NOTES TO FINANCIAL STATEMENTS

Edgar Filing: NISOURCE INC/DE - Form U-13-60

 INSTRUCTIONS: The space below is provided for important notes regarding the financial statements or any account thereof. Furnish particulars as to any significant contingent assets or liabilities existing at the end of the year. Notes relating to financial statements shown elsewhere in this report may be indicated here by reference.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Property, Plant and Equipment and Related Depreciation

Property, Plant and Equipment is stated at historical cost. Depreciation is provided on a composite straight-line basis using the average of depreciable property at the beginning and end of each year.

b. Income Taxes

The Corporation provides deferred taxes with respect to timing differences in the recognition of revenues and expenses for tax and accounting purposes. The major difference results from using accelerated depreciation for tax purposes. The Corporation is included in the Consolidated Federal Income Tax Return filed for NiSource, Inc.

c. Pension Costs

The Corporation participates in the NiSource, Inc. Pension Plan and the Retirement Income Plan of the Columbia Energy Group. These are trustee noncontributory pension plans which, with certain exceptions, cover all regular employees. NiSource Corporate Services Company, Inc.'s portion was \$1,794,000 in 2001 and \$(4,389,014) in 2000.

d. Leases

Payments made by the Corporation in connection with operating leases are charged to expense incurred. No capitalized leases existed in 2001.

e. Account Numbers

The Corporation uses certain FERC accounts which do not match existing SEC accounts; therefore, the year-end balances of the following FERC accounts were reclassified to a corresponding SEC account.

NOTES TO FINANCIAL STATEMENTS

f. Post-Retirement Benefits Other Than Pensions

During 1991, the System adopted SFAS No. 106, Employer's Accounting for Post-Retirement Benefits Other Than Pensions, retroactive to January 1, 1991. The Corporation has elected to record and defer the full amount of its estimated accumulated post-retirement obligations other than pensions. These obligations total \$62,595,332 as of December 31, 2001, and represent the actuarial present value of the post-retirement benefits to be paid to current employees and retirees based on services rendered.

g. System Money Pool

The Parent Company and its subsidiaries participate in the System Money Pool (Pool) which is administered by the Corporation on behalf of the participants.

Participants invest their excess funds to the Pool. Short-term financing requirements of participants, with the exception of the Parent Company, are satisfied by advances from the Pool. Excess funds in the Pool are invested by the Corporation on a short-term basis on behalf of the depositors.

Participants depositing funds in the Pool share in the interest earned on these investments plus interest paid to the Pool by borrowers on a basis proportionate to their investment in the Pool. Participants borrowing from the Pool pay interest at the rate equivalent to the composite rate on short-term transactions of the Pool. Participants may withdraw their investments in the Pool at any time. Borrowings from the Pool are payable on demand, and may be prepaid at any time without premium or penalty.

h. Restructuring Activities

For the year ended December 31, 2001, liabilities were recorded for termination benefits related to the Operational Excellence program of the Energy Distribution Group and other cost reduction programs. NiSource Corporate Services' portion expensed in 2001 was \$2,087,912 for severance and \$167,990 for job placement.
