The PacifiCare San Antonio Building

On July 12, 2002, Wells Operating Partnership, L.P. (Wells OP), a Delaware limited partnership formed to acquire, own, lease and operate real properties on behalf of the Wells REIT, purchased a two-story office building containing 142,500 rentable square feet located in San Antonio, Texas (PacifiCare San Antonio Building) for a purchase price of \$14,650,000, plus closing costs. The PacifiCare San Antonio Building was built in 2000 and is located at 6200 Northwest Parkway, San Antonio, Texas.

The PacifiCare San Antonio Building is leased entirely to PacifiCare Health Systems, Inc. (PacifiCare), a corporation whose shares are traded on NASDAQ. PacifiCare is one of the leading health and consumer service companies in the United States. The services PacifiCare provides include health insurance products, pharmacy and medical management, behavioral health services, and dental and vision services. PacifiCare reported a net worth, as of December 31, 2001, of approximately \$2 billion.

The PacifiCare lease commenced in November 2000 and expires in November 2010. The current annual base rent payable under the PacifiCare lease is \$1,471,700. PacifiCare, at its option, has the right to extend the initial term of its lease for one additional five-year period at an annual base rent of \$1,967,925, and two subsequent five-year terms at the then-current market rental rate. In addition, PacifiCare has an expansion option for between approximately 20,000 and 45,000 rentable square feet, which it may exercise prior to the end of the 42nd month of the initial term of the PacifiCare lease.

Kerr-McGee Property

Purchase of the Kerr-McGee Property. On July 29, 2002 Wells OP purchased the Kerr-McGee Property, which is a build-to-suit property located in Houston, Texas, for a purchase price of \$1,738,044, plus closing costs. We commenced construction on a four-story office building containing approximately 100,000 rentable square feet (Kerr-McGee Project) on August 1, 2002. Wells OP obtained a construction loan in the amount of \$13,700,000 from Bank of America, N.A. (BOA) to fund the construction of the Kerr-McGee Project. The loan requires monthly payments of interest only and matures on January 29, 2004. The interest rate on the loan, as of August 6, 2002, was 3.80%. The BOA loan is secured by a first priority mortgage on the Kerr-McGee Property.

Wells OP entered into a development agreement, an architect agreement and a construction agreement to construct the Kerr-McGee Project on the Kerr-McGee Property.

Table of Contents

Development Agreement. Wells OP entered into a development agreement (Development Agreement) with Means-Knaus, LLC, a Texas limited liability company (Developer), as the exclusive development manager to supervise, manage and coordinate the planning, design, construction and completion of the Kerr-McGee Project. As compensation for the services to be rendered by the Developer under the Development Agreement, Wells OP is paying a development fee of \$699,740. The fee is due and payable ratably as the construction and development of the Kerr-McGee Project is completed.

We anticipate that the aggregate of all costs and expenses to be incurred by Wells OP with respect to the acquisition of the Kerr-McGee Property and the planning, design, development, construction and completion of the Kerr-McGee Project will total approximately \$15,760,000.

Construction Agreement. Wells OP entered into a design and build construction agreement (Construction Agreement) with Hoar Construction, LLC (Contractor) for the construction of the Kerr-McGee Project. The Construction Agreement provides that Wells OP will pay the Contractor a maximum of \$6,391,255 for the construction of the Kerr-McGee Project that includes all estimated fees and costs. The Contractor will be responsible for all costs of labor, materials, construction equipment and machinery necessary for completion of the Kerr-McGee Project. In addition, the Contractor will be required to secure and pay for any additional building permits which may be necessary for construction of the Kerr-McGee Project.

Kerr-McGee Lease. The Kerr-McGee Property is leased to Kerr-McGee Oil & Gas Corporation, a wholly owned subsidiary of Kerr-McGee Corporation (Kerr-McGee), a Delaware corporation whose shares are publicly traded on the New York Stock Exchange (NYSE). Kerr-McGee, which has guaranteed the Kerr-McGee lease, operates a worldwide business in oil and gas exploration and production, and titanium dioxide pigment production and marketing. It has oil fields in the Gulf of Mexico, the North Sea, the South China Sea, and onshore in the United States, Ecuador, Indonesia and Kazakhstan. Kerr-McGee reported a net worth, as of December 31, 2001, of approximately \$3.1 billion.

The Kerr-McGee lease will commence shortly after completion of the Kerr-McGee Project, which we expect to occur in approximately July 2003. The Kerr-McGee lease will expire 11 years and one month after commencement, or approximately July 31, 2014. Kerr-McGee has the right to extend the initial term of this lease for (1) one additional 20-year period or (2) a combination of five-year terms or ten-year terms totaling not more than 20 years at 95% of the then-current market rental rate. The annual base rent payable for the Kerr-McGee lease beginning on the rent commencement date is expected to be approximately \$1,655,000.

The BMG Greenville Buildings were originally built in 1987.

The Kraft lease commenced in February 2002 and expires in January 2012. The annual base rent payable under the Kraft lease beginning on September 1, 2002 will be \$1,263,804. Management's Discussion and Analysis of Financial Condition and Results of Operation

The following information should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations section beginning on page 101 of the prospectus.

Forward Looking Statements

This section and other sections of the prospectus supplement contain forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and 21E of the Securities Exchange Act of 1934, including discussion and analysis of the financial condition of the Wells REIT, anticipated capital expenditures required to complete certain projects, amounts of anticipated cash distributions to stockholders in the future and certain other matters. Readers of this supplement should be aware that there are various factors that could cause actual results to differ materially from any forward-looking statements made in the supplement, which include changes in general economic conditions, changes in real estate conditions, construction costs which may exceed estimates, construction delays, increases in interest rates, lease-up risks, inability to obtain new tenants upon the expiration of existing leases, inability to invest in properties that will provide targeted rates of return and the potential need to fund tenant improvements or other capital expenditures out of operating cash flow.

Liquidity and Capital Resources

During the six months ended June 30, 2002, we received aggregate gross offering proceeds of \$618,275,931 from the sale of 61,827,594 shares of our common stock. After payment of \$21,406,085 in acquisition and advisory fees and acquisition expenses, payment of \$65,035,665 in selling commissions and organization and offering expenses, and common stock redemptions of \$6,673,412 pursuant to the our share redemption program, we raised net offering proceeds of \$525,160,769 during the first two quarters of 2002, of which \$344,269,118 remained available for investment in properties at quarter end.

During the six months ended June 30, 2001, we received aggregate gross offering proceeds of \$162,606,610 from the sale of 16,260,661 shares of our common stock. After payment of \$5,642,317 in acquisition and advisory fees and acquisition expenses, payment of \$20,151,132 in selling commissions and organizational and offering expenses, and common stock redemptions of \$1,397,561 pursuant to the our share redemption program, we raised net offering proceeds of \$135,415,600 during the first two quarters of 2001, of which \$3,906,869 was available for investment in properties at quarter end.

The significant increase in our available capital resources is due to significantly increased sales of our common stock during the first half of 2002.

As of June 30, 2002, we owned interests in 52 real estate properties either directly or through its interests in joint ventures. These properties are generating operating cash flow sufficient to cover our operating expenses and pay dividends to stockholders. Dividends declared for the first half of 2002 and the first half of 2001 were approximately \$0.39 and \$0.38 per share, respectively. In June 2002, our Board of Directors declared dividends for the third quarter of 2002 in the amount of approximately \$0.19 per share.

Due primarily to the pace of our property acquisitions, as explained in more detail in the following paragraph, dividends paid in the first half of 2002 in the aggregate amount of \$40,867,110 exceeded our Adjusted Funds From Operations for this period by \$4,813,633.

Table of Contents

We acquire properties that meet our standards of quality both in terms of the real estate and the creditworthiness of the tenants. Creditworthy tenants of the type we target are becoming more and more highly valued in the marketplace and, accordingly, there is increased competition in acquiring properties with these creditworthy tenants. As a result, the purchase prices for such properties have increased with corresponding reductions in cap rates and returns on investment. In addition, changes in market conditions have caused us to add to our internal procedures for ensuring the creditworthiness of our tenants before any commitment to buy a property is made. We continue to remain steadfast in our commitment to invest in quality properties that will produce quality income for our stockholders. Accordingly, because the marketplace is now placing a higher value on our type of properties and because of the additional time it now takes in the acquisition process for us to assess tenant credit plus our commitment to adhere to purchasing properties with tenants that meet our investment criteria it appears likely that, in the future, we will be required to lower our dividends.

Cash Flows From Operating Activities

Our net cash provided by operating activities was \$33,138,287 and \$16,288,309 for the six months ended June 30, 2002 and 2001, respectively. The increase in net cash provided by operating activities was due primarily to the net income generated by additional properties acquired during 2002 and 2001.

Cash Flows Used In Investing Activities

Our net cash used in investing activities was \$278,447,051 and \$23,768,731 for the six months ended June 30, 2002 and 2001, respectively. The increase in net cash used in investing activities was due primarily to investments in properties and the payment of related deferred project costs, partially offset by distributions received from joint ventures.

Cash Flows From Financing Activities

Our net cash provided by financing activities was \$511,632,371 and \$9,257,047 for the six months ended June 30, 2002 and 2001, respectively. The increase in net cash provided by financing activities was due primarily to the raising of additional capital and the lack of debt payments which were \$138.7 million in the prior year. We raised \$618,275,931 in offering proceeds for the six months ended June 30, 2002, as compared to \$162,606,610 for the same period in 2001. Additionally, we paid dividends totaling \$40.9 million in the first half of 2002 compared to \$13.8 million in the first half of 2001.

Results of Operations

As of June 30, 2002, our real estate properties were 100% leased to tenants. Gross revenues were \$43,832,954 and \$21,560,953 for the six months ended June 30, 2002 and 2001, respectively. Gross revenues for the six months ended June 30, 2002 and 2001 were attributable to rental income, interest income earned on funds held by the Wells REIT prior to the investment in properties, and income earned from joint ventures. The increase in revenues in 2002 was primarily attributable to the purchase of \$259,535,578 in additional properties during 2002 and the purchase of \$227,933,858 in additional properties during the second half of 2001 which were not owned for the full first half of 2001. The purchase of additional properties also resulted in an increase in expenses which totaled \$19,296,812 for the six months ended June 30, 2002, as compared to \$13,246,710 for the six months ended June 30, 2001. Expenses in 2002 and 2001 consisted primarily of depreciation, operating costs, interest expense, management and leasing fees and general and administrative costs. As a result, our net income also

Table of Contents

increased from \$8,314,243 for the six months ended June 30, 2001 to \$24,536,142 for the six months ended June 30, 2002.

While earnings of \$0.22 per share remained stable for the six months ended June 30, 2002, compared to the six months ended June 30, 2001, earnings per share for the second quarter decreased from \$0.12 per share for the three months ended June 30, 2001 to \$0.11 per share for the three months ended June 30, 2002, primarily due to a substantial increase in the number of shares outstanding which was not completely matched by a corresponding increase in net income from new property investments.

Funds From Operations

Funds From Operations (FFO), as defined by the National Association of Real Estate Investment Trusts (NAREIT), generally means net income, computed in accordance with GAAP excluding extraordinary items (as defined by GAAP) and gains (or losses) from sales of property, plus depreciation and amortization on real estate assets, and after adjustments for unconsolidated partnerships, joint ventures and subsidiaries. We believe that FFO is helpful to investors as a measure of the performance of an equity REIT. However, our calculation of FFO, while consistent with NAREIT's definition, may not be comparable to similarly titled measures presented by other REITs. Adjusted Funds From Operations (AFFO) is defined as FFO adjusted to exclude the effects of straight-line rent adjustments, deferred loan cost amortization and other non-cash and/or unusual items. Neither FFO nor AFFO represent cash generated from operating activities in accordance with GAAP and should not be considered as alternatives to net income as an indication of our performance or to cash flows as a measure of liquidity or ability to make distributions. The following table reflects the calculation of FFO and AFFO for the three and six months ended June 30, 2002 and 2001, respectively:

Inflation

The real estate market has not been affected significantly by inflation in the past three years due to the relatively low inflation rate. However, there are provisions in the majority of tenant leases which are intended to protect us from the impact of inflation. These provisions include reimbursement billings for common area maintenance charges, real estate tax and insurance reimbursements on a per square foot basis, or in some cases, annual reimbursement of operating expenses above a certain per square foot allowance.

Critical Accounting Policies

Our reported results of operations are impacted by management judgments related to application of accounting policies. A discussion of the accounting policies that management considers to be critical, in that they may require complex judgment in their application or require estimates about matters which are inherently uncertain, is included in Footnote 1 to the financial statements of the Wells REIT contained in this supplement.

(c) Critical Accounting Policies

The Company's accounting policies have been established in accordance with accounting principles generally accepted in the United States (GAAP). The preparation of financial statements in conformity with GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions.

Table of Contents

These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied; thus, resulting in a different presentation of our financial statements. Below is a discussion of the accounting policies that we consider to be critical in that they may require complex judgment in their application or require estimates about matters which are inherently uncertain.

Revenue Recognition

The Company recognizes rental income generated from all leases on real estate assets in which the Company has an ownership interest, either directly or through investments in joint ventures, on a straight-line basis over the terms of the respective leases. If a tenant was to encounter financial difficulties in future periods, the amount recorded as a receivable may not be realized.

Operating Cost Reimbursements

The Company generally bills tenants for operating cost reimbursements, either directly or through investments in joint ventures, on a monthly basis at amounts estimated largely based on actual prior period activity, the current year budget and the respective lease terms. Such billings are generally adjusted on an annual basis to reflect reimbursements owed to the landlord based on the actual costs incurred during the period and the respective lease terms. Financial difficulties encountered by tenants may result in receivables not being realized.

Real Estate

Management continually monitors events and changes in circumstances indicating that the carrying amounts of the real estate assets in which the Company has an ownership interest, either directly or through investments in joint ventures, may not be recoverable. When such events or changes in circumstances are present, management assesses the potential impairment by comparing the fair market value of the asset, estimated at an amount equal to the future undiscounted operating cash flows expected to be generated from tenants over the life of the asset and from its eventual disposition, to the carrying value of the asset. In the event that the carrying amount exceeds the estimated fair market value, the Company would recognize an impairment loss in the amount required to adjust the carrying amount of the asset to its estimated fair market value. Neither the Company nor its joint ventures have recognized impairment losses on real estate assets in 2002 or 2001.

Deferred Project Costs

The Company records acquisition and advisory fees and acquisition expenses payable to Wells Capital, Inc. (the Advisor) by capitalizing deferred project costs and reimbursing the Advisor in an amount equal to 3.5% of cumulative capital raised to date. As the Company invests its capital proceeds, deferred project costs are applied to real estate assets, either directly or through contributions to joint ventures, and depreciated over the useful lives of the respective real estate assets. Acquisition and advisory fees and acquisition expenses paid as of June 30, 2002, amounted to \$50,528,371 and represented approximately 3.5% of capital contributions received. These fees are allocated to specific properties as they are purchased or developed and are included in capitalized assets of the joint venture, or real estate assets. Deferred project costs at June 30, 2002 and December 31, 2001, represent fees paid, but not yet applied to properties.

Deferred Offering Costs

The Advisor expects to continue to fund 100% of the organization and offering costs and recognize related expenses, to the extent that such costs exceed 3% of cumulative capital raised, on behalf of the Company. Organization and offering costs include items such as legal and accounting fees, marketing and promotional costs, and printing costs, and specifically exclude sales costs and underwriting commissions. The Company records offering costs by accruing deferred offering costs, with an offsetting liability included in due to affiliates, at an amount equal to the lesser of 3% of cumulative capital raised to date or actual costs incurred from third-parties less reimbursements paid to the Advisor. As the actual equity is raised, the Company reverses the deferred offering costs accrual and recognizes a charge to stockholders' equity upon reimbursing the Advisor. As of June 30, 2002, the

Table of Contents

Advisor had paid organization and offering expenses on behalf of the Company in an aggregate amount of \$27,886,146, of which the Advisor had been reimbursed \$25,572,034, which did not exceed the 3% limitation. Deferred offering costs in the accompanying balance sheet represent costs incurred by the Advisor which will be reimbursed by the Company.

(d) Distribution Policy

The Company will make distributions each taxable year (not including a return of capital for federal income tax purposes) equal to at least 90% of its real estate investment trusts taxable income. The Company intends to make regular quarterly distributions to stockholders. Distributions will be made to those stockholders who are stockholders as of the record date selected by the Directors. The Company currently calculates quarterly dividends based on the daily record and dividend declaration dates; thus, stockholders are entitled to receive dividends immediately upon the purchase of shares.

Dividends to be distributed to the stockholders are determined by the Board of Directors and are dependent on a number of factors related to the Company, including funds available for payment of dividends, financial condition, capital expenditure requirements and annual distribution requirements in order to maintain the Company's status as a REIT under the Code. Operating cash flows are expected to increase as additional properties are added to the Company's investment portfolio.

(e) Income Taxes

The Company has made an election under Section 856 (C) of the Internal Revenue Code of 1986, as amended (the Code), to be taxed as a Real Estate Investment Trust (REIT) under the Code beginning with its taxable year ended December 31, 1998. As a REIT for federal income tax purposes, the Company generally will not be subject to federal income tax on income that it distributes to its shareholders. If the Company fails to qualify as a REIT in any taxable year, it will then be subject to federal income tax on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost. Such an event could materially adversely affect the Company's net income and net cash available to distribute to shareholders. However, the Company believes that it is organized and operates in such a manner as to qualify for treatment as a REIT and intends to continue to operate in the foreseeable future in such a manner so that the Company will remain qualified as a REIT for federal income tax purposes.

(f) Employees

The Company has no direct employees. The employees of the Advisor and Wells Management Company, Inc. (Wells Management), an affiliate of the Company and the Advisor, perform a full range of real estate services including leasing and property management, accounting, asset management and investor relations for the Company. The Company has reimbursed the Advisor and Wells Management for allocated salaries, wages and other payroll related costs totaling \$683,535 and \$254,000 for the six months ended June 30, 2002 and 2001, respectively and \$366,380 and \$163,725 for the three months ended June 30, 2002 and 2001, respectively.

(g) Insurance

Wells Management Company, Inc., an affiliate of the Company and the Advisor, carries comprehensive liability and extended coverage with respect to all the properties owned directly or indirectly by the Company. In the opinion of management, the properties are adequately insured.

(h) Competition

The Company will experience competition for tenants from owners and managers of competing projects, which may include its affiliates. As a result, the Company may be required to provide free rent, reduced charges for tenant improvements and other inducements, all of which may have an adverse impact on results of operations. At the time the Company elects to dispose of its properties, the Company will also be in competition with sellers of similar properties to locate suitable purchasers for its properties.

Table of Contents**(i) Statement of Cash Flows**

For the purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents include cash and short-term investments.

(j) Basis of Presentation

Substantially all of the Company's business is conducted through Wells OP. On December 31, 1997, Wells OP issued 20,000 limited partner units to the Advisor in exchange for a capital contribution of \$200,000. The Company is the sole general partner in Wells OP; consequently, the accompanying consolidated balance sheet of the Company includes the amounts of the Company and Wells OP. The Advisor, a limited partner, is not currently receiving distributions from its investment in Wells OP.

The consolidated financial statements of the Company have been prepared in accordance with instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. These quarterly statements have not been examined by independent accountants, but in the opinion of the Board of Directors, the statements for the unaudited interim periods presented include all adjustments, which are of a normal and recurring nature, necessary to present a fair presentation of the results for such periods. Results for interim periods are not necessarily indicative of full year results. For further information, refer to the financial statements and footnotes included in the Company's Form 10-K for the year ended December 31, 2001.

2 INVESTMENT IN JOINT VENTURES**(a) Basis of Presentation**

As of June 30, 2002, the Company owned interests in 17 properties in joint ventures with related entities through its ownership in Wells OP, which owns interests in seven such joint ventures. The Company does not have control over the operations of these joint ventures; however, it does exercise significant influence. Accordingly, investment in joint ventures is recorded using the equity method.

(b) Summary of Operations

6. INTEREST RATE SWAP

Wells OP entered into an interest rate swap agreement with Bank of America in an attempt to hedge its interest rate exposure on the Bank of America construction loan for the Nissan Property. The interest rate swap became effective January 15, 2002 and terminates on June 15, 2003, the maturity date of the construction loan. The notional amount of the interest rate swap is the balance outstanding on the construction loan on the payment date, which is the fifteenth of each month. The interest rate swap agreement involves the exchange of amounts based on a fixed interest rate for amounts based on a variable interest rate over the life of the loan agreement without an exchange of the notional amount upon which the payments are based. Wells OP, as the fixed rate payer, has an interest rate of 5.9%. Bank of America, the variable rate payer, pays at a rate equal to U.S. dollar LIBOR on the payment date. During the six months ended June 30, 2002, Wells OP made interest payments totaling approximately \$23,100 under the terms of the interest rate swap. At June 30, 2002, the estimated fair value of the interest rate swap was (\$289,379).

On January 1, 2001, the Company adopted SFAS No. 133, as amended by SFAS No. 137 and No. 138 Accounting for Derivative Instruments and Hedging Activities. The effect of adopting the SFAS No. 133 did not have a material effect on the Company's consolidated financial statements.

7. DUE TO AFFILIATES

Payments of \$601,963 have been made as of June 30, 2002 toward funding the obligation under the Matsushita agreement.

8. COMMITMENTS AND CONTINGENCIES

Take Out Purchase and Escrow Agreement

An affiliate of the Advisor (Wells Exchange) has developed a program (the Wells Section 1031 Program) involving the acquisition by Wells Exchange of income-producing commercial properties and the formation of a series of single member limited liability companies for the purpose of facilitating the resale of co-tenancy interests in such real estate properties to be owned in co-tenancy arrangements with persons (1031 Participants) who are looking to invest the proceeds from a sale of real estate held for investment in another real estate investment for purposes of qualifying for like-kind exchange treatment under Section 1031 of the Code. Each of these properties will be financed by a combination of permanent first mortgage financing and interim loan financing obtained from institutional lenders.

Table of Contents

Following the acquisition of each property, Wells Exchange will attempt to sell co-tenancy interests to 1031 Participants, the proceeds of which will be used to pay off the interim financing. In consideration for the payment of a take out fee to the Company, and following approval of the potential property acquisition by the Company's Board of Directors, it is anticipated that Wells OP will enter into a contractual relationship providing that, in the event that Wells Exchange is unable to sell all of the co-tenancy interests in that particular property to 1031 Participants, Wells OP will purchase, at Wells Exchange's cost, any co-tenancy interests remaining unsold at the end of the offering period. As a part of the initial transaction in the Wells Section 1031 Program, Wells OP entered into a take out purchase and escrow agreement dated April 16, 2001 providing, among other things, that Wells OP would be obligated to acquire, at Wells Exchange's cost, any unsold co-tenancy interests in the building known as the Ford Motor Credit Complex which remained unsold at the expiration of the offering of Wells Exchange, which was extended to April 15, 2002. Wells OP was compensated for its takeout commitment in the amount of \$137,500 in 2001 and \$134,102 in 2002. On April 12, 2002, Wells Exchange paid off the interim financing on the Ford Motor Credit Complex. Pay off of the loan triggered the release of Wells OP from its prior obligations under the take out purchase and escrow agreement relating to such property.

Wells OP obtained a construction loan in the amount of \$13,700,000 from Bank of America to fund the construction of a building on the Kerr McGee Property. The loan requires monthly payments of interest only and matures on January 29, 2004. The interest rate on the loan as of August 6, 2002 was 3.80%.
