

MILLER HERMAN INC  
Form 10-K  
July 26, 2011

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, DC 20549  
FORM 10-K

ANNUAL REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE  
 ACT OF 1934

For Fiscal Year Ended May 28, 2011

Commission File No. 001-15141

Herman Miller, Inc.

(Exact name of registrant as specified in its charter)

Michigan

38-0837640

(State or other jurisdiction of  
incorporation or organization)

(I.R.S. Employer Identification No.)

855 East Main Avenue

PO Box 302

Zeeland, Michigan

49464-0302

(Address of principal  
executive offices)

(Zip Code)

Registrant's telephone number, including area code: (616) 654 3000

Securities registered pursuant to Section 12(b) of the Act: None

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, \$.20 Par Value

(Title of Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "accelerated filer," "large accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

The aggregate market value of the voting stock held by “nonaffiliates” of the registrant (for this purpose only, the affiliates of the registrant have been assumed to be the executive officers and directors of the registrant and their associates) as of November 27, 2010, was \$1,214,081,835 (based on \$21.55 per share which was the closing sale price as reported by NASDAQ).

The number of shares outstanding of the registrant's common stock, as of July 19, 2011: Common stock, \$.20 par value - 58,134,281 shares outstanding.

**DOCUMENTS INCORPORATED BY REFERENCE**

Certain portions of the Registrant's Proxy Statement for the Annual Meeting of Stockholders to be held on October 10, 2011, are incorporated into Part III of this report.

## PART I

### Item 1 BUSINESS

#### General Development of Business

The company researches, designs, manufactures, and distributes interior furnishings, for use in various environments including office, healthcare, educational, and residential settings, and provides related services that support organizations and individuals all over the world. The company's products are sold primarily to or through independent contract office furniture dealers. Through research, the company seeks to define and clarify customer needs and problems existing in its markets and to design, through innovation where appropriate and feasible, products, systems, and services as solutions to such problems. Ultimately, the company seeks to enhance the performance of human habitats worldwide, making its customers' lives more productive, rewarding, delightful, and meaningful.

Herman Miller, Inc. was incorporated in Michigan in 1905. One of the company's major plants and its corporate offices are located at 855 East Main Avenue, PO Box 302, Zeeland, Michigan, 49464-0302, and its telephone number is (616) 654-3000. Unless otherwise noted or indicated by the context, the term "company" includes Herman Miller, Inc., its predecessors, and majority-owned subsidiaries. Further information relating to principles of consolidation is provided in Note 1 to the Consolidated Financial Statements included in Item 8 of this report.

#### Financial Information about Segments

Information relating to segments is provided in Note 18 to the Consolidated Financial Statements included in Item 8 of this report.

#### Narrative Description of Business

The company's principal business consists of the research, design, manufacture, and distribution of office furniture systems, products, and related services. Most of these systems and products are designed to be used together.

The company works for a better world around our customers by designing furnishings and related services that improve the human experience wherever people work, heal, learn and live. The company's ingenuity and design excellence creates award-winning products and services, that makes us a leader in design and development of furniture and furniture systems. This leadership is exemplified by the innovative concepts introduced by the company in its modular systems (including Action Office®, Canvas Office Landscape™, Ethospace®, Resolve®, My Studio Environments™ and Vivo Interiors®). The company also offers a broad array of seating (including Embody®, Aeron®, Mirra®, Setu®, Sayl®, Advo™, Celle®, Equa®, and Ergon® office chairs), storage (including Meridian® and Tu™ products), wooden casegoods (including Geiger® products), freestanding furniture products (including , Abak®, Intent®, Sense™ and Envelop®) and the recently introduced Thrive portfolio of ergonomic solutions. These, along with innovative business practices and a commitment to responsible leadership, has resulted in the company being recognized as the most admired company in the industry by FORTUNE.

The company's products are marketed worldwide by its own sales staff, independent dealers and retailers, its owned dealer network, and via our e-commerce website. Salespersons work with dealers, the design and architectural community, and directly with end-users. Independent dealerships concentrate on the sale of Herman Miller products and some complementary product lines of other manufacturers. It is estimated that approximately 73 percent of the company's sales in the fiscal year ended May 28, 2011, were made to or through independent dealers. The remaining sales were made directly to end-users, including federal, state, and local governments, and several major corporations, by the company's own sales staff, its owned dealer network, or independent retailers.

The company is also a recognized leader within its industry for the use, development, and integration of customer-centered technologies that enhance the reliability, speed, and efficiency of our customers' operations. This includes proprietary sales tools, interior design and product specification software; order entry and manufacturing scheduling and production systems; and direct connectivity to the company's suppliers.

The company's furniture systems, seating, freestanding furniture, storage and casegood products, and related services are used in (1) office/institution environments including offices and related conference, lobby, and lounge areas, and general public areas including transportation terminals; (2) health/science environments including hospitals, clinics, and other healthcare facilities; (3) industrial and educational settings; and (4) residential and other environments.

#### Raw Materials

The company's manufacturing materials are available from a significant number of sources within the United States, Canada, Europe, and Asia. To date, the company has not experienced any difficulties in obtaining its raw materials. The costs of certain direct materials used in the company's manufacturing and assembly operations are sensitive to shifts in commodity market prices. In particular, the costs of steel components, plastics, and particleboard are sensitive to the market prices of commodities such as raw steel, aluminum, crude oil, lumber, and resins. Increases in the

market prices for these commodities can have an adverse impact on the company's profitability. Further information regarding the impact of direct material costs on the company's financial results is provided in Management's Discussion and Analysis in Item 7 of this report.

#### Patents, Trademarks, Licenses, Etc.

The company has 160 active United States utility patents on various components used in its products and 72 active United States design patents. Many of the inventions covered by the United States patents also have been patented in a number of foreign countries. Various trademarks, including the name and stylized "Herman Miller" and the "Herman Miller Circled Symbolic M" trademark are registered in the United States and many foreign countries. The company does not believe that any material part of its business depends on the continued availability of any one or all of its patents or trademarks, or that its business would be materially adversely affected by the loss of any thereof, except for Herman Miller®, Herman Miller Circled Symbolic M®, Geiger®, Nemschoff®, Action Office®, Ethospace®, Aeron®, Mirra®, Eames®, PostureFit®, and Vivo Interiors™. It is estimated that the average remaining life of such patents and trademarks is approximately 6 years and 9 years, respectively.

#### Working Capital Practices

Information concerning the company's inventory levels relative to its sales volume can be found under the Executive Overview section in Item 7 of this report. Beyond this discussion, the company does not believe that it or the industry in general, has any special practices or special conditions affecting working capital items that are significant for understanding the company's business.

#### Customer Base

It is estimated that no single dealer accounted for more than 4 percent of the company's net sales in the fiscal year ended May 28, 2011. It is also estimated that the largest single end-user customer, the U.S. federal government, accounted for \$226.2 million or approximately 14 percent of the company's fiscal 2011 net sales. The 10 largest customers accounted for approximately 28 percent of net sales.

#### Backlog of Unfilled Orders

As of May 28, 2011, the company's backlog of unfilled orders was \$275.8 million. At May 29, 2010, the company's backlog totaled \$243.6 million. It is expected that substantially all the orders forming the backlog at May 28, 2011, will be filled during the next fiscal year. Many orders received by the company are reflected in the backlog for only a short period while other orders specify delayed shipments and are carried in the backlog for up to one year. Accordingly, the amount of the backlog at any particular time does not necessarily indicate the level of net sales for a particular succeeding period.

#### Government Contracts

Other than standard provisions contained in contracts with the United States Government, the company does not believe that any significant portion of its business is subject to material renegotiation of profits or termination of contracts or subcontracts at the election of various government entities. The company sells to the U.S. Government both through a GSA Multiple Award Schedule Contract and through competitive bids. The GSA Multiple Award Schedule Contract pricing is principally based upon the company's commercial price list in effect when the contract is initiated, rather than being determined on a cost-plus-basis. The company is required to receive GSA approval to increase its list prices during the term of the Multiple Award Schedule Contract period.

#### Competition

All aspects of the company's business are highly competitive. The company competes largely on design, product and service quality, speed of delivery, and product pricing. Although the company is one of the largest office furniture manufacturers in the world, it competes with manufacturers that have significant resources and sales as well as many smaller companies. In the United States, the company's most significant competitors are Haworth, HNI Corporation,

Kimball International, Knoll, and Steelcase.

#### Research, Design and Development

The company draws great competitive strength from its research, design and development programs. Accordingly, the company believes that its research and design activities are of significant importance. Through research, the company seeks to define and clarify customers and the problems which they are trying to solve. The company designs innovative products and services that address customer needs and solves their problems. The company uses both internal and independent research and design resources. Exclusive of royalty payments, the company spent approximately \$35.4 million, \$33.2 million, and \$36.2 million, on research and development activities in fiscal 2011, 2010, and 2009, respectively. Generally, royalties are paid to designers of the company's products as the products are sold and are not included in research and development costs since they are variable based on product sales.

#### Environmental Matters

Living with integrity and respecting the environment stands as one of the company's core values. This is based in part, on the belief that environmental sustainability and commercial success are not exclusive ends, but instead exist side by side in a mutually beneficial relationship. The company continues to rigorously reduce, recycle, and reuse solid waste generated by its manufacturing processes and the company's efforts and accomplishments have been widely recognized. Herman Miller continues to power 100% of our global electrical energy demand using green energy. We continue to explore and make progress in achieving our goal of zero impact on the environment by the year 2020. Based on current facts known to management, the company does not believe that existing environmental laws and regulations have had or will

-4-

---

have any material effect upon the capital expenditures, earnings, or competitive position of the company. However, there can be no assurance new environmental legislation and technology in this area will not result in or require material capital expenditures or additional costs to our manufacturing process.

#### Human Resources

The company considers its employees to be another of its major competitive strengths. The company stresses individual employee participation and incentives, believing that this emphasis has helped attract and retain a competent and motivated workforce. The company's human resources group provides employee recruitment, education and development, and compensation planning and counseling. There have been no work stoppages or labor disputes in the company's history, and its relations with its employees are considered good. Approximately 5 percent of the company's employees are covered by collective bargaining agreements, most of whom are employees of its Nemschoff and Herman Miller Limited (U.K.) subsidiaries.

As of May 28, 2011, the company employed 5,616 full-time and 189 part-time employees, representing a 2.9 percent increase and a 8.0 percent increase, respectively, compared with May 29, 2010. In addition to its employee workforce, the company uses temporary purchased labor to meet uneven demand in its manufacturing operations.

#### Information about International Operations

The company's sales in international markets are made primarily to office/institutional customers. Foreign sales consist mostly of office furniture products such as Ethospace®, Abak®, Aeron®, Mirra®, Celle®, Sayl® and other seating and storage products. The company conducts business in the following major international markets: Europe, Canada, the Middle East, Latin America, and the Asia/Pacific region. In certain foreign markets, the company's products are offered through licensing of foreign manufacturers on a royalty basis.

The company's products currently sold in international markets are manufactured by wholly owned subsidiaries in the United States, the United Kingdom, and China. Sales are made through wholly owned subsidiaries or branches in Canada, France, Germany, Italy, Japan, Mexico, Australia, Singapore, China, India, and the Netherlands. The company's products are offered in the Middle East, South America, and Asia through dealers.

In several other countries, the company licenses manufacturing and selling rights. Historically, these licensing arrangements have not required a significant investment of funds or personnel by the company, and in the aggregate, have not produced material net earnings for the company.

Additional information with respect to operations by geographic area appears in Note 18 of the Consolidated Financial Statements included in Item 8 of this report. Fluctuating exchange rates and factors beyond the control of the company, such as tariff and foreign economic policies, may affect future results of international operations. Refer to Item 7A, Quantitative and Qualitative Disclosures about Market Risk, for further discussion regarding the company's foreign exchange risk.

#### Available Information

The company's annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports are made available free of charge through the "Investors" section of the company's internet website at [www.hermanmiller.com](http://www.hermanmiller.com), as soon as practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission (SEC). The company's filings with the SEC are also available for the public to read and copy in person at the SEC's Public Reference Room at 100 F Street NE, Washington, DC 20549, by phone at 1-800-SEC-0330, or via their internet website at [www.sec.gov](http://www.sec.gov).

## Item 1A RISK FACTORS

The following risk factors and other information included in this Annual Report on Form 10-K should be carefully considered. The risks and uncertainties described below are not the only ones we face; others, either unforeseen or currently deemed less significant, may also have a negative impact on our company. If any of the following actually occurs, our business, operating results, cash flows, and financial condition could be materially adversely affected.

Our pension expenses are affected by factors outside our control, including the performance of plan assets, interest rates, actuarial data and experience and changes in laws and regulations.

Our future funding obligations for our U.S. defined benefit pension plans depend upon changes in the level of benefits provided for by the plans, the future performance of assets set aside in trusts for these plans, the level of interest rates used to determine funding levels, actuarial data and experience and any changes in government laws and regulations. In addition, our employee benefit plans hold a significant amount of equity securities. If the market values of these securities decline significantly, our future pension expenses and funding obligations could increase significantly. Decreases in interest rates that are not offset by contributions and asset returns could also increase our obligations under such plans. We may be legally required to make contributions to our U.S. pension plans in the future, and those contributions could be material. In addition, if local legal authorities increase the minimum funding requirements for our pension plan outside the United States, we could be required to contribute more funds, which would negatively affect our cash flow.

Sustained downturn in the economy could adversely impact our access to capital.

The disruption experienced in the global economic and financial markets has adversely impacted the broader financial and credit markets, at times reducing the availability of debt and equity capital for the market as a whole. Conditions such as these could re-emerge in the future. Accordingly, our ability to access the capital markets could be restricted at a time when we would like, or need, to access those markets, which could have an impact on our flexibility to react to changing economic and business conditions. The resulting lack of available credit, increased volatility in the financial markets and reduced business activity could materially and adversely affect our business, financial condition, results of operations, our ability to take advantage of market opportunities and our ability to obtain and manage our liquidity. In addition, the cost of debt financing and the proceeds of equity financing may be materially and adversely impacted by these market conditions. The extent of any impact would depend on several factors, including our operating cash flows, the duration of tight credit conditions and volatile equity markets, our credit capacity, the cost of financing, and other general economic and business conditions. Our credit agreements contain performance covenants, such as a limit on the ratio of debt to earnings before interest, taxes, depreciation and amortization, and limits on subsidiary debt and incurrence of liens. Although we believe none of these covenants are presently restrictive to our operations, our ability to meet the financial covenants can be affected by events beyond our control.

We may not be successful in implementing and managing our growth strategy.

We have established a set of key strategic goals for our business. Included among these are specific targets for growth in net sales and operating profit as a percentage of net sales. Our strategic plan assumes growth targets will be achieved by pursuing and winning new business in the following areas:

• **Primary Markets** — Capturing additional market share within our primary markets by offering superior solutions to customers who value space as a strategic tool.

• **Adjacent Markets** — Further applying our core skills in space environments such as healthcare, higher education, and residential.

• **Developing Economies** — Expanding our geographic reach in areas of the world with significant growth potential.

• **New Markets** — Developing new products and technologies that serve wholly new markets.

While we have confidence that our strategic plan reflects opportunities that are appropriate and achievable and that we have anticipated and will manage the associated risks, there is the possibility that the strategy may not deliver the

projected results due to inadequate execution, incorrect assumptions, sub-optimal resource allocation, or changing customer requirements.

There is no assurance that our current product and service offering will allow us to meet these goals. Accordingly, we believe we will be required to continually invest in the research, design, and development of new products and services. There is no assurance that such investments will have commercially successful results.

Certain growth opportunities may require us to invest in acquisitions, alliances, and the startup of new business ventures. These investments may not perform according to plan.

Future efforts to expand our business within developing economies, particularly within China and India, may expose us to the effects of political and economic instability. Such instability may impact our ability to in compete for business. It may also put the availability and/or value of our capital investments within these regions at risk. These expansion efforts expose us to operating environments with complex, changing, and in some cases, inconsistently applied legal and regulatory requirements. Developing knowledge and understanding of these requirements poses a significant challenge, and failure to remain compliant with them could limit our ability to continue doing business in these locations.

Pursuing our growth plan in new and adjacent markets, as well as within developing economies, will require us to find effective new channels of distribution. There is no assurance that we can develop or otherwise identify these channels of distribution.

The markets in which we operate are highly competitive, and we may not be successful in winning new business. We are one of several companies competing for new business within the furniture industry. Many of our competitors offer similar categories of products, including office seating, systems and freestanding office furniture, casegoods, storage, and residential and healthcare furniture solutions. We believe that our innovative product design, functionality, quality, depth of knowledge, and strong network of distribution partners differentiates us in the marketplace. However, increased market pricing pressure could make it difficult for us to win new business with certain customers and within certain market segments at acceptable profit margins.

Adverse economic and industry conditions could have a negative impact on our business, results of operations, and financial condition.

Customer demand within the contract office furniture industry is affected by various macro-economic factors; general corporate profitability, white-collar employment levels, new office construction rates, and existing office vacancy rates are among the most influential factors. History has shown that declines in these measures can have an adverse effect on overall office furniture demand. Additionally, factors and changes specific to our industry, such as developments in technology, governmental standards and regulations, and health and safety issues can influence demand. There are current and future economic and industry conditions, which could adversely affect our business, operating results, or financial condition.

Our business presence outside the United States exposes us to certain risks that could negatively affect our results of operations and financial condition.

We have significant manufacturing and sales operations in the United Kingdom, which represents our largest marketplace outside the United States. We also have manufacturing operations in China. Additionally, our products are sold internationally through wholly-owned subsidiaries or branches in various countries including Canada, Mexico, Brazil, France, Germany, Italy, Netherlands, Japan, Australia, Singapore, China, and India. In certain other regions of the world, our products are offered primarily through independent dealerships.

Doing business internationally exposes us to certain risks, many of which are beyond our control and could potentially impact our ability to design, develop, manufacture, or sell products in certain countries. These factors could include, but would not necessarily be limited to:

- Political, social, and economic conditions
- Legal and regulatory requirements
- Labor and employment practices
- Cultural practices and norms
- Natural disasters
- Security and health concerns
- Protection of intellectual property

In some countries, the currencies in which we import and export products can differ. Fluctuations in the rate of exchange between these currencies could negatively impact our business. Additionally, tariff and import regulations, international tax policies and rates, and changes in U.S. and international monetary policies may have an adverse impact on results of operations and financial condition.

Disruptions in the supply of raw and component materials could adversely affect our manufacturing and assembly operations.

We rely on outside suppliers to provide on-time shipments of the various raw materials and component parts used in our manufacturing and assembly processes. The timeliness of these deliveries is critical to our ability to meet customer demand. Any disruptions in this flow of delivery could have a negative impact on our business, results of operations, and financial condition.

Increases in the market prices of manufacturing materials may negatively affect our profitability. The costs of certain manufacturing materials used in our operations are sensitive to shifts in commodity market prices. In particular, the costs of steel, plastic and aluminum components and particleboard are sensitive to the market prices of commodities such as raw steel, aluminum, crude oil, lumber, and resins. Increases in the market prices of these commodities may have an adverse impact on our profitability if we are unable to offset them with strategic sourcing, continuous improvement initiatives or increased prices to our customers.

Disruptions within our dealer network could adversely affect our business. Our ability to manage existing relationships within our network of independent dealers is crucial to our ongoing success. Although the loss of any single dealer would not have a material adverse effect on the overall business, our business within a given market could be negatively affected by disruptions in our dealer network caused by the termination of commercial working relationships, ownership transitions, or dealer financial difficulties.

If dealers go out of business or restructure, we may suffer losses because they may not be able to pay for products already delivered to them. Also, dealers may experience financial difficulties, creating the need for outside financial support, which may not be easily obtained. In the past, we have, on occasion, agreed to provide direct financial assistance through term loans, lines of credit, and/or loan guarantees to certain dealers.

There is no assurance that these dealers will be able to repay amounts owed to us or to banks with which we have offered guarantees.

Increasing competition for highly skilled and talented workers could adversely affect our business. The successful implementation of our business strategy depends, in part, on our ability to attract and retain a skilled workforce. The increasing competition for highly skilled and talented employees could result in higher compensation costs, difficulties in maintaining a capable workforce, and leadership succession planning challenges.

Costs related to product defects could adversely affect our profitability. We incur various expenses related to product defects, including product warranty costs, product recall and retrofit costs, and product liability costs. These expenses relative to product sales vary and could increase. We maintain reserves for product defect-related costs based on estimates and our knowledge of circumstances that indicate the need for such reserves. We cannot, however, be certain that these reserves will be adequate to cover actual product defect-related claims in the future. Any significant increase in the rate of our product defect expenses could have a material adverse effect on operations.

We are subject to risks associated with self-insurance related to health benefits. We are self-insured for our health benefits and maintain per employee stop loss coverage however we retain the insurable risk at an aggregate level, therefore unforeseen or catastrophic losses in excess of our insured limits could have a material adverse effect on the company's financial condition and operating results. See Note 1 of the Consolidated Financial Statements for information regarding the company's retention level.

Government and other regulations could adversely affect our business. Government and other regulations apply to many of our products. Failure to comply with these regulations or failure to obtain approval of products from certifying agencies could adversely affect the sales of these products and have a material negative impact on operating results.

Item 1B UNRESOLVED STAFF COMMENTS — none

## Item 2 PROPERTIES

The company owns or leases facilities located throughout the United States and several foreign countries. The location, square footage, and use of the most significant facilities at May 28, 2011 were as follows:

Owned Locations	Square Footage	Use
Holland, Michigan	917,400	Manufacturing, Distribution, Warehouse, Design, Office
Spring Lake, Michigan	818,300	Manufacturing, Warehouse, Office
Zeeland, Michigan	750,800	Manufacturing, Warehouse, Office
Sheboygan, Wisconsin	207,700	Manufacturing, Warehouse, Office
England, U.K.	85,000	Manufacturing, Office

### Leased Locations

Atlanta, Georgia	176,700	Manufacturing, Warehouse, Office
England, U.K.	93,500	Manufacturing, Warehouse
Ningbo, China	94,700	Manufacturing, Warehouse, Office

The company also maintains showrooms or sales offices near many major metropolitan areas throughout North America, Europe, Asia/Pacific, and Latin America. The company considers its existing facilities to be in excellent condition, efficiently utilized, well suited, and adequate for its design, production, distribution, and selling requirements.

## Item 3 LEGAL PROCEEDINGS

The company is involved in legal proceedings and litigation arising in the ordinary course of business. In the opinion of management, the outcome of such proceedings and litigation currently pending will not materially affect the company's operations, cash flows and financial condition.

## ADDITIONAL ITEM: EXECUTIVE OFFICERS OF THE REGISTRANT

Certain information relating to Executive Officers of the company is as follows.

Name	Age	Year Elected an Executive Officer	Position with the Company
Gregory J. Bylsma	46	2009	Executive Vice President, Chief Financial Officer
James E. Christenson	64	1989	Senior Vice President, Legal Services, and Secretary
Steven C. Gane	56	2009	Senior Vice President, President, Geiger International
Donald D. Goeman	54	2005	Executive Vice President, Research, Design & Development
Kenneth L. Goodson, Jr.	59	2003	Executive Vice President, Operations
Andrew J. Lock	57	2003	Executive Vice President, President, International
Elizabeth A. Nickels	49	2000	Executive Vice President, President, Herman Miller Healthcare
Curtis S. Pullen	51	2007	Executive Vice President, President, North American Office and Learning Environments
Michael F. Ramirez	46	2011	Senior Vice President of People, Places and Administration
Jeffrey M. Stutz	40	2009	Treasurer and Vice President, Investor Relations
Brian C. Walker	49	1996	President and Chief Executive Officer
B. Ben Watson	46	2010	Executive Creative Director

Except as discussed below, each of the named officers has served the company in an executive capacity for more than five years.

Mr. Bylsma joined Herman Miller, Inc. in 2000 as Director of Reporting & Planning for North America prior to being appointed Corporate Controller in 2005.

Mr. Gane joined Herman Miller in 2007 as President of Geiger International. Prior to this he worked for Furniture Brands International for 16 years serving mostly as President of HBF.

Mr. Pullen joined Herman Miller in 1991 and served as Chief Financial Officer from 2007 to 2009, Senior Vice President of Dealer Distribution from 2003 to 2007, Senior Vice President of Finance for North America from 2000 to 2003, and Vice President of Finance, Herman Miller International from 1994 to 2000.

Mr. Ramirez joined Herman Miller in 1998 and served as Director of Purchasing from 1998 to 2005, Vice President of Inclusiveness and Diversity from 2005 to 2009, and Vice President of Sales Operations from 2009 to 2011.

Mr. Stutz joined Herman Miller in 2009 as Treasurer and Vice President, Investor Relations. Previously he served as Chief Financial Officer for Izzy Designs Inc., subsequent to holding various positions within Herman Miller finance.

Mr. Watson joined Herman Miller in 2010 as Executive Creative Director, and prior to this he served as Managing Director and CEO of Moroso USA. Prior to this Mr. Watson served in creative roles as Global Creative Director of Apparel at Nike, and Global Marketing Director at Vitra.

There are no family relationships between or among the above-named executive officers. There are no arrangements or understandings between any of the above-named officers pursuant to which any of them was named an officer.

## PART II

## Item 5 MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

## Share Price, Earnings, and Dividends Summary

Herman Miller, Inc., common stock is traded on the NASDAQ-Global Select Market System (Symbol: MLHR). As of July 26, 2011, there were approximately 17,600 record holders, including individual participants in security position listings, of the company's common stock.

Per Share and Unaudited	Market Price High (at close)	Market Price Low (at close)	Market Price Close	Earnings Per Share-Diluted <sup>(1)</sup>	Dividends Declared Per Share
Year ended May 28, 2011:

Year	\$22.37	\$13.43	\$19.23	\$0.43	\$0.08800

(1) The sum of the quarters may not equal the annual balance due to rounding associated with the calculation of earnings per share on an individual quarter basis

Dividends were declared and paid quarterly during fiscal 2011 and 2010 as approved by the Board of Directors. While it is anticipated that the company will continue to pay quarterly cash dividends, the amount and timing of such dividends is subject to the discretion of the Board depending on the company's future results of operations, financial condition, capital requirements, and other relevant factors.

## Issuer Purchases of Equity Securities

The following is a summary of share repurchase activity during the fourth quarter ended May 28, 2011.

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share or Unit	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet be Purchased Under the Plans or Programs <sup>(1)</sup>
2/27/11-3/26/11	41	25.63	41	\$169,412,077
3/27/11-4/23/11	2,441	26.03	2,441	\$169,348,538
4/24/11-5/28/11	—	—	—	\$169,348,538
Total	2,482	26.02	2,482	

(1) Amounts are as of the end of the period indicated

The company repurchases shares under a previously announced plan authorized by the Board of Directors on September 28, 2007, which provided share repurchase authorization of \$300,000,000 with no specified expiration date.

-11-

---

No repurchase plans expired or were terminated during the fourth quarter of fiscal 2011.

During the period covered by this report the company did not sell any of its equity shares that were not registered under the Securities Act of 1933.

#### Stockholder Return Performance Graph

Set forth below is a line graph comparing the yearly percentage change in the cumulative total stockholder return on the Company's common stock with that of the cumulative total return of the Standard & Poor's 500 Stock Index and the NASD Non-Financial Index for the five-year period ended May 28, 2011. The graph assumes an investment of \$100 on May 28, 2005 in the company's common stock, the Standard & Poor's 500 Stock Index and the NASD Non-Financial Index, with dividends reinvested.

	2006	2007	2008	2009	2010	2011
Herman Miller, Inc.	\$100	\$121	\$83	\$49	\$67	\$85
S&P 500 Index	\$100	\$119	\$109	\$71	\$85	\$103
NASD Non-Financial	\$100	\$122	\$121	\$86	\$133	\$144

Information required by this item is also contained in Item 12 of this report.

## Item 7 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Management's Discussion and Analysis

You should read the issues discussed in Management's Discussion and Analysis in conjunction with the company's Consolidated Financial Statements and the Notes to the Consolidated Financial Statements included in this Form 10-K.

#### Executive Overview

At Herman Miller, we work for a better world around you. We do this by designing and developing award-winning furniture and related services and technologies that improve your environment, whether it's an office, hospital, school, home, an entire building, or the world at large. At present, most of our customers come to us for interior environments in both corporate office and healthcare settings. We also have a growing presence in educational and residential markets. Our primary products include furniture systems, seating, storage and material handling solutions, freestanding furniture, patient care products, and casegoods. Our other services extend from workplace solutions to furniture asset management.

More than 100 years of innovative business practices and a commitment to social responsibility have established Herman Miller as a recognized global company. In 2011, Herman Miller again received the Human Rights Campaign (HRC) Foundation's top rating in its annual Corporate Equality Index and was also cited by FORTUNE as the "Most Admired" company in the contract furniture industry.

Our products are sold internationally through wholly-owned subsidiaries or branches in various countries including the United Kingdom, Canada, France, Germany, Italy, Japan, Mexico, Australia, Singapore, China, India, and the Netherlands. Our products are offered elsewhere in the world primarily through independent dealerships. We have customers in over 100 countries.

We are globally positioned in terms of manufacturing operations. In the United States, our manufacturing operations are located in Michigan, Georgia, Iowa and Wisconsin. In Europe, we have a manufacturing presence in the United Kingdom, our largest marketplace outside of the United States. In Asia, we have manufacturing operations in Ningbo, China. We manufacture our products using a system of lean manufacturing techniques collectively referred to as the Herman Miller Performance System (HMPS). We strive to maintain efficiencies and cost savings by minimizing the amount of inventory on hand. Accordingly, production is order-driven with direct materials and components purchased as needed to meet demand. The standard lead time for the majority of our products is 10 to 20 days. These factors result in a high rate of inventory turns and typically cause our inventory levels to appear relatively low compared to our sales volume.

A key element of our manufacturing strategy is to limit fixed production costs by sourcing component parts from strategic suppliers. This strategy has allowed us to increase the variable nature of our cost structure while retaining proprietary control over those production processes that we believe provide us a competitive advantage. As a result of this strategy, our manufacturing operations are largely assembly-based.

Our business consists of various operating segments as defined by generally accepted accounting principles. These operating segments are determined on the basis of how we internally report and evaluate financial information used to make operating decisions and are organized by the various markets we serve. For external reporting purposes, we aggregate these operating segments as follows.

## Edgar Filing: MILLER HERMAN INC - Form 10-K

• North American Furniture Solutions - Includes the business associated with the design, manufacture, and sale of furniture products for office, learning and healthcare environments throughout the United States and Canada.

• Non-North American Furniture Solutions - Includes the business associated with the design, manufacture, and sale of furniture products primarily for work-related settings for Mexico and outside North America.

• Other - Includes our North American residential furniture business as well as unallocated corporate expenses, and restructuring costs.

### Core Strengths

We rely on the following core strengths in delivering workplace solutions to our customers.

Brand - Our brand is recognized by customers as a pioneer in design and sustainability, and as an advocate that supports their needs and interests. Within our industry, Herman Miller is acknowledged as one of the leading brands that inspires architects and designers to create their best commercial design solutions. Leveraging our brand equity across our lines of business to extend our reach to customers and consumers is an important element of our business strategy.

Problem - Solving Design and Innovation - We are committed to developing research-based functionality and aesthetically innovative new products and have a history of doing so. We believe our skills and experience in matching problem-solving design with the workplace needs of our customers provide us with a competitive advantage in the marketplace. An important component of our business strategy is to actively pursue a program of new product research, design, and development. We accomplish this through the use of

-15-

---

an internal research, engineering, and design staff as well as third party design resources generally compensated on a royalty basis.

**Operational Excellence** - We were among the first in our industry to embrace the concepts of lean manufacturing. HMPS provides the foundation for all of our manufacturing operations. We are committed to continuously improving both product quality and production and operational efficiency. We have extended this lean process work to our non-manufacturing processes as well as externally to our manufacturing supply chain and distribution channel. We believe this work holds great promise for further gains in reliability, quality and efficiency.

**Building and Leading Networks** - We value relationships in all areas of our business. We consider our networks of innovative designers, owned and independent dealers, and suppliers to be among our most important competitive factors and vital to the long-term success of our business.

#### Channels of Distribution

Our products and services are offered to most of our customers under standard trade credit terms between 30 and 45 days and are sold through the following distribution channels.

**Independent Contract Furniture Dealers and Licensees** - Most of our product sales are made to a network of independently owned and operated contract furniture dealerships doing business in many countries around the world. These dealers purchase our products and distribute them to end customers. We recognize revenue on product sales through this channel once our products are shipped and title passes to the dealer. Many of these dealers also offer furniture-related services, including product installation.

**Owned Contract Furniture Dealers** - At May 28, 2011, we owned 9 contract furniture dealerships, some of which have operations in multiple locations. The financial results of these owned dealers are included in our Consolidated Financial Statements. Product sales to these dealerships are eliminated as inter-company transactions from our consolidated financial results. We recognize revenue on these sales once products are shipped to the end customer and installation is substantially complete. We believe independent ownership of contract furniture dealers is generally the best model for a financially strong distribution network. With this in mind, our strategy is to continue to pursue opportunities to transition our owned dealerships to independent owners. Where possible, our goal is to involve local managers in these ownership transitions. Subsequent to the end of fiscal 2011 we completed the sale of two ontract furniture dealerships.

**Direct Customer Sales** - We sometimes sell products and services directly to end customers without an intermediary (e.g. sales to the U.S. federal government). In most of these instances, we contract separately with a dealership or third-party installation company to provide sales-related services. We recognize revenue on these sales once products are shipped and installation is substantially complete.

**Independent Retailers** - Certain products are sold to end customers through independent retail operations. Revenue is recognized on these sales once products are shipped and title passes to the independent retailer.

- **E-Commerce** - During fiscal 2011 the company launched its own internet based sales business, in which products are now available for sale via the company's website. This site complements our existing methods of distribution and exemplifies the company's brand to new customers. The company recognizes revenue on these sales once products are shipped.

#### Challenges Ahead

Like all businesses, we are faced with a host of challenges and risks. We believe our core strengths and values, which provide the foundation for our strategic direction, have us well prepared to respond to the inevitable challenges we will face in the future. While we are confident in our direction, we acknowledge the risks specific to our business and industry. Refer to Item 1A for discussion of certain of these risk factors.

#### Future Avenues of Growth

We believe we are well positioned to successfully pursue our mission in spite of the risks and challenges we face. That is, we will design and develop furniture and related services and technologies that reflect sustainable business practices that improve environments and help to create a better world. In pursuing our mission, we have identified the following as key avenues for our future growth.

• **Primary Markets** - Capture additional market share within our primary markets by offering superior solutions and ever expanding product categories, to customers who value space as a strategic tool.

• **Adjacent Markets** - Further apply our core skills in space environments such as healthcare, higher education, and residential.

• **Developing Economies** - Expand our geographic reach in areas of the world with significant growth potential.

◆New Markets - Develop or acquire new products and technologies that serve new markets.

#### Industry Analysis

The Business and Institutional Furniture Manufacturer's Association (BIFMA) is the trade association for the U.S. domestic office furniture industry. We monitor the trade statistics reported by BIFMA and consider them an indicator of industry-wide sales and order performance. BIFMA publishes statistical data for the contract segment and the office supply segment within the U.S. furniture market. The U.S. contract segment is primarily with large to mid-size corporations installed via a network of dealers. The office supply segment is primarily to smaller customers via wholesalers and retailers. We primarily participate, and are a leader in, the contract segment. It is important to note that our diversification strategy lessens our dependence on the U.S. office furniture market.

We also analyze BIFMA statistical information as a benchmark comparison against the performance of our domestic U.S. business and also to that of our competitors. The timing of large project-based business may affect comparisons to this data in any one period. Finally, BIFMA regularly provides its members with industry forecast information, which we use internally as one of several considerations in our short and long-range planning process.

#### Discussion of Business Conditions

Our fiscal years ended May 28, 2011 and May 29, 2010 each included 52 weeks of operations.

Fiscal 2011 benefited from a more robust global economic environment impacting most areas of our business from a net sales and orders perspective. Net sales and net trade orders rebounded 25.1 percent and 26.5 percent, respectively, from the prior year. Operating earnings were 7.5 percent of sales (including the positive impact on operating expense resulting from reducing the estimated liability related to contingent payments associated with the Nemschoff acquisition of \$15.1 million, refer to Note 2 of the Consolidated Financial Statements). From an economic perspective, the macro drivers of demand in the contract office furniture industry have strengthened within the year with office moves and low rental rates continuing to drive new orders. However, this continues to be tempered by fairly stagnant unemployment rates.

We have made great progress this year toward our strategic goals while delivering solid financial results. We took action to de-leverage our balance sheet in the fourth quarter by paying off \$100 million of our public bond issue, partially funded by \$50 million of newly issued private placement notes. We also took action to reduce our long-term pension commitments during the year by contributing approximately \$53 million in the form of cash and stock to the pension plan. We continued our focus on operational excellence with our manufacturing operations maintaining a reliability score of 99 percent throughout the year and, for the fifth time in six years, we received the Office Furniture Dealers Alliance (OFDA) Gold award as the Manufacturer of the Year.

The development of new products has remained a critical element of our business strategy as we worked continue to deliver superior products and services to our dealer network. During the year we launched the Thrive portfolio of ergonomic solutions which includes the technology support products we acquired through the purchase of Colebrook Bosson & Saunders in May 2010. We also introduced the Sayl® family of chairs which furthered our leadership position in office seating as well as launched Canvas Office Landscape™ - a collection of work station, desking and storage elements that work in harmony to address multiple space applications, from open plan to private office. At this year's NeoCon we introduced 13 new products. Among the most significant achievements was a new healthcare Overbed Table called Oasis™, which won a Gold award in the healthcare furniture category and the Geiger Sotto™ executive chair which won silver in the ergonomic/task seating category.

During the fourth quarter of fiscal 2011 we announced the plans to acquire POSH Office Systems Ltd., a Hong Kong-based designer, manufacturer, and distributor of office furniture systems, freestanding furniture, seating, filing and storage with manufacturing in China and distribution in Hong Kong and China. With POSH we gain immediate access to the Chinese market. As the demand for high quality seating and furniture continues to grow in the region, we anticipate a significant increase in the sales of Herman Miller products through the POSH dealer network. With an expanded product offering through POSH, we can also look beyond China to other markets and customers we are not presently serving. We anticipate this acquisition to close during late calendar 2011.

With business conditions seemingly improving, there's a growing sense of optimism within the company backed by the innovative spirit of our people and a brand that we believe is second-to-none in our industry. Our continued investments in product and business development throughout the downturn enhanced both the depth and diversity of our product offering, leaving us well positioned to grow in each of our markets.

Looking forward, the general economic outlook for our industry in the U.S. is expected to be positive. BIFMA issued its most recent report in May 2011 expecting that the growth rate of office furniture orders and shipments in the U.S. for calendar 2011 will be 14.5 percent and 17.5 percent, respectively. This forecasted growth is based on an improvement in the U.S. economy, including the assumption that businesses will continue to invest in office furniture in order to boost employee productivity. The forecast projects both orders and shipments will moderate in calendar 2012.

## Financial Results

The following is a comparison of our annual results of operations and year-over-year percentage changes for the periods indicated.

(Dollars In millions)	Fiscal 2011	% Chg from 2010	Fiscal 2010	% Chg from 2009	Fiscal 2009
Net sales	\$1,649.2	25.1	% \$1,318.8	(19.1)	)% \$1,630.0
Cost of sales	1,111.1	24.8	% 890.3	(19.2)	)% 1,102.3
Gross margin	538.1	25.6	% 428.5	(18.8)	)% 527.7
Operating expenses	414.8	10.6	% 374.9	(7.4)	)% 404.9
Operating earnings	123.3	130.0	% 53.6	(56.4)	)% 122.8
Net other expenses	20.8	10.6	% 18.8	(21.3)	)% 23.9
Earnings before income taxes	102.5	194.5	% 34.8	(64.8)	)% 98.9
Income tax expense	31.7	387.7	% 6.5	(79.0)	)% 31.0

Net earnings attributable to controlling interest	4.3	2.1	4.2

## Net Sales, Orders, and Backlog - Fiscal 2011 Compared to Fiscal 2010

For the fiscal year ended May 28, 2011, consolidated net sales increased 25.1 percent to \$1,649.2 million from \$1,318.8 million for the fiscal year ended May 29, 2010. This year-over-year increase was driven by a more robust global economic environment and was experienced across nearly all operating and geographic units. The overall impact of foreign currency changes for the fiscal year was to increase net sales by approximately \$10 million.

Consolidated net trade orders for fiscal 2011 totaled \$1,672.3 million compared to \$1,322.4 million in fiscal 2010, an increase of 26.5 percent. Order rates began the year at a steady pace with orders averaging approximately \$30 million per week through the first quarter. The second and third quarter weekly orders rates averaged approximately \$36 million and \$28 million, respectively, with the third quarter experiencing our typical seasonal slowdown. The fourth quarter finished the year with average weekly order rates increasing to approximately \$35 million. The overall impact

of foreign currency changes for the fiscal year increased net orders by approximately \$8 million.

Our backlog of unfilled orders at the end of fiscal 2011 totaled \$275.8 million, a 13.2 percent increase from the \$243.6 million backlog at the

-19-

---

end of fiscal 2010.

BIFMA reported an estimated year-over-year increase in U.S. office furniture shipments of approximately 17.6 percent for the twelve-month period ended May 2011. By comparison, the net sales increase for our domestic U.S. business was approximately 24.8 percent. We believe that while comparisons to BIFMA are important, we continue to pursue a strategy of revenue diversification that makes us less reliant on the drivers that impact BIFMA.

#### Net Sales, Orders, and Backlog - Fiscal 2010 Compared to Fiscal 2009

For the fiscal year ended May 29, 2010, consolidated net sales declined 19.1 percent to \$1,318.8 million from \$1,630.0 million for the fiscal year ended May 30, 2009. This year-over-year decline was driven by the global economic environment and was experienced across nearly all operating and geographic units. While the U.S. dollar strengthened against many major currencies during fiscal 2010, it weakened against others, notably the Canadian dollar. The overall impact of foreign currency changes for fiscal year 2010 was to increase net sales by approximately \$5 million.

Consolidated net trade orders for fiscal 2010 totaled \$1,322.4 million compared to \$1,564.7 million in fiscal 2009, a decrease of 15.5 percent. Order rates began the year at a steady pace with orders averaging between approximately \$25 million and \$27 million per week through the first two quarters. These order rates, and other economic inputs, gave a solid signal that the business had hit bottom and was stabilized. Moving into the second half of the fiscal 2010, the third quarter, which historically has the weakest order rate of the year, orders dipped down to an average weekly rate of approximately \$22 million per week. Although low, this order rate represented a slight increase in order rates from the prior year. The fourth quarter order rates averaged approximately \$28 million per week, which represented our highest order rate in 18 months. The overall impact of foreign currency changes for fiscal year 2010 was to increase net orders by approximately \$4 million.

The backlog of unfilled orders at the end of fiscal 2010 totaled \$243.6 million, a 17.2 percent increase from the \$207.8 million backlog at the end of fiscal 2009.

BIFMA reported an estimated year-over-year decline in U.S. office furniture shipments of approximately 22.3 percent for the twelve-month period ended May 2010. By comparison, the net sales decline for our domestic U.S. business was approximately 18.8 percent. We believe that while comparisons to BIFMA are important, we continue to pursue a strategy of revenue diversification that makes us less reliant on the drivers that impact BIFMA.

#### Discussion of Operating Segments - Fiscal 2011 Compared to Fiscal 2010

Effective as of the second quarter of fiscal 2011, management has modified the company's segment reporting in order to better align with changes made in the second quarter to the organizational and management reporting structure. Specifically, the company is now reporting operations in Mexico within its non-North American Furniture Solutions operating segment rather than in North American Furniture Solutions. Prior year results have been revised to reflect this change.

Net sales within the North American Furniture Solutions (North America) segment were \$1,304.9 million in fiscal 2011, a 24.5 percent increase from fiscal 2010 net sales of \$1,048.1 million. We experienced an increase across all sectors of our North American business during fiscal 2011. Operating earnings for the segment in fiscal 2011 were \$98.1 million, or 7.5 percent of net sales. This compares to segment earnings of \$71.5 million or 6.8 percent of net sales in fiscal 2010. The increase in operating earnings as a percent of net sales in the current fiscal year is primarily driven by leverage.

Net sales from the non-North American Furniture Solutions (non-North America) segment were \$290.4 million in fiscal 2011, a \$67.7 million or a 30.4 percent increase from fiscal 2010 net sales of \$222.7 million. All regions experienced year-over-year sales growth. Operating earnings within the non-North American segment totaled \$18.8 million for the year or 6.5 percent of net sales. This compares to an operating loss of \$0.2 million or a negative 0.1 percent of net sales in fiscal 2010, an increase of 660 basis points. The operating loss in fiscal 2010 was significantly affected by an independent dealer in Australia that went into receivership and resulted in bad debt expense of approximately \$5 million.

Net sales within the "Other" segment category were \$53.9 million in fiscal 2011 an increase of \$5.9 million, or 12.3 percent, compared to fiscal 2010 net sales of \$48.0 million. The increase in net sales is the result of strong sales by our North American Retail business. It should be noted that while the majority of corporate costs are allocated to the operating segments, certain costs that are generally considered the result of isolated business decisions are not subject to allocation. These costs include restructuring and asset impairment expenses, which have been allocated entirely to the "Other" category in fiscal 2011, fiscal 2010 and fiscal 2009. Restructuring and asset impairment expenses totaled \$3.0 million, \$16.7 million and \$28.4 million in fiscal 2011, fiscal 2010 and fiscal 2009, respectively. These costs are discussed further in Note 19 of the Consolidated Financial Statements.

Operating earnings within the "Other" segment category totaled \$6.4 million for the year. This compares to a loss of \$17.7 million in the prior

year. The significant drivers of operating losses in the prior year were restructuring expenses and a \$2.5 million asset impairment charge related to the Convia business.

We estimate changes in foreign exchange rates during the year effectively increased our fiscal 2011 net sales within the North American segment by approximately \$5 million, driven primarily by the U.S. dollar / Canadian dollar impact, while the impact on net sales within the non-North American segment was approximately \$5 million driven primarily by the U.S. dollar / Australian dollar impact. It is important to note that period-to-period changes in currency exchange rates have a directionally similar impact on our international cost structures, which reduces the impact of currency fluctuations on operating earnings. Operating earnings within our North American segment increased an estimated \$4 million in fiscal 2011 due to currency changes. The estimated impact on operating earnings of our non-North American business segment due to currency changes, was an increase of approximately \$2 million.

#### Discussion of Operating Segments - Fiscal 2010 Compared to Fiscal 2009

Net sales within the North American Furniture Solutions (North America) segment were \$1,048.1 million in fiscal 2010, a \$262.4 million or 20.0 percent decrease from fiscal 2009 net sales of \$1,310.5 million. We experienced a decline throughout our North American business operations in fiscal 2010, except for healthcare which benefited from the acquisition of Nemschoff in the first quarter. Nemschoff sales were \$67.6 million during fiscal 2010 or 6.4 percent of net sales. Within this segment, we experienced increased sales from education, government and healthcare customers. Operating earnings for the segment in fiscal 2010 were \$71.5 million, or 6.8 percent of net sales. This compares to segment earnings of \$129.0 million or 9.8 percent in fiscal 2009.

Net sales from the non-North American Furniture Solutions (non-North America) segment were \$222.7 million in fiscal 2010, a \$54.6 million, or 19.7 percent, decrease from fiscal 2009 net sales of \$277.3 million. There were regions that experienced year-over-year sales growth, including India, China and Brazil. The areas hardest hit during the year were the Middle East and North Latin America which were down 41 and 37 percent from prior year, respectively. Operating losses within the non-North American segment totaled \$0.2 million for the year or a negative 0.1 percent of net sales in fiscal 2010. This compares to operating earnings of \$19.1 million or 6.9 percent of net sales in fiscal 2009. The operating loss in fiscal 2010 was significantly affected by an independent dealer in Australia that went into receivership and resulted in bad debt expense of approximately \$5 million.

Net sales within the "Other" segment category were \$48.0 million in fiscal 2010 an increase of \$5.8 million, or 13.7 percent, compared to fiscal 2009 net sales of \$42.2 million. The increase in net sales was the result of strong sales by our North American Retail business. It should be noted that while the majority of corporate costs are allocated to the operating segments, certain costs that are generally considered the result of isolated business decisions are not subject to allocation. Restructuring and asset impairment expenses are some of these costs, and have been allocated entirely to the "Other" category in fiscal 2010 and 2009. Restructuring and asset impairment expenses totaled \$16.7 million in fiscal 2010 and \$28.4 million in fiscal 2009 and are discussed further in Note 19 of the Consolidated Financial Statements.

Operating losses within the "Other" segment category totaled \$17.7 million for fiscal year 2010. This compares to a loss of \$25.3 million in fiscal 2009. The significant driver of operating losses in both years were restructuring expenses, though it should be noted that in the fiscal year 2010 there was also a \$2.5 million asset impairment charges related to the Convia business that contributed to the operating loss.

The U.S. dollar was up and down against the British pound and the euro during fiscal 2010, and weakened throughout the year against the Canadian dollar. The changes in currency exchange rates from fiscal 2009 affected the U.S. dollar value of net sales only in the North American operating segment. The non-North American segment ended fiscal 2010 with essentially no impact from currency on year-over-year net sales. We estimate these changes effectively increased

our fiscal 2010 net sales within the North American Furniture Solutions segment by approximately \$5 million, driven entirely by the U.S. dollar / Canadian dollar impact. It is important to note that period-to-period changes in currency exchange rates have a directionally similar impact on our international cost structures. Operating earnings within our non-North American segment increased an estimated \$1.0 million in fiscal 2010. The estimated impact on operating earnings of our North American business segment due to currency changes, was an increase of approximately \$3.5 million.

#### Gross Margin - Fiscal 2011 Compared to Fiscal 2010

Our fiscal 2011 gross margin as a percentage of sales was 32.6 percent which is an increase of 10 basis points from the fiscal 2010 level. This modest increase was driven primarily by cost leverage on higher production, which was partially offset by deeper discounting, higher employee benefit and incentive costs, and higher costs of key direct materials, most notably steel and steel components. Deeper discounting reduced net sales relative to prior periods. This has the effect of increasing the components of the Condensed Consolidated Statement of Operations as a percentage of net sales.

Direct material costs as a percentage of sales in the current year increased 150 basis points from fiscal 2010. This was primarily driven by an increase in the cost of commodities and the increase in discounting, which has the effect of reducing net sales.

Direct labor costs were lower by 20 basis points as a percentage of sales, although higher in dollars by \$19.5 million driven by an increase in volume from fiscal 2010 levels. This percentage decrease was driven primarily by improved efficiencies and product mix, which was partially offset by deeper discounting and increased employee incentives and benefit costs.

Overhead costs as a percent of net sales were lower by 170 basis points but increased by \$20.7 million driven by higher volumes from fiscal 2010. The percentage decrease resulted from increased leverage from higher volumes, which was partially offset by deeper discounting and increased employee incentives and benefit costs.

Freight expenses, as a percentage of sales, were modestly higher by 30 basis points compared to fiscal 2010 levels. In dollars these costs were higher by \$17.4 million due to increased volume. The largest contributing factor to the percentage of sales increase was the increase in fuel costs during the year.

#### Gross Margin - Fiscal 2010 Compared to Fiscal 2009

Our fiscal 2010 gross margin as a percentage of sales was 32.5 percent which is an increase of 10 basis points from the fiscal 2009 level. Lower direct material costs due to a reduction in commodity prices along with reduced compensation and benefits from a reduced work schedule, offset deeper discounting and loss of leverage from lower volume. Details relative to each component of gross margin follow.

Direct material costs in fiscal 2010, as a percentage of sales in fiscal year 2010 decreased 200 basis points. Compared to fiscal 2009, raw material prices were lower in the first half of the year and then gradually increased throughout the second half. The overall impact in the fiscal year 2010 was positive.

Direct labor costs in fiscal 2010 were higher by 50 basis points as a percentage of sales, though lower in dollars by \$13.1 million, from fiscal 2009 levels. This percentage increase was driven by higher benefit expenses and deeper discounting though it was partially offset by increased operational efficiencies.

Overhead costs in fiscal 2010 decreased by \$25.7 million from fiscal 2009, though as a percentage of sales these costs increased 110 basis points. The percentage increase resulted from lost leverage from lower volume and the impact from deeper discounting in fiscal 2010, though this was partially offset by our ability to realize cost reductions associated with restructuring actions.

Freight expenses in fiscal 2010, as a percentage of sales, were modestly higher by 10 basis points compared to fiscal 2009 levels. In dollars these costs were lower by \$10.7 million. While fuel costs did rise throughout the year, the largest contributing factor to the increase as a percentage of sales was the loss of volume which created more less-than-full loads.

#### Restructuring - Fiscal 2011 and Fiscal 2010

During fiscal 2011, we continued to experience some impact from the previous restructuring actions initiated in prior years. Total restructuring expense for the year was \$3.0 million.

The restructuring accrual balances of \$1.0 million and \$7.0 million for fiscal years 2011 and 2010, respectively are included in, "Accrued liabilities" within the Consolidated Balance Sheet.

Throughout fiscal 2010, we continued to take actions to decrease our cost structure. In the first quarter we announced a plan to consolidate manufacturing operations by closing the Brandrud manufacturing facility in Auburn, Washington and consolidating it with the acquired Nemschoff manufacturing facilities. We had previously announced the decision to consolidate our Integrated Metal Technologies (IMT) subsidiary in Spring Lake, Michigan with other existing

manufacturing facilities. Our operations team worked diligently throughout fiscal 2010 to complete both consolidation projects in the fourth quarter. The total expense of these plant consolidations in the fiscal year totaled approximately \$9.7 million. We expected to realize incremental annual savings from these consolidation actions of approximately \$5 million to \$7 million from the fiscal 2010 expense levels. These savings relate primarily in cost of sales, from reductions in rent expense, depreciation and utilities, as well as savings of approximately \$1 million in selling, general, and administrative expenses. We realized approximately \$3 million of savings in fiscal 2010.

In the fourth quarter of fiscal 2010, we took further action to reduce our salaried workforce, primarily in North America, with the reduction of approximately 70 employees. This action resulted in severance and related expenses of approximately \$3.2 million and was largely offset by a 5 percent wage restoration for employees impacted by the fiscal 2010 wage reduction action.

Included in the fourth quarter of fiscal 2010 restructuring expenses is an impairment of long-lived assets totaling \$2.5 million that were related to our Convia line of business. These assets related to products that we determined had no future revenue stream to the company.

See Note 19 of the Consolidated Financial Statements for additional information on restructuring.

#### Operating Expense - Fiscal 2011 Compared to Fiscal 2010

Operating expenses in fiscal 2011 were \$414.8 million, or 25.2 percent of net sales, which compares to \$374.9 million, or 28.4 percent of net sales in fiscal 2010. We experienced a year-over-year increase in operating expense dollars of \$39.9 million, and a 320 basis point decrease to operating expenses as a percentage of net sales. The increase in operating expenses was primarily driven by the increase in net sales during the year. In addition, we also incurred \$3.8 million and \$16.6 million of additional operating expenses during fiscal 2011 due to the reinstatement of all of our employee benefits and employee incentive expenses, respectively. Restructuring expenses were \$3.0 million, compared to restructuring and impairment expenses of \$16.7 million in fiscal 2010, which included an impairment of \$2.5 million for Convia assets (See the discussion on restructuring expense above for additional detail.) Operating expenses were partially offset during fiscal 2011 by the positive impact resulting from the settlement of the liability related to contingent payments associated with the Nemschoff acquisition of \$15.1 million.

Year-over-year changes in currency exchange rates increased operating expenses by an estimated \$2 million associated with our international operations.

Design and research costs included in total operating expenses for fiscal 2011 was \$45.8 million, or 2.8 percent of net sales, compared to fiscal 2010 expenses of \$40.5 million, or 3.1 percent of net sales. This increase in dollars of \$5.3 million resulted in a decrease of 30 basis points as a percent of sales. This increase in dollars was primarily driven by royalty payments to designers and the reinstatement of employee benefits. Royalty payments to the designers of our products totaled \$10.4 million and \$7.3 million in fiscal years 2011 and 2010, respectively.

#### Operating Expense - Fiscal 2010 Compared to Fiscal 2009

Operating expenses in fiscal 2010 were \$374.9 million, or 28.4 percent of net sales, which compares to \$404.9 million, or 24.8 percent of net sales in fiscal 2009. We experienced a year-over-year decrease in operating expense dollars of \$30.0 million, and a 360 basis point increase to operating expenses as a percentage of sales. Restructuring and impairment expenses, which included an impairment charge for Convia assets of \$2.5 million, were \$16.7 million in fiscal 2010, which was a decrease of \$11.7 million from the \$28.4 million of restructuring expense in fiscal 2009. (Please see the discussion on restructuring expense above for additional detail.) The operating expenses from Nemschoff during fiscal year 2010 were \$18.3 million, which were partially offset by the positive impact on operating expense resulting from reducing the estimated liability related to contingent payments associated with the Nemschoff acquisition of \$6.5 million.

The year-over-year dollar decline in total expenses of \$30.0 million was the result of an \$11.7 million decrease in restructuring and impairment expenses and a continued decrease in employee compensation and benefit costs. These decreases in compensation and benefit costs were a result of a combination of current and prior year restructuring as well as the full year effect of the suspension of the 401(k) match and the 10 percent reduction in salary expense that resulted from shutting down facilities on every other Friday.

Year-over-year changes in currency exchange rates had a slightly inflationary effect of approximately \$0.7 million on operating expenses associated with our international operations for fiscal 2010.

Design and research costs included in total operating expenses for fiscal 2010 was \$40.5 million, or 3.1 percent of sales, compared to fiscal 2009 expenses of \$45.7 million, or 2.8 percent of sales. This decrease in dollars of \$5.2 million was an increase of 30 basis points as a percent of sales and was primarily driven by the timing of various projects being brought to market as well as a reduction or delay of projects. We have continued to carefully balance the overall need to control costs with the critical need to continue investing in our strategic priorities. These expenses

include royalty payments to the designers of our products totaling \$7.3 million and \$9.5 million in fiscal years 2010 and 2009, respectively.

#### Operating Earnings

In fiscal 2011 operating earnings were \$123.3 million, a 130.0 percent increase from fiscal 2010 operating earnings of \$53.6 million. The fiscal 2010 earnings represented a 56.4 percent decrease from fiscal 2009 operating earnings of \$122.8 million. Operating earnings as a percentage of sales for fiscal years 2011, 2010 and 2009 were 7.5 percent, 4.1 percent and 7.5 percent, respectively.

#### Other Expenses and Income

Net other expenses totaled \$20.8 million in fiscal 2011 compared to \$18.8 million in fiscal 2010 and \$23.9 million in fiscal 2009. The increase in fiscal 2011 expense compared to fiscal 2010 was primarily the result of higher foreign currency transaction losses and lower interest and investment income, which were partially offset by lower interest expense compared to the prior year.

The decrease in fiscal 2010 expense compared to fiscal 2009 was primarily the result of decreased interest expense associated with the first quarter repurchase of \$75 million of outstanding debt securities.

## Income Taxes

Our effective tax rate was 30.9 percent in fiscal 2011 versus 18.8 percent in fiscal 2010 and 31.4 percent in fiscal 2009. The effective tax rate in fiscal 2011 was below the statutory rate of 35%, primarily due to the domestic U.S. manufacturing deduction and realization of foreign tax credits. The effective rate in fiscal 2010 was below the statutory rate of 35 percent, primarily due to the release of tax reserves that were no longer needed due to the closure of an IRS audit of the company's tax returns through fiscal 2009 and the domestic U.S. manufacturing tax incentive. The effective rate in fiscal 2009 was below the statutory rate of 35 percent, primarily due to the domestic U.S. manufacturing tax incentive and the realization of foreign tax credits.

We expect our effective tax rate for fiscal 2012 to be between 31 and 33 percent. For further information regarding income taxes, refer to Note 13 of the Consolidated Financial Statements.

## Net Earnings Attributable to Controlling Interest; Earnings per Share

In fiscal 2011 and fiscal 2010 we generated \$70.8 million and \$28.3 million of net earnings, respectively. This compares to net earnings attributable to controlling interest in fiscal 2009 of \$68.0 million. In fiscal 2011 diluted earnings per share were \$1.06 while diluted earnings per share in fiscal 2010 were \$0.43 and \$1.25 in fiscal 2009.

## Liquidity and Capital Resources

The table below presents certain key cash flow and capital highlights for the fiscal years indicated.

(In millions)	Fiscal Year Ended		
	2011	2010	2009
Cash and cash equivalents, end of period	\$148.6	\$134.8	\$192.9
Marketable securities, end of period	\$11.0	\$12.1	\$11.3
Cash generated from operating activities	\$91.1	\$99.1	\$91.7
Cash used for investing activities	\$(31.4 )	\$(77.6 )	\$(29.5 )
Cash used for financing activities	\$(50.2 )	\$(78.9 )	\$(16.5 )
Pension and post-retirement benefit plan contributions <sup>(4)</sup>	\$(52.8 )	\$(19.3 )	\$(5.3 )
Capital expenditures	\$(30.5 )	\$(22.3 )	\$(25.3 )
Stock repurchased and retired	\$(1.0 )	\$(0.8 )	\$(0.3 )
Interest-bearing debt, end of period <sup>(1) (3)</sup>	\$250.0	\$301.2	\$377.4
Available unsecured credit facility, end of period <sup>(2) (3)</sup>	\$140.6	\$138.8	\$236.9

(1) Amounts shown include the fair market value of the company's interest rate swap arrangement(s). The net fair value of this/these arrangement(s) was/were \$1.2 million at May 29, 2010 and \$2.4 million at May 30, 2009.

(2) Amounts shown are net of outstanding letters of credit, which are applied against the company's unsecured credit facility.

(3) During the first quarter of fiscal 2010 we renegotiated the unsecured revolving credit facility. Refer to Note 8 of the Consolidated Financial Statements for additional information.

(4) Amount shown for fiscal 2011 and fiscal 2010 includes a \$14.6 million and \$16.7 million contribution made in the company's common stock, respectively.

## Cash Flow — Operating Activities

Cash generated from operating activities in fiscal 2011 totaled \$91.1 million compared to \$99.1 million generated in the prior year. This represents a decrease of \$8.0 million compared to fiscal 2010. Changes in working capital balances resulted in a \$13.5 million use of cash in the current fiscal year compared to a \$4.8 million source of cash in the prior year. Cash from operations in the prior year also included proceeds of \$4.8 million from company owned life insurance policies.

The use of cash related to working capital balances in fiscal 2011 consist primarily of increases in trade receivables of \$48.5 million, inventory of \$8.3 million and prepaids of \$14.5 million. These changes were partially offset by increases in trade payables of \$16.4 million, and regular and incentive based compensation of \$34.8 million.

The source of cash related to working capital balances in fiscal 2010 consist primarily of decreases in trade receivables of \$9.0 million, prepaids of \$23.6 million and an increase in trade payables of \$13.9 million, offset by increased inventory of \$7.1 million and a decrease in other accruals. The other accruals decreased primarily due to restructuring payments of \$15.5 million during fiscal 2010.

The use of cash related to working capital balances in fiscal 2009 consist primarily of decreased current liabilities of \$126.8 million over fiscal 2008. The reduction in liabilities is primarily related to reductions in accounts payable related to inventory, and accruals related to regular and incentive compensation. The use of cash was partially offset by volume related declines in accounts receivables of \$53.5 million and inventories of \$15.3 million.

Collections of accounts receivable remained strong throughout fiscal 2011, and we believe our recorded accounts receivable valuation allowances at the end of the year are adequate to cover the risk of potential bad debts. Allowances

for non-collectible accounts receivable, as a percent of gross accounts receivable, totaled 2.3 percent, 3.0 percent, and 4.7 percent at the end of fiscal years 2011, 2010, and 2009, respectively.

During fiscal 2011 \$38.2 million in cash contributions were made to our employee pension and post-retirement benefit plans. Cash contributions during fiscal years 2010 and 2009 made to our employee pension and post-retirement benefit plans totaled \$2.6 million and \$5.3 million, respectively. For further information regarding the company's pension and post-retirement benefit plans, including information relative to the funded status of these plans, refer to Note 10 of the Consolidated Financial Statements.

Cash Flow — Investing Activities

-25-

---

Capital expenditures totaled \$30.5 million, \$22.3 million and \$25.3 million in fiscal 2011, 2010 and 2009, respectively. Outstanding commitments for future capital purchases at the end of fiscal 2011 were approximately \$4.9 million. We expect capital spending in fiscal 2012 to be between \$34 million and \$38 million.

Included in our fiscal 2010 investing activities, is a net cash outflow of \$46.1 million related to our acquisitions of Nemschoff, CBS, and two furniture dealerships. Also included within fiscal 2010 investing activities is a note receivable for \$6.9 million related to our acquisition of Nemschoff. In fiscal 2010 we repaid loans held against the value of company owned life insurance policies for \$2.9 million. Also included in fiscal 2009 is a net cash outflow of \$29.5 million related to the completion of the acquisition of Brandrud and the acquisition of Ruskin Industries.

Our net marketable securities transactions for fiscal 2011 yielded a \$1.3 million source of cash. This compares to a \$0.1 million source of cash in fiscal 2010 and a \$3.4 million source of cash in fiscal 2009.

#### Cash Flow — Financing Activities

(In millions, except share and per share data)	Fiscal Year Ended		
	2011	2010	2009
Shares acquired	49,694	44,654	2,138,701
Cost of shares acquired	\$1.0	\$0.8	\$0.1
Shares issued <sup>(1)</sup>	1,095,819	3,221,326	257,765
Average price per share issued	\$22.59	\$14.9	\$14.7
Cash dividends paid	\$5.0	\$4.9	\$19.2

(1) Includes 2,041,666 shares issued in connection with the Nemschoff acquisition during fiscal 2010. Includes 582,000 shares and 967,000 shares issued as a contribution to the company's pension plans during fiscal 2011 and fiscal 2010, respectively.

During the first quarter of fiscal 2010 we renegotiated the syndicated revolving line of credit, reducing our availability from \$250 million to \$150 million, while giving us additional covenant flexibility. This facility expires in June 2012 and outstanding borrowings bear interest at rates based on the prime rate, federal funds rate, LIBOR, or negotiated rates as outlined in the agreement. Interest is payable periodically throughout the period a borrowing is outstanding. During the first quarter of fiscal 2010, we also completed the repurchase of \$75 million of registered debt securities. In addition to improving our covenant metrics this action also reduced our future interest expense by approximately \$1.3 million per quarter.

In the fourth quarter of fiscal 2009 we announced a reduction in the cash dividend effective for the first quarter of fiscal 2010 payment. This change reduced the cash dividend to \$0.088 per share annually versus a total quarterly cash dividend of \$0.088 per share that was paid through the third quarter of fiscal 2009. As part of our decision to conserve cash we suspended significant share repurchases beginning in fiscal 2009. The amount remaining under our share repurchase authorization at the end of fiscal 2011 totaled \$169.3 million.

Interest-bearing debt at the end of fiscal 2011 of \$250 million decreased from \$301.2 million at the end of fiscal 2010, as compared to \$377.4 million at the end of fiscal 2009. The decrease in fiscal 2011 is a result of the repayment of the remaining \$100 million in principal due under the 2001 public bond issue. The payment was made using a combination of existing cash and proceeds from newly-issued senior unsecured private placement notes of \$50 million maturing in March 2021.

The only usage against our unsecured revolving credit facility at the end of fiscal years 2011 and 2010 represented outstanding standby letters of credit totaling \$9.4 million and \$11.2 million, respectively. The provisions of our

private placement notes and unsecured credit facility require that we adhere to certain covenants and maintain certain performance ratios. We were in compliance with all such covenants and performance ratios during fiscal 2011.

In fiscal 2011, we received \$8.6 million related to the issuance of shares in connection with stock-based compensation plans. This compares to receiving \$2.5 million and \$3.4 million in fiscal 2010 and fiscal 2009, respectively.

During fiscal 2011 we repatriated \$18.8 million of undistributed foreign earnings. During fiscal 2010 we did not repatriate any undistributed foreign earnings as compared to \$8.0 million in fiscal 2009.

We believe cash on hand, cash generated from operations, and our borrowing capacity will provide adequate liquidity to fund near term and future business operations and capital needs, subject to financing availability in the marketplace.

### Contingencies

The company leases a facility in the U.K. under an agreement that expired in June 2011, and the company plans to continue to lease the facility on a month to month basis after the lease expires. Under the terms of the lease, the company is required to perform the maintenance and repairs necessary to address the general dilapidation of the facility over the lease term. The ultimate cost of this provision to the company is dependent on a number of factors including, but not limited to, the future use of the facility by the lessor and whether the company chooses and is permitted to renew the lease term. The company has estimated the cost of these maintenance and repairs to be between \$0 and \$3 million, depending on the outcome of future plans and negotiations. Based on existing circumstances, it is estimated that these costs will be approximately \$1.3 million. As a result, this amount has been recorded as a liability reflected under the caption "Other Liabilities" in the Consolidated Balance Sheets as of May 28, 2011. Based on circumstances existing in fiscal 2010, the amount recorded in the Consolidated Balance Sheets as of May 29, 2010 was \$1.1 million.

The company has a lease obligation in the U.K. until May 2014 for a facility that it has exited. Current market rates for comparable office space are lower than the rental payments owed under the lease agreement, as such, the company would remain liable to pay the difference if it were subleased. As of May 28, 2011 and May 29, 2010 the future cost of this arrangement was estimated to be \$1.7 million and \$1.5 million, respectively. Accordingly this amount is reflected within "Other Liabilities" on the Consolidated Balance Sheets as of these dates.

The company is involved in legal proceedings and litigation arising in the ordinary course of business. It is the company's opinion that the outcome of such proceedings and litigation currently pending will not materially affect the company's operations, cash flows, and financial condition.

### Basis of Presentation

The company's fiscal year ends on the Saturday closest to May 31. The fiscal years ended May 28, 2011, May 29, 2010, and May 30, 2009 each included 52 weeks of operations. This is the basis upon which weekly-average data is presented. Certain prior year information has been reclassified to conform to the current year presentation.

### Contractual Obligations

Contractual obligations associated with our ongoing business and financing activities will result in cash payments in future periods. The following table summarizes the amounts and estimated timing of these future cash payments. Further information regarding debt obligations can be found in Note 8 of the Consolidated Financial Statements. Likewise, further information related to operating leases can be found in Note 9 of the Consolidated Financial Statements.

(In millions)	Payments due by fiscal year				
	Total	2012	2013-2014	2015-2016	Thereafter
Long-term debt	\$250.0	\$—	\$—	\$50.0	\$200.0
Estimated interest on debt obligations <sup>(1)</sup>	103.5	15.6	31.2	27.0	29.7
Operating leases	79.7	19.7	26.8	15.6	17.6
Purchase obligations <sup>(2)</sup>	39.5	36.3	2.8	0.4	—
Pension plan funding <sup>(3)</sup>	16.1	15.2	0.2	0.2	0.5
Stockholder dividends <sup>(4)</sup>	1.3	1.3	—	—	—
Other <sup>(5)</sup>	18.2	1.8	3.5	3.4	9.5
<b>Total</b>	<b>\$508.3</b>	<b>\$89.9</b>	<b>\$64.5</b>	<b>\$96.6</b>	<b>\$257.3</b>

(1) Estimated future interest payments on our outstanding debt obligations are based on interest rates as of May 28, 2011. Actual cash outflows may differ significantly due to changes in underlying interest rates and timing of principal payments.

(2) Purchase obligations consist of non-cancelable purchase orders and commitments for goods, services, and capital assets.

(3) Pension plan funding commitments are known for a 12-month period for those plans that are funded; unfunded pension and post-retirement plan funding amounts are equal to the estimated benefit payments. As of May 28, 2011, the total projected benefit obligation for our domestic and international employee pension benefit plans was \$384.9 million.

(4) Represents the recorded dividend payable as of May 28, 2011. Future dividend payments are not considered contractual obligations until declared.

(5) Other contractual obligations primarily represent long-term commitments related to deferred and supplemental employee compensation

-27-

---

benefits, and other post-employment benefits.

#### Off-Balance Sheet Arrangements

##### Guarantees

We provide certain guarantees to third parties under various arrangements in the form of product warranties, loan guarantees, standby letters of credit, lease guarantees, performance bonds, and indemnification provisions. These arrangements are accounted for and disclosed in accordance with Accounting Standards Codification (ASC) Topic 460, "Guarantees" as described in Note 17 of the Consolidated Financial Statements.

#### Critical Accounting Policies and Estimates

Our goal is to report financial results clearly and understandably. We follow accounting principles generally accepted in the United States of America in preparing our Consolidated Financial Statements, which require us to make certain estimates and apply judgments that affect our financial position and results of operations. We continually review our accounting policies and financial information disclosures. These policies and disclosures are reviewed at least annually with the Audit Committee of the Board of Directors. Following is a summary of our more significant accounting policies that require the use of estimates and judgments in preparing the financial statements.

#### Revenue Recognition

As described in the "Executive Overview," the majority of our products and services are sold through one of four channels: Independent contract furniture dealers and licensees, owned contract furniture dealers, direct to end customers, and independent retailers. We recognize revenue on sales to independent dealers, licensees, and retailers once the product is shipped and title passes to the buyer. When we sell product directly to the end customer or through owned dealers, we recognize revenue once the product and services are delivered and installation thereof is substantially complete.

Amounts recorded as net sales generally include any freight charged to customers, with the related freight expenses recognized within cost of sales. Items such as discounts off list price, rebates, and other sale-related marketing program expenses are recorded as reductions to net sales. We record accruals for rebates and other marketing programs, which require us to make estimates about future customer buying patterns and market conditions. Customer sales that reach (or fail to reach) certain levels can affect the amount of such estimates, and actual results could differ from our estimates

#### Receivable Allowances

We base our allowances for receivables on known customer exposures, historical credit experience, and the specific identification of other potential problems, including the current economic climate. These methods are applied to all major receivables, including trade, lease, and notes receivable. In addition, we follow a policy that consistently applies reserve rates based on the age of outstanding accounts receivable. Actual collections can differ from our historical experience, and if economic or business conditions deteriorate significantly, adjustments to these reserves may be required.

The accounts receivable allowance totaled \$4.5 million and \$4.4 million at May 28, 2011 and May 29, 2010, respectively. As a percentage of gross accounts receivable, these allowances totaled 2.3 percent and 3.0 percent for fiscal 2011 and fiscal 2010, respectively. The year-over-year decrease in the allowance percentage is primarily due to the stabilization of economic conditions and continued financial health of our customers.

#### Goodwill and Indefinite-lived Intangibles

The carrying value of goodwill and indefinite-lived intangible assets as of May 28, 2011 and May 29, 2010, were \$133.6 million and \$132.6 million, respectively. The company is required to perform an annual test of goodwill and

indefinite-lived intangible assets to determine if the asset values are impaired.

The impairment-testing model is based on the present value of projected cash flows and the resulting residual value and includes a reconciliation to market capitalization. In completing the test under this approach, the company assumes that one of the drivers of the value of a business today is the cash flows it will generate in the future. The company also assumes that such future cash flows can be reasonably estimated. While these projected cash flows reflect the best estimate of future reporting unit performance, actual cash flows could differ significantly.

The company completed the required annual impairment tests in the fourth quarter of fiscal 2011 and concluded that the goodwill asset values and indefinite-lived assets were not impaired. For goodwill, the company employed a market-based approach in selecting the discount rates

-28-

---

used in our analysis. The discount rates selected represent market rates of return equal to what the company believes is what a reasonable investor would expect to achieve on investments of similar size to the company's reporting units. The company believes the discount rates selected in the testing are appropriate in that, in all cases, they exceed the estimated weighted average cost of capital for our business as a whole. The results of the impairment test are sensitive to changes in discount rates, though the testing performed in fiscal 2011 indicates that even a significant increase in the discount rate would not have changed the conclusion. For indefinite-lived assets a relief of royalty method was utilized, which indicated the assets were not impaired.

#### Long-lived Assets

The company evaluates other long-lived assets and acquired business units for indicators of impairment when events or circumstances indicate that an impairment risk may be present. The judgments regarding the existence of impairment are based on market conditions, operational performance, and estimated future cash flows. If the carrying value of a long-lived asset is considered impaired, an impairment charge is recorded to adjust the asset to its estimated fair value. During the fourth quarter of fiscal 2010 the company recorded an impairment charge of \$2.5 million that was related to our Convia line of business. These assets related to products that we determined had no future revenue stream to the company. The impairment charge was comprised of \$1.4 million of expense related to an intangible asset and \$1.1 million of expense in relation to fixed assets, respectively.

#### Warranty Reserve

The company stands behind company products and the promises it makes to customers. From time to time, quality issues arise resulting in the need to incur costs to correct problems with products or services. The company has established warranty reserves for the various costs associated with these obligations. General warranty reserves are based on historical claims experience and periodically adjusted for business levels. Specific reserves are established once an issue is identified. The valuation of such reserves is based on the estimated costs to correct the problem. Actual costs may vary and may result in an adjustment to these reserves.

#### Inventory Reserves

Inventories are valued at the lower of cost or market. The inventories at the majority of our manufacturing operations are valued using the last-in, first-out (LIFO) method, whereas inventories of certain other subsidiaries are valued using the first-in, first-out (FIFO) method. The company establishes reserves for excess and obsolete inventory, based on prevailing circumstances and judgment for consideration of current events, such as economic conditions, that may affect inventory. The reserve required to record inventory at lower of cost or market may be adjusted in response to changing conditions.

#### Income Taxes

Deferred tax assets and liabilities are recognized for the expected future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse.

See Note 13 of the Consolidated Financial Statements for information regarding the company's uncertain tax positions.

The company has net operating loss (NOL) carryforwards available in certain jurisdictions to reduce future taxable income. The company also has foreign tax credits available in certain jurisdictions to reduce future tax due. Future tax benefits for NOL carryforwards and foreign tax credits are recognized to the extent that realization of these benefits is considered more likely than not. This determination is based on the expectation that related operations will be sufficiently profitable or various tax planning strategies available to us will enable us to utilize the NOL carryforwards

and/or foreign tax credits. When information becomes available that raises doubts about the realization of a deferred income tax asset, a valuation allowance is established.

#### Self-Insurance Reserves

With the assistance of independent actuaries, reserves are established for workers' compensation and general liability exposures. The reserves are established based on expected future claims for incurred losses. The company also establishes reserves for health, prescription drugs, and dental benefit exposures based on historical claims information along with certain assumptions about future trends. The methods and assumptions used to determine the liabilities are applied consistently, although actual claims experience can vary. The company also maintains insurance coverage for certain risk exposures through traditional premium-based insurance policies. The company's health benefits retention level does not include an aggregate stop loss policy. The company's retention levels designated within significant insurance arrangements as of May 28, 2011, are as follows.

-29-

---

	Retention Level
General liability and auto liability/physical damage	\$1.00 million per occurrence
Workers' compensation and property	\$0.75 million per occurrence
Health benefits	\$0.30 million per employee

#### Pension and other Post-Retirement Benefits

The determination of the obligation and expense for pension and other post-retirement benefits depends on certain actuarial assumptions. Among the most significant of these assumptions are the discount rate, interest-crediting rate, and expected long-term rate of return on plan assets. We determine these assumptions as follows.

**Discount Rate** — This assumption is established at the end of the fiscal year based on high-quality corporate bond yields. The company utilizes the services of an independent actuarial firm to assist in determining the rate. For the domestic pension and other post-retirement benefit plans, the actuary uses a “cash flow matching” technique, which compares the estimated future cash flows of the plan to a published discount curve showing the relationship between interest rates and duration for hypothetical zero-coupon fixed income investments. The discount rate is set for the international pension plan based on the yield level of a commonly used corporate bond index in that jurisdiction. Because the average duration of the bonds underlying this index is less than that of our international pension plan liabilities, the index yield is used as a reference point. The final discount rate takes into consideration the index yield and the difference in comparative durations.

**Interest Crediting Rate** — The company uses this assumption in accounting for our primary domestic pension plan, which is a cash balance-type plan. The rate, which represents the annual rate of interest applied to each plan participant's account balance, is established at an assumed level, or spread, below the discount rate. The company bases this methodology on the historical spread between the 30-year U.S. Treasury and high-quality corporate bond yields. This relationship is examined annually to determine whether the methodology is still appropriate.

**Expected Long-Term Rate of Return** — The company bases this assumption on our long-term assumed rates of return for equities and fixed income securities, weighted by the allocation of the invested assets of the pension plan. The company considers likely returns and risk factors specific to the various classes of investments and advice from independent actuaries in establishing this rate. Changes in the investment allocation of plan assets would impact this assumption. A shift to a higher relative percentage of fixed income securities, for example, would result in a lower assumed rate.

While this assumption represents the long-term market return expectation, actual asset returns can and do differ from year-to-year. Such differences give rise to actuarial gains and losses. In years where actual market returns are lower than the assumed rate, an actuarial loss is generated. Conversely, an actuarial gain results when actual market returns exceed the assumed rate in a given year. As of May 28, 2011, and May 29, 2010, the net actuarial loss associated with the employee pension and post-retirement benefit plans totaled approximately \$158.2 million and \$192.3 million, respectively. The majority of this unrecognized loss was associated with lower than expected return on assets for fiscal 2011 and fiscal 2010. Changes in the discount rate and return on assets can have a significant effect on the expense or obligations related to our pension plans. The company cannot accurately predict these changes in discount rates or investment returns and, therefore, cannot reasonably estimate whether adjustments to the expense or obligation in subsequent years will be significant. Both the May 28, 2011 pension funded status and 2012 expense are affected by year-end 2011 discount rate and expected return on assets assumptions. Any change to these assumptions will be specific to the time periods noted and may not be additive, so the impact of changing multiple factors simultaneously cannot be calculated by combining the individual sensitivities shown. The effect of the indicated increase/(decrease) in discount rates and expected return on assets is shown below:

(In millions)

Edgar Filing: MILLER HERMAN INC - Form 10-K

Assumption	1 Percent Change	2012 Expense		May 28, 2011 Obligation	
		U.S.	International	U.S.	International
Discount rate	+/- 1.0	\$ 1.5 / (1.4)	\$ (0.8) / 1.8	\$ (12.7) / 15.9	\$ (13.5) / 17.5
Expected return on assets	+/- 1.0	\$(2.8) / 2.8	\$ (0.7) / 0.7	—	—

For purposes of determining annual net pension expense, the company uses a calculated method for determining the market-related

-30-

---

value of plan assets. Under this method, the company recognizes the change in fair value of plan assets systematically over a five-year period. Accordingly, a portion of the net actuarial loss is deferred. The remaining portion of the net actuarial loss is subject to amortization expense each year. The amortization period used in determining this expense is the estimated remaining working life of active pension plan participants. The company currently estimates this period to be approximately 13 years. As of May 28, 2011, the deferred net actuarial loss (i.e. the portion of the total net actuarial loss not subject to amortization) was approximately \$42.5 million.

Refer to Note 10 of the Consolidated Financial Statements for more information regarding costs and assumptions used for employee benefit plans.

#### Stock-Based Compensation

The company views stock-based compensation as a key component of total compensation for certain employees, non-employee directors and officers. The stock-based compensation programs include grants of restricted stock, restricted stock units, performance share units, employee stock purchases, and stock options. The company recognizes expense related to each of these share-based arrangements. The Black-Scholes option pricing model is used in estimating the fair value of stock options issued in connection with compensation programs. This pricing model requires the use of several input assumptions. Among the most significant of these assumptions are the expected volatility of the common stock price, and the expected timing of future stock option exercises.

Expected Volatility — This represents a measure, expressed as a percentage, of the expected fluctuation in the market price of the company's common stock. As a point of reference, a high volatility percentage would assume a wider expected range of market returns for a particular security. All other assumptions held constant, this would yield a higher stock option valuation than a calculation using a lower measure of volatility. In measuring the fair value of stock options issued during fiscal year 2011, we utilized an expected volatility of 42 percent.

Expected Term of Options — This assumption represents the expected length of time between the grant date of a stock option and the date at which it is exercised (option life). The company assumed an average expected term of 5.5 years in calculating the fair values of the majority of stock options issued during fiscal 2011.

Refer to Note 12 of the Consolidated Financial Statements for further discussion on our stock-based compensation plans.

#### Contingencies

In the ordinary course of business, the company encounters matters that raise the potential for contingent liabilities. In evaluating these matters for accounting treatment and disclosure, the company is required to apply judgment in order to determine the probability that a liability has been incurred. The company is also required to measure, if possible, the dollar value of such liabilities in determining whether or not recognition in our financial statements is required. This process involves the use of estimates which may differ from actual outcomes. Refer to Note 17 of the Consolidated Financial Statements for more information relating to contingencies.

#### New Accounting Standards

Refer to Note 1 of the Consolidated Financial Statements for information related to new accounting standards.

#### Forward Looking Statements

Certain statements in this filing are not historical facts but are “forward-looking statements” as defined under Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act, as amended. Such statements are based on management's belief, assumptions, current expectations, estimates and projections about the office furniture industry, the economy and the company itself. Words like “anticipates,” “believes,” “confident,”

“estimates,” “expects,” “forecast,” “likely,” “plans,” “projects,” and “should,” and variations of such words and similar expressions identify forward-looking statements. These statements do not guarantee future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict with regard to timing, expense, likelihood, and degree of occurrence. These risks include, without limitation, employment and general economic conditions in the U.S. and in our international markets, the increase in white collar employment, the willingness of customers to undertake capital expenditures, the types of products purchased by customers, the possibility of order cancellations or deferrals by customers, competitive pricing pressures, the availability and pricing of direct materials, our reliance on a limited number of suppliers, currency fluctuations, the ability to increase prices to absorb the additional costs of direct materials, the financial strength of our dealers, the financial strength of our customers, the mix of our products purchased by customers, our ability to attract and retain key executives and other qualified employees, our ability to continue to make product innovations, the strength of the intellectual property relating to our products, the success of newly introduced products, our ability to serve all of our markets, possible acquisitions, divestitures or alliances, the outcome of pending litigation or governmental audits or investigations, and other risks identified in this Form 10-K and our other filings with the Securities and Exchange Commission. Therefore, actual results and outcomes may materially differ from what we express or forecast. Furthermore, Herman Miller, Inc., takes no obligation to update, amend, or clarify forward-looking statements.

-31-

---

#### Item 7A QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The company manufactures, markets, and sells its products throughout the world and, as a result, is subject to changing economic conditions, which could reduce the demand for its products.

##### Direct Material Costs

The company is exposed to risks arising from price changes for certain direct materials and assembly components used in its operations. The largest such costs incurred by the company are for steel, plastics, textiles, wood particleboard, and aluminum components. Commodity prices steadily increased during the first three quarters and moderated during the fourth quarter of fiscal 2011. The net impact of price changes during fiscal 2011 was an increase to our costs of approximately \$12 million during fiscal 2011.

The net impact of price changes during fiscal 2010 was an decrease to our costs of \$24 million to \$25 million over fiscal 2009. Commodity prices were volatile during fiscal 2009, resulting in sharp increases in costs for the first half of the year. As the year progressed, prices receded back to approximately the same level that they began the year at. The net impact of price changes during fiscal 2009 was an increase to our costs of \$24 million to \$26 million.

The company believes market prices for commodities in the near term may move higher and acknowledges that over time increases on its key direct materials and assembly components are likely. Consequently, it views the prospect of such increases as an outlook risk to the business.

##### Foreign Exchange Risk

The company primarily manufactures its products in the United States, United Kingdom, and China. It also sources completed products and product components from outside the United States. The company's completed products are sold in numerous countries around the world. Sales in foreign countries as well as certain expenses related to those sales are transacted in currencies other than the company's reporting currency, the U.S. dollar. Accordingly, production costs and profit margins related to these sales are affected by the currency exchange relationship between the countries where the sales take place and the countries where the products are sourced or manufactured. These currency exchange relationships can also affect the company's competitive positions within these markets.

In the normal course of business, the company enters into contracts denominated in foreign currencies. The principal foreign currencies in which the company conducts its business are the British pound sterling, euro, Canadian dollar, Japanese yen, Mexican peso, and Chinese renminbi. As of May 28, 2011, the company had outstanding, sixteen forward currency instruments designed to offset either net asset or net liability exposure that is denominated in non-functional currencies. Two forward contracts were placed to offset a 3.1 million euro-denominated net asset exposure and five forward contracts were placed to offset a 7.6 million U.S. dollar-denominated net asset exposure. One forward contract was placed to offset 0.4 million Australian dollar-denominated net asset exposure. Eight forward contracts were placed to offset a 2.4 million U.S.dollar-denominated net liability exposure.

As of May 29, 2010, the company had outstanding, nine forward currency instruments designed to offset either net asset or net liability exposure that is denominated in non-functional currencies. One forward contract was placed in order to offset a 4.1 million euro-denominated net asset exposure and three forward contracts were placed in order to offset a 5.6 million U.S. dollar-denominated net asset exposure. Four forward contracts were placed to offset a 14.0 million U.S. dollar-denominated net liability exposure and one forward contract was placed to offset a 1.6 million British pound sterling-denominated net liability exposure. The fair value of the forward currency instruments at May 28, 2011 was \$0.7 million and \$0.3 million within current assets and current liabilities, respectively. At May 29, 2010 the fair value of the forward currency instruments was a negligible amount.

For fiscal year 2011, a net loss of \$2.0 million related to remeasuring all foreign currency transactions into the appropriate functional currency was included in net earnings. For fiscal year 2010, a net gain of \$0.4 million impacted

net earnings. For fiscal year 2009, a net loss of \$1.1 million impacted net earnings. Additionally, the cumulative effect of translating the balance sheet and income statement accounts from the functional currency into the United States dollar decreased the accumulated comprehensive loss component of total stockholders' equity by \$6.4 million as of the end of fiscal 2011. Conversely, the effect increased the accumulated comprehensive loss component of total stockholders equity by \$2.9 million and \$14.0 million as of the end of fiscal 2010 and fiscal 2009, respectively.

#### Interest Rate Risk

The company maintains fixed-rate debt for which changes in interest rates generally affect fair market value but not earnings or cash flows. During the fourth quarter of fiscal 2011 the company's interest rate swap agreement expired as planned on March 15, 2011. As of the end of fiscal years 2010 and 2009 the company held one interest rate swap agreement that effectively converted \$50.0 million of fixed-rate debt securities to a variable rate.

The combined fair market value and net asset amount of the effective interest rate swap instruments was \$1.2 million at May 29, 2010. The swap arrangement effectively reduced interest expense by \$1.5 million, \$1.9 million, and \$1.2 million in fiscal 2011, fiscal 2010 and fiscal 2009, respectively. All cash flows related to the company's interest rate swap instruments are denominated in U.S. dollars. For further information, refer to Notes 14 and 15 of the Consolidated Financial Statements.

Expected cash flows (notional amounts) over the next five years and thereafter related to debt instruments are as follows.

(In millions)	2012	2013	2014	2015	2016	Thereafter	Total
Long-Term Debt:							
Fixed rate	\$—	\$—	\$—	\$50.0	\$—	\$200.0	\$250.0
Wtd. average interest rate = 6.2%

## Notes to the Consolidated Financial Statements

### 1. Significant Accounting and Reporting Policies

The following is a summary of significant accounting and reporting policies not reflected elsewhere in the accompanying financial statements.

#### Principles of Consolidation

The Consolidated Financial Statements include the accounts of Herman Miller, Inc., and its majority-owned domestic and foreign subsidiaries. The consolidated entities are collectively referred to as “the company.” All intercompany accounts and transactions, including any involving Variable Interest Entities (VIEs), have been eliminated in the Consolidated Financial Statements.

#### Description of Business

The company researches, designs, manufactures and distributes interior furnishings, for use in various environments including office, healthcare, educational, and residential settings, and provides related services that support companies all over the world. The company's products are sold primarily through independent contract office furniture dealers. Accordingly, accounts and notes receivable in the accompanying balance sheets are principally amounts due from the dealers.

#### Fiscal Year

The company's fiscal year ends on the Saturday closest to May 31. Fiscal years ended May 28, 2011, May 29, 2010 and May 30, 2009, each contain 52 weeks. An extra week in the company's fiscal year is required approximately every six years in order to realign its fiscal calendar-end dates with the actual calendar months.

#### Foreign Currency Translation

The functional currency for foreign subsidiaries is their local currency. The cumulative effects of translating the balance sheet accounts from the functional currency into the United States dollar using fiscal year-end exchange rates and translating revenue and expense accounts using average exchange rates for the period is reflected as a component of “Accumulated Other Comprehensive Gain (Loss)” in the Consolidated Balance Sheets. The financial statement impact of remeasuring all foreign currency transactions into the appropriate functional currency resulted in a net loss of \$2.0 million, net gain of \$0.4 million and a net loss of \$1.1 million for the fiscal years ended May 28, 2011, May 29, 2010 and May 30, 2009, respectively. These amounts are included in “Other Expenses (Income)” in the Consolidated Statements of Operations.

#### Cash Equivalents

The company holds cash equivalents as part of its cash management function. Cash equivalents include money market funds, time deposit investments, and treasury bills with original maturities of less than three months. The carrying value of cash equivalents, which approximates fair value, totaled \$9.7 million and \$54.6 million as of May 28, 2011, and May 29, 2010, respectively. All cash and cash equivalents are high-credit quality financial instruments, and the amount of credit exposure to any one financial institution or instrument is limited.

#### Marketable Securities

The company maintains a portfolio of marketable securities primarily comprised of investment-grade, fixed-income securities. These investments are held by the company's wholly owned insurance captive and are considered “available-for-sale” securities. Accordingly, they have been recorded at fair market value based on quoted market prices, with the resulting net unrealized holding gains or losses reflected net of tax as a component of “Accumulated Other Comprehensive Gain (Loss)” in the Consolidated Balance Sheets.

All marketable security transactions are recognized on the trade date. Realized gains and losses on disposal of available-for-sale investments are included in “Interest and other investment income” in the Consolidated Statements of

Operations. See Note 14 of the Consolidated Financial Statements for additional disclosures of marketable securities.

#### Accounts Receivable Allowances

Reserves for uncollectible accounts receivable balances are based on known customer exposures, historical credit experience, and the specific identification of other potential problems. Balances are written off against the reserve once the company determines the probability of collection to be remote. The company generally does not require collateral or other security on trade accounts receivable.

#### Concentrations of Credit Risk

Our trade receivables are primarily due from independent dealers who, in turn, carry receivables from their customers. We monitor and manage the credit risk associated with individual dealers and direct customers where applicable. Dealers are responsible for assessing and assuming credit risk of their customers and may require their customers to provide deposits, letters of credit or other credit enhancement measures. Some

-40-

---

sales contracts are structured such that the customer payment or obligation is direct to us. In those cases, we may assume the credit risk. Whether from dealers or customers, our trade credit exposures are not concentrated with any particular entity.

#### Inventories

Inventories are valued at the lower of cost or market. Cost is determined at the majority of the company's manufacturing operations using the last-in, first-out (LIFO) cost method, whereas inventories of certain other of the company's subsidiaries are valued using the first-in, first-out (FIFO) cost method. Primarily the company's international entities and domestic entities which are newly acquired or insignificant are on the FIFO cost method and the remaining domestic entities are on the LIFO cost method. The company establishes reserves for excess and obsolete inventory, based on prevailing circumstances and judgment for consideration of current events, such as economic conditions, that may affect inventory. The reserve required to record inventory at lower of cost or market may be adjusted in response to changing conditions. Once elected, the company has applied these inventory cost valuation methods consistently from year to year. Further information on the company's recorded inventory balances can be found in Note 3 of the Consolidated Financial Statements.

#### Property, Equipment, and Depreciation

Property and equipment are stated at cost. The cost is depreciated over the estimated useful lives of the assets, using the straight-line method. Estimated useful lives range from 3 to 10 years for machinery and equipment and do not exceed 40 years for buildings. Leasehold improvements are depreciated over the lesser of the lease term or the useful life of the asset, not to exceed 10 years. We capitalize certain external and internal costs incurred in connection with the development, testing, and installation of software for internal use. Software for internal use is included in property and equipment and is depreciated over an estimated useful life not exceeding 5 years. Depreciation and amortization expense is included in the statement of operations in the cost of sales, operating expenses; selling, general and administrative, and design and research line items.

As of the end of fiscal 2011, outstanding commitments for future capital purchases approximated \$4.9 million.

#### Goodwill and Indefinite-lived Intangible Assets

We perform an annual impairment test, by reporting unit, to determine whether the asset values are impaired. A reporting unit is defined as an operating segment or one level below an operating segment. Substantially all of our goodwill and indefinite-lived assets are within the North American operating segment (see Note 18 of the Consolidated Financial Statements), which has been determined to be made up of two reporting units. The annual test is comprised of two steps, the first step compares the fair value of the reporting unit with its carrying amount, including goodwill and indefinite-lived assets and the second step is used to measure the amount of impairment loss by comparing the implied fair value of the reporting unit asset with the carrying amount of that asset. If the first step of the test is passed then the asset is not considered impaired and the second step is unnecessary. If an impairment results from these tests, we are required to reduce the net carrying value of the assets to their estimated fair value.

Our impairment testing model is based on an income approach that considers the present value of projected cash flows and the resulting residual value and includes a reconciliation to market capitalization values. In completing the test under this approach, we assume that one of the drivers of the value of a business today is the cash flows it will generate in the future. We also assume that such future cash flows can be reasonably estimated. While these projected cash flows reflect our best estimate of future reporting unit performance, actual cash flows could differ significantly.

We performed our goodwill and indefinite-lived asset tests at the beginning of the fourth quarter of fiscal 2011. Goodwill passed the step-one tests by substantial margins for all reporting units, which indicate that our goodwill is not impaired. The discount rates selected for use in our income approach test represent market rates of return equal to what we believe a reasonable investor would expect to achieve on investments of similar size to our reporting units.

We believe the market participant based discount rates selected in our testing exceed the estimated weighted average cost of capital for our specific business as a whole. The results of the impairment test are sensitive to changes in discount rates, though the testing performed in fiscal 2011 would indicate that even a significant increase in the discount rate would not have changed the results of passing the tests.

The company also evaluates its acquired intangible assets to determine whether any have “indefinite useful lives.” Intangible assets with indefinite useful lives, are not subject to amortization. The company's indefinite-lived intangible-assets consist of certain tradenames valued at approximately \$23.2 million as of fiscal year 2011 and 2010. These assets have indefinite useful lives and are evaluated annually using the relief of royalty method. The company measures and records an impairment loss for the excess of the carrying value of the asset over its fair value.

Goodwill and other indefinite-lived assets included in the Consolidated Balance Sheet consist of the following:

-41-

---

(In millions)	Goodwill	Indefinite-lived Intangible Assets	Total Goodwill and Indefinite-lived Assets
Balance, May 29, 2010	\$ 109.4	\$ 23.2	\$ 132.6
Currency-related adjustments	1.0	—	1.0
Balance, May 28, 2011	\$ 110.4	\$ 23.2	\$ 133.6

#### Long-Lived Assets

The company reviews other long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or an asset group may not be recoverable. Each impairment test is based on a comparison of the carrying amount of the asset or asset group to the future undiscounted net cash flows expected to be generated by the asset or asset group. If such assets are considered to be impaired, the impairment amount to be recognized is the amount by which the carrying value of the assets exceeds their fair value. During the fourth quarter of fiscal 2010 the company recorded an impairment charge of \$2.5 million recorded in "Restructuring and impairment expenses" within the "Other" operating segment. Of this amount, \$1.4 million related to an amortizable intangible asset and \$1.1 million was in relation to fixed assets, respectively. These assets related to products that we determined had no future revenue stream to the company.

Amortizable intangible assets within "Other amortizable intangibles, net" consists primarily of patents, trademarks and customer relationships. The combined gross carrying value and accumulated amortization for these amortizable intangibles was \$37.2 million and \$12.9 million, respectively as of May 28, 2011. As of May 29, 2010, these amounts totaled \$35.2 million and \$10.2 million, respectively. The company amortizes these assets over their remaining useful lives using the straight-line method over periods ranging from 5 to 17 years. It is estimated that the average remaining life of such patents and trademarks is approximately 6 years and 9 years, respectively. The estimated average remaining life of the customer relationships is 12 years.

Estimated amortization expense on existing amortizable intangible assets as of May 28, 2011, for each of the succeeding five fiscal years is as follows.

(In millions)	
2012	\$ 2.5
2013	\$ 2.4
2014	\$ 2.3
2015	\$ 2.0
2016	\$ 1.9

#### Unfunded Checks

As a result of maintaining a consolidated cash management system, the company utilizes controlled disbursement bank accounts. These accounts are funded as checks are presented for payment, not when checks are issued. Any resulting book overdraft position is included in current liabilities as unfunded checks.

#### Self-Insurance

The company is partially self-insured for general liability, workers' compensation, and certain employee health and dental benefits under insurance arrangements that provide for third-party coverage of claims exceeding the company's loss retention levels. The company's health benefits retention level does not include an aggregate stop loss policy. The company's retention levels designated within significant insurance arrangements as of May 28, 2011, are as follows:

	Retention Level
General liability and auto liability/physical damage	\$1.00 million per occurrence
Workers' compensation and property	\$0.75 million per occurrence

Health benefits

\$0.30 million per employee

-42-

---

The company's policy is to accrue amounts equal to the actuarially-determined liabilities for loss and loss adjustment expenses, which are included in "Other liabilities" in the Consolidated Balance Sheets. The actuarial valuations are based on historical information along with certain assumptions about future events. Changes in assumptions for such matters as legal actions, medical costs, and changes in actual experience could cause these estimates to change. The general and workers' compensation liabilities are managed through the company's wholly-owned insurance captive.

#### Research, Development, and Other Related Costs

Research, development, pre-production, and start-up costs are expensed as incurred. Research and development (R&D) costs consist of expenditures incurred during the course of planned research and investigation aimed at discovery of new knowledge useful in developing new products or processes. R&D costs also include the significant enhancement of existing products or production processes and the implementation of such through design, testing of product alternatives, or construction of prototypes. Research and development costs included in "Design and Research" expense in the accompanying Consolidated Statements of Operations of \$35.4 million, \$33.2 million, and \$36.2 million, in fiscal 2011, 2010, and 2009, respectively.

Royalty payments made to designers of the company's products as the products are sold are a variable cost based on product sales. These expenses totaled \$10.4 million, \$7.3 million, and \$9.5 million in fiscal years 2011, 2010, and 2009 respectively. They are included in "Design and Research" expense in the accompanying Consolidated Statements of Operations.

#### Advertising Costs

Advertising costs are expensed as incurred and are included in "Selling, general, and administrative" expense in the accompanying Consolidated Statements of Operations. Advertising costs were \$2.3 million, \$2.4 million, and \$2.2 million, in fiscal 2011, 2010, and 2009, respectively.

#### Customer Payments and Incentives

We offer various sales incentive programs to our customers, such as rebates, discounts, buy-downs and cooperative advertising programs. Programs such as rebates, discounts and buy-downs are adjustments to the selling price and are therefore characterized as a reduction to net sales. The cooperative advertising program, whereby customers are reimbursed for company approved advertising expenditures, provides us with an identifiable benefit from the advertisement at a verifiable market rate. Therefore, the cost of the cooperative advertising program is recognized as an operating expense and is included in the "Selling, general and administrative" line in the Consolidated Statement of Operations. We recognized operating expense related to our cooperative advertising program of \$1.5 million, \$1.8 million, and \$1.5 million in fiscal 2011, 2010, and 2009, respectively.

#### Revenue Recognition

The company recognizes revenue on sales through its network of independent contract furniture dealers and independent retailers once the related product is shipped and title passes. In situations where products are sold through subsidiary dealers or directly to the end customer, revenue is recognized once the related product is shipped to the end customer and installation is substantially complete. Offers such as rebates and discounts are recorded as reductions to net sales. Unearned revenue occurs during the normal course of business due to advance payments from customers for future delivery of products and services.

#### Shipping and Handling Expenses

The company records shipping and handling related expenses under the caption "Cost of Sales" in the Consolidated Statements of Operations.

#### Cost of Sales

We include material, labor and overhead in cost of sales. Included within these categories are such items as inbound freight charges, warehousing costs, internal transfer costs, and other costs of our distribution network.

#### Selling, General, and Administrative

We include costs not directly related to the manufacturing of our products in selling, general, and administrative. Included in these expenses are items such as compensation expense, rental expense, royalty expense, warranty expense, and travel and entertainment expense.

#### Income Taxes

Deferred tax assets and liabilities are recognized for the expected future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases.

Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse.

The company's annual effective tax rate is based on income, statutory tax rates and tax planning strategies available in the various jurisdictions the company operates in. Complex tax laws can be subject to different interpretations by the company and the respective government authorities. Significant judgment is required in evaluating tax positions and determining our tax expense. Tax positions are reviewed quarterly and tax liabilities are adjusted as new information becomes available.

In evaluating the company's ability to recover deferred tax assets within the jurisdiction from which they arise, the company considers all positive and negative evidence. These assumptions require significant judgment about forecasts of future taxable income.

#### Stock-Based Compensation

The company has several stock-based compensation plans, which are described fully in Note 12 of the Consolidated Financial Statements. Our policy is to expense stock-based compensation using the fair-value based method of accounting for all awards granted.

#### Earnings per Share

Basic earnings per share (EPS) excludes the dilutive effect of common shares that could potentially be issued, due to the exercise of stock options or the vesting of restricted shares, and is computed by dividing net earnings by the weighted-average number of common shares outstanding for the period. Diluted EPS for fiscal years 2011, 2010, and 2009, was computed by dividing net earnings by the sum of the weighted-average number of shares outstanding, plus all dilutive shares that could potentially be issued. During fiscal 2011 and fiscal 2010 the numerator for diluted earnings per share excluded the earnings impact from the Nemschoff contingent consideration from the Consolidated Statement of Operations. Previously, this contingent consideration could be settled in cash or stock at the discretion of the company and, therefore, any income or loss associated with adjustments to these liabilities is excluded from the numerator when computing diluted earnings per share. Refer to Note 11 of the Consolidated Financial Statements, for further information regarding the computation of EPS.

#### Comprehensive Income/(Loss)

The company's comprehensive income (loss) consists of net earnings, foreign currency translation adjustments, pension and post-retirement liability adjustments, and unrealized holding gains (losses) on "available-for-sale" investments. The components of "Accumulated other comprehensive loss" in each of the last three fiscal years are as follows:

(In millions)	Foreign Currency Translation Adjustments	Pension and Post- Retirement Liability Adjustments (net of tax)	Unrealized Holding Period Gains (Losses) (net of tax)	Total Accumulated Other Comprehensive Income (Loss)
Balance, May 31, 2008	\$4.6	\$(64.5	) \$(0.2	) \$(60.1
Other comprehensive loss in fiscal 2009	(14.0	) (59.9	) (0.1	) (74.0
Balance, May 30, 2009	(9.4	) (124.4	) (0.3	) (134.1
Other comprehensive gain/(loss) in fiscal 2010	(2.9	) 0.6	0.2	(2.1
Balance, May 29, 2010	(12.3	) (123.8	) (0.1	) (136.2
Other comprehensive gain/(loss) in fiscal 2011	6.4	25.5	0.1	32.0
Balance, May 28, 2011	\$(5.9	) \$(98.3	) \$—	) \$(104.2

#### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Variable Interest Entities

The company has provided subordinated debt to and/or guarantees on behalf of certain independent contract furniture dealerships. These relationships under certain circumstances may constitute variable interests. On May 28, 2011 and May 29, 2010, the company was not considered the primary beneficiary of any such dealer relationships and therefore, no entities were included as VIEs as of these dates.

-44-

---

## Fair Value

The Company follows ASC Topic 820, Fair Value Measurements and Disclosures, which provides a consistent definition of fair value, focuses on exit price, prioritizes the use of market-based inputs over entity-specific inputs for measuring fair value and establishes a three-tier hierarchy for fair value measurements. This topic requires fair value measurements to be classified and disclosed in one of the following three categories:

- Level 1 — Financial instruments with unadjusted, quoted prices listed on active market exchanges.
- Level 2 — Financial instruments lacking unadjusted, quoted prices from active market exchanges, including over-the-counter traded financial instruments. Financial instrument values are determined using prices for recently traded financial instruments with similar underlying terms and direct or indirect observational inputs, such as interest rates and yield curves at commonly quoted intervals.
- Level 3 — Financial instruments not actively traded on a market exchange and there is little, if any, market activity. Values are determined using significant unobservable inputs or valuation techniques.

See Note 14 of the Consolidated Financial Statements for the required fair value disclosures.

## Interest Rate Swap Agreements

The company has used interest rate swaps in order for a portion of interest bearing debt to be variable, which matches interest expense with the company's business cycle. These swaps were fair-value hedges and qualified for hedge-accounting treatment, whereby the change in the fair value of the interest rate swap is equal to the change in value of the related hedged debt and, as a result, there is no net effect on earnings. The agreement required the company to pay floating-rate interest payments in return for receiving fixed-rate interest payments that coincide with the semi-annual payments to the debt holders at the same date. The periodic interest settlements, which occur at the same interval as the public debt securities, are recorded as interest expense. Accordingly, as of May 29, 2010, a total of \$50.0 million of the company's outstanding debt was effectively converted to a variable-rate basis as a result of the interest rate swap arrangement. During the fourth quarter of fiscal 2011 the interest rate swap agreement expired as planned on March 15, 2011.

## Foreign Currency Forward Contracts Not Designated as Hedges

The company transacts business in various foreign currencies and has established a program that primarily utilizes foreign currency forward contracts to offset the risks associated with the effects of certain foreign currency exposures. Under this program, the company's strategy is to have increases or decreases in our foreign currency exposures offset by gains or losses on the foreign currency forward contracts to mitigate the risks and volatility associated with foreign currency transaction gains or losses. These foreign currency exposures typically arise from net liability or asset exposures in non-local currencies on the balance sheets of our foreign subsidiaries. These foreign currency forward contracts generally settle within 90 days and are not used for trading purposes. These forward contracts are not designated as hedging instruments. Accordingly, we record the fair value of these contracts as of the end of the reporting period in the consolidated balance sheet with changes in fair value recorded in the Consolidated Statement of Operations. The balance sheet classification for the fair values of these forward contracts is to "Prepaid expenses and other" for unrealized gains and to "Accrued liabilities" for unrealized losses. The Consolidated Statement of Operations classification for the fair values of these forward contracts is to "Other expenses (income): Other, net", for both realized and unrealized gains and losses.

As of May 28, 2011, the notional amounts of the forward contracts held to purchase and sell U.S. dollars in exchange for other major international currencies were \$28.4 million and the notional amounts of the foreign currency forward contracts held to sell British pound sterling in exchange for other major international currencies were 2.6 million GBP.

The effects of derivative instruments on the condensed consolidated financial statements were as follows for the fiscal years ended 2011 and 2010 (amounts presented exclude any income tax effects) are shown below.

Fair Value of Derivative Instruments in (In millions)	Condensed Consolidated Balance Sheet Balance Sheet Location	May 28, 2011	May 29, 2010
Interest rate swap agreement - fair market value	Other current assets	\$—	\$1.2
Foreign currency forward contracts not designated as hedges	Other current assets	\$0.7	\$0.1
Foreign currency forward contracts not designated as hedges	Other current liabilities	\$0.3	\$0.1

#### Effects of Derivative Instruments of Income

(In millions)	Recognized Income on Derivative (Gain) Loss Location	Fiscal Year	
		May 28, 2011	May 29, 2010
Foreign currency forward contracts	Other Expense (Income): Other, net	\$(0.5	) \$—

#### New Accounting Standards

In April 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2010-13, Compensation-Stock Compensation (Topic 718)-Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades - a consensus of the FASB Emerging Issues Task Force. The company adopted the disclosure requirements of ASU 2010-13 in the fourth quarter of fiscal 2011.

In December 2009, the FASB issued ASU 2009-16, Transfers and Servicing (Topic 860)-Accounting for Transfers of Financial Assets. ASU 2009-16 revises previous authoritative guidance related to accounting for transfers of financial assets and requires more disclosures about transfers of financial assets, including securitization transactions, and where entities have continuing exposure to the risks related to transferred financial assets. The company adopted the disclosure requirements of ASU 2009-16 in the first quarter of fiscal 2011.

In December 2009, the FASB issued ASU No. 2009-17, Consolidations (Topic 810)-Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities. ASU 2009-17 changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. ASU 2009-17 also requires a reporting entity to provide additional disclosures about its involvement with variable interest entities including the effect on financial statements and any significant changes in risk exposure due to that involvement. The company adopted the disclosure requirements of ASU 2009-17 in the first quarter of fiscal 2011.

## 2. Acquisitions and Divestitures

### Nemschoff

On June 24, 2009, the company acquired all of the outstanding equity ownership interest of Nemschoff Chairs, LLC (Nemschoff) a Sheboygan, Wisconsin based manufacturer, with additional manufacturing capabilities in Sioux Center, Iowa. Nemschoff manufactures healthcare furnishings, with an emphasis on seating products for patient rooms, patient treatment areas, and public spaces such as lobbies and waiting areas. Nemschoff also serves the higher education and office markets.

The company incurred acquisition-related costs of approximately \$1.1 million and \$0.3 million during the fourth quarter of fiscal 2009 and first quarter of fiscal 2010, respectively. These expenses are included in the Statement of Operations, "Operating Expenses" line item. The purchase price for Nemschoff, which represents the estimated fair value of consideration transferred as of the acquisition date, consisted of the following:

-46-

---

(In millions)	Fair Value
Cash	\$30.4
Common stock (2,041,666 shares)	28.7
Contingent success fee	14.4
Contingent value rights	16.3
Total	\$89.8

The fair value of the common shares issued was determined based on the closing market price of the company's common stock on the acquisition date.

There were two forms of contingent consideration provided to the sellers, a success fee and contingent value rights (CVRs). These contingent liabilities were presented net of a \$6.9 million note receivable that was issued by the sellers in exchange for cash at the acquisition date, and was payable only to the extent it could be offset against the contingent consideration. On January 31, 2011, the company signed an agreement to settle the two contingent consideration matters and the note receivable with the sellers of Nemschoff for a lump sum cash payment of \$3 million, which approximated the fair value of these obligations as discussed in the following paragraphs.

Previously, the success fee payment ranged between \$0 and \$25 million based on performance from June 2010 through May 2011, and could be settled in the form of cash or stock at the company's discretion. At the acquisition date, the fair value of the success fee was \$14.4 million and as of January 31, 2011, the success fee was valued at \$5.6 million, with the change in value reflected within "Operating expenses" in the Condensed Consolidated Statements of Operations. The fair value of the success fee was estimated based on projected revenues for fiscal 2011.

The CVR previously associated with each of the 2,041,666 shares of common stock issued in the transaction entitled the holder to compensation in the event that the company's share price was below \$24.00 per share at June 30, 2011. A floor price of \$13.28 per share was established that provided a maximum payout of \$10.72 per share to be paid at the time of share redemption and could be settled in the form of cash or stock at the company's discretion. At the acquisition date, the fair value of the CVRs was \$16.3 million and as of January 31, 2011, the CVRs were valued at \$4.4 million with the change in value reflected within "Operating expenses" in the Condensed Consolidated Statements of Operations. The fair value of the CVR was estimated using a Black-Scholes model which uses several key assumptions, including the current share price of the company.

	January 31, 2011	
Risk-free interest rates	1.04	%
Expected term	0.4 years	
Expected volatility	59	%
Dividend yield	0.46	%

During the third quarter of fiscal 2011 and prior to the settlement of the CVR's, approximately 680,000 shares of the company's common stock relating to the CVR were sold on exchange in excess of \$24 per share, which reduced the obligation by approximately \$3.3 million.

The purchase price was allocated to assets acquired and liabilities assumed based on their estimated fair values at the date of the acquisition. The excess of the purchase price over the estimated fair values of the underlying assets acquired and liabilities assumed was allocated to goodwill. Allocation of the purchase price resulted in acquired assets and liabilities assumed consisting of the following:

(In millions)	Fair Value
Cash	\$1.6
Accounts receivable	7.6
Inventory	6.5
Other current assets	0.8
Property, plant and equipment	15.6
Identifiable intangible assets	33.2
Goodwill	34.3
Total acquired assets	99.6
Accrued warranty	0.5
Accounts payable	2.3
Customer deposits	0.6
Deferred tax liability	2.8
Other accrued liabilities	3.6
Total acquired liabilities	9.8
Net Assets Acquired	\$89.8

The fair values and useful lives assigned to identifiable intangible assets as of the acquisition date consisted of the following:

(In millions)	Fair Value	Useful Life
Trade name	\$20.0	Indefinite
Customer relationships	12.9	15 years
Non-compete agreements	0.3	2 years
Total	\$33.2	

Nemschoff is included in the company's North American segment; therefore, all of the goodwill recorded in the acquisition has been allocated to that segment. The goodwill recognized is attributable primarily to expected synergies and the assembled workforce. The company expects substantially all of the goodwill to be amortizable for income tax purposes.

#### CBS

On April 6, 2010, the company acquired all the outstanding equity interest in Colebrook Bosson Saunders, (CBS) a worldwide leader in the design, manufacture and distribution of ergonomic work tools with headquarters located in London, England and additional showrooms in New York and Australia. CBS has annualized net sales of approximately \$15 million. Cash used for the acquisition of CBS was approximately \$14.4 million.

Additionally, CBS may be entitled to contingent consideration in the form of performance-based payments in the range of zero and \$14.1 million, payable in British pound sterling, that would be earned over the next five years. The contingent consideration is based on a combination of attained revenue and profitability targets. Any payment due will be settled in cash. At the acquisition date, the fair value of the contingent consideration was \$2.9 million. As of May 28, 2011, the contingent consideration value was \$3.1 million with \$1.6 million recorded as a current liability and \$1.5 million recorded as a long-term liability. Any change in value due to change in estimates will be reflected within "Operating expenses" in the Condensed Consolidated Statements of Operations.

The purchase price for CBS, which represents the estimated fair value of consideration transferred as of the acquisition date, consisted of the following:

(In millions)	Fair Value
Cash	\$14.4
Contingent consideration	2.9
Total	\$17.3

The purchase price was allocated to assets acquired and liabilities assumed based on their estimated fair values at the date of the acquisition. The excess of the purchase price over the estimated fair values of the underlying assets acquired and liabilities assumed was allocated to goodwill. Allocation of the purchase price resulted in acquired assets and liabilities assumed consisting of the following:

(In millions)	Fair Value
Cash	\$1.5
Accounts receivable	2.5
Inventory	4.2
Goodwill	5.6
Identifiable intangibles	4.1
Other assets	0.8
Total acquired assets	18.7
Accounts payable	0.6
Other accrued liabilities	0.8
Total acquired liabilities	1.4
Net Assets Acquired	\$17.3

The fair values and useful lives assigned to identifiable intangible assets as of the acquisition date consisted of the following:

(In millions)	Fair Value	Useful Life
Trade names and trademarks	\$0.9	15 years
Dealer relationships	3.2	15 years
Total	\$4.1	

The majority of CBS operations are included in the company's non-North American segment; therefore, the majority of the goodwill recorded in the acquisition has been allocated to that segment. The goodwill recognized is attributable primarily to expected synergies through the company's dealer network and the assembled workforce. The company expects substantially all of the goodwill to be amortizable for income tax purposes.

#### Other Acquisitions

During the second quarter of fiscal 2009, the company completed the purchase of selected elements of Ruskin Industries, a specialized manufacturer of complex wood chair frames and wood frame components, based in Hickory, North Carolina. The purchase consideration for this transaction was approximately \$2.9 million allocated primarily to accounts receivable, inventory, and machinery and equipment.

During the first quarter of fiscal 2010, the company completed the purchase of certain assets of a contract furniture dealership in Virginia. The purchase consideration was \$1.6 million of cash and the assets purchased were primarily accounts receivable and inventory.

During the fourth quarter of fiscal 2010, the company completed the purchase of certain assets of a contract and retail furniture dealership in Australia. The purchase consideration was \$2.8 million of cash and the assets purchased were primarily inventory, accounts receivable and property plant and equipment. Goodwill recognized from the acquisition was \$0.4 million.

During the fourth quarter of fiscal 2011, the company announced an agreement to acquire POSH Office Systems Ltd., a Hong Kong-based designer, manufacturer, and distributor of office furniture systems, freestanding furniture, seating, and filing and storage. POSH, with annual revenues of approximately \$50 million, is a market leader in commercial furnishings in both Hong Kong and the People's Republic of China. Completion of the acquisition is pending the company's establishment of a legal structure in China necessary to complete the transaction. The company currently anticipates the closing for the acquisition of POSH will be completed during calendar 2012. The final purchase price is expected to include an upfront cash payment, due at closing, followed by a performance-based payment at the conclusion of an earn-out period.

-49-

---

The acquisition is not expected to be a material acquisition for the company.

#### Divestitures

During the first quarter of fiscal 2009, the company completed the sale of a wholly-owned contract furniture dealership in Texas. The effect of this transaction on the company's consolidated financial statements was not material.

Subsequent to the end of fiscal 2011 the company completed the sale of two wholly-owned contract furniture dealerships in Texas and Colorado. The effect of these transactions on the company's consolidated financial statements was not material.

#### Proforma Information

The results of operations for entities acquired by the company have been included in the Condensed Consolidated Statements of Operations since the dates of the respective acquisitions. The amount of net sales and net earnings attributable to these acquisitions included in the Condensed Consolidated Statements of Operations consists of the following:

(In millions)	Year ended May 29, 2010
Net sales	\$71.8
Net loss	\$(0.5)

The following supplemental pro forma information presents net sales and net earnings for the company as if the acquisitions had occurred at the beginning of the fiscal period presented. This pro forma information is not necessarily indicative of the results that would have actually been obtained if the acquisitions had occurred at the beginning of the period presented or that may be attained in the future.

(In millions)	Year ended May 29, 2010
Pro forma net sales	\$1,359.8
Pro forma net earnings	\$29.5

#### 3. Inventories

(In millions)	May 28, 2011	May 29, 2010
Finished goods	\$34.6	\$32.9
Work in process	11.6	8.9
Raw materials	20.0	16.1
Total	\$66.2	\$57.9

Inventories are valued at the lower of cost or market and include material, labor, and overhead. The inventories of the majority of domestic manufacturing subsidiaries are valued using the last-in, first-out method (LIFO). The inventories of all other subsidiaries are valued using the first-in, first-out method. Inventories valued using LIFO amounted to \$24.1 million and \$19.5 million as of May 28, 2011 and May 29, 2010, respectively. If all inventories had been valued using the first-in first-out method, inventories would have been \$11.6 million and \$10.7 million higher than reported at May 28, 2011 and May 29, 2010, respectively.

#### 4. Prepaid Expenses and Other

Edgar Filing: MILLER HERMAN INC - Form 10-K

(In millions)	May 28, 2011	May 29, 2010
Deferred income taxes	\$21.2	\$21.9
Prepaid property and other taxes	25.4	9.9
Other	12.6	14.6
Total	\$59.2	\$46.4

-50-

---

## 5. Other Assets

(In millions)	May 28, 2011	May 29, 2010
Deferred income taxes	2.8	37.0
Cash surrender value of life insurance	1.6	0.8
Other	4.9	4.1
Total	\$9.3	\$41.9

## 6. Accrued Liabilities

(In millions)	May 28, 2011	May 29, 2010
Compensation and employee benefits	\$75.9	\$41.1
Income taxes	2.5	1.1
Other taxes	6.8	5.4
Unearned revenue	13.5	10.1
Warranty reserves	17.0	16.0
Interest payable	6.1	7.1
Restructuring	1.0	7.0
Pension and post-retirement benefits	1.2	1.2
Contingent consideration	1.6	1.4
Other	27.5	22.0
Total	\$153.1	\$112.4

## 7. Other Liabilities

(In millions)	May 28, 2011	May 29, 2010
Pension benefits	\$42.4	\$114.2
Post-retirement benefits	9.2	10.0
Contingent consideration	1.5	19.4
Other	34.1	32.7
Total	\$87.2	\$176.3

## 8. Long-Term Debt

(In millions)	May 28, 2011	May 29, 2010
Series A senior notes, 5.94%, due January 3, 2015	\$50.0	\$50.0
Series B senior notes, 6.42%, due January 3, 2018	150.0	150.0
Debt securities, 7.125%, due March 15, 2011	—	100.0
Debt securities, 6.0%, due March 1, 2021	50.0	—
Fair value of interest rate swap arrangements	—	1.2
	250.0	301.2
Less: current portion	—	(101.2)
Total	\$250.0	\$200.0

In January 2008, the company issued a total of \$200 million in senior unsecured private placement notes. Notes in the principal amount of \$150 million bear interest at 6.42 percent and are due in January 2018. The remaining \$50 million in private placement notes bear interest at 5.94 percent and are due in January 2015. Related interest payments are due semi-annually.

Our senior notes and the unsecured senior revolving credit facility restrict, without prior consent, our borrowings, capital leases, and the sale of

-51-

---

certain assets. In addition, we have agreed to maintain certain financial performance ratios, which include a maximum leverage ratio covenant, which is measured by the ratio of debt to trailing four quarter adjusted EBITDA (as defined in the credit agreement) and is required to be less than 3.5:1, with a minimum interest coverage ratio, which is measured by the ratio of trailing four quarter EBITDA to trailing four quarter interest expense (as defined in the credit agreement) and is required to be greater than 4:1. Adjusted EBITDA is generally defined in the credit agreement to adjust EBITDA by certain items which include non-cash, share-based compensation, non-recurring restructuring costs and extraordinary items. At May 28, 2011 and May 29, 2010, the company was in compliance with all of these restrictions and performance ratios.

During the first quarter of fiscal 2010 the company renegotiated the syndicated revolving line of credit, reducing availability from \$250 million to \$150 million, while giving the company additional covenant flexibility. This facility expires in June 2012 and outstanding borrowings bear interest at rates based on the prime rate, federal funds rate, LIBOR, or negotiated rates as outlined in the agreement. Interest is payable periodically throughout the period a borrowing is outstanding. As of May 28, 2011 and May 29, 2010, total usage against this facility was \$9.4 million and \$11.2 million respectively, all of which related to outstanding letters of credit.

In March 2001, the company sold publicly registered debt securities totaling \$175 million. These senior notes matured on March 15, 2011 and bore an annual interest rate of 7.125 percent, with interest payments due semi-annually. During the first quarter of fiscal 2010, the company completed the repurchase of \$75 million of the registered debt securities. In addition to improving our covenant metrics this action reduced our interest expense run rate by approximately \$1.3 million per quarter. During the fourth quarter, on March 15, 2011, the company repaid the remaining \$100 million in principal due under the 2001 public bond issue. The payment was made using a combination of existing cash and proceeds from newly-issued senior unsecured private placement notes of \$50 million maturing in March 2021. The completion of this partial debt refinancing reduced the company's total debt obligations to \$250 million, none of which is current.

Annual maturities of long-term debt for the five fiscal years subsequent to May 28, 2011, are as follows:

(In millions)	
2012	\$—
2013	\$—
2014	\$—
2015	\$50.0
2016	\$—
Thereafter	\$200.0

## 9. Operating Leases

The company leases real property and equipment under agreements that expire on various dates. Certain leases contain renewal provisions and generally require the company to pay utilities, insurance, taxes, and other operating expenses.

Future minimum rental payments required under operating leases that have non-cancelable lease terms as of May 28, 2011, are as follows:

(In millions)	
2012	\$19.7
2013	\$16.1
2014	\$10.7
2015	\$8.9

2016	\$6.7
Thereafter	\$17.6

Total rental expense charged to operations was \$22.8 million, \$22.4 million, and \$27.8 million, in fiscal 2011, 2010, and 2009, respectively. Substantially all such rental expense represented the minimum rental payments under operating leases.

## 10. Employee Benefit Plans

The company maintains retirement benefit plans for substantially all of its employees.

### Pension Plans and Post-Retirement Medical Insurance

The principal domestic retirement plan is a defined-benefit plan with benefits determined by a cash balance calculation. Benefits under this plan are based upon an employee's years of service and earnings. The company also offers certain employees retirement benefits under other domestic defined benefit plans. The company provides healthcare benefits to employees who retired from service on or before a qualifying date in 1998. As of the qualifying date, the company discontinued offering post-retirement medical to future retirees. Benefits to qualifying retirees under this plan are based on the employee's years of service and age at the date of retirement.

In addition to the domestic pension and retiree healthcare plan, one of the company's wholly owned foreign subsidiaries has a defined-benefit pension plan based upon an average final pay benefit calculation.

The measurement date for the company's principal domestic and international pension plans, as well as its post-retirement medical, is the last day of the fiscal year.

### Benefit Obligations and Funded Status

The following table presents, for the fiscal years noted, a summary of the changes in the projected benefit obligation, plan assets, and funded status of the company's domestic and international pension plans and post-retirement plan.

(In millions)	Pension Benefits				Post-Retirement Benefits	
	2011 Domestic	International	2010 Domestic	International	2011	2010
Change in benefit obligation:						
Benefit obligation at beginning of year	\$296.0	\$71.6	\$281.2	\$66.0	\$11.1	\$13.6
Service cost	6.9	1.9	8.1	—	—	—
Interest cost	15.1	4.3	17.9	4.2	0.5	0.6
Amendments	—	—	—	0.3	—	—
Foreign exchange impact	—	9.2	—	(7.6	) —	—
Actuarial (gain)/loss	9.0	(10.5	) 12.2	11.9	(0.4	) (2.1
Employee contributions	—	0.3	—	—	—	—
Benefits paid	(17.1	) (1.8	) (23.4	) (3.2	) (0.9	) (1.0
Benefit obligation at end of year	\$309.9	\$75.0	\$296.0	\$71.6	\$10.3	\$11.1
Change in plan assets:						
Fair value of plan assets at beginning of year	\$200.1	\$53.2	\$175.3	\$50.6	\$—	\$—
Actual return on plan assets	40.2	8.2	30.8	10.6	—	—
Foreign exchange impact	—	7.4	—	(5.7	) —	—
Employer contributions	50.2	1.7	17.4	0.9	0.9	1.0
Employee contributions	—	0.3	—	—	—	—
Benefits paid	(17.1	) (1.8	) (23.4	) (3.2	) (0.9	) (1.0
Fair value of plan assets at end of year	273.4	69.0	200.1	53.2	—	—
Under funded status at end of year	\$(36.5	) \$(6.0	) \$(95.9	) \$(18.4	) \$(10.3	) \$(11.1

The components of the amounts recognized in the Consolidated Balance Sheets are as follows.

(In millions)	Pension Benefits				Post-Retirement Benefits	
	2011 Domestic	International	2010 Domestic	International	2011	2010
Current liabilities	\$(0.1	) \$—	\$(0.1	) \$—	\$(1.1	) \$(1.1
Non-current liabilities	(36.4	) (6.0	) (95.8	) (18.4	) (9.2	) (10.0
	\$(36.5	) \$(6.0	) \$(95.9	) \$(18.4	) \$(10.3	) \$(11.1

The accumulated benefit obligation for the company's domestic pension benefit plans totaled \$307.2 million and \$289.6 million as of the end of fiscal years 2011 and 2010, respectively. For its international plans, these amounts totaled \$72.8 million and \$68.4 million as of the same dates, respectively.

The components of the amounts recognized in accumulated other comprehensive loss before the effect of income taxes are as follows.

(In millions)	Pension Benefits				Post-Retirement Benefits	
	2011 Domestic	International	2010 Domestic	International	2011	2010
Unrecognized net actuarial loss	\$144.9	\$11.6	\$165.6	\$24.7	\$1.7	\$2.0
Unrecognized prior service cost (credit)	(3.9)	) —	(6.2)	) —	0.1	0.2
Unrecognized transition amount	—	—	—	—	—	—
	\$141.0	\$11.6	\$159.4	\$24.7	\$1.8	\$2.2

#### Components of Net Periodic Benefit Costs and Other Changes Recognized in Other Comprehensive Income

The following table is a summary of the annual cost of the company's pension and post-retirement plans.

(In millions)	Pension Benefits			Post-Retirement Benefits		
	2011	2010	2009	2011	2010	2009
Domestic:						
Service cost	\$6.9	\$8.1	\$8.4	\$—	\$—	\$—
Interest cost	15.1	17.9	18.3	0.5	0.6	0.8
Expected return on plan assets	(18.7)	) (18.9)	) (22.2)	) —	—	—
Net amortization	6.0	3.1	2.5	0.1	0.1	0.2
Net periodic benefit cost	\$9.3	\$10.2	\$7.0	\$0.6	\$0.7	\$1.0
International:						
Service cost	\$1.9	\$—	\$2.1			
Interest cost	4.3	4.2	4.6			
Expected return on plan assets	(4.2)	) (4.4)	) (4.6)	)

Actuarial Assumptions

The weighted-average actuarial assumptions used to determine the benefit obligation amounts as of the end of the fiscal year for the company's pension plans and post-retirement plans are as follows.

(Percentages)	2011		2010		2009	
	U.S.	International	U.S.	International	U.S.	International
Discount rate	4.75	5.40	5.25	5.50	6.75	6.50
Compensation increase rate	3.00	3.50	4.50	4.90	4.50	4.80

The weighted-average actuarial assumptions used to determine the net periodic benefit cost are established at the end of the previous fiscal year for the subsequent fiscal years as follows.

(Percentages)	2011		2010		2009	
	U.S.	International	U.S.	International	U.S.	International
Discount rate	5.25	5.50	6.75	6.50	6.75	6.25
Compensation increase rate	4.50	4.90	4.50	4.80	4.50	5.00
	7.75	6.80	7.75	7.25	8.50	7.30

Expected return on plan  
assets

In calculating post-retirement benefit obligations, a 7.6 percent annual rate of increase in the per capita cost of covered healthcare benefits was

-56-

---

assumed for 2011, decreasing gradually to 4.5 percent by 2029 and remaining at that level thereafter. For purposes of calculating post-retirement benefit costs, a 7.7 percent annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2010, decreasing gradually to 4.5 percent by 2029 and remaining at that level thereafter.

Assumed health care cost-trend rates have a significant effect on the amounts reported for retiree health care costs. A one-percentage-point change in the assumed health care cost-trend rates would have the following effects:

(In millions)	1 Percent Increase	1 Percent Decrease
Effect on total fiscal 2011 service and interest cost components	\$—	\$—
Effect on post-retirement benefit obligation at May 28, 2011	\$0.5	\$(0.4)

#### Plan Assets and Investment Strategies

The company's primary domestic and international employee benefit plans' assets consist mainly of listed common stocks, mutual funds, fixed income obligations and cash. The company's primary objective for invested pension plan assets is to provide for sufficient long-term growth and liquidity to satisfy all of its benefit obligations over time. Accordingly, the company has developed an investment strategy that it believes maximizes the probability of meeting this overall objective. This strategy includes the development of a target investment allocation by asset category in order to provide guidelines for making investment decisions. This target allocation emphasizes the long-term characteristics of individual asset classes as well as the diversification among multiple asset classes. In developing its strategy, the company considered the need to balance the varying risks associated with each asset class with the long-term nature of its benefit obligations. The company's strategy moving forward will be to increase the level of fixed income investments as the funding status improves, thereby more closely matching the return on assets with the liabilities of the plans.

The company utilizes independent investment managers to assist with investment decisions within the overall guidelines of the investment strategy.

The company has assumed an average long-term expected return on defined benefit plan assets of 7.75 percent and 6.80 percent for its primary domestic plan and international plan, respectively, as of May 28, 2011. The expected return is determined by applying the target allocation in each asset category of plan investments to the anticipated return for each asset category based on historical and projected returns.

The asset allocation for the company's primary pension plans at the end of fiscal 2011 and 2010 are as follows:

#### Primary Domestic Plan

Asset Category	Targeted Asset Allocation Percentage	Actual Percentage of Plan Assets at Year end	
		2011	2010
Equities	54 - 66	57	54
Fixed Income	35 - 43	43	45
Other	0 - 5	—	1
Total		100	100

#### Primary International Plan

Asset Category	Targeted Asset Allocation Percentage	Actual Percentage of Plan Assets at Year end	
		2011	2010
Equities	54 - 66	58	59

Edgar Filing: MILLER HERMAN INC - Form 10-K

## Cash Flows

The company anticipates contributing \$16.3 million to its pension and other post-retirement plans in fiscal 2012 and is reviewing whether any voluntary pension plan contributions will be made in the next year. Actual contributions will be dependent upon investment returns, changes in

-58-

---

pension obligations, and other economic and regulatory factors. In fiscal 2011 the company made a non-cash contribution of company stock to its domestic benefit plan which was valued at \$14.6 million at the contribution date. The company also made cash contributions totaling \$38.2 million to its benefit plans.

In August 2006, the Pension Protection Act of 2006 (the "Act") was signed into law. Beginning in 2008, the Act replaces prevailing statutory minimum funding requirements, and will generally require contributions to the company's U.S. defined benefit pension plans in amounts necessary to fund the cost of currently-accruing benefits, and to fully-fund any unfunded accrued benefits over a period of seven years. In the long-term, the new law is not expected to materially change aggregate contributions required to be made to the U.S. pension plans, although such contributions may vary on a year to year basis from what otherwise would have been required. The extent of these variations is not expected to have a material impact on the company's financial position or cash flows.

The following represents a summary of the benefits expected to be paid by the plans in future fiscal years. These expected benefits were estimated based on the same actuarial valuation assumptions used to determine benefit obligations at May 28, 2011.

(In millions)	Pension Benefits Domestic	Pension Benefits International	Post-Retirement Benefits
2012	\$25.0	\$1.4	\$1.1
2013	26.2	1.5	1.1
2014	27.0	1.5	1.0
2015	27.8	1.6	1.0
2016	20.8	1.6	1.0
2017-2021	112.8	8.9	4.0

#### Profit Sharing and 401(k) Plan

Herman Miller, Inc. has a trustee profit sharing plan that includes substantially all domestic employees. These employees are eligible to begin participating on their date of hire. The plan provides for discretionary contributions, payable in the company's common stock, of not more than 6.0 percent of employees' wages based on the company's financial performance. The cost of the profit sharing contribution during fiscal 2011 was \$7.7 million. The company made no profit sharing contributions in fiscal years 2010 and 2009. The company has traditionally matched 50 percent of employee contributions to their 401(k) accounts up to 6.0 percent of their pay. The company indefinitely suspended the 401(k) matching program in the fourth quarter of fiscal 2009 and the suspension remained in effect until the second half of fiscal 2011. The company, therefore, did not incur any costs for this program in fiscal 2010. The cost of the company's matching contributions charged against operations was approximately \$2.0 million and \$4.7 million in fiscal years 2011 and 2009, respectively.

## 11. Common Stock and Per Share Information

The following table reconciles the numerators and denominators used in the calculations of basic and diluted EPS for each of the last three fiscal years.

(In millions, except shares)	2011	2010	2009
Numerators:			
Numerators for basic EPS, net earnings attributable to controlling interest	\$70.8	\$28.3	\$68.0
Income from adjustments to contingent consideration that can be settled in common stock at the company's option, net of tax	(9.5	) (3.6	) —
Numerator for diluted EPS	\$61.3	\$24.7	\$68.0
Denominators:			
Denominators for basic EPS, weighted-average common shares outstanding	57,118,777	55,997,781	54,138,570
Potentially dilutive shares resulting from stock plans	556,343	1,492,587	396,921
Denominator for diluted EPS	57,675,120	57,490,368	54,535,491

Options to purchase 2,290,471 shares, 2,777,406 shares and 3,029,844 shares of common stock have not been included in the denominator for the computation of diluted earnings per share for the fiscal years ended May 28, 2011, May 29, 2010, and May 30, 2009, respectively, because they were anti-dilutive.

## 12. Stock-Based Compensation

The company utilizes equity-based compensation incentives as a component of its employee and non-employee director and officer compensation philosophy. Currently, these incentives consist principally of stock options, restricted stock, restricted stock units and performance share units. The company also offers a discounted stock purchase plan for its domestic and international employees. The company issues shares in connection with its share-based compensation plans from authorized, but unissued, shares.

### Valuation and Expense Information

The company measures the cost of employee services received in exchange for an award of equity instruments based on their grant-date fair market value and to recognize this cost over the requisite service period.

Certain of the company's equity-based compensation awards contain provisions that allow for continued vesting into retirement. Stock-based awards are considered fully vested for expense attribution purposes when the employee's retention of the award is no longer contingent on providing subsequent service.

Pre-tax compensation expense for all types of stock-based programs was \$4.8 million, \$4.4 million, and \$3.2 million for the fiscal years ended May 28, 2011, May 29, 2010, and May 30, 2009, respectively. The company classifies pre-tax stock-based compensation expense primarily within "Operating Expenses" in the Consolidated Statements of Operations. Related expenses charged to "Cost of Sales" are not material. The corresponding income tax benefit recognized for the fiscal years ended May 28, 2011, May 29, 2010, May 30, 2009, was \$1.6 million, \$1.5 million, and \$1.0 million, respectively.

As of May 28, 2011, total pre-tax stock-based compensation cost not yet recognized related to non-vested awards was approximately \$6.1 million. The weighted-average period over which this amount is expected to be recognized is 1.64 years.

The company estimated the fair value of employee stock options on the date of grant using the Black-Scholes model. In determining these values, the following weighted-average assumptions were used for the options granted during the fiscal years indicated.

-60-

---

	2011	2010	2009		
Risk-free interest rates <sup>(1)</sup>	2.00-2.25%	2.71-2.84%	1.96-3.55%		
Expected term of options <sup>(2)</sup>	5.5 years	5.5 years	5.5 years		
Expected volatility <sup>(3)</sup>	42	% 41	% 33	%	%
Dividend yield <sup>(4)</sup>	0.49	% 0.56	% 1.4	%	%
Weighted-average grant-date fair value of stock options:					
Granted with exercise prices equal to the fair market value of the stock on the date of grant	\$7.01	\$6.24	\$7.25		

(1) Represents the U.S. Treasury yield over the same period as the expected option term.

(2) Represents the period of time that options granted are expected to be outstanding. Based on analysis of historical option exercise activity, the company has determined that all employee groups exhibit similar exercise and post-vesting termination behavior.

(3) Amount is determined based on analysis of historical price volatility of the company's common stock over a period equal to the expected term of the options. The company also utilizes a market-based or "implied volatility" measure, on exchange-traded options in the company's common stock, as a reference in determining this assumption.

(4) Represents the company's estimated cash dividend yield over the expected term of options.

Stock-based compensation expense recognized in the Consolidated Statements of Operations, has been reduced for estimated forfeitures, as it is based on awards ultimately expected to vest. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience.

#### Employee Stock Purchase Program

Under the terms of the company's Employee Stock Purchase Plan, 4 million shares of authorized common stock were reserved for purchase by plan participants at 85.0 percent of the market price. The company recognized pre-tax compensation expense related to employee stock purchases of \$0.3 million, \$0.3 million, and \$0.4 million for the fiscal years ended May 28, 2011, May 29, 2010, and May 30, 2009, respectively.

#### Stock Option Plans

The company has stock option plans under which options to purchase the company's stock are granted to employees and non-employee directors and officers at a price not less than the market price of the company's common stock on the date of grant. Under the current award program, all options become exercisable between one year and three years from date of grant and expire two to ten years from date of grant. Most options are subject to graded vesting with the related compensation expense recognized on a straight-line basis over the requisite service period. At May 28, 2011, there were 6.1 million shares available for future options.

The following is a summary of the transactions under the company's stock option plans:

	Shares Under Option	Weighted-Average Exercise Prices	Weighted-Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (In millions)
Outstanding at May 31, 2008	2,994,602	\$ 27.68	4.36	\$ 1.5
Granted at market	509,100	\$ 23.07		
Exercised	(23,050 )	\$ 24.29		
Forfeited or expired	(656,440 )	\$ 27.86		
Outstanding at May 30, 2009	2,824,212	\$ 26.83	4.86	\$ 0.2
Granted at market	337,253	\$ 15.76		
Exercised	(10,000 )	\$ 20.06		
Forfeited or expired	(372,829 )	\$ 25.72		
Outstanding at May 29, 2010	2,778,636	\$ 25.66	4.79	\$ 1.8
Granted at market	463,238	\$ 18.04		
Exercised	(309,251 )	\$ 21.28		
Forfeited or expired	(354,033 )	\$ 27.09		
Outstanding at May 28, 2011	2,578,590	\$ 24.62	5.46	\$ 6.6
Ending vested + expected to vest	2,552,118	\$ 24.69	5.42	\$ 6.5
Exercisable at end of period	1,802,883	\$ 27.22	4.19	\$ 1.9

Pre-tax compensation expense related to these options totaled \$2.5 million, \$2.5 million, and \$2.9 million for fiscal 2011, 2010, and 2009, respectively.

The total pre-tax intrinsic value of options exercised during fiscal 2011, 2010 and 2009 was \$1.6 million, negligible, and \$0.1 million, respectively. The aggregate intrinsic value in the preceding table represents the total pre-tax intrinsic value, based on the company's closing stock price as of the end of the period presented, which would have been received by the option holders had all option holders exercised in-the-money options as of that date.

The following is a summary of stock options outstanding at May 28, 2011.

Range of Exercise Price	Outstanding Stock Options			Exercisable Stock Options	
	Shares	Weighted-Average Remaining Contractual Term (Years)	Weighted-Average Exercise Prices	Shares	Weighted-Average Exercise Prices
\$12.33-22.63	879,299	7.4	\$ 17.08	259,682	\$ 17.56
\$23.87-27.99	860,450	4.2	\$ 25.19	704,360	\$ 25.14
\$28.57-38.13	838,841	4.8	\$ 31.96	838,841	\$ 31.96
	2,578,590	5.5	\$ 24.62	1,802,883	\$ 27.22

#### Restricted Stock Grants

The company periodically grants restricted common stock to certain key employees. Shares are granted in the name of the employee, who has all rights of a stockholder, subject to certain restrictions on transferability and a risk of forfeiture. The grants are subject to either cliff-based or graded vesting over a period not exceeding five years, and are subject to forfeiture if the employee ceases to be employed by the company for certain reasons. After the vesting period, the risk of forfeiture and restrictions on transferability lapse. The company recognizes the related

compensation expense on a straight-line basis over the requisite service period. A summary of shares subject to restrictions are as follows:

	2011		2010		2009	
	Shares	Weighted Average Grant-Date Fair Value	Shares	Weighted Average Grant-Date Fair Value	Shares	Weighted Average Grant-Date Fair Value
Outstanding, at beginning of year	54,729	\$19.48	116,860	\$26.25	116,074	\$26.59
Granted	33,000	\$20.63	42,481	\$15.96	4,500	\$20.04
Vested	(15,041 )	\$26.79	(104,112 )	\$25.69	(2,814 )	\$29.02
Forfeited or expired	(2,093 )	\$20.26	(500 )	\$10.78	(900 )	\$30.06
Outstanding, at end of year	70,595	\$18.44	54,729	\$19.48	116,860	\$26.25

Pre-tax compensation expense related to these awards totaled \$0.5 million, \$0.4 million, and \$0.7 million for the fiscal years ended May 28, 2011, May 29, 2010 and May 30, 2009 respectively. The weighted-average remaining recognition period of the outstanding restricted shares at May 28, 2011, was 2.34 years. The fair value on the dates of vesting for shares that vested during the twelve months ended May 28, 2011, was \$0.3 million.

#### Restricted Stock Units

The company grants restricted stock units to certain key employees. This program provides that the actual number of restricted stock units awarded is based on the value of a portion of the participant's long-term incentive compensation divided by the fair market value of the company's stock on the date of grant. In some years the awards have been partially tied to the company's financial performance for the year in which the grant was based. The awards generally cliff-vest after a three-year service period, with prorated vesting under certain circumstances and full or partial accelerated vesting upon retirement. Each restricted stock unit represents one equivalent share of the company's common stock to be awarded, free of restrictions, after the vesting period. Compensation expense related to these awards is recognized over the requisite service period, which includes any applicable performance period. Dividend equivalent awards are granted quarterly. The units do not entitle participants the rights of stockholders of common stock, such as voting rights until shares are issued after the vesting period. The following is a summary of restricted stock unit transactions for the fiscal years indicated.

	2011			2010			2009		
	Share Units	Aggregate Intrinsic Value in Millions	Weighted-Average Remaining Contractual Term (Years)	Share Units	Aggregate Intrinsic Value in Millions	Weighted-Average Remaining Contractual Term (Years)	Share Units	Aggregate Intrinsic Value in Millions	Weighted-Average Remaining Contractual Term (Years)
Outstanding, at beginning of year	214,406	\$4.0	1.2	147,811	\$2.0	1.7	168,374	\$4.1	2.7
Granted	140,357			83,780			3,438		
Forfeited	(4,704 )			(8,289 )			(9,927 )		
Released	(64,958 )			(8,896 )			(14,074 )		
Outstanding, at end of year	285,101	\$6.9	1.5	214,406	\$4.0	1.2	147,811	\$2.0	1.7
Ending vested + expected to vest	269,679	\$6.6	1.5	201,266	\$3.9	1.2	134,402	\$1.9	1.7

Pre-tax compensation expense related to restricted stock units totaled \$1.5 million, \$1.2 million, and \$0.6 million for fiscal 2011, 2010 and 2009, respectively.

Performance Share Units

The company has previously granted performance share units to certain key employees, none of which were granted prior to fiscal 2008. The

-63-

---

number of units initially awarded was based on the value of a portion of the participant's long-term incentive compensation, divided by the fair value of the company's common stock on the date of grant. Each unit represents one equivalent share of the company's common stock. The number of common shares ultimately issued in connection with these performance share units is determined based on the company's financial performance over the related three-year service period. Compensation expense is determined based on the grant-date fair value and the number of common shares projected to be issued, and is recognized over the requisite service period. The following is a summary of performance share unit transactions for the fiscal years indicated.

	2011			2010			2009		
	Share Units	Aggregate Intrinsic Value in Millions	Weighted-Average Remaining Contractual Term (Years)	Share Units	Aggregate Intrinsic Value in Millions	Weighted-Average Remaining Contractual Term (Years)	Share Units	Aggregate Intrinsic Value in Millions	Weighted-Average Remaining Contractual Term (Years)
Outstanding, at beginning of year	178,862	\$—	0.7	182,977	\$—	1.7	93,023	\$2.3	2.2
Granted	—			—			101,426		
Forfeited	(88,482 )			(4,115 )			(11,472 )		
Outstanding, at end of year	90,380	\$—	0.2	178,862	\$—	0.7	182,977	\$—	1.7
Ending vested + expected to vest	—	\$—	—	—	\$—	—	—	\$—	1.7

Pre-tax compensation expense (income) related to performance stock units was zero for fiscal years 2011 and 2010, respectively and (\$1.4) million for fiscal 2009. The recognition of income during fiscal 2009 was the result of the reversal of prior period expense for performance stock awards. This action was taken because it was no longer deemed probable that these awards would be earned due to the company's recent financial performance.

#### Deferred Compensation Plans

In 2008 the company discontinued use of the existing Non-qualified Deferred Compensation Plan for new contributions and established the Herman Miller, Inc. Executive Equalization Retirement Plan.

The Non-qualified Deferred Compensation Plan allowed selected employees to defer part or all of their executive incentive cash bonus payment each year. The company could make a matching contribution of 30 percent of the executive's contribution up to 50 percent of the deferred cash incentive bonus. The company's matching contribution vested at the rate of 33 1/3 percent annually. In accordance with the terms of the plan, the executive deferral and company matching contribution were placed in a "Rabbi" trust, which invested solely in the company's common stock. Rabbi trust arrangements offer the executive a degree of assurance for ultimate payment of benefits without causing constructive receipt for income tax purposes. Distributions to the executive from the Rabbi trust can only be made in the form of the company's common stock. The assets in the Rabbi trust remain subject to the claims of creditors of the company and are not the property of the executive and are, therefore, included as a separate component of stockholders' equity under the caption Key Executive Deferred Compensation. Shares associated with the Non-qualified Deferred Compensation Plan are included in the denominator for both basic and diluted EPS.

The Herman Miller, Inc. Executive Equalization Retirement Plan is a supplemental deferred compensation plan and was made available for salary deferrals and company contributions beginning in January 2008. The plan is available to a select group of management or highly compensated employees who are selected for participation by the Executive Compensation Committee of the Board of Directors. The plan allows participants to defer up to 50 percent of their

base salary and up to 100 percent of their incentive cash bonus. Company contributions to the plan “mirror” the amounts the company would have contributed to the various qualified retirement plans had the employee's compensation not been above the IRS statutory ceiling (\$245,000 in 2011). The company does not guarantee a rate of return for these funds. Instead, participants make investment elections for their deferrals and company contributions. Investment options are the same as those available under the Herman Miller Profit Sharing and 401(k) Plan except for company stock which is not an investment option under this plan.

In accordance with the terms of the Executive Equalization Plan, the salary and bonus deferrals and company contributions have been placed in a Rabbi trust. The assets in the Rabbi trust remain subject to the claims of creditors of the company and are not the property of the participant and are, therefore, included as an asset on the company's balance sheet within the other assets line item. A liability of the same amount is recorded on the consolidated balance sheet within the other liabilities line item. Investment assets are classified as trading, and accordingly, realized and unrealized gains and losses are recognized within the company's consolidated statement of operations in the interest and other investment income line item. The associated changes to the liability are recorded as compensation expense within the selling, general and administrative line item within the company's consolidated statement of operations. The net effect of any change to the asset and corresponding

liability is offset and has no impact on the statement of operations.

#### Director Fees

Company directors may elect to receive their director fees in one or more of the following forms: cash, deferred compensation in the form of shares or other selected investment funds, unrestricted company stock at the market value at the date of election, or stock options that vest in one year and expire in ten years. The exercise price of the stock options granted may not be less than the market price of the company's common stock on the date of grant. Under the plan, the Board members received the following shares or options in the fiscal years indicated.

	2011	2010	2009
Options	—	8,957	94,544
Shares of common stock	7,464	18,735	30,004
Shares through the deferred compensation program	—	7,148	—

### 13. Income Taxes

The components of earnings before income taxes are as follows.

(In millions)	2011	2010	2009
Domestic	\$93.4	\$38.4	\$90.4
Foreign	9.1	(3.6 )	8.5
Total	\$102.5	\$34.8	\$98.9

The provision (benefit) for income taxes consists of the following.

(In millions)	2011	2010	2009
Current: Domestic - Federal	\$1.4	\$8.6	\$22.2
Domestic - State	0.8	0.8	2.2
Foreign	5.7	(0.2 )	3.2
	7.9	9.2	27.6
Deferred: Domestic - Federal	26.4	(2.6 )	4.3
Domestic - State	1.4	(0.2 )	(0.3 )
Foreign	(4.0 )	0.1	(0.6 )
	23.8	(2.7 )	3.4
Total income tax provision	\$31.7	\$6.5	\$31.0

The following table represents a reconciliation of income taxes at the United States statutory rate with the effective tax rate as follows.

(In millions)	2011	2010	2009
Income taxes computed at the United States Statutory rate of 35%	\$35.8	\$12.2	\$34.6
Increase (decrease) in taxes resulting from:			
Change in unrecognized tax benefits	(0.3 )	(4.9 )	0.7
Foreign statutory rate differences	(1.6 )	0.4	(0.7 )
Manufacturing deduction under the American Jobs Creation Act of 2004	(2.4 )	(1.2 )	(1.4 )
Foreign tax credits	(1.3 )	—	(1.2 )
Other, net	1.5	—	(1.0 )

Edgar Filing: MILLER HERMAN INC - Form 10-K

Income tax expense	\$31.7		\$6.5		\$31.0	
Effective tax rate	30.9	%	18.8	%	31.4	%

-65-

---

The company was granted a tax holiday from the Ningbo Economic and Technological Development Commission in China. This agreement provides, starting with the first year of cumulative profits, for the company to be taxed at a reduced rate for five years. The company's Ningbo, China operations started the first year of the tax holiday as of January 1, 2008.

The tax effects and types of temporary differences that give rise to significant components of the deferred tax assets and liabilities at May 28, 2011 and May 29, 2010, are as follows:

(In millions)	2011	2010
Deferred tax assets:		
Compensation-related accruals	\$14.7	\$12.4
Accrued pension and post-retirement benefit obligations	19.9	48.5
Accrued health claims	—	1.4
Reserves for inventory	2.7	2.1
Reserves for uncollectible accounts and notes receivable	1.6	1.6
Other reserves and accruals	4.0	6.5
Warranty	5.5	5.1
State and local tax net operating loss carryforwards	4.0	4.0
Federal net operating loss carryforward	0.3	0.3
State credits	1.1	1.6
Foreign tax net operating loss carryforwards	8.1	7.2
Foreign tax credits	0.1	0.5
Other	5.8	3.7
Subtotal	67.8	94.9
Valuation allowance	(11.6 )	(11.0 )
Total	\$56.2	\$83.9
Deferred tax liabilities:		
Book basis in property in excess of tax basis	\$(19.4 )	\$(18.1 )
Intangible assets	(12.8 )	(6.4 )
Other	(1.1 )	(0.5 )
Total	\$(33.3 )	\$(25.0 )

The future tax benefits of net operating loss (NOL) carry-forwards and foreign tax credits are recognized to the extent that realization of these benefits is considered more likely than not. The company bases this determination on the expectation that related operations will be sufficiently profitable or various tax planning strategies will enable the company to utilize the NOL carry-forwards and/or foreign tax credits. To the extent that available evidence about the future raises doubt about the realization of these tax benefits, a valuation allowance is established.

At May 28, 2011, the company had state and local tax NOL carry-forwards of \$61.9 million, the tax benefit of which is \$4.0 million, which have various expiration periods from one to twenty years. The company also had state credits with a tax benefit of \$1.1 million that expire in one to five years. For financial statement purposes, the NOL carry-forwards and state tax credits have been recognized as deferred tax assets, subject to a valuation allowance of \$3.7 million.

At May 28, 2011, the company had a federal NOL carry-forward of \$0.9 million, the tax benefit of which is \$0.3 million, which expires in 16 years. For financial statement purposes, the NOL carry-forward has been recognized as a deferred tax asset.

At May 28, 2011, the company had a capital loss carry-forward of \$1.8 million, the tax benefit of which is \$0.7 million, which expires in 3 years. For financial statement purposes, the capital loss carry-forward has been recognized as a deferred tax asset, subject to a valuation allowance of \$0.7 million.

At May 28, 2011, the company had foreign net operating loss carry-forwards of \$30.9 million, the tax benefit of which is \$8.1 million, which have expiration periods from one year to an unlimited term. The company also had foreign tax credits with a tax benefit of \$0.1 million that expire in four to eight years. For financial statement purposes, NOL carry-forwards and foreign tax credits have been recognized as deferred tax assets, subject to a valuation allowance of \$7.2 million

-66-

---

The company has not provided for United States income taxes on undistributed earnings of foreign subsidiaries totaling approximately \$53.7 million. Recording deferred income taxes on these undistributed earnings is not required, because these earnings have been deemed to be permanently reinvested. These amounts would be subject to possible U.S. taxation only if remitted as dividends. The determination of the hypothetical amount of unrecognized deferred U.S. taxes on undistributed earnings of foreign entities is not practicable.

The components of the company's unrecognized tax benefits are as follows:

(In millions)

Balance at May 30, 2009	\$7.7	
Increases related to current year income tax positions	0.2	
Increases related to prior year income tax positions	0.6	
Decreases related to prior year income tax positions	(5.1)	)
Decreases related to lapse of applicable statute of limitations	(1.3)	)
Balance at May 29, 2010	2.1	
Increases related to current year income tax positions	0.2	
Increases related to prior year income tax positions	0.2	
Decreases related to prior year income tax positions	(0.6)	)
Decreases related to settlements	(0.3)	)
Balance at May 28, 2011	\$1.6	

The company's effective tax rate would have been affected by the \$1.6 million of unrecognized tax benefits had this amount been recognized as a reduction to income tax expense.

The company recognizes interest and penalties related to unrecognized tax benefits through income tax expense in its statement of operations. Interest and penalties recognized in the company's Consolidated Statements of Operations for the years ended May 28, 2011 and May 29, 2010 resulted in a favorable adjustments of \$0.2 million and \$0.3 million, respectively. As of May 28, 2011 and May 29, 2010, the company's recorded liability for interest and penalties related to unrecognized tax benefits totaled \$0.5 million and \$0.7 million, respectively.

The company is subject to periodic audits by domestic and foreign tax authorities. Currently, the company is undergoing routine periodic audits in both domestic and foreign tax jurisdictions. It is reasonably possible that the amounts of unrecognized tax benefits could change in the next 12 months as a result of new positions that may be taken on income tax returns, settlement of tax positions and the closing of statutes of limitation. It is not expected that any of the changes will be material to the company's Consolidated Statement of Operations.

During the year, the company has closed the audit of fiscal year 2010 with the Internal Revenue Service under the Compliance Assurance Process (CAP). For the majority of the remaining tax jurisdictions, the company is no longer subject to state and local, or non-U.S. income tax examinations by tax authorities for fiscal years before 2008.

#### 14. Fair Value of Financial Instruments

The company's financial instruments consist of cash equivalents, marketable securities, accounts and notes receivable, deferred compensation plan, accounts payable, debt and foreign currency exchange contracts. The company's estimates of fair value for financial instruments, other than marketable securities, approximate their carrying amounts as of May 28, 2011 and May 29, 2010. As of May 28, 2011, the carrying value and the fair value of the company's long-term debt, including current maturities, was \$250 million and \$270.5 million, respectively. At May 29, 2010, the carrying value of the company's long-term debt including both current maturities and interest rate swap arrangements,

was \$301.2 million with a corresponding fair value of \$309.7 million.

The following describes the methods the company uses to estimate the fair value of financial assets and liabilities, of which there have been no significant changes in the current period:

Available-for-sale securities — The company's Level 2 available-for-sale marketable securities primarily include U.S. government and agency securities, asset-backed debt securities and corporate debt securities and are valued using prices for recently traded financial instruments with similar underlying terms and direct or indirect observational inputs, such as interest rates and yield curves at commonly quoted intervals.

Interest rate swap agreements and foreign currency forward contracts — The company's Level 2 interest rate swap agreements and foreign

-67-

---

currency forward contracts values are determined using a market approach based on rates obtained from active markets.

Foreign currency exchange contracts — The company's Level 2 foreign currency exchange contracts are valued using an approach based on foreign currency exchange rates obtained from active markets. The estimated fair value of forward currency exchange contracts is based on month-end spot rates as adjusted by market-based current activity.

The following tables set forth financial assets and liabilities measured at fair value in the Condensed Consolidated Balance Sheets and the respective pricing levels to which the fair value measurements are classified within the fair value hierarchy as of May 28, 2011 and May 29, 2010:

(In millions)	Fair Value Measurements as of May 28, 2011		
	Total	Quoted Prices In Active Markets (Level 1)	Quoted Prices With Other Observable Inputs (Level 2)
<b>Financial Assets</b>			
Available-for-sale marketable securities

Asset-backed securities	\$0.8	\$—	\$—	\$0.8
Corporate securities	5.1	—	—	5.1
Government obligations	5.3	—	—	5.3
Mortgage-backed securities	1.0	0.1	(0.2)	0.9
Total	\$12.2	\$0.1	\$(0.2)	\$12.1

The company does not hold any Level 3 financial instruments.

Net investment gain recognized in the Consolidated Statements of Operations for available-for-sale investments totaled \$0.1 million and \$0.9 million in fiscal 2011 and fiscal 2010, respectively. A net investment loss of \$0.2 million was recognized in fiscal 2009. The net investment gain of \$0.9 million in fiscal 2010 included an other-than-temporary-impairment charge for certain debt securities of \$0.4 million.

The company reviews its fixed income and equity investment portfolio for any unrealized losses that would be deemed other-than-temporary and require the recognition of an impairment loss in income. If the cost of an investment exceeds its fair value, the company evaluates, among other factors, general market conditions, the duration and extent to which the fair value is less than its cost, and the company's intent to hold the investments and whether it is more likely than not that the company will be required to sell the investments before recovery of their amortized cost basis. The company also considers the type of security, related-industry and sector performance, as well as published investment ratings and analyst reports, to evaluate its portfolio. Once a decline in fair value is determined to be other-than-temporary, an impairment charge is recorded and a new cost basis in the investment is established. If conditions within individual markets, industry segments, or macro-economic environments deteriorate, the company could incur future impairments. In the fourth quarter of fiscal 2009, the company determined that equity investment losses of \$0.6 million represented an other-than-temporary impairment and, accordingly, these losses were recognized in the consolidated statement of operations. In the second quarter of fiscal 2010, the company determined that certain debt securities had other-than-temporarily impaired assets in the amount of \$0.8 million. Of these losses, \$0.4 million were determined to be credit-related and were, therefore, recognized in the Statement of Operations, "Other Expenses (Income): Other, net" line item. The remainder of the impairment is recognized as a component of accumulated other comprehensive loss and is shown net in the company's Consolidated Statement of Stockholders' Equity.

The following is a summary of the credit loss component of the company's debt securities that have been written down for other-than-temporary-impairment (OTTI) with the credit loss component recognized in earnings and the remaining impairment loss related to all other factors recognized in accumulated other comprehensive loss:

(In millions)	
Balance at May 29, 2010	\$0.2

Due after one year through five years	7.0	7.1
Due after five years through ten years	0.1	0.1
Due after ten years	—	—
Total	\$10.9	\$11.0

There were no Investments in unrealized loss positions as of May 28, 2011.

#### 15. Financial Instruments with Off-Balance Sheet Risk

The company has periodically utilized financial instruments to manage its foreign currency volatility at the transactional level as well as its exposure to interest rate fluctuations.

##### Foreign Currency Contracts

In the normal course of business, the company enters into contracts denominated in foreign currencies. The principal foreign currencies in which the company conducts its business are the British pound sterling, euro, Canadian dollar, Japanese yen, Mexican peso, and Chinese renminbi. As of May 28, 2011, the company had outstanding, sixteen forward currency instruments designed to offset either net asset or net liability exposure that is denominated in non-functional currencies. Two forward contracts were placed in order to offset a 3.1 million euro-denominated net asset exposure and five forward contracts were placed in order to offset a 7.6 million U.S. dollar-denominated net asset exposure. One forward contract was placed to offset 0.4 million Australian dollar-denominated net asset exposure. Eight forward contracts were placed to offset a 2.4 million U.S. dollar-denominated net liability exposure.

As of May 29, 2010, the company had outstanding, nine forward currency instruments designed to offset either net asset or net liability exposure that is denominated in non-functional currencies. One forward contract was placed in order to offset a 4.1 million euro-denominated net asset exposure and three forward contracts were placed in order to offset a 5.6 million U.S. dollar-denominated net asset exposure. Four forward contracts were placed to offset a 14.0 million U.S. dollar-denominated net liability exposure and one forward contract was placed to offset a 1.6 million British pound sterling-denominated net liability exposure. The fair value of the forward currency instruments at May 28, 2011 was \$0.7 million and \$0.3 million within current assets and current liabilities, respectively. At May 29, 2010 the fair value of the forward currency instruments was a negligible amount.

##### Interest Rate Swaps

The company has used interest rate swaps in order for a portion of interest bearing debt to be variable, which matches interest expense with the company's business cycle. These swaps were fair-value hedges and qualified for hedge-accounting treatment, whereby the change in the fair value of the interest rate swap is equal to the change in value of the related hedged debt and, as a result, there is no net effect on earnings. The agreement required the company to pay floating-rate interest payments in return for receiving fixed-rate interest payments that coincide with the semi-annual payments to the debt holders at the same date. The periodic interest settlements, which occur at the same interval as the public debt securities, are recorded as interest expense.

As of May 29, 2010, the fair value of approximately \$1.2 million was reflected as an addition to current maturities of long-term debt and an offsetting addition to current assets. The floating interest rate for this agreement was based on the six-month LIBOR, set in-arrears at the end of each semi-annual period, and was estimated to be approximately 3.8 percent at May 29, 2010.

The swap arrangement effectively reduced interest expense by \$1.5 million, \$1.9 million, and \$1.2 million in fiscal 2011, fiscal 2010 and fiscal 2009, respectively. During the fourth quarter of fiscal 2011 the interest rate swap agreement expired as planned on March 15, 2011.

Total changes in current assets and liabilities	(13.5)	) 4.8	(62.8)
Total adjustments	\$20.3	\$70.8	\$23.7

Cash payments for interest and income taxes were as follows:

(In millions)	2011	2010	2009
Interest paid	\$17.7	\$17.7	\$24.1
Income taxes paid, net of cash received	\$20.3	\$14.6	\$70.4

## 17. Guarantees, Indemnifications, and Contingencies

## Product Warranties

The company provides warranty coverage to the end-user for parts and labor on products sold. The standard length of warranty is 12 years, however, this varies depending on the product classification. The company does not sell or otherwise issue warranties or warranty extensions as stand-alone products. Reserves have been established for various costs associated with the company's warranty program. General warranty reserves are based on historical claims experience and other currently available information and are periodically adjusted for business levels and other

factors. Specific reserves are established once an issue is identified with the amounts for such reserves based on the estimated cost of correction. Changes in the warranty reserve for the stated periods were as follows:

-71-

---

(In millions)	2011	2010
Accrual balance, beginning	\$16.0	\$15.4
Acquired warranty reserves	—	0.5
Accrual for warranty matters	14.5	12.1
Settlements and adjustments	(13.5	) (12.0
Accrual balance, ending	\$17.0	\$16.0

#### Other Guarantees

The company is periodically required to provide performance bonds in order to conduct business with certain customers. These arrangements are common and generally have terms ranging between one and three years. The bonds are required to provide assurances to customers that the products and services they have purchased will be installed and/or provided properly and without damage to their facilities. The performance bonds are provided by various bonding agencies and the company is ultimately liable for claims that may occur against them. As of May 28, 2011, the company had a maximum financial exposure related to performance bonds of approximately \$16.1 million. The company has no history of claims, nor is it aware of circumstances that would require it to perform under any of these arrangements and believes that the resolution of any claims that might arise in the future, either individually or in the aggregate, would not materially affect the company's financial statements. Accordingly, no liability has been recorded as of May 28, 2011 and May 29, 2010.

The company periodically enters into agreements in the normal course of business that may include indemnification clauses regarding patent/trademark infringement and service losses. Service losses represent all direct or consequential loss, liability, damages, costs and expenses incurred by the customer or others resulting from services rendered by the company, the dealer, or certain sub-contractors due to a proven negligent act. The company has no history of claims, nor is it aware of circumstances that would require it to perform under these arrangements and believes that the resolution of any claims that might arise in the future, either individually or in the aggregate, would not materially affect the company's financial statements. Accordingly, no liability has been recorded as of May 28, 2011 and May 29, 2010.

The company has entered into standby letter of credit arrangements for the purpose of protecting various insurance companies against default on the payment of certain premiums and claims. A majority of these arrangements are related to the company's wholly-owned captive insurance company. As of May 28, 2011, the company had a maximum financial exposure from these insurance-related standby letters of credit of approximately \$9.4 million. The company has no history of claims, nor is it aware of circumstances that would require it to perform under any of these arrangements and believes that the resolution of any claims that might arise in the future, either individually or in the aggregate, would not materially affect the company's financial statements. Accordingly, no liability has been recorded as of May 28, 2011 and May 29, 2010.

#### Contingencies

The company leases a facility in the United Kingdom under an agreement that expired in June 2011, and the company plans to continue to lease the facility on a month to month basis after the lease expires. Under the terms of the lease, the company is required to perform the maintenance and repairs necessary to address the general dilapidation of the facility over the lease term. The ultimate cost of this provision to the company is dependent on a number of factors including, but not limited to, the future use of the facility by the lessor and whether the company chooses and is permitted to renew the lease term. The company has estimated the cost of these maintenance and repairs to be between \$0 and \$3 million, depending on the outcome of future plans and negotiations. Based on existing circumstances, it is estimated that these costs will most likely approximate \$1.3 million, as of May 28, 2011, and was estimated to be \$1.1 million as of May 29, 2010. As a result, these amounts have been recorded as a liability reflected under the caption "Accrued Liabilities" and "Other Liabilities" for fiscal 2011 and fiscal 2010, respectively in the Consolidated Balance Sheets.

The company has a lease obligation in the U.K. until May 2014 for a facility that it has exited. Current market rates for comparable office space are lower than the rental payments owed under the lease agreement, as such, the company would remain liable to pay the difference if it were subleased. As a result, the estimated liability of \$1.7 million and \$1.5 million is reflected under the caption "Other Liabilities" in the Condensed Consolidated Balance Sheets at May 28, 2011 and May 29, 2010, respectively.

The company, for a number of years, has sold various products to the United States Government under General Services Administration ("GSA") multiple award schedule contracts. Under the terms of these contracts, the GSA is permitted to audit the company's compliance with the GSA contracts. From time to time the company has notified the GSA of known instances of non-compliance (whether favorable or unfavorable to the company) once such circumstances are identified and investigated. The company does not believe that any of the errors brought to the GSA's attention will adversely affect its relationship with the GSA. Currently there are no GSA post-award audits either scheduled or in process. Management does not expect resolution of potential future audits to have a material adverse effect on the company's Consolidated Financial Statements.

The company is also involved in legal proceedings and litigation arising in the ordinary course of business. In the opinion of management, the

outcome of such proceedings and litigation currently pending will not materially affect the company's Consolidated Financial Statements.

## 18. Operating Segments

The company aggregates its operating segments into two primary reportable segments as defined by ASC Topic 280, Segment Reporting, North American Furniture Solutions and non-North American Furniture Solutions.

Effective as of the second quarter of fiscal 2011, management has modified the company's segment reporting in order to better align with changes made in the second quarter to the organizational and management reporting structure. Specifically, the company is now reporting operations in Mexico within its non-North American Furniture Solutions operating segment. Prior year results have been revised to reflect this change.

The North American Furniture Solutions segment includes the operations associated with the design, manufacture, and sale of furniture products for work-related settings, including office, education, and healthcare environments, throughout the United States and Canada. The business associated with the company's owned contract furniture dealers is also included in the North American Furniture Solutions segment. The non-North American Furniture Solutions segment includes the operations associated with the design, manufacture, and sale of furniture products, primarily for work-related settings, for Mexico and outside of North America.

The company also reports an "Other" category consisting primarily of its North American Retail and startup businesses and certain unallocated corporate expenses. North American Home includes the operations associated with the design, manufacture and sale of furniture products for residential settings in the United States, and Canada. This category also includes restructuring and impairment costs.

The performance of the operating segments is evaluated by the company's management using various financial measures. The following is a summary of certain key financial measures for the respective fiscal years indicated:

(In millions)	2011	2010	2009

The accounting policies of the reportable operating segments are the same as those of the company, which are disclosed in further detail within Note 1 of the Consolidated Financial Statements. Additionally, the company employs a methodology for allocating corporate costs and assets to the operating segments. The underlying objective of this methodology is to allocate corporate costs according to the relative “usage” of the underlying resources and to allocate corporate assets according to the relative expected benefit. The company has determined that allocation based on relative net sales is most appropriate for all expenses. The majority of corporate costs are allocated to the operating segments; however, certain costs that are generally considered the result of isolated business decisions are not subject to allocation and are evaluated separately from the rest of the regular ongoing business operations. The restructuring and asset impairment charges of \$3.0 million, \$16.7 million, and \$28.4 million in fiscal 2011, fiscal 2010 and fiscal 2009, respectively are discussed in Note 19 of the Consolidated Financial Statements and were allocated to the “Other” category.

The company's product offerings consist primarily of office furniture systems, seating, freestanding furniture, storage and casegoods. These product offerings are marketed, distributed, and managed primarily as a group of similar products on an overall portfolio basis. The following is a summary of net sales by product category for the respective fiscal years indicated. Given that formal product line information is not available for the company as a whole, this summary is intended to represent a reasonable estimate of net sales by product category based on the best information available.

(In millions)	2011	2010	2009
Net Sales:			
Systems	\$430.3	\$349.3	\$511.6
Seating	394.3	329.7	361.1
Freestanding and storage	310.8	246.2	260.3
International <sup>(1)</sup>	383.3	290.1	365.7
Other <sup>(2)</sup>	130.5	103.5	131.3
Total	\$1,649.2	\$1,318.8	\$1,630.0

(1) The company has determined that the disclosure of international product line information is not practicable.

(2) “Other” primarily consists of miscellaneous or otherwise uncategorized product sales and service sales.

Sales by geographic area are based on the location of the customer. Long-lived assets consist of long-term assets of the company, excluding financial instruments, deferred tax assets, and long-term intangibles. The following is a summary of geographic information for the respective fiscal years indicated. Individual foreign country information is not provided as none of the individual foreign countries in which we operate are considered material for separate disclosure based on quantitative and qualitative considerations.

(In millions)	2011	2010	2009
Net Sales:			
United States	\$1,265.9	\$1,028.7	\$1,264.3
International	383.3	290.1	365.7
Total	\$1,649.2	\$1,318.8	\$1,630.0

Long-lived assets:

United States	\$151.6	\$159.7	\$162.4
International	24.0	21.6	25.0
Total	\$175.6	\$181.3	\$187.4

It is estimated that no single dealer accounted for more than 4 percent of the company's net sales in the fiscal year ended May 28, 2011. It is also estimated that the largest single end-user customer, the U.S. federal government, accounted for approximately \$226.2 million or 14 percent of the company's fiscal 2011 net sales. The 10 largest customers accounted for approximately 28 percent of net sales.

Approximately 5 percent of the company's employees are covered by collective bargaining agreements, most of whom are employees of its Nemschoff, and Herman Miller Limited (U.K.) subsidiaries.

## 19. Restructuring Charges

### 2009 Action

During the third quarter of fiscal 2009, the company executed a restructuring plan (“the 2009 Plan”) that reduced operating expenses in order to improve operating performance, profitability and further enhance productivity and efficiencies. The 2009 Plan eliminated approximately 1,400 salaried, hourly and temporary positions, primarily in the North American Furniture Solutions segment. A number of these employees were offered termination benefits, including severance and outplacement services. Additionally, the company consolidated facilities and exited leased buildings. In connection with these actions, the company recognized \$28.4 million and \$1.3 million of pre-tax charges during fiscal 2009 and fiscal 2010, respectively. The Plan was completed in the first quarter of fiscal 2011.

The following is a summary of changes in restructuring accruals during fiscal 2009, fiscal 2010, and fiscal 2011 for the 2009 Plan.

(In millions)	Total Plan Costs	Severance and Outplacement Costs	Leased Building Exit Costs
Balance as of May 31, 2008	\$—	\$—	\$—
Restructuring expenses	28.4	25.0	3.4
Cash payments	(16.8)	(16.0)	(0.8)
Adjustments	(2.0)	(2.0)	—
Balance as of May 30, 2009	9.6	7.0	2.6
Restructuring expenses	1.3	0.7	0.6
Cash payments	(9.5)	(7.4)	(2.1)
Adjustments	(0.1)	(0.1)	—
Balance as of May 29, 2010	1.3	0.2	1.1
Restructuring expenses	—	—	—
Cash payments	(1.3)	(0.2)	(1.1)
Adjustments	—	—	—
Balance as of May 28, 2011	\$—	\$—	\$—

### Manufacturing Consolidation

In May and June 2009, the company announced a plan (“the Manufacturing Consolidation Plan”) to consolidate manufacturing operations with the closure of its Integrated Metal Technologies (IMT) subsidiary in Spring Lake, Michigan and Brandrud facility in Auburn, Washington. Under this plan for the IMT closure, the company retained existing West Michigan production capacity and enhanced operational efficiency, with the majority of work and equipment move to other newer, larger facilities in the area. Relocation began during the first quarter of fiscal 2010, with final closure completed in the fourth quarter. For the Brandrud closure, the company further consolidated manufacturing operations with the transfer of substantially all of the manufacturing capabilities of Brandrud to its Nemschoff manufacturing plants. The cost for this action was \$12.6 million with approximately \$2.0 million, \$9.7 million, and \$0.9 million of these costs having been recognized in fiscal 2009, fiscal 2010, and fiscal 2011, respectively. The company does not anticipate any further significant costs for this action. The remaining accrued costs will be paid for with cash generated from operations during fiscal 2012.

The following is a summary of changes in restructuring accruals during fiscal 2010 and fiscal 2011 for the Manufacturing Consolidation Plan.

-75-

---

(In millions)	Total Plan Costs	Severance and Outplacement Costs	Leased Building Exit Costs
Balance as of May 30, 2009	\$—	\$—	\$—
Restructuring expenses	9.7	5.3	4.4
Cash payments	(5.9 )	(3.4 )	(2.5 )
Adjustments	(1.2 )	(0.4 )	(0.8 )
Balance as of May 29, 2010	2.6	1.5	1.1
Restructuring expenses	0.9	0.2	0.7
Cash payments	(3.0 )	(1.7 )	(1.3 )
Balance as of May 28, 2011	\$0.5	\$—	\$0.5

#### 2010 Action

During the fourth quarter of fiscal 2010, the company executed a restructuring plan (“the 2010 Plan”) that reduced operating expenses in order to improve operating performance, profitability and further enhance productivity. This Plan reduced our salaried workforce, primarily in North America, by approximately 70 employees. This Plan resulted in expenses of approximately \$3.2 million during fiscal 2010 and \$2.1 million during fiscal 2011. The company does not anticipate significant costs in future periods for this Plan.

The following is a summary of changes in restructuring accruals during fiscal 2010 and fiscal 2011 for the 2010 Plan.

(In millions)	Total Plan Costs	Severance and Outplacement Costs	Leased Building Exit Costs
Balance as of May 30, 2009	\$—	\$—	\$—
Restructuring expenses	3.2	2.9	0.3
Cash payments	(0.1 )	(0.1 )	—
Balance as of May 29, 2010	3.1	2.8	0.3
Restructuring expenses	2.1	1.5	0.6
Cash payments	(4.5 )	(4.1 )	(0.4 )
Adjustments	(0.2 )	0.1	(0.3 )
Balance as of May 28, 2011	\$0.5	\$0.3	\$0.2

In addition to the restructuring expenses noted above, the 2010 action included an impairment of certain assets totaling \$2.5 million that were related to our Convia line of business. These assets related to products that we determined had no future revenue stream to the company.

These charges have been reflected separately as restructuring expenses in the Consolidated Statements of Operations. Refer to Note 18 of the Consolidated Financial Statements for a discussion of the Plan's impact on the company's reportable operating segments.

## 20. Quarterly Financial Data (Unaudited)

Set forth below is a summary of the quarterly operating results on a consolidated basis for the years ended May 28, 2011, May 29, 2010, and May 30, 2009.

(In millions, except per share data)		First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2011	Net sales	\$380.7	\$412.2	\$414.8	\$441.5
	Gross margin	123.6	135.8	133.0	145.7

	Gross margin	107.5	110.8	104.8	105.4
	Net earnings attributable to controlling interest <sup>(1)</sup>	8.4	9.6	8.3	2.1
	Earnings per share-basic	0.15	0.17	0.15	0.04
	Earnings per share-diluted	0.14	0.17	0.12	—
2009	Net sales	\$479.1	\$476.6	\$354.4	\$319.9
	Gross margin	162.4	155.4	105.9	104.0
	Net earnings attributable to controlling interest	33.4	32.6	(5.2	) 7.2
	Earnings (loss) per share-basic <sup>(1)</sup>	0.60	0.61	(0.10	) 0.14
	Earnings (loss) per share-diluted <sup>(1)</sup>	0.60	0.60	(0.10	) 0.14

(1) The sum of the quarters does not equal the annual balance reflected in the Consolidated Statements of Operations due to rounding associated with the calculations on an individual quarter basis.

Management's Report on Internal Control over Financial Reporting

To the Board of Directors and Stockholders of Herman Miller, Inc.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). The internal control over financial reporting at Herman Miller, Inc., is designed to provide reasonable assurance to our stakeholders that the financial statements of the company fairly represent its financial condition and results of operations.

Under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, we conducted an assessment of the effectiveness of our internal control over financial reporting as of May 28, 2011, based on the framework in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, our management believes the company's internal control over financial reporting was effective as of May 28, 2011.

Ernst & Young LLP has issued an attestation report on the effectiveness of our internal control over financial reporting, which appears on page 79.

Report of Independent Registered Public Accounting Firm on Internal Control over Financial Reporting

To the Board of Directors and Stockholders of Herman Miller, Inc.

We have audited Herman Miller Inc.'s internal control over financial reporting as of May 28, 2011, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Herman Miller, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Herman Miller, Inc. maintained, in all material respects, effective internal control over financial reporting as of May 28, 2011, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the fiscal 2011 consolidated financial statements of Herman Miller, Inc., and our report dated July 26, 2011 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP  
Grand Rapids, Michigan  
July 26, 2011

Report of Independent Registered Public Accounting Firm on Financial Statements

To the Board of Directors and Stockholders of Herman Miller, Inc.

We have audited the accompanying consolidated balance sheets of Herman Miller, Inc. as of May 28, 2011 and May 29, 2010, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the three fiscal years in the period ended May 28, 2011. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Herman Miller, Inc. at May 28, 2011 and May 29, 2010, and the consolidated results of their operations and their cash flows for each of the three fiscal years in the period ended May 28, 2011, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Herman Miller, Inc.'s internal control over financial reporting as of May 28, 2011, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated July 26, 2011 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP  
Grand Rapids, Michigan  
July 26, 2011

Item 9 CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

As defined in Item 304 of Regulation S-K, there have been no changes in, or disagreements with, accountants during the 24-month period ended May 28, 2011.

Item 9A CONTROLS AND PROCEDURES

- Evaluation of Disclosure Controls and Procedures. Under the supervision and with the participation of management, the company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of May 28, 2011, and have concluded that as of that date, the company's disclosure controls and procedures were effective.
- (a) Management's Annual Report on Internal Control Over Financial Reporting and Attestation Report of the Independent Registered Public Accounting Firm. Refer to Item 8 for "Management's Report on Internal Control Over Financial Reporting."
  - (b) Changes in Internal Control Over Financial Reporting. There were no changes in the company's internal control over financial reporting during the fourth quarter ended May 28, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B OTHER INFORMATION - None

## PART III

### Item 10 DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

#### Directors, Executive Officers, Promoters and Control Persons

Information relating to directors and director nominees of the registrant is contained under the caption “Director and Executive Officer Information” in the company's definitive Proxy Statement, relating to the company's 2011 Annual Meeting of Stockholders, and the information within that section is incorporated by reference. Information relating to Executive Officers of the company is included in Part I hereof entitled “Executive Officers of the Registrant.”

#### Compliance with Section 16(a) of the Exchange Act

Information relating to compliance with Section 16(a) of the Exchange Act is contained under the caption “Section 16(a) Beneficial Ownership Reporting Compliance” in the company's definitive Proxy Statement, relating to the company's 2011 Annual Meeting of Stockholders, and the information within that section is incorporated by reference.

#### Code of Ethics

The company has adopted a Code of Conduct that serves as the code of ethics for the executive officers and senior financial officers and as the code of business conduct for all directors and employees of the registrant. This code is made available free of charge through the “Investors” section of the company's internet website at [www.hermanmiller.com](http://www.hermanmiller.com). Any amendments to, or waivers from, a provision of this code also will be posted to the company's internet website.

#### Corporate Governance

Information relating to the identification of the audit committee, audit committee financial expert, and director nomination procedures of the registrant is contained under the captions “Board Committees” and “Corporate Governance and Board Matters — Director Nominations” in the company's definitive Proxy Statement, relating to the company's 2011 Annual Meeting of Stockholders, and the information within these sections is incorporated by reference.

### Item 11 EXECUTIVE COMPENSATION

Information relating to management remuneration is contained under the captions “Compensation Discussion and Analysis,” “Summary Compensation Table,” “Grants of Plan-Based Awards,” “Outstanding Equity Awards at Fiscal Year-End,” “Option Exercises and Stock Vested,” “Pension Benefits,” “Nonqualified Deferred Compensation,” “Potential Payments Upon Termination, Death, Disability, Retirement or Change in Control,” “Director Compensation,” “Director Compensation Table,” and “Compensation Committee Interlocks and Insider Participation” in the company's definitive Proxy Statement, relating to the company's 2011 Annual Meeting of Stockholders, and the information within these sections is incorporated by reference. The information under the caption “Compensation Committee Report” is incorporated by reference, however, such information is not deemed filed with the Commission.

### Item 12 SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The sections entitled “Voting Securities and Principal Stockholders,” “Director and Executive Officer Information,” and “Equity Compensation Plan Information” in the definitive Proxy Statement, relating to the company's 2011 Annual

Meeting of Stockholders, and the information within these sections is incorporated by reference.

Report of Independent Registered Public Accounting Firm on Financial Statement Schedule

To the Board of Directors and Stockholders of Herman Miller, Inc.

We have audited the consolidated financial statements of Herman Miller, Inc. and subsidiaries as of May 28, 2011 and May 29, 2010, and for each of the three fiscal years in the period ended May 28, 2011, and have issued our report thereon dated July 26, 2011 (included elsewhere in this Form 10-K). Our audits also included the financial statement schedule listed in Item 15(a) of this Form 10-K. This schedule is the responsibility of the company's management. Our responsibility is to express an opinion based on our audits.

In our opinion, the financial statement schedule referred to above, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

/s/ Ernst & Young LLP

Grand Rapids, Michigan  
July 26, 2011

## SCHEDULE II — VALUATION AND QUALIFYING ACCOUNTS

(In millions)

Column A Description	Column B Balance at beginning of period	Column C Charges to expenses or net sales	Column D Deductions <sup>(3)</sup>	Column E Balance at end of period
Year ended May 28, 2011:				
Accounts receivable allowances — uncollectible accounts <sup>(1)</sup>	\$4.0	\$0.1	\$—	\$4.1
Accounts Receivable allowances — credit memo <sup>(2)</sup>	\$0.4	\$0.3	\$(0.3)	) \$0.4
Allowance for possible losses on notes receivable	\$0.4	\$—	\$(0.1)	) \$0.3
Valuation allowance for deferred tax asset	\$11.0	\$1.8	\$(1.2)	) \$11.6
Year ended May 29, 2010:				
Accounts receivable allowances — uncollectible accounts <sup>(1)</sup>	\$6.9	\$0.3	\$(3.2)	) \$4.0
