NOTES TO CONDENSED

CONSOLIDATED FINANCIAL STATEMENTS

1. Interim Financial Statements

Principles of Consolidation -

The accompanying Condensed Consolidated Financial Statements include the accounts of Kimco Realty Corporation (the "Company"), its subsidiaries, all of which are wholly-owned, and all entities in which the Company has a controlling interest, including where the Company has been determined to be a primary beneficiary of a variable interest entity, ("VIE"), in accordance with the provisions and guidance of Financial Accounting Standards Board ("FASB") Interpretation No. 46(R), Consolidation of Variable Interest Entities ("FIN 46(R)") or meets certain criteria of a sole general partner or managing member as identified, in accordance with Emerging Issues Task Force ("EITF") Issue 04-5, Investors Accounting for an Investment in a Limited Partnership when the Investor is the Sole General Partner and the Limited Partners have Certain Rights ("EITF 04-5"). All inter-company balances and transactions have been eliminated in consolidation. The information furnished is unaudited and reflects all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2006 Annual Report on Form 10-K and current report on Form 8-K dated July 6, 2007.

Income Taxes -

The Company has made an election to qualify, and believes it is operating so as to qualify, as a Real Estate Investment Trust (a "REIT") for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income as defined under Sections 856 through 860 of the Internal Revenue Code, as amended (the "Code"). However, in connection with the Tax Relief Extension Act of 1999, which became effective January 1, 2001, the Company is permitted to participate in certain activities which it was previously precluded from in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries under the Code. As such, the Company will be subject to federal and state income taxes on the income from these activities.

7

In June 2006, the FASB issued Financial Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"), which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes". The interpretation prescribes a recognition threshold and measurement attribute criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Edgar Filing: KIMCO REALTY CORP - Form 10-Q

The Company adopted the provisions of FIN 48 on January 1, 2007. The Company does not have any material unrecognized tax benefits, therefore the adoption of FIN 48 did not have a material impact on the Company's financial position or results of operations.

The Company's policy is to recognize estimated interest and penalties related to unrecognized tax benefits as other expense. The Company believes that it has appropriate support for the income tax positions taken and to be taken on its tax returns and that its accruals for tax liabilities are adequate for all open years (after 2003 for federal and state and after 2001 for Canada) based on an assessment of many factors including past experience and interpretations of tax laws applied to the facts of each matter.

(a) *For the three and six months ended June 30, 2007 and 2006, the effect of certain convertible units would have an anti-dilutive effect upon the calculation of Income from continuing operations per share. Accordingly, the impact of such conversion has not been included in the determination of diluted earnings per share calculations.*

There were approximately 111,750 and 63,750 stock options that were anti-dilutive at June 30, 2007 and 2006, respectively.

New Accounting Pronouncements -

In September 2006, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 157, Fair Value Measurement ("SFAS No. 157"), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The impact of adopting SFAS No. 157 is not expected to have a material impact on the Company's financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ("SFAS No. 159"). SFAS No. 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS No 159 is effective for fiscal years beginning after November 15, 2007. The impact of SFAS No. 159 is not expected to have a material impact on the Company's financial position or results of operations.

In June 2007, the AICPA issued Statement of Position 07-1, Clarification of the Scope of the Audit and Accounting Guide for Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies ("SOP 07-1"), which will become effective for fiscal years beginning on or after December 15, 2007. SOP 07-1 sets forth more stringent criteria for qualifying as an investment company than does the predecessor Audit Guide. In addition, SOP 07-1 establishes new criteria for a parent company or equity method investor to retain investment company accounting in their consolidated financial statements. Investment companies record all their investments at fair value with changes in value reflected in earnings. The impact of adopting SOP 07-1 is not expected to have a material impact on the Company's financial position or results of operations.

The components of Income from operations relating to discontinued operations for the three and six months ended June 30, 2007 and 2006 are shown below. These include the results of operations through the date of each respective sale for properties sold during 2007 and 2006 and the operations for the applicable period for those assets classified as held-for-sale as of June 30, 2007 (in thousands):

During the six months ended June 30, 2007, the Company classified as held-for-sale six shopping center properties comprising approximately 0.3 million square feet of GLA. The book value of each of these properties, aggregating approximately \$48.1 million, net of accumulated depreciation of approximately \$4.1 million, did not exceed each of their estimated fair values. As a result, no adjustment of property carrying value has been recorded. The Company's determination of the fair value for each of these properties, aggregating approximately \$76.6 million, is based primarily upon executed contracts of sale with third parties less estimated selling costs. During 2007, the Company completed the sale of two of these properties.

4. Ground-Up Development

The Company is engaged in ground-up development projects which consist of (i) merchant building through the Company's wholly-owned taxable REIT subsidiary, Kimco Developers, Inc. ("KDI"), which develops neighborhood and community shopping centers and the subsequent sale thereof upon completion, (ii) U.S. ground-up development projects which will be held as long-term investments by the Company and (iii) various ground-up development projects located in Mexico for long-term investment. Edgar Filing: KIMCO REALTY CORP - Form 10-Q

During the six months ended June 30, 2007, KDI acquired five land parcels, in separate transactions, for ground-up development of shopping centers and subsequent sale thereof upon completion for an aggregate purchase price of approximately \$39.8 million.

During the six months ended June 30, 2007, KDI sold, in separate transactions, one completed project, 12 out-parcels and the residential component of a project for approximately \$113.0 million and received approximately \$1.3 million of proceeds from completed earn-out requirements on a previously sold project. These transactions resulted in gains of approximately \$7.7 million, net of income taxes of \$5.1 million.

14

Additionally, during the six months ended June 30, 2007, KDI obtained construction financing on two ground-up development projects for an aggregate loan amount of up to \$31.5 million, of which \$27.4 million was outstanding as of June 30, 2007. As of June 30, 2007, KDI had 12 loans with total commitments of up to \$240.0 million of which \$200.1 million has been funded. These loans have original maturities ranging from three to 25 months and interest rates ranging from 6.87% to 7.22% at June 30, 2007.

Additionally during the six months ended June 30, 2007, the Company acquired, through a wholly owned taxable REIT subsidiary, land in Fairfax City, VA, for a purchase price of approximately \$30.0 million, including the assumption of approximately \$1.4 million of construction loan debt, which bears interest at a rate of LIBOR plus 2.25%. The total commitment on the construction loan is \$31.3 million and matures in April 2009. As of June 30, 2007, there was \$13.1 million funded on the construction loan. The land will be developed into a 0.1 million square foot retail center and will be marketed for sale upon completion. Total estimated project costs are approximately \$26.4 million.

5. Kimsouth

On May 12, 2006, the Company acquired an additional 48% interest in Kimsouth Realty Inc. ("Kimsouth") a joint venture investment in which the Company had previously held a 44.5% non-controlling interest, for approximately \$22.9 million. As a result of this transaction, the Company's total ownership increased to 92.5% and the Company became the controlling shareholder. The Company commenced consolidation of Kimsouth upon the closing date. The acquisition of the additional 48% ownership interest has been accounted for as a step acquisition with the purchase price being allocated to the identified assets and liabilities of Kimsouth. As of January 1, 2006, Kimsouth consisted of five properties, four of which were sold/transferred during 2006.

As of May 12, 2006, Kimsouth had approximately \$133.0 million of net operating loss carry-forwards ("NOLs") which could be utilized to offset future taxable income of Kimsouth. The Company evaluated the need for a valuation allowance based on projected taxable income and determined that a valuation allowance of approximately \$34.2 million was required. As such, a purchase price adjustment of \$17.5 million was recorded.

During June 2006, Kimsouth contributed approximately \$51.0 million, of which \$47.2 million or 92.5% was provided by the Company, to fund its 15% non-controlling interest in a newly formed joint venture with an investment group to acquire a portion of Albertson's Inc. To maximize investment returns, the investment group's strategy with respect to this joint venture, includes refinancing, selling selected stores and the enhancement of operations at the remaining stores. Kimsouth accounts for this investment under the equity method of accounting. During the six months ended June 30, 2007, this joint venture completed the disposition of certain operating stores and a refinancing of the remaining assets in the joint venture. As a result of these transactions Kimsouth received a cash distribution of approximately \$125.3 million. Kimsouth has a remaining capital commitment obligation to fund up to an additional \$15.0 million for general purposes. Due to this remaining capital commitment, excess cash received over the Company's investment of approximately \$9.1 million is included in Other liabilities in the Condensed Consolidated Balance Sheets. During the six months ended June 30, 2007, Kimsouth's income from the Albertson's joint venture aggregated approximately \$39.2 million, net of income tax. This amount includes (i) an operating loss of approximately \$15.1 million, net of an income tax benefit of approximately \$10.1 million and (ii) an extraordinary gain of approximately \$54.3 million, net of income tax expense of approximately \$36.2 million, resulting from purchase price allocation adjustments as determined in accordance with FASB No. 141, Business Combinations. In accordance with Accounting Principles Board Opinion 18, The Equity Method of Accounting for Investments in Common Stock, the Company has classified its 15% share of the extraordinary gain, net of income taxes, as a separate component on the Company's Condensed Consolidated Statements of Income.

16

During 2007, Kimsouth sold its remaining property for an aggregate sales price of approximately \$9.1 million. This sale resulted in a gain of approximately \$7.9 million, net of income taxes.

As a result of the Albertson's transaction and the property sale described above, the Company has reduced the valuation allowance that was applied against Kimsouth NOLs resulting in an income tax benefit of approximately \$24.4 million. At June 30, 2007, Kimsouth has deferred tax assets of approximately \$28.3 million representing the tax effect of approximately \$72.5 million of NOL's that expire from 2021 to 2023. The Company believes that it is more likely than not that a net deferred tax asset of approximately \$18.4 million will be realized on future tax returns, primarily from the generation of future taxable income and therefore, a valuation allowance of \$9.8 million has been established for a portion of these deferred tax assets.

The Company will manage these properties and accounts for its investment in this joint venture under the equity method of accounting.

The Company is entitled to a participation feature of 20% of annual cash flows after debt service and 20% of proceeds from sale or re-finance of the property. The facility bore interest at LIBOR plus 3.0% and had an unused line fee of 0.375%. During April 2007, the Company accepted a pre-payment of approximately \$13.4 million from the borrower as full satisfaction of the loan. The \$13.4 million was comprised of the remaining term loan balance of \$7.5 million, the revolving credit facility of \$5.7 million, and approximately \$0.2 million in pre-payment penalties.

During April 2007, the Company provided a \$30.0 million DIP facility to a medical center. The DIP facility is priced at a fixed rate of 9.5% or LIBOR plus 400 basis points per annum and is collateralized by certain real estate interests of the borrower. The loan matures the earlier of two years or the borrower's emergence from bankruptcy. As of June 30, 2007, the outstanding balance of this credit facility was approximately \$6.0 million.

During April 2007, the Company entered into a CAD \$16.7 million one-year convertible bridge facility with a developer of a ground up retail development project in Ontario, Canada. The facility bears interest at 10% per annum. This facility is secured by the subject property and other properties owned by the borrower and can be converted, at the option of the lender, after one year into a 25% interest in the retail development project. As of June 30, 2007, the outstanding balance of this facility was approximately CAD \$16.7 million (approximately USD \$15.7 million).

These notes were sold at 99.984% of par value. Net proceeds from the issuance were approximately \$297.8 million, after related transaction costs of approximately \$2.2 million. The proceeds from this issuance were primarily used to repay a portion of the outstanding balance under the Company's U.S. revolving credit facility and for general corporate purposes.

The Company maintains an equity participation plan (the “Plan”) pursuant to which a maximum of 42,000,000 shares of the Company’s common stock may be issued for qualified and non-qualified options and restricted stock grants. Unless otherwise determined by the Board of Directors at its sole discretion, options granted under the Plan generally vest ratably over a three or five year term, expire ten years from the date of grant and are exercisable at the market price on the date of grant. Restricted stock grants vest 100% on the fifth anniversary of the grant date. In addition, the Plan provides for the granting of certain options to each of the Company’s non-employee directors (the “Independent Directors”) and permits such Independent Directors to elect to receive deferred stock awards in lieu of directors’ fees.

Effective January 1, 2005, the Company adopted the provisions of SFAS No. 123 (revised 2004), “Share-Based Payment” (“SFAS No. 123(R”). Accordingly, stock-based compensation cost is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite service period.

The Company recognized stock options expense of \$3.2 million and \$2.8 million for the six months ended June 30, 2007 and 2006, respectively. As of June 30, 2007, the Company had \$17.0 million of total unrecognized compensation cost related to unvested stock compensation granted under the Company's Plan. That cost is expected to be recognized over a weighted average period of approximately 2.9 years.

Accordingly, there is no assurance that the Company's expectations will be realized.

The following discussion should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and Notes thereto. Edgar Filing: KIMCO REALTY CORP - Form 10-Q

community shopping centers and the subsequent sale thereof upon completion, (ii) retail real estate advisory and disposition services, which primarily focuses on leasing and disposition strategies of retail real estate controlled by both healthy and distressed and/or bankrupt retailers and (iii) acting as an agent or principal in connection with tax deferred exchange transactions. The Company will consider other investments through taxable REIT subsidiaries should suitable opportunities arise.

In addition, the Company continues to capitalize on its established expertise in retail real estate by establishing other ventures in which the Company owns a smaller equity interest and provides management, leasing and operational support for those properties. The Company also provides preferred equity capital for real estate entrepreneurs and provides real estate capital and advisory services to both healthy and distressed retailers. The Company also makes selective investments in secondary market opportunities where a security or other investment is, in management's judgment, priced below the value of the underlying real estate.

The Company's strategy is to maintain a strong balance sheet while investing opportunistically and selectively. The Company intends to continue to execute its plan of delivering solid growth in earnings and dividends.

Results of Operations

Revenues from rental property increased \$24.8 million or 17.0% to \$170.8 million for the three months ended June 30, 2007, as compared with \$146.0 million for the corresponding quarter ended June 30, 2006. Similarly, revenues from rental property increased \$46.0 million or 16.3% to \$328.9 million for the six months ended June 30, 2007, as compared with \$282.9 million for the corresponding six month period ended June 30, 2006. These net increases resulted primarily from the combined effect of (i) the acquisition of operating properties during 2006 and the six months ended June 30, 2007, providing incremental revenues for the three and six months ended June 30, 2007 of approximately \$20.0 million and \$42.6 million, respectively, (ii) an overall increase in shopping center portfolio occupancy to 95.8% at June 30, 2007, as compared to 94.8% at June 30, 2006 and the completion of certain redevelopment and development projects and tenant buyouts providing incremental revenues of approximately \$5.1 million and \$7.3 million, respectively, for the three and six months ended June 30, 2007 as compared to the corresponding period in 2006, offset by (iii) a decrease in revenues of approximately \$0.3 million and \$3.9 million for the three and six months ended June 30, 2007, respectively, as

28

compared to the corresponding periods last year, resulting from the transfer of operating properties to various unconsolidated joint venture entities, and the sale of certain properties during 2006 and the six months ended June 30, 2007.

Rental property expenses, including depreciation and amortization, increased approximately \$19.1 million or 26.0% to \$92.5 million for the three months ended June 30, 2007, as compared with \$73.5 million for the corresponding quarter ended June 30, 2006. Similarly, for the six months ended June 30, 2007, rental property expenses, including depreciation and amortization, increased \$38.2 million or 27.6% to \$176.7 million as compared with \$138.4 million for the corresponding period in the preceding year. These increases are primarily due to operating property acquisitions during 2007 and 2006 which were partially offset by operating property dispositions including those transferred to various joint venture entities.

Edgar Filing: KIMCO REALTY CORP - Form 10-Q

Mortgage and other financing income decreased \$4.1 million to \$4.6 million for the three months ended June 30, 2007, as compared to \$8.7 million for the corresponding period in 2006. Similarly, mortgage financing income decreased \$5.2 million to \$7.7 million for the six months ended June 30, 2007, as compared to \$12.9 million for the corresponding period in 2006. These decreases are primarily due to the recognition of accretion income of approximately \$6.2 million, resulting from the early pre-payment of a mortgage receivable in 2006 partially offset by an overall increase in interest income on mortgage receivables.

Management and other fee income increased approximately \$1.4 million and \$11.1 million, respectively, for the three and six months ended June 30, 2007, as compared to the corresponding periods in 2006. These increases are primarily due to increased property management fees and other transaction related fees related to the growth in the Company's co-investment programs.

General and administrative expenses increased approximately \$8.2 million and \$14.2 million, respectively for the three and six months ended June 30, 2007, as compared to the corresponding periods in 2006. These increases are primarily due to personnel-related costs, primarily due to growth within the Company's co-investment programs and the overall continued growth of the Company.

Interest, dividends and other investment income decreased approximately \$3.7 million and \$9.8 million for the three and six month periods ended June 30, 2007, respectively, as compared to the corresponding periods in 2006. The decrease in the three months ended June 30, 2007, as compared to the corresponding period in 2006 is primarily due to a decrease in realized gains of approximately \$6.8 million resulting from the sale of certain marketable securities during the corresponding period in 2006, partially offset by an increase in interest income of approximately \$2.8 million primarily due to a bond redemption during 2007. The decrease in the six months ended June 30, 2007, as compared to the corresponding period in 2006 is primarily due to a decrease in realized gains of approximately \$14.6 million resulting from the sale of certain marketable securities during the corresponding period in

29

2006, partially offset by an increase in interest income of approximately \$4.4 million resulting from growth in the Company's marketable securities portfolio during 2006 and 2007.

Other (expense)/income, net decreased \$12.9 million to \$4.6 million in expense for the six months ended June 30, 2007, as compared to \$8.3 million in income for the corresponding period in 2006. This decrease is primarily due to (i) the receipt of fewer shares during 2007 as compared to 2006 of Sears Holding Corp. common stock received as partial settlement of Kmart pre-petition claims and (ii) an increase in Canadian withholding tax expense on profit participation proceeds received during 2007 relating to capital transactions from a Canadian preferred equity investment.

Interest expense increased \$11.3 million and \$18.0 million for the three and six months ended June 30, 2007, as compared to the corresponding periods in 2006. These increases are due to higher interest rates and higher outstanding levels of debt during these periods as compared to the same periods in the preceding year.

Edgar Filing: KIMCO REALTY CORP - Form 10-Q

Benefit for income taxes increased \$31.4 million for the six months ended June 30, 2007, as compared to the corresponding period in 2006. This increase is primarily due to the reduction of approximately \$24.4 million of NOL valuation allowance and a tax benefit of approximately \$10.1 million from operating losses recognized in connection with the Albertson's investment.

Income from other real estate investments increased \$17.0 million to \$32.5 million for the three months ended June 30, 2007, as compared to \$15.4 million for the corresponding period in 2006. Similarly, income from other real estate investments increased \$13.2 million to \$47.0 million for the six months ended June 30, 2007, as compared to \$33.7 million for the corresponding period in 2006. These increases are primarily due to increased activity in the Company's Preferred Equity program which contributed profit of \$30.9 million and \$43.4 million for the three and six months ended June 30, 2007, as compared to \$8.2 million and \$18.1 million for the corresponding periods in 2006.

Equity in income of real estate joint ventures, net increased \$15.5 million to \$42.2 million for the three months ended June 30, 2007, as compared to \$26.8 million for the corresponding period in 2006. Similarly, equity in income of real estate joint ventures, net increased \$28.9 million to \$72.4 million for the six months ended June 30, 2007, as compared with \$43.5 million for the corresponding period in 2006. These increases are primarily attributable to (i) increased equity in income from the Kimco Retail Opportunity Portfolio joint venture investment ("KROP") primarily resulting from profit participation of approximately \$21.2 million and \$28.0 million for the three and six months ended June 30, 2007, respectively, and gains on sale/transfer of 14 operating properties during 2007 of which the Company's share of gains were \$5.3 million and \$9.3 million for the three and six months ended June 30, 2007, respectively and (ii) the Company's growth of its various other real estate joint

30

ventures due to additional capital investments for the acquisition of additional operating properties by the ventures throughout 2006 and the six months ended June 30, 2007, partially offset by operating losses from the Albertson's joint venture of approximately \$5.7 million and \$25.2 million for the three and six months ended June 30, 2007, respectively.

During the six months ended June 30, 2007, KDI sold, in separate transactions, one completed project, 12 out-parcels and the residential component of a project for approximately \$113.0 million and received approximately \$1.3 million of proceeds from completed earn-out requirements on a previously sold project. These transactions resulted in gains of approximately \$7.7 million, net of income taxes of \$5.1 million.

During the six months ended June 30, 2006, KDI sold two recently completed projects and 19 out-parcels, in separate transactions, for approximately \$73.1 million. These sales resulted in gains of approximately \$8.4 million, net of income taxes of \$5.6 million.

During May 2007, a consolidated joint venture in which the Company had a preferred equity investment disposed of a property for a sales price of approximately \$60.9 million. As a result of this capital transaction, the Company received approximately \$20.7 million of profit participation, before minority interest of approximately \$5.4 million. This profit participation has been recorded as income from other real estate investments and is reflected in Income from discontinued operating properties in the Company's Condensed Consolidated Statements of Income.

Edgar Filing: KIMCO REALTY CORP - Form 10-Q

During the six months ended June 30, 2007, the Company (i) disposed of five operating properties and completed partial sales of two operating properties, in separate transactions, for an aggregate sales price of approximately \$30.3 million, which resulted in an aggregate net gain of approximately \$5.8 million, after income tax of approximately \$1.6 million and (ii) transferred one operating property, which was acquired in the first quarter of 2007, to a joint venture in which the Company holds a 15% non-controlling ownership interest for an aggregate price of approximately \$4.5 million, which represented the net book value.

During the six months ended June 30, 2006, the Company disposed of 13 operating properties for an aggregate sales price of \$121.9 million, which resulted in an aggregate net gain of approximately \$29.2 million, after income taxes of \$2.2 million relating to the sale of one property, and transferred five operating properties to joint ventures in which the Company has a 20% non-controlling interest for an aggregate price of approximately \$95.4 million, which resulted in a gain of approximately \$1.4 million for one transferred property.

31

Net income for the three and six months ended June 30, 2007 was \$128.0 million and \$281.8 million, respectively. Net income for the three and six months ended June 30, 2006 was \$108.7 million and \$204.9 million, respectively. On a diluted per share basis, net income increased \$0.06 to \$0.49 for the three month period ended June 30, 2007, as compared to \$0.43 for the corresponding quarter in the previous year. On a diluted per share basis, net income improved \$0.24 to \$1.07 for the six month period ended June 30, 2007, as compared to \$0.83 for the corresponding period in 2006. These increases are attributable to (i) an increase in revenues from rental properties primarily due to acquisitions of operating properties during 2006 and the six months ended June 30, 2007, (ii) an increase in equity in income of real estate joint ventures achieved from profit participation and gains on sale of joint venture operating properties and additional capital investments in the Company's joint venture programs for the acquisition of additional operating properties throughout 2007 and 2006 and (iii) a contribution of \$60.2 million related to the Albertson's investment monetization, partially offset by, (iv) a decrease in income resulting from the sale of certain marketable securities during the corresponding periods in 2006.

Tenant Concentration

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties, avoiding dependence on any single property, and a large tenant base. At June 30, 2007, the Company's five largest tenants were The Home Depot, TJX Companies, Sears Holdings, Kohl's, and Wal-Mart, which represented approximately 3.4%, 2.8%, 2.4%, 2.1% and 2.0%, respectively, of the Company's annualized base rental revenues including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest.

Liquidity and Capital Resources

The Company's cash flow activities are summarized as follows (in millions):

	Six Month Period Ended	
	June 30,	
	2007	2006
Net cash flow provided by operating activities	\$ 392.8	\$ 240.1
Net cash flow used for investing activities	\$ (1,024.4)	\$ (733.4)
Net cash flow provided by financing activities	\$ 396.1	\$ 539.3

Operating Activities

Cash flows from operating activities for the six months ended June 30, 2007 provided cash of approximately \$392.8 million, as compared to approximately \$240.1 million for the comparable period in 2006. The increase of approximately \$152.7 million is primarily attributable to (i) increased cash flows due to the acquisition of

32

properties during 2006 and the six months ended June 30, 2007 and (ii) an increase in distributions from joint ventures primarily received from the Company's investment in KROP resulting from the distribution of profit participation proceeds and distributions in excess of basis from the Albertsons investment.

The Company anticipates that cash flows from operating activities will continue to provide adequate capital to fund its operating and administrative expenses, regular debt service obligations and all dividend payments in accordance with REIT requirements in both the short term and long term. In addition, the Company anticipates that cash on hand, borrowings under its revolving credit facilities, issuance of equity and public debt, as well as other debt and equity alternatives, will provide the necessary capital required by the Company. Net cash flow provided by operating activities for the six months ended June 30, 2007, was primarily attributable to (i) cash flow from the diverse portfolio of rental properties, (ii) the acquisition of operating properties during 2007 and 2006, (iii) new leasing, expansion and re-tenanting of core portfolio properties and (iv) growth in the Company's joint venture and Preferred Equity programs.

Investing Activities

Cash flows from investing activities for the six months ended June 30, 2007 utilized cash of approximately \$1.0 billion, as compared to approximately \$733.4 million for the comparable period in 2006. This increase in cash utilization of \$291.0 million resulted primarily from an increase in acquisition of and improvements to operating real estate and real estate under development and an increase in the Company's investments and advances to joint ventures, partially offset by reimbursements of other investments received in 2007 as compared to 2006.

Acquisitions and Redevelopments -

During the six month period ended June 30, 2007, the Company expended approximately \$671.2 million towards acquisition of and improvements to operating real estate.

The Company has an ongoing program to reformat and re-tenant its properties to maintain or enhance its competitive position in the marketplace. During the six months ended June 30, 2007, the Company expended approximately \$29.5 million in connection with these major redevelopments and re-tenanting projects. The Company anticipates its capital commitment toward these and other redevelopment projects during 2007 will be approximately \$75.0 million to \$100.0 million. The funding of these capital requirements will be provided by cash flow from operating activities and availability under the Company's revolving lines of credit.

33

Investments and Advances to Joint Ventures -

During the six month period ended June 30, 2007, the Company expended approximately \$273.3 million for investments and advances to real estate joint ventures and received approximately \$120.2 million from reimbursements of advances to real estate joint ventures. In addition, the Company received approximately \$52.7 million from reimbursement of other investments.

Ground-up Development -

The Company is engaged in ground-up development projects which consist of (i) merchant building through the Company's wholly-owned taxable REIT subsidiary, KDI, which develops neighborhood and community shopping centers and the subsequent sale thereof upon completion, (ii) U.S. ground-up development projects which will be held as long-term investments by the Company and (iii) various ground-up development projects located in Mexico for long-term investment. The ground-up development projects generally have substantial pre-leasing prior to the commencement of construction. As of June 30, 2007, the Company had in progress a total of 57 ground-up development projects, including 29 merchant building projects, ten U.S. ground-up development projects and 18 ground-up development projects located throughout Mexico.

During the six months ended June 30, 2007, the Company expended approximately \$377.0 million in connection with the purchase of land and construction costs related to these projects. These projects are currently proceeding on schedule and substantially in line with the Company's budgeted costs. The Company anticipates its capital commitment during 2007 toward these and other development projects will be approximately \$550 million to \$600 million. The proceeds from the sales of the completed ground-up development projects, proceeds from construction loans and availability under the Company's revolving lines of credit are expected to be sufficient to fund these anticipated capital requirements.

Dispositions and Transfers -

During the six month period ended June 30, 2007, the Company received net proceeds of approximately \$139.5 million relating to the sale of various operating properties and ground-up development projects and approximately \$45.4 million from the transfer of operating properties to various joint ventures.

Financing Activities

Cash flows from financing activities for the six months ended June 30, 2007 provided cash of approximately \$396.1 million, as compared to approximately \$539.3 million for the comparable period in 2006. This decrease of approximately \$143.2 million resulted primarily from (i) a decrease in proceeds received from the issuance of stock and (ii) repayment of unsecured notes, which matured in 2007, partially

34

offset by (i) a decrease in the repayment of borrowings under the revolving credit facilities in 2007 as compared to 2006 and (ii) an increase in borrowings under the revolving credit facilities in 2007 due to increased acquisitions during the period.

It is management's intention that the Company continually has access to the capital resources necessary to expand and develop its business. As such, the Company intends to operate with and maintain a conservative capital structure with a level of debt to total market capitalization of 50% or less. As of June 30, 2007, the Company's level of debt to total market capitalization was 30%. In addition, the Company intends to maintain strong debt service coverage and fixed charge coverage ratios as part of its commitment to maintaining its investment-grade debt ratings. The Company may, from time-to-time, seek to obtain funds through additional equity offerings, unsecured debt financings and/or mortgage/construction loan financings and other capital alternatives in a manner consistent with its intention to operate with a conservative debt structure.

Since the completion of the Company's IPO in 1991, the Company has utilized the public debt and equity markets as its principal source of capital for its expansion needs. Since the IPO, the Company has completed additional offerings of its public unsecured debt and equity, raising in the aggregate over \$5.2 billion for the purposes of, among other things, repaying indebtedness, acquiring interests in neighborhood and community shopping centers, funding ground-up development projects, expanding and improving properties in the portfolio and other investments.

The Company has an \$850.0 million unsecured revolving credit facility, which is scheduled to expire in July 2008. This credit facility has made available funds to both finance the purchase of properties and other investments and meet any short-term working capital requirements. As of June 30, 2007, there was \$425.0 million outstanding under this credit facility.

Additionally, the Company has a Canadian denominated ("CAD") \$250.0 million unsecured credit facility with a group of banks, which is scheduled to expire in March 2008. Proceeds from this facility are used for general corporate purposes including the funding of Canadian denominated investments. As of June 30, 2007, there was no outstanding balance under this credit facility.

The Company also has a Mexican Peso denominated ("MXP") 500.0 million unsecured revolving credit facility, which is scheduled to expire in May 2008. Proceeds from this facility are used to fund peso denominated investments. As of June 30, 2007, there was no outstanding balance under this facility.

The Company has a MTN program pursuant to which it may, from time-to-time, offer for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities.

During April 2007, the Company issued \$300.0 million of ten-year Senior Unsecured Notes at an interest rate of 5.70% per annum payable semi-annually in arrears. These notes were sold at 99.984% of par value. Net proceeds from the issuance were approximately \$297.8 million, after related transaction costs of approximately \$2.2 million. The proceeds from this issuance were primarily used to repay a portion of the outstanding balance under the Company's U.S. revolving credit facility and for general corporate purposes.

During the six months ended June 30, 2007, the Company repaid its \$30.0 million 7.46% fixed rate notes, which matured on May 20, 2007 and its \$55.0 million 5.75% fixed rate notes, which matured on June 29, 2007.

During May 2006, the Company filed a shelf registration statement on Form S-3ASR, which is effective for a term of three-years, for the future unlimited offerings, from time-to-time, of debt securities, preferred stock, depositary shares, common stock and common stock warrants.

In addition to the public equity and debt markets as capital sources, the Company may, from time-to-time, obtain mortgage financing on selected properties and construction loans to partially fund the capital needs of its ground-up development projects. As of June 30, 2007, the Company had over 430 unencumbered property interests in its portfolio.

In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows, which are expected to increase due to property acquisitions, growth in operating income in the existing portfolio and from other investments. Since cash used to pay dividends reduces amounts available for capital investment, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion and renovation of shopping centers in its portfolio, debt reduction, the acquisition of interests in new properties and other investments as suitable opportunities arise and such other factors as the Board of Directors considers appropriate.

Although the Company receives substantially all of its rental payments on a monthly basis, it generally intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution will be invested by the Company in short-term money market or other suitable instruments. Cash dividends paid for the six months ended June 30, 2007 and 2006 were \$186.8 million and \$160.4 million, respectively.

Other Commitments

In June 2006, the FASB issued Financial Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"), which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes". The interpretation prescribes a recognition threshold and measurement attribute criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

The Company adopted the provisions of FIN 48 on January 1, 2007. The Company does not have any material unrecognized tax benefits, therefore the adoption of FIN 48 did not have a material impact on the Company's financial position or results of operations.

During June 2007, the Company entered into a non-controlling joint venture to acquire all of the common stock of InTown Suites Management, Inc. This investment was funded with approximately \$186.0 million of new cross-collateralized non-recourse mortgage debt with an interest rate of 5.59%, encumbering 35 properties, a \$153.0 million three-year unsecured credit facility, which bears interest at LIBOR plus 0.325% and is guaranteed by the Company and the assumption of \$278.6 million cross-collateralized non-recourse mortgage debt with interest rates ranging from 5.19% to 5.89%, encumbering 86 properties. The joint venture partner has pledged its equity interest for any guaranty payment the Company is obligated to pay.

Effects of Inflation

Many of the Company's leases contain provisions designed to mitigate the adverse impact of inflation. Such provisions include clauses enabling the Company to receive payment of additional rent calculated as a percentage of tenants' gross sales above pre-determined thresholds, which generally increase as prices rise, and/or escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses may include increases based upon changes in the consumer price index or similar inflation indices. In addition, many of the Company's leases are for 10 years or less, which permits the Company to seek to increase rents to market rates upon renewal. Most of the Company's leases require the tenant to pay an allocable share of operating expenses, including common area maintenance costs, real estate taxes and insurance, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation. The Company periodically evaluates its exposure to short-term interest rates and foreign currency exchange rates and will, from time to time, enter into interest rate protection agreements and/or foreign currency hedge agreements which mitigate, but do not eliminate, the effect of changes in interest rates on its floating-rate debt and fluctuations in foreign currency exchange rates.

Based on the Company's variable-rate debt balances, interest expense would have increased by approximately \$3.4 million for the six months ended June 30, 2007 if short-term interest rates were 1% higher.

As of June 30, 2007, the Company had (i) Canadian investments totaling CAD \$452.5 million (approximately USD \$424.7 million) comprised of real estate joint venture investments and marketable securities, (ii) Mexican real estate investments of approximately MXP 6.3 billion (approximately USD \$583.3 million) and (iii) Chilean real estate investments of approximately 3.1 billion Chilean Pesos ("CLP") (approximately USD \$5.9 million). The foreign currency exchange risk has been partially mitigated through the use of local currency denominated debt and a cross currency swap (the "CC Swap") with major financial institutions. The Company is exposed to credit risk in the event of non-performance by the counter-party to the CC Swap. The Company believes it mitigated its credit risk by entering into the CC Swap with major financial institutions.

The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. As of June 30, 2007, the Company had no other material exposure to market risk.
