The accompanying Notes are an integral part of these Consolidated Financial Statements.

5

PART I. FINANCIAL INFORMATION (Continued) CITIZENS COMMUNICATIONS COMPANY AND SUBSIDIARIES

(1) Summary of Significant Accounting Policies:

(a) Basis of Presentation and Use of Estimates:

Citizens Communications Company and its subsidiaries are referred to as "we," "us," "our," or the "Company" in this report. Our unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and should be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2006. Certain reclassifications of balances previously reported have been made to conform to the current presentation. All significant intercompany balances and transactions have been eliminated in consolidation. These unaudited consolidated financial statements include all adjustments (consisting of normal recurring accruals) considered necessary to present fairly the results for the interim periods shown.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may differ from those estimates. Estimates and judgments are used when accounting for allowance for doubtful accounts, impairment of long-lived assets, intangible assets, depreciation and amortization, employee benefit plans, income taxes, contingencies and pension and postretirement benefits expenses among others. Certain information and footnote disclosures have been excluded and/or condensed pursuant to Securities and Exchange Commission rules and regulations. The results of the interim periods are not necessarily indicative of the results for the full year.

(b) Cash Equivalents:

We consider all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(c) Revenue Recognition:

Revenue is recognized when services are provided or when products are delivered to customers. Revenue that is billed in advance includes: monthly recurring network access services, special access services and monthly recurring local line charges. The unearned portion of this revenue is initially deferred as a component of other liabilities on our consolidated balance sheet and recognized in revenue over the period that the services are provided. Revenue that is billed in arrears includes: non-recurring network access services, switched access services, non-recurring local services and long-distance services. The earned but unbilled portion of this revenue is recognized in revenue in our statement of operations and accrued in

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

accounts receivable in the period that the services are provided. Excise taxes are recognized as a liability when billed. Installation fees and their related direct and incremental costs are initially deferred and recognized as revenue and expense over the average term of a customer relationship. We recognize as current period expense the portion of installation costs that exceeds installation fee revenue.

The Company collects various taxes from its customers and subsequently remits such funds to governmental authorities. Substantially all of these taxes are recorded through the balance sheet and presented on a net basis in our statement of operations. We also collect Universal Service Fund ("USF") surcharges from customers (primarily federal USF) which have been recorded on a gross basis in our statement of operations and have been included in revenues and other operating expenses at \$7,102,000 and \$10,167,000 for the three months ended March 31, 2007 and 2006, respectively.

(d) Property, Plant and Equipment:

Property, plant and equipment are stated at original cost or fair market value for our acquired properties, including capitalized interest. Maintenance and repairs are charged to operating expenses as incurred. The gross book value of routine property, plant and equipment retired is charged against accumulated depreciation.

(e) Goodwill and Other Intangibles:

Intangibles represent the excess of purchase price over the fair value of identifiable tangible assets acquired. We undertake studies to determine the fair values of assets and liabilities acquired and allocate purchase prices to assets and liabilities, including property, plant and equipment, goodwill and other identifiable intangibles. We annually (during the fourth quarter) examine the carrying value of our goodwill and trade name to determine whether there are any impairment losses.

6

Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets," requires that intangible assets with estimated useful lives be amortized over those lives and be reviewed for impairment in accordance with SFAS No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets," to determine whether any changes to these lives are required. We periodically reassess the useful life of our intangible assets to determine whether any changes to those lives are required.

(f) Impairment of Long-Lived Assets and Long-Lived Assets to Be Disposed

of:

We review long-lived assets to be held and used and long-lived assets to be disposed of, including intangible assets with estimated useful lives, for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of the asset to the future undiscounted net cash flows expected to be generated by the asset. Recoverability of assets held for sale is measured by comparing the carrying amount of the assets to their estimated fair market value. If any assets are considered to be impaired, the impairment is measured

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

by the amount by which the carrying amount of the assets exceeds the estimated fair value.

(g) Derivative Instruments and Hedging Activities:

We account for derivative instruments and hedging activities in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended. SFAS No. 133, as amended, requires that all derivative instruments, such as interest rate swaps, be recognized in the financial statements and measured at fair value regardless of the purpose or intent of holding them.

We have interest rate swap arrangements related to a portion of our fixed rate debt. These hedge strategies satisfy the fair value hedging requirements of SFAS No. 133, as amended. As a result, the fair value of the swaps is carried on the balance sheet in other liabilities and the related hedged liabilities are also adjusted to fair value by the same amount.

(h) Stock Plans:

We have various employee stock-based compensation plans. Awards under these plans are granted to eligible officers, management employees, non-management employees and non-employee directors. Awards may be made in the form of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock or other stock-based awards. We have no awards with market or performance conditions. Our general policy is to issue shares upon the grant of restricted shares and exercise of options from treasury.

On January 1, 2006, we adopted the provisions of SFAS No. 123 (revised 2004), "Share-Based Payment" (SFAS No. 123R) and elected to use the modified prospective transition method. The modified prospective transition method requires that compensation cost be recognized in the financial statements for all awards granted after the date of adoption as well as for existing awards for which the requisite service had not been rendered as of the date of adoption. Estimated compensation cost for awards that are outstanding at the effective date will be recognized over the remaining service period using the compensation cost calculated for pro forma disclosure purposes. Prior periods have not been restated.

On November 10, 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position SFAS No. 123R-3, "Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards." We elected to adopt the alternative transition method provided for calculating the tax effects of share-based compensation pursuant to SFAS No. 123R. The alternative transition method includes a simplified method to establish the beginning balance of the additional paid-in capital pool (APIC pool) related to the tax effects of employee share-based compensation, which is available to absorb tax deficiencies recognized subsequent to the adoption of SFAS No. 123R.

In accordance with the adoption of SFAS No. 123R, we recorded stock-based compensation expense for the cost of stock options, restricted shares and stock units issued under our stock plans (together, Stock-Based Awards). Stock-based compensation expense for the three month period ended March 31, 2007 was \$3,407,000 (\$2,147,000 after tax, or \$0.01 per basic and diluted share of common stock) and \$2,677,000 (\$1,673,000 after tax, or \$0.01 per basic and diluted share of common stock) for the three month period ended March 31, 2006. The compensation cost recognized is based on awards ultimately expected to

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

vest. SFAS No. 123R requires forfeitures to be estimated and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

7

Prior to the adoption of SFAS No. 123R, we applied Accounting Principles Board Opinion (APB) No. 25 and related interpretations to account for our stock plans resulting in the use of the intrinsic-value based method to value the stock. Under APB No. 25, we were not required to recognize compensation expense for the cost of stock options issued under the Management Equity Incentive Plan (MEIP), the 1996 Equity Incentive Plan (EIP) or the Amended and Restated 2000 EIP stock plan.

(i) Net Income Per Common Share Available for Common Shareholders:

Basic net income per common share is computed using the weighted average number of common shares outstanding during the period being reported on. Except when the effect would be antidilutive, diluted net income per common share reflects the dilutive effect of the assumed exercise of stock options using the treasury stock method at the beginning of the period being reported on as well as common shares that would result from the conversion of convertible preferred stock (EPPICS) and convertible notes. In addition, the related interest on debt (net of tax) is added back to income since it would not be paid if the debt was converted to common stock.

(2) Recent Accounting Literature and Changes in Accounting Principles:

Accounting for Uncertainty in Income Taxes

In July 2006, the FASB issued FASB Interpretation No. (FIN) 48, "Accounting for Uncertainty in Income Taxes." Among other things, FIN No. 48 requires applying a "more likely than not" threshold to the recognition and derecognition of uncertain tax positions either taken or expected to be taken in the Company's income tax returns. We have adopted the provisions of FIN No. 48 in the first quarter of 2007. The total amount of our FIN No. 48 tax liability for tax positions that may not be sustained under a "more likely than not" threshold is reflected on the Company's balance sheet as of the date of adoption at \$44,708,000. This amount includes an accrual for interest in the amount of \$4,621,000. These balances include amounts of \$8,977,000 and \$1,439,000 for total FIN No. 48 tax liabilities and accrued interest, respectively, pursuant to the Company's acquisition of Commonwealth Telephone Enterprises, Inc. The amount of our total FIN No. 48 tax liabilities reflected above that would positively impact the calculation of our effective income tax rate, if our tax positions are sustained, is \$20,901,000.

The Company's policy regarding the classification of interest and penalties is to include these amounts as a component of income tax expense. This treatment of interest and penalties is consistent with prior periods. We have recognized in our year to date statement of operations additional interest in the amount of \$239,000. We do not expect that our balances with respect to our uncertain tax positions will significantly increase or decrease within the next 12 months. We are subject to income tax examinations generally for the years 2003 forward for both our federal and state filing jurisdictions.

How Taxes Collected from Customers and Remitted to Governmental Authorities

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

----- Should be Presented in the Income Statement -----

In June 2006, the FASB issued EITF Issue No. 06-3, "How Taxes Collected from Customers and Remitted to Governmental Authorities Should be Presented in the Income Statement," which requires disclosure of the accounting policy for any tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction, that is Gross versus Net presentation. EITF No. 06-3 is effective for periods beginning after December 15, 2006. We adopted the disclosure requirements of EITF No. 06-3 commencing January 1, 2007.

Accounting for Purchases of Life Insurance -----

In September 2006, the FASB reached consensus on the guidance provided by EITF No. 06-5, "Accounting for Purchases of Life Insurance-Determining the Amount That Could Be Realized in Accordance with FASB Technical Bulletin No. 85-4, Accounting for Purchases of Life Insurance." EITF No. 06-5 states that a policyholder should consider any additional amounts included in the contractual terms of the insurance policy other than the cash surrender value in determining the amount that could be realized under the insurance contract. EITF No. 06-5 also states that a policyholder should determine the amount that could be realized under the life insurance contract assuming the surrender of an individual-life by individual-life policy (or certificate by certificate in a group policy). EITF No. 06-5 is effective for fiscal years beginning after December 15, 2006. The adoption of the accounting requirements of EITF No. 06-5 in the first quarter of 2007 had no impact on our financial position, results of operation or cash flows.

8

Accounting for Endorsement Split-Dollar Life Insurance Arrangements -----

In September 2006, the FASB reached consensus on the guidance provided by EITF No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements." The guidance is applicable to endorsement split-dollar life insurance arrangements, whereby the employer owns and controls the insurance policy, that are associated with a postretirement benefit. EITF No. 06-4 requires that for a split-dollar life insurance arrangement within the scope of the issue, an employer should recognize a liability for future benefits in accordance with SFAS No. 106 (if, in substance, a postretirement benefit plan exists) or Accounting Principles Board Opinion No. 12 (if the arrangement is, in substance, an individual deferred compensation contract) based on the substantive agreement with the employee. EITF No. 06-4 is effective for fiscal years beginning after December 15, 2007. The Company is currently evaluating the impact the adoption of the standard will have on the Company's results of operations or financial condition.

Fair Value Measurements -----

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements", which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective as of the beginning of our 2008 fiscal year. The Company is currently evaluating the impact that the adoption of the standard will have on the Company's results of operations or financial condition.

Fair Value Option for Financial Assets and Financial Liabilities

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115," which permits entities to choose to measure many financial instruments and certain other items at fair value. The provisions of SFAS No. 159 are effective as of the beginning of our 2008 fiscal year. The Company is currently evaluating the impact that the adoption of the standard will have on the Company's results of operations or financial condition.

Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements

In March 2007, the FASB ratified the consensus reached by the EITF on Issue No. 06-10, "Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements." EITF No. 06-10 provides guidance on an employers' recognition of a liability and related compensation costs for collateral assignment split-dollar life insurance arrangements that provide a benefit to an employee that extends into postretirement periods and the asset in collateral assignment split-dollar life insurance arrangements. The effective date of EITF No. 06-10 is for fiscal years beginning after December 15, 2007. The Company is currently evaluating the impact that the adoption of the standard will have on the Company's results of operations or financial condition.

(3) Acquisition of Commonwealth Telephone:

On March 8, 2007, we acquired Commonwealth Telephone Enterprises, Inc. ("Commonwealth" or "CTE") in a cash-and-stock taxable transaction, for a total consideration of approximately \$1.1 billion. At closing we paid \$790.0 million in cash (\$649.5 million net, after cash acquired), issued common stock with a value of \$246.2 million and accrued \$19.7 million of closing costs.

In connection with the acquisition of Commonwealth, we assumed \$35 million of debt under a revolving credit facility and \$192 million face amount of Commonwealth convertible notes (fair value of \$210 million). During March 2007, we paid down the \$35 million credit facility and retired \$115 million face amount (for which we paid \$92.2 million in cash and \$22.4 million in common stock) of the convertible notes (premium paid of \$11.2 million and recorded as purchase price). We have received conversion notices and will retire an additional \$68.7 million of Commonwealth notes during the second quarter of 2007, resulting in a remaining outstanding balance of \$8.5 million.

We are accounting for the acquisition of Commonwealth as a purchase under U.S. generally accepted accounting principles. Under the purchase method of accounting, the assets and liabilities of Commonwealth are recorded as of the acquisition date, at their respective fair values, and consolidated with those of Citizens. The reported consolidated financial condition of Citizens as of March 31, 2007 reflects a preliminary estimate of these fair values.

9

The following schedule provides a summary of the purchase price paid by Citizens in the acquisition of Commonwealth (\$ in thousands):

| | | |
|---------------------------------------|----|---------|
| Cash paid at closing | \$ | 789,982 |
| Value of Citizens common stock issued | | 246,225 |

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

| | | |
|-----------------------|--------------|-------|
| Accrued closing costs | 19,664 | |
| | ----- | |
| Total Purchase Price | \$ 1,055,871 | ===== |

The allocation of the purchase price to assets and liabilities is preliminary. The estimated purchase price has been allocated to the net tangible and intangible assets and liabilities acquired as follows (\$ in thousands):

| | | |
|--|--------------|-------|
| Allocation of estimated purchase price: | | |
| Current assets (1) | \$ 190,361 | |
| Property, plant and equipment | 387,720 | |
| Goodwill | 574,347 | |
| Other intangibles - customer list | 500,000 | |
| Other assets | 11,234 | |
| Current portion of debt | (35,000) | |
| Accounts payable and other current liabilities | (77,224) | |
| Deferred income taxes | (251,394) | |
| Convertible Notes | (210,749) | |
| Other liabilities | (33,424) | |
| | ----- | |
| Total Purchase Price | \$ 1,055,871 | ===== |

(1) Includes \$140.5 million of acquired cash.

The final allocation of the purchase price will be based on the fair values of the assets acquired and liabilities assumed as determined by third-party valuation. The actual allocation may differ significantly from the preliminary allocation.

The following unaudited pro forma financial information presents the combined results of operations of Citizens and Commonwealth as if the acquisition had occurred at the beginning of each period presented. The historical results of the Company include the results of Commonwealth from the date of acquisition on March 8, 2007. The pro forma information is not necessarily indicative of what the financial position or results of operations actually would have been had the acquisition been completed at the date indicated. In addition, the unaudited pro forma financial information does not purport to project the future financial position or operating results of Citizens after completion of the acquisition.

| | ===== | ===== |

(4) Accounts Receivable:

The components of accounts receivable, net at March 31, 2007 and December 31, 2006 are as follows:

| (\$ in thousands) | March 31, 2007 | December 31, 2006 |
|---------------------------------------|----------------|-------------------|
| ----- | ----- | ----- |
| End user | \$ 224,036 | \$ 273,828 |
| Other | 16,786 | 22,446 |
| Less: Allowance for doubtful accounts | (22,648) | (108,537) |
| | ----- | ----- |
| Accounts receivable, net | \$ 218,174 | \$ 187,737 |
| | ===== | ===== |

The Company maintains an allowance for estimated bad debts based on its estimate of collectibility of its accounts receivable. Bad debt expense, which is recorded as a reduction of revenue, was \$4,904,000 and \$4,373,000 for the three months ended March 31, 2007 and 2006, respectively.

Our allowance for doubtful accounts (and "end user" receivables) declined from December 31, 2006 primarily as a result of the resolution of a carrier dispute. On March 12, 2007, we entered into a settlement agreement with a carrier pursuant to which we were paid \$37.5 million, resulting in a favorable impact on our revenue for the three months ended March 31, 2007 of \$38.7 million.

(5) Property, Plant and Equipment, Net:

Property, plant and equipment at March 31, 2007 and December 31, 2006 are as follows:

| (\$ in thousands) | March 31, 2007 | December 31, 2006 |
|------------------------------------|----------------|-------------------|
| ----- | ----- | ----- |
| Property, plant and equipment | \$ 7,109,325 | \$ 6,685,466 |
| Less: accumulated depreciation | (3,779,638) | (3,701,962) |
| | ----- | ----- |
| Property, plant and equipment, net | \$ 3,329,687 | \$ 2,983,504 |
| | ===== | ===== |

Depreciation expense is principally based on the composite group method. Depreciation expense was \$86,647,000 and \$90,409,000 for the three months ended March 31, 2007 and 2006, respectively.

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

(6) Discontinued Operations:

 On July 31, 2006, we sold our CLEC business, Electric Lightwave, LLC (ELI), for \$255.3 million in cash plus the assumption of approximately \$4.0 million in capital lease obligations. We recognized a pre-tax gain on the sale of ELI of approximately \$116.7 million. Our after-tax gain on the sale was \$71.6 million. Our cash liability for taxes as a result of the sale is expected to be approximately \$5.0 million due to the utilization of existing tax net operating losses on both the federal and state level.

In accordance with SFAS No. 144, any component of our business that we dispose of or classify as held for sale that has operations and cash flows clearly distinguishable from continuing operations for financial reporting purposes, and that will be eliminated from the ongoing operations, should be classified as discontinued operations. Accordingly, we have classified the results of operations of ELI as discontinued operations in our consolidated statement of operations.

Summarized financial information for ELI is set forth below:

| (\$ in thousands) ----- | For the three months ended March 31, 2006 ----- |
|----------------------------|---|
| Revenue | \$ 42,494 |
| Operating income | \$ 10,458 |
| Income taxes | \$ 3,962 |
| Net income | \$ 6,496 |

(7) Other Intangibles:

 Other intangibles at March 31, 2007 and December 31, 2006 are as follows:

| (\$ in thousands) ----- | March 31, 2007 ----- | December 31, 2006 ----- |
|--|-------------------------|----------------------------|
| Customer base - amortizable over 96 months | \$ 1,494,744 | \$ 994,605 |
| Trade name - non-amortizable | 121,919 | 122,058 |
| Other intangibles | 1,616,663 | 1,116,663 |
| Less: Accumulated amortization | (719,843) | (684,310) |
| Total other intangibles, net | \$ 896,820 ===== | \$ 432,353 ===== |

Amortization expense was \$35,534,000 and \$31,595,000 for the three months ended March 31, 2007 and 2006, respectively. Amortization expense for the three months ended March 31, 2007 is comprised of \$31,595,000 for our "base business" and \$3,939,000 for the 23 days of March during which we owned Commonwealth. On a preliminary basis, \$500,000,000 has been allocated to the customer base acquired in the Commonwealth acquisition, with amortization to be based on an eight-year life (\$62,500,000 annually).

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

(8) Long-Term Debt:

 The activity in our long-term debt from December 31, 2006 to March 31, 2007 is as follows:

| (\$ in thousands) | Three months ended March 31, 2007 | | | | | |
|---|-----------------------------------|---------------------|-------------------|--|-----------------------|-------------------|
| | December 31, 2006 | Payments | New Borrowings | Assumed From Commonwealth Acquisition | Interest Rate Swap | Recla |
| FIXED RATE | | | | | | |
| Rural Utilities Service | | | | | | |
| Loan Contracts | \$ 21,886 | \$ (243) | \$ - | \$ - | \$ - | \$ - |
| Senior Unsecured Debt | 4,435,018 | (327,572) | 950,000 | 226,779 | 2,349 | (2,349) |
| EPPICS | 17,860 | - | - | - | - | - |
| Industrial Development Revenue Bonds | 58,140 | - | - | - | - | - |
| TOTAL LONG-TERM DEBT | \$4,532,904 | \$ (327,815) | \$ 950,000 | \$ 226,779 | \$ 2,349 | \$ (2,349) |
| Less: Debt Discount | (32,878) | | | | | |
| Less: Current Portion | (39,271) | | | | | |
| | \$4,460,755 | | | | | |

* Interest rate includes amortization of debt issuance costs, debt premiums or discounts. The interest rates for Rural Utilities Service Loan Contracts, Senior Unsecured Debt, and Industrial Development Revenue Bonds represent a weighted average of multiple issuances.

For the three months ended March 31, 2007, we retired an aggregate principal amount of \$353,376,000 of debt, including \$3,205,000 of 5% Company Obligated Mandatorily Redeemable Convertible Preferred Securities due 2036 (EPPICS) and \$22,356,000 of 3.25% Commonwealth convertible notes that were converted into our common stock. Additionally, as further described below, we temporarily borrowed and repaid \$200 million during the month of March 2007, utilized to temporarily fund our acquisition of Commonwealth. Although this borrowing does not appear in our December 31, 2006 or March 31, 2007 balance sheet, the borrowing and repayment are shown gross in the above table.

During the first quarter of 2006, we entered into two debt-for-debt exchanges of our debt securities. As a result, \$47,500,000 of our 7.625% notes due 2008 were exchanged for approximately \$47,430,000 of our 9.00% notes due 2031. The 9.00% notes are callable on the same general terms and conditions as the 7.625% notes that were exchanged. No cash was exchanged in these transactions. However, a non-cash pre-tax loss of approximately \$2.4 million was recognized in accordance with EITF No. 96-19, "Debtor's Accounting for a Modification or Exchange of Debt Instruments," which is

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

included in other income (loss), net for the three months ended March 31, 2006.

In connection with the acquisition of Commonwealth, we assumed \$35 million of debt under a revolving credit facility and approximately \$192 million face amount of Commonwealth convertible notes (fair value of approximately \$210 million). During March we paid down the \$35 million credit facility and retired approximately \$115 million face amount (for which we paid \$92.2 million in cash and \$22.4 million in common stock) of the convertible notes (premium paid of \$11.2 million and recorded as purchase price). We have received conversion notices and will retire an additional \$68.7 million of Commonwealth notes during the second quarter of 2007, resulting in a remaining outstanding balance of \$8.5 million.

13

On March 23, 2007, we issued in a private placement an aggregate \$300.0 million principal amount of 6.625% Senior Notes due 2015 and \$450.0 million principal amount of 7.125% Senior Notes due 2019. Proceeds from the sale were used to pay down \$200.0 million principal amount of indebtedness borrowed on March 8, 2007 under a bridge loan facility. The bridge loan was established to help fund our acquisition of Commonwealth, and with the pay down the facility was terminated. During the three months ended March 31, 2007, we incurred and expensed approximately \$4.0 million of fees associated with the bridge loan facility. We have filed with the SEC a registration statement for the purpose of exchanging the \$750.0 million in private placement notes described above, in addition to the \$400 million principal amount of 7.875% Senior Notes issued in a private placement on December 22, 2006, for registered notes, and commenced the exchange offer. On April 26, 2007, we redeemed \$495.2 million principal amount of our 7.625% Senior Notes due 2008 at a price of 103.041% plus accrued and unpaid interest, and have classified that debt as a current obligation in our balance sheet as of March 31, 2007.

As of March 31, 2007, EPPICS representing a total principal amount of \$197.1 million have been converted into 15.9 million shares of our common stock. Approximately \$4.2 million of EPPICS, which are convertible into 361,904 shares of our common stock, were outstanding at March 31, 2007. Our long-term debt footnote indicates \$14,655,000 of EPPICS outstanding at March 31, 2007, of which \$10,500,000 is debt of related parties for which the company has an offsetting receivable.

The total outstanding principal amount of industrial development revenue bonds, that are included in long-term debt, was \$58,140,000 at March 31, 2007 and December 31, 2006. The earliest maturity date for these bonds is in August 2015. Under the terms of our agreements to sell our former gas and electric operations in Arizona, completed in 2003, we are obligated to call for redemption, at their first available call dates, three Arizona industrial development revenue bond series aggregating approximately \$33,440,000. The first call dates for these bonds are in 2007. We expect to retire all called bonds with cash. In addition, holders of \$11,150,000 principal amount of industrial development bonds may tender such bonds to us at par and we have the simultaneous option to call such bonds at par on August 7, 2007. We expect to call the bonds and retire them with cash.

As of March 31, 2007, we had available lines of credit with financial institutions in the aggregate amount of \$249.6 million. Outstanding standby letters of credit issued under the facility were \$0.4 million. Associated facility fees vary, depending on our leverage ratio, and were 0.375% per annum as of March 31, 2007. The expiration date for the facility is October 29, 2009. During the term of the credit facility we may borrow, repay and

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

reborrow funds. The credit facility is available for general corporate purposes but may not be used to fund dividend payments.

We are in compliance with all of our debt and credit facility covenants.

14

(9) Net Income Per Common Share:

The reconciliation of the net income per common share calculation for the three months ended March 31, 2007 and 2006, respectively, is as follows:

| (\$ in thousands, except per-share amounts) | For the three months ended March 31, | |
|--|--------------------------------------|-----------|
| | 2007 | 2006 |
| Net income used for basic and diluted earnings | | |
| per common share: | | |
| Income from continuing operations | \$ 67,667 | \$ 43,987 |
| Income from discontinued operations | - | 6,496 |
| Total basic net income available for common shareholders | \$ 67,667 | \$ 50,483 |
| Effect of conversion of preferred securities - EPPICS | 58 | 182 |
| Total diluted net income available for common shareholders | \$ 67,725 | \$ 50,665 |
| Basic earnings per common share: | | |
| Weighted-average shares outstanding - basic | 326,542 | 327,132 |
| Income from continuing operations | \$ 0.21 | \$ 0.13 |
| Income from discontinued operations | - | 0.02 |
| Net income per share available for common shareholders | \$ 0.21 | \$ 0.15 |
| Diluted earnings per common share: | | |
| Weighted-average shares outstanding | 326,542 | 327,132 |
| Effect of dilutive shares | 832 | 960 |
| Effect of conversion of preferred securities - EPPICS | 503 | 1,458 |
| Weighted-average shares outstanding - diluted | 327,877 | 329,550 |
| Income from continuing operations | \$ 0.21 | \$ 0.13 |
| Income from discontinued operations | - | 0.02 |
| Net income per share available for common shareholders | \$ 0.21 | \$ 0.15 |

Stock Options

For the three months ended March 31, 2007 and 2006, options to purchase

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

1,803,000 and 1,960,000 shares, respectively, (at exercise prices ranging from \$12.82 to \$18.46) issuable under employee compensation plans were excluded from the computation of diluted EPS for those periods because the exercise prices were greater than the average market price of common shares and, therefore, the effect would be antidilutive. In calculating diluted EPS we apply the treasury stock method and include future unearned compensation as part of the assumed proceeds.

In addition, for the three months ended March 31, 2007 and 2006, restricted stock awards of 1,409,000 and 1,488,000 shares, respectively, are excluded from our basic weighted average shares outstanding and included in our dilutive shares until the shares are no longer contingent upon the satisfaction of all specified conditions.

EPPICS

As a result of our July 2004 dividend announcement with respect to our common stock, our EPPICS began to convert into shares of our common stock. As of March 31, 2007, approximately 98% of the EPPICS outstanding, or about \$197,101,000 aggregate principal amount of EPPICS, have converted into 15,906,539 shares of our common stock, including shares issued from treasury.

At March 31, 2007, we had 82,977 shares of potentially dilutive EPPICS, which were convertible into our common stock at a 4.3615 to 1 ratio at an exercise price of \$11.46 per share. If all remaining EPPICS are converted, we would issue approximately 361,904 shares of our common stock. These securities have been included in the diluted income per common share calculation for the period ended March 31, 2007.

15

At March 31, 2006, we had 202,991 shares of potentially dilutive EPPICS, which were convertible into our common stock at a 4.3615 to 1 ratio at an exercise price of \$11.46 per share. If all remaining EPPICS are converted we would issue approximately 885,345 shares of our common stock. These securities have been included in the diluted income per common share calculation for the three months ended March 31, 2006.

Stock Units

At March 31, 2007 and 2006, we had 385,178 and 259,320 stock units, respectively, issued under our Non-Employee Directors' Deferred Fee Equity Plan (Deferred Fee Plan), Non-employee Directors' Equity Incentive Plan (Directors' Equity Plan) and Non-Employee Directors' Retirement Plan. These securities have not been included in the diluted income per share of common stock calculation because their inclusion would have had an antidilutive effect.

Share Repurchase Programs

In February 2007, our Board of Directors authorized us to repurchase up to \$250,000,000 of our common stock in public or private transactions over the following twelve-month period. This share repurchase program commenced on March 19, 2007. As of March 31, 2007, we had repurchased 823,000 shares of our common stock at an aggregate cost of approximately \$12,016,000.

(10) Stock Plans:

At March 31, 2007, we had five stock-based compensation plans, which are described below. Prior to the adoption of SFAS No. 123R, we applied APB No.

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

25 and related interpretations to account for our stock plans resulting in the use of the intrinsic value to value the stock and determine compensation expense. Under APB No. 25, we were not required to recognize compensation expense for the cost of stock options. In accordance with the adoption of SFAS No. 123R, we recorded stock-based compensation expense for the cost of stock options, restricted shares and stock units issued pursuant to the Management Equity Incentive Plan (MEIP), the 1996 Equity Incentive Plan (1996 EIP), the Amended and Restated 2000 Equity Incentive Plan (2000 EIP), the Deferred Fee Plan and the Directors' Equity Plan. Our general policy is to issue shares upon the grant of restricted shares and exercise of options from treasury. At March 31, 2007, there were 16,058,182 shares authorized for grant under these plans and 5,233,978 shares available for grant. No further awards may be granted under the MEIP, the 1996 EIP or the Deferred Fee Plan.

Management Equity Incentive Plan

Prior to its expiration on June 21, 2000, awards of our common stock could have been granted under the MEIP to eligible officers, management employees and non-management employees in the form of incentive stock options, non-qualified stock options, stock appreciation rights (SARs), restricted stock or other stock-based awards.

Since the expiration of the MEIP, no awards have been or may be granted under the MEIP. The exercise price of stock options issued was equal to or greater than the fair market value of the underlying common stock on the date of grant. Stock options were not ordinarily exercisable on the date of grant but vest over a period of time (generally 4 years). Under the terms of the MEIP, subsequent stock dividends and stock splits have the effect of increasing the option shares outstanding, which correspondingly decreases the average exercise price of outstanding options.

1996 and 2000 Equity Incentive Plans

Since the expiration date of the 1996 EIP on May 22, 2006, no awards have been or may be granted under the 1996 EIP. Under the 2000 EIP, awards of our common stock may be granted to eligible officers, management employees and non-management employees in the form of incentive stock options, non-qualified stock options, SARs, restricted stock or other stock-based awards. As discussed under the Non-Employee Directors' Compensation Plans below, prior to May 25, 2006 non-employee directors received an award of stock options under the 2000 EIP upon commencement of service.

At March 31, 2007, there were 13,517,421 shares authorized for grant under the 2000 EIP and 2,813,787 shares available for grant, as adjusted to reflect stock dividends. No awards will be granted more than 10 years after the effective date (May 18, 2000) of the 2000 EIP. The exercise price of stock options and SARs under the 2000 and 1996 EIP generally shall be equal to or greater than the fair market value of the underlying common stock on the date of grant. Stock options are not ordinarily exercisable on the date of grant but vest over a period of time (generally 4 years).

16

Under the terms of the EIPs, subsequent stock dividends and stock splits have the effect of increasing the option shares outstanding, which correspondingly decrease the average exercise price of outstanding options.

The following summary presents information regarding outstanding stock options as of March 31, 2007 and changes during the three months then ended with regard to options under the MEIP and the EIPs:

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

| | Shares Subject to Option | Weighted Average Option Price Per Share | Weighted Average Remaini Life in Y |
|---------------------------------------|--------------------------------|--|---|
| Balance at January 1, 2007 | 5,242,000 | \$12.41 | |
| Options granted | - | - | |
| Options exercised | (488,000) | \$ 9.83 | |
| Options canceled, forfeited or lapsed | (9,000) | \$12.56 | |
| Balance at March 31, 2007 | 4,745,000 | \$12.68 | 4.17 |
| Exercisable at March 31, 2007 | 4,303,000 | \$12.89 | 3.95 |

There were no options granted during the first three months of 2007. Cash received upon the exercise of options during the first three months of 2007 totaled \$5,119,000. Total remaining unrecognized compensation cost associated with unvested stock options at March 31, 2007 was \$340,000 and the weighted average period over which this cost is expected to be recognized is approximately one year.

The total intrinsic value of stock options exercised during the first three months of 2006 was \$3,146,000. The total intrinsic value of stock options outstanding and exercisable at March 31, 2006 was \$16,683,000 and \$11,783,000, respectively. There were no option grants made during the first three months of 2006. Cash received upon the exercise of options during the first three months of 2006 totaled \$9,452,000.

For purposes of determining compensation expense, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model which requires the use of various assumptions including expected life of the option, expected dividend rate, expected volatility, and risk-free interest rate. The expected life (estimated period of time outstanding) of stock options granted was estimated using the historical exercise behavior of employees. The risk free interest rate is based on the U.S. Treasury yield curve in effect at the time of the grant. Expected volatility is based on historical volatility for a period equal to the stock option's expected life, calculated on a monthly basis.

The following table presents the weighted average assumptions used for grants in fiscal 2006:

| | 2006 |
|-------------------------|---------|
| Dividend yield | 7.55% |
| Expected volatility | 44% |
| Risk-free interest rate | 4.89% |
| Expected life | 5 years |

The following summary presents information regarding unvested restricted stock as of March 31, 2007 and changes during the three months then ended with regard to restricted stock under the MEIP and the EIPs:

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

| | Number of Shares | Weighted Average Grant Date Fair Value | Aggregate Fair Value at March 31, 2007 |
|----------------------------|---------------------|---|---|
| Balance at January 1, 2007 | 1,174,000 | \$12.89 | |
| Restricted stock granted | 691,000 | \$15.08 | \$10,325,000 |
| Restricted stock vested | (456,000) | \$12.74 | \$ 6,801,000 |
| Restricted stock forfeited | - | - | |
| Balance at March 31, 2007 | 1,409,000 | \$14.02 | \$21,069,000 |

For purposes of determining compensation expense, the fair value of each restricted stock grant is estimated based on the average of the high and low market price of a share of our common stock on the date of grant. Total remaining unrecognized compensation cost associated with unvested restricted stock awards at March 31, 2007 was \$18,527,000 and the weighted average period over which this cost is expected to be recognized is approximately three years.

The total fair value of shares granted and vested during the three months ended March 31, 2006 was approximately \$9,027,000 and \$6,923,000, respectively. The total fair value of unvested restricted stock at March 31, 2006 was \$19,752,000. The weighted average grant-date fair value of restricted shares granted during the three months ended March 31, 2006 was \$12.83. Shares granted during the first three months of 2006 totaled 680,000.

Non-Employee Directors' Compensation Plans

Upon commencement of his or her service on the Board of Directors, each non-employee director receives a grant of 10,000 stock options. These options are currently awarded under the Directors' Equity Plan. Prior to effectiveness of the Directors' Equity Plan on May 25, 2006, these options were awarded under the 2000 EIP. The exercise price of these options, which become exercisable six months after the grant date, is the fair market value (as defined in the relevant plan) of our common stock on the date of grant. Options granted under the Directors' Equity Plan expire on the earlier of the tenth anniversary of the grant date or the first anniversary of termination of service as a director. Options granted under the 2000 EIP expire on the tenth anniversary of the grant date.

Each non-employee director also receives an annual grant of 3,500 stock units. These units are currently awarded under the Directors' Equity Plan and prior to effectiveness of that plan, were awarded under the Deferred Fee Plan. Since the effectiveness of the Directors' Equity Plan, no further grants have been made under the Deferred Fee Plan. Prior to April 20, 2004, each non-employee director received an award of 5,000 stock options. The exercise price of such options was set at 100% of the fair market value on the date the options were granted. The options are exercisable six months after the grant date and remain exercisable for ten years after the grant date.

In addition, each year, each non-employee director is also entitled to receive a retainer, meeting fees, and, when applicable, fees for serving as a committee chair or as Lead Director, which are awarded under the Directors' Equity Plan. For 2007, each non-employee director had to elect, by December 31 of the preceding year, to receive \$40,000 cash or 5,760 stock units as an annual retainer and to receive meeting fees and lead

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

director and committee chair stipends in the form of cash or stock units. Directors making a stock unit election must also elect to convert the units to either common stock (convertible on a one-to-one basis) or cash upon retirement or death. Prior to June 30, 2003, a director could elect to receive 20,000 stock options as an annual retainer in lieu of cash or stock units. The exercise price of the stock options was set at the average of the high and low market prices of our common stock on the date of grant. The options were exercisable six months after the date of grant and had a 10-year term.

The number of shares of common stock authorized for issuance under the Directors' Equity Plan is 2,540,761, which includes 540,761 shares that were available for grant under the Deferred Fee Plan on the effective date of the Directors' Equity Plan. In addition, if and to the extent that any "plan units" outstanding on May 25, 2006 under the Deferred Fee Plan are forfeited, or if any option granted under the Deferred Fee Plan terminates, expires, or is cancelled or forfeited, without having been fully exercised, shares of common stock subject to such "plan units" or options cancelled shall become available under the Directors' Equity Plan. At March 31, 2007, there were 2,420,191 shares available for grant. There were 13 directors participating in the directors' plans during the first quarter of 2007. In the first three months of 2007, total plan units earned were 65,754. At March 31, 2007, 205,925 options were exercisable at a weighted average exercise price of \$12.22.

18

We account for the Deferred Fee Plan and the Directors' Equity Plan in accordance with SFAS No. 123R. To the extent directors elect to receive the distribution of their stock unit accounts in cash, they are considered liability-based awards. To the extent directors elect to receive the distribution of their stock unit accounts in common stock, they are considered equity-based awards. Compensation expense for stock units that are considered equity-based awards is based on the market value of our common stock at the date of grant. Compensation expense for stock units that are considered liability-based awards is based on the market value of our common stock at the end of each period. For awards granted prior to 1999, a director could elect to be paid in stock options. Generally, compensation cost was not recorded because the options were granted at the fair market value of our common stock on the grant date under APB No. 25 and related interpretations.

We had also maintained a Non-Employee Directors' Retirement Plan providing for the payment of specified sums annually to our non-employee directors, or their designated beneficiaries, starting at the director's retirement, death or termination of directorship. In 1999, we terminated this Plan. The vested benefit of each non-employee director, as of May 31, 1999, was credited to the director's account in the form of stock units. Such benefit will be payable to each director upon retirement, death or termination of directorship. Each participant had until July 15, 1999 to elect whether the value of the stock units awarded would be payable in our common stock (convertible on a one-for-one basis) or in cash. As of March 31, 2007, the liability for such payments was approximately \$700,000, all of which will be payable in stock (based on the July 15, 1999 stock price).

(11) Segment Information:

As of January 1, 2007, we operate in one reportable segment, Frontier. Frontier provides both regulated and unregulated communications services to residential, business and wholesale customers and is typically the incumbent provider in its service areas.

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

As permitted by SFAS No. 131, we have utilized the aggregation criteria in combining our markets because all of our Frontier properties share similar economic characteristics, in that they provide the same products and services to similar customers using comparable technologies in all of the states in which we operate. The regulatory structure is generally similar. Differences in the regulatory regime of a particular state do not materially impact the economic characteristics or operating results of a particular property.

(12) Derivative Instruments and Hedging Activities:

 Interest rate swap agreements are used to hedge a portion of our debt that is subject to fixed interest rates. Under our interest rate swap agreements, we agree to pay an amount equal to a specified variable rate of interest times a notional principal amount, and to receive in return an amount equal to a specified fixed rate of interest times the same notional principal amount. The notional amounts of the contracts are not exchanged. No other cash payments are made unless the agreement is terminated prior to maturity, in which case the amount paid or received in settlement is established by agreement at the time of termination and represents the market value, at the then current rate of interest, of the remaining obligations to exchange payments under the terms of the contracts.

The interest rate swap contracts are reflected at fair value in our consolidated balance sheets and the related portion of fixed-rate debt being hedged is reflected at an amount equal to the sum of its book value and an amount representing the change in fair value of the debt obligations attributable to the interest rate risk being hedged. Changes in the fair value of interest rate swap contracts, and the offsetting changes in the adjusted carrying value of the related portion of the fixed rate debt being hedged, are recognized in the consolidated statements of operations in interest expense. The notional amounts of interest rate swap contracts hedging fixed-rate indebtedness as of March 31, 2007 and December 31, 2006 were \$550,000,000. Such contracts require us to pay variable rates of interest (average pay rates of approximately 8.96% as of March 31, 2007 and approximately 9.02% as of December 31, 2006) and receive fixed rates of interest (average receive rates of 8.26% as of March 31, 2007 and December 31, 2006). The fair value of these derivatives is reflected in other liabilities as of March 31, 2007 and December 31, 2006, in the amount of (\$7,940,000) and (\$10,289,000), respectively. The related underlying debt has been decreased by a like amount. For the three months ended March 31, 2007, the interest expense resulting from these interest rate swaps totaled \$1,266,000.

19

We do not anticipate any nonperformance by counter-parties to our derivative contracts as all counter-parties have investment grade credit ratings.

(13) Investment and Other Income (Loss), Net:

 The components of investment and other income (loss), net are as follows:

| (\$ in thousands) | For the three months ended March 31, | |
|------------------------------|--------------------------------------|----------|
| | 2007 | 2006 |
| Interest and dividend income | \$ 14,526 | \$ 3,806 |
| Bridge loan fee | (4,026) | - |

| | ----- | ----- |
| Total investment and other income (loss), net | \$ 10,017 | \$ (1,351) |
| | ===== | ===== |

(14) Company Obligated Mandatorily Redeemable Convertible Preferred Securities:

In 1996, our consolidated wholly owned subsidiary, Citizens Utilities Trust (the Trust), issued, in an underwritten public offering, 4,025,000 shares of EPPICS, representing preferred undivided interests in the assets of the Trust, with a liquidation preference of \$50 per security (for a total liquidation amount of \$201,250,000). These securities convert into our common stock at an adjusted conversion price of \$11.46 per share of our common stock. The conversion price was reduced from \$13.30 to \$11.46 during the third quarter of 2004 as a result of the \$2.00 per share of common stock special, non-recurring dividend. The proceeds from the issuance of the Trust Convertible Preferred Securities and a Company capital contribution were used to purchase \$207,475,000 aggregate liquidation amount of 5% Partnership Convertible Preferred Securities due 2036 from another wholly owned subsidiary, Citizens Utilities Capital L.P. (the Partnership). The proceeds from the issuance of the Partnership Convertible Preferred Securities and a Company capital contribution were used to purchase from us \$211,756,000 aggregate principal amount of 5% Convertible Subordinated Debentures due 2036. The sole assets of the Trust are the Partnership Convertible Preferred Securities, and our Convertible Subordinated Debentures are substantially all the assets of the Partnership. Our obligations under the agreements related to the issuances of such securities, taken together, constitute a full and unconditional guarantee by us of the Trust's obligations relating to the Trust Convertible Preferred Securities and the Partnership's obligations relating to the Partnership Convertible Preferred Securities.

In accordance with the terms of the issuances, we paid the annual 5% interest in quarterly installments on the Convertible Subordinated Debentures in the first quarter of 2007 and the four quarters of 2006. Cash was paid (net of investment returns) to the Partnership in payment of the interest on the Convertible Subordinated Debentures. The cash was then distributed by the Partnership to the Trust and then by the Trust to the holders of the EPPICS.

As of March 31, 2007, EPPICS representing a total principal amount of \$197,101,000 have been converted into 15,906,633 shares of our common stock. A total of approximately \$4,149,000 of EPPICS is outstanding as of March 31, 2007 and if all outstanding EPPICS were converted, 361,904 shares of our common stock would be issued upon such conversion. Our long-term debt footnote indicates \$14,655,000 of EPPICS outstanding at March 31, 2007, of which \$10,500,000 is debt of related parties for which the company has an offsetting receivable.

20

(15) Retirement Plans:

We expect that our pension and other postretirement benefit expenses, including the costs associated with our recently acquired Commonwealth plans, for 2007 will be between \$14,000,000 and \$17,000,000, and that no contribution will be required to be made by us to the pension plan in 2007.

(16) Commitments and Contingencies:

We anticipate capital expenditures of approximately \$315,000,000 - \$325,000,000 for 2007. Although we from time to time make short-term purchasing commitments to vendors with respect to these expenditures, we generally do not enter into firm, written contracts for such activities.

The City of Bangor, Maine, filed suit against us on November 22, 2002, in the U.S. District Court for the District of Maine (City of Bangor v. Citizens Communications Company, Civ. Action No. 02-183-B-S). The City alleged, among other things, that we are responsible for the costs of cleaning up environmental contamination alleged to have resulted from the operation of a manufactured gas plant owned by Bangor Gas Company from 1852-1948 and by us from 1948-1963. In acquiring the operation in 1948 we acquired the stock of Bangor Gas Company and merged it into us. The City alleged the existence of extensive contamination of the Penobscot River and initially asserted that money damages and other relief at issue in the lawsuit could exceed \$50,000,000. The City also requested that punitive damages be assessed against us. We filed an answer denying liability to the

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

City, and asserted a number of counterclaims against the City. In addition, we identified a number of other potentially responsible parties that may be liable for the damages alleged by the City and joined them as parties to the lawsuit. These additional parties include UGI Utilities, Inc. and Centerpoint Energy Resources Corporation. The Court dismissed all but two of the City's claims, including its claims for joint and several liability under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the claim against us for punitive damages.

21

On June 27, 2006, the court issued Findings of Fact and Conclusions of Law in the first phase of the case. The court found contamination in only a small section of the River and determined that Citizens and the City should share cleanup costs 60% and 40%, respectively. The precise nature of the remedy in this case remains to be determined by subsequent proceedings. However, based upon the Court's ruling, we believed that we would be responsible for only a portion of the cost to clean up and the final resolution of this matter would not be material to the operating results nor the financial condition of the Company.

Subsequent to the June 27, 2006 findings, we began settlement discussions with the City, with participation from the State of Maine. In January 2007, we reached an agreement in principle to settle the matter for a payment by us of \$7,625,000. The Bangor City Council approved the settlement terms, and a settlement agreement was executed by the City and Citizens. We have also executed a Consent Decree with the City and the State that was submitted to the Court on April 11, 2007 with a request that it be entered following a 30-day period of public review and comment. Completion of this settlement remains contingent upon final approval of this Consent Decree by the Court. If the settlement of this matter does not become effective, we intend to (i) seek relief from the Court in connection with the adverse aspects of the Court's opinion and (ii) continue pursuing our right to obtain contribution from the third parties against whom we have commenced litigation in connection with this case. In addition, we have demanded that various of our insurance carriers defend and indemnify us with respect to the City's lawsuit, and on December 26, 2002, we filed a declaratory judgment action against those insurance carriers in the Superior Court of Penobscot County, Maine, for the purpose of establishing their obligations to us with respect to the City's lawsuit. We intend to vigorously pursue this lawsuit and to obtain from our insurance carriers indemnification for any damages that may be assessed against us in the City's lawsuit as well as to recover the costs of our defense of that lawsuit. We cannot at this time determine what amount we may recover from third parties or insurance carriers.

On June 7, 2004, representatives of Robert A. Katz Technology Licensing, LP, contacted us regarding possible infringement of several patents held by that firm. The patents cover a wide range of operations in which telephony is supported by computers, including obtaining information from databases via telephone, interactive telephone transactions, and customer and technical support applications. We were cooperating with the patent holder to determine if we are using or have used any of the processes that are protected by its patents but received no correspondence in this regard from late 2004 through January 2007. During 2007, we received letters from counsel to Katz Technology asking to meet with us to discuss Katz Technology's continuing offer of a license under Katz Technology's patents. We will continue to investigate whether we are utilizing Katz Technology's patented technology, and discuss Katz Technology's license offer with new Katz counsel as appropriate.

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

On June 24, 2004, one of our subsidiaries, Frontier Subsidiary Telco, Inc., received a "Notice of Indemnity Claim" from Citibank, N.A., that is related to a complaint pending against Citibank and others in the U.S. Bankruptcy Court for the Southern District of New York as part of the Global Crossing bankruptcy proceeding. Citibank bases its claim for indemnity on the provisions of a credit agreement that was entered into in October 2000 between Citibank and our subsidiary. We purchased Frontier Subsidiary Telco, Inc., in June 2001 as part of our acquisition of the Frontier telephone companies. The complaint against Citibank, for which it seeks indemnification, alleges that the seller improperly used a portion of the proceeds from the Frontier transaction to pay off the Citibank credit agreement, thereby defrauding certain debt holders of Global Crossing North America Inc. Although the credit agreement was paid off at the closing of the Frontier transaction, Citibank claims the indemnification obligation survives. Damages sought against Citibank and its co-defendants could exceed \$1,000,000,000. In August 2004, we notified Citibank by letter that we believe its claims for indemnification are invalid and are not supported by applicable law. In 2005, Citibank moved to dismiss the underlying complaint against it. That motion is currently pending. We have received no further communications from Citibank since our August 2004 letter.

We are party to other legal proceedings arising in the normal course of our business. The outcome of individual matters is not predictable. However, we believe that the ultimate resolution of all such matters, after considering insurance coverage, will not have a material adverse effect on our financial position, results of operations, or our cash flows.

22

We sold all of our utility businesses as of April 1, 2004. However, we have retained a potential payment obligation associated with our previous electric utility activities in the state of Vermont. The Vermont Joint Owners (VJO), a consortium of 14 Vermont utilities, including us, entered into a purchase power agreement with Hydro-Quebec in 1987. The agreement contains "step-up" provisions that state that if any VJO member defaults on its purchase obligation under the contract to purchase power from Hydro-Quebec the other VJO participants will assume responsibility for the defaulting party's share on a pro-rata basis. Our pro-rata share of the purchase power obligation is 10%. If any member of the VJO defaults on its obligations under the Hydro-Quebec agreement, then the remaining members of the VJO, including us, may be required to pay for a substantially larger share of the VJO's total power purchase obligation for the remainder of the agreement (which runs through 2015). Paragraph 13 of FIN No. 45 requires that we disclose "the maximum potential amount of future payments (undiscounted) the guarantor could be required to make under the guarantee." Paragraph 13 also states that we must make such disclosure "... even if the likelihood of the guarantor's having to make any payments under the guarantee is remote..." As noted above, our obligation only arises as a result of default by another VJO member, such as upon bankruptcy. Therefore, to satisfy the "maximum potential amount" disclosure requirement we must assume that all members of the VJO simultaneously default, a highly unlikely scenario given that the two members of the VJO that have the largest potential payment obligations are publicly traded with credit ratings equal to or superior to ours, and that all VJO members are regulated utility providers with regulated cost recovery. Regardless, despite the remote chance that such an event could occur, or that the State of Vermont could or would allow such an event, assuming that all the members of the VJO defaulted on January 1, 2008 and remained in default for the duration of the contract (another 8 years), we estimate that our undiscounted purchase obligation for 2008 through 2015 would be approximately \$1.1 billion. In such a scenario the Company would then own

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

the power and could seek to recover its costs. We would do this by seeking to recover our costs from the defaulting members and/or reselling the power to other utility providers or the northeast power grid. There is an active market for the sale of power. We could potentially lose money if we were unable to sell the power at cost. We caution that we cannot predict with any degree of certainty any potential outcome.

(17) Subsequent Events:

As the result of our call of all of our 7.625% Senior Notes due 2008, we terminated three interest rate swaps involving an aggregate \$150,000,000 notional amount of indebtedness. Payments on the swap terminations of approximately \$1.0 million will be made in the second quarter of 2007.

23

Item 2. Management's Discussion and Analysis of Financial Condition and Results ----- of Operations -----

Forward-Looking Statements -----

This quarterly report on Form 10-Q contains forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the statements. Statements that are not historical facts are forward-looking statements made pursuant to the "Safe Harbor" provisions of the Private Securities Litigation Reform Act of 1995. Words such as "believes," "anticipates," "expects" and similar expressions are intended to identify forward-looking statements. Forward-looking statements (including oral representations) are only predictions or statements of current plans, which we review continuously. Forward-looking statements may differ from actual future results due to, but not limited to, and our future results may be materially affected by, any of the following possibilities:

- * Our ability to successfully integrate Commonwealth's operations and to realize the synergies from the acquisition;
- * Changes in the number of our revenue generating units, which consists of access lines plus high-speed internet subscribers;
- * The effects of competition from wireless, other wireline carriers (through voice over internet protocol (VOIP) or otherwise), high-speed cable modems and cable telephony;
- * The effects of greater than anticipated competition requiring new pricing, marketing strategies or new product offerings and the risk that we will not respond on a timely or profitable basis;
- * The effects of general and local economic and employment conditions on our revenues;
- * Our ability to effectively manage service quality;
- * Our ability to successfully introduce new product offerings, including our ability to offer bundled service packages on terms that are both profitable to us and attractive to our customers;

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

- * Our ability to sell enhanced and data services in order to offset ongoing declines in revenue from local services, switched access services and subsidies;
- * Changes in accounting policies or practices adopted voluntarily or as required by generally accepted accounting principles or regulators;
- * The effects of changes in regulation in the communications industry as a result of federal and state legislation and regulation, including potential changes in access charges and subsidy payments, and regulatory network upgrade and reliability requirements;
- * Our ability to comply with federal and state regulation (including state rate of return limitations on our earnings) and our ability to successfully renegotiate state regulatory plans as they expire or come up for renewal from time to time;
- * Our ability to manage our operations, operating expenses and capital expenditures, to pay dividends and to reduce or refinance our debt;
- * Adverse changes in the ratings given to our debt securities by nationally accredited ratings organizations, which could limit or restrict the availability and/or increase the cost of financing;
- * The effects of bankruptcies in the telecommunications industry, which could result in potential bad debts;

24

- * The effects of technological changes and competition on our capital expenditures and product and service offerings, including the lack of assurance that our ongoing network improvements will be sufficient to meet or exceed the capabilities and quality of competing networks;
- * The effects of increased medical, retiree and pension expenses and related funding requirements;
- * Changes in income tax rates, tax laws, regulations or rulings, and/or federal or state tax assessments;
- * The effects of state regulatory cash management policies on our ability to transfer cash among our subsidiaries and to the parent company;
- * Our ability to successfully renegotiate expiring union contracts;
- * Our ability to pay a \$1.00 per common share dividend annually may be affected by our cash flow from operations, amount of capital expenditures, debt service requirements, cash paid for income taxes (which will increase in the future) and our liquidity;
- * The effects of utilizing our Federal and state net operating loss carry forwards and AMT tax credit carry forwards which will significantly increase our cash taxes in 2007 and beyond;
- * The effects of any future liabilities or compliance costs in connection with worker health and safety matters;
- * The effects of any unfavorable outcome with respect to any of our current or future legal, governmental, or regulatory proceedings, audits or disputes; and

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

- * The effects of more general factors, including changes in economic, business and industry conditions.

Any of the foregoing events, or other events, could cause financial information to vary from management's forward-looking statements included in this report. You should consider these important factors, as well as the risks set forth under Item 1A. "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2006, in evaluating any statement in this report on Form 10-Q or otherwise made by us or on our behalf. The following information is unaudited and should be read in conjunction with the consolidated financial statements and related notes included in this report. We have no obligation to update or revise these forward-looking statements.

Overview

We are a full-service communications provider and one of the largest exchange telephone carriers in the country. We offer our incumbent local exchange carrier (ILEC) services under the "Frontier" name. On July 31, 2006, we sold our competitive local exchange carrier (CLEC), Electric Lightwave, LLC (ELI). We are accounting for ELI as a discontinued operation in our consolidated statements of operations. On March 8, 2007, we completed the acquisition of Commonwealth Telephone Enterprises, Inc. This acquisition expands our presence in Pennsylvania and strengthens our position as a market-leading full-service communications provider to rural markets.

Competition in the telecommunications industry is intense and increasing. We experience competition from many telecommunications service providers, including cable operators, wireless carriers, voice over internet protocol (VOIP) providers, long distance providers, competitive local exchange carriers, internet providers and other wireline carriers. We believe that competition will continue to intensify in 2007 across all of our products and in all of our markets. Our Frontier business experienced erosion in access lines and switched access minutes in 2006 as a result of competition. Competition in our markets may result in reduced revenues in 2007.

The communications industry is undergoing significant changes. The market is extremely competitive, resulting in lower prices. These trends are likely to continue and result in a challenging revenue environment. These factors could also result in more bankruptcies in the sector and, therefore, affect our ability to collect money owed to us by carriers.

25

Revenues from data and internet services such as high-speed internet continue to increase as a percentage of our total revenues and revenues from services such as local line and access charges, and subsidies are decreasing as a percentage of our revenues. These factors, along with the potential for increasing operating costs, could cause our profitability and our cash generated by operations to decrease.

a) Liquidity and Capital Resources

Cash Flow from Operating Activities

As of March 31, 2007, we had cash and cash equivalents aggregating \$1.04 billion. Our primary source of funds continues to be cash generated from operations. For the three months ended March 31, 2007, we used cash flow from continuing operations and cash and cash equivalents to fund a significant

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

portion of the acquisition of Commonwealth, capital expenditures, dividends, interest payments, debt repayments and stock repurchases.

We believe our operating cash flows, existing cash balances, and credit facility will be adequate to finance our working capital requirements, fund capital expenditures, make required debt payments through 2008, pay taxes, pay dividends to our shareholders in accordance with our dividend policy and support our short-term and long-term operating strategies. We have approximately \$569.2 million and \$2.5 million of debt maturing in 2007 and 2008, respectively.

A number of factors, including but not limited to, losses of access lines, increases in competition and lower subsidy and access revenues are expected to reduce our cash generated by operations and may require us to increase capital expenditures. Our below investment grade credit ratings may make it more difficult and expensive to refinance our maturing debt. We have in recent years paid relatively low amounts of cash taxes. We expect that in 2007 and beyond our cash taxes will increase substantially as our Federal and state net operating loss carry forwards and AMT tax credit carry forwards are estimated to be fully utilized during 2007 and 2008.

Cash Flow from Investing Activities

Acquisition

On March 8, 2007, we acquired Commonwealth in a cash-and-stock taxable transaction, for a total consideration of approximately \$1.1 billion. At closing we paid \$790.0 million in cash (\$649.5 million net, after cash acquired), issued common stock with a value of \$246.2 million and accrued \$19.7 million of closing costs.

In connection with the acquisition of Commonwealth, we assumed \$35 million of debt under a revolving credit facility and \$192 million face amount of Commonwealth convertible notes (fair value of \$210 million). During March 2007, we paid down the \$35 million credit facility and retired \$115 million face amount (for which we paid \$92.2 million in cash and \$22.4 million in common stock) of the convertible notes (premium paid of \$11.2 million and recorded as purchase price). We have received conversion notices and will retire an additional \$68.7 million of Commonwealth notes during the second quarter of 2007, resulting in a remaining outstanding balance of \$8.5 million.

Capital Expenditures

For the three months ended March 31, 2007, our capital expenditures were \$45.1 million. We continue to closely scrutinize all of our capital projects, emphasize return on investment and focus our capital expenditures on areas and services that have the greatest opportunities with respect to revenue growth and cost reduction. We anticipate capital expenditures of approximately \$315.0 million - \$325.0 million for 2007.

Increasing competition and improving the capabilities or reducing the maintenance costs of our plant may cause our capital expenditures to increase in the future. Our capital expenditures planned for new services such as wireless and VOIP in 2007 are not material. However, based on the success of our planned roll-out of these products that began in late 2006, our capital expenditures for these products may increase in the future.

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 10-Q

Debt Reduction and Debt Exchanges

For the three months ended March 31, 2007, we retired an aggregate principal amount of \$353.4 million of debt, including \$3.2 million of 5% Company Obligated Mandatorily Redeemable Convertible Preferred Securities (EPPICS). Our debt repayments relate primarily to our acquisition of Commonwealth. During the first quarter of 2007, we borrowed and repaid \$200 million utilized to temporarily fund the acquisition, we paid down the \$35 million Commonwealth credit facility and retired \$115 million face amount of Commonwealth convertible notes for which we paid \$92.2 million in cash and \$22.4 million in common stock.

We may from time to time repurchase our debt in the open market, through tender offers, exchanges of debt securities, by exercising rights to call or privately negotiated transactions. We may also exchange existing debt for newly issued debt obligations.

Issuance of Debt Securities

On March 23, 2007, we issued in a private placement an aggregate \$300.0 million principal amount of 6.625% Senior Notes due 2015 and \$450.0 million principal amount of 7.125% Senior Notes due 2019. Proceeds from the sale were used to refinance \$200.0 million principal amount of indebtedness incurred on March 8, 2007 under a bridge loan facility in connection with the acquisition of Commonwealth. We have filed with the SEC a registration statement for the purpose of exchanging the \$750 million in private placement notes described above, in addition to the \$400 million principal amount of 7.875% Senior Notes issued in a private placement on December 22, 2006, for registered notes, and commenced the exchange offer. On April 26, 2007, we redeemed \$495.2 million principal amount of our 7.625% Senior Notes due 2008 at a price of 103.041% plus accrued and unpaid interest.

EPPICS

In 1996, our consolidated wholly owned subsidiary, Citizens Utilities Trust (the Trust), issued, in an underwritten public offering, 4,025,000 shares of 5% Company Obligated Mandatorily Redeemable Convertible Preferred Securities due 2036 (Trust Convertible Preferred Securities or EPPICS), representing preferred
