ALLETE Form 8-K dated September 21, 2004

### NOTE 1. PRO FORMA PRESENTATION

The spin-off of ADESA will be accounted for as a discontinued operation under Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," when ALLETE issues financial statements subsequent to the consummation of the spin-off transaction. The unaudited pro forma financial information reflects ADESA as a discontinued operation and, accordingly, ADESA's net assets and results of operations are excluded from the continuing operations of ALLETE. The unaudited pro forma balance sheet as of June 30, 2004 presents the historical consolidated balance sheet of ALLETE adjusted to reflect the spin-off of ADESA as if it had occurred on June 30, 2004.

### NOTE 2. ACCOUNTING FOR SPIN-OFF

The pro forma adjustments reflect the distribution of shares of ADESA's common stock to ALLETE shareholders. The distribution was made from ALLETE's retained earnings to the extent of ADESA's undistributed earnings (\$347.1 million at June 30, 2004) with the remainder made from common stock (\$594.5 million at June 30, 2004).

Employee stock options outstanding at the date of the spin-off will be converted to reflect the spin-off and one-for-three reverse stock split. This conversion will be done to preserve the noncompensatory nature of the options under Financial Accounting Standards Board Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation."

### NOTE 3. REVERSE STOCK SPLIT

ALLETE's one-for-three reverse stock split of its common stock was effective September 20, 2004 after the spin-off of ADESA. The following presents a comparison of pre- and post-split pro forma basic and diluted average shares of common stock and earnings per share of common stock.

ALLETE Form 8-K dated September 21, 2004

### SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, ALLETE is hereby filing cautionary statements identifying important factors that could cause ALLETE's actual results to differ materially from those projected in forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) made by or on behalf of ALLETE in this Current Report on Form 8-K, in presentations, in response to questions or otherwise. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, through the use of words or phrases such as "anticipates," "believes," "estimates," "expects," "intends," "plans," "projects," "will likely result," "will continue" or similar expressions) are not statements of historical facts and may be forward-looking.

Forward-looking statements involve estimates, assumptions, risks and uncertainties and are qualified in their entirety by reference to, and are accompanied by, the following important factors, which are difficult to predict, contain uncertainties, are beyond our control and may cause actual results or outcomes to differ materially from those contained in forward-looking statements:

- ALLETE's ability to successfully implement our strategic objectives;
- war and acts of terrorism;
- prevailing governmental policies and regulatory actions, including those of the United States Congress, state legislatures, the Federal Energy Regulatory Commission, the Minnesota Public Utilities Commission, the Florida Public Service Commission, the Public Service Commission of Wisconsin, and various county regulators and city administrators, about allowed rates of return, financings, industry and rate structure, acquisition and disposal of assets and facilities, operation and construction of plant facilities, recovery of purchased power and capital investments, and present or prospective wholesale and retail competition (including but not limited to transmission costs);
- unanticipated effects of restructuring initiatives in the electric industry;
- economic and geographic factors, including political and economic risks;
- changes in and compliance with environmental and safety laws and policies;
- weather conditions;
- natural disasters;
- wholesale power market conditions;
- population growth rates and demographic patterns;
- the effects of competition, including competition for retail and wholesale customers;
- pricing and transportation of commodities;
- changes in tax rates or policies or in rates of inflation;
- unanticipated project delays or changes in project costs;
- unanticipated changes in operating expenses and capital expenditures;
- capital market conditions;
- competition for economic expansion or development opportunities;
- ALLETE's ability to manage expansion and integrate acquisitions; and
- the outcome of legal and administrative proceedings (whether civil or criminal) and settlements that affect the business and profitability of ALLETE.

Edgar Filing: ALLETE INC - Form 8-K

Additional disclosures regarding factors that could cause ALLETE's results and performance to differ from results or performance anticipated by this report are discussed in Item 7 under the heading "Factors that May Affect Future Results" beginning on page 46 of ALLETE's 2003 Form 10-K. Risk factors associated with our Automotive Services business are no longer applicable to ALLETE as that business was spun-off as of September 20, 2004. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which that statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time and it is not possible for management to predict all of these factors, nor can it assess the impact of each of these factors on the businesses of ALLETE or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Readers are urged to carefully review and consider the various disclosures made by ALLETE in its 2003 Form 10-K and in ALLETE's other reports filed with the Securities and Exchange Commission that attempt to advise interested parties of the factors that may affect ALLETE's business.
