This announcement may contain, in addition to historical information, certain forward-looking statements that are subject to uncertainties. Such statements reflect management's current views and are based on certain assumptions that may not be materially from those currently anticipated as a result of a number of factors, including risks associated with the completion of MedImmune's and Aviron's filings with the SEC. MedImmune and Aviron are developing products for which there can be no assurance that such development efforts will succeed, that such products will receive regulatory approval, that, even if such regulatory clearance were received, such products would ultimately achieve commercial success, or that the offer and merger will close or that Aviron will be integrated successfully or that the combined company will be successful.

We urge Aviron stockholders and other investors to read the registration statement on Form S-4, Supplement No. 1, and supplements, final prospectus and other exchange offer documents which have been filed or will be filed with the Securities and Exchange Commission and the related solicitation/recommendation statement filed by the company. These documents contain important information which should be read carefully before any decision is made. All documents filed with the SEC are available for free at the SEC's website at [www.sec.gov](http://www.sec.gov). Document 000110100100000001, MacKenzie Partners, Inc., 800-322-2885.
