SHAREHOLDER LETTER

YOUR FUND'S GOAL: TEMPLETON DRAGON FUND SEEKS LONG-TERM CAPITAL APPRECIATION BY INVESTING AT LEAST 45% OF ITS TOTAL ASSETS IN THE EQUITY SECURITIES OF "CHINA COMPANIES," AS DEFINED IN THE FUND'S PROSPECTUS.

Dear Shareholder:

This annual report for Templeton Dragon Fund covers the period ended December 31, 2001. During the year under review, China entered the World Trade Organization (WTO) in December, ending its 15-year quest. Many observers expect China's accession to bring with it a wide range of reforms, which we believe would further open its economy and lead to greater global integration and increased access for foreign investors. We expect the country's entry to the WTO may bode well for its stock markets if reforms follow that lead to better

corporate governance, particularly in regard to increased transparency and protection for minority shareholders. The government announced that foreign firms would eventually be allowed to sell shares in a type of depositary receipt system, foreign fund managers would be able to establish joint ventures with local firms to manage mutual funds for Chinese investors, and foreign investors would be able to buy mutual funds invested in the domestic, Chinese stock market. Another positive change, in our view,

The dollar value, number of shares or principal value, and complete legal titles of all portfolio holdings are listed in the Fund's Statement of Investments (SOI). The SOI begins on page 11.

was President Bush's certification to grant permanent normal trade relations to China with the U.S., which should further support Chinese businesses.

Despite slowing global economic growth during the reporting period, China's economy grew an annualized 7% in the third quarter after expanding an annualized 7.9% in the first half of 2001./1/ Moreover, according to government estimates, China's successful bid to host the 2008 Olympic Games could add an average of 0.3% to 0.4% to its annual growth in the next seven years./2/ During 2001,

foreign direct investment into China rose 14.9% to US\$46.8 billion as firms sought to enter the market in hopes of benefiting from the nation's entry into the WTO./3/

Soon after China's approval into the WTO, Taiwan's entry also was approved. In a move aimed at improving the island's economic status, Taiwan officially lifted a 50-year ban on direct trade and investment in China. But trade flows between Taiwan and China fell 10.1% during the first nine months of 2001 compared with the same period in 2000./4/ Taiwan's gross domestic product (GDP) contracted 4.2% in third quarter 2001 compared with third quarter 2000, as global demand for exports continued to deteriorate, compared with a 2.4% decline in the second quarter of 2001 versus the second quarter of 2000./5/ October exports declined more than 12% compared to a year earlier, after falling a record 27% in September.

Hong Kong's third quarter 2001 GDP contracted 0.3% versus third quarter 2000, compared to a 0.8% expansion in second quarter 2001 versus second quarter 2000. In our view, if falling export revenues, low domestic demand and persistent deflation and unemployment continue, these trends may lead to slower

economic growth. Hong Kong's government cut its 2001 growth forecast from 1% to 0%. Third quarter unemployment jumped to 5.3% from 4.5% in the preceding quarter.4 On the brighter side, Hong Kong was named the world's freest economy in the Heritage Foundation survey for the eighth consecutive year./6/

In November 2001 elections, Taiwanese President Chen Shui-bian's Democratic Progressive Party replaced the Kuomintang as the largest party in the legislature with 87 out of 225 seats. The market considered this positive news because it should make Taiwan politics more transparent. While urging China to accept the people's choice for independence, Chen reassured China that he would not make any major cross-strait policy changes. Mainland leaders have refused to negotiate with Chen unless he concedes to the One China policy.

In early November, Hu Jintao, Vice President of the Chinese government and Vice Chairman of the Central Military Commissions, made his first visits to England, France, Germany and several other European countries to promote trade and bilateral relationships. According to the THE ECONOMIST, Hu may succeed President Jiang Zemin when Jiang retires as the Communist party's political leader, possibly by 2003. Many believe Hu's trip was aimed at exposing him to western leaders, which could in turn help lead to a smooth transition of leadership. China successfully hosted the Asia-Pacific Economic Cooperation (APEC) summit in Shanghai in October. During the summit, Asian leaders discussed the challenges and benefits of globalization and the new economy brought forth by advanced technologies. Additionally, for the first time, the leaders issued a joint statement on countering terrorism.

Within this environment, Templeton Dragon Fund produced a +16.95% cumulative total return in market-price terms and +0.75% in net asset value terms for the year ended December 31, 2001, as shown in the Performance Summary on page 7.

During the reporting period, we identified a number of value stocks in the China H (Hong Kong listed Chinese companies) and Red Chip (Hong Kong listed companies with significant exposure to China) categories, and we increased our weighting in such companies. We believe that many of these China-related companies may benefit from China's accession into the WTO, especially if reforms are subsequently implemented. We sold the Fund's holdings in China's Shanghai and Shenzhen B markets as stock prices exceeded our estimation of their fair value after experiencing substantial price rises earlier in 2001.

We increased our exposure to Taiwan as we found stocks in the technology sector selling at what we considered attractive prices. The technology crash and reduced electronics products export demand, particularly from the U.S., resulted in substantial share price declines. We now believe that many stocks are trading below their intrinsic value. As a result of the above changes, the Fund's short-term investments and other net assets decreased to 6.4% of total net assets on December 31, 2001, from 13.5% a year earlier.

Within the Fund's top 10 holdings, China H and Red Chip companies tended to replace Hong Kong companies during the 12-month period. For example, China Petroleum & Chemical, Cheung Kong Infrastructure, China Merchants, Citic Pacific, Premier Image Technology and Jiangsu Expressway replaced Cheung Kong Holdings, Hutchison Whampoa, China

4

Everbright, Swire Pacific, Hong Kong & Shanghai Hotels and Ng Fung Hong. At the end of the period, multi-sector holdings or conglomerates dominated the portfolio, followed by the road transportation and food sectors.

Looking forward, we believe China's and Taiwan's accessions into the WTO may lead to many positive developments for the region. Greater political stability in Taiwan has already begun to lead to an inflow of investment into the island's stock market, and we expect this to continue over the long term. We also believe Hong Kong's strategic position could allow it to benefit from China's evolving position in the global arena. Furthermore, Hong Kong's reputation as the world's freest economy could further support its quest for foreign investment. We will continue our search for opportunities that we believe will allow the Fund to benefit from these conditions.

Of course, investing in any emerging market means accepting a certain amount of volatility and, in some cases, the consequences of severe market corrections. For example, Hong Kong's equity market has increased 491% in the last 20 years, but has suffered 8 quarterly declines of more than 20% each during that time.//

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

Investing in emerging markets, particularly "China companies," also entails special considerations, including risks related to market and currency volatility, adverse economic, social and political developments, and the markets' relatively small size and lesser liquidity. Also, as a non-diversified investment company, the Fund may invest in a

relatively small number of issuers, which could result in a greater risk of loss. While short-term volatility can be disconcerting, declines exceeding 50% are not unusual in emerging markets.

Thank you for investing in Templeton Dragon Fund. We appreciate your confidence and welcome your comments.

During the 12 months ended December 31, 2001, the Fund distributed \$0.9812 in accordance with the Fund's managed distribution policy. A portion of the Fund's quarterly distributions exceeded the Fund's actual net investment income and net capital gains for the Fund's fiscal year, resulting in a return of capital for tax purposes. In general, return-of-capital distributions are not taxable. Instead, they reduce the cost basis of your Fund shares, and affect the computation of a gain or loss when you sell your shares. Please see "Important Notice to Shareholders" regarding recent board action to discontinue the Fund's managed distribution policy.

1. Total return calculations represent the cumulative and average annual changes in value of an investment over the periods indicated.

Since markets can go down as well as up, investment return and principal value will fluctuate with market conditions, currency volatility, and the economic, social and political climates of countries where the Fund invests. Emerging markets involve heightened risks related to the same factors, in addition to those associated with their relatively small size and lesser liquidity. Also, as a non-diversified investment company investing in "China companies," the Fund may invest in a relatively small number of issuers and, as a result, be subject to a greater risk of loss with respect to its portfolio securities. You may have a gain or loss when you sell your shares.

IMPORTANT NOTICE TO SHAREHOLDERS

PROPOSED REORGANIZATION. On January 4, 2002, the Board of Directors of the Fund approved a proposal providing for the reorganization of Templeton Vietnam and Southeast Asia Fund, Inc. ("Vietnam Fund") into the Fund. The proposed reorganization involves the Fund's acquisition of substantially all of the assets of Vietnam Fund in exchange for shares of the Fund and the distribution of shares of the Fund to shareholders of Vietnam Fund as a part of the liquidation and dissolution of Vietnam Fund. This transaction, which is expected to be tax-free, is subject to approval of the shareholders of the Fund and Vietnam Fund. If approved, shares will be exchanged based on the respective net asset values of Vietnam Fund and the Fund. In connection with the 2002 Annual Meeting of Shareholders, currently scheduled for May 3, 2002, shareholders of the Fund will receive a proxy statement describing the proposed reorganization in greater detail.

TENDER OFFERS. Also on January 4, 2002, the Board of Directors of the Fund approved a tender offer for up to 10% of the Fund's outstanding shares to be made at not less than 90% of net asset value during an initial 12-month period, to be followed by one or more subsequent tender offers aggregating up to 10% of outstanding Fund shares during the following 12-month period. The tender offers will be made regardless of whether the proposed reorganization with Vietnam Fund takes place. If the proposed reorganization is approved by shareholders of both the Fund and Vietnam Fund, the first tender offer of Fund shares will commence within 90 days following completion of the reorganization. If approval of the reorganization is not obtained at the Fund's shareholder meeting, the first tender offer for Fund shares will commence within 90 days after the Fund's shareholder meeting, or any adjournment thereof. If approval of the reorganization is not obtained at the Vietnam Fund shareholder meeting, the first tender offer for Fund shares will commence within 90 days after the Vietnam shareholder meeting, or any adjournment thereof. The Board of Directors of the Fund may consider recommending additional tender offers in subsequent 12-month periods, depending on market conditions and regulatory and tax considerations. When it is available, shareholders will receive a tender offer statement describing the tender offers in greater detail.

MANAGED DISTRIBUTION POLICY. On July 22, 1998, the Board of Directors of the Fund adopted a managed distribution policy in an effort to address the market discount of the Fund's share price to net asset value. Under the managed distribution policy, the Fund made quarterly distributions to Fund shareholders equal to 2.5% of the Fund's net asset value at the close of the New York Stock Exchange on the Friday prior to the declaration date. A portion of the Fund's quarterly distributions exceeded the Fund's actual net investment income and net realized capital gains for the Fund's fiscal year, resulting in a return of capital for tax purposes. Shareholders who participated in the Fund's dividend reinvestment and cash purchase plan received their distributions in additional shares of the Fund.

On January 4, 2002, the Board of Directors discontinued the Fund's managed distribution policy in connection with the proposed reorganization of Vietnam

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

Fund into Dragon Fund.

8

MEASUREMENT PERIOD. In June 2001, in efforts to address the Fund's discount, the Board of Directors of the Fund established a nine month measurement period for evaluating the discount of the market value of the Fund's shares from their net asset value. The Measurement Period began on August 1, 2001 and will end on April 30, 2002. If the Fund's shares have traded at an average discount from net asset value of 10% or more during the last 90 days of the Measurement Period (based on the closing price of every trading day during those 90 days), then the Board will take one of three potential actions. The Board, as soon as reasonably practicable, but no later than 180 days from the last day of the Measurement Period, will either commence a tender offer for a portion of the Fund's outstanding shares ("Tender Offer Alternative"); or submit to shareholders a proposal to reorganize the Fund with either an open-end or closed-end investment company ("Merger Alternative"); or submit to shareholders a proposal to convert the Fund to an open-end investment company ("Open-End Alternative"). The Board may determine to take more than one of these actions.

In connection with the Tender Offer Alternative, any tender offer authorized by the Board for a portion of the Fund's shares may be at net asset value less expenses or at a discount to net asset value. In connection with the Merger Alternative, if shareholders vote to reorganize the Fund with an open-end investment company, shares of the reorganized fund would be continuously offered for sale and redeemable at the option of the shareholder (except under limited circumstances permitted under the federal securities laws) at their net asset value less any redemption charge that the Board of the reorganized fund might put into effect and would be payable by shareholders upon redemption. In connection with the Open-End Alternative, if the shareholders vote to open-end the Fund, the Fund will begin to continuously offer its shares for sale following the effectiveness of a registration statement filed with the U.S. Securities and Exchange Commission relating to the Fund's open-end shares. Shares would be redeemable at the option of the shareholder (except under limited circumstances permitted under the federal securities laws) at their net asset value less any redemption charge that the Board of the reorganized fund might put into effect and would be payable by shareholders upon redemption.

As described above, on January 4, 2002, the Board approved a proposed reorganization of Vietnam Fund into the Fund, as well as a tender offer currently scheduled to take place in 2002.

REPURCHASE PROGRAM. The Board of Directors of the Fund previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, shares of the Fund's common stock in open-market transactions, at the discretion of management. This authorization remains in effect.

Notes to Financial Statements

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Dragon Fund, Inc. (the Fund), is registered under the Investment Company Act of 1940 as a closed-end, non-diversified investment company. The Fund seeks long-term capital appreciation by investing at least 45% of its total assets in the equity securities of "China companies", as defined in the Fund's prospectus. The following summarizes the Fund's significant accounting policies.

On January 4, 2002, the Board of Directors of the Fund approved a proposal to merge Templeton Vietnam and Southeast Asia Fund, Inc. into the Fund subject to approval by both the shareholders of the Fund, and of Templeton Vietnam and Southeast Asia Fund, Inc.

A. SECURITY VALUATION

Securities listed or traded on a recognized national exchange or NASDAQ are valued at the latest reported sales price. Over-the-counter securities and listed securities for which no sale is reported are valued within the range of the latest quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management in accordance with procedures established by the Board of Directors.

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

securities and income items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes, and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts.

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONT.)

D. INCOME TAXES

No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute all of its taxable income.

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Certain income from foreign securities is recorded as soon as information is available to the Fund. Interest income and estimated expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

2. CAPITAL STOCK

On October 18, 1997, the Board of Directors of the Fund authorized management to implement an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, up to 5.4 million shares of the Fund's common stock in open-market transactions, at the discretion of management (approximately 10% of the shares outstanding at the time the program was initially implemented). In May 2000, the Board of Directors removed the 10% limitation on share repurchases in order to give management greater flexibility to engage in an aggressive share repurchase program.

At December 31, 2001, there were 100 million shares authorized (\$0.01 par value). During the year ended December 31, 2001, 207,100 shares were repurchased for \$1,688,066. The weighted average discount of market price to net asset value of shares repurchased during the year ended December 31, 2001 was 20%. During the year ended December 31, 2000, 3,911,700 shares were repurchased for \$33,376,986. Through December 31, 2001, the Fund had repurchased a total of 5,266,000 shares.

3. TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

Certain officers of the Fund are also officers or directors of Templeton Asset Management Ltd. (TAML) and Franklin Templeton Services, LLC (FT Services), the Fund's investment manager and administrative manager, respectively.

3. TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES (CONT.)

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund) which is managed by Franklin Advisers Inc. The Fund earned \$1,181,437 of dividend income from investment in the Sweep Money Fund.

The Fund pays an investment management fee to TAML of 1.25% per year of the average weekly net assets of the Fund. Management fees were reduced on assets invested in the Sweep Money Fund. The Fund pays FT Services an administrative fee of 0.15% per year of the Fund's average weekly net assets, of which 0.10% is paid to Nomura Asset Management, Inc.

4. INCOME TAXES

At December 31, 2001, the cost of investments and net unrealized depreciation for income tax purposes were as follows:

Cost of investments	\$456,456,538

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

Unrealized appreciation	43,098,720
Unrealized depreciation	(75,237,303)

Net unrealized depreciation	\$ (32,138,583)
	=====

The tax character of distributions paid during the year ended December 31, 2001, was the same for financial statements and tax purposes.

Net investment income and net realized capital gains differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, and losses realized subsequent to October 31, on the sales of foreign currencies.

At December 31, 2001, the Fund had tax basis capital losses which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:	
2006	\$ 4,270,183
2007	49,694,430
2009	47,221,414

	\$101,186,027
	=====

At December 31, 2001, the Fund had deferred foreign currency losses occurring subsequent to October 31, 2001 of \$83,486. For tax purposes, such losses will be reflected in the year ended December 31, 2002.

5. INVESTMENT TRANSACTIONS

Purchases and sales of securities (excluding short-term securities) for the year ended December 31, 2001 aggregated \$308,800,119 and \$315,715,141, respectively.

6. HOLDING OF 5% VOTING SECURITIES OF PORTFOLIO COMPANIES

The Investment Company Act of 1940 defines "affiliated companies" as investments in portfolio companies in which the Fund owns 5% or more of the outstanding voting securities. Investments in "affiliated companies" at December 31, 2001 were as shown below.

TEMPLETON DRAGON FUND, INC.
 INDEPENDENT AUDITORS' REPORT
 To the Board of Directors and Shareholders of
 Templeton Dragon Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Templeton Dragon Fund, Inc. (the "Fund") at December 31, 2001, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2001 by correspondence with the custodian, provide a reasonable basis for our opinion. The financial highlights for each of the periods prior to January 1, 1999 were audited by other independent accountants whose report dated January 28, 1999 expressed an unqualified opinion on those statements.

Annual Meeting of Shareholders, August 30, 2001

An Annual Meeting of Shareholders of the Fund was held at the Fund's offices, 500 E. Broward Blvd., Ft. Lauderdale, Florida, on August 30, 2001. The purpose of the meeting was to elect four Directors of the Fund. At the meeting, the following persons were elected by the shareholders to serve as Directors of the Fund: Martin L. Flanagan, Andrew H. Hines, Jr., Edith E. Holiday and Charles B. Johnson.* No other business was transacted at the meeting.

The results of the voting at the Annual Meeting are as follows:

The election of four (4) Directors:

TERM EXPIRING 2004:	FOR	% OF OUTSTANDING SHARES	% OF VOTED SHARES	WITHHELD	% OF OUTSTANDING SHARES
Martin L. Flanagan	44,352,390	90.99%	98.75%	560,635	1.15%
Andrew H. Hines, Jr.	44,101,464	90.47%	98.19%	811,561	1.67%

Dividend Reinvestment and Cash Purchase Plan

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan (other than shareholders holding their shares through Japan Securities Clearing Corporation, who will not be enrolled in the Plan unless certain conditions are met and they elect to participate), unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e., in "street name"), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

Participants should contact Mellon Investor Services LLC, P.O. Box 3338, South Hackensack, NJ 07606-1938, to receive the Plan brochure.

To receive dividends or distributions in cash, the shareholder must notify Mellon Securities Trust Company (the "Plan Agent") at the address above or the institution in whose name the shares are held. The Plan Agent must receive written notice within 10 business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or common stock of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in stock at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional payments to the Plan Agent, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Securities Trust Company" and sent to Mellon Investor Services LLC, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attn: Templeton Dragon Fund, Inc. The Plan Agent shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of the Fund's shares in the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax which may be payable on dividends or distributions.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Agent sent to Mellon Investor Services LLC, P.O. Box 3338, South Hackensack, NJ 07606-1938. Upon withdrawal, the participant will receive, without charge, stock certificates issued in the participant's name for all full shares held by the Plan Agent; or, if the participant wishes, the Plan Agent will sell the participant's shares and send the proceeds, less a service charge of \$5.00 and less trading fees.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested.

TEMPLETON DRAGON FUND, INC.
Tax Designation

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

At December 31, 2001, more than 50% of the Templeton Dragon Fund, Inc.'s assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from dividends paid to the Fund on these investments. The Fund intends to make an election under Section 853 of the Internal Revenue Code. This election will allow shareholders to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them.

The following table provides a breakdown by country of foreign source income and foreign taxes paid, as designated by the Fund, to shareholders of record on December 13, 2001.

COUNTRY	FOREIGN TAX PAID PER SHARE	FOREIGN SOURCE INCOME PER SHARE
China	\$0.0000	\$0.1542
Hong Kong	0.0000	0.0751
Taiwan	0.0094	0.0076
TOTAL	\$0.0094	\$0.2369

In January 2002, shareholders will receive Form 1099-DIV which will include their share of taxes withheld and foreign source income distributed during the calendar year 2001. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.
