YEARS ENDED DECEMBER 31, 2009, 2008 AND 2007
(Expressed in Saudi Riyals)

1. PLANS DESCRIPTION AND RELATED MATTERS

The following brief description of the Employee Savings and Thrift Plans for Modern Industries Company (Dammam) and Modern Products Company, which are centrally administered as the Savings and Thrift Plans (Saudi Arabia) of The Procter & Gamble Company (the “Plans”), is provided for general information purposes only. Participants should refer to each plan agreement for more complete information.

The Plans are not subject to any provisions of the United States Employee Retirement Income Security Act of 1974, nor are they qualified under the United States Internal Revenue Code Section 401(a).

Trustees

The Trustees of the Plans include the chairman of Modern Industries Company (Dammam) and Modern Products Company (collectively, the “Companies”) and nominated managers of the Companies.

Eligibility

Any permanent employee who has been on the payrolls of the Companies for more than 12 months is eligible to participate in the Plans.

Member’s accounts

An Employee Account and a Company Account are maintained for each member. The Employee Account includes a member’s contributions, decreased by all withdrawals and increased by all repayments of withdrawals. The Company Account includes the total contributions made by the Companies, which were credited to the member’s account in accordance with the terms of the Plans. Profits on bank deposits and net dividends are credited to the Employee Account.

Employee contributions

Basic deductions of 5% of base salary are contributed monthly by the members. The member has the option to invest these contributions in one of the following investment programs offered by the Plans:

- Invest the full amount to purchase The Procter & Gamble Company (“P&G”) securities.
 - Invest the full amount in bank deposits.
 - Invest 50% of the amount to purchase P&G securities, and 50% in bank deposits.

The numbers of participating employees under each of the aforementioned programs at December 31, 2009 were 257, 75 and 9 (2008: 255, 75 and 12; 2007: 195, 42 and 61), respectively. Members may elect to contribute an additional 1% to 10% of their monthly salary. These additional contributions are not matched by the Companies and can only be

invested in P&G securities.

YEARS ENDED DECEMBER 31, 2009, 2008 AND 2007

Companies' contributions

The Companies credit each member with an amount ranging from 25% to 100% of the amount contributed by the employee, depending on the member's length of continuous service, with the rate reaching 100% after ten years of continuous service.

Earnings

Any occurrence of income from the net dividends earned and credits from forfeitures are utilized to purchase more P&G securities. These earnings are allocated on a pro-rata basis to the existing members based on the prior month-end balance of the Member's accounts.

Commission earned from bank deposits is allocated amongst the members of the Plans in proportion to their investments in bank deposits.

Vesting

The members are fully vested in their Employee Accounts and Earnings Accounts. Members become vested in the Companies' contributions by 30% after the first three full years from the date of their membership in the Plans, or renewed membership (see Withdrawals), with the rate reaching 100% after ten full years of such membership.

Withdrawals

Withdrawals may be made from the member's Employee Account at any time he chooses to, up to the extent of his contributions, the vested portion of the Companies' Contributions and all relevant profits thereon.

The non-vested portion of the Companies' Contributions and relevant profits are placed in a frozen account that will continue to be vested according to the vesting schedule. These are paid to the employee on his separation from the Companies unless he meets the criteria for forfeiture (see Forfeitures). The employee may rejoin the Plans after a one-year waiting period from the first withdrawal and a two-year waiting period for every subsequent withdrawal.

Loans

An existing member who has at least five years of membership is eligible to borrow from the Plans up to an amount that varies with the member's monthly base salary and length of service. The maximum loan amount cannot exceed 50% of the balance in the Employee's Account (including gains on securities) or six months salary, whichever is less. Repayment of the loan is made by monthly payroll deductions. The member may elect to repay the outstanding loan in a lump sum at any time.

Forfeitures

When members leave the Plans without the requirement for full vesting (see Vesting) for a reason other than transfer out, death or disability, the non-vested Companies' Contributions and relevant profits are forfeited. The forfeited amount is divided amongst the existing members using the same formula as the Companies' Contributions (see Companies Contributions).

Transferability

The Plans are 100% transferable between the Companies.

Costs of the plans

All administrative costs of the Plans are paid by the Companies.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of combination

The combined financial statements include the financial statements of all the Plans as stated in Note 1. All significant intercompany transactions and balances have been eliminated in the combination.

Basis of accounting

The accompanying combined financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The Plans invest in P&G securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with P&G securities, it is reasonably possible that changes in the value of P&G securities will occur in the near term and those changes could materially affect the amount reported in the statements of net assets available for plan benefits.

Valuation of investments

Investments in P&G and J.M. Smucker Company securities are valued at the closing price on the New York Stock Exchange. Bank deposits are stated at cost. Loans to participants are valued at amortized cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Interest income

Interest income represents interest earned on bank deposits.

Earnings in foreign currencies other than the Saudi Riyals are translated at average rates prevailing during the year. Exchange gains or losses for 2009, 2008 and 2007 were not significant.

In accordance with FASB Accounting Standards Codification 820, the Plans classify their investments into Level I, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following table sets forth by level within the fair value hierarchy a summary of the Plans' investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

5. RELATED-PARTY TRANSACTIONS

At December 31, 2009 and 2008, the Plan held 160,978 and 149,455 shares, respectively, of common stock of The Procter & Gamble Company, an affiliate, with a cost basis of SR 27,607,337 and SR 24,965,276, respectively. Currently, there are no personal income taxes in Saudi Arabia. Should they be introduced any time in the future, the Plans require that such taxes be borne by the members.

Dividend payments on P&G securities are received net of deduction for withholding taxes by the Government of the United States of America.

7. THE J.M. SMUCKER COMPANY COMMON STOCK

In May of 2002, the Jif peanut butter and Crisco shortening brands were spun-off to P&G shareholders and subsequently merged into The J.M. Smucker Company ("Smucker"). As a result of the spin-off, participants holding P&G common stock received one share of Smucker stock for every fifty shares of P&G stock. The cost basis of the P&G common stock prior to the Smucker spin-off was allocated between P&G common stock held and the Smucker common stock received. Participants are not permitted to purchase additional shares of Smucker.
