Amazonica, Corp.

(A Development Stage Company)

Notes to Financial Statements

April 30, 2014

NOTE 1 NATURE OF OPERATIONS

Amazonica, Corp. (the "Company") was incorporated in the State of Nevada on June 2, 2010, and its year-end is April 30. The Company is in the development stage with no revenues and limited operating history.

On August 30, 2013, there was a complete change in management and as a result the Company has discontinued the distribution of Brazilian hardwood flooring and is now concentrating on the evolution of technologies related to the manufacture, research and development related to the production of pure hydrogen. The ultimate goal is the full commercialization of the results of these efforts.

On October 16, 2013, the Company submitted to the State of Nevada documentation registering that the Company was now doing business as (d.b.a.) Euro-American Hydrogen Corp.

NOTE 2 GOING CONCERN

These financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred a loss since inception resulting in an accumulated deficit of $(355,412) as at April 30, 2014 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or obtaining the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand, loans from directors and/or private placement of common stock.

There is no guarantee that the Company will be able to raise any capital through any type of offering.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Development Stage Company

The Company is a development stage company as defined by Section 915-10-20 of the FASB Accounting Standards Codification. Although the Company has recognized a nominal amount of revenue from inception, it is still devoting substantially all of its efforts on establishing the business and its planned principal operations have not fully commenced.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. The Company had $13,454 in cash and $0 cash equivalents as of April 30, 2014.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period.

24

Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable in relation to the financial statements taken as a whole under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Management regularly evaluates the key factors and assumptions used to develop the estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such evaluations, if deemed appropriate, those estimates are adjusted accordingly.

Actual results could differ from those estimates.

Income Taxes

The Company follows Section 740-10-30 of the FASB Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Operations in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification (“Section 740-10-25”). Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements.

Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Basic and Diluted Loss per Share

The Company computes loss per share in accordance with “ASC-260”, “Earnings per Share” which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

The Company has no potential dilutive instruments and accordingly basic loss and diluted loss per share are equal.

Property and Equipment

Property and equipment are stated at cost. Major repairs and betterments are capitalized and normal maintenance and repairs are charged to expense as incurred. Depreciation is computed by the straight-line method over the estimated useful lives of the related assets. Upon retirement or sale of an asset, the cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations.

Fiscal Periods

The Company's fiscal year end is April 30.

Recent Accounting Pronouncements

Management has reviewed all the recent accounting pronouncements issued to date of the issuance of these financial statements, and we do not believe any of these pronouncements will have a material impact on the company.

Item 9A. Controls and Procedures

Evaluation of disclosure controls and procedures.

We maintain controls and procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management including our principal executive and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. Based upon their evaluation of those controls and procedures performed as of the end of the period covered by this report, our principal executive and principal financial officer concluded that our disclosure controls and procedures were effective.

***Management's annual report on internal control over financial reporting*.**

Michael Soursos, our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, our principal executive and principal financial officer and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of management and our directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, our internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our Chief Executive and Chief Financial Officer assessed the effectiveness of our internal control over financial reporting as of April 30, 2014. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in *Internal Control — Integrated Framework.*

Based on our assessment, our Chief Executive and Chief Financial Officer believes that, as of April 30, 2014, our internal control over financial reporting is effective based on those criteria.

Accordingly, management believes, based on its knowledge, that (1) this report does not contain any untrue statement of a material fact or omit to state a material face necessary to make the statements made not misleading with respect to the period covered by this report, and (2) the financial statements, and other financial information included in this report, fairly present in all material respects our financial condition, results of operations and cash flows for the years and periods then ended.

This report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to rules of the SEC that permit us to provide only management's report in this report.

From April 2004 to June 2006, he was President of a private research and development laboratory located in Athens, Greece.

Mr. Soursos was chosen to be our director due to his background in technology, venture capital, investor relations and corporate governance.

There have been no transactions between the Company and Mr. Soursos since the Company’s last fiscal year which would be required to be reported herein. Mr. Soursos is not an officer or director of any other reporting issuers.

Involvement in Legal Proceedings.

There are no orders, judgments, or decrees of any governmental agency or administrator, or of any court of competent jurisdiction, revoking or suspending for cause any license, permit or other authority to engage in the securities business or in the sale of a particular security or temporarily or permanently restraining any of our officers or directors from engaging in or continuing any conduct, practice or employment in connection with the purchase or sale of securities, or convicting such person of any felony or misdemeanor involving a security, or any aspect of the securities business or of theft or of any felony. Section 16(a) Beneficial Ownership Reporting Compliance.

The following table sets forth the ownership, as of October 30, 2013, of our common stock by each of our directors, by all of our executive officers and directors as a group and by each person known to us who is the beneficial owner of more than 5% of any class of our securities. As of October 30, 2013, there were 214,000,000 shares of our common stock issued and outstanding. All persons named have sole or shared voting and investment control with respect to the shares, except as otherwise noted. The number of shares described below includes shares which the beneficial owner described has the right to acquire within 60 days of the state above.

None of our officers, directors, and principal shareholders have filed all reports required to be filed on, respectively, a Form 3 (Initial Statement of Beneficial Ownership of Securities), a Form 4 (Statement of Changes of Beneficial Ownership of Securities), or a Form 5 (Annual Statement of Beneficial Ownership of Securities).

Board Committees.

Our Board of Directors does not currently have a compensation committee or nominating and corporate governance committee because, due to the Board of Director's composition and our relatively limited operations, the Board of Directors is able to effectively manage the issues normally considered by such committees. Our Board of Directors may undertake a review of the need for these committees in the future.

Audit Committee and Financial Expert.

We do not have an audit committee financial expert because we believe the cost related to retaining a financial expert at this time is prohibitive. Further, because we have no operations, at the present time, we believe the services of a financial expert are not warranted.

Code of Ethics.

We do not have a code of ethics.

The following table lists, as of August 7, 2014, the number of shares of common stock of our Company that are beneficially owned by (i) each person or entity known to our Company to be the beneficial owner of more than 5% of the outstanding common stock; (ii) each officer and director of our Company; and (iii) all officers and directors as a group. Item 13. Certain Relationships and Related Transactions and Director Independence.

As of the date of this report, we have no independent directors or related transactions.

Director independence

As of the date of this Report, we have no independent directors.

The Company has developed the following categorical standards for determining the materiality of relationships that the Directors may have with the Company. A Director shall not be deemed to have a material relationship with the Company that impairs the Director's independence as a result of any of the following relationships:

1. the Director is an officer or other person holding a salaried position of an entity (other than a principal, equity partner or member of such entity) that provides professional services to the Company and the amount of all payments from the Company to such entity during the most recently completed fiscal year was less than two percent of such entity’s consolidated gross revenues;
2. the Director is the beneficial owner of less than five (5%) per cent of the outstanding equity interests of an entity that does business with the Company;
3. the Director is an executive officer of a civic, charitable or cultural institution that received less than the greater of one million ($1,000,000) dollars or two (2%) per cent of its consolidated gross revenues, as such term is construed by the New York Stock Exchange for purposes of Section 303A.02(b)(v) of the Corporate Governance Standards, from the Company or any of its subsidiaries for each of the last three (3) fiscal years;
4. the Director is an officer of an entity that is indebted to the Company, or to which the Company is indebted, and the total amount of either the Company's or the business entity's indebtedness is less than three (3%) per cent of the total consolidated assets of such entity as of the end of the previous fiscal year; and
5. the Director obtained products or services from the Company on terms generally available to customers of the Company for such products or services. The Board retains the sole right to interpret and apply the foregoing standards in determining the materiality of any relationship.

The Board shall undertake an annual review of the independence of all non-management Directors. To enable the Board to evaluate each non-management Director, in advance of the meeting at which the review occurs, each non-management Director shall provide the Board with full information regarding the Director’s business and other relationships with the Company, its affiliates and senior management.

Directors must inform the Board whenever there are any material changes in their circumstances or relationships that could affect their independence, including all business relationships between a Director and the Company, its affiliates, or members of senior management, whether or not such business relationships would be deemed not to be material under any of the categorical standards set forth above. Following the receipt of such information, the Board shall re-evaluate the Director's independence.
