Form 10-Q
July 20, 2016

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-13251

SLM Corporation
(Exact name of registrant as specified in its charter)

Delaware 52-2013874
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

300 Continental Drive, Newark, Delaware 19713
(Address of principal executive offices) (Zip Code)
(302) 451-0200

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during

Edgar Filing: SLM CORP - Form 10-Q

the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Class	Outstanding at June 30, 2016
-------	------------------------------

Common Stock, \$0.20 par value	428,077,791 shares

SLM CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, unless otherwise noted)

1. Significant Accounting Policies

Basis of Presentation

The accompanying unaudited, consolidated financial statements of SLM Corporation (“Sallie Mae,” “SLM,” the “Company,” “we,” or “us”) have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) for interim financial information. Accordingly, they do not include all the information and footnotes required by GAAP for complete consolidated financial statements. The consolidated financial statements include the accounts of SLM Corporation and its majority-owned and controlled subsidiaries after eliminating the effects of intercompany accounts and transactions. In the opinion of management, all adjustments considered necessary for a fair statement of the results for the interim periods have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Operating results for the three and six months ended June 30, 2016 are not necessarily indicative of the results for the year ending December 31, 2016 or for any other period. These unaudited financial statements should be read in conjunction with the audited financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2015 (the “2015 Form 10-K”).

Consolidation

The consolidated financial statements include the accounts of the Company and its majority-owned and controlled subsidiaries after eliminating the effects of intercompany accounts and transactions.

We consolidate any variable interest entity (“VIE”) where we have determined we are the primary beneficiary. The primary beneficiary is the entity which has both: (1) the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and (2) the obligation to absorb losses or receive benefits of the entity that could potentially be significant to the VIE.

Recently Issued but Not Yet Adopted Accounting Pronouncements

On February 25, 2016, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) No. 2016-02, “Leases,” a comprehensive new lease standard which will supersede previous lease guidance. The standard requires a lessee to recognize in its balance sheet assets and liabilities related to long-term leases that were classified as operating leases under previous guidance. An asset will be recognized related to the right to use the underlying asset and a liability will be recognized related to the obligation to make lease payments over the term of the lease. The standard also requires expanded disclosures surrounding leases. The standard is effective for fiscal periods beginning after December 15, 2018, and requires modified retrospective adoption, with early adoption permitted. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements and related disclosures.

On March 30, 2016, the FASB issued ASU No. 2016-09, “Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting,” which amends the current stock compensation guidance. The amendments simplify the accounting for the taxes related to stock based compensation, including adjustments to how excess tax benefits and a company’s payments for tax withholdings should be classified. The standard is effective for fiscal periods beginning after December 15, 2016, with early adoption permitted. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements.

On June 16, 2016, the FASB issued ASU No. 2016-13, “Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments,” which requires measurement and recognition of expected credit losses for financial assets held. Under this standard, we will be required to hold an allowance equal to the expected life-of-loan

losses on our loan portfolio. The standard is effective for fiscal periods beginning after December 15, 2019. While we are currently evaluating the impact of our pending adoption of this standard on our consolidated financial statements, we do expect the adoption to have a material impact on our financial statements.

SLM CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, unless otherwise noted)

2. Loans Held for Investment

Loans Held for Investment consist of Private Education Loans and FFELP Loans. We use “Private Education Loans” to mean education loans to students or their families that are not made, insured or guaranteed by any state or federal government. Private Education Loans do not include loans insured or guaranteed under the previously existing Federal Family Education Loan Program (“FFELP”).

Our Private Education Loans are made largely to bridge the gap between the cost of higher education and the amount funded through financial aid, government loans and customers’ resources. Private Education Loans bear the full credit risk of the customer. We manage this risk through risk-performance underwriting strategies and qualified cosigners. Private Education Loans generally carry a variable rate indexed to LIBOR. As of June 30, 2016, 81 percent of all of our Private Education Loans were indexed to LIBOR. We provide incentives for customers to include a cosigner on the loan, and the vast majority of loans in our portfolio are cosigned. We also provide total cost incentives for customers to make payments while in school.

FFELP Loans are insured as to their principal and accrued interest in the event of default subject to a Risk Sharing level based on the date of loan disbursement. These insurance obligations are supported by contractual rights against the United States. For loans disbursed on or after July 1, 2006, we receive 97 percent reimbursement on all qualifying claims. For loans disbursed after October 1, 1993, and before July 1, 2006, we receive 98 percent reimbursement on all qualifying claims. For loans disbursed prior to October 1, 1993, we receive 100 percent reimbursement on all qualifying claims.

Loans held for investment are summarized as follows:

	June 30, 2016	December 31, 2015
Private Education Loans	\$12,290,709	\$10,596,437
Deferred origination costs	35,212	27,884
Allowance for loan losses	(142,628)	(108,816)
Total Private Education Loans, net	12,183,293	10,515,505
FFELP Loans	1,061,517	1,115,663
Unamortized acquisition costs, net	2,913	3,114
Allowance for loan losses	(2,297)	(3,691)
Total FFELP Loans, net	1,062,133	1,115,086
Loans held for investment, net	\$13,245,426	\$11,630,591

The estimated weighted average life of education loans in our portfolio was approximately 6.0 years and 6.2 years at June 30, 2016 and December 31, 2015, respectively.

3. Allowance for Loan Losses

Our provision for loan losses represents the periodic expense of maintaining an allowance sufficient to absorb incurred probable losses in the held-for-investment loan portfolios. The evaluation of the allowance for loan losses is inherently subjective, as it requires material estimates that may be susceptible to significant changes. We believe the allowance for loan losses is appropriate to cover probable losses incurred in the loan portfolios.

3. Allowance for Loan Losses (Continued)

Troubled Debt Restructurings (“TDRs”)

All of our loans are collectively assessed for impairment, except for loans classified as TDRs (where we conduct individual assessments of impairment). We modify the terms of loans for certain borrowers when we believe such modifications may increase the ability and willingness of a borrower to make payments and thus increase the ultimate overall amount collected on a loan. These modifications generally take the form of a forbearance, a temporary interest rate reduction or an extended repayment plan. The majority of our loans that are considered TDRs involve a temporary forbearance of payments and do not change the contractual interest rate of the loan. Approximately 24 percent and 23 percent of the loans granted forbearance as of June 30, 2016 and December 31, 2015, respectively, have been classified as TDRs due to their forbearance status. For additional information, see Note 6, “Allowance for Loan Losses” in our 2015 Form 10-K.

Within the Private Education Loan portfolio, loans greater than 90 days past due are considered to be nonperforming. FFELP Loans are at least 97 percent guaranteed as to their principal and accrued interest by the federal government in the event of default and, therefore, we do not deem FFELP Loans as nonperforming from a credit risk perspective at any point in their life cycle prior to claim payment, and continue to accrue interest on those loans through the date of claim.

At June 30, 2016 and December 31, 2015, all of our TDR loans had a related allowance recorded. The following table provides the recorded investment, unpaid principal balance and related allowance for our TDR loans.

	Recorded Investment	Unpaid Principal Balance	Allowance
June 30, 2016			
TDR Loans	\$ 406,152	\$400,969	\$ 63,370
December 31, 2015			
TDR Loans	\$ 269,628	\$265,831	\$ 43,480

The following table provides the average recorded investment and interest income recognized for our TDR loans.

Key Credit Quality Indicators

For Private Education Loans, the key credit quality indicators are FICO scores, the existence of a cosigner, the loan status and loan seasoning. The FICO scores are assessed at original approval and periodically refreshed/updated through the loan's term. The following table highlights the gross principal balance of our Private Education Loan portfolio stratified by key credit quality indicators.

Credit Quality Indicators:	Private Education Loans Credit Quality Indicators		December 31, 2015

4. Deposits

The following table summarizes total deposits at June 30, 2016 and December 31, 2015.

	June 30, 2016	December 31, 2015
Deposits - interest bearing	\$11,898,925	\$11,487,006
Deposits - non-interest bearing	1,158	701
Total deposits	\$11,900,083	\$11,487,707

Interest Bearing

Interest bearing deposits as of June 30, 2016 and December 31, 2015 consisted of non-maturity savings and money market deposits (“MMDAs”), brokered and retail certificates of deposit (“CDs”), and brokered MMDAs. Included in these accounts are what we consider to be core deposits from various sources. Our deposit products are serviced by third-party providers. Placement fees associated with the brokered CDs are amortized into interest expense using the effective interest rate method. We recognized placement fee expense of \$2.6 million and \$2.7 million in the three months ended June 30, 2016 and 2015, respectively, and placement fee expense of \$5.2 million and \$5.4 million in the six months ended June 30, 2016 and 2015, respectively. Fees paid to third-party brokers related to brokered CDs were \$0.1 million for the three months ended June 30, 2016 and \$2.9 million for the six months ended June 30, 2016. There were no such fees paid in the three and six months ended June 30, 2015.

Interest bearing deposits at June 30, 2016 and December 31, 2015 are summarized as follows:

	June 30, 2016		December 31, 2015	
	Amount	Qtr.-End Weighted Average Stated Rate ⁽¹⁾	Amount	Year-End Weighted Average Stated Rate ⁽¹⁾
Money market	\$5,216,901	1.23 %	\$4,886,299	1.19 %
Savings	666,918	0.82	669,254	0.82
Certificates of deposit	6,015,106	1.19	5,931,453	0.98
Deposits - interest bearing	\$11,898,925		\$11,487,006	

⁽¹⁾ Includes the effect of interest rate swaps in effective hedge relationships.

As of June 30, 2016 and December 31, 2015, there were \$306.2 million and \$709.9 million, respectively, of deposits exceeding Federal Deposit Insurance Corporation (“FDIC”) insurance limits. Accrued interest on deposits was \$17.8 million and \$15.7 million at June 30, 2016 and December 31, 2015, respectively.

Non-Interest Bearing

Non-interest bearing deposits were \$1.2 million and \$0.7 million as of June 30, 2016 and December 31, 2015, respectively. For both periods, these were comprised of money market accounts related to our Employee Stock

Purchase Plan account.

5. Borrowings

Outstanding borrowings consist of secured borrowings issued through our term asset-backed securitization (“ABS”) program and our asset-backed commercial paper (“ABCP”) funding facility (the “ABCP Facility”). The following table summarizes our secured borrowings at June 30, 2016 and December 31, 2015.

	June 30, 2016		December 31, 2015		
	Short-Term	Total	Short-Term	Long-Term	Total
Secured borrowings:					
Private Education Loan term securitization	\$-1,038,029	\$1,038,029	\$—	\$579,101	\$579,101
ABCP Facility	—	—	500,175	—	500,175
Total	\$-1,038,029	\$1,038,029	\$500,175	\$579,101	\$1,079,276

Short-term Borrowings

Asset-Backed Commercial Paper Funding Facility

On December 19, 2014, we closed on a \$750.0 million ABCP Facility. We retained a 5 percent or \$37.5 million participation interest in the ABCP Facility, resulting in \$712.5 million of funds available for us to draw under the ABCP Facility. During 2015, we incurred financing costs under the ABCP Facility of approximately 0.40 percent on average on unused borrowing capacity and approximately 3-month LIBOR plus 0.80 percent on outstandings under the ABCP Facility.

On February 25, 2016, we amended and extended the maturity of our ABCP Facility. The amended ABCP Facility is a \$750.0 million ABCP Facility, in which we no longer hold a participation interest. As a result, the full \$750.0 million is available for us to draw. We hold 100 percent of the residual interest in the ABCP Facility trust. Under the amended ABCP Facility, we incur financing costs of between 0.35 percent and 0.45 percent on unused borrowing capacity and approximately 3 month LIBOR plus 1.00 percent on outstandings. The amended ABCP Facility extends the revolving period, during which we may borrow, repay and reborrow funds, until February 23, 2017. The scheduled amortization period, during which amounts outstanding under the ABCP Facility must be repaid, ends on February 23, 2018 (or earlier, if certain material adverse events occur). At June 30, 2016, there were no outstanding balances and no encumbered Private Education Loans under the ABCP Facility.

Short-term borrowings have a remaining term to maturity of one year or less. The ABCP Facility's contractual maturity is two years from the date of inception or renewal (one year revolving period plus a one year amortization period); however, we classify advances under our ABCP Facility as short-term borrowings because it is our intention to repay those advances within one year.

5. Borrowings (Continued)

Long-term Borrowings

On May 26, 2016, we executed our \$551 million SMB Private Education Loan Trust 2016-A term ABS transaction, which was accounted for as an on-balance sheet secured financing. We retained a 100 percent or \$50 million interest in the Class B notes and 100 percent of the residual certificates issued in the securitization. \$501 million of Class A notes from the securitization were sold to third parties, raising \$501 million of gross proceeds. The Class A notes had a weighted average life of 4.01 years and priced at a weighted average LIBOR equivalent cost of 1-month LIBOR plus 1.38 percent. At June 30, 2016, \$583 million of our Private Education Loans were encumbered as a result of this transaction.

Secured Financings at Issuance

Issue	Date Issued	Total	Weighted Average Cost of Funds ⁽¹⁾	Weighted Average Life
Private Education:

⁽¹⁾ Represents LIBOR equivalent cost of funds for floating and fixed rate bonds, excluding issuance costs.

Consolidated Funding Vehicles

We consolidate our financing entities that are VIEs as a result of our being the entities' primary beneficiary. As a result, these financing VIEs are accounted for as secured borrowings. We consolidate the following financing VIEs as of June 30, 2016 and December 31, 2015, respectively:

(1) Other assets primarily represent accrued interest receivable.

Other Borrowing Sources

We maintain discretionary uncommitted Federal Funds lines of credit with various correspondent banks, which totaled \$100 million at June 30, 2016. The interest rate we are charged on these lines of credit is priced at Fed Funds plus a spread at the time of borrowing, and is payable daily. We did not utilize these lines of credit in the three and six months ended June 30, 2016 and in the year ended December 31, 2015.

We established an account at the Federal Reserve Bank (“FRB”) to meet eligibility requirements for access to the Primary Credit borrowing facility at the FRB’s Discount Window (the “Window”). The Primary Credit borrowing facility is a lending program available to depository institutions that are in generally sound financial condition. All borrowings at the Window must be fully collateralized. We can pledge to the FRB asset-backed and mortgage-backed securities, as well as FFELP Loans and Private Education Loans, as collateral for borrowings at the Window.

Generally, collateral value is assigned based on the estimated fair value of the pledged assets. At June 30, 2016 and December 31, 2015, the value of our pledged collateral at the FRB totaled \$2.8 billion and \$1.7 billion, respectively. The interest rate charged to us is the discount rate set by the FRB. We did not utilize this facility in the three and six months ended June 30, 2016 and in the year ended December 31, 2015.

SLM CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, unless otherwise noted)

6. Private Education Loan Term Securitizations

We securitize Private Education Loan assets by selling these assets to securitization trusts. If a transfer of loans qualifies as a sale, we derecognize the loan and recognize a gain or loss as the difference between compensation received and the carrying basis of the loans sold and liabilities retained. We recognize the results of a transfer of loans based upon the settlement date of the transaction. If we have a variable interest in a VIE (e.g., a securitization trust) and have determined that we are the primary beneficiary, then we will consolidate the VIE and the transfer is accounted for as a financing as opposed to a sale.

On May 26, 2016, we executed a \$551 million Private Education Loan Trust term ABS transaction that was accounted for as a secured financing. We retained a 100 percent or \$50 million interest in the Class B notes and 100 percent of the residual certificates issued in the securitization. \$501 million of Class A notes from the securitization were sold to third parties, raising \$501 million of gross proceeds. At June 30, 2016, \$583 million of our Private Education Loans were encumbered as a result of this transaction.

7. Derivative Financial Instruments

We maintain an overall interest rate risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest rate changes. Our goal is to manage interest rate sensitivity by modifying the repricing frequency and underlying index characteristics of certain balance sheet liabilities so any adverse impacts related to movements in interest rates are managed within low to moderate limits. As a result of interest rate fluctuations, hedged liabilities will appreciate or depreciate in market value or create variability in cash flows. Income or loss on the derivative instruments linked to the hedged item will generally offset the effect of this unrealized appreciation or depreciation or volatility in cash flows for the period the item is being hedged. We view this strategy as a prudent management of interest rate risk. Please refer to Note 11, "Derivative Financial Instruments" in our 2015 Form 10-K for a full discussion of our risk management strategy.

Although we use derivatives to reduce the risk of interest rate changes, the use of derivatives does expose us to both market and credit risk. Market risk is the chance of financial loss resulting from changes in interest rates and market liquidity. Credit risk is the risk that a counterparty will not perform its obligations under a contract and it is limited to the loss of the fair value gain in a derivative that the counterparty owes us less collateral held and/or plus collateral posted. When the fair value of a derivative contract less collateral held and/or plus collateral posted is negative, we owe the counterparty and, therefore, we have no credit risk exposure to the counterparty; however, the counterparty has exposure to us. We minimize the credit risk in derivative instruments by entering into transactions with highly rated counterparties that are reviewed regularly by our Credit Department. We also maintain a policy of requiring that all derivative contracts be governed by an International Swaps and Derivatives Association, Inc. Master Agreement. Depending on the nature of the derivative transaction, bilateral collateral arrangements are required as well. When we have more than one outstanding derivative transaction with the counterparty, and there exists legally enforceable netting provisions with the counterparty (i.e., a legal right to offset receivable and payable derivative contracts), the "net" mark-to-market exposure, less collateral held and/or plus collateral posted, represents exposure with the counterparty. When there is a net negative exposure, we consider our exposure to the counterparty to be zero. Title VII of the Dodd-Frank Act requires all standardized derivatives, including most interest rate swaps, to be submitted for clearing to central counterparties to reduce counterparty risk. As of June 30, 2016, \$5.5 billion notional of our derivative contracts were cleared on the Chicago Mercantile Exchange and the London Clearing House. All derivative contracts cleared through an exchange require collateral to be exchanged based on the fair value of the derivative. Our exposure is limited to the value of the derivative contracts in a gain position less any collateral held and plus any collateral posted. When there is a net negative exposure, we consider our exposure to the counterparty to be zero. At June 30, 2016 and December 31, 2015, we had a net positive exposure (derivative gain positions to us, less collateral held by us and plus collateral posted with counterparties) related to derivatives of \$55.8 million and \$50.1 million, respectively.

7. Derivative Financial Instruments (Continued)

Summary of Derivative Financial Statement Impact

The following tables summarize the fair values and notional amounts of all derivative instruments at June 30, 2016 and December 31, 2015, and their impact on earnings and other comprehensive income for the three and six months ended June 30, 2016 and 2015. Please refer to Note 11, "Derivative Financial Instruments" in our 2015 Form 10-K for a full discussion of cash flow hedges, fair value hedges, and trading activities.

Impact of Derivatives on the Consolidated Balance Sheet

Fair Values ⁽¹⁾	Hedged Risk Exposure	Cash Flow Hedges		Fair Value Hedges		Trading		Total	
		June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015
Derivative Assets: ⁽²⁾									
Interest rate swaps	Interest rate	\$—	\$—	\$63,371	\$15,231	\$1,745	\$83	\$65,116	\$15,314
Derivative Liabilities: ⁽²⁾									
Interest rate swaps	Interest rate	(60,892)	(27,512)	—	(2,339)	—	(646)	(60,892)	(30,497)
Total net derivatives		\$(60,892)	\$(27,512)	\$63,371	\$12,892	\$1,745	\$(563)	\$4,224	\$(15,183)

Fair values reported are exclusive of collateral held and pledged and accrued interest. Assets and liabilities are presented without consideration of master netting agreements. Derivatives are carried on the balance sheet based on net position by counterparty under master netting agreements, and classified in other assets or other liabilities depending on whether in a net positive or negative position.

The following table reconciles gross positions with the impact of master netting agreements to the balance sheet classification:

	Other Assets		Other Liabilities	
	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015
Gross position ⁽¹⁾	\$65,116	\$15,314	\$(60,892)	\$(30,497)
Impact of master netting agreement	(16,173)	(9,278)	16,173	9,278
Derivative values with impact of master netting agreements (as carried on balance sheet)	48,943	6,036	(44,719)	(21,219)
Cash collateral (held) pledged	(16,659)	(1,070)	53,555	54,845
Net position	\$32,284	\$4,966	\$8,836	\$33,626

(1)Gross position amounts are exclusive of accrued interest.

Cash Collateral

Cash collateral held related to derivative exposure between the Company and its derivatives counterparties was \$16.7 million and \$1.1 million at June 30, 2016 and December 31, 2015, respectively. Collateral held is recorded in “Other Liabilities” on the consolidated balance sheets. Cash collateral pledged related to derivative exposure between the Company and its derivatives counterparties was \$53.6 million and \$54.8 million at June 30, 2016 and December 31, 2015, respectively. Collateral pledged is recorded in “Other interest-earning assets” on the consolidated balance sheets.

9. Earnings per Common Share

Basic earnings per common share ("EPS") are calculated using the weighted average number of shares of common stock outstanding during each period. A reconciliation of the numerators and denominators of the basic and diluted EPS calculations follows.

(In thousands, except per share data)	Three Months Ended		Six Months Ended	
	June 30, 2016	2015	June 30, 2016	2015
Numerator:				
Net income	\$57,205	\$91,016	\$123,120	\$138,715
Preferred stock dividends	5,243	4,870	10,382	9,693
Net income attributable to SLM Corporation common stock	\$51,962	\$86,146	\$112,738	\$129,022
Denominator:				
Weighted average shares used to compute basic EPS	427,942	425,688	427,526	425,061
Effect of dilutive securities:				
Dilutive effect of stock options, restricted stock and restricted stock units and Employee Stock Purchase Plan ("ESPP") ⁽¹⁾⁽²⁾	3,854	7,054	3,823	7,462
Weighted average shares used to compute diluted EPS	431,796	432,742	431,349	432,523
Basic earnings per common share attributable to SLM Corporation	\$0.12	\$0.20	\$0.26	\$0.30
Diluted earnings per common share attributable to SLM Corporation	\$0.12	\$0.20	\$0.26	\$0.30

⁽¹⁾ Includes the potential dilutive effect of additional common shares that are issuable upon exercise of outstanding stock options, restricted stock, restricted stock units, and the outstanding commitment to issue shares under the ESPP, determined by the treasury stock method.

⁽²⁾ For the three months ended June 30, 2016 and 2015, securities covering approximately 1 million and 2 million shares, respectively, and for the six months ended June 30, 2016 and 2015, securities covering approximately 4 million and 2 million shares, respectively, were outstanding but not included in the computation of diluted earnings per share because they were anti-dilutive.

(Dollars in thousands, unless otherwise noted)

10. Fair Value Measurements

We use estimates of fair value in applying various accounting standards for our financial statements.

We categorize our fair value estimates based on a hierarchical framework associated with three levels of price transparency utilized in measuring financial instruments at fair value. For additional information regarding our policies for determining fair value and the hierarchical framework, see Note 2, "Significant Accounting Policies - Fair Value Measurement" in our 2015 Form 10-K.

During the three and six months ended June 30, 2016, there were no significant transfers of financial instruments between levels or changes in our methodology or assumptions used to value our financial instruments.

The following table summarizes the valuation of our financial instruments that are marked to fair value on a recurring basis.

	Fair Value Measurements on a Recurring Basis											
	June 30, 2016			December 31, 2015								
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

SLM CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, unless otherwise noted)

11. Arrangements with Navient Corporation

In connection with the separation of Navient Corporation (“Navient”) from SLM Corporation (the “Spin-Off”), we entered into a separation and distribution agreement (the “Separation and Distribution Agreement”) and other ancillary agreements with Navient. Please refer to Note 16, “Arrangements with Navient Corporation” in our 2015 Form 10-K for a full discussion of these agreements.

Amended Loan Participation and Purchase Agreement

Prior to the Spin-Off, Sallie Mae Bank, a Utah industrial bank subsidiary of the Company (the “Bank”), sold substantially all its Private Education Loans to several former affiliates, now subsidiaries of Navient (collectively, the “Purchasers”), pursuant to a Loan Participation and Purchase Agreement. This agreement predated the Spin-Off, but was significantly amended and reduced in scope in connection with the Spin-Off. Post-Spin-Off, the Bank retains only the right to require the Purchasers to purchase loans (at fair value) for which the borrower also has a separate lending relationship with Navient (“Split Loans”) when the Split Loans either (1) are more than 90 days past due; (2) have been restructured; (3) have been granted a hardship forbearance or more than six months of administrative forbearance; or (4) have a borrower or cosigner who has filed for bankruptcy. At June 30, 2016, we held approximately \$76 million of Split Loans.

During the three months ended June 30, 2016, the Bank sold loans to the Purchasers in the amount of \$3.9 million in principal and \$0.1 million in accrued interest income. During the three months ended June 30, 2015, the Bank sold loans to the Purchasers in the amount of \$5.9 million in principal and \$0.1 million in accrued interest income.

During the six months ended June 30, 2016, the Bank sold loans to the Purchasers in the amount of \$9.4 million in principal and \$0.2 million in accrued interest income. During the six months ended June 30, 2015, the Bank sold loans to the Purchasers in the amount of \$14.6 million in principal and \$0.3 million in accrued interest income.

There was no gain as a result of the loans sold to the Purchasers in the three and six months ended June 30, 2016 and June 30, 2015. Total write-downs to fair value for loans sold with a fair value lower than par totaled \$1.5 million in the three months ended June 30, 2016 and June 30, 2015. Total write-downs to fair value for loans sold with a fair value lower than par totaled \$3.6 million and \$3.7 million in the six months ended June 30, 2016 and June 30, 2015, respectively. Navient is the servicer for all of these loans.

12. Regulatory Capital

The Bank is subject to various regulatory capital requirements administered by federal and state banking authorities. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material adverse effect on our business, results of operation and financial condition. Under the Basel III capital framework ("U.S. Basel III") and the regulatory framework for prompt corrective action, the Bank must meet specific capital standards that involve quantitative measures of its assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and its classification under the prompt corrective action framework are also subject to qualitative judgments by the regulators about components of capital, risk weightings and other factors.

As of January 1, 2015, the Bank was required to report regulatory capital and ratios in accordance with U.S. Basel III. Among other things, U.S. Basel III establishes Common Equity Tier 1 as a new tier of capital, modifies methods for calculating risk-weighted assets, introduces a new capital conservation buffer, and revises the capital thresholds of the prompt corrective action framework, including the "well capitalized" standard.

"Well capitalized" regulatory requirements are the quantitative measures established by regulation to ensure capital adequacy. To qualify as "well capitalized," the Bank must maintain minimum amounts and ratios (set forth in the table below) of Common Equity Tier 1, Tier 1 and Total capital to risk-weighted assets and of Tier 1 capital to average assets. The following capital amounts and ratios are based upon the Bank's assets.

	Actual		"Well Capitalized" Regulatory Requirements	
	Amount	Ratio	Amount	Ratio
As of June 30, 2016:				
Common Equity Tier 1 Capital (to Risk-Weighted Assets)	\$1,863,583	13.5%	\$898,253	>6.5 %
Tier 1 Capital (to Risk-Weighted Assets)	\$1,863,583	13.5%	\$1,105,543	>8.0 %
Total Capital (to Risk-Weighted Assets)	\$2,009,072	14.5%	\$1,381,928	>10.0%
Tier 1 Capital (to Average Assets)	\$1,863,583	12.2%	\$763,839	>5.0 %
As of December 31, 2015:				
Common Equity Tier 1 Capital (to Risk-Weighted Assets)	\$1,734,315	14.4%	\$781,638	>6.5 %
Tier 1 Capital (to Risk-Weighted Assets)	\$1,734,315	14.4%	\$962,017	>8.0 %
Total Capital (to Risk-Weighted Assets)	\$1,848,528	15.4%	\$1,202,521	>10.0%
Tier 1 Capital (to Average Assets)	\$1,734,315	12.3%	\$704,979	>5.0 %

Bank Dividends

The Bank is chartered under the laws of the State of Utah and its deposits are insured by the FDIC. The Bank's ability to pay dividends is subject to the laws of Utah and the regulations of the FDIC. Generally, under Utah's industrial bank laws and regulations as well as FDIC regulations, the Bank may pay dividends from its net profits without regulatory approval if, following the payment of the dividend, the Bank's capital and surplus would not be impaired. The Bank

paid no dividends for the three and six months ended June 30, 2016 and June 30, 2015.

(Dollars in thousands, unless otherwise noted)

13. Commitments, Contingencies and Guarantees

Commitments

When we approve a Private Education Loan at the beginning of an academic year, that approval may cover the borrowing for the entire academic year. As such, we do not always disburse the full amount of the loan at the time of such approval, but instead have a commitment to fund a portion of the loan at a later date (usually at the start of the second semester or subsequent trimesters). At June 30, 2016, we had \$1.2 billion of outstanding contractual loan commitments which we expect to fund during the remainder of the 2015/2016 academic year. At June 30, 2016, we had a \$0.6 million reserve recorded in "Other Liabilities" to cover expected losses that we conclude are probable to occur during the one year loss emergence period on these unfunded commitments.

Regulatory Matters

At the time of this filing, the Bank remains subject to a Consent Order, Order to Pay Restitution and Order to Pay Civil Money Penalty dated May 13, 2014 issued by the FDIC (the "FDIC Consent Order") and a Consent Order (the "DOJ Consent Order") issued by the Department of Justice (the "DOJ"). On May 13, 2014, the Bank reached a settlement with the DOJ regarding compliance issues with the Servicemembers Civil Relief Act ("SCRA"). At the same time, the Bank reached a settlement with the FDIC regarding disclosures and assessments of certain late fees, as well as compliance with the SCRA. Under the FDIC Consent Order, the Bank agreed to pay \$3.3 million in fines and oversee the refund of up to \$30 million in late fees assessed on loans owned or originated by the Bank since its inception in November 2005. The DOJ Consent Order was approved by the U.S. District Court for the District of Delaware on September 29, 2014.

Under the terms of the Separation and Distribution Agreement between the Company and Navient, Navient is responsible for funding all liabilities under the regulatory orders, other than fines directly levied against the Bank in connection with these matters. Under the DOJ Consent Order, Navient is solely responsible for reimbursing SCRA benefits and related compensation on behalf of both its subsidiary, Navient Solutions, Inc., and the Bank.

As required by the FDIC Consent Order and the DOJ Consent Order, the Bank has implemented new SCRA policies, procedures and training, has updated billing statement disclosures, and is taking additional steps to ensure its third-party service providers are also fully compliant in these regards. At this time, we believe the Bank is in compliance with all provisions of both the FDIC Consent Order and the DOJ Consent Order applicable to it. Notwithstanding the CFPB's assumption of the role of the Bank's primary consumer compliance regulator in January 2015, the FDIC will continue to monitor the Bank's improved compliance management system, policies and procedures until it is satisfied the Bank has demonstrated its ability to sustain the enhancements and additions implemented in response to the FDIC Consent Order. Pursuant to the terms of the DOJ Consent Order, the Bank will remain subject to certain DOJ reporting and record-keeping requirements until September 29, 2018.

In May 2014, the Bank received a Civil Investigative Demand ("CID") from the Consumer Financial Protection Bureau (the "CFPB") as part of the CFPB's separate investigation relating to customer complaints, fees and charges assessed in connection with the servicing of student loans and related collection practices of pre-Spin-Off SLM Corporation ("pre-Spin-Off SLM") by entities now subsidiaries of Navient during a time period prior to the Spin-Off. Two state attorneys general have provided the Bank identical CIDs and others have become involved in the inquiry over time. To the extent requested, we have been cooperating fully with the CFPB and the attorneys general but are not in a position at this time to predict the duration or outcome of the investigation. Given the timeframe covered by this demand and the focus on practices and procedures previously conducted by Navient and its servicing subsidiaries, Navient is leading the response to this investigation and has accepted responsibility for all costs, expenses, losses or remediation that may arise from this investigation.

SLM CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, unless otherwise noted)

13. Commitments, Contingencies and Guarantees (Continued)

Contingencies

In the ordinary course of business, we and our subsidiaries are routinely defendants in or parties to pending and threatened legal actions and proceedings, including actions brought on behalf of various classes of claimants. These actions and proceedings may be based on alleged violations of consumer protection, securities, employment and other laws. In certain of these actions and proceedings, claims for substantial monetary damage may be asserted against us and our subsidiaries.

It is common for the Company, our subsidiaries and affiliates to receive information and document requests and investigative demands from state attorneys general, legislative committees, and administrative agencies. These requests may be for informational or regulatory purposes and may relate to our business practices, the industries in which we operate, or other companies with whom we conduct business. Our practice has been and continues to be to cooperate with these bodies and be responsive to any such requests.

We are required to establish reserves for litigation and regulatory matters where those matters present loss contingencies that are both probable and estimable. When loss contingencies are not both probable and estimable, we do not establish reserves.

Based on current knowledge, management does not believe there are loss contingencies, if any, arising from pending investigations, litigation or regulatory matters for which reserves should be established.

14. Subsequent Event

On July 13, 2016, we priced a \$657 million SMB Private Education Loan Trust 2016-B term ABS transaction. The transaction will be accounted for as an on-balance sheet secured financing. We expect to sell \$607 million of AAA rated notes to third parties and retain a 100 percent interest in the Class B notes and residual certificates issued in the securitization. We expect this transaction to raise approximately \$605 million of gross proceeds, settle on or about July 21, 2016, and be reflected in our third quarter 2016 results.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following information is current as of July 20, 2016 (unless otherwise noted) and should be read in connection with SLM Corporation's Annual Report on Form 10-K for the year ended December 31, 2015 (filed with the Securities and Exchange Commission (the "SEC") on February 26, 2016) (the "2015 Form 10-K"), and subsequent reports filed with the SEC. Definitions for capitalized terms used in this report not defined herein can be found in the 2015 Form 10-K.

References in this Form 10-Q to "we," "us," "our," "Sallie Mae," "SLM" and the "Company" refer to SLM Corporation and its subsidiaries, except as otherwise indicated or unless the context otherwise requires.

This report contains "forward-looking" statements and information based on management's current expectations as of the date of this report. Statements that are not historical facts, including statements about the Company's beliefs, opinions or expectations and statements that assume or are dependent upon future events, are forward-looking statements. Forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. These factors include, among others, the risks and uncertainties set forth in Item 1A "Risk Factors" and elsewhere in the Company's 2015 Form 10-K and subsequent filings with the SEC; increases in financing costs; limits on liquidity; increases in costs associated with compliance with laws and regulations; changes in accounting standards and the impact of related changes in significant accounting estimates; any adverse outcomes in any significant litigation to which the Company is a party; credit risk associated with the Company's exposure to third-parties, including counterparties to the Company's derivative transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from new laws and the implementation of existing laws). The Company could also be affected by, among other things: changes in its funding costs and availability; reductions to its credit ratings; failures or breaches of its operating systems or infrastructure, including those of third-party vendors; damage to its reputation; failures to successfully implement cost-cutting and restructuring initiatives and adverse effects of such initiatives on the Company's business; risks associated with restructuring initiatives; changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students and their families; changes in law and regulations with respect to the student lending business and financial institutions generally; changes in banking rules and regulations, including increased capital requirements; increased competition from banks and other consumer lenders; the creditworthiness of the Company's customers; changes in the general interest rate environment, including the rate relationships among relevant money-market instruments and those of the Company's earning assets versus the Company's funding arrangements; rates of prepayment on the loans that the Company makes; changes in general economic conditions and the Company's ability to successfully effectuate any acquisitions; and other strategic initiatives. The preparation of the Company's consolidated financial statements also requires management to make certain estimates and assumptions, including estimates and assumptions about future events. These estimates or assumptions may prove to be incorrect. All forward-looking statements contained in this quarterly report on Form 10-Q are qualified by these cautionary statements and are made only as of the date of this report. The Company does not undertake any obligation to update or revise these forward-looking statements to conform such statements to actual results or changes in its expectations.

The Company reports financial results on a GAAP basis and also provides certain core earnings performance measures. The difference between the Company's "Core Earnings" and GAAP results for the periods presented were the unrealized, mark-to-market gains/losses on derivative contracts (excluding current period accruals on the derivative instruments), net of tax. These are recognized in GAAP, but not in "Core Earnings" results. The Company provides "Core Earnings" measures because this is what management uses when making management decisions regarding the Company's performance and the allocation of corporate resources. The Company's "Core Earnings" are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. For additional information, see "Key Financial Measures" and "GAAP Consolidated Earnings Summary - 'Core Earnings'" in this Form 10-Q for the quarter ended June 30, 2016 for a further discussion and a complete reconciliation between GAAP net income and "Core Earnings."

Through this discussion and analysis, we intend to provide the reader with some narrative context for how our management views our consolidated financial statements, additional context within which to assess our operating results, and information on the quality and variability of our earnings, liquidity and cash flows.

Recent Development

On July 13, 2016, we priced a \$657 million SMB Private Education Loan Trust 2016-B term ABS transaction. The transaction will be accounted for as an on-balance sheet secured financing. We expect to sell \$607 million of AAA rated notes to third parties and retain a 100 percent interest in the Class B notes and residual certificates issued in the securitization. We expect this transaction to raise approximately \$605 million of gross proceeds, settle on or about July 21, 2016, and be reflected in our third quarter 2016 results.

Overview

The following discussion and analysis presents a review of our business and operations as of and for the three and six months ended June 30, 2016.

Key Financial Measures

Our operating results are primarily driven by net interest income from our Private Education Loan portfolio, gains and losses on loan sales, provision expense for credit losses, and operating expenses. The growth of our business and the strength of our financial condition are primarily driven by our ability to achieve our annual Private Education Loan origination goals while sustaining credit quality and maintaining cost-efficient funding sources to support our originations. A brief summary of our key financial measures (net interest income; loan sales and secured financings, net; allowance for loan losses; charge-offs and delinquencies; operating expenses; "Core Earnings;" Private Education Loan originations; and funding sources) can be found in Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2015 Form 10-K.

2016 Management Objectives

For 2016, we have set out the following major goals for ourselves: (1) prudently grow our Private Education Loan assets and revenues; (2) maintain our strong capital position; (3) enhance our customers' experience by further improving the delivery of our products and services; (4) sustain the consumer protection improvements we have made to our policies, procedures and compliance management system since the Spin-Off and further enhance our risk oversight infrastructure; (5) successfully launch one or more complementary new products to increase the level of engagement we have with our customers; and (6) manage operating expenses while improving efficiency. Here is how we plan to achieve these objectives:

Prudently Grow Private Education Loan Assets and Revenues

We will continue to pursue managed growth in our Private Education Loan portfolio in 2016 by leveraging our Sallie Mae and Upromise brands and our relationship with more than two thousand colleges and universities. We recently expanded our campus-focused sales force to provide deeper support for universities in all regions of the United States and, as a result, we expect to be able to continue to increase originations through this effort. We are determined to maintain overall credit quality and cosigner rates in our Smart Option Student Loan originations. On April 26, 2016, we introduced a Private Education Loan product permitting parents to borrow and fund their children's education without a student co-borrower ("Parent Loans"). As our business, capital and balance sheet continue to grow, we also expect to be able to achieve our annual Private Education Loan origination targets for the year without having to sell loans to third-parties. Originations were 9 percent higher in the first six months of 2016 compared with the year-ago period. The average FICO scores at approval and the cosigner rates for originations in the six months ended June 30, 2016 were 747 and 88.8 percent, compared with 749 and 88.6 percent in the six months ended June 30, 2015, respectively.

Maintain Our Strong Capital Position

We intend to maintain levels of capital at the Bank that significantly exceed those necessary to be considered "well capitalized" by the FDIC. The Company is a source of strength for the Bank and will obtain or provide additional capital as, and if, necessary to the Bank. We regularly evaluate the quality of assets, stability of earnings, and adequacy of our allowance for loan losses, and we continue to believe our existing capital levels are sufficient to support the Bank's plan for significant growth over the next several years while remaining "well capitalized." As our balance sheet grows in 2016, these ratios will decline but will remain significantly in excess of the capital levels required to be considered "well capitalized" by our regulators. As of June 30, 2016, the Bank had a Common Equity Tier 1 risk-based capital ratio of 13.5 percent, a Tier 1 risk-based capital ratio of 13.5 percent, a Total risk-based capital ratio of 14.5 percent and a Tier 1 leverage ratio of 12.2 percent, all exceeding the current regulatory guidelines for "well capitalized" institutions by a significant amount. We do not plan to pay a common stock dividend or repurchase shares in 2016 (except to repurchase common stock acquired as a result of taxes withheld in connection with award exercises and vesting under our employee stock based compensation plans).

Enhance Customers' Experience By Further Improving Delivery of Products and Services

The Spin-Off provided us the opportunity to redesign our processes, procedures and customer experiences exclusively around our Private Education Loan products, rather than accommodating the servicing of those products as well as FFELP and Direct Student Loans serviced under direction of the Department of Education ("DOE"). In 2016, we will again focus on our new servicing platform and processes to specifically target further simplifications regarding important transitions in the life cycle of our customers' Private Education Loan experience, including:

• Procedures followed and technology used by our customer service agents;

• Online functionality available to our customers;

• Communications to our customers to increase awareness and satisfaction; and

• All servicing will be conducted by in-house Sallie Mae associates.

We continue to expand our customer feedback process and gain insights from key points in the customer's experience.

Sustain Consumer Protection Improvements Made Since the Spin-Off and Further Enhance Our Risk Oversight Infrastructure

Since the Spin-Off, we have continued to undertake significant work to establish that all customer protection policies, procedures and compliance management systems are sufficient to meet or exceed currently applicable regulatory standards. Our redesigned SCRA processes and procedures have now received the approval of the DOJ and we expect all required restitution activities under the FDIC Consent Order and DOJ Consent Order will be completed in 2016. In 2014, we engaged a third-party firm to conduct independent audits of consumer protection processes and procedures, including our own compliance management system. At this time, that engagement is ongoing and we are beginning our second full cycle of those audits. To date, these audits have produced no high risk findings. Our goal is to sustain the improvements implemented to date and consistently comply with or exceed regulatory standards while continuing to improve our customers' experience and satisfaction levels.

During the first half of 2016, we have worked to optimize the overall Enterprise Risk Management framework, including building out our Governance, Risk and Compliance platform. Significant strides were also made in model risk management and the DFAST program.

Successfully Launch One or More Complementary New Products to Increase Level of Engagement With Customers

In 2015, our management team began to consider expanding the suite of products we provide to customers. Given our limited time and experience with our new originations platform and servicing capabilities, we prioritized opportunities to focus first on those that can leverage our core competencies and capabilities, rather than require the development or acquisition of new or alternative ones. For example, in the first quarter of 2016, we leveraged our experience with our Smart Option Student Loan products by launching a Parent Loan program designed for parents who wish to separately finance their children's education, rather than cosign loans with their children. We believe there is a market for this product that is separate from the Smart Option Student Loan market, and we believe our product will be a competitive alternative to PLUS loans being offered by the DOE. This product complements our portfolio of Private Education Loan offerings, but is not expected to have a material impact on 2016 earnings.

We will also be exploring other product opportunities in 2016. In this process, we also place a high premium on designing and launching products that will be easily understood and attractive to our customers. Any activity in 2016 will focus on success of implementation, and we are not forecasting significant contributions to our originations, revenues or net income from any potential new products in 2016.

Manage Operating Expenses While Improving Efficiency

We will continue to measure our effectiveness in managing operating expenses by monitoring our efficiency ratio. Our efficiency ratio is calculated by dividing our total expenses, excluding restructuring costs and other reorganization expenses, by net interest income (before provision for credit losses) and other income, excluding gains on sales of loans, net. This ratio was 41.6 percent for the three months ended June 30, 2016, compared with 49.9 percent for the three months ended June 30, 2015. This ratio was 41.0 percent for the first six months of 2016, compared with 47.3 percent for the first six months of 2015. The large improvement in the efficiency ratio in the first six months of 2016 was partially due to the one-time \$10 million change in reserve estimates related to our Upromise rewards business recorded in the first quarter of 2016. We expect this ratio to decline steadily from the full-year 2015 efficiency ratio of 46.8 percent over the next several years as the number of loans on which we earn either net interest income or servicing revenue grows to a level commensurate with our loan origination platform and we control the growth of our expense base.

GAAP Results of Operations

We present the results of operations below first on a consolidated basis in accordance with GAAP.

GAAP Statements of Income (Unaudited)

(In millions, except per share data)	Three Months Ended June 30,		Increase (Decrease)		Six Months Ended June 30,		Increase (Decrease)

GAAP Consolidated Earnings Summary

Three Months Ended June 30, 2016 Compared with Three Months Ended June 30, 2015

For the three months ended June 30, 2016, net income was \$57 million, or \$.12 diluted earnings per common share, compared with net income of \$91 million, or \$.20 diluted earnings per common share for the three months ended June 30, 2015. Net income was affected by a \$77 million decrease in gains on sales of loans, a \$26 million increase in provisions for credit losses and a \$4 million increase in total expenses, which were offset by a \$45 million increase in net interest income and a \$25 million decrease in income tax expense.

The primary contributors to each of the identified drivers of changes in net income for the current quarter compared with the year-ago quarter are as follows:

- Net interest income increased by \$45 million in the current quarter compared with the year-ago quarter primarily due to a \$2.9 billion increase in average Private Education Loans outstanding. Net interest margin increased by 33 basis points primarily as a result of an increase in the ratio of higher yielding Private Education Loans relative to our other interest earning assets, which more than offset a 17 basis point increase in our cost of funds. Our cost of funds increased primarily as a result of an increase in LIBOR rates that occurred in late 2015.
- Provisions for credit losses increased \$26 million compared with the year-ago quarter. This increase was primarily the result of an additional \$2.4 billion of loans in repayment in the second quarter of 2016, an increase in the Private Education Loan delinquency rate as a percentage of loans in repayment from 1.7 percent at June 30, 2015 to 2.1 percent at June 30, 2016, and a \$33 million increase in loans classified as TDRs (where we provide for life-of-loan losses).
- Gains on sales of loans, net, decreased \$77 million as there were no loan sales in the second quarter of 2016. In the year-ago quarter, we recorded a \$77 million gain from the sale of \$738 million of loans.
- Gains on derivatives and hedging activities, net, resulted in a net gain of \$2 million in the second quarter of 2016, unchanged from a net gain of \$2 million in the year-ago quarter.
- Other income increased \$4 million compared with the year-ago quarter as a result of an increase in third-party servicing income and changes in the uncertain tax position indemnification.
- Second-quarter 2016 operating expenses (including acquired intangible asset amortization expense) were \$95 million compared with \$90 million in the year-ago quarter. The increase in operating expenses is primarily the result of increased personnel and technology costs, largely driven by growth in our loan portfolio.
- Income tax expense decreased \$25 million compared with the year-ago quarter. The decrease in the second quarter effective tax rate to 37.7 percent from 39.8 percent in the year-ago quarter was primarily as a result of lower state tax rates.

Six Months Ended June 30, 2016 Compared with Six Months Ended June 30, 2015

For the six months ended June 30, 2016, net income was \$123 million, or \$.26 diluted earnings per common share, compared with net income of \$139 million, or \$.30 diluted earnings per common share for the six months ended June 30, 2015. Net income was affected by a \$77 million decrease in gains on sales of loans, a \$42 million increase in provisions for credit losses and a \$11 million increase in total expenses, which were offset by an \$84 million increase in net interest income, a \$15 million increase in other income that included a one-time \$10 million change in reserve estimates related to our Upromise rewards business, and an \$18 million decrease in income tax expense.

The primary contributors to each of the identified drivers of changes in net income for the first six months of 2016 compared with the year-ago period are as follows:

- Net interest income increased by \$84 million in the first six months compared with the year-ago period primarily due to a \$2.6 billion increase in average Private Education Loans outstanding. Net interest margin increased by 25 basis points primarily as a result of an increase in the ratio of higher yielding Private Education Loans relative to our other interest earning assets, which more than offset a 13 basis point increase in our cost of funds. Our cost of funds increased primarily as a result of an increase in LIBOR rates that occurred in late 2015.
- Provisions for credit losses increased \$42 million compared with the year-ago period. This increase was primarily the result of an additional \$2.4 billion of loans in repayment, an increase in the Private Education Loan delinquency rate as a

percentage of loans in repayment from 1.7 percent at June 30, 2015 to 2.1 percent at June 30, 2016, and a \$34 million increase in loans classified as TDRs (where we provide for life-of-loan losses).

- Gains on sales of loans, net, decreased \$77 million as there were no loan sales in the first six months of 2016.
- Gains on derivatives and hedging activities, net, resulted in a net gain of \$2 million in the first six months of 2016 compared with a net gain of \$5 million in the year-ago period. The primary factors affecting the change were interest rates and whether derivatives qualified for hedge accounting treatment. In the first six months of 2016, we used fewer derivatives to economically hedge risk that did not qualify for hedge accounting treatment than in the year-ago quarter.
- Other income increased \$15 million compared with the year-ago period. Of this increase, \$10 million relates to a one-time gain resulting from a change in reserve estimates for our Upromise rewards program.
- First-half 2016 operating expenses (including acquired intangible asset amortization expense) were \$188 million compared with \$171 million in the year-ago quarter. The increase in operating expenses is primarily the result of increased personnel and technology costs, largely driven by growth in our loan portfolio.
- Income tax expense decreased \$18 million compared with the year-ago period. The decrease in the first-half 2016 effective tax rate to 37.4 percent from 39.8 percent in the year-ago period was primarily as a result of lower state tax rates.

“Core Earnings”

We prepare financial statements in accordance with GAAP. However, we also produce and report our after-tax earnings on a separate basis that we refer to as “Core Earnings.” While pre-Spin-Off SLM also reported a metric by that name, what we now report and what we describe below is significantly different and should not be compared to any Core Earnings reported by pre-Spin-Off SLM. The difference between our “Core Earnings” and GAAP results for periods presented generally is driven by the unrealized, mark-to-market gains (losses) on derivatives contracts recognized in GAAP, but not in “Core Earnings.”

“Core Earnings” recognizes the difference in accounting treatment based upon whether a derivative qualifies for hedge accounting treatment and eliminates the earnings impact associated with hedge ineffectiveness and derivatives we use as an economic hedge but which do not qualify for hedge accounting treatment. We enter into derivatives instruments to economically hedge interest rate and cash flow risk associated with our portfolio. We believe that our derivatives are effective economic hedges, and as such, are a critical element of our interest rate risk management strategy. Those derivative instruments that qualify for hedge accounting treatment have their related cash flows recorded in interest income or interest expense along with the hedged item. Hedge ineffectiveness related to these derivatives is recorded in “Gains (losses) on derivatives and hedging activities, net.” Some of our derivatives do not qualify for hedge accounting treatment and the stand-alone derivative must be marked-to-fair value in the income statement with no consideration for the corresponding change in fair value of the hedged item. These gains and losses, recorded in “Gains (losses) on derivative and hedging activities, net,” are primarily caused by interest rate volatility and changing credit spreads during the period as well as the volume and term of derivatives not receiving hedge accounting treatment. Cash flows on derivative instruments that do not qualify for hedge accounting are not recorded in interest income and interest expense; they are recorded in non-interest income: “Gains (losses) on derivative and hedging activities, net.” The adjustments required to reconcile from our “Core Earnings” results to our GAAP results of operations, net of tax, relate to differing treatments for our derivative instruments used to hedge our economic risks that do not qualify for hedge accounting treatment or that do qualify for hedge accounting treatment but result in ineffectiveness, net of tax. The amount recorded in “Gains (losses) on derivative and hedging activities, net” includes (a) the accrual of the current payment on the interest rate swaps that do not qualify for hedge accounting treatment, (b) the change in fair values related to future expected cash flows for derivatives that do not qualify for hedge accounting and (c) ineffectiveness on derivatives that receive hedge accounting treatment. For purposes of “Core Earnings”, we are including in GAAP earnings the current period accrual amounts (interest reclassification) on the swaps and excluding the remaining ineffectiveness. “Core Earnings” is meant to represent what earnings would have been had these derivatives qualified for hedge accounting and there was no ineffectiveness.

“Core Earnings” are not a substitute for reported results under GAAP. We provide “Core Earnings” basis of presentation because (i) earnings per share computed on a “Core Earnings” basis is one of several measures we utilize in establishing management incentive compensation and (ii) we believe it better reflects the financial results for derivatives that are

economic hedges of interest rate risk but which do not qualify for hedge accounting treatment.

46

GAAP provides a uniform, comprehensive basis of accounting. Our “Core Earnings” basis of presentation differs from GAAP in the way it treats derivatives as described above.

The following table shows the amount in “Gains on derivatives and hedging activities, net” that relates to the interest reclassification on the derivative contracts.

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015
Hedge ineffectiveness gains (losses)	\$815	\$523	\$(1,880)	\$645
Unrealized gains on instruments not in a hedging relationship	655	109	2,308	2,256
Interest reclassification	672	970	1,360	1,993
Gains on derivatives and hedging activities, net	\$2,142	\$1,602	\$1,788	\$4,894

The following table reflects adjustments associated with our derivative activities.

(Dollars in thousands, except per share amounts)	Three Months Ended		Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015

“Core Earnings” adjustments to GAAP:

GAAP net income	\$57,205	\$91,016	\$123,120	\$138,715
Preferred stock dividends	5,243	4,870	10,382	9,693
GAAP net income attributable to SLM Corporation common stock	\$51,962	\$86,146	\$112,738	\$129,022
Adjustments:				
Net impact of derivative accounting ⁽¹⁾	(1,470)	(632)	(428)	(2,901)
Net tax effect ⁽²⁾	(562)	(252)	(164)	(1,157)
Total “Core Earnings” adjustments to GAAP	(908)	(380)	(264)	(1,744)
“Core Earnings” attributable to SLM Corporation common stock	\$51,054	\$85,766	\$112,474	\$127,278
GAAP diluted earnings per common share	\$0.12	\$0.20	\$0.26	\$0.30
Derivative adjustments, net of tax	—	—	—	0.00
“Core Earnings” diluted earnings per common share	\$0.12	\$0.20	\$0.26	\$0.29

(1) Derivative Accounting: “Core Earnings” exclude periodic unrealized gains and losses caused by the mark-to-market valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, as well as the periodic unrealized gains and losses that are a result of ineffectiveness recognized related to effective hedges under GAAP. Under GAAP, for our derivatives held to maturity, the cumulative net unrealized gain or loss over the life of the contract will equal \$0.

(2) “Core Earnings” tax rate is based on the effective tax rate at the Bank where the derivative instruments are held.

Financial Condition

Average Balance Sheets - GAAP

The following table reflects the rates earned on interest-earning assets and paid on interest-bearing liabilities and reflects our net interest margin on a consolidated basis.
