Use of Non-GAAP Financial Measures

In exhibits 99.01 and 99.02 attached to this Current Report on Form 8-K, Southern Company, in addition to presenting kilowatt-hour sales information for the three months and six months ended June 30, 2004, as reported in accordance with accounting principles generally accepted in the U.S. ("GAAP"), has also provided adjusted kilowatt-hour sales information for the three months and six months ended June 30, 2004. In 2005, certain Georgia Power Company industrial customers were reclassified from industrial to commercial to be consistent with the rate structure approved by the Georgia Public Service Commission. The adjusted kilowatt-hour sales information reclassifies 2004 kilowatt-hour sales for commercial and industrial customers to be consistent with the presentation for the three months and six months ended June 30, 2005. Southern Company believes that the adjusted kilowatt-hour sales information is

useful to investors because it provides investors with more consistent information for purposes of comparing 2004 and 2005 kilowatt-hour sales performance. The presentation of this additional information is not meant to be considered a substitute for financial measures prepared in accordance with GAAP.
