Notes to the Unaudited Financial Statements

Note 1: Financial Statements.

The financial data presented herein is unaudited, but in the opinion of management reflect those adjustments necessary for a fair presentation of the results of operations and financial condition of Enercorp, Inc. Results of interim periods should not be considered indicative of results for a full year. Reference should be made to the financial statements contained in our Annual Report on Form 10-K for the year ended June 30, 2007. For purposes of this report, "Enercorp", the "Company", "we", "our", "us" or similar references mean Enercorp, Inc., unless the context requires otherwise.

Note 2. Investments

The Company owns 9,501,751 shares of a related party, CompuSonics Video Corporation (CPVD), which were trading publicly at \$0.001 per share as of March 31, 2008. Subsequent to March 31, 2008 this investment was trading at \$0.0008 per share. Management deemed this decline to be permanent. This investment has been permanently written down by \$94,050 to reflect the significant decline in its fair market value. Mr. Parlatore, director of the Company, is also a member of the Board of Directors of CPVD.

Note 3: Related party transactions

Consistent with its objective of long-term capital appreciation, a Business Development Company consults with its investees with respect to obtaining capital and offers managerial assistance to selected businesses that, in the opinion of the Company's Management, have a significant potential for growth. Therefore, by definition, this activity creates related party transactions.

Enercorp has an agreement with Acrodyne Corporation to pay a \$2,500 per month management fee for office space and services including accounting and financial reporting. The Company paid \$86,500 of management fees to Acrodyne Corporation during the nine-month period ended March 31, 2008. The balance of accrued fees due to Acrodyne Corporation was \$3,500 as of March 31, 2008. Acrodyne and Enercorp share the same office space and have common ownership.

Enercorp made \$2,689 and \$7,000 of interest and principal payments, respectively, on the note payable to Quorum Capital, Inc. during the nine-month period ended March 31, 2008. Also, during the same period Enercorp made interest payments of \$1,981 to TICO, a Michigan partnership, \$2,567 to First Equity Corporation. Terms and conditions of these notes were approved by the independent board of directors of Enercorp. All of the above related companies share the same office space with Enercorp and have common ownership.

In addition, Enercorp made interest and principal payments of \$5,138 and \$59,932, respectively, on the note payable to Brett Homovec during the nine month period ended March 31, 2008. The Company recorded a \$90,000 note payable to Brett Homovec for the services rendered during the year ended June 30, 2006. Mr. Homovec was serving

as an independent consultant before his election as President and COO of the Company on June 30, 2006. He currently only serves on the Board of Directors. This note bears interest at 7%, and is payable on demand.

Note 4: Liabilities

The following schedule represents detailed liabilities as of March 31, 2008 and June 30, 2007:

	March 31, 2008	June 30, 2007

Interest payable - Brett Homovec	2,626	6,162
Interest payable other	83,458	66,318
	\$ 89,484	\$ 80,005

The notes payable of \$325,000 are short term notes at 7% interest. The creditors related to these notes have not demanded any payments on the notes nor the interest accrued on the notes. These investors are willing to extend the terms of the notes, or convert the notes to equity.

The notes payable to related parties are all short term notes at 7% interest. Related parties have continuously supported the operations of Enercorp by extending the terms of the notes, and/or lending additional funds to Enercorp.

Note 5: Recently Enacted Pronouncements

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities- Including an amendment of FASB Statement No. 115. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments.

This Statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. This Statement does not affect any existing accounting literature that requires certain assets and liabilities to be carried at fair value. This Statement does not establish requirements for recognizing and measuring dividend income, interest income, or interest expense. This Statement does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in SFAS No. 157. This statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the fiscal year that begins on or before November 15, 2007. The implementation of SFAS No. 159 is not expected to have a material impact on the Company's results of operations and financial condition.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations, and SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. SFAS No. 141(R) requires an acquirer to measure the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree at their fair values on the acquisition date, with goodwill being the excess value over the net identifiable assets acquired. SFAS No. 160 clarifies that a noncontrolling interest in a subsidiary should be reported as equity in the consolidated financial statements. The calculation of earnings per share will continue to be based on income amounts attributable to the parent. SFAS No. 141(R) and SFAS No. 160 are effective for financial statements issued for fiscal years beginning after December 15, 2008. Early adoption is prohibited. The Company has not yet determined the effect on our consolidated financial statements, if any, upon adoption of SFAS No. 141(R) or SFAS No. 160.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements - an Amendment of ARB No. 51 (SFAS 160), which establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS No. 160 also requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest. It also requires disclosure, on the face of the consolidated statement of income, of the amounts of consolidated net income attributable to the parent and to the noncontrolling interest. SFAS No. 160 also provides guidance when a subsidiary is deconsolidated and requires expanded disclosures in the consolidated financial statements that clearly identify and distinguish between the interests of the parent's owners and the interests of the noncontrolling owners of a subsidiary. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company is currently evaluating the impact this statement will have on its financial position and results of operations.

In February 2008, the FASB issued FASB Staff Position No. 157-2, Effective Date of FASB Statement No. 157 (FSP 157-2), which delays the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities. Therefore, the Company has delayed application of SFAS 157 to its nonfinancial assets and nonfinancial liabilities, which include

assets and liabilities acquired in connection with a business combination, goodwill, intangible assets and asset retirement obligations, until January 1, 2009. The Company is currently evaluating the impact of SFAS 157 for nonfinancial assets and liabilities on the Company's financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS 161), which amends and expands the disclosure requirements of FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), with the intent to provide users of financial statements with an enhanced understanding of: (a) how and why an entity uses derivative instruments; (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations; and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative instruments. This statement applies to all entities and all derivative instruments. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company has not yet determined the effect on our financial statements, if any, upon adoption of SFAS No. 161.

In May, 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 162, The Hierarchy of Generally Accepted Accounting Principles, (SFAS 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS No. 162 will be effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board's amendments to AU Section 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. The FASB has stated that it does not expect SFAS No. 162 will result in a change in current practice. The application of SFAS No. 162 will have no effect on the Company's financial position, results of operations or cash flows.

Also in May 2008, the FASB issued SFAS No. 163, "Accounting for Financial Guarantee Insurance Contracts—an interpretation of FASB Statement No. 60" (SFAS 163). SFAS 163 interprets Statement 60 and amends existing accounting pronouncements to clarify their application to the financial guarantee insurance contracts included within the scope of that Statement. SFAS 163 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and all interim periods within those fiscal years. As such, the Company is required to adopt these provisions at the beginning of the fiscal year ended December 31, 2009. The Company is currently evaluating the impact of SFAS 163 on its financial statements but does not expect it to have an effect on the Company's financial position, results of operations or cash flows.

In May 2008, FASB issued FSP APB 14-1, *Accounting for Convertible Debt Instruments that may be Settled in Cash upon Conversion (Including Partial Cash Settlement)* ("FSP APB 14-1"). FSP APB 14-1 applies to convertible debt securities that, upon conversion, may be settled by the issuer fully or partially in cash. FSP APB 14-1 specifies that issuers of such instruments should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. FSP APB 14-1 is effective for financial statements issued for fiscal years after December 15, 2008, and must be applied on a retrospective basis. Early adoption is not permitted. We are assessing the potential impact of this FSP on our convertible debt issuances.

In June 2008, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position ("FSP") EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* ("FSP

EITF 03-6-1"). FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting, and therefore need to be included in the earnings allocation in computing earnings per share under the two-class method as described in SFAS No. 128, *Earnings per Share*. Under the guidance of FSP EITF 03-6-1, unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings-per-share pursuant to the two-class method. FSP EITF 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008 and all prior-period earnings per share data presented shall be adjusted retrospectively. Early application is not permitted. We are assessing the potential impact of this FSP on our earnings per share calculation.

In June 2008, FASB ratified EITF No. 07-5, *Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock* ("EITF 07-5"). EITF 07-5 provides that an entity should use a two-step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. EITF 07-5 is effective for financial statements issued for fiscal years beginning after December 15, 2008. Early application is not permitted. We are assessing the potential impact of this EITF on our financial condition and results of operations.

Note 6: Subsequent Events

Entry Into a Material Definitive Agreement.

On September 29, 2008, Enercorp, Inc. (Enercorp) entered into a binding letter of intent (the Binding Letter of Intent) with American Plastics Processing Products, Inc. (AP3) and its President, Mr. DiNello, setting forth the principal terms on which AP3 will make an investment in Enercorp. As part of this investment, Enercorp will obtain a \$500,000 secured line of credit, 500,000 shares of common stock of LBO Capital Corp. 250,000 shares of common stock of EDEN Research, PLC (a publicly listed company in the United Kingdom), and \$250,000 worth of AP3 common stock. In exchange, AP3 will obtain approximately 3,083,333 shares of common stock of Enercorp. The Binding Letter of Intent does not set forth all of the terms related to this transaction, and Enercorp and AP3 agree to negotiate in good faith such other terms as well as definitive documents as appropriate to evidence this transaction. Consummation of this transaction is expected to occur in January 2009.

As conditions of this transaction, Enercorp must, among other things, use commercially reasonable efforts to become fully compliant with all federal and state laws by which it is governed, including the regulations promulgated by the Securities and Exchange Commission. Enercorp must also use commercially reasonable efforts to obtain agreements from current debt holders to convert approximately \$500,000 of notes receivable from Enercorp into 2,500,000 shares of common stock of Enercorp.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.

Material Changes in Financial Condition:

The Company's liquidity is affected primarily by the business success, securities prices and marketability of its investee companies and by the amount and timing of new or incremental investments it makes, as well as the

availability of borrowing under its credit lines.

The Company owns 9,501,751 shares of a related party, CompuSonics Video Corporation, which were trading publicly at \$0.001 per share as of March 31, 2008. Subsequent to March 31, 2008 this investment was trading at \$0.0008 per share. Management deemed this decline to be permanent. This investment was permanently written down by \$94,050 to reflect the significant decline in its fair market value.

Current liabilities decreased by \$130,592 and net asset value decreased by \$58,623 during the nine month period ended March 31, 2008. Net asset value per share decreased from \$(0.64) to \$(0.73) during this nine month period.

Liquidity and Capital Resources.

Currently, the Company's investment activity and operations are restricted by its limited working capital position. Capital required for the Company's investment activities, if available, would be generated from new investments, the sale of portfolio securities or from additional offerings of the Company's restricted and legended common stock, of which there can be no assurance of success in any such efforts. The ability of the Company to sell restricted portfolio held securities is dependent on market conditions over which the Company has no control. The Company had no material commitments for capital expenditures, as of March 31, 2008.

Results of Operations

Three months ended March 31, 2008 compared to three months ended March 31, 2007.

The Company had a net investment loss of \$15,876 for the three month period ended March 31, 2008 as compared to a net investment loss of \$29,724 for the three month period ended March 31, 2007. The decrease in losses for the three month period ended March 31, 2008 is mainly due to decrease in compensation expense and other general and administrative expense.

The Company had no consulting income for this period as compared to \$15,000 of consulting income for the same period in 2007. Officer compensation decreased by \$25,000 when comparing the 2008 and 2007 periods .

Professional expense decreased by \$725 for this period. Interest expense-related party decreased by \$1,079 and other general and administrative expense decreased by \$2,107 for this three-month period compared to the same period last year.

The Company had \$24 and \$46,181 of unrealized appreciation on investment for the three-month periods ended March 31, 2008 and 2007, respectively. The change is mainly due to Williams Controls, Inc. investment, which appreciated during the three months ended December 31, 2006 and was subsequently sold in June 2007.

The Company had a \$0.023 decrease and \$0.024 increase in net assets per share for the three-month periods ended March 31, 2008 and 2007, respectively.

Nine months ended March 31, 2008 compared to nine months ended March 31, 2007.

The Company had a net investment loss of \$58,668 and \$111,099 for the nine-month periods ended March 31, 2008 and 2007, respectively.

The Company had no consulting income for this period compared to \$47,500 for the same period last year. Officer compensation decreased by \$75,000 during the nine months ended March 31, 2008 compared to the nine months ended March 31, 2007. Professional fees decreased by \$18,100 for the nine months ended March 31, 2008 compared to the same 2007 period. Interest expense-related party decreased by \$2,858 and other general and administrative expense decreased by \$5,559 for this nine-month period compared to the same period last year.

The Company had \$45 and \$86,176 of unrealized appreciation on investment for the nine-month period ended March 31, 2008 and 2007, respectively. The change is mainly due to Williams Controls, Inc. investment, which appreciated during the nine months ended December 31, 2006 and was subsequently sold in June 2007.

The Company had a \$0.084 and \$0.036 decrease in net assets per share for the nine-month periods ended March 31, 2008 and 2007, respectively.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to provide reasonable assurance that

information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (Exchange Act) is recorded, processed, summarized and reported within the specified time periods and accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, with the participation of Chief Executive Officer (CEO) and Chief Financial Officer (CFO), evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) promulgated under the Exchange Act) as of March 31, 2008. Based on that evaluation, our current CEO and CFO concluded that, as of that date, our disclosure controls and procedures required by paragraph (b) of Rules 13a-15 or 15d-15 were not effective at the reasonable assurance level because of the identification of material weaknesses in our internal control over financial reporting, which we view as an integral part of our disclosure controls and procedures.

The Company has not filed on a timely basis, certain of its quarterly Forms 10-Q and annual Form 10-K with the Securities Exchange Commission (SEC) within the required due dates.

Changes in Internal Controls

There have been no changes in the Company's internal control over financial reporting (as such term defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three month period ended March 31, 2008 to which this report relates that have materially affected, or are reasonably likely to affect, the Company's internal control over financial reporting.

Management is working on filing with the SEC all of the Company's past due filings. Expected improvement of cash flow will ensure that the audits and reviews be completed on a timely basis, in order for management to file the

reports by the due dates imposed by the SEC rules.
