Roni Al-Dor, President and CEO, commented "Among our many positive achievements in 2007, I am particularly proud to announce that Sapiens reports an Operating Profit, on an annual basis, for the first time since 1999. In addition, our hard work has paid off as we also report a \$4 million positive cash flow from operations for 2007. We also report our fifth consecutive quarter of operating profit. In 2007, we completed the \$20 million private placement and appointed new senior management (COO, CFO and VP R&D). We thank our customers, our investors and our employees for the good news we report today."

Mr. Al-Dor added, "We are not resting for a moment. We will leverage upon the financial successes of 2007 to grow with our existing customers and to capture new customers in the multi-billion dollar insurance markets."

Comment Regarding Non-GAAP

Sapiens' management believes that the presentation of Non-GAAP measures can enhance the understanding of the company's ongoing economic performance, and provides useful information to investors regarding financial and business trends relating to the company's financial condition and results of operations. Sapiens therefore uses internally the Non-GAAP information to evaluate and manage the Company's operations.

These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Sapiens believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Sapiens' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Sapiens' results of operations in conjunction with the corresponding GAAP measures.

Please refer to the Reconciliation of GAAP to Non-GAAP Results at the end of this release.
