## CVD EQUIPMENT CORPORATION NOTE TO FINANCIAL STATEMENTS FOR THE QUARTER ENDING MARCH 31, 2003

### BASIS OF FINANCIAL STATEMENTS

The financial data is subject to year end audit and does not claim to be a complete presentation since note disclosure under generally accepted accounting procedures is not included. Note disclosures required under generally accepted accounting procedures are included in the Company's audited financial statements filed as part of Form 10-KSB for the year ended December 31, 2002. Form 10-QSB should be read in conjunction with these financial statements.

The results of operations for the three months are not necessarily indicative of those for the full year. In the opinion of management, the accompanying unaudited financial statements contain all adjustments necessary to fairly present the financial position and the results of operation for the periods indicated.

3

### MANAGEMENT'S DISCUSSION

#### INTRODUCTION

Statements contained in this Report on Form 10-QSB that are not historical facts are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, including without limitation, statements regarding industry trends, strategic business development, pursuit of new markets, competition, results from operations, and are subject to the safe harbor provisions created by that statute. A forward-looking statement may contain words such as "intends", "plans", "anticipates", "believes", "expect to", or words of similar import. Management cautions that forward-looking statements are subject to risks and uncertainties that could cause the Company's actual results to differ materially from those projected. These risks and uncertainties include, but are not limited to, marketing success, product development, production, technological difficulties, manufacturing costs, and changes in economic conditions in the markets the Company serves. The Company undertakes no obligation to release revisions to forward-looking statements to reflect subsequent events, changed circumstances, or the occurrence of unanticipated events.

#### FORWARD LOOKING STATEMENTS

Certain statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations constitute "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance, or achievements expressed or implied by such forward looking statements. These forward looking statements were based on various factors and were derived utilizing numerous important assumptions and other important factors that could cause actual results to differ materially from those in the forward looking statements. Important assumptions and other factors that could cause actual results to differ materially from those in the forward looking statements, include, but are not limited to: competition in the Company's existing and potential future

## Edgar Filing: CVD EQUIPMENT CORP - Form 10QSB

product lines of business; the Company's ability to obtain financing on acceptable terms if and when needed; uncertainty as to the Company's future profitability, uncertainty as to the future profitability of acquired businesses or product lines, uncertainty as to any future expansion of the company. Other factors and assumptions not identified above were also involved in the derivation of these forward looking statements, and the failure of such assumptions to be realized as well as other factors may also cause actual results to differ materially from those projected. The Company assumes no obligation to update these forward looking statements to reflect actual results, changes in assumptions or changes in other factors affecting such forward looking statements.

### REVENUE RECOGNITION

CVD recognizes and identifies on its financial statements, revenue on a percent complete methodology for contracts falling under SOP 81-1 and recognizes revenues on a completed contract methodology for contracts falling under SAB 101. CVD feels this is the most accurate and consistent methodology to meet the requirements of the two regulations.

7

ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
THREE MONTHS ENDED MARCH 31, 2003

REVENUE

An increase in volume resulted in first quarter of 2003 revenue being \$3,627,137, a 92% increase from first quarter of 2002 revenue of \$1,889,919.

COSTS AND EXPENSES

## Edgar Filing: CVD EQUIPMENT CORP - Form 10QSB

The cost of revenue increased to \$2,654,285 in first quarter of 2003 as compared to \$1,249,316 in first quarter of 2002. Of this \$1,404,969 increase, approximately \$1,070,000 is attributed to material, \$9,000 to freight in, \$183,000 to salaries, \$24,000 to utilities and \$18,000 to real estate taxes.

Selling and shipping expenses increased to \$353,993 in first quarter of 2003 from \$175,402 in first quarter of 2002. Of this \$178,591 increase, approximately \$155,000 is attributed to commissions and \$31,000 to freight out expense, which is offset by a decrease of \$10,000 to advertising expense.

General and Administrative expenses increased to \$580,498 in first quarter of 2003 from \$494,226 in first quarter of 2002. Of this \$86,272 increase, approximately \$90,000 to salaries, \$5,000 to travel expense and \$6,300 to depreciation, which is offset by a decrease of \$7,600 to legal fees and \$9,300 to consulting fees.

Interest expense increased by \$39,967 from \$23,002 in first quarter of 2002 to \$62,969 in first quarter of 2003, because the company's average outstanding debt increased, as a result of the mortgage on the new building purchased in March 2002.

Other income increased by \$51,488 from first quarter of 2002 to first quarter of 2003. Of this increase, \$64,000 is attributed to collection of accounts receivable exceeding the \$369,000 booked as part of the purchase of the assets.

### LIQUIDITY AND CAPITAL RESOURCES

By the end of the first quarter of 2003, the Company's cash position increased to \$371,708 from \$323,537 at the beginning of the year. The increase in cash is mainly attributed to the daily operating activities.

At the end of the first quarter of 2003, the Company's account receivable position increased to \$2,500,692 from \$1,852,794 at the beginning of the year. This increase was attributable to timing of customer payments and billings.

At the close of the first quarter of 2003, the Company's backlog decreased to approximately \$1,827,563 from approximately \$3,816,877 at the beginning of the year. This decrease is mainly attributed to shipments delayed from the fourth quarter of 2002 to the first quarter of 2003. This delay resulted from the reduction in productivity of the CVD and Conceptronic divisions due

8

to their relocation to the new facility in the fourth quarter of 2002.

The Company believes that its cash and cash equivalents, cash flow from operations and available credit facilities will be sufficient to meet its working capital and investment requirements for the next twelve months. However, future growth, including potential acquisitions, may require additional funding, and from time to time the Company may need to raise capital through additional equity or debt financing.
