1. Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with International Financial Reporting Standards (IFRS) and represent comparisons between the three-month period

ended March 31, 2016, and the equivalent three-month period ended March 31, 2015. Results are expressed in pesos. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1.00 = Ps.17.24.

EBITDA means net income before: provision for taxes, deferred taxes, profit sharing, non-ordinary items, participation in the results of associates, comprehensive financing cost and depreciation and amortization. EBITDA should not be considered as an alternative to net income, as an indicator of our operating performance or as an alternative to cash flow as an indicator of liquidity. Our management believes that EBITDA provides a useful measure that is widely used by investors and analysts to evaluate our performance and compare it with other companies. EBITDA is not defined under U.S. GAAP or IFRS and may be calculated differently by different companies.

Adjusted EBITDA Margin excludes the effect of IFRIC12 with respect to the construction or improvements to concessioned assets, as explained in page 5 of this report. Adjusted EBITDA Margin is calculated by dividing EBITDA by total revenues less construction services revenues. Like EBITDA Margin, Adjusted EBITDA Margin should not be considered as an indicator of our operating performance or as an alternative to cash flow as an indicator of liquidity and is not defined under U.S. GAAP or IFRS and may be calculated differently by different companies.

Passenger Traffic

1Q16 total passenger traffic increased year-over-year by 8.93%, reflecting growth of 13.04% in domestic passenger traffic and 6.53% in international passenger traffic.

The 13.04% increase in domestic passenger traffic was driven by increases across most of ASUR's airports, with the exception of Minatitlán and Villahermosa, where traffic declined 1.81% and 1.15%, respectively. The 6.53% growth in international passenger traffic resulted mainly from an increase of 6.92% in traffic at the Cancún airport.

Consolidated Results for 1Q16

Total revenues for 1Q16 rose 15.63% year-over-year to Ps.2,077.35 million, mainly due to increases of:

- 15.42% in revenues from aeronautical services, mainly as a result of the 8.93% increase in passenger traffic; and
- 28.88% in revenues from non-aeronautical services, principally reflecting the 31.00% increase in commercial revenues detailed below.

Revenues from construction services declined 25.90%, primarily as a result of lower capital expenditures and fewer investments in concessioned assets during the period.

ASUR classifies commercial revenues as those derived from the following activities: duty-free stores, car rentals, retail operations, banking and currency exchange services, advertising, teleservices, non-permanent ground transportation, food and beverage operations, and parking lot fees.

Commercial revenues increased by 31.00% year-over-year in 1Q16, principally due to a 8.93% increase in total passenger traffic. There were increases in revenues from the following activities:

- 31.35% in retail operations;
- 31.72% in duty free;

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

. 72.16% in car rental revenues;
. 49.19% in other revenue;
. 16.43% in food and beverage operations;
. 32.13% in banking and currency exchange services;
. 16.48% in advertising;
. 16.42% in parking lot fees; and
. 12.03% in ground transportation.

These increases were partially offset by a 9.98% decline in teleservices revenues.

<i>Commercial revenue per passenger (excluding direct operations)</i>	63.54	81.62	28.45

Note: For purposes of this table, approximately 57,500 and 60,700 transit and general aviation passengers are included in 1Q15 and 1Q16, respectively.

Revenues from direct commercial operations represent ASUR's operation of convenience stores in airports, as well (1) as the direct sale of advertising space through April 30, 2015, when advertising sales were concessioned to a third party.

Construction revenues and expenses: ASUR is required by IFRIC 12 to include in its income statement an income line reflecting the income from construction or improvements to concessioned assets made during the relevant period. During 1Q16, ASUR recognized Ps.143.25 million in revenues from "Construction Revenues," a year-on-year decrease of 25.90%, reflecting lower capital expenditures in concessioned assets. The same amount is recognized under the expense line, "Construction Costs," because ASUR hires third parties to provide construction services.

Because equal amounts of Construction Revenues and Construction Costs have been included in ASUR's income statement as a result of the application of IFRIC 12, the amount of Construction Revenues does not have an impact on EBITDA, but it does have an impact on EBITDA margin, as the increase in revenues that relate to Construction Revenues does not result in a corresponding increase in EBITDA.

As a result, 1Q16 EBITDA Margin was 68.10% compared with 63.63% in 1Q15. Adjusted EBITDA Margin, however, which excludes the effect of IFRIC 12 with respect to the construction or improvements to concessioned assets, was 73.14% in 1Q16 compared with 71.31% in 1Q15.

Total operating costs and expenses for 1Q16 rose 2.87% year-over-year, primarily due to the following increases:

10.78% in cost of services, mainly due to the opening of the Terminal 3 expansion, higher software license fees and maintenance expenses; the higher cost of sales derived from the convenience stores directly operated by ASUR also contributed to this increase;

23.79% in the technical assistance fee paid to ITA, reflecting the increase in EBITDA for the quarter (a factor in the calculation of the fee);

19.54% in concession fees paid to the Mexican government, mainly due to an increase in regulated revenues (a factor in the calculation of the fee);

ASUR 1Q16, Page 5 of 14

- 10.95% in depreciation and amortization, resulting mainly from capitalized investments; and

- 2.25% in administrative expenses, principally reflecting higher travel expenses and professional fees.

These increases were partially offset by a 25.90% decline in construction costs, reflecting higher levels of capital improvements made to concessioned assets during the period.

Excluding construction costs, operating costs and expenses rose 12.53% to Ps.647.91 million.

Table V: Operating Costs and Expenses for 1Q16

	1Q15	1Q16	% Change
Cost of Services	275,150	304,800	10.78

Operating Costs and Expenses Excluding Construction Costs	575,773	647,907	12.53
Construction Costs	193,332	143,254	(25.90)
TOTAL	769,105	791,161	2.87

Operating margin for the quarter was 61.91% compared with 57.19% in 1Q15, principally reflecting a 15.63% increase in revenues.

Adjusted operating margin, which excludes the effect of IFRIC 12 with respect to the construction or improvements to concessioned assets, and is calculated as operating profit divided by total revenues less construction services revenues, was 66.50% in 1Q16 compared with 64.09% in 1Q15.

Comprehensive Financing Gain (Loss) for 1Q16 was an Ps.18.58 million loss, compared to an Ps.18.48 million loss in 1Q15. Interest expenses rose by Ps.11.47 million during the period, principally as a result of the increase in interest rates. During 1Q16, ASUR reported a foreign exchange loss of Ps.23.35 million, reflecting a lower quarterly average depreciation of the Mexican peso against the U.S. dollar on ASUR's foreign currency net liability position, as compared to the Ps.35.18 million loss in 1Q15, which resulted from a higher quarterly average peso depreciation.

ASUR 1Q16, Page 6 of 14

Total	(18,484)	(18,581)	(97)	0.52

In addition, in 1Q16, ASUR recognized a Ps.3.45 million loss in stockholders' equity resulting from the translation effect of Aerostar's financial statements (which are denominated in U.S. dollars), in connection with the valuation of the stockholders' equity derived from the 0.07% appreciation of the peso against the U.S. dollar between the close of 4Q15 and the close of 1Q16.

Income (Loss) from Equity Investment in Joint Venture. During 1Q16, our equity in the income of Aerostar, our joint venture with Highstar Capital IV and its affiliated funds, was a net gain of Ps.49.85 million. In addition, ASUR recorded a Ps.3.45 million loss in stockholders' equity resulting from the translation effect of Aerostar's financial statements (which are denominated in U.S. dollars), relating to the valuation of the shareholders' equity derived from the 0.07% appreciation of the peso against the U.S. dollar between the close of 4Q15 and the close of 1Q16. In 1Q15, ASUR reported a net gain of Ps.32.52 million from our equity in the income of Aerostar and a Ps.94.53 million gain in stockholders' equity resulting from the translation effect of Aerostar's financial statements relating to the valuation of the shareholders' equity derived from the depreciation of the peso against the U.S. dollar.

During 1Q16, total passenger traffic at SJU airport increased 2.52% to 2,349,929 from 2,292,085 in 1Q15.

Income Taxes for 1Q16 increased by Ps.91.86 million year-over-year, principally due to the following factors:

- A Ps.70.51 million increase in the provision for income taxes, reflecting a higher taxable income base at the Veracruz and Cancún airports, as well as at Cancún Airport Services and taxable income at Huatulco airport; and

- A Ps.22.57 million decline in deferred income taxes, largely reflecting the initial recognition of Ps.43.77 million in deferred income taxes at Huatulco Airport, which was partially offset by the effects of inflation in the fiscal tax balance.

Net income for 1Q16 increased by 24.73% to Ps.928.33 million, up from Ps.744.26 million in 1Q15. Earnings per common share for the quarter were Ps.3.0944 and earnings per ADS (EPADS) were US\$1.7952 (one ADS represents ten series B common shares). This compares with earnings per share of Ps.2.4809 and EPADS of US\$1.4393 for the same period last year.

The higher net income principally reflects the 8.93% increase in passenger traffic. During 1Q16, ASUR reported a Ps.49.85 million gain corresponding to its participation in Aerostar, the joint venture to operate SJU airport, compared to a gain of Ps.32.52 million in the same period in 2015.

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for 1Q16 were Ps.1,437.99 million, resulting in an annual average tariff per workload unit of Ps.158.25. ASUR's regulated revenues accounted for approximately 69.22% of total income for the period.

Compliance with maximum rate regulations is reviewed by the Mexican Ministry of Communications and Transportation at the close of each year.

The loans mature in 2022 and will amortize semi-annually from 2018 through 2022, pursuant to an agreed schedule. The loans are denominated in U.S. dollars and charge interest at a rate equal to LIBOR plus 1.85%. The loans are guaranteed by Grupo Aeroportuario del Sureste, S.A.B. de C.V. and were originally used to finance ASUR's capital contribution and subordinated shareholder loan to Aerostar.
