

As used in this prospectus, debt securities means the debentures, notes, bonds and other evidences of indebtedness that we may issue from time to time. The debt securities will either be senior debt securities or subordinated debt securities. Senior debt securities will be issued under a "Senior Indenture" and subordinated debt securities will be issued under a "Subordinated Indenture." This prospectus sometimes refers to the Senior Indenture and the Subordinated Indenture collectively as the "Indentures."

The forms of Indentures are filed as exhibits to the registration statement of which this prospectus forms a part. The statements and descriptions in this prospectus or in any prospectus supplement regarding provisions of the Indentures and debt securities are summaries thereof, do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all of the provisions of the Indentures (and any amendments or supplements we may enter into from time to time which are permitted under each Indenture) and the debt securities, including the definitions therein of certain terms.

General

Unless otherwise specified in a prospectus supplement, the debt securities will be our direct unsecured obligations. The senior debt securities will rank equally with any of our other senior and unsubordinated debt. The subordinated debt securities will be subordinate and junior in right of payment to any senior indebtedness.

The Indentures do not limit the aggregate principal amount of debt securities that we may issue and provide that we may issue debt securities from time to time in one or more series, in each case with the same or various maturities, at par or at a discount. Unless indicated in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series outstanding at the time of the issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under the applicable Indenture.

Each prospectus supplement will describe the terms relating to the specific series of debt securities being offered. These terms will include some or all of the following:

- the title of debt securities and whether they are subordinated debt securities or senior debt securities;
- any limit on the aggregate principal amount of the debt securities;
- the ability to issue additional debt securities of the same series;
- the price or prices at which we will sell the debt securities;
- the maturity date or dates of the debt securities;
- the rate or rates of interest, if any, which may be fixed or variable, at which the debt securities will bear interest, or the method of determining such rate or rates, if any;
- the date or dates from which any interest will accrue or the method by which such date or dates will be determined;
- the right, if any, to extend the interest payment periods and the duration of any such deferral period, including the maximum consecutive period during which interest payment periods may be extended;
- whether the amount of payments of principal of (and premium, if any) or interest on the debt securities may be determined with reference to any index, formula or other method, such as one or more currencies, commodities, equity indices or other indices, and the manner of determining the amount of such payments;
- the dates on which we will pay interest on the debt securities and the regular record date for determining who is entitled to the interest payable on any interest payment date;
- the place or places where the principal of (and premium, if any) and interest on the debt securities will be payable, where any securities may be surrendered for registration of transfer, exchange or conversion, as applicable, and notices and demands may be delivered to or upon us pursuant to the Indenture;
- if we possess the option to do so, the periods within which and the prices at which we may redeem the debt securities, in whole or in part, pursuant to optional redemption provisions, and the other terms and conditions of any such provisions;
- our obligation, if any, to redeem, repay or purchase debt securities by making periodic payments to a sinking fund or through an analogous provision or at the option of holders of the debt securities, and the period or periods within which and the price or prices at which we will redeem, repay or purchase the debt securities, in whole or in part, pursuant to such obligation, and the other terms and conditions of such obligation;
-

the denominations in which the debt securities will be issued, if other than denominations of \$1,000 and integral multiples of \$1,000;

- the portion, or methods of determining the portion, of the principal amount of the debt securities which we must pay upon the acceleration of the maturity of the debt securities in connection with an Event of Default (as described below), if other than the full principal amount;
- the currency, currencies or currency unit in which we will pay the principal of (and premium, if any) or interest, if any, on the debt securities, if not United States dollars;
- provisions, if any, granting special rights to holders of the debt securities upon the occurrence of specified events;
- any deletions from, modifications of or additions to the Events of Default or our covenants with respect to the applicable series of debt securities, and whether or not such Events of Default or covenants are consistent with those contained in the applicable Indenture;

- any limitation on our ability to incur debt, redeem stock, sell our assets or other restrictions;
- the application, if any, of the terms of the Indenture relating to defeasance and covenant defeasance (which terms are described below) to the debt securities;
- whether the subordination provisions summarized below or different subordination provisions will apply to the debt securities;
- the terms, if any, upon which the holders may convert or exchange the debt securities into or for our common stock, preferred stock or other securities or property;
- whether any of the debt securities will be issued in global form and, if so, the terms and conditions upon which global debt securities may be exchanged for certificated debt securities;
- any change in the right of the trustee or the requisite holders of debt securities to declare the principal amount thereof due and payable because of an Event of Default;
- the depository for global or certificated debt securities;
- any special tax implications of the debt securities;
- any trustees, authenticating or paying agents, transfer agents or registrars or other agents with respect to the debt securities;
- any other terms of the debt securities not inconsistent with the provisions of the Indentures, as amended or supplemented;
- to whom any interest on any debt security shall be payable, if other than the person in whose name the security is registered, on the record date for such interest, the extent to which, or the manner in which, any interest payable on a temporary global debt security will be paid if other than in the manner provided in the applicable Indenture;
- if the principal of or any premium or interest on any debt securities of the series is to be payable in one or more currencies or currency units other than as stated, the currency, currencies or currency units in which it shall be paid and the periods within and terms and conditions upon which such election is to be made and the amounts payable (or the manner in which such amount shall be determined);
- the portion of the principal amount of any securities of the series which shall be payable upon declaration of acceleration of the maturity of the debt securities pursuant to the applicable Indenture if other than the entire principal amount; and
- if the principal amount payable at the stated maturity of any debt security of the series will not be determinable as of any one or more dates prior to the stated maturity, the amount which shall be deemed to be the principal amount of such securities as of any such date for any purpose, including the principal amount thereof which shall be due and payable upon any maturity other than the stated maturity or which shall be deemed

to be outstanding as of any date prior to the stated maturity (or, in any such case, the manner in which such amount deemed to be the principal amount shall be determined).

Unless otherwise specified in the applicable prospectus supplement, the debt securities will not be listed on any securities exchange.

Unless otherwise specified in the applicable prospectus supplement, debt securities will be issued in fully-registered form without coupons.

Debt securities may be sold at a substantial discount below their stated principal amount, bearing no interest or interest at a rate which at the time of issuance is below market rates. The applicable prospectus supplement will describe the federal income tax consequences and special considerations applicable to any such debt securities. The debt securities may also be issued as indexed securities or securities denominated in foreign currencies, currency units or composite currencies, as described in more detail in the prospectus supplement relating to any of the particular debt securities. The prospectus supplement relating to specific debt

securities will also describe any special considerations and certain additional tax considerations applicable to such debt securities.

Subordination

The prospectus supplement relating to any offering of subordinated debt securities will describe the specific subordination provisions. However, unless otherwise noted in the prospectus supplement, subordinated debt securities will be subordinate and junior in right of payment to any existing Senior Indebtedness.

Under the Subordinated Indenture, "Senior Indebtedness" means all amounts due on obligations in connection with any of the following, whether outstanding at the date of execution of the Subordinated Indenture or thereafter incurred or created:

- the principal of (and premium, if any) and interest due on our indebtedness for borrowed money and indebtedness evidenced by securities, debentures, bonds or other similar instruments issued by us;
- all of our capital lease obligations;
- any of our obligations as lessee under leases required to be capitalized on the balance sheet of the lessee under generally accepted accounting principles;
- all of our obligations for the reimbursement on any letter of credit, banker's acceptance, security purchase facility or similar credit transaction;
- all of our obligations in respect of interest rate swap, cap or other agreements, interest rate future or options contracts, currency swap agreements, currency future or option contracts and other similar agreements;
- all obligations of the types referred to above of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise; and
- all obligations of the types referred to above of other persons secured by any lien on any property or asset of ours (whether or not such obligation is assumed by us).

However, Senior Indebtedness does not include:

- any indebtedness which expressly provides that such indebtedness shall not be senior in right of payment to the subordinated debt securities, or that such indebtedness shall be subordinated to any other of our indebtedness, unless such indebtedness expressly provides that such indebtedness shall be senior in right of payment to the subordinated debt securities;
- any of our indebtedness in respect of the subordinated debt securities;
- any indebtedness or liability for compensation to employees, for goods or materials purchased in the ordinary course of business or for services;
- any of our indebtedness to any subsidiary; and

- any liability for federal, state, local or other taxes owed or owing by us.

Senior Indebtedness shall continue to be Senior Indebtedness and be entitled to the benefits of the subordination provisions irrespective of any amendment, modification or waiver of any term of such Senior Indebtedness.

Unless otherwise noted in the accompanying prospectus supplement, if we default in the payment of any principal of (or premium, if any) or interest on any Senior Indebtedness when it becomes due and payable, whether at maturity or at a date fixed for prepayment or by declaration or otherwise, then, unless and until such default is cured or waived or ceases to exist, we will make no direct or indirect payment (in cash, property, securities, by set-off or otherwise) in respect of the principal of or interest on the subordinated debt securities or in respect of any redemption, retirement, purchase or other requisition of any of the subordinated debt securities.

In the event of the acceleration of the maturity of any subordinated debt securities, the holders of all senior debt securities outstanding at the time of such acceleration, subject to any security interest, will first be entitled to receive payment in full of all amounts due on the senior debt securities before the holders of the subordinated debt securities will be entitled to receive any payment of principal (and premium, if any) or interest on the subordinated debt securities.

If any of the following events occurs, we will pay in full all Senior Indebtedness before we make any payment or distribution under the subordinated debt securities, whether in cash, securities or other property, to any holder of subordinated debt securities:

- any dissolution or winding-up or liquidation or reorganization of Arbor Realty Trust, Inc., whether voluntary or involuntary or in bankruptcy, insolvency or receivership;
- any general assignment by us for the benefit of creditors; or
- any other marshaling of our assets or liabilities.

In such event, any payment or distribution under the subordinated debt securities, whether in cash, securities or other property, which would otherwise (but for the subordination provisions) be payable or deliverable in respect of the subordinated debt securities, will be paid or delivered directly to the holders of Senior Indebtedness in accordance with the priorities then existing among such holders until all Senior Indebtedness has been paid in full. If any payment or distribution under the subordinated debt securities is received by the trustee of any subordinated debt securities in contravention of any of the terms of the Subordinated Indenture and before all the Senior Indebtedness has been paid in full, such payment or distribution or security will be received in trust for the benefit of, and paid over or delivered and transferred to, the holders of the Senior Indebtedness at the time outstanding in accordance with the priorities then existing among such holders for application to the payment of all Senior Indebtedness remaining unpaid to the extent necessary to pay all such Senior Indebtedness in full.

The Subordinated Indenture does not limit the issuance of additional Senior Indebtedness.

Consolidation, Merger, Sale of Assets and Other Transactions

We may not (i) merge with or into or consolidate with another corporation or sell, assign, transfer, lease or convey all or substantially all of our properties and assets to, any other corporation other than a direct or indirect wholly-owned subsidiary of ours, and (ii) no corporation may merge with or into or consolidate with us or, except for any direct or indirect wholly-owned subsidiary of ours, sell, assign, transfer, lease or convey all or substantially all of its properties and assets to us, unless:

- we are the surviving corporation or the corporation formed by or surviving such merger or consolidation or to which such sale, assignment, transfer, lease or conveyance has been made, if other than us, has expressly assumed by supplemental indenture all of our obligations under the Indentures;
- immediately after giving effect to such transaction, no default or Event of Default has occurred and is continuing; and
- we deliver to the trustee an officers' certificate and an opinion of counsel, each stating that the supplemental indenture complies with the applicable Indenture.

Events of Default, Notice and Waiver

Unless an accompanying prospectus supplement states otherwise, the following shall constitute "Events of Default" under the Indentures with respect to each series of debt securities:

- our failure to pay any interest on any debt security of such series when due and payable, continued for 30 days;

- our failure to pay principal (or premium, if any) on any debt security of such series when due, regardless of whether such payment became due because of maturity, redemption, acceleration or otherwise, or is required by any sinking fund established with respect to such series;
- our failure to observe or perform any other of our covenants or agreements with respect to such debt securities for 60 days after we receive notice of such failure;
- certain events of bankruptcy, insolvency or reorganization of Arbor Realty Trust, Inc.; and
- any other Event of Default provided with respect to Securities of that series.

If an Event of Default with respect to any debt securities of any series outstanding under either of the Indentures shall occur and be continuing, the trustee under such Indenture or the holders of at least 25% in aggregate principal amount of the debt securities of that series outstanding may declare, by notice as provided in the applicable Indenture, the principal amount (or such lesser amount as may be provided for in the debt securities of that series) of all the debt securities of that series outstanding to be due and payable immediately; provided that, in the case of an Event of Default involving certain events in bankruptcy, insolvency or reorganization, acceleration is automatic; and, provided further, that after such acceleration, but before a judgment or decree based on acceleration, the holders of a majority in aggregate principal amount of the outstanding debt securities of that series may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the nonpayment of accelerated principal, have been cured or waived. Upon the acceleration of the maturity of original issue discount securities, an amount less than the principal amount thereof will become due and payable. Reference is made to the prospectus supplement relating to any original issue discount securities for the particular provisions relating to acceleration of maturity thereof.

Any past default under either Indenture with respect to debt securities of any series, and any Event of Default arising therefrom, may be waived by the holders of a majority in principal amount of all debt securities of such series outstanding under such Indenture, except in the case of (i) default in the payment of the principal of (or premium, if any) or interest on any debt securities of such series or (ii) default in respect of a covenant or provision which may not be amended or modified without the consent of the holder of each outstanding debt security of such series affected.

The trustee is required within 90 days after the occurrence of a default (which is known to the trustee and is continuing), with respect to the debt securities of any series (without regard to any grace period or notice requirements), to give to the holders of the debt securities of such series notice of such default.

The trustee, subject to its duties during default to act with the required standard of care, may require indemnification by the holders of the debt securities of any series with respect to which a default has occurred before proceeding to exercise any right or power under the Indentures at the request of the holders of the debt securities of such series. Subject to such right of indemnification and to certain other limitations, the holders of a majority in principal amount of the outstanding debt securities of any series under either Indenture may direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee with respect to the debt securities of such series, provided that such direction shall not be in conflict with any rule of law or with the applicable Indenture and the trustee may take any other action deemed proper by the trustee which is not inconsistent with such direction.

No holder of a debt security of any series may institute any action against us under either of the Indentures (except actions for payment of overdue principal of (and premium, if any) or interest on such debt security or for the conversion or exchange of such debt security in accordance with its terms) unless (i) the holder has given to the

trustee written notice of an Event of Default and of the continuance thereof with respect to the debt securities of such series specifying an Event of Default, as required under the applicable Indenture, (ii) the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding under such Indenture shall have requested the trustee to institute such action and offered to the trustee indemnity reasonably satisfactory to it against the costs, expenses and liabilities to be incurred in compliance with such request; (iii) the trustee shall not have instituted such action within 60 days of such

request and (iv) no direction inconsistent with such written request has been given to the trustee during such 60-day period by the holders of a majority in principal amount of the debt securities of that series.

We are required to furnish annually to the trustee statements as to our compliance with all conditions and covenants under each Indenture.

Discharge, Defeasance and Covenant Defeasance

We may discharge or defease our obligations under the Indenture as set forth below, unless otherwise indicated in the applicable prospectus supplement.

We may discharge certain obligations to holders of any series of debt securities issued under either the Senior Indenture or the Subordinated Indenture which have not already been delivered to the trustee for cancellation and which have either become due and payable or are by their terms due and payable within one year (or scheduled for redemption within one year) by irrevocably depositing with the trustee money in an amount sufficient to pay and discharge the entire indebtedness on such debt securities not previously delivered to the trustee for cancellation, for principal and any premium and interest to the date of such deposit (in the case of debt securities which have become due and payable) or to the stated maturity or redemption date, as the case may be and we have paid all other sums payable under the applicable indenture.

If indicated in the applicable prospectus supplement, we may elect either (i) to defease and be discharged from any and all obligations with respect to the debt securities of or within any series (except as otherwise provided in the relevant Indenture) ("defeasance") or (ii) to be released from our obligations with respect to certain covenants applicable to the debt securities of or within any series ("covenant defeasance"), upon the deposit with the relevant Indenture trustee, in trust for such purpose, of money and/or government obligations which through the payment of principal and interest in accordance with their terms will provide money in an amount sufficient to pay the principal of (and premium, if any) or interest on such debt securities to maturity or redemption, as the case may be, and any mandatory sinking fund or analogous payments thereon. As a condition to defeasance or covenant defeasance, we must deliver to the trustee an opinion of counsel to the effect that the holders of such debt securities will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance or covenant defeasance and will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such defeasance or covenant defeasance had not occurred. Such opinion of counsel, in the case of defeasance under clause (i) above, must refer to and be based upon a ruling of the Internal Revenue Service or a change in applicable federal income tax law occurring after the date of the relevant Indenture. In addition, in the case of either defeasance or covenant defeasance, we shall have delivered to the trustee (i) an officers' certificate to the effect that the relevant debt securities exchange(s) have informed us that neither such debt securities nor any other debt securities of the same series, if then listed on any securities exchange, will be delisted as a result of such deposit and (ii) an officers' certificate and an opinion of counsel, each stating that all conditions precedent with respect to such defeasance or covenant defeasance have been complied with.

We may exercise our defeasance option with respect to such debt securities notwithstanding our prior exercise of our covenant defeasance option.

Modification and Waiver

Under the Indentures, we and the applicable trustee may supplement the Indentures for certain purposes which would not materially adversely affect the interests or rights of the holders of debt securities of a series without the consent of those holders. We and the applicable trustee may also modify the Indentures or any supplemental indenture in a manner that affects the interests or rights of the holders of debt securities with the consent of the holders of at least a

majority in aggregate principal amount of the outstanding debt securities of

10

each affected series issued under the Indenture. However, the Indentures require the consent of each holder of debt securities that would be affected by any modification which would:

- change the fixed maturity of any debt securities of any series, or reduce the principal amount thereof, or reduce the rate or extend the time of payment of interest thereon, or reduce any premium payable upon the redemption thereof;
- reduce the amount of principal of an original issue discount debt security or any other debt security payable upon acceleration of the maturity thereof;
- change the currency in which any debt security or any premium or interest is payable;
- impair the right to enforce any payment on or with respect to any debt security;
- reduce the percentage in principal amount of outstanding debt securities of any series, the consent of whose holders is required for modification or amendment of the Indentures or for waiver of compliance with certain provisions of the Indentures or for waiver of certain defaults; or
- modify any of the above provisions.

The Indentures permit the holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series issued under the Indenture which is affected by the modification or amendment to waive our compliance with certain covenants contained in the Indentures.

Payment and Paying Agents

Unless otherwise indicated in the applicable prospectus supplement, payment of interest on a debt security on any interest payment date will be made to the person in whose name a debt security is registered at the close of business on the record date for the interest.

Unless otherwise indicated in the applicable prospectus supplement, principal, interest and premium on the debt securities of a particular series will be payable at the office of such paying agent or paying agents as we may designate for such purpose from time to time. Notwithstanding the foregoing, at our option, payment of any interest may be made by check mailed to the address of the person entitled thereto as such address appears in the security register.

Unless otherwise indicated in the applicable prospectus supplement, a paying agent designated by us will act as paying agent for payments with respect to debt securities of each series. All paying agents initially designated by us for the debt securities of a particular series will be named in the applicable prospectus supplement. We may at any time designate additional paying agents or rescind the designation of any paying agent or approve a change in the office through which any paying agent acts, except that we will be required to maintain a paying agent in each place of payment for the debt securities of a particular series.

All moneys paid by us to a paying agent for the payment of the principal, interest or premium on any debt security which remain unclaimed at the end of two years after such principal, interest or premium has become due and payable will be repaid to us upon request, and the holder of such debt security thereafter may look only to us for payment thereof.

Denominations, Registrations and Transfer

Unless an accompanying prospectus supplement states otherwise, debt securities will be represented by one or more global certificates registered in the name of a nominee for The Depository Trust Company, or DTC. In such case, each holder's beneficial interest in the global securities will be shown on the records of DTC and transfers of beneficial interests will only be effected through DTC's records.

A holder of debt securities may only exchange a beneficial interest in a global security for certificated securities registered in the holder's name if:

- DTC notifies us that it is unwilling or unable to continue serving as the depository for the relevant global securities or DTC ceases to maintain certain qualifications under the Securities Exchange Act of 1934 and no successor depository has been appointed for 90 days; or
- we determine, in our sole discretion, that the global security shall be exchangeable.

If debt securities are issued in certificated form, they will only be issued in the minimum denomination specified in the accompanying prospectus supplement and integral multiples of such denomination. Transfers and exchanges of such debt securities will only be permitted in such minimum denomination. Transfers of debt securities in certificated form may be registered at the trustee's corporate office or at the offices of any paying agent or trustee appointed by us under the Indentures. Exchanges of debt securities for an equal aggregate principal amount of debt securities in different denominations may also be made at such locations.

Governing Law

The Indentures and debt securities will be governed by, and construed in accordance with, the internal laws of the State of New York, without regard to its principles of conflicts of laws.

Trustee

The trustee under the Indentures is The Bank of New York.

Conversion or Exchange Rights

The prospectus supplement will describe the terms, if any, on which a series of debt securities may be convertible into or exchangeable for our common stock, preferred stock or other debt securities. These terms will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. These provisions may allow or require the number of shares of our common stock or other securities to be received by the holders of such series of debt securities to be adjusted.

DESCRIPTION OF CAPITAL STOCK

The following description of the terms of our stock is only a summary. For a complete description, we refer you to the Maryland General Corporation Law, or (the "MGCL"), our charter and our bylaws. Copies of our charter and bylaws are available upon request. The following description discusses the general terms of the common stock and preferred stock that we may issue.

The prospectus supplement relating to a particular series of preferred stock will describe certain other terms of such series of preferred stock. If so indicated in the prospectus supplement relating to a particular series of preferred stock, the terms of any such series of preferred stock may differ from the terms set forth below. The description of preferred stock set forth below and the description of the terms of a particular series of preferred stock set forth in the applicable prospectus supplement are not complete and are qualified in their entirety by reference to our charter, particularly to the articles supplementary relating to that series of preferred stock.

GENERAL

Our charter provides that we may issue up to 500,000,000 shares of common stock, \$0.01 par value per share, and up to 100,000,000 shares of preferred stock, \$.01 par value per share. As of May 31, 2010, 25,477,410 shares of common stock were issued and outstanding. As of May 31, 2010, there were 9,388 holders of record of our common stock. Under Maryland law, our stockholders generally are not liable for our debts or obligations.

COMMON STOCK

Subject to the preferential rights of any other class or series of stock and to the provisions of the charter regarding the restrictions on transfer of stock, holders of shares of our common stock are entitled to receive dividends on such stock when, as and if authorized by our board of directors out of funds legally available therefor and declared by us and to share ratably in the assets of our company legally available for distribution to our stockholders in the event of our liquidation, dissolution or winding up after payment of or adequate provision for all known debts and liabilities of our company, including the preferential rights on dissolution of any class or classes of preferred stock.

Subject to the provisions of our charter regarding the restrictions on transfer of stock, each outstanding share of common stock entitles the holder to one vote on all matters submitted to the vote of stockholders, including the election of directors. There is no cumulative voting in the election of our board of directors, which means that the holders of outstanding shares of our common stock entitled to cast a majority of the votes in the election of directors can elect all of the directors then standing for election and the holders of the remaining shares of our common stock are not able to elect any directors.

Holders of shares of our common stock have no preference, conversion, exchange, sinking fund, redemption or appraisal rights and have no preemptive rights to subscribe for any securities of our company. Subject to the provisions of the charter regarding the restrictions on transfer of stock, shares of our common stock have equal dividend, liquidation and other rights.

Under the MGCL, a Maryland corporation generally cannot dissolve, amend its charter, merge, sell all or substantially all of its assets, engage in a statutory share exchange or engage in similar transactions outside the ordinary course of business unless declared advisable by the board of directors and approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter unless a lesser percentage (but not less than a majority of all of the votes entitled to be cast on the matter) is set forth in the corporation's charter. Our charter, however, provides for approval of these matters, except with respect to certain charter amendments, by an affirmative vote of stockholders entitled to cast a majority of the votes entitled to be cast on the matter.

Our charter authorizes our board of directors to increase the number of shares of authorized common stock, to issue additional authorized but unissued shares of our common stock, to reclassify any unissued shares of our common stock into other classes or series of classes of stock and to establish the number of shares in each class or series and to set the preferences, conversion and other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications or terms or conditions of redemption for each such class or series without stockholder approval.

PREFERRED STOCK

Our board of directors may authorize the issuance of preferred stock in one or more series and may determine, with respect to any such series, the powers, preferences and rights of such series, and its qualifications, limitations and restrictions, including, without limitation:

- the number of shares to constitute such series and the designations thereof;
- the voting power, if any, of holders of shares of such series and, if voting power is limited, the circumstances under which such holders may be entitled to vote;
- the rate of dividends, if any, and the extent of further participation in dividend distributions, if any, and whether dividends shall be cumulative or non-cumulative;

- whether or not such series shall be redeemable, and, if so, the terms and conditions upon which shares of such series shall be redeemable;
- the extent, if any, to which such series shall have the benefit of any sinking fund provision for the redemption or purchase of shares;

- the rights, if any, of such series, in the event of the dissolution of the corporation, or upon any distribution of the assets of the corporation; and
- whether or not the shares of such series shall be convertible, and, if so, the terms and conditions upon which shares of such series shall be convertible.

You should refer to the articles supplementary and prospectus supplement relating to the series of preferred stock being offered for the specific terms of that series, including:

- the title or designation of the series and the number of shares in the series;
- the price at which the preferred stock will be offered;
- the dividend rate or rates or method of calculating the rates, the dates on which the dividends will be payable, whether or not dividends will be cumulative or noncumulative and, if cumulative, the dates from which dividends on the preferred stock being offered will cumulate;
- the voting rights, if any, of the holders of shares of the preferred stock being offered;
- the provisions for a sinking fund, if any, and the provisions for redemption, if applicable, of the preferred stock being offered;
- the liquidation preference per share;
- the terms and conditions, if applicable, upon which the preferred stock being offered will be convertible into our common stock, including the conversion price, or the manner of calculating the conversion price, and the conversion period;
- the terms and conditions, if applicable, upon which the preferred stock being offered will be exchangeable for debt securities, including the exchange price, or the manner of calculating the exchange price, and the exchange period;
- any listing of the preferred stock being offered on any securities exchange;
- whether interests in the shares of the series will be represented by depositary shares;
- a discussion of any material U.S. federal income tax considerations applicable to the preferred stock being offered;
- the relative ranking and preferences of the preferred stock being offered as to dividend rights and rights upon liquidation, dissolution or the winding up of our affairs;
- any limitations on the issuance of any class or series of preferred stock ranking senior or equal to the series of preferred stock being offered as to dividend rights and rights upon liquidation, dissolution or the winding up of our affairs; and
- any additional rights, preferences, qualifications, limitations and restrictions of the series.

Upon issuance, the shares of preferred stock will be fully paid and nonassessable, which means that its holders will have paid their purchase price in full and we may not require them to pay additional funds. Holders of preferred stock will not have any preemptive rights.

Preferred Stock Dividend Rights

Holders of preferred stock will be entitled to receive, when, as and if authorized by the board of directors out of funds legally available therefor and declared by us, dividends in additional shares of preferred stock or cash dividends at the rates and on the dates set forth in the related articles supplementary and prospectus supplement. Dividend rates may be fixed or variable or both. Different series of preferred stock may be entitled to dividends at different dividend rates or based upon different methods of determination. Each

dividend will be payable to the holders of record as they appear on our stock books on record dates determined by the board of directors. Dividends on preferred stock may be cumulative or noncumulative, as specified in the related articles supplementary and prospectus supplement. If the board of directors fails to authorize or we fail to declare a dividend on any preferred stock for which dividends are noncumulative, then the right to receive that dividend will be lost, and we will have no obligation to pay the dividend for that dividend period, whether or not dividends are declared for any future dividend period.

No full dividends will be declared or paid on any preferred stock unless full dividends for the dividend period commencing after the immediately preceding dividend payment date and any cumulative dividends still owing have been or contemporaneously are declared and paid on all other series of preferred stock which have the same rank as, or rank senior to, that series of preferred stock. When those dividends are not paid in full, dividends will be declared pro rata, so that the amount of dividends declared per share on that series of preferred stock and on each other series of preferred stock having the same rank as that series of preferred stock will bear the same ratio to each other that accrued dividends per share on that series of preferred stock and the other series of preferred stock bear to each other. In addition, generally, unless full dividends including any cumulative dividends still owing on all outstanding shares of any series of preferred stock have been paid, no dividends will be declared or paid on the common stock and generally we may not redeem or purchase any common stock. No interest will be paid in connection with any dividend payment or payments which may be in arrears.

Unless otherwise set forth in the related articles supplementary and prospectus supplement, the dividends payable for each dividend period will be computed by annualizing the applicable dividend rate and dividing by the number of dividend periods in a year, except that the amount of dividends payable for the initial dividend period or any period shorter than a full dividend period will be computed on the basis of a 360-day year consisting of twelve 30-day months and, for any period less than a full month, the actual number of days elapsed in the period.

Preferred Stock Rights Upon Liquidation

If we liquidate, dissolve or wind up our affairs, either voluntarily or involuntarily, the holders of each series of preferred stock will be entitled to receive liquidating distributions in the amount set forth in the articles supplementary and prospectus supplement relating to the series of preferred stock. If the amounts payable with respect to preferred stock of any series and any stock having the same rank as that series of preferred stock are not paid in full, the holders of the preferred stock will share ratably in any such distribution of assets in proportion to the full respective preferential amounts to which they are entitled. After the holders of each series of preferred stock having the same rank are paid in full, they will have no right or claim to any of our remaining assets. Neither the sale of all or substantially all of our property or business nor a merger or consolidation by us with any other corporation will be considered a dissolution, liquidation or winding up by us of our business or affairs.

Preferred Stock Redemption

Any series of preferred stock may be redeemable in whole or in part at our option. In addition, any series of preferred stock may be subject to mandatory redemption pursuant to a sinking fund. The redemption provisions that may apply to a series of preferred stock, including the redemption dates and the redemption prices for that series, will be set forth in the related articles supplementary and prospectus supplement.

If a series of preferred stock is subject to mandatory redemption, the related articles supplementary and prospectus supplement will specify the year we can begin to redeem shares of the preferred stock, the number of shares of the preferred stock we can redeem each year and the redemption price per share. We may pay the redemption price in cash, stock or other securities of our or of third parties, as specified in the related articles supplementary and prospectus supplement. If the redemption price is to be paid only from the proceeds of the sale of our capital stock, the

terms of the series of preferred stock may also provide that if no capital stock is sold or if the amount of cash received is insufficient to pay in full the redemption price then due, the series of preferred stock will automatically be converted into shares of the applicable capital stock pursuant to conversion provisions specified in the related prospectus supplement.

If fewer than all the outstanding shares of any series of preferred stock are to be redeemed, whether by mandatory or optional redemption, the board of directors will determine the method for selecting the shares to be redeemed, which may be by lot or pro rata by any other method determined to be equitable. From and after the redemption date, dividends will cease to accrue on the shares of preferred stock called for redemption and all rights of the holders of those shares other than the right to receive the redemption price will cease.

Preferred Stock Conversion Rights

The related articles supplementary and prospectus supplement will state any conversion rights under which shares of preferred stock are convertible into shares of common stock or another series of preferred stock or other property. As described under "Redemption" above, under some circumstances preferred stock may be mandatorily converted into common stock or another series of preferred stock.

Preferred Stock Voting Rights

The related articles supplementary and prospectus supplement will state any voting rights of that series of preferred stock. Unless otherwise indicated in the related articles supplementary and prospectus supplement, if we issue full shares of any series of preferred stock, each share will be entitled to one vote on matters on which holders of that series of preferred stock are entitled to vote. Because each full share of any series of preferred stock will be entitled to one vote, the voting power of that series will depend on the number of shares in that series, and not on the aggregate liquidation preference or initial offering price of the shares of that series of preferred stock.

Permanent Global Preferred Securities

A series of preferred stock may be issued in whole or in part in the form of one or more global securities that will be deposited with a depositary or its nominee identified in the related prospectus supplement. For most series of preferred stock, the depositary will be DTC. A global security may not be transferred except as a whole to the depositary, a nominee of the depositary or their successors unless it is exchanged in whole or in part for preferred stock in individually certificated form. Any additional terms of the depositary arrangement with respect to any series of preferred stock and the rights of and limitations on owners of beneficial interests in a global security representing a series of preferred stock may be described in the related prospectus supplement.

Power To Reclassify Unissued Shares Of Common And Preferred Stock

Our charter authorizes our board of directors to classify and reclassify any unissued shares of our common stock or preferred stock into other classes or series of stock. Prior to issuance of shares of each class or series, our board of directors is required by the MGCL and by our charter to set, subject to our charter restrictions on transfer of stock, the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Therefore, our board of directors could authorize the issuance of shares of preferred stock with terms and conditions that could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interest. No shares of our preferred stock are presently outstanding and we have no present plans to issue any other preferred stock.

Power to Issue Additional Shares of Common Stock and Preferred Stock

We believe that the power to issue additional shares of common stock or preferred stock and to classify or reclassify unissued shares of common stock or preferred stock and thereafter to issue the classified or reclassified shares provides us with increased flexibility in structuring possible future financings and acquisitions and in meeting other

needs that might arise. These actions can be taken without stockholder approval, unless stockholder approval is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although we have no present intention of doing so, we could issue a class or series of stock that could delay, defer or prevent a transaction or a change

in control of us that might involve a premium price for holders of common stock or otherwise be in their best interest.

Dividend Reinvestment Plan

We may implement a dividend reinvestment plan whereby stockholders may automatically reinvest their dividends in our common stock. Details about any such plan would be sent to our stockholders following adoption thereof by our board of directors.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is American Stock Transfer and Trust Company.

Transfer Restrictions

In order for us to qualify as a REIT under the Internal Revenue Code of 1986, as amended, (the "Internal Revenue Code") our stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year for which an election to be a REIT has been made) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding shares of stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) during the last half of a taxable year (other than the first year for which an election to be a REIT has been made).

Our charter contains restrictions on the ownership and transfer of our common stock that are intended to assist us in complying with these requirements and continuing to qualify as a REIT. The relevant sections of our charter provide that subject to the exceptions described below, no person or entity may beneficially own, or be deemed to own by virtue of the applicable constructive ownership provisions of the Internal Revenue Code, more than 7.0% (by value or by number of shares, whichever is more restrictive) of the outstanding shares of our common stock or 7.0% by value of our outstanding capital stock. We refer to this restriction as the "general ownership limit."

The constructive ownership rules under the Internal Revenue Code are complex and may cause stock owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of less than 7.0% of our outstanding common or capital stock (or the acquisition of an interest in an entity that owns, actually or constructively, less than 7.0% of our outstanding common or capital stock) by an individual or entity, could, nevertheless cause that individual or entity, or another individual or entity, to own constructively in excess of these limits on our outstanding stock and thereby subject the stock to the applicable ownership limit.

Shares of our stock that would otherwise be directly or indirectly acquired or held by a person in violation of the ownership limitations are, in general, automatically transferred to a trust for the benefit of a charitable beneficiary, and the purported owner's interest in such shares is void. In addition, any person who acquires shares in excess of these limits is obliged to immediately give written notice to us and provide us with any information we may request in order to determine the effect of the acquisition on our status as a REIT under the Internal Revenue Code. Our board of directors may, in its sole discretion, waive the ownership limit with respect to a particular stockholder if it determines that any exemption from the ownership limit will not jeopardize our status as a REIT under the Internal Revenue Code. The stockholder must also agree that any violation of a required representation or undertaking provided with respect to the exemption or other action contrary to the ownership and transfer restrictions will result in the automatic transfer of the shares causing the violation to a trust.

We have granted ACM and Mr. Ivan Kaufman (who is the beneficial owner of approximately 91% of ACM's outstanding membership interests) an exemption from the general ownership limit which permits them to collectively

own up to 20.637% of our outstanding common stock. We have also granted C. Michael Kojaian, one of our directors, an exemption from the general ownership limit which permits him to own up to 8.3% of our outstanding common stock.

As a condition of our waiver, our board of directors may require an opinion of counsel or a ruling from the Internal Revenue Service ("IRS") that is satisfactory to our board of directors, and/or representations or undertakings from the applicant with respect to preserving our REIT status. Additionally, the waiver of the ownership limit may not allow five or fewer stockholders to beneficially own more than 50% in value of our outstanding capital stock.

Our charter provisions further prohibit:

- any person from beneficially or constructively owning shares of our stock that would result in us being closely held under Section 856(h) of the Internal Revenue Code or otherwise cause us to fail to qualify as a REIT; and
- any person from transferring shares of our stock after January 29, 2004 if such transfer would result in shares of our stock being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution).

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of our common stock that will or may violate any of the foregoing restrictions on transferability and ownership will be required to give notice immediately to us and provide us with such other information as we may request in order to determine the effect of such transfer on our status as a REIT. The foregoing provisions on transferability and ownership will not apply if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT.

Pursuant to our charter, if any purported transfer of our stock or any other event would otherwise result in any person violating the ownership limits or such other limit as permitted by our board of directors, then any such purported transfer will be ineffective as to that number of shares in excess of the applicable ownership limit (rounded up to the nearest whole). That number of shares in excess of the ownership limit will be automatically transferred to, and held by, a trust for the exclusive benefit of one or more charitable organizations selected by us. The automatic transfer will be effective as of the close of business on the business day prior to the date of the violative transfer or other event that results in a transfer to the trust. Any dividend or other distribution paid to the purported record transferee, prior to our discovery that the shares had been automatically transferred to a trust as described above, must be repaid to the trustee upon demand for distribution to the beneficiary of the trust. If the transfer to the trust as described above is not automatically effective, for any reason, to prevent violation of the applicable ownership limit or as otherwise permitted by our board of directors, then our charter provides that the transfer of the excess shares will be void.

Shares of our stock transferred to the trustee are deemed offered for sale to us, or our designee, at a price per share equal to the lesser of (1) the price paid by the purported record transferee for the shares (or, if the event that resulted in the transfer to the trust did not involve a purchase of such shares of our stock at market price, the last reported sales price reported on a national securities exchange or the Nasdaq Stock Market on the trading day immediately preceding the day of the event that resulted in the transfer of such shares of our stock to the trust if the shares are then traded) and (2) the market price on the date we, or our designee, accepts such offer. We have the right to accept such offer until the trustee has sold the shares of our common stock held in the trust pursuant to the clauses discussed below. Upon a sale to us, the interest of the charitable beneficiary in the shares sold terminates and the trustee must distribute the net proceeds of the sale to the purported record transferee and any dividends or other distributions held by the trustee with respect to such common stock will be paid to the charitable beneficiary.

If we do not buy the shares, the trustee must, within 20 days of receiving notice from us of the transfer of shares to the trust, sell the shares to a person or entity designated by the trustee who could own the shares without violating the general ownership limit or as otherwise permitted by our board of directors. After that, the trustee must distribute to the purported record transferee an amount equal to the lesser of (1) the price paid by the purported record transferee or

owner for the shares (or, if the event that resulted in the transfer to the trust did not involve a purchase of such shares at market price, the last reported sales price reported on a national securities exchange or the Nasdaq Stock Market on the trading day immediately preceding the relevant date if the shares are then traded), and (2) the sales proceeds (net of commissions and other expenses

of sale) received by the trust for the shares. The purported beneficial transferee or purported record transferee has no rights in the shares held by the trustee.

The trustee shall be designated by us and shall be unaffiliated with us and with any purported record transferee or purported beneficial transferee. Prior to the sale of any excess shares by the trust, the trustee will receive, in trust for the beneficiary, all dividends and other distributions paid by us with respect to the excess shares, and may also exercise all voting rights with respect to the excess shares.

Subject to Maryland law, effective as of the date that the shares have been transferred to the trust, the trustee shall have the authority, at the trustee's sole discretion, to:

- rescind as void any vote cast by a purported record transferee prior to our discovery that the shares have been transferred to the trust; and
- recast the vote in accordance with the desires of the trustee acting for the benefit of the beneficiary of the trust.

However, if we have already taken irreversible corporate action, then the trustee may not rescind or recast the vote.

Any owner of more than five percent (or such lower percentage as may be required by the Internal Revenue Code or regulations promulgated thereunder) of the shares of our stock, within 30 days after the end of each taxable year, is required to give us written notice, stating the owner's name and address, the number of shares of stock beneficially owned and a description of the manner in which such shares are held. In addition, any person or entity that is a beneficial owner or constructive owner of shares of our stock and any person or entity (including the stockholder of record) who is holding shares of our stock for a beneficial owner or constructive owner shall, on request, be required to disclose to us in writing such information as we may request in order to determine the effect, if any, of such stockholder's actual and constructive ownership of shares of our common stock on our status as a REIT and to ensure compliance with the ownership limit or to comply with the requirements of any taxing or governmental authority or to determine such compliance.

All certificates representing shares of our stock bear a legend referring to the restrictions described above.

These ownership and transfer limits could delay, defer or prevent a transaction or a change of control of our company that might involve a premium price for our common stock or otherwise be in the best interest of our stockholders.

DESCRIPTION OF DEPOSITARY SHARES

We may issue depositary receipts representing interests in shares of particular series of preferred stock which are called depositary shares. We will deposit the preferred stock of a series which is the subject of depositary shares with a depositary, which will hold that preferred stock for the benefit of the holders of the depositary shares, in accordance with a deposit agreement between the depositary and us. The holders of depositary shares will be entitled to all the rights and preferences of the preferred stock to which the depositary shares relate, including dividend, voting, conversion, redemption and liquidation rights, to the extent of their interests in that preferred stock.

While the deposit agreement relating to a particular series of preferred stock may have provisions applicable solely to that series of preferred stock, all deposit agreements relating to preferred stock we issue will include the following provisions:

Dividends and Other Distributions

Each time we pay a cash dividend or make any other type of cash distribution with regard to preferred stock of a series, the depositary will distribute to the holder of record of each depositary share relating to that series of preferred stock an amount equal to the dividend or other distribution per depositary share the depositary receives. If there is a distribution of property other than cash, the depositary either will distribute the property to the holders of depositary shares in proportion to the depositary shares held by each of them, or

the depositary will, if we approve, sell the property and distribute the net proceeds to the holders of the depositary shares in proportion to the depositary shares held by them.

Withdrawal of Preferred Stock

A holder of depositary shares will be entitled to receive, upon surrender of depositary receipts representing depositary shares, the number of whole or fractional shares of the applicable series of preferred stock, and any money or other property, to which the depositary shares relate.

Redemption of Depositary Shares

Whenever we redeem shares of preferred stock held by a depositary, the depositary will be required to redeem, on the same redemption date, depositary shares constituting, in total, the number of shares of preferred stock held by the depositary which we redeem, subject to the depositary's receiving the redemption price of those shares of preferred stock. If fewer than all the depositary shares relating to a series are to be redeemed, the depositary shares to be redeemed will be selected by lot or by another method we determine to be equitable.

Voting

Any time we send a notice of meeting or other materials relating to a meeting to the holders of a series of preferred stock to which depositary shares relate, we will provide the depositary with sufficient copies of those materials so they can be sent to all holders of record of the applicable depositary shares, and the depositary will send those materials to the holders of record of the depositary shares on the record date for the meeting. The depositary will solicit voting instructions from holders of depositary shares and will vote or not vote the preferred stock to which the depositary shares relate in accordance with those instructions.

Liquidation Preference

Upon our liquidation, dissolution or winding up, the holder of each depositary share will be entitled to what the holder of the depositary share would have received if the holder had owned the number of shares (or fraction of a share) of preferred stock which is represented by the depositary share.

Conversion

If shares of a series of preferred stock are convertible into common stock or other of our securities or property, holders of depositary shares relating to that series of preferred stock will, if they surrender depositary receipts representing depositary shares and appropriate instructions to convert them, receive the shares of common stock or other securities or property into which the number of shares (or fractions of shares) of preferred stock to which the depositary shares relate could at the time be converted.

Amendment and Termination of a Deposit Agreement

We and the depositary may amend a deposit agreement, except that an amendment which materially and adversely affects the rights of holders of depositary shares, or would be materially and adversely inconsistent with the rights granted to the holders of the preferred stock to which they relate, must be approved by holders of at least two-thirds of the outstanding depositary shares. No amendment will impair the right of a holder of depositary shares to surrender the depositary receipts evidencing those depositary shares and receive the preferred stock to which they relate, except as required to comply with law. We may terminate a deposit agreement with the consent of holders of a majority of the depositary shares to which it relates. Upon termination of a deposit agreement, the depositary will make the whole

or fractional shares of preferred stock to which the depositary shares issued under the deposit agreement relate available to the holders of those depositary shares. A deposit agreement will automatically terminate if:

- All outstanding depositary shares to which it relates have been redeemed or converted;
and/or

- The depositary has made a final distribution to the holders of the depositary shares issued under the deposit agreement upon our liquidation, dissolution or winding up.

Miscellaneous

There will be provisions: (1) requiring the depositary to forward to holders of record of depositary shares any reports or communications from us which the depositary receives with respect to the preferred stock to which the depositary shares relate; (2) regarding compensation of the depositary; (3) regarding resignation of the depositary; (4) limiting our liability and the liability of the depositary under the deposit agreement (usually to failure to act in good faith, gross negligence or willful misconduct); and (5) indemnifying the depositary against certain possible liabilities.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase debt or equity securities. We may issue warrants independently or together with any offered securities. The warrants may be attached to or separate from those offered securities. We will issue the warrants under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all as described in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

The prospectus supplement relating to any warrants that we may offer will contain the specific terms of the warrants. These terms may include the following:

- the title of the warrants;
- the designation, amount and terms of the securities for which the warrants are exercisable;
- the designation and terms of the other securities, if any, with which the warrants are to be issued and the number of warrants issued with each other security;
- the price or prices at which the warrants will be issued;
- the aggregate number of warrants;
- any provisions for adjustment of the number or amount of securities receivable upon exercise of the warrants or the exercise price of the warrants;
- the price or prices at which the securities purchasable upon exercise of the warrants may be purchased;
- if applicable, the date on and after which the warrants and the securities purchasable upon exercise of the warrants will be separately transferable;
- if applicable, a discussion of the material U.S. federal income tax considerations applicable to the exercise of the warrants;
- any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants;

- the date on which the right to exercise the warrants will commence, and the date on which the right will expire;
- the maximum or minimum number of warrants that may be exercised at any time; and
- information with respect to book-entry procedures, if any.

Exercise of Warrants

Each warrant will entitle the holder of warrants to purchase for cash the amount of debt or equity securities, at the exercise price stated or determinable in the prospectus supplement for the warrants. Warrants may be exercised at any time up to the close of business on the expiration date shown in the applicable

prospectus supplement, unless otherwise specified in such prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void. Warrants may be exercised as described in the applicable prospectus supplement. When the warrant holder makes the payment and properly completes and signs the warrant certificate at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement, we will, as soon as possible, forward the debt or equity securities that the warrant holder has purchased. If the warrant holder exercises the warrant for less than all of the warrants represented by the warrant certificate, we will issue a new warrant certificate for the remaining warrants.

FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material federal income tax consequences relating to the acquisition, holding and disposition of common stock, preferred stock or debt securities of Arbor Realty. For purposes of this section under the heading "Federal Income Tax Considerations," references to "Arbor Realty," "we," "our" and "us" mean only Arbor Realty Trust, Inc. and not its subsidiaries or other lower-tier entities, except as otherwise required by the context. However, our indirect subsidiary, SR Inc., like Arbor Realty, has also elected to be taxed as a REIT. The discussion below of the tax requirements for, and consequences of, qualifying as a REIT also applies to SR Inc.'s election to be taxed as a REIT.

This summary is based upon the Internal Revenue Code, the regulations promulgated by the U.S. Treasury Department, rulings and other administrative pronouncements issued by the IRS and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. No advance ruling has been or will be sought from the IRS regarding any matter discussed in this prospectus. The summary is also based upon the assumption that the operation of Arbor Realty, and of its subsidiaries and other lower-tier and affiliated entities, will in each case be in accordance with its applicable organizational documents or partnership agreement. This summary of the material federal income tax consequences of an investment in our stock or debt securities does not purport to discuss all aspects of federal income taxation that may be relevant to a particular investor in light of its investment or tax circumstances, or to investors subject to special tax rules, such as:

- financial institutions;
- insurance companies;
- broker-dealers;
- regulated investment companies;
- holders who receive Arbor Realty stock or debt securities through the exercise of employee stock options or otherwise as compensation;
- persons holding Arbor Realty stock or debt securities as part of a "straddle," "hedge," "conversion transaction," "synthetic security" or other integrated investment;

and, except to the extent discussed below:

- tax-exempt organizations; and
- foreign investors.

This summary assumes that investors will hold our stock or debt securities as capital assets, which generally means as property held for investment.

THE FEDERAL INCOME TAX TREATMENT OF HOLDERS OF ARBOR REALTY STOCK OR DEBT SECURITIES DEPENDS IN SOME INSTANCES ON DETERMINATIONS OF FACT AND INTERPRETATIONS OF COMPLEX PROVISIONS OF FEDERAL INCOME TAX LAW FOR WHICH NO CLEAR PRECEDENT OR AUTHORITY MAY BE AVAILABLE. IN ADDITION, THE TAX CONSEQUENCES OF HOLDING ARBOR REALTY STOCK OR DEBT SECURITIES TO ANY PARTICULAR INVESTOR WILL DEPEND ON THE INVESTOR'S PARTICULAR TAX CIRCUMSTANCES. YOU ARE URGED TO

CONSULT YOUR TAX ADVISOR REGARDING THE FEDERAL, STATE, LOCAL AND FOREIGN INCOME AND OTHER TAX CONSEQUENCES TO YOU, IN LIGHT OF YOUR PARTICULAR INVESTMENT OR TAX CIRCUMSTANCES, OF ACQUIRING, HOLDING, EXCHANGING OR OTHERWISE DISPOSING OF ARBOR REALTY STOCK OR DEBT SECURITIES.

Taxation of Arbor Realty

Arbor Realty and SR Inc. have each elected to be taxed as a REIT, commencing with their initial taxable years, which ended on December 31, 2003 and December 31, 2005, respectively. We believe that such entities were organized and have operated in such a manner as to qualify for taxation as a REIT, and intend to continue to operate in such a manner.

In connection with this prospectus, we received an opinion of the law firm of Skadden, Arps, Slate, Meagher & Flom LLP to the effect that, commencing with Arbor Realty's initial taxable year ended December 31, 2003, Arbor Realty was organized in conformity with the requirements for qualification as a REIT under the Internal Revenue Code, and its actual method of operation through the date hereof has enabled, and its proposed method of operation will enable, it to meet the requirements for qualification and taxation as a REIT. It must be emphasized that an opinion of counsel is expressed as of the date given, is based on various assumptions relating to the organization and operation of Arbor Realty and its affiliates, and is conditioned upon representations and covenants made by the management of Arbor Realty and affiliated entities regarding their organization, assets and the past, present and future conduct of their business operations. Qualification and taxation as a REIT depends on our ability to meet, on a continuing basis, through actual operating results, distribution levels, and diversity of stock ownership, various qualification requirements imposed upon REITs by the Internal Revenue Code and the Treasury regulations issued thereunder, including requirements relating to the nature and composition of our assets and income. Our ability to comply with the REIT asset requirements also depends, in part, upon the fair market values of assets that we own directly or indirectly. Such values may not be susceptible to a precise determination.

While we intend to operate so as to qualify as a REIT, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations and the possibility of future changes in circumstances, no assurance can be given that we will so qualify for any particular year. Counsel will have no obligation to advise us or the holders of our stock of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the IRS, and no assurance can be given that the IRS will not challenge the conclusions set forth in such opinions.

Taxation of REITs in General

As indicated above, qualification and taxation as a REIT depends upon our ability to meet, on a continuing basis, various qualification requirements imposed upon REITs by the Internal Revenue Code. The material qualification requirements are summarized below under "Requirements for Qualification — General." While we intend to operate so as to qualify as a REIT, no assurance can be given that the IRS will not challenge our qualification, or that we will be able to operate in accordance with the REIT requirements in the future. See "— Failure to Qualify" below.

Provided that we meet the requirements for qualification as a REIT, we will generally be entitled to a deduction for dividends that we pay and therefore will not be subject to federal corporate income tax on net income that is distributed, or is treated as distributed, to our stockholders in the year that it is earned. This treatment substantially eliminates the "double taxation" at the corporate and stockholder levels that historically has resulted from investment in a corporation. Rather, income generated by a REIT generally is taxed only at the stockholder level upon a distribution of dividends by the REIT.

Legislation that was enacted in 2003, and subsequently amended, reduces the rate at which most individuals, trusts and estates are taxed on corporate dividends, from a maximum of 38.6% (as ordinary income) to a maximum of 15% (the same as long-term capital gains) for the period through and including the 2010 tax year. With limited exceptions, however, dividends received by stockholders from Arbor Realty or

from other entities that are taxed as REITs will continue to be taxed at rates applicable to ordinary income, which, pursuant to the 2003 and 2006 legislation, will be as high as 35% through 2010. See "Taxation of Stockholders — Taxation of Taxable U.S. Stockholders — Distributions."

Net operating losses, foreign tax credits and other tax attributes of a REIT generally do not pass through to the stockholders of the REIT, subject to special rules for certain items such as capital gains recognized by REITs. See "Taxation of Stockholders."

If we qualify as a REIT, we will nonetheless be subject to federal tax in the following circumstances:

- We will be taxed at regular corporate rates on any undistributed income, including undistributed net capital gains.
- We may be subject to the "alternative minimum tax" on items of tax preference, including any deductions of net operating losses.
- If we have any net income from prohibited transactions, which are, in general, sales or other dispositions of property held primarily for sale to customers in the ordinary course of business, other than foreclosure property, such income will be subject to a 100% tax. See "— Prohibited Transactions," and "— Foreclosure Property," below.
- If we elect to treat property acquired in connection with a foreclosure of a mortgage loan or certain leasehold terminations as "foreclosure property," we may thereby avoid the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), but the income from the sale or operation of the property may be subject to corporate income tax at the highest applicable rate (currently 35%).
- If we derive "excess inclusion income" from an interest in certain mortgage loan securitization structures (i.e., a "taxable mortgage pool" or a residual interest in a real estate mortgage investment conduit, or "REMIC"), we could be subject to corporate level federal income tax at a 35% rate to the extent that such income is allocable to specified types of tax-exempt stockholders known as "disqualified organizations" that are not subject to unrelated business income tax. See "— Taxable Mortgage Pools and Excess Inclusion Income" below.
- If we fail to satisfy the 75% gross income test or the 95% gross income test, as discussed below, but nonetheless maintains REIT qualification because other requirements are met, we will be subject to a 100% tax on an amount based upon the magnitude of the failure, adjusted to reflect the profit margin associated with our gross income.
- If we should fail to satisfy the asset or other requirements applicable to REITs, as described below, yet nonetheless maintain REIT qualification because there is reasonable cause for the failure and other applicable requirements are met, we may be subject to an excise tax. In that case, the amount of the tax will be at least \$50,000 per failure, and, in the case of certain asset test failures, will be determined as the amount of net income generated by the assets in question, multiplied by the highest corporate tax rate (currently 35%) if that amount exceeds \$50,000 per failure.

- If we fail to distribute during each calendar year at least the sum of (a) 85% of our REIT ordinary income for such year, (b) 95% of our REIT capital gain net income for such year and (c) any undistributed taxable income from prior periods, we will be subject to a 4% excise tax on the excess of the required distribution over the sum of (i) the amounts actually distributed, plus (ii) retained amounts on which income tax is paid at the corporate level.
- We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record-keeping requirements intended to monitor compliance with rules relating to the composition of a REIT's stockholders, as described below in "Requirements for Qualification — General."

- A 100% tax may be imposed on some items of income and expense that are directly or constructively paid between a REIT and a taxable REIT subsidiary (as described below) if and to the extent that the IRS successfully adjusts the reported amounts of these items.
- If we acquire appreciated assets from a corporation that is not a REIT (i.e., a corporation taxable under subchapter C of the Internal Revenue Code) in a transaction in which the adjusted tax basis of the assets in our hands is determined by reference to the adjusted tax basis of the assets in the hands of the subchapter C corporation, we may be subject to tax on such appreciation at the highest corporate income tax rate then applicable to the extent that we subsequently recognize that gain on a disposition of any such assets during the ten-year period following their acquisition from the subchapter C corporation.
- The earnings of our subsidiaries could be subject to federal corporate income tax to the extent that such subsidiaries are subchapter C corporations.

In addition, we and our subsidiaries may be subject to a variety of taxes, including payroll taxes and state, local and foreign income, property and other taxes on their assets and operations. We could also be subject to tax in situations and on transactions not presently contemplated.

Requirements for Qualification — General

The Internal Revenue Code defines a REIT as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest;
- (3) that would be taxable as a domestic corporation but for the special Internal Revenue Code provisions applicable to REITs;
- (4) that is neither a financial institution nor an insurance company subject to specific provisions of the Internal Revenue Code;
- (5) the beneficial ownership of which is held by 100 or more persons;
- (6) in which, during the last half of each taxable year, not more than 50% in value of the outstanding stock is owned, directly or indirectly, by five or fewer "individuals" (as defined in the Internal Revenue Code to include specified tax-exempt entities); and
- (7) which meets other tests described below, including with respect to the nature of its income and assets.

The Internal Revenue Code provides that conditions (1) through (4) must be met during the entire taxable year, and that condition (5) must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a shorter taxable year. Arbor Realty's charter provides restrictions regarding the ownership and transfer of its

shares, which are intended to assist in satisfying the share ownership requirements described in conditions (5) and (6) above. For purposes of condition (6), an "individual" generally includes a supplemental unemployment compensation benefit plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes, but does not include a qualified pension plan or profit sharing trust.

To monitor compliance with the share ownership requirements, we are generally required to maintain records regarding the actual ownership of our shares. To do so, we must demand written statements each year from the record holders of specified percentages of our stock in which the record holders are to disclose the actual owners of the shares (i.e., the persons required to include in gross income for tax purposes any dividends that we pay). A stockholder that fails or refuses to comply with the demand is required by Treasury regulations to submit a statement with its tax return disclosing the actual ownership of the shares and other information. A list of those persons failing or refusing to comply with this demand must be maintained as part of our records. A failure to comply with these record-keeping requirements could subject us to monetary

penalties. If we satisfy these requirements and have no reason to know that condition (6) above is not satisfied, we will be deemed to have satisfied that condition.

In addition, a corporation generally may not elect to become a REIT unless its taxable year is the calendar year. We satisfy this requirement.

The Internal Revenue Code provides relief from violations of the REIT gross income and asset requirements, as described below under "— Income Tests," in cases where a violation is due to reasonable cause and not willful neglect, and other requirements are met, including the payment of a penalty tax that is based upon the magnitude of the violation. If we fail to satisfy any of the various REIT requirements, there can be no assurance that these relief provisions would be available to enable us to maintain qualification as a REIT, and, if available, the amount of any resultant penalty tax could be substantial.

Effect of Subsidiary Entities

Ownership of Partnership Interests. In the case of a REIT that is a partner in a partnership, Treasury regulations provide that the REIT is deemed to own its proportionate share of the partnership's assets, and to earn its proportionate share of the partnership's income, for purposes of the asset and gross income tests applicable to REITs as described below. In addition, the assets and gross income of the partnership are deemed to retain the same character in the hands of the REIT. Thus, the proportionate share of the assets and items of income of partnerships in which we own an equity interest (including SR Inc.'s preferred equity interests in certain lower-tier partnerships), are treated as assets and items of income of the relevant REIT for purposes of applying the REIT requirements described below. The REIT's proportionate share is generally determined, for these purposes, based upon its percentage interest in the partnership's equity capital, except that for purposes of the 10% value-based asset test described below, the percentage interest also takes into account certain debt securities issued by the partnership. Consequently, to the extent that we directly or indirectly hold a preferred or other equity interest in a partnership, the partnership's assets and operations may affect our ability to qualify as a REIT, even though we may have no control, or only limited influence, over the partnership. A summary of certain rules governing the federal income taxation of partnerships and their partners is provided below in "Tax Aspects of Investments in Partnerships."

Disregarded Subsidiaries. If a REIT owns a corporate subsidiary that is a "qualified REIT subsidiary," the separate existence of that subsidiary is disregarded for federal income tax purposes, and all assets, liabilities and items of income, deduction and credit of the subsidiary are treated as assets, liabilities and items of income, deduction and credit of the REIT itself, including for purposes of the gross income and asset tests applicable to REITs as summarized below. A qualified REIT subsidiary is any corporation, other than a "taxable REIT subsidiary" as described below, that is wholly owned by a REIT, or by other disregarded subsidiaries, or by a combination of the two. Other entities that are wholly owned by a REIT, including single member limited liability companies, are also generally disregarded as separate entities for federal income tax purposes, including for purposes of the REIT income and asset tests. Disregarded subsidiaries, along with partnerships in which Arbor Realty holds an equity interest, are sometimes referred to herein as "pass-through subsidiaries."

In the event that a disregarded subsidiary of a REIT ceases to be wholly owned — for example, if any equity interest in the subsidiary is acquired by a person other than the REIT or another disregarded subsidiary of the REIT — the subsidiary's separate existence would no longer be disregarded for federal income tax purposes. Instead, it would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect our ability to satisfy the various asset and gross income requirements applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the securities of another corporation. See "— Asset Tests" and "— Income Tests" below.

Taxable Subsidiaries. A REIT, in general, may jointly elect with subsidiary corporations, whether or not wholly owned, to treat the subsidiary corporation as a taxable REIT subsidiary ("TRS"). The separate existence of a TRS or other taxable corporation, unlike that of a disregarded subsidiary as discussed above, is not ignored for federal income tax purposes. Accordingly, such an entity would generally be subject to

corporate income tax on its earnings, which may have the effect of reducing the cash flow generated by us and our subsidiaries in the aggregate, and our ability to make distributions to stockholders.

A REIT is not treated as holding the assets of a taxable subsidiary corporation or as receiving any income that the subsidiary earns. Rather, the stock issued by the subsidiary is taken into account as an asset of the REIT, and the REIT recognizes as income, the dividends, if any, that it receives from the subsidiary. This treatment can affect the income and asset test calculations that apply to the REIT, as described below. Because a parent REIT does not include the assets and income of such subsidiary corporations in determining the parent's compliance with the REIT requirements, such entities may be used by the parent REIT to undertake indirectly activities that the REIT rules might otherwise preclude it from doing directly or through pass-through subsidiaries (for example, activities that give rise to certain categories of nonqualifying income such as management fees or other service income, or gains from the sale of inventory or dealer property).

Subsidiary REITs. In connection with a January 2005 financing that gave rise to a "taxable mortgage pool," the assets of our subsidiary operating partnership, Arbor Realty Limited Partnership, through which we conduct substantially all of our activities and operations, were transferred to SR Inc., which was a newly-formed subsidiary of the operating partnership, and its subsidiaries. SR Inc. has elected and intends to be taxed as a REIT, which, in general, will allow us to avert certain adverse tax consequences that would otherwise result from the presence of the taxable mortgage pool. See "— Taxable Mortgage Pools and Excess Inclusion Income," below, for a discussion of certain issues relating to taxable mortgage pools. Arbor Realty Limited Partnership was previously treated as a partnership for federal income tax purposes, but is now classified as a disregarded subsidiary.

Arbor Realty's interest in the stock of SR Inc., is treated as a qualifying real estate asset of Arbor Realty for purposes of the REIT asset requirements (see "— Asset Tests" below), and any dividend income or gains derived by Arbor Realty from the stock of SR Inc. will generally be treated by Arbor Realty as income that qualifies for purposes of the REIT 95% and 75% income requirements (see "— Income Tests" below), provided, in each case, that SR Inc. is able to qualify as a REIT. Arbor Realty and SR Inc. are separate entities, each of which intends to qualify as a REIT, and each of which must independently satisfy the various REIT qualification requirements as described herein. Substantially all of Arbor Realty's assets are currently held indirectly through SR Inc., however, which effectively ensures that Arbor Realty will satisfy the asset and income requirements applicable to REITs provided that SR Inc. qualifies as a REIT. If SR Inc. were to fail to qualify as a REIT, it would then be a regular taxable corporation, and its income would be subject to federal income tax. In addition, a failure of SR Inc. to qualify as a REIT would likely have an adverse effect on Arbor Realty's ability to comply with the REIT asset and income requirements described below, and thus its ability to qualify as a REIT.

Income Tests

In order to maintain qualification as a REIT, we must satisfy two gross income requirements each year. First, at least 75% of our gross income for each taxable year, excluding gross income from sales of inventory or dealer property in "prohibited transactions" and from certain hedging transactions, generally must be derived from investments relating to real property or mortgages on real property, including "rents from real property," dividends received from other REITs, including SR Inc., provided that SR Inc. is able to qualify as a REIT, interest income derived from mortgage loans secured by real property (including certain types of mortgage backed securities), and gains from the sale of real estate assets, as well as income from some kinds of temporary investments. Second, at least 95% of our gross income in each taxable year, excluding gross income from prohibited transactions and from certain hedging transactions, must be derived from some combination of income that qualifies under the 75% income test described above, as well as other dividends, interest, and gain from the sale or disposition of stock or securities, which need not have any relation to real property. Income and gain from certain hedging transactions is excluded from both the numerator and the denominator for purposes of both the 75% and the 95% gross income tests. See "— Derivatives and Hedging

Transactions."

Interest income constitutes qualifying mortgage interest for purposes of the 75% income test (as described above) to the extent that the obligation is secured by a mortgage on real property. If we receive interest income with respect to a mortgage loan that is secured by both real property and other property, and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property on the date that we acquired or originated the mortgage loan, or are treated as having acquired the instrument if it is restructured in a manner that constitutes a significant modification of its terms, the interest income will be apportioned between the real property and the other collateral, and our income from the arrangement will qualify for purposes of the 75% income test only to the extent that the interest is allocable to the real property. Even if a loan is not secured by real property, or is undersecured, the income that it generates may nonetheless qualify for purposes of the 95% income test.

To the extent that the terms of a loan provide for contingent interest that is based on the cash proceeds realized upon the sale of the property securing the loan (a "shared appreciation provision"), income attributable to the participation feature will be treated as gain from sale of the underlying property, which generally will be qualifying income for purposes of both the 75% and 95% gross income tests, provided that the property is not inventory or dealer property in the hands of the borrower or the REIT.

To the extent that a REIT derives interest income from a mortgage loan or income from the rental of real property where all or a portion of the amount of interest or rental income payable is contingent, such income generally will qualify for purposes of the gross income tests only if it is based upon the gross receipts or sales, and not the net income or profits, of the borrower or lessee. This limitation does not apply, however, where the borrower or lessee leases substantially all of its interest in the property to tenants or subtenants, to the extent that the rental income derived by the borrower or lessee, as the case may be, would qualify as rents from real property had it been earned directly by a REIT, as described below.

Among the assets that we and our subsidiaries hold are mezzanine loans, which are loans secured by equity interests in an entity that directly or indirectly owns real property, rather than by a direct mortgage of the real property. Revenue Procedure 2003-65 issued by the IRS provides a safe harbor pursuant to which a mezzanine loan, if it meets each of the requirements contained in the Revenue Procedure, will be treated by the IRS as a real estate asset for purposes of the REIT asset tests described below, and interest derived from it will be treated as qualifying mortgage interest for purposes of the REIT 75% income test. Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive tax law. While we and our advisors believe, on the basis of relevant regulations and IRS rulings, that our mezzanine loans qualify as real estate assets and give rise to qualifying mortgage interest for purposes of the REIT asset and income requirements, or otherwise do not adversely affect our status as a REIT, such loans do not meet all of the requirements for reliance on the safe harbor, and there can be no assurance that the IRS will not challenge the tax treatment of these loans.

We also hold certain participation interests, or "B-Notes," in mortgage loans and mezzanine loans originated by other lenders. A B-Note is an interest created in an underlying loan by virtue of a participation or similar agreement, to which the originator of the loan is generally a party, along with one or more participants. The borrower on the underlying loan is typically not a party to the participation agreement. The performance of a participant's investment depends upon the performance of the underlying loan, and if the underlying borrower defaults, the participant typically has no recourse against the originator of the loan. The originator often retains a senior position in the underlying loan, and grants junior participations, which will be a first loss position in the event of a default by the borrower. We believe that our participation interests generally qualify as real estate assets for purposes of the REIT asset tests described below, and that interest derived from such investments will be treated as qualifying mortgage interest for purposes of the REIT 75% income test. The appropriate treatment of participation interests for federal income tax purposes is not entirely certain, however, and no assurance can be given that the IRS will not challenge our treatment of such participation interests.

Rents that we derive, including as a result of our ownership of preferred or common equity interests in a partnership that owns rental properties, will qualify as "rents from real property" in satisfying the gross income requirements described above, only if several conditions are met, including the following. If rent is partly

attributable to personal property leased in connection with a lease of real property, the portion of the total rent that is attributable to the personal property will not qualify as "rents from real property" unless it constitutes 15% or less of the total rent received under the lease. Moreover, for rents received to qualify as "rents from real property," the REIT generally must not operate or manage the property or furnish or render services to the tenants of such property, other than through an "independent contractor" from which the REIT derives no revenue. An independent contractor is generally
