CGI-AMS and State of Wyoming Sign Five-Year, US\$22.6 Million Contract

Renewal to Host ERP Applications

Fairfax, Virginia October 11, 2006 CGI-AMS Inc., the wholly-owned U.S. operating

subsidiary of CGI Group Inc. (CGI) (TSX: GIB.A; NYSE: GIB), today announced a five-year, US\$22.6 million contract to host and operate the Advantage ERP system for the State of Wyoming. Managed Advantage is CGI's built-to-serve hosting program developed specifically for government Advantage ERP clients.

The award continues a successful partnership between the State and CGI-AMS that began in 1991. Since 2002, the State has relied on CGI's Managed Advantage offering to manage their 9,500 employees and US\$4 billion annual budget, freeing up valuable State resources to focus on the business of government. Managed Advantage delivers full-scope technology and operations management to help organizations derive maximum value from their AMS Advantage investment. With Managed Advantage, the State sets the course and retains control of the application and the data, while CGI manages day-to-day-operations.

Our partnership with Wyoming demonstrates its commitment to providing citizens with efficient government services through predictable costs using quality procedures grounded in proven industry standards, said Donna Morea, President of CGI-AMS. It is the first state to have a fully outsourced suite of ERP applications, enabling it to focus on the business of government.

With CGI's Managed Advantage team of experts, the State of Wyoming has a solid partnership built on a relationship of honest interaction, focused on client satisfaction and success, said Max Maxfield, State Auditor. With this single point of accountability we receive faster resolution time and increased value for our dollar.

For over 30 years, CGI has been a trusted partner to the public sector, applying their deep industry knowledge with off-the-shelf solutions to help customers achieve their unique goals for service excellence. Managed Advantage compliments their web-based AMS Advantage ERP solution, providing public sector customers with a single vendor option for software, services and hosting to overcome the challenges associated with evolving business requirements and shortage of IT and business staff. With Managed Advantage, CGI partners with their customers as one team, each dependent on and vested in the success of the other.

Through our leading ERP suite AMS Advantage, CGI helps 190+ state and local organizations better serve 90+ million citizens. Designed exclusively to support the business of government, CGI's AMS Advantage solution can be hosted through our Managed Advantage program. Combining industry best practices with technology capabilities and scale, CGI reduces the complexity of clients' day-to-day operations through the reliable and accountable hosting of their AMS Advantage ERP environment.
