Report of Independent Registered Public Accounting Firm

Plan Administrator  
Bar Harbor Bankshares 401(k) Plan

We have audited the accompanying statement of net assets available for benefits of Bar Harbor Bankshares 401(k) Plan (the Plan) as of December 31, 2003, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the plan as of December 31, 2003, and the changes in net assets available for benefits for the year then ended in conformity with U.S generally accepted accounting principles.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BAR HARBOR BANKSHARES 401(k) PLAN

**Notes to Financial Statements**

**December 31, 2003**

**1. Description of Plan**

The following description of the Bar Harbor Bankshares (the Company or the Plan Sponsor) 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) **General**

The Plan is a defined contribution plan covering all employees of the Company who have achieved the age of 20-1/2. There is no service requirement for eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) **Contributions**

Each year, participants may contribute up to 50% (limited to regulatory ceilings) of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (limited to regulatory

ceilings). Participants may also contribute amounts representing distributions from other qualified defined benefit, IRA, or defined contribution plans. Participants direct the investment of their contributions into investment options offered by the Plan. The Plan currently offers twelve investment options for participants. The Company matches 50% up to the first 3% of each participant's salary deferrals, and 25% on deferrals from 3% to 6% of each participant's salary that a participant contributes to the Plan. The Company match is 100% vested immediately and invested in the same manner as the participant has directed for their contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and, if provided, are vested immediately and invested as directed by the participant. Additional contributions of \$260,653 were made in 2003.

(c) **Participants' Accounts**

Each participant's account is credited with the participant's contribution, allocations of the Company's match, and profit sharing contributions along with an allocation, based upon a participant's account balance, of any earnings or losses. Plan expenses are paid by the Company. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account.

(d) **Vesting**

Participants are vested immediately in their personal contributions and the Company's contributions.

(e) **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in all funds represented by their account balance.

(f) **Payment of Benefits**

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account or in annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants with balances in their accounts of less than \$5,000 must take a lump sum distribution.

(g) **Participant Loans**

Participants may borrow from their fund accounts the lesser of \$50,000 or 50% of the account balance. Participants may carry up to two loans secured by the balance in their account. Loans are written with an interest rate of 1% over Prime and existing loans presently range from 5% to 10.25%. Principal and interest is paid according to the amortization schedule through biweekly payroll deduction.

(h) **Risk and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate and markets risks. Due to the level of risk associated with investment securities, it is at least reasonably possible the changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Summary of Accounting Policies

(a) Basis of Presentation

The Plan's financial statements have been prepared on an accrual basis of accounting. Benefits are recorded when paid. Cash equivalents are generally funds held in money market accounts.

(b) Investments Held in Trust

The Plan's investments (including money market accounts) are valued on a daily basis, using established market values. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

(c) Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions affecting the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investments

Investments that represent 5% or more of the net assets available for benefits at December 31, 2003, are as follows:

Money market funds:	
JP Morgan Premium Money Market Fund	\$ 551,833

Common stock of Bar Harbor Bankshares	\$ 216,874
	\$1,057,755

**4. Income Tax Status**

Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

**5. Party-in-Interest Transactions**

Shares of common stock issued by the Company, Bar Harbor Bankshares, represent certain Plan Investments. The decision to invest in Company stock is voluntary on the part of participants. These transactions are party-in-interest transactions. Senior officers are prohibited (and operationally blocked) from purchasing, selling, or reallocating their positions during times of established blackouts or while in possession of insider information.
