An indeterminate number of securities of each identified class are being registered as may from time to time be offered at indeterminate prices, which together shall have an aggregate initial offering price not to exceed \$150,000,000. If any securities are issued in an amount denominated in a foreign currency or composite currency, such amount as shall result in an aggregate initial offering price equivalent thereto in United States dollars at the time of initial offering. The securities registered hereunder also include an indeterminate number of each class of securities as may be issued upon the conversion, exercise or exchange, as applicable, of preferred ordinary shares, (1) debt securities, depositary shares, warrants, subscription rights or units registered hereunder, or pursuant to the anti-dilution provisions of any such securities.

Pursuant to Rule 416 under the Securities Act of 1933, or Securities Act, the shares being registered hereunder include such indeterminate number of shares of ordinary shares and preferred ordinary shares as may be issuable with respect to the shares being registered hereunder as a result of share splits, share dividends or similar transactions.

Pursuant to Rule 429 under the Securities Act and as further described below under the heading “Statement Pursuant to Rule 429(b),” this registration statement covers up to a maximum aggregate offering price of \$150,000,000 of the registrant’s ordinary shares, preferred ordinary shares, debt securities, depositary shares, (2) warrants and/or units, including \$67,500,012 of such securities registered on the registrant’s Registration Statement on Form S-3 first filed on November 25, 2014 (File No. 333-200571) (the “Prior Registration Statement”), which was declared effective on December 11, 2014, that have not yet been sold and are included in this registration statement.

(3) The proposed maximum per unit and aggregate offering prices for each class of securities will be determined from time to time by the registrant in connection with the issuance by the registrant of the securities registered hereunder and is not specified as to each class of security pursuant to General Instruction II.D of Form S-3 under the Securities Act.

Pursuant to Rule 457(p) under the Securities Act, the registrant is applying \$7,843.50 of the registration fee paid in connection with the Prior Registration Statement, representing the aggregate total amount of the filing fee associated with the unsold securities registered on the Prior Registration Statement, to offset \$7,843.50 of the registration fee due hereunder.

(5) If any debt securities are issued at an original issue discount, the offering price of such debt securities shall be in such greater principal amount at maturity as shall result in an aggregate offering price not to exceed \$150,000,000, less the aggregate dollar amount of all securities previously issued hereunder.

(6) Each unit will represent an interest in two or more other securities registered hereunder, which may or may not be separable from one another.

Any securities registered hereunder may be sold separately or as units with other securities registered hereunder.

(7) The proposed maximum offering price per unit will be determined by us in connection with the issuance of the securities. In no event will the aggregate offering price of all securities issued from time to time pursuant to this registration statement exceed \$150,000,000 or the equivalent thereof in one or more foreign currencies, foreign currency units or composite currencies.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment that specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

ABOUT THE COMPANY

Oxford Immunotec Global PLC is a global, high-growth diagnostics company focused on developing and commercializing proprietary tests for the management of underserved immune-regulated conditions. Our proprietary T-SPOT[®] technology platform allows us to measure the responses of specific immune cells to inform the diagnosis, prognosis and monitoring of patients with immune-regulated conditions. Our current development activities are principally focused on four areas: chronic infections, transplantation, autoimmune and inflammatory disease and immune-oncology. We believe these areas are particularly attractive for the development of diagnostic tests because they involve large patient populations and chronic conditions that present the opportunity for both initial diagnosis and additional testing to monitor the conditions. These immune-regulated conditions also tend to be characterized by wide variation in presentation and progression and often require expensive therapies, making diagnostic tests that can better categorize patients and inform treatment pathways particularly useful. We believe the sensitivity of our T-SPOT technology platform, which can measure T cell and innate immune cell responses at a single cell level, well positions us to bring new insights into the diagnosis, prognosis and monitoring of immune-regulated conditions.

Our first product is the TSPOT[®].*TB* test, which is used to test for tuberculosis infection. The T-SPOT.*TB* test has been approved for sale in over 50 countries, including the United States, where it has received pre-market approval from the Food and Drug Administration, Europe, where it has obtained a CE mark, Japan and China. Our second product line is a range of assays for tick-borne diseases, such as Lyme disease, obtained through the acquisitions of Imugen, Inc. and Immunetics, Inc. The T-SPOT.*CMV* test and the T-SPOT.*PRT* test are part of our third product line focused on the transplantation market. In addition to these three product lines, we have active development programs in other immune-regulated conditions.

FORWARD-LOOKING STATEMENTS

This prospectus, any accompanying prospectus supplement and the documents incorporated by reference herein contain “forward-looking statements” as defined in Section 27A of the Securities Act of 1933 (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements do not relate strictly to historical or current facts and anticipate results based on management’s plans that are subject to uncertainty. Forward-looking statements may be identified by the use of words like “plans,” “expects,” “will,” “anticipates,” “estimates” and other words of similar meaning in conjunction with, among other things, discussions of future operations, financial performance, our strategy for growth, product development, regulatory approval, market position and expenditures.

In some cases, you can identify forward-looking statements by the words “may,” “might,” “will,” “would,” “could,” “should,” “intend,” “plan,” “contemplate,” “expect,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “target,” “potential,” “contingent,” “ongoing” and other comparable expressions intended to identify statements about the future, although not all forward-looking statements contain these identifying words. These statements involve substantial known and unknown risks, uncertainties and other factors that may cause our actual results, level of activity, performance or achievements to differ materially from those discussed in these forward-looking statements. Forward-looking statements are neither historical facts nor assurances of future performance. Although we believe that we have a reasonable basis for each forward-looking statement contained in this prospectus, we caution you that these statements are based on a combination of facts and factors currently known by us and our expectations of the future, about which we cannot be certain and that involve substantial risks and uncertainties. Such risks and uncertainties include, but are not limited to:

our history of losses, our ability to achieve or sustain profitability and our ability to manage our growth;

our ability to further develop, commercialize and achieve market acceptance of our current and future products;

our ability to obtain regulatory body clearance to market any of our products;

our ability to successfully develop and complete the acquired in process research and development, or IPR&D, program and profitably commercialize the underlying product candidates before our competitors develop and commercialize similar products, or at all;

continued demand for diagnostic products for tuberculosis and the development of new market opportunities;

our ability to compete successfully and to maintain and expand our sales network;

decisions by insurers and other third party payors with respect to coverage and reimbursement;

our dependence on certain of our customers, suppliers and service providers;

disruptions to our business, including disruptions at our laboratories and manufacturing facilities;

our ability to effectively use our current financial resources and our ability to obtain additional capital resources;

the integrity and uninterrupted operation of our information technology and storage systems;

the impact of currency fluctuations on our business;

our ability to make successful acquisitions or investments and to manage the integration of such acquisitions or investments;

our ability to retain key members of our management;

the impact of taxes on our business, including our ability to use net operating losses;

the impact of legislative and regulatory developments, including healthcare reform, on our business;

the impact of product liability, intellectual property and commercial litigation on our business;

our ability to comply with Securities and Exchange Commission, or SEC, reporting, antifraud, anti-corruption, environmental, health and safety laws and regulations;

our ability to maintain our licenses to sell our products around the world, including in countries such as China and the United States, or U.S., and in the several U.S. states requiring licensure;

our ability to protect and enforce our intellectual property rights;

our status as an emerging growth company and as an English company listing ordinary shares in the U.S.;

the volatility of the price of our shares, substantial future sales of our shares and the fact that we do not pay dividends;

the impact of anti-takeover provisions under United Kingdom, or U.K., law and our articles of association; and

the impact of global economic and political developments, including the referendum to leave the European Union, passed by the U.K. on June 23, 2016, on our business.

As a result of these factors, we cannot assure you that the forward-looking statements in this prospectus will prove to be accurate. Further, if our forward-looking statements prove to be inaccurate, the inaccuracy may be material. In light of the significant uncertainties in these forward-looking statements, you should not regard these statements as a representation or warranty by us that we will achieve our objectives and plans in any specified time frame, or at all. The forward-looking statements in this prospectus represent our views only as of the date of this prospectus. Subsequent events and developments may cause our views to change. While we may elect to update these forward-looking statements at some point in the future, we undertake no obligation to publicly update any forward-looking statements, except as required by law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this prospectus. You should refer to Part I, Item 1A, "Risk Factors" in our 2015 Annual Report on Form 10-K for a discussion of other important factors that may cause our actual results to differ materially from those expressed or implied by our forward-looking statements.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the information under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015, which is incorporated by reference in this prospectus, and which may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future, before deciding whether to invest in our securities. You should also carefully consider the other information included in this prospectus, any accompanying prospectus supplement and other information incorporated by reference herein and therein. If any of the risks described in these documents actually occur, our business, prospects, operating results and financial condition could be materially and adversely affected, which could result in a partial or complete loss of your investment. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business. Additional risk factors may be included in a prospectus supplement relating to a particular offering of securities. This prospectus is qualified in its entirety by these risk factors.

USE OF PROCEEDS

Unless the prospectus supplement indicates otherwise, the net proceeds to be received by us from sales of the securities offered by this prospectus may be used for general corporate purposes, including working capital, repayment and refinancing of borrowings, acquisitions and other capital expenditures. The timing and amount of our actual expenditures will be based on many factors; therefore, unless otherwise indicated in a prospectus supplement, our management will have broad discretion to allocate the net proceeds of the offerings. The specific allocations of the proceeds we receive from the sale of our securities will be described in the applicable prospectus supplement. Pending application of the net proceeds as described, we may initially invest the net proceeds of the offerings in short term, investment-grade, interest-bearing securities or apply them to the reduction of short-term indebtedness.

RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges for each of the five most recently completed fiscal years and any required interim periods will each be specified in a prospectus supplement or in a document that we file with the SEC and incorporate by reference pertaining to the issuance, if any, by us of debt securities in the future.

DIVIDEND POLICY

We have never declared or paid cash dividends on our ordinary shares. We currently intend to retain all available funds and any future earnings, if any, to fund the development and expansion of our business and we do not anticipate paying any cash dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends, if any, will be made at the discretion of our Board of Directors and will depend on then existing conditions, including our results of operations, financial conditions, contractual restrictions, capital requirements, business prospects and other factors our Board of Directors may deem relevant. Under English law, we may pay dividends only out of our accumulated, realized profits, so far as not previously utilized by distribution or capitalization, less our accumulated, realized losses, so far as not previously written off in a reduction or reorganization of capital duly made. Because we are a holding company and have no direct operations, we will only be able to pay dividends from our available cash on hand and any funds we receive from our subsidiaries, including Oxford Immunotec Limited.

DESCRIPTION OF SHARE CAPITAL

The following summary describes our share capital, the material provisions of our articles of association, and applicable provisions of the U.K. Companies Act 2006 (the “Companies Act 2006”). Because the following is only a summary, it does not contain all of the information that may be important to you. For a complete description, you should refer to our articles of association, a copy of which has been previously filed.

DESCRIPTION OF ORDINARY SHARES

We may issue, separately or together with, or upon conversion, exercise or exchange of other securities, ordinary shares, nominal value £0.006705 per share, as set forth in the applicable prospectus supplement. The following description of our share capital is intended as a summary only and is qualified in its entirety by reference to our articles of association, which are incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part, and to the applicable provisions of the Companies Act 2006.

Authorized and outstanding shares. In accordance with the Companies Act 2006, our Board of Directors is authorized by our shareholders to issue and allot up to 36,183,293 ordinary shares (our authorized share capital), nominal value £0.006705 per share. As of December 12, 2016, we had issued and outstanding 22,605,271 of our ordinary shares, held by 11 shareholders of record;

Dividend rights. Holders of outstanding ordinary shares are entitled to receive dividends out of assets legally available at the times and in the amounts as our Board of Directors may determine from time to time. All dividends are declared and paid according to the amounts paid up on the shares in respect of which the dividend is paid. Any dividend unclaimed after a period of 12 years from the date of declaration of such dividend shall be forfeited and shall revert to us. In addition, the payment by our Board of Directors of any unclaimed dividend, interest or other sum payable on or in respect of an ordinary share into a separate account shall not constitute us as a trustee in respect thereof.

Voting rights. Each outstanding ordinary share is entitled to one vote on all matters submitted to a vote of shareholders. Holders of ordinary shares have no cumulative voting rights. None of our shareholders are entitled to vote at any general meeting or at any separate class meeting in respect of any share unless all calls or other sums payable in respect of that share have been paid.

Preemptive rights. There are no rights of preemption under our articles of association in respect of transfers of issued ordinary shares. In certain circumstances, our shareholders may have statutory preemption rights under the Companies Act 2006 in respect of the allotment of new shares. These statutory pre-emption rights would require us to offer new shares for allotment to existing shareholders on a pro rata basis before allotting them to other persons. In such circumstances, the procedure for the exercise of such statutory pre-emption rights would be set out in the documentation by which such ordinary shares would be offered to our shareholders.

Conversion or redemption rights. Our ordinary shares will be neither convertible nor redeemable.

Liquidation rights. Holders of ordinary shares are entitled to participate in any distribution of assets upon a liquidation after payment of all debts and other liabilities and subject to the prior rights of any holders of preferred ordinary shares then outstanding.

Variation of rights. The rights or privileges attached to any class of shares may (unless otherwise provided by the terms of the issue of the shares of that class) be varied or abrogated by a special resolution passed at a general meeting of the shareholders of that class.

Capital calls. Our Board of Directors has the authority to make calls upon the shareholders in respect of any money unpaid on their shares and each shareholder shall pay to us as required by such notice the amount called on its shares. If a call remains unpaid after it has become due and payable, and the 14 days' notice provided by our Board of Directors has not been complied with, any share in respect of which such notice was given may be forfeited by a resolution of our Board of Directors.

Transfer of shares. Our share register is maintained by our transfer agent, Computershare Trust Company, N.A. Registration in this share register is determinative of share ownership. A shareholder who holds our shares through The Depository Trust Company (“DTC”) is not the holder of record of such shares. Instead, the depository (for example, Cede & Co., as nominee for DTC) or other nominee is the holder of record of such shares. Accordingly, a transfer of shares from a person who holds such shares through DTC to a person who also holds such shares through DTC will not be registered in our official share register, as the depository or other nominee will remain the record holder of such shares. The directors may decline to register a transfer of a share that is:

not fully paid or on which we have a lien;

not lodged duly stamped at our registered office or at such other place as the directors may appoint, except where uncertificated shares are transferred without a written instrument;

not accompanied by the certificate of the share to which it relates or such other evidence reasonably required by the directors to show the right of the transferor to make the transfer, except where a certificate has not been issued;

in respect of more than one class of share; or

in the case of a transfer to joint holders of a share, the number of joint holders to whom the share is to be transferred exceeds four.

Limitations on ownership. Under English law and our articles of association, there are no limitations on the right of nonresidents of the United Kingdom or owners who are not citizens of the United Kingdom to hold or vote our ordinary shares.

Listing. Our ordinary shares are listed on The NASDAQ Global Market under the symbol “OXFD.”

Articles of association and English law considerations

Directors

Number. Unless and until we in a general meeting of our shareholders otherwise determine, the number of directors shall not be more than ten and shall not be less than two.

Borrowing powers. Under our directors' general power to manage our business, our directors may exercise all the powers of the Company to borrow money and to mortgage or charge our undertaking, property and uncalled capital or parts thereof and to issue debentures and other securities whether outright or as collateral security for any debt, liability or obligation of the Company or of any third party.

Directors' interests and restrictions.

(a) Our Board of Directors may, in accordance with our articles of association and the requirements of the Companies Act 2006, authorize a matter proposed to us that would, if not authorized, involve a breach by a director of his duty under section 175 of the Companies Act 2006 to avoid a situation in which he or she has, or can have, a direct or indirect interest that conflicts, or possibly may conflict, with our interests. A director is not required, by reason of being a director, to account to the Company for any remuneration or other benefit that he or she derives from a relationship involving a conflict of interest or possible conflict of interest which has been authorized by our Board of Directors.

(b) Provided that he or she has disclosed to the directors the nature and extent of any material interest, a director may be a party to, or otherwise interested in, any transaction, contract or arrangement with us and he or she may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interested in any body corporate promoted by the Company or in which the Company is otherwise interested and that director shall not, by reason of his or her office, be accountable to the Company for any benefit that he or she derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate; and no such transaction or arrangement shall be required to be avoided because of any such interest or benefit.

(c) A director shall not vote at a meeting of the directors in respect of any contract or arrangement or any other proposal whatsoever in which he or she has an interest that (together with any person connected with him or her within the meaning of section 252 of the Companies Act 2006) is to his or her knowledge a material interest, other than (i) an interest in shares or debentures or other securities of the Company, (ii) where permitted by the terms of any authorization of a conflict of interest or by an ordinary resolution, or (iii) in the circumstances set out in paragraph (d) below, and shall not be counted in the quorum at a meeting with respect to any resolution on which he or she is not entitled to vote.

(d) A director shall (in the absence of some material interest other than those indicated below) be entitled to vote (and be counted in the quorum) in respect of any resolution concerning any of the following matters:

(i) the giving of any guarantee, security or indemnity in respect of money lent or obligations incurred by him or her at the request of or for the benefit of us or any of our subsidiaries;

(ii) the giving of any guarantee, security or indemnity in respect of a debt or obligation of ours or any of our subsidiaries for which he or she has assumed responsibility in whole or in part under a guarantee or indemnity or by the giving of security;

(iii) any proposal concerning an offer of shares or debentures or other securities of or by us or any of our subsidiaries for subscription or purchase or exchange in which offer he or she is or will be interested as a participant in the underwriting or sub-underwriting of such offer;

(iv) any proposal concerning any other company in which he or she is interested, directly or indirectly and whether as an officer or shareholder or otherwise, provided that he or she (together with persons connected with him or her) does not to his or her knowledge hold an interest in shares representing one percent or more of the issued shares of any class of such company (or of any third company through which his or her interest is derived) or of the voting rights available to shareholders of the relevant company;

(v) any proposal concerning the adoption, modification or operation of a pension, superannuation fund or retirement, death or disability benefits scheme or an employees' share scheme under which he or she may benefit and which relates to our employees and/or directors and does not accord to such director any privilege or benefit not generally accorded to the persons to whom such scheme relates;

(vi) any proposal under which he or she may benefit concerning the giving of indemnities to our directors or other officers which the directors are empowered to give under our articles of association;

(vii) any proposal concerning a subscription, or an agreement to subscribe, for our shares or other securities or shares or other securities of any of our subsidiaries, or to underwrite, sub-underwrite or guarantee an offer of any such shares or securities by us or any of our subsidiaries for subscription, purchase or exchange;

(viii) any proposal under which he or she may benefit concerning the purchase, funding and/or maintenance of insurance for any of our directors or other officers that the directors are empowered to purchase, fund or maintain under our articles of association; and

(ix) any proposal under which he or she may benefit concerning the provision to directors of funds to meet expenditures in defending proceedings.

(e) Where proposals are under consideration to appoint two or more directors to offices or employments with us or with any company in which we are interested or to fix or vary the terms of such appointments, such proposals may be divided and considered in relation to each director separately and in such case each of the directors concerned (if not prohibited from voting under paragraph (d)(iv) above) shall be entitled to vote (and be counted in the quorum) in respect of each resolution except that concerning his or her own appointment.

(f) If any question shall arise at any meeting as to the materiality of a director's interest or as to the entitlement of any director to vote and such question is not resolved by his agreeing voluntarily to abstain from voting, such question shall be referred to the chairman of the meeting (or, where the interest concerns the chairman, to the deputy chairman of the meeting) and his or her ruling in relation to any director shall be final and conclusive except in a case where the nature or extent of the interests of the director concerned have not been disclosed fairly.

Remuneration.

(a) Each of the directors may (in addition to any amounts payable under paragraph (b) and (c) below or under any other provision of our articles of association) be paid out of the funds of our company such fees as the directors may from time to time determine.

(b) Any director who is appointed to hold any employment or executive office with us or who, at our request, goes or resides abroad for any of our purposes or who otherwise performs services that in the opinion of the directors are outside the scope of his or her ordinary duties may be paid such additional remuneration (whether by way of salary, commission, participation in profits or otherwise) as the directors (or any duly authorized committee of the directors) may determine either in addition to or in lieu of any other remuneration.

(c) Each director may be paid his or her reasonable travelling expenses (including hotel and incidental expenses) of attending and returning from meetings of the directors or committees of the directors or general meetings or any separate meeting of the holders of any class of our shares or any other meeting that as a director he or she is entitled to attend and shall be paid all expenses properly and reasonably incurred by him or her in the conduct of our company's business or in the discharge of his or her duties as a director.

Pensions and other benefits. The directors may exercise all the powers of our company to provide benefits, either by the payment of gratuities or pensions or by insurance or in any other manner whether similar to the foregoing or not, for any director or former director, or any person who is or was at any time employed by, or held an executive or other office or place of profit in, our company or any company that is or has been a subsidiary of our company or a predecessor of the business of our company or of any such subsidiary and for the families and persons who are or was a dependent of any such persons and for the purpose of providing any such benefits contribute to any scheme trust or fund or pay any premiums.

Appointment and retirement of directors

(a) The directors shall have power to appoint any person who is willing to act as a director, either to fill a vacancy or as an additional director so long as the total number of directors shall not exceed the maximum number (if any) fixed by our company in a general meeting. Any director so appointed shall retire from office at our annual general meeting following such appointment. Any director so retiring shall be eligible for re-election.

(b) Our shareholders may by ordinary resolution elect any person who is willing to act as a director either to fill a vacancy or as an addition to the existing directors or to replace a director removed from office under our articles of association so long as the total number of directors does not at any time exceed the maximum number (if any) fixed by our company in a general meeting.

(c) At each annual general meeting a minimum number equal to one-third of the number of those directors who are not due to retire at the annual general meeting under sub-paragraph (a) above (referred to for the purposes of this section as “relevant directors”) (or, if their number is not a multiple of three, the number nearest to but not greater than one-third) shall retire from office. Directors retiring under paragraph (e) below shall be counted as part of this minimum number.

(d) The directors to retire by rotation pursuant to paragraph (c) above shall include (so far as necessary to obtain the minimum number required and after taking into account the directors to retire under paragraph (e) below) any relevant director who wishes to retire and not be re-elected. Any further directors to retire shall be those of the other relevant directors who have been longest in office since their last re-election or appointment and so that as between persons who became or were last re-elected directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lot.

(e) In any event, each director shall retire and shall (unless his or her terms of appointment with our company specify otherwise) be eligible for re-election at the annual general meeting held in the third calendar year (or such earlier calendar year as may be specified for this purpose in his terms of appointment with our company) following his last appointment, election or re-election at any general meeting of our company.

(f) At the meeting at which a director retires under any provision of our articles of association, our shareholders may by ordinary resolution fill the vacated office by appointing a person to it, and in default the retiring director shall be deemed to have been re-appointed except where:

(i) that director has given notice to us that he or she is unwilling to be elected; or

(ii) at such meeting it is expressly resolved not to fill such vacated office or a resolution for the reappointment of such director shall have been put to the meeting and not passed.

(g) In the event of the vacancy not being filled at such meeting, it may be filled by the directors as a vacancy in accordance with sub-paragraph (a) above.

(h) The retirement of a director pursuant to paragraphs (c), (d) and (e) shall not have effect until the conclusion of the relevant meeting except where a resolution is passed to elect some other person in the place of the retiring director or a

resolution for his re-election is put to the meeting and not passed and accordingly a retiring director who is re-elected or deemed to have been re-elected will continue in office without break.

7

Indemnity of officers. Each of our directors and certain other officers are entitled to be indemnified by us against all costs, charges, losses, expenses and liabilities incurred by such director or officer in the execution and discharge of his or her duties or in relation to those duties. The Companies Act 2006 renders void an indemnity for a director against any liability attaching to him in connection with any negligence, default, breach of duty or breach of trust in relation to the company of which he or she is a director.

Shareholders meetings

Annual general meetings. Each year, we will hold a general meeting of our shareholders in addition to any other meetings in that year, and will specify the meeting as such in the notice convening it. The annual general meeting will be held at such time and place as the directors may appoint.

Quorum of meetings. No business shall be transacted at any general meeting unless a quorum is present when the meeting proceeds to business, but the absence of a quorum shall not preclude the appointment of a chairman, which appointment shall not be treated as part of the business of a meeting. A quorum is present where members or representatives (in the case of a corporate member) holding one-third of our outstanding share capital are present in person or by proxy.

Other English law considerations

Mandatory purchases and acquisitions. Pursuant to sections 979 to 991 of the Companies Act 2006, where a takeover offer has been made for us and the offeror has acquired or unconditionally contracted to acquire not less than 90% of the voting rights carried by the shares to which the offer relates, the offeror may give notice to the holder of any shares to which the offer relates that the offeror has not acquired or unconditionally contracted to acquire that it desires to acquire those shares on the same terms as the general offer.

Disclosure of interest in shares. Pursuant to Part 22 of the Companies Act 2006 and our articles of association, we are empowered by notice in writing to require any person whom we know to be, or have reasonable cause to believe to be, interested in our shares, or at any time during the three years immediately preceding the date on which the notice is issued has been so interested, within a reasonable time to disclose to us the details of that person's interest and (so far as is within such person's knowledge) details of any other interest that subsists or subsisted in those shares. Under our articles of association, if a person defaults in supplying us with the required details in relation to the shares in question, or Default Shares, a court may order that:

in respect of the Default Shares, the relevant member shall not be entitled to vote or exercise any other right conferred by membership in relation to general meetings; and/or

where the Default Shares represent at least 0.25% of their class, (a) any dividend or other money payable in respect of the Default Shares shall be retained by us without liability to pay interest, and/or (b) no transfers by the relevant person of shares other than approved transfers may be registered (unless such person is not in default and the transfer does not relate to Default Shares), and/or (c) any shares held by the relevant person in uncertificated form shall be converted into certificated form.

Purchase of own shares. Under English law, a public limited company may purchase its own shares only out of the distributable profits of the company or the proceeds of a new issue of shares made for the purpose of financing the purchase. A public limited company may not purchase its own shares if as a result of the purchase there would no longer be any issued shares of the company other than redeemable shares or shares held as treasury shares. Subject to the foregoing, because The NASDAQ Global Market is not a “recognized investment exchange” under the Companies Act 2006, we may purchase our own fully paid shares only pursuant to a purchase contract authorized by ordinary resolution of the holders of our ordinary shares before the purchase takes place. Any authority will not be effective if any shareholder from whom we propose to purchase shares votes on the resolution and the resolution would not have been passed if such shareholder had not done so. The resolution authorizing the purchase must specify a date, not being later than five years after the passing of the resolution, on which the authority to purchase is to expire.

A share buy-back by us of our ordinary shares will give rise to U.K. stamp duty at the rate of 0.5% of the amount or value of the consideration payable by us, and such stamp duty will be paid by us.

DESCRIPTION OF PREFERRED ORDINARY SHARES

Our Board of Directors may, from time to time, following an ordinary resolution of the ordinary shareholders granting authority to the directors to allot shares and special resolution of the ordinary shareholders to amend the articles of association (and disapply pre-emption rights, if not already disappplied), direct the issuance of preferred ordinary shares in series and may, at the time of issuance, determine the designations, powers, preferences, privileges, and relative participating, optional or special rights as well as the qualifications, limitations or restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights of the ordinary shares. Satisfaction of any dividend preferences of outstanding preferred ordinary shares would reduce the amount of funds available for the payment of dividends on ordinary shares. Holders of preferred ordinary shares may be entitled to receive a preference payment in the event of our liquidation before any payment is made to the holders of ordinary shares. The rights, preferences, privileges and restrictions of any series of preferred ordinary shares will be described in the applicable prospectus supplement. As of the date of this prospectus, no shares of preferred ordinary shares are outstanding and we have no present intention to issue any preferred ordinary shares.

The issuance of preferred ordinary shares will affect, and may adversely affect, the rights of holders of ordinary shares. It is not possible to state the actual effect of the issuance of any preferred ordinary shares on the rights of holders of ordinary shares until our Board of Directors determines the specific rights, preferences and privileges attached to that series of preferred ordinary shares. The effects of issuing preferred ordinary shares could include one or more of the following:

restricting dividends on the ordinary shares;

diluting the voting power of the ordinary shares;

impairing the liquidation rights of the ordinary shares; or

delaying or preventing changes in control or management of our company.

The applicable prospectus supplement will specify the terms of the series of preferred ordinary shares being offered, including the following:

the number of preferred ordinary shares being offered;

the designation of the series of preferred ordinary shares;

the per share purchase price of the preferred ordinary shares;

the dividend rate or method of determining the dividend rate, if any, including whether the dividend rate is fixed or variable;

the date or dates on which dividends will accrue and the dividend payment dates;

whether dividends will be cumulative or non-cumulative and, if cumulative, the dates from which dividends will accrue;

the price and the terms and conditions for redemption, if any, including redemption at our option or at the option of the holders, the time period for redemption, and any accumulated dividends or premiums;

the liquidation preference, if any, and any accumulated dividends upon the liquidation, dissolution or winding up of our affairs;

any sinking fund or similar provision, and, if so, the terms and provisions relating to the purpose and operation of the fund;

the terms and conditions, if any, for conversion or exchange of preferred ordinary shares for any other class or classes of our securities, including the price or the rate of conversion or exchange and the method, if any, of adjustment;

the voting rights of the preferred ordinary shares;

any exchange on which the preferred ordinary shares will be listed;

any or all other preferences and relative, participating, optional or other special rights, privileges or qualifications, limitations or restrictions; and

the material United States federal income tax consequences relating to the purchase and ownership of the series of preferred ordinary shares that is described in the prospectus supplement.

Preferred ordinary shares will be fully paid and nonassessable upon issuance.

Rank

Unless otherwise specified in the applicable prospectus supplement, the preferred ordinary shares will, with respect to distribution rights and rights upon liquidation, dissolution or winding up of the Company, rank (i) senior to our ordinary shares and to any series of preferred ordinary shares which specifically provides that it will rank junior to the preferred ordinary shares being offered, (ii) junior to any series of preferred ordinary shares which specifically provides that it will rank senior to the preferred ordinary shares being offered and (iii) on parity with any other series of preferred ordinary shares.

Dividend Rights

Holders of preferred ordinary shares will have the dividend rights set forth in the applicable prospectus supplement. Dividends on any series of preferred ordinary shares, if cumulative, will be cumulative from and after the date set forth in the applicable prospectus supplement. Any restriction on the repurchase or redemption of shares of preferred ordinary shares while dividends on such shares are in arrears shall be set forth in the applicable prospectus supplement.

Transfer Agent and Registrar

We will appoint a transfer agent and registrar for the preferred ordinary shares that will be set forth in the applicable prospectus supplement.

DESCRIPTION OF DEBT SECURITIES

The following description, together with the additional information we include in any applicable prospectus supplement, summarizes certain general terms and provisions of the debt securities that we may offer under this prospectus. When we offer to sell a particular series of debt securities, we will describe the specific terms of the series in a supplement to this prospectus. We will also indicate in the supplement to what extent the general terms and provisions described in this prospectus apply to a particular series of debt securities.

We may issue debt securities either separately, or together with, or upon the conversion or exercise of or in exchange for, other securities described in this prospectus. Debt securities may be our senior, senior subordinated or subordinated obligations and, unless otherwise specified in a supplement to this prospectus, the debt securities will be our direct, unsecured obligations and may be issued in one or more series.

The debt securities will be issued under an indenture between us and a third party to be identified therein as trustee. We have summarized select portions of the indenture below. The summary is not complete. The form of the indenture has been filed as an exhibit to the registration statement and you should read the indenture for provisions that may be important to you. In the summary below, we have included references to the section numbers of the indenture so that you can easily locate these provisions. Capitalized terms used in the summary and not defined herein have the meanings specified in the indenture.

We may issue debt securities that provide for an amount less than their stated principal amount to be due and payable upon declaration of acceleration of their maturity pursuant to the terms of the indenture. We will provide you with information on the United States federal income tax considerations and other special considerations applicable to any of these debt securities in the applicable prospectus supplement.

If we denominate the purchase price of any of the debt securities in a foreign currency or currencies or a foreign currency unit or units, or if the principal of and any premium and interest on any series of debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, we will provide you with information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of debt securities and such foreign currency or currencies or foreign currency unit or units in the applicable prospectus supplement.

Transfer and Exchange

Each debt security will be represented by either one or more global securities registered in the name of DTC, or a nominee of DTC (we will refer to any debt security represented by a global debt security as a “book-entry debt security”), or a certificate issued in definitive registered form (we will refer to any debt security represented by a certificated security as a “certificated debt security”) as set forth in the applicable prospectus supplement. Except as set forth under the heading “Global Debt Securities and Book-Entry System” below, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. (Section 2.4) No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange. (Section 2.7)

You may effect the transfer of certificated debt securities and the right to receive the principal of, premium, if any, and interest on certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, DTC, registered in the name of DTC or a nominee of DTC, and follow the applicable procedures of the DTC.

Covenants

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities. (Article IV)

No Protection in the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Consolidation, Merger and Sale of Assets

We may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to any person (a “successor person”) unless:

we are the surviving corporation or the successor person (if other than Oxford Immunotec) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture; and

immediately after giving effect to the transaction, no Default or Event of Default, shall have occurred and be continuing.

Notwithstanding the above, any of our subsidiaries may consolidate with, merge into or transfer all or part of its properties to us. (Section 5.1)

Events of Default

“Event of Default” means with respect to any series of debt securities, any of the following:

default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of such default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);

default in the payment of principal of any security of that series at its maturity;

default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee or Oxford Immunotec and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding debt securities of that series as provided in the indenture;

certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of Oxford Immunotec; and

any other Event of Default provided with respect to debt securities of that series that is described in the applicable prospectus supplement. (Section 6.1)

No Event of Default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an Event of Default with respect to any other series of debt securities. (Section 6.1) The occurrence of certain Events of Default or an acceleration under the indenture may constitute an event of default under certain indebtedness of ours or our subsidiaries outstanding from time to time.

We will provide the trustee written notice of any Default or Event of Default within 30 days of becoming aware of the occurrence of such Default or Event of Default, which notice will describe in reasonable detail the status of such Default or Event of Default and what action we are taking or propose to take in respect thereof. (Section 6.1)

If an Event of Default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all Events of Default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. (Section 6.2) We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

The indenture provides that the trustee may refuse to perform any duty or exercise any of its rights or powers under the indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in performing such duty or exercising such right or power. (Section 7.1(e)) Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series. (Section 6.12)

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

that holder has previously given to the trustee written notice of a continuing Event of Default with respect to debt securities of that series; and

the holders of not less than 25% in principal amount of the outstanding debt securities of that series have made written request, and offered indemnity or security satisfactory to the trustee, to the trustee to institute the proceeding as trustee, and the trustee has not received from the holders of not less than a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days. (Section 6.7)

Notwithstanding any other provision in the indenture, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, premium and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment. (Section 6.8)

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. (Section 4.3) If a Default or Event of Default occurs and is continuing with respect to the securities of any series and if it is known to a responsible officer of the trustee, the trustee shall deliver (or electronically deliver while Notes are in global form) to each Security holder of the securities of that series notice of a Default or Event of Default within 90 days after it occurs or, if later, after a responsible officer of the trustee has knowledge of such Default or Event of Default. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any Default or Event of Default (except in payment on any debt securities of that series) with respect to debt securities of that series if the trustee determines in good faith that withholding notice is in the interest of the holders of those debt securities. (Section 7.5)

Modification and Waiver

We and the trustee may modify, amend or supplement the indenture or the debt securities of any series without the consent of any holder of any debt security:

to cure any ambiguity, defect or inconsistency;

to comply with covenants in the indenture described above under the heading “Consolidation, Merger and Sale of Assets;”

to provide for uncertificated securities in addition to or in place of certificated securities;

to add guarantees with respect to debt securities of any series or secure debt securities of any series;

to surrender any of our rights or powers under the indenture;

to add covenants or events of default for the benefit of the holders of debt securities of any series;

to comply with the applicable procedures of the applicable depositary;

to make any change that does not adversely affect the rights of any holder of debt securities;

to provide for the issuance of and establish the form and terms and conditions of debt securities of any series as permitted by the indenture;

to effect the appointment of a successor trustee with respect to the debt securities of any series and to add to or change any of the provisions of the indenture to provide for or facilitate administration by more than one trustee; or

to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act. (Section 9.1)

We may also modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

reduce the amount of debt securities whose holders must consent to an amendment, supplement or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;

reduce the principal of or premium on or change the fixed maturity of any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default in the payment of the principal of, premium or interest on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);

make the principal of or premium or interest on any debt security payable in currency other than that stated in the debt security;

make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, premium and interest on those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; or

waive a redemption payment with respect to any debt security. (Section 9.3)

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. (Section 9.2) The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, any premium or any interest on any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration. (Section 6.13)

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (subject to certain exceptions). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money or U.S. government obligations in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal, premium, if any, and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the beneficial owners of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred. (Section 8.3)

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

we may omit to comply with the covenant described under the heading “Consolidation, Merger and Sale of Assets” and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and

any omission to comply with those covenants will not constitute a Default or an Event of Default with respect to the debt securities of that series (“covenant defeasance”).

The conditions include:

depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and

delivering to the trustee an opinion of counsel to the effect that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred. (Section 8.4)

No Personal Liability of Directors, Officers, Employees or Shareholders

None of our past, present or future directors, officers, employees or shareholders, as such, will have any liability for any of our obligations under the debt securities or the indenture or for any claim based on, or in respect or by reason of, such obligations or their creation. By accepting a debt security, each holder waives and releases all such liability. This waiver and release is part of the consideration for the issue of the debt securities. However, this waiver and release may not be effective to waive liabilities under U.S. federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

Governing Law

The indenture and the debt securities, including any claim or controversy arising out of or relating to the indenture or the securities, will be governed by the laws of the State of New York.

The indenture will provide that we, the trustee and the holders of the debt securities (by their acceptance of the debt securities) irrevocably waive, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to the indenture, the debt securities or the transactions contemplated

thereby.

The indenture will provide that any legal suit, action or proceeding arising out of or based upon the indenture or the transactions contemplated thereby may be instituted in the federal courts of the United States of America located in the City of New York or the courts of the State of New York in each case located in the City of New York, and we, the trustee and the holder of the debt securities (by their acceptance of the debt securities) irrevocably submit to the non-exclusive jurisdiction of such courts in any such suit, action or proceeding. The indenture will further provide that service of any process, summons, notice or document by mail (to the extent allowed under any applicable statute or rule of court) to such party's address set forth in the indenture will be effective service of process for any suit, action or other proceeding brought in any such court. The indenture will further provide that we, the trustee and the holders of the debt securities (by their acceptance of the debt securities) irrevocably and unconditionally waive any objection to the laying of venue of any suit, action or other proceeding in the courts specified above and irrevocably and unconditionally waive and agree not to plead or claim any such suit, action or other proceeding has been brought in an inconvenient forum. (Section 10.10)

DESCRIPTION OF DEPOSITARY SHARES

We may, at our option, elect to offer fractional or multiple shares of ordinary shares or preferred ordinary shares, rather than single ordinary shares or preferred ordinary shares (to be set forth in the prospectus supplement relating to such depositary shares). In the event we elect to do so, depositary receipts evidencing depositary shares will be issued to the public.

The ordinary shares or any class or series of preferred ordinary shares represented by depositary shares will be deposited under a deposit agreement among us, a depositary selected by us, and the holders of the depositary receipts. The depositary will be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable fraction of an ordinary share or preferred ordinary shares represented by such depositary share, to all the rights and preferences of the ordinary shares or preferred ordinary shares represented by the depositary share, including dividend, voting, redemption and liquidation rights.

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional ordinary shares or the related class or series of preferred shares in accordance with the terms of the offering described in the related prospectus supplement.

DESCRIPTION OF WARRANTS

We may issue, separately or together with other securities, warrants to purchase ordinary shares. Each series of warrants will be issued under a separate warrant agreement, the terms of which will be described in the applicable prospectus supplement. The following summary of the terms of the warrants does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the terms of the warrants as well as the form of warrant agreement and the terms of the applicable underlying securities. Therefore, you should carefully consider the actual provisions of these documents.

The particular terms of any issue of warrants will be described in the prospectus supplement relating to the issue. Those terms may include:

the number of securities purchasable upon the exercise of warrants to purchase such shares and the price at which such number of securities may be purchased upon such exercise;

the designation, stated value and terms (including, without limitation, liquidation, dividend, conversion and voting rights) of the securities purchasable upon exercise of warrants;

the date(s) on which the right to exercise the warrants will commence and the date(s) on which the right will expire;

United States federal income tax consequences applicable to the warrants;

provision for changes to or adjustments in the exercise price;

the terms of any anti-dilution or other adjustment provisions;

the terms of any mandatory or optional call provisions;

if applicable, the date on and after which the warrants and the ordinary shares, preferred ordinary shares or debt securities underlying the warrants will be separately transferable;

information with respect to book entry procedures;

the identity of the warrant agent; and

any additional terms of the warrants, including terms, procedures, and limitations relating to the exchange, exercise and settlement of the warrants.

Holders of equity warrants will not be entitled:

to vote, consent or receive dividends;

receive notice as shareholders with respect to any meeting of shareholders for the election of our directors or any other matter; or

exercise any rights as shareholders of the Company.

Debt warrant certificates will be exchangeable for new debt warrant certificates of different denominations. Debt warrants may be exercised at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement.

DESCRIPTION OF UNITS

We may issue units comprised of one or more of the other securities described in this prospectus or any prospectus supplement in any combination. Each unit will be issued so that the holder of the unit is also the holder, with the rights and obligations of a holder, of each security included in the unit. The units may be issued under unit agreements to be entered into between us and a unit agent, which may provide that the securities included in the unit may not be held or transferred separately, at any time or any times before a specified date or upon the occurrence of a specified event or occurrence.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;

the terms of the unit agreement governing the units;

United States federal income tax considerations relevant to the units; and

whether the units will be issued in fully registered global form.

This summary of certain general terms of units and any summary description of units in the applicable prospectus supplement do not purport to be complete and are qualified in their entirety by reference to all provisions of the applicable unit agreement and, if applicable, collateral arrangements and depositary arrangements relating to such units. The forms of the unit agreements and other documents relating to a particular issue of units will be filed with the SEC each time we issue units, and you should read those documents for provisions that may be important to you.

PLAN OF DISTRIBUTION

We may sell the securities offered under this prospectus from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods or through underwriters, dealers or agents or directly to one or more purchasers. The securities may be distributed from time to time in one or more transactions at:

- a fixed price or prices, which may be changed;
- market prices prevailing at the time of sale;
- prices related to the prevailing market price; or
- negotiated prices.

Each time that we sell securities pursuant to this prospectus, we will provide a prospectus supplement or supplements that will describe the method of distribution and set forth the terms and conditions of the offering of such securities, including the following information:

- the terms of the offering;
- the names of any underwriters, dealers or agents;
- the name or names of any managing underwriter or underwriters;
- the purchase price of the securities;
- the net proceeds from the sale of the securities;
- any underwriting discounts, concessions, commissions or agency fees and other items constituting underwriters', dealers' or agents' compensation;
- any delayed delivery arrangements; and
- estimated offering expenses.

Broker-dealers or underwriters may receive compensation in the form of underwriting discounts or commissions and may receive commissions from purchasers of the securities for whom they may act as agent. We may grant to the underwriters options to purchase additional securities, at the public offering price, with additional underwriting commissions or discounts, as applicable, set forth in the prospectus supplement. The terms of any such option will be set forth in the prospectus supplement for those securities.

We may engage in at-the-market offerings into an existing trading market in accordance with Rule 415(a)(4) under the Securities Act. Any at-the-market offering will be through an underwriter or underwriters acting as principal or agent for us.

We may issue to our existing security holders, through a dividend or similar distribution, subscription rights to purchase our ordinary shares or preferred ordinary shares, which may or may not be transferable. In any distribution of subscription rights to our existing security holders, if all of the underlying securities are not subscribed for, we may then sell the unsubscribed securities directly to third parties or may engage the services of one or more underwriters, dealers or agents, including standby underwriters, to sell the unsubscribed securities to third parties. The applicable prospectus supplement will describe the specific terms of any offering of our ordinary shares or preferred ordinary shares through the issuance of subscription rights, including, if applicable, the material terms of any standby underwriting or purchase arrangement.

Sale Through Underwriters or Dealers

If underwriters are used in the sale, the underwriters will acquire the securities for their own account, including through underwriting, purchase, security lending or repurchase agreements with us. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions. Underwriters may sell the securities in order to facilitate transactions in any of our other securities (described in this prospectus or otherwise), including other public or private transactions and short sales. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless otherwise indicated in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers. The prospectus supplement will include the names of the underwriters and the terms of the transaction, including any underwriting discounts or commissions.

If dealers are used in the sale of securities offered through this prospectus, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. The prospectus supplement will include the names of the dealers and the terms of the transaction, including any discounts or commissions received.

Direct Sales and Sales Through Agents

We may sell the securities offered through this prospectus directly. In this case, no underwriters, dealers or agents would be involved. Such securities may also be sold through agents designated from time to time. The prospectus supplement will name any agent involved in the offer or sale of the offered securities and will describe any commissions payable to the agent. Unless otherwise indicated in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. The terms of any such sales will be described in the prospectus supplement.

Delayed Delivery Contracts

If the prospectus supplement indicates, we may authorize underwriters, dealers or agents to solicit offers from certain types of institutions to purchase securities at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts would be subject only to those conditions described in the prospectus supplement. The applicable prospectus supplement will describe the commission payable for solicitation of those contracts.

Market Making, Stabilization and Other Transactions

Unless the applicable prospectus supplement states otherwise, all preferred ordinary shares, debt securities, depositary shares, warrants, subscription rights and units will be new issues of securities with no established trading market. Unless indicated in the applicable prospectus supplement, we do not expect to list the offered securities on a securities exchange, except for the ordinary shares, which are listed on The NASDAQ Global Market. Any underwriters that we use in the sale of offered securities may make a market in such securities, but may discontinue such market making at any time without notice. Therefore, we cannot assure you that the securities will have a liquid trading market.

Any underwriter may also engage in stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Rule 104 of Regulation M under the Exchange Act. Stabilizing transactions involve bids to purchase the underlying security in the open market for the purpose of preventing or retarding a decline in the price of the securities. Syndicate covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover syndicate short positions. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the securities originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

Stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our securities or preventing or retarding a decline in the market price of our securities. As a result, the price of the securities in the open market may be higher than it would otherwise be in the absence of these transactions. The underwriters may, if they commence these transactions, discontinue them at any time.

Derivative Transactions and Hedging

We, the underwriters or other agents may engage in derivative transactions involving the securities. These derivatives may consist of short sale transactions and other hedging activities. The underwriters or agents may acquire a long or short position in the securities, hold or resell securities acquired and purchase options or futures on the securities and other derivative instruments with returns linked to or related to changes in the price of the securities. In order to facilitate these derivative transactions, we may enter into security lending or repurchase agreements with the underwriters or agents. The underwriters or agents may effect the derivative transactions through sales of the securities to the public, including short sales, or by lending the securities in order to facilitate short sale transactions by others. The underwriters or agents may also use the securities purchased or borrowed from us or others (or, in the case of derivatives, securities received from us in settlement of those derivatives) to directly or indirectly settle sales of the securities or close out any related open borrowings of the securities.

Electronic Auctions

We may also make sales through the Internet or through other electronic means. Since we may from time to time elect to offer securities directly to the public, with or without the involvement of agents, underwriters or dealers, utilizing the Internet or other forms of electronic bidding or ordering systems for the pricing and allocation of such securities, you will want to pay particular attention to the description of that system we will provide in a prospectus supplement.

Such electronic system may allow bidders to directly participate, through electronic access to an auction site, by submitting conditional offers to buy that are subject to acceptance by us, and which may directly affect the price or other terms and conditions at which such securities are sold. These bidding or ordering systems may present to each bidder, on a so-called “real-time” basis, relevant information to assist in making a bid, such as the clearing spread at which the offering would be sold, based on the bids submitted, and whether a bidder’s individual bids would be accepted, prorated or rejected. For example, in the case of debt security, the clearing spread could be indicated as a number of “basis points” above an index treasury note. Of course, many pricing methods can and may also be used.

Upon completion of such an electronic auction process, securities will be allocated based on prices bid, terms of bid or other factors. The final offering price at which securities would be sold and the allocation of securities among bidders would be based in whole or in part on the results of the Internet or other electronic bidding process or auction.

General Information

The specific terms of any lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.

Underwriters, dealers and agents may be entitled, under agreements entered into with us, to indemnification by us against certain liabilities, including liabilities under the Securities Act. Our underwriters, dealers and agents, or their affiliates, may be customers of, engage in transactions with or perform services for us, in the ordinary course of business.

In compliance with guidelines of the Financial Industry Regulatory Authority, Inc., or FINRA, the maximum consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8.0% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement.

Underwriters, dealers and agents may engage in transactions with us, or perform services for us, in the ordinary course of business for which they receive customary compensation.

About This Prospectus SUPPLEMENT

This prospectus supplement is part of a registration statement that we have filed with the Securities and Exchange Commission, or SEC, utilizing a “shelf” registration process. Under this shelf registration process, we may from time to time sell our ordinary shares having an aggregate offering price of up to \$40,000,000 under this prospectus supplement at prices and on terms to be determined by market conditions at the time of the offering.

We provide information to you about this offering of shares of our ordinary shares in two separate documents that are bound together: (1) this at-the-market sales agreement prospectus supplement, which describes the specific details regarding this offering; and (2) the accompanying base prospectus, which provides general information, some of which may not apply to this offering. Generally, when we refer to this “prospectus,” we are referring to both documents combined. To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or in any document incorporated by reference in this prospectus supplement, on the other hand, you should rely on the information in this prospectus supplement, provided that if any statement in one of these documents is inconsistent with a statement in another document having a later date—for example, a document incorporated by reference in this prospectus supplement—the statement in the document having the later date modifies or supersedes the earlier statement.

We have not, and Cowen has not, authorized anyone to provide you with different information, and neither we nor Cowen takes any responsibility for, nor can provide any assurance as to the reliability of, any other information that others may give you. If anyone provides you with different or inconsistent information, you should not rely on it. Special Note Regarding Forward-Looking Statements

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein contain “forward-looking statements” as defined in Section 27A of the Securities Act of 1933 (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements do not relate strictly to historical or current facts and anticipate results based on management’s plans that are subject to uncertainty. Forward-looking statements may be identified by the use of words like “plans,” “expects,” “will,” “anticipates,” “estimates” and other words of similar meaning in conjunction with, among other things, discussions of future operations, financial performance, our strategy for growth, product development, regulatory approval, market position and expenditures.

In some cases, you can identify forward-looking statements by the words “may,” “might,” “will,” “would,” “could,” “should,” “intend,” “plan,” “contemplate,” “expect,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “target,” “potential,” “contingent,” “ongoing” and other comparable expressions intended to identify statements about the future, although not all forward-looking statements contain these identifying words. These statements involve substantial known and unknown risks, uncertainties and other factors that may cause our actual results, level of activity, performance or achievements to differ materially from those discussed in these forward-looking statements. Forward-looking statements are neither historical facts nor assurances of future performance. Although we believe that we have a reasonable basis for each forward-looking statement contained in this prospectus supplement, we caution you that these statements are based on a combination of facts and factors currently known by us and our expectations of the future, about which we cannot be certain and that involve substantial risks and uncertainties. Such risks and uncertainties include, but are not limited to:

our history of losses, our ability to achieve or sustain profitability and our ability to manage our growth;

our ability to further develop, commercialize and achieve market acceptance of our current and future products;

our ability to obtain regulatory body clearance to market any of our products;

our ability to successfully develop and complete the acquired in process research and development, or IPR&D, program and profitably commercialize the underlying product candidates before our competitors develop and commercialize similar products, or at all;

continued demand for diagnostic products for tuberculosis and the development of new market opportunities;

our ability to compete successfully and to maintain and expand our sales network;

decisions by insurers and other third party payors with respect to coverage and reimbursement;

our dependence on certain of our customers, suppliers and service providers;

disruptions to our business, including disruptions at our laboratories and manufacturing facilities;

our ability to effectively use our current financial resources and our ability to obtain additional capital resources;

the integrity and uninterrupted operation of our information technology and storage systems;

the impact of currency fluctuations on our business;

our ability to make successful acquisitions or investments and to manage the integration of such acquisitions or investments;

our ability to retain key members of our management;

the impact of taxes on our business, including our ability to use net operating losses;

the impact of legislative and regulatory developments, including healthcare reform, on our business;

the impact of product liability, intellectual property and commercial litigation on our business;

our ability to comply with Securities and Exchange Commission, or SEC, reporting, antifraud, anti-corruption, environmental, health and safety laws and regulations;

our ability to maintain our licenses to sell our products around the world, including in countries such as China and the United States, or U.S., and in the several U.S. states requiring licensure;

our ability to protect and enforce our intellectual property rights;

our status as an emerging growth company and as an English company listing ordinary shares in the U.S.;

the volatility of the price of our shares, substantial future sales of our shares and the fact that we do not pay dividends;

the impact of anti-takeover provisions under United Kingdom, or U.K., law and our articles of association; and

the impact of global economic and political developments, including the referendum to leave the European Union, passed by the U.K. on June 23, 2016, on our business.

As a result of these factors, we cannot assure you that the forward-looking statements in this prospectus supplement will prove to be accurate. Further, if our forward-looking statements prove to be inaccurate, the inaccuracy may be material. In light of the significant uncertainties in these forward-looking statements, you should not regard these statements as a representation or warranty by us that we will achieve our objectives and plans in any specified time frame, or at all. The forward-looking statements in this prospectus supplement represent our views only as of the date of this prospectus supplement. Subsequent events and developments may cause our views to change. While we may elect to update these forward-looking statements at some point in the future, we undertake no obligation to publicly update any forward-looking statements, except as required by law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this prospectus supplement. Oxford Immunotec Global PLC

Overview

Oxford Immunotec Global PLC is a global, high-growth diagnostics company focused on developing and commercializing proprietary tests for the management of underserved immune-regulated conditions. Our proprietary T-SPOT[®] technology platform allows us to measure the responses of specific immune cells to inform the diagnosis, prognosis and monitoring of patients with immune-regulated conditions. Our current development activities are principally focused on four areas: chronic infections, transplantation, autoimmune and inflammatory disease and immune-oncology. We believe these areas are particularly attractive for the development of diagnostic tests because they involve large patient populations and chronic conditions that present the opportunity for both initial diagnosis and additional testing to monitor the conditions. These immune-regulated conditions also tend to be characterized by wide variation in presentation and progression and often require expensive therapies, making diagnostic tests that can better categorize patients and inform treatment pathways particularly useful. We believe the sensitivity of our T-SPOT technology platform, which can measure T cell and innate immune cell responses at a single cell level, well positions us to bring new insights into the diagnosis, prognosis and monitoring of immune-regulated conditions.

Our first product is the TSPOT[®].TB test, which is used to test for tuberculosis infection. The T-SPOT.TB test has been approved for sale in over 50 countries, including the United States, where it has received pre-market approval from the Food and Drug Administration, Europe, where it has obtained a CE mark, Japan and China. Our second product line is a range of assays for tick-borne diseases, such as Lyme disease, obtained through the acquisitions of Imugen, Inc. and Immunetics, Inc. The T-SPOT.CMV test and the T-SPOT.PRT test are part of our third product line focused on the transplantation market. In addition to these three product lines, we have active development programs in other immune-regulated conditions.

Corporate information

Oxford Immunotec Global PLC was incorporated in England and Wales in 2013. On October 2, 2013, we completed a scheme of arrangement under the laws of England and Wales, or the Scheme of Arrangement, pursuant to which equity holders exchanged their equity interests in Oxford Immunotec Limited for equity interests in Oxford Immunotec Global PLC. Prior to the Scheme of Arrangement, our business was conducted by Oxford Immunotec Limited and its consolidated subsidiaries. Oxford Immunotec Limited, a private limited company, was incorporated in England and Wales in 2002. Following the Scheme of Arrangement, our business has been conducted by Oxford Immunotec Global PLC and its consolidated subsidiaries, including Oxford Immunotec Limited. Our principal executive offices are located at 94C Innovation Drive, Milton Park, Abingdon, OX14 4RZ, United Kingdom, and our telephone number is +44 (0) 1235 442 780. Implications of Being an “Emerging Growth Company”

As a company with less than \$1.0 billion in revenue during our most recently completed fiscal year, we qualify as an emerging growth company, as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As an emerging growth company, we may take advantage of specified reduced disclosure and other requirements that are otherwise applicable generally to public companies. These provisions include:

- only two years of audited financial statements in addition to any required unaudited interim financial statements, with correspondingly reduced management's discussion and analysis;
- reduced disclosure about our executive compensation arrangements;

- no non-binding shareholder advisory votes on executive compensation or golden parachute arrangements; and
- exemption from the auditor attestation requirement in the assessment of our internal control over financial reporting.

We may take advantage of these exemptions for up to five years or such earlier time that we are no longer an emerging growth company. We would no longer be an emerging growth company if we have more than \$1.0 billion in annual revenue as of the end of our fiscal year, we have more than \$700.0 million in market value of our shares held by non-affiliates as of the end of our second fiscal quarter or we issue more than \$1.0 billion of non-convertible debt over a three-year-period. We may choose to take advantage of some or all of these reduced disclosure obligations.

The JOBS Act permits emerging growth companies to take advantage of an extended transition period to comply with new or revised accounting standards applicable to public companies. We have chosen to “opt out” of this provision and, as a result, we will comply with new or revised accounting standards as required when they are adopted. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

Risk Factors

Investing in our securities involves a high degree of risk. You should carefully consider the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, which is incorporated by reference in this prospectus supplement, and which may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future, as well as the additional risk factors disclosed below before deciding whether to invest in our securities. You should also carefully consider the other information included in this prospectus supplement, the accompanying prospectus and other information incorporated by reference herein and therein. If any of the risks described in these documents actually occur, our business, prospects, operating results and financial condition could be materially and adversely affected, which could result in a partial or complete loss of your investment. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business.

Risks Related to this Offering

Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.

Our management will have broad discretion as to the application of the net proceeds of this offering and could use them for purposes other than those currently contemplated. Our shareholders may not agree with the manner in which our management chooses to allocate and spend the net proceeds. Moreover, our management may use the net proceeds for corporate purposes that may not increase our profitability or our market value. See "Use of proceeds" for a description of our management's intended use of the proceeds from this offering.

You will incur immediate and substantial dilution as a result of this offering.

The public offering price of our ordinary shares is higher than the net tangible book value per share of our ordinary shares. Therefore, if you purchase our ordinary shares in this offering, you will pay a price per share that substantially exceeds our net tangible book value per share after this offering. To the extent shares are issued under outstanding options, you will incur further dilution. See "Dilution" for a more detailed description of the dilution to new investors in this offering.

Future sales, or the possibility of future sales, of a substantial number of our ordinary shares could adversely affect the price of the shares and dilute shareholders.

Future sales of a substantial number of our ordinary shares, or the perception that such sales will occur, could cause a decline in the market price of our ordinary shares. As of the date of this prospectus supplement, we have outstanding 22,605,271 ordinary shares. This does not include the shares that we are selling in this offering, which may be resold in the public market immediately without restriction, unless purchased by our affiliates. If our existing shareholders sell substantial amounts of ordinary shares in the public market, or the market perceives that such sales may occur, the market price of our ordinary shares and our ability to raise capital through an issue of equity securities in the future could be adversely affected.

S-4

Use of Proceeds

We may issue and sell our ordinary shares having aggregate sales proceeds of up to \$40,000,000 from time to time. Because there is no minimum offering amount required as a condition to close this offering, the actual total public offering amount, commissions and proceeds to us, if any, are not determinable at this time.

We currently intend to use the net proceeds of this offering, if any, for general corporate purposes, which may include research and development expenses, working capital and general and administrative expenses.

Our expected use of net proceeds from this offering represents our current intentions based upon our present plans and business conditions. As of the date of this prospectus supplement, we cannot predict with certainty all of the particular uses for the net proceeds to be received upon the completion of this offering or the amounts that we will actually spend on the uses set forth above. As a result, management will have broad discretion in the application of the net proceeds, and investors will be relying on our judgment regarding the application of the net proceeds of this offering.

Pending their use, we plan to invest the net proceeds from this offering in short or medium-term interest-bearing obligations, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the U.K. or U.S. governments.

Dilution

If you invest in our ordinary shares in this offering, your ownership interest will be diluted immediately to the extent of the difference between the public offering price per share of our ordinary shares and the pro forma net tangible book value per share of our ordinary shares after this offering.

Our net tangible book value as of September 30, 2016 was \$53.99 million, or \$2.39 per ordinary share, based on 22,581,222 ordinary shares then outstanding. After giving effect to the assumed sale by us of our ordinary shares in the aggregate amount of \$40,000,000 at an assumed public offering price of \$15.00 per share (the last sale price of our ordinary shares on December 20, 2016 as reported on The NASDAQ Global Market), less the estimated commissions and estimated offering expenses payable by us, our net tangible book value at September 30, 2016 would have been \$92.44 million, or \$3.66 per ordinary share. This represents an immediate increase in net tangible book value of \$1.27 per share to existing shareholders and an immediate dilution of \$11.34 per share to investors in this offering. The following table illustrates this per share dilution. The as adjusted information is illustrative only and will adjust based on the actual price to the public, the actual number of shares sold and other terms of the offering determined at the time our ordinary shares are sold pursuant to this prospectus supplement. The shares sold in this offering, if any, will be sold from time to time at various prices.

| | |
|---|---------|
| Assumed public offering price per share | \$15.00 |
| Net tangible book value per share as of September 30, 2016 | \$2.39 |
| Increase in net tangible book value per share attributable to new investors | \$1.27 |
| As adjusted net tangible book value per share after this offering | \$3.66 |
| Dilution per share to new investors | \$11.34 |

The foregoing discussion and tables excludes:

2,964,129 ordinary shares issuable upon exercise of share options outstanding as of September 30, 2016 at a weighted-average exercise price of \$9.10 per share;

1,914,440 ordinary shares reserved for future issuance under our equity incentive plans as of September 30, 2016.

To the extent that any of these shares are issued upon the exercise of stock options or vesting of restricted stock units, there may be further dilution to new public investors. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities,

the issuance of such securities may result in further dilution to our shareholders.

S-6

Plan of Distribution

We have entered into a sales agreement with Cowen, under which we may issue and sell from time to time up to \$40,000,000 of our ordinary shares through Cowen as our sales agent. Sales of our ordinary shares, if any, will be made at market prices by any method that is deemed to be an “at the market” offering as defined in Rule 415 under the Securities Act, including sales made directly on The NASDAQ Global Market or any other trading market for our ordinary shares. If authorized by us in writing, Cowen may purchase our ordinary shares as principal.

Cowen will offer our ordinary shares subject to the terms and conditions of the sales agreement on a daily basis or as otherwise agreed upon by us and Cowen. We will designate the maximum amount of ordinary shares to be sold through Cowen on a daily basis or otherwise determine such maximum amount together with Cowen. Subject to the terms and conditions of the sales agreement, Cowen will use its commercially reasonable efforts to sell on our behalf all of the shares of ordinary shares requested to be sold by us. We may instruct Cowen not to sell ordinary shares if the sales cannot be effected at or above the price designated by us in any such instruction. Cowen or we may suspend the offering of our ordinary shares being made through Cowen under the sales agreement upon proper notice to the other party. Cowen and we each have the right, by giving written notice as specified in the sales agreement, to terminate the sales agreement in each party’s sole discretion at any time.

The aggregate compensation payable to Cowen as sales agent equals 3% of the gross sales price of the shares sold through it pursuant to the sales agreement. We have also agreed to reimburse Cowen up to \$50,000 of Cowen’s actual outside legal expenses incurred by Cowen in connection with this offering. We estimate that the total expenses of the offering payable by us, excluding commissions payable to Cowen under the sales agreement, will be approximately \$300,000.

The remaining sales proceeds, after deducting any expenses payable by us and any transaction fees imposed by any governmental, regulatory, or self-regulatory organization in connection with the sales, will equal our net proceeds for the sale of such ordinary shares.

Cowen will provide written confirmation to us following the close of trading on The NASDAQ Global Market on each day in which ordinary shares is sold through it as sales agent under the sales agreement. Each confirmation will include the number of ordinary shares sold through it as sales agent on that day, the volume weighted average price of the ordinary shares sold, the percentage of the daily trading volume and the net proceeds to us.

We will report at least quarterly the number of ordinary shares sold through Cowen under the sales agreement, the net proceeds to us and the compensation paid by us to Cowen in connection with the sales of ordinary shares.

Settlement for sales of ordinary shares will occur, unless the parties agree otherwise, on the third business day that is also a trading day following the date on which any sales were made in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

In connection with the sales of our ordinary shares on our behalf, Cowen may be deemed to be an “underwriter” within the meaning of the Securities Act, and the compensation paid to Cowen may be deemed to be underwriting commissions or discounts. We have agreed in the sales agreement to provide indemnification and contribution to Cowen against certain liabilities, including liabilities under the Securities Act. As sales agent, Cowen will not engage in any transactions that stabilizes our ordinary shares.

Our ordinary shares is listed on The NASDAQ Global Market and trades under the symbol “OXFD.” The transfer agent of our ordinary shares is Computershare Trust Company, N.A.

Cowen and/or its affiliates have provided, and may in the future provide, various investment banking and other financial services for us for which services they have received and, may in the future receive, customary fees.

TAXATION

Material U.S. federal income tax considerations

The following is a description of material U.S. federal income tax considerations of the acquisition, ownership and disposition of ordinary shares acquired pursuant to this offering by a U.S. Holder, as defined below. This description only applies to ordinary shares held as “capital assets” (generally, property held for investment) and does not address, except as explicitly set forth below, aspects of U.S. federal income taxation that may be applicable to U.S. Holders that are subject to special tax rules, such as:

- banks or other financial institutions;
- insurance companies;
- real estate investment trusts;
- regulated investment companies;
- grantor trusts;
- tax-exempt organizations;
- persons that will own ordinary shares through partnerships or other pass-through entities;
- dealers or traders in securities or currencies;
- U.S. Holders that have a functional currency other than the U.S. Dollar;
- certain former citizens and former long-term residents of the United States;
- U.S. Holders that use a mark-to-market method of accounting;
- U.S. Holders that will hold ordinary shares as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes; or
- direct, indirect or constructive owners of 10% or more of our total combined voting power.

Moreover, this description does not address the 3.8% Medicare contribution tax on net investment income, the U.S. federal estate and gift tax or the alternative minimum tax consequences of the acquisition, ownership, and disposition of ordinary shares. We have not received nor do we expect to seek a ruling from the IRS regarding any matter discussed herein. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below. Each prospective investor should consult its own tax advisors with respect to the U.S. federal, state, local and non-U.S. tax consequences of acquiring, owning and disposing of ordinary shares.

This description is based on the Internal Revenue Code of 1986, as amended, U.S. Treasury Regulations promulgated thereunder and administrative and judicial interpretations thereof, each as available and in effect on the date hereof, all of which are subject to change or differing interpretations, possibly with retroactive effect, which could affect the tax considerations described herein.

For purposes of this description, a U.S. Holder is a beneficial owner of ordinary shares who, for U.S. federal income tax purposes is:

a citizen or individual resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) organized in or under the laws of the United States or any State thereof, including the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust (1) that has a valid election in effect to be treated as a U.S. person for U.S. federal income tax purposes or (2)(a) the administration over which a U.S. court can exercise primary supervision and (b) all of the substantial decisions of which one or more U.S. persons have the authority to control.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds ordinary shares, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax advisors as to the U.S. federal income tax consequences of acquiring, owning and disposing of the ordinary shares.

PROSPECTIVE INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH REGARD TO THE PARTICULAR TAX CONSEQUENCES APPLICABLE TO THEIR SITUATIONS AS WELL AS THE APPLICATION OF ANY STATE, LOCAL, NON-U.S. OR OTHER TAX LAWS, INCLUDING GIFT AND ESTATE TAX LAWS.

Distributions on ordinary shares

We have never paid any distributions on our ordinary shares, and we do not anticipate paying any distributions on our ordinary shares in the foreseeable future. If we were to pay any distributions on our ordinary shares, subject to the considerations in “Passive foreign investment company considerations,” discussed below, such distributions generally would be taxable to a U.S. Holder as foreign-source dividend income, and would not be eligible for the dividends received deduction allowed to certain corporations. Dividend income generally is taxed as ordinary income. A preferential rate may apply to dividend income paid to U.S. Holders that are individuals (or certain trusts and estates) if we and the ordinary shares meet certain requirements.

Distributions, if any, in excess of our current or accumulated earnings and profits would be treated as a non-taxable return of capital to the extent of a U.S. Holder’s adjusted basis in its ordinary shares and thereafter as capital gain. However, we have not maintained calculations of our earnings and profits in accordance with U.S. federal income tax accounting principles. U.S. Holders should therefore assume that any distribution paid with respect to ordinary shares would constitute ordinary dividend income. U.S. Holders should consult their own tax advisors with respect to the appropriate U.S. federal income tax treatment of any distribution received.

Sale, exchange, or other taxable disposition of ordinary shares

Subject to the considerations in “Passive foreign investment company considerations,” discussed below, upon the sale, exchange, or other taxable disposition of ordinary shares, a U.S. Holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized on such disposition and the U.S. Holder’s adjusted tax basis in its ordinary shares. Such gain or loss generally will be U.S. source and generally will be treated as long-term capital gain or loss if the U.S. Holder’s holding period in such ordinary shares exceeds one year at the time of such disposition. Long-term capital gains may be taxed at lower rates than ordinary income for certain non-corporate taxpayers. Prospective investors should consult their own tax advisors regarding the U.S. federal income tax treatment of capital gains and capital losses (the deductibility of which is subject to limitations).

Passive foreign investment company considerations

Status as a PFIC

The rules governing passive foreign investment companies (“PFICs”) can have adverse tax effects on U.S. Holders. We generally will be classified as a PFIC for U.S. federal income tax purposes if, for any taxable year, either:

75% or more of our gross income consists of certain types of passive income, or

the average value (determined on a quarterly basis), of our assets that produce, or are held for the production of, passive income is 50% or more of the value of all of our assets.

Passive income generally includes dividends, interest, rents and royalties (other than certain rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income. If a non-U.S. corporation owns at least 25% by value of the stock of another corporation, the non-U.S. corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation and as receiving directly its proportionate share of the other corporation's income.

Additionally, if we are classified as a PFIC in any taxable year with respect to which a U.S. Holder owns ordinary shares, we generally will continue to be treated as a PFIC with respect to such U.S. Holder in all succeeding taxable years, regardless of whether we continue to meet the tests described above, unless the U.S. Holder makes the "deemed sale election" described below.

We do not believe that we are currently a PFIC, and we do not anticipate becoming a PFIC in the foreseeable future. Notwithstanding the foregoing, the determination of whether we are a PFIC depends on the particular facts and circumstances (such as the valuation of our assets, including goodwill and other intangible assets) and also may be affected by the application of the PFIC rules, which are subject to differing interpretations. The fair market value of our assets is expected to depend, in part, upon (a) the market price of our ordinary shares, which is likely to fluctuate, and (b) the composition of our income and assets, which will be affected by how, and how quickly, we spend any cash that is raised in any financing transaction, including this offering. In light of the foregoing, no assurance can be provided that we are not currently a PFIC or that we will not become a PFIC in any future taxable year. Prospective investors should consult their own tax advisors regarding our PFIC status.

U.S. federal income tax treatment of a shareholder of a PFIC

If we are classified as a PFIC for any taxable year during which a U.S. Holder owns ordinary shares, the U.S. Holder, absent certain elections (including the mark-to-market and QEF elections described below), generally will be subject to adverse rules (regardless of whether we continue to be classified as a PFIC) with respect to (i) any “excess distributions” (generally, any distributions received by the U.S. Holder on its ordinary shares in a taxable year that are greater than 125% of the average annual distributions received by the U.S. Holder in the three preceding taxable years or, if shorter, the U.S. Holder’s holding period for its ordinary shares) and (ii) any gain realized on the sale or other disposition of its ordinary shares.

Under these adverse rules (a) the excess distribution or gain will be allocated ratably over the U.S. Holder’s holding period, (b) the amount allocated to the current taxable year and any taxable year prior to the first taxable year in which we are classified as a PFIC will be taxed as ordinary income and (c) the amount allocated to each other taxable year during the U.S. Holder’s holding period in which we were classified as a PFIC (i) will be subject to tax at the highest rate of tax in effect for the applicable category of taxpayer for that year and (ii) will be subject to an interest charge at a statutory rate with respect to the resulting tax attributable to each such other taxable year.

If we are classified as a PFIC, a U.S. Holder will generally be treated as owning stock or shares owned by us in any direct or indirect subsidiaries that are also PFICs and will be subject to similar adverse rules with respect to any distributions we receive from, and dispositions we make of, the stock or shares of such subsidiaries.

If we are classified as a PFIC and then cease to be so classified, a U.S. Holder may make an election (a “deemed sale election”) to be treated for U.S. federal income tax purposes as having sold such U.S. Holder’s ordinary shares on the last day of our taxable year during which we were a PFIC. A U.S. Holder that makes a deemed sale election would then cease to be treated as owning stock in a PFIC by reason of ownership of our ordinary shares. However, gain recognized as a result of making the deemed sale election would be subject to the adverse rules described above and loss would not be recognized.

PFIC “mark-to-market” election

A U.S. Holder can avoid certain of the adverse rules described above by making a mark-to-market election with respect to its ordinary shares, provided that the ordinary shares are “marketable.” Ordinary shares will be marketable if they are “regularly traded” on a “qualified exchange” or other market within the meaning of applicable U.S. Treasury Regulations.

A U.S. Holder that makes a mark-to-market election must include in gross income, as ordinary income, for each taxable year an amount equal to the excess, if any, of the fair market value of the U.S. Holder's ordinary shares at the close of the taxable year over the U.S. Holder's adjusted tax basis in its ordinary shares. An electing U.S. Holder may also claim an ordinary loss deduction for the excess, if any, of the U.S. Holder's adjusted tax basis in its ordinary shares over the fair market value of its ordinary shares at the close of the taxable year, but this deduction is allowable only to the extent of any net mark-to-market gains previously included in income. A U.S. Holder that makes a mark-to-market election generally will adjust such U.S. Holder's tax basis in its ordinary shares to reflect the amount included in gross income or allowed as a deduction because of such mark-to-market election. Gains from an actual sale or other disposition of ordinary shares in a year in which we are classified as a PFIC will be treated as ordinary income, and any losses incurred on a sale or other disposition of ordinary shares will be treated as ordinary losses to the extent of any net mark-to-market gains previously included in income.

If we are classified as a PFIC for any taxable year in which a U.S. Holder owns ordinary shares but before a mark-to-market election is made, the adverse PFIC rules described above will apply to any mark-to-market gain recognized in the year the election is made. Otherwise, a mark-to-market election will be effective for the taxable year for which the election is made and all subsequent taxable years. The election cannot be revoked without the consent of the IRS unless the ordinary shares cease to be marketable, in which case the election is automatically terminated.

A mark-to-market election is not permitted for the shares of any of our subsidiaries that are also classified as PFICs. Prospective investors should consult their own tax advisors regarding the availability of, and the procedure for making, a mark-to-market election.

PFIC "QEF" election

In some cases, a shareholder of a PFIC can avoid the interest charge and the other adverse PFIC consequences described above by obtaining certain information from such PFIC and by making a qualified electing fund, or QEF, election to be taxed currently on its share of the PFIC's undistributed income. We do not, however, expect to provide the information regarding our income that would be necessary in order for a U.S. Holder to make a QEF election with respect to ordinary shares if we are classified as a PFIC.

PFIC information reporting requirements

If we are a PFIC in any year, a U.S. Holder of ordinary shares in such year will be required to file an annual information return on IRS Form 8621 regarding any distributions received on such ordinary shares and any gain realized on disposition of such ordinary shares. In addition, subject to certain exceptions, if we are a PFIC, a U.S. Holder will be required to file an additional annual information return with the IRS on a revised IRS Form 8621 with such U.S. Holder's U.S. federal income tax or information return.

S-10

NO ASSURANCE CAN BE GIVEN THAT WE ARE NOT CURRENTLY A PFIC OR THAT WE WILL NOT BECOME A PFIC IN THE FUTURE. U.S. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE OPERATION OF THE PFIC RULES AND RELATED REPORTING REQUIREMENTS IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES, INCLUDING THE ADVISABILITY OF MAKING ANY ELECTION THAT MAY BE AVAILABLE.

U.S. backup withholding tax and information reporting

Backup withholding and information reporting requirements may apply to distributions on, and to proceeds from the sale or disposition of ordinary shares that are held by U.S. Holders. The payor will be required to backup withhold tax on payments made within the United States, or by a U.S. payor or U.S. middleman (and certain subsidiaries thereof), on an ordinary share to a U.S. Holder, other than an exempt recipient, if the U.S. Holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's U.S. federal income tax liability. A U.S. Holder may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for a refund with the IRS and furnishing any required information in a timely manner.

In addition to the reporting requirements described elsewhere in this description, certain U.S. Holders are required to report information relating to an interest in ordinary shares, subject to certain exceptions, on their tax returns. U.S. Holders are urged to consult their own tax advisors regarding the effect, if any, of these requirements on their acquisition, ownership and disposition of ordinary shares.

Material U.K. tax considerations

The following is a general summary of material U.K. tax considerations relating to the ownership and disposal of our ordinary shares. It is based on current U.K. tax law and HM Revenue & Customs, or HMRC, practice as at the date of this prospectus supplement, both of which are subject to change, possibly with retrospective effect. Except as otherwise provided, this summary applies only to persons who are resident (and, in the case of individuals, domiciled) in the United Kingdom for tax purposes and who are not resident for tax purposes in any other jurisdiction and do not have a permanent establishment or fixed base in any other jurisdiction with which the holding of the ordinary shares is connected, or U.K. Holders.

This summary is for general information only and is not intended to be, nor should it be considered to be, legal or tax advice to any particular investor. It does not address all of the tax considerations that may be relevant to specific investors in light of their particular circumstances or to investors subject to special treatment under U.K. tax law. In particular:

this summary only applies to the absolute beneficial owners of the ordinary shares, U.K. Holders who hold ordinary shares through DTC, and any dividends paid in respect of the ordinary shares where the dividends are regarded for U.K. tax purposes as that person's own income (and not the income of some other person);

this summary: (a) only addresses the principal U.K. tax consequences for investors who hold the ordinary shares as capital assets, (b) does not address the tax consequences which may be relevant to certain special classes of investors such as dealers, brokers or traders in shares or securities and other persons who hold the ordinary shares otherwise than as an investment, (c) does not address the tax consequences for holders that are financial institutions, insurance companies, collective investment schemes, pension schemes, charities and tax-exempt organizations, (d) assumes that the holder is not an officer or employee of our company (or of any related company) and has not (and is not deemed to have) acquired the ordinary shares by virtue of an office or employment (whether current, historic or prospective), and (e) assumes that the holder does not control or hold (and is not deemed to control or hold), either alone or together with one or more associated or connected persons, directly or indirectly an interest of 10% or more in the issued share capital (or in any class thereof), voting power, rights to profits or capital of our company, and is not otherwise connected with our company; and

this summary does not address any inheritance tax considerations.

POTENTIAL INVESTORS SHOULD SATISFY THEMSELVES PRIOR TO INVESTING AS TO THE OVERALL TAX CONSEQUENCES, INCLUDING, SPECIFICALLY, THE CONSEQUENCES UNDER U.K. TAX LAW AND HMRC PRACTICE OF THE ACQUISITION, OWNERSHIP AND DISPOSAL OF THE ORDINARY SHARES IN THEIR OWN PARTICULAR CIRCUMSTANCES BY CONSULTING THEIR OWN TAX ADVISERS.

Taxation of dividends

Withholding tax. Dividend payments in respect of the ordinary shares may be made without withholding or deduction for or on account of U.K. tax.

Income tax. Dividends received by individual U.K. Holders will be subject to U.K. income tax on the full amount of the dividend paid, grossed up for the amount of the non-refundable U.K. dividend tax credit referred to below.

An individual holder of ordinary shares who is not a U.K. Holder will not be chargeable to U.K. income tax on dividends paid by our company, unless such holder carries on (whether solely or in partnership) a trade, profession or vocation in the United Kingdom through a branch or agency in the United Kingdom to which the ordinary shares are attributable as an investment. In these circumstances, such holder may, depending on his or her individual circumstances, be chargeable to U.K. income tax on dividends received from our company.

Individual U.K. Holders will be subject to a dividend allowance in the form of a 0% tax rate on the first £5,000 of dividend income received in a year. The dividend tax rates for any additional dividend income above £5,000 will be set at 7.5% for basic rate taxpayers, 32.5% for higher rate taxpayers and 38.1% for additional rate taxpayers. Dividend income that is within the dividend allowance will still count towards an individual's basic or higher rate limits. Dividend income will be treated as the top slice of a U.K. Holder's income.

Corporation tax. A U.K. Holder within the charge to U.K. corporation tax may be entitled to exemption from U.K. corporation tax in respect of dividend payments. If the conditions for the exemption are not satisfied, or such U.K. Holder elects for an otherwise exempt dividend to be taxable, U.K. corporation tax will be chargeable on the amount of any dividends. U.K. Holders that make an election for an otherwise exempt dividend to be taxable, must do so within two years of the end of the accounting period in which the dividend is received.

A corporate holder of ordinary shares that is not a U.K. Holder will not be subject to U.K. corporation tax on dividends received from our company, unless it carries on a trade in the United Kingdom through a permanent establishment to which the ordinary shares are attributable. In these circumstances, such holder may, depending on its individual circumstances and if the exemption from U.K. corporation tax discussed above does not apply, be chargeable to U.K. corporation tax on dividends received from our company.

Taxation of disposals

U.K. Holders

A disposal or deemed disposal of ordinary shares by an individual U.K. Holder may, depending on his or her individual circumstances, give rise to a chargeable gain or to an allowable loss for the purpose of U.K. capital gains tax. The principal factors that will determine the capital gains tax position on a disposal of ordinary shares are the extent to which the holder realizes any other capital gains in the tax year in which the disposal is made, the extent to which the holder has incurred capital losses in that or any earlier tax year and the level of the annual allowance of tax-free gains in that tax year, or the annual exemption. The annual exemption for the 2016/2017 tax year is £11,100. If, after all allowable deductions, an individual U.K. Holder's total taxable income for the year exceeds the basic rate income tax limit, a taxable capital gain accruing on a disposal of ordinary shares will be taxed at 20%. In other cases, a taxable capital gain accruing on a disposal of ordinary shares may be taxed at 10% or 20% or at a combination of both rates.

An individual U.K. Holder who ceases to be resident in the United Kingdom for a period of five years or less and who disposes of his or her ordinary shares during that temporary period of non-residence may be liable for U.K. capital gains tax on a chargeable gain accruing on such disposal on his or her return to the United Kingdom (subject to available exemptions or reliefs).

A disposal of ordinary shares by a corporate U.K. Holder may give rise to a chargeable gain or an allowable loss for the purpose of U.K. corporation tax. Such a holder should be entitled to an indexation allowance, which applies to reduce chargeable gains to the extent that such gains arise due to inflation. The allowance may reduce a chargeable gain but will not create an allowable loss.

Non-U.K. Holders

An individual holder who is not a U.K. Holder will not be liable to U.K. capital gains tax on capital gains realized on the disposal of his or her ordinary shares unless such holder carries on (whether solely or in partnership) a trade, profession or vocation in the United Kingdom through a branch or agency in the United Kingdom to which the ordinary shares are attributable. In these circumstances, such holder may, depending on his or her individual circumstances, be chargeable to U.K. capital gains tax on chargeable gains arising from a disposal of his or her ordinary shares.

A corporate holder of ordinary shares that is not a U.K. Holder will not be liable for U.K. corporation tax on chargeable gains realized on the disposal of its ordinary shares unless it carries on a trade in the United Kingdom through a permanent establishment to which the ordinary shares are attributable. In these circumstances, a disposal of ordinary shares by such holder may give rise to a chargeable gain or an allowable loss for the purposes of U.K. corporation tax.

S-12

Stamp duty and stamp duty reserve tax

Issue and transfer of ordinary shares

No U.K. stamp duty or stamp duty reserve tax, or SDRT, is payable on the issue of the ordinary shares. Based on current published HMRC practice and recent case law, there should be no U.K. SDRT payable on the issue of ordinary shares to a depositary receipt system or a clearance service (for example DTC). An agreement to transfer ordinary shares through a depositary receipt system or clearance service should not give rise to a liability for U.K. SDRT; provided that, in the case of an agreement to transfer ordinary shares through a clearance service, no election has been made under section 97A of the Finance Act 1986 which is applicable to such ordinary shares. We understand that no such election has been made by DTC as respects the ordinary shares.

Transfers of ordinary shares to, or to a nominee or agent for, a person whose business is or includes issuing depositary receipts or to, or to a nominee or agent for, a person whose business is or includes the provision of clearance services, will generally be regarded by HMRC as subject to stamp duty or SDRT at 1.5% of the amount or value of the consideration or, in certain circumstances, the value of the ordinary shares transferred. In practice, this liability for stamp duty or SDRT is in general borne by such person depositing the relevant shares in the depositary receipt system or clearance service. Transfers of ordinary shares between depositary receipt systems and clearance services will generally be exempt from stamp duty and SDRT.

The transfer on sale of ordinary shares by a written instrument of transfer will generally be liable to U.K. stamp duty at the rate of 0.5% of the amount or value of the consideration for the transfer. The purchaser normally pays the stamp duty.

An agreement to transfer ordinary shares outside a depositary receipt system or a clearance service will generally give rise to a liability on the purchaser to SDRT at the rate of 0.5% of the amount or value of the consideration. Such SDRT is payable on the seventh day of the month following the month in which the charge arises, but where an instrument of transfer is executed and duly stamped before the expiry of a period of six years beginning with the date of that agreement, (i) any SDRT that has not been paid ceases to be payable, and (ii) any SDRT that has been paid may be recovered from HMRC, generally with interest.

We do not expect that HMRC will consider any liability to U.K. stamp duty or U.K. SDRT to arise in relation to the deposit with DTC or its nominee, of the ordinary shares offered by us pursuant to the offering. However, a liability to U.K. stamp duty or U.K. SDRT may, depending on the circumstances, arise in respect of the deposit with DTC, or its nominee, of ordinary shares otherwise than pursuant to the offering.

The statements above in relation to stamp duty and SDRT apply irrespective of whether the relevant holder of ordinary shares is resident or domiciled in the United Kingdom.

The Proposed Financial Transactions Tax

On February 14, 2013 the European Commission published a proposal for a directive for a common Financial Transactions Tax, or FTT, in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia, or the participating member states. Estonia has since then officially announced its withdrawal from the negotiations.

The proposed FTT has very broad scope and could apply to financial transactions (as defined in the proposed directive) relating to the ordinary shares (including secondary market transactions) in certain circumstances.

Under the proposals the FTT could apply in certain circumstances to persons both within and outside of the participating member states. Generally, it would apply to financial transactions relating to the ordinary shares where at least one party is a financial institution (as defined), and at least one party is established in a participating member state. A party may be deemed to be “established” in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is the subject of the transaction is issued in a participating member state. Prospective holders of the ordinary shares should therefore note, in particular, that, if the FTT is introduced, financial transactions relating to the ordinary shares may be subject to the FTT at a minimum rate of 0.1% provided certain conditions are met.

The FTT proposal remains subject to negotiation between the participating member states. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU member states may decide to participate.

Prospective holders of ordinary shares are advised to seek their own professional advice in relation to the FTT.

| Printing expenses | (1) |
| Legal fees | (1) |
| Accounting fees | (1) |

(1) These fees are calculated based on the number of issuances and the amount of securities offered and accordingly cannot be estimated at this time.

ITEM 15. Indemnification of Directors and Officers

Our articles of association provide that, subject to the Companies Act 2006, we shall indemnify, out of our assets, any director of the Company or any associated company against all losses, liabilities and expenditures which he or she may sustain or incur in the execution of the duties of his or her office or otherwise in relation thereto.

The relevant provisions under the Companies Act 2006 are Sections 205, 206, 232, 233, 234, 235, 236, 237, 238 and 1157.

Section 205 provides that a company can provide a director with the funds to meet expenditures incurred or to be incurred in defending any criminal or civil proceedings or in connection with any application under sections 661(3) and 661(4) (acquisition of shares by innocent nominee) or section 1157 (described below). Such financial assistance must be repaid if the director is convicted, judgment is found against such director or the court refuses to grant the relief on the application.

Section 206 provides that a company can provide a director with the funds to meet expenditures incurred or to be incurred by him or her in defending in an investigation by a regulatory authority, or against action proposed to be taken by a regulatory authority, in connection with any alleged negligence, default, breach of duty or breach of trust by him or her in relation to the company or an associated company.

Section 232 provides that any provision to exempt to any extent a director from liability from negligence, default, breach of duty or trust by him or her in relation to the company is void. Any provision by which a company directly or indirectly provides (to any extent) an indemnity for a director of the company or an associated company against any such liability is also void unless it is a qualifying third party indemnity provision.

Section 233 permits liability insurance, commonly known as directors' and officers' liability insurance, purchased and maintained by a company against liability for negligence, default, breach of duty or breach of trust in relation to the company.

Pursuant to Section 234, an indemnity is a qualifying third party indemnity as long as it does not provide: (i) any indemnity against any liability incurred by the director to the company or to any associated company; (ii) any indemnity against any liability incurred by the director to pay a fine imposed in criminal proceedings or a sum payable to a regulatory authority by way of a penalty in respect of non-compliance with any requirement of a regulatory nature; and (iii) any indemnity against any liability incurred by the director in defending criminal proceedings in which he or she is convicted, civil proceedings brought by the company or an associated company in which judgment is given against such director or where the court refuses to grant such director relief under an application under sections 661(3) and 661(4) (acquisition of shares by innocent nominee) or its power under section 1157 (described below).

Section 235 allows a company to provide an indemnity to a director if the company is a trustee of an occupational pension scheme, with such indemnity to protect against liability incurred in connection with the company's activities as trustee of the scheme.

Any indemnity provided under Section 234 or Section 235 in force for the benefit of one or more directors of the company or an associated company must be disclosed in the directors' annual report in accordance with Section 236 and copies of such indemnification provisions made available for inspection in accordance with Section 237 (and every shareholder has a right to inspect and request such copies under Section 238).

Section 1157 provides that in proceedings against an officer of a company for negligence, default, breach of duty or breach of trust, the court may relieve such officer from liability if it appears to the court that such officer may be liable but acted honestly and reasonably and that having regard to all the circumstances of the case, such officer ought fairly to be excused. Further, an officer who has reason to apprehend that a claim of negligence, default, breach of duty or breach of trust will or might be made against him or her, such officer may apply to the court for relief, and the court will have the same power to relieve such officer as it would if the proceedings had actually been brought.

A court has wide discretion in granting relief, and may authorize civil proceedings to be brought in the name of the company by a shareholder on terms that the court directs. Except in these limited circumstances, English law does not generally permit class action lawsuits by shareholders on behalf of the company or on behalf of other shareholders.

We have obtained and expect to continue to maintain insurance policies under which our directors and officers are insured, within the limits and subject to the limitations of those policies, against certain expenses in connection with the defense of, and certain liabilities that might be imposed as a result of, actions, suits or proceedings to which they are parties by reason of being or having been directors or officers. The coverage provided by these policies may apply whether or not we would have the power to indemnify such person against such liability under the provisions of English law.

In the underwriting agreement, if any, the underwriters may agree to indemnify, under certain conditions, us, members of our Board of Directors, members of management and persons who control us within the meaning of the Securities Act, against certain liabilities.

ITEM 16. Exhibits

A list of exhibits filed with this registration statement on Form S-3 is set forth on the Exhibit Index and is incorporated herein by reference.

ITEM 17. Undertakings

a) The Company hereby undertakes:

1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

i. To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) that, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in the volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of a prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the Company pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in this registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3) To remove from registration by means of a post-effective amendment any of the securities being registered that remain unsold at the termination of the offering.

4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

i. Each prospectus filed by the Company pursuant to Rule 424(b)(3) shall be deemed part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

ii. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

5) That, for the purpose of determining liability of the Company under the Securities Act of 1933 to any purchaser in the initial distribution of the securities:

The Company undertakes that in a primary offering of securities of the Company pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the Company will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

i. Any preliminary prospectus or prospectus of the Company relating to the offering required to be filed pursuant to Rule 424;

ii.

Any free writing prospectus relating to the offering prepared by or on behalf of the Company or used or referred to by the Company;

iii. The portion of any other free writing prospectus relating to the offering containing material information about the Company or its securities provided by or on behalf of the Company; and

iv. Any other communication that is an offer in the offering made by the Company to the purchaser.

The Company hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Company's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in this registration statement shall be deemed to be a new securities registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or c) controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of the Company's counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

d) The Company hereby undertakes that:

For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of 1) prospectus filed by the registrant pursuant to Rule 424(b) (1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that 2) contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
