-

## SECTION 2 – FINANCIAL INFORMATION

### Item 2.02 Results of Operations and Financial Condition

On April 29, 2011, NextEra Energy, Inc. issued a press release announcing first quarter 2011 earnings for NextEra Energy, Inc. and Florida Power & Light Company. A copy of the press release is attached as Exhibit 99, which is incorporated herein by reference.

### Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On April 27, 2011, NextEra Energy Capital Holdings, Inc. (Capital Holdings) and an indirect wholly-owned subsidiary of NextEra Energy Resources, LLC (NextEra Energy Resources) (collectively, the Borrowers) entered into a €170 million principal amount (approximately US \$250 million) variable rate revolving loan agreement (the Revolving Loan Agreement) to finance a portion of the costs associated with constructing two 49.9 megawatt (mw) thermal solar plants and related facilities in Spain (the Spain Solar Project). Capital Holdings is a direct wholly-owned subsidiary of NextEra Energy, Inc. (NextEra Energy), and the direct parent company of NextEra Energy Resources. Borrowings under the Revolving Loan Agreement have a maturity date of April 2014 and interest is based on a Euro Interbank Offered Rate (EURIBOR) plus a specified margin, payable monthly or quarterly depending on the interest period.

In addition, on April 28, 2011, two indirect wholly-owned subsidiaries of NextEra Energy Resources (collectively, the Project Borrowers) entered into two senior secured limited-recourse variable rate loan agreements (collectively, Project Loan Agreements), one loan agreement to finance a further portion of the costs associated with constructing the Spain Solar Project (construction loan), and the second loan agreement to finance ongoing value added tax payments associated with the construction of the Spain Solar Project (VAT loan).

The construction loan agreement provides for approximately €589 million principal amount (approximately US \$875 million) in borrowings with a maturity date of December 2030 and interest payable based on EURIBOR plus a specified margin. Interest and principal on the construction loan is payable semi-annually beginning in June 2014. Concurrent with executing the construction loan agreement, several interest rate swaps were entered into to hedge against interest rate movements with respect to a portion of the projected interest payments on the construction loan, with an interest rate cap to hedge the remaining portion of the projected interest payments. Approximately €105 million (approximately US \$155 million) of the funding commitment available under the construction loan agreement was borrowed on April 28, 2011, with the remainder anticipated to be borrowed on a monthly basis through the completion of construction of the Spain Solar Project. The VAT loan agreement provides for €40 million (approximately US \$60 million) in borrowings with a maturity date of no later than April 2015 and interest payable semi-annually based on EURIBOR plus a specified margin. Approximately €8 million (approximately US \$12 million) of the funding commitment available under the VAT loan agreement was borrowed on April 28, 2011. The Project Loan Agreements are secured by security agreements and pledges covering certain of the Project Borrowers' assets and a pledge of the ownership interest in the Project Borrowers.

As a precondition to borrowing under the terms of the Revolving Loan Agreement and the Project Loan Agreements, among other things, NextEra Energy's ratio of funded debt to total capitalization must not exceed a stated ratio. The Revolving Loan Agreement and the Project Loan Agreements contain default and related acceleration provisions for the failure to make required payments, failure to comply with certain covenants (including, for the Revolving Loan Agreement, a requirement that NextEra Energy's ratio of funded debt to total capitalization must not exceed the specified ratio and, for the Project Loan Agreements, a requirement that the Project Borrowers must complete

construction of the Spain Solar Project by a certain date), certain bankruptcy-related events, and other actions by the Borrowers, the Project Borrowers or other parties as specified in the loan agreements.

The debt payment obligations under the Revolving Loan Agreement and, until certain obligations or conditions related to the Spain Solar Project are met, under the Project Loan Agreements and any related interest rate hedges are guaranteed by NextEra Energy and Capital Holdings. The Capital Holdings guarantee contains default and acceleration provisions relating to, among other things, NextEra Energy's ratio of funded debt to total capitalization exceeding a specified ratio. The US dollar amounts for the respective loans presented above are based on the conversion rate as of the date of closing.

SECTION 9 – FINANCIAL STATEMENTS AND EXHIBITS

Item 9.01 Financial Statements and Exhibits

(d) Exhibits.

The following exhibit is being furnished pursuant to Item 2.02 herein.
