Notes to Financial Statements

1. Description of the Plan

The lock\line, LLC 401(k) Retirement Plan (the "Plan") is a contributory, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

Effective June 11, 2004, the Plan was merged into DST Systems, Inc. 401(k) Profit Sharing Plan (the "DST Plan"). Accordingly, the accompanying report does not include any financial information for net assets available for plan benefits at June 11, 2004, due to the merger.

Sponsor
The Plan sponsor is lock\line, LLC (the "Sponsor"), a wholly-owned subsidiary of DST Systems, Inc. ("DST"). Certain of its subsidiaries and affiliates

participate in the plan.

Trustee
As of December 31, 2003, the trustee of the Plan was UMB Bank, n.a. and as of June 11, 2004, the trustee of the Plan was Marshall & Ilsley Trust Company N.A. The Trustees hold and administer all assets of the Plan in accordance with the provisions of the Plan agreement.

Administration of the Plan
An advisory committee (the "Advisory Committee"), which consists of members who are selected by the Board of Directors of DST, has full power, authority and responsibility to control and manage the operations and administration of the Plan. All expenses of operating the Plan may be paid out of Plan assets, except to the extent the Sponsor decides to pay these expenses. For the period ended June 11, 2004, and the year ended December 31, 2003, the Sponsor paid Plan expenses of $4,383 and $11,930, respectively.

Eligibility
All employees of the Sponsor who were employed prior to July 1, 2002, and who were not members of a collective bargaining unit or reclassified employees were eligible to participate in the Plan on the Plan entry date. The Plan entry date is the later of the first day of the month following the date the employee commences service or the date the employee attains age 20. After December 31, 2002, no new participants were allowed into the Plan. Beginning January 1, 2003, new participants were enrolled in the DST Systems, Inc. 401(k) Profit Sharing Plan.

Contributions and Vesting
Effective January 1, 2003, all invested balances in the Plan were fully vested and no further contributions were permitted. Participant and Sponsor contributions under the Plan after December 31, 2002, were made to the DST Systems, Inc. 401(k) Profit Sharing Plan and are subject to its terms and conditions.

Participant accounts
Each participant's account was credited with the participant's contributions, matching contributions, profit sharing contributions and rollover contributions. Each participant's account is credited with an allocation of Plan earnings or losses. Allocations of earnings or losses are based on account balances. Discretionary contributions were allocated to participant accounts based on the proportion which the participant's eligible compensation bore to the aggregate eligible compensation of all participants for the period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4

Investment options
Participants may direct their contributions into DST Common Stock ($0.01 par value) or any number of the investment options as selected by the Advisory Committee. The investment options contain different degrees of risks. Participants should refer to the respective fund prospectus for a more complete description of the investment objectives of each fund. The Advisory Committee reserves the right to change the available investment options from time to time.

Participants may change their investment options daily.

Plan participants
The following summarizes the number of participants by investment option as of June 11, 2004 and December 31, 2003:

Distribution of benefits
Benefit distributions generally will be made in the event of retirement, death, disability, resignation or dismissal. A participant's normal retirement age is 59 1/2.

Balances not exceeding $5,000 will be automatically distributed upon termination as a cash lump sum as soon as administratively practicable following termination of employment. Balances exceeding $5,000 (excluding rollover contributions and related earnings or losses) will be distributed upon participant election as soon as administratively practicable but no later than April 1 of the Plan year following the Plan year in which age 70 1/2 is attained. Such distributions may be elected as a lump sum or paid in monthly, quarterly or annual installments. Distributions shall be made in cash or, at the option of the Participant, in cash plus the number of whole shares of DST Common Stock allocated to the Participant's account.

Unless the participant otherwise elects, distributions begin no later than the 60th day after the close of the Plan year in which a participant reaches normal retirement age or celebrates their 10th anniversary as a Plan member (whichever is later). Participants under the age of 62 with balances exceeding $5,000 (excluding rollover contributions and related earnings or losses) must consent to any distribution.

Upon death, all sums credited to the participant's account will be paid to the beneficiary or beneficiaries designated by the participant.

Distributions may also be made in the event of financial hardship of the participant. Certain restrictions apply.

Participant loans
Participants may borrow the lesser of $50,000 or 50% of their vested accounts (subject to certain Plan and Internal Revenue Service limitations). Generally, loans must be repaid within five years. Loans bear a fixed rate of interest, which is set at loan origination using the Prime rate as publicly announced by the Trustee plus 1%.

Plan termination
The Plan was merged into the DST Plan as of June 11, 2004 and, therfore, has ceased to exist as a separate plan. The Sponsor believes the Plan (as merged) will continue without interruption; however, it reserves the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in any unvested balances from Sponsor contributions and their respective account balances will be distributed in accordance with the Plan.

2. Significant Accounting Policies

Basis of accounting
The accompanying financial statements are presented on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes in net assets available for plan benefits. Actual results could differ from those estimates.

Cash and cash equivalents
Short-term liquid investments with a maturity of three months or less are considered cash equivalents. Due to the short-term nature of these investments, carrying value approximates market value.

Investment valuation and security transactions
Investments are recorded at fair value. Investments in mutual funds and DST Common Stock are valued at net asset value representing the value at which shares of the fund may be purchased or redeemed. Unrealized gains and losses are recognized in the year in which they occur. Loans are valued at the current amount due from participants.

Contributions
Contributions are recognized in the year to which they relate.

6

Accounting for obligations for benefit payments
The Plan does not record a liability relating to the obligations for benefit payments. For the period ended June 11, 2004, and the year ended December 31, 2003, amounts allocated to participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment but not yet paid prior to June 11, 2004, and December 31, 2003, respectively.

Income tax status of the Plan
The Internal Revenue Service has determined and informed the Sponsor by a letter dated August 30, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the Advisory Committee and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Reclassifications

Previously reported amounts for the prior year have in some instances been reclassified to conform to the current year presentation. These reclassifications had no effect on net assets available for benefits.

3. Plan Investments
