PROSPECTUS SUMMARY

The following is a summary of what we believe to be the most important aspects of our business and the offering of our securities under this prospectus. We urge you to read this entire prospectus, including the more detailed consolidated financial statements, notes to the consolidated financial statements and other information incorporated by reference from our other filings with the SEC or included in any applicable prospectus supplement. Investing in our securities involves risks. Therefore, carefully consider the risk factors set forth in any prospectus supplements and in our most recent annual and quarterly filings with the SEC, as well as other information in this prospectus and any prospectus supplements and the documents incorporated by reference herein or therein, before purchasing our securities. Each of the risk factors could adversely affect our business, operating results and financial condition, as well as adversely affect the value of an investment in our securities.

Overview

We are a leading technology provider of Internet infrastructure through both Colocation Business and Enterprise Services (including network connectivity, IP, bandwidth, and Managed Hosting), and Cloud Services (including enterprise-grade AgileCLOUD 2.0, Bare-Metal Servers, and SMB iWeb platforms). Our global high-capacity network connects 15 company-controlled Tier 3-type data centers in major markets in North America, 34 wholesale partnered facilities, and points of presence in 26 central business districts around the world. We also provide high-power density colocation, low-latency bandwidth, and public and private cloud platforms in an expanding Internet infrastructure industry. We incorporated in Washington in 1996 and reincorporated in Delaware in 2001. Our common stock trades on the Nasdaq Global Market under the symbol “INAP.”

Our Industry

We compete in the large and fast-growing market for Internet infrastructure services (outsourced data center, compute, storage and network services). Three complementary trends are driving demand for Internet infrastructure services: the growth of the digital economy, the outsourcing of information technology (“IT”) and the growth of cloud computing.

The Growth of the Digital Economy

The digital economy continues to impact existing business models with a new generation of networked applications. Widespread adoption of mobile Internet devices combined with rising expectations around the performance and availability of both consumer and business applications places increasing pressure on enterprises to deliver a seamless end-user experience on any device at any time at any location. Simultaneously, Software-as-a-Service models have changed data usage patterns with information traditionally maintained on individual machines and back-office servers now being streamed across the Internet. These applications require new diligence and focus on predictable performance and data security. Finally, the growth of big data analytics is giving rise to a new breed of “fast data” applications that collect and analyze massive amounts of data in real time to drive immediate business decisions – for example, real-time ad bidding platforms and personalized e-commerce portals.

The Outsourcing of IT

While more capacity is being outsourced to public cloud data centers, a growing number of enterprises are also turning to colocation and hosting providers.

As distributed applications, security concerns and compliance issues are placing new burdens on the traditional IT model and driving new costs and complexity, IT organizations are increasingly turning to infrastructure outsourcing to free up valuable internal resources to focus on their core businesses, improve service levels and lower the overall cost of their IT operations. The macro-economic trends over the past several years have led to a reduction of operating and capital budgets. Companies are forced to balance this growing complexity with a cost-cutting culture and staff resource limitations that require they do more with less.

The Growth of Cloud Computing

Cloud computing has yet to make its full impact, and the extent and the form of that impact on enterprise and commercial data centers is still unclear. It will take several years to play out, but we expect demand for on-premises capacity to be offset by the ability to more easily migrate workloads to cloud providers such as us.

The emergence of public cloud Infrastructure-as-a-Service (“IaaS”) offerings has accelerated digital innovation by lowering the barrier to entry for new business creation. IaaS offerings allow new enterprises to procure and pay for infrastructure on an as-needed basis while minimizing upfront operating expenses, reducing complexity and increasing agility.

Although most organizations initially rely on cloud services for non-mission critical workloads, such as testing and development, growing adoption and the maturation of cloud platforms have increased confidence in migrating key business applications to the cloud. This, in turn, has led to a new generation of applications that are being architected from the ground up, to run on standardized public cloud infrastructure.

Our Business

The Internet infrastructure services market comprises a range of offerings that have emerged in response to shifting business and technology drivers. We compete specifically in the markets for retail colocation, hosting and IaaS. Different customer use cases and business requirements dictate the need for specific services or a combination of services.

We provide high-performance Internet infrastructure services that make our customers’ applications faster and more scalable. We offer:

- infrastructure services: customers can mix and match cloud, hosting and colocation for the optimal combination of services to meet specific application and business requirements;
- availability across a global network of data centers;
- patented network services that leverage our proprietary technologies to maximize uptime and minimize latency for customer applications; and
- services backed by service level agreements (“SLAs”) and our team of dedicated support professionals.

Our Segments

Effective January 1, 2016, we changed our organizational structure in an effort to create more effective and efficient business operations and to improve customer and product focus. In that regard, we revised the information that our chief executive officer, who is also our chief operating decision maker, regularly reviews for purposes of allocating resources and assessing performance. As a result, beginning January 1, 2016, we now report our financial performance based on our two new reportable segments, Data Center and Network Services and Cloud and Hosting Services, as follows:

Data Center and Network Services

Our Data Center and Network Services segment consists of colocation and Internet Protocol (“IP”) connectivity services.

Colocation

Colocation involves providing physical space within data centers and associated services such as power, interconnection, environmental controls, monitoring and security while allowing our customers to deploy and manage their servers, storage and other equipment in our secure data centers. We sell our colocation services at 49 data centers across North America, Europe and the Asia-Pacific region. We refer to 15 of these facilities as “company-controlled,” meaning we control the data center operations, staffing and infrastructure and have negotiated long-term leases for the facilities. For company-controlled facilities, in most cases we design the data center infrastructure, procure the capital equipment, deploy the infrastructure and are responsible for the operation and maintenance of the facility. We refer to the remaining 34 data centers as “partner” sites. In these locations, a third party designs and deploys the infrastructure and provides for the operation and maintenance of the facility.

IP Connectivity

IP connectivity includes our patented Performance IP™ service, content delivery network services, IP routing hardware and software platform and Managed Internet Route Optimizer™ Controller. By intelligently routing traffic with redundant, high-speed connections over multiple, major Internet backbones, our IP connectivity provides high-performance and highly-reliable delivery of content, applications and communications to end users globally. We deliver our IP connectivity through 81 IP service points around the world.

Cloud and Hosting Services

Our cloud and hosting services segment consists of hosted Infrastructure-as-a-Service as a cloud platform or via managed hosting. For both Infrastructure-as-a-Service options, we provision and maintain the hardware, data center infrastructure and interconnection, while allowing our customers to own and manage their software applications and content.

Cloud

Cloud services involve providing compute and storage services via an integrated platform that includes servers, storage and network. We built our next generation cloud platform with our high-density colocation, Performance IP service and OpenStack, a leading open source technology for cloud services. Our Cloud offering provides customers with the ability to manage equally virtual and physical servers through an industry standard toolset provided by Openstack-based management and API interfaces. We deliver our cloud services in five locations across North America, Europe and the Asia-Pacific region.

Managed Hosting

Managed hosting involves providing a single tenant infrastructure environment consisting of servers, storage and network. We deliver this customizable infrastructure platform based on enterprise-class technology to support complex application and compliance requirements for our customers. We deliver our managed hosting services in 11 locations across North America, Europe and the Asia-Pacific region.

Data Centers, Private Network Access Points and CDN POPs

Our data centers and private network access points (“P-NAPs”) feature multiple direct high-speed connections to major Internet service providers (“ISPs”). We either have, or operate under third party agreements, data centers, P-NAPs and CDN POPs in some of the largest cities in North America and in select foreign cities.

Risk Factors

Investment in any securities offered pursuant to this prospectus involves risk. You should carefully consider the risk factors incorporated by reference to our most recent Annual Report on Form 10-K, and the other information contained in this prospectus, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended, and the risk factors and other information contained in the applicable prospectus supplement before acquiring any of such securities.

Ratio of Earnings to Fixed Charges

The following table shows our ratio of earnings to fixed charges for each of the periods indicated:

	December 31 , 2016	December 31, 2015	December 31, 2014	December 31, 2013	December 31, 2012
Ratio of earnings to fixed charges (a)(b)	—	—	—	—	0.65

For purposes of computing the above ratios, “earnings” consist of income (loss) from continuing operations before income taxes, noncontrolling interests and cumulative effect of accounting changes, plus fixed charges and the amortization of capitalized interest. “Fixed charges” consist of interest incurred on indebtedness (which does not include interest on income taxes, which is recorded in income taxes), fees and expenses plus one-third of the rental expense from operating leases, which management believes is a reasonable approximation of the interest component of rental expense.

In 2016, 2015, 2014, 2013 and 2012, we incurred losses from operations, and as a result, our earnings were (a) insufficient to cover our fixed charges by \$ 124.4 million, \$52.3 million, \$41.4 million, \$20.3 million and , \$4.1 million, respectively.

We currently do not have any preference securities outstanding related to our consolidated subsidiaries and we did (b) not pay or accrue any preference dividends related to our consolidated subsidiaries during the periods presented above.

Use of Proceeds

We will use the net proceeds from the sale of the securities offered by this prospectus and any prospectus supplement for general corporate purposes, unless otherwise specified in the applicable prospectus supplement. General corporate purposes may include additions to working capital, capital expenditures, refinancing of existing indebtedness, repayment of debt, and financing of possible acquisitions, investments or stock repurchases.

DESCRIPTION OF COMMON STOCK

The following summary of certain provisions of our common stock does not purport to be complete. You should refer to our Restated Certificate of Incorporation, as amended (“Certificate of Incorporation”) and our Amended and Restated Bylaws (“Bylaws”), both of which are included as exhibits to the registration statement of which this prospectus is a part. The summary below is also qualified by provisions of applicable law.

General

Our Certificate of Incorporation provides that we may issue up to 120,000,000 shares of common stock, par value \$0.001 per share. Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Our Certificate of Incorporation does not provide for cumulative voting. All shares of common stock outstanding as of the date of this prospectus and, upon issuance and sale, all shares of common stock that we may offer pursuant to this prospectus, will be fully paid and nonassessable.

Our board of directors is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares of common stock eligible to vote for the election of directors can elect all of the directors standing for election.

In the event of a liquidation, dissolution or winding up of the company, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock. The rights, preferences and privileges of holders of common stock are subject to and may be adversely affected by the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is American Stock Transfer and Trust.

Stock Exchange Listing

Our common stock is quoted for trading on the NASDAQ Global Market under the symbol "INAP."

DESCRIPTION OF PREFERRED STOCK

We are authorized to issue 20,000,000 shares of blank check preferred stock, par value \$0.001 per share. As of the date of this prospectus, no shares of our preferred stock were outstanding or designated. The following summary of certain provisions of our preferred stock does not purport to be complete. You should refer to our Certificate of Incorporation and our Bylaws, both of which are included as exhibits to the registration statement of which this prospectus is a part. The summary below is also qualified by provisions of applicable law.

General

Our board of directors may, without further action by our stockholders, from time to time, direct the issuance of shares of preferred stock in series and may, at the time of issuance, determine the designations, powers, preferences, and rights of each series, including voting rights, dividend rights and redemption and liquidation preferences. Satisfaction of any dividend preferences of outstanding shares of preferred stock would reduce the amount of funds available for the payment of dividends, if any, on shares of our common stock. Holders of shares of preferred stock may be entitled to receive a preference payment in the event of any liquidation, dissolution or winding-up of our company before any payment is made to the holders of shares of our common stock. In some circumstances, the issuance of shares of preferred stock may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of our securities or the removal of incumbent management. Upon the affirmative vote of our board of directors, without stockholder approval, we may issue shares of preferred stock with voting and conversion rights which could adversely affect the holders of shares of our common stock.

Edgar Filing: Internap Corp - Form S-3/A

• voting rights, if any, of the preferred stock;

• a discussion of any material and/or special U.S. federal income tax considerations applicable to the preferred stock;

• the relative ranking and preferences of the preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of the Company; and

• any material limitations on issuance of any class or series of preferred stock ranking pari passu with or senior to the series of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the Company.

Transfer Agent and Registrar

The transfer agent and registrar for our preferred stock will be set forth in the applicable prospectus supplement.

DESCRIPTION OF WARRANTS

DESCRIPTION OF RIGHTS

General

We may issue rights to our stockholders to purchase shares of our common stock, preferred stock or the other securities described in this prospectus. We may offer rights separately or together with one or more additional rights, debt securities, preferred stock, common stock or warrants, as described in the applicable prospectus supplement. Each series of rights will be issued under a separate rights agreement to be entered into between us and a bank or trust company, as rights agent. The rights agent will act solely as our agent in connection with the certificates relating to the rights of the series of certificates and will not assume any obligation or relationship of agency or trust for or with any holders of rights certificates or beneficial owners of rights. The following description sets forth certain general terms

and provisions of the rights to which any prospectus supplement may relate. The particular terms of the rights to which any prospectus supplement may relate and the extent, if any, to which the general provisions may apply to the rights so offered will be described in the applicable prospectus supplement. To the extent that any particular terms of the rights, rights agreement or rights certificates described in a prospectus supplement differ from any of the terms described below, then the terms described below will be deemed to have been superseded by that prospectus supplement. We encourage you to read the applicable rights agreement and rights certificate for additional information before you decide whether to purchase any of our rights.

We will provide in a prospectus supplement the following terms of the rights being issued:

• the date of determining the stockholders entitled to the rights distribution;

• the aggregate number of shares of common stock, preferred stock or other securities purchasable upon exercise of the rights;

• the exercise price;

• the aggregate number of rights issued;

• whether the rights are transferrable and the date, if any, on and after which the rights may be separately transferred;

• the date on which the right to exercise the rights will commence, and the date on which the right to exercise the rights will expire;

• the method by which holders of rights will be entitled to exercise;

• the conditions to the completion of the offering, if any;

• the withdrawal, termination and cancellation rights, if any;

• whether there are any backstop or standby purchaser or purchasers and the terms of their commitment, if any;

• whether stockholders are entitled to oversubscription rights, if any;

• any applicable material U.S. federal income tax considerations; and

• any other terms of the rights, including terms, procedures and limitations relating to the distribution, exchange and exercise of the rights, as applicable.

Each right will entitle the holder of rights to purchase for cash the principal amount of shares of common stock, preferred stock or other securities at the exercise price provided in the applicable prospectus supplement. Rights may be exercised at any time up to the close of business on the expiration date for the rights provided in the applicable prospectus supplement.

Holders may exercise rights as described in the applicable prospectus supplement. Upon receipt of payment and the rights certificate properly completed and duly executed at the corporate trust office of the rights agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the shares of common stock, preferred stock or other securities, as applicable, purchasable upon exercise of the rights. If less than all of the rights issued in any rights offering are exercised, we may offer any unsubscribed securities directly to persons other than stockholders, to or through agents, underwriters or dealers or through a combination of such methods, including pursuant to standby arrangements, as described in the applicable prospectus supplement.

Rights Agent

The rights agent for any rights we offer will be set forth in the applicable prospectus supplement.

General

We may sell the debt securities, including original issue discount securities, at par or at a substantial discount below their stated principal amount. Unless we inform you otherwise in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series or any other series outstanding at the time of issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of securities under the applicable indenture.

We will describe in the applicable prospectus supplement any other special considerations for any debt securities we sell which are denominated in a currency or currency unit other than U.S. dollars. In addition, debt securities may be issued where the amount of principal and/or interest payable is determined by reference to one or more currency exchange rates, commodity prices, equity indices or other factors. Holders of such securities may receive a principal amount or a payment of interest that is greater than or less than the amount of principal or interest otherwise payable on such dates, depending upon the value of the applicable currencies, commodities, equity indices or other factors. Information as to the methods for determining the amount of principal or interest, if any, payable on any date, the currencies, commodities, equity indices or other factors to which the amount payable on such date is linked. Will be described in the applicable prospectus supplement.

United States federal income tax consequences and special considerations, if any, applicable to any such series will be described in the applicable prospectus supplement. Unless we inform you otherwise in the applicable prospectus supplement, the debt securities will not be listed on any securities exchange.

We expect most debt securities to be issued in fully registered form without coupons and in denominations of \$1,000 and any integral multiples of \$1,000 in excess thereof. Subject to the limitations provided in the applicable indenture and in the prospectus supplement, debt securities that are issued in registered form may be transferred or exchanged at the designated corporate trust office of the trustee, without the payment of any service charge, other than any tax or other governmental charge payable in connection therewith.

Global Securities

Unless we inform you otherwise in the applicable prospectus supplement, the debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the applicable prospectus supplement. Global securities will be issued in registered form and in either temporary or definitive form. Unless and until it is exchanged in whole or in part for the individual debt securities, a global security may not be transferred except as a whole by the depositary for such global security to a

nominee of such depositary or by a nominee of such depositary to such depositary or another nominee of such depositary or by such depositary or any such nominee to a successor of such depositary or a nominee of such successor. The specific terms of the depositary arrangement with respect to any debt securities of a series and the rights of and limitations upon owners of beneficial interests in a global security will be described in the applicable prospectus supplement.

Governing Law

The indentures and the corresponding debt securities shall be construed in accordance with and governed by the laws of the State of New York.

DESCRIPTION OF UNITS

General

We may, from time to time, issue units comprised of one or more of the other securities that may be offered under this prospectus, in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time, or at any time before a specified date. Below is a description of certain general terms and provisions of the units that we may offer. Particular terms of the units will be described in the unit agreement and the prospectus supplement relating to the units.

The applicable prospectus supplement will contain, where applicable, the following terms of and other information relating to the units:

- the material terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any material provisions relating to the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;
- any applicable material U.S. federal income tax consequences; and
- any material provisions of the governing unit agreement that differ from those described above.

The terms and conditions described under “Description of Common Stock,” “Description of Preferred Stock,” “Description of Warrants,” “Description of Rights”, and “Description of Debt Securities” will apply to any common stock, preferred stock, warrants, rights or debt securities, as applicable, included in each unit, unless otherwise specified in the applicable prospectus supplement.

Plan of Distribution

We may sell the offered securities through agents, through underwriters or dealers, directly to one or more purchasers or through a combination of any of these methods of sale. We will identify the specific plan of distribution, including any underwriters, dealers, agents or direct purchasers and their compensation in a prospectus supplement.

Legal Matters

The validity of the offered securities will be passed on for the Company by Jenner & Block LLP, Chicago, Illinois.

Item 15. *Indemnification of Directors and Officers*

Section 145(a) of the Delaware General Corporation Law (the “DGCL”) provides that a Delaware corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that such person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Section 145(b) of the DGCL provides that a Delaware corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if he or she acted under similar standards, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to be indemnified for such expenses which the court shall deem proper.

Section 145 of the DGCL further provides that to the extent a former or current director, officer, employee or agent of a corporation has been successful in the defense of any action, suit or proceeding referred to in subsections (a) and (b) or in the defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection therewith; that indemnification provided for by Section 145 shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and that the corporation may purchase and maintain insurance on behalf of a director, officer, employee or agent of the corporation against any liability asserted against him or her or incurred by him or her in any such capacity or arising out of his or her status as such, whether or not the corporation would have the power to indemnify him or her against such liabilities under Section 145.

Article VII of the Certificate of Incorporation provides that the liability of directors of the Company for monetary damages will be eliminated to the fullest extent under applicable law. Article VII does not affect the liability of a director for any breach of his or her duty of loyalty, for acts or omissions not in good faith or that involve intentional misconduct, for any conduct proscribed under Section 174 of the DGCL or for any transaction from which the director derived an improper personal benefit.

In addition, the Company has entered into indemnification agreements with each director and certain officers of the Company. The indemnification agreements indemnify these individuals against all expenses incurred in connection with any action or investigation involving the director or officer by reason of his or her position with the Company (or with another entity at the Company's request). The directors and officers who have entered into indemnification agreements will also be indemnified for costs, including judgments, fines and penalties, indemnifiable under Delaware law or under the terms of any current or future liability insurance policy maintained by the Company that covers the directors and officers. Pursuant to the indemnification agreements, a director or officer involved in a derivative suit will be indemnified for expenses and amounts paid in settlement. Indemnification is dependent in every instance on the director or officer meeting the standards of conduct set forth in the indemnification agreements.

The Company also maintains in force a policy of liability insurance for its directors and officers.

The above discussion of the DGCL, Certificate of Incorporation, Bylaws and indemnification agreements is not intended to be exhaustive and is qualified in its entirety by such statute, the Certificate of Incorporation, Bylaws and indemnification agreements.

Item 17. Undertakings

(a) the undersigned registrant hereby undertakes:

(1) to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (i), (ii) and (iii) do not apply if the registration statement is on Form S-3 and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by a registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934, as amended, that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement;

(2) that, for the purpose of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(3) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;

(4) that, for the purpose of determining liability under the Securities Act of 1933, as amended, to any purchaser:

(A) each prospectus filed by a registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933, as amended, shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to

which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof, *provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; and

II-2

(5) that, for the purpose of determining liability of a registrant under the Securities Act of 1933, as amended, to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, as amended, each filing of registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended, (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934, as amended) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 15 above, or otherwise, the registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by a registrant of expenses incurred or paid by a director, officer or controlling person of a registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, a registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933, as amended, and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes that:

(1) for purposes of determining any liability under the Securities Act of 1933, as amended, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective, and

(2) for the purpose of determining any liability under the Securities Act of 1933, as amended, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(e) The undersigned registrant hereby undertakes to supplement the prospectus, after the expiration of the subscription period, to set forth the results of the subscription offer, the transactions by the underwriters during the subscription period, the amount of unsubscribed securities to be purchased by the underwriters, and the terms of any subsequent reoffering thereof. If any public offering by the underwriters is to be made on terms differing from those set forth on the cover page of the prospectus, a post-effective amendment will be filed to set forth the terms of such offering.

(f) The undersigned registrant hereby undertakes to file an application for the purpose of determining the eligibility of the trustee to act under subsection (a) of section 310 of the Trust Indenture Act ("TIA") in accordance with the rules and regulations prescribed by the Commission under section 305(b)(2) of the TIA.
