UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

☐ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2019

or

○ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-00368

Chevron Corporation

(Exact name of registrant as specified in its charter)

Delaware 94-0890210 6001 Bollinger Canyon Road,
San Ramon, California 94583-2324

(State or other jurisdiction of (I.R.S. Employer (Address of principal executive offices)
incorporation or organization) Identification No.) (Zip Code)

Registrant's telephone number, including area code: (925) 842-1000

NONE

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☐ No ○

Edgar Filing: CHEVRON CORP - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common stock, par value \$.75 per share	CVX	New York Stock Exchange, Inc.

There were 1,904,726,061 shares of the Company's common stock outstanding on March 31, 2019.

CAUTIONARY STATEMENTS RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This quarterly report on Form 10-Q of Chevron Corporation contains forward-looking statements relating to Chevron’s operations that are based on management’s current expectations, estimates and projections about the petroleum, chemicals and other energy-related industries. Words or phrases such as “anticipates,” “expects,” “intends,” “plans,” “targets,” “forecasts,” “projects,” “believes,” “seeks,” “schedules,” “estimates,” “positions,” “pursues,” “may,” “could,” “should,” “will,” “trends,” “guidance,” “focus,” “on schedule,” “on track,” “is slated,” “goals,” “objectives,” “strategies,” “opportunities,” “pois expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond the company’s control and are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. The reader should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Unless legally required, Chevron undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Key factors that could cause actual results to differ materially from those projected in the forward-looking statements include, among others: changing crude oil and natural gas prices; changing refining, marketing and chemicals margins; the company's ability to realize anticipated cost savings and expenditure reductions; actions of competitors or regulators; timing of exploration expenses; timing of crude oil liftings; the competitiveness of alternate-energy sources or product substitutes; technological developments; the results of operations and financial condition of the company's suppliers, vendors, partners and equity affiliates, particularly during extended periods of low prices for crude oil and natural gas; the inability or failure of the company’s joint-venture partners to fund their share of operations and development activities; the potential failure to achieve expected net production from existing and future crude oil and natural gas development projects; potential delays in the development, construction or start-up of planned projects; the potential disruption or interruption of the company’s operations due to war, accidents, political events, civil unrest, severe weather, cyber threats and terrorist acts, crude oil production quotas or other actions that might be imposed by the Organization of Petroleum Exporting Countries, or other natural or human causes beyond the company's control; changing economic, regulatory and political environments in the various countries in which the company operates; general domestic and international economic and political conditions; the potential liability for remedial actions or assessments under existing or future environmental regulations and litigation; significant operational, investment or product changes required by existing or future environmental statutes and regulations, including international agreements and national or regional legislation and regulatory measures to limit or reduce greenhouse gas emissions; the potential liability resulting from pending or future litigation; the ability to successfully receive the requisite approvals and consummate the proposed acquisition of Anadarko Petroleum Corporation; the ability to successfully integrate the operations of Chevron and Anadarko and achieve the anticipated benefits from the transaction; the company’s other future acquisitions or dispositions of assets or shares or the delay or failure of such transactions to close based on required closing conditions; the potential for gains and losses from asset dispositions or impairments; government-mandated sales, divestitures, recapitalizations, industry-specific taxes, tariffs, sanctions, changes in fiscal terms or restrictions on scope of company operations; foreign currency movements compared with the U.S. dollar; material reductions in corporate liquidity and access to debt markets; the effects of changed accounting rules under generally accepted accounting principles promulgated by rule-setting bodies; the company's ability to identify and mitigate the risks and hazards inherent in operating in the global energy industry; and the factors set forth under the heading “Risk Factors” on pages 18 through 21 of the company’s 2018 Annual Report on Form 10-K and in other filings with the U.S. Securities and Exchange Commission. Other unpredictable or unknown factors not discussed in this report could also have material adverse effects on forward-looking statements.

See accompanying notes to consolidated financial statements.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Note 1. Interim Financial Statements**

The accompanying consolidated financial statements of Chevron Corporation and its subsidiaries (together, Chevron or the company) have not been audited by an independent registered public accounting firm. In the opinion of the company's management, the interim data includes all adjustments necessary for a fair statement of the results for the interim periods. These adjustments were of a normal recurring nature. The results for the three-month period ended March 31, 2019, are not necessarily indicative of future financial results. The term "earnings" is defined as net income attributable to Chevron.

Certain notes and other information have been condensed or omitted from the interim financial statements presented in this Quarterly Report on Form 10-Q. Therefore, these financial statements should be read in conjunction with the company's 2018 Annual Report on Form 10-K.

Note 2. Changes in Accumulated Other Comprehensive Losses

The change in Accumulated Other Comprehensive Losses (AOCL) presented on the Consolidated Balance Sheet and the impact of significant amounts reclassified from AOCL on information presented in the Consolidated Statement of Income for the three months ended March 31, 2019 and 2018 are reflected in the table below.

Changes in Accumulated Other Comprehensive Income (Loss) by Component⁽¹⁾

(Millions of dollars)	Currency Translation Adjustment	Unrealized Holding Gains (Losses) on Securities	Derivatives	Defined Benefit Plans	Total
Balance at December 31, 2017	\$(105)	\$ (5)	\$ (2)	\$(3,477)	\$(3,589)
Components of Other Comprehensive Income (Loss):					
Before Reclassifications	10	(1)	—	5	14
Reclassifications	—	—	—	116	116
Net Other Comprehensive Income (Loss)	10	(1)	—	121	130
Balance at March 31, 2018	\$(95)	\$ (6)	\$ (2)	\$(3,356)	\$(3,459)
Balance at December 31, 2018	\$(124)	\$ (10)	\$ (2)	\$(3,408)	\$(3,544)
Components of Other Comprehensive Income (Loss):					
Before Reclassifications	(4)	(1)	—	(4)	(9)
Reclassifications ⁽²⁾	—	—	—	94	94
Net Other Comprehensive Income (Loss)	(4)	(1)	—	90	85
Balance at March 31, 2019	\$(128)	\$ (11)	\$ (2)	\$(3,318)	\$(3,459)

⁽¹⁾ All amounts are net of tax.

Refer to Note 9, Employee Benefits for reclassified components totaling \$121 million that are included in employee benefit costs for the three months ended

⁽²⁾ March 31, 2019. Related income taxes for the same period, totaling \$27 million, are reflected in "Income Tax Expense" on the Consolidated Statement of Income. All other reclassified amounts were insignificant.

Note 3. New Accounting Standards

Leases (Topic 842) Effective January 1, 2019, Chevron adopted Accounting Standards Update (ASU) 2016-02 and its related amendments. For additional information on the company's leases, refer to Note 10 beginning on page 14.

Financial Instruments - Credit Losses (Topic 326) In June 2016, the FASB issued ASU 2016-13, which becomes effective for the company beginning January 1, 2020. The standard requires companies to use forward-looking information to calculate credit loss estimates. The company is evaluating the effect of the standard on its consolidated financial statements.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)****Note 4. Information Relating to the Consolidated Statement of Cash Flows**

	Three Months Ended	
	March 31	
(Millions of dollars)	2019	2018
Net decrease (increase) in operating working capital was composed of the following:		
Decrease (increase) in accounts and notes receivable	\$473	\$(335)
Decrease (increase) in inventories	(1,098)	(543)
Decrease (increase) in prepaid expenses and other current assets	(667)	(608)
Increase (decrease) in accounts payable and accrued liabilities	(160)	(807)
Increase (decrease) in income and other taxes payable	242	189
Net decrease (increase) in operating working capital	\$(1,210)	\$(2,104)
Net cash provided by operating activities includes the following cash payments:		
Interest on debt (net of capitalized interest)	\$186	\$105
Income taxes	757	843
Proceeds and deposits related to asset sales and returns of investment consisted of the following gross amounts:		
Proceeds and deposits related to asset sales	\$276	\$31
Returns of investment from equity affiliates	18	80
Proceeds and deposits related to asset sales and returns of investment	\$294	\$111
Net maturities of (investments in) time deposits consisted of the following gross amounts:		
Investments in time deposits	\$—	\$—
Maturities of time deposits	950	—
Net maturities of (investments in) time deposits	\$950	\$—
Net sales (purchases) of marketable securities consisted of the following gross amounts:		
Marketable securities purchased	\$(1)	\$(29)
Marketable securities sold	3	—
Net sales (purchases) of marketable securities	\$2	\$(29)
Net repayment (borrowing) of loans by equity affiliates consisted of the following gross amounts:		
Borrowing of loans by equity affiliates	\$(350)	\$—
Repayment of loans by equity affiliates	29	26
Net repayment (borrowing) of loans by equity affiliates	\$(321)	\$26
Net borrowings (repayments) of short-term obligations consisted of the following gross and net amounts:		
Proceeds from issuances of short-term obligations	\$359	\$658
Repayments of short-term obligations	(134)	(1,377)
Net borrowings (repayments) of short-term obligations with three months or less maturity	711	3,933
Net borrowings (repayments) of short-term obligations	\$936	\$3,214

The Consolidated Statement of Cash Flows excludes changes to the Consolidated Balance Sheet that did not affect cash.

"Other" includes changes in postretirement benefits obligations and other long-term liabilities.

The "Net sales (purchases) of treasury shares" represents the cost of common shares acquired less the cost of shares issued for share-based compensation plans. Purchases totaled \$538 million for the first three months in 2019 and \$1 million for the first three months in 2018. During the first three months in 2019, the company purchased 4.7 million shares under its share repurchase program for \$537 million. No purchases were made under the company's share repurchase program in the first three months of 2018.

The company paid dividends of \$1.19 per share of common stock in first quarter 2019. This compares to dividends of \$1.12 per share paid in the corresponding year-ago period.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The major components of “Capital expenditures” and the reconciliation of this amount to the reported capital and exploratory expenditures, including equity affiliates, are presented in the following table:

(Millions of dollars)	Three Months Ended March 31	
	2019	2018
Additions to properties, plant and equipment	\$2,865	\$2,937
Additions to investments	14	15
Current-year dry hole expenditures	74	45
Payments for other liabilities and assets, net	—	—
Capital expenditures	2,953	2,997
Expensed exploration expenditures	103	113
Assets acquired through finance lease obligations and other financing obligations	146	—
Capital and exploratory expenditures, excluding equity affiliates	3,202	3,110
Company's share of expenditures by equity affiliates	1,532	1,295
Capital and exploratory expenditures, including equity affiliates	\$4,734	\$4,405

The table below quantifies the beginning and ending balances of restricted cash and restricted cash equivalents in the Consolidated Balance Sheet:

	At March 31		At December 31	
	2019	2018	2018	2017
	(Millions of dollars)		(Millions of dollars)	
Cash and Cash Equivalents	\$8,699	\$6,466	\$9,342	\$4,813
Restricted cash included in "Prepaid expenses and other current assets"	195	316	341	405
Restricted cash included in "Deferred charges and other assets"	801	735	798	725
Total Cash, Cash Equivalents and Restricted Cash	\$9,695	\$7,517	\$10,481	\$5,943

Additional information related to "Restricted Cash" is included on page 23 in Note 14 under the heading "Restricted Cash."

Note 5. Assets Held For Sale

At March 31, 2019, the company classified \$2.65 billion of net properties, plant and equipment as “Assets held for sale” on the Consolidated Balance Sheet. These assets are primarily associated with upstream operations that are anticipated to be sold in the next 12 months. The revenues and earnings contributions of these assets in 2018 and the first three months of 2019 were not material.

Note 6. Summarized Financial Data — Tengizchevroil LLP

Chevron has a 50 percent equity ownership interest in Tengizchevroil LLP (TCO). Summarized financial information for 100 percent of TCO is presented in the following table:

	Three Months Ended March 31	
	2019	2018
	(Millions of dollars)	
Sales and other operating revenues	\$4,107	\$4,325
Costs and other deductions	2,002	1,942
Net income attributable to TCO	1,481	1,679

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)****Note 7. Summarized Financial Data — Chevron U.S.A. Inc.**

Chevron U.S.A. Inc. (CUSA) is a major subsidiary of Chevron Corporation. CUSA and its subsidiaries manage and operate most of Chevron's U.S. businesses. Assets include those related to the exploration and production of crude oil, natural gas and natural gas liquids and those associated with refining, marketing, and supply and distribution of products derived from petroleum, excluding most of the regulated pipeline operations of Chevron. CUSA also holds the company's investment in the Chevron Phillips Chemical Company LLC joint venture, which is accounted for using the equity method.

The summarized financial information for CUSA and its consolidated subsidiaries is as follows:

	Three Months Ended	
	March 31	
	2019	2018
	(Millions of dollars)	
Sales and other operating revenues	\$25,942	\$28,058
Costs and other deductions	25,757	27,596
Net income attributable to CUSA	181	697

	At March	At
	31	December
	2019	31
	2018	
	(Millions of dollars)	
Current assets	\$14,910	\$12,819
Other assets	58,896	55,814
Current liabilities	19,980	16,376
Other liabilities	14,763	12,906
Total CUSA net equity	\$39,063	\$39,351
Memo: Total debt	\$3,192	\$3,049

Note 8. Operating Segments and Geographic Data

Although each subsidiary of Chevron is responsible for its own affairs, Chevron Corporation manages its investments in these subsidiaries and their affiliates. The investments are grouped into two business segments, Upstream and Downstream, representing the company's "reportable segments" and "operating segments." Upstream operations consist primarily of exploring for, developing and producing crude oil and natural gas; liquefaction, transportation and regasification associated with liquefied natural gas (LNG); transporting crude oil by major international oil export pipelines; processing, transporting, storage and marketing of natural gas; and a gas-to-liquids plant. Downstream operations consist primarily of refining of crude oil into petroleum products; marketing of crude oil and refined products; transporting of crude oil and refined products by pipeline, marine vessel, motor equipment and rail car; and manufacturing and marketing of commodity petrochemicals, plastics for industrial uses, and fuel and lubricant additives. All Other activities of the company include worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities and technology companies.

The company's segments are managed by "segment managers" who report to the "chief operating decision maker" (CODM). The segments represent components of the company that engage in activities (a) from which revenues are earned and expenses are incurred; (b) whose operating results are regularly reviewed by the CODM, which makes decisions about resources to be allocated to the segments and assesses their performance; and (c) for which discrete financial information is available.

The company's primary country of operation is the United States of America, its country of domicile. Other components of the company's operations are reported as "International" (outside the United States).

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Segment Earnings The company evaluates the performance of its operating segments on an after-tax basis, without considering the effects of debt financing interest expense or investment interest income, both of which are managed by the company on a worldwide basis. Corporate administrative costs and assets are not allocated to the operating segments. However, operating segments are billed for the direct use of corporate services. Nonbillable costs remain at the corporate level in “All Other.” Earnings by major operating area for the three-month periods ended March 31, 2019 and 2018, are presented in the following table:

Segment Earnings	Three Months Ended March 31	
	2019	2018
	(Millions of dollars)	
Upstream		
United States	\$748	\$648
International	2,375	2,704

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Segment Sales and Other Operating Revenues Segment sales and other operating revenues, including internal transfers, for the three-month periods ended March 31, 2019 and 2018, are presented in the following table. Products are transferred between operating segments at internal product values that approximate market prices. Revenues for the upstream segment are derived primarily from the production and sale of crude oil and natural gas, as well as the sale of third-party production of natural gas. Revenues for the downstream segment are derived from the refining and marketing of petroleum products such as gasoline, jet fuel, gas oils, lubricants, residual fuel oils and other products derived from crude oil. This segment also generates revenues from the manufacture and sale of fuel and lubricant additives and the transportation and trading of refined products and crude oil. “All Other” activities include revenues from insurance operations, real estate activities and technology companies.

Note 9. Employee Benefits

Chevron has defined benefit pension plans for many employees. The company typically prefunds defined benefit plans as required by local regulations or in certain situations where prefunding provides economic advantages. In the United States, all qualified plans are subject to the Employee Retirement Income Security Act minimum funding standard. The company does not typically fund U.S. nonqualified pension plans that are not subject to funding

requirements under laws and regulations because contributions to these pension plans may be less economic and investment returns may be less attractive than the company's other investment alternatives.

The company also sponsors other postretirement employee benefit (OPEB) plans that provide medical and dental benefits, as well as life insurance for some active and qualifying retired employees. The plans are unfunded, and the company and the retirees share the costs. For the company's main U.S. medical plan, the increase to the pre-

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Medicare company contribution for retiree medical coverage is limited to no more than 4 percent each year. Certain life insurance benefits are paid by the company.

The components of net periodic benefit costs for 2019 and 2018 are as follows:

	Three Months Ended March 31	
	2019	2018
	(Millions of dollars)	
Pension Benefits

Amortization of prior service costs (credits)	(7)	(7)
Amortization of actuarial losses (gains)	(1)	4
Net Periodic Other Benefit Costs	\$25	\$31

* Includes costs for U.S. and international OPEB plans. Obligations for plans outside the United States are not significant relative to the company's total OPEB obligation.

Through March 31, 2019, a total of \$326 million was contributed to employee pension plans (including \$288 million to the U.S. plans). Total contributions for the full year are currently estimated to be \$1.3 billion (\$1.1 billion for the U.S. plans and \$200 million for the international plans). Actual contribution amounts are dependent upon plan investment returns, changes in pension obligations, regulatory requirements and other economic factors. Additional funding may ultimately be required if investment returns are insufficient to offset increases in plan obligations. During the first three months of 2019, the company contributed \$47 million to its OPEB plans. The company anticipates contributing approximately \$128 million during the remainder of 2019.

Note 10. Lease Commitments

Chevron implemented the new lease standard at the effective date of January 1, 2019. The cumulative-effect adjustment to the opening balance of 2019 retained earnings is de minimis. The company elected the option to apply the transition provisions at the adoption date instead of the earliest comparative period presented in the financial statements. By making this election, the company has not applied retrospective reporting for the years 2017 and 2018. The company elected the short-term lease exception provided for in the standard and therefore only recognizes

right-of-use assets and lease liabilities for leases with a term greater than one year. The company elected the package of practical expedients to not re-evaluate existing contracts as containing a lease or the lease classification unless it was not previously assessed against the lease criteria. In addition, the company did not reassess initial direct costs for any existing leases. The company applied the land easement practical expedient.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The company has elected the practical expedient to not separate non-lease components from lease components for most asset classes except for certain asset classes that have significant non-lease (i.e., service) components. The company assessed some contracts, including those for drill ships, drilling rigs, and storage tanks, not previously assessed against the lease criteria, as operating leases under the new standard, increasing the lease commitments by approximately \$2 billion.

The company enters into leasing arrangements as a lessee; any lessor arrangements are not significant. Leases are classified as operating or finance leases. Both operating and finance leases recognize lease liabilities and associated right-of-use assets. Operating lease arrangements mainly involve drill ships, drilling rigs, time chartered vessels, bareboat charters, terminals, exploration and production equipment, office buildings and warehouses, and land. Finance leases primarily include facilities and vessels.

Chevron uses various assumptions and judgments in preparing the quantitative data and qualitative information that is material to the company's overall lease population. Where leases are used in joint ventures, the company recognizes 100% of the right-of-use assets and lease liabilities when the company is the sole signatory for the lease (in most cases, where the company is the operator of a joint venture). Lease costs reflect only the costs associated with the operator's working interest share. The lease term includes the committed lease term identified in the contract, taking into account renewal and termination options that management is reasonably certain to exercise. The company uses its incremental borrowing rate as a proxy for the discount rate based on the term of the lease unless the implicit rate is available.

Details of the right-of-use assets and lease liabilities for operating and finance leases, including the balance sheet presentation, are as follows:

	At March 31, 2019	
	Operating Leases	Finance Leases
	(Millions of dollars)	
Deferred charges and other assets	\$4,318	\$—
Properties, plant and equipment, net	—	331
Right-of-use assets ⁽¹⁾⁽²⁾	\$4,318	\$331
Accrued Liabilities	1,387	—
Short Term Debt	—	27
Current lease liabilities	1,387	27
Deferred credits and other noncurrent obligations	2,742	—
Long-term Debt	—	259
Noncurrent lease liabilities	2,742	259
Total lease liabilities	\$4,129	\$286
Weighted-average remaining lease term (in years)	5.2	15.8
Weighted-average discount rate	3.1	% 5.0 %

⁽¹⁾ Capitalized leased assets of \$818 million are primarily from the Upstream segment, with accumulated amortization of \$617 million at December 31, 2018.

⁽²⁾ Includes non-cash additions of \$455 million and \$146 million right-of-use assets obtained in exchange for new and modified lease liabilities in 2019 for operating and finance leases, respectively.

Total lease costs consist of both amounts recognized in the Consolidated Statement of Income during the period and amounts capitalized as part of the cost of another asset. Total lease costs incurred for operating and finance leases during first quarter 2019 were as follows:

**Three
Months
Ended
March
31, 2019**

	(Millions of dollars)
Operating lease costs*	\$ 587
Finance lease costs	9
Total lease costs	\$ 596

* Includes variable and short-term lease costs.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Cash paid for amounts included in the measurement of lease liabilities was as follows:

	Three Months Ended March 31, 2019 (Millions of dollars)
Operating cash flows from operating leases	\$ 351
Investing cash flows from operating leases	236
Operating cash flows from finance leases	3
Financing cash flows from finance leases	6

At March 31, 2019, the estimated future undiscounted cash flows for operating and finance leases were as follows:

	At March 31, 2019	
	Operating Leases	Finance Leases
	(Millions of dollars)	
Year 2019 (remaining months)	\$ 1,170	\$ 33
2020	1,076	31
2021	859	30
2022	411	28
2023	257	27
2024	153	27
Thereafter	585	227
Total	\$ 4,511	\$ 403
Less: Amounts representing interest	382	117
Total lease liabilities	\$ 4,129	\$ 286

Additionally, the company has \$1.0 billion in future undiscounted cash flows for operating leases not yet commenced. These leases are primarily for a drill ship, bareboat charters, and a drilling rig. For those leasing arrangements where the underlying asset is not yet constructed, the lessor is primarily involved in the design and construction of the asset. At December 31, 2018, the estimated future minimum lease payments (net of noncancelable sublease rentals) under operating and capital leases, which at inception had a noncancelable term of more than one year, were as follows:

	At December 31, 2018	
	Operating Leases	Capital Leases *
	(Millions of dollars)	
Year 2019	\$ 540	\$ 30
2020	492	22
2021	378	17
2022	242	16
2023	166	16
Thereafter	341	132
Total	\$ 2,159	\$ 233
Less: Amounts representing interest and	(88))

executory costs	
Net present values	145
Less: Capital lease obligations included in short-term debt	(18)
Long-term capital lease obligations	\$ 127

* Excluded from the table is an executed but not-yet-commenced capital lease with payments of \$14, \$15, \$22, \$21, \$21 and \$219 for 2019, 2020, 2021, 2022, 2023 and thereafter, respectively.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)****Note 11. Income Taxes**

The decrease in income tax expense between quarterly periods of \$99 million, from \$1.41 billion in 2018 to \$1.31 billion in 2019, is a result of the year-over-year decrease in total income before income tax expense, which is primarily due to the effect of lower crude oil prices. The company's effective tax rate changed between periods from 28 percent in 2018 to 33 percent in 2019. The change in effective tax rate is primarily a consequence of the mix effect resulting from the absolute level of earnings or losses and whether they arose in higher or lower tax rate jurisdictions. Tax positions for Chevron and its subsidiaries and affiliates are subject to income tax audits by many tax jurisdictions throughout the world. For the company's major tax jurisdictions, examinations of tax returns for certain prior tax years had not been completed as of March 31, 2019. For these jurisdictions, the latest years for which income tax examinations had been finalized were as follows: United States — 2013, Nigeria — 2000, Australia — 2006 and Kazakhstan — 2007.

The company engages in ongoing discussions with tax authorities regarding the resolution of tax matters in the various jurisdictions. Both the outcomes for these tax matters and the timing of resolution and/or closure of the tax audits are highly uncertain. However, it is reasonably possible that developments regarding tax matters in certain tax jurisdictions may result in significant increases or decreases in the company's total unrecognized tax benefits within the next 12 months. Given the number of years that still remain subject to examination and the number of matters being examined in the various tax jurisdictions, the company is unable to estimate the range of possible adjustments to the balance of unrecognized tax benefits.

Note 12. Litigation*MTBE*

Chevron and many other companies in the petroleum industry have used methyl tertiary butyl ether (MTBE) as a gasoline additive. Chevron is a party to six pending lawsuits and claims, the majority of which involve numerous other petroleum marketers and refiners. Resolution of these lawsuits and claims may ultimately require the company to correct or ameliorate the alleged effects on the environment of prior release of MTBE by the company or other parties. Additional lawsuits and claims related to the use of MTBE, including personal-injury claims, may be filed in the future. The company's ultimate exposure related to pending lawsuits and claims is not determinable. The company no longer uses MTBE in the manufacture of gasoline in the United States.

Ecuador

Background Chevron is a defendant in a civil lawsuit initiated in the Superior Court of Nueva Loja in Lago Agrio, Ecuador (the provincial court), in May 2003 by plaintiffs who claim to be representatives of certain residents of an area where an oil production consortium formerly had operations. The lawsuit alleges damage to the environment from the oil exploration and production operations and seeks unspecified damages to fund environmental remediation and restoration of the alleged environmental harm, plus a health monitoring program. Until 1992, Texaco Petroleum Company (Texpet), a subsidiary of Texaco Inc., was a minority member of this consortium with Petroecuador, the Ecuadorian state-owned oil company, as the majority partner; since 1990, the operations have been conducted solely by Petroecuador. At the conclusion of the consortium and following an independent third-party environmental audit of the concession area, Texpet entered into a formal agreement with the Republic of Ecuador and Petroecuador for Texpet to remediate specific sites assigned by the government in proportion to Texpet's ownership share of the consortium. Pursuant to that agreement, Texpet conducted a three-year remediation program at a cost of \$40 million. After certifying that the sites were properly remediated, the government granted Texpet and all related corporate entities a full release from any and all environmental liability arising from the consortium operations.

Based on the history described above, Chevron believes that this lawsuit lacks legal or factual merit. As to matters of law, the company believes first, that the court lacks jurisdiction over Chevron; second, that the law under which plaintiffs bring the action, enacted in 1999, cannot be applied retroactively; third, that the claims are barred by the statute of limitations in Ecuador; and, fourth, that the lawsuit is also barred by the releases from liability previously given to Texpet by the Republic of Ecuador and Petroecuador and by the pertinent provincial and municipal governments. With regard to the facts, the company believes that the evidence confirms that Texpet's

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

remediation was properly conducted and that the remaining environmental damage reflects Petroecuador's failure to timely fulfill its legal obligations and Petroecuador's further conduct since assuming full control over the operations. *Lago Agrio Judgment* On February 14, 2011, the provincial court rendered a judgment against Chevron. The court rejected Chevron's defenses to the extent the court addressed them in its opinion. The judgment assessed approximately \$8.6 billion in damages and approximately \$900 million as an award for the plaintiffs' representatives. It also assessed an additional amount of approximately \$8.6 billion in punitive damages unless the company issued a public apology within 15 days of the judgment, which Chevron did not do. On February 17, 2011, the plaintiffs appealed the judgment, seeking increased damages, and on March 11, 2011, Chevron appealed the judgment seeking to have the judgment nullified. On January 3, 2012, an appellate panel in the provincial court affirmed the February 14, 2011 decision and ordered that Chevron pay additional attorneys' fees in the amount of "0.10% of the values that are derived from the decisional act of this judgment." The plaintiffs filed a petition to clarify and amplify the appellate decision on January 6, 2012, and the provincial court issued a ruling in response on January 13, 2012, purporting to clarify and amplify its January 3, 2012 ruling, which included clarification that the deadline for the company to issue a public apology to avoid the additional amount of approximately \$8.6 billion in punitive damages was within 15 days of the clarification ruling, or February 3, 2012. Chevron did not issue an apology because doing so might be mischaracterized as an admission of liability and would be contrary to facts and evidence submitted at trial. On January 20, 2012, Chevron appealed (called a petition for cassation) the appellate panel's decision to Ecuador's National Court of Justice (the National Court). On February 17, 2012, the appellate panel of the provincial court admitted Chevron's cassation appeal in a procedural step necessary for the National Court to hear the appeal. On March 29, 2012, the matter was transferred from the provincial court to the National Court, and on November 22, 2012, the National Court agreed to hear Chevron's cassation appeal. On August 3, 2012, the provincial court approved a court-appointed liquidator's report on damages that calculated the total judgment in the case to be \$19.1 billion. On November 13, 2013, the National Court ratified the judgment but nullified the \$8.6 billion punitive damage assessment, resulting in a judgment of \$9.5 billion. On December 23, 2013, Chevron appealed the decision to the Ecuador Constitutional Court, Ecuador's highest court. The reporting justice of the Constitutional Court heard oral arguments on the appeal on July 16, 2015. On July 10, 2018, Ecuador's Constitutional Court released a decision rejecting Chevron's appeal, which sought to nullify the National Court's judgment against Chevron. No further appeals are available in Ecuador.

Lago Agrio Plaintiffs' Enforcement Actions Chevron has no assets in Ecuador and the Lago Agrio plaintiffs' lawyers have stated in press releases and through other media that they will seek to enforce the Ecuadorian judgment in various countries and otherwise disrupt Chevron's operations. On May 30, 2012, the Lago Agrio plaintiffs filed an action against Chevron Corporation, Chevron Canada Limited, and Chevron Canada Finance Limited in the Ontario Superior Court of Justice in Ontario, Canada, seeking to recognize and enforce the Ecuadorian judgment. On May 1, 2013, the Ontario Superior Court of Justice held that the Court has jurisdiction over Chevron and Chevron Canada Limited for purposes of the action, but stayed the action due to the absence of evidence that Chevron Corporation has assets in Ontario. The Lago Agrio plaintiffs appealed that decision and on December 17, 2013, the Court of Appeal for Ontario affirmed the lower court's decision on jurisdiction and set aside the stay, allowing the recognition and enforcement action to be heard in the Ontario Superior Court of Justice. Chevron appealed the decision to the Supreme Court of Canada and, on September 4, 2015, the Supreme Court dismissed the appeal and affirmed that the Ontario Superior Court of Justice has jurisdiction over Chevron and Chevron Canada Limited for purposes of the action. On January 20, 2017, the Ontario Superior Court of Justice granted Chevron Canada Limited's and Chevron Corporation's motions for summary judgment, concluding that the two companies are separate legal entities with separate rights and obligations. As a result, the Superior Court dismissed the recognition and enforcement claim against Chevron Canada Limited. Chevron Corporation still remains as a defendant in the action. On February 3, 2017, the Lago Agrio plaintiffs appealed the Superior Court's January 20, 2017 decision. On May 24, 2018, the Court of Appeal for Ontario upheld the Superior Court's dismissal of Chevron Canada Limited from the case. On June 22, 2018, the Lago Agrio plaintiffs filed leave to appeal the decision of the Court of Appeal for Ontario to the Supreme

Court of Canada.

18

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

On April 4, 2019, the Canadian Supreme Court denied the Lago Agrio plaintiffs' petition for leave to appeal. As a result, the ruling from the Court of Appeal for Ontario is now final, and all claims against Chevron Canada Limited are dismissed. The action against Chevron Corporation remains active.

On June 27, 2012, the Lago Agrio plaintiffs filed a complaint against Chevron Corporation in the Superior Court of Justice in Brasilia, Brazil, seeking to recognize and enforce the Ecuadorian judgment. On May 13, 2015, the public prosecutor issued its nonbinding opinion and recommended that the Superior Court of Justice reject the plaintiffs' recognition and enforcement request, finding, among other things, that the Lago Agrio judgment was procured through fraud and corruption and cannot be recognized in Brazil because it violates Brazilian and international public order. On November 29, 2017, the Superior Court of Justice issued a decision dismissing the Lago Agrio plaintiffs' recognition and enforcement proceeding based on jurisdictional grounds. On June 15, 2018, this decision became a final judgment in Brazil.

On October 15, 2012, the provincial court issued an ex parte embargo order that purports to order the seizure of assets belonging to separate Chevron subsidiaries in Ecuador, Argentina and Colombia. On November 6, 2012, at the request of the Lago Agrio plaintiffs, a court in Argentina issued a Freeze Order against Chevron Argentina S.R.L. and another Chevron subsidiary. On January 30, 2013, an appellate court upheld the Freeze Order, but on June 4, 2013, the Supreme Court of Argentina revoked the Freeze Order in its entirety. On December 12, 2013, the Lago Agrio plaintiffs served Chevron with notice of their filing of an enforcement proceeding in the National Court, First Instance, of Argentina. Chevron filed its answer on February 27, 2014 to which the Lago Agrio plaintiffs responded on December 29, 2015. On April 19, 2016, the public prosecutor in Argentina issued a non-binding opinion recommending to the National Court, First Instance, of Argentina that it reject the Lago Agrio plaintiffs' request to recognize the Ecuadorian judgment in Argentina. On February 24, 2017, the public prosecutor in Argentina issued a supplemental opinion reaffirming its previous recommendations. On November 1, 2017, the National Court, First Instance, of Argentina issued a decision dismissing the Lago Agrio plaintiffs' recognition and enforcement proceeding based on jurisdictional grounds. On November 2, 2017, the Lago Agrio plaintiffs appealed this decision to the Federal Civil Court of Appeals. On July 3, 2018, the Federal Civil Court of Appeals affirmed the National Court, First Instance's, dismissal of the Lago Agrio plaintiffs' recognition and enforcement action based on jurisdictional grounds. On October 5, 2018, the Federal Civil Court of Appeals granted, in part, the admissibility of the Lago Agrio plaintiffs' appeal to the Supreme Court of Argentina.

Chevron continues to believe the Ecuadorian judgment is illegitimate and unenforceable in Ecuador, the United States and other countries. The company also believes the judgment is the product of fraud and contrary to the legitimate scientific evidence. Chevron cannot predict the timing or ultimate outcome of any enforcement action. Chevron expects to continue a vigorous defense of any imposition of liability and to contest and defend any and all enforcement actions.

Company's Bilateral Investment Treaty Arbitration Claims Chevron and Texpet filed an arbitration claim in September 2009 against the Republic of Ecuador before an arbitral tribunal presiding in the Permanent Court of Arbitration in The Hague under the Rules of the United Nations Commission on International Trade Law. The claim alleges violations of the Republic of Ecuador's obligations under the United States–Ecuador Bilateral Investment Treaty (BIT) and breaches of the settlement and release agreements between the Republic of Ecuador and Texpet (described above), which are investment agreements protected by the BIT. Through the arbitration, Chevron and Texpet are seeking relief against the Republic of Ecuador, including a declaration that any judgment against Chevron in the Lago Agrio litigation constitutes a violation of Ecuador's obligations under the BIT. On January 25, 2012, the Tribunal issued its First Interim Measures Award requiring the Republic of Ecuador to take all measures at its disposal to suspend or cause to be suspended the enforcement or recognition within and outside of Ecuador of any judgment against Chevron in the Lago Agrio case pending further order of the Tribunal. On February 16, 2012, the Tribunal issued a Second Interim Award mandating that the Republic of Ecuador take all measures necessary (whether by its judicial, legislative or executive branches) to suspend or cause to be suspended the enforcement and recognition within and outside of Ecuador of the judgment against Chevron. On February 27, 2012, the Tribunal issued a Third

Interim Award confirming its jurisdiction to hear Chevron's arbitration claims. On February 7, 2013, the Tribunal issued its Fourth Interim Award in which it declared that the Republic of Ecuador “has violated the

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

First and Second Interim Awards under the [BIT], the UNCITRAL Rules and international law in regard to the finalization and enforcement subject to execution of the Lago Agrio Judgment within and outside Ecuador, including (but not limited to) Canada, Brazil and Argentina.” The Republic of Ecuador subsequently filed in the District Court of the Hague a request to set aside the Tribunal’s Interim Awards and the First Partial Award (described below), and on January 20, 2016, the District Court denied the Republic’s request. On April 13, 2016, the Republic of Ecuador appealed the decision. On July 18, 2017, the Appeals Court of the Hague denied the Republic’s appeal. On October 18, 2017, the Republic appealed the decision of the Appeals Court of the Hague to the Supreme Court of the Netherlands. On April 12, 2019, the Supreme Court of the Netherlands upheld the decision of the Appeals Court of the Hague and rejected Ecuador’s challenges to the Tribunal’s Interim Awards and the First Partial Award.

The Tribunal has divided the merits phase of the proceeding into three phases. On September 17, 2013, the Tribunal issued its First Partial Award from Phase One, finding that the settlement agreements between the Republic of Ecuador and Texpet applied to Texpet and Chevron, released Texpet and Chevron from claims based on "collective" or "diffuse" rights arising from Texpet’s operations in the former concession area and precluded third parties from asserting collective/diffuse rights environmental claims relating to Texpet’s operations in the former concession area but did not preclude individual claims for personal harm. The Tribunal held a hearing on April 29-30, 2014, to address remaining issues relating to Phase One, and on March 12, 2015, it issued a nonbinding decision that the Lago Agrio plaintiffs’ complaint, on its face, includes claims not barred by the settlement agreement between the Republic of Ecuador and Texpet. In the same decision, the Tribunal deferred to Phase Two remaining issues from Phase One, including whether the Republic of Ecuador breached the 1995 settlement agreement and the remedies that are available to Chevron and Texpet as a result of that breach. Phase Two issues were addressed at a hearing held in April and May 2015.

On August 30, 2018, the Tribunal issued its Phase Two award in favor of Chevron and Texpet. The Tribunal unanimously held that the Ecuadorian judgment was procured through fraud, bribery and corruption and was based on claims that the Republic of Ecuador had settled and released in the mid-1990s, concluding that the Ecuadorian judgment “violates international public policy” and “should not be recognized or enforced by the courts of other States.” Specifically, the Tribunal found that (i) the Republic of Ecuador breached its obligations under the 1995 and 1998 settlement agreements releasing Texpet and its affiliates from public environmental claims (the same claims on which the Ecuadorian judgment was exclusively based) and (ii) the Republic of Ecuador committed a denial of justice under customary international law and under the fair and equitable treatment provision of the BIT due to the fraud and corruption in the Lago Agrio litigation. The Tribunal also found that Texpet satisfied its environmental remediation obligations with a \$40 million remediation program and that Ecuador certified that Texpet had performed all of its obligations under its settlement agreement. Among other things, the Tribunal ordered the Republic of Ecuador to: (a) take immediate steps to remove the status of enforceability from the Ecuadorian judgment; (b) promptly advise in writing any State where the Lago Agrio plaintiffs may be seeking the enforcement or recognition of the Ecuadorian judgment of the Tribunal’s declarations, orders and awards; (c) take measures to “wipe out all the consequences” of Ecuador’s “internationally wrongful acts in regard to the Ecuadorian judgment;” and (d) compensate Chevron for any injuries resulting from the Ecuadorian judgment. On December 10, 2018, the Republic of Ecuador filed in the District Court of The Hague a request to set aside the Tribunal’s Phase Two Award. Phase Three, the third and final phase of the arbitration, at which damages for Chevron’s injuries will be determined, is set for March 2021.

Company’s RICO Action In February 2011, Chevron filed a civil lawsuit in the Federal District Court for the Southern District of New York against the Lago Agrio plaintiffs and several of their lawyers, consultants and supporters, alleging violations of the Racketeer Influenced and Corrupt Organizations Act and other state laws. Through the civil lawsuit, Chevron sought relief that included a declaration that any judgment against Chevron in the Lago Agrio litigation is the result of fraud and other unlawful conduct and is therefore unenforceable. The trial commenced on October 15, 2013 and concluded on November 22, 2013. On March 4, 2014, the Federal District Court entered a judgment in favor of Chevron, prohibiting the defendants from seeking to enforce the Lago Agrio judgment in the United States and further prohibiting them from profiting from their illegal acts.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The defendants appealed the Federal District Court's decision, and, on April 20, 2015, the U.S. Court of Appeals for the Second Circuit heard oral arguments. On August 8, 2016, the Second Circuit issued a unanimous opinion affirming in full the judgment of the Federal District Court. On October 27, 2016, the Second Circuit denied the defendants' petitions for en banc rehearing of the opinion on their appeal. On March 27, 2017, two of the defendants filed a petition for a Writ of Certiorari to the United States Supreme Court. On June 19, 2017, the United States Supreme Court denied the defendants' petition for a Writ of Certiorari.

Management's Assessment The ultimate outcome of the foregoing matters, including any financial effect on Chevron, remains uncertain. Management does not believe an estimate of a reasonably possible loss (or a range of loss) can be made in this case. Due to the defects associated with the Ecuadorian judgment, management does not believe the judgment has any utility in calculating a reasonably possible loss (or a range of loss). Moreover, the highly uncertain legal environment surrounding the case provides no basis for management to estimate a reasonably possible loss (or a range of loss).

Note 13. Other Contingencies and Commitments

Income Taxes The company calculates its income tax expense and liabilities quarterly. These liabilities generally are subject to audit and are not finalized with the individual taxing authorities until several years after the end of the annual period for which income taxes have been calculated. Refer to Note 11 on page 17 for a discussion of the periods for which tax returns have been audited for the company's major tax jurisdictions.

Settlement of open tax years, as well as other tax issues in countries where the company conducts its businesses, are not expected to have a material effect on the consolidated financial position or liquidity of the company and, in the opinion of management, adequate provision has been made for income taxes for all years under examination or subject to future examination.

Guarantees The company and its subsidiaries have certain contingent liabilities with respect to guarantees, direct or indirect, of debt of affiliated companies or third parties. Under the terms of the guarantee arrangements, the company would generally be required to perform should the affiliated company or third party fail to fulfill its obligations under the arrangements. In some cases, the guarantee arrangements may have recourse provisions that would enable the company to recover any payments made under the terms of the guarantees from assets provided as collateral.

Indemnifications In the acquisition of Unocal, the company assumed certain indemnities relating to contingent environmental liabilities associated with assets that were sold in 1997. The acquirer of those assets shared in certain environmental remediation costs up to a maximum obligation of \$200 million, which had been reached at December 31, 2009. Under the indemnification agreement, after reaching the \$200 million obligation, Chevron is solely responsible until April 2022, when the indemnification expires. The environmental conditions or events that are subject to these indemnities must have arisen prior to the sale of the assets in 1997.

Although the company has provided for known obligations under this indemnity that are probable and reasonably estimable, the amount of additional future costs may be material to results of operations in the period in which they are recognized. The company does not expect these costs will have a material effect on its consolidated financial position or liquidity.

Off-Balance-Sheet Obligations The company and its subsidiaries have certain contingent liabilities with respect to long-term unconditional purchase obligations and commitments, including throughput and take-or-pay agreements, some of which relate to suppliers' financing arrangements. The agreements typically provide goods and services, such as pipeline and storage capacity, utilities, and petroleum products, to be used or sold in the ordinary course of the company's business. As part of the implementation of ASU 2016-02 (Topic 842), the company assessed some contracts, previously incorporated into the unconditional purchase obligations disclosure, as operating leases in first quarter 2019 results.

Environmental The company is subject to loss contingencies pursuant to laws, regulations, private claims and legal proceedings related to environmental matters that are subject to legal settlements or that in the future may require the company to take action to correct or ameliorate the effects on the environment of prior release of chemicals or petroleum substances, including MTBE, by the company or other parties. Such contingencies may

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

exist for various sites, including, but not limited to, federal Superfund sites and analogous sites under state laws, refineries, crude oil fields, service stations, terminals, land development areas, and mining activities, whether operating, closed or divested. These future costs are not fully determinable due to factors such as the unknown magnitude of possible contamination, the unknown timing and extent of the corrective actions that may be required, the determination of the company's liability in proportion to other responsible parties, and the extent to which such costs are recoverable from third parties.

Although the company has provided for known environmental obligations that are probable and reasonably estimable, the amount of additional future costs may be material to results of operations in the period in which they are recognized. The company does not expect these costs will have a material effect on its consolidated financial position or liquidity. Also, the company does not believe its obligations to make such expenditures have had, or will have, any significant impact on the company's competitive position relative to other U.S. or international petroleum or chemical companies.

Other Contingencies Governmental and other entities in California and other jurisdictions have filed legal proceedings against fossil fuel producing companies, including Chevron, purporting to seek legal and equitable relief to address alleged impacts of climate change. Further such proceedings are likely to be filed by other parties. The unprecedented legal theories set forth in these proceedings entail the possibility of damages liability and injunctions against the production of all fossil fuels that, while we believe remote, could have a material adverse effect on the Company's results of operations and financial condition. Management believes that these proceedings are legally and factually meritless and detract from constructive efforts to address the important policy issues presented by climate change, and will vigorously defend against such proceedings.

Chevron receives claims from and submits claims to customers; trading partners; joint venture partners; U.S. federal, state and local regulatory bodies; governments; contractors; insurers; suppliers; and individuals. The amounts of these claims, individually and in the aggregate, may be significant and take lengthy periods to resolve, and may result in gains or losses in future periods.

The company and its affiliates also continue to review and analyze their operations and may close, abandon, sell, exchange, acquire or restructure assets to achieve operational or strategic benefits and to improve competitiveness and profitability. These activities, individually or together, may result in significant gains or losses in future periods.

Note 14. Fair Value Measurements

The three levels of the fair value hierarchy of inputs the company uses to measure the fair value of an asset or liability are described as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities. For the company, Level 1 inputs include exchange-traded futures contracts for which the parties are willing to transact at the exchange-quoted price and marketable securities that are actively traded.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly. For the company, Level 2 inputs include quoted prices for similar assets or liabilities, prices obtained through third-party broker quotes and prices that can be corroborated with other observable inputs for substantially the complete term of a contract.

Level 3: Unobservable inputs. The company does not use Level 3 inputs for any of its recurring fair value measurements. Level 3 inputs may be required for the determination of fair value associated with certain nonrecurring measurements of nonfinancial assets and liabilities.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The fair value hierarchy for assets and liabilities measured at fair value on a recurring basis at March 31, 2019, and December 31, 2018, is as follows:

Assets and Liabilities Measured at Fair Value on a Recurring Basis

(Millions of dollars)

	At March 31, 2019				At December 31, 2018			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Marketable Securities	\$56	\$ 56	\$ —	\$ —	-\$53	\$ 53	\$ —	\$ —
Derivatives	22	2	20	—	283	185	98	—
Total Assets at Fair Value	\$78	\$ 58	\$ 20	\$ —	-\$336	\$ 238	\$ 98	\$ —
Derivatives	63	58	5	—	12	—	12	—
Total Liabilities at Fair Value	\$63	\$ 58	\$ 5	\$ —	-\$12	\$ —	\$ 12	\$ —

Marketable Securities The company calculates fair value for its marketable securities based on quoted market prices for identical assets. The fair values reflect the cash that would have been received if the instruments were sold at March 31, 2019.

Derivatives The company records its derivative instruments — other than any commodity derivative contracts that are designated as normal purchase and normal sale — on the Consolidated Balance Sheet at fair value, with the offsetting amount to the Consolidated Statement of Income. Derivatives classified as Level 1 include futures, swaps and options contracts traded in active markets such as the New York Mercantile Exchange. Derivatives classified as Level 2 include swaps, options and forward contracts principally with financial institutions and other oil and gas companies, the fair values of which are obtained from third-party broker quotes, industry pricing services and exchanges. The company obtains multiple sources of pricing information for the Level 2 instruments. Since this pricing information is generated from observable market data, it has historically been very consistent. The company does not materially adjust this information.

Assets carried at fair value at March 31, 2019, and December 31, 2018, are as follows:

Cash and Cash Equivalents The company holds cash equivalents in U.S. and non-U.S. portfolios. The instruments classified as cash equivalents are primarily bank time deposits with maturities of 90 days or less, and money market funds. “Cash and cash equivalents” had carrying/fair values of \$8.7 billion and \$9.3 billion at March 31, 2019, and December 31, 2018, respectively. The instruments held in “Time deposits” are bank time deposits with maturities greater than 90 days and had carry/fair values of zero and \$1.0 billion at March 31, 2019, and December 31, 2018, respectively. The fair values of cash and cash equivalents are classified as Level 1 and reflect the cash that would have been received if the instruments were settled at March 31, 2019.

Restricted Cash had a carrying/fair value of \$1.0 billion and \$1.1 billion at March 31, 2019, and December 31, 2018, respectively. At March 31, 2019, restricted cash is classified as Level 1 and includes restricted funds related to certain upstream abandonment activities and a financing program, which are reported in “Prepaid expenses and other current assets” and “Deferred charges and other assets” on the Consolidated Balance Sheet.

Long-Term Debt had a net carrying value, excluding amounts reclassified from short-term debt and finance lease obligations, of \$15.9 billion and \$18.7 billion at March 31, 2019, and December 31, 2018, respectively. The fair value of long-term debt at March 31, 2019, and December 31, 2018 was \$16.3 billion and \$18.7 billion, respectively.

Long-term debt primarily includes corporate issued bonds. The fair value of corporate bonds classified as Level 1 is \$15.5 billion. The fair value of other long-term debt classified as Level 2 is \$0.8 billion.

The carrying values of other short-term financial assets and liabilities on the Consolidated Balance Sheet approximate their fair values. Fair value remeasurements of other financial instruments at March 31, 2019, and December 31, 2018, were not material.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The fair value hierarchy for assets and liabilities measured at fair value on a nonrecurring basis at March 31, 2019, is as follows:

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis
(Millions of dollars)

	At March 31, 2019				
	Total	Level 1	Level 2	Level 3	Before-Tax Loss
Properties, plant and equipment, net (held and used)	\$48	\$ —	\$ —	\$48	\$ 7
Properties, plant and equipment, net (held for sale)	414	—	414	—	13
Investments and advances	—	—	—	—	3
Total Assets at Fair Value	\$462	\$ —	\$414	\$48	\$ 23

Properties, plant and equipment The company did not have any individually material impairments of long-lived assets measured at fair value on a nonrecurring basis to report in first quarter 2019.

Investments and advances The company did not have any material impairments of investments and advances measured at fair value on a nonrecurring basis to report in first quarter 2019.

Note 15. Financial and Derivative Instruments

The company's derivative instruments principally include crude oil, natural gas and refined product futures, swaps, options, and forward contracts. None of the company's derivative instruments are designated as hedging instruments, although certain of the company's affiliates make such a designation. The company's derivatives are not material to the company's consolidated financial position, results of operations or liquidity. The company believes it has no material market or credit risks to its operations, financial position or liquidity as a result of its commodities and other derivatives activities.

The company uses derivative commodity instruments traded on the New York Mercantile Exchange and on electronic platforms of the Inter-Continental Exchange and Chicago Mercantile Exchange. In addition, the company enters into swap contracts and option contracts principally with major financial institutions and other oil and gas companies in the "over-the-counter" markets, which are governed by International Swaps and Derivatives Association agreements and other master netting arrangements.

Derivative instruments measured at fair value at March 31, 2019, and December 31, 2018, and their classification on the Consolidated Balance Sheet and Consolidated Statement of Income are as follows:

Consolidated Balance Sheet: Fair Value of Derivatives Not Designated as Hedging Instruments

(Millions of dollars)

Type of Contract	Balance Sheet Classification	At March 31 2019	At December 31 2018
Commodity	Accounts and notes receivable, net	\$ 22	\$ 279
Commodity	Long-term receivables, net	—	4
Total Assets at Fair Value		\$ 22	\$ 283
Commodity	Accounts payable	\$ 63	\$ 12
Commodity	Deferred credits and other noncurrent obligations	—	—
Total Liabilities at Fair Value		\$ 63	\$ 12

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**Consolidated Statement of Income: The Effect of Derivatives
Not Designated as Hedging Instruments
(Millions of dollars)**

Type of Contract	Statement of Income Classification	Gain / (Loss) Three Months Ended March 31	
		2019	2018
Commodity	Sales and other operating revenues	\$ (238)	\$ (12)
Commodity	Purchased crude oil and products	(7)	(9)
Commodity	Other income	—	—
		\$ (245)	\$ (21)

The table below represents gross and net derivative assets and liabilities subject to netting agreements on the Consolidated Balance Sheet at March 31, 2019, and December 31, 2018.

**Consolidated Balance Sheet: The Effect of Netting Derivative Assets and Liabilities
(Millions of dollars)**

	Gross Amount Recognized	Gross Amounts Offset	Net Amounts Presented	Gross Amounts Not Offset	Net Amount
At March 31, 2019					
Derivative Assets	\$ 1,146	\$ 1,124	\$ 22	\$ —	\$ 22
Derivative Liabilities	\$ 1,187	\$ 1,124	\$ 63	\$ 2	\$ 61
At December 31, 2018					
Derivative Assets	\$ 3,685	\$ 3,402	\$ 283	\$ —	\$ 283
Derivative Liabilities	\$ 3,414	\$ 3,402	\$ 12	\$ —	\$ 12

Derivative assets and liabilities are classified on the Consolidated Balance Sheet as accounts and notes receivable, long-term receivables, accounts payable, and deferred credits and other noncurrent obligations. Amounts not offset on the Consolidated Balance Sheet represent positions that do not meet all the conditions for "a right of offset."

Note 16. Revenue

"Sales and other operating revenue" on the Consolidated Statement of Income primarily arise from contracts with customers. Related receivables are included in "Accounts and notes receivable, net" on the Consolidated Balance Sheet, net of the allowance for doubtful accounts. The net balance of these receivables was \$10.9 billion and \$10.0 billion at March 31, 2019, and December 31, 2018, respectively. Other items included in "Accounts and notes receivable, net" represent amounts due from partners for their share of joint venture operating and project costs and amounts due from others, primarily related to derivatives, leases, buy/sell arrangements and product exchanges, which are accounted for outside the scope of ASC 606.

Note 17. Agreement to Acquire Anadarko Petroleum Corporation

On April 12, 2019, Chevron Corporation announced it had entered into a definitive agreement with Anadarko Petroleum Corporation to acquire all of its outstanding shares for 0.3869 shares of Chevron stock and \$16.25 in cash for each Anadarko share. The company will also assume debt balances, which were \$16.4 billion as of December 31, 2018. The acquisition is subject to Anadarko stockholder approval. It is also subject to regulatory approvals and other customary closing conditions.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****First Quarter 2019 Compared with First Quarter 2018****Key Financial Results****Earnings by Business Segment**

	Three Months Ended March 31	
	2019	2018
	(Millions of dollars)	
Upstream		
United States	\$748	\$648
International	2,375	2,704
Total Upstream	3,123	3,352
Downstream		
United States	217	442
International	35	286
Total Downstream	252	728

Net Income Attributable to Chevron Corporation ^{(1) (2)}	\$2,649	\$3,638

⁽¹⁾ Includes foreign currency effects.

\$ (137) \$ 129

⁽²⁾ Income net of tax; also referred to as "earnings" in the discussions that follow.

Net income attributable to Chevron Corporation for first quarter 2019 was \$2.65 billion (\$1.39 per share — diluted), compared with \$3.64 billion (\$1.90 per share — diluted) in the first quarter of 2018.

Upstream earnings in first quarter 2019 were \$3.12 billion compared to \$3.35 billion in the corresponding 2018 period. The decrease was mainly due to lower crude oil prices and unfavorable foreign currency effects, partially offset by higher crude oil production and higher natural gas sales volumes.

Downstream earnings in first quarter 2019 were \$252 million compared with \$728 million in the corresponding 2018 period. The decrease was mainly due to lower margins on refined product sales, partially offset by lower operating expenses.

Refer to pages 30 through 31 for additional discussion of results by business segment and "All Other" activities for first quarter 2019 versus the same period in 2018.

Business Environment and Outlook

Chevron Corporation* is a global energy company with substantial business activities in the following countries: Angola, Argentina, Australia, Azerbaijan, Bangladesh, Brazil, Canada, China, Colombia, Indonesia, Kazakhstan, Myanmar, Nigeria, the Partitioned Zone between Saudi Arabia and Kuwait, Philippines, Republic of Congo, Singapore, South Korea, Thailand, the United Kingdom, the United States, and Venezuela.

Earnings of the company depend mostly on the profitability of its upstream business segment. The most significant factor affecting the results of operations for the upstream segment is the price of crude oil, which is determined in global markets outside of the company's control. In the company's downstream business, crude oil is the largest cost component of refined products. It is the company's objective to deliver competitive results and stockholder value in any business environment. Periods of sustained lower prices could result in the impairment or write-off of specific assets in future periods and cause the company to adjust operating expenses and capital and exploratory expenditures, along with other measures intended to improve financial performance.

The effective tax rate for the company can change substantially during periods of significant earnings volatility. This is due to the mix effects that are impacted both by the absolute level of earnings or losses and whether they arise in higher or lower tax rate jurisdictions. As a result, a decline or increase in the effective tax rate in one

Edgar Filing: CHEVRON CORP - Form 10-Q

* Incorporated in Delaware in 1926 as Standard Oil Company of California, the company adopted the name Chevron Corporation in 1984 and ChevronTexaco Corporation in 2001. In 2005, ChevronTexaco Corporation changed its name to Chevron Corporation. As used in this report, the term “Chevron” and such terms as “the company,” “the corporation,” “our,” “we,” “us” and “its” may refer to Chevron Corporation, one or more of its consolidated subsidiaries, or all of them taken as a whole, but unless stated otherwise they do not include “affiliates” of Chevron — i.e., those companies generally owned 50 percent or less. All of these terms are used for convenience only and are not intended as a precise description of any of the separate companies, each of which manages its own affairs.

26

Table of Contents

period may not be indicative of expected results in future periods. Note 11 provides the company's effective income tax rate for the first quarters of 2019 and 2018.

Refer to the "Cautionary Statement Relevant to Forward-Looking Information" on page 2 of this report and to "Risk Factors" on pages 18 through 21 of the company's 2018 Annual Report on Form 10-K for a discussion of some of the inherent risks that could materially impact the company's results of operations or financial condition.

The company continually evaluates opportunities to dispose of assets that are not expected to provide sufficient long-term value or to acquire assets or operations complementary to its asset base to help augment the company's financial performance and value growth. Asset dispositions and restructurings may result in significant gains or losses in future periods. The company's asset sale program for 2018 through 2020 is targeting before-tax proceeds of \$5-10 billion. Proceeds related to asset sales were \$2.3 billion from January 2018 through March 2019.

On April 12, 2019, the company announced plans to acquire Anadarko Petroleum Corporation (Anadarko) in a stock and cash transaction valued at approximately \$33 billion. The acquisition of Anadarko will significantly enhance Chevron's already advantaged Upstream portfolio and further strengthen its leading positions in large, attractive shale, deepwater and natural gas resource basins. The acquisition is subject to Anadarko stockholder approval. It is also subject to regulatory approvals and other customary closing conditions. For additional information on this planned acquisition, refer to the company's Current Reports on Form 8-K as filed with the U.S. Securities and Exchange Commission on April 12, 2019 and April 16, 2019.

The company closely monitors developments in the financial and credit markets, the level of worldwide economic activity, and the implications for the company of movements in prices for crude oil and natural gas. Management takes these developments into account in the conduct of daily operations and for business planning.

Management's commentary related to earnings trends for the company's major business areas is as follows:

Upstream Earnings for the upstream segment are closely aligned with industry prices for crude oil and natural gas. Crude oil and natural gas prices are subject to external factors over which the company has no control, including product demand connected with global economic conditions, industry production and inventory levels, technology advancements, production quotas or other actions imposed by the Organization of Petroleum Exporting Countries (OPEC) or other producers, actions of regulators, weather-related damage and disruptions, competing fuel prices, and regional supply interruptions or fears thereof that may be caused by military conflicts, civil unrest or political uncertainty. Any of these factors could also inhibit the company's production capacity in an affected region. The company closely monitors developments in the countries in which it operates and holds investments, and seeks to manage risks in operating its facilities and businesses. The longer-term trend in earnings for the upstream segment is also a function of other factors, including the company's ability to find or acquire and efficiently produce crude oil and natural gas, changes in fiscal terms of contracts, and changes in tax and other applicable laws and regulations.

The company continues to actively manage its schedule of work, contracting, procurement and supply-chain activities to effectively manage costs. However, price levels for capital and exploratory costs and operating expenses associated with the production of crude oil and natural gas can be subject to external factors beyond the company's control including, among other things, the general level of inflation, tariffs or other taxes imposed on goods or services, commodity prices and prices charged by the industry's material and service providers, which can be affected by the volatility of the industry's own supply-and-demand conditions for such materials and services. Modest cost pressures continue in rig-related services across North America unconventional markets. Cost pressures have softened in well completion activity particularly in the Permian Basin, but are expected to rise when pipeline takeaway constraints are resolved in late 2019. International and offshore markets are showing indications of increased activity levels with limited cost pressures to date.

Capital and exploratory expenditures and operating expenses could also be affected by damage to production facilities caused by severe weather or civil unrest, delays in construction, or other factors.

Table of Contents

The chart above shows the trend in benchmark prices for Brent crude oil, West Texas Intermediate (WTI) crude oil, and U.S. Henry Hub natural gas. The Brent price averaged \$71 per barrel for the full-year 2018. During the first quarter 2019, Brent averaged \$63 per barrel and ended April at about \$72. The majority of the company's equity crude production is priced based on the Brent benchmark. Brent began 2019 at \$53 per barrel and steadily increased throughout the first quarter due to a tightening supply picture with the implementation of a new round of production cuts by OPEC and Russia and production losses in major oil producing countries, including Venezuela, Iran and Libya, due to heightened geopolitical challenges.

The WTI price averaged \$65 per barrel for the full-year 2018. During the first quarter 2019, WTI averaged \$55 per barrel and ended April at about \$64. WTI continues to trade at a discount to Brent in 2019 due to growing U.S. production.

Chevron has interests in the production of heavy crude oil in California, Indonesia, the Partitioned Zone between Saudi Arabia and Kuwait, Venezuela and in certain fields in Angola, China and the United Kingdom sector of the North Sea. (See page 34 for the company's average U.S. and international crude oil sales prices.)

In contrast to price movements in the global market for crude oil, price changes for natural gas are more closely aligned with supply-and-demand conditions in regional markets. Fluctuations in the price of natural gas in the United States are closely associated with customer demand relative to the volumes produced and stored in North America. In the United States, prices at Henry Hub averaged \$2.94 per thousand cubic feet (MCF) for the first three months of 2019, compared with \$3.04 during the first three months of 2018. At the end of April 2019, the Henry Hub spot price was \$2.58 per MCF.

Outside the United States, price changes for natural gas depend on a wide range of supply, demand and regulatory circumstances. Chevron sells natural gas into the domestic pipeline market in most locations. In some locations, Chevron has invested in long-term projects to produce and liquefy natural gas for transport by tanker to other markets. The company's long-term contract prices for liquefied natural gas (LNG) are typically linked to crude oil prices. Most of the equity LNG offtake from the operated Australian LNG projects is committed under binding long-term contracts, with the remainder to be sold in the Asian spot LNG market. The Asian spot market reflects the supply and demand for LNG in the Pacific Basin and is not directly linked to crude oil prices. International natural gas sales realizations averaged \$6.57 per MCF during the first three months of 2019, compared with \$5.85 per MCF in the same period last year. (See page 34 for the company's average natural gas sales prices for the U.S. and international regions.)

The company's worldwide net oil-equivalent production in the first three months of 2019 averaged 3.038 million barrels per day, 7 percent higher than the year-ago period. About one-sixth of the company's net oil-equivalent production in the first three months of 2019 occurred in the OPEC-member countries of Angola, Nigeria, Republic of Congo and Venezuela. OPEC quotas had no effect on the company's net crude oil production for the first quarter of 2019 or 2018.

The company estimates that net oil-equivalent production in 2019 will grow 4 to 7 percent compared to 2018, assuming a Brent crude oil price of \$60 per barrel and excluding the impact of anticipated 2019 asset sales. This

Table of Contents

estimate is subject to many factors and uncertainties, including quotas or other actions that may be imposed by OPEC; price effects on entitlement volumes; changes in fiscal terms or restrictions on the scope of company operations; delays in construction; reservoir performance; greater-than-expected declines in production from mature fields; start-up or ramp-up of projects; fluctuations in demand for natural gas in various markets; weather conditions that may shut in production; civil unrest; changing geopolitics; delays in completion of maintenance turnarounds; or other disruptions to operations. The outlook for future production levels is also affected by the size and number of economic investment opportunities and the time lag between initial exploration and the beginning of production. The company has increased its investment emphasis on short-cycle projects.

In the Partitioned Zone between Saudi Arabia and Kuwait, production was shut-in beginning in May 2015 as a result of difficulties in securing work and equipment permits. Net oil-equivalent production in the Partitioned Zone in 2014 was 81,000 barrels per day. As of early May 2019, production remained shut-in, and the exact timing of a production restart is uncertain and dependent on dispute resolution between Saudi Arabia and Kuwait. The financial effects from the loss of Partitioned Zone production have not been significant.

Chevron has interests in Venezuelan crude oil production assets operated by independent equity affiliates. During the first quarter 2019, net oil equivalent production in Venezuela averaged 40,000 barrels per day. The operating environment in Venezuela has been deteriorating for some time. In January 2019, the United States government issued sanctions against the Venezuelan national oil company, Petroleos de Venezuela, S.A. (PdVSA), which is the company's partner in the equity affiliates. Following this action and other subsequent sanctions announced by the United States, the equity affiliates continue to operate, and the company is conducting its business pursuant to general licenses and guidance issued coincident with the sanctions. Future events could result in the environment in Venezuela becoming more challenged, which could lead to increased business disruption and volatility in the associated financial results.

Refer to the "Results of Operations" section on page 30 for additional discussion of the company's upstream business.

Downstream Earnings for the downstream segment are closely tied to margins on the refining, manufacturing and marketing of products that include gasoline, diesel, jet fuel, lubricants, fuel oil, fuel and lubricant additives, and petrochemicals. Industry margins are sometimes volatile and can be affected by the global and regional supply-and-demand balance for refined products and petrochemicals, and by changes in the price of crude oil, other refinery and petrochemical feedstocks, and natural gas. Industry margins can also be influenced by inventory levels, geopolitical events, costs of materials and services, refinery or chemical plant capacity utilization, maintenance programs, and disruptions at refineries or chemical plants resulting from unplanned outages due to severe weather, fires or other operational events.

Other factors affecting profitability for downstream operations include the reliability and efficiency of the company's refining, marketing and petrochemical assets, the effectiveness of its crude oil and product supply functions, and the volatility of tanker-charter rates for the company's shipping operations, which are driven by the industry's demand for crude oil and product tankers. Other factors beyond the company's control include the general level of inflation and energy costs to operate the company's refining, marketing and petrochemical assets, and changes in tax laws and regulations.

The company's most significant marketing areas are the West Coast and Gulf Coast of the United States and Asia. Chevron operates or has significant ownership interests in refineries in each of these areas.

Refer to the "Results of Operations" section on page 31 for additional discussion of the company's downstream operations.

All Other consists of worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities and technology companies.

Operating Developments

Noteworthy operating developments in recent months included the following:

✪ Brazil — Completed the sale of interest in the Frade field.

✪ Denmark — Completed the sale of upstream interests in Denmark in early April.

Table of Contents

United Kingdom — Completed the sale of interest in the Rosebank field.

United States — On May 1, 2019, the company completed the acquisition of the Pasadena Refinery.

The company purchased \$537 million of its common stock in first quarter 2019 under its share repurchase programs.

Results of Operations

Business Segments The following section presents the results of operations and variances on an after-tax basis for the company's business segments — Upstream and Downstream — as well as for "All Other." (Refer to Note 8, beginning on page 11, for a discussion of the company's "reportable segments," as defined under the accounting standards for segment reporting.)

Upstream

**Three Months
Ended
March 31
2019 2018
(Millions of
dollars)**

U.S. Upstream Earnings \$748 \$648

U.S. upstream operations earned \$748 million in first quarter 2019, compared to \$648 million from the corresponding period in 2018. The improvement primarily reflected higher crude oil production of \$400 million, partially offset by lower crude oil and natural gas prices of \$290 million and \$30 million, respectively.

The company's average sales price per barrel of crude oil and natural gas liquids was \$48 in first quarter 2019, down from \$56 a year earlier. The average sales price of natural gas was \$1.64 per thousand cubic feet in first quarter 2019, compared with \$2.02 in first quarter 2018.

Net oil-equivalent production of 884,000 barrels per day in first quarter 2019 was up 151,000 barrels per day, or 21 percent, from a year earlier. Production increases from shale and tight properties in the Permian Basin in Texas and New Mexico, and major capital projects and base business in the Gulf of Mexico, were partially offset by normal field declines and the impact of asset sales.

The net liquids component of oil-equivalent production in first quarter 2019 increased 22 percent to 690,000 barrels per day, while net natural gas production increased 17 percent to 1.16 billion cubic feet per day.

**Three Months
Ended
March 31
2019 2018
(Millions of dollars)**

International Upstream Earnings* \$2,375 \$2,704

* Includes foreign currency effects **\$ (168)** \$ 120

International upstream operations earned \$2.38 billion in first quarter 2019, compared with \$2.70 billion from the corresponding period in 2018. Foreign currency effects had an unfavorable impact on earnings of \$288 million between periods, largely due to the valuation of the Venezuelan Bolivar. Higher natural gas sales volumes and prices of \$140 million and \$120 million, respectively were partially offset by lower crude oil prices of \$210 million.

The average sales price per barrel of crude oil and natural gas liquids in first quarter 2019 was \$58, compared with \$61 a year earlier. The average sales price of natural gas in first quarter 2019 was \$6.57 per thousand cubic feet, compared with \$5.85 in first quarter 2018.

International net oil-equivalent production of 2.15 million barrels per day in first quarter 2019 increased 35,000 barrels per day, or 2 percent, from first quarter 2018. Production increases from major capital projects, including Wheatstone, base business, and shale and tight properties, were partially offset by normal field declines and production entitlement effects.

Table of Contents

The net liquids component of oil-equivalent production of 1.19 million barrels per day in first quarter 2019 was relatively flat compared to first quarter 2018. Net natural gas production of 5.81 billion cubic feet per day in first quarter 2019 increased 4 percent from first quarter 2018.

Downstream

Three Months
Ended
March 31
2019 2018
(Millions of
dollars)

U.S. Downstream Earnings \$217 \$442

U.S. downstream operations earned \$217 million in first quarter 2019, compared with earnings of \$442 million a year earlier. The decrease was primarily due to lower margins on refined product sales of \$190 million and lower earnings from the 50 percent-owned Chevron Phillips Chemical Company of \$60 million, partially offset by lower operating expenses of \$100 million due to the absence of a first quarter 2018 turnaround at the El Segundo, California refinery. Refinery crude oil input in first quarter 2019 decreased 7 percent to 861,000 barrels per day from the year-ago period, primarily due to weather-related impacts at the El Segundo and Richmond, California refineries. Refined product sales of 1.19 million barrels per day were up 1 percent from first quarter 2018.

Three
Months
Ended
March 31
2019 2018
(Millions of
dollars)

International Downstream Earnings* \$35 \$286

* Includes foreign currency effects \$ 31 \$ 11

International downstream operations earned \$35 million in first quarter 2019, compared with \$286 million a year earlier. The decrease in earnings was largely due to lower margins on refined product sales of \$320 million. Foreign currency effects had a favorable impact on earnings of \$20 million between periods.

Refinery crude oil input of 669,000 barrels per day in first quarter 2019 decreased 43,000 barrels per day from the year-ago period, mainly due to the sale of the company's interest in the Cape Town Refinery in third quarter 2018. Total refined product sales of 1.42 million barrels per day in first quarter 2019 were down 1 percent from the year-ago period.

All Other

Three Months
Ended
March 31
2019 2018
(Millions of dollars)

Net Charges* \$(726) \$(442)

* Includes foreign currency effects \$ — \$ (2)

All Other consists of worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities and technology companies.

Net charges in first quarter 2019 were \$726 million, compared with \$442 million a year earlier. The change between periods was mainly due to higher corporate charges and higher interest expenses. Foreign currency effects decreased net charges by \$2 million between the periods.

Table of Contents**Consolidated Statement of Income**

Explanations of variations between periods for selected income statement categories are provided below:

Three Months Ended
March 31
2019 2018
(Millions of dollars)

Sales and other operating revenues **\$34,189** \$35,968

Sales and other operating revenues decreased \$1.78 billion in the first quarter, primarily due to lower refined product and crude oil prices, partially offset by higher natural gas volumes.

Three Months
Ended
March 31
2019 2018
(Millions of dollars)

Income from equity affiliates **\$1,062** \$1,637

Income from equity affiliates in the quarterly period decreased mainly due to lower upstream-related earnings from Petropiar and Petroboscan in Venezuela.

Three Months
Ended
March 31
2019 2018
(Millions of
dollars)

Other income (loss) **\$(51)** \$159

Other income for the three-month period decreased due to lower earnings from asset sales and unfavorable swings in foreign currency effects.

Three Months Ended
March 31
2019 2018
(Millions of dollars)

Purchased crude oil and products **\$19,703** \$21,233

Purchases decreased \$1.5 billion in the three-month period, primarily due to lower crude oil purchase volumes and lower refined product prices.

Three Months
Ended
March 31
2019 2018
(Millions of dollars)

Operating, selling, general and administrative expenses **\$5,870** \$5,424

Operating, selling, general and administrative expenses increased between quarterly periods primarily due to higher employee and transportation expenses.

Three Months
Ended
March 31
2019 2018
(Millions of
dollars)

Exploration expenses **\$189** \$158

The increase in exploration expenses for the three-month period was mostly due to higher charges for well write-offs.

Table of Contents

Three Months
Ended
March 31
2019 2018
(Millions of dollars)

Depreciation, depletion and amortization \$4,094 \$4,289

Depreciation, depletion and amortization expenses for the first quarter decreased mainly due to lower rates and lower impairments, partially offset by higher production.

Three Months
Ended
March 31
2019 2018
(Millions of dollars)

Taxes other than on income \$1,061 \$1,344

Taxes other than on income were lower mainly due to lower local and municipal taxes and licenses as a result of the company's divestment of its downstream interests in southern Africa in third quarter 2018.

Three Months
Ended
March 31
2019 2018
(Millions of
dollars)

Interest and debt expense \$225 \$159

Interest and debt expenses for the first quarter increased mainly due to a decrease in the amount of interest capitalized.

Three
Months
Ended
March 31
2019 2018
(Millions of
dollars)

Other components of net periodic benefit costs \$101 \$84

Other components of net periodic benefit costs for the first quarter increased mainly due to lower plan assets and increases in interest expense, partially offset by a decrease in the amortization of actuarial losses.

Three Months
Ended
March 31
2019 2018
(Millions of dollars)

Income tax expense \$1,315 \$1,414

The decrease in income tax expense in 2019 of \$99 million is consistent with the decrease in total income before tax for the company of \$1.12 billion and changes in jurisdictional mix effects between periods.

U.S. income before tax decreased from \$862 million in 2018 to \$370 million in 2019. This decrease in income was primarily driven by the effect of lower crude oil and natural gas prices. The decrease in income had a direct impact on the company's U.S. income tax cost. This resulted in a decrease in tax expense of \$81 million between year-over-year periods, from \$221 million in 2018 to \$140 million in 2019.

International income before tax decreased from \$4.21 billion in 2018 to \$3.59 billion in 2019. This \$624 million decrease was primarily driven by the effect of lower crude oil prices, partially offset by higher natural gas volumes and prices. The decrease in income and jurisdictional mix effects resulted in an \$18 million decrease in international income tax expense between year-over-year periods, from \$1.19 billion in 2018 to \$1.17 billion in 2019.

Refer also to the discussion of the effective income tax rate in Note 11 on page 17.

34

Table of Contents***Liquidity and Capital Resources***

Cash, cash equivalents and marketable securities totaled \$8.8 billion at March 31, 2019 and \$10.3 billion at year-end 2018. Cash provided by operating activities in the first three months of 2019 was \$5.1 billion, compared with \$5.0 billion in the year-ago period. Cash capital and exploratory expenditures totaled \$3.2 billion in the first three months of 2019, up \$92 million from the year-ago period. Proceeds and deposits related to asset sales and returns of investment totaled \$276 million and \$18 million, respectively, in the first three months of 2019, compared to \$31 million and \$80 million, respectively, in the year ago period. The company intends to fund the cash portion of the Anadarko acquisition using a combination of cash on hand and borrowings under its commercial paper program.

Dividends The company paid dividends of \$2.2 billion to common stockholders during the first three months of 2019. In April 2019, the company declared a quarterly dividend of \$1.19 per common share, payable in June 2019.

Debt and Finance Lease Obligations Chevron's total debt and finance lease obligations were \$33.1 billion at March 31, 2019, down from \$34.5 billion at December 31, 2018.

The company's primary financing source for working capital needs is its commercial paper program. The outstanding balance for the company's commercial paper program at March 31, 2019 was \$8.5 billion. The company's debt and capital lease obligations due within one year, consisting primarily of commercial paper, redeemable long-term obligations and the current portion of long-term debt, totaled \$16.9 billion at March 31, 2019, and \$15.6 billion at December 31, 2018. Of these amounts, \$9.9 billion was reclassified to long-term at both March 31, 2019, and December 31, 2018. At March 31, 2019, settlement of these obligations was not expected to require the use of working capital within one year, as the company had the intent and the ability, as evidenced by committed credit facilities, to refinance them on a long-term basis.

At March 31, 2019, the company had \$9.9 billion in committed credit facilities with various major banks that enable the refinancing of short-term obligations on a long-term basis. The credit facilities consist of a 364-day facility which enables borrowing of up to \$9,575 million and allows the company to convert any amounts outstanding into a term loan for a period of up to one year, as well as a \$325 million five-year facility expiring in December 2020. These facilities support commercial paper borrowing and can also be used for general corporate purposes. The company's practice has been to continually replace expiring commitments with new commitments on substantially the same terms, maintaining levels management believes appropriate. Any borrowings under the facilities would be unsecured indebtedness at interest rates based on the London Interbank Offered Rate or an average of base lending rates published by specified banks and on terms reflecting the company's strong credit rating. No borrowings were outstanding under these facilities at March 31, 2019. In addition, the company has an automatic shelf registration statement that expires in May 2021 for an unspecified amount of nonconvertible debt securities issued or guaranteed by the company.

The major debt rating agencies routinely evaluate the company's debt, and the company's cost of borrowing can increase or decrease depending on these debt ratings. The company has outstanding public bonds issued by Chevron Corporation and Texaco Capital Inc. All of these securities are the obligations of, or guaranteed by, Chevron Corporation and are rated AA by Standard and Poor's Corporation and Aa2 by Moody's Investors Service. The company's U.S. commercial paper is rated A-1+ by Standard and Poor's and P-1 by Moody's. All of these ratings denote high-quality, investment-grade securities.

The company's future debt level is dependent primarily on results of operations, the capital program, acquisitions and cash that may be generated from asset dispositions. Based on its high-quality debt ratings, the company believes that it has substantial borrowing capacity to meet unanticipated cash requirements. During extended periods of low prices for crude oil and natural gas and narrow margins for refined products and commodity chemicals, the company can also modify capital spending plans to provide flexibility to continue paying the common stock dividend and also remain committed to retaining the company's high-quality debt ratings.

Common Stock Repurchase Program In July 2010, the Board of Directors approved an ongoing stock repurchase program with no set term or monetary limits. From the inception of the program through the end of January 2019, the company had purchased 198.9 million shares for \$22.1 billion. On February 1, 2019, the company announced that the Board of Directors authorized a new stock repurchase program with a maximum dollar limit of \$25 billion and no set

term limits. As of March 31, 2019, under the new program, the company had purchased

35

Table of Contents

1.5 million shares for \$183 million, resulting in \$24.8 billion remaining under the authorized program. During the first quarter 2019, the company purchased a total of 4.7 million shares for \$537 million. Repurchases may be made from time to time in the open market, by block purchases, in privately negotiated transactions or in such other manner as determined by the company. The timing of the repurchases and the actual amount repurchased will depend on a variety of factors, including the market price of the company's shares, general market and economic conditions, and other factors. The stock repurchase program does not obligate the company to acquire any particular amount of common stock, and it may be suspended or discontinued at any time.

Noncontrolling Interests The company had noncontrolling interests of \$1.1 billion at March 31, 2019 and at December 31, 2018. There were distributions of \$6 million to noncontrolling interests during the first three months of 2019 compared to \$11 million for the same period in 2018.

Current Ratio Current assets divided by current liabilities, which indicates the company's ability to repay its short-term liabilities with short-term assets. The current ratio was 1.1 at March 31, 2019, and 1.3 at December 31, 2018. The current ratio is adversely affected by the fact that Chevron's inventories are valued on a last-in, first-out basis. At March 31, 2019, the book value of inventory was lower than replacement cost.

Debt Ratio Total debt as a percentage of total debt plus Chevron Corporation Stockholders' Equity, which indicates the company's leverage, was 17.6 percent at March 31, 2019, and 18.2 percent at December 31, 2018.

Pension Obligations Information related to pension plan contributions is included on page 14 in Note 9 to the Consolidated Financial Statements.

Capital and Exploratory Expenditures Total expenditures, including the company's share of spending by affiliates, were \$4.7 billion in the first three months of 2019, compared with \$4.4 billion in the corresponding 2018 period. The amounts included the company's share of affiliates' expenditures of \$1.5 billion and \$1.3 billion in the 2019 and 2018 periods, respectively, which did not require cash outlays by the company. Expenditures for upstream projects in the first three months of 2019 were \$4.2 billion, representing 89 percent of the companywide total.

Other Contingencies Information related to the company’s other contingencies is included on page 22 in Note 13 to the Consolidated Financial Statements under the heading “Other Contingencies.”

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information about market risks for the three months ended March 31, 2019, does not differ materially from that discussed under Item 7A of Chevron’s 2018 Annual Report on Form 10-K.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

The company’s management has evaluated, with the participation of the Chief Executive Officer and Chief Financial Officer, the effectiveness of the company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the company’s disclosure controls and procedures were effective as of March 31, 2019.

(b) Changes in internal control over financial reporting

During the quarter ended March 31, 2019, there were no changes in the company’s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the company’s internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

Governmental Proceedings The following is a description of legal proceedings that the company has determined to disclose for this reporting period that involve governmental authorities and certain monetary sanctions under federal, state and local laws that have been enacted or adopted regulating the discharge of materials into the environment or primarily for the purpose of protecting the environment. The following proceedings include those matters relating to first quarter 2019 and any material developments with respect to matters previously reported in Chevron’s 2018 Annual Report on Form 10-K.

As previously disclosed, on August 6, 2012, a piping failure and fire occurred at the Chevron refinery in Richmond, California. The United States Environmental Protection Agency (EPA) issued alleged findings of violation related to the incident on December 17, 2013, pursuant to its authority under the Clean Air Act Risk Management Plan program (RMP). Following the Richmond incident, EPA also conducted RMP inspections at Chevron’s refineries in El Segundo, California; Pascagoula, Mississippi; Kapolei, Hawaii; and Salt Lake City, Utah. On October 24, 2018, the U.S. Department of Justice (DOJ) lodged with the United States District Court for the Northern District of California (the U.S. District Court) a consent decree executed by Chevron, DOJ, EPA, and the State of Mississippi that resolves all of EPA’s alleged findings of violation related to the Richmond incident and subsequent RMP inspections. The consent decree includes the payment of a civil penalty of \$2.95 million and the funding of supplemental environmental projects totaling \$10 million. Chevron also agreed, as part of the consent decree, to investments in process safety enhancements at its current refineries, estimated at \$150 million, a portion of which has already been spent. The consent decree was entered by the U.S. District Court and effective March 7, 2019.

Other Proceedings Information related to legal proceedings, including Ecuador, is included beginning on page 17 in Note 12 to the Consolidated Financial Statements.

Table of Contents**Item 1A. Risk Factors**

Chevron is a global energy company with a diversified business portfolio, a strong balance sheet, and a history of generating sufficient cash to fund capital and exploratory expenditures and to pay dividends. Nevertheless, some inherent risks could materially impact the company's financial results of operations or financial condition.

Information about risk factors for the three months ended March 31, 2019, does not differ materially from that set forth under the heading "Risk Factors" on pages 18 through 21 of the company's 2018 Annual Report on Form 10-K, other than as reflected in the risk factor below.

We may not complete the acquisition of Anadarko within the time frame we anticipate or at all; the acquisition may cause our financial results to differ from our expectations or the expectations of the investment community; and we may not be able to achieve anticipated benefits of the acquisition.

The completion of the acquisition of Anadarko is subject to a number of conditions. The failure to satisfy all of the required conditions could delay the completion of the acquisition for a significant period of time or prevent it from occurring at all. In addition, the terms and conditions of the required regulatory authorizations and consents for the acquisition that are granted, if any, may impose requirements, limitations or costs or place restrictions on the conduct of Chevron's business after the transaction or may materially delay the completion of the acquisition. A delay in completing the acquisition could cause Chevron to realize some or all of the benefits later than Chevron otherwise expects to realize if the acquisition is successfully completed within the anticipated timeframe.

The success of the acquisition will depend, in part, on Chevron's ability to successfully combine and integrate the business of Anadarko, and realize the anticipated benefits, including synergies, cost savings and operational efficiencies, from the acquisition. If Chevron is unable to successfully combine and integrate the business of Anadarko within the anticipated time frame, or at all, the anticipated benefits may not be fully realized.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**CHEVRON CORPORATION****ISSUER PURCHASES OF EQUITY SECURITIES**

<u>Period</u>	Total Number of Shares Purchased ⁽¹⁾⁽²⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program ⁽²⁾
Jan. 1 – Jan. 31, 2019	3,161,267	\$112.07	3,153,289	
Feb. 1 – Feb. 28, 2019	1,549,429	118.30	1,549,429	
Mar. 1 – Mar. 31, 2019	—	—	—	
Total	4,710,696	\$114.12	4,702,718	

Includes common shares repurchased from company employees and directors for personal income tax withholdings on the exercise of the stock options and (1) shares delivered or attested to in satisfaction of the exercise price by holders of employee and director stock options. The options were issued to and exercised by employees and directors under Chevron's long-term incentive plans.

(2) Refer to "Liquidity and Capital Resources" on pages 35 and 36 for additional information regarding the company's new and prior authorized stock repurchase programs.

Item 5. Other Information**Rule 10b5-1 Plan Elections**

Michael K. Wirth, Chairman of the Board and Chief Executive Officer, entered into a pre-arranged stock trading plan in February 2019. Mr. Wirth's plan provides for the potential exercise of vested stock options and the associated sale of up to 135,000 shares of Chevron common stock between May 2019 and January 2020.

R. Hewitt Pate, Vice President and General Counsel, entered into a pre-arranged stock trading plan in February 2019. Mr. Pate's plan provides for the potential exercise of vested stock options and the associated sale of up to 173,000 shares of Chevron common stock between May 2019 and May 2020.

These trading plans were entered into during an open insider trading window and are intended to satisfy Rule 10b5-1(c) under the Securities Exchange Act of 1934, as amended, and Chevron's policies regarding transactions in Chevron securities.
