Form 10-K  
March 01, 2007

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

**FORM 10-K**

(MARK ONE)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT  
OF 1934

For the fiscal year ended December 31, 2006

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE  
ACT OF 1934

FOR THE TRANSITION PERIOD FROM \_\_\_\_\_ TO \_\_\_\_\_  
Commission file number 1-13106

**Essex Property Trust, Inc.**

(Exact name of Registrant as Specified in its Charter)

**Maryland**

(State or Other Jurisdiction of Incorporation or  
Organization)

**77-0369576**

(I.R.S. Employer Identification  
Number)

**925 East Meadow Drive  
Palo Alto, California 94303**

(Address of Principal Executive Offices including Zip Code)

**(650) 494-3700**

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
<b>Common Stock, \$.0001 par value</b>	<b>New York Stock Exchange</b>
<b>Rights to purchase Series A Junior Participating</b>	<b>New York Stock Exchange</b>

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

Edgar Filing: ESSEX PROPERTY TRUST INC - Form 10-K

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K, or any amendment to this Form 10-K.

---

Indicate by check mark whether the registrant is a large accelerated filer, and accelerated filer, or a non-accelerated filer.

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes  No

As of June 30, 2006, the aggregate market value of the voting stock held by non-affiliates of the registrant was \$2,566,533,462. The aggregate market value was computed with reference to the closing price on the New York Stock Exchange on such date. Shares of common stock held by executive officers, directors and holders of more than ten percent of the outstanding common stock have been excluded from this calculation because such persons may be deemed to be affiliates. This exclusion does not reflect a determination that such persons are affiliates for any other purposes.

As of February 26, 2007, 24,205,047 shares of Common Stock (\$.0001 par value) were outstanding.

**DOCUMENTS INCORPORATED BY REFERENCE:**

The following document is incorporated by reference in Part III of the Annual Report on Form 10-K: Proxy statement for the annual meeting of stockholders of Essex Property Trust, Inc. to be held May 8, 2007.

## PART I

### Forward Looking Statements

This Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are described in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in the section, "Forward Looking Statements." Our actual results could differ materially from those set forth in each forward-looking statement. Certain factors that might cause such a difference are discussed in this report, including Item 1A, Risk Factors of this Form 10-K.

### Item 1. Business

#### OVERVIEW

Essex Property Trust, Inc. ("Essex" or the "Company") is a Maryland corporation that operates as a self-administered and self-managed real estate investment trust ("REIT"). Essex owns all of its interest in its real properties directly or indirectly through Essex Portfolio, L.P. (the "Operating Partnership"). Essex is the sole general partner of the Operating Partnership and as of December 31, 2006 owns a 90.4% general partnership interest. In this report, the terms "we," "us" and "our" refer to Essex Property Trust, its Operating Partnership and their subsidiaries.

The Company has elected to be treated as a REIT for federal income tax purposes, commencing with the year ended December 31, 1994 as the Company completed an initial public offering on June 13, 1994. In order to maintain compliance with REIT tax rules, the Company utilizes taxable REIT subsidiaries ("TRS") for various revenue generating or investment activities. The TRSs are consolidated by the Company.

We are engaged primarily in the ownership, operation, management, acquisition, development and redevelopment of real estate. The majority of our real estate consists of apartment communities. As of December 31, 2006, we owned or held an interest in 130 apartment communities, aggregating 27,553 units, located predominantly along the West Coast (collectively, the "Properties", and individually, a "Property"). Our other properties included two recreational vehicle parks (totaling 338 spaces), three office buildings (totaling approximately 166,340 square feet), which the Company primarily occupies and uses as office space, and one manufactured housing community (containing 157 pads). We currently have five development projects, with 908 units in various stages of development (together with the Properties, the "Portfolio").

The Company's website address is <http://www.essexpropertytrust.com>. The Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports, and the Proxy Statement for its Annual Meeting of Stockholders are available, free of charge, on our website as soon as practicable after we file the reports with the Securities and Exchange Commission ("SEC").

#### BUSINESS OBJECTIVES AND STRATEGIES

The following is a discussion of our business objectives and strategies in regards to real estate investment and management. One or more of these criteria may be amended or rescinded from time to time without stockholder vote.

#### Business Objectives

Our primary business objectives are to increase shareholders' value by investing in properties located in supply constrained markets, and by improving operating results and the value of our Properties, while maintaining a strong balance sheet. We intend to achieve these objectives by:

- Pursuing an occupancy and rent rate growth strategy that capitalizes on the locations of our Properties;
- Expanding our Portfolio through acquisitions, development and, when appropriate, re-development of apartment communities in selected major metropolitan areas;
- Optimizing financial performance through a portfolio asset allocation program, and to increase or decrease investments in a market based on projected changes in regional economic and local market conditions; and
- Maintaining a conservative leverage ratio by identifying and utilizing capital resources that provide a lower cost of capital.

We cannot assure our shareholders that we will achieve our business objectives.

## Business Strategies

**Research Driven Approach** - We believe that successful real estate investment decisions and portfolio growth begin with extensive regional economic research and local market knowledge. Utilizing a proprietary research model that we have developed over the last two decades, we continually assess markets where we currently operate, as well as markets where we consider future investment opportunities by evaluating:

- Markets in major metropolitan areas that have regional population primarily in excess of one million, thereby creating liquidity, which is an important element when modifying the geographic concentration of the Company's portfolio in response to changing market conditions;
  - Demand for housing that is greater than supply driven by: (i) low availability of developable land sites where competing housing could be built; (ii) political growth barriers, such as protected land, urban growth boundaries, and potential lengthy and expensive development permit processes; and (iii) natural limitations to development, such as mountains or waterways;
    - Markets where rental demand is enhanced by expensive for-sale housing; and
- Housing demand that is based on proximity to jobs, high quality of life and related commuting factors, as well as potential job growth.

Recognizing that all real estate markets are cyclical, we regularly evaluate the results of our regional economic, as well as, our local market research and adjust the geographic focus of our portfolio accordingly. We seek to increase our portfolio allocation in markets projected to have the strongest local economies and to decrease such allocations in markets projected to have declining economic conditions. Likewise, the Company also seeks to increase its portfolio allocation in markets that have attractive property valuations and to decrease such allocations in markets that have inflated valuations and low relative yields.

**Property Operations** - We manage our Properties by focusing on strategies that will generate above-average rental growth, tenant retention/satisfaction and long-term asset appreciation. We intend to achieve this by utilizing the strategies set forth below:

- *Property Management* - The Chief Operating Officer, Divisional Managers, Regional Portfolio Managers and Area Managers are accountable for the performance and maintenance of the Properties. They supervise, provide training for the on-site managers, manage budgeted expectations against performance, monitor market trends and prepare operating and capital budgets.
- *Capital Preservation* - The Capital and Maintenance department is responsible for the planning, budgeting, and completion of major deferred maintenance and capital improvement projects at our Properties.
- *Business Planning and Control* - Comprehensive business plans are implemented in conjunction with every investment decision. These plans include benchmarks for future financial performance, based on collaborative discussions between on-site managers and senior management.
- *Development and Redevelopment* - We focus on acquiring and developing apartment communities in supply constrained markets, and redeveloping our existing communities to improve the financial and physical aspects of our communities.

## CURRENT BUSINESS ACTIVITIES

### Acquisitions

Acquisitions have been a significant growth component of our business. During 2006, we completed a series of acquisitions that added to our overall Portfolio.

- In January 2006, the Company acquired two apartment communities - Chimney Sweep and CBC, aggregating 239 units, located in Goleta, California for a combined price of approximately \$57.1 million.

Edgar Filing: ESSEX PROPERTY TRUST INC - Form 10-K

- In September 2006, the Company acquired Hillsdale Garden, a 697-unit apartment community located in San Mateo, California for approximately \$97.3 million. The property is subject to a ground lease with annual payments of \$46,000 that will expire in 2047.
- In October 2006, the Company acquired Belmont Terrace, a 71-unit apartment community located in Belmont, California for approximately \$14.7 million in a transaction structured as an UpREIT.
  - In December 2006, the Company acquired Camino Ruiz Square, a 160-unit apartment community located in Camarillo, California for approximately \$32.9 million.

## Dispositions

As part of our strategic plan to own quality real estate in supply-constrained markets, we continually evaluate our Properties and sell those which no longer meet our strategic criteria. We may use the capital generated from the dispositions to invest in higher-return Properties or repay debts. We believe that the sale of these Properties will not have a material impact on our future results of operations or cash flows nor will their sale materially affect our ongoing operations. Generally, any impact of earnings dilution resulting from these dispositions will be offset by the positive impact of our acquisitions, development and redevelopment activities.

- In January 2006, the Company sold Vista Capri East and Casa Tierra apartment communities for approximately \$7.0 million and in March 2006, the Company sold Diamond Valley Recreational Vehicle Park for approximately \$1.3 million, for a combined gain of \$3.1 million.
- In June 2006, the unconsolidated joint venture property, Vista Pointe, a 286-unit apartment community located in Anaheim, California, was sold for approximately \$46 million. The Company's share of the proceeds from the transaction totaled \$19.3 million, resulting in an \$8.8 million gain on the sale, and \$8.2 million for fees and a promote distribution.
  - In December 2006, the Company sold Emerald Palms, a 152-unit apartment community located in San Diego for approximately \$20.5 million, for a gain of approximately \$6.7 million.
- During 2006 the Company undertook a condominium conversion of the Peregrine Point property, a TRS, in Issaquah, Washington. In April 2006, the property was reclassified from a rental property to real estate under development. During the third and fourth quarters of 2006, the Company sold 45 of the 66 available condominiums, for an aggregate gain of \$2.0 million, net of taxes and expenses. The 21 remaining units are expected to be sold in the first four months of 2007.
  - City Heights, a 687-unit community located in Los Angeles was classified as held for sale as of December 31, 2006, and was sold to a third party for a gain in February 2007.

## Development and Predevelopment Pipeline

The Company defines development activities as new properties that are being constructed, or are newly constructed and, in the case of development communities, are in a phase of lease-up and have not yet reached stabilized operations; or, in the case of TRS development projects, have not yet been sold. As of December 31, 2006, the Company had two development projects comprised of 513 units for an estimated cost of \$167.3 million, of which \$126.9 million remains to be expended (excluding development projects owned by Essex Apartment Value Fund II, L.P.). The Company also incurred \$0.7 million in costs related to a joint venture development with a third-party.

The Company defines the predevelopment pipeline as new properties in negotiation or in the entitlement process with a high likelihood of becoming development activities. As of December 31, 2006, the Company had development communities aggregating 1,845 units that were classified as predevelopment projects. The estimated total cost of the predevelopment pipeline at December 31, 2006 is \$557.0 million, of which \$514.8 million remains to be expended. The Company had four other development projects owned by TRS entities that are under development aggregating 120 units. The estimated total cost of the other development projects at December 31, 2006 is \$42.0 million, of which \$21.8 million remains to be expended. The following table sets forth information regarding the Company's development pipeline:

As of 12/31/06 (\$ in millions)		
Estimated	Incurred	Projected

<b>Development Pipeline</b>	<b>Location</b>	<b>Units</b>	<b>Project Cost<sup>(1)</sup></b>	<b>Project Cost</b>	<b>Stabilization</b>
<u>Development Projects</u>					
Northwest Gateway	Los Angeles, CA	275	\$ 71.1	\$ 28.2	Oct-08
100 Grand	Oakland, CA	238	96.2	12.2	May-09
		513	167.3	40.4	
Predevelopment projects	various	1,845	557.0	42.2	Dec-09 to Jul-14
Other projects (TRS)	various	120	42.0	20.2	Mar-07 to Mar-09
Development joint venture	Seattle, WA	-	0.7	0.7	-
Consolidated Development Pipeline		2,478	\$ 767.0	\$ 103.5	

(1) Includes incurred costs and estimated costs to complete these development projects.

## Redevelopment Pipeline

The Company defines redevelopment communities as existing properties owned or recently acquired, which have been targeted for additional investment by the Company with the expectation of increased financial returns through property improvement. During redevelopment, apartment units may not be available for rent and, as a result, may have less than stabilized operations. As of December 31, 2006, the Company had ownership interests in twelve major redevelopment communities aggregating 3,648 apartment units with estimated redevelopment costs of \$90.2 million, of which approximately \$51.2 million remains to be expended. These amounts exclude redevelopment projects owned by Fund II. The following table illustrates these redevelopment projects:

Redevelopment Pipeline	Location	Units	As of 12/31/06 (\$ in thousands)	
			Estimated Renovation Cost <sup>(1)</sup>	Incurred Project Cost
<u>Southern California</u>				
Kings Road	Los Angeles, CA	196	\$ 6,183	\$ 4,400
Mira Monte	Mira Mesa, CA	355	6,013	5,132
Avondale at Warner Center	Woodland Hills, CA	446	11,950	9,543
Pathways	Long Beach, CA	296	10,705	532
<u>Northern California</u>				
Montclair - Phase I-III	Sunnyvale, CA	390	15,090	2,667
Treetops Summerhill Commons	Fremont, CA	172	8,266	746
Wimbledon Woods	Newark, CA	184	4,318	2,809
	Hayward, CA	560	9,350	791
<u>Seattle Metro</u>				
Palisades - Phase I and II	Bellevue, WA	192	6,583	5,703
Sammamish View	Bellevue, WA	153	3,342	2,149
Bridle Trails	Kirkland, WA	108	5,071	4,367
Woodland/Foothill Commons	Bellevue, WA	596	3,372	227
Total Redevelopment Pipeline		3,648	\$ 90,243	\$ 39,066

(1) Includes incurred costs and estimated costs to complete these redevelopment projects.

## Debt Transactions

In January 2006, the Company originated a mortgage loan secured by the Fairwood Pond apartment community in the amount of \$14.9 million, with a fixed interest rate of 5.31%, which matures on February 1, 2015.

In March 2006, the Company paid-off a loan secured by the Windsor Ridge apartment community in the amount of \$11.6 million, with a fixed interest rate of 7.09%.

In March 2006, the Company renegotiated its revolving line of credit to increase the maximum principal amount to \$200 million from \$185 million. Additionally, the maturity date was extended from April 2007 to March 2009, with an option for a one-year extension, and the underlying rate, based on a tiered rate structure tied to the Company's corporate ratings, was reduced to LIBOR plus 0.8% from LIBOR plus 1.0%.

### **Derivative Transactions**

As of December 31, 2006 the Company had entered into forward-starting interest rate swaps totaling a notional amount of \$450 million with interest rates ranging from 4.9% to 5.9% and settlements dates ranging from April 2007 to July 2011. These derivatives qualify for hedge accounting and will economically hedge the cash flows associated with the refinancing of debt that matures between April 2007 and July 2011. The decrease in the fair value of these derivatives during the year ended December 31, 2006 was approximately \$2.9 million and is reflected in accumulated other comprehensive (loss) income in the Company's consolidated financial statements. No hedge ineffectiveness on cash flow hedges was recognized during the year ended December 31, 2006.

### **Equity Transactions**

During the third quarter of 2006, the Company sold 5,980,000 shares of 4.875% Series G Cumulative Convertible Preferred Stock for gross proceeds of \$149.5 million. Holders may convert Series G Preferred Stock into shares of

the Company's common stock subject to certain conditions. The conversion rate will initially be .1830 shares of common stock per the \$25 per share liquidation preference, which is equivalent to an initial conversion price of approximately \$136.62 per share of common stock. The conversion rate will be subject to adjustment upon the occurrence of specified events. On or after July 31, 2011, the Company may, under certain circumstances, cause some or all of the Series G Preferred Stock to be converted into that number of shares of common stock at the then prevailing conversion rate. The Company used the net proceeds from the Series G offering to pay down outstanding borrowings under the Company's lines of credit, to fund the development pipeline and for general corporate purposes.

During 2006, the Company issued and sold approximately 427,700 shares of common stock for \$48.3 million, net of fees and commissions, under its Controlled Equity Offering program. Under this program, the Company may from time to time sell shares of common stock into the existing trading market at current market prices, and the Company used the net proceeds from such sales to primarily fund real estate investments.

### ESSEX APARTMENT VALUE FUNDS

Essex Apartment Value Fund, L.P. ("Fund I" and "Fund II"), are investment funds formed by the Company to add value through rental growth and asset appreciation, utilizing the Company's development, redevelopment and asset management capabilities. All of the assets in Fund I were sold during 2004 and 2005, and Fund I is in the process of liquidation.

Fund II has eight institutional investors, including the Company, with combined partner equity commitments of \$265.9 million. Essex has committed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner. Fund II expects to utilize leverage equal to approximately 65% of the estimated value of the underlying real estate. Fund II invests in apartment communities in the Company's targeted West Coast markets with an emphasis on investment opportunities in the Seattle metropolitan area and the San Francisco Bay Area. Subject to certain exceptions, Fund II has been Essex's primary investment vehicle during 2005 and 2006. As of October 2006, Fund II was fully invested and closed for any future acquisitions or development. As of December 31, 2006, Fund II owned 11 apartment communities and 3 development projects. Consistent with Fund I, Essex records revenue for its asset management, property management, development and redevelopment services when earned, and promote income if Fund II exceeds certain financial return benchmarks.

#### Fund II - Acquisitions

During 2006, Fund II acquired the following apartment communities:

- Davey Glen, in April 2006, a 69-unit apartment community located in Belmont, California for approximately \$13.5 million.
- Renaissance, in September 2006, a 168-unit apartment community located in Los Angeles, California for approximately \$46.3 million.
- Alderwood Park, in September 2006, a 96-unit apartment community located in Newark, California for approximately \$13.4 million.

#### Fund II - Development Pipeline

As of December 31, 2006, the following table sets forth information regarding Fund II's development pipeline:

As of 12/31/06 (\$ in millions)		
Estimated	Incurred	Projected

<b>Development Pipeline - Fund II</b>	<b>Location</b>	<b>Units</b>	<b>Project Cost<sup>(1)</sup></b>	<b>Project Cost</b>	<b>Stabilization</b>
<u>Development Projects</u>					
Lake Union	Seattle, WA	127	\$ 35.4	\$ 10.9	Jun-08
Studio City	Studio City, CA	149	53.3	22.3	Apr-09
Chatsworth	Chatsworth, CA	119	39.4	9.3	Sep-09
Fund II - Development Pipeline		395	\$ 128.1	\$ 42.5	

(1) Includes incurred costs and estimated costs to complete these development projects.

## **OFFICES AND EMPLOYEES**

The Company is headquartered in Palo Alto, California, and has regional offices in Woodland Hills, California; Irvine, California; San Diego, California; Bellevue, Washington; and Portland, Oregon. As of December 31, 2006, the Company had approximately 869 employees.

## **INSURANCE**

The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the Properties. There are, however, certain types of extraordinary losses, such as, for example, losses from terrorism or earthquake, for which the Company does not have insurance coverage.

Substantially all of the Properties are located in areas that are subject to earthquake activity. The Company believes it has a proactive approach to its potential earthquake losses. The Company utilizes third-party seismic consultants for its acquisitions and performs seismic upgrades to those acquisitions that are determined to have a higher level of potential loss from an earthquake. The Company utilizes internal and third-party loss models to help to determine its exposure. In addition, the majority of the Company's Properties are lower density garden-style apartments which may be less susceptible to earthquake damage. The Company will continue to monitor third-party earthquake insurance pricing and conditions and may consider obtaining third-party coverage if it deems it cost effective in the future.

Although the Company may carry insurance for potential losses associated with its Properties, employees, residents, and compliance with applicable laws, it may still incur losses due to uninsured risks, deductibles, co-payments or losses in excess of applicable insurance coverage and those losses may be material.

## **COMPETITION**

There are numerous housing alternatives that compete with our apartment communities in attracting residents. These include other apartment communities and single-family homes that are available for rent in the markets in which the properties are located. The Properties also compete for residents with new and existing homes and condominiums that are for sale. If the demand for our Properties is reduced or if competitors develop and/or acquire competing properties on a more cost-effective basis, rental rates and occupancy may drop, which may have a material adverse affect on our financial condition and results of operations.

We face competition from other real estate investment trusts, businesses and other entities in the acquisition, development and operation of properties. Some of the competitors are larger and have greater financial resources than we do. This competition may result in increased costs of properties we acquire and/or develop.

## **WORKING CAPITAL**

We believe that cash flows generated by our operations, existing cash balances, availability under existing lines of credit, access to capital markets and the ability to generate cash gains from the disposition of real estate are sufficient to meet all of our reasonably anticipated cash needs during 2007. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect our plans for acquisitions, dispositions, development and redevelopment activities.

## **ENVIRONMENTAL CONSIDERATIONS**

See the discussion under the caption, "Possible environmental liabilities" in Item 1A, Risk Factors, for information concerning the potential effect of environmental regulations on our operations.

**OTHER MATTERS**

**Certain Policies of the Company**

We intend to continue to operate in a manner that will not subject us to regulation under the Investment Company Act of 1940. The Company has in the past five years and may in the future (i) issue securities senior to its common stock, (ii) fund acquisition activities with borrowings under its line of credit and (iii) offer shares of common stock and/or units of limited partnership interest in the Operating Partnership or affiliated partnerships as partial consideration for property acquisitions. The Company from time to time acquires partnership interests in partnerships and joint ventures, either directly or indirectly through subsidiaries of the Company, when such entities' underlying assets are real estate. In general, the Company does not (i) underwrite securities of other issuers or (ii) actively trade in loans or other investments.

6

---

We invest primarily in apartment communities that are located in predominantly coastal markets within Southern California, the San Francisco Bay Area, and parts of the Pacific Northwest. The Company currently intends to continue to invest in apartment communities in such regions. However, these practices may be reviewed and modified periodically by management.

### **Item 1A. Risk Factors**

Our business, operating results, cash flows and financial conditions are subject to various risks and uncertainties, including, without limitation, those set forth below, any one of which could cause our actual results to vary materially from recent results or from our anticipated future results.

***We depend on our key personnel*** - Our success depends on our ability to attract and retain executive officers, senior officers and company managers. There is substantial competition for qualified personnel in the real estate industry and the loss of several of our key personnel could have an adverse effect on us.

***Debt financing*** - At December 31, 2006, we had approximately \$1.41 billion of indebtedness (including \$186.3 million of variable rate indebtedness, of which \$182.8 million is subject to interest rate protection agreements). We are subject to the risks normally associated with debt financing, including the following:

- cash flow may not be sufficient to meet required payments of principal and interest;
  - inability to refinance maturing indebtedness on encumbered properties;
- the terms of any refinancing may not be as favorable as the terms of existing indebtedness;
- inability to comply with debt covenants could cause an acceleration of the maturity date; and
  - repaying debt before the scheduled maturity date could result in prepayment penalties.

***Uncertainty of our ability to refinance balloon payments*** - As of December 31, 2006, we had approximately \$1.41 billion of mortgage debt, exchangeable bonds and line of credit borrowings, most of which are subject to balloon payments. We do not expect to have sufficient cash flows from operations to make all of these balloon payments. These mortgages, bonds and lines of credit borrowings have the following scheduled principal and balloon payments:

2007--\$69.1 million;  
2008--\$179.5 million;  
2009--\$24.6 million;  
2010--\$156.9 million;  
2011--\$155.5 million;  
Thereafter--\$733.0 million.

We may not be able to refinance such mortgage indebtedness, bonds, or lines of credit. The Properties subject to these mortgages could be foreclosed upon or otherwise transferred to the lender. This could cause us to lose income and asset value. We may be required to refinance the debt at higher interest rates or on terms that may not be as favorable as the terms of existing indebtedness.

***Debt financing on properties may result in insufficient cash flow*** - Where possible, we intend to continue to use leverage to increase the rate of return on our investments and to provide for additional investments that we could not otherwise make. There is a risk that the cash flow from the properties will be insufficient to meet both debt payment obligations and the distribution requirements of the real estate investment trust provisions of the Internal Revenue Code. We may obtain additional debt financing in the future, through mortgages on some or all of the properties. These mortgages may be recourse, non-recourse, or cross-collateralized.

As of December 31, 2006, Essex had 69 of its 118 consolidated apartment communities encumbered by debt. Of the 69 properties, 53 are secured by deeds of trust relating solely to those properties. With respect to the remaining 19

properties, there are 4 cross-collateralized mortgages secured by 8 properties, 6 properties, 3 properties and 2 properties, respectively. The holders of this indebtedness will have claims against these properties and, to the extent indebtedness is cross-collateralized, lenders may seek to foreclose upon properties, which are not the primary collateral for their loan. This may accelerate other indebtedness secured by properties. Foreclosure of properties would reduce our income and net asset value.

***Risk of rising interest rates*** - Current interest rates could potentially increase rapidly, which could result in higher interest expense on our variable rate indebtedness. Prolonged interest rate increases could negatively impact our ability to make acquisitions and develop properties at economic returns on investment and our ability to refinance existing borrowings at acceptable rates.

7

---

As of December 31, 2006, we had approximately \$186.3 million of long-term variable rate indebtedness bearing interest at floating rates tied to the rate of short-term tax-exempt revenue bonds (which mature at various dates from 2020 through 2034), and \$93.0 million of variable rate indebtedness under our lines of credit, bearing interest at the Freddie Mac Reference Rate plus from 0.55% to 0.59%. Approximately \$182.8 million of the long-term indebtedness is subject to interest rate cap protection agreements, which may reduce the risks associated with fluctuations in interest rates. The remaining \$34.0 million of long-term variable rate indebtedness was not subject to any interest rate cap protection agreements as of December 31, 2006. An increase in interest rates may have an adverse effect on our net income and results of operations.

***Risk of losses on interest rate hedging arrangements*** - Periodically, we have entered into agreements to reduce the risks associated with increases in interest rates, and may continue to do so. Although these agreements may partially protect against rising interest rates, they also may reduce the benefits to us if interest rates decline. If a hedging arrangement is not indexed to the same rate as the indebtedness that is hedged, we may be exposed to losses to the extent that the rate governing the indebtedness and the rate governing the hedging arrangement change independently of each other. Finally, nonperformance by the other party to the hedging arrangement may subject us to increased credit risks. In order to minimize counterparty credit risk, our policy is to enter into hedging arrangements only with A-rated financial institutions.

***Bond compliance requirements may limit income from certain properties*** - At December 31, 2006, we had approximately \$186.3 million of variable rate tax-exempt financing relating to the Inglenook Court Apartments, Wandering Creek Apartments, Treetops Apartments, Huntington Breakers Apartments, Camarillo Oaks Apartments, Fountain Park, Anchor Village and Parker Ranch Apartments. This tax-exempt financing subjects these properties to certain deed restrictions and restrictive covenants. We expect to engage in tax-exempt financings in the future. In addition, the Internal Revenue Code and rules and regulations thereunder impose various restrictions, conditions and requirements excluding interest on qualified bond obligations from gross income for federal income tax purposes. The Internal Revenue Code also requires that at least 20% of apartment units be made available to residents with gross incomes that do not exceed a specified percentage, generally 50%, of the median income for the applicable family size as determined by the Housing and Urban Development Department of the federal government. In addition to federal requirements, certain state and local authorities may impose additional rental restrictions. These restrictions may limit income from the tax-exempt financed properties if we are required to lower rental rates to attract residents who satisfy the median income test. If Essex does not reserve the required number of apartment homes for residents satisfying these income requirements, the tax-exempt status of the bonds may be terminated, the obligations under the bond documents may be accelerated and we may be subject to additional contractual liability.

***Adverse effect to property income and value due to general real estate investment risks*** - Real property investments are subject to a variety of risks. The yields available from equity investments in real estate depend on the amount of income generated and expenses incurred. If the properties do not generate sufficient income to meet operating expenses, including debt service and capital expenditures, cash flow and the ability to make distributions to stockholders will be adversely affected. The performance of the economy in each of the areas in which the properties are located affects occupancy, market rental rates and expenses. Consequently, the income from the properties and their underlying values may be impacted. The financial results of major local employers may have an impact on the cash flow and value of certain of the properties as well.

Income from the properties may be further adversely affected by, among other things, the following factors:

- the general economic climate;
- local economic conditions in which the properties are located, such as oversupply of housing or a reduction in demand for rental housing;
  - the attractiveness of the properties to tenants;
  - competition from other available space; and
- Essex's ability to provide for adequate maintenance and insurance.

As leases on the properties expire, tenants may enter into new leases on terms that are less favorable to us. Income and real estate values also may be adversely affected by such factors as applicable laws (e.g., the Americans With Disabilities Act of 1990 and tax laws), interest rate levels and the availability and terms of financing. Real estate investments are relatively illiquid and, therefore, our ability to vary our portfolio promptly in response to changes in economic or other conditions may be quite limited.

8

---

***Economic environment and impact on operating results*** - The national economy and the economies of the western states in markets where we operate can impact our operating results. Some of these markets are concentrated in high-tech sectors, which have experienced economic downturns, and could again in the future. Our property type and diverse geographic locations provide some degree of risk mitigation. However, we are not immune to prolonged economic downturns. Although we believe we are well positioned to meet these challenges, it is possible a reduction in rental rates, occupancy levels, property valuations and increases in operating costs such as advertising, turnover and repair and maintenance expense could occur in the event of economic uncertainty.

***Risk of Inflation/Deflation*** - Substantial inflationary or deflationary pressures could have a negative effect on rental rates and property operating expenses.

***Risks that acquisitions will fail to meet expectations*** - We intend to continue to acquire apartment communities. However, there are risks that acquisitions will fail to meet our expectations. Our estimates of future income, expenses and the costs of improvements or redevelopment that are necessary to allow us to market an acquired property as originally intended may prove to be inaccurate. We expect to finance future acquisitions, in whole or in part, under various forms of secured or unsecured financing or through the issuance of partnership units by the Operating Partnership or related partnerships or additional equity by Essex. The use of equity financing, rather than debt, for future developments or acquisitions could dilute the interest of Essex's existing stockholders. If we finance new acquisitions under existing lines of credit, there is a risk that, unless we obtain substitute financing, Essex may not be able to secure further lines of credit for new development or such lines of credit may be not available on advantageous terms.

***Risks that development activities will be delayed, not completed, and/or not achieve expected results*** - We pursue apartment community development projects and these projects generally require various governmental and other approvals, which have no assurance of being received. Our development activities generally entail certain risks, including the following:

- funds may be expended and management's time devoted to projects that may not be completed;
- construction costs of a project may exceed original estimates, possibly making the project economically unfeasible;
- development projects may be delayed due to, without limitation, adverse weather conditions, labor shortages, or unforeseen complications;
  - occupancy rates and rents at a completed project may be less than anticipated; and
  - the operating expenses at a completed development may be higher than anticipated.

These risks may reduce the funds available for distribution to Essex's stockholders. Further, the development of properties is also subject to the general risks associated with real estate investments. For further information regarding these risks, please see "Adverse Effect to Property Income and Value Due to General Real Estate Investment Risks."

***The geographic concentration of our Properties and fluctuations in local markets may adversely impact our financial condition and operating results*** - We generated significant amounts of rental revenues for the year ended December 31, 2006 from properties concentrated in Southern California (Los Angeles, Ventura, Orange, San Diego and Riverside counties), Northern California (the San Francisco Bay Area), and the Pacific Northwest (the Seattle, Washington and Portland, Oregon metropolitan areas). As of December 31, 2006, more than half (76%) of our Properties were located in California. This geographic concentration could present risks if local property market performance falls below expectations. The economic condition of these markets could affect occupancy, market rental rates, and expenses, as well as impact the income generated from the Properties and their underlying asset values. The financial results of major local employers also may impact the cash flow and value of certain of the Properties. This could have a negative impact on our financial condition and operating results, which could affect our ability to pay expected dividends to our stockholders.

***Competition in the apartment community market may adversely affect operations and the rental demand for our Properties*** - There are numerous housing alternatives that compete with our apartment communities in attracting residents. These include other apartment communities and single-family homes that are available for rent in the markets in which the Properties are located. The Properties also compete for residents with new and existing homes and condominiums that are for sale. If the demand for our Properties is reduced or if competitors develop and/or acquire competing properties on a more cost-effective basis, rental rates may drop, which may have a material adverse affect on our financial condition and results of operations.

We also face competition from other real estate investment trusts, businesses and other entities in the acquisition, development and operation of properties. Some of the competitors are larger and have greater financial resources than we do. This competition may result in increased costs of properties we acquire and/or develop.

9

---

***Dividend requirements as a result of preferred stock may lead to a possible inability to sustain dividends*** - We have Series F Cumulative Redeemable Preferred Stock (“Series F Preferred Stock”) with an aggregate liquidation preference of approximately \$25 million outstanding and Series G Cumulative Convertible Preferred Stock (“Series G Preferred Stock”) with an aggregate liquidation preference of approximately \$149.5 million outstanding. In addition, we are required under limited conditions to issue Series B Cumulative Redeemable Preferred Stock (“Series B Preferred Stock”) with an aggregate liquidation preference of \$80 million and Series D Cumulative Redeemable Preferred Stock (“Series D Preferred Stock”) with an aggregate liquidation preference of \$50 million in each case in exchange for outstanding preferred interests in the Operating Partnership. The terms of the Series B, D, F and G Preferred Stock provide for certain cumulative preferential cash distributions per each share of preferred stock.

These terms also provide that while such preferred stock is outstanding, we cannot authorize, declare, or pay any distributions on our common stock, unless all distributions accumulated on all shares of such preferred stock have been paid in full. Our failure to pay distributions on such preferred stock would impair our ability to pay dividends on our common stock. Our credit agreement limits our ability to pay dividends on our preferred stock if we fail to satisfy a fixed charge coverage ratio.

If Essex wishes to issue any common stock in the future (including upon the exercise of stock options), the funds required to continue to pay cash dividends at current levels will be increased. Essex’s ability to pay dividends will depend largely upon the performance of our current properties and other properties that may be acquired or developed in the future.

If Essex cannot pay dividends on its common stock, Essex’s status as a real estate investment trust may be jeopardized. Our ability to pay dividends on our common stock is further limited by the Maryland General Corporation Law. Under the Maryland General Corporation Law, Essex may not make a distribution on stock if, after giving effect to such distribution, either:

- we would not be able to pay our indebtedness as it becomes due in the usual course of business; or
- our total assets would be less than our total liabilities, including the liquidation preference on our Series B, Series D, Series F, and Series G preferred stock.

***Resale of shares pursuant to our effective registration statement or that are issued upon conversion of our convertible preferred stock may have an adverse effect on the market price of the shares*** - Essex has the following effective registration statements, which allows for the resale into the public stock of common stock held by stockholders, as specified in the registration statements:

- A registration statement, declared effective in 2003, which covers the resale of up to 6,513,490 shares, including (i) up to 2,769,875 shares issued, or potentially issuable, in connection with the acquisition of John M. Sachs, Inc., a real estate company, (ii) up to 2,270,490 shares of common stock that are issuable upon exchange of limited partnership interests in the Operating Partnership and (iii) up to 1,473,125 shares that are issuable upon exchange of limited partnership interests in certain other real estate partnerships;
- Registration statements, declared effective in 2006, that cover (i) the resale of up to 142,076 shares issuable in connection with our Waterford and Vista Belvedere acquisitions and (ii) the resale of shares issuable in connection with the exchange rights of our 3.625% Exchangeable Senior Notes, as to which there is a principal amount of \$225 million outstanding.

During the third quarter of 2006, we issued, pursuant to a registration statement, 5,980,000 million shares of 4.875% Series G Cumulative Preferred Stock for estimated gross proceeds of \$149.5 million; such shares are convertible, subject to certain conditions, into common stock, which could be resold into the public market.

The resale of the shares of common stock pursuant to these various registration statements or that are issued upon conversion of our outstanding convertible preferred stock may have an adverse effect on the market price of our

shares.

***The exchange and repurchase rights of Exchangeable Senior Notes and Series G Preferred Stock may be detrimental to holders of common stock*** - The Operating Partnership has \$225 million principal amount of 3.625% Exchangeable Senior Notes (the “Notes”) outstanding which mature on November 1, 2025. The Notes are exchangeable into the Company's common stock on or after November 1, 2020 or prior to November 1, 2020 under certain circumstances. The Notes are redeemable at the Company's option for cash at any time on or after November 4, 2010 and are subject to repurchase for cash at the option of the holder on November 1<sup>st</sup> in the years 2010, 2015 and 2020, or upon the occurrence of certain events. The Notes are senior unsecured and unsubordinated obligations of the Company.

10

---

In 2006, the Company sold 5,980,000 million shares of 4.875% Series G Cumulative Convertible Preferred Stock (the "Series G Preferred Stock") for gross proceeds of \$149.5 million. Holders may convert Series G Preferred Stock into shares of the Company's common stock subject to certain conditions. The conversion rate will initially be .1830 shares of common stock per \$25 share liquidation preference, which is equivalent to an initial conversion price of \$136.62 per share of common stock (the conversion rate will be subject to adjustment upon the occurrence of specified events). On or after July 31, 2011, the Company may, under certain circumstances cause some or all of the Series G Preferred Stock to be converted into shares of common stock at the then prevailing conversion rate. Further, if a fundamental change occurs, as defined in the articles supplementary for the Series G Preferred Stock, then the holders may require Essex to repurchase all or part of their Series G Preferred Stock subject to certain conditions.

The exchange of the Notes and/or Series G Preferred Stock for common stock would dilute stockholder ownership in the Company, and such exchange could adversely affect the market price of our common stock and our ability to raise capital through the sale of additional equity securities. If the Notes and Series G Preferred Stock are not exchanged, the repurchase price of the Notes and Series G Preferred Stock may discourage or impede transactions that might otherwise be in the interest of the holders of common stock. Further, these repurchase rights may be triggered in situations where Essex needs to conserve its cash reserves, in which event such repurchase might adversely affect Essex and its common stockholders.

***Our future issuances of common stock, preferred stock or convertible debt securities could adversely affect the market price of our common stock*** - In order to finance our property acquisition and development activities, we have issued and sold common stock, preferred stock and convertible debt securities. For example, in 2005, the Operating Partnership sold \$225 million principal amount of 3.625% Exchangeable Senior Notes, which are exchangeable into the Company's common stock under certain conditions. In 2006, the Company issued 5,980,000 million shares of 4.875% Series G Cumulative Convertible Preferred Stock for gross proceeds of approximately \$149.5 million. During 2006, pursuant to a Controlled Equity Offering program that the Company entered into with Cantor Fitzgerald & Co., the Company issued and sold approximately 427,700 shares of common Stock for \$48.3 million, net of fees and commissions. The Company may in the future sell further shares of common stock pursuant to a Controlled Equity Offering program with Cantor Fitzgerald & Co.

Future sales of common stock, preferred stock or convertible debt securities may dilute stockholder ownership in the Company and could adversely affect the market price of the common stock.

***Our Chairman is involved in other real estate activities and investments, which may lead to conflicts of interest*** - Our Chairman, George M. Marcus is not an employee of Essex, and is involved in other real estate activities and investments, which may lead to conflicts of interest. Mr. Marcus owns interests in various other real estate-related businesses and investments. He is the Chairman of The Marcus & Millichap Company, or "TMMC," which is a holding company for certain real estate brokerage and services companies. TMMC has an interest in Pacific Property Company, a company that invests in apartment communities.

Mr. Marcus has agreed not to divulge any information that may be received by him in his capacity as Chairman of Essex to any of his affiliated companies and that he will abstain his vote on any and all resolutions by the Essex Board of Directors regarding any proposed acquisition and/or development of a multifamily property where it appears that there may be a conflict of interest with any of his affiliated companies. Notwithstanding this agreement, Mr. Marcus and his affiliated entities may potentially compete with us in acquiring and/or developing multifamily properties, which competition may be detrimental to us. In addition, due to such potential competition for real estate investments, Mr. Marcus and his affiliated entities may have a conflict of interest with us, which may be detrimental to the interests of Essex's stockholders.

***The influence of executive officers, directors and significant stockholders may be detrimental to holders of common stock*** - As of December 31, 2006, George M. Marcus, the Chairman of our Board of Directors, wholly or partially owned 1,759,267 shares of common stock (including shares issuable upon exchange of limited partnership

interests in the Operating Partnership and certain other partnerships and assuming exercise of all vested options). This represents approximately 7.5% of the outstanding shares of our common stock. Mr. Marcus currently does not have majority control over us. However, he currently has, and likely will continue to have, significant influence with respect to the election of directors and approval or disapproval of significant corporate actions. Consequently, his influence could result in decisions that do not reflect the interests of all our stockholders.

11

---

Under the partnership agreement of the Operating Partnership, the consent of the holders of limited partnership interests is generally required for any amendment of the agreement and for certain extraordinary actions. Through their ownership of limited partnership interests and their positions with us, our directors and executive officers, including Mr. Marcus, have substantial influence on us. Consequently, their influence could result in decisions that do not reflect the interests of all stockholders.

***The voting rights of preferred stock may allow holders of preferred stock to impede actions that otherwise benefit holders of common stock*** - In general, the holders of our outstanding shares of preferred stock do not have any voting rights. However, if full distributions are not made on any outstanding preferred stock for six quarterly distributions periods, the holders of preferred stock who have not received distributions, voting together as a single class, will have the right to elect two additional directors to serve on our Board of Directors.

These voting rights continue until all distributions in arrears and distributions for the current quarterly period on the preferred stock have been paid in full. At that time, the holders of the preferred stock are divested of these voting rights, and the term and office of the directors so elected immediately terminates. While any shares of our preferred stock are outstanding, Essex may not, without the consent of the holders of two-thirds of the outstanding shares of each series of preferred stock, each voting separately as a single class:

- authorize or create any class or series of stock that ranks senior to such preferred stock with respect to the payment of dividends, rights upon liquidation, dissolution or winding-up of our business;
  - amend, alter or repeal the provisions of Essex's Charter or Bylaws, including by merger or consolidation, that would materially and adversely affect the rights of such series of preferred stock; or
- in the case of the preferred stock into which our preferred units are exchangeable, merge or consolidate with another entity or transfer substantially all of its assets to another entity, except if such preferred stock remains outstanding with the surviving entity and has the same terms and in certain other circumstances.

These voting rights of the preferred stock may allow holders of preferred stock to impede or veto actions that would otherwise benefit the holders of our common stock.

***The redemption rights of the Series B preferred units, Series D preferred units, Series F preferred stock and Series G preferred stock may be detrimental to holders of Essex common stock*** - Upon the occurrence of one of the following events, the terms of the Operating Partnership's Series B and D Preferred Units require it to redeem all of such units and the terms of Essex's Series F Preferred Stock and the Series G Preferred Stock provide the holders of the majority of the outstanding Series F Preferred Stock and Series G Preferred Stock the right to require Essex to redeem all of such stock:

- Essex completes a "going private" transaction and its common stock is no longer registered under the Securities Exchange Act of 1934, as amended;
- Essex completes a consolidation or merger or sale of substantially all of its assets and the surviving entity's debt securities do not possess an investment grade rating;
  - Essex fails to qualify as a REIT; or
- in the case of Series G preferred stock, Essex common stock is not traded on a major exchange.

The aggregate redemption price of the Series B Preferred Units would be \$80 million, the aggregate redemption price of the Series D Preferred Units would be \$50 million, the aggregate redemption price of the Series F Preferred Stock would be \$25 million and the aggregate redemption price of the Series G Preferred Stock would be \$149.5 million, plus, in each case, any accumulated distributions.

These redemption rights may discourage or impede transactions that might otherwise be in the interest of holders of common stock. Further, these redemption rights might trigger situations where Essex needs to conserve its cash reserves, in which event such redemption might adversely affect Essex and its common holders.

***Maryland business combination law may not allow certain transactions between Essex and its affiliates to proceed without compliance with such law*** - Under Maryland law, “business combinations” between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange, or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as any person (and certain affiliates of such person) who beneficially owns ten percent or more of the voting power of the then-outstanding voting stock.

The law also requires a supermajority stockholder vote for such transactions. This means that the transaction must be approved by at least:

- 80% of the votes entitled to be cast by holders of outstanding voting shares; and
- Two-thirds of the votes entitled to be cast by holders of outstanding voting shares other than shares held by the interested stockholder with whom the business combination is to be effected.

The statute permits various exemptions from its provisions, including business combinations that are exempted by the board of directors prior to the time that the interested stockholder becomes an interested stockholder. These voting provisions do not apply if the stockholders receive a minimum price, as defined under Maryland law. As permitted by the statute, the Board of Directors of Essex irrevocably has elected to exempt any business combination by us, George M. Marcus, William A. Millichap, who are the chairman and a director of Essex, respectively, and TMMC or any entity owned or controlled by Messrs. Marcus and Millichap and TMMC. Consequently, the five-year prohibition and supermajority vote requirement described above will not apply to any business combination between us and Mr. Marcus, Mr. Millichap, or TMMC. As a result, we may in the future enter into business combinations with Messrs. Marcus and Millichap and TMMC, without compliance with the supermajority vote requirements and other provisions of the Maryland General Corporation Law.

***Anti-takeover provisions contained in the Operating Partnership agreement, charter, bylaws, and certain provisions of Maryland law could delay, defer or prevent a change in control*** - While Essex is the sole general partner of the Operating Partnership, and generally has full and exclusive responsibility and discretion in the management and control of the Operating Partnership, certain provisions of the Operating Partnership agreement place limitations on Essex's ability to act with respect to the Operating Partnership. Such limitations could delay, defer or prevent a transaction or a change in control that might involve a premium price for our stock or otherwise be in the best interest of the stockholders or that could otherwise adversely affect the interest of Essex's stockholders. The partnership agreement provides that if the limited partners own at least 5% of the outstanding units of partnership interest in the Operating Partnership, Essex cannot, without first obtaining the consent of a majority-in-interest of the limited partners in the Operating Partnership, transfer all or any portion of our general partner interest in the Operating Partnership to another entity. Such limitations on Essex's ability to act may result in our being precluded from taking action that the Board of Directors believes is in the best interests of Essex's stockholders. As of December 31, 2006, the limited partners held or controlled approximately 9.6% of the outstanding units of partnership interest in the Operating Partnership, allowing such actions to be blocked by the limited partners.

Essex's Charter authorizes the issuance of additional shares of common stock or preferred stock and the setting of the preferences, rights and other terms of such preferred stock without the approval of the holders of the common stock. We may establish one or more series of preferred stock that could delay, defer or prevent a transaction or a change in control. Such a transaction might involve a premium price for our stock or otherwise be in the best interests of the holders of common stock. Also, such a class of preferred stock could have dividend, voting or other rights that could adversely affect the interest of holders of common stock.

Essex's Charter, as well as Essex's stockholder rights plan, contains other provisions that may delay, defer or prevent a transaction or a change in control that might be in the best interest of Essex's stockholders. Essex's stockholder rights plan is designed, among other things, to prevent a person or group from gaining control of us without offering a fair price to all of Essex's stockholders. The Bylaws may be amended by the Board of Directors to include provisions that would have a similar effect, although Essex presently has no such intention. The Charter contains ownership provisions limiting the transferability and ownership of shares of capital stock, which may have the effect of delaying, deferring or preventing a transaction or a change in control. For example, subject to receiving an exemption from the Board of Directors, potential acquirers may not purchase more than 6% in value of the stock (other than qualified pension trusts which can acquire 9.9%). This may discourage tender offers that may be attractive to the holders of common stock and limit the opportunity for stockholders to receive a premium for their shares of common stock.

The Maryland General Corporations Law restricts the voting rights of shares deemed to be "control shares."

Under the Maryland General Corporations Law, "control shares" are those which, when aggregated with any other shares held by the acquirer, entitle the acquirer to exercise voting power within specified ranges. Although the Bylaws exempt Essex from the control share provisions of the Maryland General Corporations Law, the Board of Directors may amend or eliminate the provisions of the Bylaws at any time in the future. Moreover, any such amendment or elimination of such provision of the Bylaws may result in the application of the control share provisions of the

Maryland General Corporations Law not only to control shares which may be acquired in the future, but also to control shares previously acquired. If the provisions of the Bylaws are amended or eliminated, the control share provisions of the Maryland General Corporations Law could delay, defer or prevent a transaction or change in control that might involve a premium price for the stock or otherwise be in the best interests of Essex's stockholders.

13

---

***Essex's joint ventures and joint ownership of Properties and partial interests in corporations and limited partnerships could limit Essex's ability to control such Properties and partial interests*** - Instead of purchasing properties directly, we have invested and may continue to invest as a co-venturer. Joint venturers often have shared control over the operation of the joint venture assets. Therefore, it is possible that the co-venturer in an investment might become bankrupt, or have economic or business interests or goals that are inconsistent with our business interests or goals, or be in a position to take action contrary to our instructions or requests, or our policies or objectives. Consequently, a co-venturer's actions might subject property owned by the joint venture to additional risk. Although we seek to maintain sufficient influence over any joint venture to achieve its objectives, we may be unable to take action without our joint venture partners' approval, or joint venture partners could take actions binding on the joint venture without our consent. Should a joint venture partner become bankrupt, we could become liable for such partner's share of joint venture liabilities.

From time to time, we, through the Operating Partnership, invest in corporations, limited partnerships, limited liability companies or other entities that have been formed for the purpose of acquiring, developing or managing real property. In certain circumstances, the Operating Partnership's interest in a particular entity may be less than a majority of the outstanding voting interests of that entity. Therefore, the Operating Partnership's ability to control the daily operations of such an entity may be limited. Furthermore, the Operating Partnership may not have the power to remove a majority of the board of directors (in the case of a corporation) or the general partner or partners (in the case of a limited partnership) of such an entity in the event that its operations conflict with the Operating Partnership's objectives. The Operating Partnership may not be able to dispose of its interests in such an entity. In the event that such an entity becomes insolvent, the Operating Partnership may lose up to its entire investment in and any advances to the entity. We have, and in the future may, enter into transactions that could require us to pay the tax liabilities of partners, which contribute assets into joint ventures or the Operating Partnership, in the event that certain taxable events, which are within our control, occur. Although we plan to hold the contributed assets or defer recognition of gain on their sale pursuant to the like-kind exchange rules under Section 1031 of the Internal Revenue Code, we can provide no assurance that we will be able to do so and if such tax liabilities were incurred they can expect to have a material impact on our financial position.

***Dedicated investment activities and other factors specifically related to Fund II*** - Fund II involves risks to us such as the following:

- our partners in Fund II might remove Essex as the general partner of Fund II;
- our partners in Fund II might become bankrupt (in which event we might become generally liable for the liabilities of Fund II);
- our partners in Fund II might have economic or business interests or goals that are inconsistent with our business interests or goals;
  - our partners in Fund II might fail to fund capital commitments as contractually required; or
  - our partners in Fund II might fail to approve decisions regarding Fund II that are in our best interest.

We will, however, generally seek to maintain sufficient influence over Fund II to permit it to achieve its business objectives.

***Investments in mortgages and other real estate securities*** - We may invest in securities related to real estate, which could adversely affect our ability to make distributions to stockholders. We may purchase securities issued by entities which own real estate and invest in mortgages or unsecured debt obligations. These mortgages may be first, second or third mortgages that may or may not be insured or otherwise guaranteed. In general, investments in mortgages include the following risks:

- that the value of mortgaged property may be less than the amounts owed, causing realized or unrealized losses;
- the borrower may not pay indebtedness under the mortgage when due, requiring us to foreclose, and the amount recovered in connection with the foreclosure may be less than the amount owed;

- that interest rates payable on the mortgages may be lower than our cost of funds; and
- in the case of junior mortgages, that foreclosure of a senior mortgage would eliminate the junior mortgage.

If any of the above were to occur, cash flows from operations and our ability to make expected dividends to stockholders could be adversely affected.

14

---

**Possible environmental liabilities** - Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is liable for the costs of removal or remediation of certain hazardous or toxic substances on, in, to or migrating from such property. Such laws often impose liability without regard as to whether the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. The presence of such substances, or the failure to properly remediate such substances, may adversely affect the owner's or operator's ability to sell or rent such property or to borrow using such property as collateral. Persons exposed to such substances, either through soil vapor or ingestion of the substances may claim personal injury damages. Persons who arrange for the disposal or treatment of hazardous or toxic substances or wastes also may be liable for the costs of removal or remediation of such substances at the disposal or treatment facility to which such substances or wastes were sent, whether or not such facility is owned or operated by such person. Certain environmental laws impose liability for release of asbestos-containing materials ("ACMs") into the air, and third parties may seek recovery from owners or operators of real properties for personal injury associated with ACMs. In connection with the ownership (direct or indirect), operation, management and development of real properties, the Company could be considered an owner or operator of such properties or as having arranged for the disposal or treatment of hazardous or toxic substances and, therefore, may be potentially liable for removal or remediation costs, as well as certain other costs, including governmental fines and costs related to injuries of persons and property.

Investments in real property create a potential for environmental liabilities on the part of the owner of such real property. We carry certain limited insurance coverage for this type of environmental risk. We have conducted environmental studies which revealed the presence of groundwater contamination at certain Properties. Such contamination at certain of these properties was reported to have migrated on-site from adjacent industrial manufacturing operations. The former industrial users of the Properties were identified as the source of contamination. The environmental studies noted that certain Properties are located adjacent to any possible down gradient from sites with known groundwater contamination, the lateral limits of which may extend onto such properties. The environmental studies also noted that at certain of these properties, contamination existed because of the presence of underground fuel storage tanks, which have been removed. In general, in connection with the ownership, operation, financing, management and development of real properties, we may be potentially liable for removal or clean-up costs, as well as certain other costs and environmental liabilities. We may also be subject to governmental fines and costs related to injuries to persons and property.

Recently there has been an increasing number of lawsuits against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. Essex has been sued for mold related matters and has settled some, but not all, such matters, which matters remain unresolved and pending. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. Essex has, however, purchased pollution liability insurance, which includes limited coverage for mold, although the insurance may not cover all pending or future mold claims. Essex has adopted programs designed to manage the existence of mold in its properties as well as guidelines for promptly addressing and resolving reports of mold to minimize any impact mold might have on residents or the property. Essex cannot assure you that it will not be sued in the future for mold related matters and cannot assure you that the liabilities resulting from such current or future mold related matters will not be substantial. The costs of carrying insurance to address potential mold related claims may also be substantial.

California has enacted legislation commonly referred to as "Proposition 65" requiring that "clear and reasonable" warnings be given to consumers who are exposed to chemicals known to the State of California to cause cancer or reproductive toxicity, including tobacco smoke. Although we have sought to comply with Proposition 65 requirements, we cannot assure you that we will not be adversely affected by litigation relating to Proposition 65.

Methane gas is a naturally-occurring gas that is commonly found below the surface in several areas, particularly in the Southern California coastal areas. Methane is a non-toxic gas, but can be ignitable in confined spaces. Although naturally-occurring, methane gas is not regulated at the state or federal level, some local governments, such as the

County of Los Angeles, have imposed requirements that new buildings install detection systems in areas where methane gas is known to be located.

Methane gas is also associated with certain industrial activities, such as former municipal waste landfills. Radon is also a naturally-occurring gas that is found below the surface. Essex cannot assure you that it will not be adversely affected by costs related to its compliance with methane gas related requirements or litigation costs related to methane or radon gas.

The Company has almost no indemnification agreements from third parties for potential environmental clean-up costs at its Properties.

15

---

The Company has no way of determining at this time the magnitude of any potential liability to which it may be subject arising out of unknown environmental conditions or violations with respect to the properties formerly owned by the Company. No assurance can be given that existing environmental studies with respect to any of the Properties reveal all environmental liabilities, that any prior owner or operator of a Property did not create any material environmental condition not known to the Company, or that a material environmental condition does not exist as to any one or more of the Properties. The Company has limited insurance coverage for the types of environmental liabilities described above.

**General uninsured losses** - The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the Properties. There are, however, certain types of extraordinary losses, such as, for example, losses for terrorism or earthquake, for which the Company does not have insurance coverage. Substantially all of the Properties are located in areas that are subject to earthquake activity. In January 2007, the Company canceled the earthquake policy and established a wholly owned insurance subsidiary. Through this subsidiary, the Company is self-insured as it relates to earthquake related losses.

Although the Company may carry insurance for potential losses associated with its Properties, employees, residents, and compliance with applicable laws, it may still incur losses due to uninsured risks, deductibles, co-payments or losses in excess of applicable insurance coverage and those losses may be material.

**Changes in real estate tax and other laws** - Generally we do not directly pass through costs resulting from changes in real estate tax laws to residential property tenants. We also do not generally pass through increases in income, service or other taxes, to tenants under leases. These costs may adversely affect funds from operations and the ability to make distributions to stockholders. Similarly, compliance with changes in (i) laws increasing the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions or (ii) rent control or rent stabilization laws or other laws regulating housing may result in significant unanticipated expenditures, which would adversely affect funds from operations and the ability to make distributions to stockholders.

**Changes in financing policy; no limitation on debt** - We have adopted a policy of maintaining for a debt-to-total-market-capitalization ratio of less than 50%. The calculation of debt-to-total-market-capitalization is as follows: total indebtedness divided by the sum of total indebtedness plus total equity market capitalization. As used in this calculation, total equity market capitalization is equal to the aggregate market value of the outstanding shares of common stock (based on the greater of current market price or the gross proceeds per share from public offerings of the outstanding shares plus any undistributed net cash flow), assuming the conversion of all limited partnership interests in the Operating Partnership into shares of common stock and the gross proceeds of the preferred units. Based on this calculation (including the current market price and excluding undistributed net cash flow), our debt-to-total-market-capitalization ratio was approximately 28% as of December 31, 2006.

Our organizational documents do not limit the amount or percentage of indebtedness that may be incurred. Accordingly, the Board of Directors of Essex could change current policies and the policies of the Operating Partnership regarding indebtedness. If we changed these policies, we could incur more debt, resulting in an increased risk of default on our obligations and the obligations of the Operating Partnership, and an increase in debt service requirements that could adversely affect our financial condition and results of operations. Such increased debt could exceed the underlying value of the Properties.

**We are subject to certain tax risks** - Essex has elected to be taxed as a REIT under the Internal Revenue Code. Essex's qualification as a REIT requires it to satisfy numerous requirements (some on an annual and quarterly basis) established under highly technical and complex Internal Revenue Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within Essex's control. Although Essex intends that its current organization and method of operation enable it to qualify as a REIT, it cannot assure you that it so qualifies or that it will be able to remain so qualified in the future. Future legislation, new regulations, administrative interpretations or court decisions (any of which could

have retroactive effect) could adversely affect Essex's ability to qualify as a REIT or adversely affect its stockholders. If it fails to qualify as a REIT in any taxable year, Essex would be subject to U.S. federal income tax (including any applicable alternative minimum tax) on its taxable income at corporate rates, and would not be allowed to deduct dividends paid to its shareholders in computing its taxable income. Essex may also be disqualified from treatment as a REIT for the four taxable years following the year in which it failed to qualify. The additional tax liability would reduce its net earnings available for investment or distribution to stockholders, and it would no longer be required to make distributions to its stockholders. Even if Essex continues to qualify as a REIT, it will continue to be subject to certain federal, state and local taxes on its income and property.

16

---

Essex has established several taxable REIT subsidiaries (“TRSs”). Despite Essex’s qualification as a REIT, its TRSs’ must pay U.S. federal income tax on their taxable income. While Essex will attempt to ensure that their dealing with its TRSs’ does not adversely affect its REIT qualification, it cannot provide assurance that it will successfully achieve that result. Furthermore, Essex may be subject to a 100% penalty tax, or its TRSs’ may be denied deductions, to the extent its dealings with its TRSs’ are not deemed to be arm’s length in nature. No assurances can be given that Essex’s dealings with its TRSs’ will be arm’s length in nature.

From time to time, we may transfer or otherwise dispose of some of our Properties. Under the Internal Revenue Code, any gain resulting from transfers of Properties that we hold as inventory or primarily for sale to customers in the ordinary course of business would be treated as income from a prohibited transaction subject to a 100% penalty tax. Since we acquire properties for investment purposes, we do not believe that our occasional transfers or disposals of property are prohibited transactions. However, whether property is held for investment purposes is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. The Internal Revenue Service may contend that certain transfers or disposals of properties by us are prohibited transactions. If the Internal Revenue Service were to argue successfully that a transfer or disposition of property constituted a prohibited transaction, then Essex would be required to pay a 100% penalty tax on any gain allocable to Essex from the prohibited transaction and Essex’s ability to retain future gains on real property sales may be jeopardized. Income from a prohibited transaction might adversely affect Essex’s ability to satisfy the income tests for qualification as a REIT for U.S. federal income tax purposes. Therefore, no assurances can be given that Essex will be able to satisfy the income tests for qualification as a REIT.

#### **Item 1B. Unresolved Staff Comments.**

None.

#### **Item 2. Properties**

Our core apartment Portfolio as of December 31, 2006 (including partial ownership interests) was comprised of 130 apartment communities (comprising 27,553 apartment units), of which 13,285 units are located in Southern California, 7,490 units are located in the San Francisco Bay Area, 5,441 units are located in the Seattle Metropolitan Area, and 1,337 units are located in the other areas including Portland, Oregon and Houston, Texas. The Company’s apartment communities accounted for 99% of the Company’s property revenues for the year ended December 31, 2006.

#### **Occupancy Rates**

The 130 apartment communities had an average Same-Properties occupancy (as defined in Item 7), based on “financial occupancy,” during the year ended December 31, 2006, of approximately 96.4 %. With respect to stabilized apartment communities with sufficient operating history, occupancy figures are based on financial occupancy (the percentage resulting from dividing actual rental revenue by total possible rental revenue). Actual rental revenue represents contractual revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates as disclosed by other REITs may not be comparable to our calculation of financial occupancy.

As of December 31, 2006, the headquarters building was 100% occupied by the Company and the Southern California office building was 95% occupied, based on physical occupancy. With respect to office buildings, occupancy figures are based on “physical occupancy” which refers to the percentage resulting from dividing leased and occupied square footage by rentable square footage. With respect to recreational vehicle parks, manufactured housing communities, or

apartment communities which have not yet stabilized or have insufficient operating history, occupancy figures are based on “physical occupancy” which refers to the percentage resulting from dividing leased and occupied units by rentable units.

For the year ended December 31, 2006, none of the Company’s Properties had book values equal to 10% or more of total assets of the Company or gross revenues equal to 10% or more of aggregate gross revenues of the Company.

17

---

### **Apartment Communities**

Our apartment communities are generally suburban garden apartments and town homes comprising multiple clusters of two and three story buildings situated on three to fifteen acres of land. The apartment communities have on average of 212 units, with a mix of studio, one, two and some three-bedroom units. A wide variety of amenities are available at each apartment community, including covered parking, fireplaces, swimming pools, clubhouses with complete fitness facilities, volleyball and playground areas and tennis courts.

We select, train and supervise a full team of on-site service and maintenance personnel. We believe that the following primary factors enhance our ability to retain tenants:

- well built communities that have been well maintained since acquisition; and
- proactive customer service approach.

### **Office Buildings**

The Company's corporate headquarters is located in a two-story office building with approximately 17,400 square feet located at 925 East Meadow Drive, Palo Alto, California. The Company acquired this property in 1997. The Company also owns an office building in Southern California (Woodland Hills), comprised of approximately 38,940 square feet building, of which the Company occupies approximately 11,200 square feet at December 31, 2006. The building has nine third-party tenants occupying approximately 26,000 feet. The largest single tenant occupies approximately 10,900 square feet. The Company acquired the Woodland Hills property in 2001. The Company has a mortgage loan receivable on an office building with approximately 110,000 square feet located in Irvine, California, which is consolidated under FIN 46R.

### **Recreational Vehicle Parks and Manufactured Housing Community**

The Company owns two recreational vehicle parks (comprising of 338 spaces), acquired in the Company's December 2002 acquisition of John M. Sachs, Inc., located in El Cajon, California.

The Company owns one manufactured housing community (containing 157 sites), acquired in the Company's December 2002 acquisition of John M. Sachs, Inc., located in Vista, California.

Edgar Filing: ESSEX PROPERTY TRUST INC - Form 10-K

The following tables describe the Company's Properties as of December 31, 2006. The first table describes the Company's apartment communities and the second table describes the Company's other real estate assets.

(1) Unless otherwise specified, the Company has a 100% ownership interest in each Property.

(2) For apartment communities, occupancy rates are based on financial occupancy for the year ended December 31, 2006; for the office buildings, recreational vehicle parks, manufactured housing communities or properties which have not yet stabilized or have insufficient operating history, occupancy rates are based on physical occupancy as of December 31, 2006. For an explanation of how financial occupancy and physical occupancy are calculated, see "Properties-Occupancy Rates" in this Item 2.

(3) The Company has a 30% special limited partnership interest in the entity that owns this apartment community. This investment was made under arrangements whereby the Essex Management Corporation ("EMC") became the general partner and the existing partners were granted the right to require the applicable partnership to redeem their interest for cash. Subject to certain conditions, the Company may, however, elect to deliver an equivalent number of shares of the Company's common stock in satisfaction of the applicable partnership's cash redemption obligation.

(4) The property is subject to a ground lease, which, unless extended, will expire in 2082.

(5) This property is owned by Fund II. The Company has a 28.2% interest in Fund II which is accounted for using the equity method of accounting.

(6) The Company holds a 1% special limited partner interest in the partnerships which own these apartment communities. These investments were made under arrangements whereby EMC became the 1% sole general partner and the other limited partners were granted the right to require the applicable partnership to redeem their interest for cash. Subject to certain conditions, the Company may, however, elect to deliver an equivalent number of shares of the Company's common stock in satisfaction of the applicable partnership's cash redemption obligation.

(7) In 2002 the Company purchased an additional 21 units adjacent to this property for \$3 million. This property was built in 1992.

(8) The Company completed a \$1.6 million redevelopment on this property in 2000.

(9) The Company completed a \$2.3 million redevelopment on this property in 2000.

(10) The Company is in the process of performing a \$10.7 million redevelopment on this property.

(11)

The Company owns the land and has leased the improvements to an unrelated third party. The leasehold interest entitles the Company to receive a monthly payment for the 34-year term of the land lease and promote fees upon sale. The property was sold in February 2007 to a third-party.

- (12) The Company is in the process of performing a \$6.2 million redevelopment on this property.
- (13) This property is subject to a ground lease, which, unless extended, will expire in 2067.
- (14) The Company is in the process of performing a \$6.0 million redevelopment on this property.
- (15) The Company completed an \$11.0 million redevelopment on this property in 2001.
- (16) The Company completed an additional \$3.6 million redevelopment on this property in 2005.
- (17) This property is subject to a ground lease, which, unless extended, will expire in 2027.
- (18) The Company had a 20.0% ownership interest this property. In 2004, the Company acquired the remaining 80%.
  - (19) The Company completed a \$3.2 million redevelopment on this property in 2002.
  - (20) The Company completed a \$1.9 million redevelopment on this property in 2000.
  - (21) The Company completed a \$1.9 million redevelopment on this property in 2001.
  - (22) The Company completed a \$1.7 million redevelopment on this property in 2001.
- (23) The Company had an 85% controlling limited partnership interest in this property as of December 31, 2006, and during January 2007 the Company acquired the remaining 15% partnership interest.

- (24) The Company and EMC have a 74.0% and 1% member interests, respectively, in this property.
- (25) The Company completed a \$3.5 million redevelopment on this property in 2002.
- (26) The property is subject to a ground lease, which, unless extended, will expire in 2028.
- (27) The Company is in the process of performing a \$12.0 million redevelopment on this property.
- (28) The Company completed a \$2.7 million redevelopment in 2001.
- (29) The Company has a preferred limited partnership interest in this property.
- (30) The Company completed a \$4.5 million redevelopment on this property in 1998.
- (31) The Company is in the process of performing an \$8.3 million redevelopment on this property.
- (32) The Company is in the process of performing a \$9.4 million redevelopment on this property.
- (33) The Company is in the process of performing a \$4.3 million redevelopment on this property
- (34) The property is subject to a ground lease, which unless extended, will expire in 2047.
- (35) The Company completed construction of 114 units of the property's 462 total units in 2000.
- (36) The Company completed a \$3.4 million redevelopment on this property in 2002.
- (37) A portion of this Property on which 84 units are presently located is subject to a ground lease, which, unless extended, will expire in 2028.
- (38) The Company is in the process of performing a \$15.1 million redevelopment on this property.
- (39) The Company is in the process of performing a joint \$3.4 million redevelopment at these properties.
- (40) The Company is in the process of performing a \$6.6 million redevelopment on this property
- (41) The Company is in the process of performing a \$3.3 million redevelopment on this property.
- (42) The Company had an approximate 45% preferred limited partnership interest in this property. In 2004 the Company acquired the remaining 55% partnership interest.
- (43) The Company converted this property into condominiums and sold 45 units during 2006.
- (44) The Company is in the process of performing a \$5.1 million redevelopment on this property and completed construction of 16 units of the property's 108 units in 2006.
- (45) The property is owned by a TRS.
- (46) The Company occupies 100% of this property.
- (47) The Company has a mortgage receivable, and consolidates this property pursuant to FIN 46R.
- (48) The Company occupies 4.6% of this property.
- (49) The Company occupies 29% of this property.
- (50) The Company leased these three properties in 2003 to an unrelated third party for approximately 5 years with an option to purchase the property in approximately 2007.

### Item 3. Legal Proceedings

In April 2004, an employee lawsuit was filed against the Company in the California Superior Court in the County of Alameda. In this lawsuit, two former Company maintenance employees sought unpaid wages, associated penalties and attorneys' fees on behalf of a putative class of the Company's current and former maintenance employees who were required to wear a pager while they were on call during evening and weekend hours. In June 2005, the Company settled the lawsuit for \$1.5 million.

Recently there has been an increasing number of lawsuits against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. The Company has been sued for mold related matters and has settled some, but not all, of such matters. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. The Company has, however, purchased pollution liability insurance, which includes some coverage for mold. The Company has adopted programs designed to manage the existence of mold in its properties as well as guidelines for promptly addressing and resolving reports of mold to minimize any impact mold might have on residents or property. Liabilities resulting from such mold related matters and the costs of carrying insurance to address potential mold related claims may also be substantial. The Company is subject to various other lawsuits in the normal course of its business operations. Accordingly, such lawsuits, as well as the class action lawsuit described above, could result in

substantial costs and diversion of resources and could have a material adverse effect on the Company's financial condition, results of operations or cash flows.

**Item 4. Submission of Matters to a Vote of Security Holders**

During the fourth quarter of 2006, no matters were submitted to a vote of security holders.

23

---

## Part II

### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The shares of the Company's common stock are traded on the New York Stock Exchange ("NYSE") under the symbol ESS.

#### *Market Information*

The Company's common stock has been traded on the NYSE since June 13, 1994. The high, low and closing price per share of common stock reported on the NYSE for the quarters indicated are as follows:

<u>Quarter Ended</u>	<u>High</u>	<u>Low</u>	<u>Close</u>
December 29, 2006	\$ 133.99	\$ 119.76	\$ 129.25
September 29, 2006	\$ 128.58	\$ 111.54	\$ 121.40
June 30, 2006	\$ 128.57	\$ 100.90	\$ 111.66
March 31, 2006	\$ 111.10	\$ 92.10	\$ 108.73
December 31, 2005	\$ 93.44	\$ 80.35	\$ 92.20
September 30, 2005	\$ 93.14	\$ 82.86	\$ 90.00
June 30, 2005	\$ 86.13	\$ 68.50	\$ 83.06
March 31, 2005	\$ 84.32	\$ 68.56	\$ 69.10

The closing price as of February 26, 2007 was \$140.00.

#### *Holdings*

The approximate number of holders of record of the shares of the Company's common stock was 248 as of February 26, 2007. This number does not include stockholders whose shares are held in trust by other entities. The actual number of stockholders is greater than this number of holders of record.

#### *Return of Capital*

Under provisions of the Internal Revenue Code of 1986, as amended, the portion of the cash dividend, if any, that exceeds earnings and profits is considered a return of capital. The return of capital is generated due to a variety of factors, including the deduction of non-cash expenses, primarily depreciation, in the determination of earnings and profits.

The status of cash dividends distributed for the year ended December 31, 2006 related to Series G preferred stock is 100% ordinary income and, the status of the cash dividends distributed for the years ended December 31, 2006, 2005 and 2004 related to common stock and Series F preferred stock for tax purposes are as follows:

	<b>2006</b>	<b>2005</b>	<b>2004</b>

	100.00%	100.00%	100.00%

***Dividends and Distributions***

Since its initial public offering on June 13, 1994, the Company has paid regular quarterly dividends to its stockholders. The Company has paid the following dividends per share of common stock:

<b>Quarter Ended</b>	<b>1994</b>	<b>1995</b>	<b>1996</b>	<b>1997</b>	<b>1998</b>	<b>1999</b>	<b>2000</b>	<b>2001</b>	<b>2002</b>	<b>2003</b>	<b>2004</b>	<b>2005</b>	<b>2006</b>
3/31.....	N/A	\$0.4175	\$0.425	\$0.435	\$0.450	\$0.500	\$0.550	\$0.700	\$0.770	\$0.780	\$0.790	\$0.810	\$0.840
6/30.....	\$0.0800	\$0.4175	\$0.425	\$0.435	\$0.500	\$0.550	\$0.610	\$0.700	\$0.770	\$0.780	\$0.790	\$0.810	\$0.840
9/30.....	\$0.4175	\$0.4250	\$0.435	\$0.450	\$0.500	\$0.550	\$0.610	\$0.700	\$0.770	\$0.780	\$0.790	\$0.810	\$0.840
12/31....	\$0.4175	\$0.4250	\$0.435	\$0.450	\$0.500	\$0.550	\$0.610	\$0.700	\$0.770	\$0.780	\$0.790	\$0.810	\$0.840

Future distributions by the Company will be at the discretion of the Board of Directors and will depend on the actual cash flows from operations of the Company, its financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Internal Revenue Code, applicable legal restrictions and such other factors as the Board of Directors deems relevant. There are currently no contractual restrictions on the Company's present or future ability to pay dividends.

On February 23, 2007, the Company announced the Board of Directors approved a \$0.09 per share increase to the quarterly cash dividend, which represents a \$0.36 increase on an annualized basis. Accordingly, the first quarter dividend distribution, payable on April 16, 2007 to stockholders as of record as of March 31, 2007, will be \$0.93 per share.

***Dividend Reinvestment and Share Purchase Plan***

The Company has adopted a dividend reinvestment and share purchase plan designed to provide holders of Common Stock with a convenient and economical means to reinvest all or a portion of their cash dividends in shares of Common Stock and to acquire additional shares of Common Stock through voluntary purchases. Computershare, LLC, which serves as the Company's transfer agent, administers the dividend reinvestment and share purchase plan. For a copy of the plan, contact Computershare, LLC at (312) 360-5354.

***Stockholder Rights Plan***

In 1998, the Company adopted a stockholder rights plan that is designed to enhance the ability of all of the Company's stockholders to realize the long-term value of their investment. The rights plan is designed, in part, to prevent a person or group from gaining control of the Company without offering a fair price to all of the Company's stockholders.

On October 13, 1998, the Board declared a one-for-one preferred share purchase right (a "Right") for each outstanding share of Common Stock. Each Right entitles the registered holder to purchase from the Company one one-hundredth of a share of Series A Junior Participating Preferred Stock, par value \$.0001 per share, of the Company, at a price of \$99.13 per one-hundredth of a share, subject to adjustment. The description and terms of the Rights are set forth in a Rights Agreement dated as of November 11, 1998, as amended between the Company and Computershare, LLC as Rights Agent.

***Securities Authorized for Issuance under Equity Compensation Plans***

See our disclosure in the 2007 Proxy Statement under the heading "Equity Compensation Plan Information", which disclosure is incorporated herein by reference.

***Issuance of Registered Equity Securities***

Period	Total Number of Shares Sold	Average Price per Share	Proceeds (net of fees and commissions)
5/24/06 to 10/17/06	427,700	\$115.16	\$48,273,142

During 2006, pursuant to a registration statement and its Controlled Equity Offering program, the Company issued and sold approximately 427,700 shares of common stock for \$48.3 million, net of fees and commissions. The Company used the net proceeds from the offerings to pay down outstanding borrowings under the Company's lines of credit, to fund real estate investments and for general corporate purposes.

25

---

*Unregistered Sale of Equity Securities and Use of Proceeds*

During October 2006, the Operating Partnership acquired Belmont Terrace, a 71-unit apartment community located in Belmont, California. As part of the consideration for this acquisition, the Operating Partnership issued approximately 72,685 partnership units, representing limited partnership interests in the Operating Partnership, to the sellers of this property. Such units were valued in aggregate at approximately \$7.7 million. Such units were issued in a private placement and pursuant to the exemption from registration set forth in Section 4(2) of the Securities Act of 1933, as amended. After one year after issuance, the units are exchangeable on a one-for-one basis into shares of Essex common stock. Were all of such units to be exchanged for common stock, then Essex would issue 72,685 shares of common stock, which is less than 1% of the number of its shares of common stock currently outstanding.

Interest coverage ratio <sup>(2)</sup>	2.9X	2.8X	3.1X	3.2X	3.5X

- (1) The above financial and operating information from January 1, 2002 through December 31, 2003 reflect the retroactive adoption of FIN 46R and SFAS No. 123. The 2005 balance sheet and results of operations for 2005, 2004, 2003, and 2002 have been reclassified to reflect discontinued operations for properties sold subsequent to December 31, 2005 or held for sale as of December 31, 2006.
- (2) Interest coverage ratio represents earnings before minority interests, gain on sales of real estate, interest expense, taxes, depreciation and amortization (“adjusted EBITDA”) divided by interest expense. The Company believes that the interest coverage ratio is useful to readers because it is frequently used by investors, lenders, security analysts and other interested parties in the evaluation of companies in our industry. In addition, the Company believes that this ratio is useful in evaluating our performance compared to that of other companies in our industry because the calculation of the adjusted EBITDA component of the interest coverage ratio generally eliminates the effects of financing costs, income taxes, and depreciation and amortization, which items may vary for different companies for reasons unrelated to operating performance.

The adjusted EBITDA component of the interest coverage ratio, however, is not a recognized measurement under U.S. generally accepted accounting principles, or GAAP. When analyzing our operating performance, readers should use the interest coverage ratio and its adjusted EBITDA component in addition to, and not as an alternative for, net income, as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of the interest coverage ratio and its adjusted EBITDA component may not be comparable to similarly titled measures of other companies. Furthermore, the interest coverage ratio is not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as income tax payments, debt service requirements, capital expenditures and other fixed charges. The amounts shown for the interest coverage ratio and adjusted EBITDA may also differ from the amounts calculated under similarly titled definitions in our debt instruments, which can be further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities such as incurring additional debt and making certain restricted payments.

- (3) Gross operating margin represents rental revenues and other property income less property operating expenses, exclusive of depreciation and amortization, divided by rental revenues and other property income.
- (4) A stabilized apartment community, or "Same-Property" apartment units (as defined in Item 7), are those units in properties that the Company has consolidated for the entire two years as of the end of the period set forth. The number of apartment units in such properties may vary at each year-end. Percentage changes in averages per unit do not correspond to total Same-Property revenues and expense percentage changes which are discussed in Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations.
- (5) Average Same-Property monthly rental rate per apartment unit represents total scheduled rent for the same property apartment units for the period (actual rental rates on occupied apartment units plus market rental rates on vacant apartment units) divided by the number of such apartment units and further divided by the number of months in the period.
- (6) Average Same-Property monthly expenses per apartment unit represents total monthly operating expenses, exclusive of depreciation and amortization, for the same property apartment units for the period divided by the total number of such apartment units and further divided by the number of months in the period.
- (7) Occupancy rates are based on financial occupancy. For an explanation of how financial occupancy is calculated, see Item 7 - Managements Discussion and Analysis of Financial Condition and Results of Operations.

## Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the accompanying consolidated financial statements and notes thereto. These consolidated financial statements include all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results and all such adjustments are of a normal recurring nature.

### OVERVIEW

The Company is a self-administered and self-managed REIT that acquires, develops, redevelops and manages apartment communities in selected residential areas located primarily in the west coast of the United States. The Company owns all of its interests in its real properties, directly or indirectly, through the Operating Partnership. The Company is the sole general partner of the Operating Partnership and, as of December 31, 2006, had an approximately 90.4% general partner interest in the Operating Partnership.

Our investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets to identify areas with the characteristics that underlie rental growth. Our strong financial condition supports our investment strategy by enhancing our ability to quickly shift our acquisition, development, and disposition activities to markets that will optimize the performance of the portfolio.

As of December 31, 2006, we had ownership interests in 130 apartment communities, comprising 27,553 apartment units. Our apartment communities are located in the following major West Coast regions:

***Southern California*** (Los Angeles, Ventura, Orange, Riverside and San Diego counties)

***Northern California*** (the San Francisco Bay Area)

***Seattle Metro*** (Seattle metropolitan area)

***Other Regions*** (Portland metropolitan area, Houston, Texas, and property owned by a TRS)

As of December 31, 2006, we also had ownership interests in three office buildings (with approximately 166,340 square feet), two recreational vehicle parks (comprising 338 spaces) and one manufactured housing community (containing 157 sites).

As of December 31, 2006, our development pipeline was comprised of two development projects, seven predevelopment projects, four TRS projects, and one joint venture development, aggregating 2,478 units, with total incurred costs of \$103.5 million, and estimated remaining project costs of approximately \$663.5 million for total estimated project costs of \$767.0 million.

By region, the Company's operating results and rent growth analysis are as follows:

***Southern California Region:*** As of December 31, 2006, this region represented 48% of our apartment units. During the year ended December 31, 2006, Same-Property (as defined below) revenues increased 5.8% as compared to 2005. The Company expects in 2007 new residential supply of 24,200 single family homes and 18,300 apartment units which represents a total new supply of 0.8% of existing stock. The Company expects this region to add 99,000 new jobs and generate market rent growth of approximately 4.5% in 2007.

***Northern California Region:*** As of December 31, 2006, this region represented 27% of our apartment units. Same-Property revenues increased 8.4% in 2006 as compared to 2005. The Company expects in 2007 new residential supply of 9,000 single family homes and 7,300 apartment units which represents a total new supply of 0.7% of existing stock. The Company expects this region to add 55,000 new jobs and generate market rent growth of approximately 6.75% in 2007.

**Seattle Metro Region:** As of December 31, 2006, this region represented 20% of our apartment units. Same-Property revenues increase 9.2% in 2006 as compared to 2005. The Company expects in 2007 new residential supply of 10,500 single family homes and 3,200 apartment units which represents a total new supply of 1.3% of existing stock. The Company expects this region to add 38,000 new jobs and generate market rent growth of approximately 7.5% in 2007.

**Other Regions:** As of December 31, 2006, the Portland region represented 3% of our apartment units, and the remaining 2% of our units relate to a property located in Houston, Texas and a property owned by a TRS. For the Portland metropolitan area Same-Property revenues increased 7.0% in 2006 as compared to 2005. The Company expects in 2007 for the Portland metropolitan area new residential supply of 11,000 single family homes and 3,400 apartment units which represents a total new supply of 1.8% of existing stock. The company expects the Portland metropolitan area to add 27,000 new jobs and generate market rent growth of approximately 5.0% in 2007.

30

---

The Company's consolidated apartment communities are as follows:

	<b>As of December 31, 2006</b>		<b>As of December 31, 2005</b>	
	<b>Apartment</b>		<b>Apartment</b>	
	<b>Homes</b>	<b>%</b>	<b>Homes</b>	<b>%</b>
Southern California	13,285	48%	13,382	50%
Northern California	7,490	27%	6,557	25%
Seattle		20%		21%
Metro	5,441		5,471	
Other		5%		4%
Regions	1,337		1,177	
Total	27,553	100%	26,587	100%

## RESULTS OF OPERATIONS

### *Comparison of Year Ended December 31, 2006 to Year Ended December 31, 2005*

Average financial occupancy rates of the Company's stabilized apartment communities or "Same-Properties" (properties consolidated by the Company for each of the years ended December 31, 2006 and 2005) decreased to 96.4% for the year ended December 31, 2006 from 96.6% for the year ended December 31, 2005. Financial occupancy is defined as the percentage resulting from dividing actual rental revenue by total possible rental revenue. Actual rental revenue represents contractual rental revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates as disclosed by other REITs may not be comparable to our calculation of financial occupancy.

The regional breakdown of the Company's Same-Property portfolio for financial occupancy for the years ended December 31, 2006 and 2005 are as follows:

	<b>Years ended December 31,</b>	
	<b>2006</b>	<b>2005</b>
Southern California	96.3%	96.5%
Northern California	96.7%	97.1%
Seattle		
Metro	96.9%	96.7%
Other		
Regions	95.2%	95.3%

The following table sets forth a breakdown of these revenue amounts, including the revenues attributable to Same-Properties.

	Number of Properties	Years Ended		Dollar Change	Percentage Change
		December 31, 2006	2005		
Property Revenues (dollars in thousands)					
Same-Properties:					
Southern California	53	\$ 174,156	\$ 164,550	\$ 9,606	5.8%
Northern California	16	54,887	50,625	4,262	8.4
Seattle Metro	21	48,663	44,551	4,112	9.2
Other Regions	5	10,256	9,578	678	7.1
Total Same-Property revenues	95	287,962	269,304	18,658	6.9
Non-Same Property Revenues (1)		55,082	41,666	13,416	32.2
Total property revenues		\$ 343,044	\$ 310,970	\$ 32,074	10.3%

(1) Includes properties acquired after January 1, 2005, ten redevelopment communities, three office buildings, two recreational vehicle parks, and one manufactured housing community.

*Same-Property Revenues* increased by \$18.7 million or 6.9% to \$288.0 million for the year ended 2006 compared to \$269.3 million for the year ended 2005. The increase was primarily attributable to an increase in rental rates of

31

---

\$17.4 million or 6.5%, an increase of \$0.7 million in revenue from the ratio utility billing system (“RUBS”), an increase of \$0.7 million in ancillary property income, and a decrease in rent concessions of \$0.9 million compared to the year ended December 31, 2005. Delinquency was consistent for the two years, and occupancy was stable for the first three quarters of 2006 compared to 2005, but in the fourth quarter of 2006 occupancy decreased by \$0.9 million compared to fourth quarter of 2005.

*Non-Same Property Revenues* increased by \$13.4 million or 32.2% to \$55.1 million for the year ended 2006 compared to \$41.7 million for the year ended 2005. The increase in non-same property revenues was primarily due to eight properties acquired since January 1, 2005.

*Management and other fees from affiliates* decreased by approximately \$5.9 million or 54% for 2006 due primarily to \$7.1 million in promote income recorded during 2005 related to the sale of Fund I assets, as compared to \$1.2 million in promote income from Fund I during 2006.

*Total Expenses* increased \$15.3 million or 5% to \$297.6 million for 2006 from \$282.3 million for 2005. The increase was primarily due to increases in utility expense, real estate taxes, insurance expense, and salaries. Utility expense increased by \$3.1 million over the prior year due mainly to higher natural gas and electrical prices in the first two quarters of 2006. Real estate taxes increased \$2.8 million over the prior year due mainly to increases in assessment of properties in the Pacific Northwest and new acquisitions. Insurance expense increased \$0.9 million over prior year due to increases in earthquake and property liability premiums. Salaries increased mainly due to an increase in payroll salaries over the prior year, an increase in equity based compensation expense, and higher operating expenses due to the acquisition of eight properties in the past year.

*Interest expense* increased by \$2.1 million or 3% for 2006 to \$72.9 million, net of \$3.9 million in capitalized interest, compared to \$70.8 million, net of \$ 1.1 in capitalized interest for 2005. The increase was mainly due to an increase in total outstanding debt of \$57 million between 2006 and 2005, and higher short-term borrowing rates.

*Other expenses* decreased \$4.1 million or 70% to \$1.8 million for 2006 compared to \$5.8 million for 2005. During 2006, the Company incurred \$970 in net pursuit costs related to the Company’s attempt to acquire the Town & Country REIT in the first quarter of 2006 and the Company recorded a \$0.8 million impairment charge on a property in Houston, Texas during the third quarter of 2006. During 2005, the Company recorded the following other expenses: (i) a \$1.5 million charge related to a legal settlement, (ii) \$1.4 million in incentive compensation costs related to \$6.1 million in interest income realized on The Essex on Lake Merritt participating loan in the third quarter of 2005, (iii) an impairment loss of \$1.3 million related to a property in Houston, Texas in the fourth quarter of 2005, and (iv) pre-payment penalties and write-off of deferred charges in the amount of \$1.6 million related to the early termination of various mortgage notes payable during the fourth quarter of 2005.

*Gain on sale of real estate* was \$0 for 2006 compared to a gain of \$6.4 million recorded for 2005 resulting from the recognition of a \$5 million deferred gain due to the sale of The Essex on Lake Merritt and \$1.4 million from TRS activity.

*Interest and other income* was comprised of \$1.7 million for a gain on the sale of the Town & Country stock recorded during the first quarter for 2006, \$0.7 million of interest income earned on notes receivables, \$0.2 million in forfeited deposits from a potential disposition and approximately \$1.9 million in interest income on cash balances, as compared to \$6.1 million in interest income from the Essex on Lake Merritt participating loan recorded in the third quarter of 2005. Lease income from the RV parks was consistent for both periods.

*Equity (loss) income in co-investments* decreased \$20.1 million for 2006 primarily due to gains from the sale of Fund I properties during 2005 totaling \$18.1 million. For 2006 the Company recorded a net loss on its investment in Fund II of \$1.5 million, and there were no property sales in Fund I or II during 2006.

*Income tax provision* decreased by \$2.0 million during 2006 due to less taxable income related to TRS activity.

*Income from discontinued operations* for 2006 relates to the gain on sale of 45 Peregrine Point condominiums for \$2.0 million, a gain on sale of the Vista Pointe joint venture property for \$8.8 million plus fees and promote income from that sale of \$8.2 million, a gain of \$3.1 million on the sales of the Vista Capri East, Casa Tierra, and Diamond Valley properties, and a gain of \$6.7 million on the sale of Emerald Palms property. Discontinued operations for 2005 relates to the sale of the Eastridge Apartments in the second quarter of 2005, for a gain on sale of \$28.5 million, a gain of \$0.7 million attributed to the sale of four small assets, and \$1.2 million in rental revenues related to the Eastridge property. The City Heights apartment community was held for sale as of December 31, 2006, and operations for this property were reclassified to discontinued operations for all periods presented in the accompanying consolidated statements of operations.

32

---

**Comparison of Year Ended December 31, 2005 to Year Ended December 31, 2004**

Average financial occupancy rates of the Company's 2005/2004 Same-Property portfolio (properties consolidated by the Company for each of the years ended December 31, 2005 and 2004) for the year ended December 31, 2005 increased to 96.6% from 95.4% for the year ended December 31, 2004.

The regional breakdown of the Company's 2005/2004 Same-Property portfolio for financial occupancy for the years ended December 31, 2005 and 2004 are as follows:

	<b>Years ended December 31, 2005      2004</b>	
Southern California	96.5%	95.5%
Northern California	97.1%	95.5%
Seattle Metro	96.7%	95.2%
Other Regions	95.3%	93.6%

The following table sets forth a breakdown of these revenue amounts, including the revenues attributable to 2005/2004 Same-Properties.

	<b>Number of Properties</b>	<b>Years Ended</b>		<b>Dollar Change</b>	<b>Percentage Change</b>
		<b>December 31, 2005</b>	<b>2004</b>		
Property Revenues (dollars in thousands) 2005/2004 Same-Properties:					
Southern California	45	\$ 119,914	\$ 113,574	\$ 6,340	5.6%
Northern California	16	51,727	50,577	1,150	2.3
Seattle Metro	20	41,079	39,548	1,531	3.9
Other Regions	5	9,578	9,301	277	3.0
Total 2005/2004 Same-Property revenues	86	222,298	213,000	9,298	4.4
2005/2004 Non-Same Property Revenues (1)		88,672	61,170	27,502	45.0
Total property revenues		\$ 310,970	\$ 274,170	\$ 36,800	13.4%

(1) Includes properties acquired subsequent to January 1, 2004, seven redevelopment communities, two development communities, three office buildings, three recreational vehicle parks, and one manufactured housing community.

*2005/2004 Same-Property revenues* increased by \$9.3 million or 4.4% to \$222.3 million for the year ended 2005 from \$213.0 million for the year ended 2004. The majority of this increase was due to rental rate growth of 4.0% or \$5.0 million attributable to the 2005/2004 Same-Properties located in Southern California and rental rate growth of 1.1% or approximately \$0.5 million attributable to the 2005/2004 Same-Properties located in the Seattle Metro area. The apartment communities properties located in Northern California achieved rental rate growth of 0.7% or approximately \$0.4 million. Property revenues for 2005/2004 Same-Properties also increased due to an increase in occupancy from 95.4% in 2004 to 96.6% for 2005, for an increase in revenues of \$1.9 million. Rent concessions also decreased in the second half of 2005, which increased 2005 revenues by \$0.4 million for the 2005/2004 Same-Property portfolio.

*2005/2004 Non-Same Property Revenues* increased by \$27.5 or 45.0% to \$88.7 million for 2005 from \$61.2 million for 2004. The increase was primarily generated from communities acquired and or developed and increased rents from redeveloped properties. Subsequent to January 1, 2004, the Company acquired 16 apartment communities or 3,262 units and completed the construction of 756 units.

*Management and other fees from affiliates* decreased by approximately \$12.2 million in 2005 due primarily to the promote income from Fund I being reduced from \$18.3 million in 2004 to \$7.0 million in 2005 as Fund I finished the liquidation of its assets. Development and redevelopment fees from Fund I decreased by \$1.1 million during 2005 from \$1.3 million in 2004 to \$0.2 million in 2005 as the expenditures for Fund I's development assets decreased as the assets were sold in the second half of 2004 and early 2005.

*Total Expenses* increased 15% to \$282.2 million for 2005 from \$245.6 million for 2004. The increase was due primarily to depreciation and amortization, real estate taxes, property operating expenses, and other expenses. For 2005 as compared to 2004, depreciation and amortization increased 12% or \$8.2 million, real estate taxes increased 12% or \$2.9 million, and property operating expenses increased 11% or \$8.1 million due to the purchase of 16 apartment communities since January 1, 2004.

*Interest expense* increased 17% to \$70.8 million, net of \$1.1 of capitalized interest for 2005, as compared to \$60.7 million, net of \$2.0 million of capitalized interest, for 2004. The increase was primarily due to an increase in LIBOR during 2005, and during the fourth quarter of 2005 the Company issued \$225 million in exchangeable bonds. The proceeds from the bond issuance were used to pay the lines of credit and certain mortgage notes payable, and repurchase \$25 million in common stock.

*Other expenses* were \$5.8 million for 2005. During 2005, the Company recorded the following other expenses: (i) a \$1.5 million charge related to a legal settlement, (ii) \$1.4 million in incentive compensation costs related to \$6.1 million in interest income realized on The Essex on Lake Merritt participating loan in the third quarter of 2005, (iii) an impairment loss of \$1.3 million related to a property in Houston, Texas in the fourth quarter of 2005, and (iv) pre-payment penalties and write-off of deferred charges in the amount of \$1.6 million related to the early termination of various mortgage notes payable during the fourth quarter of 2005.

*Gain on sale of real estate* decreased by \$1.5 million for 2005 to \$6.4 million compared to \$7.9 million recorded in 2004. During 2005, Essex recognized \$5.0 million in gains previously deferred in 2004 on the sale of Essex on Lake Merritt and \$1.4 million in gains from our TRS activity. The gain of \$7.9 million recorded in the third quarter of 2004 related to the sale of The Essex on Lake Merritt.

*Interest and other income* increased by \$5.4 million to \$8.5 million for 2005 compared to \$3.1 million for 2004. The increase is primarily attributable to the receipt of \$6.1 million in interest income related to The Essex on Lake Merritt participating loan in 2005.

*Equity (loss) income in co-investments* decreased by \$22.1 million to \$18.6 million for 2005 compared to \$40.7 million in 2004. During 2005 the Company recorded its pro-rata allocation of gains of \$18.1 million on sales of Fund I properties. During 2004, the Company recorded its pro-rata allocation of gains of \$39.2 million on sales of Fund I properties and the sale of its direct interest in Coronado at Newport - North.

*Income tax provision* increased by \$2.3 million during 2005 due to taxable income related to TRS activity.

*Income from discontinued operations* increased by \$25.1 million to \$30.1 million for 2005 from \$4.9 million for 2004, due primarily from the sale of the Eastridge apartments in the second quarter of 2005, and the sale of four small assets during the first quarter of 2005.

### ***Liquidity and Capital Resources***

Standard and Poor's has issued a corporate credit rating of BBB/Stable for Essex Property Trust, Inc. and Essex Portfolio, L.P.

At December 31, 2006, the Company had \$9.7 million of unrestricted cash and cash equivalents. We believe that cash flows generated by our operations, existing cash balances, availability under existing lines of credit, access to capital markets and the ability to generate cash gains from the disposition of real estate are sufficient to meet all of our reasonably anticipated cash needs during 2007. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect our plans for acquisitions, dispositions, development and redevelopment activities.

Essex has a \$200 million unsecured line of credit and, as of December 31, 2006, there was no outstanding balance on the line. This facility matures in March 2009, with an option for a one-year extension. The underlying interest rate on this line is based on a tiered rate structure tied to our corporate ratings and is currently LIBOR plus 0.8%. We also have a \$100 million credit facility from Freddie Mac, which is secured by eight of Essex's apartment communities. As of December 31, 2006, we had \$93.0 million outstanding under this line of credit, which bears an average interest rate

of 6.2% and matures in January 2009. The underlying interest rate on this line is between 55 and 59 basis points over the Freddie Mac Reference Rate. Fund II has a credit facility aggregating \$56 million. This line bears interest at LIBOR plus 0.875%, and matures on June 30, 2007. The Company has the capacity to issue up to approximately \$20 million in equity securities, and the Operating Partnership has the capacity to issue up to \$250 million of debt securities under our existing shelf registration statements.

During the third quarter of 2006, the Company sold 5,980,000 million shares of 4.875% Series G Cumulative Convertible Preferred Stock for gross proceeds of \$149.5 million. Holders may convert Series G Preferred Stock

34

---

into shares of the Company's common stock subject to certain conditions. The conversion rate will initially be .1830 shares of common stock per the \$25 share liquidation preference, which is equivalent to an initial conversion price of approximately \$136.62 per share of common stock (the conversion rate will be subject to adjustment upon the occurrence of specified events). On or after July 31, 2011, the Company may, under certain circumstances, cause some or all of the Series G Preferred Stock to be converted into shares of common stock at the then prevailing conversion rate.

Essex, through its Operating Partnership, has \$225 million of outstanding exchangeable senior notes (the "Notes") with a coupon of 3.625% due 2025. The Notes are senior unsecured obligations of the Operating Partnership, and are fully and unconditionally guaranteed by the Company. On or after November 1, 2020, the Notes will be exchangeable at the option of the holder into cash and, in certain circumstances at Essex's option, shares of the Company's common stock at an initial exchange price of \$103.25 per share subject to certain adjustments. The Notes will also be exchangeable prior to November 1, 2020, but only upon the occurrence of certain specified events. On or after November 4, 2010, the Operating Partnership may redeem all or a portion of the Notes at a redemption price equal to the principal amount plus accrued and unpaid interest (including additional interest, if any). Note holders may require the Operating Partnership to repurchase all or a portion of the Notes at a purchase price equal to the principal amount plus accrued and unpaid interest (including additional interest, if any) on the Notes on November 1, 2010, November 1, 2015 and November 1, 2020.

As of December 31, 2006, our mortgage notes payable totaled \$1.1 billion which consisted of \$907.2 million in fixed rate debt with interest rates varying from 4.14% to 8.18% and maturity dates ranging from 2007 to 2015 and \$186.3 million of tax-exempt variable rate demand bonds with a weighted average interest rate of 4.6%. The tax-exempt variable rate demand bonds have maturity dates ranging from 2006 to 2034, and are subject to interest rate caps.

The Company pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in short-term investment grade securities or is used by the Company to reduce balances outstanding under its line of credit.

#### *Derivative Activity*

As of December 31, 2006 the Company had entered into forward-starting interest rate swaps totaling a notional amount of \$450 million with interest rates ranging from 4.9% to 5.9% and settlements dates ranging from April 2007 to July 2011. These derivatives qualify for hedge accounting and will economically hedge the cash flows associated with the refinancing of debt that matures between April 2007 and July 2011. The decrease in the fair value of these derivatives during the year ended December 31, 2006 was approximately \$2.9 million and is reflected in accumulated other comprehensive (loss) income in the Company's consolidated financial statements. No hedge ineffectiveness on cash flow hedges was recognized during the year ended December 31, 2006.

#### *Issuance of Common Stock*

During 2006, the Company issued and sold approximately 427,700 shares of common stock for \$48.3 million, net of fees and commissions, under its Controlled Equity Offering program; the average price per share was \$115.16. Under this program, the Company may from time to time sell shares of common stock into the existing trading market at current market prices, and the Company anticipates using the net proceeds from such sales to fund development and redevelopment pipelines. The Company used the net proceeds from the common stock sales to pay down outstanding borrowings under the Company's lines of credit, to fund real estate investments and for general corporate purposes.

#### *Capital Expenditures*

Non-revenue generating capital expenditures are improvements and upgrades that extend the useful life of the property. For the year ended December 31, 2006, non-revenue generating capital expenditures totaled approximately

\$814 per unit. The Company expects to incur approximately \$850 per unit in non-revenue generating capital expenditures for the year ended December 31, 2007. These expenditures do not include the improvements required in connection with the origination of mortgage loans, expenditures for deferred maintenance on acquisition properties, expenditures for property renovations and improvements which are expected to generate additional revenue, and renovation expenditures required pursuant to tax-exempt bond financings. The Company expects that cash from operations and/or its lines of credit will fund such expenditures. However, there can be no assurance that the actual expenditures incurred during 2007 and/or the funding thereof will not be significantly different than the Company's current expectations.

35

---

### *Development and Predevelopment Pipeline*

The Company defines development activities as new properties that are being constructed, or are newly constructed and, in the case of development communities, are in a phase of lease-up and have not yet reached stabilized operations; or, in the case of TRS development projects, have not yet been sold. As of December 31, 2006, excluding development projects owned by Fund II, the Company had two development projects comprised of 513 units for an estimated cost of \$167.3 million, of which \$126.9 million remains to be expended. See discussion in the section, "Risks that development activities will be delayed or not completed and/or fail to achieve expected results" in Item 1A, Risk Factors, of this Form 10-K.

The Company defines the predevelopment pipeline as new properties in negotiation or in the entitlement process with a high likelihood of becoming development activities. As of December 31, 2006, the Company had development communities aggregating 1,845 units that were classified as predevelopment projects. The estimated total cost of the predevelopment pipeline at December 31, 2006 is \$557.0 million, of which \$514.8 million remains to be expended.

The Company had four other development projects owned by TRS entities that are under development aggregating 120 units. The estimated total cost of the other development projects at December 31, 2006 is \$42.0 million, of which \$21.8 million remains to be expended. The Company has also incurred \$0.7 million in costs related to a joint venture development with a third party.

The Company expects to fund the development pipeline by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of properties, if any.

### *Redevelopment Pipeline*

The Company defines redevelopment activities as existing properties owned or recently acquired, which have been targeted for additional investment by the Company with the expectation of increased financial returns through property improvement. The Company's redevelopment strategy strives to improve the financial and physical aspects of the Company's redevelopment apartment communities and to target at least a 10 percent return on the incremental renovation investment. Many of the Company's properties are older and in excellent neighborhoods, providing lower density with large floor plans that represent attractive redevelopment opportunities. During redevelopment, apartment units may not be available for rent and, as a result, may have less than stabilized operations. As of December 31, 2006, the Company had ownership interests in twelve major redevelopment communities aggregating 3,648 apartment units with estimated redevelopment costs of \$90.2 million, of which approximately \$51.2 million remains to be expended. These amounts exclude redevelopment projects owned by Fund II.

### *Alternative Capital Sources*

Fund II has eight institutional investors, including the Company, with combined partner equity commitments of \$265.9 million. Essex has committed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner. Fund II expects to utilize leverage equal to approximately 65% of the estimated value of the underlying real estate. Fund II invests in apartment communities in the Company's targeted West Coast markets with an emphasis on investment opportunities in the Seattle metropolitan area and the San Francisco Bay Area. Subject to certain exceptions, Fund II has been Essex's primary investment vehicle during 2005 and 2006. As of October 2006, Fund II was fully invested and closed for any future acquisitions or development. As of December 31, 2006, Fund II owned 11 apartment communities and three development projects. Consistent with Fund I, Essex records revenue for its asset management, property management, development and redevelopment services when earned, and promote income if Fund II exceeds certain financial return benchmarks.

***Contractual Obligations and Commercial Commitments***

The following table summarizes the maturation or due dates of our contractual obligations and other commitments at December 31, 2006, and the effect such obligations could have on our liquidity and cash flow in future periods:

<b>(In thousands)</b>	<b>2007</b>	<b>2008 and 2009</b>	<b>2010 and 2011</b>	<b>Thereafter</b>	<b>Total</b>
Mortgage notes payable	\$ 69,108	\$ 204,081	\$ 312,403	\$ 507,962	\$ 1,093,554
Exchangeable bonds	-	-	-	225,000	225,000
Lines of credit	-	-	93,000	-	93,000
Interest on indebtedness	68,060	93,658	175,655	140,378	477,751
Development commitments	66,500	61,900	-	-	128,400
Redevelopment commitments	33,592	17,585	-	-	51,177
Essex Apartment Value Fund II, L.P. capital commitment	19,400	8,397	-	-	27,797
	\$ 256,660	\$ 385,621	\$ 581,058	\$ 873,340	\$ 2,096,679

***Variable Interest Entities*****Consolidated Variable Interest Entities**

In accordance FIN 46R, the Company consolidates 17 Down REIT limited partnerships (comprising ten properties), an office building that is subject to loans made by the Company, and building improvements owned by a third-party in which the Company owns the land underlying the improvements and from which the Company receives land lease payments, subordination, and property management fees. The Company consolidated these entities because it is deemed the primary beneficiary under FIN 46R. The Company's total assets and liabilities related to these variable interest entities (VIEs), net of intercompany eliminations, were approximately \$269.5 million and \$145.5 million, respectively, at December 31, 2006 and \$230.9 million and \$146.7 million, respectively, at December 31, 2005.

Interest holders in VIEs consolidated by the Company are allocated net income equal to the cash payments made to those interest holders for services rendered or distributions from cash flow. The remaining results of operations are generally allocated to the Company.

Properties consolidated in accordance with FIN 46R were encumbered by third party, non-recourse loans totaling \$140.3 million and \$141.8 million as of December 31, 2006 and 2005, respectively.

**Unconsolidated Variable Interest Entities**

As of December 31, 2006 the Company is involved with two VIEs, of which it is not deemed to be the primary beneficiary. Total assets and liabilities of these entities as of December 31, 2006 were approximately \$78.5 million and \$58.4 million, respectively. The Company does not have a significant exposure to loss resulting from its involvement with these unconsolidated VIEs.

***Critical Accounting Policies and Estimates***

The preparation of consolidated financial statements, in accordance with U.S. generally accepted accounting principles requires the Company to make estimates and judgments that affect the reported amounts of assets,

liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. We define critical accounting policies as those accounting policies that require our management to exercise their most difficult, subjective and complex judgments. Our critical accounting policies relate principally to the following key areas: (i) consolidation under applicable accounting standards of various entities; (ii) assessing the carrying values of our real estate properties and investments in and advances to joint ventures and affiliates; and (iii) internal cost capitalization. The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

The Company assesses each entity in which it has an investment or contractual relationship to determine if it may be deemed to be a VIE. If such an entity is a VIE, then the Company analyzes the expected losses and expected residual returns to determine who is the primary beneficiary. If the Company is the primary beneficiary, then the entity is consolidated. The analysis required to identify VIEs and primary beneficiaries is complex and judgmental, and the analysis must be applied to various types of entities and legal structures.

37

---

Rental properties are recorded at cost less accumulated depreciation. Depreciation components on rental properties have been provided over estimated useful lives ranging from 3 to 30 years using the straight-line method. Development costs include acquisition, direct and indirect construction costs, interest and real estate taxes incurred during the construction and property stabilizations periods. Maintenance and repair expenses that do not add to the value or prolong the useful life of the property are expensed as incurred. Asset replacements and improvements are capitalized and depreciated over their estimated useful lives.

The Company assesses the carrying value of its real estate investments by monitoring investment market conditions and performance compared to budget for operating properties and joint ventures, and by monitoring estimated costs for properties under development. Local market knowledge and data is used to assess carrying values of properties and the market value of acquisition opportunities. Whenever events or changes in circumstances indicate that the carrying amount of a property held for investment may not be fully recoverable, the carrying amount is evaluated. If the sum of the property's expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the property, then the Company will recognize an impairment loss equal to the excess of the carrying amount over the fair value of the property. Adverse changes in market conditions or poor operating results of real estate investments could result in impairment charges. When the Company determines that a property is held for sale, it discontinues the periodic depreciation of that property. The criteria for determining when a property is held for sale requires judgment and has potential financial statement impact as depreciation would cease and an impairment loss could occur upon determination of held for sale status. Assets held for sale are reported at the lower of the carrying amount or estimated fair value less costs to sell. With respect to investments in and advances to joint ventures and affiliates, the Company looks to the underlying properties to assess performance and the recoverability of carrying amounts for those investments in a manner similar to direct investments in real estate properties. An impairment charge or investment valuation charge is recorded if the carrying value of the investment exceeds its fair value.

The Company capitalizes all direct and certain indirect costs, including interest and real estate taxes, incurred during development and redevelopment activities. Interest is capitalized on real estate assets that require a period of time to get them ready for their intended use. The amount of interest capitalized is based upon the average amount of accumulated development expenditures during the reporting period. Included in capitalized costs are management's estimates of the direct and incremental personnel costs and indirect project costs associated with our development and redevelopment activities. Indirect project costs consist primarily of personnel costs associated with construction administration and development accounting, legal fees, and various office costs that clearly relate to projects under development.

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

### ***Forward Looking Statements***

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this Annual Report on Form 10-K which are not historical facts may be considered forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, including statements regarding the Company's expectations, hopes, intentions, beliefs and strategies regarding the future. Forward looking statements include statements regarding the Company's expectations as to the timing of completion of current development and redevelopment projects and the stabilization dates of such projects, expectation as to the total projected costs and rental rates of development and redevelopment projects, beliefs as to the adequacy of future cash flows to meet operating requirements and to provide for dividend payments in accordance with REIT requirements, expectations as to the amount of capital expenditures, expectations as to the amount of non-revenue generating capital expenditures, future acquisitions, the Company's anticipated development projects in 2007, the anticipated performance of the second Essex Apartment Value Fund ("Fund II"), the anticipated performance of existing properties, anticipated results from various geographic regions

and the Company's investment focus in such regions, statements regarding the Company's financing activities, and the use of proceeds from such activities.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors including, but not limited to, that the Company will fail to achieve its business objectives, that the actual completion of development projects will be subject to delays, that the stabilization dates of such projects will be delayed, that the total projected costs of current development projects will exceed expectations, that the Company's 2007 development strategy will change, that such development projects will not be completed, that development projects

38

---

and acquisitions will fail to meet expectations, that estimates of future income from an acquired property may prove to be inaccurate, that future cash flows will be inadequate to meet operating requirements and/or will be insufficient to provide for dividend payments in accordance with REIT requirements, that the actual non-revenue generating capital expenditures will exceed the Company's current expectations, that there may be a downturn in the markets in which the Company's properties are located, that the terms of any refinancing may not be as favorable as the terms of existing indebtedness, as well as those risks, special considerations, and other factors discussed under the caption "Potential Factors Affecting Future Operating Results" below and those discussed in Item 1A, Risk Factors, of this Form 10-K, and those risk factors and special considerations set forth in the Company's other filings with the Securities and Exchange Commission (the "SEC") which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of today, and the Company assumes no obligation to update this information.

### **Potential Factors Affecting Future Operating Results**

Many factors affect the Company's actual financial performance and may cause the Company's future results to be different from past performance or trends. These factors include those set forth under the caption "Risk Factors" in Item 1A. of this Annual Report on Form 10-K and the following:

#### *Development and Redevelopment Activities*

The Company pursues multifamily residential properties and development and redevelopment projects from time to time. These projects generally require various government and other approvals, the receipt of which cannot be assured. The Company's development and redevelopment activities generally entail certain risks, including the following:

- funds may be expended and management's time devoted to projects that may not be completed;
- construction costs of a project may exceed original estimates possibly making the project economically unfeasible;
- projects may be delayed due to, among other things, adverse weather conditions;
- occupancy rates and rents at a completed project may be less than anticipated; and
- expenses at a completed development project may be higher than anticipated.

These risks may reduce the funds available for distribution to the Company's stockholders. Further, the development and redevelopment of properties is also subject to the general risks associated with real estate investments.

#### *Interest Rate Fluctuations*

The Company monitors changes in interest rates and believes that it is well positioned from both a liquidity and interest rate risk perspective. However, current interest rates are at historic lows and potentially could increase rapidly to levels more in line with higher historical levels. The immediate effect of significant and rapid interest rate increases would result in higher interest expense on the Company's variable interest rate debt. The effect of prolonged interest rate increases could negatively impact the Company's ability to make acquisitions and develop properties at economic returns on investment and the Company's ability to refinance existing borrowings at acceptable rates.

#### *Funds From Operations (FFO)*

FFO is a financial measure that is commonly used in the REIT industry. Essex presents funds from operations as a supplemental performance measure. FFO is not used by Essex, nor should it be considered to be, as an alternative to net earnings computed under GAAP as an indicator of Essex's operating performance or as an alternative to cash from operating activities computed under GAAP as an indicator of Essex's ability to fund its cash needs.

FFO is not meant to represent a comprehensive system of financial reporting and does not present, nor does Essex intend it to present, a complete picture of its financial condition and operating performance. Essex believes that net earnings computed under GAAP remains the primary measure of performance and that FFO is only meaningful when it is used in conjunction with net earnings. Further, Essex believes that its consolidated financial statements, prepared in accordance with GAAP, provide the most meaningful picture of its financial condition and its operating performance.

39

---

In calculating FFO, Essex follows the definition for this measure published by the National Association of REITs (“NAREIT”), which is a REIT trade association. Essex believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii) the exclusion of gains and losses from the sale of previously depreciated properties. Essex agrees that these two NAREIT adjustments are useful to investors for the following reasons:

- (a) historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations “since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves.” Consequently, NAREIT’s definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by GAAP do not reflect the underlying economic realities.
- (b) REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT’s definition of FFO, of gains and losses from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT’s activity and assists in comparing those operating results between periods.

Management has consistently applied the NAREIT definition of FFO to all periods presented. However, other REITs in calculating FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to Essex’s calculation.

The following table sets forth the Company’s calculation of FFO for 2006 and 2005 (in thousands except for per share data).

	<b>For the year ended</b>		<b>For the quarter ended</b>		
	<b>12/31/06</b>	<b>12/31/06</b>	<b>9/30/06</b>	<b>6/30/06</b>	<b>3/31/06</b>
Net income available to common stockholders	\$ 57,603,000	\$ 15,060,000	\$ 10,686,000	\$ 22,023,000	\$ 9,834,000

#### Item 7A. Quantitative and Qualitative Disclosures About Market Risks

##### *Interest Rate Hedging Activities*

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. As of December 31, 2006, we have entered into nine forward-starting swap contracts to mitigate the risk of changes in the interest-related cash outflows on forecasted issuance of long-term debt. The forward-starting swaps are cash flow hedges of the variability in ten years of forecasted interest payments associated with the refinancing of the Company's long-term debt between 2007 and 2011. As of December 31, 2006, the Company also had \$186.3 million of variable rate indebtedness, of which \$182.8 million is subject to interest rate cap protection. All of our derivative instruments are designated as cash flow hedges, and the Company does not have any fair value hedges as of December 31, 2006. The following table summarizes the notional amount, carrying value, and estimated fair value of our derivative instruments used to hedge interest rates as of December 31, 2006. The notional amount represents the aggregate amount of a particular security that is currently hedged at one time, but does not represent exposure to credit, interest rates or market risks. The table also includes a sensitivity analysis to demonstrate the impact on our derivative instruments from an increase or decrease in LIBOR by 50 basis points, as of December 31, 2006.

(Dollars in thousands)	Notional Amount	Maturity Date Range	Carrying and		
			Estimate Fair Value	+ 50 LIBOR Basis Points	- 50 LIBOR Basis Points
Cash flow hedges:					
Interest rate forward-starting swaps	\$ 450,000	2007-2011	\$ (2,293)	\$ 12,245	\$ (17,982)

Interest rate caps	182,849	2008-2011		20	57	4
Total cash flow hedges	632,849	2007-2011	\$	(2,273)\$	12,302	\$ (17,978)

### *Interest Rate Sensitive Liabilities*

The Company is exposed to interest rate changes primarily as a result of its line of credit and long-term debt used to maintain liquidity and fund capital expenditures and expansion of the Company's real estate investment portfolio and operations. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows. Management believes that the carrying amounts of its LIBOR debt approximates fair value as of December 31, 2006 because interest rates, yields and other terms for these instruments are consistent with yields and other terms currently available to the Company for similar instruments. Management has estimated that the fair value of the

Company's \$1.13 billion of fixed rate mortgage notes payable and exchangeable bonds at December 31, 2006 is approximately \$1.22 billion based on the terms of existing mortgage notes payable compared to those available in the marketplace.

**For the Years Ended December 31**

	<b>2007(1)</b>	<b>2008(2)</b>	<b>2009</b>	<b>2010(3)</b>	<b>2011(4)</b>	<b>Thereafter</b>	<b>Total</b>	<b>Fair value</b>

(1) \$50 million covered by a forward-starting swap at a fixed rate of 4.927%, with a settlement date on or before October 1, 2007.

(2) \$50 million covered by a forward-starting swap at a fixed rate of 4.869%, with a settlement date on or before October 1, 2008. Also, \$25 million covered by a forward-starting swap at a fixed rate of 5.082%, with a settlement date on or before January 1, 2009.

(3) \$150 million covered by three forward-starting swaps with fixed rates ranging from 5.099% to 5.824%, with a settlement date on or before January 1, 2011.

(4) \$125 million covered by forward-starting swaps with fixed rates ranging from 5.655% to 5.8795%, with a settlement date on or before February 1, 2011. \$50 million covered by a forward-starting swap with a fixed rate of 5.535%, with a settlement date on or before July, 1 2011. The Company intends to encumber certain unencumbered assets during 2011 in conjunction with the settlement of these forward-starting swaps.

(5) \$182,849 subject to interest rate caps.

The table incorporates only those exposures that exist as of December 31, 2006; it does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations, would depend on the exposures that arise during the period, our hedging strategies at the time, and interest rates.

### **Item 8. Financial Statements and Supplementary Data**

The response to this item is submitted as a separate section of this Form 10-K. See Item 15.

### **Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

None.

### **Item 9A. Controls and Procedures**

As of December 31, 2006, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our

disclosure controls and procedures are effective in timely alerting management to material information relating to the Company that is required to be included in our periodic filings with the Securities and Exchange Commission.

There were no changes in the Company's internal control over financial reporting, that occurred during the quarter ended December 31, 2006, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

***Management's Report on Internal Control Over Financial Reporting***

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2006. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework. Our management has concluded that, as of December 31, 2006, our internal control over financial reporting was effective based on these criteria. Our independent registered public accounting firm, KPMG LLP, has issued an audit report on our assessment of our internal control over financial reporting, which is included herein.

**Item 9B. Other Information**

None.
