(Accounting standards used by consolidated overseas subsidiaries)

Advantest's overseas sales subsidiaries had previously recognized sales upon shipment. Beginning in the second half of the previous fiscal year, sales is now recognized upon completion of installation.

Edgar Filing: ADVANTEST CORP - Form 6-K

The impact of this change on the consolidated financial statements of the previous interim period is not material.

The impact of this change on segment information is described in "Segment Information".

Business segments are organized by functional category of products.

Note 2: Unallocated corporate operating expenses included under "Elimination and corporate" were (Y)4,217 million in FY2001 interim and (Y)9,171 in FY2001. They consist primarily of expenses for basic research and costs of the administrative operations of the headquarters.

Note 3: Change of accounting policies

(FY2001 interim)

Edgar Filing: ADVANTEST CORP - Form 6-K

Allowance for doubtful accounts

As described in "Significant Accounting Policies in the Preparation of Interim Consolidated Financial Statements", the company changed its accounting policy for allowance for doubtful accounts effective from this consolidated interim period. Previously, allowance for doubtful accounts was provided for each category of receivables based on percentages set by the company for each such category of receivables. After the change, allowance for doubtful accounts for general receivables was determined using historical write-off ratio, while allowance for doubtful accounts for bad receivables was determined based on case-by-case evaluation of collectibility. The impact of this change on each of the business segments is insignificant.

Accounting for overseas consolidated subsidiaries

As described in "Additional Information", the company changed the revenue recognition standard for its overseas sales subsidiaries effective from the second half of the previous consolidated fiscal year. The impact of this change on each of the business segments is insignificant.

17

Notes to Consolidated Financial Statement

Note 1. Accounting principles, procedures and the presentation of interim consolidated financial statements

Edgar Filing: ADVANTEST CORP - Form 6-K

- (a) Terminology, form and method of preparation of the interim consolidated financial statements

Advantest prepares these interim consolidated financial statements in accordance with the accounting principles, procedures, terminology, form and mode of preparation in the U.S. required in connection with the issuance of American Depository Shares (ARB, APB, SFAS, etc.).

- (b) The preparation of interim consolidated financial statements and registration with the U.S. Securities and Exchange Commission

Advantest Corporation began listing on the New York Stock Exchange on September 17, 2001 (local time) through the issuance of American Depository Shares, and is registered with the U.S. Securities and Exchange Commission on Form 20-F (equivalent to the Annual Securities Report in Japan) for FY2001 and FY2002. In connection with the registration on Form 20-F, Advantest prepared consolidated financial statements for the fiscal years 2000, 2001 and 2002 in accordance with U.S. GAAP.

- (c) Scope of consolidation and application of the equity method

	FY2002 Interim (As of September 30, 2002)	FY2001 (As of March 31, 2002)	Increase
Domestic	22	23	
Overseas	19	18	
Consolidated subsidiaries	41	41	
Equity method affiliates	1	1	
Total	42	42	

Changes in consolidated subsidiaries:

Newly included (1): Advantest America Measuring Solutions, Inc.
 Excluded (1): Advantest Business Corporation

- (d) Significant differences from the preparation of financial statements under Japanese GAAP

Of the accounting principles, procedures and mode of presentation adopted by Advantest Corporation and its consolidated subsidiaries (collectively "Advantest"), the followings are the significant differences from the preparation of financial statements using the accounting principles, procedure and mode of presentation under Japanese GAAP:

- (i) Scope of consolidation and application of the equity method

The scope of consolidation and application of the equity method is

Edgar Filing: ADVANTEST CORP - Form 6-K

determined based on percentage of voting rights. There was no difference than if the scope were determined using the control criteria or influence criteria.

(ii) Appropriation of earnings

Earnings appropriated for officers' bonuses are accounted for under selling, general and administrative expenses.

(iii) Accounting for lease transactions

Regarding significant lease transactions, plant, property and equipment and capital lease obligations are recognized if the lease is considered a capital lease under SFAS No. 13, "Accounting for Leases".

(iv) Allowance for compensated absences

In accordance with SFAS No. 43, "Accounting for Compensated Absences", an allowance is provided for the right of employees to receive compensated absences in the future.

27

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

(v) Accrued pension and severance cost

Accrued pension and severance cost is accounted for based on SFAS No. 87, "Employers' Accounting for Pensions". The transitional difference on adoption of this standard was retroactively recognized from the effective date of SFAS No. 87 and amortized over 15 years.

(vi) Goodwill

In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets", goodwill is no longer amortized, but instead is tested for impairment before impairment is recognized.

Note 2. Significant Accounting Policies

(a) Description of business

Advantest is engaged in the design, manufacture, and sale of automated test equipment for semiconductors. Advantest has a diverse product line that meets the needs of semiconductor manufacturers, as well as assembly and test services companies worldwide, for sophisticated systems that test the operation and performance of different types of semiconductors. Advantest equips its automated test equipment with sophisticated, yet easy-to-use, operating systems and testing software. Advantest supports its products and customers through a worldwide customer service network staffed by trained technical and maintenance personnel.

Edgar Filing: ADVANTEST CORP - Form 6-K

Advantest also designs, manufactures, and sells standard and customized measuring instruments that are used by the communications, electric equipment and systems industries. These instruments are used by Advantest's customers to improve time-to-market, lower costs of manufacturing and improve the quality of their products.

The Company was incorporated on December 2, 1954 under the name of Takeda Riken Industry Co., Ltd. as a limited liability, joint-stock company in Japan under the Commercial Code of Japan. Takeda Riken Industry Co., Ltd. changed its legal name to Advantest Corporation in 1985.

(b) Cash Equivalents

Cash equivalents consist of overnight deposits and certificates of deposit with an initial term of less than three months. For purposes of the statements of cash flows, Advantest considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

(c) Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the average method.

(d) Investments in Affiliated Companies

Investments in affiliated companies owned 20% to 50%, where Advantest exercises significant influence, are accounted for on the equity method.

(e) Investment Securities

Investment securities at September 30, 2002 consist of equity securities. Advantest classifies its equity securities in one of two categories: trading or available-for-sale. Trading securities are bought and held principally for the purpose of selling them in the near term. All equity securities not included in trading are classified as available-for-sale.

Trading and available-for-sale securities are recorded at fair value. Unrealized holding gains and losses on trading securities are included in earnings. Unrealized holding gains and losses, net of the related tax effect, on available-for-sale securities are excluded from earnings and are reported as a separate component of other comprehensive income (loss) until realized. Realized gains and losses from sale of available-for-sale securities are determined on a specific-identification basis.

A decline in the fair value of any available-for-sale security below cost that is deemed to be other than temporary results in a reduction in carrying amount to fair value. The impairment is charged to earnings and a new cost basis for the security is established. Dividend income is recognized when earned.

As of September 30, 2002, all equity securities held by Advantest are classified as available-for-sale.

Edgar Filing: ADVANTEST CORP - Form 6-K

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

(f) Derivative Financial Instruments

Derivative financial instruments are accounted for under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", and SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities, an amendment of FASB Statement No. 133". SFAS No. 133, as amended, standardizes the accounting for derivative instruments, including certain derivative instruments embedded in other contracts. Under SFAS No. 133, as amended, entities are required to carry all derivative instruments in the consolidated balance sheets at fair value. The accounting for changes in the fair value (that is, gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, if so, on the reason for holding it. If certain conditions are met, entities may elect to designate a derivative instrument as a hedge of exposures to changes in fair values, cash flows, or foreign currencies. If the hedged exposure is a fair value exposure, the gain or loss on the derivative instrument is recognized in earnings in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. If the hedged exposure is a cash flow exposure, the effective portion of the gain or loss on the derivative instrument is reported initially as a component of other comprehensive income (loss) and subsequently reclassified into earnings when the forecasted transaction affects earnings. Any amounts excluded from the assessment of hedge effectiveness as well as the ineffective portion of the gain or loss are reported in earnings immediately. If the derivative instrument is not designated as a hedge, the gain or loss is recognized in earnings in the period of change.

Advantest regularly enters into foreign exchange forward contracts to manage currency exposure, resulting from changes in foreign currency exchange rates, on trade accounts receivable. However, these contracts do not qualify for hedge accounting since they do not meet the hedging criteria contained in SFAS No. 133.

Foreign exchange forward contracts generally have maturities of less than two months. These contracts are used to reduce Advantest's risk associated with exchange rate movements, as gains and losses on these contracts are intended to offset exchange losses and gains on underlying exposures. Changes in fair value of foreign exchange forward contracts are recognized in earnings under the caption of other income (expense).

Advantest does not, as a matter of policy, enter into derivative transactions for the purpose of currency speculation.

(g) Property, Plant and Equipment

Property, plant and equipment is stated at cost. Equipment under capital leases is stated at the present value of minimum lease payments.

Depreciation is computed principally using the declining-balance method except for buildings and machinery and equipment under capital leases for the Company and its domestic subsidiaries and the straight-line

Edgar Filing: ADVANTEST CORP - Form 6-K

method over estimated useful lives of the assets for foreign subsidiaries. Buildings are principally depreciated using the straight-line method over their estimated useful lives. Depreciation for machinery and equipment under capital leases is computed using the straight-line method over the lease term. The depreciation period ranges from 3 years to 50 years for buildings, 2 years to 10 years for machinery and equipment, and 2 years to 20 years for furniture and fixtures.

Depreciation expense was (Y)4,344 million during this interim period.

(h) Intangible Assets and Other Assets

Intangible assets principally consist of licenses, goodwill and computer software for internal-use, including computer software under capital leases. Other assets consist of investments, security deposits and prepaid expenses, of which no one individual item was material to the consolidated financial statements of Advantest.

Certain costs incurred to purchase or develop software for internal-use during the application development stage are capitalized. With respect to internal-use software costs, Advantest expenses costs incurred during the preliminary project stage which includes costs for making strategic decisions about the project, determining performance and system requirements, and vendor demonstration costs. Advantest also expenses costs incurred for internal-use software in the post-implementation stage such as training and maintenance costs. Costs incurred to establish the technological feasibility of software products to be sold as part of the automated test equipment are recorded as research and development costs in the consolidated statements of income. Costs incurred subsequent to establishing technological

29

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

feasibility with respect to such software have also been expensed by Advantest as such costs have been insignificant.

The cost of software is amortized straight-line over the estimated useful life, which is generally five years. The cost of computer software under capital leases is amortized straight-line over the lease term. Amortization expense was (Y)1,179 million during this interim period.

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets". SFAS No. 141 required the use of the purchase method of accounting for business combinations and established certain criteria for the recognition of intangible assets separately from goodwill. Under SFAS No. 142 goodwill is no longer amortized, but instead is tested for impairment at least annually. Intangible assets are amortized over their respective estimated useful lives and reviewed for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". Any recognized intangible

Edgar Filing: ADVANTEST CORP - Form 6-K

assets determined to have an indefinite useful life will not be amortized, but instead is tested for impairment until its life is determined to be no longer indefinite.

SFAS No. 141 requires Advantest to evaluate its existing intangible assets and goodwill and to make any necessary reclassifications in order to conform to the new separation requirements at the date of adoption. Upon adoption of SFAS No. 142, Advantest is required to reassess the useful lives and residual values of all intangible assets and make any necessary amortization period adjustments by June 30, 2002. In connection with the transitional impairment evaluation, SFAS No. 142 will require Advantest to perform an assessment of whether there is an indication that goodwill is impaired as of April 1, 2002. To accomplish this, Advantest must (1) identify its reporting units, (2) determine the carrying amount of each reporting units by assigning the assets and liabilities, including the existing goodwill and intangible assets to those reporting units, and (3) determine the fair value of each reporting unit. Advantest has completed the first step of this transitional assessment by September 30, 2002. In the event that the carrying amount of such reporting unit exceeded fair value, Advantest would be required to proceed to the second step to measure the implied fair value of goodwill. However, no material impairment of goodwill was detected at the first step. Advantest does not expect the adoption of SFAS No. 141 and No. 142 to have a material impact on its consolidated financial statements.

(i) Revenue Recognition

Automated test equipment -----

Revenue from sales of automated test equipment which require installation work is recognized when the related installation work is completed and the equipment is accepted by the customer. Revenue from sales of parts for automated test equipment such as backup boards, which do not require installation work by Advantest, is recognized upon shipment if the terms of the sale are free on board ("FOB") shipping point or upon delivery if the terms are FOB destination.

Measuring instruments -----

Revenue from sales of measuring instruments which do not require installation work by Advantest is recognized upon shipment if the terms of the sale are FOB shipping point and upon delivery if the terms are FOB destination. Revenue from sales of measuring instruments which require installation work is recognized when the related installation work is completed and the instrument is accepted by the customer. Advantest utilizes distributors to market certain of its measuring instruments which do not require installation work. Advantest recognizes revenues from sales of measuring instruments to distributors upon shipment or delivery of instruments to the distributors.

Service fee -----

Revenue from fixed-price, long-term service contracts is recognized on the straight-line basis over the contract term.

Operating lease -----

Edgar Filing: ADVANTEST CORP - Form 6-K

Revenue from operating leases is recognized mainly on the straight-line basis over the lease term.

(j) Shipping and Handling Costs

Shipping and handling costs totaled (Y)398 million during this interim period, and are included in selling, general and administrative expenses in the consolidated statements of income.

30

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

(k) Accrued Warranty Expenses

Advantest's products are generally subject to warranty, and Advantest provides an allowance for such estimated costs when product revenue is recognized. To prepare for future repairs during warranty periods, estimated repair expenses over the warranty period are accrued based on the historical ratio of actual repair expenses to corresponding sales.

(l) Research and Development

Research and development costs are expensed as incurred.

(m) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(n) Stock-Based Compensation

Advantest applies the intrinsic value-based method of accounting prescribed by APB Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations, in accounting for its stock-based compensation plans. As such, compensation expense would be recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price.

(o) Accrued Pension and Severance Cost

The Company and certain of its subsidiaries have retirement and severance defined benefit plans covering substantially all of their employees. The benefits are based on years of service and the employee's compensation and vest after one year of service. Prior service cost that results from amendments to the plan is amortized over the average remaining service period of the employees expected to receive benefits. Unrecognized net gain and loss is amortized over the

Edgar Filing: ADVANTEST CORP - Form 6-K

average remaining service life of employees expected to receive benefits.

(p) Use of Estimates

Management of Advantest has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

(q) Impairment of Long-Lived Assets and Long-Lived Assets to Be Disposed Of

Advantest accounts for long-lived assets in accordance with the provisions of SFAS No. 144. SFAS No. 144 requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(r) Interim net Income (Loss) per Share

Interim basic net income (loss) per share is calculated by dividing interim net income (loss) by the weighted average number of shares outstanding during the interim period. Interim diluted net income per share is calculated by dividing interim net income by the sum of the weighted average number of shares plus additional shares that would have been outstanding if potential dilutive shares had been issued for granted stock options and warrants.

(s) Segment Information

Advantest discloses information regarding segments in accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information". SFAS No. 131 establishes standards for

31

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

reporting of financial information about operating segments in annual financial statements. In addition, Advantest also discloses geographic segment information regarding the net sales and operating income (loss) of the company and its subsidiaries in consideration of the disclosure requirements under the Securities Exchange Law of Japan.

(t) Translation of Foreign Financial Statements

Foreign currency financial statements have been translated in

Edgar Filing: ADVANTEST CORP - Form 6-K

accordance with SFAS No. 52, "Foreign Currency Translation". Under SFAS No. 52, the balance sheet accounts of non-Japanese subsidiaries, which are denominated in currencies other than the Japanese yen, are translated at rates of exchange prevailing at end of period. Revenue and expense accounts are translated at average rates of exchange in effect during the period. Resulting translation adjustments are included as a separate component of other comprehensive income (loss).

(u) Foreign Currency Transactions

Assets and liabilities denominated in foreign currencies are translated at the applicable current rates on the balance sheet date. All revenue and expenses associated with foreign currencies are converted at the rates of exchange prevailing when such transactions occur. The resulting exchange gains or losses are reflected in other income (expense) in the accompanying consolidated statements of income.

(v) New Accounting Standards

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations". SFAS No. 143 applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and (or) the normal operation of a long-lived assets, except for certain obligations of lessees. SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and subsequently allocated to expense over the asset's useful life. Advantest is required to adopt the provisions of SFAS No. 143 on April 1, 2003. Currently, the effect on Advantest's consolidated financial statements of adopting SFAS No. 143 has not been determined.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities". SFAS No. 146 addresses financial accounting and reporting associated with exit or disposal activities and nullifies Emerging Issues Task Force Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". The principal difference between SFAS No. 146 and EITF Issue 94-3 relates to the recognition of liability for costs associated with an exit or disposal activity. SFAS No. 146 requires a liability be recognized only when its falls within the definition of liability under the basic principles of the FASB. In addition, SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized and measured at fair value. Advantest is required to adopt the provisions of SFAS No. 146 for exit or disposal activities initiated after January 1, 2003. Currently, the effect on Advantest's consolidated financial statements of adopting SFAS No. 146 has not been determined.

Note 3. Property, Plant and Equipment

Property, plant and equipment is composed of the following:

	Yen (Millions)

	September 30, 2002

Land	18,480

Edgar Filing: ADVANTEST CORP - Form 6-K

Buildings	50,882
Machinery and equipment	25,757
Furniture and fixtures	27,308
Construction in progress	1,097

	123,524
Less accumulated depreciation	(65,774)

	57,750

Note 4. Investment Securities

32

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

Marketable securities consist of equity securities with an aggregate fair value of (Y)1,939 million, gross unrealized gains, which are determined based on the specific-identification method, of (Y)298 million, gross unrealized losses of (Y)265 million, and acquisition cost of (Y)1,906 million as of September 30, 2002. Gross realized losses were (Y)148 million for the interim period.

Advantest maintains long-term investment securities, included in marketable securities and other investments, issued by nonpublic companies, which are recorded at cost. In addition, the fair values of such securities were not readily determinable.

Note 5. Derivative Financial Instruments

Derivative financial instruments are utilized by Advantest primarily to reduce foreign currency exchange risk. Advantest does not hold or issue financial instruments for trading purposes. Advantest generally does not require or place collateral for these financial instruments.

Derivative financial instruments contain an element of risk in the event the counterparties are unable to meet the terms of the agreements. However, Advantest minimizes risk exposure by limiting the counterparties to major international banks and financial institutions meeting established credit guidelines. Management of Advantest does not expect any counterparty to default on its obligations and, therefore, does not expect to incur any losses due to counterparty default on its obligations.

At September 30, 2002, Advantest had foreign exchange forward contracts to receive Japanese yen for U.S. dollars. The notional amounts of these contracts were (Y)714 million at September 30, 2002. The fair values of these contracts at September 30, 2002 are shown in note 6 to the consolidated financial statements. These contracts do not qualify for hedge accounting since they do not meet the hedging criteria contained in SFAS No. 133. Changes in the fair values are recognized in earnings under the caption of other income (expense).

Note 6. Fair Value of Financial Instruments

The following table presents the carrying amounts and estimated fair

Edgar Filing: ADVANTEST CORP - Form 6-K

values of Advantest's financial instruments at September 30, 2002. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties.

	Yen (Millions)	
	September 30, 2002	
	Carrying Amount	Fair Value
	-----	-----
Financial assets:		
Investment securities for which it is:		
Practicable to estimate fair value	1,939	1,939
Not practicable to estimate fair value	5,347	5,347
Financial liabilities:		
Foreign exchange forward contracts	20	20
Long-term debt including current installments	26,890	27,532

The carrying amounts shown in the table are included in the consolidated balance sheets under the indicated captions.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and cash equivalents, trade accounts receivable, other current assets, trade accounts payable, and accrued expenses (nonderivatives): The carrying amounts approximate fair value because of the short maturity of these instruments.

Investment securities: The fair values of equity investments are based on quoted market prices at the reporting date for those investments. It was not practicable to estimate the fair value of nonpublic companies; those investments are carried at their original cost.

33

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

Long-term debt: The fair value of Advantest's long-term debt is estimated by discounting the future cash flows of each instrument at rates currently offered to Advantest for similar debt instruments of comparable maturities by financial institutions.

Note 7. Leases - Lessor

Advantest provides leases that enable its customers to acquire automated test equipment. All leases are classified as operating leases. Lease terms range from 1 year to 5 years, and certain of the lease agreements are cancelable. The gross amount of machinery and equipment and the related accumulated depreciation on operating leases as of September 30, 2002 were as follows:

Edgar Filing: ADVANTEST CORP - Form 6-K

	Yen (Millions)
	----- September 30, 2002 -----
Machinery and equipment	6,851
Less accumulated depreciation	(2,370)
	----- 4,481 -----

Future minimum rental income from equipment on noncancelable operating leases as of September 30, 2002 is as follows:

1 year ending September 30,	Yen (Millions)
-----	-----
2003	1,120
2004	415
2005	79
2006	6
2007	1
Total future minimum rental income	1,621

Note 8. Leases - Lessee

Advantest has several noncancelable operating leases, primarily for computer and office equipment that expire over the next 6 years. Rent expense, including rental payments for cancelable leases, for the interim period was (Y)790 million.

Future minimum lease payments under noncancelable operating leases (with initial or remaining lease terms in excess of one year) as of September 30, 2002 are as follows:

1 year ending September 30,	Yen (Millions)
-----	-----
2003	387
2004	305
2005	281
2006	251
2007	243
Later years	54
Total minimum lease payments	----- 1,521 -----

Note 9. Assets Pledged as Collateral and Secured Liabilities

As of September 30, 2002, property, plant and equipment in the carrying amount of (Y)421 million was pledged as collateral for certain debt obligations in the amount of (Y)60 million.

Edgar Filing: ADVANTEST CORP - Form 6-K

in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

Note 10. Other Comprehensive Income (Loss)

The accumulated balances for each classification of other comprehensive income (loss) are as follows:

	Yen (Millions)		
	Foreign currency translation adjustments	Net unrealized gains on securities	Accu comp inco
Balance at March 31, 2002	(1,196)	12	
Change during the interim period	(2,667)	(109)	
Reclassification adjustments for realized portion	-	72	
	(2,677)	(37)	
Balance at September 30, 2002	(3,873)	(25)	

The related tax effects allocated to each component of other comprehensive income (loss) are as follows:

	Yen (Millions)		
	Before-tax amount	Tax (expense) of benefit	Ne
FY2002 Interim:			
Foreign currency translation adjustments	(2,677)	-	
Net unrealized gains on securities			
Net unrealized gains arising during the interim period	(179)	70	
Less reclassification adjustments for net gains realized in earnings	123	(51)	
Net unrealized gains	(56)	19	
Other comprehensive income (loss)	(2,733)	19	

Edgar Filing: ADVANTEST CORP - Form 6-K

(All financial information for FY2002 interim was prepared in accordance with U.S. GAAP; however, financial information for FY2001 interim and FY2002 was prepared in accordance with Japanese GAAP.)

Note 11. Segment Information

(Operating Segment Information)

In accordance with SFAS No. 131, Advantest has two operating and reportable segments, which are the design, manufacturing, and marketing of automated test equipment and measuring instruments. These operating segments are determined based on the nature of the products and the markets. Automated test equipment is used to confirm that a semiconductor functions properly during the semiconductor manufacturing process at sites of manufactures of semiconductor or test houses. Automated test equipment consists of semiconductor test systems, test handlers or probers, semiconductor device interfaces and software. Test handlers or probers, semiconductor device interfaces and software are always with or incorporated in automated test equipment. Measuring instruments are used primarily by manufacturers of equipment and components and service providers of the fiberoptic communications industry, the wireless communications industry and the electronics industry. Fundamental research and development activities and headquarters functions are represented by Corporate.

	Yen (Millions)		
	Automated test equipment	Measuring instruments	Corporate
FY2002 Interim			
Net sales to unaffiliated customers	35,124	5,989	-
Operating income (loss)	(256)	(3,075)	(3,624)

(Notes) 1. Operating segments are organized by functional category of products

2. Main products of each segment:

Operating segment	Main products
Automated test equipment	SoC test systems, DFT test systems, memory test systems, flash memory test systems, RFIC test systems, image sensor test systems, LCD driver test systems, dynamic test handlers, device interface units, electronic beam lithography equipment.
	Digital multimeters, digital thermometers, voltage/current
