PART II.

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

The Company's common stock is traded on the Nasdaq National Market under the symbol "MWRK." The following table sets forth, for the periods indicated, the reported high and low sales prices of the Company's common stock, as reported on the Nasdaq National Market:

Fiscal Year Ended September 30, 2001	High	Low
Quarter ended December 31, 2000	\$ 11.00	\$ 6.00
Quarter ended March 31, 2001	9.38	7.00
Quarter ended June 30, 2001	8.10	7.07
Quarter ended September 30, 2001	11.90	7.50
Fiscal Year Ended September 30, 2000		
Quarter ended December 31, 1999	\$ 13.25	\$ 8.00

Quarter ended June 30, 2000	12.25	10.00
Quarter ended September 30, 2000	11.00	6.00

As of December 14, 2001, there were 54 holders of record and 700 estimated beneficial holders of the Company's common stock.

The Company currently intends to retain any future earnings to fund operations and the continued development of its business and, therefore, does not anticipate paying cash dividends on its common stock in the immediate future. No dividends may be paid on common stock or any other shares of capital stock of the Company ranking junior to the Series A Preferred Stock (other than dividends payable in shares of common stock), until all cumulative and current dividends on the Series A Preferred Stock have been declared and paid in full. Any payment of future dividends will be at the discretion of the Company's Board of Directors and will be based upon certain restrictive financial covenants, earnings, capital requirements and the operating and financial condition of the Company, among other factors, at the time any such dividends are

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

considered. See Notes 7 and 12 of "Notes to Consolidated Financial Statements" for further discussion of preferred stock dividends.

Item 6. Selected Financial Data

The following selected consolidated financial data as of September 30, 2001, 2000, 1999, 1998 and 1997, and for the fiscal years then ended, have been derived from the financial statements of the Company. The financial statements of the Company for each of the years in the two-year period ended September 30, 2001 have been audited by KPMG LLP, independent public accountants. The financial statements of the Company for the fiscal years ended September 30, 1999, 1998 and 1997 have been audited by Arthur Andersen LLP, the Company's former independent accountants. The information set forth below should be read in conjunction with the financial statements and notes thereto as well as "Management's Discussion and Analysis of Financial Condition and Results of Operations."

INDEPENDENT AUDITORS REPORT

The Board of Directors and Stockholders
Mothers Work, Inc.;

We have audited the accompanying consolidated balance sheets of Mothers Work, Inc. as of September 30, 2001 and 2000, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the years in the two-year period ended September 30, 2001. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Mothers Work, Inc. as of September 30, 2001 and 2000, and the results of their operations and their cash flows for each of the years in the two-year period ended September 30, 2001, in conformity with accounting principles generally accepted in the United States of America.

THE FOLLOWING REPORT OF ARTHUR ANDERSEN LLP IS A COPY OF A PREVIOUSLY ISSUED REPORT THAT HAS NOT BEEN REISSUED BY ARTHUR ANDERSEN LLP. THE REPORT OF KPMG LLP INCLUDED IN THIS AMENDMENT TO FORM 10-K RELATES TO EACH OF THE YEARS IN THE TWO YEAR PERIOD ENDED SEPTEMBER 30, 2001. CONSEQUENTLY, FOR THE PURPOSES OF THIS AMENDMENT TO FORM 10-K, THE FOLLOWING REPORT OF ARTHUR ANDERSEN LLP, WHICH IS THE MOST RECENTLY ISSUED REPORT, RELATES ONLY TO THE YEAR ENDED SEPTEMBER 30, 1999.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To Mothers Work, Inc.:

We have audited the accompanying consolidated balance sheets of Mothers Work, Inc. (a Delaware corporation) and subsidiary as of September 30, 2001 and 2000, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the three years in the period ended September 30, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Mothers Work, Inc. and subsidiary as of September 30, 2001 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended September 30, 2001, in conformity with accounting principles generally accepted in the United States.

MOTHERS WORK, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Mothers Work, Inc., incorporated in Delaware in 1982, is a specialty retailer and manufacturer of maternity clothing. The Company operated 771 retail store locations at September 30, 2001, including 132 leased departments, throughout the United States.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Mothers Work, Inc. and its wholly-owned subsidiary, Cave Springs, Inc. (collectively "Mothers Work" or the "Company"), as of September 30, 2001. All significant intercompany transactions and accounts have been eliminated in consolidation.

On October 17, 2001, the Company completed the acquisition of eSpecialty Brands, LLC ("Maternity") (see Note 12).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and cash in the bank. Cash overdrafts of \$2,426,000 and \$3,682,000 are included in accounts payable at September 30, 2001 and 2000, respectively. The Company considers investments with an original maturity of three months or less when purchased to be cash equivalents.

The Company maintains cash accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses from maintaining cash accounts in excess of such limits. Management believes that it is not exposed to any significant credit risks on its cash accounts.

Inventories

Inventories are valued at the lower of cost or market. Cost is determined by the "first-in, first-out" (FIFO) method. Inventories manufactured by the Company include the cost of materials, freight, direct labor, manufacturing and distribution overhead.

Advertising Costs

The Company expenses the costs of advertising when the advertising occurs, except for the costs associated with catalogs and brochures. The production costs for catalogs and brochures are deferred and amortized over a three to six month period corresponding to the expected period in which these items will be mailed. Advertising and catalog expenses were \$7,212,000, \$6,953,000 and \$6,479,000 in fiscal 2001, 2000 and 1999, respectively.

Property, Plant and Equipment

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

Property, plant and equipment are stated at cost. Depreciation and amortization are computed for financial reporting purposes on a straight-line basis, using service lives ranging principally from five to ten years for furniture and equipment and forty years for the building. Leasehold improvements are amortized over the shorter of the estimated useful life or the lease term. The cost of assets sold or retired and the related accumulated depreciation or amortization are removed from the accounts with any resulting gain or loss included in net income. Maintenance and repairs are expensed as incurred except for the capitalization of major renewals and betterments that extend the life of the asset. Long-lived assets are reviewed for impairment whenever adverse events or changes in circumstances or business climate indicate that the carrying value may not be recoverable. Factors used in the valuation include, but are not limited to, management's plans for future operations, brand initiatives, recent operating results and projected cash flows. If the associated undiscounted cash flows are insufficient to support the recorded asset, an impairment is recognized to reduce the carrying value of the asset. The amount of the impairment loss is determined by comparing the discounted expected future cash flows with the carrying value. At September 30, 2001, management believes that no reductions to the remaining useful lives or additional write-downs of long-lived assets are necessary.

Goodwill, Intangible and Other Assets

Goodwill represents the excess of the cost over the fair value of net assets acquired in business combinations. Goodwill is amortized using the straight-line method over a period of 20 years. Leasehold interests and other intangible assets are amortized over the lease term and five to ten years, respectively. Amortization of goodwill, leasehold interests and other intangible assets was \$2,422,000, \$2,494,000 and \$2,451,000 in fiscal 2001, 2000 and 1999, respectively. Management reviews the carrying amount of goodwill, leasehold interests and other intangible assets at each balance sheet date to assess the continued recoverability based on future undiscounted cash flows and operating results from the related asset, future asset utilization and changes in market conditions. At September 30, 2001, management does not believe that there has been any impairment to the carrying value of goodwill, leasehold interests and other intangible assets.

Deferred Financing Costs

Deferred financing costs are amortized over the term of the related debt using the effective interest method. Amortization of deferred financing costs was \$499,000, \$481,000 and \$498,000 in fiscal 2001, 2000 and 1999, respectively, and is included in interest expense in the accompanying Consolidated Statements of Operations.

Deferred Rent

Rent expense on operating leases is recorded on a straight-line basis over the term of the lease. The net excess of rent expense over the actual cash paid has been recorded as deferred rent in the accompanying Consolidated Balance Sheets.

Fair Value of Financial Instruments

Cash and cash equivalents, trade receivables, accounts payable and accrued expenses are reflected at fair value in the accompanying consolidated financial statements due to the short-term nature of

F-9

those instruments. The carrying amounts of long-term debt and capitalized lease obligations approximate fair value at the balance sheet dates based on the fair market value for similar instruments.

Revenue Recognition

Revenue is recognized at the point of sale for retail store sales, including leased department sales, or when merchandise is shipped to customers for Internet and mail order sales.

Income Taxes

The Company utilizes the asset and liability method of accounting for income taxes as prescribed by Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." Under this method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date.

Accounting for Stock-Based Compensation

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

The Company accounts for stock-based compensation under the provisions of Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees." The Company has adopted the disclosure requirements of SFAS No. 123, "Accounting for Stock-Based Compensation."

Earnings per Share

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted average number of outstanding common shares. Diluted earnings per share is computed based upon the weighted average number of outstanding common shares, after giving effect to the potential dilutive effect from the assumed exercise of stock options and warrants as well as the assumed conversion of dilutive preferred stock and subordinated notes (see Note 7).

The following summarizes those effects for the diluted earnings per share calculation (in thousands):

	<u>2001</u>	<u>2000</u>	<u>1999</u>
Average number of shares Basic	3,456	3,443	3,538
Incremental shares from the assumed exercise of outstanding stock options and warrants	149	198	216
Average number of shares Diluted	<u>3,605</u>	<u>3,641</u>	<u>3,754</u>

Options to purchase 499,955 shares were outstanding at September 30, 2001, but were not included in the computation of diluted earnings per share, as their effect would have been antidilutive. Additionally, the assumed conversion of the Company's Series A Cumulative Convertible Preferred Stock (the "Series A Preferred Stock"), which was convertible into 384,090 and 410,000 shares of common stock at September 30, 2001 and 2000, respectively, was determined to be antidilutive for all periods presented. The assumed conversion of the Company's subordinated notes, which were issued in

F-10

fiscal 2001 (see Note 7) and were convertible into approximately 33,100 shares of common stock at September 30, 2001, were also determined to be antidilutive.

Statements of Cash Flows

In fiscal 2001, 2000 and 1999, the Company paid interest of \$14,288,000, \$15,127,000 and \$14,919,000, respectively, and made tax payments of \$394,000, \$494,000 and \$28,000, respectively. Capital lease obligations totaling \$511,000 were incurred with respect to new equipment leases in fiscal 2000 (none for fiscal 2001 and 1999).

Reclassifications

Certain prior year balances in the financial statements have been reclassified to conform with the current year presentation.

Internal Use Software

The Company records the costs of computer software, inclusive of website development costs, in accordance with Statement of Position ("SOP") 98-1, "Accounting for the Costs of Computer Software Development or Obtained for Internal Use" issued by the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants. This statement requires that certain internal-use computer software costs be capitalized and amortized over the useful life of the asset. In fiscal 2001, the Company capitalized approximately \$177,000 of costs related to the development of internal-use software. In fiscal 2000 and 1999, the Company expended an immaterial amount for the development of software for internal use. Accordingly, these costs were expensed as incurred during fiscal 2000 and 1999.

Shipping and Handling Fees and Costs

The Company includes shipping and handling revenue earned from its catalog and e-commerce activities in net sales. Shipping and handling costs, which are included in cost of goods sold in the accompanying Consolidated Statements of Operations, include shipping supplies,

related labor costs and third-party shipping costs.

Other Income

During the fourth quarter of fiscal 2001, the Company negotiated buy-outs of two lease arrangements in connection with the planned closure of these stores. Due to the level of the rental rates, the Company recognized income from the proceeds being paid under these buy-out agreements of \$1.2 million in the aggregate and wrote off related leasehold improvements and other costs of \$639,000, resulting in a net gain of \$594,000, which is included in other income in the accompanying Consolidated Statements of Operations.

Business and Credit Risk

Financial instruments, primarily cash and cash equivalents and accounts receivable, potentially subject the Company to concentrations of credit risk. The Company would limit its credit risk associated with cash and cash equivalents by placing such investments in highly liquid funds. Receivables associated with third-party credit cards are processed by financial institutions which are

F-11

monitored for financial stability. The Company is dependent on key suppliers to provide sufficient quantities of inventory at competitive prices. No single supplier represented 10% or more of net purchases in fiscal 2001, 2000 and 1999. Approximately 45% of the Company's purchases were imported from 26 countries during fiscal 2001. Management believes that any event causing a disruption of imports from any specific country could be mitigated by moving production to readily available alternative sources.

New Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. SFAS No. 141 also specifies the criteria applicable to intangible assets acquired in a purchase method business combination in order for them to be recognized and reported apart from goodwill. SFAS No. 142 requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment at least annually. SFAS No. 142 further requires that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values and be reviewed for impairment.

The Company adopted SFAS Nos. 141 and 142 effective October 1, 2001. In adopting SFAS No. 142, the Company no longer amortizes goodwill. The following table reflects the adjustment to exclude goodwill amortization expense recognized in the prior periods as presented (in thousands, except per share amounts):

	For the Year Ended September 30,	
	2001	2000
Reported net income:	\$ 3,462	\$ 5,048
Add back goodwill amortization	2,207	2,216

Adjusted net income available to common stockholders	\$ 4,178	\$ 5,875
Income per share basic:		
Reported net income	\$ 0.57	\$ 1.06
Goodwill amortization	0.64	0.65
Adjusted net income	\$ 1.21	\$ 1.71

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

	For the Year Ended September 30,	
	2001	2000
Income per share diluted:		
Reported net income	\$ 0.55	\$ 1.01
Goodwill amortization	0.61	0.60
Adjusted net income	\$ 1.16	\$ 1.61

As of October 1, 2001, management determined that the Company had one reporting unit for purposes of applying SFAS No. 142 based on its reporting structure. The Company has made its initial assessment of impairment for the transition period as of October 1, 2001. The fair value of the

F-12

Company's single reporting unit was determined based on the then fair market value of the Company's outstanding common stock on a control basis. Based on this initial assessment, no impairment loss was recognized. The Company plans to perform an annual assessment for goodwill impairment at the end of each fiscal year or as impairment indicators arise. The only changes to the carrying value of goodwill during fiscal 2001 and 2000 were due to amortization expense.

Other intangible assets at September 30, 2001 and 2000 of \$1,295,000 and \$1,045,000, respectively, primarily represent lease acquisition costs, which are amortized over the life of the related lease. The Company has not identified any unamortizable intangible assets. Aggregate amortization expense in fiscal 2001 and 2000 was \$215,000 and \$278,000, respectively. Estimated amortization expense for the next five fiscal years is as follows (in thousands):

Fiscal Year	
2002	\$ 310
2003	\$ 232
2004	\$ 200
2005	\$ 174
2006	\$ 150

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 is effective for fiscal years beginning after June 15, 2002, and addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. Although early adoption is encouraged, the Company plans to adopt this amendment in fiscal 2003. Adoption of SFAS No. 143 is not expected to have a material impact on the Company's financial position or results of operations.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which establishes a single accounting model, based on the framework established in SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed Of," and resolves significant implementation issues related to SFAS No. 121. SFAS No. 144 superceded SFAS No. 121 and APB Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of a Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The Company is required to adopt SFAS No. 144 for the fiscal year ending September 30, 2003, however, early application is permitted. Management does not believe that the adoption of SFAS No. 144 will have a material impact on the Company's financial position or results of operations.

2. INVENTORIES

Inventories at September 30 were as follows (in thousands):

	2001	2000

3. PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment at September 30 was comprised of the following (in thousands):

	<u>2001</u>	<u>2000</u>
Land	\$ 1,400	\$ 1,400
Building and improvements	10,834	10,443

Less: accumulated depreciation and amortization	(51,101)	(43,049)
	<u>\$ 46,025</u>	<u>\$ 44,260</u>

During fiscal 2001, the Company recorded charges under SFAS No. 121 of approximately \$64,000 related to the impairment of leasehold improvements and furniture and equipment at one store location.

4. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

At September 30, accrued expenses and other current liabilities were comprised of the following (in thousands):

	<u>2001</u>	<u>2000</u>
Salaries, wages and employee benefits	\$ 5,274	\$ 5,078
Income taxes payable	2,308

	<u>\$ 16,440</u>	<u>\$ 13,327</u>

5. LINE OF CREDIT

The Company's primary sources of working capital consist of cash flows from operations and borrowings under its \$56.0 million credit facility (the "Credit Facility"). The Credit Facility was amended and restated in April 2000 to increase borrowings to the current level, to raise the annual capital expenditure limitation, and to extend the maturity until September 15, 2004. The interest rate on direct borrowings outstanding is based on the prime rate of the Company's lender plus 25 basis points. At any time, the Company at its option may elect an alternative rate for all or part of the direct borrowings outstanding at LIBOR plus 225 basis points. The blended rate at September 30, 2001 was 5.5%. Amounts available for direct borrowings (net of letters of credit outstanding) are limited to the lesser of (a) the unused portion of the Credit Facility or (b) the Aggregate Adjusted Availability ("AAA"), as defined in the agreement as a percentage of eligible inventory and trade receivables. The Credit Facility is secured by a security interest in the Company's inventory, equipment, fixtures and cash. The facility has no financial covenants provided that the AAA does not fall below \$10.0 million.

In such event, the Company must achieve a Minimum Cash Flow, as defined, of not less than zero. At September 30, 2001, there were \$32.2 million of direct borrowings, \$4.1 million of outstanding letters of credit, an AAA of \$23.9 million (\$18.5 million at September 30, 2000) and available borrowings of \$15.9 million. The Company was in compliance with all non-financial covenants per the agreement. In fiscal 2001, 2000 and 1999, the weighted average interest rates on the Credit Facility were 7.5%, 8.6% and 8.1%, respectively. In October 2001, the Credit Facility was amended and restated primarily to increase the collateral base to include the assets acquired in the acquisition of iMaternity (see Note 12).

In addition to borrowings and letters of credit available under the Credit Facility, the Company has a \$3.4 million standby letter of credit that collateralizes an Industrial Revenue Bond and a \$1.0 million letter of credit that collateralizes a government mortgage note (see Note 6).

6. LONG-TERM DEBT

The following table summarizes the Company's long-term debt at September 30 (in thousands):

	<u>2001</u>	<u>2000</u>

	<u>\$ 96,613</u>

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

In connection with the acquisition of Motherhood on August 1, 1995, the Company sold 12⁵/₈% Senior Unsecured Exchange Notes due 2005 (the "Notes") with a face amount of \$92 million. The Notes were issued at 97.934% of their face amount, resulting in an annual effective interest rate of 13.0%. Interest on the Notes is payable semiannually in cash on February 1 and August 1. The Notes were issued by Mothers Work and are unconditionally guaranteed on a senior basis by its subsidiary (see Note 14). The Notes are redeemable at the option of the Company, in whole or in part, at any time on or after August 1, 2000, at 106.25% of their face amount, plus accrued interest, declining ratably to 100% of their face amount on and after August 1, 2002, plus accrued interest. In November 1995, the Company completed an exchange offer whereby the Notes were exchanged for 12⁵/₈% Senior Unsecured Exchange Notes due 2005 which have been registered under the Securities Act of 1933.

The Notes impose certain limitations on the ability of the Company to, among other things, incur additional indebtedness, pay dividends and enter into certain types of transactions. The most restrictive of these covenants limits the Company's ability to repurchase outstanding common stock (see Note 17).

During fiscal 2001, certain of the holders of the Series A Preferred Stock elected to convert 2,591 shares with a stated value of \$727,000 into shares of common stock at an initial conversion rate equal to ten shares of common stock for each share of Series A Preferred Stock. The Company was restricted under the terms of the Notes from paying cash dividends to the holders upon conversion. Accordingly, the Company issued \$331,000 of subordinated notes with unpaid interest compounding annually at the prime rate until paid. The subordinated notes are convertible into common stock, in accordance with the terms of those notes, after August 1, 2003. During the first nine months of fiscal 2002, a total of 11,496 shares of the Company's Series A Preferred Stock (see Note 7) with a stated value of \$3.2 million were converted into 114,955 shares of common stock. The Company was restricted under the terms of the Notes from paying cash dividends to the holders of the Series A Preferred Stock upon conversion. As a result, the Company issued subordinated notes totaling \$2.2 million, on which unpaid interest will accumulate and compound annually at the prime rate until paid. The subordinated notes are convertible after August 1, 2003 into common stock in accordance with the terms of those notes.

7. COMMON AND PREFERRED STOCK

In connection with the Motherhood acquisition on August 1, 1995, the Company issued 41,000 shares of Series A Cumulative Convertible Preferred Stock (the "Series A Preferred Stock") with a stated value of \$11.5 million. The Series A Preferred Stock has a preference in liquidation equal to the

F-16

stated value plus accrued but unpaid dividends. The Company may redeem (but is under no obligation to do so) the Series A Preferred Stock at any time at a price equal to liquidation preference, subject to certain limitations imposed by the terms of the Credit Facility and the Notes agreement.

The holders of the Series A Preferred Stock are entitled to receive annual cash dividends, which are cumulative to the extent not paid, and compound annually at 8.5% of the stated value. No dividends may be paid on common stock or any other shares of capital stock of the Company ranking junior to the Series A Preferred Stock (other than dividends payable in shares of common stock), until all cumulative and current dividends on the Series A Preferred Stock have been declared and paid in full. As of September 30, 2001 and 2000, accrued dividends on the Series A Preferred Stock were \$7,055,000 and \$6,037,000, respectively, and are classified as long-term liabilities in the accompanying Consolidated Balance Sheets.

The Series A Preferred Stock is convertible into shares of common stock (i) between August 1, 2000 and May 1, 2006, at an initial conversion rate (subject to adjustments for stock splits, stock dividends, recapitalizations and similar events) equal to ten shares of common stock for each share of Series A Preferred Stock, or (ii) after November 1, 2006, at a conversion rate determined by dividing the aggregate stated value of all shares of Series A Preferred Stock to be converted by 90% of the then-market price of the common stock, as defined. After a holder's exercise of the conversion right under (i) above, the Company may only redeem the Series A Preferred Stock from the proceeds of an equity offering. The limitation on this redemption right may only be modified with the consent of the holders of a majority of the outstanding principal amount of the Notes. Upon any conversion, the holder of the Series A Preferred Stock to be converted is entitled to receive payment of all accrued and unpaid dividends in cash unless the Company is prohibited by limitations contained in the Notes agreement. In the case of a conversion under (i) above, if dividends are not paid in cash due to restrictions imposed by the Credit Facility or the Notes, the Company will issue a subordinated note. If the note is not paid by August 1, 2003, then all principal and accrued interest may be converted into that number of shares of common stock determined by dividing the amount due by the then-market price, as defined. In the case of a conversion under (ii) above, if accrued dividends are not paid in cash, then such dividends are convertible into common stock on the same basis as the shares of Series A Preferred Stock.

In connection with the Rights Agreement dated March 17, 1997 (see Note 8), the Company authorized 10,000 shares of Series B Junior Participating Preferred Stock (the "Series B Preferred Stock"). The Series B Preferred Stock can be purchased in units equal to one one-thousandth of a share (the "Series B Units") under the terms of the Rights Agreement. The holders of the Series B Units are entitled to receive dividends when and if declared on common stock. Series B Units are junior to the common stock and Series A Preferred Stock for both dividends and liquidations. Each Series B Unit votes as one share of common stock.

8. RIGHTS AGREEMENT

In accordance with the Company's Rights Agreement, the Company provided and will provide one Right outstanding for each share of Mothers Work common stock now or hereafter outstanding. Under certain limited conditions, as defined in the Rights Agreement, each Right entitles the registered holder to purchase from the Company one Series B Unit at \$85 per unit, subject to adjustment. The rights expire on October 9, 2005 (the "Final Expiration Date").

F-17

On March 17, 1997, the Company amended its Rights Agreement to provide the independent directors of the Company with some discretion in determining when the Distribution Date (as defined in the Rights Agreement) shall occur and the date until which the Rights may be redeemed. In addition, the Amended and Restated Rights Agreement exempts from its operation any person that acquires, obtains the right to acquire, or otherwise obtains beneficial ownership of 10.0% or more of the then outstanding shares of the Company's common stock (an "Acquiring Person") without any intention of changing or influencing control of the Company provided that such person, as promptly as practicable, divests himself or itself of a sufficient number of shares of common stock so that such person would no longer be an Acquiring Person.

The Rights are not exercisable until the Distribution Date, which will occur upon the earlier of (i) ten business days following a public announcement that an Acquiring Person has acquired beneficial ownership of 10.0% or more of the Company's outstanding common stock, and ten business days following the commencement of a tender offer or exchange offer that would result in a person or group owning 10.0% or more of the Company's outstanding common stock, or (ii) such later date as may be determined by action of a majority of the independent directors.

The Rights have certain anti-takeover effects. The Rights will cause substantial dilution to a person or group that attempts to acquire the Company without conditioning the offer on the redemption of the Rights. The Rights can be mandatorily redeemed by action of a majority of the independent directors at any time prior to the earlier of the Final Expiration Date and the Distribution Date for \$.01 per Right.

Upon exercise and the occurrence of certain events, as defined in the Rights Agreement, each holder of a Right, except the Acquiring Person, will have the right to receive Mothers Work common stock or common stock of the acquiring company having a value equal to two times the exercise price of the Right.

On October 14, 2001, the Company amended its Rights Agreement to include Centre Partners and its affiliates as exempt persons under the terms of the Rights Agreement. In addition, the Company amended its Rights Agreement on June 4, 2002 to confirm the status of Meridian Venture Partners and its affiliates, collectively referred to as Meridian Venture Group, as an exempt person and to exclude, under certain circumstances, any deemed attribution of beneficial ownership between Meridian Venture Group and Robert Brown, a general partner of Meridian Venture Group funds.

9. STOCK OPTION PLANS AND WARRANTS

The Company has two stock option plans: the Director Stock Option Plan and the Amended and Restated 1987 Stock Option Plan. Under the Director Stock Option Plan, each outside director is granted 2,000 fully vested options on an annual basis at an exercise price equal to the fair market value on the grant date. Under the 1987 Stock Option Plan, as amended and restated, officers and certain employees may be granted options to purchase the Company's common stock at exercise prices equal to the fair market value of the stock at the date of grant or at other prices as determined by the Compensation Committee of the Board of Directors. No options have been granted by the Company at less than the fair market value of the Company's common stock on the date of grant for any of the periods presented. Up to a total of 1,425,000 options may be issued under the plans. Options outstanding generally vest ratably over 5 years and generally expire in ten years from the date of grant.

Stock option activity for all plans was as follows:

Options for 713,075, 544,512 and 485,889 shares were exercisable as of September 30, 2001, 2000 and 1999, respectively, and had a weighted-average exercise price of \$10.96, \$11.49, and \$11.62 for those respective periods.

The Company has adopted the disclosure requirements of SFAS No. 123, "Accounting for Stock-Based Compensation," but has elected to continue to measure compensation expense in accordance with APB Opinion No. 25, "Accounting for Stock Issued to Employees." Accordingly, no compensation expense for stock options has been recognized for stock option awards granted at fair market value. Had the compensation cost for the Company's stock-based compensation plans been determined based on the fair value at the grant dates for awards under those plans in accordance with the provisions of SFAS No. 123, the Company's net earnings and earnings per share would have been reduced to the pro forma amounts indicated below. The effect of applying SFAS No. 123 in this pro forma disclosure is

F-19

not indicative of future amounts. SFAS No. 123 does not apply to options awarded prior to fiscal year ended September 30, 1996. Additional option awards are anticipated in future years.

During the first nine months of fiscal 2002, a total of 260,700 options were granted to certain employees and non-employee directors for the purchase of the Company's common stock at prices not less than the fair market value of the Company's common stock on the date of the grant.

F-20

In connection with the Company's acquisition of A Pea in the Pod on April 5, 1995 ("the Pea Acquisition"), the Company entered into a \$15.0 million subordinated debt agreement and issued warrants to the lender to purchase up to 140,123 shares of common stock at \$.01 along with the subordinated debt. The warrants were valued at their estimated fair market value of \$1.0 million and were recorded as an original debt discount on the subordinated debt incurred. The determination of the fair value of the warrants was estimated at the date of issuance based on the then fair market value of the Company's common stock discounted at 12% with an estimated life of seven years. The warrants were immediately vested upon grant and expire in April 2002. These warrants were exercised on March 12, 2002. A portion of the proceeds from the sale of the Notes was used to repay this subordinated debt.

10. INCOME TAXES

For the years ended September 30, income tax provisions were comprised of the following (in thousands):

	2001	2000	1999
Current provision	\$ 2,920	\$ 113	\$ 2,467
Deferred provision	536	4,136	957
	\$ 3,456	\$ 4,249	\$ 3,424

The reconciliations of the statutory federal rate to the Company's effective income tax rates for the years ended September 30, were as follows:

The deferred tax effects of temporary differences giving rise to the Company's net deferred tax assets at September 30 were as follows (in thousands):

	2001	2000
<i>Deferred tax assets:</i>		
Net operating losses carryforwards	\$	\$ 1,995
Depreciation	9,207	7,263
Deferred rent	1,651	1,771

	13,174	13,764
<i>Deferred tax liabilities:</i>		
Prepaid expenses	(38)	(92)
	\$ 13,136	\$ 13,672

The Company had net operating loss carryforwards for tax purposes at September 30, 2000 of approximately \$5,869,000, of which \$4,309,000 was acquired in the acquisitions of A Pea in the Pod and Motherhood. The Company also had alternative minimum tax credits of approximately \$394,000 that could be utilized against regular income taxes in the future. The remaining net operating loss carryforwards and alternative minimum tax credits as of September 30, 2000 were fully utilized during fiscal 2001.

No valuation allowance has been provided for the net deferred tax assets. Based on the Company's historical levels of taxable income, as adjusted for the restructuring and the nondeductibility of goodwill amortization and the Episode operations (see Note 13), management believes it is more likely than not that the Company will realize the net deferred tax assets at September 30, 2001. Furthermore, management believes the existing net deductible temporary differences will reverse during periods in which the Company generates taxable income. There can be no assurance, however, that the Company will generate taxable earnings or any specific level of earnings in the future.

11. COMMITMENTS AND CONTINGENCIES

The Company leases its retail facilities and certain equipment under various noncancelable operating leases. Certain of these leases have renewal options. Total rent expense under operating leases amounted to \$49,572,000, \$44,210,000 and \$38,001,000 in fiscal 2001, 2000 and 1999, respectively. Such amounts include contingent rentals based upon a percentage of sales totaling \$1,116,000, \$717,000 and \$1,261,000 in fiscal 2001, 2000 and 1999, respectively.

F-22

11. COMMITMENTS AND CONTINGENCIES (Continued)

Future annual minimum operating lease payments, including payments for equipment leases, as of September 30, 2001 are as follows (in thousands):

From time to time, the Company is named as a defendant in legal actions arising from its normal business activities. Although the amount of any liability that could arise with respect to currently pending actions cannot be accurately predicted, in the opinion of management of the Company, any such liability will not have a material adverse effect on the financial position or operating results of the Company.

12. SUBSEQUENT EVENTS

iMaternity Acquisition

On October 17, 2001 (the "Acquisition Date"), the Company acquired eSpecialty Brands, LLC ("iMaternity") for \$19,863,000, including transaction costs. The purchase price consisted of 302,619 shares of Series C Cumulative Redeemable Preferred Stock (the "Series C Preferred Stock") valued at an estimated \$59.48 per share, or \$17,999,000, as determined by an independent third party appraiser, detachable warrants to purchase 350,000 shares of the Company's common stock with an estimated fair value of \$874,000, as determined by an independent third party appraiser using the Black-Scholes pricing model with a 30% discount applied due to the lack of marketability, and transaction costs of \$990,000. The following assumptions were used in the pricing model: dividend yield of zero, risk free interest rate of 4.45%, volatility factor of the expected market price of the Company's common stock of 60.0% and an expected life equal to the contractual term of the warrants of 7 years. The excess by which the stated value of the Series C Preferred Stock exceeds its carrying value is being accreted to the earliest redemption date using the effective interest method. This accretion will be recorded as dividends.

The holders of the Series C Preferred Stock are entitled to receive dividends, which are cumulative to the extent not paid, and compound quarterly at 8.625% of the stated value. Dividends accrue for the first year and are thereafter paid out in part in cash with the balance accruing, subject to certain limitations imposed by the Credit Facility and the holders of the Notes. No dividends may be paid on common stock, or on any other shares of capital stock of the Company ranking junior to the Series C Preferred Stock, other than dividends payable in shares of common stock, until all cumulative and current dividends on the Series C Preferred Stock have been declared and paid in full. The Series C Preferred Stock is junior to the Series A Preferred Stock in liquidation and *pari passu* to the Series A Preferred Stock in dividends.

Upon a liquidation, dissolution or winding up of the Company, as defined, after any payments to the holders of the outstanding shares of the Company's Series A Preferred Stock, and before any payments to the holders of junior stock, the holders of the Series C Preferred Stock have the right to

F-23

receive in such liquidation, distribution or winding up an amount equal to the stated value plus the greater of accrued and unpaid dividends or the participation amount, which is defined as an amount equal to 10% of the increase in market value per share of the Company's common stock for the period from the closing of the iMaternity acquisition until the liquidation, dissolution or winding up of the Company, as defined.

On the earlier of October 18, 2006, or upon a change of control or other fundamental transaction, as defined, the holders of the Series C Preferred Stock have the right to require the Company to purchase their shares for cash at a price equal to the stated value plus accrued and unpaid dividends (the "put right"). If the Company defaults on its obligation under the put right, the holders of the outstanding Series C Preferred Stock have the right to convert their Series C Preferred Stock into shares of the Company's common stock, provided that in no event shall the aggregate number of shares issued upon such conversion, plus 350,000 shares of common stock related to the warrants issued in connection with the iMaternity acquisition, exceed an amount equal to 19.9% of the number of outstanding shares of the Company's common stock outstanding immediately preceding the iMaternity acquisition. At any time on or after April 18, 2004, the Company has the right to purchase the outstanding Series C Preferred Shares for cash at a price equal to the stated value plus the greater of accrued and unpaid dividends or the participation amount, as defined.

Under the terms of the merger agreement, at any time after the closing of the iMaternity acquisition, the Company has the right to make an offer to purchase for cash all outstanding shares of Series C Preferred Shares at a price equal to the stated value plus accrued and unpaid dividends. If a majority of the holders of the outstanding Series C Preferred Stock, as defined, fail to accept such offer, then such holders forfeit their warrants, or if any warrant has been exercised and the underlying common stock has been sold by any holder, then such holder forfeits

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

accrued and unpaid dividends on such holder's Series C Preferred Stock. Further, upon such failure to accept such offer to purchase, all holders of the outstanding Series C Preferred Stock forfeit certain protective provisions under the Agreement and Plan of Merger, including prohibitions on issuing senior stock or parity stock, as defined, and redeeming junior securities.

The acquisition has been accounted for under the purchase method of accounting. Based on the preliminary allocation of purchase price, the application of the purchase method resulted in approximately \$25,785,000 of excess purchase price over the estimated fair value of the net tangible assets acquired of \$21,150,000, less assumed liabilities of \$17,995,000 and costs to exit certain operations and locations of iMaternity of \$9,077,000. The Company recognizes that certain identifiable intangible assets were acquired, primarily trademarks, trade names, and Internet domain names. However, as determined by an independent third party appraiser, based on the nature of the items and use within the Company's business and industry, no value was assigned to any of the identifiable intangibles. Accordingly, the excess purchase price has been assigned to goodwill.

In connection with the purchase price allocation, the fair value of the acquired finished goods inventory was based on an estimate of the net realizable value of the inventory less estimated costs to dispose. A significant portion of the acquired inventory is expected to be sold at substantial discounts in connection with store closures or required changes in assortment mix at the acquired stores to align with the Company's merchandising strategies.

Additionally, as part of the purchase price allocation, the Company recorded \$1.7 million of liabilities relating to claims by iMaternity vendors for amounts owed by iMaternity that had not been disclosed to the Company by the sellers prior to the closing. The Company is currently investigating

F-24

these claims. If the Company has liability for these undisclosed amounts, it has the right to seek indemnification from the sellers. If the Company were to prevail in an indemnification claim, it could reduce the number of outstanding shares of the Series C Preferred Stock issued to the sellers, or, if the sellers no longer hold shares of our Series C Preferred Stock, receive cash damages. In that event, the goodwill recorded in connection with the transaction would be correspondingly reduced. The Company believes the \$1.7 million represents a reasonable estimate of its potential liability for these vendor claims.

The Company developed a plan in connection with the acquisition to close approximately 92 iMaternity stores and reopen the remaining acquired locations under the Company's existing store concepts of Motherhood and Mimi Maternity. Further, the plan included the shutdown of iMaternity's corporate headquarters and warehouse operation in Chicago, as well as its manufacturing and warehousing facilities in Costa Rica. In connection with the plan, the Company recorded severance costs for involuntarily terminated employees of the acquired business of \$2,922,000, lease termination fees and related legal costs of \$4,200,000 and accrued for other costs to be incurred to complete the exit activities of the acquired business totaling \$1,955,000. Approximately 850 employees of the acquired business were expected to be terminated as part of the plan, consisting of 528 corporate and 322 store employees. The Company anticipates that it will substantially complete the entire integration plan within one year of the Acquisition Date.

The following table sets forth the net non-cash assets that were acquired as a result of the iMaternity acquisition (in thousands):

Non-cash assets (liabilities):

Securities Offerings

On June 10, 2002, the Company filed two registration statements with the Securities and Exchange Commission (the "SEC"), one of which relates to the offering of 1,100,000 shares, which includes 100,000 shares being sold by selling stockholders, and one of which relates to the offering of \$125 million of % Senior Notes due , 2010. The equity offering is not contingent on the debt offering, but the debt offering is contingent on the equity offering. The Company plans to use the net proceeds from these offerings to repay the existing Notes, to repay subordinated notes issued to the holders of Series A Preferred Stock in lieu of accrued and unpaid dividends, to pay all accrued and unpaid dividends on Series A Preferred Stock and Series C Preferred Stock, to redeem all outstanding

F-25

shares of Series A Preferred Stock and to purchase all outstanding shares of Series C Preferred Stock, to repay outstanding borrowings under the Credit Facility and for general corporate purposes. There can be no assurance that either of these offerings will be completed or that they will generate net proceeds sufficient for these planned uses.

13. RESTRUCTURING CHARGES

During fiscal 1998, the Company announced that all of its Episode stores, which featured non-maternity women's apparel, would be closed or converted into maternity clothing stores. In connection with the closure and conversion of the 51 Episode stores in operation at the time the restructuring plan was entered into, the Company recorded charges totaling \$20.9 million (\$13.8 million net of tax benefit of \$7.1 million) which were reflected in the Consolidated Statements of Operations as cost of goods sold (\$10.3 million) and restructuring charges (\$10.6 million). The charges recorded to cost of goods sold related to inventory purchase commitments and inventory write-downs based on estimated liquidation values. Approximately 159 employees were expected to be terminated as part of the restructuring plan, which consisted of 15 corporate employees and 144 store employees. The restructuring charges were comprised of \$2.9 million of legal fees and expenses, lease buy-out features and other known costs associated with the transfer of leases, \$7.3 million for losses on fixed assets and leasehold improvements to be disposed of or sold (including leasehold improvement commitments), \$0.2 million for severance, and the remainder for other miscellaneous costs associated with the closures and conversions such as additional legal fees and royalty payments. There were no fixed assets or leasehold improvements of the Episode division held and used by the Company subsequent to the Episode closure. All amounts recorded as restructuring charges associated with the write-downs of fixed assets and leasehold improvements were estimated based on the remaining net book value of the assets to be disposed of or sold, and the estimated sale proceeds. Depreciation and amortization associated with the fixed assets and leasehold improvements to be disposed of or sold were included in selling, general and administrative expenses up until the time the assets were available for sale (which approximates the timing of the actual disposal or sale of the assets) upon which the remaining net book value, net of any sale proceeds, was recorded against the restructuring charges. Prior to September 30, 1998, the Company closed and converted 21 store locations and terminated 69 employees, to whom the \$0.2 million in accrued severance was paid out and charged against the liability. During the first quarter of fiscal 1999, the Company sold 24 (of the remaining 30 stores as of September 30, 1998) to Wet Seal, Inc. and terminated 72 employees, to whom no severance was paid. The remaining 6 stores were closed within the six-month period ended March 31, 1999. The Company hired a liquidating service to manage the remaining 6 store locations and to liquidate the remaining inventory during this period. The remaining 18 employees, as planned, were terminated during the three-month period ended March 31, 1999. No severance was paid out related to the final tranche of employees terminated under the restructuring plan.

At September 30, 1998, approximately \$4.6 million of the restructuring costs (including charges recorded to cost of goods sold) remained in accrued expenses. Of the \$4.6 million, \$2.1 million related to losses on purchase commitments for inventory and leasehold improvements, \$2.2 million related to legal fees and expenses, lease buy-out features, and other fees associated with the transfer of leases, and the remainder was for other miscellaneous charges. During fiscal 1999, the Company recorded charges of \$3.6 million against the reserve which included \$2.0 million of charges to settle inventory and leasehold improvement purchase commitments and \$1.6 million of costs incurred to settle lease transfers. At September 30, 1999, approximately \$1.0 million of the restructuring costs remained in

F-26

accrued expenses. During fiscal 2000, the Company finalized its remaining lease transfer and incurred costs for miscellaneous related matters associated with this divestiture and to settle inventory purchase commitments. At September 30, 2000, approximately \$0.3 million of the restructuring costs remained in accrued expenses. It is expected that the full amount will be used for legal fees and other fees related to the final lease transfer. During fiscal 2001 the Company charged an additional \$0.1 million against the reserve for legal fees related to the lease transfer and settlement of a vendor dispute, leaving a balance of \$0.1 million for any outstanding fees.

14. SUBSIDIARY GUARANTOR

Edgar Filing: MOTHERS WORK INC - Form 10-K/A

Pursuant to the terms of the indenture relating to the Notes, Cave Springs, Inc. (100% owned subsidiary of Mothers Work, the "Subsidiary Guarantor") has jointly and severally provided an unconditional guarantee of the obligations of Mothers Work with respect to the Notes. The Subsidiary Guarantor charges royalties to Mothers Work for the retail use of its intellectual property and charges interest on the balance of any unpaid royalties and/or funds advanced to Mothers Work. Substantially all of the assets of the Subsidiary Guarantor consist of the intercompany receivable from Mothers Work for unpaid royalties, cash advances and interest. All intercompany amounts are eliminated in consolidation. There are no restrictions on any of the assets of the Subsidiary Guarantor which would limit its ability to transfer funds to Mothers Work in the form of loans, advances or cash dividends, except as provided by applicable law.

15. EMPLOYMENT AND CONSULTING AGREEMENTS

The Company has employment agreements with its Chairman of the Board/Chief Executive Officer ("CEO") and its President/Chief Operating Officer ("COO"). These agreements provide for base compensation (approximately \$400,000 each for fiscal 2001 and \$377,000 each for fiscal 2000), increasing annually thereafter in an amount to be determined by the Compensation Committee of the Board of Directors and salary continuation and severance payments should employment of the officers be terminated under specified conditions, as defined. The agreements, which expire on September 30, 2003, automatically extend for successive one-year periods extending the expiration date into the third year after the extension, unless either the Company or the executive gives written notice to the other party that the term will not extend. Additionally, the CEO and COO are entitled to an annual cash bonus and stock options based on performance, as defined.

16. EMPLOYEE BENEFIT PLANS

The Company has a 401(k) savings plan for full-time employees who have at least one year of service and are 21 years of age. Employees can contribute up to 20% of their annual salary. Effective January 1, 1999, employees who meet certain criteria are eligible for a matching contribution from the Company based on a sliding scale. Company matches are made on the first day of the succeeding calendar year. Company matches vest fully on the employee's 4th anniversary date. Company matching contributions totaling \$53,000 and \$47,000 were made in fiscal 2001 and 2000, respectively. There were no Company contributions in fiscal 1999.
