PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

1. Basis of Presentation:

The unaudited consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, as well as the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim financial statements have been included. Operating results for the three and nine month periods ended September 30, 2012, are not necessarily indicative of the results that may be expected for the full year ending December 31, 2012.

Certain consolidated financial statement amounts for the three and nine month periods ended September 30, 2011 have been reclassified to conform to the 2012 presentation. These reclassifications had no effect on the net income or accumulated deficit as previously reported.

For further information refer to the financial statements and footnotes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

During the nine months ended September 30, 2012 and 2011, the Company incurred interest expense of \$29,667 and \$0, respectively, all of which has been capitalized as part of the cost of constructing the Puerto Blanco Mill in Mexico.

2. Income (Loss) Per Common Share:

Basic earnings per share is calculated by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated based on the weighted average number of common shares outstanding during the period plus the effect of potentially dilutive common stock equivalents, including warrants to purchase the Company's common stock and convertible preferred stock. Management has determined that the calculation of diluted earnings per share for the three and nine month periods ending September 30, 2012, is not applicable since any additions to outstanding shares related to common stock purchase warrants would be anti-dilutive.

As of September 30, 2012 and 2011, the potentially dilutive common stock equivalents not included in the calculation of diluted earnings per share as their effect would have been anti-dilutive are as follows:

	For the Three Months Ended		For the NineMonths Ended

4. Accounts Receivable and Due to Factor

The Company factors designated trade receivables pursuant to a factoring agreement with LSQ Funding Group L.C., an unrelated factor (the "Factor"). The agreement specifies that eligible trade receivables are factored with recourse. We submit selected trade receivables to the factor, and receive 85% of the face value of the receivable by wire transfer. Upon payment by the customer, we receive the remainder of the amount due from the factor, less a one-time servicing fee of 2% for the receivables factored. This servicing fee is recorded on the consolidated statement of operations in the period of sale to the factor.

Trade receivables assigned to the Factor are carried at the original invoice amount less an estimate made for doubtful accounts. Under the terms of the recourse provision, the Company is required to reimburse the Factor, upon demand, for factored receivables that are not paid on time. Accordingly, these receivables are accounted for as a secured financing arrangement and not as a sale of financial assets. The allowance for doubtful accounts is based on management's regular evaluation of individual customer's receivables and consideration of a customer's financial condition and credit history. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. Interest is not charged on past due accounts.

We present the receivables, net of allowances, as current assets and we present the amount potentially due to the Factor as a secured financing in current liabilities.

5. Commitments and Contingencies:

In 2005, a subsidiary of the Company signed an option agreement that gives it the exclusive right to explore and develop the San Miguel I and San Miguel II concessions for an annual payment of \$50,000, and an option to purchase payment of \$100,000 annually. Total payments will not exceed \$1,430,344, reduced by taxes paid. During the nine months ended September 30, 2012 and the year ended December 31, 2011, \$0 and \$186,956 respectively, was paid and capitalized as mineral rights in accordance with the Company's accounting policies.

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

From time to time, the Company is assessed fines and penalties by the Mine Safety and Health Administration (“MSHA”). Using appropriate regulatory channels, management may contest these proposed assessments. The Company has accrued \$7,360 and \$73,225 in other accrued liabilities as of September 30, 2012, and at December 31, 2011, respectively, related to such assessments.

During the nine months ended September 30, 2012, the Company negotiated a new credit facility increasing the Company’s lines of credit by \$202,000. As part of this agreement, two \$101,000 certificates of deposit were pledged as collateral. The increased loan facility allows us access to borrowings at an interest rate of 3.15% for the portion of the credit line used. At September 30, 2012, we did not have any outstanding line of credit debt.

8. Related Party Transactions

During the first three and nine months of 2012 and 2011, the Company paid \$1,858 and \$23,884 in 2012, and \$43,387 and \$120,259 in 2011, respectively, to directors of the Company for services provided in permitting and other construction related activities at Mexican mill sites.

During the first three and nine months of 2012 and 2011, the Company paid \$15,625 and \$54,340 in 2012, and \$21,330 and \$65,912 in 2011, respectively, to John Lawrence, our President and Chief Executive Officer, as reimbursement for personally owned equipment used by the Company.

9. Stockholder's Equity

Issuance of Common Stock for Cash

During the nine months ending September 30, 2012, the Company sold an aggregate of 2,056,334 shares of unregistered common stock to existing stockholders and other parties for \$5,066,502. In connection with the sales of the Company's common stock, 1,207,750 warrants to purchase shares of the Company's common stock at \$2.50 per share, and 476,917 warrants at \$4.50 per share, were issued. Expenses of \$441,739 connected to the issuance of the unregistered shares were deducted from additional paid in capital. 200,000 shares were issued as an exercise of warrants at \$.30 per share for a total of \$60,000. Also in the first nine months of 2012, 25,265 shares were issued in a cashless exercise of 50,000 warrants, which resulted in an addition of \$263 to capital stock, and a corresponding reduction to additional paid in capital. No share or warrants to purchase shares of the Company's common stock were issued in the first nine months of 2011.

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

Issuance of Common Stock for Services

At December 31, 2011, the Company declared, but did not issue, 95,835 shares of unregistered common stock to be paid to its directors for services, having a fair value of \$230,004, based on the current stock price at the date declared. During the first nine months of 2012, the company issued 149,500 shares of unregistered common stock with a fair market value of \$401,819 to the Directors as compensation for past and future services. During the first nine months of 2012, the Company awarded 39,406 of the remaining 53,665 shares of unregistered common stock to its directors for services. 6,423 new shares with a fair value of \$25,000 were issued to new Directors during 2012. This expense is classified with general and administrative expense in the consolidated statement of operations.

Common Stock Warrants

The Company's Board of Directors has the authority to issue stock warrants for the purchase of preferred or unregistered common stock to directors and employees of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

General

This report contains both historical and prospective statements concerning the Company and its operations. Prospective statements (known as "forward-looking statements") may or may not prove true with the passage of time because of future risks and uncertainties. The Company cannot predict what factors might cause actual results to differ materially from those indicated by prospective statements.

For the three and nine month periods ended September 30, 2012 compared to the three and nine month periods ended September 30, 2011

PART I - FINANCIAL INFORMATION, CONTINUED:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION, CONTINUED:

The pounds of antimony produced and sold was down 19,322 lbs from the prior quarter of 2012 and down 59,599 lbs from the same quarter one year ago, and the sales price per pound was down \$0.76 per lb from the nine month period for the prior year. The pounds of product (raw material) from Mexico increased 11,627 lbs over the same quarter and 66,374 lbs over the nine months from one year ago, but were down 12,714 lbs from the prior quarter of 2012. The flotation plant at Puerto Blanco is on line since early October of 2012, and we should see increased product from Mexico in the upcoming quarters. Costs incurred in getting the Mexico plants in operation were substantial in 2012, and will continue during the remainder of the year as production is being ramped up. Conversely, we will have more antimony products from Mexico to sell, and the cost of raw material per pound of antimony produced will decrease as we are able to work more raw materials from Mexico into our production. In addition, we expect to have increased revenue from precious metals as we process more of the raw materials supplied by our Mexico division. We contracted in July 2012 to install a natural gas pipeline for our Mexico smelter operation. Our fuel costs are our second largest expense after raw material in Mexico, and we are expecting the switch from propane to natural gas to decrease our Mexico fuel costs by 75%. We have spent \$132,000 on the pipeline project as of September 30, 2012, and our projections are that the total cost will be approximately \$1 million. We expect the pipeline to be completed in nine months.

We had sales of precious metals since 2008 as follows:

Silver/Gold	2009	2010	2011	2012 YTD
Ounces Gold Shipped	31.797	101.127	161.711	72.609
Ounces Silver Shipped	6,870.10	31,545.22	17,472.99	16,370.15

The tons of zeolite sold in the third quarter of 2012 decreased by 559 tons sold from the tons sold the third quarter of 2011, but was up by 298 tons for the nine months ended September 30, 2012. The sales price per ton was better than the prior year's sales price. We expect this to continue through the remainder of the year.

Our general and administrative costs are significantly higher than the prior year, and management is aggressively seeking ways to bring this cost down. During the three months ended September 30, 2012, we incurred approximately \$88,000 in one time charges related to our listing on the NYSE MKT stock exchange.

Other	(113,908)	113,908
Net change in cash	\$ 2,371,274	\$ (443,434)

Net cash provided by financing activities during the first nine months of 2012 and 2011 was \$4,423,760 and \$1,132,294, respectively, and was primarily generated from the sale of common stock.

PART I - FINANCIAL INFORMATION, CONTINUED:

Our liquidity (cash) and working capital has improved by approximately \$2.2 million from December 31, 2011. This was primarily due to an increase in cash, which is approximately the net cash received from issuing \$4.7 million of common stock, and expending \$2.3 million for capital improvements and operations. Decreases in our accounts receivable increased our cash position at September 30, 2012, and the primary decreases to cash were for payments of accounts payable, checks issued but not cleared at end of year, and payments on long term debt. We have lines of credit of \$202,000 which have not been drawn on at September 30, 2012.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

We sell our antimony products based on a world market price, and we buy a majority of our raw material based on the same market prices. Analysis of our costs indicate that, for the quarter and nine months ended September 30, 2012, raw materials were approximately 50% of our cost of goods sold. Most of our production costs are fixed in nature, and could not be decreased readily without decreasing our production. During the quarter and nine months ending September 30, 2012, a \$2 per pound decrease in our sales price would have likely caused our gross profit to decrease \$1 per pound.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, as appropriate, to allow timely decisions regarding required disclosure. Our chief financial officer conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of September 30, 2012.

It was determined that there were material weaknesses affecting our disclosure controls and procedures and, as a result of those weaknesses, our disclosure controls and procedures were not effective as of September 30, 2012. These material weaknesses are as follows:

The Company lacks proper segregation of duties. As with any company the size of ours, this lack of segregation of duties is due to limited resources. The president authorizes the majority of the expenditures and signs checks.

During its year-end audit, our independent registered accountants discovered material misstatements in our financial statements that required audit adjustments.

MANAGEMENT'S REMEDIATION INITIATIVES

We are aware of these material weaknesses and plan to put procedures in place to ensure that independent review of material transactions is performed. In addition, we plan to consult with independent experts when complex transactions are entered into.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

Since December 31, 2011 the Company has appointed three independent Director's to an Audit Committee which has been actively involved in the Company's internal controls over financial reporting through communications with the

Company's management and outside auditors.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three month period ended March 31, 2012, the Company sold shares of its restricted common stock directly and through the exercise of outstanding stock purchase warrants as follows: 1,102,500 shares for \$2.00 per share (\$2,205,000), and 200,000 shares for \$.30 per share (\$60,000).

During the three month period ended June 30, 2012, the Company sold shares of its restricted common stock directly and through the exercise of outstanding stock purchase warrants as follows: 953,834 shares for \$3.00 per share (\$2,851,964), and 25,265 shares were issued as a cashless exercise of warrants.

\$441,739 was paid for cost and fees in connection with the issuance of the above shares, and was recorded as a reduction of additional paid in capital.

Common stock sold is restricted as defined under Rule 144. In management's opinion, the offer and sale of the securities were made in reliance on exemptions from registration provided by Section 4(2) and Rule 506 of Regulation D of the Securities Act of 1933, as amended and other applicable Federal and state securities laws. Proceeds received on sales of common stock were used for general corporate purposes.
