Item 2.02 - Results of Operations and Financial Condition.

On January 23, 2017, Park National Corporation (“Park”) issued a news release (the “Financial Results News Release”) announcing financial results for the three months and year ended December 31, 2016. A copy of the Financial Results News Release is included as Exhibit 99.1 to this Current Report on Form 8-K and incorporated by reference herein.

Park's management uses certain non-GAAP (generally accepted accounting principles) financial measures to evaluate Park's performance. Specifically, management reviews return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per share. Management has included in the Financial Results News Release information relating to the annualized return on average tangible equity, annualized return on average tangible assets, tangible equity to tangible assets and tangible book value per share for the three months ended and at December 31, 2016, September 30, 2016 and December 31, 2015 and the return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per share for the fiscal year ended and at December 31, 2016 and December 31, 2015. For purposes of calculating the return on average tangible equity, a non-GAAP financial measure, net income for each period is divided by average tangible equity during the period. Average tangible equity equals average shareholders' equity during the applicable period less average goodwill during the applicable period. For the purpose of calculating the return on average tangible assets, a non-GAAP financial measure, net income for each period is divided by average tangible assets during the period. Average tangible assets equals average assets during the applicable period less average goodwill during the applicable period. For the purpose of calculating tangible equity to tangible assets, a non-GAAP financial measure, tangible equity is divided by tangible assets. Tangible equity equals shareholders' equity less goodwill, in each case at period end. Tangible assets equals total assets less goodwill, in each case at period end. For the purpose of calculating tangible book value per share, a non-GAAP financial measure, tangible equity is divided by common shares outstanding at period end. Management believes that the disclosure of return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per share presents additional information to the reader of the consolidated financial statements, which, when read in conjunction with the consolidated financial statements prepared in accordance with GAAP, assists in analyzing Park's operating performance, ensures comparability of operating performance from period to period, and facilitates comparisons with the performance of Park's peer financial holding companies and bank holding companies, while eliminating certain non-operational effects of acquisitions. In the Financial Results News Release, Park has provided a reconciliation of average tangible equity to average shareholders' equity, average tangible assets to average assets, tangible equity to shareholders' equity and tangible assets to total assets solely for the purpose of complying with SEC Regulation G and not as an indication that return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per share are substitutes for return on average equity, return on average assets, shareholders' equity to total assets and book value per share, respectively, as determined by GAAP.

Net income	\$16,138	\$25,491	\$21,078	\$21,744	\$84,451	\$84,345	\$82,907

Net interest income of \$227.6 million for the fiscal year ended December 31, 2016 represented a \$6.7 million, or 3.0% increase, compared to \$220.9 million for the fiscal year ended December 31, 2015. The increase was the result of a \$7.4 million increase in interest income offset by a \$697,000 increase in interest expense.

The \$7.4 million increase in interest income was due to a \$10.3 million increase in interest income on loans, offset by a \$2.9 million decrease in interest income on investments. The increase in interest income on loans was largely the result of a \$216 million, or 4.4%, increase in average loans from \$4.9 billion for the fiscal year ended December 31, 2015, to \$5.1 billion for the fiscal year ended December 31, 2016. Included in interest income for the fiscal year ended December 31, 2016 was \$801,000 in income related to PNB participations in legacy Vision Bank ("Vision") assets, compared to \$241,000 for the fiscal year ended December 31, 2015.

The \$697,000 increase in interest expense was due to a \$1.1 million increase in interest expense on deposits, offset by a \$393,000 decrease in interest expense on borrowings.

The provision for loan losses of \$2.6 million for the fiscal year ended December 31, 2016 represented an improvement of \$5.1 million, compared to a provision of loan losses of \$7.7 million for the fiscal year ended December 31, 2015. Refer to the “Credit Metrics and (Recovery of) Provision for Loan Losses” section for additional details regarding the level of the (recovery of) provision for loan losses recognized in each period presented above.

Other expense of \$177.6 million for the fiscal year ended December 31, 2016 represented an increase of \$10.1 million, or 6.0%, compared to \$167.5 million for the fiscal year ended December 31, 2015. The \$10.1 million increase was primarily related to a \$5.6 borrowing prepayment penalty in 2016 compared to \$532,000 in 2015, a \$2.0 million increase in furniture and equipment expense, a \$2.0 million increase in contribution expense, a \$1.7 million increase in professional fees and services, and a \$1.0 million increase in non-loan related losses. Increases were offset by a decrease of \$2.1 million related to employee benefits expense, largely related to a decline in medical expenses.

PNB's results for the fiscal years ended December 31, 2016, 2015, and 2014, included income and expense related to participations in legacy Vision assets. The impact of these participations on particular items within PNB's income and expense for these periods is detailed in the table below:

The \$1.1 million increase in other expense for the fiscal year ended December 31, 2016, compared to the fiscal year ended December 31, 2015, was primarily the result of a \$1.0 million decrease in expense related to reserves established for potential mortgage loan repurchases, offset by increases in legal fees of \$390,000 and management and consulting services of \$2.1 million.
