December 03, 2013

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q
(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended November 1, 2013

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File
Number 1-7898

LOWE'S COMPANIES, INC.

(Exact name of registrant as specified in its charter)

NORTH CAROLINA

56-0578072

(State or other jurisdiction of incorporation or
organization)

(I.R.S. Employer Identification No.)

1000 Lowe's Blvd., Mooresville, NC
(Address of principal executive offices)

28117
(Zip Code)

Registrant's telephone number, including area code (704) 758-1000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

CLASS

OUTSTANDING AT November 29, 2013

Notes to Consolidated Financial Statements (Unaudited)

Note 1: Basis of Presentation - The accompanying consolidated financial statements (unaudited) and notes to the consolidated financial statements (unaudited) are presented in accordance with the rules and regulations of the Securities and Exchange Commission and do not include all the disclosures normally required in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements (unaudited), in the opinion of management, contain all adjustments necessary to present fairly the financial position as of November 1, 2013, and November 2, 2012, and the results of operations and comprehensive income for the three and nine months ended November 1, 2013, and November 2, 2012 and cash flows for the nine months ended November 1, 2013, and November 2, 2012.

These interim consolidated financial statements (unaudited) should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Lowe's Companies, Inc. (the Company) Annual Report on Form 10-K for the fiscal year ended February 1, 2013 (the Annual Report). The financial results for the interim periods may not be indicative of the financial results for the entire fiscal year.

Note 2: Fair Value Measurements - Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance for fair value measurements establishes a three-level hierarchy, which encourages an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of the hierarchy are defined as follows:

Level 1 - inputs to the valuation techniques that are quoted prices in active markets for identical assets or liabilities

Level 2 - inputs to the valuation techniques that are other than quoted prices but are observable for the assets or liabilities, either directly or indirectly

Level 3 - inputs to the valuation techniques that are unobservable for the assets or liabilities

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

The following tables present the Company's financial assets measured at fair value on a recurring basis as of November 1, 2013, November 2, 2012, and February 1, 2013, classified by fair value hierarchy:

Table of Contents

Total long-term investments	\$271	\$—	\$271	\$—

There were no transfers between Levels 1, 2 or 3 during any of the periods presented.

When available, quoted prices were used to determine fair value. When quoted prices in active markets were available, investments were classified within Level 1 of the fair value hierarchy. When quoted prices in active markets were not available, fair values were determined using pricing models, and the inputs to those pricing models were based on observable market inputs. The inputs to the pricing models were typically benchmark yields, reported trades, broker-dealer quotes, issuer spreads and benchmark securities, among others.

Table of Contents

Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

During the nine months ended November 1, 2013 and November 2, 2012, the Company's only significant assets or liabilities measured at fair value on a nonrecurring basis subsequent to their initial recognition were certain assets subject to long-lived asset impairment.

The Company reviews the carrying amounts of long-lived assets whenever certain events or changes in circumstances indicate that the carrying amounts may not be recoverable. With input from retail store operations, the Company's accounting and finance personnel that organizationally report to the chief financial officer, assess the performance of retail stores quarterly against historical patterns and projections of future profitability for evidence of possible impairment. An impairment loss is recognized when the carrying amount of the asset (disposal) group is not recoverable and exceeds its fair value. The Company estimated the fair values of assets subject to long-lived asset impairment based on the Company's own judgments about the assumptions that market participants would use in pricing the assets and on observable market data, when available. The Company classified these fair value measurements as Level 3.

In the determination of impairment for operating locations, the Company determined the fair values of individual operating locations using an income approach, which required discounting projected future cash flows. When determining the stream of projected future cash flows associated with an individual operating location, management made assumptions, incorporating local market conditions and inputs from retail store operations, about key variables including the following unobservable inputs: sales growth rates, gross margin, controllable expenses, such as payroll and occupancy expense, and asset residual values. In order to calculate the present value of those future cash flows, the Company discounted cash flow estimates at a rate commensurate with the risk that selected market participants would assign to the cash flows. In general, the selected market participants represented a group of other retailers with a location footprint similar in size to the Company's.

During the nine months ended November 1, 2013, 10 operating locations experienced a triggering event and were evaluated for recoverability. These 10 operating locations were determined to be recoverable and, therefore, were not impaired. For eight of these 10 locations, the expected undiscounted cash flows substantially exceeded the net book value of the location's assets. A 10% reduction in projected sales used to estimate future cash flows at the latest date these ten operating locations were evaluated for impairment would have resulted in the impairment of five of these locations and increased recognized impairment losses by \$55 million. We analyzed other assumptions made in estimating the future cash flows of the operating locations evaluated for impairment, but the sensitivity of those assumptions was not significant to the estimates.

In the determination of impairment for excess properties held-for-use and held-for-sale, which consisted of retail outparcels and property associated with relocated or closed locations, the fair values were determined using a market approach based on estimated selling prices. The Company determined the estimated selling prices by obtaining information from property brokers or appraisers in the specific markets being evaluated or negotiated non-binding offers to purchase. The information obtained from property brokers or appraisers included comparable sales of similar assets and assumptions about demand in the market for these assets.

During the nine months ended November 1, 2013, the Company incurred total impairment charges of \$14 million, excluding costs to sell, for 26 excess property locations. A 10% reduction in the estimated selling prices for these excess properties at the dates the locations were evaluated for impairment would have increased impairment losses by approximately \$4 million.

The following tables present the Company's non-financial assets measured at estimated fair value on a nonrecurring basis and the resulting long-lived asset impairment losses included in earnings, excluding costs to sell for excess

properties held-for-sale. Because assets subject to long-lived asset impairment were not measured at fair value on a recurring basis, certain fair value measurements presented in the table may reflect values at earlier measurement dates and may no longer represent the fair values at November 1, 2013 and November 2, 2012.

Table of Contents

Fair Value Measurements - Nonrecurring Basis

(In millions)	Three Months Ended			
	November 1, 2013		November 2, 2012

Assets-held-for-sale:				
Excess properties	6	(2)	4	(1)
Total	\$44	\$(14)	\$55	\$(72)

Fair Value of Financial Instruments

The Company's financial instruments not measured at fair value on a recurring basis include cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and long-term debt and are reflected in the financial statements at cost. With the exception of long-term debt, cost approximates fair value for these items due to their short-term nature. The fair values of the Company's unsecured notes classified as Level 1 were estimated using quoted market prices. The fair values of the Company's mortgage notes classified as Level 2 were estimated using discounted cash flow analyses, based on the future cash outflows associated with these arrangements and discounted using the applicable risk-free borrowing rate.

Carrying amounts and the related estimated fair value of the Company's long-term debt, excluding capitalized lease obligations, are as follows:

(In millions)	November 1, 2013		November 2, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Unsecured notes (Level 1)	\$9,615	\$10,488	\$8,626	\$10,160
Mortgage notes (Level 2)	18	19	19	23
Long-term debt (excluding capitalized lease obligations)	\$9,633	\$10,507	\$8,645	\$10,183

Note 3: Restricted Investment Balances - Short-term and long-term investments include restricted balances pledged as collateral primarily for the Company's extended protection plan program. Restricted balances included in short-term investments were \$88 million at November 1, 2013, \$132 million at November 2, 2012, and \$123 million at February 1, 2013.

Edgar Filing: LOWES COMPANIES INC - Form 10-Q

Restricted balances included in long-term investments were \$244 million at November 1, 2013, \$280 million at November 2, 2012, and \$263 million at February 1, 2013.

Note 4: Property - Property is shown net of accumulated depreciation of \$14.0 billion at November 1, 2013, \$13.3 billion at November 2, 2012, and \$13.2 billion at February 1, 2013.

Table of Contents

Note 5: Acquisitions - On August 30, 2013, the Company acquired the majority of the assets of Orchard Supply Hardware (Orchard), a neighborhood hardware and backyard store, primarily located in densely populated markets in California, for approximately \$207 million in cash and assumed liabilities. The acquisition provides a smaller store format that allows additional opportunities for growth. Acquisition-related costs were expensed as incurred and were not significant. The aggregate purchase price of this acquisition was preliminarily allocated as follows:

(In millions)	August 30, 2013	
Purchase Price:		
Cash paid		\$207
Allocation:		
Cash acquired		4
Merchandise inventory		155
Property		183
Amortizable intangible assets:		
Trade name		8
Other assets		37
Goodwill		26
Current liabilities assumed		(86)
Long-term liabilities assumed		(120)
Total		\$207

The trade name acquired has a useful life of 10 years. The goodwill of \$26 million is primarily attributable to the synergies expected to arise after the acquisition. Goodwill is expected to be deductible for tax purposes. Pro forma and historical financial information has not been provided as the acquisition was not material to our consolidated financial statements.

Note 6: Exit Activities - When locations under operating leases are closed, the Company recognizes a liability for the fair value of future contractual obligations, including future minimum lease payments, property taxes, utilities, common area maintenance and other ongoing expenses, net of estimated sublease income and other recoverable items. For the nine months ended November 1, 2013, the Company relocated one store subject to an operating lease. For the nine months ended November 2, 2012, the Company relocated one store subject to an operating lease.

Subsequent changes to the liabilities, including a change resulting from a revision to either the timing or the amount of estimated cash flows, are recognized in the period of change. Changes to the accrual for exit activities for the three and nine months ended November 1, 2013 and November 2, 2012 are summarized as follows:

(In millions)	Three Months Ended		Nine months ended	
	November 1, 2013	November 2, 2012	November 1, 2013	November 2, 2012
Accrual for exit activities, balance at beginning of period	\$60	\$68	\$75	\$86
Additions to the accrual - net	7	14	8	5
Cash payments	(11)	(5)	(27)	(14)
Accrual for exit activities, balance at end of period	\$56	\$77	\$56	\$77

Note 7: Extended Protection Plans - The Company sells separately-priced extended protection plan contracts under a Lowe's-branded program for which the Company is ultimately self-insured. The Company recognizes revenue from extended protection plan sales on a straight-line basis over the respective contract term. Extended protection plan contract terms primarily range from one to four years from the date of purchase or the end of the manufacturer's warranty, as applicable. Changes in deferred revenue for extended protection plan contracts are summarized as follows:

10

Table of Contents

(In millions)	Three Months Ended		Nine Months Ended	
	November 1, 2013	November 2, 2012	November 1, 2013	November 2, 2012
Deferred revenue - extended protection plans, beginning of period	\$733	\$726	\$715	\$704
Additions to deferred revenue	67	57	222	191
Deferred revenue recognized	(70) (63) (207) (175
Deferred revenue - extended protection plans, end of period	\$730	\$720	\$730	\$720

Incremental direct acquisition costs associated with the sale of extended protection plans are also deferred and recognized as expense on a straight-line basis over the respective contract term. Deferred costs associated with extended protection plan contracts were \$62 million at November 1, 2013, \$110 million at November 2, 2012, and \$95 million at February 1, 2013. The Company's extended protection plan deferred costs are included in other assets (noncurrent) on the consolidated balance sheets. All other costs, such as costs of services performed under the contract, general and administrative expenses and advertising expenses are expensed as incurred.

The liability for extended protection plan claims incurred is included in other current liabilities on the consolidated balance sheets. Changes in the liability for extended protection plan claims are summarized as follows:

(In millions)	Three Months Ended		Nine Months Ended	
	November 1, 2013	November 2, 2012	November 1, 2013	November 2, 2012
Liability for extended protection plan claims, beginning of period	\$27	\$23	\$20	\$21
Accrual for claims incurred	33	29	89	71
Claim payments	(39) (29) (88) (69
Liability for extended protection plan claims, end of period	\$21	\$23	\$21	\$23

Note 8: Long-Term Debt - In September 2013, the Company issued \$1.0 billion of unsecured notes in two tranches: \$500 million of 3.875% notes maturing in September 2023 (the 2023 Notes) and \$500 million of 5.0% notes maturing in September 2043 (the 2043 Notes). The 2023 and 2043 notes were issued at discounts of approximately \$3 million and \$5 million, respectively. Interest on these notes is payable semiannually in arrears in March and September of each year until maturity, beginning in March 2014.

The discounts associated with these issuances are included in long-term debt and are being amortized over the respective terms of the notes.

The indentures governing these notes contain a provision that allows the Company to redeem the notes at any time, in whole or in part, at specified redemption prices plus accrued interest to the date of redemption. The indentures also contain a provision that allows the holders of the notes to require the Company to repurchase all or any part of their notes if a change of control triggering event (as defined in the Indenture) occurs. If elected under the change of control provisions, the repurchase of the notes will occur at a purchase price of 101% of the principal amount, plus accrued and unpaid interest, if any, on such notes to the date of purchase. The indentures governing the notes do not limit the aggregate principal amount of debt securities that the Company may issue and do not require the Company to maintain specified financial ratios or levels of net worth or liquidity. However, the indentures include various restrictive covenants, none of which is expected to impact the Company's liquidity or capital resources.

Note 9: Shareholders' Equity - The Company has a share repurchase program that is executed through purchases made from time to time either in the open market or through private off-market transactions. Shares purchased under the repurchase program are retired and returned to authorized and unissued status. The current \$5.0 billion share repurchase program, authorized by the Company's Board of Directors on February 1, 2013, has no expiration and at November 1, 2013, the Company had remaining authorization under the share repurchase program of \$2.2 billion.

In February 2013, the Company entered into an Accelerated Share Repurchase (ASR) agreement with a third-party financial institution to repurchase \$1.0 billion of the Company's common stock. At inception, pursuant to the agreement, the Company

Table of Contents

paid \$1.0 billion to the financial institution using cash on hand, and took delivery of 23.2 million shares. During the second quarter of fiscal 2013, the Company finalized the transaction and received an additional 2.8 million shares.

In May 2013, the Company entered into an ASR agreement with a third-party financial institution to repurchase \$750 million of the Company's common stock. At inception, pursuant to the agreement, the Company paid \$750 million to the financial institution using cash on hand, and took delivery of 14.9 million shares. Prior to the end of the second quarter of fiscal 2013, the Company finalized the transaction and received an additional 3.6 million shares.

In August 2013, the Company entered into an ASR agreement with a third-party financial institution to repurchase \$500 million of the Company's common stock. At inception, pursuant to the agreement, the Company paid \$500 million to the financial institution using cash on hand, and took delivery of 9.0 million shares. Subsequent to the end of the third quarter, on November 21, 2013, the Company finalized the transaction for an additional 1.5 million shares.

Under the terms of the ASR agreements, upon settlement, the Company would either receive additional shares from the financial institution or be required to deliver additional shares or cash to the financial institution. The Company controlled its election to either deliver additional shares or cash to the financial institution and was subject to provisions which limited the number of shares the Company would be required to deliver.

The final number of shares delivered upon settlement of each ASR agreement was determined with reference to the volume-weighted average price of the Company's common stock over the term of the ASR agreement. The initial repurchase of shares under these agreements resulted in an immediate reduction of the outstanding shares used to calculate the weighted-average common shares outstanding for basic and diluted earnings per share.

These ASR agreements were accounted for as treasury stock transactions and forward stock purchase contracts. The par value of the shares received was recorded as a reduction to common stock with the remainder recorded as a reduction to capital in excess of par value and retained earnings. The forward stock purchase contract was considered indexed to the Company's own stock and was classified as an equity instrument.

During the three and nine months ended November 1, 2013, the Company also repurchased shares of its common stock through the open market totaling 5.5 million and 11.6 million shares, respectively, for a cost of \$261 million and \$523 million, respectively.

The Company also withholds shares from employees to satisfy either the exercise price of stock options exercised or the statutory withholding tax liability resulting from the vesting of restricted stock awards.

Shares repurchased for the three and nine months ended November 1, 2013, and November 2, 2012 were as follows:

(In millions)	Three Months Ended		November 2, 2012	
	November 1, 2013		November 2, 2012	
	Shares	Cost ¹	Shares	Cost ¹
Share repurchase program	14.5	\$761	29.6	\$850
Shares withheld from employees	—	—	0.1	—
Total share repurchases	14.5	\$761	29.7	\$850
	Nine Months Ended		November 2, 2012	
	November 1, 2013		November 2, 2012	
(In millions)	Shares	Cost ²	Shares	Cost ²
Share repurchase program	65.1	\$2,773	124.4	\$3,600
Shares withheld from employees	1.0	38	1.5	43

Edgar Filing: LOWES COMPANIES INC - Form 10-Q

Total share repurchases	66.1	\$2,811	125.9	\$3,643
-------------------------	------	---------	-------	---------

¹ Reductions of \$711 million and \$813 million were recorded to retained earnings, after capital in excess of par value was depleted, for the three months ended November 1, 2013 and November 2, 2012, respectively.

12

Table of Contents

² Reductions of \$2.5 billion and \$3.4 billion were recorded to retained earnings, after capital in excess of par value was depleted, for the nine months ended November 1, 2013 and November 2, 2012, respectively.

Note 10: Income Taxes - The Company is subject to examination by various foreign and domestic taxing authorities.

At November 1, 2013, the Company had unrecognized tax benefits of \$62 million. The Company is working to resolve federal items for fiscal years 2008 through 2011 identified under a previous audit cycle. However, the Company does not believe that these items, as well as the resultant state impact, will be determined within the next 12 months. There are also ongoing U.S. state audits covering tax years 2004 through 2011. It is reasonably possible that the Company will resolve \$5 million in state related audit items within the next 12 months. The Company's Canadian operations are currently under audit by the Canada Revenue Agency for fiscal years 2009 and 2010. The Company believes appropriate provisions for all outstanding issues have been made for all jurisdictions and all open years.

Note 11: Earnings Per Share - The Company calculates basic and diluted earnings per common share using the two-class method. Under the two-class method, net earnings are allocated to each class of common stock and participating security as if all of the net earnings for the period had been distributed. The Company's participating securities consist of share-based payment awards that contain a nonforfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders.

Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares as of the balance sheet date, as adjusted for the potential dilutive effect of non-participating share-based awards. The following table reconciles earnings per common share for the three and nine months ended November 1, 2013, and November 2, 2012.

(In millions, except per share data)	Three Months Ended		Nine Months Ended	
	November 1, 2013	November 2, 2012	November 1, 2013	November 2, 2012
Basic earnings per common share:				
Net earnings	\$499	\$396	\$1,980	\$1,670
Less: Net earnings allocable to participating securities	(4) (3) (13) (11
Net earnings allocable to common shares	\$495	\$393	\$1,967	\$1,659
Weighted-average common shares outstanding	1,047	1,126	1,067	1,163
Basic earnings per common share	\$0.47	\$0.35	\$1.84	\$1.43
Diluted earnings per common share:				
Net earnings	\$499	\$396	\$1,980	\$1,670
Less: Net earnings allocable to participating securities	(4) (3) (13) (11
Net earnings allocable to common shares	\$495	\$393	\$1,967	\$1,659
Weighted-average common shares outstanding	1,047	1,126	1,067	1,163
Dilutive effect of non-participating share-based awards	2	2	2	2
Weighted-average common shares, as adjusted	1,049	1,128	1,069	1,165
Diluted earnings per common share	\$0.47	\$0.35	\$1.84	\$1.42

An insignificant number of stock options were anti-dilutive at November 1, 2013. Stock options to purchase 8.2 million shares of common stock for the three months ended November 2, 2012, were excluded from the computation of diluted earnings per common share because their effect would have been anti-dilutive. Stock options to purchase 2.1 million and 8.4 million shares of common stock for the nine months ended November 1, 2013, and November 2, 2012, respectively, were excluded from the computation of diluted earnings per common share because their effect would have been anti-dilutive.

Note 12: Supplemental Disclosure

Net interest expense is comprised of the following:

(In millions)	Three Months Ended		Nine Months Ended	
	November 1, 2013	November 2, 2012	November 1, 2013	November 2, 2012
Long-term debt	\$110	\$107	\$316	\$314
Capitalized lease obligations	10	9	29	28
Interest income	(1) (3) (3) (7
Interest capitalized	(1) (1) (3) (3
Interest on tax uncertainties	5	—	4	(25
Other	2	2	5	6
Interest - net	\$125	\$114	\$348	\$313

Supplemental disclosures of cash flow information:

(In millions)	Nine Months Ended	
	November 1, 2013	November 2, 2012
Cash paid for interest, net of amount capitalized	\$420	\$414
Cash paid for income taxes - net	\$1,130	\$1,059
Non-cash investing and financing activities:		
Non-cash property acquisitions, including assets acquired under capital lease	\$5	\$25
Cash dividends declared but not paid	\$189	\$180

Note 13: Recent Accounting Pronouncements - In February 2013, the Financial Accounting Standards Board (FASB) issued authoritative guidance that adds new disclosure requirements for items reclassified out of accumulated other comprehensive income (AOCI). Under the new guidance, entities are required to either: (i) present parenthetically significant reclassifications made into net income on the face of the financial statement where net income is presented or (ii) disclose in the notes to the financial statements significant amounts reclassified out of AOCI and the net income statement line item affected. In addition, entities are required to disaggregate the total change in each component of AOCI by separately disclosing reclassification adjustments and current period other comprehensive income. The guidance was effective for interim and annual periods beginning after December 15, 2012. The adoption of the guidance by the Company did not have a material impact on its consolidated financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Lowe's Companies, Inc.
 Mooresville, North Carolina

We have reviewed the accompanying consolidated balance sheets of Lowe's Companies, Inc. and subsidiaries (the "Company") as of November 1, 2013 and November 2, 2012, and the related consolidated statements of current and retained earnings and comprehensive income for the fiscal three-month and nine-month periods ended November 1, 2013 and November 2, 2012, and of cash flows for the fiscal nine-month periods ended November 1, 2013 and November 2, 2012. These consolidated interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of the Company as of February 1, 2013, and the related consolidated statements of earnings, comprehensive income, shareholders' equity, and cash flows for the fiscal year then ended (not presented herein); and in our report dated April 1, 2013, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet of the Company as of February 1, 2013 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion and analysis summarizes the significant factors affecting our consolidated operating results, liquidity and capital resources during the three and nine months ended November 1, 2013, and November 2, 2012. This discussion and analysis should be read in conjunction with the consolidated financial statements and notes to the consolidated financial statements that are included in our Annual Report on Form 10-K for the fiscal year ended February 1, 2013 (the Annual Report), as well as the consolidated financial statements (unaudited) and notes to the consolidated financial statements (unaudited) contained in this report. Unless otherwise specified, all comparisons made are to the corresponding period of 2012. This discussion and analysis is presented in seven sections:

Executive Overview
Operations
Lowe's Business Outlook
Financial Condition, Liquidity and Capital Resources
Off-Balance Sheet Arrangements
Contractual Obligations and Commercial Commitments
Critical Accounting Policies and Estimates

EXECUTIVE OVERVIEW

Net sales for the third quarter of 2013 increased 7.3% to \$13.0 billion. Comparable sales for the third quarter of 2013 increased 6.2%, with comparable sales of 7.3% in August, 5.6% in September and 5.8% in October. Net earnings for the third quarter increased 26.0% to \$499 million with diluted earnings per share increasing 34.3% to \$0.47 per share. During the third quarter of 2013, we paid \$191 million in dividends and repurchased a total of \$761 million of common stock through our share repurchase program. Shares repurchased through the program totaled 16.0 million, including approximately 14.5 million shares repurchased during the quarter, plus an additional 1.5 million shares received subsequent to quarter-end due to the settlement of the third quarter ASR on November 21, 2013.

During the quarter, we delivered positive comparable sales in all product categories except for Outdoor Power Equipment, which experienced difficult comparisons to prior year in the last week of the quarter due to hurricane-related sales. We also saw strength in all regions of the country with double-digit performance in Florida, as well as strong performance in California and Arizona, markets where the housing recovery continues to progress. Pro Services also continued to perform well across the country. Overall, our performance for the quarter reflected improvements in collaboration and execution, which enabled us to take advantage of growth in the home improvement market. We applied our enhanced sales and operations planning with an intent to better understand the consumer mindset season-to-season and change the way we go to market through coordinated planning across channels, binding together every function of our organization. Through this process, we addressed an opportunity to improve seasonal planning, including the cadence of product introductions, promotions and staffing.

This enhanced sales and operations planning process was made even more effective by other elements of our transformation undertaken since 2011, including the organizational changes made in fiscal 2012, our ongoing Product Differentiation and Value Improvement initiatives and the additional store labor investment. Using information provided by our Value Improvement initiative, together with our sales and operations planning process, we continue to prepare for increased demand by expanding job lot quantities, which benefit Pro customers, and by increasing overall in-stock services levels. We expect these incremental inventory investments to be completed by the end of the year and will position us to achieve greater inventory productivity. In addition, we invested in weekday labor hours to improve close rates by adding an average of approximately 150 store hours per week to the staffing model for nearly

two-thirds of our stores. All of these elements are designed to work together to improve the customer experience.

Despite the recent government shutdown and decline in home affordability, the home improvement industry is still poised for growth in the fourth quarter, and we expect further acceleration of industry growth next year. Stronger job and income growth, improving household financial conditions and the lagging benefit of the recovery in home buying will be the key drivers of acceleration.

Table of Contents

OPERATIONS

The following tables set forth the percentage relationship to net sales of each line item of the consolidated statements of earnings (unaudited), as well as the percentage change in dollar amounts from the prior period. These tables should be read in conjunction with the following discussion and analysis and the consolidated financial statements (unaudited), including the related notes to the consolidated financial statements (unaudited).

	Three Months Ended		Basis Point Increase /(Decrease) in Percentage of Net Sales from Prior Period 2013 vs. 2012	Percentage Increase / (Decrease) in Dollar Amounts from Prior Period 2013 vs. 2012

Table of Contents

Other Metrics	Three Months Ended		Nine Months Ended		
	November 1, 2013	November 2, 2012	November 1, 2013	November 2, 2012	
Comparable sales increase ²	6.2	% 1.8	% 5.1	% 1.3	%
Total customer transactions (in millions)	202	191	643	627	
Average ticket ³	\$64.07	\$63.11	\$64.93	\$62.94	
At end of period:					
Number of stores ⁴	1,831	1,750			
Sales floor square feet (in millions)	200	197			
Average store size selling square feet (in thousands) ^{4, 5}	109	113			
Return on invested capital ⁶	11.3	% 9.4	%		

¹ EBIT margin, also referred to as operating margin, is defined as earnings before interest and taxes as a percentage of sales.

² A comparable location is defined as a location that has been open longer than 13 months. A location that is identified for relocation is no longer considered comparable one month prior to its relocation. The relocated location must then remain open longer than 13 months to be considered comparable. A location we have decided to close is no longer considered comparable as of the beginning of the month in which we announce its closing. Comparable sales includes online sales.

³ Average ticket is defined as net sales divided by the total number of customer transactions.

⁴ The number of stores as of November 1, 2013 includes 72 stores from the acquisition of the majority of assets of Orchard on August 30, 2013. The average store size selling square footage is approximately 36k for an Orchard store.

⁵ Average store size selling square feet is defined as sales floor square feet divided by the number of stores open at the end of the period.

⁶ Return on invested capital is a non-GAAP financial measure. See below for additional information.

Return on Invested Capital

Return on Invested Capital (ROIC) is a non-GAAP financial measure. We believe ROIC is a meaningful metric for investors because it measures how effectively the Company uses capital to generate profits.

We define ROIC as trailing four quarters' net operating profit after tax divided by the average of ending debt and equity for the last five quarters. Although ROIC is a common financial metric, numerous methods exist for calculating ROIC. Accordingly, the method used by our management to calculate ROIC may differ from the methods other companies use to calculate their ROIC. We encourage you to understand the methods used by another company to calculate its ROIC before comparing its ROIC to ours.

We consider return on average debt and equity to be the financial measure computed in accordance with generally accepted accounting principles that is the most directly comparable GAAP financial measure to ROIC. The difference between these two measures is that ROIC adjusts net earnings to exclude tax adjusted interest expense.

The calculation of ROIC, together with a reconciliation to the calculation of return on average debt and equity, the most comparable GAAP financial measure, is as follows:

Table of Contents

(In millions, except percentage data)

	For the periods ended			
	November 1, 2013	November 2, 2012		
Calculation of Return on Invested Capital				
Numerator ¹				
Net earnings	\$2,269	\$1,993		
Plus:				
Interest expense - net	457	415		
Provision for income taxes	1,360	1,175		
Earnings before interest and taxes	4,086	3,583		
Less:				
Income tax adjustment ²	1,531	1,329		
Net operating profit after tax	\$2,555	\$2,254		
Effective tax rate	37.5	% 37.1		%
Denominator				
Average debt and equity ³	\$22,690	\$24,019		
Return on invested capital	11.3	% 9.4		%
Calculation of Return on Average Debt and Equity				
Numerator ¹				
Net earnings	\$2,269	\$1,993		
Denominator				
Average debt and equity ³	\$22,690	\$24,019		
Return on average debt and equity	10.0	% 8.3		%

¹ Amounts used in the calculation of the numerator are based on the trailing four quarters.

² Income tax adjustment is defined as earnings before interest and taxes multiplied by the effective tax rate.

³ Average debt and equity is defined as average debt, including current maturities and short-term borrowings, plus total equity for the last five quarters.

Net Sales – Net sales increased 7.3% to \$13.0 billion in the third quarter of 2013. Comparable sales increased 6.2% over the same period, driven by a 3.6% increase in comparable customer transactions and a 2.5% increase in comparable average ticket.

Performance during the third quarter was strong across product categories as 11 of 12 product categories experienced positive comparable sales. During the quarter, we experienced comparable sales increases above the company average in the following categories: Flooring, Kitchens & Appliances, Paint, Fashion Fixtures, and Seasonal Living. We drove strong performance in large project categories such as Flooring and Kitchens & Appliances, which reflects an emerging willingness by consumers to replace worn or outdated items or to make more significant enhancements to their homes. We also performed well in Fashion Fixtures and Paint where we were prepared with the right products and advice to assist customers as they prepared for the holidays. Through our enhanced sales and operations planning process, we were able to make improvements in our seasonal planning and the timing of product introductions, which helped drive strong performance in these fall interior project categories.

We also benefited from inflation which contributed approximately 25 basis points to comparable sales. However, comparable sales for the quarter were negatively impacted 45 basis points as a result of difficult comparisons to prior year hurricane related sales, which also negatively impacted our Outdoor Power Equipment category during the last week of the third quarter.

Net sales increased 5.8% to \$41.8 billion for the first nine months of 2013 compared to 2012. Comparable sales increased 5.1% over the same period, driven by a 3.4% increase in comparable average ticket and a 1.7% increase in comparable customer transactions.

Gross Margin – For the third quarter of 2013, gross margin increased 26 basis points as a percentage of sales. Gross margin was positively impacted by 52 basis points resulting from our Value Improvement initiative. Gross margin was negatively

Table of Contents

impacted by 14 basis points as a result of higher penetration of our proprietary credit value proposition, which increased 145 basis points over the prior year and was approximately 26.6% of sales. In addition, promotions during the quarter negatively impacted gross margin by approximately 10 basis points.

Gross margin as a percentage of sales increased 27 basis points for the first nine months of 2013 compared to 2012 due to the same factors that impacted gross margin in the third quarter.

SG&A – For the third quarter of 2013, SG&A expense leveraged 47 basis points as a percentage of sales compared to the third quarter of 2012. This was driven by leverage of 35 basis points due to greater long-lived asset impairments and discontinued project expenses in the prior year. We also experienced 35 basis points of leverage associated with casualty insurance due to the reduction in the discount rate applied in the prior year. In addition, we experienced 31 basis points of leverage associated with our proprietary credit program due to lower operating costs, including costs associated with promotional financing. We also experienced 20 basis points of leverage in contract labor expense as a result of lower spending on information technology projects in the current year. These were partially offset by 41 basis points of deleverage associated with incentive compensation due to higher attainment levels and 16 basis points of deleverage in operating salaries, which includes the additional store labor investment to provide for increased staffing during peak weekday hours. We also experienced 16 basis points of deleverage as a result of reset and remerchandising activity associated with efforts to improve customer experiences.

SG&A expense as a percentage of sales leveraged 39 basis point in the first nine months of 2013 compared to 2012 due primarily to the same factors that impacted SG&A expense in the third quarter.

Depreciation – Depreciation expense leveraged 20 basis points for the third quarter compared to the prior year due to increased sales. Property, less accumulated depreciation, decreased to \$21.0 billion at November 1, 2013 compared to \$21.6 billion at November 2, 2012. As of November 1, 2013, and November 2, 2012, we owned 86% of our stores, which included stores on leased land.

Depreciation expense leveraged 19 basis points in the first nine months of 2013 compared to 2012 due to increased sales.

Interest – Net – Interest expense for the third quarter and first nine months of 2013 increased compared to the prior year primarily as a result of a favorable tax settlement that resulted in a reduced interest accrual in the second quarter of 2012.

Income Tax Provision – Our effective income tax rates were 37.6% for the three and nine months ended November 1, 2013, respectively, and 37.6% and 37.7% for the three and nine months ended November 2, 2012, respectively. Our effective income tax rate was 37.6% for fiscal 2012.

LOWE'S BUSINESS OUTLOOK

As of November 20, 2013, the date of our third quarter 2013 earnings release, our fiscal year 2013 guidance expected total sales to increase approximately 6% and comparable sales to increase approximately 5%. We expected to open 9 stores during 2013. Earnings before interest and taxes as a percentage of sales (operating margin) were expected to increase approximately 75 basis points. In addition, the effective income tax rate was expected to be approximately 37.8%. Diluted earnings per share of \$2.15 were expected for fiscal 2013.

We repurchased \$2.8 billion under our share repurchase program in the first nine months of fiscal 2013. Our guidance assumed a total of \$3.7 billion of share repurchases for the fiscal year.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

Cash flows from operating activities continued to provide the primary source of our liquidity. The increase in net cash provided by operating activities for the nine months ended November 1, 2013, versus the nine months ended November 2, 2012, was primarily driven by an increase in net earnings. The increase in net cash used in investing activities for the nine months ended November 1, 2013, versus the nine months ended November 2, 2012, was driven by an increase in the net purchase activity of investments and cash paid for acquisitions, partially offset by a decrease in capital expenditures. The decrease in net cash used in financing activities for the nine months ended November 1, 2013, versus the nine months ended November 2, 2012, was driven primarily by a decrease in share repurchase activity, which included shares repurchased under our share repurchase program and shares withheld from employees to satisfy statutory tax withholding liabilities upon vesting of restricted stock awards, and the repayment of unsecured notes that matured in the prior year. These were partially offset by a

Table of Contents

decrease in cash provided by the issuance of long term-debt as a result of the issuance of \$1.0 billion of unsecured notes in September 2013 versus the issuance of \$2.0 billion of unsecured notes in April 2012.

Sources of Liquidity

In addition to our cash flows from operations, liquidity is provided by our short-term borrowing facilities. We have a \$1.75 billion senior credit facility that expires in October 2016. The senior credit facility supports our commercial paper program and has a \$500 million letter of credit sublimit. Letters of credit issued pursuant to the senior credit facility reduce the amount available for borrowing under its terms. Borrowings made are unsecured and are priced at fixed rates based upon market conditions at the time of funding in accordance with the terms of the senior credit facility. The senior credit facility contains certain restrictive covenants, which include maintenance of a debt leverage ratio as defined by the senior credit facility. We were in compliance with those covenants at November 1, 2013. Thirteen banking institutions are participating in the senior credit facility. There were no outstanding borrowings or letters of credit under the senior credit facility and no outstanding borrowings under our commercial paper program at November 1, 2013.

We expect to continue to have access to the capital markets on both short- and long-term bases when needed for liquidity purposes by issuing commercial paper or new long-term debt. The availability and the borrowing costs of these funds could be adversely affected, however, by a downgrade of our debt ratings or a deterioration of certain financial ratios. The table below reflects our debt ratings by Standard & Poor's (S&P) and Moody's as of December 3, 2013, which we are disclosing to enhance understanding of our sources of liquidity and the effect of our ratings on our cost of funds. Although we currently do not expect a downgrade in our debt ratings, our commercial paper and senior debt ratings may be subject to revision or withdrawal at any time by the assigning rating organization, and each rating should be evaluated independently of any other rating.

Debt Ratings	S&P	Moody's
Commercial Paper	A-2	P-2
Senior Debt	A-	A3
Senior Debt Outlook	Stable	Stable

We believe that net cash provided by operating and financing activities will be adequate not only for our operating requirements, but also for investments in our existing stores, investments in information technology, expansion plans, acquisitions, if any, and to return cash to shareholders through both dividends and share repurchases over the next 12 months. There are no provisions in any agreements that would require early cash settlement of existing debt or leases as a result of a downgrade in our debt rating or a decrease in our stock price. In addition, we do not have a significant amount of cash held in foreign affiliates that would not be available to fund domestic operations.

Cash Requirements

Capital expenditures

Our fiscal 2013 capital forecast is approximately \$900 million. Investments in our existing stores are expected to account for approximately 35% of net cash outflow including investments in store equipment, resets and remerchandising. Approximately 35% of the planned net cash outflow is for investments to enhance the customer experience, including enhancements in information technology. In addition, approximately 20% of the planned net cash outflow is for store expansion. Our expansion plans for 2013 consist of 9 stores, which includes two leased stores. Three of these new stores are also expected to be on leased land. Other planned capital expenditures, accounting for 10% of planned net cash outflow, are for investments in our distribution network, including one additional regional distribution center which opened during the first quarter of 2013.

On August 30, 2013, the Company acquired the majority of the assets of Orchard, a neighborhood hardware and backyard store, primarily located in densely populated markets in California, for approximately \$207 million in cash and assumed liabilities.

Table of Contents

Debt and capital

In September 2013, we issued \$1.0 billion of unsecured notes in two tranches: \$500 million of 3.875% notes maturing in September 2023 (the 2023 Notes) and \$500 million of 5.0% notes maturing in September 2043 (the 2043 Notes). Net proceeds from the 2023 and 2043 notes were approximately \$497 million and \$495 million, respectively.

We have an ongoing share repurchase program that is executed through purchases made from time to time either in the open market or through private off-market transactions. Shares purchased under the share repurchase program are retired and returned to authorized and unissued status. As of November 1, 2013, we had a remaining repurchase authorization of \$2.2 billion with no expiration date. Our Business Outlook included herein assumes approximately \$3.7 billion in share repurchases for 2013. See Note 9 to the consolidated financial Statements included in this report for additional information regarding share repurchases.

OFF-BALANCE SHEET ARRANGEMENTS

Other than in connection with executing operating leases, we do not have any off-balance sheet financing that has, or is reasonably likely to have, a material, current or future effect on our financial condition, cash flows, results of operations, liquidity, capital expenditures or capital resources.

CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

In September 2013, we issued \$1.0 billion of unsecured notes in the ordinary course of business, which are included in the table below that summarizes long-term debt, excluding capitalized lease obligations, at November 1, 2013. The unsecured notes are further described in Note 8 to the consolidated financial statements (unaudited) included herein.

Contractual Obligations (In millions)	Payments Due by Period				
	Total	Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term debt (principal amounts, excluding discount)	\$9,700	\$2	\$1,534	\$753	\$7,411
Long-term debt (interest payments)	\$7,338	\$459	\$887	\$759	\$5,233
Total	\$17,038	\$461	\$2,421	\$1,512	\$12,644

In addition, as a result of its acquisition of the majority of the assets of Orchard on August 30, 2013, Lowe's assumed operating and capitalized leases with total future payment obligations of \$477 million as of November 1, 2013. The acquisition of Orchard is described in Note 5 to the consolidated financial statements (unaudited) included herein.

As of November 1, 2013, there were no other material changes to our contractual obligations and commercial commitments outside the ordinary course of business since the end of 2012. Refer to the Annual Report on Form 10-K for additional information regarding our contractual obligations and commercial commitments.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our significant accounting policies are described in Note 1 to the consolidated financial statements presented in our Annual Report. Our critical accounting policies and estimates are described in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Annual Report. Our significant and critical accounting policies have not changed significantly since the filing of our Annual Report.

FORWARD-LOOKING STATEMENTS

This Form 10-Q includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Act"). Statements of the Company's expectations for sales growth, comparable sales, earnings and performance, shareholder value, capital expenditures, cash flows, the housing market, the home improvement industry, demand for services, share repurchases, the Company's strategic initiatives and any statement of an assumption underlying any of the foregoing, constitute "forward-looking statements" under the Act. Such forward-looking statements are found in, among other places, "Management's Discussion and Analysis of Financial Condition and Results of Operations." Statements containing words such as "expects," "plans," "strategy," "projects," "believes," "opportunity," "anticipates," "desires," "confident," and similar expressions are intended to highlight or indicate "forward-looking statements." Although we believe that the expectations, opinions, projections, and comments reflected in these forward-looking statements are reasonable, we can give no assurance that such statements will prove to be correct. A wide variety of potential risks, uncertainties, and other factors could materially

Table of Contents

affect our ability to achieve the results either expressed or implied by our forward-looking statements including, but not limited to, changes in general economic conditions, such as continued high rates of unemployment, interest rate and currency fluctuations, fluctuating fuel and other energy costs, slower growth in personal income, changes in consumer spending, changes in the rate of housing turnover, the availability and increasing regulation of consumer credit and of mortgage financing, inflation or deflation of commodity prices, and other factors which can negatively affect our customers, as well as our ability to: (i) respond to adverse trends in the housing industry, such as the psychological effects of lower home prices, and in the level of repairs, remodeling, and additions to existing homes, as well as a general reduction in commercial building activity; (ii) secure, develop, and otherwise implement new technologies and processes designed to enhance our efficiency and competitiveness; (iii) attract, train, and retain highly-qualified associates; (iv) manage our business effectively as we adapt our traditional operating model to meet the changing expectations of our customers; (v) maintain, improve, upgrade and protect our critical information systems; (vi) respond to fluctuations in the prices and availability of services, supplies, and products; (vii) respond to the growth and impact of competition; (viii) address changes in existing or new laws or regulations that affect consumer credit, employment/labor, trade, product safety, transportation/logistics, energy costs, health care, tax or environmental issues; and (ix) respond to unanticipated weather conditions that could adversely affect sales. In addition, we could experience additional impairment losses if the actual results of our operating stores are not consistent with the assumptions and judgments we have made in estimating future cash flows and determining asset fair values. For more information about these and other risks and uncertainties that we are exposed to, you should read the "Risk Factors" and "Critical Accounting Policies and Estimates" included in our Annual Report on Form 10-K to the United States Securities and Exchange Commission (the "SEC") and the description of material changes therein or updated version thereof, if any, included in our Quarterly Reports on Form 10-Q.

The forward-looking statements contained in this Form 10-Q are based upon data available as of the date of this report or other specified date and speak only as of such date. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf about any of the matters covered in this report are qualified by these cautionary statements and the "Risk Factors" included in our Annual Report on Form 10-K to the SEC and the description of material changes, if any, therein included in our Quarterly Reports on Form 10-Q. We expressly disclaim any obligation to update or revise any forward-looking statement, whether as a result of new information, change in circumstances, future events, or otherwise.

Item 3. - Quantitative and Qualitative Disclosures about Market Risk

The Company's market risk has not changed materially from that disclosed in our Annual Report on Form 10-K for the fiscal year ended February 1, 2013.

Item 4. - Controls and Procedures

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's "disclosure controls and procedures," (as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, (the Exchange Act)). Based upon their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of November 1, 2013, the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the SEC) (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

In addition, no change in the Company's internal control over financial reporting occurred during the quarter ended November 1, 2013, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

Part II – OTHER INFORMATION

Item 1A. - Risk Factors

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the fiscal year ended February 1, 2013.

Item 2. - Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table sets forth information with respect to purchases of the Company's common stock made during the third quarter of 2013:

(In millions, except average price paid per share)	Total Number of Shares Purchased ¹	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ²	Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ²
August 3, 2013 - August 30, 2013 ³	11.4	\$46.91	11.4	\$2,375
August 31, 2013 - October 4, 2013	0.9	47.99	0.9	2,333
October 5, 2013 - November 1, 2013	2.2	48.52	2.2	2,226
As of November 1, 2013	14.5	\$47.22	14.5	\$2,226

¹ During the third quarter of fiscal 2013, the Company repurchased an aggregate of 14.5 million shares of its common stock, including shares repurchased under an ASR agreement as described in Note 3 below. The total number of shares purchased also includes an insignificant number of shares withheld from employees to satisfy either the exercise price of stock options or their statutory withholding tax liability upon the vesting of restricted share-based awards.

² Authorization for up to \$5.0 billion of share repurchases with no expiration was approved on February 1, 2013. Although the repurchase authorization has no expiration, the Company expects to execute the program by the end of fiscal 2014 through purchases made from time to time either in the open market or through private off market transactions in accordance with SEC regulations.

³ In August 2013, the Company entered into an ASR agreement with a third-party financial institution to repurchase \$500 million of the Company's common stock. Pursuant to the ASR agreement, the Company paid \$500 million to the financial institution and received an initial delivery of 9.0 million shares in the third quarter of 2013. In November 2013, the Company finalized the transaction and received an additional 1.5 million shares. The average price paid per share reflected in the table above was derived using the fair market value of the shares on the date the initial 9.0 million shares were delivered. See Note 9 to the consolidated financial statements included in this report.
