Consumer Portfolio Services, Inc.

Three and Six Month Renewable Unsecured Subordinated Notes

One, Two, Three, Four, Five and Ten Year Renewable Unsecured Subordinated Notes

We are offering our renewable unsecured subordinated notes to new purchasers and existing noteholders. We are offering the notes for cash and as renewals of previously-issued or to-be-issued notes, up to a maximum of \$44,000,000 in aggregate principal amount (inclusive of renewals). As of the date of this prospectus, we are offering the notes with maturities ranging from three months to ten years. However, depending on our capital needs, notes with certain terms may not always be offered. We will establish interest rates on the notes offered in this prospectus from time to time in interest rate supplements to this prospectus. Our filing such an interest rate supplement will not affect the interest rates applicable to any notes previously sold.

The notes are unsecured obligations and your right to payment is subordinated in right of payment to substantially all of our existing and future indebtedness, other than our issued and outstanding renewable unsecured subordinated notes, each of which is pari passu in right of payment with the notes offered hereby. As of December 31, 2012, we had approximately \$935.2 million of debt outstanding that is senior to the notes, of which approximately \$885.1 million was issued by our consolidated special purpose entities. Including accounts payable, accrued expenses and an additional approximately \$7.5 million of debt that does not appear on our consolidated financial statements (which was issued by our off-balance sheet special purpose entities), we had approximately \$960.5 million of outstanding obligations senior to the notes. As of March 31, 2013, we had approximately \$1,033.3 million of debt outstanding that is senior to the notes, of which approximately \$982.5 million was issued by our consolidated special purpose entities. Including accounts payable, accrued expenses and an additional approximately \$2.4 million of debt that does not appear on our consolidated financial statements (which was issued by our off-balance sheet special purpose entities), we had approximately \$1,057.2 million of outstanding obligations senior to the notes.

Upon maturity, your notes will be automatically renewed for the same term as your maturing notes. The interest rate will be what we are then offering to other investors with similar aggregate note portfolios for notes of the same term, as described on the next page or specified in the most recently filed interest rate supplement, unless we elect not to have your notes renewed or unless you notify us within 15 days after the maturity date for your notes that you want your notes repaid. If notes of the same term are not then being offered, the interest rate upon renewal will be the rate specified by us on or before maturity or, if no such rate is specified, the rate of the existing note. The interest rate on your renewed note may differ from the interest rate applicable to your note during the prior term. After giving you thirty days' advance notice, we may redeem all or a portion of your notes for their original principal amount plus accrued and unpaid interest. You also may request us to repurchase your notes prior to maturity; however, unless the request is due to your death or total permanent disability, we are currently prohibited by contract from making any such repurchases. See "Description Of The Notes - Redemption or Repurchase Prior To Stated Maturity - Repurchase At Request of Holder."

We will market and sell the notes directly to the public. The notes will not be listed on any securities exchange or quoted on Nasdaq or any over-the-counter market. We do not intend to make a market in the notes and we do not anticipate that a market in the notes will develop. There will be significant restrictions on your ability to transfer or resell the notes. We have not requested a rating for the notes; however, third parties may independently rate them.

The notes are not certificates of deposit or similar obligations of, and are not guaranteed or insured by, any depository institution, the Federal Deposit Insurance Corporation, the Securities Investor Protection Corporation or any other

governmental or private fund or entity. Investing in the notes involves risks, which are described in “Risk Factors” beginning on page 6 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus dated _____, 2013 is included in an amendment to a registration statement we have filed with the U.S. Securities and Exchange Commission. We filed that amendment on May 3, 2013 to include in the registration statement our financial statements for the year ended December 31, 2012, to include in the prospectus that information and interim information as of March 31, 2013, and otherwise to update the information contained in the registration statement and previous prospectuses.

PROSPECTUS SUMMARY

This summary highlights selected information from this prospectus and from our reports filed with the SEC, and may not contain all the information that may be important to you. You should read the entire prospectus and the other information that is incorporated by reference into this prospectus before making an investment decision. Certain industry terms that we use are defined in the glossary, which begins on page 34.

CPS

We are a specialty finance company. Our business is to purchase and service retail automobile contracts originated primarily by franchised automobile dealers and, to a lesser extent, by select independent dealers in the United States in the sale of new and used automobiles, light trucks and passenger vans. Through our automobile contract purchases, we provide indirect financing to the customers of dealers who have limited credit histories, low incomes or past credit problems, who we refer to as sub-prime customers. We serve as an alternative source of financing for dealers, facilitating sales to customers who otherwise might not be able to obtain financing from traditional sources, such as commercial banks, credit unions and the captive finance companies affiliated with major automobile manufacturers. In addition to purchasing installment purchase contracts directly from dealers, we have also (i) acquired installment purchase contracts in three merger and acquisition transactions, (ii) purchased immaterial amounts of vehicle purchase money loans from non-affiliated lenders, and (iii) directly originated an immaterial amount of vehicle purchase money loans by lending money directly to consumers. In this prospectus, we refer to all of such contracts and loans as "automobile contracts."

We were incorporated and began our operations in March 1991. From inception through December 31, 2012 we have purchased a total of approximately \$9.6 billion of automobile contracts from dealers. In addition, we obtained a total of approximately \$822.3 million of automobile contracts in mergers and acquisitions in 2002, 2003, 2004 and, most recently in September 2011. The September 2011 acquisition consisted of approximately \$217.8 million of automobile contracts that we purchased from Fireside Bank of Pleasanton, California.. In 2004 and 2009, we were appointed as a third-party servicer for certain portfolios of automobile contracts originated and owned by entities not affiliated with us. From 2008 through 2010, our managed portfolio decreased each year due to our strategy of limiting contract purchases to conserve our liquidity during the financial crisis and the following recession, as discussed further below. However, since October 2009, we have gradually increased contract purchases, which, in turn has resulted in increases in our managed portfolio. Recent contract purchase volumes and managed portfolio levels are shown in the table below:

[Missing Graphic Reference]

We incurred net losses every quarter from the quarter ended June 30, 2008 through the quarter ended September 30, 2011. We have since recorded positive earnings for every subsequent quarter, through March 31, 2013; however, there can be no assurance as to future earnings. We were adversely affected by the financial crisis and the subsequent economic recession affecting the United States as a whole, by increased financing costs and decreased availability of capital to fund our purchases of automobile contracts (which factors have been ameliorated in part after the end of 2009), and by a decrease in the overall level of sales of automobiles and light trucks. We identify important factors that could cause actual results to differ, generally in the "Risk Factors" section of this prospectus, and more specifically under the caption "Forward-Looking Statements."

We purchase automobile contracts with the intention of placing them into securitizations. Securitizations are transactions in which we sell a specified pool of automobile contracts to a special purpose entity of ours, which in turn issues asset-backed securities to fund the purchase of the pool of automobile contracts from us. Depending on the structure of the securitization, the transaction may be properly accounted for as a sale of the automobile contracts or as a secured financing. During 2012 we completed four securitizations of approximately \$603.5 million in contracts, including \$58.2 million in contracts that were repurchased from 2006 and 2007 securitizations in 2012. During 2011, we completed three securitizations of approximately \$335.6 million in newly originated contracts. These securitizations all were structured as secured financings and represented our first securitizations of new automobile contracts since 2008.

We are headquartered in Irvine, California, where most operational and administrative functions are centralized. Most credit and underwriting functions are performed in our California headquarters, with some credit functions performed in our Florida office. We service our automobile contracts from our California headquarters and from three servicing branches in Virginia, Florida and Illinois. Our principal executive offices are located at 19500 Jamboree Road, Irvine, California 92612, and our telephone number is (949) 753-6800.

In addition, if your subscription agreement is accepted at a time when we have determined that a post-effective amendment to the registration statement of which this prospectus is a part must be filed with the Securities and Exchange Commission, but such post-effective amendment has not yet been declared effective, you will be able to rescind your investment subject to the conditions set forth in this prospectus. See “Description of the Notes — Rescission Right” for additional information.

If you choose to receive interest payments monthly, you may choose the day on which you will be paid. Payment Method	Principal and interest payments will be made by direct deposit to the account you designate in your subscription documents.
Renewal or Redemption at Maturity	Upon maturity, the notes will be automatically renewed for the same term at the interest rate we are offering at that time to other investors with similar aggregate note portfolios for notes of the same maturity, unless we notify you prior to the maturity date that we intend to repay the notes. You may also notify us within 15 days after the maturity date that you want your notes repaid. This 15 day period will be automatically extended if you would otherwise be required to make the repayment election at a time when we have determined that a post-effective amendment to the registration statement of which this prospectus is a part must be filed with the

Securities and Exchange Commission, but such post-effective amendment has not yet been declared effective.

If notes with similar terms are not being offered at the time of renewal, the interest rate upon renewal will be (a) the rate specified by us on or before the maturity date or (b) if no such rate is specified, the rate of your existing notes. The interest rate being offered upon renewal may, however, differ from the interest rate applicable to your notes during the prior term. See “Description of the Notes — Renewal or Redemption on Maturity.”

Optional Redemption or Repurchase After giving you 30 days’ prior notice, we may redeem some or all of your notes at a price equal to their original principal amount plus accrued but unpaid interest.

You may request us to repurchase your notes prior to maturity; however, unless the request is due to your death or total permanent disability, we are currently prohibited by contract from making any such repurchases.

See “Description of Notes — Redemption or Repurchase Prior To Stated Maturity- Repurchase At Request of Holder.”

Consolidation, Merger or Sale Upon any consolidation, merger or sale of our company, we will either redeem all of the notes or our successor will be required to assume our obligations to pay principal and interest on the notes pursuant to the indenture for the notes. For a description of these provisions see “Description of the Notes - Consolidation, Merger or Sale.”

Ranking; No Security The notes:

- are unsecured;
- rank junior to our existing and future secured debt, including the debt of our special purpose entities;
- rank junior to our existing and future senior unsecured debt, including debt we may incur under our existing and future credit facilities; and
- rank pari passu to our issued and outstanding renewable unsecured subordinated notes.

As of March 31, 2013, we had approximately \$1,033.3 million of debt outstanding that is senior to the notes, of which approximately \$982.5 million was issued by our consolidated special purpose entities. Including accounts payable, accrued expenses and an additional approximately \$2.4 million of debt that does not appear on our consolidated financial statements (which was issued by our off-balance sheet special purpose

entities), we had approximately \$1,057.2 million of outstanding obligations senior to the notes. As of December 31, 2012, we had approximately \$935.2 million of debt outstanding that is senior to the notes, of which approximately \$885.1 million was issued by our consolidated special purpose entities. Including accounts payable, accrued expenses and an additional approximately \$7.5 million of debt that does not appear on our consolidated financial statements (which was issued by our off-balance sheet special purpose entities), we had approximately \$960.5 million of outstanding obligations senior to the notes. See “Capitalization.”

Limited Restrictive Covenants	<p>The indenture governing the notes contains very limited restrictive covenants. One of these covenants prohibits us from paying dividends on our capital stock if there is an event of default with respect to the notes or if payment of the dividend would result in an event of default. We are not restricted from entering into qualified sales or financing transactions or incurring additional indebtedness. The covenants set forth in the indenture are more fully described under “Description of Notes — Restrictive Covenants.” These covenants have significant exceptions. We do not plan to issue any debt that is subordinate to the notes.</p>
Use of Proceeds	<p>If all the notes are sold, we would expect to receive up to approximately \$43.5 million of net proceeds from this offering after paying the estimated offering expenses. To the extent that we sell the notes in exchange for outstanding notes, our net proceeds will be correspondingly reduced. The exact amount of net proceeds also may vary considerably depending on how long the notes are offered and other factors. We intend to use the net proceeds to fund the purchase of automobile contracts and for other general corporate purposes, which may include the payment of general and administrative expenses. See “Use of Proceeds.”</p>
Absence of Public Market and Restrictions on Transfers	<p>There is no existing market for the notes. We do not anticipate that a secondary market for the notes will develop. We do not intend to apply for listing of the notes on any securities exchange or for quotation of the notes in any automated dealer quotation system, including without limitation the OTC Bulletin Board or any over-the-counter market.</p> <p>You will be able to transfer or pledge the notes only with our prior written consent. See “Description of the Notes - Transfers.”</p>
Book Entry	<p>The notes will be issued in book entry or uncertificated form only. Except under limited circumstances, the notes will not be evidenced by certificated securities or negotiable instruments. See “Description of the Notes — Book Entry Registration and</p>

Transfers.”

RISK FACTORS

The risks described below set forth the material risks associated with the purchase of notes and our company. Before you invest in the notes, you should carefully consider these risk factors, as well as the other information regarding the notes and the company contained in this prospectus and in the documents incorporated by reference into this prospectus.

Risk Factors Relating to the Notes

Because of their characteristics, the notes may not be a suitable investment for you.

The notes may not be a suitable investment for you, and we advise you to consult your investment, tax and other professional financial advisors prior to purchasing notes. The characteristics of the notes, including maturity, interest rate and lack of liquidity, may not satisfy your investment objectives. The notes may not be a suitable investment for you based on your ability to withstand a loss of interest or principal or other aspects of your financial situation, including your income, net worth, financial needs, investment risk profile, return objectives, investment experience and other factors. Prior to purchasing any notes, you should consider your investment allocation with respect to the amount of your contemplated investment in the notes in relation to your other investment holdings and the diversity of those holdings.

Your right to receive payments on the notes is junior to substantially all of our existing indebtedness and f
