Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On March 8, 2019, the Audit Committee of the Board of Directors (the “Audit Committee”) of MusclePharm Corporation (the “Company”) concluded that the Company’s previously issued unaudited condensed consolidated financial statements for the three and nine months ended September 30, 2018 (the “Restated Periods”) should no longer be relied upon because of errors. Additionally, the Company’s earnings and press releases and similar communications to the extent that they relate to our financial statements for the Restated Periods should no longer be relied upon.

Specifically, during the preparation of the 2018 annual consolidated financial statements, the Company determined that the systems, processes and controls related to sales cut off were not sufficient to accurately record revenue in the correct reporting period. As a result, the Company identified errors, relating to revenue, cost of revenue, inventory and accounts receivable, which resulted in the overstatement of revenue and expenses for the Restated Periods as well as corresponding balance sheet accounts as of September 30, 2018. The errors described above were material to the Restated Periods and will be corrected in the restatement of our financial statements for the Restated Periods.

The Company plans to restate its unaudited condensed consolidated financial statements for the Restated Periods by filing an amended Form 10-Q for the period ended September 30, 2018 (the “Amended Form 10-Q”). It was determined that similar errors existed in the quarter ended June 30, 2018, but the impact was not deemed material to that period. We expect that certain amounts in the condensed consolidated financial statements for the Restated Periods, which will be included in the Amended Form 10-Q, will differ from the amounts reported in the original filing. Revenue, net, as restated, for the nine-month period ended September 30, 2018 is expected to be in a range of approximately \$74 million to \$76 million. Cost of revenue, as restated, for the nine-month period ended September 30, 2018 is expected to be in a range of approximately \$51 million to \$53 million. Net loss, as restated, for the nine-month period ended September 30, 2018 is expected to be in a range of approximately \$6 million to \$8 million. The restatement effects discussed herein are preliminary and subject to further assessment prior to the filing of the Amended Form 10-Q. Accordingly, actual amounts may not be within the ranges indicated above and any such differences could be material.

In addition, as a result of the foregoing errors, the Company has determined that there was a material weakness in internal control over financial reporting related to its sales cut off procedures.

Our management has re-evaluated its assessment of our disclosure controls and procedures and internal control over financial reporting as of September 30, 2018 and concluded that each was ineffective as of that date due to the existence of the foregoing material weakness. As part of our Amended Form 10-Q, we will update and reflect the change in management’s conclusion regarding the effectiveness of our disclosure controls and procedures and internal control over financial reporting as of September 30, 2018. As a result, we will not file our Form 10-K for the year ended December 31, 2018 (the “Form 10-K”) until after the filing of the Amended Form 10-Q. We currently expect to file our Form 10-K on a timely basis; however, there can be no assurance that we will be able to do so.

The Audit Committee has discussed these matters with Plante & Moran PLLC, its independent registered public accounting firm.

Factors that could cause or contribute to such differences include: the review of the Company’s accounting, accounting policies and internal control over financial reporting; the preparation of and the audit or review, as applicable, of the Amended Form 10-Q or the Form 10-K; and the subsequent discovery of additional adjustments to the Company’s previously issued financial statements.
