We have audited the accompanying statements of net assets available for benefits of the Murphy USA Inc. Savings Plan (the Plan) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing auditing procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. Our audits also included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying Schedule of Assets (Held at End of Year), and Schedule of Delinquent Participant Contributions have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedules, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole.

Murphy USA Inc. Savings Plan
Notes to Financial Statements

1. Summary of Significant Accounting Policies and Provisions of the Plan

Basis of Presentation

The accompanying financial statements of the Murphy USA Inc. Savings Plan [the Plan] have been prepared on the accrual basis and present the net assets available for benefits to participants in the Plan and changes in net assets available for benefits. These statements present the Plan's investments as a beneficial interest in the Master Trust (see Note 2). Benefits are recorded when paid. The Plan has made estimates in preparing the accompanying financial statements in accordance with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncement

In May 2015, the FASB issued Accounting Standards Update ("ASU") 2015-07 - Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification Topic 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, with retrospective application to all periods presented. Early application is permitted. Management has elected to not adopt ASU 2015-07 early. Plan management does not believe this guidance will have a significant impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12-Plan Accounting. The new pronouncement is a three-part standard which (1) designates contract value as the only measurement amount for fully benefit-responsive investments contracts, (2) simplifies and increases effectiveness of plan investment disclosure requirements, and (3) provides employee benefit plans with a measurement-date practical expedient. ASU 2015-12 is effective for years beginning after December 15, 2015. Early application is permitted. Management has elected to not adopt ASU 2015-07 early. The Plan has not completed the process of evaluating the impact that will result from adopting ASU 2015-12 and is therefore unable to disclose the potential impact on the financial statements.

Significant Provisions

The Plan was adopted effective August 31, 2013 to cause the accounts of all Murphy USA employees which were previously held by the Thrift Plan for Employees of Murphy Oil Corporation to be transferred to the Plan for employees of Murphy USA Inc. and its subsidiaries, all of which were 100% vested on the date the assets were transferred to the Plan and its related trust. For new participants vesting service is 100% after completion of one full year of employment for the Discretionary Employer Contribution Accounts and three full years for the Profit Sharing Contribution Accounts.

The Plan assumed sole responsibility for the liabilities with respect to the transferred accounts of such Murphy USA employees.

The Statements of Net Assets Available for Benefits for the Plan contains no assets or liabilities related to Murphy Oil Corporation or its employees.

The following is a summary of certain information related to the Plan, which is sponsored by Murphy USA Inc. [Murphy] and administered by Murphy 's Employee Benefits Committee [the Committee]. The Plan documents should

be referred to for a complete description of the Plan's provisions.

Each employee, except leased or contract employees, of one of the following companies [identified herein collectively as the Companies and individually as the Company] who is in Covered Employment as defined by the Plan may participate in the Plan.

A. Murphy USA Inc.

B. Murphy Oil USA, Inc., a wholly owned subsidiary of Murphy, other than a hourly paid retail store based employee of Murphy Oil USA, Inc.

A participant may have the following Plan accounts to which amounts may be allotted by the participant or contributed by the Company, with limitations as indicated.

A. Salary Deferral Account -participant's allotments up to a maximum of 25% of base pay for the year, but not to exceed \$18,000 annually in 2015.

B. Matching Employer Contribution Account - Company contributions, dollar-for-dollar, based on the participant's allotments (up to 10% of base pay) made to the Salary Deferral Account.

C. Employee Contribution Account - a non-highly paid participant's after-tax allotments up to a maximum of 10% of base pay for the year. If highly paid, no after-tax allotments are allowed.

D. Deductible Contribution Account - participant's allotments to this account have not been allowed after December 31, 1986, but established accounts have been allowed to remain.

E. Minimum 401(k) Contribution Account - participant's allotments to this account have not been allowed after March 31, 1992, but established accounts have been allowed to remain.

F. Rollover Account - contributions made by an employee from a prior qualified plan.

G. Discretionary Employer Contribution Account - Company discretionary contributions began on a quarterly basis beginning January 1, 2000, of similar amounts to each of certain Retail Business store managers for initial investment in the Murphy Stock Fund. A vested participant may redirect this investment to the other options described in Note 3. Participation in this account became frozen as of September 1, 2003. Employees eligible to receive Company discretionary contributions as of September 1, 2003 continued to receive such contributions after this date until their full entitlement was contributed. The last Company discretionary contribution was made as of September 30, 2004.

H. Catch-Up Contribution Account - participant's allotments for all eligible employees who have attained age 50 before the close of the Plan year and are contributing the maximum pre-tax amount permitted by the Plan, up to a maximum of 75% of base pay for the year, but not to exceed \$6,000 for 2015.

I. Discretionary Profit-Sharing Contribution Account - Company discretionary contributions began at the inception of the Plan. Contributions included in the 2015 period ranged from the established percentage rates applied to the pro-rata base pay plus annual bonus of the eligible participants.

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

At the date the assets were transferred to the Plan, all active participants were vested in all Company contributions. Any amounts contributed by the Companies that are forfeited by participants in accordance with

provisions of the Plan are applied to reduce subsequent contributions by the Companies.

A withdrawal from either a Salary Deferral Account or Catch-up Contribution Account is not permissible except upon a finding that a hardship exists as defined by federal tax regulations, upon the attainment of age 59½ or upon termination. After a hardship withdrawal from a Salary Deferral Account, participation in the Salary Deferral Account and Matching Employer Contribution Account is suspended for six months. A withdrawal from a Rollover Account is permitted at any time without any penalty or suspension.

Withdrawals from Employee Contribution Accounts or Deductible Contribution Accounts must be at least \$250 and may not be made until at least 12 months after the most recent such withdrawal. No participation penalty is applied to such a withdrawal.

A withdrawal from a Minimum 401(k) Contribution Account is not permissible except upon termination.

A vested participant may withdraw from a Discretionary Employer Contribution Account under guidelines established by the Committee that are uniformly applicable to all participants.

Any taxable income distributed to a participant may be subject to a 10% penalty tax under the Tax Reform Act of 1986. A \$20 fee is charged for an in-service nonhardship withdrawal.

A vested in-service participant may borrow a minimum of \$500 and a maximum equal to the lesser of (a) \$50,000 less the highest outstanding loan balance(s) in the last twelve months or (b) 50% of their vested account balance. A participant may have one general-purpose loan and one residential loan outstanding at any one time. A residential loan must be approved by the Committee. The term of each loan will be in whole years, with maximums of five years for a general-purpose loan and 15 years for a residential loan. Loan repayments, including interest at the prime rate as of the beginning of the loan period, are made into the participant's account through after-tax payroll deductions. Each loan has a \$35 initiation fee and a \$15 quarterly maintenance fee. Interest rates on outstanding loans at December 31, 2015 range from 3.25% to 8.25%.

Upon retirement, disability, or death of a participant, the participant or his/her designated beneficiary has the option to receive settlement in a lump sum or installment payments over a period of time not to exceed the actuarial life of the participant.

Obligation for Contributions to the Plan

The Companies have voluntarily agreed to make contributions to the Plan based on each participant's allotments to the Salary Deferral Account subject to a maximum of 6% of the participant's regular earnings including overtime. For the period from January 1, 2015 to December 31, 2015 these contributions were \$3,384,451. Although the Companies have not expressed any intent to terminate the Plan, they may do so at any time.

The Companies may make contributions to the Profit Sharing component of the Plan at their discretion. Contributions are determined based on the participant's attained whole years of age and attained whole years of vesting service determined as of the first day of the Plan year. The percentage of compensation to be contributed is determined by the sum of those two numbers. If the sum is (1) less than 50, the applicable rate is 5.0%, (2) 50 but less than 70, the applicable rate is 7.0%, and (3) 70 and higher, the applicable rate is 9.0%. However, these rates shall not apply to a store manager in the marketing service station operations or an employee of any ethanol plant as they are entitled to a profit sharing contribution of 5% of their compensation (base pay plus bonus, excluding overtime, commissions and other forms of extra pay) for the Plan Year. Employees become eligible for the profit sharing contribution after completing one year of vesting service and must be actively employed by Company on the last day of a plan year. For the period from January 1, 2015 to December 31, 2015 these contributions were \$6,008,561 and will be funded in 2016. Therefore, this amount is recorded as a receivable from the Plan sponsor.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares of the Murphy Oil Corporation common stock and Murphy USA Inc. common stock allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any shares for which instructions have not been given by the participant.

Administrative Expenses

Murphy pays certain costs of Plan administration. Trustee fees and related expenses will be paid by either the Plan or by participants' fees.

Plan Termination

Although it has not expressed an intention to do so, Murphy USA Inc. has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Basis of Accounting

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value relating to the investment contracts (Note 2). The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Master Trust Net Assets

The assets of the Plan are commingled in a Master Trust with the assets of another plan sponsored by Murphy USA Inc. Fidelity Management Trust Company [FMTTC], Boston, Massachusetts, is the Trustee. The Master Trust had no nonparticipant-directed investments related to the Plan.

The Master Trust for Murphy USA Inc. was established August 31, 2013, concurrent with the separation from Murphy Oil Corporation. Assets for the Plan were held in the Master Trust for Murphy Oil Corporation prior to the transfer of the assets on September 7, 2013.

The following table presents the net assets of the Master Trust at December 31, 2015 and 2014 by type of investment.

The beneficial interests of the participating plans in the net investment income of the Master Trust net assets for the year ended December 31, 2015 is as follows.

Plan Name

Murphy USA Inc. Savings Plan	\$(3,806,777)
Murphy USA Inc. Profit Sharing Plan	(16,050)
Net investment income	\$(3,822,827)

The beneficial interests of the participating plans in the net assets of the Master Trust and the net investment income of the Master Trust are allocated in accordance with each participant's account balance. Quoted market prices are used to determine the fair value of investments in the registered investment companies and the common stock. Participant loans receivable are valued at cost plus accrued interest, which approximates fair value. Purchases and sales of securities are recorded on a trade date basis. Interest is recorded as earned and dividends are recorded on the ex-dividend date. Net appreciation in market value of common stock and registered investment companies includes realized gains (losses) and unrealized appreciation (depreciation) in the fair value of these investments.

The Plan invests in a benefit-responsive investment contract with FMTC. FMTC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. As described in Note 1, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by FMTC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The guaranteed investment contract does not permit the insurance companies or financial institutions to terminate the agreement prior to the scheduled maturity date.

*The investment amount is not included as the value did not meet the 5% or more beneficial interest of the participating plans as of the December 31 in the respective year.

3. Investment Options

Each Plan participant may invest contributions in one or more of 25 investment options within the Master Trust. The following paragraphs briefly describe each of these options. A participant determines how each of his/her accounts is divided among the different options, but any division of a participant's allotment and Company contributions must be in whole percentages. Account balance transfers must be a minimum of 1% of the account balance.

Stock of Murphy Oil Corporation [MOC] is the common stock of Murphy Oil Corporation. A participant withdrawing from MOC may elect to receive either cash or Murphy Oil stock. If the participant elects to receive stock, the value of his/her MOC withdrawal is converted to equivalent shares of stock based on the market price at the effective date of withdrawal, and the participant receives the whole shares and cash for any fractional share. Prior to the separation from Murphy Oil Corporation on August 30, 2013, the investments in this option were held in a unitized fund which was converted to common stock.

Stock of Murphy USA Inc. [MUSA], is the common stock of Murphy USA Inc. A participant withdrawing from MUSA may elect to receive either cash or Murphy USA stock. If the participant elects to receive stock, the value of his/her MUSA withdrawal is converted to equivalent shares of stock based on the market price at the effective date of the withdrawal, and the participant receives the whole shares and cash for any fractional share.

The Managed Income Portfolio I [MIP I] is managed by FMTC and has investment contracts with major insurance companies and other approved financial institutions and in certain fixed-income securities; a small portion of MIP I is invested in a money market fund for daily liquidity. The goal of MIP I is to preserve investment principal and try to maintain a stable \$1.00 unit price while earning interest income. Investment contracts held by MIP I pay a specified

rate of interest and repay principal upon maturity. Participant withdrawals and investment option transfers are paid at book value (principal and interest accrued to date) on the contracts.

The Fidelity Fund [FFIDX] is a growth and income mutual fund managed by Fidelity Management & Research Company [FMRC], Boston, Massachusetts, an affiliate of FMTC. The goal of the Fidelity Fund is to provide long-term capital growth. It invests primarily in common stock and securities convertible into common stock; some assets may be invested in a broad range of domestic and foreign equity and debt securities.

The Fidelity Balanced Fund [FBF], also managed by FMRC, is a mutual fund that has a balanced portfolio of U.S. and international stocks and bonds and may include futures and options. The goal of FBF is to provide as much income as possible while preserving capital and considering the potential for capital growth. At least 25% of the portfolio must be investment-grade debt securities and preferred stocks.

The Fidelity Capital Appreciation Fund [FDCAX] managed by FMRC is a growth and or value mutual fund that invests primarily in common stocks. The fund may invest in securities of domestic and foreign issuers. The goal of FDCAX is to provide capital appreciation.

The Fidelity Diversified International Fund [FDIF] managed by FMRC is a growth mutual fund that invests in common stocks of foreign companies. The goal of FDIF is to increase its value over the long term through capital growth. If a participant invests in this option and holds it for less than 30 days, the fund will deduct a trading fee of 1% of the ending value of FDIF shares sold.

The Fidelity Freedom Income Fund [FFIF] managed by Strategic Advisers, Inc., is an asset allocation mutual fund that invests approximately 15% of its assets in domestic equity funds, 5% in international equity funds, 35% in investment grade fixed income funds, 5% in high yield fixed income funds and 40% in short-term funds. The goal of the FFIF is to provide high current income and capital appreciation for those already in retirement.

The Company offers eleven separate Fidelity Freedom Funds with target retirement dates in five-year increments ranging from 2010 to 2055. The Freedom Fund family is managed by Strategic Advisers, Inc., and comprises asset allocation mutual funds that primarily invest in a combination of domestic and international equity funds, investment grade and high yield fixed income funds and short-term mutual funds. The Freedom Funds are designed to target an investor's anticipated retirement date, and the asset allocation mix becomes increasingly conservative over time as the target retirement date approaches.

The Pimco Total Return Fund [PTRF] is an income mutual fund managed by Pacific Investment Management Company that normally invests at least 65% of its total assets in a diversified portfolio of fixed income instruments of varying maturities. It invests primarily in investment-grade debt securities, but may invest up to 10% of total assets in high-yield securities.

Davis New York Venture Fund Class A [NYVTX] is a value mutual fund managed by Davis Selected Advisors, L.P. The fund invests principally in common stocks of companies with market capitalization of at least \$10 billion. The goal of NYVTX is to provide long-term capital growth.

The CRM Mid Cap Value Fund Class Investor [CRMMX] is a mid-cap mutual fund that invests at least 80% of its total assets in equity and equity related securities of U.S. and non-U.S. companies between the capitalization of the smallest and largest companies in the Russell Midcap® Value Index at the time of purchase. The goal of the CRMMX is to provide long-term capital appreciation.

The Royce Low-Priced Stock Fund [RYLPX] managed by Royce and Associates, LLC, is a small and micro-cap blend mutual fund that normally invests 80% of its net assets in low-priced equity securities. Although the fund

Edgar Filing: Murphy USA Inc. - Form 11-K

normally focuses on the securities of U.S. companies, it may invest up to 35% of its net assets in foreign securities. The goal of RYLPX is to provide long-term capital growth.

The Spartan Extended Market Index Fund-Fidelity Advantage Class [FSEVX] is an index mutual fund managed by FMRC. At least 80% of its assets are invested in common stocks included in the Dow Jones U.S. Completion Total Stock Market Index, which represents the performance of stocks of small to mid-cap U.S. companies. The goal of FSEVX is to provide investment results that correspond to the total returns of stocks of such companies. If a participant invests in this option and holds it for less than 90 days, the fund will deduct a trading fee of 0.75% of the value of FSEVX shares sold.

The Spartan 500 Index Fund Fidelity Advantage Class [FUSVX] is an index mutual fund that normally invests at least 80% of its assets in common stocks included in the S&P 500® Index, which broadly represents the performance of common stocks traded in the U.S. The goal of FUSVX is to provide investment results that correspond to the total return performance of common stocks publicly traded in the U.S. Valuations of individual participants' investments in each investment option and of the total beneficial interest of the Plan are determined by Fidelity Investments Institutional Operations Company, Inc.

4. Plan Investments

The following table represents the fair value of the Plan's interest in the individual investment funds held under the Murphy USA Inc. Master Trust which exceed 5% of the Plan's net assets as of December 31, 2015 and 2014.

Fidelity Freedom Fund 2040	3,203,222	*
Fidelity Fund	3,776,394	3,257,016

*The investment amount is not included as the value did not meet the 5% or more beneficial interest of the participating plans as of the December 31 in the respective year.

5. Risk and Uncertainties

The Plan, through its investment in the Master Trust, provides for investment in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

At December 31, 2015, the Master Trust had significant concentrations of credit risk in the Murphy Oil Corporation common stock, the Murphy USA Inc. common stock, the Managed Income Portfolio I (MIP I), the Fidelity Freedom 2025 Fund, the Fidelity Freedom 2030 Fund, the Fidelity Freedom 2040 Fund, and the Fidelity Fund. MIP I is a common/collective trust sponsored by FMTC. The Freedom Fund 2025, Freedom Fund 2030, Freedom Fund 2040 and the Fidelity Fund are established mutual funds sponsored by a highly regarded investment management company. Historically, the Master Trust has not incurred any credit-related losses.

6. Related Party Transactions

Fidelity Investments Institutional Operations Company, Inc. [FIIOC] handles record keeping and administration of the Plan and the Master Trust. Certain of the Plan's investment options are in mutual funds managed by Fidelity Management & Research Company [FMRC]. FIIOC and FMRC are both affiliates of Fidelity Management Trust Company [FMTC], who is the Trustee for the Plan and also manages the Managed Income Portfolio I. FMRC's fees were deducted from the earnings of the mutual funds it manages. Total trustee and administrative fees paid from the Master Trust in the 2015 period were \$27,135. The Master Trust paid \$17,338 in trustee and administrative fees to FMTC and FIIOC in 2015 for the Savings Plan and also \$9,797 for the other plan included in the Master Trust. In addition, the Plan provides for investment in Murphy USA Inc. and Murphy Oil Corporation common stock and participant loans, which also qualify as party-in-interest transactions. These transactions are covered by exemptions from the "prohibited transactions" provisions of ERISA and the Internal Revenue Code of 1986, as amended.

7. Income Taxes

The Committee believes that the Plan meets the necessary requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended, and accordingly, that the related Master Trust is exempt from taxation under the provisions of Section 501(a) of the Internal Revenue Code of 1986, as amended. As a Cycle "A" filer, Murphy USA has opted to request a new determination letter from the IRS when the next cycle opens (which will begin in the year 2016). Until cash or shares are withdrawn from the Plan by a participant or a participant's beneficiary, no income tax is payable by the participant/beneficiary on: contributions made by the Company on the participant's behalf, allotments made by the participant pursuant to the Economic Recovery Tax Act of 1981, or the participant's proportional share of the investment income of the Master Trust.

8. Assets at Fair Value

The Company carries certain assets at fair value in its Statements of Net Assets Available for Benefits.

The fair value hierarchy is based on the quality of inputs used to measure fair value, with Level 1 being the highest quality and Level 3 being the lowest quality. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying Statement of Net Assets Available for Benefits, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include common stock and mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include common/collective trust. The common/collective trust's fair value is determined by estimated cash flows less surrender charges. In certain cases where Level 1 or Level 2 inputs are not available, securities or other investments would be classified within Level 3 of the hierarchy. There are no level 3 investments.

There are no assets or liabilities measured at fair value on a nonrecurring basis.
