- (2) Option values were computed using the Black-Scholes pricing model. The assumptions used in the model were: expected volatility of .2399; zero-coupon government bond yield of 5.3%; dividend yield of 1.26%; and time to exercise of 10 years. Additionally, a 5.72% discount was applied to reflect three-year pro rata vesting (3% per year probability of forfeiture). The actual value, if any, an executive may realize will depend on the amount by which the stock price on the date of exercise exceeds the exercise price. There is no assurance that the value actually realized by an executive will be at or near the value estimated by use of the Black-Scholes model.

### Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

The following table provides information with respect to options exercised during fiscal 2001 and the number and value of stock options outstanding at the fiscal year-end.

Name	Shares Acquired On Exercise (#)	Value Realized (\$)	Number of Securities Underlying Unexercised Options at Fiscal Year-End (#)		Value of Unexercised In-the-Money Options at Fiscal Year-End (\$)

James A. Zimmerman....	2,800	81,963	34,367	9,133	631,582	3,450

- (1) The amount listed represents the difference between the closing price of the Company's Class A Stock at the end of fiscal 2001 (\$51.05) and the exercise price per share, multiplied by the number of shares covered by the options.

### Pension Plan Table

The following table reflects the estimated aggregate retirement benefits to which certain executive officers of the Company, including each of the named executive officers in the Summary Compensation Table, are entitled under the provisions of the Company's non-contributory, funded Employees Retirement Plan and the Executive Supplemental Retirement Plan (the Plans). The amount of benefit assumes that the executive has completed a minimum of 15 years of service. The benefit amount will be reduced for service of less than 15 years, or if the executive retires prior to attaining age 63. Additional benefits are not earned for service in addition to 15 years.

Edgar Filing: MEDIA GENERAL INC - Form DEF 14A

Highest Five-Year Average Compensation	Lifetime Annual Benefit at or After Normal Retirement Date
---	--

\$ 150,000	\$ 82,500
250,000	137,500
350,000	192,500
450,000	247,500
550,000	302,500
650,000	357,500

1,250,000	687,500
1,350,000	742,500
1,450,000	797,500

The amount of benefit for the executive officers named in the Summary Compensation Table is derived by averaging each officer's five highest years of "Annual Compensation," as reflected in the "Salary" and "Bonus" columns of such tables. Retirement benefits shown are payable without offset for Social Security in monthly installments as life annuities, or in other optional forms, upon retirement after attaining age 63. Benefits for executives who participated in both plans prior to January 1, 1991, are reduced by the amount of benefits payable to them under pension plans of former employers.

Audit Committee Report

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors and operates under a written charter adopted by the Board. Company management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling these oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

In addition, the Committee reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. The

10

Committee also has discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures and letter required by the Independence Standards Board and received by the Committee, and considered the compatibility of non-audit services with the auditors' independence.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the

## Edgar Filing: MEDIA GENERAL INC - Form DEF 14A

Company's internal controls and the overall quality of the Company's financial reporting. The Committee held two meetings during 2001.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements at, and for the three years ended December 30, 2001, be included in the Annual Report on Form 10-K for filing with the SEC.

- (a) Fees billed by Ernst & Young for professional services rendered for the audit of the Company's annual financial statements and for the reviews of the financial statements included in the Company's quarterly reports on Form 10-Q for the fiscal year ended December 30, 2001.
- (b) Fees billed by Ernst & Young for services rendered to the Company during fiscal 2001, other than the services described above under "Audit Fees." These fees consisted of \$175,000 for audit-related services, principally services performed in connection with statutory or regulatory audits of employee benefit plans and the review of non-recurring SEC filings, and \$91,000 for tax-related advice.

### Compensation Committee Report

Media General's compensation system is a management tool that is used to support and reinforce key operating and strategic goals. It is applied consistently to all salaried employees.

The Company's compensation programs for management employees are designed to build a strong link between an individual's performance and his or her related compensation opportunities as well as to align the interests of key Media General employees with those of the Stockholders. These two elements induce eligible employees to be more responsive to the needs of the Company. Periodically, the Company reviews its compensation programs with independent consultants to ensure that, corporately, it is competitive and is taking advantage of current thinking in the field of compensation management.

## Edgar Filing: MEDIA GENERAL INC - Form DEF 14A

The Compensation Committee feels that a tightly administered program that rewards eligible managers for appropriate performance is a constructive way to attract and retain talented personnel. Eligibility to participate in Media General's annual and long-term incentive programs is determined by the Committee assisted by recommendations from the Chief Executive Officer.

There are three components to total executive compensation at Media General: base salary and short- and long-term incentives. Using both general and specific media industry surveys targeted to the Company's size along with published data on executive compensation levels, the Committee has established second quartile (51st-75th percentile) targets for each component. The number of companies participating in such surveys varies but averages about 75 in any given year.

Base salary levels are determined with reference to external competitive levels (as described previously) and internal equity. Pay and performance then are linked through the use of the two incentive programs.

The short-term incentive program combines specific threshold, target and maximum performance goals established at the beginning of the measurement year with award targets, as described previously. All goals are based on profit and asset utilization levels and are established individually for each business unit and for the Company. Cash awards are paid based on the accomplishment of these goals. Maximum awards are attained at 150% of goal. Barring exceptional circumstances, which, in the Committee's opinion, were not under operating unit control, no bonuses are paid to units earning less than 80% of their goal.

A long-term incentive program is used to reward sustained stock price growth and/or achievement of long-term, pre-established earnings per share growth targets. Awards in this program are made in the form of stock options (typically awarded to eligible participants annually at fair market value on the grant date, vesting over a three-year period) and restricted stock (typically granted to selected executive officers every other year with restrictions (currently ten years) on sale that may be lifted if pre-established earnings per share growth targets are met). The combined expected value of stock-based awards is targeted to achieve competitive levels of total compensation as described earlier; for those selected executive officers who are eligible to receive both restricted stock and stock options, annual grants are awarded on the basis that 60% of the competitive long-term incentive target would be delivered through restricted stock. The Committee notes that the relative value of a given award at the end of the measurement period will depend on the growth in value of the common stock of the Company

12

over the time period. The vesting and ten-year trading restrictions emphasize the long-term nature of these awards and encourage eligible employees to remain in the employ of the Company.

Section 162(m) of the Internal Revenue Code disallows a deduction for compensation in excess of \$1,000,000 paid to any of the executive officers named in the Summary Compensation Table, unless such excess compensation qualifies as "performance-based compensation" under Section 162(m) and related Internal Revenue Service regulations. The Compensation Committee seeks to maximize the deductibility of compensation paid to executive officers but also recognizes that the payment of non-deductible compensation may at times be in the best interests of the Company.

CEO Compensation During 2001

## Edgar Filing: MEDIA GENERAL INC - Form DEF 14A

Mr. Bryan's base salary in 2001 of \$875,000 was 5.4% above that of the preceding year. In the aggregate, corporate performance did not attain the targeted level for any bonus payment, and none was paid. The Company also paid \$397,139 of premium on Mr. Bryan's behalf and a tax gross-up of \$327,897 during the year as the Company replaced the benefits Mr. Bryan had under an existing company-funded life insurance plan with a variable life insurance policy. At the beginning of 2001, a stock option award of 38,100 shares of Media General Class A Stock was made to Mr. Bryan. As in the past, this award as well as Mr. Bryan's base salary and bonus formula were developed in accordance with competitive practice, as outlined previously, and were based on the standard provisions of Media General's annual and long-term incentive plans.

### Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (Exchange Act) requires that the Company's Executive Officers, Directors and persons owning more than 10% of the Company's Class A Stock file reports of ownership and changes in ownership with the SEC and with the Company.

Based solely upon a review of such reports furnished to the Company, the Company believes that during the fiscal year ended December 30, 2001, the Executive Officers, Directors and persons owning in excess of 10% of the outstanding shares of the Company's Class A Stock complied with the filing requirements of Section 16(a), except that Mr. Bryan, individually and as a co-trustee of a family trust, filed two forms, each reporting one transaction, after the prescribed filing dates, and Mr. Morton filed one report, involving one transaction, after the prescribed filing date, and except that no Section 16(a) filings were made by GAMCO Investors, Inc., or Gabelli Funds, LLC (the Gabelli entities), each a 10% holder. The Gabelli entities previously have asserted that such filings were not required by reason of an exemption for shares held by an institution without the purpose or effect of changing or influencing the control of an issuer. The foregoing exemption is not available to the Gabelli entities, in the Company's view. Several of the Gabelli entities previously also have asserted the absence of a pecuniary interest in the shares they beneficially own. See "Voting Securities and Principal Holders Thereof."

Ernst & Young LLP has examined the accounts of the Company for many years, including 2001. The Company has been advised by Ernst & Young LLP that it is an independent public accounting firm within the meaning of the applicable rules and regulations of the SEC. A representative of Ernst & Young LLP will be present at the Annual Meeting to make a statement, if he desires to do so, and to respond to appropriate questions from Stockholders.

#### STOCKHOLDER NOMINATIONS AND PROPOSALS

Stockholders who believe they are eligible to have their proposals included in the Company's Proxy Statement for the 2003 Annual Meeting of Stockholders, in addition to other applicable requirements established by the SEC, must ensure that their proposals are received by the Secretary of the Company not later than December 10, 2002.

The By-laws of the Company establish an advance notice procedure for eligible Stockholders to make nominations for Director and to propose business to be transacted at an Annual Meeting. The Company's By-laws additionally provide that nominations for Director and proposals for business must be given to the Secretary of the Company not less than 90 days nor more than 120 days prior to the date of an Annual Meeting. The Company's By-laws also require that certain specific information accompany a Stockholder notice of nomination or proposal for business.

Officers and other employees of the Company may participate in such solicitation, for which they will receive no special or additional compensation. In addition, the Company has retained D. F. King & Co. to assist in the solicitation of proxies for a basic fee of \$8,000, plus reimbursement of out-of-pocket expenses.

OTHER MATTERS

Management does not intend to present, nor, in accordance with the Company's By-laws, has it received proper notice from any person who intends to present, any matter for action by Stockholders at the Annual Meeting, other than as stated in the accompanying Notice. However, the enclosed proxy confers discretionary authority with respect to the transaction of any other business which properly may come before the meeting, and it is the intention of the persons named in the enclosed proxy to vote the same in accordance with their best judgment.

Electronic Delivery of Proxy Materials and Annual Report

The Notice of Annual Meeting, Proxy Statement and 2001 Annual Report are available at www.mediageneral.com. Instead of receiving paper copies of these materials in the mail in the future, most Stockholders can elect to receive an email which will provide a link to these documents on the Internet. Opting to receive proxy materials online helps to reduce the Company's printing and mailing costs and provides Stockholders with a convenient, automatic link to the proxy vote site.

Most Stockholders desiring to enroll in this electronic delivery service may do so by visiting www.investpower.com and following the prompts for email enrollment; others will find a separate page with electronic delivery information in the envelope containing their proxy materials. "Street name" Stockholders can check the information in the proxy materials provided by their bank or broker.

Enrollment is effective until cancelled, and Stockholders may withdraw consent to electronic delivery at any time and resume receiving Stockholder communications in printed form. Please call Media General Investor Relations at (804) 649-6103 with any questions.
