Form 10-Q
May 05, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended March 26, 2016

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
Commission File Number: 1-14222

SUBURBAN PROPANE PARTNERS, L.P.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

22-3410353
(I.R.S. Employer
Identification No.)

240 Route 10 West
Whippany, NJ 07981
(973) 887-5300

(Address, including zip code, and telephone number,
including area code, of registrant's principal executive offices)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At May 2, 2016, there were 60,776,271 Common Units of Suburban Propane Partners, L.P. outstanding.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements (“Forward-Looking Statements”) as defined in the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, relating to future business expectations and predictions and financial condition and results of operations of Suburban Propane Partners, L.P. (the “Partnership”). Some of these statements can be identified by the use of forward-looking terminology such as “prospects,” “outlook,” “believes,” “estimates,” “intends,” “may,” “will,” “should,” “anticipates,” “expects” or “plans” or the negative or other variations or similar words, or by discussion of trends and conditions, strategies or risks and uncertainties. These Forward-Looking Statements involve certain risks and uncertainties that could cause actual results to differ materially from those discussed or implied in such Forward-Looking Statements (statements contained in this Quarterly Report identifying such risks and uncertainties are referred to as “Cautionary Statements”). The risks and uncertainties and their impact on the Partnership’s results include, but are not limited to, the following risks:

- The impact of weather conditions on the demand for propane, fuel oil and other refined fuels, natural gas and electricity;
- Volatility in the unit cost of propane, fuel oil and other refined fuels, natural gas and electricity, the impact of the Partnership’s hedging and risk management activities, and the adverse impact of price increases on volumes sold as a result of customer conservation;
- The ability of the Partnership to compete with other suppliers of propane, fuel oil and other energy sources;
- The impact on the price and supply of propane, fuel oil and other refined fuels from the political, military or economic instability of the oil producing nations, global terrorism and other general economic conditions;
- The ability of the Partnership to acquire sufficient volumes of, and the costs to the Partnership of acquiring, transporting and storing, propane, fuel oil and other refined fuels;
- The ability of the Partnership to acquire and maintain reliable transportation for its propane, fuel oil and other refined fuels;
- The ability of the Partnership to retain customers or acquire new customers;
- The impact of customer conservation, energy efficiency and technology advances on the demand for propane, fuel oil and other refined fuels, natural gas and electricity;
- The ability of management to continue to control expenses;
- The impact of changes in applicable statutes and government regulations, or their interpretations, including those relating to the environment and climate change, derivative instruments and other regulatory developments on the Partnership’s business;
- The impact of changes in tax laws that could adversely affect the tax treatment of the Partnership for income tax purposes;
- The impact of legal proceedings on the Partnership’s business;
- The impact of operating hazards that could adversely affect the Partnership’s operating results to the extent not covered by insurance;
- The Partnership’s ability to make strategic acquisitions and successfully integrate them;
- The impact of current conditions in the global capital and credit markets, and general economic pressures;
- The operating, legal and regulatory risks the Partnership may face; and
- Other risks referenced from time to time in filings with the Securities and Exchange Commission (“SEC”) and those factors listed or incorporated by reference into the Partnership’s most recent Annual Report under “Risk Factors.”

Some of these Forward-Looking Statements are discussed in more detail in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Quarterly Report. Reference is also made to the risk factors discussed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 26, 2015. On different occasions, the Partnership or its representatives have made or may make Forward-Looking Statements in other filings with the SEC, press releases or oral statements made by or with the approval of one of the Partnership’s authorized executive officers. Readers are cautioned not to place undue reliance on Forward-Looking Statements, which reflect management’s view only as of the date made. The Partnership undertakes no obligation to update any Forward-Looking Statement or Cautionary Statement, except as required by law. All subsequent written and oral

Forward-Looking Statements attributable to the Partnership or persons acting on its behalf are expressly qualified in their entirety by the Cautionary Statements in this Quarterly Report and in future SEC reports.

SUBURBAN PROPANE PARTNERS, L.P. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(dollars in thousands, except unit and per unit amounts)

(unaudited)

1. Partnership Organization and Formation

Suburban Propane Partners, L.P. (the “Partnership”) is a publicly traded Delaware limited partnership principally engaged, through its operating partnership and subsidiaries, in the retail marketing and distribution of propane, fuel oil and refined fuels, as well as the marketing of natural gas and electricity in deregulated markets. In addition, to complement its core marketing and distribution businesses, the Partnership services a wide variety of home comfort equipment, particularly for heating and ventilation. The publicly traded limited partner interests in the Partnership are evidenced by common units traded on the New York Stock Exchange (“Common Units”), with 60,752,827 Common Units outstanding at March 26, 2016. The holders of Common Units are entitled to participate in distributions and exercise the rights and privileges available to limited partners under the Third Amended and Restated Agreement of Limited Partnership, as amended (the “Partnership Agreement”). Rights and privileges under the Partnership Agreement include, among other things, the election of all members of the Board of Supervisors and voting on the removal of the general partner.

Suburban Propane, L.P. (the “Operating Partnership”), a Delaware limited partnership, is the Partnership’s operating subsidiary formed to operate the propane business and assets. In addition, Suburban Sales & Service, Inc. (the “Service Company”), a subsidiary of the Operating Partnership, was formed to operate the service work and appliance and parts businesses of the Partnership. The Operating Partnership, together with its direct and indirect subsidiaries, accounts for substantially all of the Partnership’s assets, revenues and earnings. The Partnership, the Operating Partnership and the Service Company commenced operations in March 1996 in connection with the Partnership’s initial public offering.

The general partner of both the Partnership and the Operating Partnership is Suburban Energy Services Group LLC (the “General Partner”), a Delaware limited liability company, the sole member of which is the Partnership’s Chief Executive Officer. Other than as a holder of 784 Common Units that will remain in the General Partner, the General Partner does not have any economic interest in the Partnership or the Operating Partnership.

The Partnership’s fuel oil and refined fuels, natural gas and electricity and services businesses are structured as either limited liability companies that are treated as corporations or corporate entities (collectively referred to as the “Corporate Entities”) and, as such, are subject to corporate level income tax.

Suburban Energy Finance Corp., a direct 100%-owned subsidiary of the Partnership, was formed on November 26, 2003 to serve as co-issuer, jointly and severally with the Partnership, of the Partnership’s senior notes.

2. Basis of Presentation

Principles of Consolidation. The condensed consolidated financial statements include the accounts of the Partnership, the Operating Partnership and all of its direct and indirect subsidiaries. All significant intercompany transactions and account balances have been eliminated. The Partnership consolidates the results of operations, financial condition and cash flows of the Operating Partnership as a result of the Partnership’s 100% limited partner interest in the Operating Partnership.

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

The accompanying condensed consolidated financial statements are unaudited and have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). They include all adjustments that the Partnership considers necessary for a fair statement of the results for the interim periods presented. Such adjustments consist only of normal recurring items, unless otherwise disclosed. These financial statements should be read in conjunction with the financial statements included in the Partnership’s Annual Report on Form 10-K for the fiscal year ended September 26, 2015. Due to the seasonal nature of the Partnership’s operations, the results of operations for interim periods are not necessarily indicative of the results to be expected for a full year.

Fiscal Period. The Partnership uses a 52/53 week fiscal year which ends on the last Saturday in September. The Partnership’s fiscal quarters are generally thirteen weeks in duration. When the Partnership’s fiscal year is 53 weeks long, the corresponding fourth quarter is fourteen weeks in duration.

7

Revenue Recognition. Sales of propane, fuel oil and refined fuels are recognized at the time product is delivered to the customer. Revenue from the sale of appliances and equipment is recognized at the time of sale or when installation is complete, as applicable. Revenue from repairs, maintenance and other service activities is recognized upon completion of the service. Revenue from service contracts is recognized ratably over the service period. Revenue from the natural gas and electricity business is recognized based on customer usage as determined by meter readings for amounts delivered, some of which may be unbilled at the end of each accounting period. Revenue from annually billed tank fees is deferred at the time of billings and recognized on a straight-line basis over one year.

Fair Value Measurements. The Partnership measures certain of its assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants – in either the principal market or the most advantageous market. The principal market is the market with the greatest level of activity and volume for the asset or liability.

The common framework for measuring fair value utilizes a three-level hierarchy to prioritize the inputs used in the valuation techniques to derive fair values. The basis for fair value measurements for each level within the hierarchy is described below with Level 1 having the highest priority and Level 3 having the lowest.

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets.
- Level 3: Valuations derived from valuation techniques in which one or more significant inputs are unobservable.

Business Combinations. The Partnership accounts for business combinations using the acquisition method and accordingly, the assets and liabilities of the acquired entities are recorded at their estimated fair values at the acquisition date. Goodwill represents the excess of the purchase price over the fair value of the net assets acquired, including the amount assigned to identifiable intangible assets. The primary drivers that generate goodwill are the value of synergies between the acquired entities and the Partnership, and the acquired assembled workforce, neither of which qualifies as an identifiable intangible asset. Identifiable intangible assets with finite lives are amortized over their useful lives. The results of operations of acquired businesses are included in the consolidated financial statements from the acquisition date. The Partnership expenses all acquisition-related costs as incurred.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates have been made by management in the areas of self-insurance and litigation reserves, pension and other postretirement benefit liabilities and costs, valuation of derivative instruments, depreciation and amortization of long-lived assets, asset impairment assessments, tax valuation allowances, allowances for doubtful accounts, and purchase price allocation for acquired businesses. In October 2014 and October 2015, the Society of Actuaries (“SOA”) issued new mortality tables and a new mortality improvement scale. The Partnership uses SOA and other actuarial life expectancy information when developing the annual mortality assumptions for the pension and postretirement benefit plans, which are used to measure net periodic benefit costs and the obligation under these plans. Actual results could differ from those estimates, making it reasonably possible that a material change in these estimates could occur in the near term.

Recently Issued Accounting Pronouncements. In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) No. 2016-09, “Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting” (“ASU 2016-09”). This update is intended to simplify several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. ASU 2016-09 is effective for the first interim period within annual reporting periods beginning after December 15, 2016, which will be the Partnership’s first quarter of fiscal year 2018. Early adoption of ASU 2016-09 is permitted. The Partnership is currently evaluating the impact that

the standard will have on the Partnership's results of operations, financial position and cash flows.

In February 2016, the FASB issued ASU 2016-02, "Leases" ("ASU 2016-02"). The standard amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU 2016-02 is effective for the first interim period within annual reporting periods beginning after December 15, 2018, which will be the Partnership's first quarter of fiscal year 2020. Early adoption of ASU 2016-02 is permitted. The new leases standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. The Partnership is currently evaluating the impact of adopting ASU 2016-02 on the Partnership's results of operations, financial position and cash flows.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs" ("ASU 2015-03"). This update requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the

carrying amount of that debt liability, consistent with the presentation of original issue debt discounts. ASU 2015-03 is effective for the first interim period within annual reporting periods beginning after December 15, 2015, which will be the Partnership's first quarter of fiscal year 2017. In August 2015, the FASB issued ASU No. 2015-15, which provides additional guidance related to the presentation and subsequent measurement of debt issuance costs related to line-of-credit arrangements. An entity may present debt issuance costs as an asset and subsequently amortize the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings. Other than the reclassification of existing unamortized debt issuance costs on the balance sheet, the adoption of ASU 2015-03 and ASU 2015-15 will have no impact on the Partnership's results of operations or cash flows.

In May 2014, the FASB issued ASU 2014-09 "Revenue from Contracts with Customers" ("ASU 2014-09"). This update provides a principles-based approach to revenue recognition, requiring revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU provides a five-step model to be applied to all contracts with customers. The five steps are to identify the contract(s) with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when each performance obligation is satisfied. On July 9, 2015, the FASB finalized a one-year deferral of the effective date of ASU 2014-09. The revenue standard is therefore effective for the first interim period within annual reporting periods beginning after December 15, 2017, which will be the Partnership's first quarter of fiscal year 2019. Early adoption as of the original effective date is permitted. ASU 2014-09 can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. While the Partnership is still in the process of evaluating the potential impact of ASU 2014-09, it does not expect the adoption of ASU 2014-09 will have a material impact on the Partnership's results of operations, financial position or cash flows.

3. Acquisition of Business

On December 15, 2015, the Operating Partnership acquired the assets of Propane USA Distribution, LLC ("Propane USA"), a propane marketer headquartered in Margate, Florida, and its affiliate companies, for \$45,000 plus working capital acquired, of which \$42,195 was paid as of March 26, 2016. The remainder of the purchase price will be funded in accordance with the terms of certain non-compete agreements. The acquisition of Propane USA was consummated pursuant to the Partnership's strategic growth initiatives and was funded entirely from cash on hand. The purchase price allocation and results of operations of Propane USA were not material to the Partnership's consolidated financial position and statement of operations.

4. Financial Instruments and Risk Management

Cash and Cash Equivalents. The Partnership considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The carrying amount approximates fair value because of the short-term maturity of these instruments.

Derivative Instruments and Hedging Activities.

Commodity Price Risk. Given the retail nature of its operations, the Partnership maintains a certain level of priced physical inventory to help ensure its field operations have adequate supply commensurate with the time of year. The

Partnership's strategy is to keep its physical inventory priced relatively close to market for its field operations. The Partnership enters into a combination of exchange-traded futures and option contracts and, in certain instances, over-the-counter options and swap contracts (collectively, "derivative instruments") to hedge price risk associated with propane and fuel oil physical inventories, as well as future purchases of propane or fuel oil used in its operations and to help ensure adequate supply during periods of high demand. In addition, the Partnership sells propane and fuel oil to customers at fixed prices, and enters into derivative instruments to hedge a portion of its exposure to fluctuations in commodity prices as a result of selling the fixed price contracts. Under this risk management strategy, realized gains or losses on derivative instruments will typically offset losses or gains on the physical inventory once the product is sold or delivered as it pertains to fixed price contracts. All of the Partnership's derivative instruments are reported on the condensed consolidated balance sheet at their fair values. In addition, in the course of normal operations, the Partnership routinely enters into contracts such as forward priced physical contracts for the purchase or sale of propane and fuel oil that qualify for and are designated as normal purchase or normal sale contracts. Such contracts are exempted from the fair value accounting requirements and are accounted for at the time product is purchased or sold under the related contract. The Partnership does not use derivative instruments for speculative trading purposes. Market risks associated with futures, options, forward and swap contracts are monitored daily for compliance with the Partnership's Hedging and Risk Management Policy which includes volume limits for open positions. Priced on-hand inventory is also reviewed and managed daily as to exposures to changing market prices.

On the date that derivative instruments are entered into, other than those designated as normal purchases or normal sales, the Partnership makes a determination as to whether the derivative instrument qualifies for designation as a hedge. Changes in the fair value of derivative instruments are recorded each period in current period earnings or other comprehensive income ("OCI"),

depending on whether the derivative instrument is designated as a hedge and, if so, the type of hedge. For derivative instruments designated as cash flow hedges, the Partnership formally assesses, both at the hedge contract's inception and on an ongoing basis, whether the hedge contract is highly effective in offsetting changes in cash flows of hedged items. Changes in the fair value of derivative instruments designated as cash flow hedges are reported in OCI to the extent effective and reclassified into earnings during the same period in which the hedged item affects earnings. The mark-to-market gains or losses on ineffective portions of cash flow hedges are recognized in earnings immediately. Changes in the fair value of derivative instruments that are not designated as cash flow hedges, and that do not meet the normal purchase and normal sale exemption, are recorded within earnings as they occur. Cash flows associated with derivative instruments are reported as operating activities within the condensed consolidated statement of cash flows.

Interest Rate Risk. A portion of the Partnership's borrowings bear interest at prevailing interest rates based upon, at the Operating Partnership's option, LIBOR plus an applicable margin or the base rate, defined as the higher of the Federal Funds Rate plus ½ of 1% or the agent bank's prime rate, or LIBOR plus 1%, plus the applicable margin. The applicable margin is dependent on the level of the Partnership's total leverage (the ratio of total debt to consolidated income before deducting interest expense, income taxes, depreciation and amortization ("EBITDA")). Therefore, the Partnership is subject to interest rate risk on the variable component of the interest rate. The Partnership manages part of its variable interest rate risk by entering into interest rate swap agreements. The interest rate swaps have been designated as, and are accounted for as, cash flow hedges. The fair value of the interest rate swaps are determined using an income approach, whereby future settlements under the swaps are converted into a single present value, with fair value being based on the value of current market expectations about those future amounts. Changes in the fair value are recognized in OCI until the hedged item is recognized in earnings. However, due to changes in the underlying interest rate environment, the corresponding value in OCI is subject to change prior to its impact on earnings.

Valuation of Derivative Instruments. The Partnership measures the fair value of its exchange-traded options and futures contracts using quoted market prices found on the New York Mercantile Exchange (the "NYMEX") (Level 1 inputs); the fair value of its swap contracts using quoted forward prices, and the fair value of its interest rate swaps using model-derived valuations driven by observable projected movements of the 3-month LIBOR (Level 2 inputs); and the fair value of its over-the-counter options contracts using Level 3 inputs. The Partnership's over-the-counter options contracts are valued based on an internal option model. The inputs utilized in the model are based on publicly available information as well as broker quotes. The significant unobservable inputs used in the fair value measurements of the Partnership's over-the-counter options contracts are interest rate and market volatility.

The following summarizes the fair value of the Partnership's derivative instruments and their location in the condensed consolidated balance sheets as of March 26, 2016 and September 26, 2015, respectively:

	As of March 26, 2016		As of September 26, 2015

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

The following summarizes the reconciliation of the beginning and ending balances of assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs:

	Fair Value Measurement Using Significant			
	Unobservable Inputs (Level 3)			
	Six Months Ended March 26, 2016		Six Months Ended March 28, 2015	
	Assets	Liabilities	Assets	Liabilities
Beginning balance of over-the-counter options	\$2,781	\$ 347	\$1,512	\$ —
Beginning balance realized during the period	(1,738)	(96)	(910)	—
Contracts purchased during the period	173	—	461	—
Change in the fair value of outstanding contracts	(479)	(201)	2,755	—
Ending balance of over-the-counter options	\$737	\$ 50	\$3,818	\$ —

As of March 26, 2016 and September 26, 2015, the Partnership's outstanding commodity-related derivatives had a weighted average maturity of approximately four and seven months, respectively.

The effect of the Partnership's derivative instruments on the condensed consolidated statements of operations and the condensed consolidated statements of comprehensive income, as applicable, for the three and six months ended March 26, 2016 and March 28, 2015 are as follows:

	Three Months Ended March 26, 2016		Three Months Ended March 28, 2015	
	Gains (Losses) Reclassified from Accumulated OCI into Income		Gains (Losses) Reclassified from Accumulated OCI into Income

The following table presents the fair value of the Partnership's recognized derivative assets and liabilities on a gross basis and amounts offset on the condensed consolidated balance sheets subject to enforceable master netting arrangements or similar agreements:

	As of March 26, 2016			As of September 26, 2015		
	Gross amounts	Effects of netting	Net amounts presented in the balance sheet	Gross amounts	Effects of netting	Net amounts presented in the balance sheet
Asset Derivatives						
Commodity-related						
derivatives	\$5,163	\$ (1,930)) \$ 3,233	\$13,063	\$ (5,565)) \$ 7,498
Interest rate swap	589	(589)) —	740	(740)) —
	\$5,752	\$ (2,519)) \$ 3,233	\$13,803	\$ (6,305)) \$ 7,498
Liability Derivatives						
Commodity-related						
derivatives	\$4,012	\$ (1,930)) \$ 2,082	\$8,132	\$ (5,565)) \$ 2,567
Interest rate swap	1,249	(589)) 660	2,052	(740)) 1,312
	\$5,261	\$ (2,519)) \$ 2,742	\$10,184	\$ (6,305)) \$ 3,879

The Partnership had \$1,387 and \$553 posted cash collateral as of March 26, 2016 and September 26, 2015, respectively, with its brokers for outstanding commodity-related derivatives.

Bank Debt and Senior Notes. The fair value of the borrowings under the Revolving Credit Facility (defined below) approximates the carrying value since the interest rates are periodically adjusted to reflect market conditions. Based upon quoted market prices (a Level 1 input), the fair value of the Senior Notes (defined below) of the Partnership are as follows:

	As of	
	March 26, 2016	September 26, 2015
7.375% senior notes due August 1, 2021	\$347,045	\$363,922
5.5% senior notes due June 1, 2024	504,000	498,750
5.75% senior notes due March 1, 2025	240,000	241,250
	\$1,091,045	\$1,103,922

5. Inventories

Inventories are stated at the lower of cost or market. Cost is determined using a weighted average method for propane, fuel oil and refined fuels and natural gas, and a standard cost basis for appliances, which approximates average cost. Inventories consist of the following:

	As of	
	March	September
	26,	26,
	2016	2015
Propane, fuel oil and refined fuels and natural gas	\$43,301	\$ 45,918
Appliances	1,847	1,768
	\$45,148	\$ 47,686

6. Goodwill and Other Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of net assets acquired. Goodwill is subject to an impairment review at a reporting unit level, on an annual basis as of the end of fiscal July of each year, or when an event occurs or circumstances change that would indicate potential impairment.

The Partnership has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, the Partnership determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. However, if the Partnership concludes otherwise, then it is required to perform the first step of the two-step impairment test.

Under the two-step impairment test, the Partnership assesses the carrying value of goodwill at a reporting unit level based on an estimate of the fair value of the respective reporting unit. Fair value of the reporting unit is estimated using discounted cash flow

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

analyses taking into consideration estimated cash flows in a ten-year projection period and a terminal value calculation at the end of the projection period. If the fair value of the reporting unit exceeds its carrying value, the goodwill associated with the reporting unit is not considered to be impaired. If the carrying value of the reporting unit exceeds its fair value, an impairment loss is recognized to the extent that the carrying amount of the associated goodwill, if any, exceeds the implied fair value of the goodwill.

The carrying values of goodwill assigned to the Partnership's operating segments are as follows:

	Propane	Fuel oil and refined fuels	Natural gas and electricity	Total
Balance as of September 26, 2015				
Goodwill	\$1,075,091	\$10,900	\$7,900	\$1,093,891
Accumulated adjustments	—	(6,462)	—	(6,462)
	\$1,075,091	\$4,438	\$7,900	\$1,087,429
Goodwill acquired during fiscal 2016 (1)				
	\$14,710	\$—	\$—	\$14,710
Balance as of March 26, 2016				
Goodwill	\$1,089,801	\$10,900	\$7,900	\$1,108,601
Accumulated adjustments	—	(6,462)	—	(6,462)
	\$1,089,801	\$4,438	\$7,900	\$1,102,139

Other intangible assets consist of the following:

	As of March 26, 2016	September 26, 2015
Customer relationships (1)	\$496,577	\$471,829
Non-compete agreements (1)	31,040	27,815
Tradenames	3,482	3,482
Other	1,967	1,967
	533,066	505,093
Less: accumulated amortization		
Customer relationships	(200,292)	(173,823)
Non-compete agreements	(20,921)	(19,337)
Tradenames	(3,317)	(3,069)
Other	(1,121)	(1,075)
	(225,651)	(197,304)
	\$307,415	\$307,789

(1) Increases reflect the Propane USA acquisition (Note 3).

7. Net Income Per Common Unit

Computations of basic income per Common Unit are performed by dividing net income by the weighted average number of outstanding Common Units, and vested (and unissued) restricted units granted under the Partnership's Restricted Unit Plans, as defined below, to retirement-eligible grantees. Computations of diluted income per Common Unit are performed by dividing net income by the weighted average number of outstanding Common Units and unissued restricted units granted under the Restricted Unit Plans. In computing diluted net income per Common Unit, weighted average units outstanding used to compute basic net income per Common Unit were increased by 277,435 and 270,360 units for the three and six months ended March 26, 2016, respectively, and 343,922 and 320,398 units for the three and six months ended March 28, 2015, respectively, to reflect the potential dilutive effect of the unvested restricted units outstanding using the treasury stock method.

8. Long-Term Borrowings

Long-term borrowings consist of the following:

	As of	
	March 26, 2016	September 26, 2015
7.375% senior notes, due August 1, 2021, including		
unamortized premium of \$18,482 and \$19,927, respectively	\$364,662	\$366,107
5.5% senior notes, due June 1, 2024	525,000	525,000
5.75% senior notes, due March 1, 2025	250,000	250,000
Revolving Credit Facility, due March 3, 2021	100,000	—
Revolving Credit Facility, due January 5, 2017	—	100,000
	\$1,239,662	\$1,241,107

Senior Notes.

2018 Senior Notes and 2021 Senior Notes

On August 1, 2012, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., issued \$496,557 in aggregate principal amount of unregistered 7.5% senior notes due October 1, 2018 (the “2018 Senior Notes”) and \$503,443 in aggregate principal amount of unregistered 7.375% senior notes due August 1, 2021 (the “2021 Senior Notes”) in a private placement in connection with the acquisition of the retail propane assets and operations of Inergy, L.P. (“Inergy Propane”). Based on market rates for similar issues, the 2018 Senior Notes and 2021 Senior Notes were valued at 106.875% and 108.125%, respectively, of the principal amount, on the acquisition date as they were issued in exchange for Inergy L.P.’s outstanding notes, not for cash. The 2021 Senior Notes require semi-annual interest payments in February and August. On December 19, 2012, the Partnership completed an offer to exchange its then-outstanding unregistered 7.5% senior notes due 2018 and 7.375% senior notes due 2021 for an equal principal amount of 7.5% senior notes due 2018 and 7.375% senior notes due 2021, respectively, that have been registered under the Securities Act of 1933, as amended.

On August 2, 2013, the Partnership repurchased, pursuant to an optional redemption, \$133,400 of its 2021 Senior Notes using net proceeds from the May 2013 public offering of Common Units and net proceeds from the underwriters’ exercise of their over-allotment option to purchase additional Common Units. In addition, on August 6, 2013, the Partnership repurchased \$23,863 of 2021 Senior Notes in a private transaction using cash on hand.

On May 27, 2014, the Partnership repurchased and satisfied and discharged all of its 2018 Senior Notes with net proceeds from the issuance of the 2024 Senior Notes, as defined below, and cash on hand pursuant to a tender offer and redemption. In connection with this tender offer and redemption, the Partnership recognized a loss on the extinguishment of debt of \$11,589 consisting of \$31,633 for the redemption premium and related fees, as well as the write-off of \$5,230 and (\$25,274) in unamortized debt origination costs and unamortized premium, respectively.

2020 Senior Notes

On March 23, 2010, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$250,000 in aggregate principal amount of 7.375% senior notes due March 15, 2020 (the “2020 Senior Notes”). The 2020 Senior Notes were issued at 99.136% of the principal amount and required semi-annual

interest payments in March and September.

On February 25, 2015, the Partnership repurchased and satisfied and discharged all of its previously outstanding 2020 Senior Notes with net proceeds from the issuance of the 2025 Senior Notes, as defined below, and cash on hand pursuant to a tender offer and redemption. In connection with this tender offer and redemption, the Partnership recognized a loss on the extinguishment of debt of \$15,072 consisting of \$11,124 for the redemption premium and related fees, as well as the write-off of \$2,855 and \$1,093 in unamortized debt origination costs and unamortized discount, respectively.

2024 Senior Notes

On May 27, 2014, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$525,000 in aggregate principal amount of 5.5% senior notes due June 1, 2024 (the "2024 Senior Notes"). The 2024 Senior Notes were issued at 100% of the principal amount and require semi-annual interest payments in June and December. The net proceeds from the issuance of the 2024 Senior Notes, along with cash on hand, were used to repurchase and satisfy and discharge all of the 2018 Senior Notes.

2025 Senior Notes

On February 25, 2015, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$250,000 in aggregate principal amount of 5.75% senior notes due March 1, 2025 (the “2025 Senior Notes”). The 2025 Senior Notes were issued at 100% of the principal amount and require semi-annual interest payments in March and September. The net proceeds from the issuance of the 2025 Senior Notes, along with cash on hand, were used to repurchase and satisfy and discharge all of the 2020 Senior Notes.

The Partnership’s obligations under the 2021 Senior Notes, 2024 Senior Notes and 2025 Senior Notes (collectively, the “Senior Notes”) are unsecured and rank senior in right of payment to any future subordinated indebtedness and equally in right of payment with any future senior indebtedness. The Senior Notes are structurally subordinated to, which means they rank effectively behind, any debt and other liabilities of the Operating Partnership. The Partnership is permitted to redeem some or all of the Senior Notes at redemption prices and times as specified in the indentures governing the Senior Notes. The Senior Notes each have a change of control provision that would require the Partnership to offer to repurchase the notes at 101% of the principal amount repurchased, if a change of control, as defined in the respective indentures, occurs and is followed by a rating decline (a decrease in the rating of the notes by either Moody’s Investors Service or Standard and Poor’s Rating Group by one or more gradations) within 90 days of the consummation of the change of control.

Credit Agreement. On March 3, 2016 the Partnership and the Operating Partnership entered into a Second Amended and Restated Credit Agreement (the “Amended Credit Agreement”) that provides for a five-year \$500,000 revolving credit facility (the “Revolving Credit Facility”), of which \$100,000 was outstanding as of March 26, 2016. As of September 26, 2015, \$100,000 was outstanding under the Operating Partnership’s revolving credit facility of the previous credit agreement, which was rolled into the Revolving Credit Facility of the Amended Credit Agreement. The Amended Credit Agreement amends and restates the previous credit agreement to, among other things, extend the maturity date from January 5, 2017 to March 3, 2021, reduce the borrowing rate, amend certain affirmative and negative covenants and increase the revolving credit commitments from \$400,000 to \$500,000. Borrowings under the Revolving Credit Facility may be used for general corporate purposes, including working capital, capital expenditures and acquisitions. The Operating Partnership has the right to prepay any borrowings under the Revolving Credit Facility, in whole or in part, without penalty at any time prior to maturity. In connection with the Amended Credit Agreement, the Partnership recognized a non-cash charge of \$292 to write-off a portion of unamortized debt origination costs of the previous credit agreement.

The Amended Credit Agreement contains certain restrictive and affirmative covenants applicable to the Operating Partnership and the Partnership, as well as certain financial covenants, including (a) requiring the Partnership’s consolidated interest coverage ratio, as defined in the Amended Credit Agreement, to be not less than 2.5 to 1.0 as of the end of any fiscal quarter and (b) prohibiting the total consolidated leverage ratio, as defined in the Amended Credit Agreement, of the Partnership from being greater than 5.5 to 1.0 as of the end of any fiscal quarter.

The Partnership acts as a guarantor with respect to the obligations of the Operating Partnership under the Amended Credit Agreement pursuant to the terms and conditions set forth therein. The obligations under the Amended Credit Agreement are secured by liens on substantially all of the personal property of the Partnership, the Operating Partnership and their subsidiaries, as well as mortgages on certain real property.

Borrowings under the Revolving Credit Facility of the Amended Credit Agreement bear interest at prevailing interest rates based upon, at the Operating Partnership’s option, LIBOR plus the applicable margin or the base rate, defined as the higher of the Federal Funds Rate plus ½ of 1%, the agent bank’s prime rate, or LIBOR plus 1%, plus in each case the applicable margin. The applicable margin is dependent upon the Partnership’s ratio of total debt to EBITDA on a consolidated basis, as defined in the Revolving Credit Facility. As of March 26, 2016, the interest rate for the Revolving Credit Facility was approximately 2.9%. The interest rate and the applicable margin will be reset at the end of each calendar quarter.

In connection with the previous credit agreement, the Operating Partnership entered into an interest rate swap agreement with a notional amount of \$100,000, an effective date of June 25, 2013 and a termination date of January 5, 2017. Under this interest rate swap agreement, the Operating Partnership will pay a fixed interest rate of 1.63% to the issuing lender on the notional principal amount outstanding, and the issuing lender will pay the Operating Partnership a floating rate, namely LIBOR, on the same notional principal amount. The interest rate swap has been designated as a cash flow hedge.

In addition, at the time the March 3, 2016 Amended Credit Agreement was entered into, the Operating Partnership had letters of credit issued under the revolving credit facility of the previous credit agreement, all of which have been rolled into the Revolving Credit Facility of the Amended Credit Agreement. As of March 26, 2016, the Partnership had standby letters of credit issued under the Revolving Credit Facility in the aggregate amount of \$46,183 which expire periodically through April 3, 2017. Therefore, as of March 26, 2016 the Partnership had available borrowing capacity of \$353,817 under the Revolving Credit Facility.

The Amended Credit Agreement and the Senior Notes both contain various restrictive and affirmative covenants applicable to the Operating Partnership and the Partnership, respectively, including (i) restrictions on the incurrence of additional indebtedness, and (ii) restrictions on certain liens, investments, guarantees, loans, advances, payments, mergers, consolidations, distributions, sales of assets and other transactions. Under the Amended Credit Agreement and the indentures governing the Senior Notes, the Operating Partnership and the Partnership are generally permitted to make cash distributions equal to available cash, as defined, as of the end of the immediately preceding quarter, if no event of default exists or would exist upon making such distributions, and with respect to the indentures governing the Senior Notes, the Partnership's consolidated fixed charge coverage ratio, as defined, is greater than 1.75 to 1. The Partnership and the Operating Partnership were in compliance with all covenants and terms of the Senior Notes and the Amended Credit Agreement as of March 26, 2016.

The aggregate amounts of long-term debt maturities subsequent to March 26, 2016 are as follows: fiscal 2016: \$-0-; fiscal 2017: \$-0-; fiscal 2018: \$-0-; fiscal 2019: \$-0-; fiscal 2020: \$-0-; and thereafter: \$1,221,180.

9. Distributions of Available Cash

The Partnership makes distributions to its partners no later than 45 days after the end of each fiscal quarter in an aggregate amount equal to its Available Cash for such quarter. Available Cash, as defined in the Partnership Agreement, generally means all cash on hand at the end of the respective fiscal quarter less the amount of cash reserves established by the Board of Supervisors in its reasonable discretion for future cash requirements. These reserves are retained for the proper conduct of the Partnership's business, the payment of debt principal and interest and for distributions during the next four quarters.

On April 21, 2016, the Partnership announced a quarterly distribution of \$0.8875 per Common Unit, or \$3.55 per Common Unit on an annualized basis, in respect of the second quarter of fiscal 2016, payable on May 10, 2016 to holders of record on May 3, 2016.

10. Unit-Based Compensation Arrangements

The Partnership recognizes compensation cost over the respective service period for employee services received in exchange for an award of equity, or equity-based compensation, based on the grant date fair value of the award. The Partnership measures liability awards under an equity-based payment arrangement based on remeasurement of the award's fair value at the conclusion of each interim and annual reporting period until the date of settlement, taking into consideration the probability that the performance conditions will be satisfied.

Restricted Unit Plan. On July 22, 2009, the Partnership adopted the Suburban Propane Partners, L.P. 2009 Restricted Unit Plan, as amended (the "Restricted Unit Plan"), which authorizes the issuance of Common Units to executives, managers and other employees and members of the Board of Supervisors of the Partnership. The total number of Common Units authorized for issuance under the Restricted Unit Plan was 2,400,000 as of March 26, 2016. In accordance with an August 6, 2013 amendment to the Restricted Unit Plan, unless otherwise stipulated by the Compensation Committee of the Partnership's Board of Supervisors on or before the grant date, all restricted unit awards granted after the date of the amendment will vest 33.33% on each of the first three anniversaries of the award grant date. Prior to the August 6, 2013 amendment, unless otherwise stipulated by the Compensation Committee of the Partnership's Board of Supervisors on or before the grant date, restricted units issued under the Restricted Unit Plan vest over time with 25% of the Common Units vesting at the end of each of the third and fourth anniversaries of the

grant date and the remaining 50% of the Common Units vesting at the end of the fifth anniversary of the grant date. The Restricted Unit Plan participants are not eligible to receive quarterly distributions on, or vote, their respective restricted units until vested. Restricted units cannot be sold or transferred prior to vesting. The value of the restricted unit is established by the market price of the Common Unit on the date of grant, net of estimated future distributions during the vesting period. Restricted units are subject to forfeiture in certain circumstances as defined in the Restricted Unit Plan. Compensation expense for the unvested awards is recognized ratably over the vesting periods and is net of estimated forfeitures.

During the six months ended March 26, 2016, the Partnership awarded 307,559 restricted units under the Restricted Unit Plan at an aggregate grant date fair value of \$7,265. The following is a summary of activity for the Restricted Unit Plan for the six months ended March 26, 2016:

	Units	Weighted Average Grant Date Fair Value Per Unit
Outstanding September 26, 2015	627,399	\$ 31.87
Awarded	307,559	23.62
Forfeited	(1,500)	(23.60)
Issued	(221,757)	(35.64)
Outstanding March 26, 2016	711,701	\$ 27.15

As of March 26, 2016, unrecognized compensation cost related to unvested restricted units awarded under the Restricted Unit Plan amounted to \$7,050. Compensation cost associated with unvested awards is expected to be recognized over a weighted-average period of 1.1 years. Compensation expense recognized under the Restricted Unit Plan, net of forfeitures, for the three and six months ended March 26, 2016 was \$2,579 and \$5,391, respectively and \$2,613 and \$5,503 for the three and six months ended March 28, 2015, respectively.

Long-Term Incentive Plan. On August 6, 2013, the Compensation Committee of the Partnership's Board of Supervisors adopted the 2014 Long-Term Incentive Plan ("LTIP"). The LTIP is a non-qualified, unfunded, long-term incentive plan for officers and key employees that provides for payment, in the form of cash, of an award of equity-based compensation at the end of a three-year performance period. The level of compensation earned under the LTIP is based on the Partnership's average distribution coverage ratio over the three-year measurement period. The Partnership's average distribution coverage ratio is calculated as the Partnership's average distributable cash flow, as defined by the LTIP, for each of the three years in the measurement period, subject to certain adjustments as set forth in the LTIP, divided by the amount of annualized cash distributions to be paid by the Partnership, based on the annualized cash distribution rate at the beginning of the measurement period.

As a result of the quarterly remeasurement of the liability for awards under the LTIP, compensation expense for the three and six months ended March 26, 2016 was (\$539) and (\$730), respectively, and \$556 and \$1,754 for the three and six months ended March 28, 2015, respectively. As of March 26, 2016 and September 26, 2015, the Partnership had a liability included within accrued employment and benefit costs (or other liabilities, as applicable) of \$2,658 and \$4,860, respectively, related to estimated future payments under the LTIP.

11. Commitments and Contingencies

Self-Insurance. The Partnership is self-insured for general and product, workers' compensation and automobile liabilities up to predetermined thresholds above which third party insurance applies. As of March 26, 2016 and September 26, 2015, the Partnership had accrued insurance liabilities of \$57,343 and \$57,083, respectively, representing the total estimated losses under these self-insurance programs. For the portion of the estimated liability that exceeds insurance deductibles, the Partnership records an asset within other assets (or other current assets, as applicable) related to the amount of the liability expected to be covered by insurance which amounted to \$14,960 and \$15,783 as of March 26, 2016 and September 26, 2015, respectively.

Legal Matters. The Partnership's operations are subject to operating hazards and risks normally incidental to handling, storing and delivering combustible liquids such as propane. The Partnership has been, and will continue to be, a defendant in various legal proceedings and litigation as a result of these operating hazards and risks, and as a result of other aspects of its business. During the first quarter of fiscal 2016, the Partnership settled a product liability matter for \$3,000. Although any litigation is inherently uncertain, based on past experience, the information currently available to the Partnership, and the amount of its accrued insurance liabilities, the Partnership does not believe that currently pending or threatened litigation matters, or known claims or known contingent claims, will have a material adverse effect on its results of operations, financial condition or cash flow.

12. Guarantees

The Partnership has residual value guarantees associated with certain of its operating leases, related primarily to transportation equipment, with remaining lease periods scheduled to expire periodically through fiscal 2023. Upon completion of the lease period, the Partnership guarantees that the fair value of the equipment will equal or exceed the guaranteed amount, or the Partnership will pay the lessor the difference. Although the fair value of equipment at the end of its lease term has historically exceeded the guaranteed amounts, the maximum potential amount of aggregate future payments the Partnership could be required to make under these leasing arrangements, assuming the equipment is deemed worthless at the end of the lease term, was \$13,003 as of March 26, 2016. The fair value of residual value guarantees for outstanding operating leases was de minimis as of March 26, 2016 and September 26, 2015.

13. Pension Plans and Other Postretirement Benefits

The following table provides the components of net periodic benefit costs:

	Pension Benefits			
	Three Months		Six Months	
	Ended		Ended	
	March	March	March	March
	26,	28,	26,	28,
	2016	2015	2016	2015
Interest cost	\$1,260	\$1,282	\$2,521	\$2,564
Expected return on plan assets	(854)	(1,228)	(1,709)	(2,457)
Amortization of net loss (gain)	1,475	1,131	2,609	2,261
Net periodic benefit cost	\$1,881	\$1,185	\$3,421	\$2,368

	Postretirement Benefits			
	Three Months Ended		Six Months Ended	
	March 26, 2016	March 28, 2015	March 26, 2016	March 28, 2015
Interest cost	\$130	\$143	\$260	\$288
Amortization of prior service credits	(100)	(123)	(200)	(245)
Amortization of net loss (gain)	(74)	(49)	(149)	(98)
Net periodic benefit (income)	\$(44)	\$(29)	\$(89)	\$(55)

The Partnership expects to contribute approximately \$700 to the defined benefit pension plan during fiscal 2016. The projected annual contribution requirements related to the Partnership's postretirement health care and life insurance benefit plan for fiscal 2016 is \$1,025, of which \$407 has been contributed during the six months ended March 26, 2016.

The Partnership contributes to multi-employer pension plans ("MEPP") in accordance with various collective bargaining agreements covering union employees. As one of the many participating employers in these MEPPs, the Partnership is responsible with the other participating employers for any plan underfunding. As of March 26, 2016 and September 26, 2015, the Partnership's estimated obligation to these MEPPs was \$17,949 and \$18,041, respectively. Due to the uncertainty regarding future factors that could trigger withdrawal liability, the Partnership is unable to determine the timing of the payment of the future withdrawal liability or additional future withdrawal liability, if any.

14. Amounts Reclassified Out of Accumulated Other Comprehensive Income

The following table summarizes amounts reclassified out of accumulated other comprehensive (loss) income for the three and six months ended March 26, 2016 and March 28, 2015:

	Three Months		Six Months Ended	
	Ended March 26, 2016	March 28, 2015	March 26, 2016	March 28, 2015
Cash Flow Hedges				
Balance, beginning of period	\$(801)	\$(1,410)	\$(1,311)	\$(1,540)
Other comprehensive income before reclassifications:				
Unrealized (losses) gains	(117)	(500)	60	(727)
Reclassifications to earnings:				
Realized losses (a)	259	344	592	701
Other comprehensive income	142	(156)	652	(26)
Balance, end of period	\$(659)	\$(1,566)	\$(659)	\$(1,566)
Pension Benefits				
Balance, beginning of period	\$(51,702)	\$(47,904)	\$(52,836)	\$(49,034)
Reclassifications to earnings:				
Amortization of net loss (b)	1,475	1,131	2,609	2,261
Other comprehensive income	1,475	1,131	2,609	2,261
Balance, end of period	\$(50,227)	\$(46,773)	\$(50,227)	\$(46,773)
Postretirement Benefits				
Balance, beginning of period	\$5,089	\$4,498	\$5,264	\$4,669
Reclassifications to earnings:				
Amortization of prior service credits (b)	(100)	(123)	(200)	(245)
Amortization of net gain (b)	(74)	(49)	(149)	(98)
Other comprehensive loss	(174)	(172)	(349)	(343)
Balance, end of period	\$4,915	\$4,326	\$4,915	\$4,326
Accumulated Other Comprehensive Income (Loss)				
Balance, beginning of period	\$(47,414)	\$(44,816)	\$(48,883)	\$(45,905)
Other comprehensive income before reclassifications	(117)	(500)	60	(727)
Reclassifications to earnings	1,560	1,303	2,852	2,619
Other comprehensive income	1,443	803	2,912	1,892
Balance, end of period	\$(45,971)	\$(44,013)	\$(45,971)	\$(44,013)

(a) Reclassification of realized losses on cash flow hedges are recognized in interest expense.

(b) These amounts are included in the computation of net periodic benefit cost. See Note 13, "Pension Plans and Other Postretirement Benefits".

15. Income Taxes

For federal income tax purposes, as well as for state income tax purposes in the majority of the states in which the Partnership operates, the earnings attributable to the Partnership and the Operating Partnership are not subject to income tax at the partnership level. With the exception of those states that impose an entity-level income tax on partnerships, the taxable income or loss attributable to the Partnership, and to the Operating Partnership, which may vary substantially from the income (loss) before income taxes reported by the Partnership in the condensed consolidated statement of operations, are includable in the federal and state income tax returns of the Common Unitholders. The aggregate difference in the basis of the Partnership's net assets for financial and tax reporting purposes cannot be readily determined as the Partnership does not have access to each Common Unitholder's basis in the Partnership.

As described in Note 1, the earnings of the Corporate Entities are subject to corporate level federal and state income tax. However, based upon past performance, the Corporate Entities are currently reporting an income tax provision composed primarily of minimum state income taxes. A full valuation allowance has been provided against the deferred tax assets based upon an analysis of all available evidence, both negative and positive at the balance sheet date, which, taken as a whole, indicates that it is more likely than

not that sufficient future taxable income will not be available to utilize the assets. Management's periodic reviews include, among other things, the nature and amount of the taxable income and expense items, the expected timing of when assets will be used or liabilities will be required to be reported and the reliability of historical profitability of businesses expected to provide future earnings. Furthermore, management considered tax-planning strategies it could use to increase the likelihood that the deferred assets will be realized.

16. Subsequent Event

On April 22, 2016, the Operating Partnership sold certain assets and operations in a non-strategic market of the propane segment for \$26,000, including \$5,000 that will be received over a five-year period. The gain from the divestiture will be recognized during the third quarter of fiscal 2016. The net assets and results of operations were not material to the Partnership's results of operations, financial position and cash flows.

17. Segment Information

The Partnership manages and evaluates its operations in four operating segments, three of which are reportable segments: Propane, Fuel Oil and Refined Fuels, and Natural Gas and Electricity. The chief operating decision maker evaluates performance of the operating segments using a number of performance measures, including gross margins and income before interest expense and provision for income taxes (operating profit). Costs excluded from these profit measures are captured in Corporate and include corporate overhead expenses not allocated to the operating segments. Unallocated corporate overhead expenses include all costs of back office support functions that are reported as general and administrative expenses within the condensed consolidated statements of operations. In addition, certain costs associated with field operations support that are reported in operating expenses within the condensed consolidated statements of operations, including purchasing, training and safety, are not allocated to the individual operating segments. Thus, operating profit for each operating segment includes only the costs that are directly attributable to the operations of the individual segment. The accounting policies of the operating segments are otherwise the same as those described in Note 2, "Summary of Significant Accounting Policies," in the Partnership's Annual Report on Form 10-K for the fiscal year ended September 26, 2015.

The propane segment is primarily engaged in the retail distribution of propane to residential, commercial, industrial and agricultural customers and, to a lesser extent, wholesale distribution to large industrial end users. In the residential and commercial markets, propane is used primarily for space heating, water heating, cooking and clothes drying. Industrial customers use propane generally as a motor fuel burned in internal combustion engines that power over-the-road vehicles, forklifts and stationary engines, to fire furnaces and as a cutting gas. In the agricultural markets, propane is primarily used for tobacco curing, crop drying, poultry brooding and weed control.

The fuel oil and refined fuels segment is primarily engaged in the retail distribution of fuel oil, diesel, kerosene and gasoline to residential and commercial customers for use primarily as a source of heat in homes and buildings.

The natural gas and electricity segment is engaged in the marketing of natural gas and electricity to residential and commercial customers in the deregulated energy markets of New York and Pennsylvania. Under this operating segment, the Partnership owns the relationship with the end consumer and has agreements with the local distribution companies to deliver the natural gas or electricity from the Partnership's suppliers to the customer.

Activities in the “all other” category include the Partnership’s service business, which is primarily engaged in the sale, installation and servicing of a wide variety of home comfort equipment, particularly in the areas of heating and ventilation.

20

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

The following table presents certain data by reportable segment and provides a reconciliation of total operating segment information to the corresponding consolidated amounts for the periods presented:

	Three Months Ended		Six Months Ended	
	March	March	March	March 28,
	26,	28,	26,	March 28,
	2016	2015	2016	2015
Revenues:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion of the financial condition and results of operations of the Partnership as of and for the three and six months ended March 26, 2016. The discussion should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the historical consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the fiscal year ended September 26, 2015.

Executive Overview

The following are factors that regularly affect our operating results and financial condition. In addition, our business is subject to the risks and uncertainties described in Item 1A included in the Annual Report on Form 10-K for the fiscal year ended September 26, 2015.

Product Costs and Supply

The level of profitability in the retail propane, fuel oil, natural gas and electricity businesses is largely dependent on the difference between retail sales price and our costs to acquire and transport products. The unit cost of our products, particularly propane, fuel oil and natural gas, is subject to volatility as a result of supply and demand dynamics or other market conditions, including, but not limited to, economic and political factors impacting crude oil and natural gas supply or pricing. We enter into product supply contracts that are generally one-year agreements subject to annual renewal, and also purchase product on the open market. We attempt to reduce price risk by pricing product on a short-term basis. Our propane supply contracts typically provide for pricing based upon index formulas using the posted prices established at major supply points such as Mont Belvieu, Texas, or Conway, Kansas (plus transportation costs) at the time of delivery.

To supplement our annual purchase requirements, we may utilize forward fixed price purchase contracts to acquire a portion of the propane that we resell to our customers, which allows us to manage our exposure to unfavorable changes in commodity prices and to assure adequate physical supply. The percentage of contract purchases, and the amount of supply contracted for under forward contracts at fixed prices, will vary from year to year based on market conditions.

Changes in our costs to acquire and transport products can occur rapidly over a short period of time and can impact profitability. There is no assurance that we will be able to pass on product acquisition and transportation cost increases fully or immediately, particularly when such costs increase rapidly. Therefore, average retail sales prices can vary significantly from year to year as our costs fluctuate with the propane, fuel oil, crude oil and natural gas commodity markets and infrastructure conditions. In addition, periods of sustained higher commodity and/or transportation prices can lead to customer conservation, resulting in reduced demand for our product.

Seasonality

The retail propane and fuel oil distribution businesses, as well as the natural gas marketing business, are seasonal because these fuels are primarily used for heating in residential and commercial buildings. Historically, approximately two thirds of our retail propane volume is sold during the six-month peak heating season from October through March. The fuel oil business tends to experience greater seasonality given its more limited use for space heating and approximately three-fourths of our fuel oil volumes are sold between October and March. Consequently, sales and operating profits are concentrated in our first and second fiscal quarters. Cash flows from operations, therefore, are greatest during the second and third fiscal quarters when customers pay for product purchased during the winter heating season. We expect lower operating profits and either net losses or lower net income during the period from April through September (our third and fourth fiscal quarters). To the extent necessary, we will reserve cash from the second and third quarters for distribution to holders of our Common Units in the fourth quarter and the

following fiscal year first quarter.

Weather

Weather conditions have a significant impact on the demand for our products, in particular propane, fuel oil and natural gas, for both heating and agricultural purposes. Many of our customers rely heavily on propane, fuel oil or natural gas as a heating source. Accordingly, the volume sold is directly affected by the severity of the winter weather in our service areas, which can vary substantially from year to year. In any given area, sustained warmer than normal temperatures will tend to result in reduced propane, fuel oil and natural gas consumption, while sustained colder than normal temperatures will tend to result in greater consumption.

22

Hedging and Risk Management Activities

We engage in hedging and risk management activities to reduce the effect of price volatility on our product costs and to ensure the availability of product during periods of short supply. We enter into propane forward, options and swap agreements with third parties, and use futures and options contracts traded on the New York Mercantile Exchange (“NYMEX”) to purchase and sell propane, fuel oil and crude oil at fixed prices in the future. The majority of the futures, forward and options agreements are used to hedge price risk associated with propane and fuel oil physical inventory, as well as, in certain instances, forecasted purchases of propane or fuel oil. In addition, we sell propane and fuel oil to customers at fixed prices, and enter into derivative instruments to hedge a portion of our exposure to fluctuations in commodity prices as a result of selling the fixed price contracts. Forward contracts are generally settled physically at the expiration of the contract whereas futures, options and swap contracts are generally settled at the expiration of the contract through a net settlement mechanism. Although we use derivative instruments to reduce the effect of price volatility associated with priced physical inventory and forecasted transactions, we do not use derivative instruments for speculative trading purposes. Risk management activities are monitored by an internal Commodity Risk Management Committee, made up of seven members of management and reporting to the Audit Committee of our Board of Supervisors, through enforcement of our Hedging and Risk Management Policy.

Critical Accounting Policies and Estimates

Our significant accounting policies are summarized in Note 2, “Summary of Significant Accounting Policies,” included within the Notes to Consolidated Financial Statements section of our Annual Report on Form 10-K for the fiscal year ended September 26, 2015.

Certain amounts included in or affecting our consolidated financial statements and related disclosures must be estimated, requiring management to make certain assumptions with respect to values or conditions that cannot be known with certainty at the time the financial statements are prepared. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We are also subject to risks and uncertainties that may cause actual results to differ from estimated results. Estimates are used when accounting for depreciation and amortization of long-lived assets, employee benefit plans, self-insurance and litigation reserves, environmental reserves, allowances for doubtful accounts, asset valuation assessments and valuation of derivative instruments. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Any effects on our business, financial position or results of operations resulting from revisions to these estimates are recorded in the period in which the facts that give rise to the revision become known to us. Management has reviewed these critical accounting estimates and related disclosures with the Audit Committee of our Board of Supervisors.

Results of Operations and Financial Condition

Net income for the second quarter of fiscal 2016 was \$92.0 million, or \$1.51 per Common Unit, compared to net income of \$136.6 million, or \$2.26 per Common Unit, in the prior year second quarter. Earnings before interest, taxes, depreciation and amortization (“EBITDA”) for the second quarter of fiscal 2016 amounted to \$144.1 million, compared to \$189.7 million in the prior year second quarter.

Net income and EBITDA for the second quarter of fiscal 2016 included a loss on debt extinguishment of \$0.3 million. Net income and EBITDA for the second quarter of fiscal 2015 included a loss on debt extinguishment of \$15.1 million and \$2.1 million in expenses related to the integration of Inergy Propane. Excluding the effects of the foregoing items and unrealized (non-cash) mark-to-market adjustments on derivative instruments in both periods,

Adjusted EBITDA (as defined and reconciled below) amounted to \$145.1 million for the second quarter of fiscal 2016, compared to Adjusted EBITDA of \$214.3 million in the prior year second quarter.

Record warm temperatures in the 2015-2016 heating season had a significant effect on customer demand for heating needs. As a result, retail propane gallons sold in the second quarter of fiscal 2016 decreased 38.1 million gallons, or 19.1%, to 161.6 million gallons compared to 199.7 million gallons in the prior year second quarter. Sales of fuel oil and other refined fuels decreased 6.6 million gallons, to 13.3 million gallons compared to 19.9 million gallons in the prior year second quarter. According to the National Oceanic and Atmospheric Administration, the winter of 2015-2016 was the warmest on record in the contiguous United States. Average temperatures (as measured by heating degree days) across all of our service territories for the second quarter of fiscal 2016 were 13% warmer than normal and 20% warmer than the prior year second quarter. Therefore, the period from October 2015 through March 2016 experienced heating degree days that were 18% warmer than normal and 19% warmer than the comparable prior year period.

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

Revenues of \$404.1 million decreased \$195.3 million, or 32.6%, compared to the prior year second quarter, primarily due to lower retail propane and fuel oil volumes sold as well as lower average retail selling prices associated with lower wholesale product costs. Average posted propane prices (basis Mont Belvieu, Texas) and fuel oil prices were 27.0% and 40.2% lower than the prior year second quarter, respectively. Cost of products sold for the second quarter of fiscal 2016 of \$137.0 million decreased \$116.7 million, or 46.0%, compared to \$253.7 million in the prior year second quarter, primarily due to lower wholesale product costs and lower volumes sold. Cost of products sold for the second quarter of fiscal 2016 included a \$0.7 million unrealized (non-cash) loss attributable to the mark-to-market adjustment for derivative instruments used in risk management activities, compared to a \$7.4 million unrealized (non-cash) loss in the prior year second quarter. These unrealized losses are excluded from Adjusted EBITDA for both periods in the table below. Overall, total margins were negatively impacted by the relatively low wholesale cost environment and the lower mix of heat-related volumes sold.

Our flexible cost structure helped mitigate a portion of the volume-related margin shortfall. Combined operating and general and administrative expenses of \$122.8 million for the second quarter of fiscal 2016 were \$18.1 million, or 12.8%, lower than the prior year second quarter, primarily due to savings in payroll and benefit related expenses from a lower headcount, as well as lower volume-related variable costs and continued operating efficiencies. Net interest expense of \$18.9 million decreased \$0.9 million, or 4.4%, primarily due to savings from the refinancing of certain of our senior notes completed in the second quarter of fiscal 2015.

As previously announced on April 21, 2016, our Board of Supervisors had declared a quarterly distribution of \$0.8875 per Common Unit for the three months ended March 26, 2016. On an annualized basis, this distribution rate equates to \$3.55 per Common Unit. The distribution is payable on May 10, 2016 to Common Unitholders of record as of May 3, 2016.

From a liquidity perspective, we funded all of our working capital needs and the acquisition of Propane USA from cash on hand without the need to borrow under our revolving credit facility during the first half of fiscal 2016. Our anticipated cash requirements for the remainder of fiscal 2016 include: (i) maintenance and growth capital expenditures of approximately \$10.3 million; (ii) interest and income tax payments of approximately \$36.8 million; and (iii) cash distributions of approximately \$107.8 million to our Common Unitholders based on the current quarterly distribution rate of \$0.8875 per Common Unit. Based on our current cash position of \$58.7 million as of March 26, 2016, availability of funds under our Revolving Credit facility and expected cash flow from operating activities, we expect to have sufficient funds to meet our current and future obligations.

Three Months Ended March 26, 2016 Compared to Three Months Ended March 28, 2015

Revenues

(Dollars and gallons in thousands)	Three Months Ended		Decrease	Percent Decrease
	March 26, 2016	March 28, 2015		
Revenues				
Propane	\$348,216	\$498,616	\$(150,400)	(30.2)%
Fuel oil and refined fuels	28,814	60,426	(31,612)	(52.3)%
Natural gas and electricity	15,962	28,281	(12,319)	(43.6)%
All other	11,148	12,066	(918)	(7.6)%
Total revenues	\$404,140	\$599,389	\$(195,249)	(32.6)%
Retail gallons sold				
Propane	161,597	199,690	(38,093)	(19.1)%

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

Fuel oil and refined fuels	13,296	19,898	(6,602)	(33.2)%
----------------------------	--------	--------	----------	----------

Total revenues decreased \$195.2 million, or 32.6%, to \$404.1 million for the second quarter of fiscal 2016 compared to \$599.4 million for the prior year second quarter primarily due to lower volumes sold driven by record warm temperatures, combined with lower average selling prices. As discussed above, the winter of 2015-16 was the warmest on record in the contiguous United States. Average temperatures (as measured by heating degree days) across all of our service territories for the second quarter of fiscal 2016 were 13% warmer than normal and 20% warmer than the prior year second quarter.

Revenues from the distribution of propane and related activities of \$348.2 million decreased \$150.4 million, or 30.2%, compared to the prior year second quarter primarily due to lower retail propane volumes sold and lower average retail selling prices. Retail propane gallons sold decreased 38.1 million gallons, or 19.1%, resulting in a \$91.0 million decrease in revenues. Average propane selling prices decreased 14.2% associated with lower wholesale propane costs, resulting in a \$54.8 million decrease in revenues. Included within the propane segment are revenues from other propane activities of \$17.1 million, which decreased \$4.6 million.

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

Revenues from the distribution of fuel oil and refined fuels of \$28.8 million decreased \$31.6 million, or 52.3%, compared to the prior year second quarter primarily due to lower volumes sold and lower average selling prices. Fuel oil and refined fuels gallons sold decreased 6.6 million gallons, or 33.2%, resulting in a \$20.0 million decrease in revenues. The decrease in volumes sold was primarily due to the impact of the warm weather trends discussed above, particularly in the northeast region of the country in which the majority of our fuel oil customers reside. Average temperatures in our northeast service territories were approximately 30% warmer than the prior year second quarter. Average selling prices in our fuel oil and refined fuels segment decreased 28.7% due to lower wholesale product costs, resulting in an \$11.6 million decrease in revenues.

Revenues in our natural gas and electricity segment of \$16.0 million decreased \$12.3 million, or 43.6%, compared to the prior year second quarter, primarily due to lower volumes sold driven by the warm weather trends in the northeast discussed above and lower average selling prices.

Cost of Products Sold

(Dollars in thousands)	Three Months Ended		Decrease	Percent Decrease
	March 26, 2016	March 28, 2015		
Cost of products sold				
Propane	\$108,270	\$189,818	\$(81,548)	(43.0)%
Fuel oil and refined fuels	16,420	42,211	(25,791)	(61.1)%
Natural gas and electricity	8,995	17,824	(8,829)	(49.5)%
All other	3,324	3,814	(490)	(12.8)%
Total cost of products sold	\$137,009	\$253,667	\$(116,658)	(46.0)%
As a percent of total revenues	33.9 %	42.3 %		

The cost of products sold reported in the condensed consolidated statements of operations represents the weighted average unit cost of propane, fuel oil and refined fuels, and natural gas and electricity sold, including transportation costs to deliver product from our supply points to storage or to our customer service centers. Cost of products sold also includes the cost of appliances and related parts sold or installed by our customer service centers computed on a basis that approximates the average cost of the products.

Given the retail nature of our operations, we maintain a certain level of priced physical inventory to help ensure that our field operations have adequate supply commensurate with the time of year. Our strategy has been, and will continue to be, to keep our physical inventory priced relatively close to market for our field operations. Consistent with past practices, we principally utilize futures and/or options contracts traded on the NYMEX to mitigate the price risk associated with our priced physical inventory. Under this risk management strategy, realized gains or losses on futures or options contracts, which are reported in cost of products sold, will typically offset losses or gains on the physical inventory once the product is sold (which may or may not occur in the same accounting period). We do not use futures or options contracts, or other derivative instruments, for speculative trading purposes. Unrealized (non-cash) gains or losses from changes in the fair value of derivative instruments that are not designated as cash flow hedges are recorded within cost of products sold. Cost of products sold excludes depreciation and amortization; these amounts are reported separately within the condensed consolidated statements of operations.

In the commodities markets, posted propane prices (basis Mont Belvieu, Texas) trended downward for the first six weeks of the second quarter of fiscal 2016 and then rallied for the remainder of the quarter with prices reaching a high of \$0.48 per gallon and a low of \$0.29 per gallon, while still remaining considerably lower than in the prior year second quarter. Overall, average posted propane and fuel oil prices were 27.0% and 40.2% lower than the prior year second quarter, respectively, and 8.3% and 21.1% lower than the first quarter of fiscal 2016, respectively. The net

change in the fair value of derivative instruments resulted in unrealized (non-cash) losses of \$0.7 million and \$7.4 million in the second quarter of 2016 and 2015, respectively, resulting in a decrease of \$6.7 million in cost of products sold compared to the prior year second quarter, all of which was reported in the propane segment.

Cost of products sold associated with the distribution of propane and related activities of \$108.3 million decreased \$81.5 million, or 43.0%, compared to the prior year second quarter, primarily due to lower average wholesale costs and lower volumes sold. Lower average propane costs and lower propane volumes sold resulted in decreases of \$40.8 million and \$34.4 million, respectively, compared to the prior year second quarter. Cost of products sold from other propane activities increased \$0.4 million compared to the prior year second quarter.

Cost of products sold associated with our fuel oil and refined fuels segment of \$16.4 million decreased \$25.8 million, or 61.1%, compared to the prior year second quarter. Lower fuel oil and refined fuels volumes sold and wholesale costs resulted in decreases of \$14.0 million and \$11.8 million, respectively, compared to the prior year second quarter.

Edgar Filing: SUBURBAN PROPANE PARTNERS LP - Form 10-Q

Cost of products sold in our natural gas and electricity segment of \$9.0 million decreased \$8.8 million, or 49.5%, compared to the prior year second quarter, primarily due to lower volumes sold and lower wholesale costs.

Total cost of products sold as a percent of total revenues decreased 8.4 percentage points to 33.9% from 42.3% primarily due to the year-over-year decline in wholesale propane costs outpacing the year-over-year decline in average propane selling prices as well as the impact of the change in the fair value of derivative instruments.

Operating Expenses

(Dollars in thousands)	Three Months Ended			Percent Decrease
	March 26, 2016	March 28, 2015	Decrease	
Operating expenses	\$107,560	\$120,465	\$(12,905)
