EXCHANGE RATE INFORMATION

In this annual report, unless otherwise specified or unless the context otherwise requires, all references to "\$" or "dollars" are to U.S. dollars and all references to "DKK" are to Danish kroner. We have converted DKK amounts as of December 31, 2003 into U.S. dollars at an exchange rate of \$1.00 = DKK 5.9576, which was the noon buying rate on December 31, 2003, the last business day of the year. We do not make any representation that the Danish kroner amounts could have been, or could be, converted into U.S. dollars at that rate on December 31, 2003, or at any other rate.

Unless specifically indicated or the context clearly indicates otherwise all references to our ordinary shares shall include our American Depositary Shares (ADSs) and vice-versa.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This report on Form 20-F contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 regarding our plans and objectives and future operations. Forward-looking statements attempt to predict future occurrences and are identified by words like "believe," "may," "intend," "will," "expect," "anticipate," "estimate" or "continue," or other comparable terms. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. The forward-looking statements included in this report are based on current expectations that involve numerous risks and uncertainties. Our plans and objectives are based, in part, on assumptions

## Edgar Filing: EUROTRUST A/S - Form 20-F

involving judgments about, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that our assumptions underlying the forward-looking statements are reasonable, any of these assumptions could prove inaccurate and, therefore, we cannot assure you that the forward-looking statements included in this report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included in this report, you should not assume, and we cannot assure you, that we can achieve our objectives or implement our plans. Factors that could cause our actual results to differ materially from those expressed or implied by forward-looking statements include, but are not limited to, the factors set forth under the headings "Key Information - Risk Factors" (Item 3.D), "Information on the Company" (Item 4) and "Operating and Financial Review and Prospects" (Item 5).

#### A. SELECTED FINANCIAL DATA

The selected consolidated financial data presented below as of December 31, 1999, 2000, 2001, 2002 and 2003 and for the years then ended have been taken or are derived from our audited consolidated financial statements for those periods. The selected consolidated financial data have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Effective October 1, 2000, we changed our method of accounting for revenue recognition of domain name registration revenue in accordance with Staff Accounting Bulletin (SAB) No.101 (SAB 101), REVENUE RECOGNITION IN FINANCIAL STATEMENTS. Under SAB 101, which was adopted retroactively to January 1, 2000, we recognized revenues ratably over the period the customer is provided access to the registry through our servers. Before SAB 101 became effective, we recognized revenue from initial registration of domain names when the registration process was complete and annual service fees (registration renewal fees) were recognized when invoiced to the customer. On July 21, 2001, we sold our domain name registration service business, which was a part of our internet services segment, to VeriSign, Inc. ("VeriSign.") In December 2001 we sold our print and online media business; GAAP requires that the results of operations from a discontinued segment be segregated from the results of operations from our continuing business segments. As a result, our Consolidated Statement of Operations and Consolidated Statement of Cash Flows for the fiscal year ended December 31, 2001 and 2002 reflect the fact that the print and online media business is treated as a discontinued operation. In addition, our Consolidated Statement of Operations and Consolidated Statement of Cash Flows for the fiscal years ended December 31, 1999 and 2000 were restated to reflect this fact.

The financial information presented below is only a summary and should be read together with our consolidated financial statements included elsewhere in this report.

 (1) In June 2001, the FASB issued SFAS 142 fully effective for fiscal years beginning after December 15, 2001, which changed the accounting for goodwill from an amortization method to an impairment-only approach. We adopted the provisions of SFAS 142 effective January 1, 2002. If the standards of SFAS 142 had been in effect beginning January 1, 2000 then (i) for the year ended December 31, 2000 our net loss would have been DKK 142,431 and both our basic and diluted loss per common share would have been DKK 8.38; and (ii) for the year ended December 31, 2001 our net income would have been DKK 12,364, our basic income per common share would have been DKK 0.51 and our diluted income per common share would have been DKK 0.50.

(2) The loss from continuing operations for the year ended 1999 increased by DKK 93 thousand. This adjustment is due to our improper accounting treatment of a realized loss on investment securities.

Not required because this Form 20-F is filed as an Annual Report.

### C. REASONS FOR THE OFFER AND USE OF PROCEEDS

Not required because this Form 20-F is filed as an Annual Report.

### D. RISK FACTORS

IN ADDITION TO OTHER INFORMATION IN THIS FORM 20-F, THE FOLLOWING RISK FACTORS SHOULD BE CAREFULLY CONSIDERED IN EVALUATING US AND OUR BUSINESS BECAUSE THESE FACTORS CURRENTLY HAVE OR MAY IN THE FUTURE HAVE A SIGNIFICANT IMPACT ON OUR BUSINESS, OPERATING RESULTS OR FINANCIAL CONDITION. ACTUAL RESULTS COULD

## Edgar Filing: EUROTRUST A/S - Form 20-F

DIFFER MATERIALLY FROM THOSE PROJECTED IN THE FORWARD-LOOKING STATEMENTS CONTAINED IN THIS FORM 20-F AS A RESULT OF THE RISK FACTORS DISCUSSED BELOW AND ELSEWHERE IN THIS FORM 20-F.

WE HAVE A SIGNIFICANT ACCUMULATED LOSS AND THE LIKELIHOOD OF FUTURE PROFITABILITY IS UNCERTAIN. CONTINUING LOSSES MAY EXHAUST OUR CAPITAL RESOURCES AND FORCE US TO TERMINATE OPERATIONS.

We incurred a net loss in each of the years ended December 31, 1999, 2000 and 2002 and we incurred an operating loss in each of those years and for the year ended December 31, 2001. For the year ended December 31, 2003 we had a net loss of DKK 6.33 million (approximately \$1.1 million) and an operating loss of DKK 14.72 million (approximately \$2.5 million). As of December 31, 2003, we had an accumulated deficit of DKK 515.84 million (approximately \$86.6 million). We may incur additional losses in the foreseeable future. We cannot assure you that we will become profitable or, if we do become profitable, that we will be able to sustain or increase our profitability in the future. If operating losses continue for longer than we expect and we cannot raise additional capital, we may be forced to terminate operations.

7

WE MAY NEED TO RAISE ADDITIONAL CAPITAL IN THE FUTURE. IF WE CANNOT DO SO, WE MAY NOT BE ABLE TO FUND OUR FUTURE ACTIVITIES OR CONTINUE OPERATING.

Our future capital requirements will depend on a number of factors, including new acquisition opportunities and our ability to increase our revenues and control our expenses. If we need to raise additional capital in the future, we cannot assure you that we will be able to do so on acceptable terms or at all. If we raise additional capital through the issuance of equity or convertible debt securities, the percentage ownership of our company held by existing shareholders, including holders of our ADSs, will be diluted. In addition, new securities may contain certain rights, preferences or privileges that are senior to those of our ordinary shares. If we are unsuccessful in raising additional capital, when needed, our business and results from operations may be materially and adversely affected.

OUR FUTURE REVENUES ARE UNPREDICTABLE AND OUR FINANCIAL RESULTS MAY FLUCTUATE. IF OUR FINANCIAL RESULTS FALL BELOW EXPECTATIONS IN ONE OR MORE FUTURE QUARTERS, THE MARKET PRICE OF OUR ADSS MAY BE NEGATIVELY IMPACTED.

We cannot accurately forecast our revenues or operating results. Our revenues and operating results may fluctuate significantly because of several factors, many of which are beyond our control. These factors include:

- o market acceptance of our products and services;
- o a change in television viewer preferences if we are unsuccessful in addressing those changes in our programming; and
- o the non-renewal of our contract with TeleDanmark Kabel.
- o the non-renewal of our contract with Canal Digital A/S
- o the continued interest in televising live sporting events in Scandanavia
- o the pace at which new television programming is produced in Scandinavia;
- o customer renewal rates for our products and services;

## Edgar Filing: EUROTRUST A/S - Form 20-F

- o our success in cross marketing our products and services to our existing customers and to new customers;
- o developing our direct and indirect distribution channels;
- o a decrease in the level of spending for Internet virus detection products and services by our existing customers;
- o our ability to expand our operations;
- o our success in assimilating the operations and personnel of any acquired businesses;
- o the impact of price changes in our products and services or those of our competitors;
- o general economic conditions and economic conditions specific to the television programming production or Internet services industry;

8

Due to all of the above factors, we believe that period-to-period comparisons of our operating results will not necessarily be meaningful, and you should not rely on them as an indication of future performance. Also, operating results may fall below our expectations and the expectations of securities analysts or investors in one or more future quarters. If this were to occur, the market price of our ordinary shares would likely decline which may result in a significant decline in the value of your investment.

WE HAVE A LIMITED OPERATING HISTORY IN THE MEDIA BUSINESS AND IN THE BUSINESS OF PROVIDING INTERNET VIRUS DETECTION PRODUCTS AND SERVICES AND MAY ENCOUNTER DIFFICULTIES SIMILAR TO THOSE FACED BY EARLY STAGE COMPANIES. OUR RESULTS FROM OPERATIONS MAY DEPEND ON HOW SUCCESSFUL WE ARE IN DEALING WITH THESE DIFFICULTIES.

Over the last five years, our business has evolved from (i) a telecommunications company that also provided Internet access to (ii) an Internet services provider focusing primarily on domain name registration services to (iii) providing trusted Internet infrastructure products and services. Our current business primarily consists of our media division which is made up of our TV broadcast channel - dk4 and our TV production company - Prime Vision and our Internet services division. We have only a limited operating history in these businesses on which you can base an evaluation of our current business and prospects. As such, our current business and prospects must be considered in light of the risks and uncertainties encountered by companies in the early stages of development.

We cannot be certain that we will successfully address this risk. If we fail, our business and results from operations may be materially and adversely impacted.

WE COMPETE IN THE HIGHLY COMPETITIVE BROADCASTING INDUSTRY.

The Danish broadcast industry is highly competitive and dominated by a few large companies. As a result of competition, we consolidated our broadcast operations into one channel. In addition, we expect that the number of channels competing for the places in the TeleDanmark Kabel programming network will increase in the ensuing years. If viewer preferences change and we are unsuccessful in addressing those changes in our programming, we may lose favor with them and they may choose to view a competitor's channel over ours.

## Edgar Filing: EUROTRUST A/S - Form 20-F

IF WE ARE UNABLE TO NEGOTIATE A RENEWAL OF OUR CONTRACT WITH EITHER TELEDANMARK KABEL OR CANAL DIGITAL A/S THE REVENUES FROM OUR BROADCASTING BUSINESS MAY BE ADVERSELY AFFECTED.

Our dk4 television channel is carried as part of the basic package of channels provided to all cable television subscribers to TeleDanmark Kabel (the primary Company providing cable television service in Denmark), for which we receive a per subscriber fee as well as to all subscribers of Canal Digital A/S, a Danish digital satellite television service provider. Our agreement with each of TeleDanmark Kabel and Canal Digital A/S to carry dk4 as part of its basic package expires on December 31, 2006 and December 31, 2007, respectively. If we are unable to renew either agreement the revenues from our broadcasting business would decrease significantly and the results of operations from our broadcasting business would be materially and adversely affected. We cannot assure you that we will successfully negotiate a renewal of our agreement with TeleDanmark Kabel or Canal Digital A/S.

9

IF THE INTEREST IN VIEWING LIVE SPORTING EVENTS IN THE SCANDINAVIAN MARKET SHOULD DECREASE OR IF THERE IS A SLOWDOWN IN OTHER TELEVISION PROGRAMMING PRODUCTION OUR RESULTS COULD BE ADVERSELY AFFECTED.

As of May 10, 2004 we have eight large mobile television production vans which are leased to various other companies primarily for their broadcast of live sporting events or the production of original television programming. We also provide many of the technical personnel required for these productions. If we are unable to lease these vans and our technical personnel to other broadcasters or television production companies we will be in a position where we will not be able to cover the expenses associated with this business which in turn could materially and adversely effect our business. Our ability to keep these vans busy in order to generate revenue will be effected by many factors outside of our control, including the continued interest in viewing live sporting events and the continued desire to produce television programming in Scandinavia.

THE SUCCESS OF OUR VIRUS DETECTION BUSINESS DEPENDS LARGELY ON THE LEVEL OF MARKET ACCEPTANCE OF OUR PRODUCTS AND SERVICES.

The market for Internet virus detection products and services is relatively new and rapidly evolving. As a result, the future demand for our products and services is uncertain. Even if the market for electronic commerce and online communications grows, we cannot assure you that our products and services will become widely accepted. If this market fails to grow, our business and results from operations may be adversely affected.

OUR VIRUS DETECTION BUSINESS FACES SIGNIFICANT COMPETITION FROM COMPETITORS WHICH ARE MUCH LARGER THAN WE ARE AND HAVE LONGER OPERATING HISTORIES, LARGER CLIENT BASES, GREATER BRAND OR NAME RECOGNITION AND SIGNIFICANTLY GREATER FINANCIAL, TECHNICAL, MARKETING AND PUBLIC RELATIONS RESOURCES THAN WE HAVE.

The market for virus detection products is intensely competitive and we expect this competition to continue for the foreseeable future. In addition, there are relatively few barriers preventing new competitors from entering the markets in which we operate. Furthermore, we do not own any patented technology and our competitors may develop new technologies in the future that are perceived as being more secure, effective or cost efficient than the technology underlying our products and services. Increased competition could result in pricing pressures, reduced margins or the failure of our virus detection

## Edgar Filing: EUOTRUST A/S - Form 20-F

products and services to achieve or maintain market acceptance, any of which could harm our business.

OUR RESULTS FROM OPERATIONS MAY BE NEGATIVELY IMPACTED IF WE ARE NOT ABLE TO ESTABLISH A BRAND IDENTITY

We believe that establishing and maintaining a good reputation and name recognition is critical to our success. We also believe that the importance of reputation and name recognition will increase due to the growing number of companies providing Internet infrastructure products and services. Over the last three years, we have gone through several name changes as our business has evolved. In 1999, we changed our name from Telepartner A/S to euro909.com A/S and in December 2001 to EuroTrust A/S. Our brand-enhancement strategy includes mass market and multimedia advertising, promotional programs and public relations activities. In addition, promoting and enhancing our name depends largely on our success in providing uninterrupted high quality services. We intend to make significant expenditures on advertising and promotional programs and activities. We cannot assure you that our efforts will lead to an increase in net revenues sufficient to cover our advertising and promotional

10

expenses. To build brand identity we must provide high quality services at a competitive price. If our reputation is damaged or if potential clients are not aware of the products and services we provide, or if our clients do not perceive our services as effective, reasonably priced or qualitatively better than the competition, our reputation could be materially and adversely affected and we could lose market share.

OUR LONG-TERM GROWTH STRATEGY ASSUMES THAT WE MAKE SUITABLE ACQUISITIONS AND INVESTMENTS. IF WE ARE UNABLE TO ADDRESS THE RISKS ASSOCIATED WITH ACQUISITIONS AND INVESTMENTS OUR BUSINESS COULD BE HARMED.

Our long-term growth strategy includes identifying and, from time to time, acquiring or investing in suitable candidates on acceptable terms. In particular, we intend to acquire or make investments in businesses that provide products and services that expand or complement our existing businesses and expand our geographic reach. In pursuing acquisition and investment opportunities, we may compete with other companies having similar growth and investment strategies. Competition for these acquisition or investment targets could also result in increased acquisition or investment costs and a diminished pool of businesses, technologies, services or products available for acquisition or investment. Our long-term growth strategy could be impeded if we fail to identify and acquire or invest in promising candidates on terms acceptable to us.

Assimilating acquired businesses involves a number of other risks, including, but not limited to:

- o disrupting our business;
- o incurring additional expense associated with a write-off of a portion of goodwill and other intangible assets due to changes in market conditions or the economy in the markets in which we compete or because acquisitions are not providing the benefits expected;
- o incurring unanticipated costs or unknown liabilities;
- o managing more geographically-dispersed operations;

## Edgar Filing: EUROTRUST A/S - Form 20-F

- o diverting management's resources from other business concerns;
- o retaining the employees of the acquired businesses;
- o maintaining existing customer relationships of acquired companies;
- o assimilating the operations and personnel of the acquired businesses;  
and
- o maintaining uniform standards, controls, procedures and policies.

For all these reasons, our pursuit of an overall acquisition and investment strategy or any individual acquisition or investment could have a material adverse effect on our business, financial condition and results of operations. If we are unable to successfully address any of these risks, our business could be harmed.

11

RAPID GROWTH IN OUR BUSINESS COULD STRAIN OUR MANAGERIAL, OPERATIONAL, FINANCIAL, ACCOUNTING AND INFORMATION SYSTEMS, CUSTOMER SERVICE STAFF AND OFFICE RESOURCES. IF WE FAIL TO MANAGE OUR GROWTH EFFECTIVELY, OUR BUSINESS MAY BE NEGATIVELY IMPACTED.

In order to achieve our growth strategy, we will need to expand all aspects of our business, including our computer systems and related infrastructure, customer service capabilities and sales and marketing efforts. We cannot assure you that our infrastructure, technical staff and technical resources will adequately accommodate or facilitate our expanded operations. To be successful, we will need to continually improve our financial and managerial controls, billing systems, reporting systems and procedures, and we will also need to continue to expand, train and manage our workforce. In addition, as we offer new products and services, we will need to increase the size and expand the training of our customer service staff to ensure that they can adequately respond to customer inquiries. If we fail to adequately train our customer service staff and provide staffing sufficient to support our new products and services, we may lose customers.

OUR INTERNATIONAL PRESENCE CREATES RISKS WHICH MAY ADVERSELY AFFECT OUR BUSINESS.

Currently, our operations focus on the Scandinavian, markets. In addition to the uncertainty as to our ability to successfully expand our Scandinavian presence, there are certain risks inherent in doing business on an international level. These risks include differences in legal and regulatory requirements and other trade barriers, difficulties in staffing and managing foreign operations, problems in collecting accounts receivable, fluctuations in currency exchange rates, delays from government agencies, and tax laws. In addition, our operations may be affected by changing economic, political and governmental conditions in the countries in which we operate. Changes in competition, economics, politics or laws, including tax, labor, environmental and employment, could affect our ability to sell our products and services in those countries. Our inability or failure to address these risks could have a material adverse effect on our business, operations and financial condition. Also, we cannot assure you that laws or administrative practices relating to taxation, or other matters of countries within which we operate will not change. Any change in these areas could have a material adverse effect on our business, financial condition and results of operations.

IF WE ARE UNABLE TO ATTRACT AND RETAIN HIGHLY QUALIFIED MANAGEMENT AND TECHNICAL

## Edgar Filing: EUROTRUST A/S - Form 20-F

PERSONNEL, OUR BUSINESS MAY BE HARMED.

Our success depends in large part on the contributions of our senior management team, technology personnel and other key employees and on our ability to attract, integrate, train, retain and motivate these individuals and additional highly skilled technical and sales and marketing personnel. We face intense competition in hiring and retaining quality management personnel. Many of these companies have greater financial resources than we do to attract and retain qualified personnel. The only key employees that have signed employment agreements are Aldo Petersen, our Chief Executive Officer, and Soren Degn, our Chief Financial Officer. Under these agreements, they can terminate their employment on six months notice. As a result, we may be unable to retain our key employees or attract, integrate, train and retain other highly qualified employees in the future, when necessary. If we fail to attract qualified personnel or retain and motivate our current personnel, our business may be negatively impacted.

12

OUR RESULTS FROM OPERATIONS MAY BE ADVERSELY AFFECTED BY EXCHANGE RATE FLUCTUATIONS.

A portion of our expenditures and receivables are paid in foreign currencies. As a result, our financial results may be affected by an appreciation or depreciation in the value of the Danish kroner relative to the currencies of the countries in which we operate. Except for one hedging transaction done in March of 2002, we have not engaged in hedging or other risk management activities in order to offset the risk of currency exchange rate fluctuations. We cannot predict in any meaningful way the effect of exchange rate fluctuations upon future results. If the value of the Danish kroner depreciates and the currencies of the countries in which we operate appreciate or remain stable our results from operations may be negatively affected.

THE MARKET PRICE OF OUR ADSS MAY DECLINE IF THE VALUE OF THE DANISH KRONER FALLS AGAINST THE US DOLLAR.

Fluctuations in the exchange rate between the Danish Kroner and the US dollar are likely to affect the market price of our ADSs. For example, because EuroTrust's financial statements are reported in Danish Kroners, if the value of the Danish Kroner falls against the US dollar, EuroTrust's earnings per share in US dollars will be reduced. This may adversely affect the price at which our ADSs trade in the US.

THERE IS A LIMITED PUBLIC MARKET FOR OUR SECURITIES AND OUR SECURITIES MAY EXPERIENCE EXTREME PRICE AND VOLUME FLUCTUATIONS.

Our ordinary shares are not listed on any securities exchange or market. However, our ADSs are quoted on the Nasdaq SmallCap Market(R). The market price of our ADSs may fluctuate significantly in response to various factors and events, including:

- o variations in our operating results;
- o the liquidity of the markets;
- o investor perceptions of us and the industry in which we operate;
- o changes in earnings estimates by analysts;
- o sales of ADSs by existing holders; and

## Edgar Filing: EUROTRUST A/S - Form 20-F

- o general economic conditions.

In addition, Nasdaq has recently experienced broad price and volume fluctuations, particularly in the technology sector. This volatility has had a significant effect on the market price of securities of companies for reasons that have often been unrelated to their operating performance. These broad market fluctuations may also adversely affect the market price of our ADSs and as a result, holders of our ADSs may lose a significant portion of their investment.

WE HAVE NEVER PAID A DIVIDEND NOR DO WE ANTICIPATE DOING SO IN THE FORESEEABLE FUTURE.

We have not declared or paid any cash dividends on our ordinary shares. We do not expect to declare any dividends in the foreseeable future. We anticipate that all cash that would otherwise be

13

available to pay dividends will be applied in the foreseeable future to finance our growth or to implement shareholder-approved repurchases of our stock. Payment of any future dividends will depend on our earnings and capital requirements, and other factors our board of directors deem appropriate.

#### ITEM 4. INFORMATION ON THE COMPANY

##### A. HISTORY AND DEVELOPMENT

We are a Danish limited company, organized in 1986 under the Danish Act on Limited Companies of the Kingdom of Denmark. Originally, we were organized under the name Telepartner A/S. In 1999 we changed our name to euro909.com A/S and in December 2001 we changed our name to EuroTrust A/S. Our registered office is Poppelgaardvej 11-13, 2860 Soeborg, Denmark. Our telephone number is +45 39 54 00 00.

Until December 2001, our business operated in three distinct areas: Internet products and services; broadcasting; and print and online media. In early 2001 we made the strategic decision to focus primarily on providing Internet infrastructure products and services and e-commerce solutions in Scandinavia and selected west European markets and on key elements of our broadcasting business. To that end, in 2001, we sold our domain name registration, the remaining assets of our historical telecommunications business and our print and online media businesses, and consolidated our television programming business. During 2003 we sold our secure internet hosting business, our digital video surveillance business and our secure remote back-up business. As a part of these transactions, we will continue to receive royalty payments from future sales of the secure hosting and remote back-up services that we formerly marketed. On April 1, 2004 we sold our PKI services business to VeriSign, Inc. ("VeriSign.")

As a result of these various transactions, subsequent to April 1, 2004 our business consists of two distinct divisions:

Our broadcast media division, which owns dk4, a Danish television station and operates one of the largest television production companies in Scandinavia; and

Our internet services division which markets virus detection software

## Edgar Filing: EUROTRUST A/S - Form 20-F

and services under our "Virus 112" brand name and also monitors the royalty payments which we receive in connection with the sale of our secure hosting and remote back-up services businesses.

Initially, our business involved compiling and publishing directories that included financial, operating and administrative information about businesses located in Scandinavia and directories of fax numbers. These directories were sold to subscribers primarily in Denmark, Sweden and Norway. In late 1996, we entered into an agreement with WorldCom Telecommunications Services GmbH that enabled us to begin offering international telephone services to our Danish customers in 1997. At the time we entered into the agreement with WorldCom GmbH we expected telephony to be our primary business focus. However, intense price competition in the telephony industry made that business increasingly difficult. At the same time, the popularity of the Internet as a means of communication and as a means of conducting commerce was increasing rapidly.

In response to this changing market, in 1998 we changed our focus and concentrated on providing small- and medium-sized businesses, and to a lesser extent, consumers, with the tools to effectively use the Internet as a communications, information and commercial medium. As a result of

14

our agreement with WorldCom GmbH, we were already offering Internet access services. Through a series of acquisitions, our Internet services business eventually grew to include domain name registration services, web hosting services, online security services and online intellectual property rights services. Our products and services provided the critical web identity, authentication and transactional infrastructure that online businesses need to establish their web identities and to conduct secure e-commerce and communications. Our products and services supported businesses and consumers from the moment they first established an Internet presence through the entire life-cycle of e-commerce activities. The typical initial introduction of our products and services to our customers was through domain name registration. As our customers' businesses grew and Internet strategies developed, we provided additional support and tools, from web site hosting to placing targeted advertising within our print and electronic media.

At the same time that we were building our Internet services business, we were also building our broadcast and media businesses. In 1999 we acquired two television channels, dk4 and Bio+, and a group of teen magazines and related web sites, known as the Chili group. As a result of our strategic decision to focus on providing Internet infrastructure services, in 2001 we sold our print and online media business and consolidated our broadcast business into one television channel.

In November 2000, we entered into an international affiliate agreement with VeriSign, a leading provider of Internet infrastructure products and services. Under this agreement we became a VeriSign affiliate for the purpose of distributing various VeriSign products and services in Scandinavia and other specified west European countries.

The following is a list of acquisitions made to date since January 2001 in connection with expanding our Internet services business:

- o As of January 1, 2001, we acquired 40% of GBS A/S, a consulting company in Denmark. During 2002 we sold 30 % of the shares in GBS A/S. The sales price was DKK one thousand in cash;

## Edgar Filing: EUROTRUST A/S - Form 20-F

- o As of June 30, 2001, we acquired the remaining 49% of Netname Solutions.com GmbH, a German company offering internet services. This business was included in the domain name registration service business we sold to VeriSign in July 2001;
- o As of August 31, 2001, we acquired 85% of WISEhouse Denmark A/S, a Danish remote data backup and storage service provider. Subsequently, on December 31, 2002, we purchased the remaining 15% and changed its name to "EuroTrust NetVaulting A/S". In November 2003, we sold all the assets of EuroTrust NetVaulting A/S;
- o As of November 30, 2001, we acquired E!novasion Denmark A/S, a web hosting and development company. We sold this business in January 2004;
- o As of January 1, 2002, we combined our Digiweb activity with DHT Hosting ApS (a Danish automated hosting company) to form EuroTrust Secure Hosting A/S, our secure web hosting subsidiary, in which we have 75% ownership interest. In December 2003, we divested all of our ownership interest in this subsidiary;

15

- o As of January 21, 2002, we acquired 67% and subsequently the remaining 33% of Alphasys SAS, a Paris based e-security firm. Subsequently, we changed the name of Alphasys SAS to "EuroTrust France SAS." We sold this business in December 2003;
- o As of March 11, 2002, we acquired 1.53% of WISEKey SA, a Switzerland based e-security firm; and
- o As of March 20, 2002, we acquired 10% of Excelsa Spa, an Italian Internet-based video surveillance company along with exclusive rights to market Excelsa's security system in Denmark, Sweden, Norway and Finland.

### B. BUSINESS OVERVIEW

Our objective is to become a leading provider of television production facilities for live events in the Northern European market and to expand our offering of quality content on our dk4 broadcast station as well as to expand our offering of virus detection products and services with our Virus112 brand name.

#### MEDIA

For most of 2001 we operated two television channels, dk4 and Bio+. Both channels were carried by TDC on Cable, formerly known as TeleDanmark, Denmark's largest cable operator. In October 2001 we consolidated the programming of both channels into dk4, and expanded its programming by covering European Union parliament sessions and joining the Pan-European Parliament TV network. This decision was a result of the fact that the agreement with TDC to broadcast dk4 was extended through March 31, 2004 and Bio+ was not. Also in 2001, we entered into two new distribution agreements and a new programming agreement for dk4. Specifically, we entered into distribution agreements with the Scandinavian cable operator Telenord Vision and with the Danish digital satellite television service provider Canal Digital A/S. Telenord and Canal have approximately 800,000 subscribers. In December 2003, we entered into a new four-year agreement with Canal for the continued distribution of dk4 programming on their digital satellite television network extending our relationship to December 31, 2007. In March 2004 we entered into a new agreement with TDC on Cable extending our

## Edgar Filing: EUOTRUST A/S - Form 20-F

relation to December 31, 2006. In addition, in December 2003 we reacquired the remaining 15% minority interest in our broadcast business that we had previously sold to Parken Sport and Entertainment A/S for DKK 12 million in December 2001.

### DK4

We acquired dk4 in October 1999. As of December 31, 2002, approximately 33% of all households in Denmark had access to dk4. In 2001, dk4 launched its revised Internet platform. The homepage contains live video streaming, enabling subscribers to watch part of dk4's broadcasts live over the Internet.

dk4's principal programs are in the areas of culture, education, sports and politics:

- o POLITICS. dk4 broadcasts proceedings of the Danish Parliament, including debates and selected expert hearings. During 2002, dk4 offered more than 50 programs on the European Union, among these roundtable discussions and presentation of Members of Parliament, including the former and the present President of the European Parliament

16

plus selected Members of the European Commission. In 2001, dk4 was acknowledged as a European Channel by the European Parliament and joined the discussion forum for Parliamentary Channels in the European Union ("EU"). In 2003, dk4 has continued to focus on broadcasting programming from the EU. In conjunction with the European Parliament, dk4 produced an educational video for Danish high schools on "Model European Parliament" (a multicultural conference for young people on the inner workings of the EU).

- o SPORTS. Beginning in 2002, dk4 offered a number of niche sports programs.
- o CULTURE. dk4 offers programs focusing on theatre, opera, literature, classical music and history. In the 2000/2001 season, programs on contemporary art and fine wines were added. Furthermore, a number of musical shows were introduced and the number of such shows was increased in 2002.
- o EDUCATION. Educational offerings include lectures given at the newly founded "DK4 University", a series which is also integrated with the Internet. In 2001, an add-on to this series was introduced through the "EU University" with a number of lectures on current EU topics such as Enlargement and the future Constitution of the EU. In 2002, we introduced an educational series on use of PCs.

### PRIME VISION

In October 1999, dk4 acquired Prime Vision, or PV, a production company. PV assists others in broadcasting live events and also produces original programs for dk4 as well as for other television channels. PV owns and operates eight large mobile vans used in the broadcasting of live events and for the production of original television programming. These vans include all of the necessary equipment required for these productions, including cameras and sound equipment. PV employs the technicians such as cameramen and sound engineers who are expert in the appropriate operation of the equipment. Therefore, PV can

## Edgar Filing: EUROTRUST A/S - Form 20-F

offer a complete package of production equipment and personnel to broadcasters who broadcast live events and to companies who produce original programming. One of our primary objectives is for PV to become the leading production facility house in Scandinavia. By the end of 2003 PV was among the three leading production companies in Denmark and has been employed as a production company for the Danish Premier Soccer League and a number of other sports productions.

### BIO+

We acquired Bio+ in September 1999. As a result of a strategic alliance with Fox Kids Europe in January 2000, we repackaged and relaunched the channel. As repackaged, Bio+'s primary offering was Danish movies. In October 2001, we combined the operations of Bio+ with those of dk4.

### INTERNET PRODUCTS AND SERVICES

#### INTERNET INFRASTRUCTURE PRODUCTS AND SERVICES

VIRUS SURVEILLANCE/DETECTION/SUPPORT, SECURITY PENETRATION TESTING/ANALYSIS. Gartner research indicates that the IT security-consulting sector represents the largest share of the Western European IT security market. To address this sector, we currently offer the Scandinavian business community an

17

array of virus detection products and services marketed under our Virus 112 brand name. Through our wholly-owned subsidiary, EuroTrust Virus112 A/S ("Virus112"), we offer a suite of IT security consulting services including sophisticated virus detection software, IT security support, security gap penetration assessments and system vulnerability testing to more than 2,000 businesses in Denmark and Norway. Offered on a subscription basis, Virus112's Early Warning System scans the Internet for potential threats and immediately notifies its clients via fax, email and text messaging of any potential outbreaks, minimizing the risk of potential infections. In September 2001, Virus112 expanded its business by offering IT security consulting services that emphasize risk assessment and penetration testing services. In October 2002, Virus112 expanded its product offerings by adding the following:

- o "Virus112 Mail Scanning," a 24x7 e-mail surveillance and virus-scanning, recognition and removal technology;
- o "Virus112 Spam Scanner," a 24x7 automated guard against spam emails which also provides the customer with a monthly report and online access to information on email activity and blocked e-mails; and
- o "EuroTrust Security Scanner," (ESS) a scanning system that scans external IP addresses for potential security risk, to prevent viral attacks through the Internet.

During 2003, we also offered our customers a number of other internet security products, including PKI services, secure hosting, digital video surveillance and secure remote backup services. In December 2003, as part of our plan to intensify our focus on our television programming business and on providing virus detection products and services, we sold EuroTrust Secure Hosting A/S, our secure hosting subsidiary, EuroTrust Realtime Security A/S, our digital video surveillance subsidiary, EuroTrust Sweden AB, our Swedish subsidiary, and the assets related to EuroTrust NetVaulting A/S, our secure

## Edgar Filing: EUROTRUST A/S - Form 20-F

remote backup business.

In November 2000, we became part of VeriSign's Global Affiliate Network, an expanding group of international service providers using common technology, operating practices and infrastructure, compliant with the European Union (EU) common criteria requirements, to deliver interoperable trust services over the Internet. Under our Affiliate Agreement with VeriSign, as amended, we provide(d) the following VeriSign trusted Internet infrastructure products and services in Denmark, Norway, Sweden, Finland, Austria and Switzerland:

**PUBLIC KEY INFRASTRUCTURE (PKI) SERVICES.** PKI services, as well as digital signatures and certificates, enable both companies and private individuals to encrypt their online communications and ensure confidentiality. Until our sale of this business to Verisign effective April 1, 2004, we sold PKI services under the VeriSign Managed PKI Service (MPKI) and VeriSign Go Secure! brands, and tailored them to meet the specific needs of enterprises that wished to issue digital certificates to employees, customers, citizens or trading partners.

**MPKI - MANAGED PKI-SOLUTIONS.** MPKI is a managed service that allows an organization to use our data processing infrastructure to develop and deploy customized digital certificate services for use by employees, customers and business partners. MPKI can be used to provide digital certificates for a variety of applications, including: controlling access to sensitive data and account information, enabling digitally-signed e-mail, encryption of e-mail, or SSL sessions. MPKI services can help customers create an online electronic trading community, manage supply chain interaction and facilitate and protect online credit card transactions.

18

**GO SECURE! VeriSign Go Secure! services** are a set of managed application services that enable enterprises to quickly build digital certificate-based security into their transaction and communication applications. Go Secure! services are similar in functionality to MPKI services and are designed to incorporate digital certificates into existing e-mail, browsing applications, directory and virtual private network devices. GoSecure(R) allows businesses to create a Virtual Private Network (VPN) that integrates VeriSign's strong encryption technology. GoSecure is also offered in cooperation with vendors of server firewall products.

**WEB SERVER DIGITAL CERTIFICATE SERVICES.** Digital certificates are electronic credentials that identify parties online, enabling encrypted online communications and legally binding, valid digital signatures for online transactions in e-commerce, financial services, supply-chain management, Virtual Private Networks, and wireless and mobile commerce environments. Until April 2004, we offered a family of web server certificate services that allows organizations to implement and operate secure websites that utilize the Secure Sockets Layer, or SSL protocol or the Wireless Transport Layer Security, or WTLS, protocol to establish their identities to customers and other websites during electronic commerce transactions and communications over wired or wireless internet protocol, or IP, networks. Without a digital certificate installed on the website server the SSL and WTLS protocols cannot be utilized. Given that we host more web sites on servers in our data center than any other company in Denmark, we expect to take advantage of the current growth trend for server security. Digital Ids can easily be created for customers and suppliers

through the MPKI administration solution.

APPLICATION ACCELERATION SERVICES. These are rapid deployment services that secure information passed over applications such as Microsoft Exchange, SAP and Virtual Private Networks (VPN) for e-commerce.

CONTENT SIGNING CERTIFICATES. In addition to Web Server Digital Certificate services, until April 2004 we offered content signing certificates. Content signing digital certificates enable developers, content providers, publishers and vendors to digitally sign their content in order to authenticate the source and provide assurance of the integrity of the content delivered to end-users.

To expand and complement the services described above, our professional services group, which includes experts in digital certificate architecture and application integration, was staffed to provide a variety of design, development and implementation services. These services included integrating with existing applications and databases, consulting on policies and procedures related to the management and deployment of digital certificates, training classes on the latest developments in security technology and selecting the necessary software and hardware to complement a digital certificate solution.

As a result of an independent examination of our PKI processing center in Copenhagen, we received the prestigious WebTrust Seal of Assurance from KPMG. The WebTrust seal, which is displayed on all of our web sites, indicates that we have complied with the business standards prescribed by the American Institute of Certified Public Accountants and the Canadian Institute of Chartered Accountants concerning the issuance of digital certificates by certification authorities and adopted by several European countries including Denmark.

REMOTE DATA BACKUP SERVICES. We provided remote data backup services to more than 300 European businesses through EuroTrust NetVaulting A/S (formerly known as WISEhouse Denmark A/S), a wholly-owned subsidiary of EuroTrust. Remote backup services protect the data found on

19

company servers from the threat of fire, hardware failure, natural disasters, theft and viruses. The backup technology is based on IBM's Tivoli Storage Manager software.

SECURE HOSTING. We provided secure web hosting services to more than 11,000 customers in Denmark, Sweden and Norway through EuroTrust Secure Hosting A/S ("Hosting"). Hosting was created in January 2002 as a result of the combination of our Digiweb activity with DHT Hosting ApS, a Danish automated hosting company.

Our hosting services were based in our secure Internet data center in Soeborg, Denmark. The center, designed with a wide range of physical security features, including state-of-the-art smoke detection and fire suppression systems, 24x7 secured access and video camera surveillance, as well as security breach alarms, is capable of housing more than 1,500 servers and delivers one of the strongest high-availability bandwidth capacities in Europe.

REAL TIME SECURITY. Through EuroTrust RealTime Security A/S, we offered a full service digital video security system, which provided real-time video monitoring and remote storage of the recording via a high speed Internet connection to a central storage location. This system was able to provide customers with the benefits of a complete video surveillance system without the need to purchase and maintain costly video surveillance hardware required by

## Edgar Filing: EUROTRUST A/S - Form 20-F

most traditional Closed Circuit Television ("CCTV") monitoring systems. The system included, among other features, the following:

- o Remote viewing and surveillance;
- o Offsite recording and storage of the recordings in a secured centralized location; and
- o Email confirmation of alarms to minimize false alerts

In addition, we provided the following Internet related services through July 2001:

### DOMAIN NAME REGISTRATION.

We began registering domain names for our Scandinavian customers in October 1996. Until June 1999, Network Solutions was the exclusive registry and registrar for second level domain names within the .com, .org, .net and .edu top level domains. We were one of Network Solution's largest European partners. Through our strategic relationship with Network Solutions, we were able to register local domain names, such as .dk for Danish domains, .se for Swedish domains, and .no for Norwegian domains, international top level domains, such as .com, .org, .net and .edu; and other international domain names.

The decision to sell our domain name registration business in 2001 was based on a number of factors. Principally, we believed that a significant percentage of European businesses and consumers are not yet on the Internet. Moreover, we believed that a large percentage of our domain name registration customers did not have an Internet web site or connection at the time they were contacted by our telemarketing department. Accordingly, we would have had to make significant expenditures of working capital to continue to grow this sector of our business, and we were not willing to make that commitment.

### WEB SITE DESIGN SERVICES.

In 1998, we began offering web site design services. Most of the web design customers were small- and medium-sized companies, which constituted our historical customer base. Depending on

20

customer needs, we were able to provide simple web design services by merely converting basic information the customer provides to us into HTML format and creating or updating the web site, or we could be involved in more elaborate consulting on design, layout and content of a customer's web sites. An ancillary service that we also offered our customers was the ability to update all the major search engines on the Internet once a customer's web site had been created or updated so that appropriate user searches using these search engines will find these web sites. We charged fees for our web site design services based upon the complexity of the site and the amount of original material and design work our staff was asked to create. In addition, we offered customers reliable hosting services, both at the UUNET site and at the Digiweb site. We also had the capability to transfer hosting accounts from the UUNET site to the Digiweb site, while providing, what we believe to be, a comparable quality of service. In connection with our strategy to focus on Internet infrastructure products and services we decided to cease the operation of our Web Site Design Services business in 2001.

### PRINT AND ON-LINE PUBLICATIONS

## Edgar Filing: EUROTRUST A/S - Form 20-F

In August 1999, we acquired All Media Holding A/S, which owned 77.5% of Chili A/S, publisher of the Danish and Norwegian versions of CHILI magazine as well as the sponsor of various CHILI web sites. Chili was one of the largest youth-oriented media companies in the Scandinavian market. Telia, the Swedish telecom communications conglomerate, owned the other 22.5% of Chili. In April 2001, Chili A/S merged with Dobedo AB of Sweden. In December 2001 we sold our entire interest in All Media Holding A/S to JTS express A/S, the sole distributor of CHILI magazine.

### SEASONALITY

In Scandinavia it is common practice for businesses to close down in July due to summer holidays. Therefore, the level of our consolidated activities are usually lower in the third quarter than in the first, second and fourth quarters.

### INTELLECTUAL PROPERTY

We rely primarily on a combination of copyrights, trademarks, service marks, restrictions on disclosure and other methods to protect our intellectual property. We also enter into confidentiality agreements with our employees, consultants and current and potential affiliates, customers and business partners. We also generally control access to and distribution of documentation and other proprietary information.

We have registered trademarks for "DIGIWEB," "Virus112" and "EUROTRUST" at OHIM, the European Trademark Office. We also applied for registration of the trademark "EUROTRUST" in Switzerland and Norway. In both countries the trademark "EUROTRUST" is still pending. We have obtained Danish and foreign trademark registrations for various EuroTrust marks. With regard to our digital trust services, we also rely on certain licensed third-party technology, such as public key cryptography technology and other technology that is used in our digital trust license from RSA Security Inc. or RSA. In particular, RSA has granted us a perpetual, royalty free, nonexclusive, worldwide license to distribute internet-based trust services. We develop services that contain or incorporate the RSA BSAFE and TIPEM products and that relate to digital certificate-issuing software, software for the management of private keys and for digitally signing computer files on behalf of others, software for customers to preview and forward digital certificate requests to them, or such other services that, in RSA's reasonable discretion, are reasonably necessary for the implementation of a digital certificate business. RSA's BSAFE product is a software tool kit that allows for the integration of encryption and authentication features into software applications. TIPEM is a secure e-mail development tool kit that allows for secure e-mail messages to be sent using one vendor's e-mail product and read by another vendor's e-mail product.

### COMPETITION

#### BROADCAST MEDIA

In our broadcast business, we compete with channels that are carried by more Cable providers, included in more "TV Packages", offered to cable subscribers, and catering to a much larger viewing audience than we do. Until 2001, cable providers were subject to governmental regulations that limited their programming to the programming provided by those channels chosen through a referendum of subscribing households, every two years.

Presently, the only channels that cable providers are required to include in their "TV Packages" are the publicly funded channels, i.e., DR, DR2, TV2, (and one local TV station). We expect that the number of channels competing to be included in those "TV Packages" will increase in the ensuing years. If viewer preferences change and we are unsuccessful in addressing those changes in our programming, we may lose favor with them and cable providers may choose to replace us with a competitor.

## Edgar Filing: EUROTRUST A/S - Form 20-F

### INTERNET SERVICES

Companies with Internet expertise are current or potential competitors to our virus detection products and services. These companies include systems integrators and consulting firms, such as IBM Global Services. Instead of competing against these companies, our strategy is to create beneficial partnerships urging them to use and sell our virus detection products and services.

Several of our current and potential competitors have longer operating histories and significantly greater financial, technical, marketing and other resources than we do and therefore may be able to respond more quickly than we can to new or changing opportunities, technologies, standards and customer requirements. Many of these competitors also have broader and more established distribution channels that may be used to deliver competing products or services directly to customers through bundling or other means. If such competitors were to bundle competing products or services for their customers, the demand for our products and services might be substantially reduced and our ability to distribute our products successfully and the utilization of our services would be substantially diminished.

### GOVERNMENT REGULATION

Our broadcast station dk4 has been granted a license by the Danish Board of Satellite and Cable. Our license obligates us to carry a certain mix of programs I.E. no more than a certain percentage of our programs can be sports, news, commercials, etc. If we change our program profile, we must advise the Danish Board of Satellite and Cable. We believe that we are currently in compliance with all of our license requirements.

### SALES AND MARKETING

We market our dk4 television broadcast station through local advertising sponsorships and participations in cable operator and cable organization symposiums and direct marketing to individual cable operators. Our market is dominated by three large operators that represent more than 80% of our potential viewers. dk4 is currently carried by two of those operators.

Prime Vision produces programming for a large array of distributors of content in the Scandinavian market. We market the Prime Vision services through word of mouth from satisfied clients as well as from the publicity we receive as the Company responsible for the production of many important sporting events like soccer, basketball and boxing. Prime Vision has established a well known reputation in broadcasting of live sporting events and is involved in producing major sports events for large TV channels in Denmark and Sweden. We also produce content for large channels like DR, TV2, Viasat in Denmark, and SR, Canal Digital and Viasat in Sweden, which is helpful for marketing the capability of Prime Vision.

We market our products and services throughout Scandinavia through multiple distribution channels, including the Internet, direct sales, telesales, value added resellers and systems integrators. Our sales teams build upon our existing customer relationships by contacting clients about security offerings on an ongoing basis and periodically selling them other complementary security products. We have found that satisfied customers of one or more of our services will likely become repeat customers for additional products or services and may recommend our services to other potential customers.

## Edgar Filing: EUOTRUST A/S - Form 20-F

Our customers typically represent organizations in the following sectors: government, travel, banking/finance, professional services and consulting, telecommunication, and other technology companies.

### PROPERTY, PLANT AND EQUIPMENT

Our executive offices are located in Soeborg, Denmark, where we own facilities which comprise 1,554 square meters of floor space and also, house our Danish operations. As of April 1, 2004 we sublet approx. 600 square meters of office space in Soeborg to VeriSign.

For our broadcasting media operations, we lease 2,233 square meters in Copenhagen, Denmark and 1,152 square meters in Aarhus, Denmark.

For our Internet services operations we lease the following:

(i) 780 square meters of floor space in Aarhus, Denmark, for our remote data backup subsidiary, EuroTrust Net Vaulting; ending February 2005

The total aggregate annual lease costs were approximately DKK 3,200,000 for 2003. The operating leases are cancelable by both parties through various times between six and thirty-seven months. We believe that the current facilities for our broadcasting media operations and our Danish activities, including our Internet data center, will be adequate for our purposes for at least the next 12 months. We also believe that there is a supply of alternative facilities available in each of the locations where we operate, should we deem it desirable to expand our facilities or otherwise change locations.

## ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

### A. OPERATING RESULTS

#### OVERVIEW

## Edgar Filing: EUROTRUST A/S - Form 20-F

Until December 2001, our business operated in three distinct areas: Internet products and services; broadcasting; and print and online media. In early 2001 we made the strategic decision to focus primarily on providing Internet infrastructure products and services and e-commerce solutions in Scandinavia and selected west European markets and on key elements of our broadcasting business. To that end, in 2001, we sold our domain name registration, the remaining assets of our historical telecommunications business and our print and online media businesses, and consolidated our television programming business. In December 2003, as part of our plan to intensify our focus on our television programming business and on providing virus detection products and services, we sold EuroTrust Secure Hosting A/S, our secure hosting subsidiary, EuroTrust Realtime Security A/S, our digital video surveillance subsidiary, EuroTrust Sweden AB, our Swedish subsidiary, and the assets related to EuroTrust NetVaulting A/S, our secure remote backup business.

We believe that our products and services, together with our reputation as a customer-service oriented company, provide us with competitive advantages. However, we cannot assure you that we will successfully implement our business strategy.

### CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (GAAP). The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe that the estimates, assumptions and judgments involved in the accounting policies described below have the greatest potential impact on our consolidated financial statements, so we consider these to be our critical accounting policies. See "Summary of Significant Accounting Policies" in the consolidated financial statements for more information about these critical accounting policies, as well as descriptions of other significant accounting policies.

### ALLOWANCE FOR DOUBTFUL ACCOUNTS

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. We regularly review the adequacy of our accounts receivable allowance after considering the size of the accounts receivable balance, each customer's expected ability to pay and our collection history with each customer. We review significant invoices that are past due to determine if an allowance is appropriate based on the risk category using the factors described above. We also monitor our accounts receivable for any build up of concentration to any one

customer, industry or geographic region. To date our receivables have not had any particular concentrations that, if not collected, would have a significant impact on our operating income. We require all acquired companies to adopt our

## Edgar Filing: EUROTRUST A/S - Form 20-F

credit policies. The allowance for doubtful accounts represents our best estimate, but changes in circumstances relating to accounts receivable may result in a requirement for additional allowances in the future.

### LONG-TERM INVESTMENTS

We invest in securities of companies for business and strategic purposes. These investments are in the form of equity securities of private companies for which there is no public market. For a specification of the investments you should refer to Note 3 of the accompanying consolidated financial statements. These companies are typically in the early stage of development and are expected to incur substantial losses in the near-term. Therefore, we may never realize any return on these investments. Further, if these companies are not successful, we could incur charges related to write-downs or write-offs of these investments.

We review, the assumptions underlying the operating performance from these privately held companies on an annual basis. This information may be more limited, may not be as timely and may be less accurate than information available from publicly traded companies. If we determine that an other-than-temporary decline in fair value of the investment exists, we write-down the investment to its fair value and record the related write-down as an investment loss in our consolidated statement of operations.

In fourth quarter of 2002, we determined that the decline in value of certain of our non-public equity investments was other-than-temporary and recorded write-downs of these investments totalling DKK 19.1 million. No write-downs were made in the year ended December 31, 2003.

### VALUATION OF LONG-LIVED ASSETS

Our long-lived assets totaled DKK 56.4 million, as of December 31, 2003, which consist primarily of rights, other intangible assets and property and equipment subject to amortization and depreciation. We test long-lived assets for recoverability whenever events or changes in circumstances indicate that the carrying amount of such an asset may not be recoverable. Such events or circumstances include, but are not limited to:

- o a significant decrease in the market price of a long-lived asset;
- o a significant adverse change in the extent or manner in which a long-lived asset is being used or in its physical condition;
- o a significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset;
- o a current-period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset; and
- o a current expectation that it is probable that a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life.

An impairment loss would be recognized when the sum of the undiscounted future net cash flows expected to result from the use of the asset and its eventual disposition is less than its carrying amount.

## Edgar Filing: EUROTRUST A/S - Form 20-F

Such impairment loss would be measured as the difference between the carrying amount of the asset and its fair value, which is usually based on future estimated discounted cash flows. Significant judgment is required in the forecasting of future operating results, which are used in the preparation of projected cash flows. If we made different judgments or utilized different estimates, material differences may result in write-downs of net long-lived and intangible assets, which would be reflected by charges to our operating results for any period presented.

We recorded an impairment charge of approximately DKK 74.0 million in the year ended December 31, 2002 and no impairment charge in the year ended December 31, 2003.

### GOODWILL

We account for acquisitions under the purchase method of accounting, typically resulting in goodwill. Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets, requires us to assess goodwill for impairment at least annually in the absence of an indicator of possible impairment and immediately upon an indicator of possible impairment. The statement requires estimates of the fair values of our reporting units. If we determine the fair value of a reporting unit is less than the carrying amount recorded on our Consolidated Balance Sheet, we must measure any impairment loss. The measurement of the impairment loss involves comparing the fair value of the reporting unit with the fair values of the recognized and unrecognized assets and liabilities to arrive at an implied fair value of goodwill, which is then compared to the book value of the goodwill of the reporting unit. At December 31, 2003, we had DKK 23.94 million of goodwill recorded on our Consolidated Balance Sheet. The entire goodwill was recorded in our Broadcasting media segment.

We performed our annual impairment assessment of goodwill in accordance with the provisions of SFAS No. 142. In testing for potential impairment, we measured the estimated fair value of our reporting units based upon discounted future operating cash flows using a discount rate reflecting our estimated discount rate for the specific reporting units. Differences in assumptions used in projecting future operating cash flows and estimated discount rate could have a significant impact on the determination of impairment amounts.

In estimating future cash flows we used our internal budgets. Our budgets were based on recent sales data for existing products and expected growth rates for the Internet security services and framework agreements entered into with customers in the broadcasting segment. These budgets were based on current royalty percentages, expected staffing levels and expected inflation.

Due to the numerous variables associated with our judgments and assumptions relating to the valuation of the reporting units and the effects of changes in circumstances affecting these valuations, both the precision and reliability of the resulting estimates are subject to uncertainty, and as additional information becomes known, we may change our estimates.

In the fourth quarter of 2002, we recorded a goodwill impairment charge of approximately DKK 65.3 million in the internet services segment. For the year ended December 31, 2003, based on our annual impairment assessment of goodwill, there were no impairment charges.

### INVENTORIES

## Edgar Filing: EUROTRUST A/S - Form 20-F

The inventory principally consists of 38,000 IBM Tivoli licenses relating to our remote back-up business. Inventories are stated at the lower of cost or market with cost determined on the basis of the first in, first out method.

Management must make estimates about the future customer demand for IBM Tivoli licenses when establishing the appropriate loss provisions for inventory. When making these estimates, we consider general economic conditions and historical sales of licenses, the market acceptance of the current generation of licenses, the available market for these products and expected sales prices for the licenses. These judgments must be made in the context of our customers' shifting technology needs. A misinterpretation or misunderstanding of any of these conditions could result in significant changes to the provisions determined to be appropriate as of the balance sheet date.

We recorded an inventory loss provision related to our IBM Tivoli licenses, of DKK 21,651 in 2002. During 2003 we received a credit of DKK 3,367 recorded as a reduction to cost of sales for the return of 7,000 IBM Tivoli licenses and no provision was made in 2003. As a result, our inventory at December 31, 2003 was only approximately \$21,000, an amount which we believe minimizes risks of future material inventory loss.

### TAX ASSET VALUATION

We currently have deferred tax assets resulting from net operating loss carry forwards, and deductible temporary differences, all of which will reduce taxable income in the future. We assess the realization of these deferred tax assets when necessary to determine whether an income tax valuation allowance is required. Based on available evidence, both positive and negative, we determine whether it is more likely than not that all or a portion of the remaining net deferred tax assets will be realized. The main factors that we consider include:

- o future earnings potential determined through the use of internal forecasts;
- o cumulative losses in recent years;
- o history of loss carry forwards and other tax assets expiring;
- o the carry forward period associated with the deferred tax assets; and
- o the nature of the income that can be used to realize the deferred tax asset.

If it is our belief that it is more likely than not that some portion of these assets will not be realized, an income tax valuation allowance is recorded. Our gross tax assets and valuation allowances were DKK 132.6 million and DKK 130.2 million respectively, as of December 31, 2003, resulting in a net deferred tax asset of DKK 2.4 million.

See Note 14 to our financial statements for further details regarding this deferred tax asset.

If market conditions improve and future results of operations exceed our current expectations, our existing tax valuation allowances may be adjusted, resulting in future tax benefits. Alternatively, if market conditions deteriorate further or future results of operations are less than expected, future assessments may result in a determination that some or all of the net deferred tax assets are not realizable. As a result, we may need to establish additional tax valuation allowances for all or a portion of the net deferred tax assets.

CONSOLIDATED RESULTS

YEAR ENDED DECEMBER 31, 2003 COMPARED WITH YEAR ENDED DECEMBER 31, 2002

Revenue for the year ended December 31, 2003 was DKK 166.4 million, a increase of DKK 30.6 million, or 23%, compared to revenue of DKK 135.8 million for the year ended December 31, 2002. The table below compares revenue for both years on a segment-by-segment basis.

	REVENUE		AMOUNT OF	PERCENTAGE
	2003	2002	INCREASE (DECREASE)	INCREASE (DECREASE)
	-----	-----	-----	-----
	(IN THOUSANDS OF DKK)

Broadcast media	88,619	72,020	16,599	23.0%
TOTAL	166,411	135,789	30,622	22.6%

Both the Internet services segment and the broadcast media segment showed an increase in revenues. The increase in revenue in our Internet services segment is attributable to the maturity of our offering of SSL-certificates in the markets in which we offer our products. The fact the deferred revenue increased significantly in 2002, the first year of full operation of the sale of SSL-certificates had a positive effect on revenue for 2003. The increase in revenue in our broadcast media segment reflects the increase in number of subscribers to dk4, our television channel, and the increase of revenue in Prime Vision, our production company.

Total operating expenses for the year ended December 31, 2003 were DKK 181.1 million, a decrease of DKK 200.4 million, or 53%, from the total operating expenses of DKK 381.5 million for the year ended December 31, 2002. This decrease resulted primarily from a decrease in amortization and write downs and goodwill impairment. The table below shows our operating expenses by category on a segment-by segment basis.

TOTAL	8,317	166,117	(157,800)	(95.0%)

In our Internet services segment the operating expenses generally decreased due to a significant cost reduction in cost of sales and significant reductions in cost of staff related to the sales of Enterprise solutions and general administrative costs and our continued focus on lowering expenses generally.

In our broadcast media segment operating expenses generally increased due to the increase in production facilities and the increase in expenses related to the growth in Prime Vision as well as the increase of new subscribers to dk4 and the related variable costs related to the increase number of subscribers and our increased focus on further developing and enhancing our broadcast media business.

For the year ended December 31, 2003, the gross profit for our Internet services segment was DKK 49.4 million, or a margin of 63.5% of segment revenues. For the year ended December 31, 2002, the gross loss for our Internet services business was DKK (16.7) million, or a margin of (26.2%) of segment revenues. This increase in gross profit margin is mainly attributable to the increase in revenue of SSL-certificates and lower costs related to the balance between actual revenue and the minimum sell through commitments to VeriSign and the fact that the gross profit margin for 2002 was reduced by the additional expenses of DKK 10 million, attributable to annual fee and minimum sell through guarantees to VeriSign and DKK 21.7 million, attributable to our write down of the value of our IBM Tivoli licenses, both of which are included in the cost of sales for 2002. The DKK 10 million expense was reversed in 2003 reducing the cost of sales.

In the case of our broadcast media segment, the gross profit for 2003 was DKK 30.6 million, or 34.5% of segment revenues while the gross profit margin for 2002 was DKK 31.5 million, or 43.7% of

Edgar Filing: EUROTRUST A/S - Form 20-F

segment revenues. This decrease is primarily attributable to the increase in cost resulting from our increased focus on further developing and enhancing our broadcast media business.

For the year ended December 31, 2003 our operating loss decreased by DKK 231.0 million to DKK 14.7 million compared to a loss of DKK 245.7 million for the year ended December 31, 2002.

The operating loss for our Internet services segment decreased by DKK 236.3 million to DKK 15.9 million compared to a loss of DKK 252.2 million for the year ended December 31, 2002. This decrease is primarily attributable to the decrease in the write down of goodwill and other assets. In the Internet services segment, we depreciated and wrote down approximately DKK 3.5 million for the year ended December 31, 2003 compared to DKK 161.3 million for the year ended December 31, 2002.

The operating income for our broadcast media segment decreased to DKK 1.2 million compared to an operating income of DKK 6.6 million for the year ended December 31, 2002. This decrease is attributable to the increase in operating expenses due to our increased focus on further developing and enhancing our broadcast media business..

For 2003, we had interest income of DKK 0.2 million and interest expense of DKK 1.7 million. For 2002, interest income was DKK 1.9 million and interest expense was DKK 1.1 million. The reduction in interest income in 2003 reflects our lower cash balances during the year due to increased capital expenditures. The increase in interest expense in 2003 reflects an increase in our borrowings during the year.

For 2003, we had a net foreign exchange (loss/increase) of DKK 1.9 million compared to a net loss of DKK 5.3 million in 2002. The increase is mainly due to the adverse developments in the US dollar exchange rate in 2002.

For 2003, we did not write down any long term investments compared to a write down of DKK 19.1 million for 2002. Based on our review of the valuation of investments made at December 31, 2003, we did not believe that a write down of any of our investments were necessary at that date.

Our net loss for the year ended December 31, 2003 was DKK 6.3 million compared to a net loss of DKK 283.3 million for the year ended December 31, 2002. The decrease in our net loss of DKK 277 million is primarily attributable to the decrease in the write down of goodwill.

YEAR ENDED DECEMBER 31, 2002 COMPARED WITH YEAR ENDED DECEMBER 31, 2001

Revenue for the year ended December 31, 2002 was DKK 135.8 million, a decrease of DKK 16.1 million, or 10.6%, compared to revenue of DKK 151.9 million for the year ended December 31, 2001. The table below compares revenue for both years on a segment-by-segment basis.

Both the Internet services segment and the broadcast media segment showed a decrease in revenues. The decrease in revenue in our Internet services segment is attributable to the fact that in 2001 we realized revenues from our domain name registration business until it was sold in July 2001. We have not realized any significant revenues under our International Affiliate Agreement with VeriSign in 2002 to offset for the decrease in revenue resulting from the sale of our domain name registration business. The decrease in revenue in our broadcast media segment reflects the fact that in 2001 we consolidated all of our television programming into a single television channel, dk4. The consolidation resulted primarily from the fact that the carriage agreement with TDC to broadcast Bio+ was not going to be renewed once it expired December 31, 2001. In addition, the carriage agreement for dk4 was extended through March 31, 2004 and we entered into two new distribution agreements and a new programming agreement for dk4. As a result, the lost revenue from the consolidation of Bio+ and dk4 and the non-renewal of the Bio+ agreement with TDC could not be completely supplanted by the revenues from the new agreements entered into by dk4.

Total operating expenses for the year ended December 31, 2002 were DKK 381.5 million, an increase of DKK 33.6 million, or 9.7%, from the total operating expenses of DKK 347.9 million for the year ended December 31, 2001. This increase resulted primarily from an increase in amortization and write downs mainly related to a write down of VeriSign rights and goodwill impairment in our trusted Internet infrastructure services business, offset by the elimination of the operating expenses associated with both the operations of the domain name registration business and our Bio+ television channel. The table below shows our operating expenses by category on a segment-by segment basis.

The increase in cost of sales for our Internet services revenues is primarily attributable to the additional incremental expenditure associated with the increase in sales of trusted internet Infrastructure services during 2002 including the additional expenses of DKK 10 million, attributable to annual fee and minimum sell through guarantees to VeriSign and DKK 21.7 million, attributable to our write down of the value of our IBM Tivoli licenses, both of which are included in the cost of sales for 2002. As a result of the successful renegotiation of the Affiliate Agreement with VeriSign, in February 2003, pursuant to which, among other items, they agreed to waive their rights under the annual fee and minimum sell through guarantees for 2002. Accordingly, our cost of sales in the first quarter of 2003 were reduced by DKK 10 million.

The decrease in sales and marketing expenses and general and administrative expenses is attributable to the sale of our domain name registration business and our continued focus on lowering expenses generally.

The increase in depreciation, amortization and write-down and goodwill impairment expenses reflects a write down of goodwill and other write downs in accordance with our adoption, in 2002, of Statement of Financial Accounting Standards (SFAS) No.s 142 and 144. Accordingly, in the Internet services segment, we depreciated and wrote down approximately DKK 161.3 million for the year ended December 31, 2002. Based on our management's assessment, the write downs included DKK 63.4 million from the write down of the rights we acquired from VeriSign and DKK 33.2 million from the write down of goodwill attributable to our acquisition of Alphasys SAS (due to revenue expectations not being met). The balance of the depreciation and the write down expenses mainly relate to the write down of goodwill in connection with various business acquisitions also due to revenue expectations not being met.

In our broadcast media segment, cost of sales, general and administrative expenses, depreciation, amortization and write-down and goodwill impairment expenses decreased due to the fact that we consolidated all of our television programming into a single television channel, dk4. For the year ended December 31, 2002, the aggregate depreciation, amortization and write-down and goodwill impairment expenses decreased, approximately DKK 30.2 million, to DKK 4.8 million as compared to the same period in the prior year. This decrease is

## Edgar Filing: EUROTRUST A/S - Form 20-F

due to our write down of a significant portion of the goodwill attributable to the acquisition of our broadcasting business as a result of the closing of Bio+ in 2001 and the consolidation of its operations with that of dk4.

34

For the year ended December 31, 2002, the gross loss for our Internet services segment was DKK (16.7) million, or a margin of (26.2)% of segment revenues. For the year ended December 31, 2001, the gross profit for our Internet services business was DKK 30.3 million, or a margin of 42.0% of segment revenues. This decrease in gross profit margin is mainly attributable to the fact that the gross profit margin on the domain name registration business which is included in 2001 results for a six month period are substantially higher than the gross profit margin on our trusted Internet infrastructure services business. We expect the gross profit margin to increase with time as the business of providing trusted Internet infrastructure services mature. Furthermore, the gross profit margin for 2002 was further reduced by the additional expenses of DKK 10 million, attributable to annual fee and minimum sell through guarantees to VeriSign, and DKK 21.7 million, attributable to our write down of the value of our IBM Tivoli licenses, both of which are included in the cost of sales for 2002. As a result of the successful renegotiation of the Affiliate Agreement with VeriSign, in February 2003, pursuant to which, among other items, they agreed to waive their rights under the annual fee and minimum sell through guarantees for 2002. Accordingly, our cost of sales in the first quarter of 2003 were reduced by DKK 10 million.

In the case of our broadcast media segment, the gross profit margin for 2002 was DKK 31.5 million, or 43.7% of segment revenues while the gross profit margin for 2001 was DKK 24.0 million, or 30.1% of segment revenues. This increase is primarily attributable to the general reduction of cost resulting from the consolidation of our television programming into a single television channel, dk4.

For the year ended December 31, 2002 our operating loss increased by DKK 49.7 million to DKK 245.7 million compared to a loss of DKK 196.0 million for the year ended December 31, 2001. The operating loss for our Internet services segment increased by DKK 86.3 million to DKK 252.2 million compared to a loss of DKK 165.9 million for the year ended December 31, 2001. This increase is primarily attributable to the write down of goodwill and other assets to reflect the impairment in the fair market value of certain acquired assets in accordance with SFAS 142. In the Internet services segment, we depreciated and wrote down approximately DKK 161.3 million for the year ended December 31, 2002. Based on our management's assessment, the write downs included DKK 63.4 million from the write down of the rights we acquired from VeriSign, and DKK 33.2 million from the write down of goodwill attributable to our acquisition of Alphasys SAS (due to revenue expectations not being met). The balance of the depreciation and the write down expenses mainly relate to the write down of goodwill in connection with various business acquisitions also due to revenue expectations not being met.

The operating income for our broadcast media segment increased by DKK 36.7 million to DKK 6.6 million compared to an operating loss of DKK 30.1 million for the year ended December 31, 2001. This increase is attributable to the reduction in operating expenses due to the consolidation of our television programming into a single television channel.

For 2002, we had interest income of DKK 1.9 million and interest expense of DKK 1.1 million. For 2001, interest income was DKK 2.3 million and interest expense was DKK 0.3 million. The reduction in interest income in 2002 reflects our lower cash balances during the year due to increased capital expenditures.

## Edgar Filing: EUROTRUST A/S - Form 20-F

The increase in interest expense in 2002 reflects an increase in our borrowings during the year.

For 2002, we had a net foreign exchange loss of DKK 5.3 million compared to a net loss of DKK 2.9 million in 2001. The increase is mainly due to the adverse developments in the US dollar exchange rate in 2002.

35

For 2002, we wrote down DKK 19.1 million of long term investments compared to DKK 0 for 2001. Based on our review of the valuation of investments made at December 31, 2002, we wrote down our investments in Trust Italia S.p.A. (DKK 16,053), Wisekey SA (DKK 2,322) and certain other shares (DKK 751). These write downs were made due to revenue expectations not being met.

Our net loss for the year ended December 31, 2002 was DKK 283.3 million compared to a net income of DKK 7.7 million for the year ended December 31, 2001. This difference of DKK 291.0 million is primarily attributable to the gain realized from the sale of our domain name registration business in 2001 and to an increase in the write-off of goodwill and other long-lived assets in 2002.

### B. LIQUIDITY AND CAPITAL RESOURCES

Historically, our primary cash needs have been for capital expenditures and to fund operating losses. At December 31, 2003, our cash balances were DKK 9.4 million compared to cash balances (DKK 37.7 million) and restricted cash (DKK 2.0 million) totaling DKK 39.7 million at December 31, 2002. At December 31, 2003 the ratio of current assets to current liabilities was 0.60 to 1. Our current assets primarily reflect our cash, accounts receivables and inventories.

At December 31, 2003, we had secured lines of credit from banks totaling DKK 0.5 million, from which none have been drawn. Interest is payable on the line at a floating rate based on the market rates of the major banks. The weighted average interest rate as of December 31, 2002 was 6.0%. In Denmark, a line of credit, such as that used by us, can be cancelled upon three months notice. Any termination would result in the principal and interest becoming due and payable immediately. The line of credit has been used for working capital purposes.

For the year ended December 31, 2003, cash used in operations was DKK 15.1 million compared to DKK 55.2 million for the prior year, a decrease of DKK 40.1 million. The decrease is primarily due to a improvement in operations in 2003 compared to 2002.

For the year ended December 31, 2003, cash used in investing activities was DKK 13.4 million compared to cash provided by investing activities of DKK 4.1 million for the prior year, a decrease of DKK 17.5 million. The decrease is primarily attributable to the proceeds from the sale of business, which has decreased by DKK 38.1 million in 2003 compared to 2002.

For the year ended December 31, 2003, cash provided in financing activities was DKK 2.6 million compared to cash used by financing activities of DKK 6.3 million for the prior year, an increase of DKK 8.9 million. The increase is primarily due to an increase of DKK 6.2 million, in proceeds from the issuance of common shares from the exercise of public warrants during 2003.

Our capital expenditures for the year ended December 31, 2003 were DKK 15.5 million. These expenditures primarily relate to purchase of equipment in our media segment.

## Edgar Filing: EUROTRUST A/S - Form 20-F

On April 1, 2004, we received cash of \$8,500,000 U.S. in connection with the sale of our PKI Services business to VeriSign. At the same time, we repurchased 2,748,720 of our ordinary shares from VeriSign for \$ 1,136,000 U.S. These transactions resulted in a net cash receipts of \$7,364,000 U.S. VeriSign further assumed deferred revenues of DKK 17,737 in connection with the purchase.

We believe that our cash on hand and the positive trend of our operating cash flow together with borrowings currently available and other potential sources of funds as described above will be sufficient to fund our anticipated working capital needs and capital spending requirements in the foreseeable

36

future. However, if we were to incur any unanticipated expenditures or the positive trend of our operating cash flow does not continue, such circumstances could put a substantial burden on our cash resources.

### INFLATION

We do not believe that inflation had a material impact on our results of operations.

### COMMITMENTS

In November 2000, we became part of VeriSign's Global Affiliate Network, an expanding group of international service providers using common technology, operating practices and infrastructure, compliant with the European Union (EU) common criteria requirements, to deliver interoperable trust services over the Internet. VeriSign is the leading provider of Internet infrastructure services in the world. Under our Affiliate Agreement with VeriSign, as amended, we provide VeriSign Internet infrastructure products and services in Denmark, Norway, Sweden, Finland, Austria and Switzerland. In February 2003 the Affiliate Agreement with VeriSign was amended, which, among other things, extended the term of the agreement for an additional 4 years through December 31, 2010 and reduced the minimum royalty payments and annual fee due to VeriSign for the year ending December 31, 2003 from approximately DKK 49.7 million (\$7.0 million) to approximately DKK 16.3 million (\$2.3 million). It has not been agreed what the minimum annual royalty payments are to be after December 31, 2003. The amendment states that the minimum annual royalty payments for the calendar years following 2003 shall be agreed by the Company and VeriSign no less than 60 days prior to the end of the calendar year 2003. In March 2004 it was agreed with VeriSign

## Edgar Filing: EUROTRUST A/S - Form 20-F

that the minimum fee for the first quarter of 2004 would be \$327.531,25. On April 1, 2004 we sold our PKI services business to VeriSign, Inc.

In January 2002, in connection with the combination of our Digiweb activity with DHT Hosting ApS (a Danish automated hosting company) to form EuroTrust Secure Hosting A/S, in which we have a 75% ownership interest and DHT has a 25% ownership interest. DHT has an option to sell its 25% interest in Secure Hosting to us in 2004 at a price based on the future profitability of Secure Hosting or for a minimum of DKK 2.5 million.

### IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In November 2002, the Emerging Issues Task Force issued its consensus on EITF Issue No. 00-21, Revenue Arrangements with Multiple Deliverables ("EITF Issue No. 00-21") on an approach to determine whether an entity should divide an arrangement with multiple deliverables into separate units of accounting. According to the EITF, in an arrangement with multiple deliverables, the delivered item(s) should be considered a separate unit of accounting if all of the following criteria are met: (1) the delivered item(s) has value to the customer on a standalone basis, (2) there is objective and reliable evidence of the fair value of the undelivered item(s), and (3) if the arrangement includes a general right of return, delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the vendor. If all the conditions above are met and there is objective and reliable evidence of fair value for all units of accounting in an arrangement, the arrangement consideration should be allocated to the separate units of accounting based on their relative fair values. The guidance in this Issue is effective for revenue arrangements entered into in fiscal periods beginning after June 15, 2003. The adoption of this statement did not have a material effect on EuroTrust's financial statements.

In December 2003, the SEC issued Staff Accounting Bulletin ("SAB") No, 104 "REVENUE RECOGNITION" which codifies, revises and rescinds certain sections of SAB No. 101, "REVENUE RECOGNITION", in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The changes noted in SAB No. 104 did not have a material effect on EuroTrust consolidated financial position, results of operations or cash flows.

In January 2003, the FASB issued Interpretation No. 46, "CONSOLIDATION OF VARIABLE INTEREST ENTITIES, AN INTERPRETATION OF ACCOUNTING RESEARCH BULLETIN ("ARB") NO. 51." In December 2003, the FASB issued a revision to Interpretation No. 46, and interpretation of ARB Opinion No. 51 ("FIN 46R"). FIN 46R clarifies the application of ARB 51 "CONSOLIDATED FINANCIAL STATEMENTS," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders. FIN 46R requires the consolidation of these entities, known as variable interest entities ("VIE's"), by the primary beneficiary of the entity. The primary beneficiary is the entity, if any, that will absorb a majority of the entity's expected losses, receive a majority of the entity's expected residual returns, or both.

Among other changes, the revisions of FIN 46R (a) clarified some requirements of the original FIN 46, which had been issued in January 2003, (b) eased some implementation problems, and (c) added new scope exceptions. FIN 46R deferred the effective date of the interpretation for public companies to the end of the first reporting period ending after March 15, 2004, except that all

## Edgar Filing: EUROTRUST A/S - Form 20-F

public companies must at a minimum apply the unmodified provisions of the interpretation to entities that were previously considered "special-purpose entities" in practice and under the FASB literature prior to the issuance of FIN 46R by the end of the first reporting period ending after December 15, 2003.

Among the scope expectations, companies are not required to apply FIN 46R to an entity that meets the criteria to be considered a "business" as defined in the interpretation unless one or more of four named conditions exist. FIN 46R applies immediately to a VIE created or acquired after January 31, 2003. EuroTrust does not have any interests in VIE's and the adoption of FIN 46R is not expected to have a material impact on EuroTrust financial position, results of operations or cash flows.

In April, 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", which amends SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," to address (1) decisions reached by the Derivatives Implementation Group, (2) developments in other Board projects that address financial instruments, and (3) implementation issues related to the definition of a derivative. SFAS No. 149 has multiple effective date

38

provisions depending on the nature of the amendment to SFAS No. 133. The adoption of this statement did not have a material effect on EuroTrust's financial statements.

On May 15, 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity". SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 is effective for all financial instruments entered into or modified after May 31, 2003. For unmodified financial instruments existing at May 31, 2003, SFAS No. 150 is effective at the beginning of the first interim period beginning after June 15, 2003, except for mandatory redeemable financial instruments of nonpublic entities. The adoption of this statement did not have a material effect on EuroTrust's financial statements.

### OFF BALANCE SHEET ARRANGEMENTS

The Company is not aware of any material transactions which are not disclosed in its consolidated financial statements.

ALDO M.N. PETERSEN, PRESIDENT, CHIEF EXECUTIVE OFFICER, CHIEF OPERATING OFFICER,  
MANAGING DIRECTOR AND DIRECTOR

Mr. Petersen has been our President, Chief Executive Officer, Managing Director and a member of our board of directors since January 1988. In December 2003, upon the resignation of Brian Mertz Pedersen, Mr. Petersen also assumed the responsibilities of Chief Operating Officer. He also serves as a member of the board for several of our wholly-owned subsidiaries, and is an investor of F.C. Copenhagen, the Copenhagen professional soccer team. Mr. Petersen holds a degree in economics from the Copenhagen Business School.

SOREN DEGN, CHIEF FINANCIAL OFFICER

## Edgar Filing: EUROTRUST A/S - Form 20-F

Mr. Degn was appointed our chief financial officer since in December 2003. He also serves as a member of the board for several of our wholly-owned subsidiaries. Prior to this appointment he served as our Corporate Finance Director since 2001. Mr. Degn spent 5 years with Kampsax A/S (a consultancy firm) and 7 years with KPMG in Denmark. Mr. Degn has a Graduate Diploma in Business Administration in accountancy and a MSC (Business Administration and Auditing) in financial planning and control from the Copenhagen Business School.

KAROLY LASZLO NEMETH, CHAIRMAN OF THE BOARD

Mr. Nemeth was elected to our board of directors in January 1988 and also serves as a member of the board for several of our wholly-owned subsidiaries.. He is a partner in and chairman of the board of Nemeth & Sigetty A/S, a law firm that performs legal services for us. He also serves on the board of various privately held Scandinavian companies.

JOHN J. STUART, JR., DIRECTOR

Mr. Stuart was elected to our board of directors in May 1998. Since January 1983 Mr. Stuart has been employed by Irvine Sensors Corporation ("ISC"), Costa Mesa, California USA, a developer of proprietary technologies to produce extremely compact packages of solid state microcircuitry. He currently serves as ISC's Senior Vice President and Chief Financial Officer, positions he has held since November 1998 and July 1985, respectively. Between July 1985 and February 1995, he also held the

40

position of ISC's treasurer and was reappointed to this position in November 1998. Mr. Stuart is also a member of the board of directors and is vice president of finance and chief financial officer of Novalog, Inc. (since October 1995), Microsensors, Inc. (since October 1997), RedHawk Vision, Inc. (since March 2000) and iNetWorks, Inc. (since October 2000) all of which are subsidiaries of ISC.

ROBERT M. GUTKOWSKI, DIRECTOR

Mr. Gutkowski was elected to our board of directors on May 12, 2004. Since 2002, Mr. Gutkowski has provided consulting services, specializing in the sports and entertainment industries. He recently advised the New York Yankees in regard to the creation of the YES Network, a regional sports and entertainment network whose linchpin is their telecast of New York Yankee baseball, as well as New Jersey Nets basketball. From June 2000 through 2002, he served as President and Chief Executive Officer of Magnum Sports & Entertainment, Inc., a company which offered a multitude of services to entertainers in the fashion, music, sports and film/television industries. In 1996, he founded The Marquee Group, Inc., a worldwide sports and entertainment firm that managed, produced and marketed sports and entertainment events and provided representation for athletes, entertainers and broadcasters. He served as Marquee's chief executive officer until 1999 when the company was sold to SFX Entertainment, Inc. From 1991 until 1994, he was President of Madison Square Garden, Inc. ("MSG"). In that position, he was responsible for the operations of the New York Knickerbockers basketball team, the New York Rangers hockey club and MSG Communications, which included the MSG television Network. From 1985 to 1991 he was President of the MSG television Network. Mr. Gutkowski holds a B.A. degree in Business Administration from Hofstra University.

JAN BERGER, DIRECTOR

## Edgar Filing: EUROTRUST A/S - Form 20-F

Mr. Berger has been a Management Consultant since 1998. He has more than 24 years of experience in the Information Technology (IT) industry and has held various top management positions with leading IT companies. In addition, Mr. Berger has served as a board member at several companies including, chairman of the board of Skrivervik Data, a SUN Microsystems distributor in Norway. Mr. Berger has a degree in Business Economics and Administration with an emphasis on Sales and Marketing.

There are no family relationships among any of our directors and executive officers or those of our subsidiaries.

### B. COMPENSATION

#### EXECUTIVE COMPENSATION

Cash compensation paid by us and our subsidiaries for the year ended December 31, 2003 to our directors and senior management for services in all capacities, other than professional fees, totaled approximately DKK 5.0 million (approximately \$832,000). In addition, we maintain a standard pension plan for our executive officers under the terms of which we contribute an amount equal to 15% of their annual salary to the plan. The total contribution for 2003 totaled approximately DKK 671,000 (approximately \$113,000). The above mentioned amounts include amounts paid to Brian Mertz Pedersen, former COO, and Bertel Jensen, our former CFO.

41

Effective as of July 2001, we entered into an employment agreement with each of Aldo M.N. Petersen, our Chief Executive Officer and Bertel E. Jensen, our former Chief Financial Officer and effective as of September 2003 an agreement with Soren Degn, our new Chief Financial Officer, each of which may be terminated at any time (i) by us by providing 12 months notice of termination, or (ii) by either Mr. Petersen, Mr. Jensen or Mr. Degn by providing 6 months notice of termination. Pursuant to their employment agreements each of Mr. Petersen, Mr. Jensen and Mr. Degn are annually granted a 5-year option to acquire our ordinary shares. Accordingly, in 2003 they were each granted the number of options set forth in the table below under the section entitled "Options." Effective as of December 1, 2003, Mr. Jensen resigned as Chief Financial Officer as a consequence of our streamlining of the management and organization due to the sale of certain of our subsidiaries and closing down of our Swiss office.

#### OPTIONS

Options that were granted pursuant to our stock option plan to the named executive officers during the year ended December 31, 2003 and are set forth in the following table:

- (1) These securities are reflected as ordinary shares.
- (2) These securities are reflected in ADSs (after giving effect to a 1 for 6 reverse ratio change of ADSs on August 29, 2002).

### DIRECTOR COMPENSATION

Our independent directors receive a fee of \$20,000 U.S. per year plus \$1,000 for each meeting attended in person. Directors are reimbursed for expenses they incur in connection with attending meetings of the board of directors and committees thereof. In addition, we periodically grant options to our directors, although the amount and timing of those grants are determined by the board in its sole discretion. On May 12, 2004, the Board granted to each independent director an option to purchase 150,000 ordinary shares (equivalent to 25,000 ADSs) with an exercise price equivalent to the closing market price on the date of grant.

### C. BOARD PRACTICES

The board of directors may consist of between three and seven members. As of April 20, 2004, the board consisted of five members. Under certain provisions of the Danish Companies Act, our employees have the right to elect three board members. However, our employees have not exercised this right.

42

Each director is elected by a vote at the annual or special meeting of the shareholders and serves for a term of one year. All of the current directors, Messrs. Aldo M.N. Petersen, Karoly Laszlo Nemeth, John J. Stuart, Jr., Robert M. Gutkowski and Jan Berger, were elected at the annual general meeting held on May 12, 2004. Each executive officer will serve until his or her successor is duly appointed or elected by the board of directors or his or her earlier removal or resignation from office.

There is no restriction on the re-election of directors. The quorum for a meeting of the board of directors is a simple majority. All members of the board of directors have equal voting rights and all resolutions are passed by a simple majority.

Our executive officers serve at the discretion of the board of directors. The citizenships of our executive officers and directors are as follows:

Name	Country of Citizenship
-----	
ALDO M.N. PETERSEN	Denmark
SOREN DEGN	Denmark
KAROLY LASZLO NEMETH	Denmark
JOHN J. STUART, JR.	United States
ROBERT M. GUTKOWSKI	United States
JAN BERGER	Norway

## Edgar Filing: EUROTRUST A/S - Form 20-F

There are no agreements with our board members that provide for the payment of benefits upon termination of their directorship.

The board of directors has an audit committee and a compensation committee. The members of the audit committee are Messrs Berger, Gutkowski and Stuart. The audit committee reviews our financial statements and accounting practices, appoints our independent auditors, meets and interacts with the independent auditors to discuss questions in regard to EuroTrust's financial reporting, reviews the results and scope of the audit and other services provided by our independent auditors, and our internal controls. The members of the compensation committee are Messrs. Berger and Stuart. The committee makes recommendations to the board regarding remuneration of executive officers, and reviews our compensation plans and policies.

### INDEMNIFICATION

Except to the extent indicated below, neither our Articles of Association nor any contract or other arrangement to which we are a party contains any provision under which any of our directors, members of management or officers are insured or indemnified in any manner against any liability that he or she may incur in his or her capacity as a director or an officer.

We have obtained an insurance policy under which our directors and officers are insured against losses arising from their acts or omissions in their capacities as directors or officers up to DKK 40 million. This policy has a DKK 50,000 deductible.

Under the Danish Act on Limited Companies, our directors and officers, who are registered as managers with the Danish Commerce and Companies Agency, are liable for losses caused deliberately or

43

by negligence in connection with the performance of their duties to us and to third parties. Officers not so registered are indemnified by us under applicable Danish law in respect of actions taken by them in their official capacity.

Insofar as indemnification for liabilities under the Securities Act of 1933 may be permitted to our directors, officers or controlling persons as set forth above, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

### D. EMPLOYEES

As of December 31, 2003, we had 129 employees, a decrease of 54 employees from the prior year. All of our employees are located in Denmark. (See the following table.) This decrease is primarily attributable to streamlining our e-security business, partially offset by a growth of 22% in our broadcast media segment. The table below gives a breakdown of our employees and area of employment:

	Denmark	Total
Sales and marketing	29	29
Customer service and support	13	13
Technical	59	59
Finance and administration	28	28
	--	--
Totals	129	129
	===	===

## Edgar Filing: EUROTRUST A/S - Form 20-F

Some of our employees are members of various labor unions; however, we are not required to, and we do not have agreements with any union. We have not experienced any work stoppages, and we consider our relations with our employees to be good.

Competition in the recruiting of highly-qualified personnel in the Internet-related services industry is intense. We believe that our future success will depend, in part, on our continued ability to hire, motivate and retain qualified management, marketing and technical personnel. To date, we have not experienced any difficulty in attracting and retaining qualified personnel, but we can provide no assurance that we will be able to continue to attract and retain qualified personnel in the future.

We believe that our relations with our union and non-union employees are good.

### E. SHARE OWNERSHIP

The following table sets forth the ownership of our ordinary shares by the individuals named in Item 6.A., as of May 11, 2004.

Except, as set forth in the table above, to our knowledge, in the last three years, there has not been any significant change in ownership by major shareholders. Our major shareholders do not have different voting rights. The portion of our ordinary shares held in the United States is approximately 90% and the number of record holders is 32. We are not owned or controlled, directly or indirectly, by another corporation or by any foreign government. We are not aware of any arrangement that may at a subsequent date result in a change of control.

### B. RELATED PARTY TRANSACTIONS

In the ordinary course of business, EuroTrust engages in transactions with certain entities and individuals that are considered to be related parties as follows:.

#### MR ALDO PETERSEN

On November 30, 2000, we acquired 20% of Trust Italia SpA., an Italian digital security company. During 2001, the agreement for the acquisition was changed, following investment in Trust Italia SpA by other parties, resulting in an ownership in Trust Italia of 15.7% (242,000 shares) and an

46

additional cash consideration of DKK 4,265. The cash was paid to Aldo Petersen, the CEO of the Company who also owned 2.6% of the shares of Trust Italia SpA.

#### PARKEN SPORTS & ENTERTAINMENT A/S

On December 31, 2003, EuroTrust A/S purchased the remaining 15% of Europe-Visions A/S (formerly Euro909Media A/S) for a total purchase price of DKK 8.5 million, from Parken Sport & Entertainment A/S thereby becoming the 100% owner of Europe-Visions A/S. Aldo Petersen was a member of the board of directors of Parken Sports & Entertainment A/S until the end of December 2002 and currently holds 40,000 shares representing ownership of approximately 2% of

## Edgar Filing: EUROTRUST A/S - Form 20-F

the issued share capital of Parken Sports & Entertainment.

On November 29, 2001, the Company entered into an agreement with Parken Sports & Entertainment A/S for pitch-side advertising and corporate hospitality at football matches involving FC Copenhagen, a football team owned by Parken Sports & Entertainment. The agreement is expires December 31, 2007.

Parken Sports & Entertainment A/S (Sponsorship)	3,280	0
	=====	=====

As of December 31, 2001 Aldo Petersen owed EuroTrust A/S DKK 3,084 representing the balance on his loan account with the company. This loan account was fully repaid during 2002.

### VERISIGN, INC

VeriSign, Inc. ("VeriSign") is a minority shareholder in EuroTrust A/S owning approximately 18% as of December 31, 2003. The transactions entered into during the year and the accounts payable at the year end shown below are a result of commercial trade with VeriSign. Current accounts with VeriSign are not carrying any interest.

VeriSign, Inc. (Annual fees and royalties)	24,988	4,204
	=====	=====
VeriSign, Inc. (Accounts payable)	12,833	477
	=====	=====

During 2001 the Company sold its domain name registration business to VeriSign for a gross cash consideration of DKK 210,687. During 2000 and 2001, the Company originally had purchased rights from VeriSign for DKK 75,305, which allows the Company to sell VeriSign products in a number of European countries (including Denmark, Sweden, Norway, Finland, Austria, Switzerland and Italy). During 2002 the balance on the amount capitalized for the rights acquired was written off due to the poor financial performance of the business.

On April 1, 2004, the Company sold the Secure Socket Layer certificate assets of EuroTrust PKI to VeriSign. EuroTrust PKI, a wholly-owned subsidiary of the Company, is the operation through which the Company sells Public Key Infrastructure (PKI) Services, including VeriSign's SSL certificates and related services in Austria, Switzerland, Finland, Norway, Sweden and Denmark. Under the terms of the agreement, VeriSign will pay the Company \$8.5 million U.S. in cash and assume the ongoing obligations of EuroTrust PKI SSL contracts.

Simultaneously with the closing of the transaction to sell the assets of

## Edgar Filing: EUROTRUST A/S - Form 20-F

EuroTrust PKI to VeriSign, the Company repurchased 2,748,720 of its ordinary shares (equivalent to 458,120 American Depositary Receipts or "ADRs") from VeriSign for \$1,136,138 U.S. The repurchase was authorized by the Company's shareholders.

### NEMETH & SIGETTY A/S

Mr. Karoly Laszlo Nemeth is the Chairman of the board of directors of EuroTrust A/S and is also the joint owner of Nemeth & Sigetty A/S. Nemeth & Sigetty A/S provided legal services to the Company during the three years ended December 31, 2003. For the years ended December 31, 2001, 2002 and 2003 Nemeth & Sigetty A/S has been paid DKK 1,083, DKK 1,115 and DKK 418, respectively. The total outstanding payables due to Nemeth & Sigetty A/S as at December 31, 2002 and December 31, 2003 were DKK 625 and DKK 0, respectively.

### C. INTERESTS OF EXPERTS AND COUNSEL.

## ITEM 8. FINANCIAL INFORMATION

### A. CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

See Item 18. "Financial Statements" and pages F-1 through F-44 of this report.

### LEGAL PROCEEDINGS

We recorded a provision of DKK 1,000,000 for expenses relating to an arbitration court settlement regarding the construction of our building located in Soeborg, Denmark.

Other than as described above, neither we nor our property is a party in any other pending material legal proceeding.

### DIVIDEND PAYMENT POLICY

We have not paid out any dividend to our shareholders in the last three financial years. Payment of any future dividends will depend on our earnings and capital requirements, and other factors our board of directors deem appropriate.

### B. SIGNIFICANT CHANGES

None.

## ITEM 9. THE OFFER AND LISTING

### A. TITLE

Our ordinary shares are not traded on any stock exchange or over-the-counter market. However, our ADS are traded on the Nasdaq SmallCap Market under the symbol "EURO".

On August 29, 2002, we implemented a one for six reverse ratio change in the number of ordinary shares represented by each ADS such that each new ADS

## Edgar Filing: EUOTRUST A/S - Form 20-F

issued subsequent to the ratio change will represent six ordinary shares (prior the ratio change, each ADS represented one ordinary share). Holders of our ADSs prior to the ratio change, each of which represents one ordinary share ("Old ADSs"), exchanged their Old ADSs for new ADSs, each of which represents six ordinary shares ("New ADSs").

On December, 31, 2003, there were 4,389,538. New ADSs issued and outstanding representing 26,337,228 ordinary shares.

The following table sets forth, for the periods indicated, the range of high and low market prices per ADS as quoted on the Nasdaq SmallCap Market. The prices shown below (in US Dollars) are adjusted to reflect the 1 for 6 reverse ratio change in our ADSs, described above, and represent quotations among securities dealers, do not include retail markups, markdowns or commissions and may not represent actual transactions.

C. MATERIAL CONTRACTS

On November 17, 2000, we entered into an international affiliate agreement ("Affiliate Agreement") with VeriSign, Inc. ("VeriSign"), a Delaware corporation and a provider of Internet Trust services and products.

50

In general, under the Affiliate Agreement:

- o We became an affiliate of VeriSign, as a member of the VeriSign Global Affiliate Network, for the distribution and delivery of VeriSign's Internet Trust services and products within Denmark, Norway, Sweden, Finland, Austria, Switzerland and Italy (the "Territory");
- o VeriSign granted to us the nonexclusive, nontransferable right and license to use the VeriSign Software for the purposes of approving, issuing, suspending or revoking digital certificates within the Territory;
- o We agreed not to compete with VeriSign during its term and any renewal periods. The agreement has a five year term and at our option automatically renewable for additional five one year periods based on our meeting of certain market performance and minimum royalty requirements;
- o We are required to meet certain market performance criteria; and
- o Among other rights, we have a right to market and promote our affiliation with VeriSign as an authorized VeriSign International Affiliate for VeriSign certificates and certificate services.

In addition, as a member of the VeriSign Global Affiliate Network, VeriSign provides us with a combination of technology, support and marketing

## Edgar Filing: EUROTRUST A/S - Form 20-F

services to facilitate the initial deployment and on-going delivery of various digital certificate services. VeriSign also provides us with the appropriate business readiness services to facilitate the efficient and timely rollout of their digital certificate offerings. These readiness services may include Service Center or Processing Center installation and integration services, facility and network design consulting, technical and customer support documentation and training, sales and marketing support, operating practice templates and local market customization.

We are also a member of the VeriSign Trust Network (VTN), a global network of digital certificate service providers that operate with common technology, infrastructure and practices to enable digital certificate interoperability on a worldwide basis.

In June 2002, the Affiliate Agreement was amended to incorporate additional terms and conditions relating to certain procedures and practices that EuroTrust must observe, as a member of the VTN, in developing our own internal procedures and practices that are in compliance with VTN guidelines.

In February 2003 the Affiliate Agreement with VeriSign was amended, which, among other things, extended the term of the agreement for an additional 4 years through December 31, 2010 and reduced the minimum royalty payments and annual fee due to VeriSign for the year ending December 31, 2003 from approximately DKK 49.7 million (\$7.0 million) to approximately DKK 16.3 million (\$2.3 million). It has not been agreed what the minimum annual royalty payments are to be after December 31, 2003. The amendment states that the minimum annual royalty payments for the calendar years following 2003 shall be agreed by the Company and VeriSign no less than 60 days prior to the end of the calendar year 2003. In March 2004 it was agreed with VeriSign that a minimum for the first quarter of 2004 of \$327,531,25. It has been agreed with VeriSign that the annual fees will be reduced for 2004 and beyond. As a result of the amendment to the affiliate agreement with VeriSign, the accrued royalties and annual fees of approximately DKK 12.8 million payable to VeriSign as of December 31, 2002 were reduced to

51

approximately DKK 2.8 million in the first quarter of 2003 resulting in a corresponding decrease in cost of sales in the first quarter of 2003.

On April 1, 2004 we sold our PKI services business to VeriSign and as a consequence the Affiliate Agreement was terminated.

### D. EXCHANGE CONTROLS AND OTHER LIMITATIONS AFFECTING SECURITY HOLDERS

There are no governmental laws, decrees or regulations of the Kingdom of Denmark that restrict the export or import of capital (including, without limitation, foreign exchange controls), or that affect the remittance of dividends, interest or other payments to nonresident holders of ordinary shares. There are no limitations imposed by the laws of the Kingdom of Denmark or our Articles of Association on the right of nonresident or foreign holders to hold or vote ordinary shares.

### E. TAXATION

The following summary contains a description of the material United States federal income tax and Danish tax consequences of the purchase, ownership and disposition of ordinary shares or ADSs by a beneficial owner that (i) is an individual citizen or resident in the United States (for United States federal income tax purposes), a corporation or partnership organized under the laws of

## Edgar Filing: EUOTRUST A/S - Form 20-F

the United States or any state thereof, or estates or trusts the income of which is subject to United States federal income tax regardless of its source, (ii) is not also a resident or corporation of Denmark and is not domiciled in Denmark, (iii) does not hold ordinary shares or ADSs in connection with any permanent establishment or fixed base in Denmark, (iv) does not own, and has not owned (directly, indirectly or by attribution) at any time, 10% or more of our total combined voting power or equity, and (v) holds ordinary shares or ADSs as capital assets. The term "United States holder," as used in this summary, means a beneficial owner of ordinary shares or ADSs meeting these requirements.

The following summary of certain United States federal and Danish tax matters is based on tax laws of the United States and Denmark as in effect on the date of this report and the current Income Tax Treaty between the United States and the Kingdom of Denmark (the "Treaty"), which is a generally effective as of January 1, 2001. We cannot assure you that future legislation, regulations, administrative rulings or court decisions will not adversely affect the accuracy of the statements contained in this report. Also, changes in United States and Danish law and the Treaty made after the date of this report could have retroactive effect.

The following summary does not consider or discuss the tax laws of any country other than the United States or Denmark. This summary does not describe United States federal estate and gift tax considerations, or state, local or provincial tax considerations. Furthermore, it does not address United States federal income tax or Danish tax considerations that apply to United States holders of our ordinary shares or ADSs who are also subject to taxing jurisdictions other than or in addition to the United States. Finally, it does not address all possible categories of United States holders, some of whom (such as financial institutions, trusts, estates, insurance companies, dealers in securities, certain retirement plans and tax exempt organizations) may be subject to special rules.

THE FOLLOWING DISCUSSION DOES NOT PURPORT TO BE EXHAUSTIVE OF ALL POSSIBLE TAX CONSIDERATIONS. UNITED STATES HOLDERS OF ORDINARY SHARES OR ADSs SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE UNITED STATES, DANISH

52

OR OTHER TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF ORDINARY SHARES OR ADSs.

### UNITED STATES TAX CONSEQUENCES OF OWNERSHIP OF ORDINARY SHARES OR ADSS

DIVIDENDS. For United States federal income tax purposes, the gross amount of all dividends (that is, the amount before reduction for Danish withholding tax) paid to a United States holder with respect to ordinary shares or ADSs out of our current or accumulated earnings and profits ("E&P") will be taxable for United States federal income taxation as a foreign source dividend income. As such, these dividends are not eligible for the dividends received deduction otherwise available to United States corporations in connection with dividends received from United States corporations. To the extent that a distribution exceeds E&P, it will be treated first as a return of capital to the extent of the United States holder's basis, and then, as gain from the sale of a capital asset.

For United States federal income tax purposes, the amount of any dividend paid in Danish kroner will be the United States dollar value of the kroner at the exchange rate in effect on the date of receipt, whether or not the kroner is converted into United States dollars at that time.

## Edgar Filing: EUROTRUST A/S - Form 20-F

The withholding tax imposed by Denmark generally is a creditable foreign tax for United States federal income tax purposes. As a result, a United States holder generally will be entitled to include the amount withheld as foreign tax paid in computing a foreign tax credit (or in computing a deduction for foreign income taxes paid, if the United States holder does not elect to use the foreign tax credit provisions of the Internal Revenue Code of 1986, as amended (the "Code")). The Code, however, imposes a number of limitations on the use of foreign tax credits, based on the particular facts and circumstances of each taxpayer. United States holders who hold ordinary shares or ADSs should consult their tax advisors regarding the availability of the foreign tax credit.

Backup withholding, imposed at the rate of 31%, may apply to a United States holder in connection with the sale or exchange of ordinary shares or ADSs. Generally, backup withholding does not apply to a United States holder (i) that is a corporation or comes within certain other exempt categories or (ii) provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding and otherwise complies with applicable requirements of the backup withholding rules.

SALE OR OTHER DISPOSITION OF ORDINARY SHARES OR ADSS. Gain or loss recognized by a United States holder on the sale or other disposition of ordinary shares or ADSs will be taxable for United States federal income tax purposes as capital gain or loss in an amount equal to the difference between such United States holder's basis in the ordinary shares or ADSs and the amount realized on the disposition. The capital gain or loss will be long term if the securities were held for more than 12 months and will be short term if they were held for less than 12 months. Capital losses are generally deductible only against capital gains and not against ordinary income.

Capital gain recognized by a United States holder on the sale or other disposition of ordinary shares or ADSs will be United States source gain. Losses from the sale of ordinary shares or ADSs would generally be sourced in the same manner as gains from the sale of such ordinary shares or ADSs. However, treasury regulations include a dividend recapture rule and other exceptions that may apply. United States holders of ordinary shares or ADSs should consult their tax advisors regarding the proper treatment of such losses.

53

### DANISH TAX CONSEQUENCES OF OWNERSHIP OF ORDINARY SHARES OR ADSS.

DIVIDENDS. For Danish income tax purposes, the gross amount of all distributions made by us to our shareholders is taxed as a dividend. However, a distribution of liquidation proceeds made by us to our shareholders during the calendar year in which we are finally liquidated and dissolved is taxed as capital gain. In addition, the gross amount paid by us to redeem ordinary shares or ADSs are generally taxed as a dividend. However, a shareholder may apply to Danish tax authorities for a ruling allowing for capital gains treatment. If the ruling is obtained before the distribution is decided the ruling includes an exemption from the dividend tax. If the exemption request is granted, the consideration will be taxed as capital gain.

The granting of bonus shares to shareholders, and the right of shareholders to subscribe for ordinary shares or ADSs at a price that is less than the current trading value of such ordinary shares or ADSs, are not considered taxable distributions to shareholders.

In general, a Danish withholding tax of 28% is levied on all dividends. However, corporate shareholders holding at least 20 % of the share capital for a

## Edgar Filing: EUROTRUST A/S - Form 20-F

consecutive period for at least one year may be exempt from Danish withholding tax on dividends. The dividend in question must be covered by the double tax treaty between Denmark and United States. Further, a United States holder (individual or a company) may apply to the Danish tax authorities for a partial refund of the dividends tax that has been withheld under the Treaty. If this refund request is granted, the Danish withholding tax on such dividends is effectively reduced to 15%. The rate is reduced to 5% for corporate shareholders holding at least 10% of the share capital. We do not presently contemplate the payment of any dividends on our ordinary shares or ADSs. However, should we decide to make payment of dividend, we will apply to the Danish tax authorities for a blanket exemption allowing us to withhold only 15% of all gross dividends paid to a United States holder. While we believe that such an exemption will be granted, there can be no assurance that this will occur. Shareholders eligible for further reduction must apply individually for such reduction.

**SALE OR OTHER DISPOSITION OF ORDINARY SHARES OR ADSS.** Capital gains realized by United States holders upon the sale or other disposition of ordinary shares or ADSs may be exempt from Danish tax.

### DANISH SHARE TRANSFER DUTY.

No Danish share transfer duty is levied on the disposal of ordinary shares or ADSs.

### DANISH ESTATE AND GIFT TAXES.

Generally, if a United States holder acquires or disposes of ordinary shares or ADSs by inheritance, legacy or gift, such holder will not be subject to Danish gift or inheritance taxes. If a United States holder should make a gift of ordinary shares or ADSs to any person resident in Denmark the gift can only be subject to Danish gift tax when forming part of the business property of a permanent establishment in Denmark. Other transfers of shares or ADS's shall be taxable only in the state in which the transferor was domiciled at the time of his death or when making the gift according to the United States-Denmark Double Taxation Convention with respect to taxes on estates, inheritance and gifts.

### I. SUBSIDIARY INFORMATION

Not applicable.

### ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At December 31, 2003, we did not believe that market risk financial instruments would have a material affect on future operations or cash flows nor did we view currency exchange risk or interest rate risk as material. Operational currency exchange risk would arise if we priced products in one currency while material costs and expenses were denominated in a different currency. We do not believe that the operational currency exchange risk is material. However, from time to time we enter into a contract denominated in a currency other than the currency of operating expenses and, in such cases, may enter into currency forward arrangements with respect to and for the period covering such contract. Throughout the year 2003 and specifically at December 31, 2003, we had no material foreign exchange contracts outstanding.

### ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

### ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

None.

### ITEM 15. CONTROLS AND PROCEDURES

## Edgar Filing: EUROTRUST A/S - Form 20-F

a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. EuroTrust's management, with the participation of the chief executive officer and the chief financial officer, carried out an evaluation of the effectiveness of EuroTrust's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 (the "Exchange Act") Rules 13a-15(e) and 15-d-15(e)) as of the end of the fiscal year covered by this Annual Report (the "Evaluation Date"). Based upon that evaluation, the chief executive officer and the chief financial officer concluded that, as of the Evaluation Date, EuroTrust's disclosure controls and procedures are effective, providing them with material information relating to EuroTrust as required to be disclosed in the reports EuroTrust files or submits under the Exchange Act on a timely basis.

b) MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING. Not applicable for fiscal years ending before April 15, 2005.

c) ATTESTATION REPORT OF THE REGISTERED PUBLIC ACCOUNTING FIRM. Not applicable for fiscal years ending before April 15, 2005.

d) CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING. There were no changes in EuroTrust's internal controls over financial reporting, known to the chief executive officer or the chief financial officer, that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, EuroTrust's internal control over financial reporting. However, in connection with their audit of our consolidated financial statements for 2002 included in our Annual Report on Form 20-F for the year ended December 31, 2002, KPMG expressed to us that they believe that a lack of U.S. GAAP technical accounting and financial reporting expertise represents a material weakness in the operation of our internal control over financial reporting and that this was demonstrated by, amongst other things EuroTrust making a number of adjustments and/or reclassifications from numbers previously reported. They recommended that EuroTrust obtain additional personnel who have significant expertise in external financial reporting and disclosure matters applicable to U.S. SEC Registrants. We believe that this concern was properly addressed in 2003 and our current independent auditors have not expressed any such concerns.

ITEM 16 A. AUDIT COMMITTEE FINANCIAL EXPERT

The Board has determined that, Mr. John Stuart, is an "audit committee financial expert," as that term is defined in Item 401(h) of Regulation S-K, and "independent" for purposes of current and recently-adopted Nasdaq listing standards and Section 10A(m) (3) of the Securities Exchange Act of 1934.

ITEM 16 B. CODE OF ETHICS

We have adopted a code of conduct that applies to our principal executive officer, principal financial officer and other persons performing similar functions, as well as all of our other employees and directors. This code of conduct is posted on our website at [WWW.EUROTRUST.DK](http://WWW.EUROTRUST.DK) and is filed as Exhibit 11.1 to this report.

ITEM 16 C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

## Edgar Filing: EUROTRUST A/S - Form 20-F

### AUDIT FEES

For the fiscal years ended 2002 and 2003, our principal accounting firm, Gregory & Eldredge, LLC, billed aggregate fees of approximately \$50,000 and 100,000, respectively for the audit of our 2002 and 2003 financial statements.

### AUDIT-RELATED FEES

None.

### TAX FEES

None.

### ALL OTHER FEES

None.

### AUDIT COMMITTEE PRE-APPROVAL POLICIES AND PROCEDURES

The Audit Committee charter provides that the Audit Committee will pre-approve audit services and non-audit services to be provided by our independent auditors before the accountant is engaged to render these services other than the minimums non-audit services for which the pre-approval requirements are waived in accordance with the rules and regulations of the SEC. The Audit Committee may consult with management in the decision-making process, but may not delegate this authority to management. The Audit Committee may delegate its authority to pre-approve services to one or more committee members, provided that the designees present the pre-approvals to the full committee at the next committee meeting.

### INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Shareholders  
EuroTrust A/S AND SUBSIDIARIES

We have audited the accompanying consolidated balance sheets of EuroTrust A/S and Subsidiaries as of December 31, 2003 and 2002 and the related consolidated statements of operations, comprehensive income, shareholders' equity and cash flows for the years ended December 31, 2003 and 2002. The financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of EuroTrust A/S and Subsidiaries at December 31, 2003 and 2002 and the consolidated results of its operations and its cash flows for the year ended December 31, 2003 and 2002, in conformity with accounting principles generally accepted in the United States.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### DESCRIPTION OF BUSINESS

EuroTrust A/S and its subsidiaries ("the Company"), formerly euro909.com and earlier Telepartner A/S, and its subsidiaries engage in providing production and broadcasting services and Internet security products and services in Scandinavia and other European countries.

The Company is currently organized into two reportable service-based segments: A Production and Broadcasting Segment and an Internet Security Product and Services Segment. During 2001 the Company previously operated a print and online media segment.

#### PRODUCTION AND BROADCASTING SEGMENT

The Company's Production and Broadcasting Segment consists of a broadcast media property and it also operates the largest media production company in Scandinavia with a special focus on sports programming. The Company's media division also offers educational courses in television production. During the fourth quarter of 2001, we consolidated all of our television programming into a single television channel, dk4.

On December 31, 2003, the Company purchased the remaining 15% interest in Europe-Visions A/S. Europe-Visions A/S owns 75% of the outstanding shares of common stock of its subsidiary Mobile Broadcasting A/S. The minority interests' proportionate share of income or loss of Europe-Vision A/S and Mobile Broadcasting is included in the consolidated statement of operations.

#### INTERNET SECURITY PRODUCT AND SERVICE SEGMENT

The Company's Internet Security Product and Services Segment offers trusted Internet security products and services including virus detection, email security products, vulnerability testing, secure communications, on-site solutions, and payment platforms to website owners, commercial enterprises and electronic commerce service providers.

On April 1, 2004, the Company sold the secure communications, on-site solutions, and payment platforms to website owners, commercial enterprises and electronic commerce service providers business.

The Company provided secure remote backup services, digital video surveillance, secure hosting until the sale of these businesses in November 2003, December 2003 and January 1, 2004, respectively. The Company owned approximately 75% of its subsidiary EuroTrust Secure Hosting A/S until it's sale On January 1, 2004.

#### PRINT AND ONLINE MEDIA SEGMENT

Until the end of 2001, the Company operated a print and online media segment. In 2001 we made the strategic decision to focus primarily on providing broadcasting, trusted Internet infrastructure products and services. As a result, we sold our domain name registration business to VeriSign in July 2001, we sold

### REPORTING CURRENCY

The consolidated financial statements are stated in Danish Kroner ("DKK"), the currency of the country in which the Company and its major subsidiaries are incorporated and operate. Balance sheet accounts of foreign subsidiaries are translated into DKK at the year-end exchange rate and items in the statement of operations are translated at the average exchange rate. Resulting translation adjustments are charged or credited to a separate component of shareholders' equity.

Translation adjustments arising from inter-company financing of a long-term investment nature are accounted for similarly. Some transactions of the Company and its subsidiaries are made in currencies other than the functional currency. Gains and losses from these transactions are included in the income statement.

### INFORMATION EXPRESSED IN US DOLLARS

Translation of DKK amounts into US Dollar amounts is included solely for the convenience of the reader and has been made at the rate of 5.9576 DKK to one US Dollar, the approximate exchange rate at December 31, 2003. Such translation should not be construed as a representation that the DKK amounts could be converted into US Dollars at that or any other rate.

### USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used when accounting for items and matters such as the allowance for uncollectible accounts, inventory obsolescence, amortization, asset valuations, impairment assessments, taxes, guarantees and contingencies. Management bases its estimates on historical experience and on other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

### CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash and short-term deposits with maturities of less than three months at the time of purchase.

### RESTRICTED CASH

Restricted cash as of December 31, 2002, included an escrow account with respect to the remaining consideration for the Company's domain name registration business that was sold in June 2001 amounting to DKK 1,986.

### MARKETABLE SECURITIES - AVAILABLE FOR SALE

The Company accounts for investments in Marketable securities in accordance with Statement of Financial Accounting Standard (SFAS) 115, "Accounting for Certain Investments in Debt and Equity Securities". Under SFAS 115 the Company's investments in public companies are classified as "available-for-sale". These investments are carried at fair value based on quoted market prices. We review the marketable equity holdings in publicly traded companies on a regular basis to determine if any of the marketable securities have experienced an other-than-temporary decline in its fair value. We consider the investee company's cash position, earnings and revenue outlook, stock price performance over the past six months, liquidity and management, among other factors, when reviewing the marketable equity securities. If it is determined that an other-than-temporary decline in fair value exists in a marketable equity security, we record an investment loss in the consolidated statement of operations.

### LONG-TERM INVESTMENTS

Investments in non-public companies are included in long-term investments in the consolidated balance sheet and are accounted for under the cost method. For these non-quoted investments, we regularly review the assumptions underlying the operating performance and cash flow forecasts based on information requested from these privately held companies. Generally, this information may be more limited, may not be as timely as and may be less accurate than information available from publicly traded companies. Assessing each investment's carrying value requires significant judgment by management. If it is determined that there is an other-than-temporary decline in the fair value of a non-public equity security, we write-down the investment to its fair value and record the related write-down as an investment loss in the consolidated statement of operations.

### TRADE ACCOUNTS RECEIVABLE

Trade accounts receivable are recorded at the amount invoiced to customers and they do not bear interest. The allowance for doubtful accounts is the Company's best estimate of amount of probable losses resulting from the inability of our customers to make required payments. We regularly review the adequacy of our accounts receivable allowance after considering the size of the accounts receivable balance, each customer's expected ability to pay and our collection history with each customer. We review significant invoices that are past due to determine if an allowance is appropriate based on the risk category using the factors described above.

The following includes the changes in the allowance for doubtful accounts for the years ended December 31, 2001 to December 31, 2003:

The deductions for the year ended December 31, 2001 of DKK 1.8 million relate to the Print and Online Media Division and are included in discontinued operations as this business was sold in 2001.

### BROADCASTING RIGHTS

Broadcasting rights, which comprise of acquired rights to broadcast television programs on the Company's television stations, and the related liabilities are recorded at their gross value when the license period begins and the programs are available for use. These rights are expensed over the greater of when the program is aired or over the period of license. Program rights are classified as current or non-current based on anticipated usage in the following twelve month period.

### INVENTORIES

Inventories principally consist of 45,000 and 38,000 (not in thousands) IBM Tivoli licenses at December 31, 2002 and 2003, relating to our remote back-up business. Inventories are stated at the lower of cost or market with cost determined on the basis of the first-in, first-out method. In order to evaluate the designated market value of such assets the company investigates the available market for these products and their expected sales price. As of December 31, 2002 these licenses were written-down by DKK 21.7 million to DKK 0. During 2003, the Company recognized a DKK 3,367 reduction in cost of revenues for inventory credits given on the return of 7,000 IBM Tivoli licenses.

### PROPERTY, PLANT AND EQUIPMENT

Buildings, technical equipment, furniture and fixtures, automobiles and leasehold improvements are carried at cost less accumulated depreciation. Assets held under capital leases are recorded at the present value of minimum lease payments less accumulated depreciation. Land is carried at cost and is not depreciated.

Buildings are depreciated on a straight-line basis over 50 years. Technical equipment, furniture and fixtures and automobiles are depreciated on a straight-line basis over the expected useful lives of between three and ten

years. Leasehold improvements are amortized over the shorter of their expected lives, which is ten years or the non-cancelable term of the leases.

### GOODWILL AND OTHER DEFINITE LIFE INTANGIBLE ASSETS

Goodwill represents the excess of costs over the fair value of the identifiable net assets of businesses acquired. Other definite life intangibles assets consist of license rights to virus scanning software and other intangible assets. The Company fully adopted the provisions of SFAS No. 142,

F-14

### EUROTRUST A/S AND SUBSIDIARIES

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (DKK AND US\$ AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS AND WHERE OTHERWISE INDICATED)

GOODWILL AND OTHER INTANGIBLE ASSETS, as of January 1, 2002. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead are tested for impairment at least annually in accordance with the provisions of SFAS No. 142. Impairment losses arising from this impairment test, if any, are included in operating expenses in the period of impairment. SFAS No. 142 requires that definite intangible assets with estimable useful lives be amortized over their respective estimated useful lives, and reviewed for impairment in accordance with SFAS No. 144, Accounting for Impairment or Disposal of Long-Lived Assets.

Prior to the adoption of SFAS No. 142, goodwill was amortized on a straight-line basis over the expected periods to be benefited, generally five to ten years, and assessed for recoverability in accordance with APB Opinion 17 and SFAS No. 121 by determining whether the amortization of the goodwill balance over its remaining life could be recovered through undiscounted future operating cash flows of the acquired operation. All other intangible assets were amortized on a straight-line basis not exceeding 5 years. The amount of goodwill and other intangible asset impairment, if any, was measured based on projected discounted future operating cash flows using a discount rate reflecting our average cost of funds.

Had the provisions of SFAS No. 142 been in effect for 2001, the Company's results of operations would have been as follows:

IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS No. 144, long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in

## Edgar Filing: EUROTRUST A/S - Form 20-F

the market price of the asset; significant adverse changes in the business climate or legal factors; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed of significantly before the end of its estimated useful life.

Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and would no longer be depreciated.

The depreciable basis of assets that are impaired and continue in use is their respective fair values

### REVENUE RECOGNITION

The Company derives revenues from three primary categories: (i) Internet services, which include managed public key infrastructure ("PKI") services and digital certificate services, hosting, virus surveillance and detection services, and remote data backup services; (ii) broadcasting, which includes cable and digital television subscriber income and program production income; and (iii) until July 31, 2001, domain name registration services. The Company's revenue recognition policies are in accordance with SEC Staff Accounting Bulletin ("SAB") No. 104, "REVENUE RECOGNITION, unless otherwise noted below. The revenue recognition policy for each of these categories is as follows:

#### INTERNET SERVICES

The Company recognizes revenues from issuances of digital certificates and managed PKI services, virus surveillance and detection services, and remote data backup, when all of the following criteria are met: (1) persuasive evidence of an arrangement exists, (2) delivery of products and services has occurred, (3) the fee is fixed or determinable and (4) collectibility is reasonably

F-16

### EUROTRUST A/S AND SUBSIDIARIES

assured. We determine each of the criteria in our revenue recognition as follows:

PERSUASIVE EVIDENCE OF AN ARRANGEMENT EXISTS. We enter into written agreements with our customers, that are signed by both the customer and the Company, or other related documentation from those customers who have previously negotiated an arrangement.

DELIVERY OF PRODUCTS AND SERVICES HAS OCCURRED. Certificate and

## Edgar Filing: EUROTRUST A/S - Form 20-F

security technologies may be delivered physically or downloaded by the customer. Undelivered components of these technologies that are essential to the functionality of the products, if any are not recognized until delivery in full is complete.

THE FEE IS FIXED OR DETERMINABLE. Agreements with customers do not include a right to return. The majority of the initial fees are due within one year or less. Should there be arrangements with payment terms that extending beyond customary payment terms, the fees then are considered not to be fixed or determinable, and revenues from such arrangements are recognized as payments become due and realizable.

COLLECTIBILITY IS PROBABLE. Collectibility is assessed for each customer class of which there is a history of successful collection based upon a credit review. Initial determination that collectibility is not probable results in the revenues being recognized as cash is collected.

In software arrangements involving multiple elements, as required by the EITF Issue 00-21, "Revenue Arrangements with Multiple Deliverables" and American Institute of Certified Public Accountants Statement of Position ("SOP") 97-2, as amended by SOP 98-9, the Company allocates and defers revenue for the undelivered elements based on vendor-specific objective evidence, or VSOE, of the fair value of the undelivered elements, and recognizes the difference between the total arrangement fee and the amount deferred for the undelivered elements as revenue. VSOE of each element is based on the price for which the undelivered element is sold separately. If VSOE does not exist for undelivered elements such as maintenance services, then the entire arrangement fee is recognized over the performance period.

Fees from the sales of digital certificates and managed PKI services, which include bundled maintenance services that are not sold separately, are deferred and recognized ratably over the period that such contracted services are provided, usually 12 to 24 months.

Revenues from virus surveillance and detection services, which include bundled maintenance services that are not sold separately, are deferred and recognized rateably over the period that the service is provided, usually 3 to 36 months.

Up-front fees from hosting and remote data backup services are deferred and recognized ratably over the period that the services are provided, usually 3 to 12 months.

The Company's consulting and installation services relating to secure communication, virus protection and network security are not essential to the functionality of the software. These software products are fully functional upon delivery and do not require any significant modification or alteration. Revenues from consulting and installation services, which are provided on a time and materials basis, are recognized as the services are performed.

### DOMAIN NAME REGISTRATION

The Company sold its domain name registration business in 2001.

The Company recognized revenues from initial registration of domain names and subsequent renewal over the period the customer is provided access to the domain registry through its servers.

### BROADCASTING

The Company recognizes cable and digital television revenue on an accrual basis in accordance with the terms of the contracts entered into with cable and digital television providers, which are based on the number of subscribers for the Company's television channel and as programming is made available to viewers. Revenue and costs associated with program production are recognized when programs are completed and delivered to the broadcaster with no further obligation to customers.

### ADVERTISING COSTS

Advertising costs are expensed as incurred. Advertising expenses totalled DKK 3.2 million, DKK 4.0 million and DKK 3.9 million in 2001, 2002 and 2003, respectively.

### INCOME TAXES

The Company utilizes the asset and liability method to account for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and to operating loss carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records a valuation allowance to reduce deferred tax assets to an amount which realization is more likely than not.

### STOCK OPTIONS

At December 31, 2003, the Company has a number of stock options outstanding. We apply the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES", and related interpretations including FASB Interpretation No. 44, "ACCOUNTING FOR CERTAIN TRANSACTIONS INVOLVING STOCK COMPENSATION AN INTERPRETATION OF APB NO. 25" issued in March 2000, to account for our fixed plan stock options.

Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. SFAS No. 123 "ACCOUNTING FOR STOCK-BASED COMPENSATION," established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. As allowed by SFAS No. 123, we

## Edgar Filing: EUROTRUST A/S - Form 20-F

have elected to continue to apply the intrinsic value-based method of accounting described above, and have adopted the disclosure requirements of SFAS No. 123. The following table (in DKK) illustrates the effect on net loss and net loss per share if we had applied the fair value recognition provisions of SFAS No. 123, "ACCOUNTING FOR STOCK-BASED COMPENSATION," to stock-based employee compensation under which the estimated fair value of the options would have been over the options' vesting periods:

	2001	2002	2003

### CONCENTRATION OF CREDIT RISK

Cash and cash equivalents are, for the most part, maintained with several major financial institutions in Scandinavia. These balances are insured up to DKK 300 per account.

The Company has a large number of small customers located throughout Scandinavia, and, to a limited extent, in certain Western European countries, and does not require collateral from its customers. The company has one large customer in the broadcasting segment which alone accounts for 23%, 28% and 25% of the company's consolidated revenue for 2001, 2002, and 2003, respectively.

OTHER INCOME (EXPENSES), NET

Other income (expenses), net of DKK 693 in 2003 mainly relates to cancellation of written options issued in connection with business acquisitions and provision for losses on an arbitration case.

Other income (expenses), net of DKK (8,618) in 2002 mainly relates to changes in the fair values of written options issued in connection with business acquisitions.

As of December 31, 2002 Medani A/S exercised the written put option issued at the time of the Company's purchase of an 85% equity interest in EuroTrust NetVaulting A/S to sell its remaining equity interest of 15% in EuroTrust NetVaulting A/S to the Company. The Company recorded a loss of DKK 4,498 with regard to this option which is included within other (expenses) income, net in the consolidated statement of operations for the year ended December 31, 2002.

The Company has issued a written put option to buy a 25% interest in EuroTrust Secure Hosting A/S in 2004 at a price based on the future profitability of EuroTrust Secure Hosting A/S or for a minimum of DKK 2,500. In addition, the Company has issued a written call option to sell an additional 10% of EuroTrust Secure Hosting A/S for DKK 50. These options have been included as a liability in the financial statements at their respective fair values, resulting in an expense of DKK 2,287 in 2002 which is included within other income (expenses), net in the consolidated statement of operations for the year ended December 31, 2002.

PENSIONS AND OTHER POST-RETIREMENT AND POST-EMPLOYMENT BENEFITS

The Company contributes to insurance companies for defined contribution pension benefits agreements between employees and insurance companies. The Company's contributions are expensed as incurred. The Company has no future liabilities related to pensions beyond their contribution.

Other than the pension benefits described above, the Company does not provide its employees with post-retirement and post-employment benefits.

RECLASSIFICATIONS

Certain balances in the financial statements for December 31, 2001 and 2002 have been reclassified to conform to the headings and classifications used in the December 31, 2003 financial statements

RECENTLY ISSUED ACCOUNTING STANDARDS

In November 2002, the Emerging Issues Task Force issued its consensus on EITF Issue No. 00-21, Revenue Arrangements with Multiple Deliverables ("EITF Issue No. 00-21") on an approach to determine whether an entity should divide an arrangement with multiple deliverables into separate

## Edgar Filing: EUOTRUST A/S - Form 20-F

units of accounting. According to the EITF, in an arrangement with multiple deliverables, the delivered item(s) should be considered a separate unit of accounting if all of the following criteria are met: (1) the delivered item(s) has value to the customer on a standalone basis, (2) there is objective and reliable evidence of the fair value of the undelivered item(s), and (3) if the arrangement includes a general right

F-20

### EUOTRUST A/S AND SUBSIDIARIES

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (DKK AND US\$ AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS AND WHERE OTHERWISE INDICATED)

of return, delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the vendor. If all the conditions above are met and there is objective and reliable evidence of fair value for all units of accounting in an arrangement, the arrangement consideration should be allocated to the separate units of accounting based on their relative fair values. The guidance in this Issue is effective for revenue arrangements entered into in fiscal periods beginning after June 15, 2003. The adoption of this statement did not have a material effect on EuroTrust's financial statements.

In December 2003, the SEC issued Staff Accounting Bulletin ("SAB") No. 104 "REVENUE RECOGNITION" which codifies, revises and rescinds certain sections of SAB No. 101, "REVENUE RECOGNITION", in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The changes noted in SAB No. 104 did not have a material effect on EuroTrust consolidated financial position, results of operations or cash flows.

In January 2003, the FASB issued Interpretation No. 46, "CONSOLIDATION OF VARIABLE INTEREST ENTITIES, AN INTERPRETATION OF ACCOUNTING RESEARCH BULLETIN ("ARB") NO. 51." In December 2003, the FASB issued a revision to Interpretation No. 46, and interpretation of ARB Opinion No. 51 ("FIN 46R"). FIN 46R clarifies the application of ARB 51 "CONSOLIDATED FINANCIAL STATEMENTS," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders. FIN 46R requires the consolidation of these entities, known as variable interest entities ("VIE's"), by the primary beneficiary of the entity. The primary beneficiary is the entity, if any, that will absorb a majority of the entity's expected losses, receive a majority of the entity's expected residual returns, or both.

Among other changes, the revisions of FIN 46R (a) clarified some requirements of the original FIN 46, which had been issued in January 2003, (b) eased some implementation problems, and (c) added new scope exceptions. FIN 46R deferred the effective date of the interpretation for public companies to the end of the first reporting period ending after March 15, 2004, except that all public companies must at a minimum apply the unmodified provisions of the interpretation to entities that were previously considered "special-purpose entities" in practice and under the FASB literature prior to the issuance of FIN 46R by the end of the first reporting period ending after December 15, 2003.

Among the scope expectations, companies are not required to apply FIN 46R

## Edgar Filing: EUROTRUST A/S - Form 20-F

to an entity that meets the criteria to be considered a "business" as defined in the interpretation unless one or more of four named conditions exist. FIN 46R applies immediately to a VIE created or acquired after January 31, 2003. EuroTrust does not have any interests in VIE's and the adoption of FIN 46R did not have a material impact on EuroTrust financial position, results of operations or cash flows.

In April, 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", which amends SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," to address (1) decisions reached by the Derivatives Implementation Group, (2) developments in other Board projects that address financial instruments, and (3) implementation issues related to the definition of a derivative. SFAS No. 149 has multiple effective date provisions depending on the nature of the amendment to SFAS No. 133. The adoption of this statement did not have a material effect on EuroTrust's financial statements.

#### TRUST ITALIA SpA

On November 30, 2000, the Company acquired 20% of the ordinary shares of Trust Italia SpA., an Italian digital security company. This amounted to the acquisition of 325,000 shares. The consideration comprised 750,000 ordinary shares of stock valued at DKK 11,788.

During 2001, the agreement for the acquisition was amended, following investment in TrustItalia SpA by other parties, resulting in an ownership in TrustItalia of 15.7% (242,000 shares) and an additional cash consideration of DKK 4,265.

Of the total shares acquired, 150,600 shares in Trust Italia SpA were purchased from Ben Rispoli who owned 9.8% of the shares of Trust Italia SpA. These shares were purchased in return for 559,155 shares in EuroTrust.

On March 7, 2002 the Company granted a note payable totaling DKK 1,250, to Mr Rispoli who has since provided the Company's 559,155 shares he subsequently acquired from the above transaction as collateral.

The carrying value in the consolidated balance sheet of the loan to Mr. Rispoli as of December 31, 2002 was DKK 750 net of a provision for possible non-repayment of DKK 500.

The note payable has been paid in full to Mr. Rispoli during 2003.

The remaining goodwill as of December 31, 2002 and 2003 relates to the Company's Broadcast Media segment.

On December 31, 2003, EuroTrust A/S purchased the remaining 15% of Europe-Visions A/S (formerly Euro909Media A/S), from Parken Sport & Entertainment thereby becoming the 100% owner of Europe-Visions A/S. The purchase price exceeded the fair market value of net assets acquired by approximately DKK 2,977, which was recorded as goodwill.

During the fourth quarter of 2002 and 2003, the Company performed the annual impairment test and recorded an impairment charge of DKK 65.3 million and 0, respectively.,

Fair value was estimated for each reporting unit, within EuroTrust, using the expected present value of discounted future cash flows the unit is expected to generate over its remaining life. When making these estimates, we were required to make estimates of future operating trends and judgments on discount rates and other variables. Actual future results and other assumed variables could differ from these estimates. The discount rates used ranged from 14 to 16 percent and the terminal values were estimated based on terminal growth rates of 2 percent. The assumptions supporting the estimated future cash flows, including the discount rate and estimated terminal values, reflect management's best estimates.

#### ALPHASYS SAS

As of January 2002, the Company acquired 100% of the French IT-security company Alphasys SAS, for a cash consideration of DKK 40.2 million. This

## Edgar Filing: EUROTRUST A/S - Form 20-F

consideration was subsequently reduced by DKK 5,057 after a loss guarantee was negotiated and a refund paid by the vendor of Alphasys SAS in June 2002.

Alphasys was purchased from Synerco ApS, a Danish company, also known as Venture 2000. Peter Forchhammer is a majority shareholder of Synerco ApS and was one of the original founders of EuroTrust in 1985 and is currently a shareholder in EuroTrust.

The total purchase price has been allocated to the assets acquired and the liabilities assumed on the acquisition date. In the provisional purchase price allocation goodwill of DKK 33.2 million was recorded in connection with this acquisition, which forms part of The Company's Internet Security Product and Services Segment. The results of these operations have been consolidated in the Company's financial statements since January 21, 2002.

As of December 31, 2002, following an assessment of the current and future performance of the Alphasys business, we tested the goodwill arising on this acquisition for impairment. As a result of this test we wrote down the carrying value of the goodwill from DKK 33.2 million to zero. The tangible fixed assets acquired were also written down to zero as a result of this impairment test.

### EUROTRUST NETVAULTING A/S (FORMERLY WISEHOUSE A/S)

As of December 31, 2002 Medani A/S exercised the written option issued at the time of the Company's purchase of an 85% equity interest in EuroTrust NetVaulting A/S to sell its remaining equity interest of 15% in EuroTrust NetVaulting A/S to the company. The consideration comprised 134,083 ADR's, valued at DKK 5,000. The share purchase was made in accordance with the terms of a shareholder agreement with the minority shareholder Medani A/S. The EuroTrust ADR's issued to Medani A/S in this transaction were purchased from a shareholder who had purchased the shares in the market, at the request of the Company, during the period August 2002 to November 2002. The shares were sold to the Company at the same price that the shareholder had paid in the market with an additional 1% to cover transaction costs. The shareholder has been working as a consultant to EuroTrust NetVaulting A/S.

The Company experienced a loss of DKK 4,923 with regard to this option which is included within other (expenses) income in the consolidated statement of operations as of December 31, 2002. The difference between the actual purchase price for the ADR's of DKK 4,575 and the fair value of the option of DKK 5,000 has been included within other (expenses) income, net in the consolidated statement of operations as a gain amounting to DKK 425.

### ACQUISITIONS DURING 2001

#### EUROTRUST NETVAULTING A/S (FORMERLY WISEHOUSE A/S)

As of August 31, 2001, the Company acquired 85% of the Danish remote back-up company, EuroTrust NetVaulting A/S, for a cash consideration of DKK 25 million. In addition, 1,000,000 stock options with an exercise price of USD 1.25 were also part of the consideration. The options vest based on the profitability of EuroTrust NetVaulting in 2002 and 2003. These options have not vested in 2002. The stock options expire as of September 1, 2004. The purchase price exceeded the fair market value of net assets acquired by approximately DKK 6.3 million, which was recorded as goodwill. The results of these operations have been consolidated from August 31, 2001. The goodwill arising on this acquisition has been fully written off during 2002.

As part of the shareholder agreement signed on August 29, 2001, Medani A/S received an option to sell at any time within two years after the signature of the shareholder agreement its 15% interest in EuroTrust NetVaulting A/S to the Company for a price of DKK 5,000, to be paid in a variable number of EuroTrust A/S shares, based on the fair value of such shares subject to a cap of US\$2.00 per share. In addition, EuroTrust received an option to purchase Medani A/S's remaining 15% interest within two years after the signature of the shareholder agreement, again for a fixed price of DKK 5,000 to be paid in EuroTrust A/S shares according to the same formula.

The total purchase price has been allocated to the assets acquired and the liabilities assumed based on their respective fair values on the acquisition date.

The recognized tax assets as of December 2002 and 2003 are related to temporary differences between the book and fiscal values of fixed assets in the profitable broadcasting segment and for the company EuroTrust Secure Hosting A/S.

The Company assessed the realization of the deferred tax assets based on available evidence, both positive and negative, to determine whether it is more likely than not that all or a portion of the deferred tax assets will be

## Edgar Filing: EUROTRUST A/S - Form 20-F

realized. The conclusion as to whether it is more likely than not that some portion of these assets will not be realized takes into consideration the following factors, among others:

- o Future earnings potential determined through the use of internal forecasts
- o The carry forward period associated with the deferred tax assets and
- o The nature of the income that can be used to realize the deferred tax assets

To the extent that the Company determines it is more likely than not that all or a portion of the deferred tax assets will not be realized, a valuation allowance is recorded.

The tax loss carry-forwards available at December 31, 2003 and their expiration years are as follows (in DKK):

### EUROTRUST A/S AND SUBSIDIARIES

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (DKK AND US\$ AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS AND WHERE OTHERWISE INDICATED)

In 2001 the Company issued a total of 248 common shares as partial consideration for a newly acquired businesses.

During 2003 the Company issued 4,550, common shares for 6,290 DKK received upon the exercise of stock options.

#### 16. EARNINGS PER SHARE

Basic net (loss) income per share is computed by dividing net (loss) income (numerator) by the weighted-average number of shares of common stock outstanding during the period (denominator). Diluted net (loss) income per share gives effect to stock options considered to be potential common shares, if dilutive. Potential common shares consist of shares issuable upon the exercise of stock options computed using the treasury stock method.

The following table presents the computation of basic and diluted average common shares outstanding:

	YEAR ENDED DECEMBER 31,		
	2001	2002	2003
Determination of basic and diluted shares:			
Weighted-average shares outstanding			
Potential common shares--dilutive stock options			
Basic and diluted average common shares outstanding			

In 2003, the Company excluded 816 weighted-average common share equivalents with a weighted-average share price of \$0.23 and in 2002, the Company excluded 83 weighted-average common share equivalents with a weighted-average share price of \$0.84 from the potential common shares because their effect would have been anti-dilutive. Weighted-average common share equivalents do not include stock options with an exercise price that exceeded the average fair market value of the Company's common stock for the period.

Subsequent to the year ended December 31, 2003 the Company, repurchased 2,748,720 of its ordinary shares in connection with the sale of assets of PKI to VeriSign. See Note 24.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (DKK AND US\$ AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS AND WHERE OTHERWISE INDICATED)

The Company issues product guarantees in accordance with Danish law, normally covering the subscription period of services provided to customers. The Company has not incurred any costs in fulfilling these guarantees and the Company estimated a liability of \$0 for the cost of such guarantees as of December 31, 2002 and 2003.

### 22. LITIGATION

The Company has recorded a provision of DKK 1,000 for expenses relating to an arbitration court regarding the construction of our building located here in Soeborg. The constructor claims bills for extra work performed and EuroTrust claim compensation due to insufficient work performed by the constructor. The result of the arbitration court was a net payment to the constructor of approx. DKK 1,000.

### 23. SEGMENT REPORTING

The Company's Chief Operating Decision-maker, as defined in SFAS No. 131, is considered to be Aldo Pedersen, EuroTrust's CEO. The Chief Operating Decision-maker reviews separate consolidated financial information for the Internet services business segment, the broadcast media business segment and prior to 2002 other segments. Each of the Company's business segments are managed separately because they offer and distribute distinct services to different customer segments. The Company therefore considers that it has three reportable segments under SFAS 131 (i) Internet services, (ii) broadcast media and (iii) other. The print and online media segment was disposed of in December 2001 and is, therefore, treated as a discontinued operation.

The Chief Operating Decision-maker evaluates performance and allocates resources based on profit or loss from operations before interest, gains and losses on the Company's investment portfolio, and income taxes. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. It is the Company's policy that trade between the segments is entered into on an arms-length basis.

24. SUBSEQUENT EVENTS

In January 2004, the Company sold its hosting subsidiary, EuroTrust Secure Hosting A/S, to Mondo A/S. The consideration we received includes a 3-years royalty agreement on future sales generated from our transferred customer base. The agreement includes a minimum amount of DKK 7.1 million over the 3-years period.

In March 2004, the Company through its wholly owned subsidiary, Europe-Vision, entered into a new 3 year agreement to have TDC Kabel TV A/S continue to televise our dk4 channel. The agreement extends the 10 year relationship between the two companies and means that TDC Kabel TV will continue through dk4 to provide local content, movies, sports, political coverage and cultural programming to its subscribers.

On April 1, 2004, the Company sold the Secure Socket Layer certificate assets of EuroTrust PKI to VeriSign. EuroTrust PKI, a wholly-owned subsidiary of the Company, is the operation through which the Company sells Public Key Infrastructure (PKI) Services, including VeriSign's SSL certificates and related services in Austria, Switzerland, Finland, Norway, Sweden and Denmark. Under the terms of the agreement, VeriSign will pay the Company \$8.5 million U.S. in cash and assume the ongoing obligations of EuroTrust PKI SSL contracts.

Simultaneously with the closing of the transaction to sell the assets of EuroTrust PKI to VeriSign, the Company repurchased 2,749 of its ordinary shares (equivalent to 458 American Depository Receipts or "ADRs") from VeriSign for \$1,136 U.S. The repurchase was authorized by the Company's shareholders.
