Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

**CGGVeritas Provides Vessel Utilization Update
for the Second Quarter 2008**

PARIS, France July 10 2008

CGGVeritas (ISIN: 0000120164 NYSE: CGV) provides its vessel utilization and fleet allocation updates for the second quarter of 2008 and announces the release date for the second quarter financial results.

Vessel utilization update for the second quarter 2008:

Going forward, CGGVeritas will publish on a quarterly basis a vessel utilization update. Two indicators will be disclosed:

Vessel availability rate, a metric measuring the structural availability of our vessels to meet demand, is related to the entire fleet and corresponds to the total vessel time, reduced by the sum of the shipyard time and the steaming time (the available time), all then divided by total vessel time;

Vessel production rate, a metric measuring the effective utilization of the vessels once available, is related to the entire fleet and corresponds to the available time reduced by operational downtime and then divided by available time.

During the second quarter 2008,

The **vessel availability rate was 86%**; this compares to a 92% vessel availability rate sequentially and 80% in second quarter 2007;

The **vessel production rate was 80%**; this compares to a 90% vessel production rate sequentially and 86% in second quarter 2007.

As communicated during our first quarter 2008 earnings conference call, the sequentially lower second quarter 2008 utilization rates are in line with management estimates and are based on seasonal steaming, return of vessels for defective maritime equipment and the loss of propulsion incident on the Symphony. All impacted vessels including the Symphony returned to operations in June.

Fleet allocation update for the second quarter 2008:

During the second quarter 2008, our 3D vessels were allocated 75% to contract and 25% to multi-client programs.

Release of second quarter financial results:

Second quarter financial results will be released on Thursday, July 31 2008, before the opening of the Paris and New York stock exchanges:

A press release will be available on our website (www.cggveritas.com) at 8:00 am (US ET) on this date.

A public presentation of the results will be held at 10:00 am at Maison du Barreau, 2-4 rue de Harlay, 75001 Paris. An English language conference call is scheduled at 4:00 pm (Paris time) 3:00 pm (London time) 9:00 am (US CT) 10:00 am (US ET).

About CGGVeritas

CGGVeritas (www.cggveritas.com) is a leading international pure-play geophysical company delivering a wide range of technologies, services and equipment through Sercel, to its broad base of customers mainly throughout the global oil and gas industry.
