UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(MARK ONE)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934
FOR THE QUARTERLY PERIOD ENDED June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934
FOR THE TRANSITION PERIOD FROM TO

COMMISSION FILE NUMBER 1-15997

ENTRAVISION COMMUNICATIONS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware 95-4783236
(State or other jurisdiction of (I.R.S. Employer

incorporation or organization) Identification No.)

2425 Olympic Boulevard, Suite 6000 West

Edgar Filing: ENTRAVISION COMMUNICATIONS CORP - Form 10-Q

Santa Monica, California 90404

(Address of principal executive offices) (Zip Code)

(310) 447-3870

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of July 31, 2017, there were 66,138,506 shares, \$0.0001 par value per share, of the registrant's Class A common stock outstanding, 14,927,613 shares, \$0.0001 par value per share, of the registrant's Class B common stock

outstanding and 9,352,729 shares, \$0.0001 par value per share, of the registrant's Class U common stock outstanding.

Forward-Looking Statements

This document contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact are “forward-looking statements” for purposes of federal and state securities laws, including, but not limited to, any projections of earnings, revenue or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing.

Forward-looking statements may include the words “may,” “could,” “will,” “estimate,” “intend,” “continue,” “believe,” “expect,” “anticipate” or other similar words. These forward-looking statements present our estimates and assumptions only as of the date of this report. Except for our ongoing obligation to disclose material information as required by the federal securities laws, we do not intend, and undertake no obligation, to update any forward-looking statement.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and inherent risks and uncertainties. Some of the key factors impacting these risks and uncertainties include, but are not limited to:

- risks related to our substantial indebtedness or our ability to raise capital;
- provisions of our debt instruments, including the agreement dated as of May 31, 2013, or the 2013 Credit Agreement, which governs our current credit facility, or the 2013 Credit Facility, the terms of which restrict certain aspects of the operation of our business;
- our continued compliance with all of our obligations, including financial covenants and ratios, under the 2013 Credit Agreement;
- cancellations or reductions of advertising due to the then current economic environment or otherwise;
- advertising rates remaining constant or decreasing;
- rapid changes in digital media advertising;
- the impact of rigorous competition in Spanish-language media and in the general market advertising industry;
- the impact on our business, if any, as a result of changes in the way market share is measured by third parties;
- our relationship with Univision Communications Inc., or Univision;
- the extent to which we continue to generate revenue under retransmission consent agreements;
- subject to restrictions contained in the 2013 Credit Agreement, the overall success of our acquisition strategy and the integration of any acquired assets with our existing operations;
- industry-wide market factors and regulatory and other developments affecting our operations;
- economic uncertainty;
- the impact of any potential future impairment of our assets;
- risks related to changes in accounting interpretations;
- consequences of foreign currency exchange;
- risks associated with operations located outside the United States; and
- the impact, including additional costs, of mandates and other obligations that may be imposed upon us as a result of new federal healthcare laws, including the Affordable Care Act, the rules and regulations promulgated thereunder, any executive or regulatory action with respect thereto, and any changes with respect to any of the foregoing in the 115th Congress, including, without limitation, efforts to “repeal and replace” such laws.

For a detailed description of these and other factors that could cause actual results to differ materially from those expressed in any forward-looking statement, please see the section entitled “Risk Factors,” beginning on page 29 of our Annual Report on Form 10-K for the year ended December 31, 2016.

ENTRAVISION COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JUNE 30, 2017

1. BASIS OF PRESENTATION

Presentation

The consolidated financial statements included herein have been prepared by Entravision Communications Corporation (the “Company”), pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been omitted pursuant to such rules and regulations. These consolidated financial statements and notes thereto should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2016 included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016. The unaudited information contained herein has been prepared on the same basis as the Company’s audited consolidated financial statements and, in the opinion of the Company’s management, includes all adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of the information for the periods presented. The interim results presented herein are not necessarily indicative of the results of operations that may be expected for the full fiscal year ending December 31, 2017 or any other future period.

2. THE COMPANY AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The Company is a leading global media company that reaches and engages U.S. Hispanics across acculturation levels and media channels as well as consumers located primarily in Mexico and other markets in Latin America. The Company’s expansive portfolio encompasses integrated marketing and media solutions, comprised of television, radio and digital properties and data analytics services. The Company’s management has determined that the Company operates in three reportable segments as of June 30, 2017, based upon the type of advertising medium, which segments are television broadcasting, radio broadcasting, and digital media.

Revenue Recognition

Television and radio revenue related to the sale of advertising is recognized at the time of broadcast. Revenue for contracts with advertising agencies is recorded at an amount that is net of the commission retained by the agency. Revenue from contracts directly with the advertisers is recorded as gross revenue and the related commission or national representation fee is recorded in operating expense. Cash payments received prior to services rendered result in deferred revenue, which is then recognized as revenue when the advertising time or space is actually provided. Digital revenue is recognized when display or other digital advertisements record impressions on the websites of the Company’s third-party publishers or as the advertiser’s performance goals are delivered.

The Company generates revenue under arrangements that are sold on a stand-alone basis within a specific segment, and those that are sold on a combined basis across multiple segments. The Company has determined that in such revenue arrangements which contain multiple products and services, revenues are allocated based on the relative fair value of each delivered item and recognized in accordance with the applicable revenue recognition criteria for the specific unit of accounting.

In August 2008, the Company entered into a proxy agreement with Univision pursuant to which the Company granted Univision the right to negotiate retransmission consent agreements for its Univision- and UniMás-affiliated television station signals. Advertising related to carriage of the Company's Univision- and UniMás-affiliated television station signals is recognized at the time of broadcast. See more details under "Related Party" below.

The Company also generates revenue from agreements associated with television stations in order to accommodate the operations of telecommunications operators. Revenue from such agreements is recognized when the Company has relinquished all rights to operate the station on the existing channel free from interference to the telecommunications operators.

Related Party

Substantially all of the Company's stations are Univision- or UniMás-affiliated television stations. The Company's network affiliation agreements, as amended, with Univision provide certain of its owned stations the exclusive right to broadcast Univision's primary network and UniMás network programming in their respective markets. These long-term affiliation agreements each expire in 2021, and can be renewed for multiple, successive two-year terms at Univision's option, subject to the Company's consent. Under the Univision network affiliation agreement, the Company retains the right to sell approximately six minutes per hour of the available advertising time on Univision's primary network, subject to adjustment from time to time by Univision, but in no event less than four minutes. Under the UniMás network affiliation agreement, the Company retains the right to sell approximately four and a half minutes per hour of the available advertising time on the UniMás network, subject to adjustment from time to time by Univision.

Under the network affiliation agreements, Univision acts as the Company's exclusive sales representative for the sale of national advertising on the Company's Univision- and UniMás-affiliate television stations, and the Company pays certain sales representation fees to Univision relating to sales of all advertising for broadcast on the Company's Univision- and UniMás-affiliate television stations. During the three-month periods ended June 30, 2017 and 2016, the amount the Company paid Univision in this capacity was \$2.4 million and \$2.5 million, respectively. During the six-month periods ended June 30, 2017 and 2016, the amount the Company paid Univision in this capacity was \$4.7 million and \$4.8 million, respectively.

The Company also generates revenue under two marketing and sales agreements with Univision, which give the Company the right through 2021 to manage the marketing and sales operations of Univision-owned UniMás and Univision affiliates in six markets – Albuquerque, Boston, Denver, Orlando, Tampa and Washington, D.C.

In August 2008, the Company entered into a proxy agreement with Univision pursuant to which the Company granted Univision the right to negotiate the terms of retransmission consent agreements for its Univision- and UniMás-affiliated television stations for a term of six years, expiring in December 2014, which Univision and the Company have extended through August 31, 2017. Among other things, the proxy agreement provides terms relating to compensation to be paid to the Company by Univision with respect to retransmission consent agreements entered into with Multichannel Video Programming Distributors ("MVPDs"). The term of the proxy agreement extends with respect to any MVPD for the length of the term of any retransmission consent agreement in effect before the expiration of the proxy agreement. The Company has entered into multiple short-term extensions of the proxy agreement since its December 2014 expiration, and it is the Company's current intention to negotiate with Univision one or more further extensions of the current proxy agreement or a new proxy agreement however, no assurance can be given regarding the terms of any such extension or new agreement or that any such extension or new agreement will be entered into. As of June 30, 2017, the amount due to the Company from Univision was \$2.7 million related to the agreements for the carriage of its Univision and UniMás-affiliated television station signals. The term of the proxy agreement extends with respect to any MVPD for the length of the term of any retransmission consent agreement in effect before the expiration of the proxy agreement.

Univision currently owns approximately 10% of the Company's common stock on a fully-converted basis. The Class U common stock held by Univision has limited voting rights and does not include the right to elect directors. As the holder of all of the Company's issued and outstanding Class U common stock, so long as Univision holds a certain number of shares, the Company will not, without the consent of Univision, merge, consolidate or enter into another business combination, dissolve or liquidate the Company or dispose of any interest in any Federal Communications Commission, or FCC, license for any of its Univision-affiliated television stations, among other things. Each share of Class U common stock is automatically convertible into one share of Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer to a third party that is not an affiliate of Univision.

Stock-Based Compensation

The Company measures all stock-based awards using a fair value method and recognizes the related stock-based compensation expense in the consolidated financial statements over the requisite service period. As stock-based compensation expense recognized in the Company's consolidated financial statements is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures.

Stock-based compensation expense related to grants of stock options and restricted stock units was \$1.1 million and \$0.9 million for the three-month periods ended June 30, 2017 and 2016, respectively. Stock-based compensation

expense related to grants of stock options and restricted stock units was \$2.1 million and \$1.9 million for the six-month periods ended June 30, 2017 and 2016, respectively.

Stock Options

Stock-based compensation expense related to stock options is based on the fair value on the date of grant using the Black-Scholes option pricing model and is amortized over the vesting period, generally between 1 to 4 years.

As of June 30, 2017, there was approximately \$0.1 million of total unrecognized compensation expense related to grants of stock options that is expected to be recognized over a weighted-average period of 1.2 years.

Restricted Stock Units

Stock-based compensation expense related to restricted stock units is based on the fair value of the Company's stock price on the date of grant and is amortized over the vesting period, generally between 1 to 4 years.

The following is a summary of non-vested restricted stock units granted (in thousands, except grant date fair value data):

	Six-Month Period Ended June 30, 2017	
	Weighted-Average	
	Number	Fair Value
	Granted	
Restricted stock units	61	\$ 5.75

As of June 30, 2017, there was approximately \$3.9 million of total unrecognized compensation expense related to grants of restricted stock units that is expected to be recognized over a weighted-average period of 1.4 years.

Certain of the Company's management-level employees were granted performance stock units that are contingent upon achievement of specified pre-established performance goals over the performance period, which is fiscal year 2017, and vesting over a period of three years, subject to the recipient's continued service with the Company. The performance goals are based on achievement of net revenue and/or EBITDA goals. Depending on the outcome of the performance goals, the recipient may ultimately earn performance restricted stock units between 0% and 200% of the number of performance restricted stock units granted. For the three- and six-month periods ended June 30, 2017, there was no share-based compensation expense related to performance restricted stock units.

Income (Loss) Per Share

The following table illustrates the reconciliation of the basic and diluted income (loss) per share computations required by Accounting Standards Codification (ASC) 260-10, "Earnings per Share" (in thousands, except share and per share data):

	Three-Month Period Ended June 30,		Six-Month Period Ended June 30,	
	2017	2016	2017	2016
Basic earnings per share:				
Numerator:				
Net income	\$3,495	\$5,717	\$6,113	\$7,987
Denominator:				
Weighted average common shares outstanding	90,354,982	89,134,412	90,296,057	89,015,934
Per share:				
Net income per share	\$0.04	\$0.06	\$0.07	\$0.09
Diluted earnings per share:				
Numerator:				
Net income	\$3,495	\$5,717	\$6,113	\$7,987

Edgar Filing: ENTRAVISION COMMUNICATIONS CORP - Form 10-Q

Denominator:				
Weighted average common shares outstanding	90,354,982	89,134,412	90,296,057	89,015,934
Dilutive securities:				
Stock options and restricted stock units	1,678,129	2,006,184	1,601,093	2,020,419
Diluted shares outstanding	92,033,111	91,140,596	91,897,150	91,036,353
Per share:				
Net income per share	\$0.04	\$0.06	\$0.07	\$0.09

Basic income (loss) per share is computed as net income (loss) divided by the weighted average number of shares outstanding for the period. Diluted income (loss) per share reflects the potential dilution, if any, that could occur from shares issuable through stock options and restricted stock awards.

For the three- and six-month periods ended June 30, 2017, a total of 30,584 and 16,880 shares of dilutive securities, respectively, were not included in the computation of diluted income per share because the exercise prices of the dilutive securities were greater than the average market price of the common shares. For the three- and six-month period ended June 30, 2016, a total of 28,997 and 42,486 shares of dilutive securities, respectively, were not included in the computation of diluted income per share because the exercise prices of the dilutive securities were greater than the average market price of the common shares.

Treasury Stock

Treasury stock is included as a deduction from equity in the Stockholders' Equity section of the Consolidated Balance Sheets.

During the period ended June 30, 2017, the Company had a stock repurchase program, authorized by the Board of Directors, to repurchase up to \$20 million of the Company's outstanding common stock. The Company did not repurchase any shares during the three-month period ended June 30, 2017. As of June 30, 2017, the Company repurchased to date a total of approximately 2.5 million shares of Class A common stock at an average price of \$5.08, for an aggregate purchase price of approximately \$12.5 million, since the beginning of that program. All such repurchased shares were retired as of December 31, 2014. See Note 6 to the Notes to the Consolidated Financial Statements.

Investments

During the first quarter of 2016, the Company entered into an agreement with a financial institution to purchase a six-month certificate of deposit (the "CD") for \$30.0 million, which was recorded in "Short-term investments" on the consolidated balance sheets during the term of the CD. The CD matured during the third quarter of 2016 and the funds returned to "Cash and cash equivalents" on the consolidated balance sheet.

The Company made an investment in Chanclazo Studios, Inc. ("Chanclazo"), a digital production studio that creates and distributes short and long form 3D animation, virtual reality and augmented reality content for Hispanic audiences. The net investment in Chanclazo totals \$1.0 million for a 12.5% ownership interest, as of June 30, 2017.

The investment was recorded in "Other assets" on the consolidated balance sheet and is accounted for using the cost method.

The Company made an investment in Cocina Vista, LLC ("Cocina"), a digital media company focused on Spanish and Latin American food and cooking in the United States, Spain and Latin America, during the second quarter of 2017. The net investment in Cocina totaled \$1.7 million for a 34.35% ownership interest. The Company is required to make a second investment of \$1.5 million, for a total ownership interest of 51%, if Cocina achieves certain EBITDA goals. The investment was recorded in "Other assets" on the consolidated balance sheet and is accounted for using the equity method.

2013 Credit Facility

On May 31, 2013, the Company entered into the 2013 Credit Facility pursuant to the 2013 Credit Agreement. The 2013 Credit Facility consists of a \$20.0 million senior secured Term Loan A Facility (the “Term Loan A Facility”), a \$375.0 million senior secured Term Loan B Facility (the “Term Loan B Facility”; and together with the Term Loan A Facility, the “Term Loan Facilities”) which was drawn on August 1, 2013 (the “Term Loan B Borrowing Date”), and a \$30.0 million senior secured Revolving Credit Facility (the “Revolving Credit Facility”). In addition, the 2013 Credit Facility provides that the Company may increase the aggregate principal amount of the 2013 Credit Facility by up to an additional \$100.0 million, subject to the Company satisfying certain conditions.

Borrowings under the Term Loan A Facility were used on the closing date of the 2013 Credit Facility (the “Closing Date”) (together with cash on hand) to (a) repay in full all of the outstanding obligations of the Company and its subsidiaries under the then outstanding credit facility (the “2012 Credit Agreement”) and to terminate the 2012 Credit Agreement, and (b) pay fees and expenses in connection with the 2013 Credit Facility. As discussed in more detail below, on August 1, 2013, the Company drew on the Company’s Term Loan B Facility to (a) repay in full all of the outstanding loans under the Term Loan A Facility and (b) redeem in full all of the then outstanding notes (the “Notes”). The Company intends to use any future borrowings under the Revolving Credit Facility to provide for working capital, capital expenditures and other general corporate purposes of the Company and from time to time fund a portion of certain acquisitions, in each case subject to the terms and conditions set forth in the 2013 Credit Agreement.

The 2013 Credit Facility is guaranteed on a senior secured basis by all of the Company’s existing and future wholly-owned domestic subsidiaries (the “Credit Parties”). The 2013 Credit Facility is secured on a first priority basis by the Company’s and the Credit Parties’ assets. Upon the redemption of the Notes, the security interests and guaranties of the Company and its Credit Parties under the indenture governing the Notes (the “Indenture”) and the Notes were terminated and released.

The Company’s borrowings under the 2013 Credit Facility bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Base Rate (as defined in the 2013 Credit Agreement) plus the Applicable Margin (as defined in the 2013 Credit Agreement); or (ii) LIBOR (as defined in the 2013 Credit Agreement) plus the Applicable Margin (as defined in the 2013 Credit Agreement). As of June 30, 2017, the Company’s effective interest rate was 3.5%. The Term Loan A Facility expired on the Term Loan B Borrowing Date, which was August 1, 2013. The Term Loan B Facility expires on May 31, 2020 (the “Term Loan B Maturity Date”) and the Revolving Credit Facility expires on May 31, 2018 (the “Revolving Loan Maturity Date”).

As defined in the 2013 Credit Facility, “Applicable Margin” means:

(a) with respect to the Term Loans (i) if a Base Rate Loan, one and one half percent (1.50%) per annum and (ii) if a LIBOR Rate Loan, two and one half percent (2.50%) per annum; and

(b) with respect to the Revolving Loans:

(i) for the period commencing on the Closing Date through the last day of the calendar month during which financial statements for the fiscal quarter ending September 30, 2013 are delivered: (A) if a Base Rate Loan, one and one half percent (1.50%) per annum and (B) if a LIBOR Rate Loan, two and one half percent (2.50%) per annum; and

(ii) thereafter, the Applicable Margin for the Revolving Loans shall equal the applicable LIBOR margin or Base Rate margin in effect from time to time determined as set forth below based upon the applicable First Lien Net Leverage Ratio then in effect pursuant to the appropriate column under the table below:

First Lien Net Leverage Ratio	LIBOR Margin	Base Rate Margin
≥ 4.50 to 1.00	2.50 %	1.50 %
< 4.50 to 1.00	2.25 %	1.25 %

In the event the Company engages in a transaction that has the effect of reducing the yield of any loans outstanding under the Term Loan B Facility within six months of the Term Loan B Borrowing Date, the Company will owe 1% of the amount of the loans so repriced or replaced to the Lenders thereof (such fee, the “Repricing Fee”). Other than the Repricing Fee, the amounts outstanding under the 2013 Credit Facility may be prepaid at the option of the Company without premium or penalty, provided that certain limitations are observed, and subject to customary breakage fees in connection with the prepayment of a LIBOR rate loan. The principal amount of the (i) Term Loan A Facility shall be paid in full on the Term Loan B Borrowing Date, (ii) Term Loan B Facility shall be paid in installments on the dates and in the respective amounts set forth in the 2013 Credit Agreement, with the final balance due on the Term Loan B Maturity Date and (iii) Revolving Credit Facility shall be due on the Revolving Loan Maturity Date.

Subject to certain exceptions, the 2013 Credit Agreement contains covenants that limit the ability of the Company and the Credit Parties to, among other things:

- incur additional indebtedness or change or amend the terms of any senior indebtedness, subject to certain conditions;
- incur liens on the property or assets of the Company and the Credit Parties;

- dispose of certain assets;
- consummate any merger, consolidation or sale of substantially all assets;
- make certain investments;
- enter into transactions with affiliates;
- use loan proceeds to purchase or carry margin stock or for any other prohibited purpose;
- incur certain contingent obligations;

11

make certain restricted payments; and
enter new lines of business, change accounting methods or amend the organizational documents of the Company or any Credit Party in any materially adverse way to the agent or the lenders.

The 2013 Credit Agreement also requires compliance with a financial covenant related to total net leverage ratio (calculated as set forth in the 2013 Credit Agreement) in the event that the revolving credit facility is drawn.

The 2013 Credit Agreement also provides for certain customary events of default, including the following:

default for three (3) business days in the payment of interest on borrowings under the 2013 Credit Facility when due;
default in payment when due of the principal amount of borrowings under the 2013 Credit Facility;
failure by the Company or any Credit Party to comply with the negative covenants, financial covenants (provided, that, an event of default under the Term Loan Facilities will not have occurred due to a violation of the financial covenants until the revolving lenders have terminated their commitments and declared all obligations to be due and payable), and certain other covenants relating to maintenance of customary property insurance coverage, maintenance of books and accounting records and permitted uses of proceeds from borrowings under the 2013 Credit Facility, each as set forth in the 2013 Credit Agreement;
failure by the Company or any Credit Party to comply with any of the other agreements in the 2013 Credit Agreement and related loan documents that continues for thirty (30) days (or ten (10) days in the case of certain financial statement delivery obligations) after officers of the Company first become aware of such failure or first receive written notice of such failure from any lender;

- default in the payment of other indebtedness if the amount of such indebtedness aggregates to \$15.0 million or more, or failure to comply with the terms of any agreements related to such indebtedness if the holder or holders of such indebtedness can cause such indebtedness to be declared due and payable;

failure of the Company or any Credit Party to pay, vacate or stay final judgments aggregating over \$15.0 million for a period of thirty (30) days after the entry thereof;
certain events of bankruptcy or insolvency with respect to the Company or any Credit Party;
certain change of control events;
the revocation or invalidation of any agreement or instrument governing the Notes or any subordinated indebtedness, including the Intercreditor Agreement; and
any termination, suspension, revocation, forfeiture, expiration (without timely application for renewal) or material adverse amendment of any material media license.

In connection with the Company entering into the 2013 Credit Agreement, the Company and the Credit Parties also entered into an Amended and Restated Security Agreement, pursuant to which the Company and the Credit Parties each granted a first priority security interest in the collateral securing the 2013 Credit Facility for the benefit of the lenders under the 2013 Credit Facility.

On August 1, 2013, the Company drew on borrowings under the Company's Term Loan B Facility. The borrowings were used to (i) repay in full all of the outstanding loans under the Company's Term Loan A Facility; (ii) redeem in full and terminate all of its outstanding obligations (the "Redemption") on August 2, 2013 (the "Redemption Date") under the Indenture, in an aggregate principal amount of approximately \$324 million, and (iii) pay any fees and expenses in connection therewith. The redemption price for the redeemed Notes was 106.563% of the principal amount, plus accrued and unpaid interest thereon to the Redemption Date.

The Redemption constituted a complete redemption of the Notes, such that no amount remained outstanding following the Redemption. Accordingly, the Indenture has been satisfied and discharged in accordance with its terms and the Notes have been cancelled, effective as of the Redemption Date.

In each of December 2014, 2015 and 2016, the Company made a prepayment of \$20.0 million, to reduce the amount of loans outstanding under the Term Loan B Facility.

The carrying amount of the Term Loan B Facility as of June 30, 2017 was \$288.9 million, net of \$2.0 million of unamortized debt issuance costs. The estimated fair value of the Term Loan B Facility as of June 30, 2017 was \$290.9 million. The estimated fair value is calculated using an income approach which projects expected future cash flows and discounts them using a rate based on industry and market yields.

Derivative Instruments

The Company uses derivatives in the management of its interest rate risk with respect to its variable rate debt. The Company's strategy is to eliminate the cash flow risk on a portion of its variable rate debt caused by changes in the benchmark interest rate (LIBOR). Derivative instruments are not entered into for speculative purposes.

As required by the terms of the Company's 2013 Credit Agreement, on December 16, 2013, the Company entered into three forward-starting interest rate swap agreements with an aggregate notional amount of \$186.0 million at a fixed rate of 2.73%, resulting in an all-in fixed rate of 5.23%. The interest rate swap agreements took effect on December 31, 2015 with a maturity date on December 31, 2018. Under these interest rate swap agreements, the Company pays at a fixed rate and receives payments at a variable rate based on three-month LIBOR. The interest rate swap agreements effectively fix the floating LIBOR-based interest of \$186.0 million outstanding LIBOR-based debt. The interest rate swap agreements were designated and qualified as a cash flow hedge; therefore, the effective portion of the changes in fair value is recorded in accumulated other comprehensive income. Any ineffective portions of the changes in fair value of the interest rate swap agreements will be immediately recognized directly to interest expense in the consolidated statement of operations. The change in fair value of the interest rate swap agreements for the three-month periods ended June 30, 2017 and 2016 was a gain of \$0.3 million and \$0.1 million, net of tax, respectively, and was included in other comprehensive income (loss). The change in fair value of the interest rate swap agreements for the six-month periods ended June 30, 2017 and 2016 was a gain of \$0.8 million and a loss of \$0.5 million, net of tax, respectively, and was included in other comprehensive income (loss). The Company paid \$0.7 million of interest related to the interest rate swap agreements for the three-month period ended June 30, 2017. The Company paid \$1.6 million of interest related to the interest rate swap agreements for the six-month period ended June 30, 2017. As of June 30, 2017, the Company estimates that none of the unrealized gains or losses included in accumulated other comprehensive income or loss related to these interest rate swap agreements will be realized and reported in earnings within the next twelve months.

The carrying amount of the interest rate swap agreements is recorded at fair value, including non-performance risk, when material. The fair value of each interest rate swap agreement is determined by using multiple broker quotes, adjusted for non-performance risk, when material, which estimate the future discounted cash flows of any future payments that may be made under such agreements.

The fair value of the interest rate swap liability as of June 30, 2017 was \$3.4 million and was recorded in "Other long-term liabilities" on the consolidated balance sheets.

Fair Value Measurements

ASC 820, "Fair Value Measurements and Disclosures", defines and establishes a framework for measuring fair value and expands disclosures about fair value measurements. In accordance with ASC 820, the Company has categorized its financial assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below.

Level 1 – Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the company has the ability to access at the measurement date.

Level 2 – Assets and liabilities whose values are based on quoted prices for similar attributes in active markets; quoted prices in markets where trading occurs infrequently; and inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring basis in the consolidated balance sheets (in millions):

	June 30, 2017			
	Total			
	Fair			
	Value			
	and

Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) includes foreign currency translation adjustments from those subsidiaries not using the U.S. dollar as their functional currency and the cumulative gains and losses of derivative instruments that qualify as cash flow hedges. The following table provides a roll-forward of accumulated other comprehensive income (loss) for the six-month periods ended June 30, 2017 and 2016 (in millions):

	2017	2016
Accumulated other comprehensive loss as of January 1,	\$(3.0)	\$(4.1)
Foreign currency translation (gain) loss	0.1	-
Change in fair value of interest rate swap agreements	1.4	(0.9)

Income tax (expense) benefit	(0.6)	0.3
Other comprehensive income (loss), net of tax	0.9	(0.6)
Accumulated other comprehensive loss as of June 30,	\$(2.1)	\$(4.7)

Foreign Currency

The Company's reporting currency is the U.S. dollar. All transactions initiated in foreign currencies are translated into U.S. dollars in accordance with ASC Topic 830, "Foreign Currency Matters" and the related rate fluctuation on transactions is included in the consolidated statements of operations.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date and equity is translated at historical rates. Revenues and expenses are translated at the average exchange rate for the period. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive (income) loss.

Cost of Revenue

The company incurs cost of revenue in its digital segment, which consists primarily of the costs of online media acquired from third-party publishers. Media cost is classified as cost of revenue in the period in which the corresponding revenue is recognized.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers (Topic 606) which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. Subsequently, the FASB has issued the following standards related to ASU 2014-09: ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent

Considerations ; ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing ; ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients ; and ASU No. 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers . The Company must adopt ASU 2016-08, ASU 2016-10, ASU 2016-12 and ASU 2016-20 with ASU 2014-09 (collectively, the “new revenue standards”). The new revenue standards are effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2017. The Company currently expects to adopt the new revenue standards in its first quarter of 2018. The new revenue standards are not expected to have a material impact on the amount and timing of revenue recognized in the Company's consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) which specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. ASU 2016-02 is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2018. Early adoption is permitted. The Company is currently in the process of evaluating the impact of adoption of the ASU on its consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments which requires entities to use a current expected credit loss ("CECL") model which is a new impairment model based on expected losses rather than incurred losses. Under this model an entity would recognize an impairment allowance equal to its current estimate of all contractual cash flows that the entity does not expect to collect from financial assets measured at amortized cost. The entity's estimate would consider relevant information about past events, current conditions, and reasonable and supportable forecasts, which will result in recognition of life-time expected credit losses upon loan origination. ASU 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted for annual reporting periods beginning after December 15, 2018. The Company is currently in the process of evaluating the impact of adoption of the ASU on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force) which provides specific guidance on eight cash flow classification issues arising from certain cash receipts and cash payments. Currently, GAAP either is unclear or does not include specific guidance on the eight cash flow classification issues addressed in this topic. The objective is to reduce current and potential future diversity in practice. ASU 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted, including adoption in an interim period. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory which allows entities to recognize the income tax consequences on an intra-entity transfer of an asset other than inventory when the transfer occurs. Current GAAP prohibits the recognition of current and deferred income taxes for an intra-entity asset transfer until the asset has been sold to an outside party. In addition, there has been diversity in the application of the current guidance for transfers of certain intangible and tangible assets. The objective is to reduce complexity in accounting standards. ASU 2016-16 is effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. The Company is currently in the process of evaluating the impact of adoption of the ASU on its consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash a Consensus of the FASB Emerging Issues Task Force to enhance and clarify the guidance on the classification and

presentation of restricted cash in the statement of cash flows. Amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The objective is to reduce diversity in practice. ASU 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted, including adoption in an interim period. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805) - Clarifying the Definition of a Business to provide a more robust framework to use in determining when a set of assets and activities is considered a business. The objective is to add guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. ASU 2017-01 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted only for certain transactions. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, which removes Step 2 from the goodwill impairment test. An entity no longer will determine goodwill impairment by calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. The objective is to reduce the cost and complexity of evaluating goodwill for impairment. ASU 2017-04 is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

In May 2017, the FASB issued Accounting Standards Update 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting (“ASU 2017-09”), to clarify and reduce both (i) diversity in practice and (ii) cost and complexity when applying the guidance in Topic 718, to change the terms and conditions of a share-based payment award. Specifically, an entity would not apply modification accounting if the fair value, vesting conditions, and classification of the awards are the same immediately before and after the modification. ASU 2017-09 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted. The Company is currently in the process of evaluating the impact of adoption of the ASU on its consolidated financial statements.

Newly Adopted Accounting Standards

In March 2016, the FASB issued ASU 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting which is intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. ASU 2016-09 requires companies to record excess tax benefits and tax deficiencies as a component of the provision for income taxes in the period in which they occur. The Company has adopted the provisions of ASU 2016-09 on a modified retrospective basis as of January 1, 2017, which resulted in a cumulative-effect adjustment of \$2.4 million to “Deferred income taxes” and “Total stockholders’ equity” on the consolidated balance sheets. Additionally, during the three-month period ended June 30, 2017, the Company recorded a benefit in income tax expense of \$0.1 million due to the adoption of this new standard. During the six-month period ended June 30, 2017, the Company recorded a benefit in income tax expense of \$0.2 million due to the adoption of this new standard.

3. SEGMENT INFORMATION

The Company operates in three reportable segments, based upon the type of advertising medium: television broadcasting, radio broadcasting and digital media. The Company’s segments results reflect information presented on the same basis that is used for internal management reporting and it is also how the chief operating decision maker evaluates the business.

Television Broadcasting

The Company owns and/or operates 54 primary television stations located primarily in California, Colorado, Connecticut, Florida, Kansas, Massachusetts, Nevada, New Mexico, Texas and Washington, D.C.

Radio Broadcasting

The Company owns and operates 49 radio stations (38 FM and 11 AM) located primarily in Arizona, California, Colorado, Florida, Nevada, New Mexico and Texas.

The Company owns and operates a national sales representation division, Entravision Solutions, through which the Company sells advertisements and syndicates radio programming to more than 300 stations across the United States.

Digital Media

The Company owns and operates digital media operations, offering mobile, digital and other interactive media platforms and services on Internet-connected devices, including local websites and social media, that provide users with news information and other content.

On April 4, 2017, the Company completed the acquisition of 100% of the stock of several entities collectively doing business as Headway (“Headway”), a provider of mobile, programmatic, data and performance digital marketing solutions primarily in the United States, Mexico and other markets in Latin America. See Note 5 to the Notes to the Consolidated Financial Statements.

Separate financial data for each of the Company's operating segments are provided below. Segment operating profit (loss) is defined as operating profit (loss) before corporate expenses and foreign currency (gain) loss. The Company generated 15% and 8% of its revenue outside the United States during the three- and six-month periods ended June 30, 2017 and 2016, respectively. The Company evaluates the performance of its operating segments based on the following (in thousands):

	Three-Month Period			Six-Month Period		
	Ended June 30, 2017	2016	% Change	Ended June 30, 2017	2016	% Change
Net revenue

4. LITIGATION

The Company is subject to various outstanding claims and other legal proceedings that may arise in the ordinary course of business. In the opinion of management, any liability of the Company that may arise out of or with respect to these matters will not materially adversely affect the financial position, results of operations or cash flows of the Company.

5. ACQUISITION

On April 4, 2017, the Company completed the acquisition of 100% of the stock of several entities collectively doing business as Headway, a provider of mobile, programmatic, data and performance digital marketing solutions primarily in the United States, Mexico and other markets in Latin America. The Company acquired Headway in order to acquire additional digital media platforms that the Company believes will enhance its offerings to the U.S. Hispanic marketplace as well as expand the Company's international footprint. The transaction was funded from the Company's cash on hand, for an aggregate cash consideration of \$7.5 million, net of \$4.5 million of cash acquired, and contingent consideration with a fair value of \$18.3 million as of the acquisition date.

The following is a summary of the initial purchase price allocation for the Company's acquisition of Headway (unaudited; in millions):

Accounts receivable	\$ 18.9
Intangible assets subject to amortization	17.1
Goodwill	19.2
Current liabilities	(22.8)
Deferred Tax	(6.6)

The acquisition of Headway includes a contingent consideration arrangement that requires additional consideration to be paid by the Company to Headway based upon the achievement of certain annual performance benchmarks over a three-year period. The range of the total undiscounted amounts the Company could pay under the contingent consideration agreement over the three-year period is between \$0 and \$31.5 million. The fair value of the contingent consideration recognized on the acquisition date of \$18.3 million was estimated by applying the real options approach. The agreement also includes a payment of approximately \$2.0 million to certain key employees if they remain with the Company for a period of 18 months, which will be treated as post acquisition compensation expense and accrued as earned.

The fair value of the assets acquired includes trade receivables of \$18.9 million. The gross amount due under contract is \$20.0 million, of which \$1.1 million is expected to be uncollectable.

During the three- and six-month periods ended June 30, 2017, Headway generated net revenue of \$11.0 million and a net loss of \$0.5 million, which are included in the Consolidated Statements of Operations.

The goodwill, which is expected to be deductible for tax purposes, is assigned to the digital media segment and is attributable to Headway's workforce and expected synergies from combining Headway's operations with those of the Company. The changes in the carrying amount of goodwill for each of the Company's operating segments for the six-month period ended June 30, 2017 are as follows (in thousands):

	December 31, 2016	Acquisition	June 30, 2017
Television	\$35,912	\$-	\$35,912
Digital	14,169	19,235	33,404
Consolidated	\$50,081	\$19,235	\$69,316

The fair value of the acquired intangible assets and contingent consideration is provisional pending receipt of the final valuations for those assets.

Pro Forma Results

The following unaudited pro forma information for the three- and six-month periods ended June 30, 2017 and 2016, has been prepared to give effect to the acquisition of Headway as if the acquisition had occurred on January 1, 2016. This pro forma information does not purport to represent what the actual results of operations of the Company would have been had this acquisition occurred on such date, nor does it purport to predict the results of operations for future periods.

	Three-Month Period Ended June 30,		Six-Month Period Ended June 30,	
	2017	2016	2017	2016
Pro Forma:				
Total revenue	\$70,509	\$64,829	\$128,019	\$122,942
Net income (loss)	\$3,499	\$5,717	\$6,113	\$7,987
Basic and diluted earnings per share:				
Net income per share, basic and diluted	\$0.04	\$0.06	\$0.07	\$0.09
Weighted average common shares outstanding, basic	90,354,982	89,134,412	90,296,057	89,015,934
Weighted average common shares outstanding, diluted	92,033,111	91,140,596	91,897,150	91,036,353

The unaudited pro forma information for the six-month periods ended June 30, 2017 and 2016, was adjusted to exclude acquisition fees and costs of \$0.5 million in 2017 and \$0 in 2016, which were expensed in connection with the acquisition.

6. SUBSEQUENT EVENTS

FCC Auction for Broadcast Spectrum

On July 21, 2017, the Company received proceeds of \$263.6 million related to its participation in the FCC auction for broadcast spectrum. The proceeds of the auction reflect the FCC's acceptance of one or more bids placed by the Company during the auction to modify and/or relinquish spectrum usage rights for certain of the Company's television stations. The Company does not expect that the modification and/or relinquishment of the spectrum usage rights will result in material changes in the operations or results of the Company. The proceeds of the auction were deposited into the account of a "qualified intermediary" to comply with Internal Revenue Code Section 1031 requirements to execute a like kind exchange.

In July 2017, the Company used a portion of the proceeds to make an initial payment of \$16.3 million in conjunction with the relocation of the Company's television station, WJAL-TV, from Hagerstown, Maryland to Washington, D.C. An additional \$16.3 million will be paid upon completion of the relocation, which is subject to FCC approval.

Acquisition of Television Stations KMIR-TV and KPSE-LD

On July 20, 2017, the Company entered into an agreement with OTA Broadcasting (PSP), LLC to acquire television stations KMIR-TV, the local NBC affiliate, and KPSE-LD, the local MyNetworkTV affiliate, serving the Palm Springs, California area, for an aggregate of \$21 million. The transaction, which is subject to customary closing conditions, including the prior consent of the FCC, is currently expected to close in the fourth quarter of 2017.

Share Repurchase Program

On July 13, 2017, the Board of Directors approved the repurchase of up to \$15 million of the Company's common stock. Under the new share repurchase program, the Company is authorized to purchase shares from time to time through open market purchases or negotiated purchases, subject to market conditions and other factors. On the same date, the Board terminated the Company's previous share repurchase program of up to \$20 million of the Company's common stock.

Amendment to 2013 Credit Facility

The Company entered into the First Amendment dated as of August 1, 2017 (the “Amendment”) to the 2013 Credit Agreement. Pursuant to this Amendment, among other things, the Company is allowed to make certain restricted payments in an amount not to exceed \$40,000,000, plus, for each anniversary of the effective date of the Amendment, an additional \$20,000,000 so long as, in the case of restricted payments made in reliance on any such additional amounts, the total net leverage ratio would not exceed 5.5 to 1 after giving effect to the restricted payment.

The Amendment also makes certain technical and conforming changes to the terms of the 2013 Credit Agreement. All other provisions of the 2013 Credit Agreement remain in full force and effect unless expressly amended or modified pursuant to the Amendment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a leading global media company that reaches and engages U.S. Hispanics across acculturation levels and media channels as well as consumers primarily in Mexico and other markets in Latin America. Our expansive portfolio encompasses integrated marketing and media solutions, comprised of television, radio and digital properties and data analytics services.

We operate in three reportable segments, based upon the type of advertising medium: television broadcasting, radio broadcasting and digital media. Our net revenue for the three-month period ended June 30, 2017 was \$70.5 million. Of that amount, revenue attributed to our television segment accounted for approximately 54%, revenue attributed to our radio segment accounted for approximately 24% and revenue attributed to our digital segment accounted for approximately 22%.

As of the date of filing this report, we own and/or operate 54 primary television stations located primarily in California, Colorado, Connecticut, Florida, Kansas, Massachusetts, Nevada, New Mexico, Texas and Washington, D.C. We own and operate 49 radio stations in 18 U.S. markets. Our radio stations consist of 38 FM and 11 AM stations located in Arizona, California, Colorado, Florida, Nevada, New Mexico and Texas. We operate Entravision Solutions as our national sales representation division, through which we sell advertisements and syndicate radio programming to more than 300 stations across the United States. We also own and operate an online advertising platform that delivers digital advertising in a variety of formats to reach Hispanic audiences on Internet-connected devices.

We generate revenue primarily from sales of national and local advertising time on television stations, radio stations and digital media platforms, and from retransmission consent agreements that are entered into with MVPDs. Advertising rates are, in large part, based on each medium's ability to attract audiences in demographic groups targeted by advertisers. We recognize advertising revenue when commercials are broadcast and when display or other digital advertisements record impressions on the websites of our third-party publishers or as the advertiser's performance goals are delivered. We do not obtain long-term commitments from our advertisers and, consequently, they may cancel, reduce or postpone orders without penalties. We pay commissions to agencies for local, regional and national advertising. For contracts directly with agencies, we record net revenue from these agencies. Seasonal revenue fluctuations are common in our industry and are due primarily to variations in advertising expenditures by both local and national advertisers. Our first fiscal quarter generally produces the lowest net revenue for the year. In addition, advertising revenue is generally higher during presidential election years (2016, 2020, etc.), resulting from significant political advertising and, to a lesser degree, Congressional off-year elections (2018, 2022, etc.), resulting from increased political advertising, compared to other years.

We refer to the revenue generated by agreements with MVPDs as retransmission consent revenue, which represents payments from MVPDs for access to our television station signals so that they may rebroadcast our signals and charge their subscribers for this programming. We recognize retransmission consent revenue when it is accrued pursuant to the agreements we have entered into with respect to such revenue.

We also generate revenue from agreements associated with television stations in order to accommodate the operations of telecommunications operators. Revenue from such agreements is recognized when we have relinquished all rights to operate the station on the existing channel, free from interference to the telecommunications operators.

Our primary expenses are employee compensation, including commissions paid to our sales staff and amounts paid to our national representative firms, as well as expenses for marketing, promotion and selling, technical, local

programming, engineering and general and administrative functions. Our local programming costs for television consist primarily of costs related to producing a local newscast in most of our markets. In addition, cost of revenue related to our digital media segment consists primarily of the costs of online media acquired from third-party publishers.

Highlights

During the second quarter of 2017, we completed the acquisition of the business of Headway, a provider of mobile, programmatic, data and performance digital marketing solutions primarily in the United States, Mexico and other parts of Latin America. We acquired Headway in order to acquire additional digital media platforms that we believe will enhance our offerings to the U.S. Hispanic marketplace as well as expand our international footprint.

Net revenue in our television segment decreased to \$37.8 million for the three-month period ended June 30, 2017 from \$39.2 million for the three-month period ended June 30, 2016, a decrease of \$1.4 million. The decrease was primarily due to a decrease in local revenue and a decrease in political advertising revenue, which was not material in 2017. We generated a total of \$7.5 million in retransmission consent revenue for each of the three-month periods ended June 30, 2017 and 2016.

Net revenue in our radio segment decreased to \$17.2 million for the three-month period ended June 30, 2017 from \$19.6 million for the three-month period ended June 30, 2016, a decrease of \$2.4 million. The decrease was primarily due to decreases in local and national advertising revenue, and a decrease in political advertising revenue, which was not material in 2017.

Net revenue in our digital segment increased to \$15.6 million for the three-month period ended June 30, 2017 from \$6.1 million for the three-month period ended June 30, 2016, an increase of \$9.5 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to net revenue in prior periods. This increase was partially offset by a decrease in national revenue in our preexisting digital business driven by shifts in the digital advertising industry toward video advertising and the increased use of automated buying platforms, referred to in our industry as programmatic revenue.

Relationship with Univision

Substantially all of our television stations are Univision- or UniMás-affiliated television stations. Our network affiliation agreements with Univision provide certain of our owned stations the exclusive right to broadcast Univision's primary network and UniMás network programming in their respective markets. These long-term affiliation agreements each expire in 2021, and can be renewed for multiple, successive two-year terms at Univision's option, subject to our consent. Under our Univision network affiliation agreement, we retain the right to sell approximately six minutes per hour of the available advertising time on Univision's primary network, subject to adjustment from time to time by Univision, but in no event less than four minutes. Under our UniMás network affiliation agreement, we retain the right to sell approximately four and a half minutes per hour of the available advertising time on the UniMás network, subject to adjustment from time to time by Univision.

Under the network affiliation agreements, Univision acts as our exclusive sales representative for the sale of national advertising on our Univision- and UniMás-affiliate television stations, and we pay certain sales representation fees to Univision relating to sales of all advertising for broadcast on our Univision- and UniMás-affiliate television stations. During the three-month periods ended June 30, 2017 and 2016, the amount we paid Univision in this capacity was \$2.4 million and \$2.5 million, respectively. During the six-month periods ended June 30, 2017 and 2016, the amount we paid Univision in this capacity was \$4.7 million and \$4.8 million, respectively.

We also generate revenue under two marketing and sales agreements with Univision, which give us the right through 2021 to manage the marketing and sales operations of Univision-owned UniMás and Univision affiliates in six markets – Albuquerque, Boston, Denver, Orlando, Tampa and Washington, D.C.

In August 2008, we entered into a proxy agreement with Univision pursuant to which we granted Univision the right to negotiate the terms of retransmission consent agreements for our Univision- and UniMás-affiliated television station signals for a term of six years, expiring in December 2014, which Univision and we have extended through August 31, 2017. Among other things, the proxy agreement provides terms relating to compensation to be paid to us by Univision with respect to retransmission consent agreements entered into with MVPDs. The term of the proxy agreement extends with respect to any MVPD for the length of the term of any retransmission consent agreement in effect before the expiration of the proxy agreement. We have entered into multiple short-term extensions of the proxy agreement since its December 2014 expiration, and it is our current intention to negotiate with Univision one or more further extensions of the current proxy agreement or a new proxy agreement however, no assurance can be given regarding the terms of any such extension or new agreement or that any such extension or new agreement will be entered into. As of June 30, 2017, the amount due to us from Univision was \$2.7 million related to the agreements for the carriage of our Univision and UniMás-affiliated television station signals. The term of the proxy agreement extends with respect to any MVPD for the length of the term of any retransmission consent agreement in effect before the expiration of the proxy agreement.

Univision currently owns approximately 10% of our common stock on a fully-converted basis. Our Class U common stock held by Univision has limited voting rights and does not include the right to elect directors. As the holder of all of our issued and outstanding Class U common stock, so long as Univision holds a certain number of shares, the Company will not, without the consent of Univision, merge, consolidate or enter into another business combination, dissolve or liquidate the Company or dispose of any interest in any FCC license for any of our Univision-affiliated television stations, among other things. Each share of Class U common stock is automatically convertible into one share of our Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer to a third party that is not an affiliate of Univision.

Critical Accounting Policies

For a description of our critical accounting policies, please refer to “Application of Critical Accounting Policies and Accounting Estimates” in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, filed with the SEC on March 10, 2017.

Revenue Recognition

Television and radio revenue related to the sale of advertising is recognized at the time of broadcast. Revenue for contracts with advertising agencies is recorded at an amount that is net of the commission retained by the agency. Revenue from contracts directly with the advertisers is recorded at gross revenue and the related commission or national representation fee is recorded in operating expense. Cash payments received prior to services rendered result in deferred revenue, which is then recognized as revenue when the advertising time or space is actually provided. Digital revenue is recognized when display or other digital advertisements record impressions on the websites of our third-party publishers or as the advertiser's performance goals are delivered.

We generate revenue under arrangements that are sold on a stand-alone basis within a specific segment, and those that are sold on a combined basis across multiple segments. We have determined that in such revenue arrangements which contain multiple products and services, revenues are allocated based on the relative fair value of each delivered item and recognized in accordance with the applicable revenue recognition criteria for the specific unit of accounting.

In August 2008, we entered into a proxy agreement with Univision pursuant to which we granted Univision the right to negotiate retransmission consent agreements for its Univision- and UniMás-affiliated television station signals. Advertising related to carriage of our Univision- and UniMás-affiliated television station signals is recognized at the time of broadcast. See more details in Note 2 to the Notes to the Consolidated Financial Statements under "Related Party".

We also generate revenue from agreements associated with television stations in order to accommodate the operations of telecommunications operators. Revenue from such agreements is recognized when we have relinquished all rights to operate the station on the existing channel free from interference to the telecommunications operators.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers (Topic 606) which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. Subsequently, the FASB has issued the following standards related to ASU 2014-09: ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations ; ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing ; ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients ; and ASU No. 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers . We must adopt ASU 2016-08, ASU 2016-10, ASU 2016-12 and ASU 2016-20 with ASU 2014-09 (collectively, the "new revenue standards"). The new revenue standards are effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2017. We currently expect to adopt the new revenue standards in the first quarter of 2018. The new revenue standards are not expected to have a material impact on the amount and timing of revenue recognized in our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) which specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. ASU 2016-02 is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2018. Early adoption is permitted. We are currently in the process of evaluating the impact of adoption of the ASU on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments which requires entities to use a current expected credit loss ("CECL") model which is a new impairment model based on expected losses rather than incurred losses. Under this model an entity would recognize an impairment allowance equal to its current estimate of all contractual cash flows that the entity does not expect to collect from financial assets measured at amortized cost. The entity's estimate would consider relevant information about past events, current conditions, and reasonable and supportable forecasts, which will result in recognition of life-time expected credit losses upon loan origination. ASU 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted for annual reporting periods beginning after December 15, 2018. We are currently in the process of evaluating the impact of adoption of the ASU on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force) which provides specific guidance on eight cash flow classification issues arising from certain cash receipts and cash payments. Currently, GAAP either is unclear or does not include specific guidance on the eight cash flow classification issues addressed in this topic. The objective is to reduce current and potential future diversity in practice. ASU 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted, including adoption in an interim period. We do not expect the adoption of the ASU to have a material impact on our consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory which allows entities to recognize the income tax consequences on an intra-entity transfer of an asset other than inventory when the transfer occurs. Current GAAP prohibits the recognition of current and deferred income taxes for an intra-entity asset transfer until the asset has been sold to an outside party. In addition, there has been diversity in the application of the current guidance for transfers of certain intangible and tangible assets. The objective is to reduce complexity in accounting standards. ASU 2016-16 is effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. We are currently in the process of evaluating the impact of adoption of the ASU on our consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash a Consensus of the FASB Emerging Issues Task Force to enhance and clarify the guidance on the classification and presentation of restricted cash in the statement of cash flows. A mounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The objective is to reduce diversity in practice. ASU 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted, including adoption in an interim period. We do not expect the adoption of the ASU to have a material impact on our consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805) - Clarifying the Definition of a Business to provide a more robust framework to use in determining when a set of assets and activities is considered a business. The objective is to add guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. ASU 2017-01 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted only for certain transactions. We do not expect the adoption of the ASU to have a material impact on our consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, which removes Step 2 from the goodwill impairment test. An entity no longer will determine goodwill impairment by calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. The objective is to reduce the cost and complexity of evaluating goodwill for impairment. ASU 2017-04 is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

In May 2017, the FASB issued Accounting Standards Update 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting (“ASU 2017-09”), to clarify and reduce both (i) diversity in practice and (ii) cost and complexity when applying the guidance in Topic 718, to change the terms and conditions of a share-based payment award. Specifically, an entity would not apply modification accounting if the fair value, vesting conditions, and classification of the awards are the same immediately before and after the modification. ASU 2017-09 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted.

The Company is currently in the process of evaluating the impact of adoption of the ASU on its consolidated financial statements.

Operating income	9,255	13,330	(31) %	17,308	20,973	(17) %
Interest expense	(3,683)	(3,859)	(5) %	(7,328)	(7,725)	(5) %
Interest income	110	118	(7) %	219	125	75 %
Income before income taxes	5,682	9,589	(41) %	10,199	13,373	(24) %
Income tax expense	(2,119)	(3,872)	(45) %	(4,018)	(5,386)	(25) %
Income (loss) before equity in net income (loss) of nonconsolidated affiliate	3,563	5,717	(38) %	6,181	7,987	(23) %
Equity in net income (loss) of nonconsolidated affiliate, net of tax	(68)	-	*	(68)	-	*
Net income	\$3,495	\$5,717	(39) %	\$6,113	\$7,987	(23) %
Other Data:						
Capital expenditures	5,564	2,346		6,808	4,586	
Consolidated adjusted EBITDA (adjusted for non-cash stock-based compensation) (1)				27,494	30,782	
Net cash provided by operating activities				23,306	24,426	
Net cash used in investing activities				(17,175)	(34,745)	
Net cash used in financing activities				(6,996)	(6,174)	

(1) Consolidated adjusted EBITDA means net income (loss) plus gain (loss) on sale of assets, depreciation and amortization, non-cash impairment charge, non-cash stock-based compensation included in operating and corporate expenses, net interest expense, other income (loss), gain (loss) on debt extinguishment, income tax (expense) benefit, equity in net income (loss) of nonconsolidated affiliate, non-cash losses and syndication programming amortization less syndication programming payments. We use the term consolidated adjusted EBITDA because that measure is defined in our 2013 Credit Facility and does not include gain (loss) on sale of assets, depreciation and amortization, non-cash impairment charge, non-cash stock-based compensation, net interest expense, other income (loss), gain (loss) on debt extinguishment, income tax (expense) benefit, equity in net income (loss) of nonconsolidated affiliate, non-cash losses and syndication programming amortization and does

include syndication programming payments.

Since our ability to borrow from our 2013 Credit Facility is based on a consolidated adjusted EBITDA financial covenant, we believe that it is important to disclose consolidated adjusted EBITDA to our investors. Our 2013 Credit Facility contains a total net leverage ratio financial covenant in the event that the revolving credit facility is drawn. The total net leverage ratio, or the ratio of consolidated total debt (net of up to \$20 million of unrestricted cash) to trailing-twelve-month consolidated adjusted EBITDA, affects both our ability to borrow from our 2013 Credit Facility and our applicable margin for the interest rate calculation. Under our 2013 Credit Facility, our maximum total leverage ratio may not exceed 6.25 to 1 in the event that the revolving credit facility is drawn. The total leverage ratio was as follows (in each case as of June 30): 2017, 4.1 to 1; 2016, 4.0 to 1. Therefore, we were in compliance with this covenant at each of those dates.

While many in the financial community and we consider consolidated adjusted EBITDA to be important, it should be considered in addition to, but not as a substitute for or superior to, other measures of liquidity and financial performance prepared in accordance with GAAP, such as cash flows from operating activities, operating income and net income. As consolidated adjusted EBITDA excludes non-cash gain (loss) on sale of assets, non-cash depreciation and amortization, non-cash impairment charge, non-cash stock-based compensation expense, net interest expense, other income (loss), gain (loss) on debt extinguishment, income tax (expense) benefit, equity in net income (loss) of nonconsolidated affiliate, non-cash losses and syndication programming amortization and includes syndication programming payments, consolidated adjusted EBITDA has certain limitations because it excludes and includes several important non-cash financial line items. Therefore, we consider both non-GAAP and GAAP measures when evaluating our business. Consolidated adjusted EBITDA is also used to make executive compensation decisions.

Consolidated adjusted EBITDA is a non-GAAP measure. The most directly comparable GAAP financial measure to consolidated adjusted EBITDA is cash flows from operating activities. A reconciliation of this non-GAAP measure to cash flows from operating activities follows (in thousands):

	Six-Month Period Ended June 30,	
	2017	2016
Consolidated adjusted EBITDA (1)	\$27,494	\$30,782
Interest expense	(7,328)	(7,725)

Cash flows from operating activities	\$23,306	\$24,426

Consolidated Operations

Net Revenue. Net revenue increased to \$70.5 million for the three-month period ended June 30, 2017 from \$64.8 million for the three-month period ended June 30, 2016, an increase of \$5.7 million. Of the overall increase, \$9.5 million was attributable to our digital segment and was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to net revenue in prior periods. The overall increase was partially offset by a decrease in our radio segment of \$2.4 million due primarily to decreases in local and national advertising revenue, and a decrease in political advertising revenue, which was not material in 2017, and a decrease in our television segment of \$1.4 million due primarily to a decrease in local revenue and a decrease in political advertising revenue, which was not material in 2017.

Net revenue increased to \$128.0 million for the six-month period ended June 30, 2017 from \$122.9 million for the six-month period ended June 30, 2016, an increase of \$5.1 million. Of the overall increase, \$9.0 million was attributable to our digital segment and was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to net revenue in prior periods. The overall increase was partially offset by a decrease in our radio segment of \$3.5 million due primarily to decreases in local and national advertising revenue, and a decrease in political advertising revenue, which was not material in 2017, and a decrease

in our television segment of \$0.3 million due primarily to a decrease in local revenue and a decrease in political advertising revenue, which was not material in 2017, partially offset by an increase in national advertising revenue and an increase in retransmission consent revenue.

We currently anticipate that for the full year 2017, net revenue will increase from digital media and retransmission consent revenue, whereas political advertising revenue will decrease compared to 2016. We will also benefit from the receipt in July 2017 of proceeds of approximately \$263.6 million related to the FCC auction for broadcast spectrum.

Cost of revenue. Cost of revenue, which we recognize in our digital media segment, increased to \$8.8 million for the three-month period ended June 30, 2017 from \$2.4 million for the three-month period ended June 30, 2016, an increase of \$6.4 million, primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to cost of revenue in prior periods.

Cost of revenue, which we recognize in our digital media segment, increased to \$10.5 million for the six-month period ended June 30, 2017 from \$4.2 million for the six-month period ended June 30, 2016, an increase of \$6.3 million, primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to cost of revenue in prior periods.

Direct Operating Expenses. Direct operating expenses increased to \$29.9 million for the three-month period ended June 30, 2017 from \$28.5 million for the three-month period ended June 30, 2016, an increase of \$1.4 million. Of the overall increase, \$2.2 million was attributable to our digital segment and was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to direct operating expenses in prior periods. The overall increase was partially offset by a decrease in our television segment of \$0.6 million due to a decrease in expenses associated with the decrease in advertising revenue and a decrease in expense for ratings services, and a decrease in our radio segment of \$0.3 million due to a decrease in expenses associated with the decrease in advertising revenue. As a percentage of net revenue, direct operating expenses decreased to 42% for the three-month period ended June 30, 2017 from 44% for the three-month period ended June 30, 2016.

Direct operating expenses increased to \$57.0 million for the six-month period ended June 30, 2017 from \$56.1 million for the six-month period ended June 30, 2016, an increase of \$0.9 million. Of the overall increase, \$1.9 million was attributable to our digital segment and was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to direct operating expenses in prior periods. The overall increase was partially offset by a decrease in our television segment of \$0.9 million due to a decrease in expenses associated with the decrease in advertising revenue and a decrease in expense for ratings services, and a decrease in our radio segment of \$0.1 million due to a decrease in expenses associated with the decrease in advertising revenue, partially offset by an increase in salary expense. As a percentage of net revenue, direct operating expenses decreased to 45% for the six-month period ended June 30, 2017 from 46% for the six-month period ended June 30, 2016.

We believe that direct operating expenses will increase during 2017 primarily as a result of the operations of Headway, which we acquired in April 2017.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased to \$12.0 million for the three-month period ended June 30, 2017 from \$11.4 million for the three-month period ended June 30, 2016, an increase of \$0.6 million. Of the overall increase, approximately \$0.9 million was attributable to our digital segment and was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to selling, general and administrative expenses in prior periods. Additionally, \$0.1 million of the overall increase was attributable to our television segment and was primarily due to an increase in salary expense. The overall increase was partially offset by a decrease of \$0.3 million in our radio segment due to decreases in event expense and bad debt expense. As a percentage of net revenue, selling, general and administrative expenses decreased to 17% for the

three-month period ended June 30, 2017 from 18% for the three-month period ended June 30, 2016.

Selling, general and administrative expenses increased to \$23.2 million for the six-month period ended June 30, 2017 from \$22.8 million for the six-month period ended June 30, 2016, an increase of \$0.4 million. Of the overall increase, \$0.8 million was attributable to our digital segment and was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to selling, general and administrative expenses in prior periods. Additionally, approximately \$0.1 million of the overall increase was attributable to our television segment and was primarily due to an increase in salary expense. The overall increase was partially offset by a decrease of \$0.5 million in our radio segment due to decreases in event expense and bad debt expense. As a percentage of net revenue, selling, general and administrative expenses decreased to 17% for the six-month period ended June 30, 2017 from 19% for the six-month period ended June 30, 2016.

We believe that selling, general and administrative expenses will increase during 2017 primarily as a result of the operations of Headway, which we acquired in April 2017.

Corporate Expenses. Corporate expenses increased to \$5.6 million for the three-month period ended June 30, 2017 from \$5.3 million for the three-month period ended June 30, 2016, an increase of \$0.3 million. The increase was primarily due to an increase in salary expense and non-cash stock-based compensation expense. As a percentage of net revenue, corporate expenses remained constant at 8% for each of the three-month periods ended June 30, 2017 and 2016.

Corporate expenses increased to \$11.5 million for the six-month period ended June 30, 2017 from \$10.9 million for the six-month period ended June 30, 2016, an increase of \$0.6 million. The increase was primarily due to legal and financial due diligence costs related to the Headway acquisition and non-cash stock-based compensation expense. As a percentage of net revenue, corporate expenses remained constant at 9% for each of the six-month periods ended June 30, 2017 and 2016.

We believe that corporate expenses will be constant during 2017 compared to 2016.

Depreciation and Amortization. Depreciation and amortization increased to \$4.6 million for the three-month period ended June 30, 2017 from \$3.9 million for the three-month period ended June 30, 2016, an increase of \$0.7 million. The increase was primarily due to amortization on the intangible assets from the Headway acquisition partially offset by a decrease in depreciation as certain assets are now fully depreciated.

Depreciation and amortization increased to \$8.1 million for the six-month period ended June 30, 2017 from \$7.9 million for the six-month period ended June 30, 2016, an increase of \$0.2 million. The increase was primarily due to amortization on the intangible assets from the Headway acquisition partially offset by a decrease in depreciation as certain assets are now fully depreciated.

Operating Income. As a result of the above factors, operating income was \$9.3 million for the three-month period ended June 30, 2017, compared to \$13.3 million for the three-month period ended June 30, 2016. As a result of the above factors, operating income was \$17.3 million for the six-month period ended June 30, 2017, compared to \$21.0 million for the six-month period ended June 30, 2016.

Interest Expense, net. Interest expense, net decreased to \$3.6 million for the three-month period ended June 30, 2017 from \$3.7 million for the three-month period ended June 30, 2016, a decrease of \$0.1 million. This decrease was primarily due to the loan principal prepayment during the fourth quarter of 2016.

Interest expense, net decreased to \$7.1 million for the six-month period ended June 30, 2017 from \$7.6 million for the six-month period ended June 30, 2016, a decrease of \$0.5 million. This decrease was primarily due to the loan principal prepayment during the fourth quarter of 2016.

Income Tax Expense. Income tax expense for the six-month period ended June 30, 2017 was \$4.0 million, or 39% of our pre-tax income. Income tax expense for the six-month period ended June 30, 2016 was \$5.4 million, or 40% of our pre-tax income.

Segment Operations

Television

Net Revenue. Net revenue in our television segment decreased to \$37.8 million for the three-month period ended June 30, 2017 from \$39.2 million for the three-month period ended June 30, 2016, a decrease of \$1.4 million. The decrease was primarily due to a decrease in local revenue and a decrease in political advertising revenue, which was not material in 2017. We generated a total of \$7.5 million in retransmission consent revenue for each of the three-month

periods ended June 30, 2017 and 2016.

Net revenue in our television segment decreased to \$75.5 million for the six-month period ended June 30, 2017 from \$75.8 million for the six-month period ended June 30, 2016, a decrease of \$0.3 million. The decrease was primarily due to a decrease in local revenue and a decrease in political advertising revenue, which was not material in 2017, partially offset by an increase in national advertising revenue and an increase in retransmission consent revenue. We generated a total of \$15.4 million and \$14.9 million in retransmission consent revenue for the six-month periods ended June 30, 2017 and 2016, respectively.

Direct Operating Expenses. Direct operating expenses in our television segment decreased to \$14.9 million for the three-month period ended June 30, 2017 from \$15.5 million for the three-month period ended June 30, 2016, a decrease of \$0.6 million. The decrease was primarily attributable to a decrease in expenses associated with the decrease in advertising revenue and a decrease in expense for ratings services.

Direct operating expenses in our television segment decreased to \$29.6 million for the six-month period ended June 30, 2017 from \$30.5 million for the six-month period ended June 30, 2016, a decrease of \$0.9 million. The decrease was primarily attributable to a decrease in expenses associated with the decrease in advertising revenue and a decrease in expense for ratings services.

Selling, General and Administrative Expenses. Selling, general and administrative expenses in our television segment increased to \$5.3 million for the three-month period ended June 30, 2017 from \$5.2 million for the three-month period ended June 30, 2016, an increase of \$0.1 million. The increase was primarily due to an increase in salary expense.

Selling, general and administrative expenses in our television segment increased to \$10.7 million for the six-month period ended June 30, 2017 from \$10.6 million for the six-month period ended June 30, 2016, an increase of \$0.1 million. The increase was primarily due to an increase in salary expense.

Radio

Net Revenue. Net revenue in our radio segment decreased to \$17.2 million for the three-month period ended June 30, 2017 from \$19.6 million for the three-month period ended June 30, 2016, a decrease of \$2.4 million. The decrease was primarily due to decreases in local and national advertising revenue, and a decrease in political advertising revenue, which was not material in 2017.

Net revenue in our radio segment decreased to \$32.9 million for the six-month period ended June 30, 2017 from \$36.4 million for the six-month period ended June 30, 2016, a decrease of \$3.5 million. The decrease was primarily due to decreases in local and national advertising revenue, and a decrease in political advertising revenue, which was not material in 2017.

Direct Operating Expenses. Direct operating expenses in our radio segment decreased to \$11.0 million for the three-month period ended June 30, 2017 from \$11.3 million for the three-month period ended June 30, 2016, a decrease of \$0.3 million. The decrease was primarily due to a decrease in expenses associated with the decrease in advertising revenue.

Direct operating expenses in our radio segment decreased to \$22.1 million for the six-month period ended June 30, 2017 from \$22.2 million for the six-month period ended June 30, 2016, a decrease of \$0.1 million. The decrease was primarily due to a decrease in expenses associated with the decrease in advertising revenue, partially offset by an increase in salary expense.

Selling, General and Administrative Expenses. Selling, general and administrative expenses in our radio segment decreased to \$4.6 million for the three-month period ended June 30, 2017 from \$5.0 million for the three-month period ended June 30, 2016, a decrease of \$0.4 million. The decrease was primarily due to decreases in event expense and bad debt expense.

Selling, general and administrative expenses in our radio segment decreased to \$9.3 million for the six-month period ended June 30, 2017 from \$9.8 million for the six-month period ended June 30, 2016, a decrease of \$0.5 million. The decrease was primarily due to decreases in event expense and bad debt expense.

Digital

Net Revenue. Net revenue in our digital segment increased to \$15.6 million for the three-month period ended June 30, 2017 from \$6.1 million for the three-month period ended June 30, 2016, an increase of \$9.5 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods. This increase was partially offset by a decrease in national revenue in our preexisting digital business, driven by shifts in the digital advertising industry toward video advertising and the increased use of automated buying platforms, referred to in our industry as programmatic revenue. The digital advertising industry is dynamic and undergoing rapid change, which includes the current shift toward programmatic revenue. We anticipate that this trend will continue in the digital advertising industry and that other trends may

emerge, requiring us to respond to changing consumer demands.

Net revenue in our digital segment increased to \$19.7 million for the six-month period ended June 30, 2017 from \$10.7 million for the six-month period ended June 30, 2016, an increase of \$9.0 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to results of operations in prior periods. This increase was partially offset by a decrease in national revenue in our preexisting digital business, driven by shifts in the digital advertising industry toward video advertising and the increased use of automated buying platforms, referred to in our industry as programmatic revenue. The digital advertising industry is dynamic and undergoing rapid change, which includes the current shift toward programmatic revenue. We anticipate that this trend will continue in the digital advertising industry and that other trends may emerge, requiring us to respond to changing consumer demands.

Cost of revenue. Cost of revenue in our digital segment increased to \$8.8 million for the three-month period ended June 30, 2017 from \$2.4 million for the three month period ended June 30, 2016, an increase of \$6.4 million. This increase was due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods. Cost of revenue in our preexisting digital business was constant. Because of third party media costs, our margins tend to be smaller in our digital media segment than in our other broadcast segments. As a percentage of net revenue, cost of revenue increased to 56% for the

three-month period ended June 30, 2017 from 39% for the three-month period ended June 30, 2016. The increase in cost of revenue as a percentage of digital revenue was primarily due to the acquisition of Headway and a higher percentage of programmatic revenue in our preexisting digital business. Because of the high volume and relative efficiencies of these programmatic platforms, the margins tend to be lower.

Cost of revenue in our digital segment increased to \$10.5 million for the six-month period ended June 30, 2017 from \$4.2 million for the six-month period ended June 30, 2016, an increase of \$6.3 million. This increase was due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods. Cost of revenue in our preexisting digital business was constant. Because of third party media costs, our margins tend to be smaller in our digital media segment than in our other broadcast segments. As a percentage of net revenue, cost of revenue increased to 53% for the six-month period ended June 30, 2017 from 39% for the six-month period ended June 30, 2016. The increase in cost of revenue as a percentage of digital revenue was primarily due to the acquisition of Headway and a higher percentage of programmatic revenue in our preexisting digital business. Because of the high volume and relative efficiencies of these programmatic platforms, the margins tend to be lower.

Direct operating expenses. Direct operating expenses in our digital segment increased to \$4.0 million for the three-month period ended June 30, 2017 from \$1.8 million for the three month period ended June 30, 2016, an increase of \$2.2 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods, partially offset by a decrease in our preexisting digital business due to a decrease in expenses associated with the decrease in advertising revenue and a decrease in salary expense.

Direct operating expenses in our digital segment increased to \$5.3 million for the six-month period ended June 30, 2017 from \$3.4 million for the six month period ended June 30, 2016, an increase of \$1.9 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods, partially offset by a decrease in our preexisting digital business due to a decrease in expenses associated with the decrease in advertising revenue and a decrease in salary expense.

Selling, general and administrative expenses. Selling, general and administrative expenses in our digital segment increased to \$2.2 million for the three-month period ended June 30, 2017 from \$1.3 million for the three-month period ended June 30, 2016, an increase of \$0.9 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods, partially offset by a decrease in our preexisting digital business due to a decrease in salary expense.

Selling, general and administrative expenses in our digital segment increased to \$3.2 million for the six-month period ended June 30, 2017 from \$2.4 million for the six-month period ended June 30, 2016, an increase of \$0.8 million. The increase was primarily due to the acquisition of Headway during the second quarter of 2017, which did not contribute to our results of operations in prior periods, partially offset by a decrease in our preexisting digital business due to a decrease in salary expense.

Liquidity and Capital Resources

We had net income of approximately \$20.4 million, \$25.6 million, and \$27.1 million for the years ended December 31, 2016, 2015 and 2014, respectively. We had positive cash flow from operations of \$57.3 million, \$62.3 million and \$54.4 million for the years ended December 31, 2016, 2015 and 2014, respectively. We generated cash flow from operations of \$23.3 million for the six-month period ended June 30, 2017 and we expect to have positive cash flow from operations for the full 2017 fiscal year. We expect to fund our working capital requirements, capital expenditures and payments of principal and interest on outstanding indebtedness, with cash on hand and cash flows from operations. We currently anticipate that cash flows from operations, cash on hand and available borrowings under our 2013 Credit Facility will be sufficient to meet our anticipated cash requirements for at least the next twelve months and for the foreseeable future.

2013 Credit Facility

On May 31, 2013, we entered into our 2013 Credit Facility pursuant to the 2013 Credit Agreement. The 2013 Credit Facility consists of a \$20.0 million senior secured Term Loan A Facility, a \$375.0 million senior secured Term Loan B Facility which was drawn on the Term Loan B Borrowing Date, and a \$30.0 million senior secured Revolving Credit Facility. In addition, the 2013 Credit Facility provides that we may increase the aggregate principal amount of the 2013 Credit Facility by up to an additional \$100.0 million, subject to us satisfying certain conditions.

Borrowings under the Term Loan A Facility were used on the Closing Date (together with cash on hand) to (a) repay in full all of our and our subsidiaries' outstanding obligations under the 2012 Credit Agreement and to terminate the 2012 Credit Agreement, and (b) pay fees and expenses in connection the 2013 Credit Facility. As discussed in more detail below, on August 1, 2013, we drew on borrowings under our Term Loan B Facility to (a) repay in full all of the outstanding loans under the Term Loan A Facility and (b) redeem in full all of the Notes. We intend to use any future borrowings under the Revolving Credit Facility to provide for working capital, capital expenditures and other general corporate purposes and from time to time fund a portion of any acquisitions in which we may engage, in each case subject to the terms and conditions set forth in the 2013 Credit Agreement.

The 2013 Credit Facility is guaranteed on a senior secured basis by the Credit Parties. The 2013 Credit Facility is secured on a first priority basis by our and the Credit Parties' assets. Upon the redemption of the Notes, the security interests and guaranties of us and the Credit Parties under the Indenture and the Notes were terminated and released.

Our borrowings under the 2013 Credit Facility bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Base Rate (as defined in the 2013 Credit Agreement) plus the Applicable Margin (as defined in the 2013 Credit Agreement); or (ii) LIBOR (as defined in the 2013 Credit Agreement) plus the Applicable Margin (as defined in the 2013 Credit Agreement). As of June 30, 2017, our effective interest rate was 3.5%. The Term Loan A Facility expired on the Term Loan B Borrowing Date, which was August 1, 2013. The Term Loan B Facility expires on the Term Loan B Maturity Date, which is May 31, 2020 and the Revolving Credit Facility expires on the Revolving Loan Maturity Date, which is May 31, 2018.

As defined in the 2013 Credit Facility, "Applicable Margin" means:

(a) with respect to the Term Loans (i) if a Base Rate Loan, one and one half percent (1.50%) per annum and (ii) if a LIBOR Rate Loan, two and one half percent (2.50%) per annum; and

(b) with respect to the Revolving Loans:

(i) for the period commencing on the Closing Date through the last day of the calendar month during which financial statements for the fiscal quarter ending September 30, 2013 are delivered: (A) if a Base Rate Loan, one and one half percent (1.50%) per annum and (B) if a LIBOR Rate Loan, two and one half percent (2.50%) per annum; and

(ii) thereafter, the Applicable Margin for the Revolving Loans shall equal the applicable LIBOR margin or Base Rate margin in effect from time to time determined as set forth below based upon the applicable First Lien Net Leverage Ratio then in effect pursuant to the appropriate column under the table below:

First Lien Net Leverage Ratio	LIBOR Margin		Base Rate Margin	
≥ 4.50 to 1.00	2.50	%	1.50	%
< 4.50 to 1.00	2.25	%	1.25	%

In the event we engage in a transaction that has the effect of reducing the yield of any loans outstanding under the Term Loan B Facility within six months of the Term Loan B Borrowing Date, we will owe 1% of the amount of the loans so repriced or replaced to the Lenders thereof (such fee, the "Repricing Fee"). Other than the Repricing Fee, the amounts outstanding under the 2013 Credit Facility may be prepaid at our option without premium or penalty, provided that certain limitations are observed, and subject to customary breakage fees in connection with the prepayment of a LIBOR rate loan. The principal amount of the (i) Term Loan A Facility shall be paid in full on the

Term Loan B Borrowing Date, (ii) Term Loan B Facility shall be paid in installments on the dates and in the respective amounts set forth in the 2013 Credit Agreement, with the final balance due on the Term Loan B Maturity Date and (iii) Revolving Credit Facility shall be due on the Revolving Loan Maturity Date.

Subject to certain exceptions, the 2013 Credit Facility contains covenants that limit the ability of us and the Credit Parties to, among other things:

- incur additional indebtedness or change or amend the terms of any senior indebtedness, subject to certain conditions;
- incur liens on the property or assets of us and the Credit Parties;
- dispose of certain assets;
- consummate any merger, consolidation or sale of substantially all assets;
- make certain investments;
- enter into transactions with affiliates;

31

• use loan proceeds to purchase or carry margin stock or for any other prohibited purpose;
• incur certain contingent obligations;
• make certain restricted payments; and
• enter new lines of business, change accounting methods or amend the organizational documents of us or any Credit Party in any materially adverse way to the agent or the lenders.

The 2013 Credit Facility also requires compliance with a financial covenant related to total net leverage ratio (calculated as set forth in the 2013 Credit Agreement) in the event that the revolving credit facility is drawn.

The 2013 Credit Facility also provides for certain customary events of default, including the following:

• default for three (3) business days in the payment of interest on borrowings under the 2013 Credit Facility when due;
• default in payment when due of the principal amount of borrowings under the 2013 Credit Facility;
• failure by us or any Credit Party to comply with the negative covenants, financial covenants (provided, that, an event of default under the Term Loan Facilities will not have occurred due to a violation of the financial covenants until the revolving lenders have terminated their commitments and declared all obligations to be due and payable), and certain other covenants relating to maintenance of customary property insurance coverage, maintenance of books and accounting records and permitted uses of proceeds from borrowings under the 2013 Credit Facility, each as set forth in the 2013 Credit Agreement;
• failure by us or any Credit Party to comply with any of the other agreements in the 2013 Credit Agreement and related loan documents that continues for thirty (30) days (or ten (10) days in the case of certain financial statement delivery obligations) after officers of us first become aware of such failure or first receive written notice of such failure from any lender;
• default in the payment of other indebtedness if the amount of such indebtedness aggregates to \$15.0 million or more, or failure to comply with the terms of any agreements related to such indebtedness if the holder or holders of such indebtedness can cause such indebtedness to be declared due and payable;
• failure of us or any Credit Party to pay, vacate or stay final judgments aggregating over \$15.0 million for a period of thirty (30) days after the entry thereof;
• certain events of bankruptcy or insolvency with respect to us or any Credit Party;
• certain change of control events;
• the revocation or invalidation of any agreement or instrument governing the Notes or any subordinated indebtedness, including the Intercreditor Agreement; and
• any termination, suspension, revocation, forfeiture, expiration (without timely application for renewal) or material adverse amendment of any material media license.

In connection with our entering into the 2013 Credit Agreement, we and the Credit Parties also entered into an Amended and Restated Security Agreement, pursuant to which we and the Credit Parties each granted a first priority security interest in the collateral securing the 2013 Credit Facility for the benefit of the lenders under the 2013 Credit Facility.

On August 1, 2013, we drew on borrowings under our Term Loan B Facility. The borrowings were used to (i) repay in full all of the outstanding loans under our Term Loan A Facility; (ii) satisfy the Redemption on the Redemption Date under the Indenture, in an aggregate principal amount of approximately \$324 million, and (iii) pay any fees and expenses in connection therewith. The redemption price for the redeemed Notes was 106.563% of the principal amount, plus accrued and unpaid interest thereon to the Redemption Date.

The Redemption constituted a complete redemption of the Notes, such that no amount remained outstanding following the Redemption. Accordingly, the Indenture has been satisfied and discharged in accordance with its terms and the Notes have been cancelled, effective as of the Redemption Date.

In each of December 2014, 2015 and 2016, we made a prepayment of \$20.0 million, to reduce the amount of loans then outstanding under our Term Loan B Facility.

Amendment to 2013 Credit Facility

Effective August 1, 2017, we entered into the First Amendment dated as of August 1, 2017 (the “Amendment”) to the 2013 Credit Agreement. Pursuant to this Amendment, among other things, we are allowed to make certain restricted payments in an amount not to exceed \$40,000,000, plus, for each anniversary of the effective date of the Amendment, an additional \$20,000,000 so long as, in the case of restricted payments made in reliance on any such additional amounts, the total net leverage ratio would not exceed 5.5 to 1 after giving effect to the restricted payment.

The Amendment also makes certain technical and conforming changes to the terms of the 2013 Credit Agreement. All other provisions of the 2013 Credit Agreement remain in full force and effect unless expressly amended or modified pursuant to the Amendment.

Derivative Instruments

We use derivatives in the management of interest rate risk with respect to interest expense on variable rate debt. Our current policy prohibits entering into derivative instruments for speculation or trading purposes. We are party to interest rate swap agreements with financial institutions that fix the variable benchmark component (LIBOR) of our interest rate on a portion of our term loan.

ASC 820, “Fair Value Measurements and Disclosures”, requires us to recognize all of our derivative instruments as either assets or liabilities in the consolidated balance sheet at fair value. The accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship, and further, on the type of hedging relationship. The interest rate swap agreements were designated and qualified as a cash flow hedge; therefore, the effective portion of the changes in fair value is a component of other comprehensive income. Any ineffective portions of the changes in fair value of the interest rate swap agreements will be immediately recognized directly to interest expense in the consolidated statement of operations.

The carrying amount of our interest rate swap agreements is recorded at fair value, including non-performance risk, when material. The fair value of each interest rate swap agreement is determined by using multiple broker quotes, adjusted for non-performance risk, when material, which estimate the future discounted cash flows of any future payments that may be made under such agreements.

As required by the terms of our 2013 Credit Agreement, on December 16, 2013, we entered into three forward-starting interest rate swap agreements with an aggregated notional amount of \$186.0 million at a fixed rate of 2.73%, resulting in an all-in fixed rate of 5.23%. The interest rate swap agreements took effect on December 31, 2015 with a maturity date on December 31, 2018. Under these interest rate swap agreements, we pay at a fixed rate and receive payments at a variable rate based on three-month LIBOR. The interest rate swap agreements effectively fix the floating LIBOR-based interest of \$186.0 million outstanding LIBOR-based debt. The interest rate swap agreements were designated and qualified as a cash flow hedge; therefore, the effective portion of the changes in fair value is recorded in accumulated other comprehensive income. Any ineffective portions of the changes in fair value of the interest rate swap agreements will be recognized directly to interest expense in the consolidated statement of operations. The change in fair value of the interest rate swap agreements for the three-month period ended June 30, 2017 was a gain of \$0.3 million, net of tax, and was included in other comprehensive income (loss). The change in fair value of the interest rate swap agreements for the six-month period ended June 30, 2017 was a gain of \$0.8 million, net of tax, and was included in other comprehensive income (loss). We paid \$0.7 million of interest related to the interest rate swap agreements for the three-month period ended June 30, 2017. We paid \$1.6 million of interest related to the interest rate swap agreements for the six-month period ended June 30, 2017. As of June 30, 2017, we estimate that none of the unrealized gains or losses included in accumulated other comprehensive income or loss related to these interest rate swap agreements will be realized and reported in earnings within the next twelve months.

Share Repurchase Program

On July 13, 2017, our Board of Directors approved a share repurchase of up to \$15 million of our common stock. Under the new share repurchase program, we are authorized to purchase shares from time to time through open market purchases or negotiated purchases, subject to market conditions and other factors. On the same date, the Board terminated our previous share repurchase program of up to \$20 million of our Company's common stock. Under the previous program, we did not repurchase any shares during the three-month period ended June 30, 2017.

Consolidated Adjusted EBITDA

Consolidated adjusted EBITDA (as defined below) decreased to \$27.5 million for the six-month period ended June 30, 2017 compared to \$30.8 million for the six-month period ended June 30, 2016. As a percentage of net revenue, consolidated adjusted

EBITDA decreased to 21% for the six-month period ended June 30, 2017 compared to 25% for the six-month period ended June 30, 2016.

Consolidated adjusted EBITDA means net income (loss) plus gain (loss) on sale of assets, depreciation and amortization, non-cash impairment charge, non-cash stock-based compensation included in operating and corporate expenses, net interest expense, other income (loss), gain (loss) on debt extinguishment, income tax (expense) benefit, equity in net income (loss) of nonconsolidated affiliate, non-cash losses and syndication programming amortization less syndication programming payments. We use the term consolidated adjusted EBITDA because that measure is defined in our 2013 Credit Facility and does not include gain (loss) on sale of assets, depreciation and amortization, non-cash impairment charge, non-cash stock-based compensation, net interest expense, other income (loss), gain (loss) on debt extinguishment, income tax (expense) benefit, equity in net income (loss) of nonconsolidated affiliate, non-cash losses and syndication programming amortization and does include syndication programming payments.

Since our ability to borrow from our 2013 Credit Facility is based on a consolidated adjusted EBITDA financial covenant, we believe that it is important to disclose consolidated adjusted EBITDA to our investors. Our 2013 Credit Facility contains a total net leverage ratio financial covenant. The total net leverage ratio, or the ratio of consolidated total debt (net of up to \$20 million of unrestricted cash) to trailing-twelve-month consolidated adjusted EBITDA, affects both our ability to borrow from our 2013 Credit Facility and our applicable margin for the interest rate calculation. Under our 2013 Credit Facility, our maximum total leverage ratio may not exceed 6.25 to 1 in the event that the revolving credit facility is drawn. The total leverage ratio was as follows (in each case as of June 30): 2017, 4.1 to 1; 2016, 4.0 to 1. Therefore, we were in compliance with this covenant at each of those dates.

While many in the financial community and we consider consolidated adjusted EBITDA to be important, it should be considered in addition to, but not as a substitute for or superior to, other measures of liquidity and financial performance prepared in accordance with GAAP, such as cash flows from operating activities, operating income and net income. As consolidated adjusted EBITDA excludes non-cash gain (loss) on sale of assets, non-cash depreciation and amortization, non-cash impairment charge, non-cash stock-based compensation expense, net interest expense, other income (loss), gain (loss) on debt extinguishment, income tax (expense) benefit, equity in net income (loss) of nonconsolidated affiliate, non-cash losses and syndication programming amortization and includes syndication programming payments, consolidated adjusted EBITDA has certain limitations because it excludes and includes several important non-cash financial line items. Therefore, we consider both non-GAAP and GAAP measures when evaluating our business. Consolidated adjusted EBITDA is also used to make executive compensation decisions.

Consolidated adjusted EBITDA is a non-GAAP measure. For a reconciliation of consolidated adjusted EBITDA to cash flows from operating activities, its most directly comparable GAAP financial measure, please see page 26.

Cash Flow

Net cash flow provided by operating activities was \$23.3 million for the six-month period ended June 30, 2017, compared to net cash flow provided by operating activities of \$24.4 million for the six-month period ended June 30, 2016. We had net income of \$6.1 million for the six-month period ended June 30, 2017, which was partially reduced by non-cash items, including depreciation and amortization expense of \$8.1 million, deferred income taxes of \$3.4 million, and non-cash stock-based compensation of \$2.1 million. We had net income of \$8.0 million for the six-month period ended June 30, 2016, which was partially reduced by non-cash items, including depreciation and amortization expense of \$7.9 million, deferred income taxes of \$4.9 million, and non-cash stock-based compensation of \$1.9 million. We expect to have positive cash flow from operating activities for the full year 2017.

Net cash flow used in investing activities was \$17.2 million for the six-month period ended June 30, 2017, compared to net cash flow used in investing activities of \$34.7 million for the six-month period ended June 30, 2016. During the

six-month period ended June 30, 2017, we purchased the business of Headway for \$7.5 million, net of cash acquired, spent \$7.3 million on net capital expenditures, spent \$2.2 million on investments and made a deposit on a potential future acquisition of \$0.2 million. During the six-month period ended June 30, 2016, we spent \$4.8 million on net capital expenditures and we purchased a six-month certificate of deposit for \$30.0 million. We anticipate that our capital expenditures will be approximately \$13.0 million for the full year 2017. The amount of our anticipated capital expenditures may change based on future changes in business plans, our financial condition and general economic conditions. We expect to fund capital expenditures with cash on hand and net cash flow from operations.

Net cash flow used in financing activities was \$7.0 million for the six-month period ended June 30, 2017, compared to net cash flow used in financing activities of \$6.2 million for the six-month period ended June 30, 2016. During the six-month period ended June 30, 2017, we made dividend payments of \$5.6 million, debt repayments of principal in the amount of \$1.9 million and received proceeds of \$0.5 million related to the issuance of common stock upon the exercise of stock options. During the six-month period ended June 30, 2016, we made dividend payments of \$5.6 million, debt repayments of principal in the amount of \$1.9 million and received proceeds of \$1.3 million related to the issuance of common stock upon the exercise of stock options.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

General

Market risk represents the potential loss that may impact our financial position, results of operations or cash flows due to adverse changes in the financial markets. We are exposed to market risk from changes in the base rates on our Term Loan B Facility. Under our 2013 Credit Facility, within two years from its commencement, we were required to enter into derivative financial instrument transactions, such as swaps or interest rate caps, for at least half of the principal balance, in order to manage or reduce our exposure to risk from changes in interest rates. We do not enter into derivatives or other financial instrument transactions for speculative purposes. We are also exposed to market risk related to currency fluctuations in our international operations.

Interest Rates

As of June 30, 2017, we had \$290.9 million of variable rate bank debt outstanding under our 2013 Credit Facility. The debt bears interest at LIBOR plus a margin of 2.5%. The LIBOR rate was 1.15%, higher than the 1.0% floor, resulting in an effective interest rate of 3.65% for the three-month period ended June 30, 2017. In the event LIBOR is below the floor rate we will still have to pay the floor rate plus the margin. If LIBOR rises above the floor rate, we have to pay the prevailing LIBOR rate plus the margin (for the portion of the debt that is not hedged. See further discussion below).

Because our debt is subject to interest at a variable rate, our earnings will be affected in future periods by changes in interest rates. Hypothetically, if LIBOR were to increase by 100 basis points, or one percentage point, from its June 30, 2017 level, our annual interest expense under our term loan would increase, and cash flow from operations would decrease, by approximately \$1.1 million, based on the outstanding balance of our term loan as of June 30, 2017.

As required by the terms of our 2013 Credit Agreement, on December 16, 2013, we entered into three forward-starting interest rate swap agreements with an aggregated notional amount of \$186.0 million at a fixed rate of 2.73%, resulting in an all-in fixed rate of 5.23%. The interest rate swap agreements took effect on December 31, 2015 with a maturity date on December 31, 2018. Under these interest rate swap agreements, we pay at a fixed rate and receive payments at a variable rate based on three-month LIBOR. The interest rate swap agreements effectively fix the floating LIBOR-based interest of \$186.0 million outstanding LIBOR-based debt. The interest rate swap agreements were designated and qualified as a cash flow hedge; therefore, the effective portion of the changes in fair value is recorded in accumulated other comprehensive income. Any ineffective portions of the changes in fair value of the interest rate swap agreements will be immediately recognized directly to interest expense in the consolidated statement of operations. The change in fair value of the interest rate swap agreements for the three-month period ended June 30, 2017, was a gain of \$0.3 million, net of tax, and was included in other comprehensive income (loss). The change in fair value of the interest rate swap agreements for the six-month period ended June 30, 2017, was a gain of \$0.8 million, net of tax, and was included in other comprehensive income (loss). We paid \$0.7 million of interest related to the interest rate swap agreements for the three-month period ended June 30, 2017. We paid \$1.6 million of interest related to the interest rate swap agreements for the six-month period ended June 30, 2017. As of June 30, 2017, we estimate that none of the unrealized gains or losses included in accumulated other comprehensive income or loss related to these interest rate swap agreements will be realized and reported in earnings within the next twelve months.

Foreign Currency

We have foreign currency risks related to our revenue and operating expenses denominated in currencies other than the U.S. dollar. Our historical revenues have primarily been denominated in U.S. dollars, and the majority of our current revenues continue to be, and are expected to remain, denominated in U.S. dollars. However, we expect an increasing portion of our future revenues to be denominated in currencies other than the U.S. dollar, primarily the

Mexican peso, Argentine peso and various other Latin American currencies. The effect of an immediate and arbitrary 10% adverse change in foreign exchange rates on foreign-denominated accounts receivable at June 30, 2017 would not be material to our overall financial condition or consolidated results of operations. Our operating expenses are generally denominated in the currencies of the countries in which our operations are located, primarily the United States and, to a much lesser extent, Mexico, Argentina and other Latin American countries. Increases and decreases in our foreign-denominated revenue from movements in foreign exchange rates are partially offset by the corresponding decreases or increases in our foreign-denominated operating expenses.

As our operations grow, our risks associated with fluctuation in currency rates will become greater, and we will continue to reassess our approach to managing this risk. In addition, currency fluctuations or a weakening U.S. dollar can increase the costs of our international operations. To date, we have not entered into any foreign currency hedging contracts, since exchange rate fluctuations historically have not had a material impact on our operating results and cash flows.

ITEM 4. CONTROLS AND PROCEDURES

We conducted an evaluation, under the supervision and with the participation of management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of the evaluation date, our disclosure controls and procedures were effective.

Our disclosure controls and procedures are designed to ensure that the information relating to our company, including our consolidated subsidiaries, required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow for timely decisions regarding required disclosure.

Our management, including our chief executive officer and chief financial officer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

There have not been any changes in our internal control over financial reporting during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II.

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We currently and from time to time are involved in litigation incidental to the conduct of our business, but we are not currently a party to any lawsuit or proceeding which, in the opinion of management, is likely to have a material adverse effect on us or our business.

On May 1, 2017, we received a letter submitted by a stockholder asserting that one of the members of the Compensation Committee of the Board of Directors does not qualify as an “outside director” under Section 162(m) of the Internal Revenue Code. The letter requests that we take certain actions to remedy the alleged noncompliance with Section 162(m). The Nominating and Corporate Governance Committee (“NCG”), with the assistance of independent counsel, conducted a thorough review of the issues raised by the stockholder and concluded that the Company had complied in all respects with Section 162(m) and recommended that the Board of Directors not pursue a claim. The Board of Directors accepted the recommendation of the NCG.

ITEM 1A. RISK FACTORS

We expect to experience certain risk factors in our overseas operations, which risks may increase if and as our overseas operations expand.

Our digital media segment engages in business operations in Mexico and other Latin American countries. We are subject to certain risks inherent in business operations outside the United States. These risks include but are not limited to geopolitical concerns, local politics, governmental instability, socioeconomic disparities, high inflation and hyper-inflation currency fluctuations, currency exchange controls, restrictions on repatriating foreign-derived profits to the United States, inflation, local regulatory compliance, punitive tariffs, unstable local tax policies, trade embargoes, import and export license requirements, trade restrictions, greater difficulty collecting accounts receivable, unfamiliarity with local laws and regulations, differing legal standards in enforcing or defending our rights in courts or otherwise, the possibility of less favorable intellectual property protection than is provided in the United States, changes in labor conditions, difficulties in staffing and managing international operations, difficulties in finding personnel locally who are capable of complying with the requirements of reporting by a U.S. reporting company, and other cultural differences. Foreign economies may differ favorably or unfavorably from the United States economy in growth of gross domestic product, rate of inflation, market development, rate of savings, capital investment, resource self-sufficiency and balance of payments positions, and in many other respects.

We expect to experience fluctuations in foreign exchange rates in our overseas operations, which may increase if and as our overseas operations expand.

Our digital media segment engages in business operations involving a wide range of currencies.

Our consolidated financial statements of our operations outside the United States will be translated into U.S. Dollars at the average exchange rates in each applicable period. To the extent that the U.S. Dollar strengthens against foreign currencies, the translation of these foreign currencies denominated transactions will result in reduced revenue,

operating expenses and net income for our international operations. Similarly, to the extent that the U.S. Dollar weakens against foreign currencies, the translation of these foreign currency denominated transactions will result in increased revenue, operating expenses and net income for our international operations.

We are also exposed to foreign exchange rate fluctuations as we convert the financial statements of our foreign operations into U.S. Dollars in consolidation. If there is a change in foreign currency exchange rates, the conversion of financial statements into U.S. Dollars will lead to a translation gain or loss which is recorded as a component of other comprehensive income. In addition, we may have certain assets and liabilities that are denominated in currencies other than the relevant entity's functional currency. Changes in the functional currency value of these assets and liabilities create fluctuations that will lead to a transaction gain or loss.

Some of the countries in which our digital media segment operates, including Mexico, Argentina and Brazil, have experienced significant and sometimes sudden devaluations of their currency over time, which could magnify these fluctuations, should they happen again in the future. Some of the countries in which our digital media segment operates, including Mexico, Argentina and Brazil, have experienced hyper-inflation in the past, which could magnify socioeconomic, geopolitical or financial uncertainties that could affect our operations in such countries.

Additionally, our digital media assets, liabilities, income and costs can change significantly by showing our foreign currency denominated assets and debts converted to amounts in U.S. Dollars, the currency in which we report, and these can also change when financial statements in foreign currencies from our overseas operations are converted to and presented in U.S. Dollars.

We have not entered into agreements or purchased instruments to hedge our exchange rate risks, and it is therefore possible for our consolidated results of operations, including our sales volume in foreign currencies, our cost of revenue in foreign currencies and other items, to be influenced if exchange rates change significantly in one or more of these currencies. While it is possible that we may engage in some exchange rate risk hedging in the future, the availability and effectiveness of any hedging transaction may be limited and we may not be able to successfully hedge our exchange rate risks.

We must comply with the Foreign Corrupt Practices Act.

We are required to comply with the United States Foreign Corrupt Practices Act, which prohibits U.S. companies from engaging in bribery or other prohibited payments to foreign officials for the purpose of obtaining or retaining business. Corruption, extortion, bribery, pay-offs, theft and other fraudulent practices occur from time-to-time in certain countries, including some of the countries in which we operate. If our competitors engage in these practices, they may receive preferential treatment from personnel of some companies, giving our competitors an advantage in securing business or from government officials who might give them priority in obtaining new business, which would put us at a disadvantage. Although we intend to inform our personnel that such practices are illegal, we cannot assure you that our employees or other agents will not engage in such conduct for which we might be held responsible. If our employees or other agents are found to have engaged in such practices, we could suffer severe penalties.

We may have difficulty establishing adequate management, legal and financial controls in some of the countries in which we operate, which difficulties may increase if and as our overseas operations expand.

Certain of the countries in which we operate historically have been deficient in U.S.-style local management and internal financial reporting concepts and practices, as well as in modern banking and other control systems. We may have difficulty in hiring and retaining a sufficient number of locally-qualified employees to work in such countries who are capable of satisfying the obligations of a U.S. public reporting company. As a result of these factors, we may experience difficulty in establishing adequate management, legal and financial controls (including internal controls over financial reporting), collecting financial data and preparing financial statements, books of account and corporate records and instituting business practices in such countries that meet U.S. standards as in effect from time to time.

We may be exposed to certain risks enforcing our legal rights generally in some of the countries in which we operate.

Unlike the United States, most of the countries in which we operate have a civil law system based on written statutes in which judicial decisions have limited precedential value. While we believe that all the countries in which we operate have enacted laws and regulations to deal with economic matters such as corporate organization and governance, foreign investment, intellectual property, commerce, taxation and trade, our experience in interpreting and enforcing our rights under these laws and regulations is limited, and our future ability to enforce commercial claims or to resolve commercial disputes in any of these countries is therefore unpredictable. These matters may be subject to the exercise of considerable discretion by national, provincial or municipal governments, agencies and/or courts, and forces and factors unrelated to the legal merits of a particular matter or dispute may influence their determination.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

On July 13, 2017, our Board of Directors approved a share repurchase of up to \$15 million of our common stock. Under the new share repurchase program, we are authorized to purchase shares from time to time through open

market purchases or negotiated purchases, subject to market conditions and other factors. On the same date, the Board terminated our previous share repurchase program of up to \$20 million of our Company's common stock. Under the previous program, we did not repurchase any shares during the three-month period ended June 30, 2017.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable

ITEM 5. OTHER INFORMATION

None

ITEM 6. EXHIBITS

- 31.1* Certification by the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and Rules 13a-14 and 15d-14 under the Securities Exchange Act of 1934.
- 31.2* Certification by the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and Rules 13a-14 and 15d-14 under the Securities Exchange Act of 1934.
- 32* Certification of Periodic Financial Report by the Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 101.INS* XBRL Instance Document.
