Change in Investment Manager

Following approval at a meeting of shareholders held March 14, 2018, Aberdeen Asset Managers Limited (“AAML”) and Aberdeen Asset Management Inc. (“AAMI”), each part of Aberdeen Standard Investments (“ASI”), assumed responsibility as investment adviser and sub-adviser of the Fund, respectively, following close of business on May 4, 2018.

Aberdeen Asset Management PLC, the parent company of AAML, is an independent asset manager founded in 1983 and is a subsidiary of Standard Life Aberdeen plc. Standard Life Aberdeen plc and its affiliates offer a comprehensive range of investment capabilities, and overall manage worldwide assets of with \$735.5 billion as of June 30, 2018, on behalf of clients in 80 countries. Closed-end investment management companies have formed

part of Aberdeen’s business since its inception and remain an important element of its client base in the United States and globally.

In North America, ASI currently serves as the investment adviser of ten U.S. closed-end funds, one Canadian closed-end fund and serves as the sub-advisor to two U.S. closed-end funds representing over \$4.6 billion in assets as of October 31, 2018.

The day-to-day management of the Fund is the responsibility of ASI’s Global Real Estate team. The team works in a collaborative fashion, with all team members having both portfolio management and research responsibilities. The team members having the most significant responsibility for the day-to-day management of the Fund’s portfolio includes: Svitlana Gubriy and Bruce Ebnother. In May 2018, ASI welcomed a new colleague from Alpine Woods, the former investment adviser, to join the team. Mr. Ebnother who has managed the Fund since 2011.

Change of Legal Entity Name

The Fund’s name was changed effective May 7, 2018 in order to identify the Fund with the new investment adviser and to differentiate the Fund in a competitive market with many known brands. The Fund’s investment policies and strategy and New York Stock Exchange (“NYSE”) ticker symbol, AWP, remained unchanged.

New Board Members

Effective with the transition to a new investment adviser, the Fund’s Board consists of four new Trustees: P. Gerald Malone (Chairman), Martin Gilbert, Nancy Yao Maasbach and John Sievwright.

Portfolio Holdings Disclosure

The Fund's complete schedule of portfolio holdings for the second and fourth quarters of each fiscal year are included in the Fund's semi-annual and annual report to shareholders. The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (the "SEC") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q filings are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information about the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund makes the information on Form N-Q available to shareholders on the Fund's website or upon request and without charge by calling Investor Relations toll-free at 1-800-522-5465.

Open Market Repurchase Program

On June 13, 2018, the Board approved a share repurchase program ("Program") for the Fund. The Program allows the Fund to purchase, in the open market, its outstanding common shares, with the amount and timing of any repurchase determined at the discretion of the Fund's investment adviser and subject to market conditions and investment considerations. The Fund reports repurchase activity on the Fund's website on a monthly

basis. For the fiscal year ended October 31, 2018, the Fund did not repurchase any shares through the Program.

Proxy Voting

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve months ended June 30 is available by August 31 of the relevant year: (i) upon request without charge by calling Investor Relations toll-free at 1-800-522-5465; and (ii) on the SEC's website at <http://www.sec.gov>.

Brexit

The ongoing negotiations surrounding the UK's exit from the EU ("Brexit") have yet to provide clarity on what the outcome will be for the UK or Europe. The UK remains a member of the EU until the legally established departure date of March 29, 2019 and, until such date, all existing EU-derived laws and regulations continue to apply in the UK. Those laws may continue to apply for a transitional period, depending on whether a deal is struck and, if so, what that deal is. In any event, the UK's on-shoring of EU legislation currently envisages no policy changes to EU law. However, the EU has not yet provided any material cushion from the effects of Brexit for financial services as a matter of EU law. Whether or not a Fund invests in securities of issuers located in Europe (whether the EU, Eurozone or UK) or with significant exposure to European, EU, Eurozone or UK issuers or countries, the unavoidable uncertainties and events related to Brexit could negatively affect the value and liquidity of the Fund's investments, increase taxes and costs of business and cause volatility in currency exchange rates and interest rates. Brexit could adversely affect the performance of contracts in existence at the date of Brexit and European, UK or worldwide political, regulatory, economic or market conditions and could contribute to instability in political institutions, regulatory agencies and financial markets. Brexit could also lead to legal uncertainty and politically divergent national laws and regulations as a new relationship between the UK and EU is defined and the UK determines which EU laws to replace or replicate. Any of these effects of Brexit, and others that cannot be anticipated, could adversely affect the Fund's business, results of operations and financial condition. In addition, the risk that Standard Life Aberdeen plc, the parent of the companies that provide investment advisory and administration services to the Fund and which is headquartered in the UK, fails to adequately prepare for Brexit could have significant customer, reputation and capital impacts for Standard Life Aberdeen plc and

its subsidiaries, including those providing services to the Fund; however, we have detailed contingency planning in place to seek to manage the consequences of Brexit on the Fund and to avoid any disruption on the Fund and to the services we provide. Given the fluidity and complexity of the situation, however, we cannot assure that the Fund will not be adversely impacted despite our preparations.

Report of the Investment Adviser (unaudited)

On May 4, 2018, Aberdeen Asset Managers Limited (the “Adviser”) became the investment adviser of the Fund and Aberdeen Asset Management Inc. (“Sub-Adviser”) became the Fund’s sub-adviser. Prior to that, the Fund was managed by a different investment adviser. The commentary for the period ended May 4, 2018 (the “Predecessor Period”) reflects the performance under the former adviser. Commentary for the period of May 5 to October 31, 2018 (the “Adviser Period”) reflects Fund performance under the Adviser and Sub-Adviser.

Market/economic review

Global real estate equities markets were challenging during the 12-month period ended October 31, 2018. While the Financial Times Stock Exchange European Public Real Estate Association/National Association of Real Estate Investment Trusts (FTSE EPRA/NAREIT) Global Real Estate Index ended the period with a modest negative return, this result masked considerable dispersion among country-level returns. The performance of real estate markets in developed countries was modestly positive, while emerging markets generally posted negative returns for the reporting period. In the U.S., steady economic expansion and supportive property market fundamentals produced positive real estate investment (REIT) returns. In developed non-U.S. markets, Europe was negatively impacted by diminishing economic momentum and signs of strengthening inflation. Retail landlords globally also suffered ongoing weakness due to structural concerns from internet retailers. Emerging markets real estate companies were hurt by U.S. dollar appreciation and rising interest rates. In addition, political uncertainty in key markets such as Mexico and Brazil and the ongoing trade dispute between China and the U.S. were headwinds for performance.

Fund performance review

The Fund returned -6.0%¹ on a net asset value basis for the 12-month period ended October 31, 2018, underperforming the -0.7% return of its primary benchmark, the FTSE EPRA/NAREIT Global Real Estate Index.

During the period of November 1, 2017 through May 4, 2018, the most significant detractor from the Fund’s performance relative to its benchmark, the FTSE EPRA/NAREIT Global ex US Index, was an allocation to the U.S., which is not represented in the benchmark. The Fund’s exposure to the U.S. market was concentrated in homebuilders and data-center REITs. In the UK, both the Fund’s underweight positioning and poor stock selection weighed on relative performance. Stock selection in Germany also was a detractor, particularly the Fund’s holdings in two real estate asset management firms. The most significant individual stock detractor from the Fund’s relative performance for the Predecessor period was Emaar Properties PJSC in the United Arab Emirates. The property developer’s share price declined due to both a weakening operating environment in general and, specifically, a spin-off of the company’s development business in the fourth quarter of 2017 at a lower valuation than the market generally had expected. We subsequently exited the Fund’s position in the company. The Fund’s holding in U.S.-based data-center REIT QTS Realty Trust Inc.

was also a notable detractor from relative performance. Investors took a negative view of the unexpected news of the company’s strategic shift in its business toward hyperscale data centers and a reshuffling of top sales and operations

management personnel just several months after its investor day in November 2017.

At the country level, the Fund's overweight exposure to Japan, particularly real estate developers, was the largest contributor to relative performance versus the benchmark over the Predecessor period. Shares of Japanese developers posted gains on the back of a resilient office-leasing sector, where preleasing of a new round of office towers being delivered in 2018 and 2019 remained strong and Class A² vacancy rates dipped below 2%. The Fund's exposure to Ireland, where its largest position, Dalata Hotel Group (Dalata), performed well, also bolstered relative performance. The largest contributor to the Fund's relative performance among individual holdings was Open House Co. Ltd. The Japanese developer of single and multi-family housing posted stronger-than-expected earnings over this period and announced a mid-term business plan which, in our view, suggested that the growth might continue for several years. Another key contributor was the Fund's holding in Dalata, a rapidly expanding Irish owner/operator of three- and four-star hotels. Dalata outperformed operating expectations during its 2017 fiscal year, with approximately 10% growth in revenue per available room and over 20% growth in earnings before interest, tax, depreciation and amortization (EBITDA). Additionally, the company progressed with the next stage of its growth strategy, which will focus on seeking to take market share in fragmented UK regional markets.

From May 5, 2018 through October 31, 2018, the Fund's performance relative to its benchmark, the FTSE EPRA/NAREIT Global ex US Index, was hampered by holdings in housing developers, as the environment turned more challenging due to rising interest rates, affordability concerns, rising inflation and tighter policy restrictions in countries such as China and Singapore. An overweight position in emerging markets such as India and Mexico was also a detractor from performance given the overall underperformance of the asset class. Elsewhere, an overweight allocation to Japanese developers was a headwind for Fund relative performance as shares of these companies lagged the benchmark index for the Adviser period. Among the largest detractors from the Fund's relative performance among individual holdings for the Adviser period were Shinoken Group Co. Ltd., Aedas Homes S.A. and Prestige Estate Projects Ltd. Shinoken Group is a small-cap Japanese company that develops and manages rental housing for individual investors. Its shares declined amid allegations of fraudulent mortgage applications submitted on behalf of customers by Tateru Inc., a key competitor. This triggered investors' concerns that the practice could be widespread throughout the industry and that it may prompt increased scrutiny and regulation of investor mortgages that would reduce liquidity in the market. Against this backdrop, we reduced the Fund's position in Shinoken Group. Aedas Homes is a Spanish home-

Report of the Investment Adviser (unaudited) (continued)

builder whose shares underperformed as newly listed Spanish builders came under pressure due to cost inflation, execution challenges and, subsequently, profit warnings. Prestige Estates Projects is a small-cap Indian developer. Shares of the company sold off along with the broader Indian real estate sector due partly to concerns over the impact that liquidity challenges among non-bank financial companies may have on real estate developers in India.

On the upside, an underweight allocation to Chinese developers throughout most of the Adviser period benefited the Fund's relative performance, as shares of these companies underperformed the benchmark index along with those of other EMs. Stock selection in Japanese REITs also contributed to relative performance. Specifically, the Fund had exposure to three mid-cap office REITs that were among the few in Japan benefiting from positive rental growth. In Europe, Fund relative performance benefited from its underweight to retail REITs. This portion of the market performed poorly over the Adviser period due to fears about the sustainability of capital values as retail spending increases. The largest contributors to the Fund's relative performance among individual holdings were Country Garden Holdings Co., ADO Properties S.A., and Starwood Property Trust Inc. An underweight position in Country Garden had a positive impact on Fund relative performance as the company's shares sold off along with those of other housing developers in China given investors' U.S.-China trade war fears and restrictive policy measures. ADO Properties is a Berlin, Germany-based residential landlord whose shares rose on the back of continued strong growth in rental and capital values. Berlin is being supported by strong demographic growth and job creation that is causing rents and property values to narrow their long-term discounts to those in other large German cities. Starwood Property Trust, the Fund's largest holding among the U.S. commercial mortgage REITs, was positive for results as its shares outperformed the benchmark during the Adviser period.

The derivatives positions did not have a significant impact on Fund performance for the reporting period.

The Fund's primary investment objective is to seek capital appreciation with the secondary objective of high current income. Consequently, our investment process focuses on dividend-paying securities in the investment process. Over the 12-month reporting period, the Fund paid total distributions of \$0.60 per share.

Outlook

As we reach the end of 2018, we remain cautious on the growing divergences across global markets, with strength in U.S. macroeconomic data contrasting with slowing growth across other economies and markets. With the U.S. economy gradually moving closer towards full capacity, the Federal Reserve maintains its monetary policy tightening stance and is expected to continue to raise interest rates into 2019. In Asia, China continues to balance further trade-related responses towards the U.S. with managing and maintaining its closely monitored economic growth rates. We maintain the Fund's underweight allocation relative to its benchmark to Hong Kong, where we believe that residential developers are vulnerable to rising interest rates and stretched affordability. The Fund remains overweight to Europe, where we believe that yield compression³ has largely run its course and so occupancy gains, rental growth and development are becoming the key drivers of total returns. We believe that there likely will be further pockets of political and market volatility into the end of 2018 and beyond as the Italian government tests the limits of the

European Union relationship and the Brexit negotiations conclude.

In this uncertain environment, we remain committed to our fundamentals-focused investment process, seeking companies with proven and sustainable business models where we believe that management teams have a conservative mindset toward balance sheet structure and the growth and valuation profiles are attractive.

Hyperscale refers to the facilities and provisioning required in distributed computing environments to efficiently
¹scale from a few servers to thousands of servers. Hyperscale computing is typically used for big data and cloud-computing businesses.

Class A properties comprise the highest-quality buildings in their market and geographical area. They are generally
²newer properties built within the last 15 years with top amenities, high-income earning tenants and low vacancy rates.

³Yield compression occurs when a decline in rental yields leads to an increase in property prices.

*Performance for periods prior to May 4, 2018 was generated under the Fund’s prior manager; Aberdeen Asset Managers Limited (“AAML”), the Fund’s adviser, is responsible for performance after that date. Returns represent past performance. Total investment return based on NAV is based on changes in the NAV of Fund shares and assumes reinvestment of dividends and distributions, if any, at market prices pursuant to the dividend reinvestment program sponsored by the Fund’s transfer agent. All return data includes fees and expenses charged to the Fund, which are listed in the Fund’s Statement of Operations under “Expenses”. Total investment return based on market value is based on changes in the market price at which the Fund’s shares traded on the NYSE during the period and assumes reinvestment of dividends and distributions, if any, at market prices pursuant to the dividend reinvestment program. The Fund’s total investment return is based on the reported NAV or market price, as applicable, at the financial reporting period end. Because the Fund’s shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on both market price and NAV. **Past performance is no guarantee of future results.** The performance information provided does not reflect the deduction of taxes that a shareholder would pay on distributions received from the Fund. The current performance of the Fund may be lower or higher than the figures shown. The Fund’s yield, return, market price and NAV will fluctuate. Performance information current to the most recent month-end is available at www.aberdeenawp.com or by calling 800-522-5465.*

The net operating expense ratio based on the fiscal year ended October 31, 2018 was 1.19%. The net operating expense ratio excluding interest expense based on the fiscal year ended October 31, 2018 was 1.17%.

Edgar Filing: ABERDEEN GLOBAL PREMIER PROPERTIES FUND - Form N-CSR

Total investment return is calculated assuming a purchase of common stock on the first day and a sale on the last day of each reporting period. Dividends and distributions, if any, are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions.

(d) The Fund did not disclose asset coverage ratio on line of credit payable in prior years.

Notes to Financial Statements

October 31, 2018

1. Organization

Aberdeen Global Premier Properties Fund (the “Fund”), formerly known as “Alpine Global Premier Properties Fund,” is a diversified, closed-end management investment company. The Fund was organized as a Delaware statutory trust on February 13, 2007, and had no operating history prior to April 26, 2007. The Fund’s primary investment objective is capital appreciation. The Fund’s secondary investment objective is high current income. The Board of Trustees (the “Board”) authorized an unlimited number of shares with no par value.

Effective May 4, 2018, Aberdeen Asset Managers Limited (“AAML”) replaced Alpine Woods Capital Investors, LLC (“Alpine Woods”) as the Fund’s investment adviser (“Adviser”) and Aberdeen Asset Management Inc. (“AAMI”) became the sub-adviser of the Fund and the Fund was renamed Aberdeen Global Premier Properties Fund.

2. Summary of Significant Accounting Policies

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 Financial Services-Investment Companies.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies conform to generally accepted accounting principles in the United States of America (“GAAP”). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses for the period. Actual results could differ from those estimates.

a. Security Valuation:

The Fund values its securities at current market value or fair value, consistent with regulatory requirements. “Fair value” is defined in the Fund’s Valuation and Liquidity Procedures as the price that could be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants without a compulsion to transact at the measurement date.

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Fund discloses the fair value of its investments using a three-level hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1, the highest level, measurements to valuations based

upon unadjusted quoted prices in active markets for identical assets, Level 2 measurements to valuations based upon other significant observable inputs, including adjusted quoted prices in active markets for similar assets, and Level 3 the lowest level, measurements to valuations based upon unobservable inputs that are significant to the valuation. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including a

pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement.

Equity securities that are traded on an exchange are valued at the last quoted sale price on the principal exchange on which the security is traded at the "Valuation Time" subject to application, when appropriate, of the valuation factors described in the paragraph below. The Valuation Time is as of the close of regular trading on the NYSE (usually 4:00 p.m. Eastern Time). In the absence of a sale price, the security is valued at the mean of the bid/ask price quoted at the close on the principal exchange on which the security is traded. Securities traded on NASDAQ are valued at the NASDAQ official closing price. Closed-end funds and exchange-traded funds ("ETFs") are valued at the market price of the security at the Valuation Time. A security using any of these pricing methodologies is determined to be a Level 1 investment. Closed-end funds and exchange-traded funds ("ETFs") are valued at the market price of the security at the Valuation Time. A security using any of these pricing methodologies is determined to be a Level 1 investment.

Foreign equity securities that are traded on foreign exchanges that close prior to the Valuation Time are valued by applying valuation factors to the last sale price or the mean price as noted above. Valuation factors are provided by an independent pricing service provider approved by the Fund's Board of Directors (the "Board"). These valuation factors are used when pricing the Fund's portfolio holdings to estimate market movements between the time foreign markets close and the time the Fund values such foreign securities. These valuation factors are based on inputs such as depositary receipts, indices, futures, sector indices/ETFs, exchange rates, and local exchange opening and closing prices of each security. When prices with the application of valuation factors are utilized, the value assigned to the foreign securities may not be the same as quoted or published prices of the securities on their primary markets. A security that applies a valuation factor is determined to be a Level 2 investment because the exchange-traded price has been adjusted. Valuation factors are not utilized if the independent pricing service provider is unable to provide a valuation factor or if the valuation factor falls below a predetermined threshold; in such case, the security is determined to be a Level 1 investment.

Derivative instruments are valued at fair value. Exchange traded derivatives are generally Level 1 investments and over-the-counter derivatives are generally Level 2 investments. Forward foreign currency contracts are generally valued based on the bid price of the forward rates and the current

18 Aberdeen Global Premier Properties Fund

Notes to Financial Statements (continued)

October 31, 2018

spot rate. Forward exchange rate quotations are available for scheduled settlement dates, such as 1-, 3-, 6-, 9- and 12-month periods. An interpolated valuation is derived based on the actual settlement dates of the forward contracts held. Swap agreements are generally valued by an approved pricing agent based on the terms of the swap agreement (including future cash flows). When market quotations or exchange rates are not readily available, or if the Adviser concludes that such market quotations do not accurately reflect fair value, the fair value of a Fund's assets are determined in good faith in accordance with the Valuation Procedures.

Short-term investments are comprised of cash and cash equivalents invested in short-term investment funds which are redeemable daily. The Fund sweeps available cash into the State Street Institutional U.S. Government Money Market Fund, which has elected to qualify as a "government money market fund" pursuant to Rule 2a-7 under the Investment Company Act as of 1940, as amended (the "1940 Act"), and has an objective, which is not guaranteed, to maintain a \$1.00 per share net asset value ("NAV"). Generally, these investment types are categorized as Level 1 investments.

In the event that a security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which they trade closed before the Valuation Time), the security is valued at fair value as determined by the Fund's Pricing Committee, taking into account the relevant factors and surrounding circumstances using valuation policies and procedures approved and established by the Board. A security that has been fair valued by the Fund's Pricing Committee may be classified as Level 2 or Level 3 depending on the nature of the inputs.

The three-level hierarchy of inputs is summarized below:

Level 1 – quoted prices in active markets for identical investments;

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk); or

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The following is a summary of the inputs used as of October 31, 2018 in valuing the Fund's investments at fair value. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with

investing in those securities. Please refer to the Portfolio of Investments for a detailed breakout of the security types:

Investments, at Value	Level 1-Quoted Prices	Level 2-Other Significant Observable Inputs	Level 3- Significant Unobservable Inputs	Total
Long-Term Investments				
Common Stocks	\$341,129,660	\$198,561,826	\$—	\$539,691,486
Other Financial Instruments

Forward Foreign Currency Exchange Contracts	—	(3,164)	—	(3,164)
Total	341,129,660	198,558,662	—	539,688,322

Amounts listed as “-” are \$0 or round to \$0.

For the fiscal year ended October 31, 2018, there were no significant changes to the fair valuation methodologies.

b. Restricted Securities

Restricted securities are privately-placed securities whose resale is restricted under U.S. securities laws. The Funds may invest in restricted securities, including unregistered securities eligible for resale without registration pursuant to Rule 144A and privately-placed securities of U.S. and non-U.S. issuers offered outside the U.S. without registration pursuant to Regulation S under the Securities Act of 1933, as amended (the “1933 Act”). Rule 144A securities may be freely traded among certain qualified institutional investors, such as the Funds, but resale of such securities in the U.S. is permitted only in limited circumstances.

c. Foreign Currency Translation:

Foreign securities, currencies, and other assets and liabilities denominated in foreign currencies are translated into U.S. Dollars at the exchange rate of said currencies against the U.S. Dollar, as of the Valuation Time, as provided by an independent pricing service approved by the Board.

Foreign currency amounts are translated into U.S. Dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities – at the current daily rates of exchange at the valuation time; and
- (ii) purchases and sales of investment securities, income and expenses – at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities due to changes in the foreign exchange rates from the portion due to changes in market prices of equity securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

Notes to Financial Statements (continued)

October 31, 2018

The Fund reports certain foreign currency related transactions and foreign taxes withheld on security transactions as components of realized gains for financial reporting purposes, whereas such foreign currency related transactions are treated as ordinary income for U.S. federal income tax purposes.

Net unrealized currency gains or losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation/depreciation on value of investments, and translation of other assets and liabilities denominated in foreign currencies.

Net realized foreign exchange gains or losses represent foreign exchange gains and losses from transactions in foreign currencies and forward foreign currency contracts, exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Fund's books and the U.S. Dollar equivalent of the amounts actually received.

d. Security Transactions, Investment Income and Expenses:

Security transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Dividend income and corporate actions are recorded generally on the ex-date, except for certain dividends and corporate actions which may be recorded after the ex-date, as soon as a Fund acquires information regarding such dividends or corporate actions. Interest income and expenses are recorded on an accrual basis.

e. Derivative Financial Instruments:

The Fund is authorized to use derivatives to manage currency risk, credit risk, and interest rate risk and to replicate, or use as a substitute for, physical securities. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Forward Foreign Currency Exchange Contracts:

A forward foreign currency exchange contract ("forward contract") involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract

agreed upon by the parties, at a price set at the time of the contract. Forward contracts are used to manage the Fund's currency exposure in an efficient manner. They are used to sell unwanted currency exposure that comes with holding

securities in a market, or to buy currency exposure where the exposure from holding securities is insufficient to give the desired currency exposure either or in absolute terms. The use of forward contracts allows for the separation of investment decision-making between foreign securities holdings and their currencies.

The forward contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized appreciation or depreciation. Forward contracts' prices are received daily from an independent pricing provider. When the forward contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. These realized and unrealized gains and losses are reported on the Statement of Operations.

During the fiscal year ended October 31, 2018, the Fund used forward contracts to hedge its currency exposure.

While the Fund may enter into forward contracts to seek to reduce currency exchange rate risks, transactions in such contracts involve certain risks. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts and from unanticipated movements in exchange rates. Thus, while the Fund may benefit from such transactions, unanticipated changes in currency prices may result in a poorer overall performance for the Fund than if it had not engaged in any such transactions. Moreover, there may be imperfect correlation between the Fund's portfolio holdings or securities quoted or denominated in a particular currency and forward contracts entered into by the Fund. Such imperfect correlation may prevent the Fund from achieving a desired hedge, which will expose the Fund to the risk of foreign exchange loss.

Forward contracts are subject to the risk that a counterparty to such contract may default on its obligations. Since a forward foreign currency exchange contract is not guaranteed by an exchange or clearing house, a default on the contract would deprive the Fund of unrealized profits, transaction costs or the benefits of a currency hedge or force the Fund to cover its purchase or sale commitments, if any, at the market price at the time of default.

Summary of Derivative Instruments:

The Fund may use derivatives for various purposes as noted above.

The following is a summary of the fair value of derivative instruments, not accounted for as hedging instruments, as of October 31, 2018:

Notes to Financial Statements (continued)

October 31, 2018

The Fund has transactions that may be subject to enforceable master netting agreements. A reconciliation of the gross amounts on the Statement of Assets and Liabilities as of October 31, 2018 to the net amounts by broker and derivative type, including any collateral received or pledged, is included in the following tables:

Description	Gross Amounts of Assets Presented in Statement of Assets and Liabilities	Gross Amounts Not Offset in Statement of Assets and Liabilities			Gross Amounts of Liabilities Presented in Statement of Assets and Liabilities	Gross Amounts Not Offset in Statement of Assets and Liabilities		
	Financial Instruments	Collateral Received (1)	Net Amount (3)	Financial Instruments	Collateral Pledged (1)	Net Amount (3)

1. In some instances, the actual collateral received and/or pledged may be more than the amount shown here due to overcollateralization.

2. Includes financial instruments (swaps and forwards) which are not subject to a master netting arrangement across funds, or other another similar arrangement.

3. Net amounts represent the net receivable/(payable) that would be due from/to the counterparty in the event of default. Exposure from financial derivative instruments can only be netted across transactions governed under the same master netting arrangements with the same legal entity.

Amounts listed as “—” are \$0 or round to \$0.

The effect of derivative instruments on the Statement of Operations for the fiscal year ended October 31, 2018:

	Location of Gain or (Loss) on Derivatives	Realized Gain or (Loss) on Derivatives	Change in Unrealized Appreciation/(Depreciation) on Derivatives
Forward foreign currency exchange contracts (foreign exchange risk)	Realized/Unrealized Gain/(Loss) from Investments and Foreign Currency Transactions	\$(1,802,857)	\$73,388

Total \$(1,802,857) \$73,388

Information about derivatives reflected as of the date of this report is generally indicative of the type of activity for the fiscal year ended October 31, 2018. The table below summarizes the weighted average values of derivatives holdings for the Fund during the fiscal year ended October 31, 2018.

Derivative	Average Notional Value
Purchase Forward Foreign Currency Exchange Contracts	\$32,950,110
Sale Forward Foreign Currency Exchange Contracts	\$68,121,824

The Fund values derivatives at fair value, as described in the Statement of Operations. Accordingly, the Fund does not follow hedge accounting even for derivatives employed as economic hedges.

e. Distributions:

The Fund intends to make regular monthly distributions of net investment income to holders of common shares. The Fund expects to pay its common shareholders annually all or substantially all of its investment company taxable income. In addition, at least annually, the Fund intends to distribute all or substantially all of its net capital gains, if any.

Distributions from net realized gains for book purposes may include short-term capital gains which are ordinary income for tax purposes. Distributions to common shareholders are recorded on the ex-dividend date.

Dividends and distributions to shareholders are determined in accordance with federal income tax regulations, which may differ from GAAP. These “book-tax” differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment. Temporary differences do not require reclassification. To the extent distributions exceed current and accumulated earnings and profits for federal income tax purposes they are reported to shareholders as return of capital.

f. Federal Income Taxes:

The Fund intends to continue to qualify as a “regulated investment company” by complying with the provisions available to certain investment companies, as defined in Subchapter M of the Internal Revenue Code of 1986, as

Notes to Financial Statements (continued)

October 31, 2018

amended, and to make distributions of net investment income and net realized capital gains sufficient to relieve the Fund from all federal income taxes. Therefore, no federal income tax provision is required.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund’s U.S. federal and state tax returns for each of the four fiscal years up to the most recent fiscal year ended October 31 are subject to such review.

g. Foreign Withholding Tax:

Dividend and interest income from non-U.S. sources received by the Fund are generally subject to non-U.S. withholding taxes. In addition, the Fund may be subject to capital gains tax in certain countries in which it invests. The above taxes may be reduced or eliminated under the terms of applicable U.S. income tax treaties with some of these countries. The Fund accrues such taxes when the related income is earned.

In addition, when the Fund sells securities within certain countries in which it invests, the capital gains realized may be subject to tax. Based on these market requirements and as required under GAAP, the Fund accrues deferred capital gains tax on securities currently held that have unrealized appreciation within these countries. The amount of deferred capital gains tax accrued is reported on the Statement of Operations as part of the Net Change in Unrealized Appreciation/Depreciation on Investments.

h. Equity Linked Notes:

The Fund may invest in equity-linked structured notes. Equity-linked structured notes are securities which are specially designed to combine the characteristics of one or more underlying securities and their equity derivatives in a single note form. The return and/or yield or income component may be based on the performance of the underlying equity securities, and equity index, and/or option positions. Equity-linked structured notes are typically offered in limited transactions by financial institutions in either registered or non-registered form. An investment in equity-linked structured notes creates exposure to the credit risk of the issuing financial institution, as well as to the market risk of the underlying securities. There is no guaranteed return of principal with these securities and the appreciation potential of these securities may be limited by a maximum payment or call right. In certain cases, equity-linked structured notes may be more volatile and less liquid than complex securities or other types of fixed-income securities. Such securities may exhibit price behavior that does not correlate with other fixed income securities. The Fund did not hold equity-linked structured notes as of October 31, 2018.

3. Agreements and Transactions with Affiliates

a. Investment Adviser

Through May 4, 2018, Alpine Woods Capital Investors, LLC (“Alpine Woods”) served as the Fund’s investment adviser pursuant to an investment advisory agreement with the Fund. As compensation for its services to the Fund, Alpine Woods received an annual investment advisory fee of 1.00% based on the Fund’s average daily Managed Assets, computed daily and payable monthly. Effective at the close of business on May 4, 2018, AAML and AAMI became the Fund’s Adviser and Sub-Adviser, respectively, pursuant to an investment advisory agreement (the “Advisory Agreement”) and sub-advisory agreement with the Fund. The terms of the Advisory Agreement are substantially similar to the terms of the advisory agreement between the Fund and Alpine Woods previously in effect and the advisory fee rate payable to the Fund’s investment adviser has not changed. “Managed Assets” means total assets of the Fund, including any form of investment leverage, minus all accrued expenses incurred in the normal course of operations, but not excluding any liabilities or obligations attributable to investment leverage obtained through (i) indebtedness of any type (including, without limitation, borrowing through a credit facility or the issuance of debt securities), (ii) the issuance of preferred stock or other similar preference securities, (iii) the reinvestment of collateral received for securities loaned in accordance with the Fund’s investment objectives and policies, and/or (iv) any other means. Under the Sub-Advisory Agreement, AAML is responsible for the payment of fees to AAMI.

Effective May 4, 2018, AAML entered into a written contract (the “Expense Limitation Agreement”) with the Fund that remains effective through May 4, 2020. The Expense Limitation Agreement limits the total ordinary operating expenses of the Fund (excluding leverage expenses, interest, taxes, brokerage fees, and non-routine expenses) from exceeding 1.19% of the average daily net assets of the Fund on an annualized basis. No amounts were waived for the fiscal year ended October 31, 2018 pursuant to the Expense Limitation Agreement.

b. Fund Administrator, Custodian and Fund Accounting Agent

State Street Bank and Trust Company (“SSBT”) serves as the custodian and fund accounting agent. The custodian is responsible for the safekeeping of the assets of the Fund and the fund accounting agent is responsible for calculating the Fund’s NAV. SSBT, as the Fund’s custodian and fund accounting agent, is paid on the basis of net assets and transaction costs of the Fund. SSBT also serves as the administrator for the Fund. SSBT, as the Fund’s administrator, is paid on the basis of net assets of the Fund.

c. Transfer Agent

DST Systems, Inc. (“DST”), formerly known as Boston Financial Data Services, Inc., serves as the transfer agent to the Fund. DST is paid on the basis of net assets, per account fees and certain transaction costs.

Notes to Financial Statements (continued)

October 31, 2018

d. Investor Relations

Under the terms of the Investor Relations Services Agreement, approved by the Fund's Board on September 5, 2018, AAMI provides and pays third parties to provide investor relations services to the Fund and certain other funds advised by AAML or its affiliates as part of an Investor Relations Program. Under the Investor Relations Services Agreement, the Fund owes a portion of the fees related to the Investor Relations Program (the "Fund's Portion"). However, investor relations services fees are limited by AAMI so that the Fund will only pay up to an annual rate of 0.05% of the Fund's average weekly net assets. Any difference between the capped rate of 0.05% of the Fund's average weekly net assets and the Fund's portion is borne by AAMI.

Pursuant to the terms of the Investor Relations Services Agreement, AAMI (or third parties engaged by AAMI), among other things, provides objective and timely information to stockholders based on publicly available information; provides information efficiently through the use of technology while offering stockholders immediate access to knowledgeable investor relations representatives; develops and maintains effective communications with investment professionals from a wide variety of firms; creates and maintains investor relations communication materials such as fund manager interviews, films and webcasts, published white papers, magazine articles and other relevant materials discussing the Fund's investment results, portfolio positioning and outlook; develops and maintains effective communications with large institutional shareholders; responds to specific shareholder questions; and reports activities and results to the Board and management detailing insight into general shareholder sentiment.

During the fiscal year ended October 31, 2018, the Fund incurred investor relations fees of approximately \$23,708. For the fiscal year ended October 31, 2018, AAMI did not bear any portion of the investor relations fees for the Fund because the Fund's contribution was below 0.05% of the Fund's average weekly net assets on an annual basis.

Certain officers and trustees of the Fund are or were officers and/or trustees of Alpine Woods Capital Investors, LLC or AAML (each, an "Adviser"). No trustee, who is deemed an interested person due to current or former service with an Adviser or an affiliate of the Adviser, receives compensation from the Fund.

4. Investment Transactions

Purchases and sales of investment securities (excluding short-term securities) for the fiscal year ended October 31, 2018, were \$528,157,193 and \$491,058,386, respectively.

5. Capital

The Fund is authorized to issue an unlimited number of common shares with no par value. As of October 31, 2018, there were 85,407,951 shares of common stock issued and outstanding

6. Line of Credit

On December 1, 2010, the Fund entered into a lending agreement with BNP Paribas Prime Brokerage International Ltd. (“BNPP PB”) which allows the Fund to borrow on an uncommitted and secured basis. The terms of the lending agreement indicate the rate to be the Federal Funds rate plus 0.95% per annum on amounts borrowed. Effective, May 4, 2018 the rate was changed to 0.85% per annum on amounts borrowed. The BNPP PB facility provides a secured, uncommitted line of credit for the Fund where selected Fund assets are pledged against advances made to the Fund. The Fund has granted a security interest in all pledged assets used as collateral to BNPP PB. The Fund is permitted to borrow up to 33.33% of its total assets for extraordinary or emergency purposes. Additionally, the Fund is permitted to borrow up to 10% of its managed assets for investment purposes, but in no event shall outstanding borrowings exceed 33.33% of total assets. On October 31, 2018, the amount available for investment purposes was \$53,969,149. Either BNPP PB or the Fund may terminate this agreement upon delivery of written notice. During the year ended October 31, 2018, the average borrowing by the Fund was \$12,900,192 with an average weighted interest rate on borrowings of 3.04%. During the year ended October 31, 2018, the maximum borrowing by the Fund was \$52,147,717. Interest expense related to the line of credit for the year ended October 31, 2018 was \$119,844. As of October 31, 2018, the outstanding balance of the loan was \$16,248,311.

7. Open Market Repurchase Program

On June 13, 2018, the Board approved a share repurchase program (“Program”) for the Fund. The Program allows the Fund to purchase, in the open market, its outstanding common shares, with the amount and timing of any repurchase determined at the discretion of the Fund’s investment adviser and subject to market conditions and investment considerations. The Fund reports repurchase activity on the Fund’s website on a monthly basis. For the fiscal year ended October 31, 2018, the Fund did not repurchase any shares through the Program.

8. Portfolio Investment Risks

a. Risks Associated with Foreign Securities and Currencies

Investments in securities of foreign issuers carry certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws and restrictions. In addition, with respect to certain countries, there is the possibility of expropriation of assets, confiscatory taxation, and political or social instability or diplomatic developments, which could adversely affect investments in those countries.

Notes to Financial Statements (continued)

October 31, 2018

Certain countries also may impose substantial restrictions on investments in their capital markets by foreign entities, including restrictions on investments in issuers in industries deemed sensitive to relevant national interests. These factors may limit the investment opportunities available and result in a lack of liquidity and high price volatility with respect to securities of issuers from developing countries. Foreign securities may also be harder to price than U.S. securities.

The value of foreign currencies relative to the U.S. Dollar fluctuates in response to market, economic, political, regulatory, geopolitical or other conditions. A decline in the value of a foreign currency versus the U.S. Dollar reduces the value in U.S. Dollars of investments denominated in that foreign currency. This risk may impact the Fund more greatly to the extent the Fund does not hedge its currency risk, or hedging techniques used by the Adviser are unsuccessful.

b. Concentration Risk

The Fund invests a substantial amount of its assets in the equity securities of issuers engaged in the real estate industry, including real estate investment trusts (REITs). As a result, the Fund may be more affected by economic developments in the real estate industry than would a general equity fund.

9. Contingencies

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund, and therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

10. Tax Information

The U.S. federal income tax basis of the Fund's investments and the net unrealized appreciation as of October 31, 2018 were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Appreciation/ (Depreciation)
\$573,212,272	\$29,846,341	\$(63,367,127)	\$(33,520,786)

The tax character of distributions paid during the fiscal years ended October 31, 2018 and October 31, 2017 was as follows:

	October 31, 2018	October 31, 2017
Distributions paid from:		
Ordinary Income	\$18,861,862	\$51,244,771
Net long-term capital gains	—	—
Tax return of capital	32,382,909	—
Total tax character of distributions	\$51,244,771	\$51,244,771

As of October 31, 2018, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income - net	\$—
Undistributed long-term capital gains - net	—
Total undistributed earnings	\$—
Capital loss carryforward	(37,066,675)*
Other currency gains	—
Other temporary differences	—
Unrealized appreciation/(depreciation)	(33,707,463)**
Total accumulated earnings/(losses)—net	\$(70,774,138)

On October 31, 2018, the Fund had a net capital loss carryforward of \$(37,066,675) which will be available to offset like amounts of any future taxable gains. Under the Regulated Investment Company Modernization Act of 2010, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short term as under previous law. Pre-enactment capital loss carryforwards expire as follows:

Amounts Expires

\$32,169,593	2020 (Short-Term)
45,755	Unlimited (Short-Term)
4,851,327	Unlimited (Long-Term)

** The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable to the difference between the tax deferral of wash sales and straddles and passive foreign investment company gain/(loss).

GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, the table below details the necessary reclassifications, which are a result of permanent differences primarily attributable to foreign currency gain/(loss), foreign capital gain tax and passive foreign investment company gain/(loss). These reclassifications have no effect on net assets or net asset values per share.

Paid-in Capital	Distributable accumulated loss
\$(68,745,647)	\$68,745,647

11. Recent Accounting Pronouncements

On August 17, 2018, the SEC voted to adopt amendments to certain of its disclosure requirements that have become redundant, duplicative, overlapping, outdated, or superseded, in light of other SEC disclosure requirements, U.S. GAAP, or changes in the information environment. The SEC will also be referring certain SEC disclosure requirements that overlap with, but require information incremental to, U.S. GAAP to the FASB for potential incorporation into U.S. GAAP. The amendments are intended to facilitate the disclosure of information to investors and simplify compliance without significantly altering the total mix of information provided to investors. The amendments became effective November 5, 2018.

On August 28, 2018, the FASB issued Accounting Standards Update (ASU) 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. ASU 2018-13 includes removals, additions and modifications to the disclosure requirements for fair value measurements that are intended to improve the effectiveness of disclosures in the notes to financial statements. The amendments in ASU 2018-13 are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after

December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures upon issuance of this ASU and delay adoption of the additional disclosures until their effective date. Aberdeen has evaluated ASU 2018-13 and determined that there is no significant impact on the Fund's financial statements. Aberdeen has early adopted the following ASU 2018-13 guidance in the Fund's financial statements pertaining to the removal of (i) the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy and (ii) the policy for timing of transfers between levels.

12. Subsequent Events

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no disclosures and/or adjustments were required to the financial statements as of October 31, 2018, except as provided below.

On November 9, 2018 and December 11, 2018, the Fund announced that it will pay on November 28, 2018 and January 10, 2019 a distribution of \$0.05 per share to all shareholders of record as of November 19, 2018 and December 31, 2018, respectively.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of
Aberdeen Global Premier Properties Fund:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Aberdeen Global Premier Properties Fund (formerly, Alpine Global Premier Properties Fund) (the Fund), including the portfolio of investments, as of October 31, 2018, the related statement of operations for the year then ended, the statement of changes in net assets for the year then ended, and the related notes (collectively, the financial statements) and the financial highlights for the year then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of October 31, 2018, the results of its operations for the year then ended, the changes in its net assets for the year then ended, and the financial highlights for the year then ended, in conformity with U.S. generally accepted accounting principles. The statement of changes in net assets for the year ended October 31, 2017 and the financial highlights for each of the years in the three-year period ended October 31, 2017 were audited by other independent registered public accountants whose report, dated December 22, 2017, expressed an unqualified opinion on those changes in net assets and financial highlights. The financial highlights for the year ended October 31, 2014 were audited by other independent registered public accountants whose report, dated December 29, 2014, expressed an unqualified opinion on those financial highlights.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of October 31, 2018, by correspondence with the custodian, brokers, or by other appropriate auditing procedures when replied from brokers were not received. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audit provides a reasonable basis for our opinion.

We have served as the auditor of one or more Aberdeen investment companies since 2009.

The foreign taxes paid represent taxes incurred by the Fund on interest received from foreign sources. Foreign taxes paid may be included in taxable income with an offsetting deduction from gross income or may be taken as a credit for taxes paid to foreign governments. You should consult your tax advisor regarding the appropriate treatment of foreign taxes paid.

(2) The Fund hereby designates the amount indicated above or the maximum amount allowable by law.

Designation Requirements

Of the distributions paid by the Fund from ordinary income for the year ended October 31, 2018, the following percentages met the requirements to be treated as qualifying for the corporate dividends received deduction and qualified dividend income, respectively.

Dividends Received Deduction 3.56%
 Qualified Dividend Income 28.84%

The above amounts are based on the best available information at this time. In early 2019, the Fund will notify applicable shareholders of final amounts for use in preparing 2018 U.S. federal income tax forms.

Results of Annual Meeting of Shareholders

The Annual Meeting of Stockholders was held on September 19, 2018 at 1735 Market Street, 32th Floor, Philadelphia, Pa. The description of the proposals and number of shares voted at the meeting are as follows:

1. To re-elect one Class I Directors to the Board of Trustees:

	Votes For	Votes Withheld
John Sievwright	76,468,779	1,710,162

Directors whose term of office continued beyond the Meeting are as follows: P. Gerald Malone, Nancy Yao Maasbach and Martin Gilbert. .

Change in Independent Registered Public Accounting Firm

Effective as of the close of business on May 4, 2018, Ernst & Young LLP (“E&Y”) resigned as the independent registered public accounting firm for the Fund, due to independence matters relating to the change in the Fund’s investment adviser, which was effective as of the close of business on May 4, 2018. The reports of E&Y on the Fund’s financial statements as of and for the fiscal years ended October 31, 2016 and October 31, 2017 did not contain an adverse opinion or a disclaimer of opinion, and were not qualified or modified as to uncertainties, audit scope or accounting principles. During the Fund’s fiscal years ended October 31, 2016 and October 31, 2017 and the subsequent interim period through May 4, 2018, there were no disagreements between the Fund and E&Y on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of E&Y, would have caused it to make reference to the subject matter of the disagreements in its reports on the financial statements of the Fund for such years. During the Fund’s fiscal years ended October 31, 2016 and October 31, 2017 and the subsequent interim period through May 4, 2018, there were no “reportable events” (as defined in Item 304(a)(1)(v) of Regulation S-K under the Exchange Act.

On June 13, 2018, upon the recommendation of its Audit Committee, the Board of Trustees of the Fund approved the engagement of KPMG LLP (“KPMG”) as the independent registered public accounting firm for the Fund for the fiscal year ending October 31, 2018, contingent on KPMG’s delivery of an independence letter that is satisfactory to the Fund’s Audit Committee. After completing its standard client evaluation procedures and delivering a satisfactory independence letter to the Audit Committee, KPMG accepted the engagement, which became effective on September 26, 2018. The Board and its Audit Committee considered the engagement of KPMG in connection with the resignation of the Fund’s former independent registered accounting firm on May 4, 2018. During the Fund’s fiscal years ended October 31, 2016 and October 31, 2017 and the subsequent interim period through September 26, 2018, neither

the Fund, nor anyone on its behalf, consulted with KPMG, on behalf of the Fund, regarding the application of accounting principles to a specified transaction (either completed or proposed), the type of audit opinion that might be rendered on the Fund's financial statements, or any matter that was either the subject of a "disagreement," as defined in Item 304(a)(1)(iv) of Regulation S-K under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the instructions thereto, or a "reportable event," as defined in Item 304(a)(1)(v) of Regulation S-K under the Exchange Act.

Dividend Reinvestment Plan (unaudited)

Unless the registered owner of common shares elects to receive cash by contacting Boston Financial Data Services, Inc. (the “Plan Administrator”), all dividends or other distributions (together, “Dividends” and each, a “Dividend”) declared on common shares will be automatically reinvested by the Plan Administrator for shareholders in the Fund’s Dividend Reinvestment Plan (the “Plan”), in additional common shares of the Fund. Shareholders who are not permitted to participate through their broker or nominee or who elect not to participate in the Plan will receive all Dividends in cash paid by check mailed directly to the shareholder of record (or, if the common shares are held in street or other nominee name, then to such nominee) by the Plan Administrator, as dividend disbursing agent. You may elect not to participate in the Plan and to receive all Dividends in cash by contacting the Plan Administrator, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared Dividend. If you hold your shares through a broker, and you wish for all Dividends declared on your common shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each shareholder under the Plan in the same name in which such shareholder’s common shares are registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants’ accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (“Newly Issued common shares”) or (ii) by purchase of outstanding common shares on the open market (“Open-Market Purchases”) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per share is equal to or greater than the NAV per share, the Plan Administrator will invest the Dividend amount in Newly Issued common shares on behalf of the participants. The number of Newly Issued common shares to be credited to each participant’s account will be determined by dividing the dollar amount of the Dividend by the NAV per share on the payment date; provided that, if the NAV is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per share on the payment date. If, on the payment date for any Dividend, the NAV per share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the common shares trade on an “ex-dividend” basis or 30 days after the payment date for such Dividend, whichever is sooner (the “Last Purchase Date”), to invest the Dividend amount in common shares acquired in Open-Market Purchases. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share exceeds the NAV per share, the average per share purchase price paid by the Plan Administrator may exceed the NAV of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued common shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued common shares at the NAV

per share at the close of business on the Last Purchase Date provided that, if the NAV is less than or equal to 95% of the then current market price per share, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the Fund's shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of common shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any U.S. Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See "Federal and Other Income Taxes." Participants that request a sale of common shares through the Plan Administrator are subject to brokerage commissions.

Dividend Reinvestment Plan (unaudited) (concluded)

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Fund's shares is higher than the NAV, participants in the Plan will receive shares of the Fund for less than they could otherwise purchase them and will have shares with a cash value greater than the value of any cash distribution they would have received on their shares. If the market price plus commissions is below the net asset value, participants receive distributions of shares with a NAV greater than the value of any cash distribution they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the NAV. Also, because the Fund does not redeem its shares, the price on resale may be more or less than the NAV.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or question concerning the Plan should be directed to the Plan Administrator, DST Asset Manager Solutions, Inc., c/o Aberdeen Funds, 333 West 11th Street, Kansas City, MO 64105 or by calling toll-free 1 (800) 617.7616.

Item 2. Code of Ethics.

(a) As of October 31, 2018, the Registrant had adopted a Code of Ethics that applies to the Registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the Registrant or a third party (the “Code of Ethics”).

(b) Definitional.

(c) There have been no amendments, during the period covered by this report, to a provision of the Code of Ethics.

(d) During the period covered by this report, there were no waivers to the provisions of the Code of Ethics.

(e) Not applicable.

(f) A copy of the Code of Ethics has been filed as an exhibit to this Form N-CSR.

Item 3. Audit Committee Financial Expert.

The Registrant’s Board of Trustees has determined that John Sievwright, a member of the Registrant’s Audit and Valuation Committee, possesses the attributes, and has acquired such attributes through means, identified in instruction 2 of Item 3 to Form N-CSR to qualify as an “audit committee financial expert,” and has designated Mr. Sievwright as the Audit and Valuation Committee’s financial expert. Mr. Sievwright is considered to be an “independent” Trustee, as such term is defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) – (d) Below is a table reflecting the fee information requested in Items 4(a) through (d):

Fiscal Year Ended	(a) Audit Fees	(b) Audit-Related Fees	(c)¹ Tax Fees	(d) All Other Fees
October 31, 2018	\$47,852	\$0	\$8,250	\$0
October 31, 2017 ²	\$94,932	\$0	\$17,409	\$0

(1) Services include tax services in connection with the Registrant’s excise tax calculations and review of the registrant’s applicable tax returns.

- (2) Fees for the fiscal year ended October 31, 2017 were paid to the Registrant's prior independent public accounting firm.

(e)(1) The Registrant's Audit and Valuation Committee (the "Committee") has adopted a Charter that provides that the Committee shall annually select, retain or terminate, and recommend to the Independent Trustees for their ratification, the selection, retention or termination, the Fund's independent auditor and, in connection therewith, to evaluate the terms of the engagement (including compensation of the independent auditor) and the qualifications and independence of the independent auditor, including whether the independent auditor provides any consulting, auditing or tax services to the Registrant's investment adviser or any sub-adviser, and to receive the independent auditor's specific representations as to their independence, delineating all relationships between the independent auditor and the Registrant, consistent with the PCAOB Rule 3526 or any other applicable auditing standard. PCAOB Rule 3526 requires that, at least annually, the auditor: (1) disclose to the Committee in writing all relationships between the auditor and its related entities and the Fund and its related entities that in the auditor's professional judgment may reasonably be thought to bear on independence; (2) confirm in the letter that, in its professional judgment, it is independent of the Fund within the meaning of the Securities Acts administered by the SEC; and (3) discuss the auditor's independence with the audit committee. The Committee is responsible for actively engaging in a

dialogue with the independent auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the independent auditor and for taking, or recommending that the full Board take, appropriate action to oversee the independence of the independent auditor. The Committee Charter also provides that the Committee shall review in advance, and consider approval of, any and all proposals by Management or the Registrant's investment adviser that the Registrant, the investment adviser or their affiliated persons, employ the independent auditor to render "permissible non-audit services" to the Registrant and to consider whether such services are consistent with the independent auditor's independence. The Committee may delegate to one or more of its members ("Delegates") authority to pre-approve permissible non-audit services to be provided to the Fund. Any pre-approval determination of a Delegate shall be presented to the full Committee at its next meeting. The Committee shall communicate any pre-approval made by it or a Delegate to the Investment Adviser, who will ensure that the appropriate disclosure is made in the Fund's periodic reports required by Section 30 of the Investment Company Act of 1940, as amended, and other documents as required under the federal securities laws.

(e)(2) None of the services described in each of paragraphs (b) through (d) of this Item involved a waiver of the pre-approval requirement by the Audit Committee pursuant to Rule 2-01 (c)(7)(i)(C) of Regulation S-X.

(f) Not applicable.

(g) Non-Audit Fees

For the fiscal year ended October 31, 2018, KPMG, billed \$764,339 for aggregate non-audit fees for services to the Registrant and to the Registrant's Investment Manager and Administrator. For the fiscal year ended October 31, 2017, the Registrant's former independent public accounting firm billed \$0 for aggregate non-audit fees for services to the Registrant and to the Registrant's Investment Adviser and Administrator.

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

In accordance with legal requirements in the various jurisdictions in which they operate, and their own Conflicts of Interest policies, all subsidiaries of Aberdeen Asset Management PLC, (together “Aberdeen”), have in place arrangements to identify and manage Conflicts of Interest that may arise between them and their clients or between their different clients. Where Aberdeen does not consider that these arrangements are sufficient to manage a particular conflict, it will inform the relevant client(s) of the nature of the conflict so that the client(s) may decide how to proceed.

The portfolio managers’ management of “other accounts”, may give rise to potential conflicts of interest in connection with their management of a Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as a fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio manager could favor one account over another. However, Aberdeen believes that these risks are mitigated by the fact that: (i) accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and similar factors; and (ii) portfolio manager personal trading is monitored to avoid potential conflicts. In addition, Aberdeen has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

In some cases, another account managed by the same portfolio manager may compensate Aberdeen based on the performance of the portfolio held by that account. The existence of a performance-based fee may create additional conflicts of interest for the portfolio manager in the allocation of management time, resources and investment opportunities.

Another potential conflict could include instances in which securities considered as investments for the Fund also may be appropriate for other investment accounts managed by Aberdeen or its affiliates. Whenever decisions are made to buy or sell securities by the Fund and one or more of the other accounts simultaneously, Aberdeen may aggregate the purchases and sales of the securities and will allocate the securities transactions in a manner that it believes to be equitable under the circumstances. As a result of the allocations, there may be instances where the Fund will not participate in a transaction that is allocated among other accounts. While these aggregation and allocation policies could have a detrimental effect on the price or amount of the securities available to a fund from time to time, it is the opinion of Aberdeen that the benefits from the Aberdeen organization outweigh any disadvantage that may arise from exposure to simultaneous transactions. Aberdeen has adopted policies that are designed to eliminate or minimize conflicts of interest, although there is no guarantee that procedures adopted under such policies will detect each and every situation in which a conflict arises.

With respect to non-discretionary model delivery accounts, the Adviser will deliver model changes subsequent to commencing trading on behalf of discretionary accounts. Model changes are typically delivered on a security by security basis. The timing of such delivery is determined by the Adviser and will depend on the anticipated market impact of trading. Market impact includes, but is not limited to, factors such as liquidity and price impact. When minimal market impact is anticipated, the Adviser typically delivers security level model changes after such time when approximately two-thirds of the full discretionary order has been executed. Although the Adviser anticipates delivering model changes of such securities after approximately two-thirds of the discretionary order has been executed, the Adviser may deliver model changes prior to or substantially after two-thirds have been executed

depending on prevailing market conditions and trader discretion. With respect to securities for which the Adviser anticipates a more significant market impact, the Adviser intends to withhold model deliver changes until such time when the entire discretionary order has been fully executed. Anticipated market impact on any given security is determined at the sole discretion of the Adviser based on prior market experience and current market conditions. Actual market impact may vary significantly from anticipated market impact. Notwithstanding the aforementioned, the Adviser may provide order instructions simultaneously or prior to completion of trading for other accounts if the trade represents a relatively small proportion of the average daily trading volume of the particular security or other instrument.

The Adviser does not trade for non-discretionary model delivery clients. Because model changes may be delivered to non-discretionary model clients prior to the completion of the Adviser's discretionary account trading, The Adviser may compete against these clients in the market when attempting to execute its orders for its discretionary accounts. As a result, discretionary clients may experience negative price and liquidity impact due to multiple market participants attempting to trade in a similar direction on the same security.

Timing delays or other operational factors associated with the implementation of trades may result in non-discretionary and model delivery clients receiving materially different prices relative to other client accounts. This may create performance dispersions within accounts with the same or similar investment mandate.

Investment decisions for strategies that have model delivery clients may cause a fund to compete against such model delivery clients that hold and trade in a same security as a fund.

(a)(3)

Aberdeen's remuneration policies are designed to support its business strategy as a leading international asset manager. The objective is to attract, retain and reward talented individuals for the delivery of sustained, superior returns for Aberdeen's clients and shareholders. Aberdeen operates in a highly competitive international employment market, and aims to maintain its strong track record of success in developing and retaining talent.

Aberdeen's policy is to recognize corporate and individual achievements each year through an appropriate annual bonus scheme. The aggregate value of awards in any year is dependent on the Aberdeen group's overall performance and profitability. Consideration is also given to the levels of bonuses paid in the market. Individual awards, which are payable to all members of staff, are determined by a rigorous assessment of achievement against defined objectives.

A long-term incentive plan for key staff and senior employees comprises of a mixture of cash and deferred shares in Aberdeen PLC, or after August 2017, Standard Life Aberdeen plc, or select Aberdeen funds (where applicable). Overall compensation packages are designed to be competitive relative to the investment management industry.

Base Salary

Aberdeen's policy is to pay a fair salary commensurate with the individual's role, responsibilities and experience, and having regard to the market rates being offered for similar roles in the asset management sector and other comparable companies. Any increase is generally to reflect inflation and is applied in a manner consistent with other Aberdeen employees; any other increases must be justified by reference to promotion or changes in responsibilities.

Annual Bonus

The Remuneration Committee of Aberdeen determines the key performance indicators that will be applied in considering the overall size of the bonus pool. In line with practice amongst other asset management companies, individual bonuses are not subject to an absolute cap. However, the aggregate size of the bonus pool is dependent on the Aberdeen group's overall performance and profitability. Consideration is also given to the levels of bonuses paid in the market. Individual awards are determined by a rigorous assessment of achievement against defined objectives, and are reviewed and approved by the Remuneration Committee.

Aberdeen has a deferral policy which is intended to assist in the retention of talent and to create additional alignment of executives' interests with Aberdeen's sustained performance and, in respect of the deferral into funds, managed by Aberdeen, to align the interest of asset managers with our clients.

Staff performance is reviewed formally at least once a year. The review process evaluates the various aspects that the individual has contributed to Aberdeen, and specifically, in the case of portfolio managers, to the relevant investment team. Discretionary bonuses are based on client service, asset growth and the performance

of the respective portfolio manager. Overall participation in team meetings, generation of original research ideas and contribution to presenting the team externally are also evaluated.

In the calculation of a portfolio management team's bonus, Aberdeen takes into consideration investment matters (which include the performance of funds, adherence to the company investment process, and quality of company meetings) as well as more subjective issues such as team participation and effectiveness at client presentations. To the extent performance is factored in, such performance is not judged against any specific benchmark and is evaluated over the period of a year - January to December. The pre- or after-tax performance of an individual account is not considered in the determination of a portfolio manager's discretionary bonus; rather the review process evaluates the overall performance of the team for all of the accounts the team manages.

Portfolio manager performance on investment matters is judged over all of the accounts the portfolio manager contributes to and is documented in the appraisal process. A combination of the team's and individual's performance is considered and evaluated.

Although performance is not a substantial portion of a portfolio manager's compensation, Aberdeen also recognizes that fund performance can often be driven by factors outside one's control, such as (irrational) markets, and as such pays attention to the effort by portfolio managers to ensure integrity of our core process by sticking to disciplines and processes set, regardless of momentum and 'hot' themes. Short-terming is thus discouraged and trading-oriented managers will thus find it difficult to thrive in the Aberdeen environment. Additionally, if any of the aforementioned undue risks were to be taken by a portfolio manager, such trend would be identified via Aberdeen's dynamic compliance monitoring system.
