Item 2.02 Results of Operations and Financial Condition

On August 3, 2017, MRC Global Inc. (“MRC Global” or the “Company”) issued a press release announcing its financial results for the three and six months ended June 30, 2017. A copy of the press release is furnished as Exhibit 99.1 to this Form 8-K and is incorporated herein by reference.

In accordance with General Instruction B.2 of Form 8-K, the information in Item 2.02 of this Current Report on Form 8-K, including Exhibit 99.1, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 7.01 Regulation FD Disclosure.

MRC Global expects the following with respect to the operations and performance of the Company for the 2017 fiscal year:

- The Company expects 2017 revenue to be 18-24% higher than 2016.
- The Company expects revenue in the upstream sector to be up 22-30%, revenue in the midstream sector to be up 30-38% and revenue in the downstream sector to be up 2-6%, in each case, for the full year 2017 as compared to 2016.
- In each case, for the full year 2017 as compared to 2016, the Company expects revenue growth in the U.S. and Canada segments in the low to mid 20% range, and the Company expects mid-single digit percentage growth in the International segment.
- Sequentially, the Company expects third quarter 2017 revenue growth to be in the mid-single digit percentage range from the second quarter of 2017.
- Given MRC Global’s current mix of products and projects, the Company expects a gross profit percentage in the mid 16% range and an Adjusted Gross Profit percentage in the mid 18% range for 2017. Adjusted Gross Profit percentage is a non-GAAP measure that is not necessarily better than gross profit percentage. The Company defines Adjusted Gross Profit as sales, less cost of sales, plus depreciation and amortization, plus amortization of intangibles, and plus or minus the impact of its last-in, first-out (“LIFO”) inventory costing methodology. The Company presents Adjusted Gross Profit because the Company believes it is a useful indicator of the Company’s operating performance without regard to items, such as amortization of intangibles, that can vary substantially from company to company depending upon the nature and extent of acquisitions of which they have been involved. Similarly, the impact of the LIFO inventory costing method can cause results to vary substantially from company to company depending upon whether they elect to utilize LIFO and depending upon which method they may elect. The Company uses Adjusted Gross Profit as a key performance indicator in managing its business. The Company believes that gross profit is the financial measure calculated and presented in accordance with U.S. generally accepted accounting principles that is most directly comparable to Adjusted Gross Profit.

Edgar Filing: MRC GLOBAL INC. - Form 8-K

The following table reconciles Adjusted Gross Profit and Adjusted Gross Profit percentage (non-GAAP measures) to gross profit and gross profit percentage (GAAP measures):

	Expected for the Year Ended 2017	Percentage of Expected Revenue*
Gross profit	\$ 602	16.4%
Depreciation and amortization	22	0.6%
Amortization of intangibles	45	1.3%
Increase in LIFO reserve	12	0.3%
Adjusted Gross Profit	\$ 681	18.5%

\* Percentages are based on the midpoint of revenue guidance provided above. Does not foot due to rounding.

- The Company expects the 2017 selling, general and administrative expense run-rate to be \$131 million to \$133 million per quarter for the remaining two quarters of 2017. The third quarter should include increased enterprise resource planning (“ERP”) system implementation costs.
- The Company expects break even cash flow from operations in 2017.
- The Company expects to have an effective tax rate of 35% for the full year of 2017.
- The Company expects its total capital expenditures for 2017 to be approximately \$45 million.
