Item 2.02 - Results of Operations and Financial Condition.

Edgar Filing: NORTHEAST UTILITIES - Form 8-K

On January 25, 2005, Northeast Utilities (the "Company") issued a news release announcing that it will restate its second and third quarter 2004 financial statements and is lowering its previous 2004 earnings guidance as a result of a determination that mark-to-market accounting, rather than accrual accounting, is the correct accounting for certain natural gas contracts established to mitigate the risk of electricity purchased in anticipation of winning certain levels of wholesale electric load in New England.

The information in Item 2.02 of this Form 8-K and the Exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 (the "Exchange Act") or otherwise subject to the liabilities of the section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such filing.

Item 4.02(a) - Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On January 25, 2005, the Company issued a news release announcing that it will restate its second and third quarter 2004 financial statements and is lowering its previous 2004 earnings guidance as a result of a determination that mark-to-market accounting, rather than accrual accounting, is the correct accounting for certain natural gas contracts established to mitigate the risk of electricity purchased in anticipation of winning certain levels of wholesale electric load in New England. Under mark-to-market accounting, changes in the fair value of the natural gas contracts are recorded in earnings currently, rather than as the natural gas is delivered, as under accrual accounting. The Company has concluded that its use of accrual accounting for those natural gas contracts in the second and third quarters of 2004 was not correct and will mark them to market when it restates results from those quarters and reports year-end 2004 results.

The Company's decision is based on its belief that adopting mark-to-market accounting treatment for the natural gas contracts is the most appropriate method for dealing with this complex subject. The Company's decision to adopt mark-to-market accounting and the decision to restate the second and third quarter 2004 financial statements was made on January 24, 2005 with the concurrence of the Company's independent auditor, Deloitte & Touche LLP, and the approval of the Audit Committee of the Company's Board of Trustees.
