Section 8.

Other Events

Item 8.01.

Other Events.

On January 31, 2011, the Massachusetts Department of Public Utilities (DPU) issued a decision (Decision) on the request by Western Massachusetts Electric Company (WMECO or the Company) for an increase in electric distribution rates. WMECO is a wholly-owned subsidiary of Northeast Utilities.

In the Decision, the DPU approved:

an increase in annual distribution revenues of \$16.8 million, effective February 1, 2011, subject to the DPU s approval of a compliance filing;

an allowed return on equity (ROE) of 9.6 percent;

a decoupling mechanism with no inflation adjustment;

an inclining block rate structure pursuant to which residential non-heating customers using more than 600 kilowatt hours per month will be billed at a higher rate;

recovery of certain active hardship account balances; and

recovery of certain storm costs over five years, subject to further proceedings.

In its filing with the DPU on July 16, 2010, WMECO requested a \$28.4 million increase in annual distribution revenues and an allowed ROE of 10.5 percent. The DPU did not approve WMECO's request for rate recovery of increased reliability infrastructure investment averaging approximately \$20 million per year.

A copy of the Decision can be found on the [Rate Case Updates](#) link on the [Investors](#) page of Northeast Utilities website at www.nu.com. For further information on this matter, reference is made to Northeast Utilities' and WMECO's combined Quarterly Report on Form 10-Q for the quarter ended September 30, 2010, under the caption [Management's Discussion and Analysis of Financial Condition and Results of Operation](#) [Financial Condition and Business Analysis](#) [Regulatory Developments and Rate Matters](#).
