#### ENGELHARD REPORTS SECOND-QUARTER RESULTS

**ISELIN, NJ, July 26, 2005** - Engelhard Corporation (NYSE: EC) today reported net earnings for the second quarter ended June 30 of \$58 million, or 47 cents per share, which included a special charge of five cents per share resulting from the decision to discontinue manufacturing operations at one facility. The Company reported net earnings of \$68 million, or 54 cents per share, for the same period in 2004, which included a benefit of six cents per share resulting from an agreement with the U.S. Internal Revenue Service with respect to the Company's tax returns for 1998 through 2000.

Second-quarter revenues were \$1.1 billion, approximately even with the prior-year period.

"Improved pricing coupled with our hallmark focus on productivity delivered growth in our technology segments," said Barry W. Perry, chairman and chief executive officer. "A balanced approach of driving growth and managing the business mix across our enterprise enabled us to deliver ongoing earnings results in line with expectations."

#### **Second-Quarter Operating Results**

Operating earnings from Environmental Technologies were \$28 million including the \$10.4 million special charge. Excluding the special charge operating earnings increased 17% in the quarter to \$38 million. Revenues rose 12% to \$251 million. The increase in earnings resulted from growth in emission-control technologies for certain mobile-source markets and improved productivity, offset by unfavorable volume and mix in light-duty vehicles.

Revenues from Process Technologies increased 8% to \$173 million. Operating earnings grew 1% to \$23 million, driven primarily by continued demand for technologies for petroleum refining.

Revenues from Appearance and Performance Technologies increased 1% to \$187 million. Operating earnings of \$20 million were down 14% versus the prior year as the positive impact of recent acquisitions in cosmetics and personal care was more than offset by the continuing negative impact of higher natural gas prices and general labor strikes

affecting the paper industry in Finland and Canada.

Operating earnings from Materials Services were \$6 million, an increase of \$3 million versus a year ago. Revenues were \$480 million, compared with \$525 million in last year's second quarter.

Earnings from equity investments were \$7 million in the second quarter as the company's Asian joint ventures continued to deliver solid performance.

Engelhard Corporation is a surface and materials science company that develops technologies to improve customers' products and processes. A Fortune 500 company, Engelhard is a world-leading provider of technologies for environmental, process, appearance and performance applications. Forward-looking statements: This document contains forward-looking statements in management's comments. There are a number of factors that could cause Engelhard's actual results to vary materially from those projected in the forward-looking statements. For a more thorough discussion of these factors, please refer to page 30 of Engelhard's 2004 Form 10-K, dated March 11, 2005.
